PREFACE

The Iowa Administrative Bulletin is published biweekly pursuant to Iowa Code chapters 2B and 17A and contains Notices of Intended Action and rules adopted by state agencies.

It also contains Proclamations and Executive Orders of the Governor which are general and permanent in nature; Regulatory Analyses; effective date delays and objections filed by the Administrative Rules Review Committee; Agenda for monthly Administrative Rules Review Committee meetings; and other materials deemed fitting and proper by the Administrative Rules Review Committee.

The Bulletin may also contain public funds interest rates [12C.6]; usury rates [535.2(3)“a”]; agricultural credit corporation maximum loan rates [535.12]; and other items required by statute to be published in the Bulletin.

PLEASE NOTE: Underscore indicates new material added to existing rules; ~~strike through~~ indicates deleted material.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

This proposed chapter includes definitions that will help licensees and the general public better understand the remaining chapters of [193A].

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees, future licensees, and the general public are impacted by this proposed chapter because it provides them with the definitions needed to better understand the remaining chapters of [193A].
 - Classes of persons that will benefit from the proposed rulemaking:

Licensees, future licensees, and the general public will benefit from the definitions included in this chapter.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because this chapter is comprised of definitions only, there is no economic impact of this chapter. The 7,571 Certified Public Accountant (CPA)/Licensed Public Accountant (LPA) licensees, plus 3.2 million Iowans, are positively impacted by the definitions in Chapter 1 because it helps establish a shared understanding of terms that might otherwise be left open to interpretation. No new fees are being imposed, so the economic impact is negligible or nonexistent.

- Qualitative description of impact:

The proposed revisions will make the rules and requirements for professional licensing easier to understand. Iowans are protected by the laws of professional licensing through responsible regulations. The Accountancy Examining Board ensures minimum standards for licensing and resolves complaints against licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The only costs will be regular staff costs to the state agency, incurred by occasionally directing inquiries to Chapter 1.

- Anticipated effect on state revenues:

This chapter does not have a significant impact on state revenues. Staff salaries and per diems to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Since no fees are included in Chapter 1, the costs and benefits of the rulemaking and the costs and benefits of inaction are essentially the same.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There were no less costly methods considered, due to the fact that Chapter 1 is informational only.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board. The Board felt that definitions of professional terms were necessary to offer interested parties a better understanding of the language used in the remaining chapters. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Chapter 1 has played an important role in providing a better understanding of the profession to licensees and the public. The Board believes that removing any definitions could confuse stakeholders.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses Certified Public Accountant and Licensed Public Accountant firms, some of which are small businesses. The substantial impact on licensed small businesses from this chapter is in the form of providing helpful information to licensed small business owners in an effort to help them maintain compliance with Iowa’s law.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 1 and adopt the following **new** chapter in lieu thereof:

CHAPTER 1
DEFINITIONS

193A—1.1(542) Definitions. The following definitions apply to the rules of the board of accountancy.

“*Act*” means the Accountancy Act of 2001 as amended by 2008 Iowa Acts, chapter 1106.

“*AICPA*” means the American Institute of Certified Public Accountants.

“*AICPA Code of Professional Conduct*” means the AICPA code of professional conduct as amended through January 1, 2024.

“*Attest*” or “*attest service*” means the same as defined in Iowa Code section 542.3(1).

“*Attest engagement team*” means the team of individuals participating in attest service, including those who perform concurring and second partner reviews. The “attest engagement team” includes all employees and contractors retained by the firm who participate in attest service, irrespective of their functional classification.

“*Audit*” means the procedures performed in accordance with applicable auditing standards for the purpose of expressing or disclaiming an opinion on the fairness with which the historical financial or other information is presented in conformity with generally accepted accounting principles, another comprehensive basis of accounting, or basis of accounting described in the report.

“*Board*” means the same as defined in Iowa Code section 542.3(2).

“*Certificate*” means the same as defined in Iowa Code section 542.3(3).

“*Client*” means the same as defined in Iowa Code section 542.3(6).

“*Commission*” means the same as defined in Iowa Code section 542.3(7) and includes any form of compensation in a fixed or variable amount or percentage received for selling, recommending or referring any product or service of another, including a referral fee.

“*Compensation*” means anything of value received by a CPA or LPA while practicing public accounting for selling, recommending or referring a product or service of another.

“*Compilation*” means the same as defined in Iowa Code section 542.3(8).

“*Contingent fee*” means the same as defined in Iowa Code section 542.3(9).

“*Certified public accountant*” or “*CPA*” means the same as defined in Iowa Code section 542.3(4).

“*Examination of prospective financial information*” means an evaluation by a CPA of a forecast or projection, the support underlying the assumptions in the forecast or projection, whether the presentation of the forecast or projection is in conformity with AICPA presentation guidelines, and whether the assumptions in the forecast or projection provide a reasonable basis for the projection or forecast.

“*FASB*” means the Financial Accounting Standards Board.

“*Financial statement*” means a presentation of financial data, including accompanying notes derived from accounting records and intended to communicate an entity’s economic resources or obligations at a point in time or the changes therein for a period of time in conformity with a comprehensive basis of accounting, but does not include incidental financial data included in management advisory services reports to support recommendations to a client, nor does it include tax returns and supporting documents.

“*Firm*” means a sole proprietorship, partnership, corporation, professional corporation, professional limited liability company, limited liability partnership or any other form of organization issued a permit to practice as a firm under Iowa Code section 542.7 or 542.8 or the office of the auditor of state, state of Iowa, when the auditor of state is a certified public accountant.

“*Forecast*” means prospective financial statements that present, to the best of the responsible party’s knowledge and belief, an entity’s expected financial position, results of operations, and changes in financial position or cash flows that are based on the responsible party’s assumptions reflecting conditions it expects to exist and the course of action it expects to take.

“*GASB*” means the Governmental Accounting Standards Board.

“*Home office*” means the same as defined in Iowa Code section 542.3(10).

“*IASB*” means International Accounting Standards Board.

“*IFRS*” means International Financial Reporting Standards.

“*IRS*” means the Internal Revenue Service, United States Department of the Treasury.

“*License*” means the same as defined in Iowa Code section 542.3(11).

“*Licensed public accountant*” or “*LPA*” means the same as defined in Iowa Code section 542.3(12).

“*Licensed public accounting firm*” means the same as defined in Iowa Code section 542.3(13).

“*Licensee*” means the same as defined in Iowa Code section 542.3(14).

“*Managing partner,*” “*managing shareholder,*” or “*managing member*” means the designated individual with ultimate responsibility for the operation of a firm’s practice.

“*NASBA*” means the same as defined in Iowa Code section 542.3(17).

“*NSA*” means the National Society of Accountants.

“*Office*” means the same as defined in Iowa Code section 542.3(18).

“*Owner*” means any person who has equity ownership interest in a CPA or LPA firm.

“*PCAOB*” means Public Company Accounting Oversight Board created by the Sarbanes-Oxley Act of 2002.

“*Peer review,*” as used in Chapters 11 and 12 of these rules, means the same as defined in Iowa Code section 542.3(19).

“*Person,*” unless the context indicates otherwise, means individuals, sole proprietorships, partnerships, corporations, limited liability companies, limited liability partnerships or other forms of entities.

“*Person associated with a CPA or LPA*” means any owner, partner, shareholder, member, employee, assistant, or independent contractor of a CPA or LPA firm.

“*Practice of public accounting*” means the same as defined in Iowa Code section 542.3(24).

“*Practice privilege*” means the same as defined in Iowa Code section 542.3(25).

“*Principal place of business*” means the same as defined in Iowa Code section 542.3(26).

“*Projection*” means prospective financial statements that present, to the best of the responsible party’s knowledge and belief given one or more hypothetical assumptions, an entity’s expected financial position, results of operations, and changes in financial position or cash flows that are based on the responsible party’s assumptions reflecting conditions it expects would exist and the course of action it expects would be taken given such hypothetical assumptions.

“*Report*” means the same as defined in Iowa Code section 542.3(27).

“*Respondent*” means any person against whom a formal statement of charges has been filed.

“*Review*” means the same as Iowa Code section 542.3(1) “a”(2).

“*SAS*” means statements on auditing standards.

“*SEC*” means the United States Securities and Exchange Commission.

“*SSARS*” means the statements on standards for accounting and review services.

“*State*” means the same as defined in Iowa Code section 542.3(28).

“*Substantial equivalency*” means the same as defined in Iowa Code section 542.3(29).

“*Year*,” when used in the context as a time measurement of experience in accounting work, means a period of 365 days.

This rule is intended to implement Iowa Code chapter 542.

Purpose and Summary

The purpose of proposed Chapter 2 is to inform Iowans of the structure and functionality of the Accountancy Examining Board, which benefits the public by providing helpful information on how the Board carries out its mission.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The Department bears the cost of board meetings, in the way of \$50 per diem per Board member, per meeting, plus travel expenses as needed. Travel expenses in 2022 were approximately \$500. Staff

salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit is to inform the licensees and the public on the structure and functionality of the Board.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are no costs to the public. The expenses of the Board, per diems and travel reimbursement, are paid by the Department, which is funded by licensing fees. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Iowans are protected by the laws of professional licensing. The Board ensures minimum standards for licensing and resolves complaints against licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Board are staff time needed to manage Board activities, and to pay the Board members \$50 per diem per board member per meeting, and reimburse travel expenses. Travel reimbursements for Board meetings in 2022 were approximately \$500.

- Anticipated effect on state revenues:

There is not a significant impact to state revenues by this chapter. Staff salaries are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating the Board would have an unnoticeable impact on state revenues. The Board believes all current requirements ensure public safety and ensure a minimum competency which serves to protect Iowans.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would dilute the protection of the public. Reducing the nominal pay to the Board or reducing/eliminating travel expense reimbursement may serve to also reduce the interest of individuals to sit on the licensing board.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board. These rules offer the public helpful information regarding the structure of the Board. While the Board is not inclined at this time to make changes, it will consider evidence for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensing and regulation are required by Iowa Code chapter 542. The rules support the law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses Certified Public Accountant (CPA) and Licensed Public Accountant (LPA) firms, many of which are small businesses. The rules for CPA and LPA firms are covered in other chapters. The rules in Chapter 2 are informative only.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 2 and adopt the following new chapter in lieu thereof:

CHAPTER 2
ORGANIZATION AND ADMINISTRATION

193A—2.1(542) Description.

2.1(1) The accountancy examining board administers and enforces the provisions of Iowa Code chapter 542 with regard to the practice of accountancy in the state.

2.1(2) The primary mission of the board is to protect the public interest.

193A—2.2(542) Advisory committees. The board chair may appoint advisory committees composed of board members to make recommendations on matters within the board's jurisdiction.

193A—2.3(542) Annual meeting. At the first board meeting scheduled after April 30 of each year (the annual meeting), the board will elect a chair and vice-chair to serve until their successors are elected.

193A—2.4(542) Other meetings. Other meetings throughout the year may be established by the chairperson, by board resolution, or by a request of a majority of board members.

193A—2.5(542) Board administrator's duties. The board administrator's duties include the following:

2.5(1) Ensuring that complete records are kept of all applications for examination and registration; all certificates, licenses and permits granted; and all necessary information in regard thereto. The board administrator is the lawful custodian of the board records.

2.5(2) Determining when the preconditions for licensure have been satisfied with regard to issuance of certificates, licenses or registrations.

2.5(3) Submitting to the board any questionable application.

2.5(4) Keeping accurate minutes of board meetings.

2.5(5) Keeping a list of persons issued certificates as certified public accountants, persons issued licenses as licensed public accountants, and all firms issued permits to practice.

2.5(6) Performing such additional administrative duties as assigned.

193A—2.6(542) Disclosure of confidential information.

2.6(1) Persons who take the examination may consent to the publication of their names on a list of passing candidates.

2.6(2) Information relating to the examination results, including the specific grades by subject matter, may only be given to the person who took the examination, except that the board may:

a. Disclose the specific grades by subject matter to the regulatory authority of any other state or foreign country in connection with the candidate's application for a reciprocal certificate or license from the other state or foreign country, but only if requested by the applicant.

b. Disclose the specific grades by subject matter to educational institutions, professional organizations, or others, provided the names of the persons taking the examination are not provided in conjunction with the scores.

193A—2.7(17A,21,22,272C,542) Uniform rules. Administrative and procedural rules can be found in rules of the professional licensing and regulation bureau[193].

These rules are intended to implement Iowa Code chapters 17A, 21, 22, 272C and 542.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193A—Chapter 3
“Certification of CPAs”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542.4(9)
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
3:40 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

This proposed chapter provides useful information to future licensees on the education, examination, and experience requirements to acquire an Iowa Certified Public Accountant (CPA) license. It also serves to inform Iowans of the background of the individuals with whom they may be doing business.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the public. Future licensees are impacted by this chapter because they incur the costs of a college education, plus the costs of examinations. Experience for the license is generally through paid positions.

- Classes of persons that will benefit from the proposed rulemaking:

Future licensees will be the primary beneficiaries of the information in Chapter 3. The general public will also benefit from knowing the criteria to become a CPA. These rules ensure a standardized baseline for education, offering protection to the public who utilizes CPA services, since CPAs deal with sensitive, critical information for businesses and individuals.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Individuals seeking a license are required to have a college degree. The average cost of a college education is \$36,500 per year. The cost of the examination, required of all CPAs, is \$480 and is paid to a private entity. The cost of the license is \$100. Experience for the license is generally acquired in paid positions.

- Qualitative description of impact:

The primary impact of this rulemaking is to the Iowans who utilize CPA services and are protected by the rules relating to becoming a CPA. There is an additional impact on potential licensees, who may take into account these rules when deciding a career path. The education and examination standards for a license as a CPA are consistent with 54 other jurisdictions, including all 50 U.S. states.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review applications to ensure compliance with the rules in Chapter 3 and needed to manage Accountancy Examining Board activities. An executive officer supports the full scope of work of this Board at approximately 0.31 full-time equivalent (FTE) position, which includes answering questions from the public and licensees relating to practice standards, continuing education, Board meeting administration, and more. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs of the necessary education to comply with the rulemaking are paid to the schools. Costs of the examination are paid to the examination administrator. This rulemaking does not have an anticipated impact on state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes elimination of the level of education and comprehensive nature of the examinations would greatly reduce the level of knowledge and expertise of licensed accountants in Iowa. Maintaining these standards also serves to maintain the highest level of protection of Iowans. If the examination requirements were removed, there would be a loss of revenue to examination administrators who provide the CPA examinations outlined in the rules.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives, including changing the education/examination requirements, would eliminate Iowa's "substantial equivalency" status with 54 other jurisdictions across the country and beyond. As a result, Iowa licensed accountants would not be allowed to easily practice in other jurisdictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
Staff held conversations with members of the Board regarding the agency's rules, but no alternatives were recommended because Iowa's criteria for licensure is in line with all jurisdictions across the country. The Board believes that a national standard is beneficial.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The Board believes that maintaining the nationally adopted standards for licensing accountants is critical to continuing to protect Iowans. It is also beneficial to licensees to practice in multiple states. Alternatives may result in an increase in the numbers of complaints and investigations. The current provisions for licensure are required by law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

CPAs can work in a variety of settings, including large and small accounting firms and in-house firm environments within businesses. The rules regarding CPA and Licensed Public Accountant firms are covered in other chapters.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3 CERTIFICATION OF CPAs

193A—3.1(542) Qualifications for a certificate as a certified public accountant.

3.1(1) A person who meets the qualifications of Iowa Code section 542.5 and this chapter and applies pursuant to Iowa Code section 542.6 may be granted a certificate as a certified public accountant.

3.1(2) An application may be denied if the applicant is in violation of any of the requirements of Iowa Code chapter 542, prior enforcement proceedings under 193A—Chapter 17, or Iowa Code section 272C.15.

193A—3.2(542) Colleges or universities recognized by the board. Pursuant to Iowa Code section 542.5(7), the board recognizes educational institutions accredited by the Association to Advance Collegiate Schools of Business and the regional accrediting bodies listed by the Accredited Institutions of Postsecondary Education.

This rule is intended to implement Iowa Code section 542.5.

193A—3.3(542) Accounting concentration.

3.3(1) A candidate will be deemed to have met the educational requirement if, as part of the 150 semester hours of education as outlined in Iowa Code section 542.5, the candidate has met one of the following four conditions:

a. Earned a graduate degree with a concentration in accounting from a program that is accredited in accounting by an accrediting agency recognized by the board.

b. Earned a graduate degree in business from a program that is accredited in business by an accrediting agency recognized by the board and completed at least 24 semester hours in accounting including courses covering the subjects of financial accounting, auditing, taxation, and management accounting. Such accounting hours exclude elementary accounting or principles of accounting, internships or life experience.

c. Earned a baccalaureate degree in business or accounting from a program that is accredited in business by an accrediting agency recognized by the board and completed at least 24 semester hours in accounting courses covering the subjects of financial accounting, auditing, taxation, and management accounting. Such accounting hours exclude elementary accounting or principles of accounting, internships or life experience.

d. Earned a baccalaureate or higher degree and completed the following hours from an accredited institution recognized by the board:

(1) At least 24 semester hours in accounting courses above elementary accounting or principles of accounting covering the subjects of financial accounting, auditing, taxation, and management accounting, not including internships or life experience; and

(2) At least 24 additional semester hours in business-related courses, not including internships or life experience. Elementary accounting hours that do not qualify under subparagraph 3.3(1)“d”(1) above may apply toward business-related courses.

Quarter hours will be accepted in lieu of semester hours at a 3:2 ratio; that is, three quarter hours is equivalent to two semester hours. Internships and life experience hours may apply toward the total 150 hours' requirement.

3.3(2) The board will consider correspondence study and study in other schools not meeting the above requirements on an individual basis if the candidate can provide evidence that such study would be acceptable for credit by a college or university recognized by the board; provided, however, that at least 18 of the required hours in accounting and at least 16 of the required hours in business-related subjects are obtained from a college or university recognized by the board.

3.3(3) The applicant needs an official transcript of credit issued by a recognized institution sent by the institution to the board's test administrator at the time of application to confirm the college or university credits claimed.

3.3(4) Graduates of foreign colleges or universities will have their education evaluated by a foreign credentials evaluation advisory service specified by the board.

193A—3.4(542) Examination applications.

3.4(1) An individual desiring to take the certified public accountant examination as an initial candidate should apply to the board's test administrator. Only a complete application will be considered. A complete application includes a completed application form, the designated fee, and all applicable college transcripts.

3.4(2) To be eligible to apply for the examination a candidate needs to fulfill the requirements of rule 193A—3.3(542). A candidate may apply for the examination before the educational requirements are met as per Iowa Code section 542.5(9).

3.4(3) A candidate whose application is denied under subrule 3.1(2) may be denied admittance to the examination by the board.

3.4(4) A candidate may be considered as a reexamination applicant regardless of whether or not the candidate sat for the examination once initially approved. Reexamination applicants may apply to the board's test administrator.

3.4(5) A nonrefundable proctoring fee will be collected from a candidate who wishes to be proctored in Iowa.

193A—3.5(542) Content and grading of the examination.

3.5(1) The board may use the Uniform Certified Public Accountant Examination prepared by the American Institute of Certified Public Accountants or another nationally recognized organization under a plan of cooperation with the boards of all states and territories of the United States.

3.5(2) The board may also make use of the advisory grading service provided by the American Institute of Certified Public Accountants or another nationally recognized organization under a plan of cooperation with the boards of all states and territories of the United States.

193A—3.6(542) Conditional requirements.

3.6(1) Effective with the implementation of the computer-based examination, a candidate may take the test subjects individually and in any order. Except as provided in rule 193A—3.7(542), credit for any subjects passed will be valid for 30 months from the actual date initial credit is earned, without the candidate's having to attain a minimum score on any failed subject(s) and without regard to whether the candidate sat for any other subjects. The candidate needs to pass all four subjects of the examination within a rolling 30-month period that begins on the date initial credit is earned, which is calculated on the date the examination administrator provides scores to the boards, the candidate, or both. If all four subjects are not passed within the 30-month period, credit for any subject taken outside the 30-month period will expire.

3.6(2) A candidate will be deemed to have passed the examination once the candidate holds, at the same time, valid credit for passing each of the four subjects of the examination. For purposes of this rule, credit for passing a subject of the examination is valid from the actual date of the testing event for that subject, regardless of the date the candidate actually received notice of the passing score.

This rule is intended to implement Iowa Code section 542.5.

193A—3.7(542) Extension of conditional status.

3.7(1) The time limit within which a candidate needs to pass all subjects under these rules will not include any period during which the candidate was serving in the armed forces of the United States. This exception does not apply if the candidate takes an examination while so serving. The board may extend the time limit in particular instances on a case-by-case basis.

3.7(2) The time limit within which a candidate needs to pass all subjects under these rules may be extended for hardship cases, such as when the applicant for the examination is prevented from attending for such reasons as unexpected illness, verified by a medical doctor, or a death in the family, verified in writing.

3.7(3) The time limit within which a candidate needs to pass all subjects under these rules may be extended if circumstances occur which prevent the score from an examination from reaching the candidate in a reasonable period of time. Such circumstances would allow the candidate the opportunity to retake a failed subject.

193A—3.8(542) Transfer of credit from another jurisdiction. A candidate requesting transfer of grades from any other jurisdiction will be subject to the same provisions of these rules as an Iowa candidate, provided that the examination given by the licensing authority in the other state was an examination approved by the Iowa board.

193A—3.9(542) Examination procedures. At the examination, a candidate needs to provide evidence of identification and comply with the requirements of the examination administrator.

193A—3.10(542) Conduct of the examination.

3.10(1) Any individual who subverts or attempts to subvert the examination process may, at the discretion of the board, have the individual's examination scores declared invalid for the purpose of certification in Iowa, be barred from accountancy licensing and certification examinations in Iowa, or be subject to the imposition of other sanctions the board deems appropriate.

3.10(2) Individuals are subject to the conduct rules and regulations of the examination administrator.

3.10(3) Any examination candidate who wishes to appeal a decision of the board under this rule may request a contested case hearing. The request for hearing needs to be in writing, briefly describe the basis for the appeal, and be filed in the board's office within 30 days of the date of the board decision being appealed. Any hearing requested under this subrule will be governed by the rules applicable to contested case hearings under 193—Chapter 7.

193A—3.11(542) Refunding of examination fees. Examination fees will not be refunded except in hardship cases, such as when the candidate for the examination is prevented from attending for such reasons as unexpected illness, verified by a medical doctor, a death in the family, or a call to active military service, in which case 50 percent of the fee may be returned. Written documentation including evidence of the hardship will be provided to the board's test administrator.

193A—3.12(542) Experience for certificate.

3.12(1) One year of experience will consist of full- or part-time employment that extends over a period of no less than one year and no more than three years and includes no fewer than 2,000 hours of performance of services outlined in Iowa Code section 542.5(12). Experience may be gained in more than one employment situation, including an internship.

3.12(2) An applicant seeking qualification as an attest CPA will have at a minimum two years of experience as more fully described in 193A—subrule 6.3(1).

3.12(3) All experience will be verified by a licensee with direct supervisory control over the applicant or by a licensee who can attest that the experience gained by the applicant meets the requirements of Iowa Code section 542.5(12) if the applicant is not supervised by a licensee.

3.12(4) Teaching experience will be in the employment of an institution of higher education and will include teaching a minimum of 24 semester hours of accounting courses for which the course participants receive credit on an official transcript. Teaching of noncredit continuing education courses will not qualify under this rule.

193A—3.13(542) Ethics course and examination. A successful candidate will need to pass an examination covering the code of ethical conduct prior to issuance of the certificate.

193A—3.14(542) Obtaining the certificate.

3.14(1) A candidate who successfully passes the examination, completes the ethics course and examination and meets the obligations of rule 193A—3.1(542) needs to apply for the certificate on the board's website. An applicant for a certificate may be denied the certificate for reasons outlined in subrule 3.4(3) regardless of when the incident occurred.

3.14(2) If the candidate does not file an application for a certificate within three years of passing the examination, the candidate needs to comply with the basic continuing education obligations outlined in rule 193A—10.5(542) prior to filing an application. The continuing education hours need to include a minimum of eight hours of continuing education every three years devoted to financial statement presentation, such as courses covering the statements on standards for accounting and review services (SSARS) and accounting and auditing updates.

193A—3.15(542) Use of title.

3.15(1) Only a person who holds an active, unexpired certificate and who complies with the requirements of 193A—Chapters 5 and 10 or a person lawfully exercising a practice privilege under Iowa Code section 542.20 may use or assume the title "certified public accountant" or the abbreviation "CPA" or any other title, designation, words, letters, abbreviation, sign, card, or device tending to indicate that such person is a certified public accountant.

3.15(2) Rules regarding the use of the title "CPA" in a firm name are found in the AICPA Code of Professional Conduct as adopted by reference in 193A—Chapter 13.

These rules are intended to implement Iowa Code chapter 542 and Iowa Code section 546.10.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193A—Chapter 4
“Licensure of LPAs”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542.4(9)
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542

Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

This proposed chapter provides useful information to future licensees on the education, examination, and experience requirements to acquire an Iowa Licensed Public Accountant (LPA) license. It also serves to inform Iowans of the background of the individuals with whom they may be doing business.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Future licensees are impacted by this chapter because they incur the costs of a college education, plus the costs of examinations. Experience for the license is generally through paid positions.

- Classes of persons that will benefit from the proposed rulemaking:

Future licensees will be the primary beneficiaries from the information in Chapter 4. The general public will also benefit from knowing the criteria to become an LPA. These rules ensure a standardized baseline education, which offers protection to the public who utilizes LPA services since LPAs deal with sensitive, critical information for businesses and individuals.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Individuals seeking a license are required to have a college degree. The average cost of a college education is \$36,500 per year. The cost of the examination is \$240. The cost of the license is \$100. Experience for the license is generally acquired in paid positions.

- Qualitative description of impact:

The primary impact of this rulemaking is to the Iowans who utilize LPA services and are protected by the rules regarding becoming an LPA. There is an additional impact to potential licensees, who may take into account these rules when deciding a career path.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review applications to ensure compliance with the rules of Chapter 4. The time needed to manage this provision is generally in the form of responding to questions. An Executive Officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 full-time equivalent (FTE) position, which includes answering questions from the public and licensees related to practice standards, continuing education, Board meeting administration, and more. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs of an education are paid to the schools. Costs of the examination are paid to the examination administrator. This rulemaking has no anticipated impact on state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Elimination of the level of education and comprehensive nature of the examinations would greatly reduce the level of knowledge and expertise of licensed accountants in Iowa. Maintaining these standards also serves to maintain the highest level of protection of Iowans.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The criteria to become an LPA are less than the criteria to become a Certified Public Accountant (CPA). Further changing the education/examination requirements may reduce the competency of the licensee. Intrusion is necessary in order to protect Iowans doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board. An alternative would be to discontinue the LPA option. There are approximately 80 LPAs, individuals and firms, actively licensed in Iowa.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Historically, conversations at the Board level have always resulted in maintaining the LPA option. Alternatives may result in a reduction of the number of professionals to serve Iowans.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

LPAAs can work in a variety of settings, including large and small accounting firms and in-house within businesses. There are currently 16 LPA firms in Iowa. The rules for CPA and LPA firms are covered in other chapters.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4
LICENSURE OF LPAAs

193A—4.1(542) Qualifications for a license as a licensed public accountant.

4.1(1) A person who meets the qualifications and applies subject to Iowa Code section 542.8 may be granted a license as a licensed public accountant.

4.1(2) An application may be denied if the applicant is in violation of any of the requirements of Iowa Code chapter 542, prior enforcement proceedings under 193A—Chapter 17, or Iowa Code section 272C.15.

193A—4.2(542) Examination application.

4.2(1) An individual desiring to take the examination to qualify for a license as a licensed public accountant should apply to the board’s test administrator.

4.2(2) To be eligible to take the examination, the applicant needs to meet the conditions of Iowa Code section 542.8(1)“b” at the time of filing the application.

4.2(3) A candidate whose application is denied under subrule 4.1(2) may be denied admittance to the examination by the board.

193A—4.3(542) Major in accounting. In determining whether the conditions in Iowa Code section 542.8(1)“b”(2) as to a “major in accounting” have been met, the board will follow the rules associated with a “concentration in accounting” outlined in rule 193A—3.3(542).

193A—4.4(542) Transcripts needed. The applicant’s claim to college or university credits needs to have an official transcript of credit issued by a recognized institution sent by the institution to the board’s test administrator at the time of application to confirm the college or university credits claimed.

193A—4.5 Reserved.

193A—4.6(542) Content and grading of the examination.

4.6(1) The board may use the examination prepared by the Accreditation Council for Accountancy and Taxation, without questions regarding auditing or attest functions.

4.6(2) The board may use the grading services provided by the Accreditation Council for Accountancy and Taxation.

4.6(3) Absent a showing of good cause, the board will accept the passing grade established by the Accreditation Council for Accountancy and Taxation.

4.6(4) Alternatively, an applicant may satisfy the examination obligations of this rule by passing the Financial Accounting and Reporting and Regulation sections of the CPA examination provided by the AICPA.

193A—4.7(542) Conditional requirements. Effective with the implementation of the computer-based examination, a candidate may take the required test subjects individually and in any order. Except as provided in rule 193A—3.7(542), credit for any subjects passed will be valid for 18 months from the actual date the candidate sat for the subject, without the candidate's having to attain a minimum score on any failed subject(s) and without regard to whether the candidate sat for any other subjects. The candidate needs to pass both subjects of the examination within a rolling 18-month period that begins on the date that the first subject is passed. If both subjects are not passed within the 18-month period, credit for any subject taken outside the 18-month period will expire.

193A—4.8(542) Examination procedures. The examination procedures to be followed by a candidate for the certified public accountants' examination as outlined in rule 193A—3.8(542) apply to a licensed public accountant examination candidate.

193A—4.9(542) Refunding of examination fees. Examination fees will not be refunded except as provided by the rules concerning the refunding of examination fees to an examination candidate for a certified public accountant certificate outlined in 193A—3.10(542).

193A—4.10(542) Credit for an examination taken in another state. A candidate who has partially passed an examination in another state will be given credit for the part or parts passed, provided the candidate meets the conditioning requirements of the board and further provided the examination given by the licensing authority in the other state was an examination that complies with rule 193A—4.7(542).

193A—4.11(542) Experience for license.

4.11(1) One year of experience will consist of full- or part-time employment that extends over a period of no less than one year and no more than three years and includes no fewer than 2,000 hours of performance of services outlined in Iowa Code section 542.8(8). Experience may be gained in more than one employment situation, including an internship.

4.11(2) All experience will be verified by a licensee with direct supervisory control over the applicant or by a licensee who can attest that the experience gained by the applicant meets the conditions of subrule 4.12(1) if the applicant is not supervised by a licensee.

4.11(3) Teaching experience needs to be in the employment of an institution of higher education and needs to include teaching a minimum of 24 semester hours of accounting courses for which the course participants will receive credit on an official transcript. Teaching of noncredit continuing education courses will not qualify under this rule.

193A—4.12(542) Ethics course and examination. A successful candidate will need to pass an examination covering the code of ethical conduct prior to issuance of the license.

193A—4.13(542) Statements on standards for accounting and review services (SSARS) education. An LPA license applicant needs to complete a minimum of eight hours of continuing education devoted to statements on standards for accounting and review services (SSARS) prior to issuance of the license.

193A—4.14(542) Obtaining the license. A candidate who successfully passes the examination and completes conditions outlined in rules 193A—4.12(542), 193A—4.13(542) and 193A—4.14(542) may apply for licensure on the board’s website. An applicant is obligated to list on the application all states in which the applicant has applied for or holds a certificate, license or permit and will also list any past denial, revocation, suspension, refusal to renew, or voluntary surrender to avoid disciplinary action of a certificate, license or permit. An applicant will notify the board in writing within 30 days after the occurrence of any issuance, denial, revocation, suspension, refusal to renew, or voluntary surrender to avoid disciplinary action of a certificate, license or permit by another state. An applicant for licensure may be denied the license for reasons outlined in subrule 4.1(2) regardless of when the incident occurred.

193A—4.15(542) Licensure by reciprocity.

4.15(1) Iowa Code section 542.8 examination obligations will be waived for an applicant who has passed a comparable examination administered by another state if the examination was prepared and graded by the Board of Examiners of the American Institute of Certified Public Accountants or the Accreditation Council for Accountancy and Taxation.

4.15(2) A person desiring a license as a licensed public accountant in this state on the basis of a licensed public accountant license issued by another state needs to apply on the board’s website. The burden is on the applicant to obtain information satisfactory to the board that the applicant’s license in such other state is in full force and effect and that the conditions for obtaining such license were substantially equivalent to those of this state to obtain a license as a licensed public accountant.

4.15(3) An applicant needs to list on the application all states in which the applicant has applied for or holds a certificate, license or permit and needs to also list any past denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a certificate, license, or permit. An applicant needs to notify the board in writing within 30 days after the occurrence of any issuance, denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a certificate, license or permit by another state.

4.15(4) An applicant needs to affirm that all information provided on the form is accurate. Providing false information will be considered prima facie evidence of a violation of Iowa Code chapter 542. A nonrefundable application fee will be charged to each applicant.

193A—4.16(542) Use of title. Only a person holding a license as a licensed public accountant may use or assume the title “licensed public accountant” or the abbreviation “LPA” or any other title, designation, words, letters, abbreviation, sign, card, or device tending to indicate that such person is a licensed public accountant.

These rules are intended to implement Iowa Code section 542.8.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@iowa.gov

Purpose and Summary

Chapter 5 provides useful information to current Iowa Certified Public Accountant (CPA)/ Licensed Public Accountant (LPA) individual licensees on status options available for a license, and what, if any, services may be offered while in a specific status. The provisions for license renewal include necessary information on due dates and processes.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licenses are impacted by this chapter because they are responsible for completing the renewal in a timely fashion and incur the costs of renewing. There is no anticipated cost to the public.

- Classes of persons that will benefit from the proposed rulemaking:

Licenses are the primary beneficiaries of the information in Chapter 5. Future licenses and the public may also benefit by knowing the criteria to maintain an active or inactive license.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Individuals seeking to renew their individual license pay \$100 per year per license for active status. For inactive status, the fee is \$50 per year, per license. There is no cost to the general public.

- Qualitative description of impact:

The primary impact of this rulemaking is to licenses who annually renew their licenses. The public benefits because at any time the public may look up a licensee to determine the license status to determine whether the person they may be doing business with is in compliance with the provisions of licensure.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the Department are for regular staff time needed to review renewal applications not eligible for automatic renewal and other administration of the process. An executive officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 of a full-time equivalent (FTE) position, which includes questions from the public and licenses such as the renewal process, continuing education, board meeting administration, etc. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Annually, the renewal of active and inactive CPA/LPA licenses generates approximately \$55,460.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the annual \$100 fee would impact the cost to the licensee. The Board has not raised renewal fees in over ten years. Iowa's fees are consistent with those of other nearby jurisdictions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing the license fee would not impact the cost to the State to implement the renewal process. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board regarding the Accountancy Examining Board[193A], but no alternatives were recommended because Iowa's criteria for licensure is in line with all jurisdictions across the country. The Board believes that a national standard is beneficial.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes that maintaining the standards for licensing accountants is critical to continuing to protect Iowans. Alternatives may result in an increase in the numbers of complaints and investigations.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Chapter 5 is specific to individuals. CPAs can work in a variety of settings including large and small accounting firms, and in-house firm environments within businesses. Chapter 5 helps ensure that firms who hire CPAs and LPAs are maintaining the highest quality of professionals. Renewal of CPA/LPA firms is covered in 193A—Chapters 7 and 8.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5
LICENSURE STATUS AND RENEWAL OF CERTIFICATES AND LICENSES

193A—5.1(542) Licensure status and practice privilege.

5.1(1) Licenses issued by the board pursuant to Iowa Code section 542.6, 542.8, or 542.19, or any other applicable law or rule, may be in active, inactive, or lapsed status, as follows:

a. An initial license is issued in active status with an expiration date. Maintaining active status is conditioned on periodic renewal as provided in rule 193A—5.3(542). Completion of sufficient continuing education as provided in 193A—Chapter 10 is a prerequisite to renewal in active status.

b. A license may be renewed in inactive status as provided in rule 193A—5.7(272C,542) if the licensee does not satisfy the continuing education obligations for renewal in active status. A renewal license issued in inactive status lapses if not timely renewed pursuant to rule 193A—5.3(542). An inactive license may be reinstated to active status at any time pursuant to subrule 5.7(7).

c. An active or inactive license that is not timely renewed lapses. A lapsed license may be reinstated to active or inactive status at any time pursuant to subrule 5.4(3).

5.1(2) Practicing public accounting in Iowa or for a client with a home office in Iowa while holding an inactive or lapsed license is a ground for discipline under Iowa Code section 542.10 and may also or alternatively provide grounds for the regulatory actions described in Iowa Code section 542.14.

5.1(3) Out-of-state individuals holding an inactive or lapsed Iowa CPA certificate and out-of-state individuals to whom an Iowa CPA certificate has never been issued under Iowa Code chapter 542 or prior law may exercise a practice privilege under Iowa Code section 542.20 if they hold an active CPA certificate in the jurisdiction in which they maintain their principal place of business and otherwise satisfy all of the conditions described in Iowa Code section 542.20 and 193A—Chapter 20.

5.1(4) Exercising a practice privilege in Iowa or for a client with a home office in Iowa while holding an inactive or lapsed Iowa CPA certificate places a special burden on the individual to ensure that the public is informed about the individual’s licensure status in Iowa and in the jurisdiction of active licensure, as provided in 193A—paragraphs 20.8(2)“*b*” and 20.8(3)“*b*.” As a practical matter, an individual’s failure to clarify licensure status in Iowa and in the jurisdiction of the individual’s principal place of business may confuse the public. However, the public may consult CPAverify, a

comprehensive national data bank, to verify an individual's licensure in another jurisdiction. CPAverify may be accessed at www.cpaverify.org. A client contacting the board or consulting the board's website will be informed of the individual's licensure status in Iowa.

193A—5.2(542) Notices.

5.2(1) The board typically sends, by electronic means, a notice to licensees in the May preceding license expiration, but neither the failure of the board to send nor a licensee's failure to receive a renewal notice excuses the obligation to timely renew a license.

5.2(2) A licensee needs to notify the board within 30 days of any change of address or firm affiliation.

193A—5.3(542) Renewal procedures.

5.3(1) Licenses expire on June 30 of each year. Licensees will submit electronic online renewal application by the deadline in the renewal year. An application is deemed filed on the date of electronic renewal. An annual renewal fee will be charged.

5.3(2) Applicants for renewal are obligated to disclose on the application all background and character information requested by the board including, but not limited to:

a. All states or foreign jurisdictions in which the applicant has applied for or holds a CPA certificate or license, an LPA license, or a substantially equivalent designation from a foreign country;

b. Any past denial, revocation, suspension, or refusal to renew a CPA certificate, license or permit to practice, or LPA license, or voluntary surrender of a CPA certificate, license or permit or LPA license to resolve or avoid disciplinary action, or similar actions concerning a substantially equivalent foreign designation;

c. Any other form of discipline or other penalty imposed against a CPA certificate, license or permit, LPA license, or a substantially equivalent foreign designation, or a practice privilege;

d. The conviction of any crime; and

e. The revocation of a professional license of any kind in this or any other jurisdiction.

5.3(3) A licensee who performs compilation services for the public other than through a certified public accounting or licensed public accounting firm needs to submit a certification of completion of a peer review conducted in accordance with 193A—Chapter 11 no less often than once every three years.

5.3(4) Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application needs to be:

a. Received by the board in electronic form on or before the date the license is set to expire or lapse;

b. Certified as accurate through the online renewal process;

c. Fully completed, including continuing education, if applicable; and

d. Accompanied with the proper fee. Attempted financial transactions that result in payment of anything less than the proper fee will result in application rejection.

5.3(5) The administrative processing of an application to renew an existing license does not prevent the board from subsequently commencing a contested case to challenge the licensee's qualifications for continued licensure if grounds exist to do so.

5.3(6) If grounds exist to deny a timely and sufficient application to renew, the board will send written notification to the applicant by certified mail, return receipt requested. Grounds may exist to deny an application to renew if, for instance, the licensee failed to meet the continuing education obligations. If the basis for denial is pending disciplinary action or disciplinary investigation which is reasonably expected to culminate in disciplinary action, the board shall proceed as provided in 193—Chapter 7. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board's decision as provided in 193—subrule 7.39(1).

5.3(7) When a licensee appears to be in violation of mandatory continuing education under 193A—Chapter 10, the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in rule 193—7.39(546,272C), offer a licensee the opportunity to renew in inactive status or to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty, depending on the

severity of the violation; establish deadlines for compliance; and may impose additional educational obligations on the licensee. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed license and will be subject to disciplinary action if the terms of the consent order are not complied with. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to 193—subrule 7.39(1). A licensee who falsely reports continuing education to the board may be subject to additional sanctions including, when appropriate, suspension or revocation.

5.3(8) A certificate or license holder who continues to practice public accounting as a CPA or an LPA in Iowa after the certificate or license has expired may be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a licensee's application for reinstatement.

193A—5.4(542) Failure to renew.

5.4(1) A license or certificate holder who fails to renew the certificate or license by the expiration date, but does so within 30 days following its expiration date, will be assessed a penalty as provided in rule 193A—12.1(542).

5.4(2) If the holder fails to renew the certificate or license within the 30-day grace period, the certificate or license will lapse. The licensee is not authorized to practice during the period of time that the certificate or license is lapsed, including the 30-day grace period.

5.4(3) The board may reinstate a lapsed certificate or license upon the applicant's submission of an application to reinstate and completion of all of the following:

- a. Paying a penalty as provided in rule 193A—12.1(542);
- b. Paying the current renewal fee;
- c. Providing evidence of completed continuing education outlined in rule 193A—10.5(542), if the licensee wishes to reinstate to active status; and
- d. Providing a written statement outlining the professional activities of the applicant during the period in which the applicant's license was lapsed describing all services performed which constitute the practice of accounting including, but not limited to, those professional practice activities described in subrule 5.9(2). The applicant will also be obligated to state whether the applicant exercised a practice privilege in the period during which the license was lapsed and, if so, the jurisdiction of the applicant's principal place of business and status of out-of-state licensure.

5.4(4) A licensee holding a lapsed CPA certificate is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title "CPA" in Iowa or for a client with a home office in Iowa. A licensee holding a lapsed LPA license is not authorized to perform compilation services or to otherwise practice public accounting in Iowa using the title "LPA." A licensee holding a lapsed CPA certificate or LPA license may not use the title "CPA" or "LPA" in any context unless the licensee discloses that the certificate or license has lapsed. Additionally, a person holding a lapsed Iowa CPA certificate and who is actively licensed as a CPA in another jurisdiction in which the person maintains the principal place of business may be eligible to exercise a practice privilege pursuant to Iowa Code section 542.20 and 193A—Chapter 20.

5.4(5) Practicing public accounting on a lapsed license is a ground for discipline. The board may find probable cause to file charges if the individual continues to offer services defined as the practice of public accounting while using the title "CPA" or "LPA" during the period of lapsed licensure. In addition to the disciplinary sanctions described in rule 193A—16.3(272C,542), individuals found to have practiced public accounting on a lapsed license will be obligated to notify clients upon such terms as the board orders.

193A—5.5(272C,542) Certificates and licenses—property of the board. Every certificate or license granted by the board will, while it remains in the possession of the holder, be preserved by the holder but always remains the property of the board. In the event that the certificate or license is revoked or suspended, or is not renewed in the manner prescribed by Iowa Code chapter 542 or 272C, the licensee will, on demand, deliver the certificate or license by the holder to the board. However, a person is entitled to retain possession of a lapsed certificate or license that has not been revoked, suspended or voluntarily

surrendered in a disciplinary action as long as the person complies with all provisions of Iowa Code sections 542.10 and 542.13. A lapsed certificate or license may be reinstated to active or inactive status at any time pursuant to subrule 5.4(3).

193A—5.6(542) Licensee’s continuing duty to report. An active or inactive licensee has a duty to notify the board in writing of the licensee’s conviction of a crime within 30 days of the date of conviction. “Conviction” is defined in Iowa Code section 542.5(2). Licensees also have a duty to notify the board in writing within 30 days of the date of any issuance, denial, revocation, or suspension of a certificate, license or permit by another state.

193A—5.7(272C,542) Inactive status.

5.7(1) General purpose. This rule establishes a procedure under which a person issued a certificate as a certified public accountant or a license as a licensed public accountant may apply to the board for licensure in inactive status. Inactive licensure under this rule is available to a certificate or license holder who is not engaged in Iowa or for a client with a home office in Iowa in any practice of public accounting. A person eligible for inactive status may, as an alternative, allow the person’s certificate or license to lapse.

5.7(2) Eligibility. A person holding a lapsed or active certificate or license that has not been revoked or suspended may apply to renew in inactive status through the online application process if the person is not engaged in the state of Iowa or for clients with a home office in Iowa in any practice regulated by the board, including:

- a. Supervising or performing any attest services, such as audits, reviews or agreed-upon procedures (which may only be performed by a CPA within a CPA firm that holds a permit to practice);
- b. Supervising or performing compilation services or otherwise issuing compilation reports (which may only be performed by a CPA or LPA); or
- c. Performing any accounting, tax, consulting, or financial or managerial advisory services for any client, business, employer, government body, or other entity while holding oneself out as a CPA or LPA, or otherwise using titles regulated by Iowa Code section 542.13.

5.7(3) Affirmation. The application form will contain a statement in which the applicant affirms that the applicant will not engage in any of the practices in Iowa listed in subrule 5.7(2) without first complying with all rules governing reinstatement to active status. A person in inactive status may reinstate to active status at any time pursuant to subrule 5.7(7).

5.7(4) Renewal. A person licensed in inactive status may renew the person’s certificate or license on the schedule described in rule 193A—5.1(542). Such person is exempt from the continuing education under 193A—Chapter 10 and will be charged a reduced renewal fee as provided in rule 193A—12.1(542). An inactive certificate or license lapses if not timely renewed.

5.7(5) Permitted practices. A person may, while registered as inactive, perform for a client, business, employer, government body, or other entity those accounting, tax, consulting, or financial or managerial advisory services which may lawfully be performed by a person to whom a certificate or license has never been issued as long as the person does not in connection with such services use the title “CPA” or “LPA,” or any other title regulated under Iowa law for use only by CPAs or LPAs in Iowa Code section 542.13 (with or without additional designations such as “inactive”). Regulated titles may only be used by active CPAs or LPAs who are subject to continuing education under 193A—Chapter 10 to ensure that the use of such titles is consistently associated with the maintenance of competency through continuing education. Additionally, individuals who are actively licensed as CPAs in another jurisdiction in which they maintain their principal place of business may be eligible to exercise a practice privilege pursuant to Iowa Code section 542.20 and 193A—Chapter 20.

5.7(6) Unlicensed practices. A person who, while licensed in inactive status, engages in any of the practices described in subrule 5.7(2) or violates any provision of rule 193A—14.2(17A,272C,542) is subject to disciplinary action. A person in inactive status is not authorized to verify the experience of an applicant for a CPA certificate under Iowa Code section 542.5(12) or an applicant for an LPA license under Iowa Code section 542.8(8).

5.7(7) *Reinstatement to active status.* A person licensed in inactive status needs to, prior to engaging in any of the practices in Iowa listed in subrule 5.7(2) or for a client with a home office in Iowa, apply to the board to reinstate to active status. Such person will be obligated to pay the applicable renewal fee for active status, but is given credit for renewal fees previously paid for inactive status if the person applies for reinstatement at a date other than the person's regular renewal date. Such person will be obligated to demonstrate compliance with all applicable continuing education and peer review obligations. A person who has engaged in the practice of public accounting as an active licensee of another jurisdiction while licensed as inactive in Iowa will be deemed to have satisfied the continuing education obligations for reinstatement if the person demonstrates that the person has satisfied substantially equivalent continuing education in the other jurisdiction.

5.7(8) *Retired status.* A person holding an inactive license who does not reasonably expect to return to the workforce in the practice of public accounting due to bona fide retirement or disability may use the title "CPA, retired" or "LPA, retired," as applicable, in the context of non-income-producing personal activities. These designations may only be used during a period of bona fide retirement or disability.

These rules are intended to implement Iowa Code chapters 272C and 542 and section 546.10.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Attest is an additional certification above the Certified Public Accountant (CPA) “standard” license. Chapter 6 covers the functionality of attest and the additional experience necessary to request the additional certification.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of attest certification is levied upon the licensees.
 - Classes of persons that will benefit from the proposed rulemaking:

Licenses and future licenses will benefit from the information on the experience compliance to be attest-certified. The general public will benefit by the assurance that attest-certified accountants have met an extra measure of skill and knowledge.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are approximately 500 Iowa licenses who are currently attest-certified. Iowa receives five to ten attest applications per year. The fee is \$100 to be attest-certified. The attest experience for the certification is usually gained through paid employment.

- Qualitative description of impact:

Iowans who utilize attest services are protected by the provisions for attest certification. Due to the special knowledge and experience involved in financial audits and review services, the standards for attest certification are in line with the standards of the American Institute of Certified Public Accountants and Public Company Accounting Oversight Board.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review attest certification applications. An executive officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

With five to ten attest certification applications per year at a fee of \$100 each, the effect on State revenues is minimal.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. Reducing or eliminating the one-time certification fee would have little or no impact, due to the small number of requests for attest certification.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing/eliminating the certification fee would not impact the cost to the State to implement the certification process. The additional experience for the attest certification helps protect Iowans. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board on all the rules of the Accountancy Examining Board[193A]. No alternative methods were seriously considered for Chapter 6.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Attest and compilation play an important role in the accounting profession. The additional experience for attest certification plays an important role in protecting Iowans by establishing a baseline of knowledge and experience for licenses providing attest services.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Only individuals, not firms, may be attest-certified. However, CPAs performing attest services, whether certified in Iowa or exercising a practice privilege, must do so in a CPA firm that holds a permit to practice pursuant to Iowa Code section 542.7 or in an out-of-state CPA firm exercising a practice privilege in compliance with Iowa Code section 542.7. Offering the extra service of attest presents a potential positive impact for licensed firms.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 6 and adopt the following **new** chapter in lieu thereof:

CHAPTER 6
ATTEST AND COMPILATION SERVICES

193A—6.1(542) Who may perform attest services.

6.1(1) Only a CPA may perform audit, review, or other attest services, as defined in Iowa Code section 542.3(1).

6.1(2) Only an actively licensed attest-certified Iowa CPA or an out-of-state licensee exercising a practice privilege under Iowa Code section 542.20 may perform attest services in Iowa or for a client with a home office in Iowa. CPAs are cautioned, however, that a government body, or a client may obligate that an individual be licensed in Iowa as a condition of performing attest services in Iowa or for a client with a home office in Iowa, whether or not the individual may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accountant is a precondition, for example, to perform certain audit services described in Iowa Code chapter 11.

6.1(3) CPAs performing attest services, whether the CPAs are certified in Iowa or exercising a practice privilege, may only do so in a CPA firm that holds a permit to practice pursuant to Iowa Code section 542.7 or in an out-of-state CPA firm exercising a practice privilege in compliance with Iowa Code sections 542.20(5) and 542.20(6) and associated rules and the peer review and ownership provisions of Iowa Code section 542.7.

6.1(4) CPAs who are responsible for supervising attest services for a CPA firm or who sign or authorize someone to sign the accountant's report on behalf of a CPA firm are obligated to satisfy the experience or competency obligations established by nationally recognized professional standards that are applicable to the attest services performed.

193A—6.2(542) Necessary attest experience.

6.2(1) A CPA who is responsible for supervising attest services or who signs or authorizes someone to sign the accountant's report on behalf of a firm is obligated to have two years of full-time or part-time equivalent experience that extends over a period of no less than two years and includes no fewer than 4,000 hours, including at least 2,000 hours providing attest services under the supervision of one or more CPAs responsible for supervising attest services on behalf of a CPA firm that holds a permit to practice in Iowa or an equivalent form of CPA firm licensure in another jurisdiction.

6.2(2) Experience needs to include all of the following:

- a. Experience in applying a variety of attest procedures and techniques to the usual and customary financial transactions recorded in accounting records.
- b. Experience in the preparation of attest working papers covering the examination of the accounts usually found in accounting records.
- c. Experience in the planning of the program of attest work, including the selection of the procedures to be followed.
- d. Experience in the preparation of written explanations and comments on the findings of the examinations and on the content of the accounting records.
- e. Experience in the preparation and analysis of reports and financial statements together with explanations and notes thereon.

6.2(3) Attest experience is verified by the applicant and by a CPA who supervised the applicant or, if a supervising CPA is unavailable, by a CPA or CPA firm with sufficient factual documentation to verify the applicant's attest qualification.

6.2(4) Any applicant or CPA who has been requested to submit to the board evidence of an applicant's attest experience and has refused to do so will, upon request by the board, explain in writing or in person the basis for the refusal. The board may compel any applicant or CPA who furnished the evidence of an applicant's experience to substantiate the information provided. An applicant may be compelled to appear before the board to supplement or verify evidence of experience. The board may inspect documentation relating to an applicant's claimed experience.

193A—6.3(542) Attest qualification.

6.3(1) Attest qualification is necessary before a CPA may perform attest services in Iowa or for a client with a home office in Iowa. "Attest qualification" or "attest qualified" means that the CPA has satisfied the experience obligations of rule 193A—6.2(542).

6.3(2) All CPAs who held an individual permit to practice in Iowa at any point prior to July 1, 2002, are deemed to be attest qualified. Under Iowa law prior to July 1, 2002, CPAs were only issued an individual permit to practice if they verified qualification to perform attest services. Individual permits to practice were discontinued under Iowa law effective July 1, 2002.

6.3(3) CPAs who did not hold a permit to practice prior to July 1, 2002, may attain or establish attest qualification as follows:

a. Applicants may apply for attest qualification when initially applying for a certificate as an Iowa CPA under Iowa Code section 542.6 or when applying for reciprocal Iowa certification under Iowa Code section 542.19 or any other applicable law or rule.

b. Iowa CPA certificate holders may apply for attest qualification at any time at which they are qualified to do so.

c. Out-of-state CPAs performing attest services while exercising a practice privilege under Iowa Code section 542.20 do not have to individually apply to the board for attest qualification. However, if:

(1) CPAs perform attest services in an Iowa CPA firm, the Iowa CPA firm will affirm when applying for an initial or renewal firm permit to practice that the CPAs who supervise attest services for the firm or who sign or authorize someone to sign the accountant's report on behalf of the firm, as such attest services are or will in the following year be performed in Iowa or for a client with a home office in Iowa, have been qualified to perform attest services in Iowa or another jurisdiction.

(2) CPAs perform attest services through an out-of-state CPA firm exercising a practice privilege, the out-of-state CPA firm will affirm upon request from the board that the CPAs who supervise attest services for the firm or who sign or authorize someone to sign the accountant's report on behalf of the firm, as such attest services are or will in the following year be performed in Iowa or for a client with a home office in Iowa, have been qualified to perform attest services in Iowa or another jurisdiction.

193A—6.4(542) Compilation services.

6.4(1) Only a CPA licensed by the board under Iowa Code section 542.6 or 542.19, or any other applicable law or rule; an LPA licensed by the board under Iowa Code section 542.8 or any other applicable law or rule; or a person exercising a practice privilege under Iowa Code section 542.20

may issue a report in standard form upon a compilation of financial information or otherwise provide compilation services in Iowa or for a client with a home office in Iowa.

6.4(2) An individual described in subrule 6.4(1) may perform compilation services through a CPA firm which holds a permit to practice under Iowa Code section 542.7, an LPA firm which holds a permit to practice under Iowa Code section 542.8, a CPA firm exercising a practice privilege under Iowa Code section 542.20, or, if both the individual and business comply with Iowa Code section 542.13(13), through any other form of business.

6.4(3) All individuals described in subrule 6.4(1) who are responsible for supervising compilation services or who will sign or authorize someone to sign the accountant's compilation report on financial statements, as such compilation services will be performed in Iowa or for a client with a home office in Iowa, are obligated to comply with the nationally recognized professional standards that are applicable to compilation services, including SSARS.

6.4(4) All individuals described in subrule 6.4(1) will satisfy peer review obligations, individually or through the peer review of a CPA or LPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or 542.8 or a CPA firm exercising a practice privilege under Iowa Code section 542.20.

These rules are intended to implement Iowa Code chapter 542.

6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 7 offers information to acquire and maintain a Certified Public Accounting (CPA) firm license in Iowa. It also offers helpful guidance on when a CPA firm license may or may not be necessary.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of the initial firm application is levied upon the applicant.
 - Classes of persons that will benefit from the proposed rulemaking:
The general public is the beneficiary by holding all Iowa CPA firms to the same minimum standards.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is an initial fee of \$100 for the firm license with an annual renewal fee of \$100. There are approximately 500 CPA/Licensed Public Accountant (LPA) firms in Iowa.

- Qualitative description of impact:

The licensure for accounting firms in Iowa protects the public because it holds firms accountable for competency and the highest quality of business practices.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review initial license applications. An executive officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 of a full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Board staff approves 5 to 15 initial firm applications per year, generating \$500 to \$1,500. Renewal of approximately 500 licensed firms results in approximately \$5,000 in revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the initial and annual \$100 fees would impact the cost to the licensee. The Board has not raised fees in over ten years. Iowa's fees are consistent with those of other nearby jurisdictions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing/eliminating the fees would not impact the cost to the State to implement licensure. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed firms.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board regarding all the chapters of Accountancy Examining Board[193A]. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Because Iowa's licensure provisions are consistent with most other jurisdictions, no alternative methods were seriously considered. Substantially equivalent statuses for firms allow for mobility, in some cases, so that firms may practice in other states without an additional license. Firm licensure is required by Iowa Code chapter 542.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses CPA and LPA firms, some of which are small businesses. The impact on licensed small businesses is necessary to protect individuals doing business with the licensed firms because it ensures consistency of quality control through the peer review process.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
CERTIFIED PUBLIC ACCOUNTING FIRMS

193A—7.1(542) When licensure is needed.

7.1(1) Except as provided in 193A—Chapter 21, a sole proprietorship, corporation, partnership, limited liability company, or any other form of organization is obligated to apply for a permit to practice as a firm of certified public accountants pursuant to Iowa Code section 542.7.

7.1(2) A firm which is not subject to subrule 7.1(1) may practice public accounting in Iowa in accordance with Iowa Code section 542.7(1)“b.”

7.1(3) Unless individual Iowa licensure is needed by a government body or a client, the public accounting services provided by a CPA firm holding an Iowa permit to practice may be performed in Iowa or for a client with a home office in Iowa by Iowa CPAs or wholly by persons exercising a practice privilege under Iowa Code section 542.20.

7.1(4) A CPA firm issued a permit to practice by the board is accountable to the board and subject to discipline by the board for the acts of its owners or other agents, pursuant to 193A—subrule 14.2(4), whether or not such persons are individually licensed by the board.

193A—7.2(542) Application process.

7.2(1) All applications are submitted through the board’s online application process. The board will only process fully completed applications accompanied by the proper fee. Each application fee is nonrefundable.

7.2(2) An initial or renewal application for a firm permit to practice may be denied:

- a. Pursuant to Iowa Code section 542.7(3)“f”;
- b. Based on the firm’s failure to comply with Iowa Code section 542.7 or a failure to sustain the simple majority of ownership obligations of Iowa Code section 542.7(3); or
- c. Based on a regulatory or disciplinary action or to the extent applicable, subject to the limitations and processes set forth at Iowa Code section 272C.15 and corresponding implementing rules located at 193—Chapter 15, criminal conviction described in subrules 7.3(14) and 7.3(15) against any of the firm’s licensed or unlicensed owners.

193A—7.3(542) Application contents. Applicants for a firm permit to practice will provide information requested by the board, including:

7.3(1) The lawful name of the firm.

7.3(2) The legal form and jurisdiction of the firm’s organization.

7.3(3) Contact information for the principal place of business of the firm and each Iowa office.

7.3(4) All jurisdictions in which the firm is licensed or has applied for licensure.

7.3(5) The names, licensure, and contact information for all persons responsible for supervising attest and compilation service, or responsible for the proper licensure of the firm.

7.3(6) The highest level of public accounting services offered by the firm, such as compilation or attest.

7.3(7) Evidence of satisfactory completion of the last firm peer review, when applicable.

7.3(8) Sufficient information from which the board can determine that a simple majority of owners hold a CPA certificate under Iowa Code section 542.6 or 542.19 or hold a CPA certificate in another state and are eligible to exercise a practice privilege under Iowa Code section 542.20. The board reserves the right to request at any time a full list of owners, or a targeted sublist, such as a list of those persons who perform services from an Iowa office or those who perform attest or compilation services in Iowa or for a client with a home office in Iowa.

7.3(9) The affirmation described in 193A—paragraph 6.3(3) “c.”

7.3(10) Affirmation that all CPAs who are responsible for supervising attest services for the CPA firm or who sign or authorize someone to sign the accountant’s report on behalf of the CPA firm satisfy the experience or competency standards established by nationally recognized professional standards that are applicable to the attest services performed in Iowa or for clients with a home office in Iowa.

7.3(11) Affirmation that all CPAs or LPAs who are responsible for supervising compilation services or who sign or authorize someone to sign the accountant’s compilation report on behalf of the firm comply with nationally recognized professional standards that are applicable to the compilation services performed in Iowa or for a client with a home office in Iowa.

7.3(12) Affirmation that all nonlicensee owners are active participants in the firm or affiliated entity.

7.3(13) Affirmation that the firm and its licensed or unlicensed owners will comply with all applicable Iowa laws and rules, including rules of professional conduct, when practicing in Iowa or for a client with a home office in Iowa.

7.3(14) Details of any past denial, cancellation, revocation, suspension, refusal to renew, or voluntary surrender of a professional license of any kind, authority to practice, or practice privilege by the board or another state agency in any jurisdiction, a federal agency, or the PCAOB, regarding the firm and the firm’s current owners (e.g., partners, shareholders, or members).

7.3(15) Details of any past felony conviction or the conviction of any crime, any element of which is dishonesty or fraud, as provided in Iowa Code section 542.5(2), under the laws of any state or the United States, regarding the firm and the firm’s current owners (e.g., partners, shareholders, or members).

193A—7.4(542) Renewal procedures.

7.4(1) The permit holder will submit an electronic online renewal by the June 30 deadline each year. Applications are deemed filed on the date of electronic renewal.

7.4(2) The permit holder will list on the renewal application all states in which the applicant has applied for or holds a permit as a certified public accounting firm and list any past denial, revocation, suspension, refusal to renew or voluntary surrender to avoid disciplinary action of a permit to practice or practice privilege. Renewal applications include such additional information as the board requests, including all of the information described in rule 193A—7.3(542).

7.4(3) Within the meaning of Iowa Code chapters 17A, 272C and 542, a timely and sufficient renewal application will be:

- a. Received by the board in electronic form on or before June 30;
- b. Certified as accurate through the online renewal process;
- c. Fully completed and accompanied with the proper fee. The fee will be deemed improper if, for instance, the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is omitted or incorrect, the attempted credit card transaction is rejected, or the applicant’s check is returned for insufficient funds or a closed account.

193A—7.5(542) Failure to renew permit.

7.5(1) A firm that fails to renew the permit by the expiration date, but does so within 30 days following the expiration date, will be assessed a penalty as provided in rule 193A—12.1(542).

7.5(2) If the firm fails to renew the permit within the 30-day grace period outlined in rule 193A—7.6(542), the permit will lapse and the firm will need to reinstate in accordance with rule 193A—7.7(542). The firm is not authorized to practice during the period of time that the permit is lapsed, including the 30-day grace period.

7.5(3) The board may reinstate the permit upon payment of the proper renewal fee and a penalty as provided in rule 193A—12.1(542). A written statement outlining the firm's professional activities during the period of lapsed licensure, including a list of Iowa clients and the services performed, is also needed.

7.5(4) The board may find probable cause to file charges for unlicensed practice if the firm engaged in any activity that obligates licensure pursuant to subrule 7.1(1) during the period of lapsed licensure. In addition to the disciplinary sanctions described in rule 193A—16.3(272C,542), firms found to have practiced public accounting in violation of subrule 7.1(1) on a lapsed license will notify clients upon such terms as the board orders.

193A—7.6(542) Notice to the board. A holder of or applicant for a permit shall notify the board in writing within 30 days pursuant to Iowa Code section 542.7(6).

193A—7.7(542) Noncompliance. The board may grant a reasonable period of time, usually 90 days, for a firm to take such corrective action pursuant to Iowa Code section 542.7(7).

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and section 546.10.

Purpose and Summary

Chapter 8 offers information on how to acquire a Licensed Public Accounting (LPA) firm license in Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of the initial firm application is levied upon the applicant.
 - Classes of persons that will benefit from the proposed rulemaking:
The general public is the beneficiary by holding LPA firms to the same minimum standards.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is an initial fee of \$100 for the firm license with an annual renewal fee of \$100. There are approximately 15 LPA firms in Iowa.

- Qualitative description of impact:

Licensing accounting firms in Iowa protect the public and the firms are held accountable for competency and ethical business practices.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review initial license applications. An executive officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 of a full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Board staff approve fewer than five LPA firm applications per year. The initial \$100 license fee and annual \$100 renewal fee have little impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the initial and annual \$100 fees would impact the cost to the licensee. The Board has not raised fees in over ten years.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing/eliminating the fees would not impact the cost to the State to implement licensure. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed firms.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board regarding all the chapters of Accountancy Examining Board[193A]. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Historically, conversations at the Board level have always resulted in maintaining the licensed public accountant firm option. Alternatives may result in a reduction of the number of licensed firms to serve Iowans.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses Certified Public Accountant and LPA firms, some of which are small businesses. The impact on licensed small businesses is necessary to protect individuals doing business with the licensed firms.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 8 and adopt the following **new** chapter in lieu thereof:

CHAPTER 8
LICENSED PUBLIC ACCOUNTING FIRMS

193A—8.1(542) Initial permit to practice.

8.1(1) A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization may apply for a permit to practice under Iowa Code section 542.8.

8.1(2) The application may be completed and submitted through the online application process and provide sufficient information pursuant to Iowa Code section 542.8(12) or certificates issued by the board under Iowa Code section 542.6 or 542.19 or are eligible to practice under practice privilege pursuant to Iowa Code section 542.20, or otherwise hold a license or certificate to practice public accounting in another state. At least one owner has to be licensed under Iowa Code section 542.8.

8.1(3) The application will list the physical location and contact information for all offices within this state and the licensee in charge of each such office.

8.1(4) Fraud or deceit, by commission or omission, in obtaining a firm permit to practice is a ground for discipline, including permanent revocation of the firm’s permit to practice, the individual certificate of an Iowa LPA or CPA, or an individual’s practice privilege, as applicable to the entity or persons responsible.

8.1(5) An initial or renewal application for a firm permit to practice may be denied pursuant to Iowa Code section 542.8(12) “e.”

193A—8.2(542) Renewal procedures. The permit holder will submit an online renewal with the board by the June 30 deadline each year. Applications are deemed filed on the date of renewal.

193A—8.3(542) Failure to renew permit.

8.3(1) A firm that fails to renew the permit by the expiration date, but does so within 30 days following the expiration date, will be assessed a penalty of 25 percent of the annual renewal fee.

8.3(2) If the firm fails to renew the permit within the 30-day grace period outlined in subrule 8.3(1), the permit will lapse and the firm may then reinstate in accordance with subrule 8.3(3). The firm is not authorized to practice as an LPA firm during the period of time that the permit is lapsed, including the 30-day grace period.

8.3(3) The board may reinstate the permit upon payment of the proper renewal fee and a penalty as provided in rule 193A—12.1(542). A written statement outlining the firm’s professional activities during the period of lapsed licensure is needed in this context.

8.3(4) The board may find probable cause to file charges for unlicensed practice if the firm continues to offer services defined as the practice of accounting while using the title “LPAs” or “LPA firm” during the period of lapsed licensure.

193A—8.4(542) Notice to the board. A holder of or an applicant for a permit will notify the board in writing within 30 days in compliance with Iowa Code section 542.8(15).

193A—8.5(542) Noncompliance. A firm which, after receiving or renewing a permit, is not in compliance with Iowa Code section 542.8 as a result of a change in firm ownership or personnel will take corrective action to bring the firm back into compliance as quickly as possible or apply to modify or amend the permit. The board may grant a reasonable period of time, usually 90 days, for a firm to take such corrective action. Failure to comply within a reasonable period as deemed by the board will result in the suspension or revocation of the firm permit.

193A—8.6(542) Peer review obligations. Firm peer review is necessary pursuant to Iowa Code section 542.7(8).

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and Iowa Code section 546.10.

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
3:40 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 9 provides useful information on substantial equivalency and license by reciprocity. These paths streamline the process for those seeking licensure in other jurisdictions.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of licensure is levied upon the licensees.
 - Classes of persons that will benefit from the proposed rulemaking:

Licenseses from other jurisdictions will benefit from a streamlined process to become licensed in Iowa. Iowans will benefit from an increased number of qualified professionals with whom to do business.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is an initial fee of \$100 for the license with an annual renewal fee of \$100.

- Qualitative description of impact:

The primary impact is to Certified Public Accountants (CPAs) from other jurisdictions seeking licensure in Iowa. The minimal steps include documenting active licensure in another jurisdiction and paying the application fee.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review applications. An executive officer supports the full scope of work of the Accountancy Examining Board at approximately 0.30 of a full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Annually, Iowa licenses approximately 160 CPA individuals via reciprocity. The application fee is \$100 for a total of approximately \$16,000 per year. The effect on state revenues is minimal.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating the reciprocity option would not significantly impact the revenues to the agency; however, it would reduce the paths to licensure in Iowa. There would be fewer qualified professionals offering services to Iowans.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing/eliminating costs would be a benefit to the applicant but it would hold them to a different standard than other applicants seeking the same license. Intrusion is necessary in order to treat all applicants equally and to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board regarding all chapters of Accountancy Examining Board[193A]. Reciprocity is a path to licensure offered nationwide. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensure by reciprocity is a standard nationwide.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not offer license by reciprocity for accountancy firms. There is little or no impact to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 9 and adopt the following **new** chapter in lieu thereof:

CHAPTER 9
RECIPROCITY AND SUBSTANTIAL EQUIVALENCY

193A—9.1(542) Iowa CPA certificate necessary. A person who holds a certificate or license to practice as a CPA in another state or a substantially equivalent designation from a foreign jurisdiction may apply to the board for an Iowa CPA certificate and has to do so if the person plans to establish the person’s principal place of business as a CPA in Iowa.

193A—9.2(542) Application forms. Application forms may only be completed and submitted through the online application process. An applicant will attest that all information provided on the form is true and accurate. An application may be denied based on a false statement of material fact. A nonrefundable fee will be charged to each applicant as provided in 193A—Chapter 12.

193A—9.3(542) Background and character.

9.3(1) An applicant for a CPA certificate under this chapter will disclose on the application all background and character information requested by the board including, but not limited to:

- a. All states or foreign jurisdictions in which the applicant has applied for or holds a CPA certificate or license, or a substantially equivalent designation from a foreign country;
- b. Any past denial, revocation, suspension, or refusal to renew a CPA certificate, license or permit to practice, or voluntary surrender of a CPA certificate, license or permit to resolve or avoid disciplinary action, or similar actions concerning a substantially equivalent foreign designation;
- c. Any other form of discipline imposed against the holder of a CPA certificate, license or permit, or a substantially equivalent foreign designation;
- d. The conviction of any felony or any crime described in Iowa Code section 542.5(2);
- e. The revocation of a professional license of any kind in this or any other jurisdiction; and
- f. Such additional information as the board may request to determine if grounds exist to deny certification under 193A—subrule 3.1(2).

9.3(2) The board may deny an application based on prior discipline imposed against the holder of a CPA certificate, license or permit, or a substantially equivalent foreign designation, or on any of the grounds listed in 193A—subrule 3.1(2).

193A—9.4(542) Verification of state licensure. An applicant holding a CPA certificate or license from another state or states will submit verification that the applicant’s CPA certificate or license is valid and in good standing in the state in which the applicant’s principal place of business is located. An applicant applying for a CPA certificate under the substantial equivalency provisions of Iowa Code section 542.19(1) “a” and paragraph 9.5(1) “a” may attach a letter of good standing to the application. Such letter of good standing will be prepared by the state in which the applicant’s principal place of business is located and be dated within six months of the date of the application. To expedite the

application process, the board will accept verification from another state's board by facsimile or email. The board reserves the right to request an original verification document directly from another state board.

193A—9.5(542) Qualifications for a CPA certificate.

9.5(1) A person who holds in good standing a valid CPA certificate or license from another state is deemed qualified for an Iowa CPA certificate if the person satisfies one of the following three conditions:

a. Substantially equivalent state. The licensing standards on education, examination and experience of the state which issued the applicant's CPA certificate or license were, at the time of licensure, comparable or superior to the education, examination and experience obligations of Iowa Code chapter 542 in effect at the time the application is filed in Iowa. The board may accept the determination of substantial equivalency made by the National Association of State Boards of Accountancy or may make an independent determination of substantial equivalency.

b. Individual substantial equivalency. The applicant's individual qualifications on education, examination and experience are comparable or superior to the education, examination and experience obligations of Iowa Code chapter 542 in effect at the time the application is filed in Iowa.

c. "Four-in-ten rule." The applicant satisfies all of the following:

(1) The applicant passed the examination necessary for issuance of the applicant's certificate or license with grades that would have been passing grades at the time in this state.

(2) The applicant has had at least four years of experience within the ten years immediately preceding the application which occurred after the applicant passed the examination upon which the CPA certificate or license was based and which in the board's opinion is substantially equivalent to the obligations set forth in Iowa Code section 542.5(12).

(3) If the applicant's CPA certificate or license was issued more than four years prior to the filing of the application in this state, the applicant has fulfilled the continuing professional education mandates as described in Iowa Code section 542.6(3) and 193A—Chapter 10.

9.5(2) A person who holds in good standing a certificate, license or designation from a foreign authority that is substantially equivalent to an Iowa CPA certificate is deemed qualified for an Iowa CPA certificate if the person satisfies all of the provisions of Iowa Code section 542.19(3). The burden is on the applicant to demonstrate that such certificate, license or foreign designation is in full force and effect and that the prerequisites for that certificate, license or foreign designation are comparable or superior to those needed for a CPA certificate in this state. Original verification from the foreign authority which issued the certificate, license or designation is needed to demonstrate that such certificate, license or designation is valid and in good standing. If the applicant cannot establish comparable or superior qualifications, the applicant will need to pass the uniform certified public accountant examination designed to test the applicant's knowledge of practice in this state and country. If the applicant is a Canadian Chartered Accountant, Australian Chartered Accountant, Ireland Chartered Accountant, Mexico Contador Público Certificado (CPC), New Zealand Chartered Accountant, Scottish Chartered Accountant, or South African Chartered Accountant, the applicant may be obligated to take the International Uniform CPA Qualification Examination (IQEX) in lieu of the uniform certified public accountant examination.

9.5(3) An applicant seeking an Iowa CPA certificate based on the provisions of 9.5(1) "b," 9.5(1) "c" or 9.5(2) will submit such supporting information on education, examination or experience as the board deems reasonable to determine whether the applicant qualifies for licensure in Iowa.

193A—9.6(542) Continuing obligations. A person issued a CPA certificate under this chapter is subject to all laws and rules governing persons holding CPA certificates issued in this state including, without limitation, those concerning continuing education, peer review, and notification of crimes and professional discipline. However, a person issued a CPA certificate under this chapter who maintains the principal place of business in a different state and who maintains in good standing a valid CPA certificate or license in that state is deemed to have satisfied the continuing education and peer review

obligations described in 193A—Chapters 10 and 11 if the person satisfies similar obligations in the state in which the principal place of business is located.

193A—9.7(542) Expedited application processing. A person applying for a CPA certificate under the substantial equivalency provisions of Iowa Code section 542.19(1)“a” often desires expedited application processing to facilitate cross-border practice. Applications by such persons are especially suitable for rapid processing given the substantially equivalent standards previously enforced in another state. Unless such application reveals grounds to deny the application under subrule 9.3(2), the board is otherwise aware of such grounds, or the application is unaccompanied by the proper fee, the board’s administrator will approve an application which qualifies under Iowa Code section 542.19(1)“a” as rapidly as feasible and deem the effective date of approval to practice in Iowa to be the date the board received the completed application with timely letter of good standing in a substantially equivalent state.

These rules are intended to implement Iowa Code section 542.19.

Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 10 sets forth continuing education requirements for individual Certified Public Accountants (CPAs)/Licensed Public Accountants (LPAs). It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the chapter, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that CPAs and LPAs maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:
The cost of continuing education is levied upon the licensees. There is no cost to the public.
 - Classes of persons that will benefit from the proposed rulemaking:
Licensees will benefit by maintaining current knowledge of advances in the profession. The public will benefit from an educated pool of professionals offering services.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
- Quantitative description of impact:
Private industry, professional associations and employers offer continuing education, so the Accountancy Examining Board does not have information on exact costs. Licensees are required to attest to at least 120 hours acquired over a three-year period. The cost to the licensee is estimated to be \$0 to \$4,200 every three years.
 - Qualitative description of impact:
Continuing education has a public safety benefit because it ensures licensed professionals are receiving a current education on standards for services offered. Continuing education is required by other jurisdictions nationwide.
3. Costs to the State:
- Implementation and enforcement costs borne by the agency or any other agency:
Costs to the agency are staff time needed to review continuing education compliance through random audits. An executive officer supports the full scope of work of this board at approximately 0.30 of a full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.
 - Anticipated effect on state revenues:
Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact to state revenues. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.
4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:
- Eliminating continuing education requirements would have no cost impact but it could impact the quality of the licensed professionals offering services to the public. The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline. There would be a loss of revenue for the private industry organizations that offer these continuing education programs.
5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:
- A less restrictive alternative would be to reduce the amount of continuing education required. Iowa's continuing education is consistent with that of neighboring jurisdictions. The cost of continuing education is not controlled by the agency.
- Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.
6. Alternative methods considered by the agency:
- Description of any alternative methods that were seriously considered by the agency:
Staff held discussions with the Board on all chapters of the Accountancy Examining Board[193A]. No alternative methods were seriously considered. Iowa's continuing education is consistent with neighboring jurisdictions.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking: Continuing education is a nationwide standard.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

There is no continuing education requirement for licensed firms. Licensed individuals employed by firms of any size are obliged to comply with the rules on continuing education.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 10 and adopt the following **new** chapter in lieu thereof:

CHAPTER 10 CONTINUING EDUCATION

193A—10.1(542) Scope. The right to use the title “Certified Public Accountant” and “Licensed Public Accountant” is regulated in the public interest and imposes a duty on accounting professionals to maintain public confidence and current knowledge, skills, and abilities in all areas of services. CPAs and LPAs have to accept and fulfill their ethical responsibilities to the public and the profession regardless of their fields of employment.

10.1(1) The development of professional competence involves a continued commitment to learning and professional improvement. A CPA and an LPA performing professional services need to have a broad range of knowledge, skills and abilities. A program that promotes professional competence in the practice of accountancy is defined as one that refers to the process, methods, or principles of accounting or is directly related to the CPA's and LPA's employment and is above the level of the CPA's and LPA's current knowledge.

10.1(2) Acceptable subjects for continuing professional education include accounting, assurance/auditing, consulting services, specialized knowledge and applications, management, taxation, and ethics. Other subjects, including nontechnical professional skills, may be approved by the board if they maintain or improve CPAs' and LPAs' competence in their current employment.

193A—10.2(542) Definitions. The following definitions apply to the rules of this chapter.

“*Continuing professional education (CPE)*” means education that is acquired by a licensee in order to maintain, improve, or expand skills and knowledge present at initial licensure or to develop new and relevant skills and knowledge.

“*Firm meeting*” means a formally arranged gathering/assembly of staff or management groups or both to inform them of administrative matters.

“Formal program” means a structured learning activity based on clearly defined learning objectives and outcomes that articulate achievable knowledge, skills and abilities.

“In-house or on-site training” means a formally organized professional educational program sponsored by the employer.

“Live instruction” means an educational program delivered in a classroom setting or through videoconferencing whereby the instructor and student carry out essential tasks while together. Examples include distance learning and Webcasts.

“Nontechnical professional skills” means formal programs of learning which contribute to the professional competence of a certificate holder or license holder in fields of study that indirectly relate to the holder’s field of business. “Nontechnical professional skills” includes, but is not limited to, the following programs or courses:

1. Communication;
2. Interpersonal management;
3. Leadership and personal development;
4. Client and public relations;
5. Practice development;
6. Marketing;
7. Motivational and behavioral; and
8. Speed reading and memory building.

“Qualified instructor” means an individual whose training and experience adequately prepares the individual to carry out specified training assignments.

“Self-study” means a computer-generated program or written materials or exercises intended for self-study which do not include simultaneous interaction with an instructor but do include tests transmitted to the provider for review and grading.

“Technical professional skills” means formal programs of learning which contribute to the professional competence of a certificate holder or license holder in fields of study that directly relate to the holder’s field of business. “Technical professional skills” includes, but is not limited to, the following programs or courses:

1. Auditing standards or procedures;
2. Compilation and review of financial statements;
3. Financial statement preparation and disclosures;
4. Attestation standards and procedures;
5. Projection and forecast standards or procedures;
6. Accounting and auditing;
7. Management advisory services;
8. Personal financial planning;
9. Taxation;
10. Management information systems;
11. Budgeting and cost analysis;
12. Asset management;
13. Professional ethics;
14. Specialized areas of industry;
15. Human resource management;
16. Economics;
17. Business law;
18. Mathematics, statistics and quantitative applications in business;
19. Business management and organization;
20. General computer skills, computer software training, information technology planning and management;
21. Operations management, inventory, and production; and
22. Negotiation or dispute resolution.

193A—10.3(542) Applicability. Completion of continuing professional education is a condition precedent to the renewal of the certificate or license.

193A—10.4(542) Cost of continuing professional education. All costs of completing continuing professional education are the responsibility of the certificate holder or license holder wishing to maintain registration in this state.

193A—10.5(542) Basic continuing professional education.

10.5(1) Except as provided in subrules 10.5(2) to 10.5(7), an applicant for renewal will have completed 120 hours of qualifying continuing professional education during the three-year period ending on the December 31 or June 30 preceding the July 1 renewal date of the certificate or license. The following conditions apply:

a. On each renewal, a CPA or LPA self-selects December 31 or June 30 as the date by which continuing education will be completed in order to be eligible to renew the certificate or license.

b. A CPA or LPA applying to renew a certificate or license may declare a continuing education deadline of December 31 in one renewal cycle and a continuing education deadline of June 30 in a subsequent renewal cycle, and vice versa.

c. Licensees need to maintain continuing education records in a manner that corresponds with the self-selected continuing education deadline of December 31 or June 30.

d. When declaring a June 30 continuing education deadline, licensees should be cautious to ensure that the continuing education is fully completed on or prior to the date the renewal application is submitted to the board.

e. Licensees who renew with penalty during the 30-day grace period following June 30 need to declare either December 31 or June 30 as the continuing education deadline. The deadline cannot be extended beyond June 30.

10.5(2) At the first annual renewal date of July 1 that is less than 12 months from the date of filing of the initial application for the certificate or license, the certificate holder or license holder is not required to report continuing professional education.

10.5(3) At the annual renewal date of July 1 that is 12 months or more than 12 months, but less than 24 months, from the date of filing of the initial application for the certificate or license, the certificate holder or license holder will report 40 hours of continuing professional education earned in the one-year period ending December 31 or June 30 prior to the July 1 renewal date.

10.5(4) At the annual renewal date of July 1 that is 24 months or more than 24 months, but less than 36 months, from the date of filing of the initial application for the certificate or license, the certificate holder or license holder will report 80 hours of continuing professional education earned in the two-year period ending December 31 or June 30 prior to the July 1 renewal date.

10.5(5) A licensee is deemed to have completed continuing education under this rule if, for the period that the licensee is a resident of another state or district having a continuing professional education obligation, the licensee met the resident state's mandatory continuing professional education.

10.5(6) The board may make exceptions for reasons of individual hardship including health, certified by a medical doctor, military service, foreign residency, retirement, or other good cause. No exceptions may be made solely because of age. Applicants entitled to a full or partial exception under the provisions of Iowa Code section 272C.2(4) for active military service or government service outside of the United States may request an exception by submitting acceptable documentation as applicable to the exception requested. Applicants seeking an exception on other grounds of undue hardship can submit an application for waiver as provided in 193—Chapter 5.

10.5(7) Licensees who apply to reinstate a lapsed or inactive certificate or license to active status pursuant to 193A—subrule 5.6(3) or 5.9(7) need to satisfy 120 hours of continuing professional education earned in the preceding three-year period prior to the date of the application, including all mandatory education described in rule 193A—10.7(542). Once the certificate or license is reinstated, the continuing education obligations apply at each subsequent renewal. The 120-hour obligation described in this

subrule is modified as needed to incorporate the phase-in schedule for initial licensees described in subrules 10.5(2) to 10.5(4).

193A—10.6(542) Measurement standards. The following standards will be used to measure the hours of credit to be given for qualifying continuing professional education programs completed by individual applicants:

10.6(1) Credit is measured with one 50-minute period equaling one contact hour of credit. Half-hour credits may be allowed (equal to not less than 25 minutes) after the first hour of credit has been earned.

10.6(2) Only class hours or the equivalent, and not student hours devoted to preparation, will be counted.

10.6(3) Credit expressed as continuing education units (CEUs) will be counted as ten contact hours for each continuing professional education unit. (.1 CEU = 1 CPE)

10.6(4) Service as lecturer or discussion leader of continuing professional education programs will be counted to the extent that this service contributes to the applicant's professional competence.

193A—10.7(542) Mandatory education.

10.7(1) Every CPA certificate holder or LPA license holder who is responsible for supervising compilation services or who signs or authorizes someone to sign the accountant's compilation report on behalf of a firm will complete, as a condition of certificate or license renewal, a minimum of eight hours of continuing professional education devoted to financial statement presentation, such as courses covering the statements on standards for accounting and review services (SSARS) and accounting and auditing updates. The financial statement presentation continuing education has to be completed within the three-year period ending on the December 31 or June 30 preceding the application for certificate or license renewal. For credit to be claimed for a course covering multiple topics, a minimum of one hour as outlined in subrule 10.6(1) has to be devoted to financial statement presentation. For example, if a seminar or presentation is conducted for a total of four hours and only one hour is devoted to financial statement presentation, then only one hour may be claimed toward satisfaction of this subrule.

10.7(2) Every CPA certificate holder or LPA license holder needs to complete a minimum of four hours of continuing education devoted to ethics and rules of professional conduct during the three-year period ending December 31 or June 30, prior to the July 1 annual renewal date. For a course to qualify to satisfy this subrule, the course description will clearly outline the subject matter covered as professional or business ethics. If credit is to be claimed for a course covering multiple topics, a minimum of one hour as outlined in rule 193A—10.6(542), measurement standards, specifically in subrule 10.6(1), needs to be devoted to business or professional ethics. For example, if a seminar or presentation is conducted for a total of four hours and only one hour is devoted to business or professional ethics, then only one hour may be claimed toward satisfaction of this subrule. Ethics courses, which are defined as courses dealing with regulatory and behavioral ethics, are limited to courses on the following:

- a. Professional standards;
- b. Licenses and renewals;
- c. SEC oversight;
- d. Competence;
- e. Acts discreditable;
- f. Advertising and other forms of solicitation;
- g. Independence;
- h. Integrity and objectivity;
- i. Confidential client information;
- j. Contingent fees;
- k. Commissions;
- l. Conflicts of interest;
- m. Full disclosure;
- n. Malpractice;
- o. Record retention;

- p.* Professional conduct;
- q.* Ethical practice in business;
- r.* Personal ethics;
- s.* Ethical decision making; and
- t.* Corporate ethics and risk management as these topics relate to malpractice and relate solely to the practice of certified public accounting.

193A—10.8(542) Programs that qualify and CPE limitations.

10.8(1) The overriding consideration in determining whether a specific program qualifies as acceptable continuing education is that it be a formal program of learning which contributes directly to the professional competence of an individual certified or licensed in this state. It will be left to each individual certificate holder or license holder to determine the technical or nontechnical professional skills courses of study to be pursued. Thus, the auditor may study accounting and auditing, the tax practitioner may study taxes, and the management advisory services practitioner may study subjects related to such practice. Job-related continuing professional education qualifies as acceptable provided the courses selected from nontechnical professional skills contribute to the professional competence of the certificate holder or license holder.

10.8(2) Program standards have to include the following:

- a.* Learning activities based on clearly defined, relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants.
- b.* Learning activities developed in a manner consistent with the prerequisite education, experience, and advanced preparation of the participants.
- c.* Activities, materials, and delivery systems that are current, technically accurate, and effectively designed. Providers, sponsors, or contractors that are competent in the subject matter. Competence may be demonstrated through practical experience or education.
- d.* Learning programs that are reviewed by qualified persons other than those who develop the program to ensure that the program is technically accurate and current and addresses the stated learning objectives. This standard is waived for single presentations such as lectures that are given once.

10.8(3) Continuing professional education programs will qualify only if:

- a.* An outline of the program is prepared in advance and preserved.
- b.* The program is at least one hour (50-minute period) in length.
- c.* The program is conducted by a qualified instructor, discussion leader or lecturer. A qualified instructor, discussion leader or lecturer is anyone whose background, training, education or experience makes it appropriate for that person to lead a discussion on the subject matter of the particular program.
- d.* A record of attendance or certification of completion or transcript is maintained.

10.8(4) The following programs are deemed to qualify provided all other standards of this rule are met.

- a.* Professional development programs of recognized national and state accounting organizations.
- b.* Technical sessions at meetings of recognized national and state accounting organizations and their chapters.
- c.* Formally organized in-house or on-site educational programs provided by the certificate holder's or license holder's employer.
- d.* Distance learning programs or group study Webcast programs.
- e.* University or college courses meet the continuing professional education obligations of those attending.

Each semester hour is equal to 15 contact hours of credit. Each quarter hour is equal to 10 contact hours of credit.

- f.* Technical or nontechnical sessions offered by employers in business and industry, as well as firms of certified public accountants.

10.8(5) Formal correspondence and formal self-study programs contributing directly to the professional competence of an individual that obligate the licensee to register and provide evidence of satisfactory completion will be considered for credit. The amount of credit to be allowed for

correspondence and formal self-study programs (including tested study programs) will be recommended by the program sponsor and based upon appropriate “field tests” and will not exceed 50 percent of the renewal obligation. A licensee claiming credit for correspondence or formal self-study courses will obtain evidence of satisfactory completion of the course from the program sponsor. Credit will be allowed in the renewal period in which the course is completed.

10.8(6) Credit may be allowed for self-study programs on the basis of one hour of credit for each 50 minutes spent on the self-study program if the developer of such programs is approved by either the national continuing professional education registry or by the NASBA continuing education registry and the program sponsor has not designated the amount of credit to be claimed for completing the course of study. The licensee has to estimate the equivalent number of hours and justify the amount of hours claimed. The maximum credit will not exceed 50 percent of the renewal obligation. Credit will be allowed in the renewal period in which the course is completed.

10.8(7) The credit allowed an instructor, discussion leader, or speaker will be on the basis of two hours for subject preparation for each hour of teaching. Credit for teaching college or university coursework may be claimed for courses taught above the elementary accounting or principles of accounting level. Repetitious presentations will not be considered. The maximum credit for such preparation and teaching will not exceed 50 percent of the renewal period obligation.

10.8(8) Credit may be awarded for published articles and books. The amount of credit so awarded will be determined by the board. Credit may be allowed for published articles and books provided they contribute to the professional competence of the licensee. Credit for preparation of such publications may be given on a self-declaration basis up to 25 percent of the renewal period obligation. In exceptional circumstances, a licensee may request additional credit by submitting the article(s) or book(s) to the board with an explanation of the circumstances that the licensee believes justify additional credit.

10.8(9) Credit may be allowed for the successful completion of professional examinations as detailed below. Credit is calculated at the rate of five times the length of each examination, which is presumed to include all preparation time, claimed in the calendar year of the examination, and limited to 50 percent of the total renewal obligation.

- a. Certified Management Accountant/CMA.
- b. Certified Information Systems Auditor/CISA.
- c. Certified Information Technology Professional/CITP.
- d. Certified Financial Planner/CFP.
- e. Enrolled Agent/EA.
- f. Certified Governmental Financial Manager/CGFM.
- g. Certified Government Auditing Professional/CGAP.
- h. Certified Internal Auditor/CIA.
- i. Accredited Business Valuation/ABV.
- j. Certified Financial Forensics/CFF.
- k. Certified Valuation Analyst/CVA.
- l. Certified Insolvency & Restructuring Advisor/CIRA.
- m. Forensic Certified Public Accountant/FCPA.
- n. Certified Fraud Examiner/CFE.
- o. Certified Business Analyst/CBA.
- p. Certified Trust and Financial Advisor/CTFA.
- q. Chartered Financial Analyst/CFA.
- r. Registered Representative, Series 6 and 7 and other examinations.
- s. Registered Investment Advisor/RIA.
- t. Certified Forensic Accountant/CrFA.
- u. Personal Financial Specialist/PFS.
- v. Chartered Life Underwriter/CLU.
- w. Fellow of the Society of Actuaries/FSA.
- x. Chartered Property & Casualty Underwriter/CPCU.
- y. Fellow Life Management Institute/FLMI.

z. Other similar examinations approved by the board.

10.8(10) Firm meetings for staff or management groups for the purpose of administrative and firm matters do not meet the standards set forth in subrule 10.8(1).

10.8(11) Dinner, luncheon and breakfast meetings of recognized organizations may qualify if they meet the appropriate standards and are limited to 25 percent of the total renewal obligation if the individual meeting is no more than two hours long.

10.8(12) Continuing professional education taken in nontechnical skills area as defined in rule 193A—10.2(542) is limited to 50 percent of the total renewal obligation.

10.8(13) The board may look to recognized state or national accounting organizations for assistance in interpreting the acceptability of and credit to be allowed for individual courses.

10.8(14) The right is specifically reserved to the board to approve or deny credit for continuing professional education claimed under these rules.

193A—10.9(542) Controls and reporting.

10.9(1) An applicant for renewal may be requested to provide, in such manner, including but not limited to the online renewal process, and at such time as set forth by the board, verification and documentation setting forth the continuing professional education in which the licensee has participated. The board may allow for attestation that the licensee has completed continuing education in lieu of providing a listing. If the applicant for renewal is requested to provide a listing of the continuing professional education completed, the documentation will include:

- a. School, firm or organization conducting the course and contact information.
- b. Location of course.
- c. Title of course or description of content.
- d. Principal instructor.
- e. Dates attended.
- f. Hours claimed.
- g. Certificate of completion.
- h. Name of participant.
- i. Course field of study.
- j. Type of instruction or delivery method.
- k. Amount of CPE recommended.
- l. Verification by CPE program sponsor representative.

Canceled checks and registration forms are NOT proof of attendance.

10.9(2) Sponsors of courses may be requested to furnish an attendance record, a certification of completion or any other information the board deems essential for administration of these continuing professional education rules.

10.9(3) The board will verify, on a test basis, information submitted by licensees. If an application for renewal is not approved, the applicant will be so notified and may be granted a period of time by the board in which to correct the deficiencies noted.

10.9(4) Primary responsibilities for documenting the continuing education compliance is with the licensee, and such documentation has to be retained for a period of three years subsequent to submission of the report claiming the credit. (Refer to 193A—subrule 14.3(1) and Iowa Code section 542.10(1) “a,” which provides for permanent revocation based on fraud or deceit in procuring a license.) Satisfaction of the obligations, including retention of attendance records, certification of completion records, and written outlines, may be accomplished as follows:

a. For courses taken for scholastic credit in accredited universities and colleges (state, community, or private) or high school districts, evidence of satisfactory completion of the course will be sufficient; for noncredit courses taken, a statement of the hours of attendance, signed by the instructor, will be obtained by the licensee.

b. For correspondence and formal independent self-study courses, written evidence or a certificate of completion from the sponsor or course provider will be obtained by the licensee.

c. In all other instances, the licensee will maintain a record of the information as listed in subrule 10.8(3).

193A—10.10(542) Grounds for discipline. A licensee or an applicant is subject to discipline, including permanent revocation, if the licensee or applicant provides false information to the board in connection with an application to renew or reinstate a certificate or license. A licensee or an applicant is also subject to discipline if the licensee or applicant is unable to document the continuing professional education hours reported to the board in connection with an audit or other request for documentation. False information of this nature will subject the licensee or applicant to discipline whether the false information was supplied intentionally or with reckless disregard for the truth or accuracy of the number of hours claimed. Licensees and applicants are accordingly cautioned to supply the board with accurate continuing professional education information.

193A—10.11(272C,542) Alternative continuing education cycles authorized.

10.11(1) Purpose. For a variety of reasons, some CPAs and LPAs may wish to complete their continuing education on a three-year cycle ending on a date other than December 31. By way of illustration, some licensees may prefer to take courses on particular substantive topics that are not always offered at the same time each year. Some licensees may wish to schedule continuing education to comply with the differing obligations of multiple jurisdictions. This rule is intended to authorize a more flexible time frame within which continuing education may be satisfied. This rule does not alter any other requirement of this chapter.

10.11(2) Declaration may vary by renewal cycle. A CPA or LPA applying to renew a certificate or license may declare a continuing education deadline of December 31 in one renewal cycle and a continuing education deadline of June 30 in a subsequent renewal cycle, and vice versa. Licensees are expected to maintain continuing education records in a manner that complies with the self-selected declaration in any particular renewal cycle.

These rules are intended to implement Iowa Code chapters 272C and 542.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 11 covers peer review, a function to occasionally review the work of licensees for quality assurance. This quality assurance helps provide the best possible services for Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of peer review is incurred by the licensees who, by the nature of their practice, require peer review every three years.
 - Classes of persons that will benefit from the proposed rulemaking:

Iowans requiring compilation or attest services will benefit from the knowledge that the work of their service provider is routinely reviewed for a quality assessment.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Costs to the Certified Public Accountant (CPA)/Licensed Public Account (LPA) individual or firm for peer review vary, based on the size of the firm, from \$250 (for an individual) to \$2,000 (for a firm of 50). For very large firms with diversified audit practices, peer review can cost approximately \$25,000. Peer review is required every three years.

- Qualitative description of impact:

Peer review plays an important role in maintaining the highest level of service to Iowans. Depending on the nature and severity of a deficient peer review report, licensees may be directed to take specific steps to improve their services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There is no direct cost to the agency; however, the Accountancy Examining Board may, within a regular meeting, discuss the results of a peer review report.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating peer review would reduce costs to the licensees who require it. However, the Board believes there could be an impact to public welfare due to the quality control nature of peer review.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There is no cost implication to the Department. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Department staff discussed all chapters of [193A] with the Board. No alternative methods were considered by the Department.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Peer review is a standard component among accountancy boards across the country.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Currently there are approximately 350 firms offering services that may mandate peer review every three years. Smaller firms pay a lower fee than larger firms. Peer review is a standard among licensing boards nationwide. Reducing the requirements to smaller firms jeopardizes the standard of equal treatment.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11
PEER REVIEW

193A—11.1(542) Peer review obligations. As a condition of renewal for a CPA or LPA who issues compilation reports other than through a CPA or LPA firm that holds a permit to practice, and as a condition of permit renewal for LPA firms that issue compilation reports or CPA firms that provide attest services or issue compilation reports, the applicant shall submit certification of completion of a peer review issued pursuant to this chapter. Such review needs to be completed at the highest level of service provided by the firm or licensee. The performance of preparation services under SSARS 21 does not alone subject a firm or individual to peer review, although if a firm or individual is otherwise subject to peer review, the reviewer may include preparation services in the scope of practices reviewed.

193A—11.2(542) Three-year cycle. During the three-year period ending December 31 preceding the application for renewal of a certificate, license, or permit to practice, the individual licensee or firm shall have completed a peer review in accordance with this chapter. A peer review shall be completed no less often than once every three years.

193A—11.3(542) System of internal quality control. If the firm has not performed any attest or compilation services prior to the application for renewal, the firm will have in place a system of internal quality control prior to the commencement of an engagement including attest or compilation services and come into compliance with the peer review obligations within 18 months of completion of an engagement including attest or compilation services.

193A—11.4(542) Peer review programs that qualify. A firm's completion of a peer review program endorsed or supported by the AICPA, National Society of Accountants or other substantially similar review programs in Iowa or other states approved by the board satisfies this chapter.

193A—11.5(542) Waiver of peer review. At the time of renewal, a licensee or firm may request a waiver from this chapter, as provided in Iowa Code sections 542.7(9) and 542.8(18).

193A—11.6(542) Submission of peer review reports. Unless the subject of a peer review timely objects in writing to the administering entity of the peer review program, the administering entity will make available to the board within 30 days of the issuance of the peer review acceptance letter the final peer review report or such peer review records as are designated by the peer review program in which the administering entity participates. The subject of a peer review may voluntarily submit the final peer review report directly to the board.

These rules are intended to implement Iowa Code chapter 542.

Purpose and Summary

The purpose of Chapter 12 is to provide helpful information on the fees to acquire and maintain a Certified Public Accountant (CPA)/Licensed Public Accountant (LPA) license, plus information on reinstating a lapsed license.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost to acquire and maintain a license is levied upon the licensees.
 - Classes of persons that will benefit from the proposed rulemaking:

Current and future licensees will benefit by knowing the various costs associated with a CPA/LPA license.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensing fees vary from state to state. From the data available, Iowa's licensing fees are in line with those of neighboring states.

- Qualitative description of impact:

The information in Chapter 12 captures fee information all in one place to aid individuals researching the cost to acquire and maintain a license.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the Department are for regular staff time needed to collect fees. Each business day, a ledger report is generated with updated calculations of fees collected. Staff salaries to support the work of the Accountancy Examining Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect on state revenues is significant, \$600,000 to \$650,000 annually.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating fees would have a positive impact on licensees. Iowa has not raised any fees in over ten years, and its fees are in line with neighboring jurisdictions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing or eliminating fees would be less costly to the licensee. Intrusion is necessary in order to keep any fees in place.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board regarding all chapters of [193A]. No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Iowa's fees are in line with those of neighboring jurisdictions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses about 500 CPA and LPA firms, some of which are small businesses. The Department does not currently collect data that would help determine the size of the business. Historically, fees have been assessed on an equal basis, regardless of the size of the firm.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 12 and adopt the following **new** chapter in lieu thereof:

CHAPTER 12
FEES

193A—12.1(542) Fees. The following is a schedule of the fees for examinations, certificates, licenses, permits and renewals adopted by the board:

| | |
|--|--|
| Initial CPA examination application: | |
| Paid directly to CPA examination services | not to exceed \$1,500 |
| Reexamination: | |
| Paid directly to CPA examination services | not to exceed \$1,500 |
| Original issuance of CPA certificate or LPA license by examination (fee includes wall certificate) | \$100 |
| Original issuance of CPA certificate by reciprocity or substantial equivalency | \$100 |
| CPA wall certificate or LPA license issued by reciprocity or substantial equivalency | \$50 |
| Replacement of lost or destroyed wall CPA certificate or LPA license | \$50 |
| Original issuance of attest qualification | \$100 |
| Annual renewal of CPA certificate or LPA license—active status | \$100 |
| Late renewal of CPA certificate or LPA license within 30-day grace period (July 1 to July 30)—active status | \$25 |
| Annual renewal of CPA certificate or LPA license—inactive status | \$50 |
| Late renewal of CPA certificate or LPA license within 30-day grace period (July 1 to July 30)—inactive status | \$10 |
| Original issuance of firm permit to practice | \$100 |
| Annual renewal of firm permit to practice | \$100 |
| Reinstatement of lapsed CPA certificate or LPA license | \$100 + renewal fee + \$25 per month of expired registration |
| Reinstatement of lapsed firm permit to practice | \$100 + renewal fee + \$25 per month of expired registration |
| Interstate Transfer Form | \$25 |
| License predetermination fee | \$25 |

193A—12.2(542) Reinstatement.

12.2(1) *Reinstatement of a lapsed CPA certificate or LPA license.* The fee for the reinstatement of a lapsed CPA certificate or LPA license is \$100 plus the renewal fee plus \$25 per month of expired registration up to a maximum of \$1,000.

12.2(2) *Reinstatement of lapsed firm permit to practice.* The fee for the reinstatement of a lapsed CPA or LPA firm permit to practice for applications is \$100 plus the renewal fee plus \$25 per month of expired registration up to a maximum of \$1,000.

12.2(3) *Applicants for reinstatement.* All applicants for reinstatement will be assessed the \$100 reinstatement fee. The \$25 per month penalty fee described in subrules 12.2(1) and 12.2(2) will not be assessed if the applicant for reinstatement did not, during the period of lapse, engage in any acts or practices for which an active CPA certificate, LPA license, or firm permit to practice as a CPA or LPA firm is necessary in Iowa. Falsely claiming an exemption from the monthly penalty fee is a ground for discipline; in addition, other grounds for discipline may arise from practicing on a lapsed certificate, license or permit to practice.

193A—12.3(542) Prorating of certain fees. Fees for the issuance of an original CPA certificate or LPA license, pursuant to rule 193A—5.3(542), or the issuance of an initial permit to practice to a CPA or LPA firm, pursuant to rule 193A—7.1(542), will not be prorated.

These rules are intended to implement Iowa Code chapter 542.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written comments concerning this Regulatory Analysis. Written comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 13 provides information in the important area of ethical conduct for licensees. This is helpful to the licensees and members of the public who may be concerned about business associations with licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the costs.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public who are doing business with the licensees.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensees who have complaints filed against them alleging unethical conduct may incur civil penalties should the Accountancy Examining Board vote to take action. Civil penalties may not exceed \$1,000 per offense. In 2022, there were no civil penalties resulting from unethical conduct.

- Qualitative description of impact:

The impact is on licensees, who are expected to adhere to the rules. Iowans are the primary beneficiary because Chapter 13 offers protection for Iowans, which is the mission of the Board.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Staff time is needed to review complaints against licensees regarding ethics/conduct allegations and coordinate with the Board for resolution. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. In 2022, there were no civil penalties resulting from unethical conduct.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Since there are no fees, the primary benefit is to Iowans who are protected by these rules. To reduce or eliminate the rules would put the public at significant risk.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no cost implications. Intrusion is necessary in order to protect Iowans and visitors doing business with the licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff engaged the Board in discussions on all chapters of the Accountancy Examining Board[193A]. No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Rules of professional ethics and conduct for licensed accountants are in place nationally. Iowa is consistent with all other licensing jurisdictions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking is mostly for individuals, not firms. However, all firms, large and small, are held to the same standards for professional ethics and conduct.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 13 and adopt the following **new** chapter in lieu thereof:

CHAPTER 13
RULES OF PROFESSIONAL ETHICS AND CONDUCT

193A—13.1(542) Applicability.

13.1(1) The AICPA Code of Professional Conduct is based upon the premise that the reliance of the public in general and of the business community in particular on sound financial reporting and on the implication of professional competence inherent in the authorized use of a board-regulated title relating to the practice of public accountancy imposes on persons engaged in such practice certain obligations both to their clients and to the public. These obligations, which the rules of professional ethics and conduct are intended to enforce where necessary, include the obligation to maintain independence of thought and action and a continued commitment to learning and professional improvement, to observe applicable generally accepted accounting principles and generally accepted auditing standards, to promote the public interest through sound and informative financial reporting, to hold the affairs of clients in confidence, and to maintain high standards of personal conduct in all professional activities in whatever capacity performed.

13.1(2) In addition to the rules specifically enumerated herein, and only to the extent applicable to certificate holders' and licensees' respective scope of practice, all certificate holders and licensees are obligated to comply with the AICPA Code of Professional Conduct. In the event of a conflict or inconsistency between the AICPA Code of Professional Conduct and rules specifically enumerated herein, the rules specifically enumerated herein prevail.

13.1(3) The rules of professional ethics and conduct apply to all professional services performed by all CPAs and LPAs whether or not they are engaged in the practice of public accountancy, except where the wording of a rule clearly indicates that the applicability is specifically limited to the practice of public accountancy.

13.1(4) A CPA or LPA engaged in the practice of public accountancy outside the United States will not be subject to discipline by the board for departing, with respect to such foreign practice, from any of the board's rules of professional ethics and conduct, so long as the CPA's or LPA's conduct is in accordance with the standards of professional conduct applicable to the practice of public accountancy in the country in which the CPA or LPA is practicing. However, even in such a case, if a CPA's or LPA's name is associated with financial statements in such manner as to imply that the CPA or LPA is acting as an independent public accountant and under circumstances that would entitle the reader of the financial statement to assume that United States practices are followed, the CPA or LPA will comply with applicable generally accepted engagement standards and applicable generally accepted accounting principles.

13.1(5) A CPA or LPA may be held responsible for compliance with the rules of professional ethics and conduct by all persons associated with the accountant in the practice of public accounting who are either under the accountant's supervision or are licensees, partners or shareholders in the accountant's practice.

13.1(6) CPAs and CPA firms exercising a practice privilege in Iowa or for a client with a home office in Iowa are subject to the professional standards set forth in this chapter.

13.1(7) These rules complement the grounds for discipline set out in 193A—Chapter 14.

193A—13.2(542) Rules applicable to all CPAs and LPAs.

13.2(1) *Cooperation with board inquiry.* A CPA or LPA will, when requested, respond to communications from the board within 30 days.

13.2(2) *Reporting convictions, judgments, and disciplinary actions.* In addition to any other reporting obligations in Iowa Code chapter 542 or these rules, a CPA or LPA needs to notify the board within 30 days of:

a. Imposition upon the CPA or LPA of discipline including, but not limited to, censure, reprimand, sanction, probation, civil penalty, fine, consent decree or order, or suspension, revocation or modification of a license, certificate, permit or practice rights by:

(1) The SEC, PCAOB, or IRS (by the Director of Practice); or

(2) Another state board of accountancy for cause other than failure to pay a professional fee by the due date or failure to complete continuing education obligations by another state board of accountancy; or

(3) Any other federal or state agency regarding the CPA's or LPA's conduct while rendering professional services; or

(4) Any foreign authority or credentialing body that regulates the practice of accountancy;

b. Occurrence of any matter reportable by the CPA or LPA to the PCAOB pursuant to Sarbanes-Oxley Section 102(b)(2)(f) as amended to December 29, 2022, and PCAOB rules and forms adopted pursuant thereto;

c. Any judgment, award or settlement of a civil action or arbitration proceeding in which the CPA or LPA was a party if the matter included allegations of gross negligence, violation of specific standards of practice, fraud, or misappropriation of funds in the practice of accounting; provided, however, licensed firms will notify the board regarding civil judgments, settlements or arbitration awards directly involving the firm's practice of public accounting in this state; or

d. Criminal charges, deferred prosecution or conviction or plea of no contest to which the CPA or LPA is a defendant if the crime is:

(1) Any felony under the laws of the United States or any state of the United States or any foreign jurisdiction; or

(2) Any crime, including a misdemeanor, if an essential element of the offense is dishonesty, deceit or fraud, as more fully described in Iowa Code section 542.5(2).

13.2(3) *Firm's duty to report.* Each firm will designate a CPA or LPA as responsible for firm licensure or office registration and responsible for reporting any matter reportable under this rule.

13.2(4) *Solicitation or disclosure of CPA examination questions and answers.* A CPA or LPA who solicits or knowingly discloses a Uniform CPA Examination question(s) or answer(s) without the written authorization of the AICPA has committed an act discreditable to the profession.

13.2(5) *Falsely reporting continuing professional education (CPE).* A CPA or LPA has committed an act discreditable to the profession when the CPA or LPA falsely reports CPE credits to the board.

193A—13.3(542) Rules applicable to CPAs and LPAs who use the titles in offering or rendering products or services to clients.

13.3(1) *Use of title.*

a. *Certified public accountant.* Only a person who holds an active, unexpired certificate and who complies with 193A—Chapter 5, Licensure Status and Renewal of Certificates and Licenses, and 193A—Chapter 10, Continuing Education, or a person lawfully exercising a practice privilege under Iowa Code section 542.20 may use or assume the title “certified public accountant” or the abbreviation “CPA” or any other title, designation, word(s), letter(s), abbreviation(s), sign, card, or device indicating that such person is a certified public accountant.

b. *Licensed public accountant.* Only a person holding a license as a licensed public accountant may use or assume the title “licensed public accountant” or the abbreviation “LPA” or any other title,

designation, word(s), letter(s), abbreviation(s), sign, card, or device indicating that such person is a licensed public accountant.

13.3(2) *Forms of practice.*

a. Certified public accountant firms. A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization has to apply for a permit to practice under Iowa Code section 542.7 and these rules as a firm of certified public accountants in order to use the title “CPAs” or “CPA firm,” as more fully described in 193A—Chapter 7.

b. Licensed public accounting firms. A sole proprietorship, corporation, partnership, limited liability company, or any other form of organization has to apply for a permit to practice under Iowa Code section 542.8 and these rules as a firm of licensed public accountants in order to use the title “LPAs” or “LPA firm,” as more fully described in 193A—Chapter 8.

13.3(3) *Acting through others.* A CPA or LPA is obligated to not allow others to carry out on the CPA’s or LPA’s behalf, either with or without compensation, acts which, if carried out by the CPA or LPA, would violate the rules of professional ethics and conduct.

193A—13.4(542) Audit, review and other attest services.

13.4(1) *Practice privilege.* All audit, review, and other attest services performed in Iowa or for a client with a home office in Iowa has to be performed through a CPA firm that holds an active Iowa firm permit to practice or through an out-of-state CPA firm exercising a practice privilege in compliance with Iowa Code sections 542.20(5) and 542.20(6) and associated rules and the peer review and ownership provisions of Iowa Code section 542.7. Unless Iowa certification is specifically mandated by a governmental body or client, the individual CPAs performing such attest services may either hold an active Iowa CPA certificate or exercise a practice privilege as more fully described in Iowa Code section 542.20. LPAs and LPA firms are not authorized to perform attest services.

193A—13.5(542) Compilation.

13.5(1) *Who can perform.* Only a CPA licensed under Iowa Code section 542.6 or 542.19, or any other applicable law or rule; an LPA licensed under Iowa Code section 542.8, or any other applicable law or rule; or a CPA exercising a practice privilege under Iowa Code section 542.20 may issue a report in standard form upon a compilation of financial information or otherwise provide compilation services in Iowa or for a client with a home office in Iowa. (Refer to rule 193A—6.4(542).)

13.5(2) *Peer review.* All individuals described in 193A—subrule 6.4(1) will satisfy peer review obligations, individually or through a peer review of a CPA or LPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or 542.8 or a CPA firm exercising a practice privilege under Iowa Code section 542.20.

193A—13.6(542) Rules applicable to tax practice. CPAs, LPAs, and persons who are not CPAs or LPAs may perform tax services in Iowa. The rules of professional ethics and conduct in this chapter apply to any CPA or LPA who is licensed in Iowa and to any CPA exercising a practice privilege in Iowa whenever such person informs the client or prospective client that the person is a CPA or LPA. Clients may be so informed in a number of ways, including oral or written representations, the display of a CPA certificate or LPA license, or use of the CPA or LPA title in advertising, telephone or Internet directories, letterhead, business cards or email.

These rules are intended to implement Iowa Code chapters 272C and 542.

Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 14 provides protection to Iowans because it publicly defines the Accountancy Examining Board’s disciplinary authority and grounds for which disciplinary action can be taken. This is important to both the public and to licensees because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, a licensee can be subject to discipline against a license. Iowans have the ability to submit a complaint to the Board, which can then investigate the allegation. The Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the general public. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with Certified Public Accountant/Licensed Public Accountant (CPA/LPA) licensees. Chapter 14 contains rules directly relating to protecting the public.

While a low number of complaints can call into question the extent to which a profession needs to be regulated, accountancy is a profession that is highly technical and complicated in nature and requires a high level of skill. Iowans rely on the accountancy profession, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is a relatively small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the cost because the complicated services offered by the accountancy profession require advanced education and training. There is a potential cost to licensees against whom disciplinary action is taken, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is in providing detailed information on the Board's authority and examples of what may be grounds for discipline, all of which is designed to help protect the welfare of the public. Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. Inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$3,500 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the cost because the profession of accountancy requires an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 21 complaints and issued 11 public disciplinary actions. While a low number of complaints can call into question the extent to which

a profession needs to be regulated, the profession of accountancy requires an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service from licensed professionals. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided in Iowa Code chapter 542. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board has a long history of treating all licensees equally. Licensed accountancy firms are subject to discipline in the same manner as licensed individuals. To reduce the Board's authority over firms would reduce the protection to the public.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 14 and adopt the following **new** chapter in lieu thereof:

CHAPTER 14 DISCIPLINARY AUTHORITY AND GROUNDS FOR DISCIPLINE

193A—14.1(17A,272C,542) Disciplinary authority. The board exercises disciplinary authority for the protection and well-being of those persons who rely on licensed individuals and firms for the performance of public accounting services within this state or for clients in this state. To perform these functions, the board is broadly vested with authority to review and investigate alleged acts or omissions of licensees, determine whether disciplinary proceedings are warranted, initiate and

prosecute disciplinary proceedings, establish standards of professional conduct, and impose discipline, as authorized under Iowa law.

193A—14.2(17A,272C,542) Disciplinary policy.

14.2(1) The board's disciplinary policy rests upon the premise that the reliance of the public in general and of the business community in particular on sound financial reporting, and on the implication of professional competence inherent in the authorized use of a licensee's regulated title relating to the practice of public accountancy, imposes on persons and firms engaged in such practice certain obligations both to their clients and to the public. These obligations include the obligation to maintain independence of thought and action; to strive continuously to improve one's professional skills; to observe, where applicable, generally accepted accounting principles, generally accepted auditing standards, and similar principles and standards; to promote sound and informative financial reporting; to hold the affairs of clients in confidence; and to maintain high standards of personal conduct in all matters affecting one's fitness to practice public accountancy.

14.2(2) The public interest dictates that persons professing special competence in accountancy have demonstrated their qualifications to do so, and that persons who have not demonstrated and maintained such qualifications not be permitted to represent themselves as having such special competence; that the conduct of persons licensed as having special competence in accountancy be regulated in all aspects of their professional work; and that the use of titles that have a capacity or tendency to deceive the public as to the status or competence of the persons using such titles not be permitted.

14.2(3) A CPA or LPA firm is subject to discipline for its own violations of Iowa Code chapter 542 and administrative rules and the violations of the firm's CPAs, LPAs, nonlicensee owners, persons acting or purporting to act under a practice privilege, and others performing professional services on the firm's behalf. Whether a CPA or LPA firm will be charged based on the acts of such individuals will depend on the circumstances. Among the factors the board will consider are whether the firm took reasonable steps to prevent the violation, whether the violation was or could have been discovered by the firm upon reasonable inquiry, what steps the firm took upon discovering the violation, whether the acts or omissions involved licensees of the board or were committed by persons who are not individually licensed by the board, the nature of the services at issue, and whether the violations are isolated matters or more systemic to the firm's performance.

193A—14.3(17A,272C,542) Grounds for discipline. The board may initiate disciplinary action against a CPA or LPA, or a firm of CPAs or LPAs that holds an active, inactive or lapsed certificate, license or permit to practice on any of the following grounds:

14.3(1) *Fraud or deceit in procuring a license.* Fraud or deceit in procuring or attempting to procure an initial, reciprocal, renewal, or reinstated certificate, license, or permit to practice includes any intentional perversion of the truth when submitting an application to the board, or when submitting information in support of another's application to the board, including:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed.

b. Attempting to file or filing with the board any false or forged record or document, such as a college transcript, diploma or degree, examination report, verification of licensure, continuing education certificate, or verification of peer review.

c. Failing or refusing to provide complete information in response to a question on an application.

d. Reporting information, such as satisfaction of continuing education, peer review, or attest qualification, in a false manner through overt deceit or with reckless disregard for the truth or accuracy of the information asserted.

e. Otherwise participating in any form of fraud or misrepresentation by act or omission.

14.3(2) *Professional incompetence.* Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the practice of public accounting.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimum standards of acceptable and prevailing practice of public accounting in this state.

e. A willful, repeated, or material deviation from generally accepted engagement standards, generally accepted accounting standards, generally accepted auditing standards, or any other nationally recognized standard applicable to the public accounting services at issue.

f. Any other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest.

14.3(3) *Deceptive practices.* Deceptive practices are grounds for discipline, whether or not actual injury is established, and include:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of public accounting.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public that is false, deceptive, misleading or promoted through fraud or misrepresentation.

c. Acceptance of any fee by fraud or misrepresentation.

d. Falsification of business or client records.

e. Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education, reports submitted as a condition of probation, or any reports identified in this rule or 193A—Chapter 18.

f. Knowingly presenting as one's own a certificate, license, or permit to practice, or a certificate, license, or permit number, or the signature of another or of a fictitious licensee, or otherwise falsely impersonating a person holding a CPA certificate or LPA license, or a permit to practice as a firm of CPAs or LPAs.

g. Representing oneself as a CPA, LPA, CPA firm, or LPA firm when the certificate, license, or permit to practice has been suspended, revoked, surrendered, or placed on inactive status, or has lapsed, except as allowed under Iowa Code section 542.20.

h. Fraud in representations as to skill or ability.

14.3(4) *Unethical, harmful or detrimental conduct.* Licensees engaging in unethical conduct or practices harmful or detrimental to the public may be disciplined whether or not injury is established. Behaviors and conduct that are unethical, harmful or detrimental to the public may include, but are not limited to, the following actions:

a. Verbal or physical abuse, or improper sexual contact, if such behavior occurs within the practice of public accounting or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior within the practice of public accounting would place the public at risk.

b. A violation of a rule of professional conduct relating to improper conflicts of interest, or lack of integrity, objectivity or independence, as provided in the AICPA Code of Professional Conduct.

c. A violation of a provision of Iowa Code section 542.13, or aiding or abetting any unlawful activity for which a civil penalty can be imposed under Iowa Code sections 542.13 and 542.14.

14.3(5) *Lack of proper qualifications.* Lack of proper qualifications includes, but is not limited to:

a. Continuing to practice as a CPA or LPA without satisfying the continuing education necessary for certificate or license renewal.

b. Continuing to perform attest services or compilation services without timely completion of peer review.

c. Performing attest services as an individual without proper certification or attest qualification, or without acting through a CPA firm holding a permit to practice pursuant to Iowa Code section 542.7 or exercising a practice privilege pursuant to Iowa Code section 542.20.

d. Performing attest services as a firm without holding a permit to practice pursuant to Iowa Code section 542.7 or exercising a practice privilege pursuant to Iowa Code section 542.20, or without ensuring that the individuals responsible for supervising attest services or signing or authorizing someone to sign the accountant's report are attest-qualified, hold the necessary certification or are eligible to exercise a practice privilege, or otherwise performing attest services in a manner inconsistent with Iowa Code chapter 542 or the rules of the board.

e. Habitual intoxication or addiction to the use of drugs, or impairment that adversely affects the CPA's or LPA's ability to practice in a safe and competent manner.

f. Any act, conduct, or condition, including lack of education or experience and careless or intentional acts or omissions, that demonstrates a lack of qualifications that are necessary to ensure a high standard of professional care as provided in Iowa Code section 272C.3(2) "b," or that impairs a practitioner's ability to safely and skillfully practice the profession.

14.3(6) *Negligence in the practice of public accounting.* Negligence in the practice of public accounting includes the following acts, practices, or omissions, whether or not injury results:

a. Failure or refusal without good cause to exercise reasonable diligence in the practice of public accounting.

b. A failure to exercise due care including negligent delegation of duties in the practice of public accounting.

c. Neglect of contractual or other duties to a client.

14.3(7) *Professional misconduct.* Professional misconduct includes, but is not limited to, the following:

a. Violation of a generally accepted engagement standard, generally accepted accounting standard, generally accepted auditing standard, or any other nationally recognized standard applicable to the public accounting services at issue, as provided in rule 193A—13.4(542), or any other violation of a provision of the AICPA Code of Professional Conduct.

b. Violation of a regulation or law of this state, another state, the United States, or the PCAOB in the practice of public accounting.

c. Engaging in any conduct that subverts or attempts to subvert a board investigation of a licensed or unlicensed firm, individual, or other entity, or failure to fully cooperate with a disciplinary investigation of a licensee or with an investigation of firms, individuals or other entities that are not licensed by the board, including, without limitation, failure to comply with a subpoena issued by the board or to respond to a board inquiry within 30 days.

d. Revocation, suspension, or other disciplinary action taken against a licensee or person or firm exercising a practice privilege by a licensing authority of this state or another state, territory, or country. A stay by an appellate court does not negate the obligation to report such incidents to the board; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action will be vacated.

e. Suspension or revocation of the right to practice before any state or federal agency, or the PCAOB.

f. Violating Iowa Code section 542.17.

g. Violating Iowa Code section 542.18.

h. Violating or aiding and abetting another's violation of Iowa Code section 542.13 or 542.20.

i. Violating the terms of an initial agreement with the Iowa professionals review committee or violation of the terms of an impaired practitioner recovery contract with the Iowa professionals review committee.

j. Violating a practice privilege afforded to an Iowa licensee in another state.

k. Engaging in the practice of public accounting on a lapsed or inactive certificate, license or permit when the acts or practices obligate active Iowa licensure and, in the case of a firm, allowing such acts or practices by firm CPAs or LPAs.

14.3(8) *Willful or repeated violations.* The willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 542 or any administrative rule adopted by the board in the administration or enforcement of such chapters.

14.3(9) Failure to report.

- a. Failure by a CPA firm to timely report as provided in rule 193A—7.7(542).
- b. Failure of an LPA firm to timely report as provided in rule 193A—8.5(542).
- c. Failure to timely report judgments and settlements and reportable violations by others as provided in 193A—Chapter 18.
- d. Failure to report in writing to the board any issuance, denial, revocation, or suspension of a license by another state, or the voluntary surrender of a license to resolve a pending disciplinary investigation or action, within 30 calendar days of the licensing authority's final action.
- e. Failure to report the conviction of any felony, or a crime described in Iowa Code section 542.5(2), within 30 calendar days of the conviction.
- f. Failure to report to the board a change in the licensee's physical or mailing address within 30 calendar days of the change.
- g. Failure to report as provided in 193A—subrule 13.4(3) or as otherwise required in the AICPA Code of Professional Conduct.

14.3(10) Failure to comply with board order. Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order, or other decision imposing discipline.

14.3(11) Conviction of a crime. Conviction of any crime described in Iowa Code section 542.5(2) and as limited by Iowa Code section 272C.10(5) is grounds for denial, revocation, or suspension of a license. "Conviction" includes any plea of guilty or nolo contendere, including Alford pleas, or finding of guilt whether or not judgment or sentence is deferred, withheld, not entered, or suspended, and whether or not the conviction is on appeal. If such conviction is overturned or reversed by a court of last resort, discipline by the board based solely on the conviction is vacated.

14.3(12) Conduct discreditable to the accounting profession. Conduct discreditable to the accounting profession includes any act or practice that diminishes the public's confidence in the profession, impairs the credibility of the profession, or otherwise compromises the public's trust. While it is not possible to list all conduct that is discreditable to the accounting profession, the following list provides an illustrative range of acts or practices that are implicated:

- a. Dishonesty in business or financial affairs, or a pattern of fiscal irresponsibility.
- b. Placement on the sex offender registry.
- c. Securities fraud or violation of the Iowa consumer fraud Act.
- d. Willful or repeated failure to timely file tax returns or other tax documents.
- e. False testimony in a court or administrative proceeding, or affidavit, or otherwise under oath.
- f. Providing false or misleading information to a financial institution or governmental body or official.
- g. Stating or implying an ability to improperly influence a government agency or official, or attempting to do so through deception, bribery or other unlawful means.
- h. Violation of a breach of fiduciary duty when acting in the capacity of a trustee, conservator, or other fiduciary, or as the professional advisor to a fiduciary.
- i. Any violation of Iowa Code chapter 542 or administrative rules that involves dishonesty, bad faith, or unethical behavior.

These rules are intended to implement Iowa Code chapters 17A, 272C and 542 and section 546.10.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Proposed Chapter 15 covers disciplinary investigations and highlights the Accountancy Examining Board’s process for resolving complaints against licensees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with CPA/LPA licensees. Chapter 15 contains rules directly relating to protecting the public. While a low number of complaints can call into question the extent to which a profession needs to be regulated, accountancy is a profession that is highly technical and complicated in nature and requires a high level of skill. Iowans rely on the accountancy profession, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are very few complaints that require an investigation outside the scope of Board staff, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the complicated services offered by the accountancy profession require advanced education and training. There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is providing detailed information on the Board's process to resolve complaints filed by the public. Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. There is also a potential cost to the agency if a peer reviewer is hired as an investigator at a rate of \$345 per hour with a fee cap of \$2,250. In 2022, there were no peer reviewers/investigators hired by the Board. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the low cost because the profession of accountancy requires an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 21 complaints and issued 11 public disciplinary actions. No outside investigators were necessary in 2022. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the profession of accountancy requires an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service from licensed professionals. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided for in Iowa Code chapter 542. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board has a long history of treating all licensees equally. Licensed accountancy firms are subject to discipline in the same manner as licensed individuals. To reduce the Board's authority over firms would reduce the protection to the public.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 15 and adopt the following **new** chapter in lieu thereof:

CHAPTER 15 DISCIPLINARY INVESTIGATIONS

193A—15.1(17A,272C,542) Initiation of disciplinary investigations. The board may initiate a licensee disciplinary investigation upon the board's receipt of information suggesting that a licensee may have violated a law or rule enforced by the board which, if true, would constitute grounds for licensee discipline. The board may also review the publicly available work product of licensees on a general or random basis to determine whether reasonable grounds exist to initiate disciplinary proceedings or to conduct a more specific investigation.

193A—15.2(17A,272C,542) Conflict of interest. If the subject of a complaint is a member of the board, or if a member of the board has a conflict of interest in any disciplinary matter before the board, that member will abstain from participation in any consideration of the complaint and from participation in any disciplinary hearing that may result from the complaint.

193A—15.3(272C,542) Complaints. Written complaints may be submitted by any means and by anyone.

15.3(1) Contents of a written complaint. Written complaints may be submitted through the online complaint process. Written complaints, whether submitted on a board complaint form or in other written medium, will contain the following information:

- a. The full name, address, and telephone number of the complainant (person complaining).
- b. The full name, address, and telephone number of the respondent (licensee against whom the complaint is filed).
- c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions which the complainant believes demonstrate that the respondent has violated or is violating laws or rules enforced by the board.
- d. If known, citations to the laws or rules allegedly violated by the respondent.
- e. Evidentiary supporting documentation.
- f. Steps, if any, taken by the complainant to resolve the dispute with the respondent prior to filing a complaint.

15.3(2) Immunity. As provided by Iowa Code section 272C.8, a person is not civilly liable as a result of filing a report or complaint with the board unless such act is done with malice, nor may an employee be dismissed from employment or discriminated against by an employer for filing such a report or complaint.

15.3(3) Role of complainant. The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding that may be initiated by the board.

15.3(4) Role of the board. The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

15.3(5) Initial complaint review. All written complaints received by the board are initially reviewed by the board's administrator to determine whether the complaint allegations fall within the board's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for licensee disciplinary action. Complaints that are clearly outside the board's jurisdiction, which clearly do not allege facts upon which disciplinary action would be based, or which are frivolous, will be referred by the board administrator to the board for closure at the next scheduled board meeting.

193A—15.4(272C,542) Case numbers. Complaint files are tracked by a case numbering system. Once a case file number is assigned to a complaint, all persons communicating with the board regarding that complaint are encouraged to include the case file number to facilitate accurate records and prompt response.

193A—15.5(272C,542) Confidentiality of complaint and investigative information.

15.5(1) General provisions. All complaint and investigative information received or created by the board is privileged and confidential pursuant to Iowa Code section 272C.6(4). Such information will not be released to any person except as provided in that section and this rule.

15.5(2) Confidentiality of PCAOB information and records.

a. The PCAOB was created by the Sarbanes-Oxley Act of 2002 (the Act) as a nonprofit corporation under the laws of the District of Columbia. The duties of the PCAOB include the registration of public accounting firms that prepare audit reports for public companies; the promulgation of rules (as approved by the SEC) for auditing, quality control, ethics, independence and other standards relating to the preparation of audit reports; the inspection of registered public accounting firms; the investigation of alleged standards violations; and the imposition of appropriate sanctions following disciplinary proceedings.

b. Pursuant to Section 105(b)(5)(A) of the Act and PCAOB rules, PCAOB investigatory information and records are confidential and privileged, and exempt from disclosure under the federal Freedom of Information Act. PCAOB, in its discretion, may share such information and records, along with the nonpublic sections of inspection reports, with state regulatory authorities as necessary to accomplish the purposes of the Act or to protect investors. As provided in Section 105(b)(5)(B) of the Act, state regulatory authorities also maintain such information and records as confidential and privileged, and the board will maintain that information as confidential.

15.5(3) Disclosure to the subject of the investigation.

a. *Legal authority.* Pursuant to Iowa Code section 546.10(9), the board may supply to a licensee who is the subject of a disciplinary complaint or investigation, prior to the initiation of a disciplinary proceeding, all or such parts of a disciplinary complaint, disciplinary or investigatory file, report, or other information, as the board in its sole discretion believes would aid the investigation or resolution of the matter.

b. *General rule.* As a matter of general policy, the board will not disclose confidential complaint and investigative information to a licensee except as permitted by Iowa Code section 272C.6(4). Disclosure of a complainant's identity in advance of the filing of formal disciplinary charges, for instance, may adversely affect a complainant's willingness to file a complaint with the board.

c. *Exceptions to general rule.* The board may exercise its discretion to release information to a licensee that would otherwise be confidential under Iowa Code section 272C.6(4) under narrow circumstances, including but not limited to the following:

(1) Following a board determination that probable cause exists to file disciplinary charges against a licensee and prior to the issuance of the notice of hearing, the board may provide the licensee with a peer review or investigative report or expert opinions, as reasonably needed for the licensee to assess the merits of a settlement proposal.

(2) The board may release to a licensee who is the subject of a board-initiated investigation, including investigations initiated following the board's receipt of an anonymous complaint, such records or information as may aid the investigation or resolution of the matter.

(3) The board may release information from a peer review or consultant's report when the soliciting of the licensee's position will aid in making the probable cause determination, and such disclosure can be made to the licensee without revealing identifying information regarding the complainant, peer reviewer or consultant.

193A—15.6(17A,272C,542) Subpoena authority. Pursuant to Iowa Code subsections 17A.13(1), 272C.6(3) and 542.11(1), the board is authorized in connection with a disciplinary investigation to issue subpoenas to compel witnesses to testify or persons to produce books, papers, records and any other real evidence, whether or not privileged or confidential under law, which the board deems necessary as evidence in connection with a disciplinary proceeding or relevant to the decision of whether to initiate a disciplinary proceeding. Board procedures concerning investigative subpoenas are set forth in 193—Chapter 6.

193A—15.7(17A,272C,542) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear for a voluntary informal discussion of the facts and circumstances of an alleged violation, subject to the provisions of this rule.

15.7(1) An informal discussion is intended to provide a licensee an opportunity to share the licensee's side of a complaint in an informal setting before the board determines whether probable cause exists to initiate a disciplinary proceeding. A licensee may attend an informal discussion but is not compelled to do so. Because disciplinary investigations are confidential, a licensee is not permitted to bring persons other than legal counsel to an informal discussion. Where an allegation is made against a firm, the firm may be represented by a managing partner, member or other firm representative.

15.7(2) Unless disqualification is waived by the licensee, board members or staff who personally investigate a disciplinary complaint are disqualified from making decisions or assisting the decision makers at a later formal hearing. Because board members generally rely upon investigators, peer

review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question and answer format. In order to preserve the ability of all board members to participate in board decision making and to receive the advice of staff, a licensee who desires to attend an informal discussion waives the right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. A licensee would not be waiving the right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

15.7(3) Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence.

15.7(4) The board may propose a consent order at the time of the informal discussion. If the licensee agrees to a consent order, a statement of charges is filed simultaneously with the consent order, as provided in rule 193—7.4(17A,272C).

193A—15.8(17A,272C,542) Closing complaint files.

15.8(1) *Grounds for closing.* The board may close a complaint file, with or without prior investigation. Given the broad scope of matters members of the public may complain about, it is not possible to catalog all possible reasons why the board may close a complaint file.

15.8(2) *Closing orders.* The board's administrator may enter an order stating the basis for the board's decision to close a complaint file. If entered, the order will not contain the identity of the complainant or the respondent and will not disclose confidential complaint or investigative information.

If entered, a closing order will be indexed by case number and is a public record pursuant to Iowa Code section 17.3(1)“d.” A copy of the order may be mailed to the complainant, if any, and to the respondent. The board's decision whether or not to pursue an investigation, to institute disciplinary proceedings, or to close a file is not subject to judicial review.

15.8(3) *Cautionary letters.* The board may issue a confidential letter of caution to a licensee when a complaint file is closed that informally cautions or educates the licensee about matters that could form the basis for disciplinary action in the future if corrective action is not taken by the licensee. Informal cautionary letters do not constitute disciplinary action, but the board may take such letters into consideration in the future if a licensee continues a practice about which the licensee has been cautioned.

15.8(4) *Reopening closed complaint files.* The board may reopen a closed complaint file if additional information arises after closure that provides a basis to reassess the merits of the initial complaint.

These rules are intended to implement Iowa Code chapters 17A, 272C and 542.

Purpose and Summary

Proposed Chapter 16 provides protection to Iowans because it publicly outlines the Accountancy Examining Board’s process for disciplinary proceedings. This is important to both the public and to the licensee because it creates a shared understanding of expectations regarding disciplinary matters. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the general public. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with Certified Public Accountant (CPA)/Licensed Public Accountant (LPA) licensees. Chapter 16 contains rules directly relating to protecting the public. While a low number of complaints can call into question the extent to which a profession needs to be regulated, accountancy is a profession that is highly technical and complicated in nature and requires a high level of skill. Iowans rely on the accountancy profession, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is a relatively small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the complicated services offered by the accountancy profession require advanced education and training. There is a potential cost to licensees when disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is providing detailed information on the Board's authority and examples of what may be grounds for discipline, all designed to help protect the welfare of the public. Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$3,500 was paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the low cost because the profession of accountancy requires an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 21 complaints

and issued 11 public disciplinary actions. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the profession of accountancy requires an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service from licensed professionals. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided for in Iowa Code chapter 542. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board has a long history of treating all licensees equally. Licensed accountancy firms are subject to discipline in the same manner as licensed individuals. To reduce the Board's authority over firms would reduce the protection to the public.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 16 and adopt the following **new** chapter in lieu thereof:

CHAPTER 16 DISCIPLINARY PROCEEDINGS

193A—16.1(17A,272C,542) Initiation of disciplinary proceedings. Disciplinary proceedings may be initiated only by the affirmative vote of a majority of a quorum of the board at a public meeting. Board members who are disqualified will be excluded in determining whether a quorum exists. If, for example, two members of the board are disqualified, four members of the board constitutes a quorum of the remaining six board members for purposes of voting on the case in which the two members are

disqualified. When three or more members of the board are disqualified or otherwise unavailable for any reason, the administrator may request the special appointment of one or more substitute board members pursuant to Iowa Code section 17A.11(5).

193A—16.2(17A,272C,542) Disciplinary contested case procedures. Unless in conflict with a provision of Iowa Code chapter 542 or board rules in this chapter, all of the procedures set forth in 193—Chapter 7 apply to disciplinary contested cases initiated by the board.

193A—16.3(272C,542) Disciplinary sanctions.

16.3(1) *Type of sanctions.* The board has authority to impose the following disciplinary sanctions:

a. Revoke a license issued by the board. In the event of a revocation, the licensee is not allowed to remain a member, partner or shareholder of a business entity if the law dictates that all members, partners or shareholders of such an entity be actively involved.

b. Suspend a license issued by the board. A CPA or LPA who is under suspension will refrain, during the period of the suspension, from all facets of the ordinary practice of public accounting.

c. Revoke or suspend the privilege to engage in one or more areas of the practice of public accounting.

d. Impose a period of probation. As a condition to a period of probation, the board may impose terms and conditions deemed appropriate by the board, which may include, but are not limited to, the following:

(1) The board may order the licensee to undergo a quality review or desk review under the board's supervision. The licensee will select, subject to approval by the board, a CPA, LPA, or a firm of CPAs or LPAs. The review cost will be paid by the licensee. The board will be furnished a copy of the report issued by the reviewing party and may order remedial actions or education as a result of the report findings.

(2) The board may order the licensee to enter into an agreement with a CPA, an LPA, or a firm of CPAs or LPAs to obtain a preissuance review of any audits, compilations, or reviews issued by the licensee or other public accounting services performed during the probationary period. The agreement will be preapproved by the board. The board may order the licensee to report regularly concerning the preissuance reviews conducted pursuant to the agreement. Any cost incurred in obtaining preissuance review will be paid by the licensee.

(3) A substance abuse evaluation and such care and treatment appropriate under the circumstances.

e. Specify that a designated amount of continuing education be taken in specific subjects and may specify the time period for completing these courses. The board may also specify whether that continuing education be in addition to the continuing education routinely necessary for license renewal. The board may also specify that additional continuing education be a condition for the termination of any suspension or reinstatement of a certificate, permit, license, or registration. The board may also specify that current reference materials be obtained and maintained.

f. Obligate the licensee to undergo reexamination, using one or more parts of the CPA or LPA examination given to candidates for the CPA certificate or the LPA license.

g. Impose civil penalties pursuant to Iowa Code section 542.14(2).

h. Issue a reprimand.

i. Order the licensee to alter a professional practice or refrain from engaging in a particular act or practice in the future, notify clients of unlicensed or unprofessional conduct, or take such other remedial measures that are appropriate under the public interest and circumstances of the infraction.

j. Order such alternative discipline as is allowed by law.

16.3(2) *Imposing discipline.* Discipline may be imposed against a licensee only by the affirmative vote of a majority of the members of the board who are not disqualified.

16.3(3) *Voluntary surrender.* The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such a voluntary surrender is

considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

16.3(4) Client notification. Whenever a license is revoked, suspended, under probation, or voluntarily surrendered under this chapter, the licensee will:

a. Within 30 days of receipt of the board's final order, notify in writing all clients of the fact that the license has been revoked, suspended or voluntarily surrendered or that the licensee is under probation and the subject of compliance terms imposed by the board; for example, the licensee may agree to discontinue governmental audits while the licensee's license is under probation. Such notice will advise the client to obtain alternative professional services, unless probationary compliance terms at issue would not impact the public accounting services provided for that client;

b. Within 30 days of receipt of the board's final order, file with the board copies of the notices sent pursuant to paragraph 16.3(4) "*a.*" Compliance with this paragraph is a condition precedent for an application for reinstatement.

193A—16.4(272C,542) Notification of decisions. The board will notify NASBA of disciplinary action taken against an Iowa licensee.

193A—16.5(272C,542) Reinstatement.

16.5(1) The term "reinstatement" as used in this rule and in rule 193—7.38(17A,272C) includes the reinstatement of a suspended license, the modification or removal of a probationary limitation on a licensee's practice, the issuance of a license following the denial of an application to renew a license, and the issuance of a new license following the revocation or voluntary surrender of a license.

16.5(2) Any person whose license has been revoked, suspended or placed under probation by the board, or who has voluntarily surrendered a license to conclude a disciplinary investigation or proceeding, or whose application to renew a license has been denied may apply to the board to modify or terminate the suspension, issue or reissue the license, or modify or remove the probationary limitations of practice in accordance with Iowa Code section 542.12, rule 193—7.38(17A,272C), the provisions of this rule, and the terms of the order of revocation, suspension or probation, denial of license renewal, or acceptance of voluntary license surrender.

16.5(3) If the applicable order did not establish terms upon which the licensee may apply for reinstatement, an initial application for reinstatement may be made after at least one year has elapsed from the date of the order that revoked, suspended or placed under probation the license, denied license renewal, or accepted a voluntary surrender.

16.5(4) All proceedings for reinstatement are initiated by the respondent and subject to the procedures set forth in rule 193—7.38(17A,272C). In addition, the board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on the application if the applicant requests an informal appearance in the application and agrees not to seek to disqualify on the ground of personal investigation the board members or staff before whom the applicant appears.

16.5(5) An order granting an application for reinstatement may impose such terms and conditions as the board deems desirable, which may include one or more of the types of disciplinary sanctions described in rule 193A—16.3(272C,542).

16.5(6) The board will not grant an application for reinstatement when the initial order which revoked, suspended or placed under probation the license, denied license renewal, or accepted a voluntary surrender was based on a criminal conviction and the applicant cannot demonstrate to the board's satisfaction that:

- a.* All the terms of the sentencing or other criminal order have been fully satisfied;
- b.* The applicant has been released from confinement and any applicable probation or parole; and
- c.* Restitution has been made or is reasonably in the process of being made to any victims of the crime.

These rules are intended to implement Iowa Code chapters 17A, 272C, and 542.

More phone numbers:
tel.meet/bfq-qaeb-nwu?pin=7324359836726

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. If you need special accommodations to participate, please call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Chapter 17 provides useful information on the Accountancy Examining Board’s options for resolutions of complaints against nonlicensees practicing accountancy. This is important to the public because it creates a shared understanding of options available to the Board when a nonlicensee engages in activities requiring a license. Iowans have the ability to submit a complaint to the Board, which can then investigate the allegation. The Board has the ability to seek discipline against nonlicensees for those items outlined, ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the general public. Unlicensed individuals may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000, per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with accountants. Chapter 17 contains rules directly relating to protecting the public. While a low number of complaints can call into question the extent to which a profession needs to be regulated, accountancy is a profession that is highly technical and complicated in nature and requires a high level of skill. Iowans rely on the accountancy profession, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is a potential cost to an individual against whom disciplinary action is taken, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is in providing detailed information on the Board's authority and examples of what may be grounds for discipline, all of which is designed to help protect the welfare of the public. Establishing minimum requirements and imposing discipline when requirements are not met ensures safety for the consumer. Inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$3,500 was paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the low cost because the profession of accountancy requires an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 21 complaints and issued 11 public disciplinary actions, but none were regarding unlicensed practice. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the profession of accountancy requires an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided in Iowa Code chapter 542. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board has a long history of treating all licensees equally. Licensed accountancy firms are subject to discipline in the same manner as licensed individuals. To reduce the Board's authority over firms would reduce the protection to the public.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 17 and adopt the following **new** chapter in lieu thereof:

CHAPTER 17 ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES

193A—17.1(542) Civil penalties against nonlicensees. The board may order compliance with Iowa Code chapter 542 and board rules, revoke a practice privilege, and impose civil penalties by order against a firm, other entity, or individual that is not licensed by the board pursuant to Iowa Code chapter 542, based on the unlawful practices specified in Iowa Code sections 542.13 and 542.20. In addition to the procedures set forth in Iowa Code section 542.14, this chapter applies.

193A—17.2(17A,542) Investigations. The board is authorized by Iowa Code subsection 17A.13(1) and Iowa Code section 542.11 to conduct such investigations as are needed to determine whether grounds exist to impose civil penalties against a nonlicensee. Such investigations will conform to the procedures outlined in 193A—Chapter 15. Complaint and investigatory files concerning nonlicensees are not confidential except as may be provided in Iowa Code chapter 22.

193A—17.3(17A,542) Notice of intent to impose civil penalties. The notice of the board’s intent to issue an order to enforce compliance with Iowa Code chapter 542 and board rules and to impose a civil penalty will be served upon the nonlicensee by certified mail, return receipt requested, or personal service in accordance with Iowa R. Civ. P. 1.305. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

1. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
2. Reference to the particular sections of the statutes and rules involved.
3. A short, plain statement of the alleged unlawful practices.
4. The dollar amount of the proposed civil penalty, the nature of the intended order to enforce compliance with Iowa Code chapter 542 and board rules, and whether a practice privilege will be revoked.
5. Notice of the nonlicensee’s right to a hearing and the time frame in which hearing can be requested.
6. The address to send a written request for hearing.

193A—17.4(17A,542) Request for hearing.

17.4(1) Nonlicensees have 30 days to request a hearing. The 30-day time frame begins on the date the notice is mailed if served through certified mail to the last-known address, or 30 days from the date of service if service is accepted or made in accordance with Iowa R. Civ. P. 1.305. A request for hearing has to be in writing and is deemed made on the date of the nonmetered United States Postal Service postmark or the date of personal service.

17.4(2) If a request for hearing is not timely made, the board chairperson or the chairperson’s designee may issue an order imposing the civil penalty, revoking the practice privilege, and requiring compliance with Iowa Code chapter 542 and board rules, as described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

17.4(3) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to disciplinary cases against licensees.

17.4(4) A nonlicensee may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty, revoking the practice privilege, and requiring compliance with Iowa Code chapter 542 and board rules at any stage of the proceeding upon mutual consent of the board.

17.4(5) The notice of intent to issue an order and the order are public records available for inspection and copying in accordance with Iowa Code chapter 22. Hearings are open to the public.

193A—17.5(542) “Safe harbor” language. Persons who do not hold a CPA certificate or LPA license, firms that do not hold a CPA or LPA firm permit to practice, or individuals or firms that are ineligible to exercise a practice privilege cannot use in any statement relating to the financial affairs of a person or entity language that is conventionally used by CPAs or LPAs in reports on financial statements. Pursuant to Iowa Code section 542.13(8), such persons or firms may use the following “safe harbor” language:

“I (we) have prepared the accompanying (financial statements) of (name of entity) as of (time period) for the (period) then ended. This presentation is limited to preparing in the form of financial statements information that is the representation of management (owners). I (we) have not audited, reviewed or compiled the accompanying financial statements and accordingly do not express an opinion or any other form of assurance on them.”

193A—17.6(542) Enforcement options. The board may also pursue other enforcement as provided in Iowa Code sections 542.14(8) through (9) and 542.15.

These rules are intended to implement Iowa Code chapters 17A and 542.

Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Proposed Chapter 18 covers the licensees’ duty to report. The benefit is providing the Accountancy Examining Board with information regarding actions taken against the licensee from other parties. From that, the Board can determine whether Board action is warranted.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the cost of the time and effort it takes to fulfill their responsibility of reporting to the Board, in writing, any acts or omissions as outlined in Chapter 18.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public who are doing business with the licensees. Disciplinary action from other jurisdictions, felony charges, etc., could result in disciplinary action from the Board that becomes public record. The public may use this information when considering whether to do business with licensees. The licensees may be in the best position to observe and identify violations and therefore play a critical role in protecting the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are no agency fees associated with the rules regarding a licensee's duty to report certain actions. Licensees who have complaints filed against them alleging a failure to report may incur civil penalties should the Board vote to take action. Civil penalties may not exceed \$1,000 per offense. In 2022, there were no civil penalties resulting from a failure to report.

- Qualitative description of impact:

The impact is on licensees who are expected to adhere to the rules. Iowans are the primary beneficiary because Chapter 18 offers protection for Iowans, which is the mission of the Board.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no agency fees associated with the rules in Chapter 18. Staff time is needed to review complaints against licensees regarding ethics/conduct allegations and to coordinate with the Board for resolution. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. In 2022, there were no civil penalties resulting from a failure to report.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Since there are no fees, the primary benefit is to Iowans who are protected by these rules. To reduce or eliminate the rules would put the public at significant risk.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no cost implications. Intrusion is necessary in order to protect Iowans doing business with the licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff engaged the Board in discussions on all chapters of [193A]. No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Rules for reporting actions against a licensee are in place nationally. Iowa is consistent with all other licensing jurisdictions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking is mostly for individuals and firms of all sizes. However, all firms, large and small, are held to the same standards for reportable actions.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 18 and adopt the following **new** chapter in lieu thereof:

CHAPTER 18
LICENSEES' DUTY TO REPORT

193A—18.1(272C,542) Reporting acts or omissions committed by licensees.

18.1(1) An individual or firm licensed by the board has a duty to report under Iowa Code section 272C.9(2). The failure to perform an engagement for a client in accordance with professional standards may demonstrate a lack of qualifications by a licensee or firm. These professional standards are set forth in 193A—Chapter 13.

18.1(2) When a licensee observes an act or omission referenced in subrule 18.1(1), the licensee is obligated to report the violation in writing to the board office, setting forth the name of the licensee alleged to have committed the violation and the rule(s) violated, together with a copy of all material that evidences the violation.

193A—18.2(272C,542) Reporting judgments and settlements alleging malpractice.

18.2(1) Licensees have a duty to report under Iowa Code section 272C.9(3). For the purposes of this rule, malpractice actions brought against a firm licensed by the board will be deemed to have been brought against both the firm and the firm's owners (e.g., partners, shareholders, or members) that performed the services that led to the malpractice action.

18.2(2) When a licensee is a party to an adverse judgment resulting from a professional malpractice action or is a party to a settlement of a claim resulting from an allegation of malpractice, the licensee has an obligation to file a report in writing forwarded to the board office, setting forth the name and address of the client, the date the claim was originally made, a brief description of the circumstances precipitating the claim and a copy of the judgment or settlement agreement resulting from the claim.

193A—18.3(272C,542) Timely reporting. The reports under this chapter are to be forwarded to the board within 30 days from the initial receipt of the information giving rise to the reporting obligation.

193A—18.4(272C,542) Failure to make reports. The board may initiate a disciplinary proceeding against any licensee who fails to make a timely report under this chapter.

These rules are intended to implement Iowa Code chapters 272C and 542.

Purpose and Summary

Iowa licensees and licensees from other jurisdictions enjoy a practice privilege outlined in proposed Chapter 20, allowing licensees to practice in multiple states on one license. The chapter informs on the provisions of the privilege for individuals.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no fee to the licensees associated with the practice privilege. There is also no application for staff to review, so there are no staff costs.

- Classes of persons that will benefit from the proposed rulemaking:
Active Certified Public Accountant (CPA) licensees from other jurisdictions benefit from being able to practice in Iowa, under certain circumstances, without needing an Iowa license. Iowans benefit from having a larger pool of professionals offering professional accounting services.
- 2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Since there are no fees involved, there is no cost to the State. However, the economy is positively impacted by the potential for increased business conducted by out-of- state licensees.
 - Qualitative description of impact:
The qualitative impact is primarily on out-of-state licensees, who may be encouraged to practice public accountancy in Iowa. Iowans also benefit from a larger pool of professionals with whom to do business.
- 3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:
There are no costs to the State.
 - Anticipated effect on state revenues:
Since there are no fees associated with the practice privilege, there is no impact on state revenues.
- 4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:
Removing the provision for the practice privilege would impact out-of-state licensees wanting to conduct business in Iowa. The practice privilege is an option offered nationwide by almost all accountancy licensing jurisdictions.
- 5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:
There are little to no cost implications. Intrusion is necessary in order to offer the provisions of Chapter 20.
- 6. Alternative methods considered by the agency:
 - Description of any alternative methods that were seriously considered by the agency:
Staff engaged the Accountancy Examining Board in discussion on these rules. No alternative methods were seriously considered.
 - Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The out-of-state practice privilege serves as a potential incentive for additional business to be conducted in Iowa. It is especially beneficial for licensees who live near state borders. It is a privilege offered by most accountancy licensing jurisdictions nationwide.

Small Business Impact

- If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:
- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
 - Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
 - Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Since these rules affect the individual, there is no substantial impact on small businesses. 193A—Chapter 21 covers the practice privilege for out-of-state firms.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 20 and adopt the following **new** chapter in lieu thereof:

CHAPTER 20

PRACTICE PRIVILEGE FOR OUT-OF-STATE CERTIFIED PUBLIC ACCOUNTANTS

193A—20.1(542) Overview and timing. Out-of-state certified public accountants who maintain their principal place of business in a jurisdiction other than Iowa may practice public accounting in Iowa or for clients with a home office in Iowa without Iowa licensure if all of the conditions of Iowa Code section 542.20 and this chapter are satisfied.

193A—20.2(542) Out-of-state licensure status. The practice privilege described in Iowa Code section 542.20 applies to individuals who are licensed to practice as certified public accountants in the jurisdiction in which their principal place of business is located for those periods of time in which all of the following conditions are satisfied:

20.2(1) The out-of-state license is valid, in good standing, and active. The practice privilege ceases if the out-of-state license expires in the jurisdiction of the individual’s principal place of business.

20.2(2) The individual meets the criteria for substantial equivalency reciprocity, as provided in Iowa Code section 542.19(1) “a,” “b,” or “c” and rule 193A—9.5(542).

20.2(3) The license authorizes in the individual’s principal place of business all of the public accounting services the individual performs or offers to perform in Iowa or for clients with a home office in Iowa.

193A—20.3(542) When Iowa licensure may be necessary.

20.3(1) The auditor of state, the department of agriculture and land stewardship, other governmental official or body, or a client may mandate that an individual be licensed in Iowa as a condition of performing public accounting services in Iowa or for a client with a home office in Iowa, whether or not the individual may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accountant is necessary, for example, to perform certain audit services described in Iowa Code chapter 11.

20.3(2) Iowa licensure is necessary if an individual has an office in Iowa at which the individual uses the title “CPA,” unless the individual satisfies the conditions for a practice privilege and one of the following is true:

a. The Iowa office is the office of an Iowa CPA or LPA firm that holds a permit to practice under Iowa Code section 542.7 or 542.8, and the individual provides public accounting services through that firm.

b. The Iowa office is the office of a business entity that is not obligated to hold a firm permit to practice under Iowa Code section 542.7 or 542.8, and the individual provides public accounting services through that business entity.

20.3(3) Iowa licensure is necessary if an individual moves the individual’s principal place of business to Iowa and is otherwise obligated to be licensed under Iowa Code chapter 542. The board’s streamlined application process for reciprocal licensure is described in Iowa Code section 542.19 and 193A—Chapter 9.

193A—20.4(542) Individuals ineligible for a practice privilege.

20.4(1) The practice privilege described in Iowa Code section 542.20 is not applicable if:

- a.* The individual has been convicted of a felony under the laws of any jurisdiction.
- b.* The individual has been convicted of any crime under the laws of any jurisdiction if an element of the crime involves dishonesty or fraud, such as forgery, embezzlement, obtaining money under false pretenses, theft, extortion, conspiracy to defraud, or similar offense, as more fully described in Iowa Code section 542.5(2).
- c.* The individual's license to practice public accounting has been suspended, revoked, or otherwise disciplined by a licensing authority in this or another state, territory, or country, for any cause other than failure to pay appropriate fees. "Disciplined" includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding in Iowa or another jurisdiction.
- d.* The individual's right to practice public accounting before any state or federal agency, or the PCAOB, has been suspended or revoked.
- e.* The individual has applied for licensure as a certified public accountant in Iowa or another jurisdiction and the application has been denied.
- f.* Civil penalties have been imposed against the individual pursuant to Iowa Code section 542.14.
- g.* The individual's authority to exercise a practice privilege has been revoked in Iowa or another jurisdiction.

20.4(2) Individuals precluded from exercising a practice privilege under this rule may apply for licensure in Iowa if otherwise qualified. The board will determine when an application is submitted whether the criminal or disciplinary history or other regulatory action provides a ground to deny licensure.

193A—20.5(542) Attest and compilation services. Individuals providing compilation services in Iowa or for a client with a home office in Iowa need to comply with the peer review provisions of Iowa Code section 542.6(6) or provide such services through a CPA or LPA firm, or a substantially equivalent firm that holds a valid license in the firm's principal place of business and that complies with the peer review and ownership provisions of Iowa Code section 542.7 or 542.8.

193A—20.6(542) Rights and duties.

20.6(1) Individuals who satisfy the conditions for a practice privilege may practice public accounting in Iowa or for a client with a home office in Iowa in person, or by telephone, mail, or electronic means without licensure under Iowa Code chapter 542 or notice to the board.

20.6(2) Individuals lawfully practicing public accounting under a practice privilege may use the title "CPA" as long as they do not have an office in Iowa, except as provided in subrule 20.3(2).

20.6(3) Individuals practicing public accounting in Iowa or for a client with a home office in Iowa while exercising a practice privilege are subject to all of the following provisions:

- a.* Practice privilege practitioners are not allowed to make any representation tending to falsely indicate that the individuals are licensed under Iowa Code chapter 542. Such individuals may truthfully identify themselves as licensed in any jurisdiction in which they hold a valid, active, unexpired license to practice as a certified public accountant. For example, a practice privilege practitioner could not use the title "Iowa CPA" or otherwise state or imply licensure in Iowa, but, if true, the individual could use a title such as "CPA, licensed in Texas" or "Florida CPA." Such individuals could also truthfully state that they are CPAs practicing under a practice privilege.
- b.* Practice privilege practitioners will provide, upon a client's or prospective client's request, accurate information on the state or states of licensure, principal place of business, contact information, and manner in which licensure status can be verified.
- c.* Practice privilege practitioners will comply with all professional standards, laws, and rules that apply to licensees performing the same professional services.

20.6(4) As a condition of exercising the practice privilege provided in Iowa Code section 542.20, the individual:

a. Consents to the personal and subject matter jurisdiction and regulatory authority of the board including, but not limited to, the board's jurisdiction to revoke the practice privilege or otherwise take action under Iowa Code section 542.14 for any violation of Iowa Code chapter 542 or board rules;

b. Appoints the regulatory body of the state that issued the license in the individual's principal place of business as the agent upon whom process may be served in any action or proceeding by the board against the individual;

c. Agrees to supply the board, upon the board's request and without subpoena, such information or records licensees are similarly obligated to provide the board under Iowa Code chapter 542, including but not limited to the information described in Iowa Code section 542.20(7) "c"; and

d. Agrees to promptly cease offering or providing public accounting services in Iowa or for a client with a home office in Iowa if the license in the individual's principal place of business expires or is otherwise no longer in good standing, or if any of the conditions for exercising the practice privilege are no longer satisfied, or if the board revokes the practice privilege.

193A—20.7(542) Penalties.

20.7(1) Individuals purporting to practice public accounting under a practice privilege who are ineligible to exercise a practice privilege or who fail to satisfy the conditions for exercising a practice privilege are subject to all of the penalties that apply to unlicensed persons, including the criminal, administrative, and civil penalties described in Iowa Code sections 542.14 and 542.15.

20.7(2) If an individual acting or purporting to act under a practice privilege engages in any act or practice that does or may in the future violate Iowa Code chapter 542 or board rules, the board may take any or all of the following actions, as applicable:

a. Apply to the district court for an injunction, restraining order, or other order, pursuant to Iowa Code section 542.14(1);

b. Issue an order to require compliance with Iowa Code chapter 542 or board rules, impose a civil penalty pursuant to Iowa Code section 542.14;

c. Deny the subsequent license application of the violator or the violator's firm, pursuant to Iowa Code section 542.20(4) "a" and "b";

d. Refer the complaint or other relevant information to the jurisdiction that issued a license to the alleged violator; and

e. Take disciplinary action against the individual pursuant to Iowa Code section 542.10 if the individual holds an inactive or lapsed Iowa license.

20.7(3) Complaints filed with the board alleging violations by individuals who are not licensed by the board, including those acting or purporting to act under a practice privilege, are not confidential under Iowa Code section 272C.6(4) and will not be treated as confidential unless otherwise provided in Iowa Code chapter 22 or other applicable law.

20.7(4) Persons filing complaints with the board against individuals acting or purporting to act under a practice privilege should provide as much information as possible to assist the board in locating the individual and in determining whether the individual is licensed in any jurisdiction.

193A—20.8(542) Relationship between Iowa licensure and the exercise of a practice privilege.

20.8(1) *Active Iowa licensees.* An Iowa licensee holding an active CPA certificate is treated for all purposes as an Iowa licensee and is not subject to the provisions of Iowa Code section 542.20.

20.8(2) *Inactive Iowa licensees.* An Iowa licensee holding an inactive CPA certificate is precluded by Iowa Code section 542.6(3) and rule 193A—5.9(272C,542) from performing attest or compilation services or using the title "CPA" while performing public accounting services in Iowa or for a client with a home office in Iowa. The practice of an inactive CPA is constrained because the continuing education necessary to renew in active status does not apply to those renewing in inactive status. Some individuals holding an inactive Iowa CPA certificate may, however, hold an active CPA certificate in another jurisdiction in which they maintain their principal place of business and satisfy continuing

education obligations. Such individuals may have maintained an inactive Iowa CPA certificate solely to facilitate reinstatement to active status when active Iowa licensure is necessary in their practice. The following provisions apply to inactive Iowa licensees who may wish to exercise a practice privilege:

a. In a disciplinary investigation or proceeding in which an inactive Iowa licensee is alleged to have improperly used the title “CPA” or otherwise practiced public accounting on an inactive license, the board will consider whether the inactive licensee, at the time of the events at issue, satisfied the conditions for a practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The individual will take care to avoid public confusion about licensure status as provided in 193A—subrule 5.1(6).

c. Violations of Iowa laws or rules by an individual holding an inactive Iowa CPA certificate will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be enforced under the provisions of Iowa Code sections 542.14 and 542.15.

20.8(3) *Lapsed Iowa licensees.* An Iowa licensee holding a lapsed Iowa CPA certificate is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title “CPA” in Iowa or for a client with a home office in Iowa. A lapsed licensee is subject to discipline for practicing on a lapsed license or representing oneself as a “CPA” in any context unless the licensee truthfully discloses that the certificate has lapsed. Some individuals holding lapsed Iowa CPA certificates may, however, hold active CPA certificates in another jurisdiction in which the individuals maintain their principal place of business. Such individuals may have intentionally allowed their Iowa CPA certificates to lapse because the individuals no longer need an active Iowa license in their practice. The following provisions apply to lapsed Iowa licensees who may wish to exercise a practice privilege:

a. In a disciplinary investigation or proceeding in which a lapsed Iowa licensee is alleged to have improperly used the title “CPA” or otherwise practiced public accounting on a lapsed license, the board will consider whether the lapsed licensee, at the time of the events at issue, satisfied the conditions for a practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The individual will take care to avoid public confusion about licensure status as provided in 193A—subrule 5.1(6).

c. Violations of Iowa laws or rules by an individual holding a lapsed Iowa CPA certificate will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be prosecuted under the provisions of Iowa Code sections 542.14 and 542.15.

20.8(4) *Former Iowa licensees.* An individual who held an Iowa CPA certificate at one time whose Iowa CPA certificate has been revoked or surrendered in connection with a disciplinary investigation or proceeding is barred from performing attest or compilation services or using the title “CPA” whether or not such individual may otherwise qualify for a practice privilege.

a. The former Iowa licensees described in this subrule are ineligible to exercise the practice privilege described in Iowa Code section 542.20.

b. Violations of Iowa Code chapter 542 or board rules by former Iowa licensees are subject to the criminal, civil and administrative remedies described in Iowa Code sections 542.14 and 542.15, and may also be prosecuted as disciplinary proceedings under Iowa Code section 542.10 if the license remains subject to reinstatement under Iowa Code section 542.12.

These rules are intended to implement Iowa Code section 542.20.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193A—Chapter 21
“Practice Privilege for Out-of-State Certified Public Accounting Firms”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542.4(9)
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
3:40 p.m.

6200 Park Avenue
Des Moines, Iowa

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Actively licensed firms from other jurisdictions enjoy a practice privilege outlined in proposed Chapter 21, allowing licensed firms to practice in multiple states on one license. The chapter informs on the provisions of the privilege for out-of-state firms practicing in Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
There is no fee to the licensees associated with the practice privilege for firms. There is also no application for staff to review, so there are no staff costs.

- Classes of persons that will benefit from the proposed rulemaking:
Actively licensed Certified Public Accounting (CPA) firms from other jurisdictions benefit from being able to practice in Iowa, under certain circumstances, without needing an Iowa license. Iowans benefit from having a larger pool of professionals offering professional accounting services.
- 2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Since there are no fees involved, there is no cost to the State. However, the economy is positively impacted by the potential for increased business conducted by out-of-state licensed firms.
 - Qualitative description of impact:
The qualitative impact is primarily on out-of-state firms that may be encouraged to practice public accountancy in Iowa. Iowans also benefit from having a larger pool of professionals with whom to do business.
- 3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:
There are no costs to the State.
 - Anticipated effect on state revenues:
Since there are no fees associated with the practice privilege, there is no impact on state revenues.
- 4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:
Removing the provision for the practice privilege would impact out-of-state firms wanting to conduct business in Iowa. The practice privilege is an option offered nationwide by almost all accountancy licensing jurisdictions.
- 5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:
There are little or no cost implications. Intrusion is necessary in order to offer the provisions of Chapter 21.
- 6. Alternative methods considered by the agency:
 - Description of any alternative methods that were seriously considered by the agency:
Staff engaged the Accountancy Examining Board in discussion on these rules. No alternative methods were seriously considered.
 - Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The out-of-state practice privilege serves as a potential incentive for additional business to be conducted in Iowa. It is especially beneficial for firms near state borders. It is a privilege offered by most accountancy licensing jurisdictions nationwide.

Small Business Impact

- If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:
- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
 - Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
 - Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules affect out-of-state, actively licensed public accounting firms in a positive way. Chapter 21 offers provisions for these firms to practice in Iowa without the need for an Iowa firm license. There is no cost to the firm.

Text of Proposed Rulemaking

ITEM 1. Rescind 193A—Chapter 21 and adopt the following **new** chapter in lieu thereof:

CHAPTER 21

PRACTICE PRIVILEGE FOR OUT-OF-STATE CERTIFIED PUBLIC ACCOUNTING FIRMS

193A—21.1(542) Overview and timing. Out-of-state certified public accounting firms that maintain their principal place of business in a jurisdiction other than Iowa may practice public accounting in Iowa or for clients with a home office in Iowa without Iowa licensure if all of the conditions of Iowa Code section 542.20 and this chapter are satisfied.

193A—21.2(542) Out-of-state licensure status. The practice privilege described in Iowa Code section 542.20 applies to certified public accounting firms that are licensed to practice as certified public accounting firms in the jurisdiction in which their principal place of business is located for those periods of time in which all of the following conditions are satisfied:

21.2(1) The out-of-state license is valid, in good standing, and active. The practice privilege ceases if the out-of-state license expires in the jurisdiction of the firm’s principal place of business.

21.2(2) The out-of-state license is substantially equivalent to a permit to practice issued under Iowa Code section 542.7.

21.2(3) The license authorizes in the firm’s principal place of business all of the public accounting services the firm performs or offers to perform in Iowa or for clients with a home office in Iowa.

21.2(4) The public accounting services offered in Iowa or for clients with a home office in Iowa that are obligated under Iowa law to be performed by a CPA are performed by a person holding a certificate issued under Iowa Code section 542.6 or 542.19, or by a person exercising a practice privilege pursuant to Iowa Code section 542.20 and 193A—Chapter 20.

193A—21.3(542) When Iowa licensure may be necessary.

21.3(1) The auditor of state, the department of agriculture and land stewardship, other governmental official or body, or a client may mandate that a firm be licensed in Iowa as a condition of performing public accounting services in Iowa or for a client with a home office in Iowa, whether or not the firm may otherwise satisfy the conditions for a practice privilege. Iowa licensure as a certified public accounting firm is necessary, for example, to perform certain audit services described in Iowa Code chapter 11.

21.3(2) Iowa licensure is necessary if the firm has one or more offices in Iowa at which the firm uses the title “CPAs,” “CPA firm,” “certified public accountants,” or “certified public accounting firm.”

193A—21.4(542) CPA firms ineligible for a practice privilege.

21.4(1) The practice privilege described in Iowa Code section 542.20 is not applicable if:

a. The firm or any of the firm’s owners (e.g., partners, shareholders, or members) has been convicted of a felony under the laws of any jurisdiction.

b. The firm or any of the firm’s owners (e.g., partners, shareholders, or members) has been convicted of any crime under the laws of any jurisdiction if an element of the crime involves dishonesty

or fraud, such as forgery, embezzlement, obtaining money under false pretenses, theft, extortion, conspiracy to defraud, or similar offense, as more fully described in Iowa Code section 542.5(2).

c. The license to practice public accounting of the firm or any of the firm's owners (e.g., partners, shareholders, or members) has been suspended, revoked, or otherwise disciplined by a licensing authority in this or another state, territory, or country, for any cause other than failure to pay appropriate fees. "Disciplined" includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding in Iowa or any other jurisdiction.

d. The right of the firm or any of the firm's owners (e.g., partners, shareholders, or members) to practice public accounting before any state or federal agency or the PCAOB has been suspended or revoked.

e. The firm or any of the firm's owners (e.g., partners, shareholders, or members) has applied for licensure as a certified public accounting firm or a certified public accountant in Iowa or any other jurisdiction and the application has been denied.

f. Civil penalties have been imposed against the firm or any of the firm's owners (e.g., partners, shareholders, or members) pursuant to Iowa Code section 542.14.

g. The authority of the firm or any of the firm's owners (e.g., partners, shareholders, or members) to exercise a practice privilege has been revoked in Iowa or any other jurisdiction.

21.4(2) Firms precluded from exercising a practice privilege under this rule may apply for licensure in Iowa if otherwise qualified. The board will determine when an application is submitted whether the criminal or disciplinary history or other regulatory action against the firm or against any of the firm's owners (e.g., partners, shareholders, or members) provides a ground to deny licensure.

193A—21.5(542) Attest and compilation services. Unless otherwise obligated by rule 193A—21.3(542), attest and compilation services may be performed by an out-of-state CPA firm exercising a practice privilege as long as the out-of-state firm is validly licensed in the state of its principal place of business, complies with Iowa Code sections 542.20(5) and 542.20(6) and associated rules, and complies with the peer review and ownership provisions of Iowa Code section 542.7.

193A—21.6(542) Rights and duties.

21.6(1) CPA firms that satisfy the conditions for a practice privilege may practice public accounting in Iowa or for a client with a home office in Iowa in person, or by telephone, mail, or electronic means without licensure under Iowa Code chapter 542 or notice to the board.

21.6(2) CPA firms lawfully practicing public accounting under a practice privilege may use the title "CPAs," "CPA firm," "certified public accountants," or "certified public accounting firm."

21.6(3) CPA firms practicing public accounting in Iowa or for a client with a home office in Iowa while exercising a practice privilege are subject to all of the following provisions:

a. Practice privilege firms are not allowed to make any representation tending to falsely indicate that the firm is licensed under Iowa Code chapter 542. Such firms may truthfully identify themselves as licensed in any jurisdiction in which the firm holds a valid, active, unexpired license to practice as a certified public accounting firm. For example, a practice privilege firm could not use the title "Iowa CPAs" or "Iowa CPA firm" or otherwise state or imply licensure in Iowa, but, if true, the firm could use a title such as "CPA firm, licensed in Texas" or "Florida CPAs." Such firm could also truthfully state that the firm is practicing in Iowa under a practice privilege.

b. Practice privilege firms will provide, upon a client's or prospective client's request, accurate information on the state or states of licensure, principal place of business, contact information, and manner in which licensure status can be verified.

c. Practice privilege firms will comply with all professional standards, laws, and rules that apply to licensed firms performing the same professional services.

21.6(4) As a condition of exercising the practice privilege provided in Iowa Code section 542.20, the firm:

- a.* Consents to the personal and subject matter jurisdiction and regulatory authority of the board including, but not limited to, the board's jurisdiction to revoke the practice privilege or otherwise take action under Iowa Code section 542.14 for any violation of Iowa Code chapter 542 or board rules;
- b.* Appoints the regulatory body of the state that issued the license in the firm's principal place of business as the agent upon whom process may be served in any action or proceeding by the board against the firm;
- c.* Agrees to supply the board, upon the board's request and without subpoena, such information or records that licensed firms are similarly obligated to provide the board under Iowa Code chapter 542, including but not limited to the information described in Iowa Code section 542.20(7) "c," and rule 193A—7.3(542); and
- d.* Agrees to promptly cease offering or providing public accounting services in Iowa or for a client with a home office in Iowa if the license in the firm's principal place of business expires or is otherwise no longer in good standing, or if any of the conditions for exercising the practice privilege are no longer satisfied, or if the board revokes the practice privilege.

193A—21.7(542) Penalties.

21.7(1) Firms purporting to practice public accounting under a practice privilege that are ineligible to exercise a practice privilege or that fail to satisfy the conditions for exercising a practice privilege are subject to all of the penalties that apply to unlicensed firms, including the criminal, administrative, and civil penalties described in Iowa Code sections 542.14 and 542.15.

21.7(2) If a firm acting or purporting to act under a practice privilege engages in any act or practice that does or may in the future violate Iowa Code chapter 542 or board rules, the board may take any or all of the following actions, as applicable:

- a.* Apply to the district court for an injunction, restraining order, or other order, pursuant to Iowa Code section 542.14(1);
- b.* Issue an order compelling compliance with Iowa Code chapter 542 or board rules and impose a civil penalty pursuant to Iowa Code section 542.14;
- c.* Deny the subsequent license application of the violator or, to the extent responsible for the violation, any of the firm's owners (e.g., partners, shareholders, or members), pursuant to Iowa Code section 542.20(4) "a" and "b";
- d.* Refer the complaint or other relevant information to a jurisdiction that issued a license to the alleged violator; and
- e.* Take disciplinary action against the firm or, to the extent responsible for the violation, any of the firm's owners (e.g., partners, shareholders, or members), pursuant to Iowa Code section 542.10 if the firm or individual holds an inactive or lapsed Iowa license.

21.7(3) Complaints filed with the board alleging violations by firms that are not licensed by the board, including those acting or purporting to act under a practice privilege, are not confidential under Iowa Code section 272C.6(4) and will not be treated as confidential unless otherwise provided in Iowa Code chapter 22 or other applicable law.

21.7(4) Persons filing complaints with the board against firms acting or purporting to act under a practice privilege should provide as much information as possible to assist the board in locating the firm and the individuals allegedly responsible for the acts or omissions causing the complaint, and in determining whether the firm or any responsible individual is licensed in any jurisdiction.

193A—21.8(542) Relationship between Iowa licensure and the exercise of a practice privilege.

21.8(1) *Active Iowa licensees.* An Iowa CPA firm holding an active permit to practice under Iowa Code section 542.7 will be treated for all purposes as an Iowa licensee and is not subject to the provisions of Iowa Code section 542.20.

21.8(2) *Lapsed Iowa licensees.* An Iowa CPA firm holding a lapsed permit to practice under Iowa Code section 542.7 is not authorized to perform attest or compilation services or to otherwise practice public accounting using the title "CPAs," "CPA firm," "certified public accountants," or "certified public accounting firm" unless the firm is eligible to exercise a practice privilege under Iowa Code section

542.20. The following provisions apply to firms holding a lapsed Iowa permit to practice when exercising a practice privilege:

a. In a disciplinary investigation or proceeding alleging unlicensed practice or improper use of title, the board will consider whether the lapsed licensee, at the time of the events at issue, satisfied the conditions for a practice privilege under Iowa Code section 542.20 and complied with all rules applicable to the exercise of a practice privilege.

b. The firm will take reasonable steps to avoid public confusion over licensure status.

c. Violations of Iowa laws or rules by a firm holding a lapsed permit to practice will be prosecuted as disciplinary proceedings against a licensee under Iowa Code section 542.10 and, when appropriate under the factual circumstances, may also or alternatively be prosecuted under the provisions of Iowa Code sections 542.14 and 542.15.

21.8(3) *Former Iowa licensees.* A CPA firm that held an Iowa permit to practice at one time which has been revoked or surrendered in connection with a disciplinary investigation or proceeding is barred from performing any act or practice for which Iowa firm licensure is necessary and is further ineligible to exercise the practice privilege described in Iowa Code section 542.20. Violations of Iowa Code chapter 542 or board rules by such a firm are subject to the criminal, civil and administrative remedies described in Iowa Code sections 542.14 and 542.15, and may also be prosecuted as disciplinary proceedings under Iowa Code section 542.10 if the license remains subject to reinstatement under 193A—subrule 7.6(3).

These rules are intended to implement Iowa Code section 542.20.

Purpose and Summary

Proposed Chapter 1 provides basic information on the structure and function of the Board, which benefits the public and licensees in knowing about the organization and administration of the Board.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Chapter 1 provides organization and administrative background for the Board. The agency bears the cost of Board meetings, in the way of \$50 per diems per Board member, per meeting, plus travel expenses as needed and regular staff time. Staff salaries and per diems to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees to the Fund cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The classes of persons that will benefit from the proposed rulemaking are licensees and the general public. Chapter 1 establishes the structure and operations of the Board, making it easier to navigate the regulation of the architecture profession.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The expenses of the Board, per diems and travel reimbursement are covered by the Licensing and Regulation Fund established in Senate File 557.

- Qualitative description of impact:

Iowans are protected by the laws of professional licensing through responsible regulations. The Board ensures minimum standards for licensing and resolves complaints against licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are staff time needed to manage Board activities and to pay the Board members \$50 per diem and reimburse travel expenses.

- Anticipated effect on state revenues:

There is not a significant impact to state revenues as a result of this rulemaking. Staff salaries are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No new fees are being imposed. The benefit is less restrictive language and simplification of the rules for better understanding by the public and licensees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would dilute the protection of the public. Reducing the nominal pay to the Board or reducing/eliminating travel expense reimbursement may serve to also reduce the interest of individuals to sit on the Board.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These rule revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the Board structure. These rules offer the public helpful information regarding the structure of the Board. While the Board is not inclined at this time to make changes, it will consider evidence for future review.

The Board and Commission Review Committee made recommendations to consolidate the Landscape Architectural Examining Board duties into the Architectural Examining Board.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
Licensing and regulation are required by Iowa Code chapter 544A; the rules support the law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa licenses architects, some of whom may own small businesses. The substantial impact on licensed small businesses from this chapter is negligible because there are no compliance requirements in Chapter 1. The function of the chapter is solely to inform.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 1 and adopt the following **new** chapter in lieu thereof:

CHAPTER 1
DESCRIPTION OF ORGANIZATION

193B—1.1(544A,17A) Duties.

1.1(1) The purpose of the architectural examining board is to administer and enforce the provisions of Iowa Code chapter 544A with regard to the practice of architecture in the state of Iowa, including the examining of candidates, issuing licenses to practice architecture, assuring continuing competency through continued education, investigating violations and infractions of the architecture law, disciplining licensees, and imposing civil penalties against nonlicensees. To this end, the board has promulgated these rules to clarify the board's intent and procedures.

1.1(2) The primary mission of the board is to protect the public interest. All board rules foster the guiding policies and principles described in Iowa Code section 544A.5. The board and its licensees strive at all times to protect the public interest by promoting the highest standards of architecture.

1.1(3) The board maintains a roster of all architects authorized to practice architecture in the state.

1.1(4) Chairperson. The chairperson presides at all meetings, appoints all committees, and otherwise performs all duties pertaining to the office of the chairperson.

1.1(5) Vice chairperson. The vice chairperson, in the absence or incapacity of the chairperson, exercises the duties and possesses the powers of the chairperson.

1.1(6) Board administrator. The department of inspections, appeals, and licensing may employ a board administrator who will maintain all necessary records of the board and perform all duties in connection with the operation of the board office. The board administrator determines when the legal requirements for licensure have been satisfied with regard to issuance of certificates, licenses or registrations, and the board administrator submits to the board any questionable application.

193B—1.2(544A,17A) Meetings. Calls for meetings are issued in accordance with Iowa Code section 21.4. The first meeting scheduled after April 30 is the annual meeting. The chairperson and vice chairperson are elected to serve until their successors are elected. The newly elected officers assume the duties of their respective offices at the conclusion of the meeting at which they are elected. Officers may serve no more than three consecutive one-year terms in each office to which they are elected. Special meetings may be called by the chairperson or board administrator, who will set the time and place of the meeting.

193B—1.3(544A,17A) Certificates. Certificates issued to successful applicants contain the licensee's name and state license number. All licenses are renewable biennially on July 1, with licensees whose last names begin with the letters A through K renewing in even-numbered years and licensees whose last names begin with the letters L through Z renewing in odd-numbered years as provided in rule 193B—2.5(17A,272C,544A).

The board will maintain an electronic roster of those holders of certificates of licensure who have failed to renew.

These rules are intended to implement Iowa Code sections 544A.5, 544A.8 through 544A.10, and 272C.4.

Purpose and Summary

Proposed Chapter 2 establishes the minimum standards for architecture licensure. The public, licensees, and applicants benefit from the chapter since it articulates the processes by which individuals apply for licensure as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual who holds a license has minimum competency. These provisions include the application process, minimum educational and training qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter. Establishing minimum licensing requirements ensures that practitioners are competent to practice architecture. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Estimation of the cost of education and other licensure requirements to become an Iowa licensed architect are:

- o Education: According to the Association of Collegiate Schools of Architecture, the median tuition per year at a public institution for architecture is \$10,125 for a bachelor's degree and \$13,339 for a master's degree. At a private institution, the cost is \$39,982 for a bachelor's degree and \$40,273 for a master's degree.

- o Experience/training: There is not usually a cost since intern architects are paid for their work at a firm. Intern architects must pay \$100 to the National Council of Architectural Registration Boards to participate in the training program.

- o Examination fee: \$1,410 (initial licensure by examination only, paid to the National Council of Architectural Registration Boards).

- o Transmittal fee: \$450 (reciprocal licensure only, paid to the National Council of Architectural Registration Boards). Architects may choose to hold a certificate from the National Council of Architectural Registration Boards, which facilitates easy reciprocal licensure and which has an annual fee of \$270.

- o Other fees: Applicants may need to pay a licensure verification fee to other jurisdictions (licensure by verification only, paid to other jurisdictions).

- o Licensure by examination application/license fee: \$50 plus \$5 per month until renewal.

- o Licensure by reciprocity or verification application/license fee: \$200.

Nebraska's license fees are \$100 for an initial license and \$150 for a reciprocal license. Minnesota's application fee is \$75, plus a \$120 license fee. Iowa, Nebraska, and Minnesota are among the 38 states that require an accredited degree in order to obtain an architect license.

- Qualitative description of impact:

In order to regulate and license professions as directed in statute, base standards for licensure are critical to protecting public safety. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of service is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of architects in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rule provides consistency related to the licensure in other states, which makes obtaining licensure in multiple states simpler for applicants. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are able to safely interact with the built environment.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These rule revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to licensure. While Iowa could deregulate the architecture profession, it would be the only state to do so. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. Architects make sure that buildings are safe and meet state building codes. In addition, the chapter provides consistency related to the licensure in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to licensure. While Iowa could deregulate the architecture profession, it would be the only state to do so. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. Architects make sure that buildings are safe and meet state building codes. In addition, the rule provides consistency related to the licensure in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements. While some architects likely are running a small business of their own, some also work for large corporations and firms. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2
LICENSURE

193B—2.1(544A,17A) Definitions. The following definitions apply as used in Iowa Code chapter 544A, and this chapter of the architectural examining board rules, unless the context otherwise requires.

“*Applicant*” means an individual who has submitted an application for licensure to the board.

“*Architectural intern*” or “*intern architect*” means an individual who holds a professional degree from a NAAB-accredited program or the equivalent as deemed by the Board, has completed or is currently enrolled in the National Council of Architectural Registration Boards (NCARB) Architectural Experience Program (AXP), and intends to actively pursue licensure by completing the Architect Registration Examination.

“*ARE*” means the current Architect Registration Examination, as prepared and graded by the NCARB.

“*AXP applicant*” means an individual who has completed the AXP training requirements set forth in the NCARB Architectural Experience Program Guidelines and has submitted an application for licensure to the board.

“*Examination*” means the current Architect Registration Examination (ARE) accepted by the board.

“*Inactive*” means that an architect is not engaged in Iowa in any practice for which a certificate of licensure is required.

“*Issuance*” means the date of mailing of a decision or order or the date of delivery if service is by other means unless another date is specified in the order.

“*NAAB*” means the National Architectural Accrediting Board.

“*NCARB*” means the National Council of Architectural Registration Boards. The NCARB Architect Registration Examination Guidelines, NCARB Architectural Experience Program Guidelines, and NCARB Certification Guidelines are available through the National Council of Architectural Registration Boards, 1401 H Street NW, Suite 500, Washington, DC 20005; NCARB’s website, www.ncarb.org; or the architectural examining board.

“*NCARB Architect Registration Examination (ARE) Guidelines*” means the edition of a document by the same title published by the National Council of Architectural Registration Boards on September 2022. The document outlines the requirements for examination.

“*NCARB Architectural Experience Program Guidelines*” means the edition of a document by the same title published by the National Council of Architectural Registration Boards on May 2020. The document outlines the requirements for training.

“*NCARB Certification Guidelines*” means the edition of a document by the same title published by the National Council of Architectural Registration Boards on July 2022. The document outlines the requirements for licensure as an architect.

“NCARB *Education Guidelines*” or “NCARB *Education Standards*” means the edition of a document by the same title published by the National Council of Architectural Registration Boards on December 2023. The document outlines the requirements for licensure as an architect.

“*Retired*” means that an architect is not engaged in the practice of architecture or earning monetary compensation by providing professional architectural services in any licensing jurisdiction of the United States or a foreign country.

193B—2.2(544A,17A) Licensure. All applicants for licensure will complete an online application form.

2.2(1) Examination. To be eligible for licensure by examination, all applicants will have obtained an accredited professional architectural degree from the National Architectural Accrediting Board (NAAB), passed all divisions of the ARE prepared and provided by the National Council of Architectural Registration Boards (NCARB), have completed the NCARB Architectural Experience Program, and have attained an NCARB council record. A completed NCARB council record shall be transmitted to and filed in the board office. Upon receipt of the council record from NCARB, the board will provide the applicant with an application for licensure form, which must be completed and returned to the board within three months of receipt of the council record. The board shall issue a license number to the applicant upon receipt of the completed application form and appropriate fee.

a. Examinations for licensure as an architect shall be conducted by the board or its authorized representative.

(1) The board shall make use of the ARE prepared and graded by NCARB under a plan of cooperation with the architectural examining boards of all states and territories of the United States.

(2) The board may make use of a testing service selected by NCARB to administer the examination, provided the examination is held in at least one location within the boundaries of this state.

b. Examination admittance requirements.

(1) Have completed the eligibility requirements of the education standards for NCARB certification, which include a professional degree from a program accredited by the National Architectural Accrediting Board (NAAB) or other NCARB-approved education program or be a student actively participating in an NCARB-accepted Integrated Path to Architectural Licensure (IPAL) option within an NCARB-approved education program.

(2) Be enrolled in or have completed the NCARB Architectural Experience Program (AXP).

(3) NCARB shall notify the testing service of the applicant’s eligibility prior to the applicant’s scheduling of an examination.

c. AXP eligibility requirements will be verified and satisfied in accordance with the NCARB Architectural Experience Program Guidelines. Documentation of AXP training units will be submitted on AXP report forms published by NCARB and will be verified by signatures of the licensed architects serving as the intern architect’s supervisors in accordance with the requirements outlined in the NCARB Architectural Experience Program Guidelines. The completed AXP report form shall demonstrate attainment of an aggregate of the minimum number of value units in each training area and shall be submitted to NCARB for evaluation.

2.2(2) Reciprocity. The board or the board administrator may waive examination requirements for applicants who, at the time of application, are licensed as architects in a different jurisdiction and hold an active NCARB certificate. All such applicants who hold an active NCARB certificate are deemed to possess qualifications that are substantially equivalent to those required of applicants for initial licensure in this state. An active NCARB council certificate shall be transmitted to and filed in the board office. Upon receipt of the certificate from NCARB, the board will provide the applicant with an application for licensure form, which must be completed and returned to the board within three months of receipt of the council certificate.

2.2(3) Verification. The board may grant registration via verification as provided for in 193—Chapter 14.

2.2(4) Military service and veteran reciprocity. The board may grant registration for military service applicants, spouses, and veterans as provided for in 481—Chapter 7.

2.2(5) Applicants seeking architectural commission in Iowa. A person seeking an architectural commission in this state may be admitted to this state for the purpose of offering to provide architectural services, and for that purpose only, without first being licensed in this state if:

- a. The person holds an NCARB certificate; and
- b. The person holds a current and valid license issued by a licensing authority recognized by this state; and
- c. The person notifies the board in writing on a form provided by the board that the person:
 - (1) Holds an NCARB certificate and a current and valid license issued by a licensing authority recognized by this state,
 - (2) Is not currently licensed in this state but will be present in this state for the purpose of offering to provide architectural services on a temporary basis, and
 - (3) Has no previous or pending disciplinary action by any licensing authority; and
- d. The person delivers a copy of the notice referred to in paragraph “c” to every potential client to whom the person offers to provide architectural services; and
- e. The person provides the board with a sworn statement of intent to apply immediately to the board for licensure if selected as the architect for a project in this state.

The person is prohibited from actually providing architectural services until the person has been issued a valid license in this state.

2.2(6) Board refusal to issue license. The board may refuse to issue a certificate of licensure to any person otherwise qualified upon any of the grounds for which a license may be revoked or suspended or may otherwise discipline a licensee based upon a suspension, revocation, or other disciplinary action taken by a licensing authority in this or another jurisdiction. For purposes of this subrule, “disciplinary action” includes the voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding. A certified copy of the record or order of suspension, revocation, voluntary surrender, or other disciplinary action is prima facie evidence of such fact.

193B—2.3(17A,272C,544A) Renewal of certificates of licensure.

2.3(1) Active status. Certificates of licensure expire biennially on June 30. In order to maintain authorization to practice in Iowa, a licensee is required to renew the certificate of licensure prior to July 1 of the year of expiration. A licensee who fails to renew by the expiration date is not authorized to practice architecture in Iowa until the certificate is reinstated as provided in rule 193B—2.4(544A,17A).

a. A licensee whose last name begins with the letter A through K will renew in even-numbered years, and a licensee whose last name begins with the letter L through Z will renew in odd-numbered years. However, a license issued on or after May 1 but before June 30 will not expire until June 30 of the next renewal. For example, a license issued on May 17, 2020, would not expire until June 30, 2022.

b. It is the policy of the board to send to each licensee a notice of the pending expiration date at the licensee’s last-known address approximately one month prior to the date the certificate of licensure is scheduled to expire. The notice, when provided, may be by email communication. Failure to receive this notice does not relieve the licensee of the responsibility to timely renew the certificate and pay the renewal fee. A licensee should contact the board office if the licensee does not receive a renewal notice prior to the date of expiration.

c. Upon the board’s receipt of a timely and sufficient renewal application as provided in 193—subrule 7.40(3), the board’s administrator will issue a new certificate of licensure reflecting the next expiration date, unless grounds exist for denial of the application.

d. If grounds exist to deny a timely and sufficient application to renew, the board will send notification to the applicant. Grounds may exist to deny an application to renew if, for instance, the licensee failed to satisfy the continuing education as required as a condition for licensure. If the basis for denial is pending disciplinary action or disciplinary investigation which is reasonably expected to culminate in disciplinary action, the board will proceed as provided in 193—Chapter 7. If the basis for denial is not related to a pending or imminent disciplinary action, the applicant may contest the board’s decision as provided in 193—subrule 7.40(1).

e. When a licensee appears to be in violation of mandatory continuing education requirements, the board may, in lieu of proceeding to a contested case hearing on the denial of a renewal application as provided in rule 193—7.40(546,272C), and after or in lieu of giving the licensee an opportunity to come into compliance under 193B—subrule 3.3(3), offer a licensee the opportunity to sign a consent order. While the terms of the consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between \$50 and \$250, depending on the severity of the violation; establish deadlines for compliance; and require that the licensee complete hours equal to double the deficiency in addition to the required hours; and may impose additional educational requirements on the licensee. Any additional hours completed in compliance with the consent order cannot again be claimed at the next renewal. The board will address subsequent offenses on a case-by-case basis. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed certificate of licensure and will be subject to disciplinary action if the terms of the consent order are not complied with. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to 193—subrule 7.40(1).

f. The board may notify a licensee whose certificate of licensure has expired. The failure of the board to provide this courtesy notification or the failure of the licensee to receive the notification will not extend the date of expiration.

g. A licensee who continues to practice architecture in Iowa after the license has expired may be subject to disciplinary action. Such unauthorized activity may also be grounds to deny a licensee's application for reinstatement.

2.3(2) Inactive status. This subrule establishes a procedure under which a person issued a certificate of licensure as an architect may apply to the board to be licensed as inactive. Licensure under this subrule is available to a license holder who is not engaged in Iowa in any practice for which licensure as an architect is required. A person eligible to be licensed as inactive may, as an alternative to such licensure, allow the certificate of licensure to lapse. During any period of inactive status, a person shall not use the title "architect" or any other title that might imply that the person is offering services as an architect by such an action in violation of Iowa Code section 544A.15. The board will continue to maintain a database of persons licensed as inactive, including information which is not routinely maintained after a certificate has lapsed through the person's failure to renew. A person who is licensed as inactive will accordingly receive renewal applications, board newsletters and other mass communications from the board.

a. Affirmation. The renewal application form will contain a statement in which the applicant affirms that the applicant will not engage in any of the practices in Iowa that are listed in Iowa Code section 544A.16 without first complying with all rules governing reinstatement to active status. A person in inactive status may reinstate to active status at any time pursuant to rule 193B—2.5(544A).

b. Renewal. A person licensed as inactive may renew the person's certificate of licensure on the biennial schedule described in this rule. This person shall be exempt from the continuing education requirements and will be charged a reduced renewal fee as provided in 193B—2.9(544A,17A). An inactive certificate of licensure will lapse if not timely renewed.

c. Permitted practices. A person may, while licensed as inactive, perform for a client, business, employer, government body, or other entity those services which may lawfully be provided by a person to whom a certificate of licensure has never been issued. Such services may be performed as long as the person does not in connection with such services use the title "architect" or any other title restricted for use only by architects pursuant to Iowa Code section 544A.15 (with or without additional designations such as "inactive" or "retired"). Restricted titles may be used only by active architects who are subject to continuing education requirements to ensure that the use of such titles is consistently associated with the maintenance of competency through continuing education.

d. Prohibited practices. A person who, while licensed as inactive, engages in any of the practices described in Iowa Code sections 544A.15 and 544A.16 is subject to disciplinary action.

2.3(3) Retired status. A person who held a license as an architect and who does not reasonably expect to return to the workforce in any capacity for which a certificate of licensure is required due to bona fide retirement or disability may apply to the board for retired status and, if granted, may use the title

“architect retired” in the context of non-income-producing personal activities. If the board determines an applicant is eligible, the retired status would become effective on the first scheduled license renewal date. Applicants do not need to reinstate an expired license to be eligible for retired status. Applicants may apply for retired status on forms provided by the board. The board will not provide a refund of biennial license fees if an application for retired status is granted in a biennium in which the applicant has previously paid the biennial fees for either active or inactive status. Persons licensed in retired status are exempt from the renewal requirement.

a. Affirmation. The retired status application form shall contain a statement in which the applicant affirms that the applicant will not engage in any of the practices in Iowa that are listed in Iowa Code section 544A.16 without first complying with all rules governing reinstatement to active status. A person in retired status may reinstate to active status at any time pursuant to rule 193B—2.5(544A).

b. Permitted practices. Persons licensed in retired status may engage in the practices identified in paragraph 2.(2) “c.” Such persons may also provide services as technical experts before a court, including prelitigation preparation, discovery, and testimony, on matters directly related to architectural services provided by such persons prior to being licensed with the board in retired status.

c. Exemption. A person whose license as an architect has been placed on probation, suspended, revoked, or voluntarily surrendered in connection with a disciplinary investigation or proceeding shall not be eligible for retired status unless, upon appropriate application, the board first reinstates the license to good standing.

193B—2.4(544A,17A) Reinstatement of lapsed certificate of licensure to active status. An individual may reinstate a lapsed certificate of licensure to active licensure as follows:

2.4(1) Pay the current renewal fee.

2.4(2) Pay the reinstatement fee of \$100 plus \$25 per month or partial month of expired licensure up to a maximum of \$750. All applicants for reinstatement shall be assessed the \$100 reinstatement fee. The \$25 per month shall not be assessed if the applicant for reinstatement did not, during the period of lapse, engage in any acts or practices for which an active architect license is required in Iowa. Falsely claiming an exemption from the monthly fee is a ground for discipline; in addition, other grounds for discipline may arise from practicing on a lapsed certificate, license or permit to practice.

2.4(3) Provide a written statement outlining the applicant’s professional activities performed in Iowa during the period in which the individual was unlicensed. The statement shall include a list of all projects with which the applicant had involvement and shall explain the service provided by the applicant.

2.4(4) Submit documented evidence of completion of 24 continuing education hours, which should have been reported on the June 30 renewal date on which the applicant failed to renew, and 12 continuing education hours for each year or portion of a year of expired licensure up to a maximum of 48 continuing education hours. All continuing education hours must be completed in health, safety, and welfare subjects acquired in structured educational activities and be in compliance with requirements in 193B—Chapter 3. The hours reported shall not have been earned more than four years prior to the date of the application to reinstate to active status. The continuing education hours used for reinstatement may not be used again at the next renewal.

193B—2.5(544A) Reinstatement from inactive status or retired status to active status.

2.5(1) An individual may reinstate an inactive license to an active license as follows:

a. Pay one-half of the current active license fee.

b. Submit documented evidence of completion of 24 continuing education hours in compliance with requirements in 193B—Chapter 3. All continuing education hours must be completed in health, safety, and welfare subjects acquired in structured educational activities. The hours reported shall not have been earned more than four years prior to the date of the application to reinstate to active status. The hours used to reinstate to active status cannot again be used to renew.

(1) At the first biennial renewal date of July 1 that is less than 12 months from the date of the filing of the application to restore the certificate of licensure to active status, the person shall not be required to report continuing education hours.

(2) At the first biennial renewal date of July 1 that is 12 months or more, but less than 24 months, from the date of the filing of the application to restore the certificate of licensure to active status, the person shall report 12 hours of previously unreported continuing education hours.

c. Provide a written statement in which the applicant affirms that the applicant has not engaged in any of the practices in Iowa that are listed in Iowa Code section 544A.16 during the period of inactive licensure.

2.5(2) An individual may reinstate a retired license to an active license as follows:

a. Pay the current active license fee. If the individual is reinstating to active status at a date that is less than 12 months from the next biennial renewal date, one-half of the current active license fee shall be paid.

b. Satisfy paragraphs 2.1(1) “b” and “c.”

2.5(3) An individual shall not be allowed to reinstate to inactive status from retired status.

193B—2.6(544A,17A) Finding of probable cause for unlicensed practice. The board may find probable cause to file charges for unlicensed practice if the individual continues to offer services defined as the practice of architecture outlined in Iowa Code section 544A.16 while using the title “architect,” “architectural designer,” or similar designation during the period of lapsed licensure.

193B—2.7(544A,272C) Responsibility for accuracy of applications. The architect is responsible for verifying the accuracy of the information submitted on an application regardless of how the application is submitted or by whom it is submitted. For instance, if the office manager of an architect’s firm submits an application for renewal on behalf of the architect and that information is incorrect, the architect will be held responsible for the information and may be subject to disciplinary action.

193B—2.8(544A,272C) Application denial. An application may be denied on the grounds provided in Iowa Code chapter 544A and in rule 193—7.39(546,272C). The administrative processing of an application shall not prevent the later initiation of a contested case to challenge a licensee’s qualifications for licensure. The board may also deny a license on the grounds of submitting a false statement or submission of material fact on an application for licensure.

193B—2.9(544A,17A) Fee schedule. Under the authority provided in Iowa Code chapter 544A, the following fees are hereby adopted:

Examination fees:

Fees for examination subjects shall be paid directly to the testing service selected by NCARB.

| | |
|--|--|
| Initial license fee | \$ 50 |
| (plus \$5 per month until renewal) | |
| Reciprocal application and license fee | \$200 |
| Verification application and license fee | \$200 |
| Biennial renewal fee | \$200 |
| Biennial renewal fee (inactive) | \$100 |
| Retired status | None |
| Reinstatement of lapsed individual license | \$100 + renewal fee + \$25 per month or partial month of expired license |

| | |
|--|-------|
| Reinstatement of inactive individual license | \$100 |
| Reinstatement of retired individual license | \$200 |
| Duplicate wall certificate fee | \$ 50 |
| License predetermination fee | \$ 25 |
| Fee for return of payment | \$ 30 |
| All fees are nonrefundable. | |

These rules are intended to implement Iowa Code chapters 544A and 17A.

Purpose and Summary

Proposed Chapter 3 sets forth continuing education requirements for licensed architects to ensure continuing competency. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that architects maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. There are multiple private entities that provide continuing education courses to licensees. Some do offer free continuing education. Some design firms offer free continuing education for their employees. The costs vary, but an average cost, if incurred at all, is an estimated \$25 per hour, bringing the total cost to \$600 every two years for a licensee to meet these requirements.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure ongoing competency for architects to maintain up-to-date practice standards and provide quality services to Iowans, protecting public safety in the built environment.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers continuing education courses so the Board is not privy to exact costs. Based on research estimates, it is around \$600 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 24 hours of continuing education every two years. The Board is in alignment with national model law for architect regulation.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on the up-to-date standard of practice care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country, including Iowa's neighboring states, require continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements and performing continuing education audits. Shared staff at approximately 0.5 full-time equivalent (FTE) position support the entirety of the work of the Board.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact to state revenues from this chapter.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. Forty-four states require continuing education; all of the states within this region require continuing education. Illinois, Nebraska, Minnesota, and Missouri also require 24 hours of continuing education every two years. The Board is in alignment with national model law for architect regulation.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. Forty-four states require continuing education; all of the states within this region require continuing education. Illinois, Nebraska, Minnesota, and Missouri also require 24 hours of continuing education every two years. The Board is in alignment with national model law for architect regulation.

The Department of Inspections, Appeals, and Licensing (DIAL) Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These rule revisions support this effort.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Less restrictive alternatives would be to reduce the amount of continuing education required. Forty-four states require continuing education; all of the states within this region require continuing education. Illinois, Nebraska, Minnesota, and Missouri also require 24 hours of continuing education every two years. The Board is in alignment with national model law for architect regulation.

The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These rule revisions support this effort.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board is in alignment with national model law for architect regulation. All of the states within this region require continuing education. Illinois, Nebraska, Minnesota, and Missouri also require 24 hours of continuing education every two years.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for architects. While some architects likely are running a small business of their own, some also work for large organizations. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

The entities that provide continuing education may have a negative impact on their revenue due to less demand for architectural continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3
CONTINUING EDUCATION

193B—3.1(544A,272C) Continuing education. The following rules adopted by the architectural examining board are in compliance with Iowa Code chapter 544A and section 272C.2 requiring professional and occupational licensees to participate in a continuing education program as a condition of license renewal.

193B—3.2(544A,272C) Definitions. The following definitions apply as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules, unless the context otherwise requires.

“Continuing education” or *“CE”* means postlicensure learning that enables a licensed architect to increase or update knowledge of and competence in technical and professional subjects related to the practice of architecture to safeguard the public’s health, safety, and welfare.

“Continuing education hour” or *“CEH”* means one continuous instructional hour (50 to 60 minutes of contact) spent in structured educational activities intended to increase or update the architect’s knowledge and competence in health, safety, and welfare subjects. If the provider of the structured educational activities prescribes a customary time for completion of such an activity and if the prescribed time is not deemed unreasonable by the board, then such prescribed time will be accepted for CEH purposes as the architect’s time irrespective of actual time spent on the activity.

“Distance learning” means any education process based on the geographical separation of student and instructor. “Distance learning” includes computer-generated programs, webinars, and home-study/correspondence programs.

“Health, safety, and welfare subjects” means technical and professional subjects that the board deems appropriate to safeguard the public and that are within the following enumerated areas necessary for the proper evaluation, design, construction, and utilization of buildings and the built environment.

1. Building systems: structural, mechanical, electrical, plumbing, communications, security, and fire protection.
2. Construction contract administration: contracts, bidding, and contract negotiations.
3. Construction documents: drawings, specifications, and delivery methods.
4. Design: urban planning, master planning, building design, site design, interiors, safety and security measures.
5. Environmental: energy efficiency, sustainability, natural resources, natural hazards, hazardous materials, weatherproofing, and insulation.
6. Legal: laws, codes, zoning, regulations, standards, life safety, accessibility, ethics, and insurance to protect owners and the public.
7. Materials and methods: construction systems, products, finishes, furnishings, and equipment.
8. Occupant comfort: air quality, lighting, acoustics, and ergonomics.
9. Predesign: land use analysis, programming, site selection, site and soils analysis, and surveying.
10. Preservation: historic, reuse, and adaptation.

“Not engaged in active practice” means that an architect is not engaged in the practice of architecture or earning monetary compensation by providing professional architectural services in any licensing jurisdiction of the United States or a foreign country.

“Retired from active practice” has the same meaning as “not engaged in active practice.”

“Structured educational activities” means educational activities in which at least 75 percent of an activity’s content and instructional time is to be devoted to health, safety, and welfare subjects related to the practice of architecture, including courses of study or other activities under the areas identified as health, safety, and welfare subjects and provided by qualified individuals or organizations, whether the courses of study or other activities are delivered by direct contact or distance learning methods.

193B—3.3(544A,272C) Basic requirements.

3.3(1) To renew licensure, an architect must, in addition to meeting all other requirements, complete a minimum of 24 CEHs for each 24-month period since the architect's last renewal of initial licensure or be exempt from these continuing education requirements as provided in rule 193B—3.5(544A,272C). Failure to comply with these requirements may result in nonrenewal of the architect's license.

3.3(2) All 24 CEHs must be completed in health, safety, and welfare subjects acquired in structured educational activities. CEHs may be acquired at any location. Excess CEHs cannot be credited to the next renewal.

3.3(3) An architect will complete and submit forms as required by the board certifying that the architect has completed the required CEHs. Forms may be audited by the board for verification of compliance with these requirements. Documentation of reported CEHs will be maintained by the architect for two years after the period for which the form was submitted. Any discrepancy between the number of CEHs reported and the number of CEHs actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any CEHs, or the licensee has failed to complete the required CEHs, the architect will have 60 days from notification of the board to either provide further evidence of having completed the CEHs disallowed or remedy the disallowance by completing the required number of CEHs (provided that such CEHs are not used for the next renewal). An extension of time may be granted on an individual basis and must be requested by the licensee within 30 days of notification by the board. If the licensee fails to comply with the requirements of this subrule, the licensee may be subject to disciplinary action. If the board finds, after proper notice and hearing, that the architect willfully disregarded these requirements or falsified documentation of required CEHs, the architect may be subject to disciplinary action.

3.3(4) An architect who holds licensure in Iowa for less than 12 months from the date of initial licensure or who is reinstating to active status is not required to report CEHs at the first license renewal. An architect who holds licensure in Iowa for 12 months or more, but less than 23 months from the date of initial licensure or who is reinstating to active status, is required to report 12 CEHs earned in the preceding 12 months at the first license renewal.

193B—3.4(544A,272C) Authorized structured educational activities. The following list may be used by all licensees in determining the types of activities which may fulfill CE requirements if the activities are conducted as structured educational activities on health, safety, and welfare subjects:

1. Short courses or seminars sponsored by colleges or universities.
2. Technical presentations held in conjunction with conventions or at seminars sponsored or accredited by the American Institute of Architects (AIA), Construction Specifications Institute, Construction Products Manufacturers Council, National Council of Architecture Registration Boards (NCARB), or similar organizations devoted to architectural education.
3. Distance learning sponsored by the AIA, NCARB, or similar organizations.
4. College or university credit courses. Each semester hour equals 12 CEHs. A quarter hour equals 8 CEHs.

193B—3.5(544A,272C) Exemptions.

3.5(1) As provided in Iowa Code section 272C.2(4), a licensed architect will be deemed to have complied with the continuing education requirements set forth in this chapter if the architect attests in the required affidavit that for not less than 21 months of the preceding two-year period of licensure, the architect:

- a.* Has served honorably on active duty in the military service; or
- b.* Is a resident of another state or district having a continuing education requirement for licensure as an architect and has complied with all requirements of that state or district for practice therein; or
- c.* Is a government employee working as an architect and assigned to duty outside the United States.

3.5(2) Architects who so attest on their affidavits that they are retired from active practice or are not engaged in active practice may maintain their licenses in retired or inactive status without satisfying

CE requirements. Such architects may, however, reenter practice only after satisfying the board of their proficiency. Proficiency may be established by any one of the following:

a. Submitting verifiable evidence of compliance with the aggregate continuing education requirements for the reporting periods attested as retired from active practice or not engaged in active practice up to a maximum of 48 CEHs.

b. Retaking the architectural registration examination.

c. Fulfilling alternative reentry requirements determined by the board which serve to assure the board of the current competency of the architect to engage in the practice of architecture.

3.5(3) The board may make exceptions for reasons of individual hardship, including health (certified by a medical doctor) or other good cause. See Iowa Administrative Code 193—Chapter 5.

These rules are intended to implement Iowa Code section 272C.2.

Purpose and Summary

Proposed Chapter 4 provides licensees and Iowa with the rules of conduct for architects who are practicing architecture, in order to protect the public health, safety, and welfare by ensuring safe structures.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs associated with practicing architecture in a competent manner, as well as time, effort and money associated with compliance. Costs to the licensee include the cost of a seal, which costs under \$50.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this chapter. The chapter provides rules of conduct for the practice of architecture to ensure the public safety and welfare in the built environment. If architecture were not regulated, it could mean that less-skilled individuals would design buildings that may not meet safety standards. Architecture is regulated in all 50 states.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the benefits achieved justify the costs because the chapter provides rules of conduct for the practice of architecture to ensure the public safety and welfare in the built environment. If architecture were not regulated, it could mean that less-skilled individuals would design buildings that may not meet safety standards. Architecture is regulated in all 50 states.

Licensees bear costs in the form of licensing fees and compliance.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing rules of conduct for architects ensures safety for Iowans in the built environment. If this profession were not regulated, it could mean less-skilled individuals would design buildings that may not meet safety standards.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes oversight of the rules of conduct, questions from licensees and the public, administration of Board meetings, etc. Shared staff at approximately 0.5 full-time equivalent (FTE) position support the entirety of the work of the Board. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the costs because the chapter provides rules of conduct for the practice of architecture to ensure the public safety and welfare in the built environment. If architecture were not regulated, it could mean that less-skilled individuals would design buildings that may not meet safety standards. Architecture is regulated in all 50 states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Architecture is regulated in all 50 states.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified any other alternatives to rules of conduct.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified any other alternatives to rules of conduct.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for architects. While some architects likely are running a small business of their own, some also work for large organizations. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4
RULES OF CONDUCT

193B—4.1(544A,17A) Rules of conduct. Failure by a licensee to adhere to the provisions of Iowa Code sections 272C.10 and 544A.13 and the following rules of conduct is grounds for disciplinary action.

4.1(1) Definition. The following definition applies as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules, unless the context otherwise requires.

“*Responsible charge*” means the amount of control over and detailed professional knowledge of the content of technical submissions during their preparation as is ordinarily exercised by a licensed architect applying the necessary professional standard of care, including but not limited to an architect’s integration of information from manufacturers, suppliers, installers; the architect’s consultants, owners, contractors; or other sources the architect reasonably trusts that is incidental to and intended to be incorporated into the architect’s technical submissions if the architect has coordinated and reviewed such information. Other review, or review and correction, of technical submissions after they have been prepared by others does not constitute the exercise of responsible charge because the reviewer has neither control over nor detailed professional knowledge of the content of such submissions throughout their preparation.

4.1(2) Competence.

a. In practicing architecture, an architect will act with reasonable care and competence and will apply the technical knowledge and skill which is ordinarily applied by architects of good standing practicing in the same locality.

b. While an architect may rely on the advice of other professionals (e.g., attorneys, engineers and other qualified persons) as to the intent and meaning of all applicable state and municipal building laws and regulations, once having obtained such advice, an architect will not knowingly design a project in violation of these laws and regulations.

c. An architect may perform professional services only when the architect, together with those whom the architect may engage as consultants, is qualified by education, training and experience in the specific technical areas involved.

d. No person is permitted to practice architecture if, in the board’s judgment upon receipt of medical testimony or evidence, the person’s professional competence is substantially impaired by physical or mental disabilities.

4.1(3) Conflict of interest.

a. An architect may accept compensation for services from more than one party on a project if the circumstances are fully disclosed to and agreed to in writing by all interested parties.

b. If an architect has any business association or direct or indirect financial interest which is substantial enough to influence the architect's judgment in connection with the architect's performance of professional services, the architect will fully disclose, in writing, to the client or employer the nature of the business association or financial interest, and if the client or employer objects to the association or financial interest, the architect will either terminate such association or interest or offer to give up the commission or employment.

c. An architect may not solicit or accept compensation from material or equipment suppliers in return for specifying or endorsing the products.

d. When acting as the interpreter of building contract documents and the judge of contract performance, an architect will render decisions impartially, favoring neither party to the contract.

4.1(4) Full disclosure.

a. When making public statements on architectural questions, an architect will disclose when compensation is being received for making the statements.

b. An architect will accurately represent to a prospective or existing client or employer the architect's qualifications, capabilities, and experience and the scope of the architect's responsibility in connection with work for which the architect is claiming credit.

c. If, in the course of work on a project, an architect becomes aware of a decision taken by the employer or client against the architect's advice which violates applicable state or municipal building laws and regulations and which may, in the architect's judgment, adversely affect the safety to the public of the finished project, the architect will:

(1) Report the decision to the local building inspector or other public official charged with enforcement of the applicable state or municipal building laws and regulations,

(2) Refuse to consent to the decisions, and

(3) In circumstances where the architect reasonably believes that other decisions will be taken, notwithstanding the architect's objection, terminate the architect's services with reference to the project.

d. An architect will not deliberately make a materially false statement or deliberately fail to disclose a material fact requested in connection with application for licensure or renewal of license.

e. An architect will not assist the application for licensure of a person known by the architect to be unqualified in respect to education, training, experience or character.

f. An architect possessing knowledge of a violation of these rules by another architect will report the knowledge to the board.

4.1(5) Compliance with laws.

a. An architect will not, in the conduct of architectural practice, knowingly violate any state or federal criminal law. A "conviction" for purposes of this paragraph and Iowa Code section 544A.13 means a conviction of a felony related to the profession or occupation of the licensee or the conviction of any felony that would affect the licensee's ability to practice the profession of architecture and includes the court's acceptance of a guilty plea, a deferred judgment from the time of entry of the deferred judgment until the time the defendant is discharged by the court without entry of judgment, or other finding of guilt by a court of competent jurisdiction. A copy of the record of conviction, guilty plea, deferred judgment, or other finding of guilt is conclusive evidence. A licensed architect will notify the board of a conviction within 30 days of the conviction.

b. An architect will neither make nor offer to make any payment or gift to a government official (whether elected or appointed) with the intent of influencing the official's judgment in connection with a prospective or existing project in which the architect is interested.

c. An architect will comply with the licensing laws and regulations governing the architect's professional practice in any United States jurisdiction.

d. An Iowa-licensed architect will report to the board in writing any revocation, suspension, license denial, or other disciplinary action taken by a licensing authority in any other state or jurisdiction within 30 days of the final action.

4.1(6) Professional conduct.

a. Each office engaged in the practice of architecture will have an architect resident regularly employed in that office having responsible charge of such work or, in the situation of work performed

remotely, immediately available to furnish assistance or direction throughout the performance of the work.

b. An architect may only sign or seal drawings, specifications, reports or other professional work for which the architect has direct professional knowledge and direct supervisory control; provided, however, that in the case of the portions of professional work prepared by the architect's consultants, licensed under this or another professional licensing law of this jurisdiction, the architect may sign or seal that portion of the professional work if the architect has reviewed that portion, has coordinated its preparation and intends to be responsible for its adequacy.

c. An architect will neither offer nor make any gifts to any public official with the intent of influencing the official's judgment in connection with a project in which the architect is interested. Nothing in this rule will bar an architect from providing architectural services as a charitable contribution.

d. An architect will not engage in conduct involving fraud or wanton disregard of the rights of others.

e. Architects will adhere to the appropriate standards of conduct as outlined in the NCARB Model Rules of Conduct, dated July 2018, incorporated herein by reference.

4.1(7) Seal and certificate of responsibility.

a. The seal under Iowa Code section 544A.28 includes:

- (1) An outside circle with a diameter of approximately 1¾ inches.
- (2) The name of the licensed architect and the words "Licensed Architect".
- (3) The Iowa license number and the word "Iowa".
- (4) The seal will substantially conform to the samples shown below:

b. A legible rubber stamp, electronic image or other facsimile of the seal may be used.

c. Each technical submission submitted to a client or any public agency, hereinafter referred to as the official copy, will contain an information block on its first page or on an attached cover sheet with application of a seal by the architect in responsible charge and an information block with application of a seal by each professional consultant contributing to the technical submission. The seal and original signature will be applied only to a final technical submission. Each official copy of a technical submission will be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the technical submission. Each information block will display the seal of the individual responsible for that portion of the technical submission. The area of responsibility for each sealing professional will be designated in the area provided in the information block, so that responsibility for the entire technical submission is clearly established by the combination of the stated seal responsibilities. The information block will substantially conform to the sample shown below:

| | |
|---------|---|
| S E A L | <p>I hereby certify that the portion of this technical submission described below was prepared by me or under my direct supervision and responsible charge. I am a duly licensed architect under the laws of the state of Iowa.</p> <hr/> <p style="text-align: center;">Signature Date</p> <p>Printed or typed name _____</p> <p>License number _____</p> <p>My license renewal date is June 30, _____.</p> <p>Pages or sheets covered by this seal: _____</p> <p>_____</p> <p>_____</p> <p>_____</p> |
|---------|---|

d. The information requested in each information block must be typed or legibly printed in permanent ink or a secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the licensee’s responsibility to ensure, prior to affixing an electronic signature to a technical submission, that security procedures are adequate to (1) verify that the signature is that of a specific person and (2) detect any changes that may be made or attempted after the signature of the specific person is affixed. The seal implies responsibility for the entire technical submission unless the area of responsibility is clearly identified in the information accompanying the seal.

e. The architect who signed the original submission is responsible for forwarding copies of all changes and amendments to the technical submission, which becomes a part of the official copy of the technical submission, to the public official charged with the enforcement of the state, county, or municipal building code.

f. An architect is responsible for the custody and proper use of the seal. Improper use of the seal is grounds for disciplinary action.

g. The seal appearing on any technical submission establishes prima facie evidence that said technical submission was prepared by or under the responsible charge of the individual named on that seal.

4.1(8) Communications. An architect will, when requested, respond to communications from the board within 30 days of the mailing of such communication by certified mail. Failure to respond to such communication may be grounds for disciplinary action against the architect.

4.1(9) Architectural Experience Program supervisor. The Architectural Experience Program supervisor, formerly known as the Intern Development Program supervisor, will timely respond to a request to verify experience hours reported to the National Council of Architectural Registration Boards’ Architectural Experience Program when requested by NCARB, the board, or a subordinate, associate, or intern who is, or has been, supervised by the Architectural Experience Program supervisor.

This rule is intended to implement Iowa Code chapters 17A and 544A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193B—Chapter 5
“Exceptions”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 544A.29, 272C, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 544A, 272C, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
3:30 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Architectural Examining Board no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Lori SchraderBachar
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9030
Email: lori.schraderbachar@iowa.gov

Purpose and Summary

Iowa residents, the public, building code officials, licensees and employers benefit from proposed Chapter 5 because it clarifies when an architect is needed to design or make alterations to a building. The chapter establishes guidelines for the types of projects where architectural services are needed to provide for the health and safety of those who occupy buildings and interact in the built environment. Architects ensure safety by adhering to federal and state laws, building codes, and zoning laws.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Costs to the public would include fees paid to an architect or architectural firm; the costs vary depending on the size and complexity of the project. However, the costs to use architectural services have the benefit of ensuring safe buildings. The Board recognizes that there are costs associated with the requirements but is unable to assess the actual cost.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this chapter. The chapter clarifies when an architect is needed to design or make alterations to a building. The chapter publicly establishes guidelines for the types of projects where architectural services are needed to provide for the health and safety of those who occupy buildings and interact in the built environment.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the benefits achieved justify the costs because the chapter clarifies when an architect is needed to design or make alterations to a building to ensure the public safety and welfare in the built environment. Costs to the public would include fees paid to an architect or architectural firm; the costs vary depending on the size and complexity of the project. If architecture were not regulated, it could mean that less-skilled individuals would design buildings that may not meet safety standards. Architecture is regulated in all 50 states.

Licensees bear costs in the form of licensing fees and compliance.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

The chapter establishes guidelines for the types of projects where architectural services are needed to provide for the health and safety of those who occupy buildings and interact in the built environment.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes oversight, questions from licensees and the public, administration of Board meetings, etc. Shared staff at approximately 0.5 full-time equivalent (FTE) position support the entirety of the work of the Board. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact to state revenues as a result of this rulemaking.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Establishing requirements for architectural services ensures safety for the public. The cost of inaction would increase the potential for injury to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Costs to the public would include fees paid to an architect or architectural firm; the costs vary depending on the size and complexity of the project. However, the costs to use architectural services have the benefit of ensuring safe buildings. The Board recognizes that there are costs associated with the requirements but is unable to assess the actual cost.

Minnesota and Nebraska's requirements are similar to those in Iowa and in some cases are more stringent.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Statute provides that the practice of architecture affects the public's health, safety, and welfare. Statute allows for exemptions to using architectural services on six occasions. The rules in Chapter 5 provide guidance to the public, especially laypeople and building code officials, as to when the services of an architect are needed. Neighboring states have similar regulations.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Statute provides that the practice of architecture affects the public's health, safety, and welfare. Statute allows for exemptions to using architectural services on six occasions. The rules in Chapter 5

provide guidance to the public, especially laypeople and building code officials, as to when the services of an architect are needed. Neighboring states have similar regulations.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for architects. While some architects likely are running a small business of their own, some also work for large organizations. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5 EXCEPTIONS

193B—5.1(544A) Definitions. The following definitions apply as used in Iowa Code chapter 544A and this chapter of the architectural examining board rules.

“*Accessory buildings*” means a building or structure of an accessory character and miscellaneous structures not classified in any specific occupancy or use. “Accessory buildings” are constructed, equipped and maintained to conform to the requirements corresponding to the fire and life hazard incidental to the buildings’ occupancy. “Accessory buildings” is intended to encompass the uses listed in Group U of the 2015 International Building Code®.

“*Agricultural building*” means a structure designed to house farm implements, hay, grain, poultry, livestock or other agricultural products. For the purpose of this definition, this structure does not contain habitable space or a place of employment where agricultural products are processed or treated or packaged; nor will it be a place used by the public.

“*Alter*” or “*alteration*” means any change, addition or modification to an existing building in its construction or occupancy.

“*Church*” means a building or portion thereof intended for the performance of religious services.

“*Commercial*” or “*commercial use*” means the following:

1. The use of a building or structure, or a portion thereof, for office, professional, or service-type transactions, including storage of records and accounts,

2. The use of a building or structure, or a portion thereof, for the display and sale of merchandise, and involves stocks of goods, including wares or merchandise incidental to such purposes and accessible to the public.

“Commercial use” is intended to encompass the uses listed in Group B and Group M of the 2015 International Building Code®.

“*Detached*” means a structure separated by distance and not connected to another structure.

“*Dwelling unit*” means a single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking and sanitation.

“*Educational use*” means the use of a building or structure, or a portion thereof used (1) by six or more persons at any one time for education purposes through twelfth grade; or (2) by six or more children for day care purposes. Rooms and spaces within places of religious worship providing such day care during religious functions and day cares serving five or fewer children are classified as part of the primary occupancy. “Educational use” is intended to encompass the uses listed in Group E of the 2015 International Building Code®.

“*Factory-built buildings*” means any structure which is, wholly or in substantial part, made, fabricated, formed, or assembled in manufacturing facilities for installation, or assembly and installation, on a building site. “Factory-built buildings” includes the terms “mobile home,” “manufactured home,” and “modular home.”

“*Family dwelling unit*” means the same as “dwelling unit.”

“*Gross floor area*” means the area included within the surrounding exterior walls of a building. Areas of the building not provided with surrounding walls are included in the building area if such areas are included within the horizontal projection of the supporting structure of the roof or floor above.

“*Habitable space (room)*” means a space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet compartments, closets, halls, storage or utility space, and similar areas are not considered “habitable space.”

“*Hazardous use*” means the use of a building or structure, or a portion thereof, which involves the manufacturing, processing, generation or storage of materials that constitute a physical or health hazard. “Hazardous use” is intended to encompass the uses listed in Group H of the 2015 International Building Code®.

“*Industrial use*” means the use of a building or structure, or a portion thereof, for assembling, disassembling, fabricating, finishing, manufacturing, packaging, repair, or processing operations that are not classified as hazardous use. “Industrial use” is intended to encompass the uses listed in Group F of the 2015 International Building Code®.

“*Institutional use*” means the use of a building or structure, or a portion thereof, in which persons are receiving custodial or medical care, in which persons are detained for penal or correctional purposes or in which the liberty of the occupants is restricted. Day care facilities as defined in educational use are not considered institutional uses. “Institutional use” is intended to encompass the uses listed in Group I of the 2015 International Building Code®. Facilities with five or fewer persons receiving custodial care may be considered a residential use or be considered part of the primary occupancy as listed in Group I of the 2015 International Building Code®.

“*International Building Code*” is a model building code developed by the International Code Council. The 2015 International Building Code® is available from the state library of Iowa or the board or online at codes.iccsafe.org.

“*Light industrial*” means buildings not more than one story in height and not exceeding 10,000 square feet in gross floor area that involve fabrication or manufacturing of noncombustible materials which, during finishing, packing, or processing, are not classified as hazardous use.

“*Mixed building use*” means a building containing more than one use classification.

“*Nonstructural alterations*” means modifications to an existing building which do not include any changes to structural members of a building, or do not modify means of egress, handicap accessible routes, fire resistivity or other life safety concerns.

“*Occupancy*” means a purpose for which a building, or part thereof, is used or intended to be used.

“*Outbuildings*” means the same as “accessory buildings.”

“Place of assembly of people or public gathering” means the use of a building or structure, or a portion thereof, for the gathering of persons such as for civic, social, or religious functions; recreation, food or drink consumption; or awaiting transportation. “Place of assembly of people or public gathering” is intended to encompass the uses listed in Group A of the 2015 International Building Code®. Places of assembly with occupancy of fewer than 50 people are considered part of the primary occupancy.

“Residential use” means the use of a building or structure, or a portion thereof, for sleeping purposes when not classified as an institutional use. “Residential use” is intended to encompass the uses listed in Group R of the 2015 International Building Code®.

“Story” means that portion of a building included between the upper surface of any floor and the upper surface of the floor or roof next above.

“Structural members” consists of building elements which carry an imposed load of weight and forces in addition to their own weight including, but not limited to, loads imposed by forces of gravity, wind, and earthquake. Structural members include, but are not limited to, footings, foundations, columns, load-bearing walls, beams, girders, purlins, rafters, joists, trusses, lintels, and lateral bracing.

“Use” means the same as “occupancy.”

“Warehouses” or *“warehouse use”* means the use of a building or structure, or portion thereof, for storage that is not classified as a hazardous use. “Warehouse use” is intended to encompass the uses listed in Group S of the 2015 International Building Code®.

193B—5.2(544A) Exceptions. An architect licensed in this state is required to perform professional architectural services for all buildings except those listed in Iowa Code section 544A.18.

193B—5.3(544A) Building use. The following criteria are used when applying the exceptions outlined in Iowa Code section 544A.18 and rule 193B—5.2(544A):

5.3(1) Building use takes priority over size. In all cases, the use of the building takes priority over the size. For example, a place of assembly is not a commercial use, and would not constitute an exception even if the building is not more than one story in height and does not exceed more than 10,000 square feet in gross floor area.

5.3(2) Mixed building use. In the case that a building contains more than one use, the most stringent use is applied to the entire building when applying the exceptions. For example, a two-story building containing a 6,000 square foot commercial space as well as 6,000 square feet of residential space on the second floor would be considered a 12,000 square foot, two-story commercial building for the purposes of the exception matrix.

5.3(3) Agricultural buildings. Activities inherent to housing farm implements, farm inputs, farm products, and livestock or other agricultural products, such as recordkeeping, sanitation, storage of farm inputs, or equipment preparation, repair, or modifications, are not to be construed as a use in and of itself for the purposes of applying the exceptions. For example, welding operations to repair an implement or grain-handling equipment would not trigger the consideration of an agricultural building or a portion of the building as an industrial use.

5.3(4) Churches and accessory buildings. When under the height and gross floor area noted in the exception and encompassing uses inherent to a church or an accessory building as defined, these buildings are exempted, even if the use within the building would normally not be exempted. For example, a church used as a place of assembly with occupancy of more than 50 people but still under the height and gross floor area noted would still be exempted even though the occupancy would place the building in the nonexempted category.

193B—5.4(544A) Exceptions matrix. The following matrix is compiled to illustrate the exceptions outlined in Iowa Code section 544A.18. The laws and rules governing the Practice of Engineering are not illustrated herein.

| BUILDINGS NEW CONSTRUCTION | | | |
|--|--|-------------------------------|--|
| Building Use Type | Description | Architect Required | Architect May Not Be Required |
| Agricultural use | Including grain elevators and feed mills | | X |
| Churches and accessory buildings whether attached or separate | One or two stories in height, up to a maximum of 2,000 square feet in gross floor area | | X |
| | Any number of stories in height, greater than 2,000 square feet in gross floor area | X | |
| | More than two stories in height | X | |
| Commercial use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | X |
| | One story in height, greater than 10,000 square feet in gross floor area | X | |
| | Two stories in height, up to a maximum of 6,000 square feet in gross floor area | | X |
| | Two stories in height, greater than 6,000 square feet of gross floor area | X | |
| | More than two stories in height | X | |
| Detached residential use | One, two or three stories in height, containing 12 or fewer family dwelling units | | X |
| | More than 12 family dwelling units | X | |
| | More than three stories in height | X | |
| | Outbuildings in connection with detached residential buildings | | X |
| Educational use | | X | |
| Hazardous use | | X | |
| Industrial use | | X | |
| Institutional use | | X | |
| Light industrial use | | | X |
| Places of assembly | | X | |
| Warehouse use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | X |
| | One story in height, greater than 10,000 square feet in gross floor area | X | |
| | More than one story in height | X | |
| Factory-built buildings | Any height and size, if certified by a professional engineer licensed under Iowa Code chapter 542B | | X |
| | One or two stories in height, up to a maximum of 20,000 square feet in gross floor area | | X |
| | One or two stories in height, greater than 20,000 square feet in gross floor area | X | |
| | More than two stories in height | X | |
| | More than 20,000 square feet in gross floor area | X | |

| ALTERATIONS TO EXISTING BUILDINGS | | | | |
|---|--|--|--|---|
| Alteration Type | Description | Architect Required | Architect May Not Be Required | |
| Structural alterations to exempt buildings | Modifications which change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns | | X | |
| Structural alterations to nonexempt buildings | Modifications which change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns | X | | |
| Nonstructural alteration | Which does not modify means of egress, handicap accessible path, fire resistivity or other life safety concerns | | X | |
| | Which maintains the previous type of use | | X | |
| Nonstructural alteration which changes the use of the building from any other use to: | A place of assembly of people or public gathering | X | | |
| | Educational use | X | | |
| | Hazardous use | X | | |
| | Residential use exempted | and is one, two or three stories in height and contains not more than 12 family dwelling units | | X |
| | Residential use not exempted otherwise | and is more than three stories in height | X | |
| and containing more than 12 family dwelling units | | X | | |
| Nonstructural alterations which change the use of the building from industrial or warehouse to: | Commercial or office use | and is one story in height and not greater than a maximum of 10,000 square feet in gross floor area | | X |
| | | and is one story in height and greater than 10,000 square feet in gross floor area | X | |
| | | and is two stories in height and not greater than a maximum of 6,000 square feet in gross floor area | | X |
| | | and is two stories in height and greater than 6,000 square feet in gross floor area | X | |
| | | and is more than two stories in height | X | |
| | | and is greater than 10,000 square feet of gross floor area | X | |
| Nonstructural alterations to: | Agricultural use | Including grain elevators and feed mills | | X |

Purpose and Summary

Proposed Chapter 6 provides Iowans, licensees, and their employers with information about the disciplinary process and possible actions against licensed architects. The public knows that the Board can take disciplinary action for violations of the Board’s rules. The public has the ability to submit a complaint to the Board who can then investigate the allegation. The Board has the ability to seek discipline against the licensee ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Costs are not generally incurred by the public.

Licensees are responsible for costs associated with disciplinary actions. Civil penalties are capped at \$1,000 per instance.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this chapter is to ensure public safety and maintain a high level of service for Iowans. The Board receives a low number of complaints and takes few disciplinary actions. In fiscal year 2023, the Board received 20 complaints and issued one public disciplinary action. There are approximately 2,637 licensed architects in the state of Iowa.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because architecture is a profession that requires knowledge, training, and skill.

The Board has not identified a less restrictive alternative to public protection. There could be consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure the safety of Iowans in the built environment.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates professional standards.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates applicable rules or laws. Shared staff at approximately 0.5 full-time equivalent (FTE) position support the entirety of the work of the Board. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees, not the State. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In fiscal year 2023, a total of \$25,500 was paid to the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because architecture is a profession that requires knowledge, training, and skill. In fiscal year 2023, the Board opened 20 complaints and issued one public disciplinary action. There are approximately 2,640 licensed architects in the state of Iowa. While a low number of complaints can call into question the extent to which a profession needs to be regulated, architecture is a profession that requires a high level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure the safety of Iowans in the built environment.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
The Board has not identified any other alternatives to these disciplinary rules.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The Board has not identified any other alternatives to these disciplinary rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for architects. While some architects likely are running a small business of their own, some also work for large organizations. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 6 and adopt the following **new** chapter in lieu thereof:

CHAPTER 6 DISCIPLINARY ACTION AGAINST LICENSEES

193B—6.1(544A,272C) Disciplinary action. The architectural examining board has authority in Iowa Code chapters 544A, 17A and 272C to impose discipline for violations of these chapters and the rules promulgated thereunder.

193B—6.2(544A,272C) Investigation of complaints. The board will, upon receipt of a complaint in writing, or may, upon its own motion, pursuant to other evidence received by the board, review and investigate alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rules. In order to determine if probable cause exists for a hearing on a complaint, the investigators designated by the chairperson will investigate the allegations of the complaint. If the board determines that the complaint does not present facts which constitute a basis for disciplinary action, the board may take no further action.

193B—6.3(544A,272C) Peer investigative committee. A peer investigative committee may be appointed by the chairperson to investigate a complaint. The committee members will consist of one or more architects who have been licensed to practice in Iowa for at least five years, serving at the discretion of the chairperson. The committee will review and determine the facts of the complaint and make a report to the board in a timely manner.

193B—6.4(544A,272C) Investigation report. Upon completion of the investigation, the investigator(s) will prepare for the board's consideration a report containing the position or defense of the licensee to determine what further action is necessary. The board may:

1. Order the matter be further investigated.
2. Allow the licensee who is the subject of the complaint an opportunity to appear before a committee of the board for an informal discussion regarding the circumstances of the alleged violation.
3. Determine there is no probable cause to believe a disciplinary violation has occurred and close the case.
4. Determine there is probable cause to believe that a disciplinary violation has occurred.

193B—6.5(544A,272C) Informal discussion. If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. The licensee is not required to attend the informal discussion.

Unless disqualification is waived by the licensee, board members who personally investigated a disciplinary complaint are disqualified from making decisions at a later formal hearing. Because board members generally rely upon staff, investigators, auditors, peer review committees, or expert consultants to conduct investigations, the issue rarely arises. An informal discussion, however, is a form of investigation because it is conducted in a question-and-answer format. In order to preserve the ability of all board members to participate in board decision making, licensees who desire to attend an informal discussion will therefore waive their right to seek disqualification of a board member or staff based solely on the board member's or staff's participation in an informal discussion. Licensees would not be waiving their right to seek disqualification on any other ground. By electing to attend an informal discussion, a licensee accordingly agrees that participating board members or staff are not disqualified from acting as a presiding officer in a later contested case proceeding or from advising the decision maker.

Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges will be filed simultaneously with the consent order.

193B—6.6(544A,272C) Decisions. The board will make findings of fact and conclusions of law and may take one or more of the following actions:

- 6.6(1)** Dismiss the charges.
- 6.6(2)** Revoke the architect's license.
- 6.6(3)** Suspend the licensee's license as authorized by law.
- 6.6(4)** Impose civil penalties, not to exceed \$1,000. Civil penalties may be imposed for any of the disciplinary violations specified in Iowa Code sections 544A.13 and 544A.15 and these rules. Factors the board may consider when determining whether to assess civil penalties and the amount to assess include:
 - a. Whether other forms of discipline are being imposed for the same violation.
 - b. Whether the amount imposed will be a substantial deterrent to the violation.
 - c. The circumstances leading to the violation.
 - d. The severity of the violation and the risk of harm to the public.
 - e. The economic benefits gained by the licensee as a result of the violation.
 - f. The interest of the public.
 - g. Evidence of reform or remedial action.
 - h. Time lapsed since the violation occurred.
 - i. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.

- j.* The clarity of the issues involved.
- k.* Whether the violation was willful and intentional.
- l.* Whether the licensee acted in bad faith.
- m.* The extent to which the licensee cooperated with the board.
- n.* Whether the licensee practiced architecture with a lapsed, inactive, suspended or revoked certificate of licensure.

6.6(5) Impose a period of probation, either with or without conditions.

6.6(6) Require reexamination, using one or more parts of the examination given to architectural licensee candidates.

6.6(7) Require additional professional education, reeducation, or continuing education.

6.6(8) Issue a citation and a warning.

6.6(9) Issue a consent order.

193B—6.7(544A,272C) Voluntary surrender. Voluntary surrender of licensure is considered as disciplinary action. The board may accept the voluntary surrender of a license to resolve a pending disciplinary contested case or pending disciplinary investigation. The board will not accept a voluntary surrender of a license to resolve a pending disciplinary investigation unless a statement of charges is filed along with the order accepting the voluntary surrender. Such voluntary surrender is considered disciplinary action and will be published in the same manner as is applicable to any other form of disciplinary order.

These rules are intended to implement Iowa Code section 544A.13 and chapter 272C.

Purpose and Summary

Proposed Chapter 7 provides Iowans with information about the disciplinary process and possible actions against those who practice architecture without a license. The public knows that the Board can take disciplinary action for violations of the Board’s rules. The public has the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board has the ability to seek discipline for unlicensed practice ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Costs are not generally incurred by the public.

Those who have been found to have practiced without a license are responsible for costs associated with disciplinary actions, which include civil penalties and may include a \$75 hearing fee.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this chapter is to ensure public safety and maintain a high level of service for Iowans. The Board receives a low number of complaints and takes few disciplinary actions. In fiscal year 2023, the Board opened eight complaints of individuals practicing architecture without an active license.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because architecture is a profession that requires knowledge, training, and skill. Those who are not licensed pose a threat to public safety.

The Board has not identified a less restrictive alternative to public protection. The Board believes that these requirements are important in order to ensure the safety of Iowans.

- Qualitative description of impact:

Imposing discipline on individuals practicing architecture without a license ensures safety for the profession and the consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against unlicensed individuals.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when an individual is alleged to be practicing architecture without a license. Shared staff at approximately 0.5 full-time equivalent (FTE) position support the entirety of the work of the Board. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost because architecture is a profession that requires knowledge, training, and skill. In fiscal year 2023, the Board opened eight complaints of individuals practicing architecture without an active license. While a low number of complaints can call into question the extent to which a profession needs to be regulated, architecture is a profession that requires a high level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified any other alternatives to these disciplinary rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified any other alternatives to these disciplinary rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of practice standards for architects. While some architects likely are running a small business of their own, some also work for large organizations. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193B—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
DISCIPLINARY ACTION—UNLICENSED PRACTICE

193B—7.1(544A,272C) Disciplinary action. The architectural examining board has authority in Iowa Code chapters 544A, 17A and 272C to impose discipline for violations of these chapters and the rules promulgated thereunder.

193B—7.2(544A,272C) Investigation of complaints. The board will, upon receipt of a complaint in writing, or may, upon its own motion, pursuant to other evidence received by the board, review and investigate alleged acts which the board reasonably believes constitute cause under applicable law or administrative rules. In order to determine if probable cause exists for a hearing on a complaint, the investigators designated by the chairperson will investigate the allegations of the complaint. If the board determines that the complaint does not present facts which constitute a basis for disciplinary action, the board may take no further action.

193B—7.3(544A) Civil penalties against unlicensed person. The board may impose civil penalties by order against a person who is not licensed as an architect pursuant to Iowa Code chapter 544A based on the unlawful practices specified in Iowa Code section 544A.15(3). In addition to the procedures set forth in Iowa Code section 544A.15(3), this rule applies.

7.3(1) The notice of the board's intent to impose a civil penalty required by Iowa Code section 544A.15(3) may be served upon the unlicensed person by restricted certified mail, return receipt requested, or personal service in accordance with Rule of Civil Procedure 1.305. Alternatively, the unlicensed person may accept service personally or through authorized counsel. The notice includes the following:

- a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
- b. Reference to the particular sections of the statutes and rules involved.

- c.* A short, plain statement of the alleged unlawful practices.
- d.* The dollar amount of the proposed civil penalty.
- e.* Notice of the unlicensed person's right to a hearing and the time frame in which a hearing is requested.

f. The address to which written request for hearing is made.

7.3(2) Unlicensed persons need to request a hearing in writing within 30 days of the date the notice is mailed, if served through restricted certified mail to the last-known address, or within 30 days of the date of service, if service is accepted or made in accordance with Rule of Civil Procedure 1.305. A request for hearing is deemed made on the date of the United States Postal Service postmark or the date of personal service.

7.3(3) If a request for hearing is not timely made, the board chair or the chair's designee may issue an order imposing the civil penalty described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

7.3(4) If a request for hearing is timely made, the board issues a notice of hearing and conducts a hearing in the same manner as applicable to disciplinary cases against licensed architects.

7.3(5) In addition to the factors set forth in Iowa Code section 544A.15(3), the board may consider the following when determining the amount of civil penalty to impose, if any:

- a.* The time lapsed since the unlawful practice occurred.
- b.* Evidence of reform or remedial actions.
- c.* Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.
- d.* Whether the violation involved an element of deception.
- e.* Whether the unlawful practice violated a prior order of the board, court order, cease and desist agreement, consent order, or similar document.
- f.* The clarity of the issue involved.
- g.* Whether the violation was willful and intentional.
- h.* Whether the unlicensed person acted in bad faith.
- i.* The extent to which the unlicensed person cooperated with the board.

7.3(6) An unlicensed person may waive the right to hearing and all attendant rights and enter into a consent order imposing a civil penalty at any stage of the proceeding upon mutual consent of the board.

7.3(7) The notice of intent to impose civil penalty and order imposing civil penalty are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be provided to the media, the National Council of Architectural Registration Boards, and other entities. Hearings are open to the public.

These rules are intended to implement Iowa Code section 544A.15.

Purpose and Summary

The purpose of this chapter is to inform Iowans of the structure and functionality of the Engineering and Land Surveying Examining Board, plus guidance on building situations where a professional engineer may be needed.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The agency bears the cost of Board meetings in the way of \$50 per diem per board member, per meeting, plus travel expenses as needed. Travel expenses in 2022 were approximately \$500. Staff

salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit is to inform the licensees and the public on the structure and functionality of the Board.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are no costs to the public. The expenses of the Board, per diem and travel reimbursement, are paid by the agency, which is funded by licensing fees. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Iowans are protected by the laws of professional licensing. The Board ensures minimum standards for licensing and resolves complaints against licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are staff time needed to manage Board activities, and to pay the Board members \$50 per diem per Board member, per meeting, and reimburse travel expenses. Travel reimbursements for Board meetings in 2022 were approximately \$500.

- Anticipated effect on state revenues:

There is not a significant impact to state revenues by this chapter. Staff salaries are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating the Board would have an unnoticeable impact on state revenues. The Board believes all current requirements ensure public safety and ensure a minimum competency, which serves to protect Iowans.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would dilute the protection of the public. Reducing the nominal pay to the Board or reducing/eliminating travel expense reimbursement may serve to also reduce the interest of individuals to sit on the licensing board.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board. These rules offer the public helpful information regarding the structure of the Board. While the Board is not inclined at this time to make changes, it will consider evidence for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensing and regulation is required by Iowa Code chapter 542B. The rules support the law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms. Therefore, the rulemaking will not directly or substantially impact small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 1 and adopt the following new chapter in lieu thereof:

CHAPTER 1
ADMINISTRATION

193C—1.1(542B) General statement. The practices of engineering and land surveying affect the life, health, and property of the people in Iowa. The engineering and land surveying examining board's principal mandate is the protection of the public interest.

1.1(1) Administration. Administration of the board has not been separated into panels, divisions, or departments. While the expertise of a board member may be called upon to frame special examinations and evaluate applications for licensing in a specialized engineering branch, the board functions in a unified capacity on all matters that may come before it. The board maintains an office at 200 East Grand Avenue, Suite 350, Des Moines, Iowa 50309, and requests or submissions may be directed to the secretary of the board at that location.

1.1(2) Meetings. Regular meetings of the board are held in Des Moines, Iowa. Information concerning the location and dates for meetings may be obtained from the board's office at 200 East Grand Avenue, Suite 350, Des Moines, Iowa 50309, or by telephoning 515.725.9022.

193C—1.2(542B) Definitions. For the purposes of these rules, the following definitions apply:

"Accredited" means a program accredited by the Accreditation Board for Engineering Technology, Inc. (ABET) or the Canadian Engineering Accreditation Board (CEAB) or another accrediting body accepted by the National Council of Examiners for Engineering and Surveying (NCEES).

"Board" means the engineering and land surveying examining board provided by chapter 542B of the Iowa Code.

"Design coordination" means the same as defined in Iowa Code section 542B.2(2).

"Engineering documents" means the same as defined in Iowa Code section 542B.2(4).

"Engineering survey," as used in the definition of the practice of engineering, includes all survey activities required to support the sound conception, planning, design, construction, maintenance, and operation of engineered projects, but excludes the survey of real property for the establishment of land boundaries, rights-of-way, easements, and the dependent or independent surveys or resurveys of the public land system.

"Engineer intern" means the same as defined in Iowa Code section 542B.2(3).

"In responsible charge" means the same as defined in Iowa Code section 542B.2(6).

“*Land surveying documents*” means the same as defined in Iowa code section 542B.2(7).

“*Practice of engineering*” means the same as defined in Iowa Code section 542B.2(9) “a” and “b.”

1. The practice of engineering includes:

- Environmental engineering activities which may be involved in developing plans, reports, or actions to remediate an environmentally hazardous site;
- Design of fixturing devices for manufacturing machinery that must be performed by a licensed professional engineer or under the responsible charge and direct supervision of a professional engineer unless performed within the industrial exemption by a full-time employee of a corporation which constructs the fixtures.

2. Activities that the board will construe as the practice of engineering for which the board may by order impose a civil penalty upon a person who is not licensed as a professional engineer are set out in Iowa Code section 542B.27.

“*Practice of land surveying*” means the same as defined in Iowa Code section 542B.2(10) and also includes activities that the board will construe as the practice of land surveying and for which the board may by order impose a civil penalty upon a person who is not licensed as a professional land surveyor as set out in Iowa Code section 542B.27.

“*Professional engineer*” means the same as defined in Iowa Code section 542B.2(11).

“*Professional land surveyor*” means a person who engages in the practice of land surveying as defined in this rule.

“*Written,*” when used to describe an examination, means a computer-based format.

193C—1.3(542B) Declaratory orders. The board’s rules regarding declaratory orders can be found in the uniform rules for the division of professional licensing and regulation at 193—Chapter 10.

193C—1.4(542B) Waivers.

1.4(1) The board’s rules regarding waivers can be found in the uniform rules for the division of professional licensing and regulation at 193—Chapter 5.

1.4(2) Interim rulings. The board chairperson, or vice chairperson if the chairperson is not available, may rule on a petition for waiver when it would not be timely to wait for the next regularly scheduled board meeting for a ruling from the board.

a. The executive secretary shall, upon receipt of a petition meeting all applicable criteria established in 193—Chapter 5, present the request to the board chairperson or vice chairperson along with all pertinent information regarding established precedent for granting or denying such requests.

b. The chairperson or vice chairperson shall reserve the right to hold an electronic meeting of the board when:

(1) Board precedent does not clearly resolve the request and the input of the board is deemed required; and

(2) The practical result of waiting until the next regularly scheduled meeting would be a denial of the request due to timing issues.

c. A waiver report will be placed on the agenda of the next regularly scheduled board meeting and recorded in the minutes of the meeting.

d. This subrule on interim rulings does not apply if the waiver was filed in a contested case.

193C—1.5(542B) Licensed professional engineers and building construction.

1.5(1) Purpose. This rule is intended to provide guidance to licensed professional engineers, other design professionals, unlicensed persons engaged in various aspects of building construction, building officials, owners, and others on when the services of a licensed professional engineer are required or not in connection with new building construction and alterations to existing structures.

1.5(2) General guidelines. Given the wide range of buildings covered by this rule and the unique issues which may arise with respect to specific buildings, it is not possible to establish definitive criteria which will universally resolve when building construction or alterations will or will not implicate the practice of professional engineering, as defined in Iowa Code sections 542B.2(8) and 542B.27(1). For

example, while the construction of a single-family residence would not generally necessitate the services of a licensed professional engineer, unique or unconventional features of a particular site or design may necessitate complex structural calculations or other services which fall within the definition of professional engineering. As a result, this rule should be interpreted as providing only general guidelines on when a licensed professional engineer is necessary.

1.5(3) Applicability. The board will consider the guidelines provided in this rule when enforcing Iowa Code chapter 542B, including when determining whether an unlicensed person has engaged in the practice of professional engineering. This rule is not intended to constrain building officials or other public officials in their enforcement of other laws, rules, regulations or ordinances. A building code official, for example, may require that certain documents be prepared by a licensed professional engineer or that certain construction inspections be performed by a licensed professional engineer whether or not the guidelines in this rule would so require. This rule only addresses the practice of professional engineering and does not address the practice of architecture. Similar guidelines with respect to the practice of architecture may be found at 193B—Chapter 5.

1.5(4) Definitions. The definitions set forth in 193B—5.1(544A) apply to this rule.

1.5(5) Guidelines for new construction. The following matrix describes by building type and use when the services of a licensed professional engineer are required in connection with new building construction:

| BUILDINGS NEW CONSTRUCTION | | | |
|---|---|------------------------------|---|
| Building Use Type | Description | Engineer Required | Engineer May Not Be Required |
| Agricultural Use | Facilities for private use only and individually owned and operated facilities including grain elevators and feed mills | | X |
| | Corporate-owned facilities or publicly owned facilities including grain elevators and feed mills | X | |
| Churches and accessory buildings whether attached or separate | One or two stories in height, up to a maximum of 2,000 square feet in gross floor area | | X |
| | Any number of stories in height, greater than 2,000 square feet in gross floor area | X | |
| | More than two stories in height | X | |
| Commercial Use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | X |
| | One story in height, greater than 10,000 square feet in gross floor area | X | |
| | Two stories in height, up to a maximum of 6,000 square feet in gross floor area | | X |
| | Two stories in height, greater than 6,000 square feet in gross floor area | X | |
| | More than two stories in height | X | |
| Detached Residential Use | One, two or three stories in height, containing 12 or fewer family dwelling units | | X |
| | More than 12 family dwelling units | X | |
| | More than three stories in height | X | |
| | Outbuildings in connection with detached residential buildings | | X |
| Educational Use | | X | |

| BUILDINGS NEW CONSTRUCTION | | | |
|---------------------------------------|--|------------------------------|---|
| Building Use Type | Description | Engineer Required | Engineer May Not Be Required |
| Governmental Use | When the occupancy is of another building use type listed herein, those provisions shall apply | X | |
| Industrial Use | | X | |
| Institutional Use | | X | |
| Light Industrial Use | | | X |
| Places of assembly | | X | |
| Warehouse Use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | X |
| | One story in height, greater than 10,000 square feet in gross floor area | X | |
| | More than one story in height | X | |
| Factory-Built Buildings | One or two stories in height, up to a maximum of 20,000 square feet in gross floor area | | X |
| | One or two stories in height, greater than 20,000 square feet in gross floor area | X | |
| | More than two stories in height | X | |
| | More than 20,000 square feet in gross floor area | X | |

1.5(6) *Guidelines for alterations to existing buildings.* The following matrix describes by alteration type when the services of a licensed professional engineer are required in connection with alterations to existing buildings:

| ALTERATIONS TO EXISTING BUILDINGS | | | |
|--|--|------------------------------|---|
| Alteration Type | Description | Engineer Required | Engineer May Not Be Required |
| Structural alterations to exempt buildings under Iowa Code section 544A.18 | Modifications which change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns | | X |
| Structural alterations to buildings that are not exempt | Modifications which change the structural members, means of egress, handicap accessible path, fire resistivity or other life safety concerns | X | |
| Nonstructural alteration | Which does not modify means of egress, handicap accessible path, fire resistivity or other life safety concerns | | X |

| ALTERATIONS TO EXISTING BUILDINGS | | | | |
|---|---|--|----------------------|---------------------------------------|
| Alteration Type | Description | | Engineer Required | Engineer May Not Be Required |
| | Which maintains the previous type of use | | | X |
| Nonstructural alteration which changes the use of the building from any other use to: | A place of assembly of people or public gathering | | X | |
| | Governmental use | | X | |
| | Educational use | | X | |
| | Hazardous use | | X | |
| | A place of residence exempted | and is one, two or three stories in height and contains not more than 12 family dwelling units | | X |
| | A place of residence not exempted otherwise | and is more than three stories in height | X | |
| and containing more than 12 family dwelling units | | X | | |
| Nonstructural alterations which change the use of the building from industrial or warehouse to: | Commercial or office use | and is one story in height and not greater than a maximum of 10,000 square feet in gross floor area | | X |
| | | and is one story in height and greater than 10,000 square feet in gross floor area | X | |
| | | and is two stories in height and not greater than a maximum of 6,000 square feet in gross floor area | | X |
| | | and is two stories in height and greater than 6,000 square feet in gross floor area | X | |
| | | and is more than two stories in height | X | |
| | | and is greater than 10,000 square feet of gross floor area | X | |
| Nonstructural alterations to: | Agricultural Use | Including grain elevators and feed mills | | X |
| | Churches and Accessory Building Uses | One or two stories in height, up to a maximum of 2,000 square feet in gross floor area | | X |
| | | Any number of stories in height, greater than 2,000 square feet in gross floor area | X | |
| | | More than two stories in height | X | |
| | Commercial Use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | X |
| | | One story in height, greater than 10,000 square feet in gross floor area | X | |
| | | Two stories in height, up to a maximum of 6,000 square feet in gross floor area | | X |
| | | Two stories in height, greater than 6,000 square feet in gross floor area | X | |
| | | More than two stories in height | X | |
| | Detached Residential Buildings | One, two or three stories in height, containing 12 or fewer family dwelling units | | X |
| More than 12 family dwelling units | | X | | |

| ALTERATIONS TO EXISTING BUILDINGS | | | | | |
|--------------------------------------|---|--|-------------------|------------------------------|---|
| Alteration Type | Description | | Engineer Required | Engineer May Not Be Required | |
| | | More than three stories in height | X | | |
| | | Outbuildings in connection with detached residential buildings | | X | |
| | Educational Use | | X | | |
| | Governmental Use | When the occupancy is of another building use type listed herein, those provisions shall apply | X | | |
| | Industrial Use | | X | | |
| | Institutional Use | | X | | |
| | Light Industrial Use | | | X | |
| | Places of Assembly | | X | | |
| | Warehouse Use | One story in height, up to a maximum of 10,000 square feet in gross floor area | | | X |
| | | One story in height, greater than 10,000 square feet in gross floor area | X | | |
| | | More than one story in height | X | | |
| Factory-Built Buildings | One or two stories in height, up to a maximum of 20,000 square feet of gross floor area | | | X | |
| | One or two stories in height, greater than 20,000 square feet in gross floor area | X | | | |
| | More than two stories in height | X | | | |
| | More than 20,000 square feet in gross floor area | X | | | |

1.5(7) Architectural exceptions do not apply. The statutory exemptions in Iowa Code section 544A.18 do not apply to the practice of engineering. The construction of a building that falls within an exception in Iowa Code section 544A.18 may necessitate the services of an engineer if, for example:

a. There are structural elements which do not fall within building code definitions of conventional light frame construction,

b. The use of certain structural materials, members or components requires special inspections by engineers, or

c. HVAC, plumbing or electrical systems exceed certain building code standards. However, the matrix guidelines in this rule are generally compatible with the exceptions in Iowa Code section 544A.18 because the construction of buildings that fall outside the exceptions in Iowa Code section 544A.18 generally does implicate the practice of professional engineering in such disciplines as structural, electrical or mechanical engineering.

These rules are intended to implement Iowa Code sections 17A.9A, 542B.2, and 542B.3.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 2
“Fees and Charges”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The purpose of proposed Chapter 2 is to provide applicants with detailed information regarding the fees and charges associated with acquiring and maintaining an engineer or land surveyor license.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost to acquire and maintain a license is levied upon the licensees.
 - Classes of persons that will benefit from the proposed rulemaking:

Current and future licensees will benefit by knowing the various costs associated with an engineer and land surveyor license.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensing fees vary from state to state. From the data available, Iowa's licensing fees are in line with those of neighboring states.

- Qualitative description of impact:

The information in Chapter 2 captures fee information all in one place to aid individuals researching the cost to acquire and maintain a license.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to collect fees. Each business day, a ledger report is generated with updated calculations of fees collected. Staff salaries to support the work of the Engineering and Land Surveying Examining Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The effect on state revenues is significant, approximately \$675,000 annually.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating fees would have a positive impact on licensees. Iowa has not raised any fees in over ten years, and its fees are in line with neighboring jurisdictions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing or eliminating fees would be less costly to the licensee. Intrusion is necessary in order to keep any fees in place.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held discussions with the Board regarding all chapters of the Engineering and Land Surveying Examining Board[193C]. No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Iowa's fees are in line with those of neighboring jurisdictions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms; therefore, the rulemaking will not directly or substantially impact small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2
FEES AND CHARGES

193C—2.1(542B) General statement. Fees are fixed in such an amount as will defray the expense of administering board responsibilities. Fees are charged in accordance with the following table:

| Type of fee | Amount |
|--|--|
| Renewal | |
| Active license renewal | \$100 |
| Inactive license renewal | \$40 |
| Reinstatement of lapsed license (In addition to the reinstatement fee, the applicant for reinstatement must also pay the appropriate prorated reinstated license fee below.) | \$100 |
| Reinstatement of inactive to active license | \$60 |
| New or reinstated license (In addition to the appropriate prorated reinstated license fee, the applicant for reinstatement must also pay the reinstatement fee above.) | \$100 Prorated at six-month intervals |
| Application for examination | |
| Principles and Practice of Land Surveying | \$100 |
| Examinations | |
| Fees for NCEES examinations are paid directly to the examination service at the rate established by contract based upon cost of the examination materials and processing expenses. | Variable |
| Iowa State Specific Land Surveying Examination | \$30 |
| Application for licensure by comity or verification as a professional engineer or professional land surveyor | \$150 |
| Certificates | |
| Initial professional engineer or professional land surveyor certificate | \$15 |
| Additional or duplicate certificate | \$25 |
| Engineer or land surveyor intern certificate | No charge |
| Check returned for insufficient funds | \$15 |
| Verification of records for lapsed licensees | \$15 per verification |
| Late renewal fee (for renewals completed after December 31 and before January 31) | \$25 |

193C—2.2(542B) Nonrefundable fees. Application fees submitted with applications for the Fundamentals of Engineering examination, the Fundamentals of Land Surveying examination, the

Principles and Practice of Engineering examination, the Principles and Practice of Land Surveying examination, comity licensure, or renewal of licensure are not refundable for any reason.

These rules are intended to implement Iowa Code sections 542B.13, 542B.15, 542B.20 and 542B.30.

Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The purpose of proposed Chapter 3 is to provide applicants with detailed information regarding the application and renewal process to acquire and maintain an engineer or land surveyor license.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of application and renewal is levied upon the applicant.
 - Classes of persons that will benefit from the proposed rulemaking:
Future licensees will benefit from having information on the application process.

Future and current licensees will benefit from having information on the renewal process.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The economic impact of acquiring a license is covered in 193C—Chapters 4 and 5. The application fee for acquiring the license is \$100. The renewal fee is \$100 every two years for active licensure and \$40 every two years for inactive status. Colleges and universities often charge a fee for providing an official transcript, as is required by this rulemaking.

- Qualitative description of impact:

The primary impact of this rulemaking is to the Iowans who utilize engineering and land surveying services and are protected by the rules relating to becoming licensed. There is an additional impact on potential licensees, who may take into account these rules when deciding a career path.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review applications to ensure compliance with the rules of Chapter 3 and needed to manage Engineering and Land Surveying Examining Board activities. The time needed to manage this provision is generally in the form of responding to questions related to the licensing and renewal process. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position, which includes answering questions from the public and licensees. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

The anticipated effect on state revenues is moderate. Approximately \$60,000 per year is collected from application fees and about \$50,000 per year is collected from renewal fees.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating the annual \$100 application and/or renewal fee would impact the cost to the licensee. The Board has not raised renewal fees in over 15 years. Iowa's fees are consistent with those of other nearby jurisdictions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Reducing the application fees would not impact the cost to the State to implement the renewal process. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Because Iowa's renewal process is consistent with most other jurisdictions, no alternative methods were seriously considered.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms, so the rulemaking will not directly or substantially impact small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3
APPLICATION AND RENEWAL PROCESS

193C—3.1(542B) General statement. A person requesting to be licensed as a professional engineer or professional land surveyor shall submit a completed, standardized application form, which may be obtained electronically from the board's Internet web page.

3.1(1) Application expiration. On the examination and comity applications due date, the applications are considered current if it has been one year or less since the applications were received by the board office.

3.1(2) Academic transcripts.

a. United States institutions. Completion of post-high school education shall be evidenced by the board's receipt of an applicant's transcripts directly from the office of the registrar of each institution conferring a qualifying degree.

b. Institutions outside the United States. Transcripts from institutions located outside the boundaries of the United States of America shall be sent directly from the institution to an evaluation service to be evaluated for authenticity and substantial equivalency with Accreditation Board for Engineering and Technology, Inc. (ABET), or Engineering Accreditation Commission (EAC) accredited engineering programs. To be readily acceptable, such evaluations shall be from the National Council of Examiners for Engineering and Surveying (NCEES). However, the board may accept evaluations from other recognized foreign credential evaluators satisfactory to the board. The expense of the evaluation is the responsibility of the applicant. Each evaluation shall be sent directly to the board from the evaluation service and include a copy of the transcript in the form sent to the evaluation service directly from the educational institution. Each evaluation must address both whether the transcript is authentic and whether the engineering program is equivalent to those accredited by ABET or EAC.

193C—3.2(542B) Application components and due dates.

3.2(1) Fundamentals of Engineering examination. Applications for the Fundamentals of Engineering examination are submitted directly to the examination service selected by the board to administer the examinations.

3.2(2) Fundamentals of Land Surveying examination application components and due dates. The components of this application include: the completed application form, references pursuant to 193C—paragraph 5.1(5) "b" and transcripts. Fundamentals of Land Surveying examination applications must be submitted to the board office. Applications submitted by the first day of each month will be reviewed by the board at the next regularly scheduled board meeting.

3.2(3) *Principles and Practice of Engineering examination application.* Principles and Practice of Engineering examination applications are submitted directly to the examination service selected by the board. Documentation of a qualifying degree will be required prior to approval to sit for the examination.

3.2(4) *Principles and Practice of Land Surveying application components and due dates.* Principles and Practice of Land Surveying examination applications are submitted to the board office. Application files with all components submitted to the board office by the first day of each month will be reviewed at the next regularly scheduled board meeting. The examination application file includes the following components: (a) the completed online application form, (b) the required number of references, (c) the project statement, and (d) the ethics questionnaire. In addition, a complete application file includes verification of examination records and transcripts. Examination applications will not be reviewed by the board until the application file is complete.

3.2(5) *Professional engineer license application.* Professional engineer license applications are submitted to the board office. Application files with all components submitted to the board office by the first day of each month will be reviewed at the next regularly scheduled board meeting. The professional engineer license application includes the following components: (a) the completed online application form, (b) the required number of references, (c) the project statement, and (d) the ethics questionnaire. In addition, a complete application file includes verification of examination records and transcripts. Professional engineer license applications will not be reviewed until the application file is complete.

193C—3.3(542B) Comity applications.

3.3(1) The components of a comity application include: the completed application form; the ethics questionnaire; references; transcripts; and verification of examinations, as appropriate. Comity applicants may submit the NCEES record in lieu of providing references, verifications, transcripts, and employment history. Since the verification of examination records must, in most cases, be sent directly from the jurisdiction where the applicant took the Fundamentals of Engineering and Principles and Practice Engineering examinations, the applicant should contact the other jurisdiction in advance of submitting the application to request this verification and make every effort to have the verification sent to the board at the time that the application is submitted. Likewise, for transcripts the applicant should contact the university in advance of submitting the application to make every effort to have the transcripts transmitted to the board at the time that the application is submitted.

3.3(2) Comity applications will be reviewed as they are completed. Comity applications will not be reviewed until all components have been received.

3.3(3) Comity applicants will be notified in writing via regular mail or email regarding the results of the review of their applications.

3.3(4) Temporary license. The board does not issue temporary licenses, except as provided for in rule 193C—5.3(542B,272C).

193C—3.4(542B) Renewal applications.

3.4(1) *Expiration dates.* Certificates of licensure expire biennially on December 31. Certificates that were initially issued in even-numbered years expire in odd-numbered years and certificates that were initially issued in odd-numbered years expire in even-numbered years. In order to maintain authorization to practice engineering or land surveying in Iowa, licensees must renew their certificates of licensure on or prior to the expiration date. A licensee who fails to renew prior to the date the certificate expires is not authorized to practice in Iowa unless the certificate is reinstated as provided in these rules. However, the board will accept an otherwise sufficient renewal application which is untimely if the board receives the application and late fee within 30 days of the date of expiration.

3.4(2) *Renewal notification.* The board typically mails a renewal notification to a licensee's last-known address at least one month prior to the license expiration date. Neither the board's failure to mail a renewal notification nor the licensee's failure to receive a renewal notification affects in any way the licensee's duty to timely renew if the licensee intends to continue practicing in Iowa. Licensees need to contact the board office if they do not receive a renewal notification prior to the expiration date.

3.4(3) *Renewal process.* Upon receipt of a timely and sufficient renewal application, with the proper fee, the board's executive secretary will issue a new license reflecting the next expiration date, unless grounds exist for denial of the application.

3.4(4) *Notification of expiration.* The board will notify licensees whose certificates of licensure have expired. The failure of the board to provide this courtesy notification, or the failure of the licensee to receive the courtesy notification, does not extend the date of expiration.

3.4(5) *Sanction for practicing after license expiration.* A licensee who continues to practice in Iowa after the license has expired is subject to disciplinary action. Such unauthorized activity may also provide grounds to deny a licensee's application to reinstate.

3.4(6) *Timely and sufficient renewal application.* Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application shall be:

- a. Received by the board through the online renewal process;
- b. Fully completed; and
- c. Accompanied by the proper fee. The fee is deemed improper if, for instance, the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is left off the application or is incorrect, the attempted credit card transaction is rejected, or the applicant's check is returned for insufficient funds.

3.4(7) *Responsibility for accuracy of renewal application.* The licensee is responsible for verifying the accuracy of the information submitted on the renewal application regardless of how the application is submitted or by whom it is submitted.

3.4(8) *Denial of renewal application.* If the board, upon receipt of a timely, complete and sufficient application to renew a certificate of licensure, accompanied by the proper fee, denies the application, the executive secretary will send written notice to the applicant by restricted, certified mail, return receipt requested, identifying the basis for denial. The applicant may contest the board's decision as provided in rule 193—7.40(546,272C).

3.4(9) *Continuing education.* A licensee who does not satisfy the continuing education requirements for licensure renewal will be denied renewal of licensure in accordance with subrule 3.4(8).

3.4(10) *Consent order option.* When a licensee appears to be in violation of mandatory continuing education under 193C—Chapter 7, the board may, in lieu of proceeding to a contested case hearing on the denial of renewal as provided in uniform division rule 193—7.40(546,272C), offer the licensee the opportunity to sign a consent order. While the terms of a consent order will be tailored to the specific circumstances at issue, the consent order will typically impose a penalty between \$50 and \$250, depending on the severity of the violation, and establish deadlines for compliance, and the consent order may impose additional educational requirements upon the licensee. A licensee is free to accept or reject the offer. If the offer of settlement is accepted, the licensee will be issued a renewed certificate of licensure and, if the terms of the consent order are not complied with, will be subject to disciplinary action. If the offer of settlement is rejected, the matter will be set for hearing, if timely requested by the applicant pursuant to uniform division rule 193—7.40(546,272C).

3.4(11) *Inactive status.* Licensees who are not engaged in engineering or land surveying practices that require licensure in Iowa may be granted inactive status. No inactive licensee may practice in Iowa unless otherwise exempted in Iowa Code chapter 542B.

193C—3.5(542B) Reinstatement of licensure.

3.5(1) To reinstate a license that has lapsed for one year or more, the applicant for reinstatement must pay the fee under rule 193C—2.1(542B) and satisfy one of the following:

- a. Provide documentation of 45 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 30 professional development hours for each profession); or
- b. Successfully complete the principles and practice examination within one year immediately prior to application for reinstatement; or
- c. For an applicant for reinstatement who is an out-of-state resident, submit a statement from the resident state's licensing board as documented evidence of compliance with the resident state's

mandatory continuing education during the period that the licensee's Iowa license was lapsed. An applicant for reinstatement whose resident state has no mandatory continuing education shall comply with the documented evidence as outlined in this subrule and at 193C—subrule 7.8(2).

3.5(2) To reinstate a license that has lapsed for less than one year, the applicant for reinstatement must pay the fee under 193C—2.1(542B) and satisfy one of the following:

a. Provide documentation of 30 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 20 professional development hours for each profession). Professional development hours used for reinstatement shall not be reused at the next renewal; or

b. Successfully complete the principles and practice examination within one year immediately prior to application for reinstatement; or

c. For an applicant for reinstatement who is an out-of-state resident, submit a statement from the resident state's licensing board as documented evidence of compliance with the resident state's mandatory continuing education requirement during the period that the licensee's Iowa license was lapsed. The statement shall bear the seal of the licensing board. An applicant for reinstatement whose resident state has no mandatory continuing education requirement shall comply with the documented evidence requirement as outlined in this subrule and at 193C—subrule 7.8(2).

3.5(3) A lapsed license may not be reinstated to inactive status.

3.5(4) To reinstate from inactive status to active status, the applicant for reinstatement must pay the fee under rule 193C—2.1(542B) and provide documentation of 45 professional development hours achieved within the current and previous biennium (dual licensees must provide documentation of 30 professional development hours for each profession). Professional development hours used for a reinstatement shall not be reused at the next renewal.

These rules are intended to implement Iowa Code sections 272C.2, 272C.3, 542B.2, 542B.6, 542B.13, 542B.14, 542B.15, 542B.20 and 542B.30.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 4
“Engineering Licensure”

Iowa Code section(s) or chapter(s) authorizing rulemaking: section 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The rules in proposed Chapter 4 provide information on compliance for becoming licensed as a professional engineer. Professional licensing ensures a baseline level of proven qualifications and expertise, which helps protect the public from unqualified practitioners.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Future licensees are impacted by this chapter because they incur the costs of a college education, plus the costs of exams. There is no anticipated cost to the public.

- Classes of persons that will benefit from the proposed rulemaking:

Future licensees will be the primary beneficiaries of the information in Chapter 4. The general public will also benefit from knowing the criteria to become a professional engineer. These rules ensure a standardized baseline education, offering protection to members of the public who utilize engineering services, since engineers deal with highly technical details requiring advanced education, experience and examination.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Individuals seeking a license are required to have a college degree. The average cost of a college education is \$36,500 per year. The cost of the exam, required of all professional engineers, is \$550 and is paid to a private entity. The cost of the license is \$100. Experience for the license is generally acquired in paid positions.

- Qualitative description of impact:

The primary impact of this rulemaking is to the Iowans who utilize engineering services and are protected by the rules related to becoming a professional engineer. There is an additional impact to potential licensees, who may take into account these rules when deciding a career path. The education and examination standards for a license as a professional engineer are standards consistent with most other jurisdictions nationwide.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to answer questions regarding the education, exam, and experience provisions for becoming a professional engineer. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs of the necessary education to comply with the rulemaking are paid to the schools. Costs of the exam are paid to the exam administrator. These rules have no anticipated impact on state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Engineering and Land Surveying Examining Board believes elimination of the level of education and comprehensive nature of the exams would greatly reduce the level of knowledge and expertise of licensed engineers in Iowa. Maintaining these standards also serves to maintain the highest level of protection of Iowans. If the examination requirements were removed, there would be a loss of revenue to exam administrators that provide the exams outlined in the rules.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives, including changing the education/examination requirements, would negatively impact Iowa licensees' eligibility to be licensed in other jurisdictions across the country where the provisions for licensure are essentially the same. It would also lessen the quality of Iowa engineers and negatively impact the health, safety and welfare of Iowans.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board regarding the agency's rules, but no alternatives were recommended because Iowa's criteria for licensure is in line with all jurisdictions across the country. The Board believes that a national standard is beneficial.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes that maintaining the nationally adopted standards for licensing engineers and land surveyors is critical to continuing to protect Iowans. It is also beneficial to licensees to practice in multiple states. Alternatives may result in an increase in the numbers of complaints and investigations. The current provisions for licensure are required by law.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering firms, so the rulemaking will not directly or substantially impact small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4 ENGINEERING LICENSURE

193C—4.1(542B) Licensure by examination. The board will issue initial licensure only when an applicant satisfies the provisions of Iowa Code section 542B.14 as follows:

4.1(1) An applicant is eligible for the Engineer in Training certificate by meeting one of the following educational standards:

a. The applicant graduates from an engineering program of four years or more with an Accreditation Board of Engineering and Technology/Engineering Accreditation Commission (ABET/EAC)- or Canadian Engineering Accreditation Board (CEAB)-accredited curriculum. An engineering technology curriculum does not constitute an engineering program of four years or more.

b. After graduation from a nonaccredited engineering program of four years or more as described above, the applicant will complete one extra year of practical experience satisfactory to the board, verified by a professional engineer (PE) supervisory reference.

c. The applicant graduates with a master's degree in engineering from an institution in the United States of America that offers an accredited bachelor's degree in the same curriculum. The master's degree or a doctor of philosophy degree candidate must fulfill the requirements for the bachelor's degree in the same area of specialization.

d. An applicant with a master's degree or a doctor of philosophy degree in engineering from an institution in the United States of America that does not offer an accredited bachelor's degree in the same curriculum will be required to have an additional year of qualifying experience obtained after receipt of the qualifying degree. Applicants using a master's degree or a doctor of philosophy degree as the qualifying degree may not also use the master's degree or a doctor of philosophy degree for qualifying experience credit or as an exemption for the Fundamentals of Engineering examination (FE exam).

4.1(2) An applicant successfully completes the FE exam.

a. An applicant may take the FE exam any time after the educational requirements as specified above are completed, but the applicant must successfully complete the FE exam prior to taking the Principles and Practice of Engineering examination.

b. College seniors studying an ABET/EAC- or CEAB-accredited curriculum may take the FE exam during the final academic year. Applicants will be permitted to take the examination during the testing period which most closely precedes anticipated graduation.

c. An applicant who graduated from a satisfactory engineering program and has ten years or more of work experience satisfactory to the board is not required to take the FE exam. This experience is in addition to the four or five years of experience necessary for the PE license.

d. An applicant who has earned a Doctor of Philosophy degree from an institution in the United States of America with an accredited Bachelor of Science engineering degree program in the same discipline, or a similar doctoral degree in a discipline approved by the board, is not required to take the FE exam.

e. FE exam candidates will apply directly to the National Council of Examiners for Engineering and Surveying (NCEES) and will self-attest as to the candidate's eligibility to sit for the FE exam. The board will verify acceptable education and experience at the time an applicant applies for an Engineer in Training (EIT) number. The board shall apply the education and experience standards set forth in this rule but may allow reasonable flexibility in timing in the event an applicant sat for and passed the FE exam at a point earlier than provided in this rule. The board will not, however, issue an EIT number unless all experience required for candidates who hold engineering degrees from nonaccredited programs has been satisfied at the time of the EIT application.

4.1(3) An applicant successfully completes the Principles and Practice of Engineering examination (PE exam).

a. An applicant may take the PE exam any time after passing the FE exam.

b. PE exam candidates will apply directly to the NCEES. The applicant will document a qualifying education. The board will verify acceptable experience at the time the applicant applies for a professional engineer license.

4.1(4) An applicant obtains satisfactory practical experience in engineering work as follows:

a. Oversight. An applicant has direct supervision or professional tutelage (instruction, guidance, mentoring, review, and critique) from one or more licensed professional engineers. This experience will be verified by one or more licensed professional engineers who are familiar with the applicant's work and can attest that the experience was of the required quality and was accurately described. Verification of the qualifying experience is provided through the reference forms. It is the responsibility of the applicant to provide reference forms to the licensed professional engineers to complete and return directly to the board.

(1) To be readily acceptable, all of the practical experience is under the direct supervision and tutelage of one or more licensed professional engineers.

(2) To be considered, a portion of the qualifying experience is under the direct supervision or tutelage of one or more licensed professional engineers, and the rest of the practical experience is under the direct supervision or tutelage of an unlicensed graduate engineer.

b. Documentation of experience. An applicant submits references and a work project description. The board reserves the right to contact the employer and the person providing tutelage on the project for information about the project experience acquired by the applicant.

(1) References. An applicant for the professional engineer license shall submit three references from professional engineers or a combination of professional engineers and graduate engineers on forms provided by the board.

1. The practical experience provided under the direct supervision or professional tutelage of the licensed professional engineers in the course of a mentoring relationship must include technical skills; professional development; the exercise of professional judgment, ethics, and standards in the application of engineering principles and in the review of such matters by others; and the professional obligations of assuming responsible charge of professional engineering works and services.

2. If the applicant has had more than one supervisor, at least two of the references shall be from a supervisor of the applicant. An applicant shall submit supervisor references to verify at least four years of qualifying experience.

3. If an applicant has had professional experience under more than one employer, the applicant shall provide references from individuals with knowledge of the work performed under a minimum of two employers.

4. The board reserves the right to contact references, supervisors, or employers for information about the applicant's professional experience and competence or to request additional references.

5. The board uses references partially as a means of verifying an applicant's record of experience. The applicant must distribute a reference form to individuals who are asked to submit references for the applicant. To each reference form, the applicant shall attach a narrative of the applicant's experience record that is being addressed by the referring individual.

6. The board may require the applicant to submit other evidence of suitable tutelage and supervision.

7. The board may conduct interviews with persons providing tutelage or supervision to the applicant.

(2) Work project description. An application for initial licensure includes a work project statement describing a significant project on which the applicant worked during the previous 12 months. The board will review all work project statements and will approve only those that include all of the following components:

1. Description of the applicant's degree of responsibility for the project.
2. The project's owner and location.
3. The name of the supervisor in charge of the project and, if the supervisor is a professional engineer, the license number of the supervisor.
4. The applicant's signature and date of signature.

(3) Criteria the board uses in evaluating the acceptability of the project as qualifying experience for the applicant includes, but is not limited to, the following:

1. The degree to which the project and the experience described have progressed from assignments typical of initial assignments to those more nearly expected of a licensed professional;
2. The scope and quality of the professional tutelage experienced by the applicant;
3. The technical decisions required of the applicant in the project; and
4. The professional decisions required of the applicant.

c. Quality. An applicant has experience that demonstrates that the applicant has developed technical skill and initiative in the correct application of engineering principles. Such experience should demonstrate the applicant's capacity to review the application of these principles by others and to assume responsibility for engineering work of professional character.

d. Scope. The applicant has experience that includes sufficient breadth and scope to ensure that the applicant has attained reasonably well-rounded professional competence in a basic engineering field, rather than highly specialized skill in a narrow and limited field.

e. Progression. The record of experience indicates successive and continued progress from initial, subprofessional work of simpler character to recent, professional work of greater complexity and a higher degree of responsibility, as well as continued interest and effort on the part of the applicant toward further professional development and advancement. In evaluating this progression, the board will consider both subprofessional and professional activity as reported by the applicant. However, only work experience obtained after the applicant's receipt of the qualifying degree will be considered, except as described in paragraph 4.1(4) "f." Subprofessional work includes the time spent as an engineering technician, engineering assistant, inspector, or similar under the direct supervision of a licensed professional engineer. Professional work includes the time during which the applicant was occupied in engineering work of higher grade and responsibility than that defined above as subprofessional work. Time spent in teaching engineering subjects in a college or university at the level of assistant professor or higher may be listed as professional work.

f. Special work experience. Work experience prior to graduation from college may be accepted toward satisfaction of practical experience only as follows: Cooperative work programs and internships administered by engineering colleges and verified on the transcript, with a verifying reference from the internship supervisor, will be considered as half-time credit, with a maximum allowance of 6 months (12 months of cooperative work experience or internship) applicable toward the satisfaction of qualifying experience requirements. An applicant's advanced education, military experience, or both will be reviewed in order to determine if they are applicable toward the statutory requirements for experience.

g. Advanced education. An applicant who has earned a master of science degree that includes research experience, in addition to writing an associated thesis, from an institution in the United States of America with an accredited bachelor of science engineering degree program in the same discipline and who has fulfilled the requirements for a bachelor of science degree may be granted a maximum of one year's experience credit. An applicant who has earned a doctor of philosophy degree from an institution in the United States of America with an accredited bachelor of science engineering degree program in the same discipline may be granted a maximum of two years of experience credit in addition to the one-half year's credit for the master of science degree. An applicant using an advanced degree as experience credit may not also use the advanced degree as the qualifying degree to become licensed.

h. Teaching experience. Teaching of engineering subjects at the level of assistant professor or higher in an accredited engineering program may be considered as experience, provided the applicant's immediate supervisor is a licensed professional engineer in the jurisdiction in which the college or university is located. If the applicant's immediate supervisor is not a licensed professional engineer, a program of mentoring or peer review by a licensed professional engineer acceptable to the board must be demonstrated. Applicants using teaching or research as experience must have a minimum of four years of acceptable experience in research, industry, or consulting. The board will consider the complexity of the project(s) presented, the degree of responsibility of the applicant within the project, and other factors the board deems relevant. Academic experience must demonstrate increasing levels of responsibility for the conduct and management of projects involving engineering research, development, or application. The board reserves the right to contact employers for information about the applicant's professional experience and competence.

i. Joint applications. Applicants requesting licensure both as a professional engineer and a land surveyor must submit a history of professional experience in both fields. Such histories will be considered separately on a case-by-case basis. The board does not grant full credit for concurrent experience in both professions.

j. Corporate exemption. The purpose of the provisions on qualifying experience which authorize the board to consider some experience that was not acquired under the direct supervision and tutelage of a licensed professional engineer is to provide a path toward licensure for those applicants who gain experience in settings where licensure is not required under the corporate exemption set forth in Iowa Code section 542B.26 or under similar statutory provisions in other jurisdictions. Such applicants may lawfully gain professional engineering experience under the supervision or tutelage of graduate engineers who are not licensed. To aid such applicants, the following guidelines are provided:

(1) The board will not consider any of the following experience:

1. Experience gained under circumstances where the applicant could not lawfully have practiced professional engineering.

2. Experience attained in compliance with the law but that was not under the supervision or tutelage of a graduate engineer. The fundamental purpose of qualifying experience is professionally guided training to expand and complement engineering education. Self-guided experience does not qualify.

(2) Unlicensed graduate engineers are not authorized to offer professional engineering services to the public or to be in responsible charge of such services; nor are they subject to the examinations required for licensure, the professional and ethical standards applicable to licensees, or the regulatory oversight of a licensing authority. Qualifying experience is intended to address both technical competence and the obligations to the public of a licensed professional engineer.

(3) Because the circumstances of individual applicants in corporate exemption settings are diverse, it is not possible to identify the minimum period of time during which the applicant must receive supervision or tutelage from one or more licensed professional engineers to be eligible for licensure. The board will evaluate both the quantity and quality of such experience. In general, an applicant's exposure to supervision or tutelage by one or more licensed professional engineers should reflect a sustained period of in-depth interaction from which the licensed engineers are in a position to form credible opinions on the applicant's qualifications to be in responsible charge of engineering services offered to the public as a licensed professional engineer.

(4) The burden is on the applicant to demonstrate to the board's satisfaction that the combination of unlicensed and licensed supervision and tutelage satisfies the requirements of qualifying experience described in this rule.

k. Practical experience. An applicant for a professional engineer license shall have a minimum of one year of practical experience in the United States of America or a territory under its jurisdiction.

4.1(5) Education and experience requirements. The board will require the minimum number of years set forth on the following chart before an applicant will be eligible for licensure.

| Experience Requirements | |
|---|------------------------------|
| If the education is: | Required years of experience |
| A 4-year bachelor's degree in a nonaccredited engineering program | 5 |
| A 4-year bachelor's degree in an accredited engineering program OR a qualifying master's degree pursuant to paragraph 4.1(1) "c" OR a qualifying PhD pursuant to paragraph 4.1(1) "d" | 4 |
| A 4-year bachelor's degree in an accredited engineering program plus a qualifying master's degree pursuant to paragraph 4.1(4) "g" | 3 |
| A 4-year bachelor's degree in an accredited engineering program plus a qualifying PhD pursuant to paragraph 4.1(4) "g" | 2 |
| A 4-year bachelor's degree in an accredited engineering program AND a qualifying master's degree AND a qualifying PhD pursuant to paragraph 4.1(4) "g" | 1 |

4.1(6) Required examinations. All examinations are uniform examinations prepared and graded by the National Council of Examiners for Engineering and Surveying (NCEES). The board may negotiate an agreement with an examination service to administer the examinations to applicants approved by the board, in which case applicants shall pay examination fees directly to the service.

a. Fundamentals of Engineering examination. The Fundamentals of Engineering examination is a computer-based examination covering general engineering principles and other subjects commonly taught in accredited engineering programs.

b. Principles and Practice of Engineering examination. A separate examination is required for each branch in which licensure is granted. An applicant may obtain a Structural branch license by passing either the Principles and Practice of Engineering Civil (Structural) examination or the Principles and Practice of Engineering Structural examinations.

c. Conduct during the exam. Examinees will comply with the testing rules and regulations of the exam administrator.

193C—4.2(542B) Requirements for licensure by comity. A person holding a certificate of licensure to engage in the practice of engineering issued by a proper authority of a jurisdiction or possession of the United States, the District of Columbia, or any foreign country, based on requirements that do not conflict with the provisions of Iowa Code section 542B.14 and who has met standards determined by the board to be substantially equivalent to those required of applicants for initial licensure in this state may, upon application, be licensed without further examination. Comity applicants are governed by the same standards as are required of applicants for initial licensure in Iowa.

4.2(1) References. An applicant for licensure by comity shall submit references on forms provided by the board to verify satisfactory engineering experience, as provided in paragraph 4.1(4) “a.”

4.2(2) Basis for evaluation of applications. Applications for licensure by comity will be evaluated on the following basis:

a. The applicant’s record of education, references, practical experience, and successful completion of approved examinations will be reviewed to determine if it currently satisfies the substantive requirements of Iowa Code section 542B.14. In reviewing the education, references, and practical experience of comity applicants, the board will use the same criteria used by the board to determine the eligibility of a candidate for the Principles and Practice of Engineering examination; or

b. The applicant’s licensure in a jurisdiction other than Iowa will be reviewed to determine if it was granted only after satisfaction of requirements substantially equivalent to those that are required of applicants for initial licensure in Iowa by Iowa Code section 542B.14. When determining whether the licensing standards satisfied by a comity applicant are substantially equivalent to those required in Iowa, the board considers each of the four licensing prerequisites in Iowa Code section 542B.14(1) individually. The licensing standards are satisfied by the comity applicant if the standards are equal or superior to those required in Iowa for education, fundamentals examination, experience, and professional examination. Unless expressly stated in this chapter, the board will not consider an applicant’s superior satisfaction of one licensing prerequisite, such as a higher level of education than is required in Iowa, as resolving an applicant’s lack of compliance with another prerequisite, such as professional examination.

4.2(3) Comity application process.

a. An applicant for licensure by comity from a jurisdiction other than Iowa meets or exceeds the education requirements set forth in Iowa Code section 542B.14 and subrule 4.1(1).

b. An applicant successfully completes the Fundamentals of Engineering examination. An applicant who graduated from a satisfactory engineering program and who has ten years or more of work experience satisfactory to the board is not required to take the Fundamentals of Engineering examination.

c. The applicant successfully completes the Principles and Practice of Engineering examination.

d. The applicant has satisfactory practical experience under paragraph 4.1(3) “a.”

e. While the board will consider evidence presented by a comity applicant on non-NCEES examinations successfully completed in a foreign country, the non-NCEES examination will be compared with the appropriate NCEES examination. A non-NCEES professional examination, for instance, must be designed to determine whether a candidate is minimally competent to practice professional engineering in a specific branch of engineering, such as civil, structural, electrical, or mechanical engineering. The examination must be written, objectively graded, verifiable, and developed and validated in accordance with the testing standards of the American Psychological Association or equivalent testing standards. Free-form essays and oral interviews are not equal or superior to NCEES examinations.

4.2(4) Education and experience requirements.

a. For applicants who were originally licensed in a jurisdiction other than Iowa prior to July 1, 1988, the board will employ the following chart to determine if the applicant’s licensure was granted after satisfaction of requirements substantially equivalent to those which were required by Iowa Code section 542B.14 at the time of the applicant’s original licensure. Column 1 indicates the years of practical experience that were required prior to the Fundamentals of Engineering examination in addition to the completion of the required educational level. To determine the total years of practical experience that

were required prior to taking the Principles and Practice of Engineering examination, column 2 is added to column 1.

| EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS Who were licensed prior to July 1, 1988 | | |
|--|---|--|
| If the applicant's educational level was: | The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination: | The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination: |
| No post-high school education | 8 | 4 |
| Postsecondary study in mathematics or physical sciences | | |
| One year | 7 | 4 |
| Two years | 6 | 4 |
| Three years | 5 | 4 |
| Four years | 3 | 4 |
| Four-year BS degree in mathematics or physical sciences plus master's degree in engineering | 0 | 4 |
| Postsecondary study in engineering technology programs and architecture | | |
| One year | 7 | 4 |
| Two years | 5.5 | 4 |
| Three years | 4 | 4 |
| Four-year degree in a nonaccredited engineering technology program or BA in architecture | 2.5 | 4 |
| Four-year degree in an accredited engineering technology program | 2 | 4 |
| Bachelor of architecture, four years or more | 2 | 4 |
| Four-year degree in engineering technology or architecture plus master's degree in engineering | 0 | 4 |
| Postsecondary study in a nonaccredited engineering program | | |
| One year | 7 | 4 |
| Two years | 5 | 4 |
| Three years | 3 | 4 |
| Four-year BS degree | 1 | 4 |
| Four-year degree in a nonaccredited engineering program plus master's degree in engineering | 0 | 4 |
| Postsecondary study in an accredited engineering program | | |
| Two years | 6 | 4 |
| Three years | 3 | 4 |
| Four-year degree in an accredited engineering program | 0 | 4 |

b. For applicants who were originally licensed in another jurisdiction and who meet the requirements of Iowa Code section 542B.14(1)“a”(1)(c), the board will employ the following chart to determine if the applicant's licensure was granted after satisfaction of requirements substantially equivalent to those which were required by Iowa Code section 542B.14 at the time of the applicant's original licensure. Column 1 indicates the years of practical experience that were required prior to the Fundamentals of Engineering examination in addition to the completion of the required educational level. To determine the total years of practical experience that were required prior to taking the Principles and Practice of Engineering examination, column 2 is added to column 1.

| EXPERIENCE REQUIREMENTS FOR COMITY APPLICANTS Who meet the requirements of Iowa Code section 542B.14(1)“a”(1)(c) | | |
|---|---|--|
| If the applicant’s educational level was: | The applicant has had the following additional years of experience prior to taking the Fundamentals of Engineering examination: | The applicant has had the following years of experience after receipt of the qualifying degree and prior to taking the Principles and Practice of Engineering examination: |
| College or junior college (mathematics or physical sciences) | | |
| Two years | 6 | 4 |
| Three years | 5 | 4 |
| Four-year BS degree | 3 | 4 |
| Four-year BS degree plus master's degree in engineering | 0 | 4 |
| All engineering technology programs and architecture | | |
| Two years | 6 | 4 |
| Three years | 5 | 4 |
| Four-year degree, nonaccredited technology or BA in architecture | 3 | 4 |
| Four-year degree, accredited technology | 2 | 4 |
| Four-year degree or more, bachelor of architecture | 2 | 4 |
| Four-year BS degree, technology or architecture plus master’s degree in engineering | 0 | 4 |
| Engineering program, nonaccredited | | |
| Two years | 6 | 4 |
| Three years | 3 | 4 |
| Four-year BS degree | 1 | 4 |
| Four-year BS degree plus master's degree in engineering | 0 | 4 |
| Engineering program, accredited | | |
| Two years | 6 | 4 |
| Three years | 3 | 4 |
| Four-year BS degree | 0 | 4 |

c. For all other applicants who were originally licensed in a jurisdiction other than Iowa on or after July 1, 1988, the board will employ the chart found at subrule 4.1(5) to determine if the applicant’s licensure was granted after satisfaction of requirements substantially equivalent to those which are required by Iowa Code section 542B.14.

d. For purposes of this subrule, an applicant’s master’s degree in engineering is to be from an institution in the United States of America with an accredited bachelor’s degree in the same curriculum, and the master’s degree candidate is required to fulfill the requirements for the bachelor’s degree in the same area of specialization.

193C—4.3(542B) Requirements for a licensee requesting additional examination. A person holding an active certificate of licensure to engage in the practice of engineering issued by the state of Iowa may, upon written request and payment of the application and examination fees, take additional examinations in other branches of engineering without submitting a formal application to the board as described for initial or comity licensure.

These rules are intended to implement Iowa Code sections 542B.2, 542B.13, 542B.14, 542B.15, 542B.17 and 542B.20.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 5
“Land Surveying Licensure”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The rules of proposed Chapter 5 provide information on compliance for becoming licensed as a professional land surveyor. Professional licensing ensures a baseline level of proven qualifications and expertise, which helps protect the public from unqualified practitioners.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Future licensees are impacted by this chapter because they incur the costs of a college education, plus the costs of exams. There is no anticipated cost to the public.

- Classes of persons that will benefit from the proposed rulemaking:

Future licensees will be the primary beneficiaries from the information in Chapter 5. The general public will also benefit from knowing the criteria to become a professional land surveyor. These rules ensure a baseline education, offering protection to the public who utilizes land surveying services, since land surveyors deal with highly technical details requiring specific education, experience and examination.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Individuals seeking a license are required to have a two- or four-year college degree. The average cost of a college education is \$36,500 per year. The cost of the national portion of the exam, required of all professional engineers, is \$475 and is paid to a private entity. The cost of the state-specific portion of the exam is \$30 and is paid to the Department. The cost of the license is \$100. Experience for the license is generally acquired in paid positions.

- Qualitative description of impact:

The primary impact of this rulemaking is to the Iowans who utilize land surveying services and are protected by the rules related to becoming a professional land surveyor. There is an additional impact to potential licensees, who may take into account these rules when deciding a career path.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The costs to the agency are for regular staff time needed to review applications to ensure compliance with the rules of Chapter 5 and manage Engineering and Land Surveying Examining Board activities. The time needed to manage this provision is generally in the form of responding to questions related to licensing requirements. An executive officer supports the full scope of work of this Board at approximately 0.31 full-time equivalent (FTE) position, which includes answering questions from the public and licensees relating to practice standards, continuing education, Board meeting administration, and more. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs of the necessary education to comply with the rulemaking are paid to the schools. Costs of the national exam are paid to the exam administrator. There is a \$30 fee for the Iowa State Specific Land Surveying Exam that is paid to the Department. These rules have a minimal impact on state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes elimination of the level of education and comprehensive nature of the exams would greatly reduce the level of knowledge and expertise of licensed land surveyors in Iowa. Maintaining these standards also serves to maintain the highest level of protection of Iowans. If the examination requirements were removed, there would be a loss of revenue to exam administrators who provide the exams outlined in rule.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives regarding education and experience have been implemented by these rules, reflecting a recent law change to Iowa Code chapter 542B. These changes positively impact Iowa licensees' eligibility to be licensed in Iowa.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Alternative methods are being proposed due to a recent law change to Iowa Code chapter 542B. The Board is altering education and experience requirements to make the professional land surveyor's license accessible to a larger pool of interested parties.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking: Alternatives are being proposed.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering firms, so the rulemaking will not directly or substantially impact small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5 LAND SURVEYING LICENSURE

193C—5.1(542B) Requirements for licensure by examination. The specific requirements for initial licensing in Iowa are established in Iowa Code section 542B.14, and it is the board's intention to issue initial licensure only when those requirements are satisfied chronologically as set forth in the statute.

5.1(1) The applicant for initial licensure in Iowa must satisfy the education plus experience requirements stated in Iowa Code section 542B.14 "b"(1). Refer to the chart in subrule 5.1(8) for education-based experience requirements. If the applicant's degree is not in surveying, surveying technology, engineering, or engineering technology, the applicant must have taken a minimum of 9 credit hours in mathematics, of which at least one course must include trigonometry in its coursework, and may include college algebra, trigonometry, analytic geometry, differential and integral calculus, linear algebra, numerical analysis, probability and statistics, and advanced calculus; and a minimum of 9 credit hours in basic sciences, which must cover one or more of the following topics: general chemistry, advanced chemistry, biology, geology, ecology, meteorology, astronomy, forestry, general physics, advanced physics, or land surveying, for the applicant's degree to be a qualifying degree.

a. Internet or online degrees will only be considered as qualifying degrees if the institution issuing the degree is accredited by a recognized accreditation board or the degree is evaluated as substantially equivalent to that of an accredited program by the National Council of Examiners for Engineering and Surveying (NCEES). The board may accept evaluations from other recognized foreign credential evaluators satisfactory to the board. Initiating the evaluation and the expense of the evaluation are the responsibilities of the applicant. Each evaluation shall be sent directly to the board from the evaluation

service and shall include a copy of the transcript in the form sent to the evaluation service directly from the educational institution.

b. Internet or online degrees will only be considered as qualifying degrees if the institution issuing the degree is accredited by a recognized accreditation board.

5.1(2) The applicant must successfully complete the Fundamentals of Land Surveying examination. The applicant may take the Fundamentals of Land Surveying examination any time after the education and experience requirements described above are completed.

5.1(3) The applicant must successfully complete the Principles and Practice of Land Surveying examination. An applicant may take the Principles and Practice of Land Surveying exam after passing the Fundamentals of Land Surveying exam.

5.1(4) The applicant satisfies the qualifying experience requirements set forth in this chapter.

5.1(5) The applicant must successfully complete the Iowa specific land surveying examination administered by the board.

5.1(6) Work project description. A complete application includes a statement of approximately 200 words describing a significant project on which the applicant worked closely during the last 12 months. The statement describes the applicant's degree of responsibility for the project and identifies the project's owner and its location. The statement is signed and dated. The criteria the board uses in evaluating the acceptability of the project as qualifying experience for the applicant includes, but is not limited to, the following:

- a.* The degree to which the project and the experience described has progressed from assignments typical of initial assignments to those more nearly expected of a licensed professional;
- b.* The scope and quality of the professional tutelage experienced by the applicant;
- c.* The technical decisions required of the applicant in the project; and
- d.* The professional decisions required of the applicant.

The board reserves the right to contact the employer and the person providing tutelage on the project for information about the project experience presented to the applicant.

5.1(7) *References.*

a. An applicant for the Principles and Practice of Land Surveying examination will submit a minimum of three references, on forms provided by the board, in accordance with the following:

- (1) The references will be from licensed professional land surveyors.
- (2) If the applicant has had more than one supervisor, at least two of the references are from a supervisor of the applicant.
- (3) If an applicant has had professional experience under more than one employer, the applicant provides references from individuals with knowledge of the work performed under a minimum of two employers.
- (4) The board reserves the right to contact employers for information about the applicant's professional experience and competence or to request additional references.

b. An applicant for the Fundamentals of Land Surveying examination will provide three references on forms provided by the board.

5.1(8) Education and experience requirements. The board requires the minimum number of years set forth on the following chart before an applicant may take either the Fundamentals of Land Surveying or the Principles and Practice of Land Surveying examination. To determine the total years to become licensed as a land surveyor in Iowa, column 2 is added to column 1.

| EXPERIENCE REQUIREMENTS | | |
|---|---|--|
| If the applicant's educational level was: | The applicant must have the following years of experience prior to taking the Fundamentals of Land Surveying examination and the Principles & Practice examination: | The applicant must have the following additional years of experience before the board will issue a license in land surveying:* |
| A college program with fewer than 9 credit hours of surveying [Reference Sec. 5.1(1) above] | | |
| Two-year degree | 4 | 4 |
| Four-year degree | 2 | 4 |
| Graduate degree | 1 | 4 |
| A college program with 9 or more credit hours of surveying | | |
| Two-year degree | 0 | 4 |
| Four-year degree | 0 | 4 |
| Graduate degree | 0 | 4 |

*This allows applicants to take the Principles and Practice of Land Surveying exams and Iowa state specific exam during this time period.

5.1(9) Practical experience requirements. Practical land surveying experience, of which a minimum of one-half shall be field experience, is required prior to licensing. All practical experience must occur after high school graduation and be under the tutelage of a professional land surveyor.

a. Quality. Experience will demonstrate that the applicant has developed technical skill and initiative in the correct application of surveying principles. For the purposes of this chapter, one year of experience shall consist of 1,872 hours of full- or part-time employment, as attested to by the applicant's references. An applicant may use a maximum of 1,872 hours in any one 12-month period to satisfy the experience requirements. Full-time students, as defined by the student's school, may not, simultaneously, be considered full-time employees for the purposes of this chapter.

b. Scope. Experience will be of sufficient breadth and scope to ensure that the applicant has attained reasonably well-rounded professional competence in land surveying. For purposes of this section, field experience is considered of sufficient breadth and scope if the applicant conducts research for boundary surveys, conducts boundary monument recovery field work, gathers field information necessary for boundary line recovery, analyzes all collected boundary recovery field data, establishes land surveying monuments in the field, prepares land surveying documents, as defined in this chapter, and writes property descriptions.

c. Progression. The record of experience will indicate successive and continued progress from initial work of simpler character to recent work of greater complexity and higher degree of responsibility.

d. Advanced education and military experience. An applicant's advanced education, military experience, or both will be reviewed to determine if they are applicable toward the statutory requirements for experience.

e. Joint applications. Applicants requesting licensure both as professional engineers and professional land surveyors must submit a history of professional experience in both fields. Such histories will be considered separately on a case-by-case basis. The board does not grant full credit for concurrent experience in both professions.

5.1(10) Examinations. The board prepares and grades the Iowa State Specific Land Surveying examination administered to professional land surveyor candidates. All other examinations are uniform examinations prepared and graded by the National Council of Examiners for Engineering and Surveying (NCEES). The board may negotiate an agreement with an examination service to administer the examinations to applicants approved by the board, in which case applicants pay examination fees directly to the service.

An applicant who has failed two consecutive examinations of the state-specific portion of the professional land surveying examination is not allowed to retake the state-specific portion for one year.

a. Materials permitted in examination room. For security reasons, applicants shall comply with requirements regarding materials permitted in the examination room as issued by the National Council of Examiners for Engineering and Surveying and provided to candidates prior to the examination.

b. Release of examination results. Results of any examination are only reported as pass or fail except that the candidate who fails an examination may be provided with the candidate's converted score and a diagnostic report indicating areas of weakness, as available.

193C—5.2(542B) Requirements for licensure by comity. A person holding a certificate of licensure to engage in the practice of land surveying issued by a proper authority of a jurisdiction or possession of the United States, the District of Columbia, or any foreign country, based on requirements that do not conflict with the provisions of Iowa Code section 542B.14 and of a standard not lower than that specified in the applicable licensure Act may, upon application and successful completion of the Iowa State Specific Land Surveying examination, be licensed without further examination. Comity applicants are governed by the same standards as are required of Iowa applicants.

5.2(1) References. An applicant for licensure by comity shall submit one or more professional land surveyor references on forms provided by the board to verify the number of years of satisfactory experience required with the applicant's level of education. The board reserves the right to contact employers for information about the applicant's professional experience and competence.

5.2(2) Comity application process.

a. The applicant will provide proof of active land surveying licensure in another jurisdiction and be in good standing with that jurisdiction's licensing authority.

b. The applicant for licensure by comity from a jurisdiction other than Iowa will satisfy the education and experience requirements as set forth in Iowa Code section 542B.14 and rule 193C—5.1(542B) for licensure by examination.

c. The applicant needs to successfully complete the Fundamentals of Land Surveying examination.

d. The applicant needs to successfully complete the Principles and Practice of Land Surveying examination.

While the board will consider evidence presented by a comity applicant on non-NCEES examinations successfully completed in a foreign country, the non-NCEES examination will be compared with the appropriate NCEES examination. A non-NCEES professional examination, for instance, must be designed to determine whether a candidate is minimally competent to practice professional land surveying. The examination must be written, objectively graded, verifiable, and developed and validated in accordance with the testing standards of the American Psychological Association or equivalent testing standards. Free-form essays and oral interviews are not equal or superior to NCEES examinations for reasons including the subjective nature of such procedures, lack of verifiable grading standards, and heightened risk of inconsistent treatment.

e. The applicant must successfully complete an Iowa specific land surveying examination administered by the Board.

5.2(3) Substantial equivalency. Pursuant to Iowa Code section 546.10(8), the board may grant a comity application for licensure as a professional land surveyor if the board concludes that the applicant has met or exceeded all requirements for licensure applicable to initial applicants in Iowa, other than the sequence in which experience must be attained.

193C—5.3(542B,272C) Licensure by verification. In addition to the requirements of rule 193—14.4(272C), professional land surveying candidates applying for an Iowa license by verification must pass the Iowa State Specific Land Surveying examination prior to being issued a license. The board will issue a temporary license that is valid for a period of three months to professional land surveying candidates who have not yet passed the Iowa State Specific Land Surveying examination

prior to their application. The professional land surveying candidate may request one renewal of the temporary license for an additional period of three months.

This rule is intended to implement Iowa Code section 272C.12.

These rules are intended to implement Iowa Code sections 542B.2, 542B.13, 542B.14, 542B.15 and 542B.20.

Purpose and Summary

The rules in proposed Chapter 6 provide information on compliance for the professional seal and signature.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
The cost of the seal is levied upon the licensees.
 - Classes of persons that will benefit from the proposed rulemaking:

Licenses and the general public will benefit from having established provisions for a record of licensed professionals in charge of engineering and land surveying projects in Iowa.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost of the seal is approximately \$40 and is incurred by the licensees. There is no direct cost to the general public.

- Qualitative description of impact:

The provisions for an engineer's or land surveyor's seal allow interested parties and the public to access specific information regarding the identity of the person in charge of engineering and land surveying projects in Iowa.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

No fees are paid to the State. The minor costs to the agency are for regular staff time needed to address questions regarding the rules. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, House File 557.

- Anticipated effect on state revenues:

The fee for an engineer's or land surveyor's seal is paid to the vendor who generates the physical seal. There is no effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating the record of the person in charge would put the public at great risk. The provisions for Chapter 6 create a vital record when the need arises to research a completed project.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Since no fees are included in Chapter 6, there are little or no cost implications. Intrusion is necessary in order to protect Iowans doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Engineering and Land Surveying Examining Board on all chapters of the Board's rules. No alternatives were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The professional seal protects Iowans and is consistent with the rules in jurisdictions nationwide.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms, so the rulemaking will not directly or substantially impact small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 6 and adopt the following **new** chapter in lieu thereof:

CHAPTER 6
SEAL AND CERTIFICATE OF RESPONSIBILITY

193C—6.1(542B) Seal and certificate of responsibility.

6.1(1) The seal, under Iowa Code section 542B.16, should substantially conform to the samples shown below:

6.1(2) The word “licensed” may be added but is not required on the seal. Neither the word “registrant” nor “registered” may be used on the seal.

6.1(3) The certification block, under Iowa Code section 542B.16(2), on engineering or land surveying documents submitted to a client or any public agency, hereinafter referred to as the official copy (or official copies), appears on the first page or attached cover sheet. A certification block should be provided for the licensee in responsible charge and for each professional consultant contributing to the submission. In lieu of each contributing professional consultant providing a certification block on the front page or attached cover sheet for application of a seal, a table shall be provided that identifies the contributing professionals and where their respective certification blocks can be found within the document. The seal and original signature only need to be applied to a final submission. Each official copy (or official copies) of a submission shall be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the submission. Each certification block shall display the seal of the licensee and designate the portion of the submission for which that licensee is responsible, so that responsibility for the entire submission is clearly established by the combination of the stated seal responsibilities. Any nonfinal submission of an engineering or land surveying document to a client or public agency shall be clearly labeled “preliminary” or “draft.”

The engineering certification block shall conform to the wording in the sample shown below:

| | |
|------|---|
| SEAL | I hereby certify that this engineering document was prepared by me or under my direct personal supervision and that I am a duly licensed Professional Engineer under the laws of the State of Iowa. |
| | _____ (signature) (date) |
| | Printed or typed name |
| | License number _____ |
| | My license renewal date is December 31, _____. |
| | Pages or sheets covered by this seal: _____ _____ _____ |

The land surveying certification block shall conform to the wording in the sample shown below. For maps or acquisition plats prepared from public records or previous measurements by others, the following land surveying certification block may be modified by removing the phrase “and the related survey work was performed.”

| | |
|------|---|
| SEAL | I hereby certify that this land surveying document was prepared and the related survey work was performed by me or under my direct personal supervision and that I am a duly licensed Professional Land Surveyor under the laws of the State of Iowa. |
| | _____ (signature) (date) |
| | Printed or typed name |
| | License number _____ |
| | My license renewal date is December 31, _____. |
| | Pages or sheets covered by this seal: _____ _____ _____ |

6.1(4) Except for the original signature and handwritten date in contrasting ink color, the information requested in each certification block must be typed or legibly printed in permanent ink on each official copy. The seal implies responsibility for the entire submission unless the area of responsibility is clearly identified in the information accompanying the seal.

6.1(5) It is the responsibility of the licensee to forward copies of all revisions to the submission, which then become a part of the official copy of the submission. Such revisions shall be identified as applicable on a certification block or blocks with professional seals applied so as to clearly establish professional responsibility for the revisions.

6.1(6) The licensee is responsible for the custody and proper use of the seal. Improper use of the seal is grounds for disciplinary action.

6.1(7) Computer-generated seals may be used on final original documents.

6.1(8) Secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the licensee's responsibility to ensure, prior to affixing an electronic signature to an engineering or land surveying document, that security procedures are adequate to (1) verify the signature is that of a specific person and (2) detect any changes that may be made or attempted after the signature of the specific person is affixed.

This rule is intended to implement Iowa Code sections 542B.13, 542B.15, 542B.20 and 542B.30.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 7
“Professional Development”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The proposed rules in Chapter 7 provide information on compliance for professional development.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Chapter 7 sets forth continuing education requirements for engineers and land surveyors. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of continuing

education is to ensure that engineers and land surveyors maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees will benefit by maintaining current knowledge of advances in the profession. The public will benefit from having an educated pool of professionals offering services.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, professional associations, and employers offer continuing education, so the Engineering and Land Surveying Examining Board does not have information on exact costs. Licensees are required to attest to at least 30 hours acquired in a two-year period. The cost to the licensee is estimated to be between \$0 and \$1,000 every two years.

- Qualitative description of impact:

Continuing education has a public safety benefit because it ensures licensed professionals are receiving a current education on standards for services offered. Continuing education is required by other jurisdictions nationwide.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is staff time needed to review continuing education compliance through random audits. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rulemaking has no anticipated impact on state revenues. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Eliminating continuing education requirements would have no cost impact to the State, but it could impact the quality of the licensed professionals offering services to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The cost of continuing education is not controlled by the agency. Intrusion is necessary in order to protect Iowans and visitors doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were seriously considered. Iowa's continuing education is consistent with neighboring jurisdictions.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Continuing education is a nationwide standard.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms. There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 7 and adopt the following new chapter in lieu thereof:

CHAPTER 7
PROFESSIONAL DEVELOPMENT

193C—7.1(542B,272C) General statement. Completion of continuing education for professional development is a condition of licensure renewal for each licensee.

193C—7.2(542B,272C) Definitions. As used in these rules, the following definitions apply:

“*College or unit semester or quarter hour*” means the unit of credit given for advanced technical and graduate courses from universities with programs accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. or other related college course qualified in accordance with this chapter.

“*Continuing education*” means education obtained by a licensee in order to maintain, improve, or expand skills and knowledge obtained prior to initial licensure or to develop new and relevant skills and knowledge.

“*Continuing education unit (CEU)*” means the unit of credit customarily granted for continuing education courses. One continuing education unit is given for ten hours of class in an approved continuing education course.

“*Course or activity*” means any qualifying course or activity with a clear purpose and objective which will maintain, improve, or expand the skills and knowledge relevant to the licensee's field of practice.

“*Independent study*” means any course or activity in which there is no real-time interaction between the training provider and the licensee, such as courses offered on the Internet.

“*Professional development hour (PDH)*” means a contact hour of instruction or presentation and is the common denominator for other units of credit.

193C—7.3(542B,272C) Professional development hours.

7.3(1) Allowable activities. Licensees may earn professional development hours by participating in a variety of activities. The following is a list of allowable activities and is not all-inclusive:

- a. Successful completion of college courses;
- b. Successful completion of continuing education courses;

- c. Successful completion of correspondence, televised, videotaped, and other short courses or tutorials;
- d. Successful completion of courses on-line via the Internet;
- e. Active participation in seminars, in-house courses, workshops, technical committees of professional engineering organizations, and professional conventions;
- f. Teaching or instructing in the activities set forth above if such teaching or instruction is outside of the licensee's regular employment duties and if the licensee can document such teaching activity or instruction was newly developed and presented for the first time;
- g. Authoring published papers, articles or books;
- h. Obtaining patents;
- i. Attendance at online video courses;
- j. Participation on an NCEES examination development committee;
- k. Attendance at engineering college graduate research seminars.

All of the allowable activities listed above must adhere to this chapter to be accepted by the board.

7.3(2) PDH conversion. The following chart illustrates the conversion from other units to PDH:

| ACTIVITY | PDH |
|---|--|
| 1 College or unit semester hour Credit for qualifying college or community college courses will be based upon course credit established by the college. | 45 PDH per semester hour |
| 1 College or unit quarter hour Credit for qualifying college or community college courses will be based upon course credit established by the college. | 30 PDH per quarter hour |
| 1 Continuing Education Unit as defined in 193C—7.2(542B,272C) | 10 PDH |
| 1 Contact hour attendance in a class, course, seminar, or professional or technical presentation made at a meeting, in-house training session, convention or conference. Credit for qualifying seminars and workshops will be based on 1 PDH unit for each hour of attendance. Attendance at qualifying programs presented at professional or technical society meetings will earn PDH units for the actual time of each program, excluding time for breaks and meals. | 1 PDH per hour |
| 1 Contact hour teaching a class, course, seminar, or a professional or technical presentation a. Teaching credit is valid for teaching a course or seminar for the first time only. b. Teaching credit does not apply to full-time faculty. c. Teaching credit is limited to 10 PDH per biennial renewal period. | 2 PDH per hour |
| Each published paper, article, or book Credit for published material is earned in the biennium of publication. | 10 PDH per publication |
| Active participation in a professional or technical society. Credit for active participation in professional and technical societies is limited to 2 PDH per renewal period per organization and requires that a licensee serve as an officer or actively participate in a committee of the organization. PDH credits are earned for a minimum of one year's service. | 2 PDH per organization per renewal period |
| Each patent Credit for patents is earned in the biennium the patent is issued. | 10 PDH per patent |
| Participation on an NCEES examination development committee or Iowa state specific land surveying examination development committee, including the writing and grading of examination questions, writing reference materials for examinations, and evaluating past examination question performance. Licensees may claim a maximum of 30 PDH per biennial renewal period for participation in this activity. | 2 PDH per hour of committee participation |

7.3(3) Determination of credit. The board has final authority with respect to approval of courses, credit, PDH value for courses, and other methods of earning credit. No preapproval of offerings will be issued. The board may deny any renewal or reinstatement upon a determination of insufficient or unsatisfactory continuing education.

193C—7.4(542B,272C) Professional development guidelines. Continuing education activities that satisfy the professional development criteria are those that relate to engineering or land surveying practice or management. It is recognized that an engineer's specialized skills must have as their

foundation a fundamental knowledge of chemistry, physics, mathematics, graphics, computations, communication, and humanities and social sciences. However, continuing education in the fundamentals alone will not be sufficient to maintain, improve, or expand engineering skills and knowledge. For that reason, licensees will be limited in their use of fundamental courses in proportion to ABET criteria for accreditation of engineering curricula. Continuing education activities are classified as:

7.4(1) Group 1 activities. Group 1 activities are intended to maintain, improve, or expand skills and knowledge obtained prior to initial licensure. The following chart illustrates the maximum PDH allowable per renewal period for Group 1 activities:

| Type of course/activity | Number of PDH allowed per renewal period |
|--|--|
| Mathematics and basic sciences Math beyond Trigonometry Basic sciences: Chemistry, Physics, Life sciences, Earth sciences | 10 PDH |
| Engineering sciences Mechanics, Thermodynamics, Electrical and electrical circuits, Materials science, *Computer science *Courses in computer science will generally be considered a part of the Engineering Sciences category in the ABET criterion and, therefore, limited to a maximum of 10 PDH per renewal period. | 10 PDH |
| Humanities and social sciences Philosophy, Religion, History, Literature, Fine arts, Sociology, Psychology, Political science, Anthropology, Economics, Foreign languages, Professional ethics, Social responsibility | 5 PDH |
| Engineering-related courses Accounting, Industrial management, Finance, Personnel administration, Engineering economy, English, Speech, *Computer applications *The computer is considered a tool available to engineers and land surveyors. Courses related to computer drafting and general computer applications are generally not applicable to either Group 1 or Group 2 activities. Computer courses that relate to engineering or land surveying design applications, such as structural design/analysis software, are considered acceptable. | 10 PDH |

7.4(2) Group 2 activities. Group 2 activities are intended to develop new and relevant skills and knowledge. Credit for participation in activities in the group is unlimited, subject to maximum carryover. Typical areas include postgraduate level engineering science or design, new technology, environmental regulation and courses in management of engineering or land surveying activity (regular work duties do not qualify).

7.4(3) Independent study. To be readily acceptable by the board, independent study as defined in rule 193C—7.2(542B,272C) meets all of the following criteria:

- a. A written evaluation process is completed by the independent study provider; and
- b. A certificate of satisfactory completion is issued by the provider; and
- c. An evaluation assessment is issued to the licensee by the provider; and
- d. Documentation supporting such independent studies is maintained by the licensee and provided to the board as required by subrule 7.8(2).

A maximum of ten professional development hours of independent study activity will be allowed per biennium per licensee.

7.4(4) Exclusions. Types of continuing education activities which will be excluded from allowable continuing education are those in which it is not evident that the activity relates directly to the licensee's practice of professional engineering or land surveying or the management of the business concerns of the licensee's practice, or which do not comply with the board's administrative rules. Examples of activities that do not qualify as continuing education include the following:

- a. Regular employment;
- b. Toastmasters club meetings;
- c. Service club meetings or activities;
- d. Personal estate planning;

- e.* Banquet speeches unrelated to engineering;
- f.* Professional society business meeting portions of technical seminars;
- g.* Financial planning/investment seminars;
- h.* Foreign travel not related to engineering study abroad;
- i.* Personal self-improvement courses;
- j.* Real estate licensing courses;
- k.* Stress management;
- l.* Trade shows;
- m.* Peer review;
- n.* Accreditation review;
- o.* Independent study or self-study that does not meet the requirements of subrule 7.4(3);
- p.* Basic CAD and fundamental computer application courses;
- q.* Undergraduate engineering seminars.

193C—7.5(542B,272C) Biennial requirement. The biennial requirement may only be satisfied during the biennium prior to licensure renewal except for the carryover permitted.

7.5(1) Completion of 30 professional development hours, including at least 2 professional development hours in the area of professional ethics, satisfies the continuing education necessary for biennial licensure renewal in engineering or land surveying. Completion of 40 professional development hours, including 20 professional development hours in engineering and 20 professional development hours in land surveying and at least 4 professional development hours in the area of professional ethics, satisfies the continuing education necessary for biennial licensure renewal for individuals actively licensed in both engineering and land surveying. Up to 15 professional development hours may be carried forward only into the next biennium. For individuals actively licensed in both engineering and land surveying, up to 10 professional development hours for each profession may be carried forward only into the next biennium.

7.5(2) Inactive licensees are exempt from the continuing education requirements.

7.5(3) A licensee who is active in one profession and inactive in another is obligated to meet the continuing education requirements for licensure in the profession in which active licensure is maintained.

7.5(4) A new licensee is obligated to satisfy one-half of the biennial continuing education requirement at the first renewal following initial licensure. Professional engineers and professional land surveyors licensed by comity are not new licensees and are not eligible for the one-half continuing education requirement.

193C—7.6(542B,272C) Exemptions. The continuing education requirements may be reduced in proportion to the following:

1. Periods of time that the licensee serves honorably on active duty in the military services;
2. Periods of time that the licensee is licensed in and a resident of another state or district having continuing education requirements for professional engineering or land surveying and meets all requirements of that state or district for practice therein;
3. Periods of time that the licensee is a government employee working as a professional engineer or professional land surveyor and assigned to duty outside the United States; or
4. Documented periods of the licensee's active practice and absence from the United States that are approved by the board.

No exemption will be granted without a written request from the licensee with documentation of the period of absence.

193C—7.7(542B,272C) Hardships or extenuating circumstances. Upon a written request to the board, the board may, in individual cases involving hardship or extenuating circumstances, grant waivers of the continuing education requirements for a period of time not to exceed one year.

193C—7.8(542B,272C) Reports, records, and compliance review. At the time of application for license renewal, each licensee reports, on a form provided by the board, the number of professional development hours achieved during the preceding biennium.

7.8(1) Record keeping. Maintaining records to be used to support professional development hours claimed is the responsibility of the licensee. It is recommended that each licensee keep a log showing the type of activity claimed, sponsoring organization, location, duration, instructor's or speaker's name, and PDH credits earned. The licensee is obligated to maintain documentation of reported PDHs for two years after the period for which the form was submitted.

7.8(2) Compliance review. The board may select licensees for review of compliance with continuing education on a random basis or upon receiving information regarding noncompliance and will review compliance with continuing education for reinstatement of lapsed or inactive licenses. Each licensed board member is audited for PDH compliance for a biennium that is within each member's respective three-year appointment term. For each PDH claimed, licensees chosen for compliance review will furnish:

- a. Proof of attendance. Attendance verification records in the form of completion certificates, or other documents supporting evidence of attendance;
- b. Verification of the hours claimed; and
- c. Information about the course content.

7.8(3) Compliance review sanctions. Any discrepancy between the number of PDHs reported and the number of PDHs actually supported by documentation may result in a disciplinary review. If, after the disciplinary review, the board disallows any PDH, or the licensee has failed to complete the required PDHs, the licensee has 60 days from board notice to either provide further evidence of having completed the PDHs disallowed or remedy the discrepancy by completing the required number of PDHs (provided that such PDHs are not used again for the next renewal). Extension of time may be granted on an individual basis if requested by the licensee within 30 days of notification by the board. If the licensee fails to comply with the requirements of this subrule, the licensee may be subject to disciplinary action. If the board finds, after proper notice and hearing, that the licensee willfully disregarded these requirements or falsified documentation of required PDHs, the licensee may be subject to disciplinary action as further identified in 193C—paragraphs 9.3(1)“c” and 9.3(3)“e.”

7.8(4) Out-of-state residents. A person licensed to practice engineering or land surveying or both in Iowa shall be deemed to have complied with the continuing education requirement of this state during the periods that the person is a resident of another state or district which has a continuing education requirement for engineers or land surveyors and the individual meets all requirements of that state or district for practice therein. However, if selected for compliance review, such individuals must provide documentation as specified in subrule 7.8(2).

These rules are intended to implement Iowa Code sections 272C.2, 272C.3, 542B.6, and 542B.18.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 8
“Professional Conduct of Licensees”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

The rules in proposed Chapter 8 provide information on professional conduct of the licensee.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:
The primary beneficiaries are members of the public who are doing business with the licensees.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because the Engineering and Land Surveying Examining Board receives relatively few complaints each year (eight in 2022), costs are very low, and the Board believes that the benefits achieved justify the cost because the complicated services offered by professional engineers and land surveyors require advanced education and training. There is a potential cost to licensees when the Board takes disciplinary action, with disciplinary fines capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is on licensees who are expected to adhere to the rules and Iowans who are protected by the rules.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

There are no agency fees associated with the rules of Chapter 8. Staff time is needed to review complaints against licensees regarding ethics/conduct allegations. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Since there are no fees, the primary benefit is to Iowans who are protected by these rules. To reduce or eliminate the rules would put the public at significant risk.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no cost implications. Intrusion is necessary in order to protect Iowans and visitors doing business with the licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Rules of professional ethics and conduct for licensed engineers and land surveyors are in place nationally. Iowa is consistent with all other licensing jurisdictions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms. There is no substantial impact to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 8 and adopt the following **new** chapter in lieu thereof:

CHAPTER 8
PROFESSIONAL CONDUCT OF LICENSEES

193C—8.1(542B) General statement. In order to establish and maintain a high standard of integrity, skills and practice in the professions of engineering and land surveying, and to safeguard the life, health, property and welfare of the public, the following code of professional conduct is binding upon every person holding a certificate of licensure as a professional engineer or professional land surveyor in this state. The code of professional conduct is an exercise of the police power vested in the board by the Acts of the legislature.

193C—8.2(542B) Code of professional conduct. All persons licensed under Iowa Code chapter 542B are charged with having knowledge of the existence of this code of professional conduct and are expected to be familiar with its provisions, to understand them, and to abide by them. Such knowledge includes the understanding that the practices of engineering and land surveying are a privilege, as opposed to a right, and the licensee shall be forthright and candid in statements or written response to the board or its representatives on matters pertaining to professional conduct.

8.2(1) Responsibility to the public. Licensees will conduct their professional practices in a manner that will protect life, health and property and enhance the public welfare. If their professional judgment is overruled under circumstances where safety, health and welfare of the public are endangered, they shall inform their employer or client of the possible consequences, notify such other proper authority as may be appropriate, and withdraw from further services on the project.

Licensees may neither approve nor certify engineering or land surveying documents that may be harmful to the public health and welfare and that are not in conformity with accepted engineering or land surveying standards.

8.2(2) Competency for assignments. Licensees may perform engineering or land surveying assignments only when qualified by education or experience in the specific technical field of professional engineering or professional land surveying involved. Licensees shall engage experts or advise that experts and specialists be engaged whenever the client's or employer's interests are best served by such service.

Licensees may accept an assignment on a project requiring education or experience outside their field of competence, but only to the extent that their services are restricted to those phases of the project in which they are qualified.

8.2(3) Truth in reports and testimony. Licensees, when serving as expert or technical witnesses before any court, commission, or other tribunal, may express an opinion only when it is founded upon adequate knowledge of the facts in issue, upon a background of technical competence in the subject matter, and upon honest conviction of the accuracy and propriety of their testimony. Under these circumstances, the licensee must disclose inadequate knowledge.

Licensees shall be objective and truthful in all professional reports, statements or testimony. All relevant and pertinent information shall be included in such reports, statements or testimony. Licensees shall avoid the use of statements containing a material misrepresentation of fact or omitting a material fact.

8.2(4) Conflict of interest. Licensees shall:

a. Not issue statements, criticisms or arguments on engineering or land surveying matters connected with public policy which are influenced or paid for by an interested party, or parties, unless they have prefaced their comments by explicitly identifying themselves, by disclosing the identities of the party or parties on whose behalf they are speaking, and by revealing the existence of any pecuniary interest.

b. Avoid all known conflicts of interest with their employers or clients and, when unforeseen conflicts arise, shall promptly inform their employers or clients of any business association, interest, or circumstances that could influence judgment or the quality of services.

c. Not accept compensation, financial or otherwise, from more than one party for services on the same project, unless the circumstances are fully disclosed and agreed to by all interested parties.

d. Act in professional matters for each employer or client as faithful agents or trustees and maintain full confidentiality on all matters in which the welfare of the public is not endangered.

8.2(5) Ethics. Licensees shall conduct their business and professional practices of engineering and land surveying in an ethical manner. In addition to the provisions of this chapter, the board will consider, although not necessarily be bound by, the ethical standards that address public protection issues adopted by a recognized state or national engineering or land surveying organization such as the National Society of Professional Engineers and the National Society of Professional Surveyors.

8.2(6) Unethical or illegal conduct.

a. Business practices. Licensees shall not:

(1) Pay or offer to pay, either directly or indirectly, any commission, percentage, brokerage fee, political contribution, gift, or other consideration to secure work, except to a bona fide employee or bona fide, established commercial or marketing agency retained by them or to secure positions through employment agencies.

(2) Engage in any discriminatory practice prohibited by law and shall, in the conduct of their business, employ personnel upon the basis of merit.

(3) Solicit or accept gratuities, directly or indirectly, from contractors, their agents, or other parties dealing with their clients or employers in connection with work for which they are responsible.

(4) Solicit or accept an engineering or land surveying contract from a governmental body when a principal or officer of the licensee's organization serves as an elected, appointed, voting or nonvoting member of the same governmental body which is letting the contract. For purposes of this subparagraph, "governmental body" means a board, council, commission, or similar multimembered body. A licensee would not violate this provision, however, if the principal or officer of the licensee's organization who serves as a member of the governmental body plays no role in the solicitation or acceptance of the contract, and the contract would be legally permissible under applicable Iowa law, including but not limited to Iowa Code sections 68B.3, 279.7A, 331.342, and 362.5.

(5) Associate with, or permit the use of their names or firms in a business venture by, any person or firm that they know, or have reason to believe, is engaging in business or professional practice of a fraudulent or dishonest nature.

(6) Misrepresent pertinent facts concerning employers, employees, associates, firms, joint ventures, or past accomplishments in brochures or other presentations incident to the solicitation of employment.

b. Individual professional conduct. Licensees shall not:

(1) Use association with nonengineers, corporations or partnerships as "cloaks" for unethical acts.

(2) Violate any local, state or federal criminal law in the conduct of professional practice.

(3) Violate licensure laws of any state or territory.

(4) Affix their signatures or seals to any plans, plats or documents dealing with subject matter in which those licensees lack competence, nor to any plan, plat or document not prepared under their direct personal direction and control.

(5) Falsify their qualifications or permit misrepresentation of their or their associates' qualifications. They shall not misrepresent or exaggerate their responsibility in or for the subject matter of prior assignments.

c. Real property inspection reports. Licensees shall not:

- (1) Represent themselves as licensed professional land surveyors or professional engineers on real property inspection reports (i.e., mortgage surveys).
- (2) Place their firm names, logos, or title blocks on real property inspection reports (i.e., mortgage surveys).

193C—8.3(542B) Reporting of acts or omissions. Licensees shall report acts or omissions by a licensee that constitute negligence or carelessness. For the purposes of these rules, “negligence or carelessness” means demonstrating unreasonable lack of skill in the performance of engineering or land surveying services by failure of a licensee to maintain a reasonable standard of care in the licensee’s practice of engineering or land surveying. In the evaluation of reported acts or omissions, the board determines if the engineer or land surveyor has applied learning, skill and ability in a manner consistent with the standards of the professions ordinarily possessed and practiced in the same profession at the same time. Standards referred to in the immediately preceding sentence shall include any minimum standards adopted by this board and any standards adopted by recognized national or state engineering or land surveying organizations.

193C—8.4(542B) Standards of integrity. Licensees shall:

1. Answer all questions of a duly constituted investigative body of the state of Iowa concerning alleged violations by another person or firm.
2. Admit and accept their own errors and not distort or alter the facts to justify their own decisions when proven wrong.
3. Present information to the engineering and land surveying examining board in writing and cooperate with the board in furnishing further information or assistance required by the board, if a licensee knows or has reason to believe that another person or firm may be in violation of Iowa law or rules regarding ethics or conduct of professional engineering or professional land surveying practice.
4. Licensees cannot assist in the application of an individual they know is unqualified for licensure by reason of education, experience or character.

193C—8.5(542B) Engineering and land surveying services offered by business entities.

8.5(1) Purpose of rule. The purpose of this rule is to protect the public from misleading or deceptive advertising by business entities that hold themselves out to the public as providing professional engineering or professional land surveying services and to guard against the unlicensed practice of professional engineering or professional land surveying by persons who are not properly licensed to perform such services in the state of Iowa. This rule shall not be construed as restricting truthful advertising by business entities that appropriately place professional engineers or professional land surveyors in responsible charge of the professional services offered to and performed for the public.

8.5(2) Definitions. For purposes of this rule, the following definitions apply:

“*Business entity*” includes corporations, partnerships, limited liability companies, persons using fictitious or assumed names, or any other form of entity which may conduct business.

“*In responsible charge*” means the same as defined in Iowa Code section 542B.2(6). Indications of being in responsible charge include:

1. Obtaining or setting the project or service parameters or criteria.
2. Dictating the manner and methods by which professional services are performed.
3. Establishing procedures for quality control and authority over professional services in a manner that ensures that the professional licensee is in control of the work and of all individuals performing the work under the licensee’s supervision.
4. Spending sufficient time directly performing the work or directly supervising the work to ensure that the licensee is familiar with all significant details of the work.
5. Maintaining familiarity with the capabilities and methods of the persons performing professional services, and providing adequate training for all persons working under the licensee’s direct supervision.

6. Sustaining readily accessible contact with all persons performing professional services by direct physical proximity, or as appropriate in the licensee's professional judgment, by frequent communication, in clear and complete verbal and visual form, of information about the work being performed.

7. Specifically pertaining to land surveying, reviewing all field evidence and making all final decisions concerning the placement of survey monuments and surveyed lines.

"Professional services" includes professional engineering and professional land surveying services, as defined in Iowa Code sections 542B.2(5) and (8) and 542B.27, as applicable to the fact situation at issue.

8.5(3) General rule. Business entities offering professional services to the public must be owned, managed, or appropriately staffed by one or more professional engineers or professional land surveyors, as applicable, who are in responsible charge of all professional services offered and performed.

8.5(4) Appropriate staffing. The nature and extent of appropriate staffing by licensed professionals is necessarily a fact-based determination dependent on such factors as the nature and volume of professional services offered and performed, the risk of unlicensed practice, the impact of the professional services on the life, health and safety of the public and the public's property, and the representations made to the public. While the legal nature of the business entity's relationship (e.g., owner, manager, employee) with a licensed professional engineer or professional land surveyor is not necessarily determinative, licensed professionals must be in responsible charge of all professional services offered and performed.

8.5(5) Professional engineering or professional land surveying firms. Business entities holding themselves out to the public as professional engineering or professional land surveying firms cannot satisfy the requirements of this rule solely by retaining, through employment or contract, a licensed professional on an as-needed, occasional or consulting basis. Such an arrangement fosters unlicensed practice by the unlicensed owners or managers who place themselves in charge of determining when a licensed professional is needed. When a business entity conveys to the public that it is organized as a firm of licensed professionals, the public has a right to expect that the firm retains the full-time services of one or more licensed professionals. "Full-time" in this context is not measured by hours, but by a licensee's sustained, meaningful, and effective, direct supervision of all professional services performed, whether the firm performs services, for example, 20 hours per month or 80 hours per week.

8.5(6) Restricted services. Business entities that do not generally hold themselves out to the public as professional engineering or professional land surveying firms, but that do offer some type of professional engineering or professional land surveying service, shall be appropriately staffed by licensed professionals in a manner that (a) corresponds with the representations made to the public, (b) places licensed professionals in responsible charge of all professional services performed, and (c) guards against the unlicensed practice of professional engineering or professional land surveying.

8.5(7) Permitted practices.

a. Nothing in this rule is intended to prevent an individual or business entity from truthfully offering services as a project manager, administrator, or coordinator of a multidisciplinary project.

b. Nothing in this rule prevents a joint venture arrangement between an engineering or land surveying firm and a business entity that is not owned, managed, or staffed by professional engineers or professional land surveyors, in which the venturing entities jointly and truthfully offer professional engineering or professional land surveying services on a project-by-project basis. Licensed professional engineers and professional land surveyors who participate in such arrangements shall ensure that the public is accurately informed as to the nature of all professional services to be performed and by whom the services will be performed.

8.5(8) Remedies against licensees. Licensed professional engineers or professional land surveyors who aid and abet the unlicensed offering or practice of professional engineering or professional land surveying, or who otherwise knowingly participate in a business entity that does not comply with this rule, are engaging in unethical practices that are harmful or detrimental to the public and are subject to disciplinary action by the board.

8.5(9) *Remedies against business entities and unlicensed individuals.* The board may by order impose civil penalties against any business entity or unlicensed individual that offers or performs professional services in violation of Iowa Code chapter 542B.

These rules are intended to implement Iowa Code sections 542B.6, 542B.21 and 542B.26 and chapter 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193C—Chapter 9
“Complaints, Investigations and Disciplinary Action”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 542B.6
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 542B

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
4 p.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@dia.iowa.gov

Purpose and Summary

Proposed Chapter 9 provides protection to Iowans because it publicly defines the Board’s disciplinary authority, processes and grounds for which disciplinary action can be taken. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, it can subject a licensee to discipline against the licensee’s license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Engineering and Land Surveying Examining Board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licenses may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000, per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with professional engineers and land surveyors. Chapter 9 contains rules directly relating to protecting the public. While a low number of complaints can call into question the extent to which a profession needs to be regulated, engineering and land surveying are highly technical and complicated in nature and require a high level of skill. The safety of Iowans depends on these professions, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is a relatively small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the cost because the complicated services offered by professional engineers and land surveyors require advanced education and training. There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is from providing detailed information on the Board's authority and examples of what may be grounds for discipline, all designed to help protect the welfare of the public. Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of the profession.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 full-time equivalent (FTE) position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations is very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$250 was paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the cost because the professions of engineering and land surveying require an advanced education and expertise. The Board receives a low number

of complaints and issues a small number of disciplinary actions. In 2022, the Board received eight complaints and issued two public disciplinary actions. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the professions of engineering and land surveying require an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service from licensed professionals. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided for in Iowa Code chapter 542B. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 9 and adopt the following **new** chapter in lieu thereof:

CHAPTER 9 COMPLAINTS, INVESTIGATIONS AND DISCIPLINARY ACTION

193C—9.1(542B) Complaints and investigations.

9.1(1) Complaints. The board, upon receipt of a complaint or upon its own motion pursuant to other evidence received by the board, reviews and investigates alleged acts or omissions which reasonably constitute cause under applicable law or administrative rule for licensee discipline. Complaints may be submitted to the board office via the board's website by members of the public, including clients,

business organizations, nonprofit organizations, governmental bodies, licensees, or other individuals or entities with knowledge of possible violations of laws or rules by licensees.

9.1(2) *Form and content.* A written complaint may be submitted on forms available from the board office and on the board's website. The written complaint shall include the following information:

- a. The full name, address, and telephone number of complainant.
- b. The full name, address, and telephone number of the individual against whom the complaint is filed.
- c. A statement of the facts and circumstances giving rise to the complaint, including a description of the alleged acts or omissions which the complainant believes demonstrate that the respondent has violated or is violating laws or rules enforced by the board.
- d. Citation of the statutes and administrative rules allegedly violated by the respondent.
- e. Evidentiary supporting documentation.
- f. Steps, if any, that have been taken by the complainant to resolve the dispute with the respondent prior to the filing of the complaint.

9.1(3) *Initial complaint screening.* All written complaints received by the board are initially screened by the board's administrator to determine whether the allegations of the complaint fall within the board's investigatory jurisdiction and whether the facts presented, if true, would constitute a basis for disciplinary action against a licensee. Complaints which are clearly outside the board's jurisdiction, which clearly do not allege facts upon which disciplinary action would be based, or which are frivolous will be referred by the board administrator to the board for closure at the next scheduled board meeting. All other complaints are referred by the board administrator to the board's disciplinary committee for committee review.

9.1(4) *Investigation of allegations.* In order to determine if probable cause exists for a hearing on the complaint, the board may cause an investigation to be made into the allegations of the complaint. It may refer the complaint to a peer review committee or investigator for investigation, review and report to the board.

9.1(5) *Informal discussion.* If the board considers it advisable, or if requested by the affected licensee, the board may grant the licensee an opportunity to appear before the board or a committee of the board for a voluntary informal discussion of the facts and circumstances of an alleged violation. The licensee may be represented by legal counsel at the informal discussion. It is not necessary for the licensee to attend the informal discussion. By electing to attend, the licensee waives the right to seek disqualification, based upon personal investigation of a board member or staff, from participating in making a contested case decision or acting as a presiding officer in a later contested case proceeding. Because an informal discussion constitutes a part of the board's investigation of a pending disciplinary case, the facts discussed at the informal discussion may be considered by the board in the event the matter proceeds to a contested case hearing and those facts are independently introduced into evidence. The board may seek a consent order at the time of the informal discussion. If the parties agree to a consent order, a statement of charges will be filed simultaneously with the consent order.

9.1(6) *Immunity.* Complainants are immune from civil liability under Iowa Code section 272C.8.

9.1(7) *Role of complainant.* The role of the complainant in the disciplinary process is limited to providing the board with factual information relative to the complaint. A complainant is not party to any disciplinary proceeding which the board may initiate based in whole or in part on information provided by the complainant.

9.1(8) *Role of the board.* The board does not act as an arbiter of disputes between private parties, nor does the board initiate disciplinary proceedings to advance the private interest of any person or party. The role of the board in the disciplinary process is to protect the public by investigating complaints and initiating disciplinary proceedings in appropriate cases. The board possesses sole decision-making authority throughout the disciplinary process, including the authority to determine whether a case will be investigated, the manner of the investigation, whether a disciplinary proceeding will be initiated, and the appropriate licensee discipline to be imposed, if any.

193C—9.2(542B) Ruling on the initial inquiry.

9.2(1) Dismissal. If a determination is made by the board that a complaint is without grounds or merit, the complaint will be dismissed. A letter of explanation concerning the decision of the board will be sent to the respondent and the complainant.

9.2(2) Requirement of further inquiry. If determination is made by the board to order further inquiry, the complaint and initial recommendations will be provided to the investigator(s) along with a statement specifying the information deemed necessary.

9.2(3) Acceptance of the case. If a determination is made by the board to initiate disciplinary action, the board may enter into an informal settlement or recommend formal disciplinary proceedings. The board's rules regarding informal settlement are found at 193—7.4(17A,272C).

This rule is intended to implement Iowa Code sections 542B.21, 542B.22 and 272C.6.

193C—9.3(17A,272C,542B,546) Grounds for discipline. The board has authority pursuant to Iowa Code chapters 542B, 17A and 272C to impose discipline for violations of those chapters and the rules promulgated thereunder and may initiate disciplinary action against a licensee holding an active, inactive or lapsed license on any of the grounds identified in Iowa Code section 542B.21.

9.3(1) Fraud or deceit in procuring or attempting to procure an initial, comity, renewal, or reinstated license includes any intentional perversion of or reckless disregard for the truth when an application, or information in support of another's application, is submitted to the board, including:

a. False representation of a material fact, whether by word or by conduct, by false or misleading allegation, or by concealment of that which should have been disclosed.

b. Attempting to file or filing with the board any false or forged record or document, such as a college transcript, diploma or degree, examination report, verification of licensure, or continuing education certificate.

c. Reporting information, such as satisfaction of continuing education, in a false manner, through overt deceit, or with reckless disregard for the truth or accuracy of the information asserted.

d. Otherwise participating in any form of fraud or misrepresentation by act or omission.

9.3(2) Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to discharge professional obligations within the practice of engineering or land surveying.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other practitioners in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average practitioner acting in the same or similar circumstances.

d. Failure to conform to the minimum standards of acceptable and prevailing practice of engineering or land surveying in this state, including the land surveying standards set forth in Iowa Code chapters 354 and 355 and 193C—Chapters 11 and 12.

e. Engaging in engineering or land surveying practices which are outside the technical competence of the licensee without taking reasonable steps to associate with a competent licensee or other steps to ensure competent practice.

f. Any other act or omission that demonstrates an inability to safely practice in a manner protective of the public's interest, including acts or omissions described in 193C—8.3(542B).

9.3(3) Deceptive practices include, but are not limited to, the following:

a. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of engineering or land surveying.

b. Use of untruthful or improbable statements in advertisements. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation.

c. Acceptance of any fee by fraud or misrepresentation.

d. Falsification of business or client records.

e. Submission of false or misleading reports or information to the board including information supplied in an audit of continuing education or as a condition of probation, or in a reference submitted for an examination or a license applicant or in any reports identified in this rule or 193C—8.3(542B).

f. Knowingly presenting as one's own the license, signature, or seal of another or of a fictitious licensee, or otherwise falsely impersonating a person holding an engineering or land surveying license.

g. Representing oneself as a professional engineer or professional land surveyor after the license has been suspended, revoked, surrendered, or placed on inactive status or has lapsed.

h. Fraud in representations as to skill or ability.

i. Any violation of Iowa Code section 542B.16 or associated rules in 193C—Chapter 6 involving a licensee's seal or certificate.

9.3(4) Behaviors and conduct which are unethical or harmful or detrimental to the public include, but are not limited to, the following actions:

a. A violation of the code of professional conduct in 193C—Chapter 8.

b. Verbal or physical abuse, or improper sexual contact, if such behavior occurs within the practice of engineering or land surveying or if such behavior otherwise provides a reasonable basis for the board to conclude that such behavior could occur within such practice and, if so, would place the public at risk.

c. Aiding or abetting a violation of a provision of Iowa Code section 542B.27(1).

9.3(5) Lack of proper qualifications, as provided in Iowa Code Section 272C.3(2) "b" includes, but is not limited to:

a. Continuing to practice as an engineer or land surveyor without satisfying the continuing education required for license renewal.

b. Violation of Iowa Code section 542B.21(4), which adversely affects the licensee's ability to practice in a safe and competent manner.

9.3(6) Professional misconduct which includes, but is not limited to, revocation, suspension, or other disciplinary action taken against a licensee by a licensing authority of this state or another state, territory, or country. "Disciplinary action" includes a voluntary surrender of a license to resolve a pending disciplinary investigation or proceeding. A stay by an appellate court does not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, discipline by the board based solely on such action shall be vacated. A licensee shall notify the board of such disciplinary action within 30 days of the disciplinary action.

9.3(7) Willful or repeated violations include the willful or repeated violation or disregard of any provision of Iowa Code chapter 272C or 542B or any administrative rule adopted by the board in the administration or enforcement of such chapters.

9.3(8) Conviction of felony includes the conviction of a felony under the laws of the United States, of any state or possession of the United States, or of any other country. The board will vacate any discipline based solely on a conviction, if that conviction is overturned or reversed by a court of last resort.

193C—9.4(542B) Disciplinary findings and sanctions. The board's decision may include one or more of the following findings or sanctions:

1. Exoneration of respondent.
2. Revocation of license.
3. Suspension of license until further order of the board or for a specified period.
4. Nonrenewal of license.
5. Prohibition, until further order of the board or for a specific period, of engaging in specified procedures, methods or acts.
6. Probation.
7. Requirement of additional education or training.
8. Requirement of reexamination.
9. Issuance of a reprimand.
10. Imposition of civil penalties.
11. Issuance of citation and warning.
12. Desk review.

13. Other sanctions allowed by law as may be appropriate.

193C—9.5(272C) Civil penalties. In addition to other disciplinary options, the board may assess civil penalties of up to \$1,000 per violation against licensees who violate any provision of rule 193C—9.3(17A,272C,542B,546). Factors the board may consider when determining whether and in what amount to assess civil penalties include:

1. Whether other forms of discipline are being imposed for the same violation.
2. Whether the amount imposed will be a substantial economic deterrent to the violation.
3. The circumstances leading to the violation.
4. The severity of the violation and the risk of harm to the public.
5. The economic benefits gained by the licensee as a result of the violation.
6. The interest of the public.
7. Evidence of reform or remedial action.
8. Time elapsed since the violation occurred.
9. Whether the violation is a repeat offense following a prior cautionary letter, disciplinary order, or other notice of the nature of the infraction.
10. The clarity of the issue involved.
11. Whether the violation was willful and intentional.
12. Whether the licensee acted in bad faith.
13. The extent to which the licensee cooperated with the board.
14. Whether the licensee practiced professional engineering or professional land surveying with a lapsed, inactive, suspended or revoked license.

This rule is intended to implement Iowa Code section 542B.22.

193C—9.6(542B) Publication of decisions. In addition to publication requirements found at 193—subrule 7.30(3), the following notifications shall be issued:

1. Following suspension of a professional land surveyor's license, notification must be issued to the county recorders and county auditors of the county of residence and immediately adjacent counties in Iowa.
2. Following revocation of a professional land surveyor's license, notification must be mailed to all county auditors in Iowa and the county recorders in the county of residence and immediately adjacent counties in Iowa.
3. Following the suspension or revocation of the license of a professional engineer or professional land surveyor, notification is issued to other boards of examiners for engineers and land surveyors under the jurisdiction of the government of the United States. This notification may be made through the National Council of Examiners for Engineering and Surveying or other national organizations recognized by the board. In addition, if the licensee is known to be registered in another nation in North America, the appropriate board(s) are notified of the action.

193C—9.7(542B) Disputes between licensees and clients. Reports from the insurance commissioner or other agencies on the results of judgments or settlements of disputes arising from malpractice claims or other actions between professional engineers or professional land surveyors and their clients may be referred to counsel or peer review committee. The counsel or peer review committee will investigate the report for violation of the statutes or rules governing the practice or conduct of the licensee. The counsel or peer review committee will advise the board of any probable violations, any further action required, or recommend dismissal from further consideration.

193C—9.8(272C,542) Confidentiality of complaint and investigative information.

9.8(1) General provisions. All complaint and investigative information received or created by the board is privileged and confidential pursuant to Iowa Code section 272C.6(4). Such information shall not be released to any person except as provided in that section.

9.8(2) Disclosure to the subject of the investigation.

a. Legal authority. Pursuant to Iowa Code section 546.10(9) [2007 Iowa Acts, Senate File 360, section 7], the board may supply to a licensee who is the subject of a disciplinary complaint or investigation, prior to the initiation of a disciplinary proceeding, all or such parts of a disciplinary complaint, disciplinary or investigatory file, report, or other information, as the board in its sole discretion believes would aid the investigation or resolution of the matter.

b. General rule. As a matter of general policy, the board will not disclose confidential complaint and investigative information to a licensee except as permitted by Iowa Code section 272C.6(4). Disclosure of a complainant's identity in advance of the filing of formal disciplinary charges, for instance, may adversely affect a complainant's willingness to file a complaint with the board.

c. Exceptions to general rule. The board may exercise its discretion to release information to a licensee that would otherwise be confidential under Iowa Code section 272C.6(4) under narrow circumstances, including but not limited to the following:

(1) Following a board determination that probable cause exists to file disciplinary charges against a licensee and prior to the issuance of the notice of hearing, the board may provide the licensee with a peer review or investigative report or expert opinions, as reasonably needed for the licensee to assess the merits of a settlement proposal.

(2) The board may release to a licensee who is the subject of a board-initiated investigation, including those initiated following the board's receipt of an anonymous complaint, such records or information as may aid the investigation or resolution of the matter.

(3) The board may release information from a peer review or consultant's report when soliciting the licensee's position will aid in making the probable cause determination and such disclosure can be made to the licensee without revealing identifying information regarding the complainant, peer reviewer or consultant.

These rules are intended to implement Iowa Code chapter 17A and sections 542B.2, 542B.22, and 272C.6.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@iowa.gov

Purpose and Summary

Chapter 10 covers peer review as it relates to disciplinary investigations.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Investigations may be completed by investigators on staff. If a case reaches the level where the Engineering and Land Surveying Examining Board determines that an individual with specialized knowledge and skills is necessary, a peer reviewer is hired as an investigator at a rate of \$150 an hour with a fee cap of \$1,000. In 2022 there were four peer reviewers/investigators hired by the Board.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public doing business with professional engineers and land surveyors. Chapter 10 contains rules directly relating to protecting the public.

While a low number of complaints can call into question the extent to which a profession needs to be regulated, engineering and land surveying are professions that are highly technical and complicated in nature and require a high level of skill. Iowans rely on the highest quality professional engineers and land surveyors, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are very few complaints that require an investigation outside of staff, costs are extremely low. The Board believes that the benefits achieved justify the low cost because the complicated services offered by the engineering and land surveying profession require advanced education and training. There is a potential cost to licensees where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is in providing detailed information on the Board's process to resolve complaints filed by the public. Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 of a full-time equivalent (FTE) position. There is also the potential cost to the agency if a peer reviewer is hired as an investigator at a rate of \$150 an hour with a fee cap of \$1,000. In 2022 there were four peer reviewers/investigators hired by the Board. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by the agency which is funded by licensing fees. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the low cost because the professions of engineering and land surveying require an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received eight complaints and issued two public disciplinary actions. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the professions of engineering and land surveying require an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service from licensed professionals. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided for in Iowa Code chapter 542B. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license engineering or land surveying firms. There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 10 and adopt the following **new** chapter in lieu thereof:

CHAPTER 10 PEER REVIEW

193C—10.1(542B,272C) Peer review. The board may appoint a peer reviewer, or multiple peer reviewers, for the investigation of a complaint about the acts or omissions of one or more licensees.

10.1(1) Peer review. Peer reviewers are generally licensed engineers or licensed land surveyors or both, as determined by the board, who are selected for their knowledge and experience in the type of engineering or land surveying involved in the complaint.

An individual is ineligible as a peer reviewer in accordance with the standard for disqualification found at 193—subrule 7.14(1). If a peer reviewer is unable to serve after an investigation has begun, the peer reviewer will notify the board office.

10.1(2) Authority. The peer reviewer's investigation may include activities such as interviewing the complainant, the respondent, individuals with knowledge of the alleged violation, and individuals

with knowledge of the respondent's practice in the community; gathering documents; conducting site visits; and performing independent analyses as deemed necessary. Although the board does not become involved in a complaint investigation, the board may give specific instructions to the peer reviewer regarding the scope of the investigation. In the course of the investigation, the peer reviewer will refrain from advising the complainant or respondent on actions that the board might take.

10.1(3) *Term of service.* The peer reviewer serves at the pleasure of the board. The board may dismiss any peer reviewer or add new peer reviewers at any time.

10.1(4) *Compensation.* The terms of payment as authorized by the peer review agreement may vary based on the nature and complexity of each assignment. The peer reviewer will be additionally entitled to reimbursement of expenses directly related to the peer review process, deposition or hearing preparation, or deposition or hearing testimony, such as mileage, meals, or out-of-pocket charges for securing copies of documents. Expenses will be reimbursed as allowed under the manuals and guidelines published by the Iowa department of administrative services, state accounting enterprise. The peer reviewer cannot hire legal counsel, investigators, secretarial help or any other assistance without written authorization from the board.

193C—10.2(542B,272C) Reports. Each peer reviewer will submit a written report to the board within 90 days of the peer review assignment, unless an extension is granted by the board.

10.2(1) *Components of the report.* The report will include:

- a. A statement of the charge to the peer reviewer;
- b. A description of the actions taken by the peer reviewer in the peer reviewer's investigation, including but not limited to document review, interviews and site visits;
- c. A summary of the peer reviewer's findings, including (1) the peer reviewer's opinion as to whether a violation has occurred, (2) citation of the Iowa Code section(s) and Iowa Administrative Code rule(s) violated, and (3) the peer reviewer's opinion of the seriousness of the violation; and
- d. A recommendation.

In the case of a land surveyor peer reviewer report, the report must be plat-specific as to the violations.

10.2(2) *Recommended action.* The peer reviewer report will recommend one of the following:

- a. Dismissal of the complaint,
- b. Further investigation, or
- c. Disciplinary proceedings.

If the peer reviewer recommends further investigation or disciplinary proceedings, supporting information must be submitted to the board, including citation of the specific Iowa Code section(s) and Iowa Administrative Code rule(s) violated.

10.2(3) *Disciplinary recommendations.* When recommending disciplinary proceedings, a peer reviewer will not suggest a particular form of discipline, but may provide guidance on the severity of the violations that prompted the recommendation and may identify professional areas in which the licensee needs additional education, experience or monitoring in order to safely practice.

193C—10.3(542B,272C) Confidentiality. The peer reviewer will not discuss or reveal the peer reviewer's findings and conclusions with any party other than the board (through the peer reviewer's report to the board) or board staff.

193C—10.4(542B,272C) Testimony. Peer reviewers may be required to testify in the event of formal disciplinary proceedings.

These rules are intended to implement Iowa Code section 272C.3.

Purpose and Summary

The rules of Chapter 11 provide information on minimum standards for property surveys.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

The beneficiaries are licensees who use the information in the delivery of their services and members of the public doing business with licensees. Chapter 11 contains rules directly relating to protecting the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Engineering and Land Surveying Examining Board receives very few complaints associated with alleged violations of the minimum standards of property surveys, but minimum standards are critical to protecting Iowans. The Board believes that the benefits achieved justify the costs because the complicated services offered by land surveyors require advanced education and training. There is a potential cost to licensees when the Board takes disciplinary action, with disciplinary fines capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is in providing detailed information on what is included in a property survey. The surveys provide uniformity and assist in managing expectations of both licensees and members of the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The rules themselves do not have any associated fees, and there is no staff time involved. As a result, there is no cost to the state agency.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no costs involved. Iowans directly benefit from these rules, which help define what can be expected in doing business with land surveyors.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no cost implications. Intrusion is necessary in order to protect Iowans doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board engaged in discussions regarding all the chapters of Engineering and Land Surveying Examining Board[193C]. No alternative methods were considered because these rules play an important role in protecting the public. Protecting the public is the primary mission of the Board.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license land surveying firms. There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11
MINIMUM STANDARDS FOR PROPERTY SURVEYS

193C—11.1(542B) Scope. Each professional land surveyor will comply with the minimum standards for property surveys described by statute or administrative rule. The minimum standards in this chapter apply to all property surveys performed in this state except those done for acquisition plats as described in Iowa Code chapter 354.

193C—11.2(542B) Definitions. For the purposes of these rules, the following definitions apply:

“*Plat*” means both a plat of survey and a subdivision plat as those terms are defined in Iowa Code section 355.1.

“*Property survey*” means any land survey performed for the purpose of describing, monumenting, retracing and establishing boundary lines, dividing, subdividing, or platting one or more parcels of land.

“*Retrace*” means following along a previously established line to logical termini.

193C—11.3(542B) Boundary location. Every property survey shall be made in accordance with the legal description (record title) boundaries as nearly as is practicable. The surveyor will acquire data necessary to retrace record title boundaries, centerlines, and other boundary line locations. The surveyor will analyze the data and determine the position of the boundaries of the parcel being surveyed. The surveyor will make a field survey, locating and connecting monuments necessary for location of the parcel, and coordinate the facts of such survey with the analysis. The surveyor will set monuments marking the corners of such parcel unless monuments already exist at such corners.

193C—11.4(542B) Descriptions. Descriptions defining land boundaries written for conveyance or other purposes shall be complete, providing definite and unequivocal identification of lines or boundaries. The description must contain dimensions sufficient to enable the description to be platted and retraced and describe the land surveyed either by government lot or by quarter-quarter section or by quarter section and identify the section, township, range and county; and by metes and bounds commencing with a corner monumented and established in the U.S. Public Land Survey System; or if such land is located in a recorded subdivision or recorded addition thereto, then by the number or other description of the lot, block or subdivision thereof which has been previously tied to a corner monumented and established by the U.S. Public Land Survey System. If the parcel is described by metes and bounds, it may be referenced to known lot or block corners in recorded subdivision or additions.

193C—11.5(542B) Plats. A plat shall be drawn for every property survey performed showing information developed by the survey and including the following elements:

11.5(1) The plat is drawn to a convenient scale which is clearly stated and graphically illustrated by a bar scale on every plat sheet.

11.5(2) The plat shows the length and bearing of the boundaries of the parcels surveyed. Where the boundary lines show bearing, lengths or locations which vary from those recorded in deeds, abutting

plats or other instruments, the following note is placed along such lines: “recorded as (show recorded bearing, length or location).”

11.5(3) The plat shows and identifies all monuments necessary for the location of the parcel and indicates whether such monuments were found or placed and includes an accurate description of each monument consisting of size, shape, material type, capped with license number, and color as applicable.

11.5(4) The plat is captioned to identify the person for whom the survey was made and the date of the survey and describes the parcel as provided in rule 193C—11.4(542B) above.

11.5(5) The plat shows that record title boundaries, centerlines, and other boundary lines were retraced to monuments found or placed by the surveyor.

11.5(6) The plat shows that the survey is tied to a physically monumented land line which is identified by two U.S. Public Land Survey System corners or by two physically monumented corners of a recorded subdivision. The plat shows a distance relationship measured by the surveyor between the two corners on the physically monumented land line. The physically monumented land line shall be germane to the survey of the lot, parcel, or tract.

11.5(7) The plat bears the signature of the professional land surveyor, a statement certifying that the work was performed by the surveyor or under the surveyor’s direct personal supervision, the date of signature, and the surveyor’s Iowa license number and legible seal as provided in rule 193C—6.1(542B).

11.5(8) The surveyor shall record every plat and description, excluding subdivision plats, with the county recorder no later than 30 days after signature on the plat by the surveyor.

193C—11.6(542B) Measurements.

11.6(1) Measurements may only be made with instruments and methods capable of attaining the required accuracy for the particular problem involved.

11.6(2) Measurements as placed on the plat shall be in conformance with the capabilities of the instruments used.

11.6(3) The unadjusted closure for all closed traverse surveys shall be not greater than 1 in 5,000 and, for subdivision boundaries, 1 in 10,000.

11.6(4) In a closed traverse, the sum of the measured angles shall agree with the theoretical sum by a difference not greater than 30 seconds times the square root of the number of angles.

11.6(5) The unadjusted error of field measurements shall not be greater than 1 in 5,000.

11.6(6) The relative positional tolerance at the 95 percent confidence level shall be as follows:

a. For subdivision boundaries: $\pm(0.13 \text{ feet} + 1:10,000)$

b. For all other land surveying: $\pm(0.26 \text{ feet} + 1:5,000)$

11.6(7) Bearings or angles on any property survey plat shall be shown to the nearest one minute; distance shall be shown to the nearest one-tenth foot.

193C—11.7(542B) Monuments. Monuments shall adhere to Iowa Code section 355.6. See rule 193C—11.3(542B).

These rules are intended to implement Iowa Code sections 355.3 and 542B.2.

Purpose and Summary

The rules of Chapter 12 provide information on minimum standards for U.S. Public Land Survey Corner Certificates.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensed land surveyors will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:

The beneficiaries are licensees who use the information in the delivery of their services and members of the public doing business with licensees. Chapter 12 contains rules directly relating to protecting the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The economic impact of a land surveyor using due care to accurately prepare a U.S. Public Land Survey Corner Certificate is not quantifiable.

- Qualitative description of impact:

The impact is in providing detailed information on what is included in a public land survey. The surveys provide uniformity and assist in managing expectations of both licensees and individuals doing business with licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The rules themselves do not have any associated fees, and there is no staff time involved. As a result, there is no cost to the state agency.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are no costs involved. Iowans directly benefit from these rules which help define what can be expected in doing business with land surveyors.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no cost implications. Intrusion is necessary in order to protect Iowans doing business with these licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Engineering and Land Surveying Examining Board[193C] engaged in discussions regarding all the chapters of 193C. No alternative methods were considered because these rules play an important role in protecting the public. Protecting the public is the primary mission of the Board.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Iowa does not license land surveying firms. There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 12 and adopt the following **new** chapter in lieu thereof:

CHAPTER 12
MINIMUM STANDARDS FOR U.S. PUBLIC LAND SURVEY
CORNER CERTIFICATES

193C—12.1(542B) General statement. Each professional land surveyor will comply with the minimum standards for preparing a U.S. Public Land Survey Corner Certificate as described by statute or administrative rule. The minimum standards in this chapter apply to every corner certificate prepared in this state.

193C—12.2(355) U.S. Public Land Survey Corner Certificate.

12.2(1) A corner is considered a part of the U.S. Public Land Survey System if it has the status of a corner of a:

- Quarter-quarter section or larger aliquot part of a section.
- Fractional quarter-quarter section or larger fractional part of a section.
- Government lot.

12.2(2) A U.S. Public Land Survey Corner Certificate shall be prepared by the surveyor as part of any land surveying which includes the use of a U.S. Public Land Survey System corner if one or more of the following conditions exist:

- There is no certificate for the corner monument on file with the recorder of the county in which the corner is located.
- The surveyor in responsible charge of the land surveying accepts a corner position which differs from that shown in the public records of the county in which the corner is located.
- The corner monument is replaced or modified in any way.
- The reference ties in an existing public record are incorrect or missing.

12.2(3) A U.S. Public Land Survey Corner Certificate shall comply with the following requirements:

- The identity of the corner monument, with reference to the U.S. Public Land Survey System, shall be clearly indicated.
- The certificate contains a narrative explaining:
 - The reason for preparing the certificate.
 - The evidence and detailed procedure used in establishing or confirming the corner position whether found or placed.
 - The monumentation found or placed perpetuating the corner position with an accurate description of each monument including but not limited to size, shape, material type, capped with license number, and color.
 - The extent of the search for an existing monument when the corner is reset as obliterated or lost.
- The certificate contains a plan-view drawing depicting:
 - Relevant monuments including the reference monumentation and an accurate description thereof.
 - Physical surroundings including highway and street centerlines, fences, structures and other artificial or natural objects as applicable that would facilitate recovery of the corner.
 - Reference ties in sufficient detail to enable recovery of the corner, including at least three reference ties from the corner to durable physical objects near the corner which are located so that the

intersection of any two of the ties will yield a strong corner position recovery. All ties are measured to one-hundredth of a foot.

d. The certificate bears the signature of the professional land surveyor, a statement certifying that the work was performed by the surveyor or under the surveyor's direct personal supervision, the date of signature, and the surveyor's Iowa license number and legible seal as provided in rule 193C—6.1(542B).

12.2(4) The surveyor shall record the required U.S. Public Land Survey Corner Certificate and forward a copy to the county engineer of the county in which the corner is located within 30 days after completion of the surveying.

These rules are intended to implement Iowa Code sections 355.3, 355.11 and 542B.2.

The Department of Inspections, Appeals, and Licensing may address agenda items out of sequence to accommodate persons appearing before the Department or to aid in the efficiency or effectiveness of the meeting.

All meetings held by the Department are accessible to everyone. Any persons who need special accommodations to participate should call 515.281.0254 (TDD: 1.800.735.2942) as soon as possible in advance of the meeting to ensure sufficient time to make the appropriate accommodations.

Public attendees may make comments at the conclusion of each board director’s report.

The boards reserve the right to limit the length of comments based on the number of individuals who wish to speak.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Robert Lampe, Board Administrator
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9024
Email: robert.lampe@iowa.gov

Purpose and Summary

Chapter 13 provides helpful information to licensees and members of the public regarding civil penalties the Engineering and Land Surveying Examining Board may impose as part of regulating the professions. This is important to the public because it creates a shared understanding of options available to the Board when a nonlicensee engages in activities requiring a license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board has the ability to seek discipline against nonlicensees for those items outlined, ensuring that the public is protected.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are no costs to the general public. Unlicensed individuals may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000 per public order.

- Classes of persons that will benefit from the proposed rulemaking:

The primary beneficiaries are members of the public. Chapter 13 contains rules directly relating to protecting the public. While a low number of complaints can call into question the extent to which a profession needs to be regulated, engineering and land surveying are professions that are highly technical and complicated in nature and require a high level of skill. Iowans rely on the engineering and land surveying professions, so the Board believes that regulation is necessary.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is a relatively small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the low cost achieved because the complicated services offered by the engineering and land surveying professions require advanced education and training. There is a potential cost to an individual where disciplinary action is taken against them, with disciplinary fines being capped at \$1,000 per offense.

- Qualitative description of impact:

The impact is in providing detailed information on the Board's authority and examples of what may be grounds for discipline, all designed to help protect the welfare of the public.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and coordinating investigations. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the Board's processes. An executive officer supports the full scope of work of this Board at approximately 0.30 of a full-time equivalent (FTE) position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by the individual, not the State. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards. Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$250 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes that the benefits achieved justify the low cost because the professions of engineering and land surveying require an advanced education and expertise. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received eight complaints and issued two public disciplinary actions, but none regarding unlicensed practice. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the professions of engineering and land surveying require an advanced education and level of skill, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive the highest quality of service. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board's authority for disciplinary action is provided for in Iowa Code chapter 542B. No alternative methods were seriously considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Protecting the public is the primary mission of the Board. These rules give the Board the authority to fulfill its mission.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This Board does not license engineering or land surveying firms. There is no substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193C—Chapter 13 and adopt the following **new** chapter in lieu thereof:

CHAPTER 13
CIVIL PENALTIES FOR UNLICENSED PRACTICE

193C—13.1(542B) General statement. The board may impose civil penalties by order against a person who is not licensed as an engineer or land surveyor pursuant to Iowa Code chapter 542B based on the unlawful practices specified in Iowa Code section 542B.27. In addition to the procedures set forth in Iowa Code section 542B.27, this rule shall apply.

13.1(1) The notice of the board's intent to impose a civil penalty required by Iowa Code section 542B.27 shall be served upon the nonlicensee by restricted certified mail, return receipt requested, or personal service in accordance with Rule of Civil Procedure 56.1. Alternatively, the nonlicensee may accept service personally or through authorized counsel. The notice will include the following:

- a. A statement of the legal authority and jurisdiction under which the proposed civil penalty would be imposed.
- b. A reference to the particular sections of the statutes and rules involved.
- c. A short and plain statement of the alleged unlawful practice.
- d. The dollar amount of the proposed civil penalty.

e. Notice of the nonlicensee's right to a hearing and the time frame in which hearing must be requested.

f. The address to which the written request for hearing will be made.

13.1(2) Nonlicensees must request a hearing within 30 days of the date the notice is mailed if served through restricted certified mail to the last-known address or within 30 days of the date of service if service is accepted or made in accordance with Rule of Civil Procedure 56.1. A request for hearing must be in writing and is deemed made on the date of the United States Postal Service postmark or the date of personal service.

13.1(3) If a request for hearing is not timely made, the board chair or the chair's designee may issue an order imposing the civil penalty described in the notice. The order may be mailed by regular first-class mail or served in the same manner as the notice of intent to impose civil penalty.

13.1(4) If a request for hearing is timely made, the board will issue a notice of hearing and conduct a hearing in the same manner as applicable to a disciplinary case against a licensed engineer or land surveyor.

13.1(5) In addition to the factors set forth in Iowa Code section 542B.27, the board may consider the following when determining the amount of civil penalty to impose, if any:

- a.* The time elapsed since the unlawful practice occurred.
- b.* Evidence of reform or remedial actions.
- c.* Whether the violation is a repeat offense following a prior warning letter or other notice of the nature of the infraction.
- d.* Whether the violation involved an element of deception.
- e.* Whether the unlawful practice violated a prior order of the board, court order, cease and desist agreement, consent order, or similar document.
- f.* The clarity of the issue involved.
- g.* Whether the violation was willful and intentional.
- h.* Whether the nonlicensee acted in bad faith.
- i.* The extent to which the nonlicensee cooperated with the board.

13.1(6) A nonlicensee may waive the right to a hearing and all attendant rights and enter into a consent order imposing a civil penalty at any stage of the proceeding upon mutual consent of the board.

13.1(7) The notice of intent to impose civil penalty and order imposing civil penalty are public records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be provided to the media, the National Council of Examiners for Engineering and Surveying, and other entities. Hearings shall be open to the public.

This rule is intended to implement Iowa Code section 542B.27.

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 27, 2023
11:30 a.m.

Room G9, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Executive Council no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nate Ristow
Governor’s Office, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.314.2998
Email: nate.ristow@governor.iowa.gov

Purpose and Summary

This proposed rulemaking authorizes the director of the Department of Administrative Services (DAS) to administer the deferred compensation and health benefits programs for state employees.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Taxpayers and public employees will bear the costs of the proposed rulemaking.
 - Classes of persons that will benefit from the proposed rulemaking:
State employees, health insurers, health care providers, and Iowans generally will benefit from the proposed rulemaking.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
DAS incurs \$1.4 million in operational costs to administer the programs. The State of Iowa also matches up to \$75 per month for employees’ contributions into the deferred compensation program and pays approximately 90 percent of the health care premium cost. These costs are covered by tax revenues.
State employees also incur some costs for the employee health care premium contribution, approximately 10 percent of the health care premium cost. State employees can also divert current income to deferred income.
 - Qualitative description of impact:

State employees benefit from the existence of deferred compensation and health insurance through their employer. Health insurers and health care providers benefit from state employee customers and employer subsidized premiums. Iowans generally benefit from the ability of the State to attract high-caliber employees with employer benefits such as health insurance and deferred compensation programs.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:
DAS incurs \$1.4 million in operational costs to administer the programs.
- Anticipated effect on state revenues:
There is no impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs are justified by the ability of the State to compete for excellent employees. The State must provide benefits on par with private sector competitors for the available workforce.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This rulemaking simply authorizes the DAS Director to administer the deferred compensation and health benefits programs and cross-references DAS rules. Less costly alternatives would only exist through changes to DAS rules, which are not adopted in this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
No alternative methods were considered. DAS is the appropriate state entity to administer these programs.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
The Executive Council does not have staff that can administer the program, but DAS is equipped to handle the workload.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rulemaking does not have a significant impact on small business.

Text of Proposed Rulemaking

ITEM 1. Adopt the following new 361—Chapter 1:

CHAPTER 1
GROUP INSURANCE FOR STATE EMPLOYEES

361—1.1(509A) Administration. The executive council authorized the director of the department of administrative services or designee to administer the deferred compensation program and the health maintenance organization program for employees of the state of Iowa. The rules for administering the program are as provided for in 11—Chapter 64.

This rule is intended to implement Iowa Code sections 509A.6 and 509A.12.

ITEM 2. Rescind and reserve **361—Chapter 5.**

ITEM 3. Rescind and reserve **361—Chapter 6.**

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 361—Chapters 2 and 7
“Contingent Fund—Disaster Aid”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 29C.20
State or federal law(s) implemented by the rulemaking: Iowa Code section 29C.20

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 27, 2023
11:45 a.m.

Room G9, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Executive Council no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nate Ristow
Governor’s Office, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.314.2998
Email: nate.ristow@governor.iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to enumerate policies, responsibilities, and procedures adopted by the Executive Council of the State of Iowa in order to provide guidance for administering the state Disaster Contingency Fund.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Communities seeking to prepare and recover from natural disasters will bear the costs of the proposed rulemaking.
 - Classes of persons that will benefit from the proposed rulemaking:
Communities seeking to prepare and recover from natural disasters will benefit from the proposed rulemaking.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Eleven communities have benefited from \$5,822,770 in state contingency loans since 2010. The Fund has disbursed about \$1 million per year over the past four years to address disaster readiness and recovery.
 - Qualitative description of impact:
The rules impose minimal costs on the public. Local governments have an obligation to use their own resources as much as possible before seeking assistance from the Fund.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department of Homeland Security and Emergency Management incurs costs to process applications.

- Anticipated effect on state revenues:

The rulemaking is unlikely to have any impact on state revenues, though it may improve the efficiency of processing applications.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost of inaction is high since some communities may face greater damages from natural disasters without the ability to access these funds to prepare for natural disasters.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The process could be simply first come, first served.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Elimination of the application process and making awards on a first-come, first-served basis was considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

A process without oversight could lead to inefficient use of state resources or fraud, and a first-come, first-served basis would not allow for evaluation and prioritization of projects based on need, impact, and viability.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rules have no significant impact on small business.

Text of Proposed Rulemaking

ITEM 1. Adopt the following **new** 361—Chapter 2:

CHAPTER 2 CONTINGENT FUND—DISASTER AID

361—2.1(29C) Purpose. The purpose of these rules is to enumerate policies, responsibilities, and procedures adopted by the executive council of the state of Iowa in order to provide guidance for administering the state disaster contingency fund as described in Iowa Code section 29C.20.

361—2.2(29C) Definitions. The definitions set forth in Iowa Code chapter 29C are incorporated herein by reference.

361—2.3(29C) Policy. It is the policy of the state of Iowa to maintain an organization and procedures for providing supplemental assistance by the state to governmental subdivisions in the achievement of improved disaster readiness and to recover from the effects of a disaster.

361—2.4(29C) Program responsibilities and procedures.

2.4(1) Governor. The governor may proclaim a state of disaster emergency in accordance with Iowa Code section 29C.6.

2.4(2) Government subdivisions. Governmental subdivisions will:

- a. Make every effort to avert and recover from the disaster with their own resources.
- b. Maintain detailed accounts of disaster expenses.
- c. Submit to the department a request for a loan. The initial request constitutes a letter on official agency letterhead briefly describing the effect of the disaster or action on the governmental subdivision and the immediate financial inability to meet the continuing obligations of local government.
- d. Include in the initial letter request Form SDA-1, Form SDA-2, Form SDA-3, and Form SDA-3A as well as the State of Iowa Contingent Fund Loan Contact and Information Sheet.
- e. Initiate action to implement annual emergency levy as authorized by Iowa Code sections 24.6 and 384.8, in order to expedite repayment of loan.

2.4(3) Director. The director will:

- a. Prepare and maintain current rules for issuance by the executive council, providing for the administration of the contingent fund—disaster aid.
- b. Coordinate, as necessary, actions by other departments and agencies necessary to the administration of the contingent fund—disaster aid.
- c. Report each fiscal year to the governor and the executive council on activities in connection with administration of the contingent fund—disaster aid including, but not limited to, a description of each disaster of a magnitude sufficient to warrant recommendations concerning applications for loans to the executive council. Such description is to include the kind and scope of the disaster, the disposition of government subdivision applications for loans, and the total of loan approvals for the fiscal year.
- d. The director, upon receipt of an initial request for assistance supported by all appropriate forms and documentation, will advise the secretary of the executive council of such request and will furnish copies of all accompanying documents.
- e. The director will submit a recommendation to the executive council as to eligibility and entitlement of the requesting governmental subdivision on Form SDA-4 and Form SDA-4A.

2.4(4) Executive council. The executive council will:

- a. Decide if the contingent fund—disaster aid is justified by the application and showing, and, if so, the amount of the loan(s) to be made.
- b. Develop and publish the form and procedures for applying for the contingent fund—disaster aid and issue rules describing the administration of the contingent fund – disaster aid.
- c. Designate and instruct appropriate state departments and agencies to assist the director, the department, in the administration of the contingent fund—disaster aid by loan or use of personnel equipment and facilities.
- d. Consider the information furnished by the governmental subdivisions requesting loans, the report and recommendation of the director and decide which of the governmental subdivisions are eligible, and if so, the amount and terms reflecting approved eligibility.

The aggregate total of the loans cannot exceed \$1 million during a fiscal year.

2.4(5) *Department of management.* The department of management will execute loans in the amounts, and as scheduled, to government subdivisions as approved by the executive council and maintain appropriate accounts.

2.4(6) *State auditor actions.* The auditor will audit the accounts of government subdivisions to ensure that loans have been applied in accordance with determined eligibility and will make an audit report to the executive council.

361—2.5(29C) Eligibility for contingent fund—disaster aid loans.

2.5(1) To be eligible for contingent fund—disaster aid loans, a governmental subdivision demonstrates an immediate financial inability to meet the continuing obligations of local government through a showing of obligations and expenditures necessitated by an actual or potential disaster proclaimed a state of disaster emergency by the governor.

2.5(2) The loan, if made, may only be up to a limit of 75 percent of the showing of obligations and expenditures. The loan, without interest, may be repaid by the maximum annual emergency levy as authorized by Iowa Code sections 24.6 and 384.8. The loan shall be repaid within 20 years.

361—2.6(29C) Forms and documents.

2.6(1) SDA forms.

- a.* Form SDA-1 “Certified True Copy of Resolution of Governing Body.”
- b.* Form SDA-2 “Certificate by Authorized Requesting Official to Accompany Application for State Disaster Aid.”
- c.* Form SDA-3 “Application for Financial State Disaster Aid.”
- d.* Form SDA-3A “Resolution.”
- e.* Form SDA-4 “Report and Recommendation of the Director, Iowa Department of Homeland Security and Emergency Management on Application for State Disaster Aid.”
- f.* Form SDA-4A “Review of Application for State Disaster Aid.”

2.6(2) “Request from Applicant” as described in 2.4(2) “c.”

2.6(3) “State of Iowa Contingent Fund Loan Contact and Information Sheet.”

These rules are intended to implement Iowa Code section 29C.20.

ITEM 2. Rescind and reserve **361—Chapter 7.**

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 361—Chapters 3 and 11
“Inheritance Tax Payments”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 450.6
State or federal law(s) implemented by the rulemaking: Iowa Code section 450.6

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 27, 2023
12 noon

Room G9, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Executive Council no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nate Ristow
Governor’s Office, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.314.2998
Email: nate.ristow@governor.iowa.gov

Purpose and Summary

This proposed rulemaking provides the criteria by which the Executive Council will approve an inheritance tax credit for transfer of property to a public entity.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Persons who owe inheritance tax will bear the costs of the proposed rulemaking.
 - Classes of persons that will benefit from the proposed rulemaking:
Persons who owe inheritance tax, state and local governments will benefit from the proposed rulemaking.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There are minimal costs to apply for the credit and obtain certification from the transferee government. Actual costs are hard to identify because the Department of Revenue is not aware of anyone ever utilizing this credit.
 - Qualitative description of impact:
An individual must apply to the Executive Council to be granted the credit. The local government that received the transferred land must certify the transfer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:
These costs are negligible because no one uses this credit.
- Anticipated effect on state revenues:
No effect on state revenues is anticipated.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

If someone wants to claim this credit before the inheritance tax sunsets in 2025, the costs imposed by this rule are very low. Without this chapter, the process for claiming the credit would be unclear.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The limitations on transfer of land could be loosened, which may encourage more individuals to use the credit.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
Alternative methods were not seriously considered at this time because the inheritance tax sunsets in two years.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The inheritance tax sunsets in two years, so there is no reason to change the existing process for claiming the credit at this time.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rule does not have a substantial impact on small business.

Text of Proposed Rulemaking

ITEM 1. Adopt the following **new** 361—Chapter 3:

CHAPTER 3 INHERITANCE TAX PAYMENTS

361—3.1(450) Prior tax payment. If the inheritance tax has been paid and the payment is not excessive and, therefore, not subject to refund under Iowa Code section 450.94(3), the council will not approve, as a tax credit, any property transfer as a substitute for the prior tax payment.

361—3.2(450) Real property and tangible personal property. The tax credit is applicable for transfers of real property or of tangible personal property located in Iowa. Transfers of intangible property or of property located outside of Iowa will never qualify for the tax credit.

3.2(1) *Real property.* The executive council will not approve a credit for a transfer of a joint interest in real property or for property which is encumbered by liens. However, the council may approve a credit for an interest in real property which is less than full legal and equitable title if the interest is an easement for public access, a conservation or preservation easement, dedication for preserves or for other public use, or other similar interest which by virtue of the location and nature of the property is of significant, unique value to the public or to the environment. Property encumbered by liens of creditors will not qualify for the tax credit. Proposals to transfer a partial interest will not qualify for the tax credit.

3.2(2) *Tangible personal property.* Tangible personal property is tangible property which can be touched or handled. It is corporeal and is contrasted with intangible property. Intangible property includes but is not limited to cash, choses in action, copyrights, patents, stocks, bonds, trademarks, or annuities. *Ramco, Inc. v. Director, Department of Revenue*, 248 N.W.2d 122 (Iowa 1976).

361—3.3(450) Type, use, and purpose of transfers. The transferred property for which tax credit will be claimed should be useful to the public generally. Thus, for example, transfers of real property to be dedicated and used as a park or wildlife area will generally be approved by the council for the tax credit. In addition, at the time of the transfer, the governmental entity receiving the property should intend to own and use it for a public purpose for an indefinite period of time. The council will not approve a tax credit if the property transferred is to be sold or otherwise transferred again. However, mere retention of authority to dispose of or transfer property does not preclude the council from granting the credit if the donee has rules or policies to ensure that the property may only be transferred to a similar entity or affiliated organization for a similar purpose or sold in a reasonable manner with the proceeds pledged to the same purpose as the original gift. The property transferred should have real significance to the public and should be permanently used for the public's benefit. Personal property transferred should have significant historical or cultural value or be transferred and used in association with any real property transferred for which the council will approve the tax credit.

361—3.4(450) Political subdivisions. A political subdivision of the state of Iowa is a geographic or territorial portion of the state in which local governmental functions are performed. An agency or instrumentality of a political subdivision is part of the political subdivision. 1976 Op. Att'y Gen. 823.

361—3.5(450) Eligible taxes. The tax credit provisions in Iowa Code section 450.6 are applicable to the Iowa inheritance tax imposed by Iowa Code chapter 450. The taxes imposed by Iowa Code chapter 450A (generation skipping tax) and by Iowa Code chapter 451 (Iowa estate tax) will not be eligible for the tax credit for property transfers.

361—3.6(450) Partial payment. If the value of the property to be transferred is less than the inheritance tax liability of the beneficiary, heir, surviving joint tenant or other transferee who proposes such transfer and if the council approves the transfer, the remaining portion of the liability shall be paid to the department of revenue before the tax credit will be granted.

361—3.7(450) Timeliness of application. An application for approval of a proposed transfer shall be filed with the council within eight months of the death of the decedent, unless, for good cause, the council extends the period for filing such application. In no case will such extension be granted beyond the due date for the filing of the inheritance tax return and due date for payment of the tax or, if applicable, an extended date obtained pursuant to 701—subrule 900.2(9).

361—3.8(450) Notice of donee agencies. Any state agency which is the transferee of the property in question will receive notice of any pending application on the agenda of the executive council.

361—3.9(450) Scope of rules. These rules do not foreclose any transfers of property of any kind to the state or its political subdivisions. These rules are only concerned with whether such transfers will qualify for the tax credit authorized by Iowa Code section 450.6. The council's intent is to demonstrate that its discretion to approve the tax credit will not be broadly exercised.

361—3.10(450) Forms. The application to pay inheritance tax by a transfer of property and the certifications necessary under these rules is made on forms available from the department of revenue.

361—3.11(88GA,SF619) Sunset. This chapter shall cease to be operative on January 1, 2026.
These rules are intended to implement Iowa Code sections 17A.3 and 450.6.

ITEM 2. Rescind and reserve **361—Chapter 11.**

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 361—Chapters 4 and 12
“Disbursement of Money from Civil Reparations Trust Fund”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 7D, and 668A
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 668A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 27, 2023
12:15 p.m.

Room G9, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Executive Council no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Nate Ristow
Governor’s Office, Iowa State Capitol
1007 East Grand Avenue
Des Moines, Iowa 50319
Phone: 515.314.2998
Email: nate.ristow@governor.iowa.gov

Purpose and Summary

This proposed rulemaking explains the process for applying for grants from the Civil Reparations Trust Fund and the criteria the Executive Council will use to consider disbursement for the purposes of indigent civil litigation programs or insurance assistance programs.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Entities that provide indigent civil litigation or insurance assistance will bear the costs of the proposed rulemaking.
 - Classes of persons that will benefit from the proposed rulemaking:
Indigent persons and Medicare-eligible individuals will benefit from the proposed rulemaking.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
There are minimal costs to complete the application form. The last application to the Fund was in 2016, though Iowa Legal Aid recently requested the application form.
 - Qualitative description of impact:
There is time and effort involved to complete the application form.
3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:

Costs are minimal since there have been no disbursements from the Fund over the last three fiscal years and no one has filed a motion to reconsider.

- Anticipated effect on state revenues:

The rulemaking will not have an impact of state revenues. The Fund balance is currently \$1,014,926. The funds are available for certain statutory purposes, and these rules do not change the availability of the funds for those purposes.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs are minimal, but the funds could better serve their intended purpose if they were directed to providers of these services directly or through other state agencies that currently support the intended purposes, without application to the Executive Council. However, that would require a statutory change, so the minimal costs imposed by this rule are reasonable to achieve the benefits.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Under the current statutory scheme, the costs imposed by the rule are minimal.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No alternative methods were considered.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The alternative discussed above is not available via rulemaking and would entail a statutory change.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

There is no significant impact on small business.

Text of Proposed Rulemaking

ITEM 1. Adopt the following **new** 361—Chapter 4:

CHAPTER 4 DISBURSEMENT OF MONEY FROM CIVIL REPARATIONS TRUST FUND

361—4.1(68A) Notice of funds. The executive council provides notice of availability of money in the civil reparations trust fund in the following ways:

4.1(1) *Iowa Administrative Bulletin.* The executive council publishes notice of the balance in the fund in the Iowa Administrative Bulletin semiannually in January and July of each year and within 30 days of the deposit of any amount into the fund exceeding \$10,000. If the deposit of an amount exceeding \$10,000 would cause notice within 30 days of the deposit to be published in January or July, no additional publication is necessary.

4.1(2) *First-class mail.* The executive council maintains a mailing list of those persons who wish to receive notice of the balance in the fund. Notice is sent semiannually in January and July of each year and within 30 days of the deposit of any amount into the fund exceeding \$10,000 by first-class mail to all persons on the mailing list. If the deposit of an amount exceeding \$10,000 would cause notice within 30 days of the deposit to be mailed in January or July, no additional mailing is necessary. Any person may be added to the mailing list on request.

In the event that there is no money in the fund in January or July, no notice will be published or mailed.

361—4.2(668A) Applications. The executive council will accept applications for money from the fund for a period of 30 days after notice has been published in the Iowa Administrative Bulletin or sent by first-class mail. Applications will not be accepted in advance of this time period.

Application forms are available from and filed with the office of the state treasurer.

An application is timely if it is postmarked on the thirtieth day after the date of publication in the Iowa Administrative Bulletin or on the thirtieth day after the date affixed to the notice sent by first-class mail, whichever is later. The executive council may accept applications submitted after this deadline only for good cause upon motion in writing.

361—4.3(668A) Criteria. In determining whether to grant an application for money from the fund, the executive council considers the following factors:

1. The purpose for which the money will be utilized;
2. The number of people who will be served by the money;
3. The availability to the applicant of alternative sources of money;
4. The degree to which the applicant legally used the money under any prior applications.

361—4.4(668A) Disposition of applications. The executive council determines the disposition of all pending applications and notifies all applicants of the decision by first-class mail. Notice of disposition is sent to all applicants on the same date.

361—4.5(668A) Motion for reconsideration. Any applicant who is aggrieved or adversely affected by the disposition of the applicant's application may, within 15 days of the date affixed to the notice of disposition, file a motion for reconsideration in the office of the state treasurer. The motion is deemed filed when received and date-stamped by the treasurer.

361—4.6(668A) Grounds. The motion for reconsideration has to delineate the specific grounds for reconsideration. An applicant may request a contested case hearing; however, any request for a contested case hearing specifically delineates the facts in dispute to be contested and determined at the hearing.

361—4.7(668A) Procedure. The executive council rules on any pending motion for reconsideration, including a request for a contested case hearing. In the event that a request for a contested case hearing is granted, the proceeding is conducted as provided in X.5 of the Uniform Rules on Agency Procedure related to contested cases, which are published at www.legis.iowa.gov/DOCS/Rules/Current/UniformRules.pdf on the general assembly's website. The burden of proof by a preponderance of the evidence rests with the requester to establish grounds for reconsideration. The office of the attorney general will defend the decision of the executive council.

361—4.8(668A) Disbursement of money. No money will be disbursed from the fund after disposition of all applications until the time period for filing a motion for reconsideration has expired. After the

time period for filing a motion for reconsideration has expired but while a motion for reconsideration by any applicant is pending, the executive council in its discretion may disburse money from the fund to applicants who have not filed a motion for reconsideration. Money may be disbursed to applicants while a motion for reconsideration is pending only to the extent that resolution of any pending motion could not affect the disbursement of money to other applicants.

361—4.9(668A) Administrative costs. The costs of administering this fund, including any costs associated with the conduct of any contested case proceeding challenging the disbursement of money from the fund and costs for postage and copying, are billed to the fund after approval by the executive council.

These rules are intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and Iowa Code chapters 7D and 668A.

ITEM 2. Rescind and reserve **361—Chapter 12.**

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Each legacy department merged into HHS as part of the government reorganization and maintained its own set of Uniform Rules on Agency Procedure. HHS proposes to keep one set of uniform rules for the combined department of HHS. Existing uniform rule chapters include:

- 17—Chapters 2, 11, 13, 17, 18, and 19
- 421—Chapters 1, 2, 3, 4, 5, 6, and 7
- 441—Chapters 1, 3, 4, 5, 7, 9, and 16
- 489—Chapter 5
- 641—Chapters 170, 171, 172, 173, 174, 175, and 178
- 817—Chapters 1, 2, 3, 5, and 6

These chapters comprise the HHS Uniform Rules on Agency Procedure. HHS seeks to rescind all uniform rules that exist for a department or program merged into HHS as part of the government reorganization and to repromulgate one set of uniform rules for HHS under agency number 441.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
None were identified.
 - Classes of persons that will benefit from the proposed rulemaking:
All Iowans benefit from Uniform Rules on Agency Procedure being applied consistently across HHS.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Not applicable.

- Qualitative description of impact:

HHS is proposing to eliminate Uniform Rules on Agency Procedure that are redundant or duplicative of existing rules adopted by HHS to reduce confusion and establish a single set of uniform rules for the newly reorganized department.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

These administrative procedures are a part of HHS standard business operations and absorbed in the general cost of administering the work of HHS.

- Anticipated effect on state revenues:

Not applicable.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

By incorporating the Uniform Rules on Agency Procedure as HHS procedure, HHS ensures members of the public can interact with HHS in a manner that is consistent, efficient, and effective.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No less costly or intrusive methods exist.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Not applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS is implementing the Uniform Rules on Agency Procedure prescribed on the Legislative Services Agency's website.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This rulemaking is not expected to have any impact on small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 1 and adopt the following **new** chapter in lieu thereof:

GENERAL DEPARTMENTAL PROCEDURES
TITLE I

CHAPTER 1
DEPARTMENT ORGANIZATION AND GENERAL DEFINITIONS

441—1.1(217) History and mission. The Iowa department of health and human services was established in 2022 pursuant to 2022 Iowa Acts, House File 2578, and fully codified pursuant to 2023 Iowa Acts, Senate File 514. The authority delegated to the department had previously been delegated to the departments of human services, public health, aging, and human rights; the Iowa commission on volunteer service; the child advocacy board and the department of inspections and appeals. In 2023, the general assembly combined these agencies and programs to create the department of health and human services. The department’s mission is published on the department’s website.

441—1.2(217) Definitions. For the purposes of the department’s rules, unless otherwise defined:

“*Council*” means the health and human services council.

“*Department*” means the department of health and human services.

“*Director*” means the director of health and human services.

“*Electronic signature*” means a confidential personalized digital key, code, or number that is used for secure electronic data transmission and that identifies and authenticates the signatory.

441—1.3(217) Department structure.

1.3(1) General. The department’s organizational structure consists of the council, the director and such divisions as the director may from time to time create.

1.3(2) Director. The department director is appointed pursuant to the requirements in Iowa Code section 217.5.

1.3(3) Delegation of director authority. The director may designate employee(s) to administer the department in the director’s absence. The director may also delegate the director’s authority to administer the department to other employees as determined necessary for efficient and effective department operations. Delegations of the director’s authority will be documented by the department.

1.3(4) Divisions. The director may from time to time reorganize the department into administrative divisions to most efficiently and effectively carry out the department’s responsibilities. Reorganization may include creating new division, eliminating existing divisions, or combining divisions as the director deems necessary.

441—1.4(217) Information. The general public may obtain information about the department by contacting the department at its offices located at 321 E. 12th Street, Des Moines, Iowa 50319, telephone 515.281.5452, or through the department’s website.

441—1.5(217) Health and human services council. The council is established in Iowa Code section 217.2 and its duties are in Iowa Code section 217.3. Meetings of the council and any ad hoc committee it may establish are conducted in accordance with the provisions of Iowa Code chapter 21.

441—1.6(217) State council on developmental disabilities. The state developmental disabilities council and its duties are established in 42 U.S.C. §15025.

1.6(1) Designated state agency. The department serves as the designated state agency.

1.6(2) Membership. The council consists of up to 26 members appointed by the governor. Members serve three-year terms. Appointments are staggered so at least one-third of the members are appointed each year. The nonattendance provisions of Iowa Code section 69.15 apply to the council’s members.

1.6(3) Meetings. Meetings of the council are conducted in accordance with the provisions of Iowa Code chapter 21.

1.6(4) Council information. The general public may obtain information about the council at its offices located at 700 2nd Avenue, Suite 101, Des Moines, Iowa, 50309; telephone 800. 452.1936; or the website iowaddcouncil.org.

ITEM 2. Rescind 441—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3
DEPARTMENT PROCEDURE FOR RULEMAKING

The department adopts, with the following exceptions and amendments, the Uniform Rules on Agency Procedure relating to agency procedure for rulemaking, which are published at www.legis.iowa.gov/docs/Rules/Current/UniformRules.pdf on the general assembly's website.

441—3.3(17A) Public rulemaking docket.

3.3(2) Anticipated rulemaking. In lieu of the words “(commission, board, council, director)” insert “director”.

441—3.4(17A) Notice of proposed rulemaking.

3.4(3) Notices mailed. In lieu of the words “(specify time period)” insert “one calendar year”.

441—3.5(17A) Public participation.

3.5(1) Written comments. In lieu of the words “(identify office and address)” insert “Compliance Division, Iowa Department of Health and Human Services, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319”.

3.5(5) Accessibility. In lieu of the words “(designate office and telephone number)” insert “Compliance Division of the Department, 515.281.7689”.

441—3.6(17A) Regulatory flexibility analysis.

3.6(3) Mailing list. In lieu of the words “(designate office)” insert “Compliance Division, Iowa Department of Health and Human Services, Lucas State Office Building, Des Moines, Iowa 50319”.

441—3.11(17A) Concise statement of reasons.

3.11(1) General. In lieu of the words “(specify the office and address)” insert “Compliance Division, Iowa Department of Health and Human Services, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319”.

441—3.13(17A) Agency rulemaking record.

3.13(2) Contents. Amend paragraph “c” by inserting “director” in lieu of “(agency head)”.

ITEM 3. Rescind 441—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4
PETITIONS FOR RULEMAKING

The department adopts, with the following exceptions and amendments, the Uniform Rules on Agency Procedure relating to petitions for rulemaking, which are published at www.legis.iowa.gov/docs/Rules/Current/UniformRules.pdf on the general assembly's website.

441—4.1(17A) Petition for rulemaking. In lieu of the words “designate office” insert “Compliance Division, Iowa Department of Health and Human Services, Lucas State Office Building, 321 E. 12th Street, Des Moines, Iowa 50319” and in lieu of the words “AGENCY NAME,” the heading on the petition should read “THE DEPARTMENT OF HEALTH AND HUMAN SERVICES”.

441—4.3(17A) Inquiries. Inquiries concerning the status of a petition may be made to the compliance division at the department’s address or at compliancerules@idph.iowa.gov.

ITEM 4. Rescind 441—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5
DECLARATORY ORDERS

The department adopts, with the following exceptions and amendments, the Uniform Rules on Agency Procedure relating to declaratory orders, which are published at www.legis.iowa.gov/docs/Rules/Current/UniformRules.pdf on the general assembly’s website. Every instance that lists “designate agency” shall be read as the department of health and human services.

441—5.1(17A) Petition for declaratory order. In lieu of the words “designate office” insert “compliance division, at the department’s address”.

441—5.2(17A) Notice of petition. The department shall have 15 days after receipt to give notice.

441—5.3(17A) Intervention.

5.3(1) Nondiscretionary intervention. Fifteen days shall be the time frame for a person to file for an intervention.

5.3(3) Filing and form of petition for intervention. In lieu of the words “designate office” insert “compliance division, at the department’s address”.

441—5.5(17A) Inquiries. Inquiries concerning the status of a declaratory order proceeding may be made to the compliance division at the department’s address or at compliancerules@idph.iowa.gov.

441—5.6(17A) Service and filing of petitions and other papers.

5.6(2) Filing—when required. In lieu of the words “specific office and address” insert “compliance division, at the department’s address or compliancerules@idph.iowa.gov” and in lieu of “agency name” insert “department”.

5.6(3) Method of service, time of filing, and proof of mailing. Method of service, time of filing, and proof of mailing shall be as provided by X.12(17A) of the contested cases segment of the uniform rules on agency procedure published on the Iowa general assembly’s website at www.legis.iowa.gov/DOCS/Rules/Current/UniformRules.pdf.

441—5.8(17A) Action on petition.

5.8(1) Time frames for action. Within 30 days after receipt of a petition for a declaratory order, the department shall take action on the petition as required by Iowa Code section 17A.9(5).

5.8(2) Date of issuance of order. The date of issuance of an order or of a refusal to issue an order is the date of mailing of the order or refusal or date of delivery if service is by other means unless another date is specified in the order.

ITEM 5. Rescind 441—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
APPEALS AND HEARINGS

PREAMBLE

The provisions of this chapter shall apply to contested case proceedings conducted by or on behalf of the department pursuant to Iowa Code chapter 17A. The definitions in rule 441—7.1(17A) apply to the rules in both Division I and Division II.

441—7.1(17A) Definitions.

“Adverse benefit determination” means any adverse action taken as to any individual’s benefits pursuant to an assistance program administered by the department or on the department’s behalf, excluding determinations related to requests for exceptions to policy.

“Appeals section” means the section of the department charged with administering the department’s appeals.

“Appellant” means a person, including an authorized representative acting on the person’s behalf, seeking to appeal some action pursuant to this chapter.

“Assistance program” means a program administered by the department or on the department’s behalf through which qualifying individuals receive benefits or services. Assistance programs include, but are not necessarily limited to, the Supplemental Nutrition Assistance Program (SNAP), Medicaid, the family investment program, refugee cash assistance, child care assistance, emergency assistance, the family planning program, the family self-sufficiency grant, PROMISE JOBS, state supplementary assistance, the healthy and well kids in Iowa (hawki) program, foster care, adoption, and aftercare services.

“Authorized representative” means a person lawfully designated by an individual to act on the individual’s behalf or who has legal authority to act on behalf of the individual.

“Contested case” refers to an evidentiary hearing mandated by state or federal constitutional or statutory authority whereupon a presiding officer makes a determination pertaining to the relative rights and obligations of parties to an appeal under this chapter.

“DIAL” means the department of inspections, appeals, and licensing.

“Enrollee” means any applicant to or recipient of benefits or services pursuant to an assistance program.

“Good cause,” for purposes of this rule, shall have the same meaning as “good cause” for setting aside a default judgment under Iowa Rule of Civil Procedure 1.977.

“In-person hearing” means an appeal hearing where the administrative law judge and appellant are physically present in the same location but witnesses are not required to be physically present.

“Intentional program violation” means deliberately making a false or misleading statement; or misrepresenting, concealing, or withholding facts; or committing any act that is a violation of the Supplemental Nutrition Assistance Program (SNAP), SNAP regulations, or any state law relating to the use, presentation, transfer, acquisition, receipt, possession, or trafficking of SNAP benefits or an electronic benefit transfer (EBT) card. An intentional program violation is determined through a SNAP administrative disqualification hearing, a court conviction, or when an individual signs and returns Form 470-5530, Waiver of Right to an Administrative Disqualification Hearing, which may result in a period of ineligibility for the program, a claim for overpayment of benefits, or both.

“Issuance” means the date of mailing of a decision or order or date of delivery if service is by other means unless another date is specified in the order.

“Managed care organization” or *“MCO”* has the meaning assigned to it in rule 441—73.1(249A) and includes prepaid ambulatory health plans.

“Medicaid” means Iowa’s medical assistance program administered under Iowa Code chapter 249A.

“Party-in-interest” refers to the party, including enrollees, whose rights or obligations are the subject of a contested case hearing under this chapter. Parties-in-interest may or may not be the appellant.

“Presiding officer” means an administrative law judge from DIAL or the director of the department or the members of a multimember board or commission.

“Self-represented” means representing oneself without an attorney.

441—7.2(17A) Governing law and regulations. In the absence of an applicable rule in this chapter, the DIAL rules found at 481—Chapter 10 govern department appeals. Notwithstanding the foregoing and the rules contained in this chapter, to the extent that federal or state law (including regulations and rules) related to a specific program is more specific than or contradicts these rules or the applicable DIAL rules, the program-specific federal or state law shall control.

DIVISION I
GENERAL APPEALS PROCESS

441—7.3(17A) When a contested case hearing will be granted.

7.3(1) Requirements. A person shall be granted a contested case hearing if the party-in-interest fulfills all of the following requirements:

- a. The party-in-interest is entitled to a contested case hearing;
- b. The party-in-interest has an ongoing, specific and personal interest in the outcome of the contested case hearing; and
- c. The party-in-interest meets all of the other requirements contained in these rules.

7.3(2) Refusal to process an application. Unless otherwise provided by law, when an appellant seeks a contested case hearing after the department refuses to process an application for benefits or services, a hearing shall be granted.

7.3(3) When a hearing is not granted. A hearing shall not be granted when one of the following issues is appealed:

- a. Patient treatment interventions outlined in the patient handbook of the civil commitment unit for sexual offenders.
- b. Children have been removed from or placed in a specific foster care setting or preadoptive placement.
- c. A final decision from a previous hearing with a presiding officer has been implemented.

7.3(4) Contractual rights not subject to contested case hearing. Unless otherwise provided by law, when an appellant seeks a contested case hearing of an issue predicated upon or governed by the terms of a contract between appellant and another party, including the department, a contested case hearing shall not be provided.

7.3(5) Change in law. A contested case hearing shall not be granted when the sole issue raised is a federal or state law requiring an automatic change adversely affecting some or all beneficiaries to an assistance program.

7.3(6) Competitive procurement bid appeals. Competitive procurement bid appeals shall be adjudicated pursuant to Division II of this chapter.

441—7.4(17A) Initiating an appeal.

7.4(1) Exhaustion of remedies. An appellant shall only be granted a contested case hearing if the appellant has exhausted all other appeal remedies available to the party-in-interest. An appellant should refer to program-specific provisions for the appropriate procedures applicable to specific programs.

7.4(2) Medicaid managed care enrollees exhaustion of remedies.

a. A Medicaid managed care enrollee shall be granted a contested case hearing only if the enrollee has either received a decision from a managed care organization in the time and manner required by rule 441—73.12(249A) or has been deemed to have exhausted the managed care organization appeals under paragraph 7.4(2)“b.”

b. If a Medicaid enrollee’s managed care organization fails to provide a decision in the time and manner required by rule 441—73.12(249A), the enrollee shall be deemed to have exhausted the managed care organization’s appeals process and may initiate a contested case hearing.

7.4(3) Time to appeal. For a contested case hearing to be granted, the following appeal timelines must be met:

a. *Supplemental Nutrition Assistance Program (SNAP), Medicaid eligibility, healthy and well kids in Iowa (hawki), fee-for-service Medicaid coverage, family planning program and autism support program.* On or before the ninetieth day following the date of notice of an adverse benefit determination.

b. *Managed care organization medical services coverage.* On or before the one hundred twentieth day following the date of exhaustion, actual or deemed, of the managed care organization appeal process outlined in rule 441—73.12(249A).

c. *Tax offsets.* Except for counties appealing an offset under 441—Chapter 14, for appeals of state or federal tax offsets, on or before the fifteenth day following the date of notice of the action. For counties

appealing a debtor offset under 441—Chapter 14, on or before the thirtieth day following the date of notice of the offset.

d. Iowa individual disaster assistance program. On or before the ninetieth day following the date of the department's reconsideration decision, pursuant to 441—subrule 58.7(1).

e. Iowa disaster case management program. On or before the ninetieth day following the date of the department's reconsideration decision, pursuant to 441—subrule 58.7(1).

f. Dependent adult abuse. Within six months of the date of notice of the action as provided in Iowa Code section 235B.10.

g. Child abuse. For appeals regarding child abuse, the person alleged responsible for the abuse must appeal on or before the ninetieth day following the date of notice of the action as provided in Iowa Code section 235A.19. A subject of a child abuse report, other than the alleged person responsible for the abuse, may file a motion to intervene in the appeal on or before the tenth day following the date of notice of the right to intervene.

h. Assistance program overpayments. For appeals pertaining to the family investment program, refugee cash assistance, PROMISE JOBS, child care assistance, medical assistance, healthy and well kids in Iowa (hawki), family planning program or Supplemental Nutrition Assistance Program (SNAP) overpayments, the party-in-interest's right to appeal the existence, computation and amount of the overissuance or overpayment begins when the department sends the first notice informing the party-in-interest of the overissuance or overpayment.

i. All other appeals. For all other appeals, and unless federal or state law provides otherwise elsewhere, the appellant must appeal on or before the thirtieth day following the date of notice of the action being appealed. If such an appeal is made more than 30 days, but less than 90 days, of the date of notice, the director or director's designee may, at the director's or designee's sole discretion, allow a contested case hearing if the delay was for good cause, substantiated by the appellant.

7.4(4) Written and oral notification. The department shall advise each applicant and recipient of the right to appeal any adverse decision affecting the person's status.

a. Written notification of the following shall be given at the time of application and at the time of any agency action affecting the claim for assistance.

(1) The right to request a hearing.

(2) The procedure for requesting a hearing.

(3) The right to be represented by others at the hearing unless otherwise specified by statute or federal regulation.

b. Written notification shall be given on the application form and all notices of decision.

441—7.5(17A) How to request an appeal.

7.5(1) Ways to request a hearing. An appellant may request a contested case hearing:

a. Via the department's website,

b. By telephone, except as specified in subrule 7.5(4),

c. By mail,

d. In person, except as specified in subrule 7.5(4), or

e. Through other commonly available electronic means (such as email or facsimile).

7.5(2) Hearing request. The request for a contested case hearing must be sufficiently detailed so that the department can reasonably understand the action being appealed. The department may request additional information to determine the scope of the appeal. The department may deny if there is not sufficient information to determine the action being appealed.

7.5(3) Filing date. The date of filing for appeal requests sent by regular mail shall be the date postmarked on the envelope sent to the department or, when a postmarked envelope is not available, on the date the appeal is stamped received by the agency. The date of filing for appeal requests sent electronically shall be determined by the date on which the electronic submission was completed.

7.5(4) Appeals that must be filed in writing. Appeal requests pertaining to foster care, adoption, state supplementary assistance, the autism support program, the Iowa individual disaster assistance program, the Iowa disaster case management program, sex offender risk assessment, record check evaluation,

child care registered or nonregistered homes, child abuse, dependent adult abuse or child support must be made in writing.

7.5(5) Department's responsibilities. Unless the appeal is voluntarily withdrawn, the department shall:

a. Within one working day of receipt of an appeal request, forward the request for appeal and envelope (if any) and a copy of the notice to the appeals section.

b. Within ten days of the receipt of the appeal, forward a summary and supporting documentation of the worker's or agent's factual basis for the proposed action to the appeals section.

c. Copies of all materials sent to the appeals section or the presiding officer to be considered in reaching a decision on the appeal are to be provided to the appellant at the same time as the materials are sent to the appeals section or the presiding officer.

441—7.6(17A) Prehearing procedures.

7.6(1) Acknowledgment of appeal. When the appeals section receives a request for appeal, it shall send acknowledgment of the receipt of the appeal to the parties to the appeal. For appeals regarding child abuse, all subjects other than the person alleged responsible (party-in-interest) will be notified of the opportunity to file a motion to intervene as provided in Iowa Code section 235A.19.

7.6(2) Acceptance or denial of appeal. The appeals section will determine with reasonable promptness whether the party-in-interest is entitled to a contested case hearing. If a request is accepted, the appeals section will certify the appeal to DIAL and designate the issues on appeal. If a request for a contested case hearing is denied, the appeals section will provide written notice of and the reasons for the denial. On or before the thirtieth day following the denial, the individual requesting the appeal may provide additional information related to the individual's asserted right to a contested case hearing and request reconsideration of the denial.

7.6(3) Designation of issues for appeal.

a. Initial designation. After determining that the party-in-interest is entitled to a contested case hearing, the appeals section will designate the issues to be decided at the contested case hearing. The issues designated shall be certified to DIAL and be identified in the notice of hearing issued pursuant to subrule 7.6(5).

b. Additional designation of issues. If any party believes additional issues should be designated, the party shall identify the additional issues within the following timelines. The presiding officer shall determine whether all issues have properly been preserved.

(1) Child abuse and dependent adult abuse registry appeals. For child abuse and dependent adult abuse registry appeals, the party shall identify additional issues at least 30 days before the date of hearing.

(2) Appeals set on or before the tenth day following the notice of hearing. If the hearing is on or before the tenth day following the date of the notice of hearing, the party shall identify any additional issues at the hearing.

(3) All other appeals. For all other appeals not identified in this paragraph, the party shall identify the additional issues on or before the tenth day following the date of the notice of hearing.

7.6(4) Group hearings regarding medical assistance. The appeals section may respond to a series of related, individual requests for hearings regarding medical assistance by consolidating individual hearings into a single group hearing where the sole issue is based on state or federal law or policy. An appellant scheduled for a group hearing may withdraw and request an individual hearing.

7.6(5) Notice of hearing.

a. Issuance of hearing notice. Except as provided in paragraph 7.6(5) "b," DIAL shall send notice to the parties of the appeal at least ten calendar days in advance of the hearing setting forth the date, time, method, and place of the hearing; that evidence may be presented orally or documented to establish pertinent facts; that the parties may bring and question witnesses and refute testimony; and that the parties may be represented by others, including an attorney, at the parties' own cost and as subject to state and federal law. Notice shall be mailed by first-class mail, postage prepaid, and addressed to the appellant at the appellant's last-known address.

b. Intentional program violation hearing notices. DIAL shall send notices of hearing regarding alleged intentional program violations at least 30 days in advance of the hearing date. The notices under this paragraph shall otherwise comply with the requirements of paragraph 7.6(5) “a.”

7.6(6) Appellant’s right to department’s case file. Prior to and during the contested case hearing, the department must provide enrollees or their authorized representative with the opportunity to examine the content of the appellant’s case file, if any, and all documents and records to be used by the department at the hearing.

7.6(7) Informal conference. The purpose of an informal conference is to provide information as to the reasons for the intended adverse action, to answer questions, to explain the basis for the adverse action or position, and to provide an opportunity for the appellant to examine the contents of the case record.

a. When requested by the appellant, an informal conference with a representative of the department or one of its contracted partners, including a managed care organization, shall be held as soon as possible after the appeal has been filed. An appellant’s representative shall be allowed to attend and participate in the informal conference, unless precluded by federal rule or state statute.

b. An informal conference need not be requested for the appellant to examine the contents of the case record.

441—7.7(17A) Timelines for contested case hearings.

7.7(1) Medical assistance. In cases involving the determination of medical assistance, the contested case hearing shall be held within a time frame such that the final administrative action is timely pursuant to 42 CFR 431.244(f) as amended to December 8, 2021.

7.7(2) Community spouse resource allowance. In cases involving the determination of the community spouse resource allowance, the hearing shall be held within 30 days of the date of the appeal request.

7.7(3) Sex offender risk assessment. In cases involving an appeal of a sex offender risk assessment, the hearing or administrative review shall be held within 30 days of the date of the appeal request.

441—7.8(17A) Contested case hearing procedures.

7.8(1) Method. Contested case hearings may be conducted via telephone or videoconference. Upon request of a party to the appeal or order of the presiding officer, the contested case hearing shall be conducted in person.

7.8(2) Evidence.

a. The parties to a contested case hearing may:

- (1) Bring witnesses,
- (2) Submit competent evidence to establish all pertinent facts and circumstances,
- (3) Present arguments without undue interference,
- (4) Question or refute any testimony or evidence, including through cross-examination, and
- (5) Respond to evidence and arguments on all issues.

b. Evidence shall be received or excluded as provided in Iowa Code section 17A.14.

7.8(3) Right to counsel. Parties to an appeal shall be permitted to be represented by counsel at the parties’ own expense.

7.8(4) Self-represented appellants. The presiding officer shall, at the officer’s discretion, provide reasonable assistance to self-represented appellants. The presiding officer must, however, ensure that such assistance does not impact the independence and fairness of the contested case hearing process.

7.8(5) Closed to public. Contested case hearings are closed to the public, and unless otherwise provided by state or federal law, only the parties, their representatives, permissible intervenors, and witnesses may be present for a contested case hearing in the absence of mutual agreement of the parties.

7.8(6) Administration of appeals. Except as otherwise provided in this chapter or other applicable federal or state law, discretion in the conduct and administration of appeals is vested in the contested case hearing presiding officer.

7.8(7) *Contested cases with no factual dispute.* If the parties in a contested case agree that there is no dispute of material fact, the parties may present all admissible evidence either by stipulation, or as otherwise agreed, in lieu of an evidentiary hearing. If an agreement is reached, the parties shall jointly submit a schedule for submission of the record, briefs and oral arguments to the presiding officer for approval. If the parties cannot agree, any party may file and serve a motion for summary judgment pursuant to the rules governing such motions.

441—7.9(17A) Miscellaneous rules governing contested case hearings.

7.9(1) *Ex parte communication.* Ex parte communications between the presiding officer and person or party in connection with any issue of fact or law in the contested case proceeding is prohibited except as permitted by Iowa Code section 17A.17. All of the provisions of Iowa Code section 17A.17 apply.

7.9(2) *Default.* If a party fails to appear at a scheduled hearing or prehearing conference without good cause as determined by the presiding officer, the party's appeals may be denied and dismissed or may be heard and ruled upon, consistent with Iowa Code section 17A.12(3). Defaulting parties may file a timely motion to vacate, which shall be granted if the presiding officer determines good cause has been shown.

7.9(3) *Withdrawal.* An appellant may submit a withdrawal of a fair hearing request at any time prior to hearing through any of the methods identified in subrule 7.5(1), except for programs listed in subrule 7.5(4). For programs listed in subrule 7.5(4), a written request may be submitted via the department's website, by mail, in person, or through other commonly available electronic means (such as email or facsimile). Unless otherwise provided, a withdrawal shall be with prejudice.

7.9(4) *Medical assessment.* For Medicaid enrollees engaged in an appeal involving medical issues, the department may request, at the department's own expense, that the appellant submit to an appropriate medical assessment. The presiding officer shall order such assessment upon sufficient showing of necessity.

7.9(5) *Standard of review.* In child abuse appeals, the criteria and level of deference by which the presiding officer shall render a decision is based on a preponderance of evidence.

7.9(6) *Interpreters.* The department shall provide translation and interpretation services to appellants, if requested. In all cases when an appellant is illiterate or semiliterate, the presiding officer shall advise the appellant of the appellant's rights to the satisfaction of the appellant's understanding.

7.9(7) *Persons living with disabilities.* Persons living with disabilities shall be provided assistance through the use of auxiliary aids and services at no cost to the individual in accordance with the Americans with Disabilities Act (as amended to December 31, 2023) and Section 504 of the Rehabilitation Act (as amended, effective October 1, 2016).

441—7.10(17A) Proposed decision.

7.10(1) *Contents.* The presiding officer shall issue a written proposed decision to all parties clearly identifying the issues on appeal, holding, findings of fact, conclusions of law, and order. The findings of fact shall cite and be based exclusively on the record as defined by Iowa Code section 17A.12(6). The conclusions of law shall be limited to the contested issues of fact, policy or law and shall identify the specific provisions of law that support the ultimate conclusion.

7.10(2) *Access to record.* After receiving the proposed decision, appellants shall be given reasonable access to the record at a convenient place and time.

441—7.11(17A) Director's review.

7.11(1) *Time.* Parties, including the department, may appeal the proposed decision to the director.

a. A request for director's review shall be in writing and postmarked or received within 14 calendar days of the date on which the proposed decision was issued, except as provided for under paragraph 7.11(1)"*b.*" A request for director's review may be accompanied by a brief written summary of the arguments in favor of director's review.

b. A managed care organization appealing a proposed decision reversing an adverse benefit determination shall request director's review within 72 hours from the date it received notice of the proposed decision.

7.11(2) *Grant or denial of review.* The department has full discretion to grant or deny a request for review. In addition, the director may initiate review of a proposed decision on the director's own motion at any time on or before the thirtieth day following the issuance of the proposed decision.

When the department grants a request for director's review, the appeals section shall notify the parties and enclose a copy of the request. All other parties shall have 14 calendar days from the date of notification to submit further written arguments or objections for consideration upon review.

7.11(3) *Cross-appeal.* When a party requests director's review in accordance with subrule 7.11(1), the remaining parties shall have 14 calendar days from that date to submit cross-requests for director's review. The party originally seeking director's review shall have 14 calendar days from the date of the cross-request for director's review to submit further written arguments or objections for consideration upon review.

7.11(4) *Limited record.* Director's review shall be limited to the issues and record before the contested case hearing presiding officer.

7.11(5) *Oral arguments.* Upon specific request, the director may, at the director's discretion, permit parties to present oral arguments with the parties' requests for director's review.

441—7.12(17A) Final decisions.

7.12(1) *No appeal or denial of director review.* If there is no timely appeal from or review of the proposed decision, the presiding officer's proposed decision becomes the final decision of the agency.

7.12(2) *Timelines.*

a. The department or director will issue a final decision within the timelines prescribed by federal or state law. For all appeals for which there is no federal or state timeliness standard, the department or director will issue a final decision on or before the ninetieth day from the date the department receives an appeal request.

b. Except as otherwise provided by state or federal law, the time frames for a final decision provided under this rule may be tolled when:

- (1) The appellant requests a delay;
- (2) The appellant fails to take a required action; or
- (3) There is an administrative or other emergency beyond the department's control.

c. DIAL shall document in the record the reasons for any delay and the requesting party.

7.12(3) *Written notice of final decision.* The parties to the appeal shall be provided written notice of the department's final decision. The department shall also notify the appellant of the appellant's right to seek judicial review, where applicable.

441—7.13(17A) Expedited review.

7.13(1) *Expedited review criteria.* Appellants to a medical assistance appeal may, at any time, file with the department a request for expedited review of the appeal. Expedited review shall be granted when the department determines, or a provider acting on behalf or in support of an appellant indicates, that taking the time for a standard resolution could seriously jeopardize the party-in-interest's life, physical or mental health, or ability to attain, maintain, or regain maximum function.

7.13(2) *Managed care expedited proceedings.*

a. If the appellant is granted an expedited review pursuant to subrule 7.13(2), all subsequent proceedings shall also be expedited without an additional request if the appeal request indicates that the managed care organization appeal was expedited and provides the basis for expedited relief.

b. When review is expedited pursuant to paragraph 7.13(2) "a," the presiding officer shall issue a proposed decision as expeditiously as the enrollee's health condition requires, but no later than three working days after the department receives from the managed care organization the case file and information for any appeal of a denial of a service that, as indicated by the managed care organization:

(1) Meets the criteria for expedited resolution but was not resolved within the time frame for expedited resolution; or

(2) Was resolved within the time frame for expedited resolution but reached a decision wholly or partially adverse to the enrollee.

7.13(3) *Medicaid eligibility, nursing facility transfers or discharges, or preadmission and annual resident review expedited proceedings.* For expedited appeals related to Medicaid eligibility, nursing facility transfers or discharges, or preadmission and annual resident review requirements, the presiding officer shall issue a proposed decision as expeditiously as possible, but no later than seven working days after the department receives a request for expedited fair hearing.

7.13(4) *Medicaid-covered benefits or services expedited proceedings.* For expedited appeals related to Medicaid-covered benefits or services, the presiding officer shall issue a proposed decision as expeditiously as possible, but no later than provided in paragraph 7.13(2) “b.”

7.13(5) *Final decision for expedited proceeding.* The department shall issue its final decision in accordance with this rule, except as provided by subrule 7.12(2).

7.13(6) *Notification if expedited relief is granted or denied.* The department shall notify the appellant as expeditiously as possible whether the request for expedited relief is granted or denied. Such notice must be provided orally or through electronic means to the extent consistent with federal and state law. If oral notice is provided, the department shall follow up with written notice, which may be through electronic means to the extent consistent with federal and state law.

441—7.14(17A) Effect.

7.14(1) If the contested case hearing presiding officer’s proposed decision is favorable to an enrollee in a Medicaid appeal, the department must promptly make corrective payments retroactive to the date an incorrect action was taken, and, if appropriate, provide for admission or readmission of an individual to a facility. If the presiding officer reverses a decision of a managed care organization to deny, limit, or delay services that were not furnished while the appeal was pending, the managed care organization must authorize or provide the disputed services promptly and as expeditiously as the enrollee’s health condition requires, but no later than 72 hours from the date the managed care organization receives notice reversing the determination.

7.14(2) Unless there is contravening federal or state law, all final decisions shall be put into effect within seven days of the issuance of the final decision.

441—7.15(17A) Calculating time. In computing any time period specified in this chapter, the period:

1. Excludes the day of the event that triggers the period;
2. Includes every day of the time period (including Saturdays, Sundays, and holidays on which the department is closed); and
3. Includes the last day of the period, but if the last day is a Saturday, Sunday, or legal holiday, the period continues to run until the end of the next day that is not a Saturday, Sunday, or legal holiday.

441—7.16(17A) Authorized representatives.

7.16(1) *Regulations.* The provisions of this rule only apply to the extent the standards expressed in this rule are not in conflict with other state or federal law.

7.16(2) *Designation of authority.* Legally recognized delegations of authority, such as guardianships, applicable designations of power of attorney, or similar designations, shall be sufficient for a delegate to serve as authorized representative under this chapter. A person who is not designated a legally recognized delegation of authority but who otherwise seeks to act as an authorized representative for an individual in an appeal under this chapter shall provide a written, signed designation of authority to the department with the request for appeal. The designation must provide the scope of the representation, applicable waivers for the release of confidential information, and any temporal or other limitations on the scope of representation. An authorized representative of a party-in-interest only represents the party-in-interest and has no independent right to appeal by virtue of the authorized representative’s representation.

7.16(3) *Written designation.* For persons other than attorneys seeking to act as authorized representative of a party-in-interest in a Medicaid managed care appeal, the authorized representative's written designation of authority pursuant to subrule 7.16(2) shall be Form 470-5526, Authorized Representative for Managed Care Appeals. This form is required for all managed care appeals, including those handled through the expedited appeals process. Failure to provide the form or legal documentation may result in denial of the appeal request.

7.16(4) *Appearance by attorney.* Legal counsel appearing on behalf of any person in a proceeding under this chapter shall enter an appropriate written appearance.

441—7.17(17A) Continuation and reinstatement of benefits.

7.17(1) *Programs for which no federal or state law applies.* For all assistance programs for which there is no contravening federal or state law, benefits or services shall not be suspended, reduced, restricted, or discontinued, nor shall a license, registration, certification, approval, or accreditation be revoked or other adverse action taken pending a final decision when:

- a. An appeal is filed before the effective date of the intended action; or
- b. The appellant requests a hearing within ten days of receipt of a notice to suspend, reduce, restrict, or discontinue benefits or services. The date on which the notice is received is considered to be five days after the date on the notice, unless the appellant shows the notice was not received within the five-day period.

7.17(2) *Sole issue is state or federal law or policy.* Benefits or services continued pursuant to subrule 7.17(1) may be suspended, reduced, restricted, or discontinued if the presiding officer determines at the contested case hearing that the sole issue is one of state or federal law or policy and the department has notified the enrollee in writing that services are to be suspended, reduced, restricted, or discontinued pending the proposed decision.

7.17(3) *Recoup cost of services or benefits.* The department or managed care organization may recoup the cost of benefits or services provided pursuant to this chapter if the adverse action appealed from is affirmed, consistent with state and federal law.

441—7.18(17A) Emergency adjudicative proceedings.

7.18(1) *Necessary emergency action.* When and to the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with state and federal law, a contested case hearing presiding officer may issue a written order to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the department by emergency adjudicative order. In determining the necessity of such an action, the presiding officer shall consider factors including, but not limited to, the following:

- a. Whether there has been sufficient investigation and evidentiary support to ensure the order is proceeding based on reliable information;
- b. Whether the specific circumstances giving rise to the potential order have been specifically identified and determined to be continuing;
- c. Whether the person who is required to comply with the emergency adjudicative order may continue to engage in other activities without risk of immediate danger to the public health, safety, or welfare;
- d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety, or welfare; and
- e. Whether the specific action contemplated is necessary to avoid the immediate danger.

7.18(2) *Issuance of order.* An emergency adjudicative order shall contain, or shall be expeditiously followed by, a written analysis, including findings of fact, conclusions of law, and policy reasons to justify the order. The agency shall provide written notice that best ensures prompt, reliable delivery. Such order shall be immediately delivered to the persons required to comply with the order.

7.18(3) *Completion of proceedings.* Upon issuance of an order under this rule, the department shall proceed as quickly as reasonably practicable to complete any proceedings that would be required if the matter did not involve an immediate danger. An order issued under this rule shall include notice

of the date on which proceedings under this chapter are to be completed. After issuance of an order under this rule, continuance of further proceedings under this chapter shall only be granted in compelling circumstances upon application in writing. Before issuing an emergency adjudicative order, the presiding officer shall consider factors including, but not limited to, the following:

- a.* Whether there has been sufficient investigation and evidentiary support to ensure the order is proceeding based on reliable information;
- b.* Whether the specific circumstances giving rise to the potential order have been specifically identified and determined to be continuing;
- c.* Whether the person who is required to comply with the emergency adjudicative order may continue to engage in other activities without risk of immediate danger to the public health, safety, or welfare;
- d.* Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety, or welfare; and
- e.* Whether the specific action contemplated is necessary to avoid the immediate danger.

441—7.19(17A) Supplemental Nutrition Assistance Program (SNAP) administrative disqualification hearings. The department acts on alleged intentional program violations either through an administrative disqualification hearing or referral to a court of appropriate jurisdiction. An individual accused of an intentional program violation may waive the individual's right to an administrative disqualification hearing in accordance with the procedures outlined in this rule and in 7 CFR 273.16(e) and (f) as amended to December 8, 2021.

7.19(1) When a case is referred for an administrative disqualification hearing, the appeals section shall mail written notification to the individual that the individual can waive the right to an administrative disqualification hearing by signing and returning Waiver of Right to an Administrative Disqualification Hearing.

7.19(2) By signing Waiver of Right to an Administrative Disqualification Hearing, the individual:

- a.* Waives the right to an administrative disqualification hearing;
- b.* Consents to the SNAP disqualification period designated Waiver of Right to an Administrative Disqualification Hearing, and a reduction of benefits for the period of disqualification; and
- c.* Acknowledges that remaining household members, if any, may be held responsible for repayment of the resulting claim.

7.19(3) An administrative disqualification hearing shall be scheduled if the individual does not sign and mail or fax Waiver of Right to an Administrative Disqualification Hearing, to the appeals section within ten days of receipt of the written notification stating the individual can waive the right to an administrative disqualification hearing. The date on which the written notification is received is considered to be five days after the date on the notification, unless the individual shows the notification was not received within the five-day period.

7.19(4) An individual who waives the right to an administrative disqualification hearing will be subject to the same penalties as an individual found to have committed an intentional program violation in an administrative disqualification hearing.

7.19(5) No further administrative appeal procedure exists after an individual waives the individual's right to an administrative disqualification hearing and a disqualification penalty has been imposed. The disqualification penalty shall not be changed by a subsequent fair hearing decision.

441—7.20 to 7.40 Reserved.

DIVISION II
APPEALS BASED ON THE COMPETITIVE PROCUREMENT BID PROCESS

441—7.41(17A) Scope, bidder and applicability. The rules in Division II apply to appeals based on the department's competitive procurement bid process. A bidder is an entity that submits a proposal in response to a solicitation issued through the department's competitive procurement process.

441—7.42(17A) Requests for timely filing of an appeal. Any bidder that receives either a notice of disqualification or a notice of award, and has first exhausted the reconsideration process, is considered an aggrieved party and may file a written appeal with the department.

7.42(1) An aggrieved party in a competitive procurement must seek reconsideration of a disqualification or a notice of award prior to filing any appeal. The request for reconsideration must be received by the department within five calendar days of the date of either a disqualification notice or notice of award, exclusive of Saturdays, Sundays and legal state holidays. The department will expeditiously address the request for reconsideration and issue a decision on the reconsideration. If the party seeking reconsideration continues to be an aggrieved party following receipt of the decision on reconsideration, the aggrieved party may file an appeal within five calendar days of the date of the department's decision on reconsideration, exclusive of Saturdays, Sundays and legal state holidays.

7.42(2) The written appeal shall state the grounds upon which the appellant challenges the department's decision.

7.42(3) The day after the department's decision on reconsideration is issued is the first day of the period in which the appeal may be filed. The mailing address is: Department of Health and Human Services, Appeals Section, 1305 East Walnut Street, Des Moines, Iowa 50319-0114. Appeals may also be sent by email, or in-person delivery.

When an appeal is submitted through an electronic delivery method, such as electronic mail or facsimile, the appeal is filed on the date it is submitted. The electronic delivery method shall record the date and time the appeal request was submitted. If there is no date recorded by the electronic delivery method or the appeal was filed via in-person delivery, the date of filing is the date the appeal is stamped received by the agency. Receipt date of all appeals shall be documented by the office where the appeal is received.

When the time limit for filing falls on a holiday or a weekend, the time will be extended to the next workday.

441—7.43(17A) Bidder appeals. The bidder appeal shall be a contested case proceeding and shall be conducted in accordance with the provisions of Division II. Division I of this chapter does not apply to competitive procurement bid appeals, unless otherwise noted.

7.43(1) *Hearing time frame.* The presiding officer shall hold a hearing on the bidder appeal within 60 days of the date the notice of appeal was received by the department.

7.43(2) *Registration.* Upon receipt of the notice of appeal, the department shall register the appeal.

7.43(3) *Acknowledgment.* Upon receipt of the notice of appeal, the department shall send a written acknowledgment of receipt of the appeal to the appellant, representative, or both.

7.43(4) *Granting a hearing.* The department shall determine whether an appellant may be granted a hearing and the issues to be discussed at the hearing in accordance with the applicable rules, statutes or federal regulations or request for proposal.

a. The appeals of those appellants who are granted a hearing shall be certified to the department of inspections, appeals, and licensing for the hearing to be conducted. The department shall indicate at the time of certification the issues to be discussed at the hearing.

b. Appeals of those appellants that are denied a hearing shall not be closed until a letter is sent to the appellant and the appellant's representative advising of the denial of the hearing and the basis upon which that denial is made. Any appellant that disagrees with a denial may present additional information relative to the reason for denial and request reconsideration by the department over the denial.

7.43(5) *Hearing scheduled.* For those records certified for hearing, the department of inspections, appeals, and licensing shall establish the date, time, method and place of the hearing, with due regard for the convenience of the appellant as set forth in the department of inspections, appeals, and licensing rules in 481—Chapter 10 unless otherwise designated by federal or state statute or regulation.

7.43(6) *Method of hearing.* The department of inspections, appeals, and licensing shall determine whether the appeal hearing is to be conducted in person, by videoconference or by teleconference call. The parties to the appeal may participate from multiple sites for videoconference or teleconference

hearings. Any appellant is entitled to an in-person hearing if the appellant requests one. All parties shall be granted the same rights during a teleconference hearing as specified in rule 441—7.8(17A).

7.43(7) Reschedule requests. Requests made by the appellant or the department to set another date, time, method or place of hearing shall be made to the department of inspections, appeals, and licensing, except as otherwise noted. The granting of the requests will be at the discretion of the department of inspections, appeals, and licensing. All requests concerning the scheduling of a hearing shall be made to the department of inspections, appeals, and licensing directly.

7.43(8) Notification. For those appeals certified for hearing, the department of inspections, appeals, and licensing shall send a notice to the appellant at least ten calendar days in advance of the hearing date.

a. The notice shall comply with Iowa Code section 17A.12(2), and include a statement that opportunity shall be afforded to all parties to respond and present evidence on all issues involved and to be represented by counsel at their own expense.

b. A copy of this notice shall be made available to the department employee who took the action and to any other parties to the appeal.

441—7.44(17A) Procedures for bidder appeal.

7.44(1) Discovery. The parties shall serve any discovery requests upon other parties at least 30 days prior to the date set for the hearing. The parties must serve responses to discovery at least 15 days prior to the date set for the hearing.

7.44(2) Witnesses and exhibits. The parties shall contact each other regarding witnesses and exhibits at least ten days prior to the date set for the hearing. The parties must meet prior to the hearing regarding the evidence to be presented in order to avoid duplication or the submission of extraneous materials.

7.44(3) Amendments to notice of appeal. The aggrieved bidder may amend the grounds upon which the bidder challenges the department's award no later than 15 days prior to the date set for the hearing.

7.44(4) If the hearing is not conducted in person, the parties must deliver all exhibits to the office of the presiding officer at least three days prior to the time the hearing is conducted.

7.44(5) The presiding officer shall issue a proposed decision in writing that includes findings of fact and conclusions of law stated separately. The decision shall be based on the record of the contested case and shall conform to Iowa Code chapter 17A. The presiding officer shall send the proposed decision to the appellant and representative by mail.

7.44(6) The record of the contested case shall include all materials specified in Iowa Code section 17A.12(6).

441—7.45(17A) Stay of agency action for bidder appeal.

7.45(1) When a stay may be requested.

a. Any party appealing the issuance of a notice of disqualification or notice of award may petition for stay of the decision pending its review. The petition for stay shall be filed with the notice of appeal, shall state the reasons justifying a stay, and shall be accompanied by an appeal bond equal to 120 percent of the contract value.

b. Any party adversely affected by a final decision and order may petition the department for a stay of that decision and order pending judicial review. The petition for stay shall be filed with the director within five days of receipt of the final decision and order and shall state the reasons justifying a stay.

7.45(2) When a stay is granted. In determining whether to grant a stay, the director shall consider the factors listed in Iowa Code section 17A.19(5)“c.”

7.45(3) Vacation. A stay may be vacated by the issuing authority upon application of the department or any other party.

441—7.46(17A) Request for review of the proposed decision. A request for review of the proposed decision shall follow the provisions outlined in rule 441—7.11(17A).

441—7.47(17A) Other procedural considerations.

7.47(1) Consolidation—severance. The rules regarding consolidation and severance in 481—10.10(10A,17A) apply.

7.47(2) Rights of appellants during hearings. All rights afforded appellants at rule 441—7.8(17A) shall apply.

441—7.48(17A) Appeal record.

7.48(1) The appeal record shall consist of all items specified in Iowa Code section 17A.16.

7.48(2) The party that requests a transcription of the proceedings shall bear the cost.

441—7.49(17A) Pleadings. The rules regarding pleadings in 481—10.11(10A,17A) apply.

441—7.50(17A) Ex parte communications. The rules regarding ex parte communications specified in subrule 7.9(1) and Iowa Code section 17A.17 apply.

441—7.51(17A) Right of judicial review. The rules regarding right of judicial review specified in subrule 7.12(3) and Iowa Code section 17A.19 apply.

These rules are intended to implement Iowa Code chapter 17A.

ITEM 6. Rescind 441—Chapter 9 and adopt the following new chapter in lieu thereof:

CHAPTER 9
PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

441—9.1(17A,22) Statement of policy, purpose and scope of chapter.

9.1(1) The purpose of this chapter is to facilitate public access to open records. It also seeks to facilitate department determinations with respect to the handling of confidential records and the implementation of the fair information practices Act. The department is committed to the policies set forth in Iowa Code chapter 22; department staff shall cooperate with members of the public in implementing the provisions of that chapter.

These rules also implement the federal Health Insurance Portability and Accountability Act (HIPAA) regulations at 45 CFR Parts 160 and 164 as amended to August 14, 2002. These rules set forth the standards the department must meet to protect the privacy of protected health information. The department is a hybrid entity for purposes of HIPAA. The rules on protected health information apply only to those parts of the department that are considered part of the covered entity.

9.1(2) This chapter does not:

a. Require the agency to index or retrieve records which contain information about individuals by that person's name or other personal identifier.

b. Make available to the general public records which would otherwise not be available under the public records law, Iowa Code chapter 22.

c. Govern the maintenance or disclosure of, notification of, or access to records in the possession of the agency which are governed by the rules of another agency.

d. Apply to grantees, including local governments or subdivisions thereof, administering state-funded programs.

e. Make available records compiled by the agency in reasonable anticipation of court litigation or formal administrative proceedings. The availability of such records to the general public or to any subject individual or party to such litigation or proceedings shall be governed by applicable constitutional principles, statutes, rules of discovery, evidentiary privileges, and applicable rules of the agency.

f. Require the agency to create, compare or procure a record solely for the purpose of making it available.

441—9.2(17A,22) Definitions. As used in this chapter:

“*Business associate*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Client*” means a person who has applied for or received services or assistance from the department.

“*Confidential record*” in these rules means a record which is not available as a matter of right for examination and copying by members of the public under applicable provisions of law. Confidential records include records or information contained in records that the agency is prohibited by law from making available for examination by members of the public, and records or information contained in records that are specified as confidential by Iowa Code section 22.7, or other provision of law, but that may be disclosed upon order of a court, the lawful custodian of the record, or by another person duly authorized to release the record. Mere inclusion in a record of information declared confidential by an applicable provision of law does not necessarily make that entire record a confidential record.

“*Covered entity*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Custodian*” means the director of the department or the director’s designee.

“*Data aggregation*” is the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Designated record set*” is the same as defined in 45 CFR §164.501 as amended to January 25, 2013, including:

1. The medical records about subjects that are maintained for facilities;
2. The enrollment, payment, and eligibility record systems maintained for Medicaid; or
3. The enrollment, payment, and eligibility record systems maintained for the hawki program that are used, in whole or in part, by the hawki program to make decisions about subjects.

For purposes of this definition, the term “record” means the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Disclosure*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Facility*” or “*facilities*” means, with respect to HIPAA rules about health information, one or more of these department institutions: Cherokee mental health institute, Clarinda mental health institute, Glenwood resource center, Independence mental health institute, Mount Pleasant mental health Institute, and Woodward resource center.

“*Health care*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Health care clearinghouse*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Health care operations*” for covered entities in the department has the same definition as that stated in 45 CFR 164.501 as amended to January 25, 2013.

“*Health care provider*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Health information*” means the same as defined in 45 CFR 160.103 as amended to June 27, 2014.

“*Health oversight agency*” means the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Health plan*” means an individual or group plan that provides or pays the cost of medical care, as defined at 45 CFR 160.103 as amended to June 27, 2014. In the department, “health plan” means Medicaid or hawki.

“*HIPAA*” means the Health Insurance Portability and Accountability Act of 1996.

“*Law enforcement official*” means an officer or employee of any agency or authority of the United States, a state, a territory, a political subdivision of a state or territory, or an Indian tribe, who is empowered by law to:

1. Investigate or conduct an official inquiry into a potential violation of law; or
2. Prosecute or otherwise conduct a criminal, civil, or administrative proceeding arising from an alleged violation of law.

“*Legal representative*” is a person recognized by law as standing in the place or representing the interests of another for one or more purposes.

“*Mental health information*” means oral, written, or otherwise recorded information which indicates the identity of a person receiving professional services (as defined in Iowa Code section 228.1(8)) and which relates to the diagnosis, course, or treatment of the person’s mental or emotional condition.

“*Open record*” means a record other than a confidential record.

“*Payment*,” with respect protected health information, has the same definition as that stated in 45 CFR §164.501 as amended to January 25, 2013. In the department, “payment” applies to subjects for whom health care coverage is provided under the Medicaid program or the hawki program.

“*Personally identifiable information*” means information about or pertaining to the subject of a record which identifies the subject and which is contained in a record system.

“*Personal representative*” means someone designated by another as standing in the other’s place or representing the other’s interests for one or more purposes. The term “personal representative” includes, but is not limited to, a legal representative. For disclosure of protected health information, the definition of “personal representative” is more restrictive, as described at rule 441—9.15(17A,22).

“*Protected health information*” means the same as defined in 45 CFR §160.103 as amended to June 27, 2014.

“*Psychotherapy notes*” means the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Public health authority*” means the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Record*” means the whole or a part of a “public record” as defined in Iowa Code section 22.1 that is owned by or in the physical possession of the department.

“*Record system*” means any group of records under the control of the department from which a record may be retrieved by a personal identifier such as the name of a subject, number, symbol, or other unique identifier assigned to a subject.

“*Subject*” means the person who is the subject of the record, whether living or deceased.

“*Substance abuse information*” means information which indicates the identity, diagnosis, prognosis, or treatment of any person in an alcohol or drug abuse program.

“*Transaction*” means the same as defined in 45 CFR §160.103 as amended to June 27, 2014.

“*Treatment*” means the same as defined in 45 CFR §164.501 as amended to January 25, 2013.

“*Use*,” with respect to protected health information, means the same as defined in 45 CFR §160.103 as amended to June 27, 2014.

“*Workforce*,” with respect to protected health information, means the same as defined in 45 CFR §160.103 as amended to June 27, 2014.

441—9.3(17A,22) Requests for access to records.

9.3(1) *Location of record.* A request for access to a record should be directed to the director’s office 1305 East Walnut Street, Des Moines, Iowa 50319. If a request for access to a record is misdirected, department personnel will promptly forward the request to the department’s records officer.

9.3(2) *Office hours.* Open records shall be made available during all customary office hours, which are 8 a.m. to 4:30 p.m. daily, excluding Saturdays, Sundays and legal holidays.

9.3(3) *Request for access.* Requests for access to open records may be made in writing, in person, or by telephone. Requests shall identify the particular records sought by name or description. Mail or telephone requests shall include the name, address, and telephone number of the person requesting the information.

9.3(4) *Response to requests.* Access to an open record will be provided upon request unless the size or nature of the request makes prompt access infeasible. If the size or nature of the request for access to an open record requires time for compliance, the custodian shall comply with the request as soon as feasible. Access to an open record may be delayed for one of the purposes authorized by Iowa Code section 22.8(4) or 22.10(4).

The custodian of a record may deny access to the record by members of the public only on the grounds that such a denial is warranted under Iowa Code sections 22.8(4) and 22.10(4), or that it is a confidential record, or that its disclosure is prohibited by a court order. Access by members of the public to a confidential record is limited by law and, therefore, may generally be provided only in accordance with the provisions of rule 441—9.4(17A,22) and other applicable provisions of law.

9.3(5) *Security of record.* No person may, without permission from the custodian, search or remove any record from department files. Examination and copying of department records shall be

supervised by the custodian or a designee of the custodian. Records shall be protected from damage and disorganization.

9.3(6) Copying. A reasonable number of copies of an open record may be made in the department office. If photocopy equipment is not available in the department office where an open record is kept, the custodian shall permit its examination in that office and shall arrange to have copies promptly made elsewhere.

9.3(7) Fees. The department may charge fees as permitted by Iowa Code chapter 22. The department will publish a fee schedule for open records on its website. The department may charge a fee for the cost of preparing an explanation or summary of health information. The department and the subject requesting the information shall agree to the amount of any fee imposed before the department prepares the explanation or summary.

441—9.4(17A,22) Access to confidential records. Under Iowa Code section 22.7 or other applicable provisions of law, the lawful custodian may disclose certain confidential records to one or more members of the public. Other provisions of law authorize or require the custodian to release specified confidential records under certain circumstances or to particular persons. In requesting the custodian to permit the examination and copying of such a confidential record, the following procedures apply and are in addition to those specified for requests for access to records in rule 441—9.3(17A,22).

9.4(1) Proof of identity. A person requesting access to a confidential record may be required to provide proof of identity or authority to secure access to the record.

9.4(2) Requests. The custodian may require a request to examine and copy a confidential record to be in writing. A person requesting access to such a record may be required to sign a certified statement or affidavit enumerating the specific reasons justifying access to the confidential record and to provide any proof necessary to establish relevant facts.

9.4(3) Notice to subject of record and opportunity to obtain injunction. Except as provided in 441—subrule 175.41(2), after the custodian receives a request for access to a confidential record, and before the custodian releases such a record, the custodian may make reasonable efforts to notify promptly any person who is a subject of that record, is identified in that record, and whose address or telephone number is contained in that record. To the extent such a delay is practicable and in the public interest, the custodian may give the subject of such a confidential record to whom notification is transmitted a reasonable opportunity to seek an injunction under Iowa Code section 22.8, and indicate to the subject of the record the specific period of time during which disclosure will be delayed for that purpose.

9.4(4) Request denied. When the custodian denies a request for access to a confidential record, the custodian shall promptly notify the requester. If the requester indicates to the custodian that a written notification of the denial is desired, the custodian shall promptly provide such a notification that is signed by the custodian and that includes:

- a. The name and title or position of the custodian responsible for the denial; and
- b. A citation to the provision of law vesting authority in the custodian to deny disclosure of the record and a brief statement of the reasons for the denial to this requester.

9.4(5) Request granted. Except as provided in 441—subrule 175.41(2), when the custodian grants a request for access to a confidential record, the custodian shall notify the requester or the person who is to receive the information and include any limits on the examination and copying of the record.

9.4(6) Records requiring special procedures. Special procedures are required for access to:

- a. Child abuse information. Access to child abuse information is obtained according to rules 441—175.41(235A) and 441—175.42(235A).
- b. Dependent adult abuse information. Access to adult abuse information is governed by rule 441—176.9(235A).

441—9.5(17A,22) Requests for treatment of a record as a confidential record and its withholding from examinations. The custodian may treat a record as a confidential record and withhold it from

examination only to the extent that the custodian is authorized by Iowa Code section 22.7, another applicable provision of law, or a court order, to refuse to disclose that record to members of the public.

9.5(1) *Persons who may request.* Any person who would be aggrieved or adversely affected by disclosure of a record and who asserts that Iowa Code section 22.7, another applicable provision of law, or a court order, authorizes the custodian to treat the record as a confidential record, may request the custodian to treat that record as a confidential record and to withhold it from public inspection.

9.5(2) *Request.* A request that a record be treated as a confidential record and be withheld from public inspection shall be in writing and shall be filed with the custodian.

a. The request must set forth the legal and factual basis justifying such confidential record treatment for that record, and the name, address, and telephone number of the person authorized to respond to any inquiry or action of the custodian concerning the request.

b. A person requesting treatment of a record as a confidential record may also be required to sign a certified statement or affidavit stating the specific reasons justifying the treatment of that record as a confidential record and to provide any proof necessary to establish relevant facts.

c. Requests to temporarily treat a record as a confidential record shall specify the precise period of time for which that treatment is requested.

d. A person filing such a request shall, if possible, provide a copy of the record in question from which those portions for which such confidential record treatment has been requested have been deleted. If the original record is being submitted to the department by the person requesting confidential treatment at the time the request is filed, the person shall indicate conspicuously on the original record that all or portions of it are confidential.

9.5(3) *Failure to request.* Failure of a person to request confidential record treatment for a record does not preclude the custodian from treating it as a confidential record. However, if a person who has submitted business information to the department does not request that it be withheld from public inspection under Iowa Code sections 22.7(3) and 22.7(6), the custodian of records containing that information may proceed as if that person has no objection to its disclosure to members of the public.

9.5(4) *Timing of decision.* A decision by the custodian with respect to the disclosure of a record to members of the public may be made when a request for its treatment as a confidential record that is not available for public inspection is filed, or when the custodian receives a request for access to the record by a member of the public.

9.5(5) *Request granted or deferred.* If a request for such confidential record treatment is granted, or if action on such a request is deferred, a copy of the record from which the matter in question has been deleted and a copy of the decision to grant the request or to defer action upon the request will be made available for public inspection in lieu of the original record. If the custodian subsequently receives a request for access to the original record, the custodian will make reasonable and timely efforts to notify any person who has filed a request for its treatment as a confidential record that is not available for public inspection of the pendency of that subsequent request.

9.5(6) *Request denied and opportunity to seek injunction.* If a request that a record be treated as a confidential record and be withheld from public inspection is denied, the custodian shall notify the requester in writing of that determination and the reasons therefor. On application by the requester, the custodian may engage in a good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief under the provisions of Iowa Code section 22.8, or other applicable provision of law. However, such a record shall not be withheld from public inspection for any period of time if the custodian determines that the requester had no reasonable grounds to justify the treatment of that record as a confidential record. The custodian shall notify requester in writing of the time period allowed to seek injunctive relief or the reasons for the determination that no reasonable grounds exist to justify the treatment of that record as a confidential record. The custodian may extend the period of good faith, reasonable delay in allowing examination of the record so that the requester may seek injunctive relief only if no request for examination of that record has been received, or if a court directs the custodian to treat it as a confidential record, or to the extent permitted by another applicable provision of law, or with the consent of the person requesting access.

9.5(7) *Requesting privacy protection for protected health information.*

a. Requesting restrictions on protected health information use or disclosure. Subjects may complete a Request to Restrict Use or Disclosure of Health Information form. The department will follow the requirements of 45 CFR §164.522 as amended to January 25, 2013, in responding to these requests.

b. Requesting the receipt of communications of protected health information by alternative means or at alternative locations. Subjects may complete a Request to Change How Health Information Is Provided form. The department will follow the requirements of 45 CFR §164.522 as amended to January 25, 2013, in responding to these requests. For Medicaid and hawki, the subject is required to clearly indicate the reason for requesting the confidential communication. Facilities shall not require the subject to explain the basis for the request as a condition of providing confidential communications.

441—9.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records.

9.6(1) *All programs.* Except as otherwise provided by law, a subject may file a request with the custodian to review, and to have a written statement of additions, dissents, or objections entered into, a record containing personally identifiable information pertaining to that subject. However, the subject is not authorized to alter the original copy of the record or to expand the official record of any department proceeding.

a. The subject shall send the request to review such a record or the written statement of additions, dissents, or objections to the department.

b. The request to review such a record or the written statement of additions, dissents, or objections must be dated and signed by the subject, and shall include the current address and telephone number of the subject or the subject's representative.

9.6(2) *Additional procedures for protected health information.* The department will follow the protected health information right to amend standards as outlined in 45 CFR §164.526 as amended to January 15, 2013. A subject shall submit a request for amendment to the department on a Request to Amend Health Information form published on the department's website. The subject shall provide a reason to support the requested amendment.

441—9.7(17A,22,228) Consent to disclosure by the subject of a confidential record. To the extent permitted by any applicable provision of law, the subject of a confidential record may have a copy of the portion of that record concerning the subject disclosed to a third party. A request for such a disclosure must be in writing and must identify the particular record or records to be disclosed, the particular person or class of persons to whom the record may be disclosed, and the time period during which the record may be disclosed. The subject of the record and, where applicable, the person to whom the record is to be disclosed may be required to provide proof of identity. Appearance of counsel before the department on behalf of a person who is the subject of a confidential record is deemed to constitute consent for the department to disclose records about that person to the person's attorney. No confidential information about clients of the department shall be released without the client's consent, except as otherwise provided in these rules. Release of confidential information includes granting access to or allowing the copying of a record, providing information either in writing or orally, or acknowledging information to be true or false.

9.7(1) *Release forms.*

a. *Releases allowing the department to provide confidential information.* Subjects should complete the Authorization for the Department to Release Information for releases that do not involve protected health information.

b. *Releases allowing the department to provide confidential information, including protected health information.* When consent or authorization for use or disclosure of health information is required, the department shall use Form 470-3951, Authorization to Obtain or Release Health Care Information, or a HIPAA authorization form from another source that meets HIPAA requirements. The department shall not require a subject to sign a HIPAA authorization form as a condition of treatment, payment, enrollment in a health plan, or eligibility for benefits. The department as a health care provider

may require a subject to sign a HIPAA authorization form for the use or disclosure of protected health information for research, as a condition of the subject's receiving research-related treatment. A subject may revoke a HIPAA authorization at any time, provided that the revocation is in writing using the Request to End an Authorization form, except to the extent that the department has taken action in reliance thereon.

(2) Except as provided in subparagraph 9.7(1) "c"(1), department staff shall release mental health or substance abuse information only with authorization on the Consent to Obtain and Release Information form, or a form from another source that meets requirements of law.

c. Releases allowing the department to obtain confidential information from a third party. The department is required to obtain confidential information from third parties. The department may make these requests only when the client has authorized the release on one of the following forms:

- (1) Authorization for Release of Information.
- (2) Household Member Questionnaire.
- (3) Bank or Credit Union Information.
- (4) Addendum for Application and Review Forms for Release of Information.
- (5) Request for School Verification.
- (6) Employer's Statement of Earnings.
- (7) Verification of Educational Financial Aid.
- (8) Financial Institution Verification.
- (9) Authorization to Obtain or Release Health Care Information.

d. Releases for photographs and recordings. The department uses Authorization to Take and Use Photographs, and Authorization to Take and Use Photographs of Minor or Ward forms, for permission to use photographs in department publications. The department shall obtain authorization from the subject or person responsible (such as a guardian, custodian, or personal representative) for the subject before taking photographs or making any type of recording for any purpose other than those specifically allowed by law or for internal use within an institution.

9.7(2) Exceptions to use of release forms.

a. Public official. A letter from the subject to a public official which seeks the official's intervention on behalf of the subject in a matter that involves the department shall be treated as an authorization to release information. The department shall release sufficient information about the subject to the official to resolve the matter.

b. Medical emergency. Department staff may authorize release of confidential information to medical personnel in a medical emergency if the subject is unable to give or withhold consent. As soon as possible after the release of information, the subject shall be advised of the release.

c. Abuse information. Consent to release information is not required to gather information for investigations of child abuse or dependent adult abuse.

9.7(3) Opportunity for subject to agree or object. This subrule describes when the department may use or disclose protected health information, without a written authorization, to persons involved in the subject's care and for notification purposes. However, the department shall give the subject an opportunity to agree or object, unless this requirement is waived as specified in paragraph 9.7(3) "e."

a. Involvement in the subject's care. The department may disclose protected health information that is directly relevant either to a subject's care or to payment related to the subject's care, provided payment is relevant to the person's involvement in the subject's care. The person involved must be:

- (1) A family member;
- (2) Another relative;
- (3) A close personal friend of the subject; or
- (4) Any other person identified by the subject.

b. Notification purposes. The department may use or disclose protected health information to notify, or assist in notifying, identifying or locating a family member, a personal representative of the subject, or another person responsible for the care of the subject of the subject's location, general condition or death. For disaster relief purposes, the use or disclosure shall be in accordance with paragraph 9.7(3) "f."

c. Uses and disclosures with the subject present. If the subject is present for, or available before, a use or disclosure permitted by this subrule and has the capacity to make health care decisions, the department may use or disclose the protected health information if the department:

- (1) Obtains the subject's agreement;
- (2) Provides the subject with the opportunity to object to the disclosure, and the subject does not express an objection; or
- (3) Reasonably infers from the circumstances, based on the exercise of professional judgment, that the subject does not object to the disclosure.

d. Informing the subject. The department may orally inform the subject of and obtain the subject's oral agreement or objection to a use or disclosure permitted by this subrule.

e. Limited uses and disclosures when the subject is not present. When the subject is not present, or the opportunity to agree or object to the use or disclosure cannot practicably be provided because of the subject's incapacity or an emergency circumstance, the department may, in the exercise of professional judgment, determine that disclosure is in the best interest of the subject.

(1) When the department determines that disclosure is in the subject's best interest, the department may disclose only the protected health information that is directly relevant to the person's involvement with the subject's health care.

(2) The department may use professional judgment and its experience with common practice to make reasonable inferences of the subject's best interest in allowing a person to act on behalf of the subject to pick up filled prescriptions, medical supplies, X-rays, or other similar forms of protected health information.

f. For disaster relief purposes. The department may use protected health information or disclose protected health information to a public or private organization authorized by law or by its charter to assist in disaster relief efforts for the purpose of coordinating with these organizations the uses or disclosures permitted by paragraph 9.7(3) "b." The requirements in paragraphs 9.7(3) "c" and "d" apply to these uses and disclosures to the extent that the department, in the exercise of professional judgment, determines that the requirements do not interfere with the ability to respond to the emergency circumstances.

441—9.8(17A,22) Notice to suppliers of information. When the department requests a person to supply information about that person, the department shall notify the person of how the information will be used, which persons outside the department might routinely be provided this information, which parts of the requested information are required and which are optional, and the consequences of a failure to provide the information requested. This notice may be given in these rules, on the written form used to collect the information, on a separate fact sheet or letter, in brochures, in formal agreements, in contracts, in handbooks, in manuals, verbally, or by other appropriate means. The notice shall generally be given at the first contact with the department and need not be repeated. Where appropriate, the notice may be given to a person's legal or personal representative. Notice may be withheld in an emergency or where it would compromise the purpose of a department investigation.

441—9.9(17A,22) Release to subject.

9.9(1) Access by subjects to protected health information. The department will follow the access of individuals to protected health information standards as outlined in 45 CFR §164.524 as amended to February 6, 2014. Subjects shall submit all requests for access to the department using the Request for Access to Health Information form. If the department does not maintain the protected health information that is the topic of the subject's request for access, and the department knows where the requested information is maintained, the department shall inform the subject where to direct the request for access.

441—9.10(17A,22) Use and disclosure without consent of the subject. Open records are routinely disclosed without the consent of the subject. To the extent allowed by law, the department may also use and disclose confidential information without the consent of the subject or the subject's representative.

9.10(1) Internal use. Confidential information may be disclosed to employees and agents of the department as needed for the performance of their duties. The custodian of the record shall determine what constitutes legitimate need to use confidential records.

9.10(2) Audits and health oversight activities.

a. Audits. Information concerning program expenditures and client eligibility is released to staff of the state executive and legislative branches who are responsible for ensuring that public funds have been managed correctly. Information is also released to auditors from federal agencies when those agencies provide program funds.

b. Health oversight activities. The department will follow the uses and disclosures standards for health oversight activities as outlined in 45 CFR §164.512 as amended to January 6, 2016.

9.10(3) Program review. Information concerning client eligibility and benefits is released to state or federal officials responsible for determining whether the department is operating a program lawfully. These officials include the ombudsman office under Iowa Code section 2C.9, the auditor of state under Iowa Code section 11.2, the Office of Inspector General in the federal Department of Health and Human Services, and the Centers for Medicare and Medicaid Services.

9.10(4) Contracts and agreements with agencies and persons.

a. The department may enter into contracts or agreements with public or private agencies to carry out the department's official duties. Information necessary to carry out these duties may be shared with these agencies. The department may disclose protected health information to a business associate and may allow a business associate to create or receive protected health information on its behalf, if the department obtains satisfactory assurance that the business associate will appropriately safeguard the information.

b. The department may enter into agreements to share information with agencies administering federal or federally assisted programs which provide assistance or services directly to persons on the basis of need. Only information collected in the family investment program, the child care assistance program, the food assistance program, the refugee resettlement program, or the child support recovery program may be shared under these agreements.

c. To meet federal income and eligibility verification requirements, the department has entered into agreements with the department of workforce development, the United States Internal Revenue Service, and the United States Social Security Administration. The department obtains information regarding persons whose income or resources are considered in determining eligibility and the amount of benefits for the family investment program, refugee cash assistance, child care assistance, food assistance, Medicaid, state supplementary assistance and foster care. Identifying information regarding clients of these programs is released to these agencies. The information received may be used for eligibility and benefit determinations.

d. To meet federal requirements under the Immigration Reform and Control Act of 1986 (IRCA) relating to the Systematic Alien Verification for Entitlements (SAVE) program, the department has entered into an agreement with the Bureau of Citizenship and Immigration Service (BCIS). Under the agreement, the department exchanges information necessary to verify alien status for the purpose of determining eligibility and the amount of benefits for the family investment program, refugee cash assistance, food assistance, Medicaid, state supplementary assistance and foster care assistance. Identifying information regarding these subjects is released to the BCIS. The information received may be used for eligibility and benefit determinations.

e. The department has entered into an agreement with the department of workforce development to provide services to family investment program clients participating in the PROMISE JOBS program as described at 441—Chapter 93. Information necessary to carry out these duties shall be shared with the department of workforce development, as well as with its subcontractors.

f. The department has entered into an agreement with the department of education, vocational rehabilitation, disability determination services, to assist with Medicaid disability determinations.

g. The department has entered into an agreement with the department of education to share information that assists both schools and department clients in carrying out the annual verification process required by the United States Department of Agriculture, Food and Nutrition Service. That

federal agency requires the department of education and local schools to verify eligibility of a percentage of the households approved for free-meal benefits under the school lunch program. When a department office receives a written request from the local school, the department office responds in writing with the current family investment program and food assistance program status of each recipient of free meals listed in the request. Other client-specific information is made available only with written authorization from the client.

9.10(5) Release for judicial and administrative proceedings. Information is released to the court as required in Iowa Code sections 125.80, 125.84, 125.86, 229.8, 229.10, 229.13, 229.14, 229.15, 229.22, 232.48, 232.49, 232.52, 232.71B, 232.81, 232.97, 232.98, 232.102, 232.111, 232.117 and 235B.3.

a. The department may disclose protected health information in the course of any judicial or administrative proceeding in response to an order of a court or administrative tribunal, provided that the department discloses only the protected health information expressly authorized by the order and the court makes the order knowing that the information is confidential.

b. When a court subpoenas information that the department is prohibited from releasing, the department shall advise the court of the statutory and regulatory provisions against disclosure of the information and shall disclose the information only on order of the court.

9.10(6) Fraud. Information concerning suspected fraud or misrepresentation to obtain department services or assistance is disclosed to the department of inspections, appeals, and licensing and to law enforcement authorities.

9.10(7) Service referrals. Information concerning clients may be shared with purchase of service providers under contract to the department.

a. Information concerning the client's circumstances and need for service is shared with prospective providers to obtain placement for the client. If the client is not accepted for service, all written information released to the provider shall be returned to the department.

b. When the information needed by the provider is mental health information or substance abuse information, the subject's specific consent is required.

9.10(8) Medicaid billing. Only the following information shall be released to bona fide providers of medical services in the event that the provider is unable to obtain it from the subject and is unable to complete the Medicaid claim form without it:

- a.* Patient identification number.
- b.* Health coverage code as reflected on the subject's medical card.
- c.* The subject's date of birth.
- d.* The subject's eligibility status for the month that the service was provided.
- e.* The amount of spenddown.
- f.* The bills used to meet spenddown.

9.10(9) County billing. Information necessary for billing is released to county governments that pay part of the cost of care for intermediate care facility services under 441—subrule 82.14(2) or Medicaid waiver services under rule 441—83.70(249A) or 441—83.90(249A). This information includes client names, identifying numbers, provider names, number of days of care, amount of client payment, and amount of payment due.

9.10(10) Child support recovery. The child support recovery unit has access to information from most department records for the purpose of establishing and enforcing support obligations. Information about absent parents and recipients of child support services is released according to the provisions of Iowa Code chapters 234, 252A, 252B, 252C, 252D, 252E, 252F, 252G, 252H, 252I, 252J, 252K, 598, 600B, and any other support chapter. Information is also released to consumer reporting agencies as specified in rule 441—98.116(252B).

9.10(11) Refugee resettlement program. Contacts with both sponsor and resettlement agencies are made as a part of the verification process to determine eligibility or the amount of assistance. When a refugee applies for cash or Medicaid, the refugee's name, address, and telephone number are given to the refugee's local resettlement agency.

9.10(12) Abuse investigation. The central abuse registry disseminates child abuse information and dependent adult abuse information as provided in Iowa Code sections 235A.15 and 235B.7, respectively.

Reports of child abuse and dependent adult abuse investigations are submitted to the county attorney as required in Iowa Code sections 232.71B and 235B.3. Results of the investigation of a report by a mandatory reporter are communicated to the reporter as required in Iowa Code sections 235A.17(2) and 235A.15(2) "b"(5).

9.10(13) Foster care. Information concerning a child's need for foster care is shared with foster care review committees or foster care review boards and persons named in the case permanency plan.

9.10(14) Adoption. Adoptive home studies completed on families who wish to adopt a child are released to licensed child-placing agencies, to the United States Immigration and Naturalization Service, and to adoption exchanges. Information is released from adoption records as provided in Iowa Code sections 600.16 and 600.24.

9.10(15) Disclosures to law enforcement.

a. Disclosures by workforce members who are crime victims. The department is not considered to have violated the requirements of this chapter if a member of its workforce who is the victim of a criminal act discloses confidential information to a law enforcement official, provided that:

(1) The confidential information disclosed is about the suspected perpetrator of the criminal act and intended for identification and location purposes; and

(2) The confidential information disclosed is limited to the following information:

1. Name and address.

2. Date and place of birth.

3. Social security number.

4. ABO blood type and Rh factor.

5. Type of injury.

6. Date and time of treatment.

7. Date and time of death, if applicable.

8. A description of distinguishing physical characteristics, including height, weight, gender, race, hair and eye color, presence or absence of facial hair (beard or moustache), scars, and tattoos.

b. Crime on premises. The department may disclose to a law enforcement official protected health information that the department believes in good faith constitutes evidence of criminal conduct that occurred on the premises of the department.

c. Decedents. The department may disclose protected health information to a law enforcement official about a subject who has died when the death resulted from child abuse or neglect or the death occurred in a department facility.

d. Other. The department may disclose confidential information to a law enforcement official when otherwise required or allowed by this chapter, such as disclosures about victims of child abuse or neglect; disclosures to avert a threat to health or safety, or to report suspected fraud; disclosures required by due process of law, such as disclosures for judicial and administrative proceedings; or other disclosures required by law.

9.10(16) Response to law enforcement. The address of a current recipient of family investment program benefits may be released upon request to a federal, state or local law enforcement officer if the officer provides the name of the recipient, and the officer demonstrates that:

a. The recipient is a fugitive felon who is fleeing prosecution, custody or confinement after conviction under state or federal law, or who is a probation or parole violator under state or federal law, or

b. The recipient has information that is necessary for the officer to conduct the officer's official duties, and

c. The location or apprehension of the recipient is within the officer's official duties.

9.10(17) Research. Information that does not identify individual clients may be disclosed for research purposes with the consent of the custodian responsible for the records.

a. Mental health information may be disclosed for purposes of scientific research as provided in Iowa Code sections 228.5 and 229.25. Requests to do research involving records of a department facility shall be approved by the designated authority.

b. Abuse registry information may be disclosed for research purposes as provided in rules 441—175.42(235A) and 441—176.12(235B) and authorized by Iowa Code sections 235A.15(2) “e”(1) and 235B.6(2) “e”(1).

c. For research relating to protected health information, the researcher shall provide the department with information about the nature of the research, the protocol, the type of information being requested, and any other relevant information that is available concerning the request. If the researcher feels that contact with the subject is needed, the researcher shall demonstrate to the department that the research cannot be conducted without contact with the subject. The researcher shall pay for the costs of obtaining authorizations needed to contact the subjects and for the cost of files and preparation needed for the research.

9.10(18) Threat to health or safety.

a. All programs. A client’s name, identification, location, and details of a client’s threatened or actual harm to department staff or property may be reported to law enforcement officials. Other information regarding the client’s relationship to the department shall not be released. When a department staff person believes a client intends to harm someone, the staff person may warn the intended victim or police or both. Only the name, identification, and location of the client and the details of the client’s plan of harm shall be disclosed.

b. Protected health information. The department will follow the disclosure standards in 45 CFR §164.512 as amended to January 6, 2016.

9.10(19) Required by law.

a. Information is shared with other agencies without a contract or written agreement when federal law or regulations require it.

b. The department may use or disclose protected health information to the extent that use or disclosure is required by law and the use or disclosure complies with and is limited to the relevant requirements of the law.

c. State law shall preempt rules in this chapter about protected health information when any one of the following conditions exists:

(1) Exception granted by Secretary of Health and Human Services under 45 CFR 160.204 as amended to January 25, 2013.

(2) State law more stringent. The provision of state law relates to the privacy of protected health information and is more stringent than a requirement of this chapter, within the meaning of “more stringent” found at 45 CFR 160.202 as amended to January 25, 2013.

(3) Reporting requirements. The provision of state law, including state procedures established under the law, as applicable, provides for the reporting of disease or injury, child abuse, birth, or death, or for the conduct of public health surveillance, investigation, or intervention.

(4) Requirements related to audits, monitoring, evaluation, licensing, and certification. The provision of state law requires a health plan to report, or to provide access to, information for the purpose of management audits, financial audits, program monitoring and evaluation, or the licensure or certification of facilities and persons.

9.10(20) Treatment, payment, or health care operations.

a. The department may use or disclose protected health information for treatment, payment, or health care operations, as permitted by 45 CFR 164.506 as amended to January 25, 2013, except for psychotherapy notes, which are subject to the limits described in paragraph 9.10(21) “b.” The use or disclosure shall be consistent with other applicable requirements of this chapter.

b. The department may use or disclose psychotherapy notes without an authorization for any one of the following reasons:

(1) To carry out the following treatment, payment, or health care operations:

1. Use by the originator of the psychotherapy notes for treatment.

2. Use or disclosure by the department for its own training programs in which students, trainees, or practitioners in mental health learn under supervision to practice or improve their skills in group, joint, family, or individual counseling.

3. Use or disclosure by the department to defend itself in a legal action or other proceeding brought by the subject.

(2) When required by the Secretary of Health and Human Services to investigate or determine the department's compliance with federal HIPAA regulations.

(3) For health oversight activities with respect to the oversight of the originator of the psychotherapy notes.

(4) When necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public as described in this chapter.

(5) When required by law as described in this chapter.

(6) To disclose protected health information in the designated record set to a coroner or medical examiner as described in this chapter.

9.10(21) Other uses and disclosures for which an authorization or opportunity to agree or object is not required. The department may use or disclose protected health information Other uses and disclosures for which an authorization or opportunity to agree or object is not required, as permitted by 45 CFR 164.512 as amended to January 25, 2013.

9.10(22) *Victims of domestic violence.* The department shall disclose confidential information about an individual whom the department reasonably believes to be a victim of domestic violence when required by state law.

9.10(23) *Whistle blowers.* The department is not considered to have violated the requirements of this chapter when a member of its workforce or a business associate discloses protected health information, provided that:

a. The workforce member or business associate has a good-faith belief that the department or a business associate has engaged in conduct that is unlawful or otherwise violates professional or clinical standards, or has provided care, services, or conditions that potentially endanger one or more patients, workers, or the public; and

b. The disclosure is made to one of the following:

(1) A health oversight agency or public health authority authorized by law to investigate or oversee conduct or conditions for the purpose of reporting the allegation of failure to meet professional standards or misconduct.

(2) An appropriate health care accreditation organization.

(3) An attorney retained by or on behalf of the workforce member or business associate for the purpose of determining the legal options of the workforce member or business associate.

9.10(24) *Secondary to a use or disclosure of protected health information.* The department may use or disclose protected health information that is secondary to a use or disclosure otherwise permitted or required by these rules, such as when a visitor in a facility overhears a doctor speaking to a subject about the subject's health.

9.10(25) *De-identified data or a limited data set.* The department may use or disclose protected health information to create information that is de-identified or a limited data set under the conditions specified in 45 CFR 164.514 as amended to August 14, 2002.

441—9.11(22) Availability of records.

9.11(1) *Open records.* Department records are open for public inspection and copying unless otherwise provided by rule or law.

9.11(2) *Confidential records.* Iowa Code chapters governing the operations of the department establish the confidential nature of many department records. The department also administers several federally funded programs and is authorized by Iowa Code section 22.9 to enforce confidentiality standards from federal law and regulation as required for receipt of the funds where the department has determined that the right to examine and copy public records under Iowa Code section 22.2 would cause the denial of funds, services, or essential information from the United States government that would otherwise be available to the department.

9.11(3) Authority to release confidential records. The department may have discretion to disclose some confidential records which are exempt from disclosure under Iowa Code section 22.7 or other provision of law.

441—9.12(22,252G) Personally identifiable information. The nature and extent of personally identifiable information collected by the department varies by the type of record. This rule describes personally identifiable information collected, maintained, and retrieved by the department by personal identifiers in record systems and the legal authority for the collection of that information. This rule also identifies the legal authority for keeping some or all of the collected personally identifiable information confidential.

9.12(1) Department administrative records.

a. Personnel records. These records contain information about employees, families and dependents, and applicants for positions with the department. Some of this information is confidential under Iowa Code sections 22.7(11) and 22.7(18).

b. Fiscal records. These records contain itemized vouchers collected from individuals pursuant to Iowa Code section 8A.514. Some of this information is confidential under Iowa Code sections 22.7(11) and 22.7(18).

c. Litigation files. These files or records contain information regarding litigation or anticipated litigation, which includes judicial and administrative proceedings. The records include briefs, depositions, docket sheets, documents, correspondence, attorney's notes, memoranda, research materials, witness information, investigation materials, information compiled under the direction of the attorney, and case management records. The files contain materials which are confidential as attorney work product and attorney-client communications. Some materials are confidential under other applicable provisions of law or because of a court order. Persons wishing copies of pleadings and other documents filed in litigation should obtain them from the clerk of the appropriate court which maintains the official copy. These records are confidential as outlined in Iowa Code sections 217.30, 22.7(4) and 622.10.

9.12(2) Program records.

a. Adoption investigator certification. These records are collected pursuant to Iowa Code chapter 600.

b. Adoption program records. These records are collected pursuant to Iowa Code sections 600.8 and 600.16. These records are confidential as outlined in Iowa Code sections 600.16 and 600.24.

c. Appeals. These records are collected pursuant to Iowa Code section 217.1. Some of these records are confidential as outlined in Iowa Code section 217.1.

d. AIDS drug reimbursement program. These records are collected for purposes of implementing a federal grant program authorized by HR 1827. Certain patient records are confidential as outlined in Iowa Code section 141A.9.

e. Brain injury service program recipients. These records are collected pursuant to Iowa Code section 135.22B. These records are confidential as outlined in Iowa Code section 135.22(2).

f. Center for congenital and inherited disorders. These records are collected pursuant to Iowa Code chapter 136A. These records are confidential as outlined in Iowa Code section 136A.7.

g. Central registry for brain or spinal cord injuries. These records are collected pursuant to Iowa Code section 135.22. Except for statistical reports, these records are maintained as confidential pursuant to Iowa Code section 135.22.

h. Child abuse program. These records are collected pursuant to Iowa Code section 235A.14. These records are confidential as outlined in Iowa Code sections 235A.13, 235A.15, 235A.16, and 235A.17.

i. Childcare assistance client records. These records are collected pursuant to Iowa Code section 237A. These records are confidential as outlined in Iowa Code section 237A.13.

j. Childcare facility licensing. These records are collected pursuant to Iowa Code chapter 237A. Some of these records are confidential as outlined in Iowa Code section 237A.7.

k. Childhood lead poisoning prevention program. These records are collected pursuant to Iowa Code sections 135.100 to 135.105. Certain of these records are confidential as outlined in Iowa Code section 139A.

l. Child support recovery program. These records are collected pursuant to Iowa Code chapters 252A, 252B, 252C, 252D, 252E, 252F, 252G, 252H, 252I, 252J, 252K, and Iowa Code sections 144.13, 144.26, 232.147, 234.39, 595.4, 598.22B and 600.16A. These records are confidential as outlined in Iowa Code sections 252B.9 and 252G.5, 42 U.S.C. §654(26), 42 U.S.C. §654a(d), 45 CFR §303.21 and 307.13.

m. Chronic disease prevention and management programs. These records are collected pursuant to Iowa Code section 135.11(1). Certain medical information in these records is confidential as outlined in Iowa Code section 22.7(2).

n. Collection service center payment. These records are collected pursuant to Iowa Code sections 252B.9, 252B.13A and 252B.16. These records are confidential as outlined in Iowa Code section 252B.9(2), 42 U.S.C. § 654a(d) and 45 CFR §307.13.

o. Criminal and juvenile justice information. These records are collected pursuant to Iowa Code sections 216A.136 and 216A.138 and through interagency agreements.

p. Dental health program. These records are collected pursuant to Iowa Code section 135.11(19). Certain medical information in these records is confidential as outlined in Iowa Code section 22.7(2).

q. Dependent adult abuse program. These records are collected pursuant to Iowa Code section 235B.1. These records are confidential as outlined in Iowa Code section 235B.1.

r. Domestic abuse death review team. These records are collected pursuant to Iowa Code section 135.110. These records are confidential as outlined in Iowa Code section 135.11.

s. Emergency medical services. These records are collected pursuant to Iowa Code chapter 147A. Some of these records are confidential as outlined in Iowa Code section 147A.25.

t. Environmental health program. These records are collected pursuant to Iowa Code section 135.11(1) and PL 96-510, Section 104(d)(1), 40 CFR 763 effective June 28, 1983, and 40 CFR 761 effective May 31, 1979, dealing with asbestos, PCB and other environmental health factors. Certain medical information in the work-related disease program file may be confidential as outlined in Iowa Code section 22.7(2). Certain asbestos and PCB inspection records are collected under contract with the federal Environmental Protection Agency, and requests for such records will be referred to that agency.

u. Family investment program client records. These records are collected pursuant to Iowa Code section 234.6. These records are confidential as outlined in Iowa Code section 217.30, 42 U.S.C. §602(a)(1) and §1306a.

v. Food assistance client files. These records are collected pursuant to Iowa Code section 234.6. These records are confidential as outlined in Iowa Code section 217.30, 7 U.S.C. §2020(e)8 and 7 CFR 272.1(c) and (d) as amended to January 1, 1987.

w. Foster care client/service files. These records are collected pursuant to Iowa Code sections 237.3 to 237.5. These records are confidential as outlined in Iowa Code section 237.9.

x. Foster care facility licensing. These records are collected pursuant to Iowa Code chapter 237. Some of these records are confidential as outlined in Iowa Code section 237.9.

y. Foster care review board files. These records are collected pursuant to Iowa Code sections 237.17. Some of these records are confidential as outlined in Iowa Code section 237.21.

z. Hawki client files. These records are collected pursuant to Iowa Code section 514I.4. These records are confidential as outlined in Iowa Code section 514I.4, and 42 CFR 457.1110 as amended to January 1, 2001.

aa. Human rights advocacy files. These records are collected pursuant to Iowa Code chapter 216A; the Omnibus Budget Reconciliation Act, P.L. 97-35; Juvenile Justice and Delinquency Prevention Act, P.L. 93-415; and the Victims Compensation and Assistance Act, P. L. 98-473. These records are confidential as outlined in Iowa Code section 22.7(18).

bb. Long term and managed care ombudsman complaints. These records are collected pursuant to Iowa Code sections 135C.37 and 231.42. These records are confidential as outlined in Iowa Code sections 135C.37 and 231.42.

cc. Maternal and child health program. These records are collected pursuant to Iowa Code section 135.11(20). Records that contain medical information are confidential pursuant to Iowa Code section 22.7(2).

dd. Medicaid clients. These records are collected pursuant to Iowa Code section 249A.4. These records are confidential as outlined in Iowa Code section 217.30, 42 U.S.C. §1396a(7), and 42 CFR 431.300 to 307 as amended to November 13, 1996.

ee. Medicaid provider information. These records are collected pursuant to Iowa Code section 249A.4. Some of these records are confidential as outlined in Iowa Code section 217.30, and 42 U.S.C. §1396a(7), 42 CFR 431.300 to 307 as amended to November 13, 1996.

ff. Newborn and infant hearing screening program. These records are collected pursuant to Iowa Code section 135.131. Information which identifies an individual patient is confidential as outlined in Iowa Code section 135.131.

gg. Nutrition and WIC (supplemental food program for women, infants and children) program. These records are collected pursuant to Iowa Code section 135.11(1) and Chapter 17 of the federal Child Nutrition Act of 1966 as amended. These records are confidential as outlined in 7 CFR 246 and Iowa Code section 22.7(2).

hh. Radiological health program. These records are collected pursuant to Iowa Code chapters 136B and 136C. Certain of these records are confidential as outlined in 641—39.4(24).

ii. Refugee health program. These records are collected pursuant to Iowa Code section 135.11(1) and Section 412(c)(3) of the federal Immigration and Naturalization Act. Records that contain medical information are confidential pursuant to Iowa Code section 22.7(2).

jj. Refugee resettlement client records. These records are collected pursuant to Iowa Code section 217.1. These records are confidential as outlined in Iowa Code section 217.30, and 45 CFR 400.27 as amended to March 22, 2000.

kk. Reportable diseases and other diseases and health conditions, including lead and other heavy metal poisonings. These records are collected pursuant to Iowa Code chapter 139A. Except for statistical reports, these records are confidential as required by Iowa Code chapter 139A.

ll. Reportable sexually transmitted diseases or infections. These records are collected pursuant to Iowa Code chapter 139A. Except for statistical reports, these records are confidential as required by Iowa Code chapter 139A.

mm. State institution resident records. These records are collected pursuant to Iowa Code section 218.1. These records are confidential as outlined in Iowa Code sections 218.22, 229.24 and 229.25.

nn. State supplementary assistance clients. These records are collected pursuant to Iowa Code chapter 249. Some of these records are confidential as outlined in Iowa Code section 217.30.

oo. Substance abuse client records. These records are collected pursuant to Iowa Code chapters 125, 218, and 219 and sections 234.6 and 249A.4. These records are confidential as outlined in Iowa Code sections 125.37 and 125.93, 42 U.S.C. §29 dd.3 and ee.3, 42 CFR Part 2 as amended to October 1, 2002, and 38 U.S.C. §4132.

pp. Substance abuse program licensing complaints. These records are collected pursuant to Iowa Code chapter 125. Certain information in these records may be confidential as outlined in Iowa Code sections 22.7(2), 22.7(18) and 125.37.

qq. Title IV-E foster care and adoption assistance client files. These records are collected pursuant to Iowa Code sections 217.1, and 600.17 to 600.22. These records are confidential as outlined in Iowa Code section 217.30, 42 U.S.C. §671(a)(8), and 45 CFR 1355.30(1) as amended to November 23, 2001.

rr. Veterinary public health. These records are collected pursuant to Iowa Code chapter 139A. Certain medical information in these records may be confidential as outlined in Iowa Code chapter 139A.

ss. Vital records. These records are collected pursuant to Iowa Code chapter 144, including records of births, deaths, fetal deaths, adoptions, marriages, divorces, annulments and related data and correspondence. These records are confidential as outlined in Iowa Code section 144.43.

9.12(3) Other restricted data contained in department client records includes:

a. Department of revenue information. These records are collected pursuant to Iowa Code sections 252B.5 and 252B.9. These records are confidential as outlined in Iowa Code sections 421.17 and 422.20(1).

b. Department of workforce development information. These records are collected pursuant to Iowa Code chapters 239B, 249A, and 249C and section 252B.9. These records are confidential as outlined in Iowa Code section 217.30 and 42 U.S.C. §503(d) and (e).

c. Income and eligibility verification system. These records are collected pursuant to Iowa Code chapters 239B and 249A and sections 217.1, 234.6(7). These records are confidential as outlined in Iowa Code section 217.30 and 42 U.S.C. §1230b-7.

d. Department of public safety information. These records are collected pursuant to Iowa Code sections 237.8, 237A.5 and 252B.9. These records are confidential as outlined in Iowa Code sections 692.2, 692.3, 692.8 and 692.18.

e. Federal tax return information. These records are collected pursuant to Iowa Code chapters 239B, 249A and 252B and Iowa Code sections 217.1, 234.6(7). These records are confidential as outlined in Iowa Code section 422.20(2) and 26 U.S.C. §6103.

f. Juvenile court information. These records are collected pursuant to Iowa Code chapter 232 and section 234.6. These records are confidential as outlined in Iowa Code sections 232.48, 232.97 and 232.147 to 232.151.

g. Peer review organization. These records are collected pursuant to Iowa Code section 249A.4. These records are confidential as outlined in Iowa Code section 217.30 and 42 U.S.C. §1320c-9.

h. United States Department of Health and Human Services information. These records are collected pursuant to Iowa Code chapters 239B, 249, 249A and 252B and sections 217.1 and 234.6(7). These records are confidential as outlined in Iowa Code section 217.30 and 42 CFR Part 401.134(c) as amended to October 1, 2002.

441—9.13(17A,22) Special policies and procedures for protected health information. The department will follow all special policies and procedures for using and disclosing protected health information as outlined in 45 CFR Part 164 as amended through December 31, 2023, including the minimum necessary standard, uses and disclosures for premium rating and related purposes, verification and documentation requirements, notice of privacy practices, the right to receive an accounting of disclosures, complaint procedures, appeal rights and record retention.

441—9.14(17A,22) Person who may exercise rights of the subject.

9.14(1) Adults. When the subject is an adult, including an emancipated minor, the subject's rights under this rule may also be exercised by the subject's legal or personal representative, except as provided in subrule 9.15(3).

9.14(2) Minors. Within the limits of subrule 9.15(3), when the subject is an unemancipated minor, the subject's rights under this rule shall be exercised only by the subject's legal representative, except as follows:

a. When the department otherwise deals with the minor as an adult, as in the case of minor parents under the family investment program.

b. When otherwise specifically provided by law. However, minor subjects shall be granted access to their own records upon request, subject to the limits in rule 441—9.9(17A,22).

9.14(3) Exceptions.

a. Scope of authority. Legal and personal representatives may act only within the scope of their authority. For protected health information, the designation must reflect the subject's ability to make health care decisions and receive protected health information. For example, court-appointed conservators shall have access to and authority to release only the following information:

- (1) Name and address of subject.
- (2) Amounts of assistance or type of services received.
- (3) Information about the economic circumstances of the subject.

b. Mental health information. Only an adult subject or a subject's legal representative may consent to the disclosure of mental health information. Records of involuntary hospitalization shall be released only as provided in Iowa Code section 229.24. Medical records of persons hospitalized under Iowa Code chapter 229 shall be released only as provided in Iowa Code section 229.25.

c. Substance abuse information. Only the subject may consent to the disclosure of substance abuse information, regardless of the subject's age or condition.

d. Failure to act in good faith. If the department has reason to believe that the legal or personal representative is not acting in good faith in the best interests of the subject, the department may refuse to release information on the authorization of the legal or personal representative.

e. Abuse, neglect, and endangerment situations. Notwithstanding a state law or any other requirement of this chapter, the department, in the exercise of professional judgment, may elect not to treat a person as a subject's personal representative if:

(1) The department has reason to believe that the subject has been or may be subjected to domestic violence, abuse, or neglect by the person; or

(2) The department has reason to believe that treating the person as a personal representative could endanger the subject.

f. Protected health information. A parent, guardian, or other person acting in place of a parent who does not represent the minor for protected health information may still access protected health information about the minor if required by law.

g. Deceased subjects. If, under applicable law, an executor, administrator, or other person has authority to act on behalf of a deceased subject or of the subject's estate, the department shall treat that person as a personal representative.

h. Other. If, under applicable law, the subject of a confidential record is precluded from having a copy of a record concerning the subject disclosed to a third party, the department shall not treat the third party as a personal representative.

These rules are intended to implement Iowa Code chapters 17A, 22, 135, 217, 228, and 252G and the Health Insurance Portability and Accountability Act of 1996.

ITEM 7. Rescind 441—Chapter 16 and adopt the following **new** chapter in lieu thereof:

CHAPTER 16 NOTICES

441—16.1(17A) Definitions.

“*Adequate notice*” means any notice of decision or notice of action that includes all of the following information:

1. A description of the action taken;
2. The effective date of the action;
3. The specific reasons supporting the action, stated language likely to be understood by the average program applicant or enrollee;
4. References to applicable provisions of law supporting the action;
5. An explanation of the right to appeal; and
6. The circumstances under which assistance is continued when an appeal is filed.

“*Adverse benefit determination*” means any adverse action taken by the department regarding assistance program benefits administered by the department or on the department's behalf, excluding department decisions about requests for exceptions to policy.

“*Assistance program*” means a program administered by the department or on the department's behalf through which qualifying individuals receive benefits or services.

“*Enrollee*” means any applicant for, or recipient of, benefits or services pursuant to an assistance program.

“*Timely*” means that the notice is sent at least ten calendar days before the date the adverse benefit determination would become effective. The timely notice period shall begin on the day after the notice is sent.

441—16.2(17A) Notices.

16.2(1) *Written timely and adequate notice.* When required by federal or state law, the department will provide written timely and adequate notice of the right to appeal any adverse benefit determination that affects an individual who is applying for, or receiving benefits from, an assistance program. The department will also provide written timely notice of pending actions for a state or federal tax or debtor offset.

16.2(2) *Adequate notice.* The department shall give adequate notice of the approval or denial of assistance or services; the approval or denial of a license, certification, approval, registration, or accreditation.

16.2(3) *Dispensing with timely notice.* Timely notice may be dispensed with, but adequate notice shall be sent no later than the date benefits would have been issued, when:

a. There is factual information confirming the death of the enrollee or of the family investment program payee and there is no relative available to serve as a new payee.

b. The enrollee provides a clear written, signed statement that the enrollee no longer wishes to receive assistance, or gives information which requires termination or reduction of assistance, and the enrollee has indicated, in writing, that the enrollee understands that the consequence of supplying the information is termination or reduction of assistance.

c. The enrollee has been admitted or committed to an institution that does not qualify for payment under an assistance program.

d. The enrollee has been placed in skilled nursing care, intermediate care, or long-term hospitalization.

e. The whereabouts of the enrollee are unknown and mail directed to the enrollee has been returned by the post office indicating no known forwarding address. When the whereabouts of the enrollee become known during the payment period covered by the returned warrant, the warrant shall be made available to the enrollee.

f. The department establishes that the enrollee has been accepted for assistance in another state.

g. Cash assistance or food assistance is changed because a child is removed from the home as a result of a judicial determination or is voluntarily placed in foster care.

h. A change in the level of medical care is prescribed by the enrollee’s physician.

i. A special allowance or service granted for a specific period is terminated and the enrollee has been informed in writing at the time of initiation that the allowance or service shall terminate at the end of the specified period.

j. The notice involves an adverse determination made with regard to the preadmission screening requirements.

k. The department terminates or reduces benefits or makes changes as described at 441—subrule 40.27(3) or rule 441—75.52(249A).

l. The department terminates benefits for failure to return a completed report form, as described in paragraph 16.3(3)“*k.*”

m. The department approves or denies an application for assistance.

n. The department implements a mass change based on law or rule changes that affect a group of enrollees.

These rules are intended to implement Iowa Code chapter 17A.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 8
“Payment of Small Claims”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 217.23
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 217

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yyp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 8 defines reimbursement of small claims procedures for HHS employees. It serves to ensure HHS employees can be reimbursed for damage to personal items incurred through service to HHS clients in a timely and efficient manner.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Not applicable.
 - Classes of persons that will benefit from the proposed rulemaking:
HHS employees, primarily facilities and field staff, will benefit.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

| | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | SFY 2028 | Five-Year Total |
|--------------------------|------------|------------|------------|------------|------------|-----------------|
| Costs | | | | | | |
| Total Reimbursement* | \$2,570 | \$2,085 | \$6,430 | \$3,452 | \$1,109 | \$15,646 |
| Total Claims | 18 | 19 | 47 | 25 | 7 | 116 |
| Benefits | | | | | | |
| Increased Employee Trust | Intangible | Intangible | Intangible | Intangible | Intangible | |

*All monetary values have been rounded to the nearest dollar.

YTD as of 6/6/2023: Three claims have been approved for a total of \$652.

- Qualitative description of impact:

The nominal cost to reimburse employees for damaged personal property is justified by the benefits of retaining and supporting HHS facility and field staff workforce. Reimbursing employees for damaged personal items when in service to HHS clients helps to maintain an adequate workforce to support the critical needs of Iowans served by HHS.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

In addition to the figure above, HHS incurs personnel costs for those team members tasked with processing claims for reimbursement. However, due to the small number of claims submitted for review, costs are absorbed into current HHS employee costs.

- Anticipated effect on state revenues:

None identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs and the benefits of the proposed chapter and inaction are largely the same due to the authorizing statute. The only difference between the proposed chapter and inaction is the added benefit of flexibility and a more streamlined process for HHS employees to submit and process claims under the proposed chapter.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Iowa Code section 217.23 requires HHS to promulgate rules on reimbursement processes. Aside from streamlining internal processes via this exercise, HHS is not authorized to establish less costly alternatives.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Not applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.

- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 8 and adopt the following **new** chapter in lieu thereof:

CHAPTER 8
PAYMENT OF SMALL CLAIMS

441—8.1(217) Authorization to reimburse. The department will follow Iowa Code section 217.23(2) when reimbursing employees for personal items damaged or destroyed by clients of the department during the employee's tour of duty. The claimant shall provide the department with a detailed written account of the incident, including an estimated cost of repair or replacement.

This rule is intended to implement Iowa Code section 217.23.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 11
“Collection of Debt”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 8A.504
State or federal law(s) implemented by the rulemaking: Iowa Code sections 217.34, 234.12, 239B.14, and 249A.5

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 11 defines debt offset procedures for the legacy Department of Public Health (641—Chapter 179) and Department of Human Services (441—Chapter 11). Debt offset is intended to recoup overpayment or other debt owed to HHS. HHS impacted programs include but are not limited to Supplemental Nutrition Assistance Program, Family Investment Program, Medicaid, PROMISE JOBS, and Child Care Assistance.

Through the debt offset program, money is collected from individuals or entities having been identified as receiving an overpayment or otherwise owing funds to HHS. Repayment may include withholding part or all of federal or state tax refunds or other state payments owed to the debtor. Money collected is credited back to the program(s) making the claim.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Individuals or entities having been identified as receiving an overpayment or otherwise owing funds to the HHS will bear the cost.
 - Classes of persons that will benefit from the proposed rulemaking:
Other persons who depend on and utilize HHS program funds will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Over the last five fiscal years, HHS has cumulatively collected \$4.2 million in recoupment under the debt offset program, with an average of \$839,000 recovered each year (median \$859,000). Money

collected is used for additional service delivery or program development. Note: Debt offsets collected by programs moved out of HHS in the government reorganization have not been included in this analysis.

Identified Impacts*

| | SFY 2018 | SFY 2019 | SFY 2020 | SFY 2021 | SFY 2022 | Five-Year Total |
|------------------------|--------------|--------------|--------------|--------------|--------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | -\$1,210,000 | -\$1,363,000 | -\$1,298,000 | -\$1,283,000 | -\$1,387,000 | -\$6,541,000 |
| Service Delivery | -\$665,000 | -\$1,045,000 | -\$906,000 | -\$859,000 | -\$718,000 | -\$4,193,000 |
| Benefits | | | | | | |
| Recouped Debts | \$665,000 | \$1,045,000 | \$906,000 | \$859,000 | \$718,000 | \$4,193,000 |
| Increased Public Trust | Intangible | Intangible | Intangible | Intangible | Intangible | Intangible |
| Net Value | -\$1,210,000 | -\$1,363,000 | -\$1,298,000 | -\$1,283,000 | -\$1,387,000 | -\$6,541,000 |

*All monetary figures have been rounded to the nearest thousand.

- Qualitative description of impact:

By recouping the overpaid funds, programs will have more funds to offer other participants enrolled in their programs.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for those team members tasked with completing the debt offset procedure, as well as technology expenses.

The Iowa Department of Revenue (IDR) oversees the debt offset procedure for executive branch agencies; this was previously managed by the Department of Administrative Services (DAS). The Department of Inspections, Appeals, and Licensing (DIAL) provides investigation and customer service support for HHS debt collections. Implementation costs borne by these agencies have not been included in this analysis.

- Anticipated effect on state revenues:

Though the cost-benefit analysis shows a negative financial outcome, recoupment ensures publicly funded services are implemented as intended by the Iowa legislature and in compliance with state and federal regulations. This leads to public trust in HHS systems and programs. Further, collection of moneys owed to HHS confers a public benefit through use of returned funds to support qualifying service recipients and/or public program development.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

HHS is implementing the debt offset program according to the parameters detailed in the Iowa Code and the procedure described in IDR administrative rules (previously DAS).

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Not applicable.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Not applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

In the newly combined department, HHS does not require multiple debt offset chapters. HHS seeks to repeal the legacy Department of Public Health chapter and repromulgate all necessary rules under the legacy Department of Human Services 441—Chapter 11.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11 COLLECTION OF DEBT

441—11.1(217) Definitions.

“*Current*” means that amount which is due and owing within the previous 12 months from the date of submission to the department of administrative services or that amount which is due and owing from the date the repayment agreement or court order is implemented, if less than 12 months, before the date of submission to the department of administrative services.

“*Current repayment*” means that payment of the cumulative sum due and owing in accordance with a repayment agreement or court order for the preceding 12 months or the date of the order or agreement if the order or agreement is more recent.

“*Debtor*” means a current or former recipient of public assistance that has been determined by the department to be responsible for the repayment of a particular debt. For supplemental nutrition assistance program (SNAP), “debtor” shall include all adult members of the SNAP household participating at the time the SNAP overpayment or program violation occurred and shall include nonrecipients found guilty of violating SNAP rules by committing an act such as, but not limited to, trafficking. For child care assistance, “debtor” may include the current or former provider or current or former recipient of child care assistance. For Medicaid, “debtor” shall include any current or former Medicaid member, or the parents of a current or former Medicaid member who was under the age of 21 when the parents completed the application and had responsibility for reporting changes, who received services or benefits as a result of client or agency error or administrative overpayment or who owes a debt of unpaid premium payments for medical assistance.

“*Public assistance*” means family investment program, SNAP, Medicaid, state supplementary assistance, PROMISE JOBS, child care assistance, refugee cash assistance, and hawki program.

“*Repayment agreement*” means an agreement entered into voluntarily between the department and the debtor for the repayment of debts and detailed on a form issued by the department.

“*Written notification*” means the notification sent to a debtor by the department on a form issued by the department.

441—11.2(217) Establishment of claim.

11.2(1) *Accounts.* The department will maintain an account for each debt that has occurred containing the following information:

- a. A debtor name and account number.
- b. Program in which the debt occurred.
- c. Date the debt was discovered.
- d. Inclusive dates of the debt.
- e. Total dollar amount of each debt.
- f. Primary cause of the debt.
- g. Any transaction applied to this debt.

11.2(2) *Notice of debt.* A claim is established when the first written notice of the debt is issued to the household.

11.2(3) *Change in debt.* An additional written notification of debt will be issued if a change occurs in the amount or period of the debt.

11.2(4) *Collection action.* No collection action will be initiated on:

- a. A debt for which no notice of debt has been issued to the household.
- b. A debt that is in appeal status.
- c. A debt that is in suspended status due to an exception to policy.

441—11.3(217) Application of payment. Payment will be applied only to debts subject to collection pursuant to subrule 11.2(4).

11.3(1) *Application of payment to a single program area.*

a. If there is more than one debt in a program, payment will be applied:

- (1) First to all debts which have an agreement in chronological order of discovery, and
- (2) Then to debts which do not have an agreement in chronological order of discovery until all debts have been paid in full or the full payment amount has been exhausted.

b. For SNAP, payment will be applied first to all debts with an agreement and then to debts without an agreement. Within those two groupings, payment will be applied in the following order:

- (1) First to state-only debts in chronological order of discovery,
- (2) Then to intentional program violation (IPV) debts in chronological order of discovery,
- (3) Then to inadvertent household error (IHE) debts in chronological order of discovery, and
- (4) Then to agency error debts in chronological order of discovery.

11.3(2) *Application of payment to multiple program areas.* If there are debts in more than one program area of public assistance, payments received will be applied to those program areas as indicated by the mode of repayment (SNAP benefits, FIP benefits) or as indicated by the client at the time of payment.

11.3(3) *Application of undesignated cash payment.* If an undesignated cash payment is received, it will be applied to each program area proportionally based on the cumulative balance of all debts in all program areas combined.

441—11.4(217) Setoff against state income tax refund, rebate, or other state payments, including, for example, state employee wages.

11.4(1) *Criteria for setoff.*

a. A claim against a debtor may be made by the department for public assistance debts when:

- (1) A debtor has failed to negotiate a repayment agreement for that program area of public assistance, or

- (2) A repayment agreement is not current, and
- (3) The cumulative balance of the applicable debts in 11.4(1)“a”(1) and (2) exceeds \$50.

b. A claim against a debtor will not be made by the department for debts when:

- (1) The debt is in suspended status due to an exception to policy or is in an appeal status, or
- (2) The debt is being recovered through grant or benefit reduction.

11.4(2) *Frequency of submission.* The department will submit to the department of administrative services twice each month a list of those debtors who have a debt meeting the criteria in subrule 11.4(1).

11.4(3) *Pre-setoff notice.* The department will mail written notification to a debtor to inform the debtor of the amount the department intends to claim and apply to debts in each program when:

- a. The department is notified by the department of administrative services that the debtor is entitled to a state income tax refund, rebate, or other state payment;
- b. The department makes claim against the debtor.

11.4(4) *Method for division of joint payments.* When either spouse wishes to request a division of a jointly or commonly owned right to payment, a written request shall be submitted to the department within 15 days after the written notification is mailed. When the request is received within the 15-day limit, the spouse's proportionate share of a jointly or commonly owned right to payment, as determined by the department of administrative services, shall be released by the department of administrative services unless:

- a. Other claims are made on that portion of the jointly or commonly owned right to payment, or
- b. That spouse was also a member of the same household and the spouse's income and resources were or should have been considered in the calculation of public assistance.

11.4(5) *Appeal rights.* When a debtor wishes to contest the claim of the department, a written request shall be submitted to the department within 15 days after the written notification is mailed. When the request is received within the 15-day limit, a hearing will be granted pursuant to rules in 441—Chapter 7.

a. If the department is upheld in the final decision, the setoff process will continue and the refund, rebate, or other state payment will be applied to the appropriate delinquent debts.

b. If the department is reversed in the final decision, the debtor's refund, rebate, or other state payment shall be released to the debtor by the department of administrative services.

11.4(6) *Debt setoff.* If the department has not received a request for an appeal hearing or a request for division of a jointly or commonly owned right to payment within 15 days after the date the written notification is mailed, the department will notify a debtor of the final decision regarding the claim by mail.

11.4(7) *Application of setoff.* The department will apply any setoff received from the department of administrative services as a result of this rule to the debtor's debts as indicated on the written notification mailed to the debtor and in accordance with rule 441—11.3(217).

Any amount remaining after the setoff shall be released back to the individual.

441—11.5(234) Setoff against federal income tax refund or other federal payments, including, for example, federal employee wages.

11.5(1) *Criteria for setoff.*

a. Debtors not participating in SNAP shall be subject to collection action through the treasury offset program (TOP) which includes, but is not limited to, federal salary offset and federal tax refund offset.

(1) Debtors shall be referred to TOP if they are delinquent in repaying their SNAP debt and there is a claim or combination of claims with an unpaid balance which exceeds \$25.

(2) No claim which is less than three months old or more than ten years old as of January 31 of the offset year shall be referred. EXCEPTION: Claims which have had a final judgment entered are not subject to the ten-year time limit.

(3) Debtors are delinquent in repaying their SNAP debt if:

1. A repayment agreement has not been signed and 120 days have elapsed since the due date of the demand letter as defined in 441—subrule 65.21(4) minus any days the claim was not subject to collection action because of an appeal.

2. A repayment agreement has been signed but the debtor has failed to make the agreed-upon payments and has failed to make up the missed payments. The debtor shall be referred to TOP when

120 days have elapsed since the first of the month following the month that the debtor failed to make the agreed-upon payment and has not subsequently made up the missed payment.

b. A claim against an individual will not be referred to TOP by the department of inspections, appeals, and licensing (DIAL) for debts when:

- (1) The debt is in suspended status due to an exception to policy or is in an appeal status, or
- (2) The debt is being recovered through benefit reduction.

11.5(2) *Setoff under TOP.* DIAL shall, by December 1 of each year, submit a notification of liability for delinquent claims to the Department of the Treasury.

11.5(3) *Pre-setoff notice.* DIAL shall notify a debtor identifying the amount the department intends to refer to TOP for offset.

11.5(4) *Offset fee.* For each offset that the Treasury Department effects against an individual referred to TOP, Treasury will charge the individual a fee.

11.5(5) *Appeal rights.* When an individual wishes to contest the delinquent status of a claim as identified by DIAL, a written request shall be submitted to DIAL within 60 days of the date of the pre-offset notice. When the request is received within the 60-day limit, a review shall be granted.

DIAL shall determine if the claim is past due and legally enforceable and shall notify the individual in writing of the decision.

11.5(6) *Application of setoff.* DIAL shall apply any setoff received as a result of this rule to the individual's SNAP debts.

Any amount remaining after the setoff shall be released back to the individual.

These rules are intended to implement Iowa Code sections 217.34, 234.12, 239B.14, and 249A.5.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 13
“Program Evaluation”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 234.12, 237A.12, 239B.4, 249A.4, and 514I.4

State or federal law(s) implemented by the rulemaking: Not applicable

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 13 defines HHS methods and procedures to review public assistance program eligibility determinations made by HHS staff. These quality control measures are designed to ensure HHS implements these programs in accordance with the Iowa Code and federal regulations and in an efficient and effective manner. HHS impacted programs include Supplemental Nutrition Assistance Program, Family Investment Program, Medical Assistance, and Child Care Assistance.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
None.
 - Classes of persons that will benefit from the proposed rulemaking:
Program recipients will benefit from quality control measures that ensure accuracy of eligibility determinations.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:

Identified Impacts*

| | SFY 2023 | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | Five-Year Total |
|------------------------|--------------|--------------|--------------|--------------|--------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | -\$1,672,000 | -\$1,819,000 | -\$1,947,000 | -\$1,950,000 | -\$1,911,000 | -\$9,299,000 |
| Benefits | | | | | | |
| Improved HHS Services | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Increased Public Trust | Intangible | Intangible | Intangible | Intangible | Intangible | Intangible |
| Net Value | -\$1,672,000 | -\$1,819,000 | -\$1,947,000 | -\$1,950,000 | -\$1,911,000 | -\$9,299,000 |

*All monetary figures have been rounded to the nearest thousand.

- Qualitative description of impact:

Improved quality control measures for Iowans seeking these services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for those team members tasked with completing the quality control procedure. These costs are reflected in the figure above, labeled as “HHS Implementation.”

- Anticipated effect on state revenues:

Not applicable.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Though the cost-benefit analysis shows a negative financial outcome, quality control measures ensure publicly funded services are implemented as intended by the Iowa legislature and in compliance with state and federal regulations. Review findings also assist HHS in making quality improvements to the processes and procedures that support how HHS team members determine eligibility for public assistance programs. This leads to efficient and effective provision of public services and an increased public trust in HHS systems and programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No less costly or intrusive methods were identified.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Not applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS is implementing the quality control program according to the parameters detailed in the Iowa Code and federal regulations.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 13 and adopt the following **new** chapter in lieu thereof:

CHAPTER 13
PROGRAM EVALUATION

441—13.1(234,239B,249A,514I) Definitions.

“*Active case*” means a case that was receiving assistance for the month of review.

“*Case record*” means the record used to establish a client's eligibility.

“*Client*” means a current or former applicant or recipient of the family investment program (FIP), Supplemental Nutrition Assistance Program (SNAP), child care assistance program, or medical assistance program.

“*Field investigation*” means a contact involving the public or other agencies to obtain information about the client's circumstances for the appropriate month of review.

“*Medical assistance programs*” means those programs funded by Medicaid or the Children's Health Insurance Program (CHIP).

“*Month of review*” means the specific calendar or fiscal month for which the assistance under review is received.

“*Negative case*” means a case that was terminated or denied assistance in the month of review.

“*Public assistance programs*” means those programs involving federal funds, i.e., family investment program (FIP), Supplemental Nutrition Assistance Program (SNAP), child care assistance program, and medical assistance program.

“*Random sample*” means a systematic (or every nth unit) sample drawn monthly for which each item in the universe has an equal probability of being selected. Sample size is determined by federal guidelines or state corrective action needs.

“*State policies*” means the rules and regulations used by the department to administer the family investment program (FIP), Supplemental Nutrition Assistance Program (SNAP), child care assistance program, and medical assistance program.

This rule is intended to implement Iowa Code sections 234.12, 239B.4, 249A.4 and 514I.4.

441—13.2(234,239B,249A,514I) Review of public assistance records by the department.

13.2(1) Authorized representatives of the department shall have the right to review case records to determine the following:

- a. If the client has provided complete, correct and accurate information to the department to be used in the determination of the assistance benefits.
- b. If the department has correctly administered the state policies in determination of assistance for the public assistance programs.
- c. Whether overpayments or underpayments have been made correctly to the public assistance client during the month of review.
- d. If there is indication of fraudulent practice or abuse of the public assistance programs by either the client or department.

13.2(2) All pertinent case records within the department may be used by the reviewer to assist in substantiating an accurate reflection as to the correctness of the assistance received by the client.

This rule is intended to implement Iowa Code sections 234.12, 239B.4, 249A.4 and 514I.4.

441—13.3(234,239B,249A,514I) Cases to be reviewed. Any active or negative public assistance case may be reviewed at any time at the discretion of the department to:

13.3(1) Ensure federal and state requirements for quality control are met.

13.3(2) Detect error prone case issues to assist in corrective action.

13.3(3) Maintain public assistance program integrity.

This rule is intended to implement Iowa Code sections 234.6, 234.12, 239B.4, 249A.4, and 514I.4.

441—13.4(234,239B,249A,514I) Notification of review. On positive case actions, clients will be notified, either orally or in writing, that their case has been selected for review when contact is required by federal guidelines, or when contact is allowed and additional information is required to complete the review. The client will be contacted in a negative case only if a discrepancy exists that cannot be resolved from the case record and contact is allowed by federal guidelines.

This rule is intended to implement Iowa Code sections 234.6, 234.12, 239B.4, 249A.4, and 514I.4.

441—13.5(234,239B,249A,514I) Review procedure. The department will select the appropriate method of conducting the review.

13.5(1) A random sampling of active and negative case actions will be used to determine the case records to be studied.

13.5(2) The case record will be analyzed for discrepancies and correct application of policies and procedures and will be used as the basis for a field investigation.

13.5(3) Client interviews are required as follows:

a. Personal interviews are required on all active SNAP reviews.

b. An appointment letter may be sent to the client by the department to schedule or confirm the appointment date, time and location.

c. Client contacts are only required in negative case reviews when there is a discrepancy that cannot be resolved from the case record.

13.5(4) Collateral contacts are made whenever the client is unable to furnish information needed or the reviewer needs additional information to establish the correctness of eligibility and payment but only when allowed by federal guidelines. Verification to confirm the accuracy of statements or information may be obtained by documentary evidence or a contact with a third party.

a. The client shall release specific information whenever necessary to verify information essential to the determination of eligibility and payment.

b. Should the client refuse to authorize the department to contact an informant to verify information that is necessary for the completion of the review, collateral contacts will still be made through use of the general release statement contained in the financial support application or the review/recertification eligibility document.

This rule is intended to implement Iowa Code sections 234.6, 234.12, 239B.4, 249A.4, and 514I.4.

441—13.6(234) Failure to cooperate. Client cooperation with quality control is a program eligibility requirement as set forth in rule 441—65.3(234). When quality control determines that a client has refused to cooperate with the review process, the client is no longer eligible for the program benefits and will not be eligible for the program benefits until the client has cooperated.

This rule is intended to implement Iowa Code section 234.12.

441—13.7(234,239B,249A,514I) Report of findings. The quality control review findings are used by the department in the following ways:

13.7(1) To take the appropriate case action where an overpayment or underpayment has been found in a client's case record.

13.7(2) To identify error-prone program issues to be used in planning a department corrective action plan.

13.7(3) To determine the error rate used to establish state agency liability.

This rule is intended to implement Iowa Code sections 234.12, 239B.4, 249A.4, and 514I.4.

441—13.8(234,237A,239B,249A,514I) Federal review. A sample of cases may also be reviewed by the applicable federal agency to determine the correctness of the department's action or of the department's review of the case.

This rule is intended to implement Iowa Code sections 234.12, 237A.12, 239B.4, 249A.4, and 514I.4.

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yyp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 122 sets forth oversight measures of HHS in relation to the Early Childhood Iowa area boards to ensure sound fiscal management of Early Childhood Iowa funds. HHS reviews internal controls managing disbursement of funding, approves and signs agreements between the area boards and the State, requires a regular audit of funds managed by each area board, and ensures area boards have liability insurance and a contract monitoring schedule for their funded programs.

Sound fiscal oversight of Early Childhood Iowa area boards works to ensure these boards operate optimally, allowing boards to successfully improve efficiency and effectiveness of early care services provided to families.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Early Childhood Iowa area boards will bear the costs.
 - Classes of persons that will benefit from the proposed rulemaking:
Parents accessing early care services supported by an Early Childhood Iowa area board, communities utilizing an Early Childhood Iowa board to improve the efficiency and effectiveness of early care services provided to families, and children served by such early care services will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2023 | SFY 2024 | SFY 2025 | Three-Year Total |
|------------------------------|-------------|-------------|-------------|------------------|
| Costs | | | | |
| State Agency Implementation | \$371,000 | \$376,000 | \$417,000 | \$1,164,000 |
| Area Board Audits | \$14,000 | \$22,000 | \$15,000 | \$51,000 |
| Benefits | | | | |
| Increased Public Trust | Intangible | Intangible | Intangible | Intangible |
| Improved Early Care Services | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | -\$385,000 | -\$398,000 | -\$432,000 | -\$1,215,000 |

*All monetary figures have been rounded to the nearest thousand.

- Qualitative description of impact:

State agency team members provide ongoing technical assistance and oversight of each local board's operating procedures, the local board's contract audits, community needs assessment reviews and local designation meetings, and reviews of reports submitted within iowagrants.gov.

Local boards operate under sound fiscal policies, using programmatic data metrics aligned with their local investments, and pay for an annual official audit by a firm of their choice.

Early Childhood Iowa area boards must comply with fiscal oversight measures by reporting in IowaGrants via a midyear financial report, budget, and annual report with fiscal verification from their fiscal agent, including conducting regular financial audits of funds managed by the board.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to provide fiscal oversight of Early Childhood Iowa area boards; prior to FY 2024, these team members reported to the Department of Management. Costs to the state agency have included a range of 2.25 full-time equivalent (FTE) positions to 2.5 FTE positions, travel, and office space expenses across the fiscal years shown. These costs are reflected in the table above, labeled as "State Agency Implementation."

- Anticipated effect on state revenues:

No impact was identified.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a known three-year total net value of -\$1,215,000, averaging \$405,000 per year, to oversee improved early care services in those areas covered by an Early Childhood Iowa area board. Eliminating fiscal oversight measures as defined in this chapter may diminish the quality of operations of area boards, thus impacting the area board's ability to improve early care services to the same degree the board might when operating under sound fiscal practices. An area board using funds fraudulently or in contradiction to the requirements of the Iowa Code may diminish public trust in the Early Childhood Iowa program and HHS.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly method has not been identified to achieve the purpose of this chapter.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements fiscal oversight of the Early Childhood Iowa area boards in accordance with requirements of the Iowa Code. This chapter does not ascribe department duties or implementation elements in addition to those directly defined in the Iowa Code.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 122 and adopt the following **new** chapter in lieu thereof:

CHAPTER 122 FISCAL OVERSIGHT OF THE EARLY CHILDHOOD IOWA INITIATIVE

441—122.1(256I) Definitions. For the purpose of these rules, the following definitions apply:

“*Agreement*” means a contract between the area boards, state board, department, and state agencies to which funding is allocated.

“*Audit*” means a financial review by area boards of early childhood Iowa funds. Area boards that receive federal funds shall complete an audit of the funds. The audit must be a single audit if the area board received a total of federal funds from all funding sources in excess of the threshold defined in 2 CFR 200.501(b) as amended to December 31, 2023. Area boards that are not required to conduct a single audit under 2 CFR 200.501(b) as amended to December 31, 2023, may coordinate with the fiscal agent to conduct the required audit. The audit requirements shall be found in the online toolkit available on the department website.

“*Early childhood Iowa area board*” or “*area board*” means the same as defined in Iowa Code section 256I.1.

“*Early childhood Iowa state board*” or “*state board*” means the same as defined in Iowa Code section 256I.1.

441—122.2(256I) Fiscal oversight.

122.2(1) In consultation with the state board, the department has adopted policies to oversee the fiscal responsibilities of area boards.

122.2(2) The department will:

- a. Review the internal controls of all disbursements of early childhood Iowa funding;
- b. Approve the process for issuing agreements with area boards;

- c.* Approve and sign all agreements between the area boards and the state for the purposes of Iowa Code chapter 256I;
 - d.* Develop a policy for the disbursement of funds;
 - e.* Require an audit, conducted by an independent agency, of the early childhood Iowa funds managed by area boards. The minimum requirements and frequency of audits for the area boards shall be determined and approved by the state board;
 - f.* Ensure that all area boards secure liability insurance;
 - g.* Require that area boards submit a contract-monitoring schedule for their funded programs.
- These rules are intended to implement Iowa Code sections 256I.1 through 256I.12.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 200
“Adoption Services”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 232.119

State or federal law(s) implemented by the rulemaking:

- Iowa Code chapter 600.
- Title IV-E of the Social Security Act (42 U.S.C. Sections 670 through 679b) provides for federal funding for foster care and adoption assistance.
 - The Howard Metzenbaum Multiethnic Placement Act of 1994 (MEPA), 42 U.S.C.A. 51151, as amended by the Interethnic Adoption Provision of 1996 (IEP).
 - Public Law 95-608, Indian Child Welfare Act of 1978, Policy Sec. 4(4), 101(a), (b), and (c), 102(a), 102(d), 103(a), 105(b), 201.
 - Public Law 96-272, Adoption Assistance and Child Welfare Act of 1980.
 - Public Law 100-294, Child Abuse Prevention, Adoption, and Family Services Act of 1988.
 - Public Law 105-89, Adoption and Safe Families Act of 1997 (ASFA), PL 108-145, the Adoption Promotion Act of 2003.
 - Public Law 109-239, Safe and Timely Interstate Placement of Foster Children Act of 2006.
 - Public Law 109-248, Adam Walsh Child Protection and Safety Act of 2006.
 - Public Law 109-288, Child and Family Services Improvement Act of 2006.
 - Public Law 110-351, Fostering Connections to Success and Increasing Adoptions Act of 2008.
 - Public Law 111-320, CAPTA Reauthorization Act of 2010.
 - Public Law 112-34, Child and Family Services Improvement and Innovation Act of 2011.
 - Public Law 113-183, Preventing Sex Trafficking and Strengthening Families Act of 2014.
 - Public Law 114-95, Every Student Succeeds Act of 2015.
 - Public Law 114-22, Justice for Victims of Trafficking Act of 2015.
 - Public Law 115-123, Bipartisan Budget Act of 2018 (also Family First Prevention Services Act).

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Purpose and Summary

Proposed Chapter 200 structures adoption services to be provided by HHS to place eligible children in adoptive arrangements that are safe, high quality, and in the best interest of the child. HHS accepts

applications for adoption of children with special needs; application for adoption of a child without special needs is referred to a private child-placing agency, though exception may be made for relatives of children under the guardianship of HHS.

Applicants applying to HHS to adopt must participate in a preplacement assessment and home visit. A child will not be placed in an adoptive home until parental rights of the child’s birth parents have been terminated. Preference is given to placing children from the same birth family together. A relative or other adult with a significant relationship with the child is given priority consideration. Foster parents will be given consideration for a child in their care.

HHS conducts activities designed to prepare the family and the child to make the transition to adoptive placement, including conducting transitional visits between the adoptive family and the child before placement in the home. Additionally, HHS makes monthly supervision visits from the time the child is placed with the family until finalization of the adoption occurs. HHS will not release identifying information from sealed adoption records unless approved to do so by the Director for purposes of treatment or research.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
None were identified.
 - Classes of persons that will benefit from the proposed rulemaking:
Families seeking adoption and the children who will be adopted will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:
Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2023 | SFY 2024 | SFY 2025 | SFY 2026 | SFY 2027 | Five-Year Total |
|--|-------------|-------------|-------------|-------------|-------------|-----------------|
| Costs | | | | | | |
| HHS Implementation | -\$123,000 | -\$131,000 | -\$136,000 | -\$138,000 | -\$142,000 | -\$670,000 |
| Benefits | | | | | | |
| Improved Outcomes for Adopted Children | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | -\$123,000 | -\$131,000 | -\$136,000 | -\$138,000 | -\$142,000 | -\$670,000 |

*All monetary figures have been rounded to the nearest thousand.

Improved outcomes are realized when children experience timely, stable, and permanent adoptive placements. Per federal regulation, this is measured through timely adoption within 24 months of removal. In 2022, 58 percent of children served by HHS seeking adoptive placement met this metric. This is up from 50 percent in 2018.

- Qualitative description of impact:

Permanency in the form of adoption is important for children to develop healthy secure relationships and serves to reduce the potential stressors that arise from being displaced multiple times. Youth who experience minimized placement changes are more likely to experience fewer school changes, less trauma and distress, decreased mental health complications, less behavioral problems, increased probabilities for academic achievement, and a lasting positive relationship with an adult.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

HHS incurs personnel costs for team members to support the adoption program. These costs are reflected in the figure above, labeled as “HHS Implementation.” Other service delivery costs incurred by the adoption program are reflected in the cost-benefit analysis for 441—Chapters 203 and 204 and are not reflected here.

- Anticipated effect on state revenues:
Not applicable.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of -\$670,000 over the five years studied and improved outcomes for children in adoptive care. Eliminating adoption services provided by HHS is likely to reduce the number of adoptive arrangements available to qualified children seeking adoption. Without the assessment and home visit services detailed in this chapter, adoptive relationships may be more likely to fail. A lack of available, quality, and adoptive relationships increases the likelihood of adverse impact to the child.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

No less costly or intrusive methods exist.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
Not applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS implements adoption services in accordance with requirements of the Iowa Code and federal regulations; overall, HHS implements the program as directed and has little flexibility in determining program elements. Activity under this chapter seeks to place eligible children under the guardianship of HHS in adoptive arrangements that are safe, high quality, and in the best interest of the child. The pre- and postadoption services offered to the child and adoptive family under this chapter reinforce and ensure stable and safe placements. A less intrusive method has not been identified to achieve the purpose of this chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 200 and adopt the following new chapter in lieu thereof:

TITLE XVI
ALTERNATIVE LIVING
CHAPTER 200
ADOPTION SERVICES

441—200.1(600) Definitions.

“Adoption” means a legal and social process through which a child becomes a member of a family into which the child was not born. Adoption provides the child the same rights, privileges and duties as a birth child.

“Adoption selection” means the process of making adoption placement decisions. The adoption selection committee team, tasked with making the final adoption placement decision, is made up of department of health and human service professionals. These professionals are brought together to review the child(ren)’s needs and the family’s abilities to meet those needs, to make the best adoption match available and to ensure compliance with applicable adoption laws.

“Adoption selection committee team” means department staff members designated to assist in the adoption selection process. The adoption selection committee team consists of the adoption supervisor and a minimum of two adoption workers. The social work administrator (SWA) may elect to be part of the team if there is more than one family seeking to adopt the child and the SWA may select additional department staff to serve as members of the team on a case-by-case basis.

“Adoption service” means a service directed towards children who are legally available for adoption, the birth family, prospective adoptive family, and adoptive family.

“Adoptive family” means an approved person or persons who have a child placed in their home and are being supervised prior to finalizing the adoption; or who have a child in their home who is legally adopted and entitled to the same benefits as a child born into the family.

“Adoptive home study” includes an assessment of the family’s parental attributes and a written report stating approval or nonapproval of the family for adoptive placement of a child or children.

“Child study” includes a written description of the child including strengths and needs; medical, mental, social, educational, placement and court history; a description of the child’s relationships with the birth family, foster family, and significant others; a summary of the child’s understanding and feeling about adoption and recommendations as to the type of family that can best meet the child’s needs.

“Child with special needs” means a child who meets one or more of the criteria set forth at 441—subrule 201.3(1).

“Court-ordered studies” means home studies ordered by a judge for the purpose of determining custody of a child or placement of a child for the purpose of adoption.

“Department” means the Iowa department of health and human services and includes the local offices of the department.

“Family-centered services” means services and other support intended to safely maintain a child with the child’s family or with an adult relative, to safely and in a timely manner return a child to the home of the child’s parent or relative, or to promote achievement of concurrent planning goals by identifying and helping the child secure placement for adoption, with a guardian, or with other alternative permanent family connections. Family-centered services include services adapted to the individual needs of a family regarding the specific services and other support provided to the child’s family and the intensity and duration of service delivery and services intended to preserve a child’s connections to the child’s neighborhood, community, and family and to improve the overall capacity of the child’s family to provide for the needs of the children in the family.

“Foster family adoption” means the adoption of a child by a licensed foster family who has cared for the child.

“Guardianship record” means a case record regarding a child, established and retained by the department, when the department is named guardian of the child by court order. The purpose of the

guardianship record is to collect and maintain information about the child and the birth family, legal documents, and other information that will assist in fulfilling the responsibility of guardian.

“Life book” means a compilation of information about the child, including birth information, photographs of the child; placement history, including dates of placement, names of caretakers, reasons for leaving the placement; relationships; school reports; social, medical, mental health developmental history; awards received, important events, letters from significant persons, and other information that the child wishes to include. The life book will assist the child in dealing with separation and loss issues and provide background and genealogy data.

“Placement services” includes the activities and travel necessary to plan and carry out the placement of a child or children into the adoptive family.

“Postadoption services” includes those services that an adoptive family may access after the adoption is finalized to assist the family in coping with and resolving problems within the family.

“Postplacement services” includes the supervision, support and intervention necessary prior to finalization to assist in maintaining the adoptive placement.

“Preadoptive family” means an approved adoptive family with a child placed in the home for adoption whose adoption has not been finalized.

“Preparation of child” includes activities necessary to ready the child for placement into an adoptive family.

“Preparation of family” includes the activities necessary to assist the family in adding an adoptive child as a new member of their family.

“Preplacement visits” means contacts, activities, and visits between the child and adoptive family prior to the adoptive placement.

“Procedendo” means an order issued by the Iowa Supreme Court returning jurisdiction to the district court after a final appellate decision regarding an appeal.

“Recruitment and retention contractor” or *“contractor”* means the entity that contracts with the department statewide to recruit foster and adoptive parents, complete home studies, and perform activities to support and encourage retention of foster and adoptive parents, or any of its subcontractors.

“Relative” means an individual related to a child within the fourth degree of consanguinity or affinity, by marriage, or through adoption.

“Selection of family” means reviewing approved home studies to match a family’s strengths with a specific child’s needs.

441—200.2(600) Application. Persons wishing to apply to adopt a child through the department shall complete an Application for Adoption form. An application for adoption shall only be accepted for children who are under the guardianship of the department.

200.2(1) Limitations. The department and its contractor shall accept only applications for adoption of a special needs child. The department shall refer adoption applications for children without special needs to private child-placing agencies. Exceptions to this rule may be made for:

- a. Relatives of a child under the guardianship of the department; or
- b. Foster parents with whom the child has a significant relationship.

200.2(2) Procedures. Before a home study is completed, applicants shall:

- a. Complete the Application for Adoption form, and
- b. Ensure that the Physician’s Report for Foster and Adoptive Parents form is completed by the applicant’s family physician.

441—200.3(600) Adoption services. Adoption services shall include: adoptive home study, preparation of child, selection of family, preparation of family, preplacement visits, placement services, and postplacement services.

200.3(1) Adoptive home study. For applicants who apply to the department to adopt, the contractor shall prepare an adoptive home study through the following activities:

- a. *Family assessment.* The family assessment shall include a minimum of two face-to-face interviews with the applicants and at least one face-to-face interview with each member of the

household. At least one of the interviews shall take place at the applicant's home. The assessment of the prospective adoptive family shall include an evaluation of the family's ability to parent a special needs child or children including the following:

- (1) Motivation for adoption and whether the family has biological children, adopted children or children in foster care currently placed in the home.
- (2) Family's and extended family's attitude toward accepting an adopted child and plans for discussing adoption with the child.
- (3) The attitude toward adoption of other people involved with the family in a significant way.
- (4) Emotional maturity; marital history, including verification of marriages and divorces; assessment of marital relationship; and compatibility of the adoptive parents.
- (5) Ability to cope with problems, stress, frustrations, crises, separation, and loss.
- (6) Medical, mental, and emotional conditions that may affect the applicant's ability to parent a child; treatment history; status of treatment; and the evaluation of the treatment. Applicants and all household members must disclose any past or current mental health or substance abuse issues, or both. The department may require further documentation, evaluation, or both, to determine the suitability of the home.
- (7) Willingness to accept a child who has medical problems (such as a child who is at risk for a communicable disease), intellectual disabilities, or emotional or behavioral problems. Ability to provide for the child's physical, medical, and emotional needs and commit to support a child's overall well-being.
- (8) Description of biological children and previously adopted children, if any, including their attitudes toward adoption, relationship with others, and school performance.
- (9) Capacity to give and receive affection.
- (10) Statements from three references provided by the family and additional references the contractor may wish to contact.
- (11) Attitudes of the adoptive applicants toward the birth parents and the reasons the child is available for adoption.
- (12) Financial information, including the family's ability to provide for a child.
- (13) Disciplinary practices that will be used.
- (14) History of abuse involving family members, including how the abuse was addressed and how that history impacts the applicant's ability to be an adoptive parent.
- (15) Assessment of, commitment to, and capacity to maintain other significant relationships.
- (16) Recommendations for the number, age, sex, characteristics, and special needs of a child or children the family can best parent.
- (17) The family's ability to anticipate and understand the special needs of an adopted child as the child gets older and how the family will manage those needs.

b. Record checks. Record checks are required for each applicant and for anyone who is 14 years of age or older living in the home of the applicant to determine whether any of those persons have founded child abuse reports, dependent adult abuse reports or criminal convictions or have been placed on the sex offender registry.

- (1) The records of the applicants shall be checked:
 1. On the Iowa central abuse registry using the Request for Child Abuse Information form;
 2. By the Iowa division of criminal investigation, using the HHS Criminal History Record Check Form B;
 3. On the Iowa sex offender registry;
 4. On the child abuse registry of any state where the applicant has lived during the five years prior to the issuance of the investigative report; and
 5. For a national criminal history through fingerprinting or another biometric identification-based process accepted by the federal government.
- (2) The records of persons aged 14 or older living in the home of the applicant shall be checked:
 1. On the Iowa central abuse registry using the Request for Child Abuse Information form;
 2. By the Iowa division of criminal investigation, using the HHS Criminal History Record Check Form B; and

3. On the Iowa sex offender registry.

(3) Out-of-state child abuse checks, dependent adult abuse checks and national criminal history checks may be completed on any adult living in the home of the applicant if the department has reason to do so.

(4) The department shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has been convicted of a felony offense as set forth in Iowa Code section 600.8(2)“b.”

(5) The department shall not approve a prospective applicant and shall not perform an evaluation if the applicant or anyone living in the home of the applicant has committed a crime in a state other than Iowa that would be a forcible felony if the crime would have been committed in Iowa, as set forth in Iowa Code section 600.8(2)“b.”

c. Evaluation of record.

(1) If the applicant or anyone living in the home has a record of founded child abuse, dependent adult abuse, a criminal conviction, or placement on the sex offender registry, the applicant shall not be approved to adopt unless an evaluation determines that the abuse or criminal conviction does not warrant prohibition of approval.

(2) The evaluation shall be conducted according to procedures in 441—subrules 113.13(2) and 113.13(3) for applications for adoption through the department or procedures in 441—paragraph 108.9(4)“e” for applications for adoption through a child-placing agency.

d. Written report. The contractor shall prepare a written report of the family assessment, known as the adoptive home study, which shall be used to make recommendations on appropriate placement.

(1) The department shall notify the family of the decision using the Adoption Notice of Decision form.

(2) If the department does not approve the home study, the reasons shall be stated on the notice.

(3) The department shall provide the family a copy of the adoptive home study with the notification of approval or denial.

e. Preplacement assessment and home study update. A preplacement assessment and home study update is required if the adoptive home study was written more than two years previously, in accordance with Iowa Code section 600.8. The preplacement assessment and home study update shall be conducted by completion of the following:

(1) The child abuse, dependent adult abuse and criminal record checks shall be repeated, except for fingerprinting. If there are any founded abuses or convictions of crimes that were not evaluated in the previous home study, they shall be evaluated using the process set forth in paragraph 200.4(1)“c.”

(2) One face-to-face visit shall be conducted with the approved adoptive family.

(3) The information in the approved adoptive home study shall be reassessed.

(4) An updated written report of the reassessment and adoptive home study shall be written, dated, signed by the worker and supervisor for the contractor, and a copy provided to the adoptive family.

(5) Families who are dually licensed to provide foster family care shall have their adoption approval date align with their foster home licensing date.

f. Procedure for foster parent adoptions. When a licensed foster parent applies for approval as an adoptive home, home study activities that have been completed within the previous year as part of a licensing study pursuant to 441—Chapter 113 need not be repeated.

g. Annual visits to the adoptive family home. The contractor shall complete a minimum of one visit each year in the homes of families approved to adopt.

(1) The visit shall not be waived.

(2) When a person aged 14 or older moves into the home, the agency shall perform checks on the Iowa central abuse registry, by the division of criminal investigation, and on the sex offender registry. The record check evaluation process shall be completed if the person has a criminal conviction or founded abuse report or is on the sex offender registry.

(3) Findings and observations of the visit shall be documented and provided to the department when the update is submitted.

(4) The department shall be notified within 30 days of any deficiencies noted or other concerns discovered that require corrective action.

200.3(2) Preparation of child. The department shall conduct specific activities designed to enable a child to make the transition to an adoptive placement or refer the child to the family-centered services contractor or other professionals. The activities shall include, but not be limited to:

a. Counseling regarding issues of separation, loss, grief, guilt, anger and adjustment to an adoptive family.

b. Assisting in the preparation or update of a life book.

c. Provision of age-appropriate information regarding community resources available, such as children's support groups, to assist the child in the transition and integration into the adoptive family.

d. Any appropriate evaluations or testing.

200.3(3) Adoption selection process. When the department is appointed guardian of a child(ren) following the termination of parental rights, the department has both the duty and the authority to select an adoptive placement for that child(ren). To fulfill this duty, the department must hold a conference during which the department selects an adoptive family for an identified child(ren). At the conference, known as an adoption selection staffing, each interested family with an approved adoption or interstate compact home study will be considered. The adoption selection committee will determine which family will be able to best meet the needs of the child(ren) going forward. The adoption selection process will value the best interest of the child(ren) above all else.

a. The selection committee will consider placement priority as outlined in Iowa Code section 232.117 and will consider the following:

(1) The adoptive family selected for a child or sibling group must be based on a thorough assessment of each child's current and potential developmental, medical, emotional, and educational needs.

(2) The child(ren)'s need for family connections will be prioritized. Separation of siblings should be avoided. When separation is necessary to protect the safety and well-being of one or more children in the sibling group, all reasonable efforts must be made to select a placement likely to maintain contact between siblings if such contact is in the best interests of each sibling.

(3) The adoptive family selected will be able to nurture and accept the child(ren) as a fully integrated member(s) of the family.

(4) Race, color, or national origin may not be considered in placement selections except when an Indian child is being placed pursuant to Iowa Code section 232.7 or chapter 232B.

(5) Placement decisions shall be made consistent with the best interests and special needs of the child, including the adoptive family's capacity and commitment to holistically supporting the child's development and well-being.

(6) A relative who is within the fourth degree of consanguinity shall be given consideration for selection as the adoptive family for a child who is legally available for adoption if the child has a significant relationship with the relative or the child is aged 14 or older and elects adoption by the relative.

(7) Foster parents shall be given consideration for selection as the adoptive family for a child in the foster parents' care who is legally available for adoption if the child has been in the foster parents' care for six months or longer or the child has a significant relationship with the family.

b. The adoption selection committee team should strive to complete the adoption selection process in 60 days or less absent special circumstances.

c. Upon reaching a decision, the adoption selection committee team staff will notify families of the decision made by the adoption selection committee team and will send placement notification to the family not selected within two business days of the date all parties were initially notified, using the Adoption Notice of Decision form.

d. The selection of an adoptive family is not an appealable issue since a child continues to be under the guardianship of the department until an adoption is finalized.

200.3(4) Preparation of family. The contractor and the department shall conduct activities designed to enhance the family's readiness to accept the child or children into the family and strengthen the family's

commitment to adopt. A referral may be made for family-centered services if needed. The activities shall include, but not be limited to:

a. Completion of required preservice training and the self-study course, “Universal Precautions in Foster and Adoptive Family Homes,” before placement of a child. These training requirements apply to families who are adopting special needs children who are under the guardianship of the department.

(1) Relatives who have cared for a related child for at least six months and who have been selected to adopt that related child may have their participation in the preservice training waived by the service area manager or designee.

(2) The department may waive the preservice training requirement in whole or in part when the department finds that:

1. The applicant has completed relevant training or has a combination of relevant training and experience that is an acceptable equivalent to all or a portion of the required preservice training; or

2. There is good cause for the waiver based upon the circumstances of the child and the applicant.

(3) Applicants must retake the preservice training if the adoption approval process is not completed within 24 months after the preservice training is initially completed.

b. Discussion with family members regarding problems resulting from a child’s separation, loss, grief, and anger due to the loss of the birth parents.

c. Provision of background information on the child and birth family, including a child study that includes experiences such as foster and adoption placements and other pertinent information and the child’s life book.

d. Provision of information regarding the child’s special needs and behavior patterns.

e. Provision of a description of the child’s medical needs, including whether or not the child has a communicable disease.

f. Discussion of the impact that adding a new member or members to the family may have on all current family members.

g. Explanation of the state’s subsidized adoption program.

h. Provision of information regarding the community resources that are available to assist the family, such as parent support groups, community supports including Medicaid funded supports and post adoption supports.

200.3(5) *Preplacement visits.* The department shall plan, conduct and assess the transitional visits between the adoptive family and the child or children before the adoptive placement of the child in the home.

200.3(6) *Placement services.* Placement services include the activities necessary to plan and carry out the placement of a child or children into the adoptive family.

Before placement of a child, the Agreement of Placement for Adoption form shall be signed by all parties.

200.3(7) *Postplacement services.* An adoptive family is eligible for postplacement services from the time a child is placed with the family until finalization of the adoption occurs. The department shall supervise the placement, provide ongoing support to the child and family, perform crisis intervention, and complete required reports. Assistance with behavioral interventions to strengthen the placement and prevent disruption may be provided through family-centered services.

a. Postplacement supervision shall focus on the following areas:

(1) Integration and interaction of the child or children with the family.

(2) Changes in the family functioning which may be due to the child’s placement.

(3) Social and emotional adjustment of the child or children.

(4) Child’s growth and development since placement with the adoptive family.

(5) Changes and adjustments that have been made in the family since the child’s placement.

(6) Family’s method of dealing with testing behaviors and discipline.

(7) Behavioral evidence of the degree of bonding that is taking place and the degree to which the child is becoming a permanent member of the adoptive family.

(8) School adjustment of a child who is attending a school.

(9) The behavioral needs of the child.

(10) The psychological and mental health needs of the child.

(11) Services and supports that will assist the child and family in the future.

b. At a minimum, the department shall make monthly home visits until the adoption is final. If the family is experiencing problems, the department shall make as many visits as are necessary to assess and support the placement.

c. The department shall prepare a written report based on the postplacement visits with recommendations regarding the finalization of the adoption and submit the report to the court before the hearing to consider granting a decree of adoption.

200.3(8) *Postadoption services.* The department's contractor shall provide postadoption services to families that are eligible for the department's adoption subsidy program in accordance with the contract. The goal of these services is to prevent adoption dissolution. The family may obtain additional support through community resources or support groups.

441—200.4(600) Termination of parental rights. The department shall not place a child in an approved adoptive home until parental rights of the child's birth parents have been terminated and guardianship assigned to the department. This would not apply to families and children participating in tribal customary adoption. If one or both birth parents are deceased, the worker shall provide the court with verification of the birth parents' death and the death shall be stated in the guardianship order. When the termination of parental rights is appealed by a birth parent, an adoptive placement may be made if the adoptive parents sign an adoptive placement agreement that includes an acknowledgment of the conditions of the placement should termination be overturned. However, the adoption may not be finalized until the appeal is withdrawn or a final decision regarding the appeal is reached and a procedendo issued.

441—200.5(600) Interstate placements. Interstate placement of a child into Iowa, or out of Iowa, shall follow interstate placement of child procedures in accordance with Iowa Code sections 232.158 through 232.166.

441—200.6(600) Requests for home studies.

200.6(1) *Court-ordered.* Court-ordered home studies for adoption of a child or children under the authority of the department shall be completed by the department's contractor.

200.6(2) *Interstate compact.* Requests for an adoptive home study through the interstate compact process shall be completed by the department's contractor.

441—200.7(600) Reasons for denial.

200.7(1) An individual or family shall be denied approval of an adoptive home study for any of the following reasons unless an evaluation determines that denial is improper:

a. Founded child abuse report or dependent adult abuse report.

b. Criminal conviction.

c. Documented concerns. Concerns may be documented in one or more of the following areas:

(1) Motivation to adopt.

(2) Child-rearing ability and practices.

(3) Emotional stability.

(4) Physical or mental health.

(5) Interpersonal relationships.

(6) Finances.

(7) Marital relationship.

(8) Other areas that may impact the applicant's ability to meet the needs of a child both at present and in the future.

d. Substance abuse. Verified substance use or abuse that prevents the family from adequately caring for the child shall mean denial of approval.

e. Lack of cooperation. If the individual or family fails to cooperate in providing the information needed to complete the preplacement assessment or home study, the application shall be denied.

200.7(2) Prospective adoptive families may appeal denial of approval of their home study.

441—200.8(600) Removal of child from preadoptive family. When the department determines that it is in the child's best interest to be removed from a preadoptive family, a Letter of Removal form shall be mailed to the family prior to removal. Removal of a child from a preadoptive family is not an appealable action.

441—200.9(600) Consents. A request for consent to the adoption shall be submitted to the guardian for a child who is under the guardianship of the department and for whom finalizing an adoption is recommended. If the adoption is in the best interest of the child, the department shall sign a Consent to Adoption form, prior to a court hearing finalizing the adoption.

A consent to adopt may be rescinded by the department, by signing a Rescinding the Consent to Adoption form for any of the following reasons:

1. At the request of the adoptive family.
2. A founded child abuse report, dependent adult abuse report, accusation of child abuse, or dependent adult abuse pending determination of the report.
3. Conviction of a crime, or accusation of a crime, pending a court decision regarding the crime.
4. At the request of a child who is aged 14 or over and has reversed the decision regarding the adoption.
5. Other verified indications that the adoption is not in the best interest of the child.

441—200.10(600) Requests for access to information for research or treatment.

200.10(1) Requests. Any person seeking access to the department's sealed adoption records for the purpose or purposes set forth in Iowa Code section 600.16(1) "c" or Iowa Code section 600.24(2) shall submit a request in writing to the department. Each request shall contain sufficient facts to establish that the information sought is necessary for conducting a legitimate medical research project, or for treating a patient in a medical facility.

200.10(2) Process. Upon receipt of a request for information sought in conducting a research project, the director or a designee shall review the request for information and make a decision to approve, or deny, the request based on the research to be conducted, the benefits of the research, the methodology, and the confidentiality measures to be followed. Upon a request for information for treating a patient in a medical facility, a decision regarding approval or denial shall be made by the director or designee based on the written information provided by a physician or the medical facility making the request. A requester shall be notified in writing of approval or denial and, if denied, reasons for denial given.

441—200.11(600) Requests for information for purposes other than research or treatment. Requests for information from department adoption records for purposes other than research or treatment shall be made on the department's website.

200.11(1) The department shall not release identifying information from sealed adoption records. Adult adoptees, adoptive parents, birth parents, siblings or descendants of an adopted person, or legal representatives of any of the above shall be provided:

- a.* An adoption packet containing a sample affidavit for filing with the court,
- b.* Directions for filing the affidavit,
- c.* A list of county clerks of court,
- d.* The address of the bureau of vital statistics, and
- e.* Instructions on how to obtain the name of the Iowa county where the adoption was finalized, if necessary.

200.11(2) An adopted person who was a resident of the Annie Wittenmyer Home (Iowa Soldier's and Sailor's Home) may receive nonidentifying information from Annie Wittenmyer records if the information is available.

These rules are intended to implement Iowa Code chapter 600.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 201
“Subsidized Adoptions”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 600.17 through 600.23

State or federal law(s) implemented by the rulemaking:

- Iowa Code sections 600.17 through 600.23.
- Title IV-E of the Social Security Act (42 U.S.C. Sections 670 through 679b) providing for federal funding for foster care and adoption assistance.
- The Howard Metzenbaum Multiethnic Placement Act of 1994 (MEPA), 42 U.S.C. 51151, as amended by the Interethnic Adoption Provision of 1996 (IEP)
- Public Law, 95-608, Indian Child Welfare Act of 1978, Policy Sec. 4(4), 101(a), (b), and (c), 102(a), 102(d), 103(a), 105(b), 201.
- Public Law 96-272, the Adoption Assistance and Child Welfare Act of 1980.
- Public Law 100-294, the Child Abuse Prevention, Adoption, and Family Services Act of 1988.
- Public Law 105-89, the Adoption and Safe Families Act of 1997 (ASFA), PL 108-145, the Adoption Promotion Act of 2003.
- Public Law 109-239, the Safe and Timely Interstate Placement of Foster Children Act of 2006.
- Public Law 109-248, Adam Walsh Child Protection and Safety Act of 2006.
- Public Law 109-288, Child and Family Services Improvement Act of 2006.
- Public Law 110-351, Fostering Connections to Success and Increasing Adoptions Act of 2008.
- Public Law 111-320, CAPTA Reauthorization Act of 2010.
- Public Law 112-34, Child and Family Services Improvement and Innovation Act of 2011.
- Public Law 113-183, Preventing Sex Trafficking and Strengthening Families Act of 2014.
- Public Law 114-95, Every Student Succeeds Act of 2015.
- Public Law 114-22, Justice for Victims of Trafficking Act of 2015.
- Public Law 115-123, Bipartisan Budget Act of 2018 (also Family First Prevention Services Act).

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 201 seeks to increase access to adoptive arrangements for children with special needs, older children, and children otherwise hard to place in an adoptive home by implementing a

subsidized adoption program. This program provides financial assistance to interested adoptive parents capable of providing suitable care but lacking in necessary economic resources.

To be eligible, a child under the guardianship of HHS must have been determined by a qualified health care professional to have met the definition of special needs included in this chapter, or be aged five or over, or be a member of a sibling group of three or more children who are placed in the same adoptive home. A child in the guardianship of a licensed child-placing agency may be eligible for subsidy if the child is eligible to receive Supplemental Security Income (SSI) based on a diagnosed disability or if the child has received a federally funded adoption subsidy in a prior adoption.

Subsidy payments to approved adoptive parents may include:

- Special Services Assistance: Compensation for medical, dental, therapeutic, educational, or other similar service or appliance required by an adopted child by reason of a disability.
- Monthly Maintenance Assistance: Monthly payment to assist with room, board, clothing, and spending money. The maximum monthly payment rate is pursuant to the foster family care maintenance rates.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Not applicable.
 - Classes of persons that will benefit from the proposed rulemaking:
Adoptive parents of eligible children.
Children in a subsidized adoption.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2018 | SFY 2019 | SFY 2020 | SFY 2021 | SFY 2022 | Five-Year Total |
|--|---------------|---------------|---------------|---------------|---------------|-----------------|
| Costs | | | | | | |
| Adoption Subsidy Payment | -\$75,241,000 | -\$75,736,000 | -\$77,291,000 | -\$77,957,000 | -\$77,680,000 | -\$383,905,000 |
| Benefits | | | | | | |
| Federal Title IV-E Funding | \$35,369,000 | \$37,093,000 | \$41,359,000 | \$44,998,000 | \$45,726,000 | \$204,545,000 |
| Improved Outcomes for Adopted Children | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | -\$39,872,000 | -\$38,643,000 | -\$35,932,000 | -\$32,959,000 | -\$31,954,000 | -\$179,360,000 |

*All monetary figures have been rounded to the nearest thousand.

- Qualitative description of impact:

The amount of subsidy is negotiated between HHS and the qualified adoptive parent(s) based on the needs of the child and circumstances of the adoptive family. In SFY 2022, 10,600 children received an adoption subsidy payment. This chapter requires that other services available to meet the needs of an eligible child that are free of charge be explored and used prior to spending subsidy funds.

3. Costs to the State:
 - Implementation and enforcement costs borne by the agency or any other agency:

Any implementation costs incurred by HHS for operation of the adoption program are reflected in the cost-benefit analysis in the Regulatory Analysis for 441—Chapter 200 (IAB 11/1/23) and are not reflected here.

Federal funds received through the Title IV-E Federal Payments for Adoption Assistance Program are used to assist in funding subsidized adoptions. The federal participation rate varies; in SFY 2022, Iowa's participation rate was 86.26 percent. This is up from 80.88 percent in SFY 2018. These funds are reflected in the figure above, labeled as "Federal Title IV-E Funding."

- Anticipated effect on state revenues:

Subsidy payments are provided out of Federal Title IV-E of the Social Security Act funds as well as state-appropriated funds for the use of adoption subsidy payments. These costs are reflected in the figure above, labeled as "Adoption Subsidy Payments." Subsidy payments are a combination of both the federal and state funding sources.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of \$31,954,000 and improved outcomes for children in subsidized adoptive care. Eliminating the subsidy is likely to reduce the number of guardianship arrangements available to children in need, which has the potential to shift children eligible for guardianship into more restrictive care arrangements, thus increasing the likelihood of adverse impact on the child. Additionally, more restrictive care arrangements could result in the State paying more for care of an eligible child than would be paid in the form of a subsidy under this chapter.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Activity under this chapter seeks to increase access to adoptive arrangements for eligible children through use of a subsidy. Subsidy rates are set at an equivalent value to what a family would receive to provide family foster care. These subsidies encourage the adoption of children from Iowa's foster care system and minimize financial obstacles to adoption. Reducing this rate would likely result in fewer children being adopted into permanent families. A consequence of fewer adoptions could be additional financial and capacity burdens to Iowa's foster care system. To limit the impact on state revenues, the chapter requires that other services available to meet the needs of an eligible child that are free of charge be explored and used prior to spending subsidy funds.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

HHS implements the subsidy program in accordance with requirements of the Iowa Code and federal regulations. HHS follows both the federal and state requirements and guidelines in this chapter

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 201 and adopt the following **new** chapter in lieu thereof:

CHAPTER 201
SUBSIDIZED ADOPTIONS

441—201.1(600) Administration. The department shall administer the subsidized adoption program, in conformance with the legal requirements for adoption.

441—201.2(600) Definitions.

“*Child*” means a person who has not attained age 18, or a person with a physical or mental disability who has not attained age 21.

“*Escrow account*” means an interest-bearing account in a bank or savings and loan association which is maintained by the department in the name of a particular child.

“*Maintenance subsidy*” means a monthly payment to assist the family in meeting the living expenses and expenses related to the care of a child with special needs in covering the cost of room, board, clothing, and spending money. The child will also be eligible for medical assistance pursuant to 441—Chapter 75.

“*Nonrecurring expenses*” means reasonable and necessary adoption fees, court costs, attorney fees and other expenses which are directly related to the legal adoption of a child with special needs. These shall be limited to attorney fees, court filing fees and other court costs.

“*Physician*” means a licensed medical or osteopathic doctor as defined in rule 441—77.1(249A).

“*Presubsidy*” means payment for maintenance or special services for a child with special needs who is placed in an adoptive home and who meets all eligibility criteria for maintenance subsidy but whose adoption is not finalized.

“*Qualified intellectual disability professional*” means a person who has at least one year of experience working directly with persons with an intellectual disability or other developmental disabilities and who is one of the following:

1. A doctor of medicine or osteopathy.
2. A registered nurse.
3. A person who holds at least a bachelor’s degree in a human services field including, but not limited to, social work, sociology, special education, rehabilitation counseling, or psychology.

“*Qualified mental health professional*” means a person who meets all the following conditions:

1. Holds a master’s degree in a mental health field including, but not limited to, psychology, counseling and guidance, or psychiatric nursing and social work; or is a doctor of medicine or osteopathic medicine; and

2. Holds a current Iowa license when required by the Iowa professional licensure laws for persons practicing as a psychiatrist, a psychologist, a marital and family therapist, a mental health counselor, an advanced registered nurse practitioner, a psychiatric nurse, or a social worker; and

3. Has at least two years of postdegree experience supervised by a mental health professional in assessing mental health problems, mental illness, and services needs and in providing mental health services.

“*Special services subsidy*” means payment to a provider or reimbursement to the parent for medical, dental, therapeutic, or other services, equipment or appliances required by a child to meet the child’s identified special needs.

441—201.3(600) Conditions of eligibility or ineligibility.

201.3(1) The child is eligible for subsidy when the department or a private agency has documented that it has been unable to place the child in an appropriate adoptive home without a subsidy and the child is determined to be a child with special needs based on one or more of the following reasons:

a. The child has a medically diagnosed disability, as determined by a physician, an advanced registered nurse practitioner or a physician assistant, which substantially limits one or more major life activities, requires ongoing professional treatment, impacts the child's ability to perform daily living skills, and is expected to last 12 months or longer.

b. The child has been determined by a qualified intellectual disability professional to be intellectually disabled.

c. The child has been determined by a qualified professional to be at high risk of developing a qualifying medical, mental, or emotional condition as defined in this subrule. A child in this group is eligible for subsidy of nonrecurring expenses only.

d. The child has been diagnosed by a qualified mental health professional to have a psychiatric condition which impairs the child's mental, intellectual, or social functioning, and for which the child requires ongoing professional services.

e. The child has been diagnosed by a qualified mental health professional to have a behavioral or emotional disorder characterized by situationally inappropriate behavior which deviates substantially from behavior appropriate to the child's age or significantly interferes with the child's intellectual, social and personal adjustment and which requires ongoing treatment.

f. The child is aged five or over.

g. The child is a member of a sibling group of three or more children who are placed in the same adoptive home.

201.3(2) A child who enters the United States from another country on the basis of a visa classifying the child as an orphan, in accordance with the Immigration and Naturalization Act as amended to December 31, 2023, for the purpose of adoption by a specific United States family is not eligible for subsidized adoption maintenance payments, medical assistance, or special services except for nonrecurring expenses.

201.3(3) Adverse eligibility determinations by the department may be appealed according to rules in 441—Chapter 7.

201.3(4) The department shall review the subsidy agreement when the child reaches the age of 17½ to determine whether the child is eligible to receive subsidy to the age of 21 due to the child's physical, intellectual, or mental health disability.

a. The disability shall be diagnosed by a physician, a qualified mental health professional, or a qualified intellectual disability professional.

b. The diagnosis shall be current within one year prior to the child's eighteenth birthday.

c. The child's parents shall provide documentation of the child's disability.

441—201.4(600) Application. Application for presubsidy or subsidy for a child with special needs in the guardianship of the department shall be made at the time of the adoptive placement of the child, or at any time in the adoptive process before finalization of the adoption.

201.4(1) The prospective adoptive family residing in Iowa who has been studied and approved for adoptive placement or a family residing outside of the state of Iowa studied and approved by a governmental child-placing agency or a licensed child-placing agency in that state, may apply for subsidy for an eligible Iowa child.

201.4(2) Withdrawal of the subsidy application shall be reported to the department immediately.

201.4(3) The effective date for the Adoption Subsidy Agreement will be the date the agreement is signed by the adoptive parents and the department, which may be the date the child is placed in the adoptive home or any date up to and including the date the adoption is finalized. The agreement shall state the amount of the presubsidy or subsidy, the frequency and duration of payments and the conditions under which the agreement may be terminated.

201.4(4) An application for subsidy cannot be taken after the child is adopted except when there are facts relevant to a child's eligibility that were not presented before the finalizing of the adoption.

a. Upon receiving verification that the child was eligible before the child's adoption, the department may conduct an administrative review of the facts and may determine the child an eligible child with special needs. Eligibility will be effective after the Application for Subsidy is completed and the Adoption Subsidy Agreement form is signed by all parties.

b. Requests for determination after the adoption is finalized shall be forwarded with verification of eligibility to the department. The department shall conduct an administrative review of eligibility factors and render a written decision within 30 days of receipt of request and verification materials unless additional verification is requested. If additional verification is requested, a decision shall be reached within 30 days of receipt of additional verification materials.

201.4(5) A child in the guardianship of a licensed child-placing agency may be eligible for adoption subsidy when one of the following conditions is met:

- a.* The child receives or is eligible to receive SSI based on a diagnosed disability, or
- b.* The child received federally funded adoption subsidy in a prior adoption.

441—201.5(600) Negotiation of amount of presubsidy or subsidy.

201.5(1) The amount of presubsidy or subsidy shall be negotiated between the department and the adoptive parents and shall be based upon the needs of the child and the circumstances of the family.

a. Each time negotiations are completed, the Adoption Subsidy Agreement shall be completed.

b. The Adoption Subsidy Agreement shall be completed and retained in an inactive case record for future reference when:

(1) A child is eligible for subsidy but the child or family does not currently need assistance; or

(2) The child is at risk of being determined a child with special needs according to paragraph 201.3(1) "a," "b," "d," or "e" in the future.

201.5(2) Other services available to the family free of charge to meet the needs of the child, such as other federal, state, and local governmental and private assistance programs, shall be explored and used before the expenditure of subsidy funds.

Unearned income of the child shall be verified by documentation provided to the department worker by the family from the source of the income.

201.5(3) A maintenance subsidy may be no less than \$10 per month.

201.5(4) An adoptive family may request a review of the subsidy agreement when there is a change in the family's circumstances or the needs of the child.

201.5(5) Maintenance subsidy shall continue under the same rules if the adoptive family moves outside of the state of Iowa.

201.5(6) The maximum monthly maintenance payment for a child in subsidized adoption shall be made pursuant to the foster family care maintenance rates according to the age and special needs of the child as found at rule 441—156.6(234).

441—201.6(600) Types of subsidy.

201.6(1) *Special services only.*

a. Reimbursement to the family or direct payment to a provider may be made for the following special services needed to meet the needs of the child.

(1) Outpatient counseling or therapy services. Reimbursement for outpatient individual or family services may be provided from a non-Medicaid provider only with approval from the department and when one of the following applies:

1. The services are not available from a Medicaid provider within a reasonable distance from the family.

2. The child and the family were already receiving therapy or counseling from a non-Medicaid provider and it would not be in the child's best interest to disrupt the services.

3. Available Medicaid providers lack experience in working with foster, adoptive, or blended families.

Reimbursement to non-Medicaid providers shall be limited to the Medicaid rate.

(2) Expenses for transportation, lodging, or per diem related to preplacement visits, not to exceed \$2,000 per family.

(3) Medical services not covered by the Medicaid program when the child, either alone or with the family, resides outside the state of Iowa and that state's Medicaid does not cover a needed service, or a provider enrolled with Iowa Medicaid cannot be secured. An adoption subsidy payment shall not supplement the Medicaid payment rate to a Medicaid provider or a non-Medicaid provider.

(4) An additional premium amount as a result of adding the child to the family's health insurance group.

(5) Medical transportation, food and lodging not covered by Medicaid when the child is receiving specialized care in a facility 50 miles or farther from the family home, when the family is participating in services and to facilitate reunification with the child.

(6) Supplies and equipment as required by the child's special needs and unavailable through other resources.

1. When the siblings in a sibling group of three or more are placed together, a one-time-only payment can be made, not to exceed \$500 per child, to reimburse the family for expenses related to accommodating the needs of the sibling group.

2. When home modifications have been authorized to accommodate a child's special needs and the family later sells the house, the family shall repay the department an amount equal to the increase in the equity value of the home attributable to the modifications.

(7) Nonrecurring expenses. Payment for nonrecurring expenses is generally limited to a total of \$1,000 per child for attorney fees, court costs and other related legal expenses. Nonrecurring expenses may be paid when the adoptive family has negotiated an Adoption Subsidy Agreement, or an Agreement to Future Adoption Subsidy.

(8) Funeral benefits at the amount allowed for a foster child in accordance with 441—Chapter 156.

b. The need for special services shall be documented in the Adoption Subsidy Agreement. The family shall provide documentation of expenses to the department.

c. Any single special service and any special service delivered over a 12-month period costing \$500 or more shall have prior approval from the central office adoption program manager prior to expending program funds.

d. For all Medicaid covered services the department shall reimburse at the same rate and duration as Medicaid as set forth in rule 441—79.1(249A).

201.6(2) Maintenance only. A monthly payment to assist with room, board, clothing and spending money may be provided, as determined under rule 41—201(600). The child will also be eligible for medical assistance pursuant to 441—Chapter 75.

201.6(3) Maintenance and special services. For children with special needs, a special services subsidy may also be included when a maintenance subsidy is provided.

441—201.7(600) Determination of ongoing subsidy eligibility and suspension of subsidy payments.

201.7(1) Eligibility for continuation of adoption subsidy shall be evaluated when the department has reasonable cause to suspect the adoptive parent is not providing financial support, or is no longer legally responsible for the child. This includes, but is not limited to, the following circumstances:

a. The child is placed in out-of-home care.

b. A person alleges the parents are not providing financial support to the child.

c. A person other than the parent is awarded legal custody of the child.

d. A person other than the parent is appointed as the guardian of the child.

e. The child has applied for food assistance or other benefits.

f. The child has not resided with the parent for the past 30 consecutive days.

g. The parent is incarcerated.

h. The parent is awaiting trial for criminal charges related to harm caused to a child in the home.

201.7(2) The department will contact the child's parents via letter, telephone, or electronic or other means and document such efforts.

201.7(3) The child's parents shall provide documentation of support, including receipts, to the department upon request.

201.7(4) Upon completion of the department's evaluation of the child's continued eligibility for adoption subsidy, the department will issue a written notice to the parents documenting required ongoing actions by the parents, including an expectation of continued cooperation by the parents to provide documentation of ongoing support to the child at the request of the department.

201.7(5) The department shall suspend adoption subsidy payments if the parents refuse to cooperate or if the department is unable to determine whether the parents are providing financial support or are legally responsible for the child.

201.7(6) Through a Notice of Decision, the department shall terminate the Adoption Subsidy Agreement upon a finding that the child is not being financially supported.

201.7(7) When the child has resided out of the parental home for 30 consecutive days, the department will request a renegotiation of the Adoption Subsidy Agreement with the parents to reduce or suspend payments as agreed to by the parents.

441—201.8(600) Termination of subsidy. Subsidy will terminate when any of the following occur:

201.8(1) The adoptive child no longer meets the definition of child in rule 441—201.1(600).

201.8(2) The child marries.

201.8(3) The adoptive parents are no longer using the maintenance payments to support the child.

201.8(4) Death of the child, or death of the parents of the child (one in a single-parent family and both in a two-parent family).

201.8(5) Upon conclusion of the terms of the agreement.

201.8(6) Upon request of the adoptive parents.

201.8(7) The adoptive parents are no longer legally responsible for the child.

201.8(8) The child enlists in the military.

441—201.9(600) Reinstatement of subsidy. Reinstatement of subsidy will be made when the subsidy was terminated because of reasons in subrule 201.8(3), 201.8(6), or 201.8(7) and the reason for termination no longer exists.

441—201.10(600) New application. New applications will be taken at any time, but processed only so long as funds are available. Maintenance and special services already approved will continue.

441—201.11(600) Medical assistance based on residency. Children with special needs eligible for any type of subsidy are entitled to medical assistance as defined in 441—Chapter 75. The funding source for medical assistance is based on the following criteria:

201.11(1) IV-E-eligible children:

a. IV-E-eligible children residing in Iowa from Iowa and from other states shall receive medical assistance from Iowa.

b. IV-E-eligible children from Iowa residing in another state shall receive medical assistance from the family's state of residence, even though medical assistance available in the family's state of residence may vary from Iowa's medical assistance.

201.11(2) Non-IV-E-eligible children:

a. Non-IV-E-eligible children from Iowa residing in Iowa shall be covered by Iowa's medical assistance.

b. Non-IV-E-eligible children from Iowa residing in another state shall be covered by Iowa's medical assistance unless eligible for benefits from the other state pursuant to a program funded under Title XIX of the federal Social Security Act as amended to December 31, 2023.

c. Non-IV-E-eligible children from another state residing in Iowa shall be covered by Iowa's medical assistance if all the following conditions are met:

(1) The child is under the age of 21.

(2) The child is residing in Iowa in a private home with the child's adoptive parent or parents.

(3) Another state is currently paying an adoption subsidy for the child pursuant to an adoption assistance agreement in effect for the child with that state.

(4) The state paying the adoption subsidy is a member of the interstate compact on adoption and medical assistance (ICAMA).

(5) The state paying the adoption subsidy provides medical assistance benefits pursuant to a program funded under Title XIX of the Social Security Act, under the optional group at Section 1902(a)(10)(A)(ii)(VIII) of the Act as amended to December 31, 2023, to children residing in that state (at least until age 18) for whom there is a state adoption assistance agreement in effect with the state of Iowa other than under Title IV-E of the Social Security Act.

201.11(3) When an Iowa child receives medical assistance from another state, Iowa shall discontinue paying any medical costs the month following the move unless additional time is necessary for a timely notice of decision to be provided to the family. An exception shall be made when the initial Iowa subsidy agreement provides for services not covered by the other states.

441—201.12(600) Presubsidy recovery. The department will recover the cost of presubsidy maintenance and special services provided by the department as follows:

201.12(1) Funds will be applied to the cost of presubsidy maintenance and special services from the unearned income of the child.

201.12(2) The department will serve as payee to receive the child's unearned income. The income will be placed in an account and be applied toward the cost of the child's current care with the remainder placed in an escrow account.

201.12(3) When a child has funds in escrow these funds may be used by the department to meet the current needs of the child not covered by the presubsidy payments and not prohibited by the source of the funds.

201.12(4) When the child leaves presubsidy care, funds in the escrow shall be paid to the adoptive parents, or to the child if the child has attained the age of majority.

These rules are intended to implement Iowa Code sections 600.17 to 600.23.

Purpose and Summary

Proposed Chapter 203 seeks to increase access to adoptive arrangements by creating the Iowa Adoption Exchange, a streamlined system of matching children available for adoption with potential adoptive homes. Matches are managed through a computerized statewide exchange system.

Children under the guardianship of HHS for whom an adoptive home is not available are entered on the exchange within 60 or 90 days of receipt of termination of parental rights. Children under the guardianship of a licensed child-placing agency whose parental rights have been terminated may be registered on the exchange at any time. Approved families wishing to adopt are entered on the exchange by HHS or a licensed child-placing agency.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Not applicable.
 - Classes of persons that will benefit from the proposed rulemaking:
Iowa families and children seeking adoption will benefit.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:
 - Quantitative description of impact:
Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2018 | SFY 2019 | SFY 2020 | SFY 2021 | SFY 2022 | Five-Year Total |
|--|-------------|-------------|-------------|-------------|-------------|-----------------|
| Costs | None | None | None | None | None | None |
| Benefits | | | | | | |
| Improved Outcomes for Adopted Children | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | \$0 | \$0 | \$0 | \$0 | \$0 | \$0 |

*All monetary figures have been rounded to the nearest dollar.

- Qualitative description of impact:

The Iowa Adoption Exchange seeks to find loving adoptive families for often the longest-waiting children in the foster care system. Over the last five state fiscal years, 5,400 adoptions have occurred out of Iowa's child welfare/foster care system, averaging over 1,000 each year. The exchange helps to support adoption finalization in Iowa.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:
Not applicable.
- Anticipated effect on state revenues:
Not applicable.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows improved outcomes for children in adoptive care. Eliminating the exchange would likely reduce the number of adoptive arrangements available to qualified children seeking adoption. A lack of available adoptive relationships increases the likelihood of adverse impact to the child.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

There are no other alternative methods that can accomplish the intended benefit.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
HHS implements the Iowa Adoption Exchange in accordance with requirements of the Iowa Code.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
Not applicable.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 203 and adopt the following **new** chapter in lieu thereof:

CHAPTER 203
IOWA ADOPTION EXCHANGE

441—203.1(232) Definitions.

“Children who are difficult to place” means “child” as described in 441—subrule 201.3(1), children under state guardianship for whom an adoptive home is not available within 90 days after termination and children as part of a sibling group of more than three children.

“Iowa adoption exchange system” or *“exchange system”* is a computerized system established to facilitate the adoptive placement of children by matching children legally available for adoption and approved families desiring to adopt a child who is difficult to place.

“Recruitment, retention, training and support (RRTS) contract” means the state’s contractor(s) responsible for activities related to licensing foster families and approving adoptive families, providing support services to foster and preadoptive families, conducting preservice and in-service training, and assisting in matching children in need of foster home care.

441—203.2(232) Children to be registered on the exchange system.

203.2(1) All children who are difficult to place shall be registered on the exchange system within 60 days of receipt of the termination of parental rights court order unless a deferral is granted by the adoption program manager.

203.2(2) Licensed child-placing agencies shall register a child whose parental rights have been terminated and who is under their guardianship using one of the following methods:

- a.* If the agency is registering less than four children in a calendar year, the agency shall submit the Waiting Child Enrollment form to the department.
- b.* If the agency registers more than three children in a calendar year, the agency shall access the exchange system and enter the child’s name and data.

441—203.3(232) Families to be registered on the exchange system.

203.3(1) Approved families wishing to adopt a child who is difficult to place shall be registered on the exchange system by the department.

203.3(2) Licensed child-placing agencies and certified adoption investigators shall register an approved family on the exchange using one of the following methods:

- a.* If the licensed child-placing agency is registering less than four families a calendar year, the agency shall submit the Exchange Referral of Family form to the department.
- b.* If the licensed child-placing agency registers more than three children in a calendar year, the agency shall access the exchange system and enter the family’s name and data.
- c.* Certified adoption investigators shall submit the Exchange Referral of Family form to the department.

441—203.4(232) Matching process. Using the computerized exchange system, the department and licensed child-placing agencies shall search for approved families to meet the needs of the available

children. The child's and family's workers shall be contacted for additional information needed to make an informed decision concerning possible adoptive placements.

These rules are intended to implement Iowa Code section 232.119.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 441—Chapter 204
“Subsidized Guardianship Program”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 234.6

State or federal law(s) implemented by the rulemaking:

- Fostering Connections to Success and Increasing Adoptions Act of 2008.
- Iowa Code sections 232.117, 234.6, and 249A.4.
- Iowa Code section 232.104(2)“d”(2), section 232.104(6), chapter 232D and section 633.552.
- 1999 Iowa Acts, chapter 203, section 15, subsection 9.
- 2006 Iowa Acts, House File 2734, section 17, subsection 10.
- Social Security Act Sections 472 and 473(d)(3).

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 28, 2023
10 a.m.

meet.google.com/nkg-jzin-yvp

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Health and Human Services (HHS) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Joe Campos
Phone: 515.304.0963
Email: joe.campos@idph.iowa.gov

Purpose and Summary

Proposed Chapter 204 seeks to increase access to guardianship arrangements by implementing a Subsidized Guardianship Program to provide financial assistance to guardians of eligible children who are in foster care but are not able to be adopted and are not able to return home. Eligible children include those aged ten years or older or part of a sibling group with a child aged ten years or older, who have been previously under the custody of HHS, with a documented permanency goal of guardianship or another planned permanent arrangement. Prospective guardians must be licensed, have a significant relationship with the child, and seek a long-term commitment.

Payments to approved guardians may include:

- Monthly maintenance payments with the maximum monthly rate made pursuant to the foster family care maintenance rates.
- Guardianship subsidy at a rate negotiated with HHS, not to exceed the state’s current daily basic foster care rate plus any eligible daily special needs allowance or sibling allowance.
- Reimbursement for nonrecurring expenses necessary to finalize a guardianship up to \$2,000.
- Reimbursement for special services for the child such as outpatient medical care, travel expenses for family therapy, or equipment required to accommodate a special need.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Legally responsible parents may incur a support debt under the child support recovery program for foster care payments made. Subsidy payments are considered foster care payments for the purpose of child support recovery. This is reflected in the figure below, labeled as “Child Support Debt Incurred.”

- Classes of persons that will benefit from the proposed rulemaking:

Guardians of eligible children who are in foster care but are not able to be adopted and are not able to return home.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Figures below are actuals incurred in the fiscal years shown.

Identified Impacts*

| | SFY 2023 | SFY 2024 | SFY 2025 | Three-Year Total |
|---|-------------|-------------|-------------|------------------|
| Costs | | | | |
| Subsidy Payments to Guardians | -\$53,000 | -\$299,000 | -\$570,000 | -\$858,000 |
| Benefits | | | | |
| Child Support Debt Incurred | Unknown | Unknown | Unknown | Unknown |
| Federal Title IV-E Funding | \$13,000 | \$58,000 | \$121,000 | \$163,000 |
| Improved Outcomes for Children under Guardianship | Qualitative | Qualitative | Qualitative | Qualitative |
| Net Value | -\$40,000 | -\$241,000 | -\$449,000 | -\$695,000 |

*All monetary figures have been rounded to the nearest thousand.

- Qualitative description of impact:

The amount of subsidy is negotiated between HHS and the qualified guardian based on the needs of the child and circumstances of the family providing guardianship. Guardianship is a safe alternative to adoption, providing permanency for the youth without requiring formal termination of parental rights. HHS has continued to increase the number of children in the subsidized guardianship program since its inception in 2019. In SFY 2023, 139 children received a guardianship subsidy payment. Chapter 204 requires that other services available to meet the needs of an eligible child that are free of charge be explored and used prior to spending subsidy funds.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Any implementation costs incurred by HHS for operation of the adoption program are reflected in the cost-benefit analysis in the Regulatory Analysis for 441—Chapter 200 (IAB 11/1/23) and are not reflected here.

Federal funds received through the Title IV-E Federal Payments for Adoption Assistance Program are used to assist in funding subsidized guardianships. The federal participation rate varies; in SFY 2022, Iowa’s participation rate was 21.51 percent. These funds are reflected in the figure above, labeled as “Federal Title IV-E Funding.”

- Anticipated effect on state revenues:

Not applicable.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The cost-benefit analysis above shows a net value of -\$695,000 over the three fiscal years studied and improved outcomes for children in subsidized guardianship care. These costs may also be offset by support debt under the child support recovery program. The alternative to a child exiting the child welfare system through the Subsidized Guardianship Program is the child remaining in the child welfare system. Should a child remain in the child welfare system, the State would incur costs to maintain a child in need of assistance case that may continue until the child reaches the age of 18.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

HHS implements the Subsidized Guardianship Program in accordance with requirements of the Iowa Code and federal regulations; overall, HHS implements the program as directed and has little flexibility in determining program elements. HHS does maintain flexibility in identifying children eligible for guardianship subsidy assistance.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

No answer provided.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

HHS has defined eligible children as those aged ten years or older or part of a sibling group with a child aged ten years or older, who have been previously under the custody of HHS. HHS believes the eligibility criteria described in this chapter is at the level necessary to provide for safe and stable guardianship arrangements for children in need of guardianship. Alternative approaches might include expanding or reducing the eligibility criteria detailed here.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Not applicable.

Text of Proposed Rulemaking

ITEM 1. Rescind 441—Chapter 204 and adopt the following **new** chapter in lieu thereof:

CHAPTER 204 SUBSIDIZED GUARDIANSHIP PROGRAM

441—204.1(234) Definitions.

“*Child*” means either a person less than 18 years of age or a person 18, 19, or 20 years of age who meets one or more of the following conditions:

1. Is in full-time attendance at an accredited school pursuing a course of study leading to a high school diploma.
2. Is attending an instructional program leading to a high school equivalency diploma.
3. Has been identified by the director of special education of the area education agency as a child requiring special education as defined in Iowa Code section 256B.2(1).

“*Guardianship subsidy*” means a monthly payment to assist in covering the cost of room, board, clothing, and spending money for the child.

“*Nonrecurring expenses*” means reasonable and necessary guardianship fees, court costs, attorney fees, and other expenses that are directly related to finalizing the legal guardianship of a child. These expenses shall be limited to attorney fees, court filing fees and other court costs.

“*Relative*” means a person to whom a child is related by blood, marriage, or adoption, or a person who has a significant, committed, positive relationship with the child.

“*Sibling group*” means at least two children who are whole or half-siblings. A sibling group may include adopted children who have a common parent.

441—204.2(234) Eligibility.

204.2(1) *General conditions of eligibility.* The guardian named in a permanency order under Iowa Code section 232.104(2) “d”(1) or chapter 232D for a child who was previously in the custody of the department is eligible for subsidy when all of the following conditions exist:

- a. The child has a documented permanency goal of:
 - (1) Guardianship; or
 - (2) Another planned permanent living arrangement.
- b. The child is either:
 - (1) Ten years of age or older and consents to the guardianship; or
 - (2) Part of a sibling group with a child aged ten or older.
- c. The child has lived in continuous foster family care with the prospective guardian for the six months before initiation of the guardianship subsidy.
- d. The prospective guardian is a licensed relative foster parent who has a significant relationship with the child and demonstrates a willingness to make a long-term commitment to the child’s care.
 - (1) The guardian shall be a relative as defined in this chapter.
 - (2) Placement with that guardian must be in the best interest of the child. The best-interest determination must be documented in the case file.
- e. A child who is part of a sibling group with a child ten years of age or older may be eligible for subsidy if all criteria are met. The following conditions for the younger sibling shall also be met:
 - (1) The sibling is placed as a foster child in the same prospective guardian home.
 - (2) The guardian and the department agree it is appropriate for guardianship to be granted for the sibling.

204.2(2) *Residency.* The subsidized guardianship applicant or recipient need not reside in Iowa.

204.2(3) *Unearned income.* The family or the guardian shall provide to the department documentation from the source of the child’s unearned income.

204.2(4) *Other services.* Other services available to meet the needs of the child that are free of charge, such as federal, state, and local governmental programs, or private assistance programs, shall be explored and used prior to the expenditure of subsidized guardianship funds.

441—204.3(234) Application. Applications for the subsidized guardianship program may be made at any county office of the department.

204.3(1) *Application forms.* Application for a subsidized guardianship shall be made on the approved department form.

204.3(2) *Eligibility determination.* The determination of whether a child meets the eligibility requirements is made by the department. The proposed guardian shall be notified in writing of the decision of the department regarding the child’s eligibility for the program and the amount of subsidy to be provided.

204.3(3) *Effective date.* The effective date of the guardianship subsidy payment shall be the date the guardianship order is signed if all other conditions of eligibility are met.

204.3(4) *Redetermination.* The department shall review the child's eligibility, the needs of the child and the child's unearned income every 12 months. Reviews may be done more often if needed due to the child's need for special services, revision of the subsidy amount because of the child's age, or a request for review by the guardian.

204.3(5) *Determination of eligibility after age 18.* The department shall review the subsidy agreement when the child reaches the age of 17½ to determine whether the child is eligible to receive subsidy to the age of 21 to complete high school or equivalency or due to the child's physical, intellectual, or mental health disability.

a. A disability shall be diagnosed by a physician, a qualified mental health professional or a qualified intellectual disability professional.

b. The diagnosed disability shall be current within one year prior to the child's eighteenth birthday.

c. Documentation of the child's diagnosed disability shall be provided by the child's guardian to the department.

d. Upon the child's reaching the age of 18, the subsidy may continue until the child completes courses leading to a high school diploma or equivalency or reaches the age of 21. Documentation of school enrollment and completion shall be provided by the child's guardian.

441—204.4(234) Negotiation of amount of subsidy.

204.4(1) *Subsidy agreement.* The amount of subsidy shall be negotiated between the department and the guardian and shall be based upon the needs of the child and the circumstances of the family.

204.4(2) *Amount of subsidy.* Each time negotiations are completed, the department and the guardian shall complete and sign a new Guardianship Subsidy Agreement.

a. The maximum monthly maintenance payment for a child in subsidized guardianship shall be made pursuant to the foster family care maintenance rates according to the age and special needs of the child as found in 441—subrule 156.6.

(1) The rate for the guardianship subsidy shall not exceed the state's current daily basic foster care rate plus any daily special needs allowance or sibling allowance for which the child is eligible, as found in 441—subrule 156.6.

(2) Reserved.

b. If the subsidized guardianship payment is less than the maximum amount allowed, the guardian may request an increase if there is a substantial change in the child's needs and circumstances that requires additional resources.

c. Guardianship payments shall continue if the guardian dies or becomes incapacitated and has named a successor guardian in the Guardianship Subsidy Agreement or in any amendments to the agreement.

204.4(3) *Placement outside of home.* If a child needs to be placed out of the guardian's home and the plan is for the child to return to the guardian within six months, a partial subsidy amount may be negotiated.

204.4(4) *Nonrecurring expenses.* The nonrecurring expenses necessary to finalize a guardianship shall not exceed \$2,000.

204.4(5) *Special services.*

a. Reimbursement to the guardian family or direct payment made to a provider is limited to the following services.

(1) Outpatient individual or family services provided from a non-Medicaid provider only with approval from the department and when one of the following applies:

1. The services are not available from a Medicaid provider within a reasonable distance from the family.

2. The child and the family were receiving therapy or counseling from a non-Medicaid provider and it would not be in the child's best interest to disrupt the services.

3. Available Medicaid providers lack experience in working with foster, adopted, or blended families.

(2) Travel-related expenses including transportation, meals and lodging not covered by Medicaid for visitation or family therapy when the child is receiving Medicaid-paid services out of the home.

(3) Supplies and equipment as required by the child's special needs and unavailable through other resources.

(4) Funeral benefits at the amount allowed for a foster child in accordance with 441—156.8(234).

b. Any single special service and any special service delivered over a 12-month period costing \$500 or more shall have prior approval from the department prior to expending program funds.

c. For all Medicaid-covered services, the department shall reimburse at the same rate and duration as Medicaid as set forth in 441—79.1(249A).

441—204.5(234) Parental liability. These subsidy payments are considered foster care payments for purposes of child support recovery and as such create a support debt for the legally responsible parent or parents.

441—204.6(234) Determination of ongoing subsidy eligibility and suspension of subsidy payments.

204.6(1) Eligibility for continuation of guardianship subsidy shall be evaluated when the department has good cause to suspect the guardian is not providing financial support or is no longer legally responsible for the child. Good cause includes, but is not limited to, the following circumstances:

- a.* The child is placed in out-of-home care under Iowa Code chapter 232.
- b.* A person alleges the guardian is not providing financial support to the child.
- c.* A person other than the guardian is awarded legal custody of the child.
- d.* A person other than the guardian is appointed as the guardian of the child.
- e.* The child has applied for food assistance or other benefits.
- f.* The child has not resided with the guardian for the past 30 consecutive days.
- g.* The guardian is incarcerated.
- h.* The guardian is awaiting trial for criminal charges related to harm caused to a child in the home.

204.6(2) The department will contact the child's guardian via letter, telephone, or electronic or other means and document such efforts if an evaluation is determined to be necessary.

204.6(3) If such an evaluation occurs, the child's guardian shall provide documentation of support, including receipts, to the department upon request.

204.6(4) Upon completion of the department's evaluation of the child's continued eligibility for guardianship subsidy, the department will issue a written notice to the guardian documenting required ongoing actions by the guardian, including an expectation of continued cooperation by the guardian to provide documentation of ongoing support to the child at the request of the department.

204.6(5) The department shall suspend guardianship subsidy payments if the guardian refuses to cooperate with any department evaluation designed to determine legal responsibility for the child or to determine whether the guardian is providing financial support for the child.

204.6(6) Through a Notice of Decision, the department will notify the guardian that the guardianship subsidy payment will be suspended, modified, or terminated.

204.6(7) When the child has resided out of the guardian's home for 30 consecutive days, the department shall request a renegotiation of the Guardianship Subsidy Agreement with the guardian to reduce or suspend payments as agreed to by the guardian.

441—204.7(234) Termination of subsidy. A Guardianship Subsidy Agreement remains in effect until the subsidy is terminated. The subsidy shall terminate when any of the following occur, and a notice shall be sent which states the reason for the termination:

1. The child reaches the age of 18, unless the department determines that the subsidy may continue until the child reaches the age of 21 as specified by subrule 204.3(5).
2. The child marries or enlists in the military.

3. The child no longer lives with the guardian, except for placement outside the home as limited by subrule 204.4(3).
4. The relationship ends due to the death of the child.
5. The terms of the Guardianship Subsidy Agreement are concluded.
6. The guardian requests that the guardianship payment cease.
7. The department has determined the guardian is not providing financial support to the child.
8. The guardian fails to abide by the terms of the Guardianship Subsidy Agreement.
9. The guardianship case is terminated by court order.
10. The department funds for subsidized guardianship are no longer available.
11. Due to incapacity, the guardian can no longer discharge the responsibilities necessary to protect and care for the child, the guardianship has been or will be vacated, and a successor guardian was not named in the Guardianship Subsidy Agreement.
12. The death of the guardian when a successor guardian is not named in the Guardianship Subsidy Agreement (one in a single-parent family or both in a two-parent family).

441—204.8(234) Reinstatement of subsidy. Reinstatement of the subsidy shall be made when the subsidy was terminated at the guardian's request and the guardian has requested reinstatement.

441—204.9(234) Appeals. The guardian may appeal adverse determinations pursuant to 441—Chapter 7.

441—204.10(234) Medical assistance. Children eligible for subsidy are entitled to medical assistance as defined in 441—Chapter 75. When an Iowa child receives medical assistance from another state, Iowa shall discontinue paying any medical costs the month following the move unless additional time is necessary for a timely notice of decision to be provided to the guardian.

The funding source for medical assistance is based on the following criteria:

1. Children from Iowa residing in Iowa shall be covered by Iowa's medical assistance.
2. Children from Iowa residing in another state shall receive medical assistance from the state of residence if eligible. Iowa shall provide medical assistance for children not eligible in their state of residence. Medical assistance available in the family's state of residence may vary from Iowa's medical assistance.
3. Children from another state residing in Iowa shall continue to be covered by the other state's medical assistance unless the state has adopted the adoption assistance interstate compact and a contract between Iowa and the other state exists.

These rules are intended to implement Iowa Code section 234.6 and 2006 Iowa Acts, House File 2734, section 17, subsection 11.

Email: lori.schraderbachar@iowa.gov

Purpose and Summary

The rule provides registrants and Iowans with the rules of conduct for registered interior designers while practicing interior design to protect the public health, safety, and welfare by ensuring safe interiors.

The Board and Commissions Review Committee recommended this Board be eliminated; however, a new law was enacted to allow registered interior designers to stamp/seal technical documents. This rule provides information to registrants as well as building code officials about the stamp regulations.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Costs for registering are those to interior designers who wish to stamp/seal technical documents and those who wish to use the title registered interior designers. Costs to the licensee include registration and the cost of a seal, which costs under \$50.

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes oversight of the rules of conduct, questions from licensees and the public, administration of board meetings, etc. Shared staff at approximately 0.1 full-time equivalent (FTE) position support the entirety of the work of the Board. Staff salaries to support the work of the Board are covered by the

Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and registrants benefit from this rule. The rule allows registered interior designers to stamp/seal construction documents, which had previously been available to only professional engineers and architects.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the benefits achieved justify the costs because the rule provides rules of professional conduct for registered interior designers as well as the rule for stamping/sealing technical documents. Using the services of a registered interior designer is generally less costly than the services of an architect.

Registrants bear costs in the form of licensing fees and compliance.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing rules of professional conduct for registered interior designers allows for consumers to choose a design professional other than an architect or professional engineer to stamp/seal technical documents and still meet safety standards.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which include oversight of the rules of conduct, questions from licensees and the public, administration of board meetings, etc. Shared staff at approximately 0.1 FTE support the entirety of the work of the Board. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board and Commissions Review Committee recommended this Board be eliminated; however, a new law was enacted to allow registered interior designers to stamp/seal technical documents. This rule provides information to registrants as well as building code officials about the stamp regulations.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This rule is less restrictive than full licensure. The rule pertains only to those who wish to hold themselves as registered interior designers. This rule informs registrants as well as the public on the provisions for professional conduct, including under what circumstances a registered interior designer may seal their work.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

This rule is less restrictive than full licensure. The rule pertains only to those who wish to hold themselves as registered interior designers. This rule informs registrants as well as the public on the

provisions for professional conduct, including under what circumstances a registered interior designer may seal their work.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board and Commissions Review Committee recommended this Board be eliminated; however, a new law was enacted to allow registered interior designers to stamp/seal technical documents. This rule provides information to registrants as well as building code officials about the stamp regulations.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rule relates to public safety concerns that are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of professional conduct for registered interior designers. While some registered interior designers are running a small business of their own, some also work for large organizations. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 193G—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4 PROFESSIONAL CONDUCT

193G—4.1(544C) Rules of conduct. A registered interior designer shall maintain a high standard of integrity and professional responsibility within the profession of registered interior design to protect the public health, life safety, and welfare. Failure by a registrant to adhere to the provisions of Iowa Code sections 272C.10 and 544C and following rules of conduct may be grounds for disciplinary action.

4.1(1) Competence.

a. A registered interior designer shall act with reasonable care and competence and apply the technical knowledge and skill ordinarily applied by a registered interior designer of good standing providing interior design services in the same locality.

b. The board may initiate discipline against a registered interior designer or may, when appropriate, refer a registered interior designer to the board's impaired practitioner review committee based on habitual intoxication or addiction to the use of drugs or other impairment which adversely affects the registrant's ability to practice in a safe and competent manner.

4.1(2) Conflict of interest. A registered interior designer may accept compensation for interior design services from more than one party on a project if circumstances are fully disclosed and agreed to in writing by all interested parties.

4.1(3) Full disclosure.

a. A registered interior designer shall not deliberately make a materially false statement or deliberately fail to disclose a material fact requested in connection with application for registration or renewal of registration.

b. A registered interior designer shall not assist in the application for registration of a person known by the registered interior designer to be unqualified with respect to education, training, experience or character.

c. A registered interior designer engaged in the practice of interior design must act in the best interest of the client and shall not allow integrity, objectivity or professional judgment to be impaired.

d. A registered interior designer with knowledge of a violation of these rules by another registered interior designer shall report such knowledge to the board.

4.1(4) Professional conduct.

a. A registered interior designer shall respect the confidentiality of sensitive information obtained in the course of the interior designer's professional activities.

b. A registered interior designer shall not engage in conduct involving fraud, deceit, misrepresentation or dishonesty in the practice of interior design.

c. A registered interior designer shall neither attempt to obtain a contract to provide interior design services through any unlawful means nor assist others in such an attempt.

d. A registered interior designer shall neither offer nor make any payment to a governmental official with the intent of influencing the official's judgment in connection with a prospective or existing project in which the interior designer has an interest.

4.1(5) Seal and certificate of responsibility.

a. The seal under Iowa Code section 544C.14 shall include:

- (1) An outside circle with a diameter of approximately 1 3/4 inches.
- (2) The name of the registered interior designer and the words "Registered Interior Designer."
- (3) The Iowa registration number and the word "Iowa."

b. The seal will substantially conform to the sample shown below:

c. A legible rubber stamp, electronic image or other facsimile of the seal may be used.

d. Each technical submission submitted to a client or any public agency, hereinafter referred to as the official copy, shall contain an information block on its first page or on an attached cover sheet with application of a seal by the registered interior designer in responsible charge and an information block with application of a seal by each professional consultant contributing to the technical submission. The seal and original signature shall be applied only to a final technical submission. Each official copy of a technical submission shall be stapled, bound or otherwise attached together so as to clearly establish the complete extent of the technical submission. Each information block shall display the seal of the individual responsible for that portion of the technical submission. The area of responsibility for each sealing professional shall be designated in the area provided in the information block, so that responsibility for the entire technical submission is clearly established by the combination of the stated seal responsibilities. The information block will substantially conform to the sample shown below:

| | |
|---------|---|
| S E A L | <p>I hereby certify that the portion of this technical submission described below was prepared by me or under my direct supervision and responsible charge. I am a duly registered interior designer under the laws of the state of Iowa.</p> <hr/> <p style="text-align: center;">Signature Date</p> <p>Printed or typed name _____</p> <p>Registration number _____</p> <p>My registration renewal date is June 30, _____.</p> <p>Pages or sheets covered by this seal: _____</p> <p>_____</p> <p>_____</p> <p>_____</p> |
|---------|---|

e. The information requested in each information block must be typed or legibly printed in permanent ink or a secure electronic signature. An electronic signature as defined in or governed by Iowa Code chapter 554D meets the signature requirements of this rule if it is protected by a security procedure, as defined in Iowa Code section 554D.103(14), such as digital signature technology. It is the registrant’s responsibility to ensure, prior to affixing an electronic signature to a technical submission, that security procedures are adequate to:

- (1) Verify that the signature is that of a specific person, and
- (2) Detect any changes that may be made or attempted after the signature of the specific person is affixed. The seal implies responsibility for the entire technical submission unless the area of responsibility is clearly identified in the information accompanying the seal.

f. It is the responsibility of the registered interior designer who signed the original submission for forwarding copies of all changes and amendments to the technical submission, which becomes a part of the official copy of the technical submission, to the public official charged with the enforcement of the state, county, or municipal building code.

g. A registered interior designer is responsible for the custody and proper use of the seal. Improper use of the seal may be grounds for disciplinary action.

h. The seal appearing on any technical submission establishes prima facie evidence that said technical submission was prepared by or under the responsible charge of the individual named on that seal.

This rule is intended to implement Iowa Code chapter 544C.

Regulatory Analysis

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Lori SchraderBachar
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9030
Email: lori.schraderbachar@iowa.gov

Purpose and Summary

This proposed chapter provides basic information on the structure and function of the professional licensing boards, formerly part of the Banking Division/Professional Licensing Bureau. These professional licensing boards are now a part of DIAL. The professional licensing boards are responsible for the licensing and regulation of the specified boards: Iowa Accountancy Examining Board, Architectural Examining Board, Engineering and Land Surveying Examining Board, Interior Design Examining Board, Landscape Architectural Examining Board, Real Estate Appraiser Examining Board and Real Estate Commission.

The professional licensing boards are dedicated to the protection of the public through responsible regulations. To achieve this goal and to ensure citizens of the state receive professional, competent, and safe services, each professional licensing board:

- Adopts rules and establishes standards;
- Examines, licenses, certifies or issues permits or licenses to practitioners;
- Sets standards for license renewal and continuing education;
- Investigates all complaints filed and considered alleged violations of its practice or title act and Iowa regulations;
- Conducts disciplinary hearings; and
- Actively monitors the compliance of licensees with orders issued by the board.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees will bear the costs of this proposed rulemaking for examinations, education and licensing applications.

The Department will bear the costs of this proposed rulemaking in the staff time needed to provide administrative support and coordinating activities for the seven professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees and the public will benefit from the proposed rulemaking. The work of the Department is done with a focus on protecting the public, who receives services from licensed professionals.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are no costs to the public to implement this proposed chapter. The licensees will bear the costs for exams, education and licensing applications. The costs to the individual licensees will vary by industry.

- Qualitative description of impact:

Staff is needed to regulate the professions as directed in Iowa Code. Such work is done with a focus on protecting the public, who receives services from these licensed professionals.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to provide administrative support and coordinating activities for the seven professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover operation costs of the licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Regulating professions creates costs for the licensed professionals for education, continuing education, examinations and licenses. Not regulating these professions puts the public at risk of harm from work completed by nonlicensed individuals. Members of these professions work in high-skilled industries that require specific skill sets to adequately provide services to the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The boards have not identified a less restrictive method for regulating these professions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Less restrictive alternatives include not regulating the professions. The boards believe that elimination of regulations could have a negative impact on the public. Eliminating regulations could lead to more complaints, investigations, lawsuits and public discipline.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The boards believe regulation is necessary to ensure the public's well-being. The work of the boards is done with a focus on protecting the public, who receives services from these licensed professionals.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The professionals licensed include those working for small businesses, as well as large corporations and industries. The proposed rules are intended to be less restrictive for small business. If a licensee identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, the licensee could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 1 and adopt the following **new** chapter in lieu thereof:

CHAPTER 1 ORGANIZATION AND OPERATION

193—1.1(546) Purpose of 193—Chapter 1. This chapter describes the organization and operation of the accountancy examining board, architectural examining board, engineering and land surveying examining board, interior design examining board, landscape architectural examining board, real estate appraiser examining board, and the real estate commission of the department of inspections, appeals, and licensing (hereinafter referred to as “professional licensing boards”).

193—1.2(546) Scope of rules. The rules for the professional licensing boards are promulgated under Iowa Code chapter 17A and section 10A.103 and apply to all matters before the professional licensing boards. No rule shall, in any way, relieve a person affected by or subject to these rules, or any person affected by or subject to the rules promulgated by the various boards from any duty under the laws of this state.

193—1.3(546) Definitions.

“*Administrator*” means the director of the department of inspections, appeals, and licensing.

“*Board*” means an examining board or commission within the department of inspections, appeals, and licensing.

“*Department*” means the department of inspections, appeals, and licensing.

“*License*” means any license, registration, certificate, or permit that may be granted by one of the professional licensing boards.

“*Licensee*” means any person granted a license by one of the professional licensing boards.

“*Person*” means an individual, corporation, partnership, association, professional corporation, licensee, certificate holder, or registrant.

“*Staff*” means employees assigned to one of the professional licensing boards.

193—1.4(546) Purpose of the professional licensing boards. The professional licensing boards coordinate the administrative support for the following boards:

1.4(1) The engineering and land surveying examining board is a seven-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 542B, Professional Engineers and Land Surveyors, and board rules published under agency number [193C] in the Iowa Administrative Code.

1.4(2) The accountancy examining board is an eight-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 542, Public Accountants, and board rules published under agency number [193A] in the Iowa Administrative Code.

1.4(3) The real estate commission is a seven-member commission appointed by the governor and confirmed by the senate. The commission administers Iowa Code chapters 543B, Real Estate Brokers and Salespersons; 543C, Sales of Subdivided Land Outside of Iowa; 557A, Time-Shares; and commission rules published under agency number [193E] in the Iowa Administrative Code.

1.4(4) The architectural examining board is a seven-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 544A, Licensed Architects, and board rules published under agency number [193B] in the Iowa Administrative Code.

1.4(5) The landscape architectural examining board is a seven-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 544B, Landscape Architects, and board rules published under agency number [193D] in the Iowa Administrative Code.

1.4(6) The real estate appraiser examining board is a seven-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 543D, Real Estate Appraisals and Appraisers, and board rules published under agency number [193F] in the Iowa Administrative Code.

1.4(7) The interior design examining board is a seven-member board appointed by the governor and confirmed by the senate. The board administers Iowa Code chapter 544C, Registered Interior Designers, and board rules published under agency number [193G] in the Iowa Administrative Code.

193—1.5(546) Responsibilities of the boards. All of the boards retain the powers granted them pursuant to the chapters in which they are created, except for budgetary and personnel matters. Each board will adopt rules pursuant to Iowa Code chapter 17A. Decisions by each board are final agency actions for purposes of Iowa Code chapter 17A.

193—1.6(546) Responsibilities of the administrator.

1.6(1) To make rules pursuant to Iowa Code chapter 17A to implement board duties except to the extent that rulemaking authority is vested in the boards in the bureau.

1.6(2) To carry out policy-making and enforcement duties assigned to the boards under the law.

1.6(3) To hire, allocate, develop, and supervise members of the staff employed to perform the duties assigned to the boards, including designating staff to act as the executive officer, who may be referred to as the board administrator, for and lawful custodian of the records of each board in the bureau.

1.6(4) To coordinate the development of an annual budget for the boards.

1.6(5) To supervise and direct personnel and other resources to accomplish duties assigned by law.

1.6(6) To authorize expenditures from any appropriation or fund established on behalf of the boards.

1.6(7) Except to the extent that decision-making authority is vested in the boards or other body, decisions of the administrator are final agency actions pursuant to Iowa Code chapter 17A.

1.6(8) Except to the extent otherwise vested in the boards, the administrator has the authority to establish fees assessed to the regulated industry.

193—1.7(546) Custodian of records, filings, and requests for public information. Unless otherwise specified by the rules of the boards, an individual board is the principal custodian of the individual board’s

own orders, statements of law or policy issued by the individual board, legal documents, and other public documents on file.

Any interested party may examine all public records promulgated or maintained by the boards during regular business hours.

193—1.8(272C,542,542B,543B,544A,544B,544C) Applicant contact information. In addition to the mailing address(es) that need to be provided in accordance with the individual board's rules, applicants of the boards need to provide a telephone number and, if applicable, an email address. The boards will honor the "safe at home" address issued by any state's program and protective orders in domestic abuse proceedings or otherwise issued to preserve confidentiality of a person's physical location.

193—1.9(272C,542,542B,543B,544A,544B,544C) Newsletter.

1.9(1) The administrator or administrator's designee may publish or contract with a vendor to publish a newsletter as a nonpublic forum to disseminate official information related to the regulated professions. This official information may include statutory requirements, statutory changes, rules, rule changes, proposed or pending rule changes, licensing requirements, license renewal procedures, board action, board interpretative rulings or guidelines, office procedures, disciplinary action, ethical or professional standards, education requirements, education opportunities (prelicense education, continuing education, and professional development), board business, board meetings, board news, and matters related thereto.

1.9(2) The boards may notify licensees about matters such as license renewal in the newsletter.

193—1.10(272C,542,542B,543B,544A,544B,544C) Applications. Unless otherwise regulated by an individual board's rules, abandoned applications are deemed withdrawn. An application is abandoned if the applicant has not accessed or modified the application through the electronic licensing database within the preceding six months.

These rules are intended to implement Iowa Code section 546.10.

Purpose and Summary

This proposed chapter sets forth fees that may be assessed to a licensee for disciplinary hearings. The proposed rules outline how the fees are paid and what the fees may be applied toward in accordance with Iowa Code chapter 272C.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees will bear the costs of this proposed rulemaking. The individual professional licensing boards of the Department will assess a \$75 fee to licensees when contested hearings are initiated pursuant to Iowa Code section 272C.6. These fees are used to offset the costs of the disciplinary hearing.
 - Classes of persons that will benefit from the proposed rulemaking:
The individual professional licensing boards and the public will benefit from this proposed rulemaking. The individual professional licensing boards are able to use the fees to offset some of the costs of the contested hearings.
2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensees are assessed a fee of \$75 should they have a disciplinary matter that moves to a contested case hearing. This fee is used to offset some of the costs of the contested hearing. Iowa Code section 272C.6 authorizes an individual professional licensing board to assess this fee.

- Qualitative description of impact:

This proposed rulemaking specifies how contested case hearing fees are assessed and allocated. The rulemaking informs the public and licensees of these fees. The fees help reduce the administrative burden on an individual professional licensing board to conduct disciplinary matters against licensees that have violated the individual professional licensing board's rules or Iowa statutes.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to provide administrative support and coordinate activities for the seven professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Department staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover the operations of the individual professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

No costs are imposed on the public. Iowa Code chapter 272C authorizes the individual professional licensing boards to assess a fee of \$75 against a licensee when a contested case hearing is initiated for disciplinary matters. The fee is used to offset some of the costs to an individual professional licensing board to hold a contested hearing. If the individual professional licensing boards were not able to assess the fees, the costs to hold the hearings would come solely out of the Licensing and Regulation Fund, which is also funded by licensing fees.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly or less intrusive method would be reducing or eliminating the contested case hearing fee to licensees. The individual professional licensing boards believe the fees are reasonable and relatively low. The fees are similar to, but are much less expensive than, costs for civil and criminal court hearings. The fees are used to offset the actual costs of the hearings, which benefits the other licensees and allows the individual professional licensing boards to keep licensing fees at a reasonable cost.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The individual professional licensing boards could reduce or eliminate the contested case hearing fee to the licensees. However, the individual professional licensing boards believe the current fees are reasonable and relatively low. The fees are only assessed against the licensees that engage in behaviors that may lead to disciplinary action and require the use of contested case hearings.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The individual professional licensing boards believe the current fees are reasonable and relatively low. The fee provisions provide some deterrence to licensees from engaging in behaviors that would violate an individual professional licensing board's rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

While some licensees may be small business owners or be employed by a small business, some are also employed by large corporations. To charge one class of licensees a fee for disciplinary hearings and not the other would not be fair. If a licensee identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it could utilize the Department's established wavier process.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 2 and adopt the following **new** chapter in lieu thereof:

CHAPTER 2
ALLOCATION OF DISCIPLINARY FEES AND COSTS

193—2.1(272C) Allocation of disciplinary fees and costs.

2.1(1) Definition.

"Board(s)" includes the professional licensing boards as defined in 191—Chapter 1.

2.1(2) All hearing fees and costs assessed by the boards will be paid directly to the department and held in a separate fund administered by the administrator.

2.1(3) The administrator will distribute moneys held in this fund during the fiscal year in which those moneys are paid. Distributions from the fund are made upon the request of a board and in the sole discretion of the administrator. A distribution received by a board under this chapter will be used only for expenditures related to disciplinary hearings.

2.1(4) The administrator will consider the following factors in exercising discretion as to whether to distribute funds to a requesting board:

a. The remaining funds in the board's allocated appropriation for disciplinary hearings in that fiscal year.

b. The number of disciplinary hearings the board has scheduled for the remainder of that fiscal year; the nature and seriousness of those hearings; and the public health, safety, and welfare interests implicated by those hearings.

c. Whether the board has adopted and implemented hearing cost recovery rules.

2.1(5) The administrator will distribute a percentage of the remaining fees and costs to each board.

2.1(6) The fees and costs allocated back to the individual professional licensing boards will be considered repayment receipts as defined in Iowa Code section 8.2. The fees and costs allocated back to each professional board will be applied to the costs incurred by each profession for prosecution of contested cases that could result in disciplinary action.

This rule is intended to implement Iowa Code section 272C.6(6).

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 193—Chapter 3
“Vendor Appeals”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 546

Purpose and Summary

This proposed rulemaking specifies the process for vendors to appeal a bid decision when a formal bidding process is not handled by the Department of Administrative Services. The rulemaking provides a uniform process for all boards in the legacy professional licensing and regulation bureau.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Vendors that want to appeal a decision will invest time and effort into the appeal process, as well as incidental costs.

Costs to the Department include staff time needed to provide administrative support and coordinate activities of the boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

Vendors benefit from this proposed rulemaking because the rulemaking provides the vendors a uniform process to appeal bid decisions.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are relatively few costs incurred with this proposed rulemaking. Vendors may incur incidental costs throughout the appeal process.

- Qualitative description of impact:

This proposed rulemaking provides a uniform procedure for vendors to appeal a bid decision. The uniformity across the boards simplifies the proposed rules, making it easier for vendors to follow and implement when needed.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include staff time needed to provide administrative support and coordinate activities of the professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries to cover the costs of board operations are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover the operation costs.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs incurred by this proposed chapter are minimal. The costs incurred by vendors vary as the costs are not direct costs of the rule, but incidental to the nature of the appeal process. The Department is not privy to the actual costs incurred during the appeal process. Without the appeal process, vendors would have no recourse to dispute a bid that was not conducted under the formal bidding process of the Department of Administrative Services.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The less costly or less intrusive option would be to eliminate Chapter 3. The boards believe the rules are necessary to provide a uniform appeal process. Without the rules, vendors would have no recourse to dispute a bid. The costs of the rule are already very minimal.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department has not identified a less restrictive alternative.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department has not identified a less restrictive alternative. The proposed rulemaking has minimal costs.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

While some vendors may be small business owners or be employed by a small business, some are also employed by large corporations. If a licensee identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, a licensee could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 3 and adopt the following **new** chapter in lieu thereof:

CHAPTER 3
VENDOR APPEALS

193—3.1(546) Purpose. This chapter outlines a uniform process for vendor appeals for all professional licensing boards as defined in 191—Chapter 1. The process is applicable only when board services are acquired through a formal bidding procedure not handled by the department of administrative services or the office of the chief information officer.

193—3.2(546) Vendor appeals. Any vendor whose bid or proposal has been timely filed and who is aggrieved by the award of the board may appeal by filing a written notice of appeal with the board within five days of the date of the award, exclusive of Saturdays, Sundays, and legal state holidays. A written notice may be filed by email. The notice of appeal needs to state the vendor's completed legal name, street address, telephone number, email address, and the specific grounds upon which the vendor challenges the board's award, including the legal authority, if any, and be received by the board within the time frame specified to be considered timely. The notice of appeal commences a contested case.

193—3.3(546) Procedures for vendor appeals. Each board's procedures for licensee disciplinary hearings are applicable, except as provided in these rules.

3.3(1) Upon receipt of a notice of vendor appeal, the board will issue a written notice of the date, time and location of the appeal hearing to both the aggrieved vendor or vendors and the successful vendor. Service of the written notice of hearing will be sent to the email address provided by the appellant unless the appellant specifically requests that notice be sent by certified mail. A hearing will be held within 60 days of the date the notice of appeal was received by the board.

3.3(2) All hearings are open to the public.

3.3(3) Discovery requests, if any, will be served by the parties within ten days of the filing of the notice of appeal. Discovery responses or objections are due at least seven business days prior to hearing.

3.3(4) At least three business days prior to the hearing, the parties will exchange witness and exhibit lists. The parties will be limited at hearing to the witnesses and exhibits timely disclosed unless the board finds good cause to allow additional witnesses or exhibits at hearing.

3.3(5) The hearing, at the option of the board or administrative law judge, may be conducted in person, by telephone, or virtually. When not conducted in person, all exhibits will be delivered to the board or administrative law judge no less than two business days prior to the hearing.

3.3(6) Oral proceedings will be recorded either by mechanized means or by certified shorthand reporters. Parties requesting that the hearing be recorded by certified shorthand will bear the costs. Copies of tapes of oral proceedings or transcripts of certified shorthand reporters will be paid for by the requester.

3.3(7) Any party appealing the issuance of a notice of award may petition for stay of the award pending its review. The petition will be filed with the notice of appeal and state the reasons justifying

a stay. The filing of the petition for stay does not automatically stay the award. The board may grant a stay when it concludes that substantial legal or factual questions exist as to the propriety of the award, the party will suffer substantial and irreparable injury without the stay, and the interest of the public or licensees will not be significantly harmed. A stay may be vacated at any time upon application by any party or the board on its own motion with prior notice to all parties.

3.3(8) The record of the contested case includes all materials specified in Iowa Code section 17A.12(6) and any other relevant procedural documents regardless of their form.

3.3(9) The board or administrative law judge may request the parties to submit proposed findings and conclusions or briefs.

3.3(10) Any request for continuance needs to be in writing, specifying the grounds, and filed no later than seven business days prior to hearing.

3.3(11) Requests for rehearing need to be made to the board within 20 days of issuing a final decision. A rehearing may be granted when new legal issues are raised, new evidence is available, an obvious mistake is corrected, or when the decision is not necessary to exhaust administrative remedies.

3.3(12) Judicial review of the board's final decision may be sought in accordance with the contested case provisions of Iowa Code section 17A.19.

193—3.4(546) Procedures for board referral to an administrative law judge. The board, in its discretion, may refer a vendor appeal for hearing before a qualified administrative law judge. The hearing procedures will be substantially the same, but the ruling of an administrative law judge acting as the sole presiding officer will constitute a proposed decision. Board review of a proposed decision will be according to Iowa Code section 17A.15(2) and this chapter. Nothing in this rule will prevent the board from hearing a vendor appeal with the assistance of an administrative law judge. This rule merely authorizes an alternative procedure. The appealing vendor may also request that an administrative law judge act as presiding officer pursuant to 193—subrule 7.10(2).

3.4(1) The proposed decision will become the final decision of the board 14 days after mailing of the proposed decision, unless prior to that time a party submits an appeal of the proposed decision, or the board seeks review on its own motion.

3.4(2) Notice of an appeal for review of a proposed decision or notice of the board's own review will be mailed to all parties by the board's executive officer. Within 14 days after mailing of the notice of appeal or the board's review, any party may submit to the board exceptions to and a brief in support of or in opposition to the proposed decision, copies of which will be mailed by the submitting party to all other parties to the proceeding. The board's executive officer will notify the parties if oral argument will be heard and specify whether oral argument will be heard in person, by telephone or virtually. The executive officer will schedule the board's review of the proposed decision not less than 30 days after mailing of the notice of appeal or the board's own review.

3.4(3) Failure to appeal a proposed decision will preclude judicial review unless the board reviews on its own motion.

3.4(4) Review of a proposed decision will be based on the record and limited to the issues raised in the hearing. The issues will be specified in the notice of appeal of a proposed decision. The party requesting the review will be responsible for transcribing any tape of the oral proceedings or arranging for a transcript of oral proceedings reported by a certified shorthand reporter.

3.4(5) Each party will have the opportunity to file exceptions and present briefs. The executive officer may set deadlines for the submission of exceptions or briefs. If oral argument will be held, the executive officer shall notify all parties of the date, time and location at least ten days in advance.

3.4(6) The board will not receive any additional evidence, unless it grants an application to present additional evidence. Any such application will be filed by a party at least five business days in advance of oral argument. Additional evidence will be allowed only upon a showing that it is material to the outcome and that there were good reasons for failure to present it at hearing. If an application to present additional evidence is granted, the board will order the conditions under which it shall be presented.

3.4(7) The board's final decision will be written and may incorporate all or part of the proposed decision.

These rules are intended to implement Iowa Code section 546.10.

Purpose and Summary

This proposed chapter outlines the process for applicants and licensees to establish proof of legal presence pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (8 U.S.C. 1621). This chapter also establishes the requirement that a licensee provide a social security number under 42 U.S.C. 666(a)(13) and Iowa Code sections 252J.8(1) and 272D.8(1) for the purposes of collecting child support and debts owed to the State of Iowa.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The licensee generally bears no cost because the information required is typically already in the licensee’s possession.

The Department bears costs for staff time needed to provide administrative support and coordinate activities for the seven professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees will benefit from the proposed rulemaking. The rulemaking ensures that those receiving professional licenses in Iowa are authorized to work in the United States. Additionally, the requirement of providing social security numbers ensures licensees are not avoiding important financial obligations, such as child support or debts owed to the state.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The public does not bear any costs from the proposed rulemaking. The rules provide protection to the public by ensuring those issued a professional license are authorized to work in the United States.

- Qualitative description of impact:

This proposed rulemaking ensures all licensees abide by federal and state laws to provide proof of a legal presence and social security number. These rules set out procedures to implement the state and federal laws requiring the production of proof of ability to work and a social security number.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to provide administrative support and coordinate activities for the seven professional licensing boards. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This proposed rulemaking does not impose costs on licensees or the public. Inaction could result in individuals obtaining professional licenses who are not authorized to work in the United States. If a person obtains a license without authorization, it could put a future employer at risk.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Department has not identified a less costly or less intrusive method for achieving the purpose of this proposed rulemaking. The rules do not cost licensees or the public anything to implement. The rules set out the procedures to implement federal and state laws, as required.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Alternate methods were not considered by the Department since these rules are required by state and federal statute.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Alternate methods were not considered by the Department since these rules are required by state and federal statute.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Because this proposed rulemaking implements state and federal laws required by statute, the Department is unable to allow a deviation for small businesses. The requirement of authorization to work is necessary whether the licensee is a small business or a large organization.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4
SOCIAL SECURITY NUMBERS AND PROOF OF LEGAL PRESENCE

193—4.1(546) Purpose. This chapter outlines a uniform process for applicants and licensees of the professional licensing boards as defined in 191—Chapter 1 to establish proof of legal presence pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (8 U.S.C. 1621). This chapter also addresses the requirement that a license applicant provide a social security number under 42 U.S.C. 666(a)(13) and Iowa Code sections 252J.8(1) and 272D.8(1) for purposes including the collection of child support obligations and debts owed to the state of Iowa.

193—4.2(546) Applicability.

4.2(1) Applicants and licensees who are U.S. citizens or permanent resident aliens may be requested to produce evidence of their lawful presence in the United States as a condition of initial licensure or license renewal. Acceptable evidence (List A) is outlined in subrule 4.3(1).

4.2(2) Applicants and licensees residing in the United States, other than those described in subrule 4.2(1) above, may be requested to provide evidence of lawful presence in the United States at the time of initial licensure and with every subsequent renewal. Acceptable evidence (List B) is outlined in subrule 4.3(2).

4.2(3) Evidence is not required by foreign national applicants or licensees who are not physically present in the United States.

193—4.3(546) Acceptable evidence. The professional licensing boards accept as proof of lawful presence in the United States documents outlined in Lists A and B below. The professional licensing boards will not routinely retain the evidence sent and will not return the evidence once submitted. Documents may be retained in computer “imaged” format. Legible copies will be accepted. Original documents will not be necessary unless a question arises concerning the documentation submitted.

4.3(1) List A—acceptable documents to establish U.S. citizenship.

a. A copy of a birth certificate issued in or by a city, county, state, or other governmental entity within the United States or its outlying possessions.

b. U.S. Certificate of Birth Abroad (FS-545, DS-135) or a Report of Birth Abroad of U.S. Citizen (FS-240).

c. A birth certificate or passport issued from:

1. Puerto Rico, on or after January 13, 1941.

2. Guam, on or after April 10, 1989.
3. U.S. Virgin Islands, on or after February 12, 1927.
4. Northern Mariana Islands after November 4, 1986.
5. American Samoa.
6. Swain's Island.
7. District of Columbia.
- d. A U.S. passport (expired or unexpired).
- e. Certificate of Naturalization (N-550, N-57, N-578).
- f. Certificate of Citizenship (N-560, N-561, N-645).
- g. U.S. Citizen Identification Card (I-79, I-197).
- h. An individual Fee Register Receipt (Form G-711) that shows that the person has filed an application for a New Naturalization or Citizenship Paper (Form N-565).
- i. Any other acceptable document which establishes a U.S. place of birth or indicates U.S. citizenship.

4.3(2) List B—acceptable documents to establish alien status.

a. An alien lawfully admitted for permanent residence under the Immigration and Naturalization Act (INA). References to the INA in this rule are to the INA as amended to November 1, 2023. Evidence includes:

1. INS Form I-551 (Alien Registration Receipt Card commonly known as a “green card”); or
2. Unexpired Temporary I-551 stamp in foreign passport or on INS Form I-94.

b. An alien who is granted asylum under Section 208 of the INA. Evidence includes:

1. INS Form I-94 annotated with stamp showing grant of asylum under Section 208 of the INA.
2. INS Form I-668B (Employment Authorization Card) annotated “274a.12(a)(5).”
3. INS Form I-776 (Employment Authorization Document) annotated “A5.”
4. Grant Letter from the Asylum Office of INS.
5. Order of an immigration judge granting asylum.

c. A refugee admitted to the United States under Section 207 of INA. Evidence includes:

1. INS Form I-94 annotated with stamp showing admission under Section 207 of the INA.
2. INS Form I-668B (Employment Authorization Card) annotated “274a.12(a)(3).”
3. INS Form I-766 (Employment Authorization Document) annotated “A3.”
4. INS Form I-571 (Refugee Travel Document).

d. An alien paroled into the United States for at least one year under Section 212(d)(5) of the INA. Evidence includes INS Form I-94 with stamp showing admission for at least one year under Section 212(d)(5) of the INA.

e. An alien whose deportation is being withheld under Section 243(h) of the INA (as in effect immediately prior to September 30, 1996) or Section 241(b)(3) of such Act (as amended by Section 305(a) of Division C of Public Law 104-2-8). Evidence includes:

1. INS Form I-668 (Employment Authorization Card) annotated “271a.12(a)(10).”
2. INS Form I-766 (Employment Authorization Document) annotated “A10.”
3. Order from an immigration judge showing deportation withheld under Section 243(h) of the INA as in effect prior to April 1, 1997, or removal withheld under Section 241(b)(3) of the INA.

f. An alien who is granted conditional entry under Section 203(a)(7) of the INA as in effect prior to April 1, 1980. Evidence includes:

1. INS Form I-94 with stamp showing admission under Section 203(a)(7) of the INA.
2. INS Form I-668 (Employment Authorization Card) annotated “274a.12(a)(3).”
3. INS Form I-776 (Employment Authorization Document) annotated “A3.”

g. An alien who is a Cuban or Haitian entrant (as defined in Section 501(e) of the Refugee Education Assistance Act of 1980). Evidence includes:

1. INS Form I-551 (Alien Registration Receipt Card, commonly known as a “green card”) with the code CU6, CU7, or CH6.
2. Unexpired temporary I-551 stamp in foreign passport or on INS Form I-94 with code CU6 or CU7.

3. INS Form I-94 with stamp showing parole as “Cuban/Haitian Entrant” under Section 212(d)(5) of the INA.

h. An alien paroled into the United States for less than one year under Section 212(d)(5) of the INA. Evidence includes INS Form I-94 showing this status.

i. An alien who has been declared a battered alien. Evidence includes INS petition and supporting documentation.

j. Any other documentation acceptable under the INA.

193—4.4(252J,272D,546) Social security number disclosure.

4.4(1) An individual applying for a license from a professional licensing board will disclose the individual’s social security number on the application form unless:

a. The applicant demonstrates to the satisfaction of the board that the applicant does not possess and is not eligible for a social security number, or

b. The applicant demonstrates or attests that the applicant is in the process of applying for a social security number and will provide such number within 60 days of the date on which the applicant submits the application to the board. The license of an applicant who is licensed pursuant to this subrule may be revoked for failure to provide a valid social security number within 60 days of the date on which the application was filed.

4.4(2) An applicant who does not possess a social security number and is not eligible for a social security number will need to demonstrate lawful presence in the United States, if applicable, and provide government-issued photo identification as needed to verify identity. If circumstances change and the applicant or licensee later attains a social security number, the applicant or licensee will disclose the social security number to the board within 30 days of the date on which the social security number is issued.

These rules are intended to implement Iowa Code chapter 546.

Purpose and Summary

This proposed rulemaking provides the public and licensees with information about the professional licensing boards’ investigatory subpoena authority and procedures. The boards utilize investigatory subpoenas to gather information and investigate allegations against a licensee reported to the board.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is not a direct cost to the licensee to comply with this proposed rulemaking. However, a licensee does have to pay licensing application and renewal fees, which in turn gives a regulated professional licensing board the ability to hire staff to investigate the complaints. Licensees and those who may be practicing without a license are responsible for costs associated with disciplinary actions, including responding to subpoenas.

The Department bears the cost of staff to review complaints, investigate complaints and issue the investigatory subpoenas. A regulated professional licensing board reviews the investigative information at board meetings. The board members are paid a per diem of \$50 for official board duties and mileage. Mileage costs have been minimal due to the use of virtual meetings. Staff salaries to support the work of

the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from this rulemaking. The proposed rulemaking ensures the licensees have knowledge of the investigative procedures and use of subpoenas to obtain information. This ensures licensees understand their rights and responsibilities surrounding investigatory subpoenas. The investigative process also benefits a regulated professional licensing board because it permits the board to gather needed information to determine if a violation of board rules did occur. In turn, the public benefits since the investigatory process is the primary mechanism the boards have to ensure the public safety and welfare.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The legacy Professional Licensing and Regulation Bureau opened approximately 429 complaints against licensees last year. Of those opened complaints, approximately 145 went to a contested case hearing. The investigatory subpoena process allows a regulated professional licensing board to gather information outside of the complaint form to determine whether disciplinary action is needed or the case can close.

- Qualitative description of impact:

The purpose of an investigatory subpoena is to provide additional relevant information to a regulated professional licensing board and enable the board to make informed decisions and protect the public from unscrupulous practice. Eliminating the investigatory subpoena could cause some complaints, which appear frivolous on the face, to be closed without investigation or without having the full information to determine whether discipline is needed. This could potentially lead to acts detrimental to the public going unchecked, which would ultimately be harmful to the public. This process is fairly similar across the country for regulated professions.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include staff to support the work of the regulated professional licensing boards. Board members are paid \$50 per diem for official board duties as well as mileage. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries to support the work of the regulated professional licensing boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The purpose of this proposed rulemaking is to provide a mechanism for a regulated professional licensing board to gather and investigate necessary relevant information after a complaint is filed and the board believes a contested hearing may be necessary. Allowing the board to investigate and gather information through subpoenas allows the board to make informed decisions on whether the board needs to expend the resources and time for a contested case hearing.

The public and state bear no costs of this proposed rulemaking because a board's costs are funded through the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. The Fund is created through licensing fees paid by the licensees for initial and renewal licenses.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A regulated professional licensing board's investigatory practices are largely dictated by statute in Iowa Code chapter 272C. These proposed rules set forth the mechanisms to implement Iowa Code chapter 272C as it relates to investigatory subpoenas. The majority of the time and costs to implement these rules come from the resources to investigate and the board's time to review and deliberate on the findings. The process in Iowa is similar to the processes used across the country for regulated and licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Department staff held conversations on alternative methods to implement and enforce these proposed rules. After reviewing the processes used in surrounding states, staff found that Iowa's process is similar to other states. The Department has not identified a less restrictive alternative to implement and enforce these rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

A regulated professional licensing board's ultimate goal is ensuring the public safety and welfare. The purpose of these proposed rules is to allow a method for a board to gather information on licensees. Boards need the ability to investigate complaints, gather information and make informed decisions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The licensees affected by these rules come from a variety of professions. Some could be running a small business, be self-employed, or working for large firms. To exempt small businesses from adhering to these rules would jeopardize the public. Additionally, the rules create very minimal, if any, expense for the individual licensee.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 6 and adopt the following **new** chapter in lieu thereof:

CHAPTER 6 INVESTIGATORY SUBPOENAS

193—6.1(17A,272C,542,542B,543B,543D,544A,544B,544C) **Investigatory subpoena authority.** Pursuant to Iowa Code sections 17A.13(1) and 272C.6(3), professional licensing boards, as defined in 191—Chapter 1, have the authority to issue subpoenas to compel the

production of professional records, books, papers, correspondence and other records that are deemed necessary as evidence in connection with the investigation of a licensee disciplinary proceeding, or otherwise necessary for the board to determine whether to commence a contested case. When such an investigation involves licensee discipline, the board may subpoena such evidence whether or not privileged or confidential under law. To ensure consistency in procedure, all boards will issue investigatory subpoenas according to the uniform procedures set forth in rule 193—6.2(17A,272C,542,542B,543B,543D,544A,544B,544C). Given the range of investigative options otherwise utilized by each board, additional detail on investigative procedures is provided separately in each board's individual rules.

193—6.2(17A,272C,542,542B,543B,543D,544A,544B,544C) Investigatory subpoena procedures.

6.2(1) The board's executive officer or designee may, upon the written request of a board investigator or on the officer's own initiative, subpoena books, papers, records, and other real evidence which the officer determines are necessary for the board to decide whether to institute a contested case proceeding. In the case of a subpoena for mental health records, each of the following conditions need to be satisfied prior to the issuance of the subpoena:

- a. The nature of the complaint reasonably justifies the issuance of a subpoena;
- b. Adequate safeguards have been established to prevent unauthorized disclosure;
- c. An express statutory mandate, articulated public policy, or other recognizable public interest favors access; and
- d. The patient was notified and an attempt was made to secure an authorization from the patient for release of the records at issue.

6.2(2) A written request for a subpoena or the executive officer's written memorandum in support of the issuance of a subpoena will contain the following:

- a. The name and address of the person to whom the subpoena will be directed;
- b. A specific description of the books, papers, records or other real evidence requested;
- c. An explanation of the reasons that the documents sought to be subpoenaed are necessary for the board to determine whether it should institute a contested case proceeding; and
- d. In the case of a subpoena request for mental health records, confirmation that the conditions described in subrule 6.2(1) have been satisfied.

6.2(3) Each subpoena will contain the following:

- a. The name and address of the person to whom the subpoena is directed;
- b. A description of the books, papers, records or other real evidence requested;
- c. The date, time and location for production, or inspection and copying;
- d. The time within which a motion to quash or modify the subpoena needs to be filed;
- e. The signature, address and telephone number of the executive officer or designee;
- f. The date of issuance;
- g. A return of service.

6.2(4) Any person who is aggrieved or adversely affected by compliance with the subpoena who desires to challenge the subpoena needs to file a motion with the board to quash or modify the subpoena, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days. The motion will describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.

6.2(5) Upon receipt of a timely motion to quash or modify a subpoena, the board may issue a decision or may request an administrative law judge to issue a decision. The administrative law judge or the board may quash or modify the subpoena, deny the motion, or issue an appropriate protective order. Prior to ruling on the motion, the board or administrative law judge may schedule oral argument or hearing by telephone or in person.

6.2(6) A person aggrieved by a ruling of an administrative law judge who desires to challenge the ruling needs to appeal the ruling to the board in accordance with the procedure applicable to intra-agency appeals of proposed decisions provided that all of the time frames are reduced by one-half.

6.2(7) If the person contesting the subpoena is not the person under investigation, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the board's decision is not final for purposes of judicial review until either (1) the person is notified that the investigation has been concluded with no formal action, or (2) there is a final decision in the contested case.

These rules are intended to implement Iowa Code chapters 17A, 272C, 542, 542B, 543B, 543D, 544A, 544B, and 544C.

Purpose and Summary

This proposed rulemaking provides procedures for contested case hearings, including time requirements for taking action on a contested case; direction on the service of the statement of charges and notice of hearing, as well as the required contents of the statement of charges and notice of hearing; and the discovery process, including issuance of subpoenas, the handling of pretrial motions, and conferences and procedures for the hearings. The purpose of this rulemaking is to provide the licensee an outline of how a contested case proceeding is initiated and the rights and responsibilities of the licensee during that process. Contested cases help ensure that the public is protected and outlines due process for alleged bad actors.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The licensee may incur costs of legal representation to represent the licensee during the investigation and contested case hearing. Licensees are assessed a \$75 fee for each contested hearing as set forth in Iowa Code chapter 272C.

The Department incurs costs to implement the proposed rules, including Department staff to investigate the complaints, prepare the investigative files for the professional licensing board's

review and hold the contested hearings. Staff salaries are paid by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from the proposed rulemaking. The rules provide licensees with a process that ensures due process is met when allegations arise against a licensee. The public benefits by the assurance that allegations are taken seriously and an avenue exists to investigate and hold hearings against the licensee for conduct that may be a violation of a professional licensing board's rules.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The licensee may incur costs for representation during the contested case hearing. Additional costs may include the recording and transcribing of records should the case go to appeal, examination and responding to discovery requests and service of subpoenas. The board also assesses a \$75 fee to the licensee to offset the costs of the contested hearing.

The professional licensing board incurs costs for service by mail, publication or personal service at the initiation of a contested case hearing as well as the Department staff necessary to conduct the contested case hearing and the board members' time for hearings. The board does have the option to consolidate cases if the licensee has more than one complaint filed against the licensee at the same time. This allows for more efficient use of time and resources for both the board and the licensee.

Of the 429 complaints opened in the legacy Professional Licensing and Regulation Bureau last year, there were approximately 145 contested cases and 4 formal hearings.

- Qualitative description of impact:

The process for contested cases is largely dictated by Iowa Code chapter 17A. The professional licensing boards believe the proposed rules provide a balanced regulatory process for initiating and holding contested case hearings. These rules ensure a licensee is aware of the licensee's rights and responsibilities when a contested case hearing is set and also provides licensees with guidance on what the licensee can do in terms of legal representation, discovery requests and options after the board issues a final order. Without this rule, boards would have wide discretion on how to conduct contested hearings and implement discipline against a licensee and the licensees would not have a procedure in place to contest allegations in an adversarial fashion. These rules ensure due process is afforded to each licensee.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department incurs costs in the form of board staff, professional licensing board members' per diem and procedural costs to carry out these proposed rules. Department staff assist with preparing the notices for hearing and correspondence with the licensee to set hearings. Board members are paid a per diem of \$50 for official board business and mileage to attend the contested case hearing. Boards generally hold contested hearings at the time of their regularly scheduled board meetings, but sometimes, additional dates must be set just for the contested hearings. The board is responsible for ensuring process of service on the licensee to initiate the contested case hearing, which includes costs to serve the licensee by mail, publication or personal service. The board does attempt to utilize the least expensive option (service by mail) before an alternative service option. Department staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the professional licensing boards.

During contested case hearings, a board utilizes an administrative law judge (ALJ) to preside over the hearing and provide rulings on pre-hearing motions. The ALJ is paid through state funds. The Department does not have data on ALJ salaries or the percentage of work completed by the ALJ on behalf of the boards.

- Anticipated effect on state revenues:

There is no anticipated impact of this rule on state revenues. Staff salaries to support the work of the professional licensing boards are covered by the Licensing and Regulation Fund established in 2023

Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the professional licensing boards.

During contested case hearings, a board will utilize an ALJ to preside over the hearing and provide rulings on pre-hearing motions. The ALJ is paid through state funds. The professional licensing boards do not have data on ALJ salaries or the percentage of work completed by the ALJ on behalf of the professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The legacy Professional Licensing and Regulation Bureau (PLRB) regulates licenses for seven boards. Without these proposed rules, boards would have wide discretion on how to conduct contested hearings and implement discipline against a licensee and the licensees would not have a procedure in place to contest the allegations in an adversarial fashion. The rules ensure due process is afforded to each licensee.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The process for contested case hearings is largely dictated by Iowa Code chapter 17A. A professional licensing board does have the option to consolidate cases if a licensee has more than one complaint filed against the licensee at the same time. The board also has procedures in place for contested case hearings when there is no factual dispute. This allows for more efficient use of time and resources for both the board and licensee.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Department staff held conversations about alternative, less intrusive methods to implement and enforce these proposed rules. Staff was not able to identify a less intrusive method; however, the rule does provide for alternatives such as consolidated cases and hearings with no factual dispute to allow for more efficiency in handling contested cases where applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The process for contested cases is largely dictated by Iowa Code chapter 17A. The Department has little discretion on how to conduct the hearings or the process of getting to the hearings.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

While some licensees could be running a small business, some also work for large firms and corporations. The Department does recognize that the impact of a contested case could certainly be greater to a small business than it would be to a large company, for instance, to carve time out of the

schedule for a small business owner to be present for a hearing. However, the rules are proposed to ensure due process for all licensees, including small business licensees. If a licensee identified a rule that was overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, the licensee could utilize the Department's established waiver process to request a waiver from that rule.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 7 and adopt the following **new** chapter in lieu thereof:

CHAPTER 7
CONTESTED CASES

193—7.1(17A,542,542B,543B,543D,544A,544B,544C) Definitions. Except where otherwise specifically defined by law:

“*Board*” includes the professional licensing boards as defined in 191—Chapter 1.

“*Contested case*” means any adversary proceeding before a board to determine whether disciplinary action should be taken against a licensee under Iowa Code chapter 542, 542B, 543B, 543D, 544A, 544B, or 544C; an adversary proceeding against a nonlicensee pursuant to Iowa Code section 542.14, 542B.27, 543B.34, 543D.21, or 544A.15; or any other proceeding designated a contested case by any provision of law, including but not limited to adversary proceedings involving license applicants and the reinstatement of a suspended, revoked or voluntarily surrendered license.

“*Issuance*” means the date of mailing of a decision or order, or date of delivery if service is by other means unless another date is specified by rule or in the order.

“*License*” means a license, registration, certificate, permit or other form of practice permission required or authorized by Iowa Code chapter 542, 542B, 543B, 543D, 544A, 544B, or 544C.

“*Party*” means the state, as represented by the assistant attorney general assigned to prosecute the case on behalf of the public interest, the respondent or applicant, or an intervenor.

“*Presiding officer*” means the board and, when applicable, a panel of board members or an administrative law judge assigned to render a proposed decision in a nondisciplinary contested case.

“*Probable cause*” means a reasonable ground for belief in the existence of facts which would support a specified proceeding under applicable law and rules.

“*Quorum*” means a majority of the members of the board. Action may generally be taken upon a majority vote of board members present at a meeting who are not disqualified, although discipline may only be imposed by a majority vote of the members of the board who are not disqualified and, for the engineering and land surveying examining board, only upon an affirmative vote of at least five members of the board.

193—7.2(17A,542,542B,543B,543D,544A,544B,544C,546) Scope and applicability of the Iowa Rules of Civil Procedure. This chapter applies to contested cases conducted by all boards in the bureau. Except as expressly provided in Iowa Code chapter 17A and these rules, the Iowa Rules of Civil Procedure do not apply to contested case proceedings. However, upon application by a party, the board may permit the use of procedures provided for in the Iowa Rules of Civil Procedure unless doing so would unreasonably complicate the proceedings or impose an undue hardship on a party.

193—7.3(17A,272C) Commencement of a contested case and probable cause. A contested case in a disciplinary proceeding is commenced by the filing and service of a statement of charges and notice of hearing. A contested case in a nondisciplinary proceeding is commenced by the filing and service of a notice of hearing. A contested case may only be commenced by the board upon a finding of probable cause to do so by a quorum of the board.

193—7.4(17A,272C) Informal settlement. The board, board staff or a board committee may attempt to informally settle a disciplinary case before filing a statement of charges and notice of hearing. If the board

and the licensee agree to a settlement of the case, a statement of charges will be filed simultaneously with a consent order. The statement of charges and consent order may be separate documents or may be combined in one document. By electing to sign a consent order, the licensee waives all rights to a hearing and all attendant rights. The consent order will have the force and effect of a final disciplinary order entered in a contested case and will be published as provided in rule 193—7.30(17A,272C). Matters not involving licensee discipline which may culminate in a contested case may also be settled through consent order. Procedures governing settlement after notice of hearing is served are described in rule 193—7.42(546,272C).

193—7.5(17A) Statement of charges. The statement of charges will set forth the acts or omissions with which the respondent is charged including the statute(s) and rule(s) which are alleged to have been violated and will be in sufficient detail to enable the preparation of the respondent's defense. The statement of charges will be incorporated within or attached to the notice of hearing. The statement of charges and notice of hearing are public records open for public inspection under Iowa Code chapter 22.

193—7.6(17A,272C) Notice of hearing.

7.6(1) Contents of notice of hearing. Unless the hearing is waived, all contested cases will commence with the service of a notice of hearing fixing the time and place for hearing. The notice, including any incorporated or attached statement of charges, will contain those items specified in Iowa Code section 17A.12(2) and, if applicable, Iowa Code section 17A.18(3), and the following:

- a. A statement of the time, place, and nature of the hearing;
- b. A statement of the legal authority and jurisdiction under which the hearing is to be held;
- c. A reference to the particular sections of the statutes and rules involved;
- d. A short and plain statement of the matters asserted;
- e. Identification of all parties including the name, address and telephone number of the assistant attorney general designated as prosecutor for the state and the respondent's counsel where known;
- f. Reference to the procedural rules governing conduct of the contested case proceeding;
- g. Reference to the procedural rules governing informal settlement after charges are filed;
- h. Identification of the board or a panel of board members as the presiding officer, or statement that the presiding officer will be an administrative law judge from the department of inspections, appeals, and licensing;
- i. If applicable, notification of the time period in which a party may request, pursuant to Iowa Code section 17A.11 and rule 193—7.10(17A,272C), that the presiding officer be an administrative law judge from the department of inspections, appeals, and licensing; and
- j. A statement requiring or authorizing the respondent to submit an answer of the type specified in rule 193—7.9(17A,272C) within 20 days after service of the notice of hearing.
- k. If applicable, notification of the licensee's right to request a closed hearing in a licensee disciplinary proceeding.
- l. Information on who to contact if, because of a disability, auxiliary aids or services are needed for a party to participate in the matter.
- m. If applicable, the date, time, and manner of conduct of a prehearing conference under rule 193—7.21(17A,272C).
- n. The mailing address and email address for filing with the board and notice of the option of email service as provided in subrule 7.17(6).

7.6(2) Service of notice of hearing. Service of notice of hearing on a licensee to begin a contested case which may affect the licensee's continued licensure, such as a licensee disciplinary case or challenge to the renewal of a license, will be made by personal service as in civil actions, by restricted certified mail, return receipt requested, or by the acceptance of service by the licensee or the licensee's duly authorized legal representative. Service of the notice of hearing to begin all other contested cases may additionally be made by certified mail, return receipt requested.

193—7.7(13,272C) Legal representation.

7.7(1) Every statement of charges and notice of hearing prepared by the board will be reviewed and approved by the office of the attorney general, which will be responsible for the legal representation of the public interest in all proceedings before the board. The assistant attorney general assigned to prosecute a contested case before the board will not represent the board in that case but will represent the public interest.

7.7(2) The respondent or applicant may be represented by an attorney. The attorney will file an appearance in the contested case. If the attorney is not licensed to practice law in Iowa, the attorney will comply with Iowa Court Rule 31.14. Business entities may be represented in a contested case by a nonlawyer partner, officer, director, shareholder, member, director, or other owner or manager.

193—7.8(17A) Requests for contested case proceeding. Any person claiming an entitlement to a contested case proceeding will file a written request for such a proceeding within the time specified by the particular rules or statutes governing the subject matter or, in the absence of such law, the time specified in the board action in question.

The request for a contested case proceeding will state the name and address of the requester; identify the specific disputed board action; describe issues of material fact in dispute; and, where the requester is represented by a lawyer, identify the provisions of law or precedent requiring or authorizing the holding of a contested case proceeding in the particular circumstances involved. If the board grants the request, the board will issue a notice of hearing. If the board denies the request, the board will issue a written order specifying the basis for the denial.

193—7.9(17A,272C) Form of answer.

7.9(1) Unless otherwise provided in the notice of hearing, the answer will contain the following information:

7.9(2) The answer may include any additional facts or information which the respondent deems relevant to the issues and which may be of assistance in the ultimate determination of the case, including explanations, remarks or statements of mitigating circumstances.

193—7.10(17A,272C) Presiding officer.

7.10(1) The presiding officer in all licensee disciplinary contested cases will be the board, a panel of board members, or a panel of nonboard member specialists as provided in Iowa Code sections 272C.6(1) and 272C.6(2). When board members act as presiding officer, they will conduct the hearing and issue either a final decision or, if a quorum of the board is not present, a proposed decision. As provided in subrule 7.10(4), the board may be assisted by an administrative law judge when the board acts as presiding officer.

7.10(2) In cases which do not pertain to licensee discipline, the board may act as presiding officer or may notify the parties that an administrative law judge will act as presiding officer at hearing and issue a proposed decision. The use of an administrative law judge as presiding officer is only an option in cases which do not pertain to licensee discipline because only the board may conduct licensee discipline hearings pursuant to Iowa Code section 272C.6. Any party to a nondisciplinary case who wishes to request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections, appeals, and licensing will need to file a written request within 20 days after service of a notice of hearing that identifies the presiding officer as the board. The board may deny the request only upon a finding that one or more of the following apply:

a. Neither the board nor any officer of the board under whose authority the contested case is to take place is a named party to the proceeding or a real party in interest to that proceeding.

b. There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare.

c. The case involves a disciplinary hearing to be held by the board pursuant to Iowa Code section 272C.6.

d. The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented.

- e.* The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues.
- f.* Funds are unavailable to pay the costs of an administrative law judge and an interboard appeal.
- g.* The request was not timely filed.
- h.* The request is not consistent with a specified statute.

7.10(3) The board will issue a written ruling specifying the grounds for its decision within 20 days after a request for an administrative law judge is filed. If the ruling is granted, the administrative law judge assigned to act as presiding officer and issue a proposed decision in a nondisciplinary contested case will have a J.D. degree unless waived by the board.

7.10(4) The board or a panel of board members when acting as presiding officer may request that an administrative law judge perform certain functions as an aid to the board or board panel, such as ruling on prehearing motions, conducting the prehearing conference, ruling on evidentiary objections at hearing, assisting in deliberations, or drafting the written decision for review by the board or board panel.

7.10(5) All rulings by an administrative law judge who acts either as presiding officer or assistant to the board are subject to appeal to the board pursuant to rules 193—7.31(17A) and 193—7.32(17A). A party will need to timely seek intra-agency appeal of prehearing rulings or proposed decisions in order to exhaust adequate administrative remedies. While a party may seek immediate board or board panel review of rulings made by an administrative law judge when sitting with and acting as an aid to the board or board panel during a hearing, such immediate review is not required to preserve error for judicial review.

7.10(6) Unless otherwise provided by law, board members have the powers of and will comply with the provisions of this chapter which apply to presiding officers when reviewing a proposed decision of a panel of the board or an administrative law judge.

193—7.11(17A) Time requirements.

7.11(1) Time will be computed as provided in Iowa Code section 4.1(34).

7.11(2) For good cause, the presiding officer may extend or shorten the time to take any action, except as precluded by statute. Except for good cause stated in the record, before extending or shortening the time to take any action, the presiding officer will afford all parties an opportunity to be heard or to file written arguments.

193—7.12(17A) Waiver of procedures. Unless otherwise precluded by law, the parties in a contested case proceeding may waive any provision of this chapter. However, the board in its discretion may refuse to give effect to such a waiver when it deems the waiver to be inconsistent with the public interest.

193—7.13(17A,272C) Telephone and electronic proceedings. The presiding officer may, on the officer's own motion or as requested by a party, order hearings or argument to be held by telephone conference or other electronic means in which all parties have an opportunity to participate. The presiding officer will determine the location of the parties and witnesses for telephone or other electronic hearings. The convenience of the witnesses or parties, as well as the nature of the case, will be considered when location is chosen. Disciplinary hearings will generally not be held by telephone or electronic means in the absence of consent by all parties, but the presiding officer may permit any witness to testify by telephone or other electronic means. Parties will disclose at or before the prehearing conference if any witness will be testifying by telephone or other electronic means. Objections, if any, will be filed with the board and served on all parties at least three business days in advance of hearing.

193—7.14(17A) Disqualification.

7.14(1) A presiding officer or other person will withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- a.* Has a personal bias or prejudice concerning a party or a representative of a party;
- b.* Has personally investigated, prosecuted or advocated in connection with that case, the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;

- c. Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated, in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;
- d. Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- e. Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- f. Has a spouse or relative within the third degree of relationship that (1) is a party to the case, or an officer, director or trustee of a party; (2) is a lawyer in the case; (3) is known to have an interest that could be substantially affected by the outcome of the case; or (4) is likely to be a material witness in the case; or
- g. Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

7.14(2) The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include general direction and supervision of assigned investigators, unsolicited receipt of information which is relayed to assigned investigators, review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding, or exposure to factual information while performing other board functions, including fact gathering for purposes other than investigation of the matter which culminates in a contested case. A person voluntarily appearing before the board or a committee of the board waives any objection to a board member or board staff both participating in the appearance and later participating as a decision maker or aid to the decision maker in a contested case. Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case will be disclosed if required by Iowa Code section 17A.17(3) and subrule 7.28(9).

7.14(3) In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person will submit the relevant information for the record by affidavit and provide for the record a statement of the reasons for the determination that withdrawal is unnecessary.

7.14(4) If a party asserts disqualification on any appropriate ground, including those listed in subrule 7.14(1), the party will file a motion supported by an affidavit pursuant to Iowa Code sections 17A.11(3) and 17A.17(7). The motion will need to be filed as soon as practicable after the reason alleged in the motion becomes known to the party.

7.14(5) If, during the course of the hearing, a party first becomes aware of evidence of bias or other grounds for disqualification, the party may move for disqualification but will need to establish the grounds by the introduction of evidence into the record.

7.14(6) A motion to disqualify a board member or other person will first be directed to the affected board member or other person for determination. If the board member or other person determines that disqualification is appropriate, the board member or other person will withdraw from further participation in the case. If the board member or other person determines that withdrawal is not required, the presiding officer will promptly review that determination, provided that, if the person at issue is an administrative law judge, the review will be by the board. If the presiding officer determines that disqualification is appropriate, the board member or other person will withdraw. If the presiding officer determines that withdrawal is not required, the presiding officer will enter an order to that effect. A party asserting disqualification may seek an interlocutory appeal under rule 193—7.31(17A), if applicable, and seek a stay under rule 193—7.34(17A).

193—7.15(17A) Consolidation—severance.

7.15(1) *Consolidation.* The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where (a) the matters at issue involve common parties or common questions of fact or law; (b) consolidation would expedite and simplify consideration of the issues

involved; and (c) consolidation would not adversely affect the rights of any of the parties to those proceedings.

7.15(2) Severance. The presiding officer may, for good cause shown, order any contested case proceedings or portions thereof severed.

193—7.16(17A) Amendments. Any notice of hearing or statement of charges may be amended before a responsive pleading has been filed. Amendments to pleadings after a responsive pleading has been filed and to an answer may be allowed with the consent of the other parties or in the discretion of the presiding officer who may impose terms or grant a continuance.

193—7.17(17A) Service and filing of pleadings and other papers.

7.17(1) When service required. Except where otherwise provided by law, every pleading, motion, document, or other paper filed in a contested case proceeding and every paper relating to discovery in such a proceeding will be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state, simultaneously with their filing. Except for the original notice of hearing and statement of charges, and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties. A notice of hearing and statement of charges will be served by the board as provided in subrule 7.6(2). Once a specific administrative law judge has been assigned to a case, copies of all prehearing motions will also be served on the administrative law judge.

7.17(2) Service—how made. Service upon a party represented by an attorney will be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person's last-known address. Service by mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

7.17(3) Filing—when required. After the notice of hearing, all pleadings, motions, documents or other papers in a contested case proceeding will be filed with the board. All pleadings, motions, documents or other papers that are required to be served upon a party will be filed simultaneously with the board.

7.17(4) Filing—how and when made. Except where otherwise provided by law, a document is deemed filed at the time it is received by the board. Parties may file documents with the board by hand delivery or mail or by electronic transmission to the email address specified in the notice of hearing. If a document required to be filed within a prescribed period or on or before a particular date is received by the board after such period or such date, the document will be deemed filed on the date it is mailed by first-class mail or state interoffice mail, so long as there is proof of mailing. Filing by electronic transmission is complete upon transmission unless the party making the filing learns that the attempted filing did not reach the board. The board will not provide a mailed file-stamped copy of documents filed by email or other approved electronic means.

7.17(5) Proof of mailing. Proof of mailing includes either a legible United States Postal Service nonmetered postmark on the envelope, a certificate of service, a notarized affidavit, or a certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the (insert board title) and to the names and addresses of the parties listed below by depositing the same in (a United States post office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

7.17(6) Electronic service. The presiding officer may by order or a party or a party's attorney may by consent permit service of particular documents by email or similar electronic means, unless precluded by a provision of law. In the absence of such an order or consent, electronic transmission will not satisfy service requirements, but may be used to supplement service when rapid notice is desirable.

Consent to electronic service by a party or a party's attorney will be in writing, may be accomplished through electronic transmission to the board and other parties, and will specify the email address for such service. Service by electronic transmission is complete upon transmission unless the board or party making service learns that the attempted service did not reach the party to be served.

193—7.18(17A) Discovery.

7.18(1) The scope of discovery described in Iowa Rule of Civil Procedure 1.503 applies to contested case proceedings.

7.18(2) The following discovery procedures available in the Iowa Rules of Civil Procedure are available to the parties in a contested case proceeding: depositions upon oral examination or written questions; written interrogatories; production of documents, electronically stored information, and things; and requests for admission. Unless lengthened or shortened by the presiding officer, the time frames for discovery in the specific Iowa Rules of Civil Procedure govern those specific procedures.

a. Iowa Rules of Civil Procedure 1.701 through 1.717 regarding depositions applies to any depositions taken in a contested case proceeding. Any party taking a deposition in a contested case will be responsible for any deposition costs, unless otherwise specified or allocated in an order. Deposition costs include, but are not limited to, reimbursement for mileage of the deponent, costs of a certified shorthand reporter, and expert witness fees, as applicable.

b. Iowa Rule of Civil Procedure 1.509 applies to any interrogatories propounded in a contested case proceeding.

c. Iowa Rule of Civil Procedure 1.512 applies to any requests for production of documents, electronically stored information, and things in a contested case proceeding.

d. Iowa Rule of Civil Procedure 1.510 applies to any requests for admission in a contested case proceeding. Iowa Rule of Civil Procedure 1.511 regarding the effect of an admission applies in a contested case proceeding.

7.18(3) The mandatory disclosure and discovery conference requirements in Iowa Rules of Civil Procedure 1.500 and 1.507 do not apply to a contested case proceeding. However, upon application by a party, the board may order the parties to comply with these procedures unless doing so would unreasonably complicate the proceeding or impose an undue hardship. As a practical matter, the purpose of the disclosure requirements and discovery conference is served by the board's obligation to supply the information described in Iowa Code section 17A.13(2) upon request while a contested case is pending and the mutual exchange of information required in a prehearing conference under rule 193—7.22(17A).

7.18(4) Iowa Rule of Civil Procedure 1.508 applies to discovery of any experts identified by a party to a contested case proceeding.

7.18(5) Discovery will be served on all parties to the contested case proceeding, but not be filed with the board.

7.18(6) A party may file a motion to compel or other motion related to discovery in accordance with this subrule. Any motion filed with the board relating to discovery will allege that the moving party has previously made a good-faith attempt to resolve with the opposing party the discovery issues involved. Motions in regard to discovery will be ruled upon by the presiding officer. Opposing parties will be afforded the opportunity to respond within ten days of the filing of the motion unless the time is lengthened or shortened by the presiding officer. The presiding officer may rule on the basis of the written motion and any response or may order argument on the motion.

7.18(7) Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

193—7.19(17A,272C) Issuance of subpoenas in a contested case.

7.19(1) Subpoenas issued in a contested case may compel the attendance of witnesses at deposition or hearing, and may compel the production of books, papers, records, and other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at deposition or hearing, or each command may be issued separately. Subpoenas will be issued by the executive officer or designee upon a written request that complies with this rule. In the case of a request

for a subpoena of mental health records, the request will need to confirm compliance with the following conditions prior to the issuance of the subpoena:

- a.* The nature of the issues in the case reasonably justifies the issuance of the requested subpoena;
- b.* Adequate safeguards have been established to prevent unauthorized disclosure;
- c.* An express statutory mandate, articulated public policy, or other recognizable public interest favors access; and
- d.* An attempt was made to notify the patient and to secure an authorization from the patient for the release of the records at issue.

7.19(2) A request for a subpoena will include the following information, as applicable:

- a.* The name, address, email address, and telephone number of the person requesting the subpoena;
- b.* The name and address of the person to whom the subpoena is directed;
- c.* The date, time, and location at which the person is commanded to attend and give testimony;
- d.* Whether the testimony is requested in connection with a deposition or hearing;
- e.* A description of the books, papers, records or other real evidence requested;
- f.* The date, time and location for production, or inspection and copying; and
- g.* In the case of a subpoena request for mental health records, confirmation that the conditions described in subrule 7.19(1) have been satisfied.

7.19(3) Each subpoena will contain, as applicable:

- a.* The caption of the case;
- b.* The name, address and telephone number of the person who requested the subpoena;
- c.* The name and address of the person to whom the subpoena is directed;
- d.* The date, time, and location at which the person is commanded to appear;
- e.* Whether the testimony is commanded in connection with a deposition or hearing;
- f.* A description of the books, papers, records or other real evidence the person is commanded to produce;
- g.* The date, time and location for production, or inspection and copying;
- h.* The time within which a motion to quash or modify the subpoena will need to be filed;
- i.* The signature, address and telephone number of the executive officer or designee;
- j.* The date of issuance;
- k.* A return of service.

7.19(4) The executive officer or designee will mail copies of all subpoenas to the parties to the contested case. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena. If a subpoena is requested to compel testimony or documents for rebuttal or impeachment at hearing, the person requesting the subpoena will so state in the request and may ask that copies of the subpoena not be mailed to the parties in the contested case.

7.19(5) Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case who desires to challenge the subpoena, will need to file with the board a motion to quash or modify the subpoena within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days. The motion will describe the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits. However, if a subpoena solely requests the production of books, papers, records, or other real evidence and does not also seek to compel testimony, the person who is aggrieved or adversely affected by compliance with the subpoena may alternatively serve written objection on the requesting party before the earlier of the date specified for compliance or 14 days after the subpoena is served. The serving party may then file a motion asking the presiding officer to issue an order compelling production.

7.19(6) Upon receipt of a timely motion to quash or modify a subpoena or motion to compel production, the board may issue a decision or may request an administrative law judge to issue a decision. The administrative law judge or the board may quash or modify the subpoena, deny or grant the motion, or issue an appropriate protective order. Prior to ruling on the motion, the board or administrative law judge may schedule oral argument or hearing by telephone or in person.

7.19(7) A person aggrieved by a ruling of an administrative law judge who desires to challenge the ruling will need to appeal the ruling to the board in accordance with the procedure applicable to

intra-agency appeals of proposed decisions set forth in rules 193—7.31(17A) and 193—7.32(17A), provided that all of the time frames are reduced by one-half.

7.19(8) If the person contesting the subpoena is not a party to the contested case proceeding, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is a party to the contested case proceeding, the board's decision is not final for purposes of judicial review until there is a final decision in the contested case.

193—7.20(17A) Motions.

7.20(1) No technical form for motions is required. However, prehearing motions need to be in writing, state the grounds for relief, and state the relief sought.

7.20(2) Any party may file a written response to a motion within ten days after the motion is served, unless the time period is extended or shortened by rules of the board or the presiding officer. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

7.20(3) The presiding officer may schedule oral argument on any motion. If the board requests that an administrative law judge issue a ruling on a prehearing motion, the ruling is subject to interlocutory appeal pursuant to rule 193—7.31(17A).

7.20(4) Motions pertaining to the hearing, except motions for summary judgment, will need to be filed and served at least seven days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by rule of the board or an order of the presiding officer.

7.20(5) Motions for summary judgment will comply with the requirements of Iowa Rule of Civil Procedure 1.981 and are subject to disposition according to the requirements of that rule to the extent such requirements are not inconsistent with the provisions of this rule or any other provision of law governing the procedure in contested cases.

7.20(6) Motions for summary judgment will need to be filed and served at least 20 days prior to the scheduled hearing date, or other time period determined by the presiding officer. Any party resisting the motion will need to file and serve a resistance within ten days from the date a copy of the motion was served unless otherwise ordered by the presiding officer. The time fixed for hearing or nonoral submission will be not less than 15 days after the filing of the motion, unless a shorter time is ordered by the presiding officer. A summary judgment order rendered on all issues in a contested case is subject to rehearing pursuant to rule 193—7.33(17A) and appeal pursuant to rule 193—7.32(17A).

193—7.21(17A,272C) Prehearing conference and disclosures.

7.21(1) Any party may request a prehearing conference. A written request for prehearing conference or an order for prehearing conference on the presiding officer's own motion will be filed not less than ten days prior to the hearing date. A prehearing conference will be scheduled not less than five business days prior to the hearing date. The board will set a prehearing conference in all licensee disciplinary cases and provide notice of the date and time in the notice of hearing. Written notice of the prehearing conference will be given by the board to all parties. For good cause, the presiding officer may permit variances from this rule.

7.21(2) Each party will disclose at or prior to the prehearing conference:

a. A final list of the witnesses who the party anticipates will testify at hearing. Witnesses not listed may be excluded from testifying unless there was good cause for the failure to include their names; and

b. A final list of exhibits which the party anticipates will be introduced at hearing. Exhibits other than rebuttal exhibits that are not listed may be excluded from admission into evidence unless there was good cause for the failure to include them.

c. Witness or exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the presiding officer at the prehearing conference. Any such amendments need to be served on all parties.

7.21(3) In addition to the requirements of subrule 7.21(2), the parties at a prehearing conference may:

a. Enter into stipulations of law or fact;

- b. Enter into stipulations on the admissibility of exhibits;
- c. Identify matters which the parties intend to request be officially noticed;
- d. Enter into stipulations for waiver of any provision of law; and
- e. Consider any additional matters which will expedite the hearing.

7.21(4) Prehearing conferences will be conducted by telephone unless otherwise ordered. Parties will exchange and receive witness and exhibit lists in advance of a telephone prehearing conference. Unless otherwise provided in the order setting a prehearing conference, the prehearing conference will be conducted by an administrative law judge.

7.21(5) The parties will exchange copies of all exhibits marked for introduction at hearing in the manner provided in subrule 7.26(4) no later than three business days in advance of hearing, or as ordered by the presiding officer at the prehearing conference.

193—7.22(17A) Continuances. Unless otherwise provided, applications for continuances will be made to the presiding officer.

7.22(1) A written application for a continuance will:

- a. Be made at the earliest possible time and no less than seven days before the hearing except in case of unanticipated emergencies;
- b. State the specific reasons for the request; and
- c. Be signed by the requesting party or the party's representative.

An oral application for a continuance may be made if the presiding officer waives the requirement for a written motion. However, a party making such an oral application for a continuance will need to confirm that request by written application within five days after the oral request unless that requirement is waived by the presiding officer. No application for continuance will be made or granted without notice to all parties except in an emergency where notice is not feasible. The board may waive notice of such requests for a particular case or an entire class of cases.

7.22(2) In determining whether to grant a continuance, the presiding officer may require documentation of any grounds for continuance and may consider:

- a. Prior continuances;
- b. The interests of all parties;
- c. The likelihood of informal settlement;
- d. The existence of an emergency;
- e. Any objection;
- f. Any applicable time requirements;
- g. The existence of a conflict in the schedules of counsel, parties, or witnesses;
- h. The timeliness of the request; and
- i. Other relevant factors.

7.22(3) The board's executive officer or an administrative law judge may enter an order granting an uncontested application for a continuance. Upon consultation with the board chair or chair's designee, the board's executive officer or an administrative law judge may deny an uncontested application for a continuance, or rule on a contested application for continuance.

193—7.23(17A) Withdrawals. A party requesting a contested case proceeding may withdraw that request prior to the hearing upon written notice filed with the board and served on all parties. Unless otherwise ordered by the board, a withdrawal will be with prejudice.

193—7.24(17A) Intervention.

7.24(1) Motion. A motion for leave to intervene in a contested case proceeding will state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of intervention on the proceeding. A proposed answer or petition in intervention will be attached to the motion. Any party may file a response within 14 days of service of the motion to intervene unless the time period is extended or shortened by the presiding officer.

7.24(2) *When filed.* Motion for leave to intervene will be filed as early in the proceeding as possible to avoid adverse impact on existing parties or the conduct of the proceeding. Unless otherwise ordered, a motion for leave to intervene will be filed before the prehearing conference, if any, or at least 20 days before the date scheduled for hearing. Any later motion will contain a statement of good cause for the failure to file in a timely manner. Unless inequitable or unjust, an intervenor will be bound by any agreement, arrangement, or other matter previously raised in the case. Requests by untimely intervenors for continuances which would delay the proceeding will ordinarily be denied.

7.24(3) *Grounds for intervention.* The movant will demonstrate that (a) intervention would not unduly prolong the proceedings or otherwise prejudice the rights of existing parties; (b) the movant is likely to be aggrieved or adversely affected by a final order in the proceeding; and (c) the interests of the movant are not adequately represented by existing parties.

7.24(4) *Effect of intervention.* If appropriate, the presiding officer may order consolidation of the petitions and briefs of different parties whose interests are aligned with each other and limit the number of representatives allowed to participate actively in the proceedings. A person granted leave to intervene is a party to the proceeding. The order granting intervention may restrict the issues that may be raised by the intervenor or otherwise condition the intervenor's participation in the proceeding.

193—7.25(17A,272C) Hearings. The presiding officer will be in control of the proceedings and have the authority to administer oaths and to admit or exclude testimony or other evidence and rule on all motions and objections. The board may request that an administrative law judge assist the board by performing any of these functions. Parties have the right to participate or to be represented in all hearings. Any party may be represented by an attorney at the party's expense.

7.25(1) *Examination of witnesses.* All witnesses will be sworn or affirmed by the presiding officer or the court reporter, and be subject to cross-examination. Board members and the administrative law judge have the right to examine witnesses at any stage of a witness's testimony. The presiding officer may limit questioning in a manner consistent with law.

7.25(2) *Public hearing.* The hearing will be open to the public unless a licensee or licensee's attorney requests in writing that a licensee disciplinary hearing be closed to the public. At the request of a party or on the presiding officer's own motion, the presiding officer may issue a protective order to protect all or a part of a record or information which is privileged or confidential by law.

7.25(3) *Record of proceedings.* Oral proceedings will be recorded either by mechanical or electronic means or by certified shorthand reporters. Oral proceedings or any part thereof will be transcribed at the request of any party with the expense of the transcription charged to the requesting party. The recording or stenographic notes of oral proceedings or the transcription will be filed with and maintained by the board for at least five years from the date of decision.

7.25(4) *Order of proceedings.* Before testimony is presented, the record will show the identities of any board members present, the identity of the administrative law judge, the identities of the primary parties and their representatives, and the fact that all testimony is being recorded. In contested cases initiated by the board, such as licensee discipline, hearings will generally be conducted in the following order, subject to modification at the discretion of the board:

a. The presiding officer or designated person may read a summary of the charges and answers thereto and other responsive pleadings filed by the respondent prior to the hearing.

b. The assistant attorney general representing the state interest before the board will make a brief opening statement which may include a summary of charges and the names of any witnesses and documents to support such charges.

c. Each respondent will be offered the opportunity to make an opening statement, including the names of any witnesses the respondent(s) desires to call in defense. A respondent may elect to make the opening statement just prior to the presentation of evidence by the respondent(s).

d. The presentation of evidence on behalf of the state.

e. The presentation of evidence on behalf of the respondent(s).

f. Rebuttal evidence on behalf of the state, if any.

g. Rebuttal evidence on behalf of the respondent(s), if any.

h. Closing arguments first on behalf of the state, then on behalf of the respondent(s), and then on behalf of the state, if any.

The order of proceedings will be tailored to the nature of the contested case. In license reinstatement hearings, for example, the respondent will generally present evidence first because the respondent is obligated to present evidence in support of the respondent's application for reinstatement pursuant to rule 193—7.38(17A,272C). In license denial hearings, the state will generally first establish the basis for the board's denial of licensure, but thereafter the applicant has the burden of establishing the conditions for licensure pursuant to rule 193—7.39(546,272C).

7.25(5) Decorum. The presiding officer will maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

7.25(6) Immunity. The presiding officer will have authority to grant immunity from disciplinary action to a witness, as provided by Iowa Code section 272C.6(3), but only upon the unanimous vote of all members of the board hearing the case. The official record of the hearing will include the reasons for granting the immunity.

7.25(7) Sequestering witnesses. The presiding officer, on the officer's own motion or upon the request of a party, may sequester witnesses.

7.25(8) Witness representation. Witnesses are entitled to be represented by an attorney at their own expense. In a closed hearing, the attorney may be present only when the client testifies. The attorney may assert legal privileges personal to the client, but may not make other objections. The attorney may only ask questions of the client to prevent a misstatement from entering the record.

7.25(9) Depositions. Depositions may be used at hearing to the extent permitted by Iowa Rule of Civil Procedure 1.704.

7.25(10) Witness fees. The parties in a contested case will be responsible for any witness fees and expenses incurred by witnesses appearing at the contested case hearing, unless otherwise specified or allocated in an order. The costs for lay witnesses will be determined in accordance with Iowa Code section 622.69. The costs for expert witnesses will be determined in accordance with Iowa Code section 622.72. Witnesses are entitled to reimbursement for mileage and may be entitled to reimbursement for meals and lodging, as incurred.

193—7.26(17A) Evidence.

7.26(1) The presiding officer will rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

7.26(2) Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

7.26(3) Evidence in the proceeding will be confined to the issues as to which the parties received notice prior to the hearing unless the parties waive their right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual notice of those issues, that party, upon timely request, will receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

7.26(4) The party seeking admission of an exhibit will provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents will be provided to opposing parties. Copies will also be furnished to members of the board. All exhibits admitted into evidence will be appropriately marked and be made part of the record. The state's exhibits will be marked numerically, and the applicant's or respondent's exhibits will be marked alphabetically.

7.26(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection needs to be timely and be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling will be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

7.26(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony will

briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it will be marked as part of an offer of proof and inserted in the record.

7.26(7) Irrelevant, immaterial and unduly repetitious evidence should be excluded. A finding will be based upon the kind of evidence upon which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs, and may be based on hearsay or other types of evidence which may or would be inadmissible in a jury trial.

193—7.27(17A) Default.

7.27(1) If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

7.27(2) Where appropriate and not contrary to law, any party may move for default against a party who has requested the contested case proceeding and has failed to file a required pleading or has failed to appear after proper service.

7.27(3) Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final board action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated within the time provided by rule 193—7.32(17A). A motion to vacate will state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated will be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

7.27(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

7.27(5) Properly substantiated and timely filed motions to vacate will be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties will have ten days to respond to a motion to vacate. Adverse parties are allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

7.27(6) "Good cause" for purposes of this rule has the same meaning as "good cause" for setting aside a default judgment under Iowa Rule of Civil Procedure 1.977.

7.27(7) A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 193—7.31(17A).

7.27(8) If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer will issue another notice of hearing and the contested case will proceed accordingly.

7.27(9) A default decision may award any relief consistent with the request for relief made in the petition and embraced in its issues.

7.27(10) A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 193—7.34(17A).

193—7.28(17A) Ex parte communication.

7.28(1) Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the notice of hearing, there will be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. This does not prohibit persons jointly assigned such tasks from communicating with each other. Nothing in this provision is intended to preclude the presiding officer from communicating with members of the board

or seeking the advice or help of persons other than those with a personal interest in, or those engaged in personally investigating as defined in subrule 7.14(2), prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

7.28(2) Prohibitions on ex parte communications commence with the issuance of the notice of hearing in a contested case and continue for as long as the case is pending.

7.28(3) Written, oral or other forms of communication are ex parte if made without notice and opportunity for all parties to participate.

7.28(4) To avoid prohibited ex parte communications, notice needs to be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications will be provided in compliance with rule 193—7.17(17A) and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

7.28(5) Persons who jointly act as presiding officers in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

7.28(6) The executive officer or other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as the executive officer or other persons are not disqualified from participating in the making of a proposed or final decision under any provision of law and the executive officer or other persons comply with subrule 7.28(1).

7.28(7) Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and will notify other parties when seeking to continue hearings or other deadlines pursuant to rule 193—7.22(17A).

7.28(8) Disclosure of prohibited communications. A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case will initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication will be submitted for inclusion in the record under seal by protective order. If the presiding officer determines that disqualification is not warranted, such documents will be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication will be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

7.28(9) Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer will disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

7.28(10) The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, or suspension or revocation of the privilege to practice before the board. Violation of ex parte communication prohibitions by board personnel will be reported to the administrator for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

193—7.29(17A) Recording costs. Upon request, the board will provide a copy of the whole record or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record will be paid by the requesting party.

193—7.30(17A,272C) Final decisions, publication and client notification.

7.30(1) Final decision. When a quorum of the board presides over the reception of evidence at the hearing, the decision is a final decision. The final decision of the board will be filed with the executive officer. A copy of the final decision and order will immediately be sent by certified mail, return receipt requested, to the licensee's or other respondent's last-known U.S. Postal Service address or may be served as in the manner of original notices. A party's attorney may waive formal service and accept service in writing for the party. Copies will be mailed by interoffice mail or first-class mail to the prosecutor and counsel of record.

7.30(2) Publication of decisions. Final decisions of the board, including consent agreements and consent orders, are public documents, are available to the public and may be disseminated as provided in Iowa Code chapter 22 by the board or others. Final decisions relating to licensee discipline will be published in the professional licensing and regulation bureau's newsletter, may be published on the bureau's Web site, and may be transmitted to the appropriate professional association(s), national associations, other states, and news media, or otherwise disseminated. The board may, in its discretion, issue a formal press release.

7.30(3) Notification of clients. Within 15 days (or such other time period specifically ordered by the board) of the licensee's receipt of a final decision of the board, whether entered by consent or following hearing, which suspends or revokes a license or accepts a voluntary surrender of a license to resolve a disciplinary case, the licensee will notify in writing all current clients of the fact that the license has been suspended, revoked or voluntarily surrendered. Such notice will advise clients to obtain alternative professional services. Within 30 days of receipt of the board's final order, the licensee will file with the board copies of the notices sent. Compliance with this requirement will be a condition for an application for reinstatement.

193—7.31(17A) Interlocutory appeals. Upon written request of a party or on its own motion, the board may review an interlocutory order of the administrative law judge, such as a ruling on a motion to quash a subpoena or other prehearing motion. In determining whether to do so, the board will weigh the extent to which its granting the interlocutory appeal would expedite final resolution of the case and the extent to which review of the interlocutory order at the time of the issuance of a final decision would provide an adequate remedy. Any request for interlocutory review will need to be filed within 14 days of issuance of the challenged order, but no later than the date for compliance with the order or the date of hearing, whichever is earlier.

193—7.32(17A) Appeals and review.

7.32(1) Proposed decision. Decisions issued by a panel of less than a quorum of the board or by an administrative law judge are proposed decisions. All licensee disciplinary decisions are obligated to be issued by the board. A proposed disciplinary decision issued by a panel of the board will need to be acted upon by the full board in order to become a final decision. In nondisciplinary cases, a proposed decision issued by a panel of the board or an administrative law judge becomes a final decision if not timely appealed by any party or reviewed by the board.

7.32(2) Appeal by party. Any adversely affected party may appeal a proposed decision to the board within 30 days after issuance of the proposed decision. Such an appeal is required to exhaust administrative remedies and is a jurisdictional prerequisite to seeking judicial review.

7.32(3) Review. The board may initiate review of a proposed decision on its own motion at any time within 30 days following the issuance of such a decision.

7.32(4) Notice of appeal. An appeal of a proposed decision is initiated by filing a timely notice of appeal with the board. The notice of appeal needs to be signed by the appealing party or a representative of that party and contain a certificate of service. The notice will specify:

- a. The parties initiating the appeal;
- b. The proposed decision or order which is being appealed;
- c. The specific findings or conclusions to which exception is taken and any other exceptions to the decision or order;

- d. The relief sought;
- e. The grounds for relief.

7.32(5) Requests to present additional evidence. A party may request the taking of additional evidence only by establishing that the evidence is material, that good cause existed for the failure to present the evidence at the hearing, and that the party has not waived the right to present the evidence. A written request to present additional evidence will need to be filed with the notice of appeal or, by a nonappealing party, within 14 days of service of the notice of appeal. The board may remand a case to the presiding officer for further hearing or may itself preside at the taking of additional evidence.

7.32(6) Scheduling. The board will issue a schedule for consideration of the appeal.

7.32(7) Briefs and arguments. Unless otherwise ordered, within 20 days of the notice of appeal or order for review, each appealing party may file exceptions and briefs. Within 20 days thereafter, any party may file a responsive brief. Briefs will cite any applicable legal authority and specify relevant portions of the record in that proceeding. Written requests to present oral argument will be filed with the briefs. The board may resolve the appeal on the briefs or provide an opportunity for oral argument. The board may shorten or extend the briefing period as appropriate.

7.32(8) Record. The record on appeal or review will be the entire record made before the hearing panel or administrative law judge.

193—7.33(17A) Applications for rehearing.

7.33(1) By whom filed. Any party to a contested case proceeding may file an application for rehearing from a final order.

7.33(2) Content of application. The application for rehearing will state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application will state whether the applicant desires reconsideration of all or part of the board decision on the existing record and whether, on the basis of the grounds enumerated in subrule 7.33(3), the applicant requests an opportunity to submit additional evidence.

7.33(3) Additional evidence. A party may request the taking of additional evidence only by establishing that (a) the facts or other evidence arose after the original proceeding, or (b) the party offering such evidence could not reasonably have provided such evidence at the original proceeding, or (c) the party offering the additional evidence was misled by any party as to the necessity for offering such evidence at the original proceeding.

7.33(4) Time of filing. The application will be filed with the board within 20 days after issuance of the final decision. The board's final decision is deemed issued on the date it is mailed or the date of delivery if service is by other means, unless another date is specified in the order. The application for rehearing is deemed filed on the date it is received by the board unless the provisions of subrule 7.17(4) apply.

7.33(5) Notice to other parties. A copy of the application will be timely mailed by the applicant to all parties of record not joining therein. If the application does not contain a certificate of service, the board will serve copies of the application on all parties.

7.33(6) Disposition. An application for rehearing will be deemed denied unless the board grants the application within 20 days after its filing. An order granting or denying an application for rehearing is deemed issued on the date it is filed with the board.

7.33(7) Proceedings. If the board grants an application for rehearing, the board may set the application for oral argument or for hearing if additional evidence will be received. If additional evidence will not be received, the board may issue a ruling without oral argument or hearing. The board may, on the request of a party or on its own motion, order or permit the parties to provide written argument on one or more designated issues. The board may be assisted by an administrative law judge in all proceedings related to an application for rehearing.

193—7.34(17A) Stays of board actions.

7.34(1) When available.

a. Any party to a contested case proceeding may petition the board for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the board. The petition will be filed with the notice of appeal and will state the reasons justifying a stay or other temporary remedy. The board may rule on the stay or authorize the administrative law judge to do so.

b. Any party to a contested case proceeding may petition the board for a stay or other temporary remedies, pending judicial review of all or part of that proceeding. The petition will state the reasons justifying a stay or other temporary remedy. Seeking a stay from the board is required to exhaust administrative remedies before a stay may be sought from the district court.

7.34(2) *When granted.* In determining whether to grant a stay, the presiding officer or board will consider the factors listed in Iowa Code section 17A.19(5) “c.”

7.34(3) *Vacation.* A stay may be vacated by the issuing authority upon application of the board or any other party.

193—7.35(17A) No factual dispute contested cases. If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable. If the parties cannot agree, any party may file and serve a motion for summary judgment pursuant to the rules governing such motions.

193—7.36(17A) Emergency adjudicative proceedings.

7.36(1) *Necessary emergency action.* To the extent necessary to prevent or avoid immediate danger to the public health, safety or welfare, and consistent with the United States Constitution and Iowa Constitution and other provisions of law, the board may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the board by emergency adjudicative order. Before issuing an emergency adjudicative order, the board will consider factors including, but not limited to, the following:

a. Whether there has been a sufficient factual investigation to ensure that the board is proceeding on the basis of reliable information;

b. Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;

c. Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;

d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and

e. Whether the specific action contemplated by the board is necessary to avoid the immediate danger.

7.36(2) *Issuance of order.*

a. An emergency adjudicative order will contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the board’s decision to take immediate action.

b. The written emergency adjudicative order will be immediately delivered to persons who are required to comply with the order by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the board;
- (3) Certified mail to the last address on file with the board;
- (4) First-class mail to the last address on file with the board; or

(5) Electronic service. Fax or email notification may be used as the sole method of delivery if the person required to comply with the order has filed a written request that board orders be sent by fax or email and has provided a fax number or email address for that purpose.

c. To the degree practicable, the board will select the procedure for providing written notice that best ensures prompt, reliable delivery.

7.36(3) Oral notice. Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the board will make reasonable immediate efforts to contact by telephone the persons who are required to comply with the order.

7.36(4) Completion of proceedings. After the issuance of an emergency adjudicative order, the board will proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

Issuance of a written emergency adjudicative order will include notification of the date on which board proceedings are scheduled for completion. After issuance of an emergency adjudicative order, continuance of further board proceedings to a later date will be granted only in compelling circumstances upon application in writing.

193—7.37(17A,272C) Judicial review. Judicial review of the board's decision may be sought in accordance with the terms of Iowa Code chapter 17A.

7.37(1) Consistent with Iowa Code section 17A.19(3), if a party does not file a timely application for rehearing, a judicial review petition will need to be filed with the district court within 30 days after the issuance of the board's final decision. The board's final decision is deemed issued on the date it is mailed or the date of delivery if service is by other means, unless another date is specified in the order.

7.37(2) If a party does file a timely application for rehearing, a judicial review petition will need to be filed with the district court within 30 days after the application for rehearing is denied or deemed denied. An application for rehearing is denied or deemed denied as provided in subrule 7.33(6).

193—7.38(17A,272C) Reinstatement.

7.38(1) The term "reinstatement" as used in this rule will include both the reinstatement of a suspended license and the issuance of a new license following the revocation or voluntary surrender of a license. Reinstating a license to active status under this rule is a two-step process:

a. First, the board will need to determine whether the suspended, revoked, or surrendered license may be reinstated under the terms of the order revoking or suspending the license or accepting the surrender of the license and under the two-part test described in subrule 7.38(5).

b. Second, if the board grants the application to reinstate, the licensee will need to complete and submit an application to demonstrate satisfaction of all administrative preconditions for reinstatement of the license to active status, including verification of completion of all continuing education and payment of reinstatement and renewal fees.

7.38(2) Any person whose license has been revoked or suspended by the board, or who voluntarily surrendered a license in a disciplinary proceeding, may apply to the board for reinstatement in accordance with the terms of the order of revocation or suspension, or order accepting the voluntary surrender.

7.38(3) Unless otherwise provided by law, if the order of revocation or suspension did not establish terms upon which reinstatement might occur, or if the license was voluntarily surrendered, an initial application for reinstatement may not be made until at least one year has elapsed from the date of the order or the date the board accepted the voluntary surrender of a license.

7.38(4) All proceedings for reinstatement will be initiated by the respondent, who will file with the board an application for reinstatement of the respondent's license. Such application will be docketed in the original case in which the license was revoked, suspended, or relinquished. All proceedings upon the petition for reinstatement, including the matters preliminary and ancillary thereto, will be subject to the same rules of procedure as other cases before the board. In addition, the board may grant an applicant's request to appear informally before the board prior to the issuance of a notice of hearing on the application if the applicant requests an informal appearance in the application and agrees not to

seek to disqualify on the ground of personal investigation the board members or staff before whom the applicant appears.

7.38(5) An application for reinstatement will allege facts which, if established, will be sufficient to enable the board to determine that the basis of revocation, suspension or voluntary surrender of the respondent's license no longer exists and that it will be in the public interest for the license to be reinstated. Compliance with subrule 7.30(3) needs to also be established. The burden of proof to establish such facts will be on the respondent. An order of reinstatement may include such conditions as the board deems reasonable under the circumstances. The board may grant the application without hearing, but may not deny the application in whole or part without setting the matter for hearing or providing the applicant the opportunity to request a contested case hearing if aggrieved by a term of the reinstatement order.

7.38(6) An order of reinstatement will be based upon a decision that incorporates findings of fact and conclusions of law and needs to be based upon the affirmative vote of not fewer than a majority of the board. This order will be published as provided for in subrule 7.30(2).

193—7.39(546,272C) Hearing on license denial. If the board denies an application for an initial, reciprocal or comity license, the executive officer will send written notice to the applicant by regular first-class mail identifying the factual and legal basis for denying the application. If the board denies an application to renew an existing license, the provisions of rule 193—7.40(546,272C) will apply.

7.39(1) An applicant who is aggrieved by the denial of an application for licensure and who desires to contest the denial will need to request a hearing before the board within 30 calendar days of the date the notice of denial is mailed. A request for a hearing needs to be in writing and is deemed made on the date of the United States Postal Service nonmetered postmark or the date of personal service to the board office. The request for hearing will specify the factual or legal errors that the applicant contends were made by the board, needs to identify any factual disputes upon which the applicant desires an evidentiary hearing, and may provide additional written information or documents in support of licensure. If a request for hearing is timely made, the board will promptly issue a notice of contested case hearing on the grounds asserted by the applicant.

7.39(2) The board, in its discretion, may act as presiding officer at the contested case hearing, may hold the hearing before a panel of three board members, or may request that an administrative law judge act as presiding officer. The applicant may request that an administrative law judge act as presiding officer and render a proposed decision pursuant to rule 193—7.10(17A,272C). A proposed decision by a panel of board members or an administrative law judge is subject to appeal or review by the board pursuant to rule 193—7.32(17A).

7.39(3) License denial hearings are contested cases open to the public. Evidence supporting the denial of the license may be presented by an assistant attorney general. While each party will have the burden of establishing the affirmative of matters asserted, the applicant will have the ultimate burden of persuasion as to the applicant's qualification for licensure.

7.39(4) The board, after a hearing on license denial, may grant or deny the application for licensure. If denied, the board will state the reasons for denial of the license and may state conditions under which the application for licensure might be granted, if applicable.

7.39(5) The notice of license denial, request for hearing, notice of hearing, record at hearing and order are open records available for inspection and copying in accordance with Iowa Code chapter 22. Copies may be provided to the media, collateral organizations and other persons or entities.

7.39(6) Judicial review of a final order of the board denying licensure may be sought in accordance with the provisions of Iowa Code section 17A.19, which are applicable to judicial review of any agency's final decision in a contested case.

193—7.40(546,272C) Denial of application to renew license. If the board denies a timely and sufficient application to renew a license, a notice of hearing will be issued to commence a contested case proceeding.

7.40(1) Hearings on denial of an application to renew a license will be conducted according to the procedural rules applicable to contested cases. Evidence supporting the denial of the license may be presented by an assistant attorney general. The provisions of subrules 7.39(2) and 7.39(4) to 7.39(6) will generally apply, although license denial hearings which are in the nature of disciplinary actions will be subject to all laws and rules applicable to such hearings.

7.40(2) Pursuant to Iowa Code section 17A.18(2), an existing license will not terminate or expire if the licensee has made timely and sufficient application for renewal until the last day for seeking judicial review of the board's final order denying the application, or a later date fixed by order of the board or the reviewing court.

7.40(3) Within the meaning of Iowa Code section 17A.18(2), a timely and sufficient renewal application will be:

- a.* Received by the board in paper or electronic form, or postmarked with a nonmetered United States Postal Service postmark on or before the date the license is set to expire or lapse;
- b.* Signed by the licensee if submitted in paper form or certified as accurate if submitted electronically;
- c.* Fully completed; and
- d.* Accompanied with the proper fee. The fee will be deemed improper if, for instance, the amount is incorrect, the fee was not included with the application, the credit card number provided by the applicant is incorrect, the date of expiration of a credit card is omitted or incorrect, the attempted credit card transaction is rejected, or the applicant's check is returned for insufficient funds.

7.40(4) The administrative processing of an application to renew an existing license will not prevent the board from subsequently commencing a contested case to challenge the licensee's qualifications for continued licensure if grounds exist to do so.

193—7.41(546,272C) Recovery of hearing fees and expenses. The board may assess the licensee certain fees and expenses relating to a disciplinary hearing only if the board finds that the licensee has violated a statute or rule enforced by the board. Payment will be made directly to the professional licensing and regulation bureau of the banking division of the department of commerce pursuant to rule 193—2.1(272C).

7.41(1) The board may assess the following costs under this rule:

- a.* For conducting a disciplinary hearing, an amount not to exceed \$75.
- b.* All applicable costs involved in the transcript of the hearing or other proceedings in the contested case including, but not limited to, the services of the court reporter at the hearing, transcription, duplication, and postage or delivery costs. In the event of an appeal to the full board from a proposed panel decision, the appealing party will timely request and pay for the transcript necessary for use in the board appeal process. The board may assess the transcript cost against the licensee pursuant to Iowa Code section 272C.6(6) or against the requesting party pursuant to Iowa Code section 17A.12(7), as the board deems equitable in the circumstances.
- c.* All normally accepted witness expenses and fees for a hearing or the taking of depositions, as incurred by the state of Iowa. These costs will include, but not be limited to, the cost of an expert witness and the cost involved in telephone testimony. The costs for lay witnesses will be guided by Iowa Code section 622.69. The cost for expert witnesses will be guided by Iowa Code section 622.72. Mileage costs will not be governed by Iowa Code section 625.2. The provisions of Iowa Code section 622.74 regarding advance payment of witness fees and the consequences of failure to make such payment are applicable with regard to any witness who is subpoenaed by either party to testify at hearing. Additionally, the board may assess travel and lodging expenses for witnesses at a rate not to exceed the rate applicable to state employees on the date the expense is incurred.
- d.* All normally applicable costs incurred by the state of Iowa involved in depositions including, but not limited to, the services of the court reporter who records the deposition, transcription, duplication, and postage or delivery costs. When a deposition of an expert witness is taken, the deposition cost will include a reasonable expert witness fee. The expert witness fee will not exceed the expert's customary

hourly or daily rate, and will include the time spent in travel to and from the deposition but exclude time spent in preparation for the deposition.

7.41(2) When imposed in the board's discretion, hearing fees (not exceeding \$75) will be assessed in the final disciplinary order. Costs and expenses assessed pursuant to this rule will be calculated and, when possible, entered into the final disciplinary order specifying the amount to be reimbursed and the time period in which the amount assessed will need to be paid by the licensee.

a. When it is impractical or not possible to include in the disciplinary order the exact amount of the assessment and time period in which to pay in a timely manner, or if the expenditures occur after the disciplinary order is issued, the board, by a majority vote of the members present, may assess through separate order the amount to be reimbursed and the time period in which payment is to be made by the licensee.

b. If the assessment and the time period are not included in the disciplinary order, the board will have to the end of the sixth month after the date the state of Iowa paid the expenditures to assess the licensee for such expenditure. In order to rely on this provision, however, the final disciplinary order will need to notify the licensee that fees and expenses will be assessed once known.

7.41(3) Any party may object to the fees, costs or expenses assessed by the board by filing a written objection within 20 days of the issuance of the final disciplinary decision, or within 10 days of any subsequent order establishing the amount of the assessment. A party's failure to timely object will be deemed a failure to exhaust administrative remedies. Orders which impose fees, costs or expenses will notify the licensee of the time frame in which objections will need to be filed in order to exhaust administrative remedies.

7.41(4) Fees, costs, and expenses assessed by the board pursuant to this rule will be allocated to the expenditure category in which the disciplinary procedure of hearing was incurred. The fees, costs, and expenses will be considered repayment receipts as defined in Iowa Code section 8.2.

7.41(5) The failure to comply with payment of the assessed costs, fees, and expenses within the time specified by the board will constitute a violation of an order of the board, be grounds for discipline, and be considered prima facie evidence of a violation of Iowa Code section 272C.3(2) "a." However, no action may be taken against the licensee without the opportunity for hearing as provided in this chapter.

193—7.42(546,272C) Settlement after notice of hearing.

7.42(1) Settlement negotiations after the notice of hearing is served may be initiated by the licensee or other respondent, the prosecuting assistant attorney general, the board's executive officer, or the board chair or chair's designee.

7.42(2) The board chair or chair's designee has authority to negotiate on behalf of the board but does not have the authority to bind the board to particular terms of settlement.

7.42(3) The respondent is not obligated to participate in settlement negotiations. The respondent's initiation of or consent to settlement negotiation constitutes a waiver of notice and opportunity to be heard during settlement negotiation pursuant to Iowa Code section 17A.17 and rule 193—7.28(17A). Thereafter, the prosecuting attorney is authorized to discuss informal settlement with the board chair or chair's designee, and the designated board member is not disqualified from participating in the adjudication of the contested case.

7.42(4) Unless designated to negotiate, no member of the board will be involved in settlement negotiation until a written consent order is submitted to the full board for approval. No informal settlement will be submitted to the full board unless it is in final written form executed by the respondent. By signing the proposed consent order, the respondent authorizes the prosecuting attorney or executive officer to have ex parte communications with the board related to the terms of settlement. If the board fails to approve the consent order, it will be of no force and effect to either party and will not be admissible at hearing. Upon rejecting a proposed consent order, the board may suggest alternative terms of settlement which the respondent is free to accept or reject.

7.42(5) If the board and respondent agree to a consent order, the consent order will constitute the final decision of the board. By electing to resolve a contested case through consent order, the respondent waives all rights to a hearing and all attendant rights. A consent order in a licensee disciplinary case will

have the force and effect of a final disciplinary order entered in a contested case and will be published as provided in rule 193—7.30(17A,272C).

These rules are intended to implement Iowa Code chapters 17A, 252J, 272C, 272D, 542, 542B, 543B, 543D, 544A, 544B, and 544C and sections 261.126, 261.127 and 546.10.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Lori SchraderBachar
Iowa Department of Inspections, Appeals and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.725.9030
Email: lori.schraderbachar@iowa.gov

Purpose and Summary

This proposed chapter provides the process for professional licensing board members to gain authorization to sell goods or services to those who are subject to the regulatory authority of the board on which they serve. The rule provides for certain blanket consents previously authorized by the boards and filed with the Ethics and Campaign Disclosure Board.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

The public will not bear the costs of this proposed rulemaking. Licensees must provide a free application to the board for its consideration.

Costs to the Department include the staff time needed to provide administrative support and coordinating activities for the seven professional licensing boards. Department staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees and the public will benefit from this proposed rulemaking. The rule provides information for licensees to continue their livelihood while volunteering to serve on a board.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

This proposed rule generally does not incur any costs, other than professional licensing board functions to administratively carry out the rule. A licensee may have the expenditure of time to complete the application to a board for consent to sell goods and services, but the application itself is free.

- Qualitative description of impact:

The purpose of the proposed rule is to provide a process for professional licensing board members to obtain authorization to continue selling goods and services when they are serving on a board. This ensures the licensees and board members are acting in an impartial manner.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to provide administrative support and coordinating activities for the seven professional licensing boards. Department staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Department staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

This proposed rule is largely dictated by statute in Iowa Code section 68B.4. The Department is required to implement a rule to ensure the statutory requirements are being followed.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Department has not identified less costly or less intrusive methods for achieving the purpose of the proposed rulemaking. This rule is largely dictated by statute in Iowa Code section 68B.4, and the Department is required to implement a rule to ensure compliance with the statutory requirements for the sale of goods and services by professional licensing board members.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department has not identified any alternative methods since this proposed rule is largely dictated by Iowa Code chapter 68B.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

This proposed rule is required by statute and largely dictated by Iowa Code chapter 68B.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.

- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.

- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed rule is required by Iowa Code chapter 68B. The Department does not have authority to provide discretion to small businesses. If a small business finds a rule to be overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, the small business could utilize the Department's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 11 and adopt the following new chapter in lieu thereof:

CHAPTER 11
SALES AND LEASES OF GOODS AND SERVICES

193—11.1(68B) Selling or leasing of goods or services by members of the department of inspections, appeals, and licensing examining boards as defined in 191—Chapter 1. The board members cannot sell or lease, either directly or indirectly, any goods or services to individuals, associations, or corporations that are subject to the regulatory authority of the department of inspections, appeals, and licensing except as authorized by this rule, and by the consent documents filed with the Iowa ethics and campaign disclosure board pursuant to Iowa Code section 68B.4 and the corresponding provisions of rule 351—6.11(68B).

11.1(1) Conditions of consent for members. Consent may be given by a majority of the members of the board upon a finding that the conditions required by Iowa Code section 68B.4, as described in 351—subrule 6.11(4), have been satisfied. The board may grant a blanket consent for sales and leases to classes of individuals, associations, or corporations when such blanket consent is consistent with 351—subrule 6.11(4) and the granting of single consents is impractical or impossible to determine.

11.1(2) Authorized sales and leases.

a. A member of a department of inspections, appeals, and licensing examining board may sell or lease goods or services to any individual, association, or corporation regulated by any division within the department of inspections, appeals, and licensing, other than the board on which that official serves. This consent is granted because the sale or lease of such goods or services does not affect the board member's duties or functions on the board. Each board has filed its blanket consent to such sales and leases with the ethics and campaign disclosure board.

b. A member of a department of inspections, appeals, and licensing examining board may sell or lease goods or services to any individual, association, or corporation regulated by the licensing board or commission of which that person is a member if those goods or services are routinely provided to the public as part of that person's regular professional practice. This consent is granted because the sale or lease of such goods or services does not affect the board member's duties or functions on the board. In the event a complaint is filed with the licensing board concerning the services provided by the board member to a member of the public, that board member is otherwise prohibited by law from participating in any discussion or decision by the licensing board in that case, as provided, for instance, in the code of administrative judicial conduct at 481—paragraph 10.29(3) "b." Each board has filed its blanket consent to such sales and leases with the ethics and campaign disclosure board. The boards intend that the blanket consent be interpreted broadly to allow routine professional services offered directly to the general public and to licensees, such as continuing education instruction or peer review services. Such consent recognizes that those licensees most proficient and ethical in their professional careers may also be among those whose services are desirable to enrich the professional competence of

licensees. Interpreting the blanket consent broadly accordingly removes a possible disincentive to board membership.

c. Individual application and approval are not necessary for the sales and leases authorized by this rule and by the consents filed with the ethics and campaign disclosure board unless there are unique facts surrounding a particular sale or lease which would cause the sale or lease to affect the seller's or lessor's duties or functions, would give the buyer or lessee an advantage in dealing with the board, or would otherwise present a conflict of interest as defined in Iowa Code section 68B.2A or common law.

11.1(3) *Application for consent.* Prior to selling or leasing a good or service to an individual, association, or corporation subject to the regulatory authority of the department of inspections, appeals, and licensing, an official will obtain prior written consent, as provided in 351—subrule 6.11(3), unless the sale or lease is specifically allowed in subrule 11.1(2) and in the consents filed with the ethics and campaign disclosure board. The request for consent needs to be in writing and signed by the official requesting consent. The application needs to provide a clear statement of all relevant facts concerning the sale or lease. The application should identify the parties to the sale or lease and the amount of compensation. The application should also explain why the sale or lease should be allowed. All applications need to conform to the requirements of 351—subrule 6.11(3).

11.1(4) *Limitation of consent.* Consent will be in writing and be valid only for the activities and the time period specifically described in the consent. Consent can be revoked at any time by a majority vote of the members of the board upon written notice to the board. A consent provided under this rule does not constitute authorization for any activity which is a conflict of interest under common law or which would violate any other statute or rule. It is the responsibility of the official requesting consent to ensure compliance with all other applicable laws and rules. The board's ruling on each application, whether consent is conferred or denied or conditionally granted, will be filed with the ethics and campaign disclosure board pursuant to 351—subrule 6.11(7). An official who receives a denial or conditional consent may appeal the ruling to the ethics and campaign disclosure board as provided in 351—subrule 6.11(6).

This rule is intended to implement Iowa Code chapter 68B.

Purpose and Summary

The purpose of this proposed rule is to form a committee to monitor impaired licensees for the purpose of public safety. The committee may include a licensed practitioner who has expertise in the area of substance abuse and addiction treatment or other applicable impairment; one public member of a professional licensing board; and one licensee. The program is confidential, and participation is not a matter of public record. Specific eligibility criteria must be met to ensure that matters that may need to be addressed by the board are routed appropriately. The goal of the program is to ensure that a licensee is safe to practice the licensee’s profession through ongoing committee monitoring. A participant will enter into a contract with a committee and agree to adhere to all terms and agreements set forth in the contract. Failure to comply with the provisions of the contract gives the committee the authority to make a referral to the board for possible disciplinary action. If a contract provision is breached that poses an immediate risk to the public, the committee may place immediate practice restrictions on the licensee.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to a licensee to participate in the impaired licensee review committee program (program). The licensee has to have a diagnosed impairment, which is often determined through a

substance abuse or other type of evaluation to assess the potential impairment. This evaluation is done at the expense of the licensee. The terms of the contract set forth requirements the licensee must meet to participate in the program, which may include therapy, random drug screens, Alcoholics Anonymous meetings, etc. Participation in these requirements is at the expense of the licensee.

The Department will bear costs associated with this rule as well as costs for Department staff to review applications for the program and monitor the licensee's participation. Department staff salaries to support the work of the professional licensing board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover operation costs for the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The program gives licensees an opportunity to receive the treatment they need and be rehabilitated. This proposed rule sets licensees who complete the program up to safely and successfully continue their profession, benefiting the public and the licensee alike.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

If a licensee participates in the program, the licensee will have associated costs, such as evaluations, therapy and/or treatment and potential loss of income. Depending on the licensee's impairment, a professional licensing board may find that practice restrictions are necessary until the licensee is rehabilitated, which could limit the licensee's ability to work in the profession for a period of time. However, the purpose of the program is to limit the disruption in the licensee's profession while ensuring the public is receiving safe services. The program is confidential, which allows the licensee to seek rehabilitation without the licensee's business being affected by public knowledge of the impairment.

- Qualitative description of impact:

This proposed rule provides for a confidential program to assist professionals who may be struggling with addiction, mental health or physical disabilities. Substantively, the goal of the terms of participation is to ensure that a licensee is safe to practice the licensee's profession. The program provides ongoing monitoring with the committee adding accountability for the licensee. Failure to comply with the requirements of the program could result in referral to a professional licensing board for disciplinary action. A licensee who successfully completes the program is able to regain full license privileges.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the Department staff time needed to review applications and monitor participants of the program. Staff salaries to support the work of a professional licensing board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Costs associated with this proposed rule are paid by individual licensees, not the State. Staff salaries to support the work of a professional licensing board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Department believes the costs of the program are justified by the benefits received. The program allows a licensee an avenue outside of discipline to address areas of impairment while being monitored by a professional group. Without this confidential program, a licensee would likely be subject to discipline, lose the licensee's license to practice or potentially cause harm to the public while practicing while impaired.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The program is less restrictive than discipline. The program is not punitive, and it is confidential. The program provides the ability for a licensee dealing with impairment to heal privately while simultaneously being monitored by a qualified group of professionals to ensure the public is protected. The costs of the program are individually based and determined by the evaluations and needs of the licensee. At this time, the Department has not identified a less restrictive alternative for the impaired practitioner program.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

At this time, the Department has not identified any alternative methods for the impaired practitioner program.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Department believes this program is needed to provide options for impaired professionals to rehabilitate themselves and be able to safely remain in their profession. This program provides licensees with a less restrictive option over discipline. A licensee can participate confidentially and receive the help the licensee needs to be successful in the licensee's profession.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This proposed rule provides an alternative for small business licensees who may be encountering impairment. Instead of being subject to discipline procedures, the licensee may enter the confidential program to seek assistance. When the licensee graduates from the program, the licensee will regain full privileges of licensing. Disciplinary proceedings are often costly to the licensee to hire legal counsel and can result in suspension or revocation of the license. This program allows the licensee to maintain the license and be monitored to ensure safe practice for all Iowans.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 12 and adopt the following new chapter in lieu thereof:

CHAPTER 12 IMPAIRED LICENSEE REVIEW COMMITTEES

193—12.1(272C) Impaired licensee review committee. Pursuant to the authority of Iowa Code section 272C.3(1) “k,” all the professional licensing boards as defined in 191—Chapter 1 may establish an impaired licensee review committee.

12.1(1) Definitions. The following definitions are applicable wherever such terminology is used in the rules regarding the impaired licensee review committee.

“Committee” means the impaired licensee review committee.

“Contract” means the written document establishing the terms for participation in the impaired licensee program prepared by the committee.

“Impairment” means an inability to practice with reasonable safety and skill as a result of alcohol or drug abuse, dependency, or addiction, or any neuropsychological or physical disorder or disability.

“Licensee” means a person licensed under Iowa Code chapter 542, 542B, 543B, 543D, 544A, 544B, or 544C.

“Self-report” means the licensee’s providing written or oral notification to the board that the licensee has been or may be diagnosed as having an impairment prior to the board’s receiving a complaint or report alleging the same from a second party.

12.1(2) Purpose. The impaired licensee review committee evaluates, assists, monitors, and, as necessary, makes reports to the board on the recovery or rehabilitation of licensees who self-report impairments or who are referred to the committee by the board.

12.1(3) Composition of the committee. The chairperson of each board will appoint the members of the committee for that board. The membership of the committee includes, but is not limited to:

- a. One licensee, registered under the applicable Iowa Code chapter regulated by the board;
- b. One public member of the board;
- c. One or more licensed professionals with expertise in substance abuse/addiction treatment programs or other applicable impairment.

The board may, alternatively, contract with an established impaired licensee review committee of another board, inside or outside the department of inspections, appeals, and licensing, if deemed in the best interest of the licensee or the public.

12.1(4) Eligibility. To be eligible for participation in the impaired licensee recovery program, a licensee will need to meet all of the following criteria:

- a. The licensee needs to self-report an impairment or suspected impairment directly to the office of the board or be referred to the committee by the board;
- b. The licensee cannot have engaged in the unlawful diversion or distribution of controlled substances, or illegal substances;
- c. At the time of the self-report, the licensee cannot already be under board order for an impairment or any other violation of the laws and rules governing the practice of the profession, although the existence of such an order cannot prevent the board from making a referral when deemed in the best interest of the licensee and the public;
- d. The licensee has not caused harm or injury to a client;
- e. The licensee has not been subject to a civil or criminal sanction, or ordered to make reparations or remuneration by a government or regulatory authority of the United States, this or any other state or territory or foreign nation for actions that the committee determines to be serious infractions of the laws, administrative rules, or professional ethics related to the practice of the profession;
- f. The licensee has provided truthful information and fully cooperated with the board or committee.

12.1(5) Meetings. The committee will meet as necessary in order to review licensee compliance, develop consent agreements for new referrals, and determine eligibility for continued monitoring.

12.1(6) Terms of participation. A licensee will agree to comply with the terms for participation in the impaired licensee program established in a contract. Conditions placed upon the licensee and the duration of the monitoring period will be established by the committee and communicated to the licensee in writing.

12.1(7) Noncompliance. Failure to comply with the provisions of the agreement obligates the committee to make immediate referral of the matter to the board for the purpose of disciplinary action.

12.1(8) *Practice restrictions.* The committee may impose restrictions on the licensee's practice as a term of the contract until such time as it receives a report from an approved evaluator that the licensee is capable of practicing with reasonable safety and skill. As a condition of participating in the program, a licensee is obligated to agree to restricted practice in accordance with the terms specified in the contract. In the event that the licensee refuses to agree to or comply with the restrictions established in the contract, the committee will refer the licensee to the board for appropriate action.

12.1(9) *Limitations.* The committee establishes the terms and monitors a participant's compliance with the program specified in the contract. The committee is not responsible for participants who fail to comply with the terms of or successfully complete the impaired licensee program. Participation in the program under the auspices of the committee cannot relieve the board of any duties and cannot divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the licensee's profession by a participant will be referred to the board for appropriate action. A violation of a contract is a ground for licensee discipline.

12.1(10) *Confidentiality.* The committee is subject to the provisions governing confidentiality established in Iowa Code section 272C.6. Accordingly, information in the possession of the board or the committee about licensees in the program cannot be disclosed to the public. Participation in the impaired licensee program under the auspices of the committee is not a matter of public record.

This rule is intended to implement Iowa Code chapter 272C.

Email: lori.schraderbachar@iowa.gov

Purpose and Summary

These proposed rules provide alternative pathways for licensure. The alternative options streamline the process for individuals who are licensed in another state to be licensed in Iowa. The requirements set out in these rules ensure licensees have proper skills to practice. The rules provide for certain criteria to be assessed, including prior discipline, proof of residency and work experience, in order to protect the public.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees and the Department will bear costs associated with this proposed rulemaking. Licensees incur fees for licensure upon application in the State of Iowa. Those fees are set by rule. A professional licensing board would utilize Department staff members to process the applications, respond to inquiries and manage phone calls. Department staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this proposed rulemaking because it provides an alternative path for those licensees who already have a license in another state. The licensees who qualify for the license by verification are able to apply for an Iowa license without going through all of the steps of the initial application process. This process saves the licensee time and expense.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

About ten licenses have been granted by the professional licensing boards defined in 193—Chapter 1.

- Qualitative description of impact:

In order to regulate and license professions as directed in statute, base standards for licensure are critical to protecting public safety. These proposed rules allow for individuals with licenses in other states to apply for licensure in Iowa through a streamlined verification process. The process allows more professionals for the public to access needed services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the Department staff time needed to process license applications as well as the costs associated with having a professional licensing board meeting as the applications are reviewed by the board. Department staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Department staff salaries to support the work of a professional licensing board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

While there are no costs to the public related to this proposed rulemaking, there are costs to the licensee. Licensees must pay licensing application fees in order to utilize these rules. Licensing fees vary depending on the profession and are set by separate rules. The Department believes the benefits justify the costs associated with license application. In order to regulate and license professions, base standards have to be set to ensure public safety. The licensing fees paid through these rules, as well as any other licensing application, are paid to the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. This Fund covers the operations of the professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Department has not identified a less restrictive alternative to the requirements for licensure by verification since these rules already reflect a less restrictive alternative for the licensing process.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department has not identified a less restrictive alternative to the requirements for licensure by verification since these rules already reflected a less restrictive alternative for the licensing process.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

These proposed rules implement recent legislation, 2020 Iowa Acts, House File 2627. The Department was not able to identify a less restrictive alternative that would also ensure public safety. These rules provide for a less restrictive method to licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

These proposed rules benefit a licensee who may own or work for small businesses because it provides a more efficient means for a licensee to obtain the licensee’s Iowa license if the licensee is already licensed in another state and meets certain qualifications. This process cuts down on the time and expenses the small business may have to wait to engage in business in Iowa.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 14 and adopt the following **new** chapter in lieu thereof:

CHAPTER 14
LICENSURE BY VERIFICATION OR WORK EXPERIENCE

193—14.1(272C) Definitions.

“*Board*” means an examining board or commission as defined in 193—Chapter 1.

“*Issuing jurisdiction*” means any state, commonwealth, or municipality; the District of Columbia, or other insular territory of the United States.

“*License*” or “*licensure*” means any license, registration, certificate, or permit that may be granted by an examining board or commission as defined in 193—Chapter 1.

193—14.2(272C) Licensure by verification. Licensure by verification is available in accordance with the following:

14.2(1) Eligibility. A person may seek licensure by verification if the person is licensed in at least one other jurisdiction that has a scope of practice substantially similar to that of Iowa.

14.2(2) Board application. The applicant needs to submit the following:

- a. A completed application for licensure by verification.
- b. Payment of the application fee.
- c. Completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check, if required for initial licensure by the board.
- d. A verification form completed by the licensing authority in the jurisdiction that issued the applicant’s license, verifying that the applicant’s license in that jurisdiction complies with the requirements of Iowa Code section 272C.12. The completed verification form needs to be sent directly from the licensing authority to the board.
- e. A copy of the complete criminal record, if the applicant has a criminal history.
- f. A copy of relevant disciplinary documents, if another jurisdiction has taken disciplinary action against the applicant.

g. Copies of relevant laws setting forth the scope of practice in the other state.

14.2(3) *Applicants with prior discipline.* If another jurisdiction has taken disciplinary action against an applicant, the board will determine whether the cause for the disciplinary action has been corrected and the matter has been resolved. If the board determines the disciplinary matter has not been resolved, the board will neither issue a license nor deny the application for licensure until the matter is resolved. A person who has had a license revoked, or who has voluntarily surrendered a license, in another jurisdiction is ineligible for licensure by verification.

14.2(4) *Applicants with pending licensing complaints or investigations.* If an applicant is currently the subject of a complaint, allegation, or investigation relating to unprofessional conduct pending before any regulating entity in another jurisdiction, the board will neither issue a license nor deny the application for licensure until the complaint, allegation, or investigation is resolved.

14.2(5) *Determination by board.* The board will make the determination of whether to issue a license under this rule based on information supplied by the applicant in the application and on such additional information as the board may acquire, including information or verification from other jurisdictions.

193—14.3(272C) Applicants with work experience in jurisdictions without licensure requirements.

14.3(1) *Work experience.* An applicant for initial licensure who has relocated to Iowa from another jurisdiction that did not need a professional license to practice in the profession may be considered to have met any educational and training requirements if the person has at least three years of work experience with a scope of practice substantially similar to that of the profession for which a license in Iowa is sought. The three years of work experience needs to be within the four years preceding the date of application for initial licensure. The applicant will need to satisfy all other requirements, including passing any required examinations, to receive a license.

14.3(2) *Required documentation.* An applicant who wishes to substitute work experience in lieu of satisfying applicable education or training requirements carries the burden of providing all of the following by submitting relevant documents as part of a completed license application:

a. Proof of Iowa residency, which may include:

- (1) Residential mortgage, lease, or rental agreement;
- (2) Utility bill;
- (3) Bank statement;
- (4) Paycheck or pay stub;
- (5) Property tax statement;
- (6) A document issued by the federal or state government; or
- (7) Any other board-approved document that reliably confirms Iowa residency.

b. Proof of three or more years of work experience within the four years preceding the application for licensure, which may include:

- (1) A letter from the applicant's prior employer documenting the dates of employment;
- (2) Paychecks or pay stubs;
- (3) If self-employed, business documents filed with the secretary of state; or
- (4) Any other board-approved evidence of sufficient work experience.

c. Proof that the work experience was in a practice with a scope of practice substantially similar to that for the license sought in Iowa, which includes:

- (1) A written statement by the applicant detailing the scope of practice; and
- (2) Business or marketing materials detailing the services provided.

These rules are intended to implement Iowa Code chapter 272C.

Purpose and Summary

This proposed rulemaking clarifies the pathway to potential licensure for individuals with criminal convictions. The proposed rules ensure a streamlined pathway while protecting the public through criteria that allows a professional licensing board to review the complete criminal record, evidence of rehabilitation, and other information when making a determination on eligibility for licensure. This rule implements recent legislation, 2020 Iowa Acts, House File 2627.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Applicants and the Department will bear the costs of this rulemaking. Applicants have the option to petition a professional licensing board for an eligibility waiver prior to completing a license application. The purpose of the eligibility waiver is to inform the applicant of whether the individual’s convictions are disqualifying offenses. There is a \$25 fee associated with the eligibility waiver. The Department employs staff to process the waivers and applications. Department staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

Applicants greatly benefit from this proposed rulemaking. While the Department is unable to pull statistics from the licensing database on the number of individuals with a criminal conviction, multiple individuals with prior criminal convictions have been licensed. These rules, as directed by legislation, open up career opportunities for individuals with criminal convictions that may not have previously existed.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

While there are no known quantitative costs to the public, the applicant does incur costs related to licensing and eligibility. An individual may petition a professional licensing board for an eligibility waiver prior to completing the licensing application. The board uses the waiver process to determine if the individual's criminal convictions are disqualifying offenses. There is a \$25 fee associated with the eligibility waiver. Licensing fees depend on the profession.

Department staff is needed to process license applications and eligibility waiver petitions. Department staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover the operations of the professional licensing boards.

- Qualitative description of impact:

These proposed rules, as directed by legislation, open up career opportunities for individuals with criminal convictions who may not have been able to secure a license in the past. The rules provide some discretion to a professional licensing board to determine whether an applicant has been rehabilitated to a point where the public would be safe with the applicant receiving a license in a particular field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department incurs costs in the form of staff to support a professional licensing board with the license applications and eligibility waivers. Department staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenue from these proposed rules. The rules allow more individuals to receive a professional license, which creates more job opportunities for those individuals. Having more potential and more opportunities allows the licensee to contribute back to the state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Department believes the intended benefit of these proposed rules outweighs any potential costs of the rules. The intended benefit is being achieved because this chapter is allowing a pathway for those with criminal convictions to obtain professional licenses that such individuals may not have otherwise been able to obtain. The Department believes it needs to have a streamlined approach to review an applicant's criminal convictions and potential rehabilitation to determine whether the past criminal convictions would have a negative impact on the applicant obtaining a license. While the Department does not have a statistic for how many people have been able to obtain a license with a criminal conviction, several licensees have utilized this chapter to be able to obtain a license and have opportunities for jobs. Without these rules, some individuals would be automatically excluded from practicing in certain professions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The purpose of these proposed rules is to allow individuals with past criminal convictions the opportunity to petition a professional licensing board for a determination on whether the individual

is able to obtain a license. The rules also provide a streamlined process for the board to review past criminal convictions and determine whether or not a license should be granted based on the nature of the criminal conviction and the potential rehabilitation. The rules provide a less intrusive method to determine whether an individual can obtain a license through the petition for eligibility waiver. The waiver process allows individuals to apply for a determination just on the criminal convictions prior to filing for the license application. The cost of the waiver is \$25, whereas the cost for license application is much more.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Department has not identified a less restrictive alternative to the requirements for use of criminal convictions in eligibility determinations and initial licensing decisions since these rules set the pathway for licensure of an individual with criminal convictions. Included in the proposed rules is the option for applicants to petition a professional licensing board for an eligibility determination prior to their initial license application. This allows for the applicant to pay only a fraction of the cost (\$25) as opposed to the entire licensing fee prior to a finding of whether the applicant's criminal convictions will disqualify the applicant from receiving a license.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Alternative methods were not considered because this rule is required by statute as enacted by 2020 Iowa Acts, House File 2627.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The eligibility waiver allows a small business applicant to pay a small fee for a professional licensing board to determine whether the applicant's criminal convictions are disqualifying offenses that would prevent the applicant from obtaining a license. The eligibility waiver is a tool used by the applicant prior to completing the full licensing process, which has a much higher fee.

Text of Proposed Rulemaking

ITEM 1. Rescind 193—Chapter 15 and adopt the following **new** chapter in lieu thereof:

CHAPTER 15

USE OF CRIMINAL CONVICTIONS IN ELIGIBILITY DETERMINATIONS AND INITIAL LICENSING DECISIONS

193—15.1(272C) Definitions. For the purposes of these rules, the following definitions apply:

“Complete criminal record” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted, regardless of whether the offense is classified as a felony or a misdemeanor, and regardless of the jurisdiction in which the offense occurred.

“Conviction” means a finding, plea, or verdict of guilt made or returned in a criminal proceeding, even if the adjudication of guilt is deferred, withheld, or not entered. “Conviction” includes Alford pleas and pleas of nolo contendere.

“Disqualifying offense” means a conviction directly related to the duties and responsibilities of the profession. A conviction is directly related to the duties and responsibilities of the profession if either (1) the actions taken in furtherance of an offense are actions customarily performed within the scope of practice of a licensed profession, or (2) the circumstances under which an offense was committed are circumstances customary to a licensed profession.

“License” means any license or registration issued by a board.

193—15.2(272C) License application. Unless an applicant for licensure petitions the board for an eligibility determination pursuant to rule 193—15.3(272C), the applicant’s convictions will be reviewed when the board receives a completed license application.

15.2(1) An applicant will disclose all convictions on a license application. Failure to disclose all convictions is grounds for license denial or disciplinary action following license issuance.

15.2(2) An applicant with one or more convictions will submit the complete criminal record for each conviction and a personal statement regarding whether each conviction directly relates to the practice of the profession in order for the license application to be considered complete.

15.2(3) An applicant will submit as a part of the license application all evidence of rehabilitation that the applicant wishes to be considered by the board.

15.2(4) The board may deny a license if the applicant has a disqualifying offense unless the applicant demonstrates by clear and convincing evidence that the applicant is rehabilitated pursuant to Iowa Code section 272C.15.

15.2(5) An applicant with one or more disqualifying offenses who has been found rehabilitated will need to still satisfy all other requirements for licensure.

15.2(6) Any application fees paid will not be refunded if the license is denied.

193—15.3(272C) Eligibility determination.

15.3(1) An individual who has not yet submitted a completed license application may petition the board for a determination of whether one or more of the individual’s convictions are disqualifying offenses that would render the individual ineligible for licensure. An individual with a conviction is not required to petition the board for an eligibility determination prior to applying for licensure.

15.3(2) To petition the board for an eligibility determination of whether one or more of the petitioner’s convictions are disqualifying offenses, a petitioner will submit all of the following:

- a. A completed petition for eligibility determination form;
- b. The complete criminal record for each of the petitioner’s convictions;
- c. A personal statement regarding whether each conviction directly relates to the duties and responsibilities of the profession and why the board should find the petitioner rehabilitated;
- d. All evidence of rehabilitation that the petitioner wishes to be considered by the board; and
- e. Payment of a nonrefundable fee of \$25.

193—15.4(272C) Appeal. A petitioner deemed ineligible or an applicant denied a license because of a disqualifying offense may appeal the decision in the manner and time frame set forth in the board’s written decision. A timely appeal will initiate a nondisciplinary contested case proceeding. The board’s rules governing contested case proceedings will apply unless otherwise specified in this rule. If the petitioner or applicant fails to timely appeal, the board’s written decision will become a final order.

15.4(1) An administrative law judge will serve as the presiding officer of the nondisciplinary contested case proceeding, unless the board elects to serve as the presiding officer. When an administrative law judge serves as the presiding officer, the decision rendered is a proposed decision.

15.4(2) The contested case hearing is closed to the public and the board's review of a proposed decision occurs in closed session.

15.4(3) The office of the attorney general will represent the board's initial ineligibility determination or license denial and will have the burden of proof to establish that the petitioner or applicant's convictions include at least one disqualifying offense. Upon satisfaction of this burden by a preponderance of the evidence by the office of the attorney general, the burden of proof will shift to the petitioner or applicant to establish rehabilitation by clear and convincing evidence.

15.4(4) A petitioner or applicant will need to appeal an ineligibility determination or license denial in order to exhaust administrative remedies. A petitioner or applicant may only seek judicial review of an ineligibility determination or license denial after the issuance of a final order following a contested case proceeding. Judicial review of the final order following a contested case proceeding will be in accordance with Iowa Code chapter 17A.

193—15.5(272C) Future petitions or applications. If a final order determines a petitioner is ineligible, the petitioner may not submit a subsequent petition for eligibility determination or a license application prior to the date specified in the final order. If a final order denies a license application, the applicant may not submit a subsequent license application or a petition for eligibility determination prior to the date specified in the final order.

These rules are intended to implement Iowa Code chapter 272C.

Purpose and Summary

The rules publicly outline administrative processes of the professional licensing boards within DIAL — Licensing Division. This includes expectations of licensees to change their name and address, order duplicate certificates, and provide continuing education information in an audit, as well as board order authority.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Costs are not generally incurred by the public in relation to this rulemaking. Licensees may incur costs related to initial and renewal licensing fees, duplicate certificates, or completing a physical, mental, substance abuse, or clinical competency examination as ordered by a board.

Staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The benefit of the rulemaking is achieved as professional licensing board administrative processes and expectations of licensees are established within the rulemaking in accordance with statute. This

work is done with a focus on protecting the health and safety of the public who receive services and/or care from licensed professionals.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The legacy Professional Licensure Division encompasses 19 boards regulating approximately 61,000 professional licensees. In order to regulate the professions as directed in the Iowa Code, administrative processes are needed to properly issue licenses, investigate complaints and run audits on compliance with board rules.

- Qualitative description of impact:

Iowa statute requires the regulation and licensing of certain professions to ensure the health and safety of the public who are receiving services and care from the licensed professionals. This rulemaking provides administrative processes for the boards to ensure rules are being utilized and complied with by licensees.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the costs for staff needed to support the administrative work of the boards. Staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues from this rulemaking.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Costs are not generally incurred by the public related to this rulemaking. Licensees may incur costs related to initial and renewal licensing fees, duplicate certificates, or completing a physical, mental, substance abuse, or clinical competency examination as ordered by a board. The benefit of the rulemaking is achieved as board administrative processes and expectations of licensees are established within the rulemaking in accordance with statute.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

DIAL — Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The Department has not identified any less costly or less intrusive methods for achieving the purpose of this rulemaking.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

DIAL — Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The Department has not identified any less costly or less intrusive methods for achieving the purpose of this rulemaking.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

DIAL — Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The Department has not identified any less costly or less intrusive methods for achieving the purpose of this rulemaking.

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The rules publicly outline administrative processes of the professional licensing boards. These administrative rules apply equally to all businesses. If a small business identifies a rule that is overly burdensome and the goals of which could be achieved in a manner that would reduce the impact on the small business, it may utilize the Department’s established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 4 and adopt the following **new** chapter in lieu thereof:

CHAPTER 4
BOARD ADMINISTRATIVE PROCESSES

645—4.1(17A) Definitions.

“*License*” means a license to practice the specific practice governed by one of the boards defined in this chapter.

“*Licensee*” means a person licensed to practice the specific practice governed by one of the boards defined in this chapter.

645—4.2(17A) Purpose of board. The purpose of each professional licensing board is to administer and enforce the provisions of Iowa Code chapters 17A, 21, 147, and 272C and the practice-specific provisions in Iowa Code chapters 148A, 148B, 148C, 149, 151, 152A, 152B, 152C, 152D, 154, 154A, 154B, 154C, 154D, 154E, 155, 156, 157 and 158 applicable to each board. The mission of each professional licensing board is to protect the public health, safety and welfare by licensing qualified individuals who provide services to consumers and by fair and consistent enforcement of the statutes and rules of each board. Responsibilities of each professional licensing board include, but are not limited to:

- 4.2(1) Licensing qualified applicants by examination, renewal, endorsement, and reciprocity.
- 4.2(2) Developing and administering a program of continuing education to ensure the continued competency of individuals licensed by the board.
- 4.2(3) Imposing discipline on licensees as provided by statute or rule.

645—4.3(17A,147,272C) Organization of board and proceedings.

4.3(1) Each professional licensing board is composed of members appointed by the governor and confirmed by the senate as defined in Iowa Code chapter 147.

4.3(2) Each board elects a chairperson and vice chairperson from its membership at the first meeting after April 30 of each year.

4.3(3) A majority of the members of each board constitutes a quorum.

4.3(4) Board meetings are governed in accordance with Iowa Code chapter 21.

4.3(5) Each professional licensing board has the authority to:

- a. Develop and implement continuing education rules to ensure the continued competency of individuals licensed by the board.
- b. Establish fees.
- c. Establish committees of the board.
- d. Hold a closed session if the board votes to do so in a public roll-call vote with an affirmative vote of at least two-thirds if the total board is present or a unanimous vote if fewer are present. The board shall keep minutes of all discussion, persons present, and action occurring at a closed session. The records shall be stored securely in the board office.
- e. Investigate alleged violations of statutes or rules that relate to the practice of licensees upon receipt of a complaint or upon the board's own initiation.
- f. Initiate and impose licensee discipline.
- g. Monitor licenses that are restricted by a board order.
- h. Establish and register peer reviewers.
- i. Refer complaints to one or more registered peer reviewers for investigation and review. The peer reviewers will review cases and recommend appropriate action.
- j. Perform any other functions authorized by a provision of law.

645—4.4(17A) Name and address changes.

4.4(1) Notice of change of address. Each licensee shall notify the board of a change of the licensee's current mailing address within 30 days after the change of address occurs.

4.4(2) Notice of change of name. Each licensee shall notify the board in writing of a change of name within 30 days after changing the name.

645—4.5(147) Duplicate certificate. A duplicate certificate is required if the current certificate is lost, stolen or destroyed. Duplicate certificates may be purchased online.

645—4.6(17A,147,272C) License denial.

4.6(1) When the board denies an applicant licensure, the board shall notify the applicant of the denial in writing and cite the reasons for which the application was denied.

4.6(2) An applicant who has been denied licensure by the board may appeal the denial and request a hearing by submitting a request in writing within 30 days following the date of mailing of the notification of licensure denial to the applicant. The request for hearing shall specifically describe the facts to be contested and determined at the hearing. The hearing and subsequent procedures will be held pursuant to the process outlined in Iowa Code chapters 17A and 272C and 645—Chapter 11.

645—4.7(272C) Audit of continuing education. The board may select licensees for audit following license renewal.

4.7(1) If selected for audit, the licensee will provide certificates of completion of continuing education within 30 days of notice. The documents will contain the course date, title, contact hours, sponsor and licensee's name. Extension of time may be granted on an individual basis.

4.7(2) All licensees must retain continuing education certificates for two years after the renewal.

4.7(3) If the submitted certificates are incomplete or unsatisfactory, the licensee may submit make-up credit to cover the deficit. The deadline for make-up credit is 90 days from the date of the notice of deficit.

645—4.8(272C,83GA,SF2325) Automatic exemption. A licensee is exempt from the continuing education requirement during the license biennium when the licensee:

1. Served active duty in the military service; or
2. Resided in another state or district having continuing education requirements; or
3. Was a government employee working in the licensee's specialty and assigned to duty outside the United States.

645—4.9(272C) Continuing education exemption for disability or illness. A licensee who has had a physical or mental disability or illness during the license period may apply for an exemption providing an

extension of time or exemption from some or all of the continuing education requirements. An applicant shall submit a completed application form approved by the board for an exemption. If the application is from a licensee who is the primary caregiver for a relative who is ill or disabled and needs care from that primary caregiver, the physician shall verify the licensee's status as the primary caregiver. A licensee who applies for an exemption shall be notified of the decision regarding the application.

4.9(1) The board may grant an extension of time to fulfill the continuing education requirement.

4.9(2) The board may grant an exemption from the continuing education requirement for any period of time not to exceed two calendar years. If the physical or mental disability or illness for which an extension or exemption was granted continues beyond the period initially approved by the board, the licensee must reapply for a continuance of the extension or exemption.

4.9(3) The board may, as a condition of any extension or exemption granted, require the licensee to make up a portion of the continuing education requirement in the manner determined by the board.

645—4.10(147,272C) Order for physical, mental, substance abuse or clinical competency examination. If the board has probable cause, a licensee may be required to submit to a physical, mental, substance abuse or clinical competency examination at the licensee's expense.

4.10(1) *Content of order.* A board order for a physical, mental, substance abuse or clinical competency examination shall include the following items:

a. A description of the type of examination.

b. The amount of time the licensee has to complete the examination.

c. A statement indicating the licensee sign necessary releases for the board to communicate with the examiner of the evaluation or treatment facility.

d. A statement that the licensee communicate with the board regarding the status of the examination.

e. A statement that the licensee will have the examiner provide the examination results directly to the board within a specified period of time.

4.10(2) *Alternatives.* Following issuance of the examination order, the licensee may request additional time to schedule or complete the examination or may request that the board approve an alternative examiner or treatment facility. The board in its discretion shall determine whether to grant the request.

4.10(3) *Objection to order.* A licensee who is the subject of a board order and who objects to the order may file a request for hearing. The request for hearing must be filed within 30 days of the date of the examination order, and the request for hearing shall specifically identify the factual and legal issues upon which the licensee bases the objection. A licensee who fails to timely file a request for hearing to object to an examination order waives any future objection to the examination order in the event formal disciplinary charges are filed for failure to comply with the examination order or on any other grounds. The hearing shall be considered a contested case proceeding and shall be governed by the provisions of 645—Chapter 11. On judicial review of a board decision in a contested case involving an objection to an examination order, the case will be captioned to maintain the licensee's confidentiality.

4.10(4) *Closed hearing.* Any hearing on an objection to the examination order shall be closed pursuant to Iowa Code section 272C.6(1).

4.10(5) *Order and reports confidential.* An examination order, and any subsequent examination reports issued in the course of a board investigation, are confidential investigative information pursuant to Iowa Code section 272C.6(4). However, all investigative information regarding the examination order shall be provided to the licensee in the event the licensee files an objection, under subrule 4.15(3), in order to allow the licensee an opportunity to prepare for hearing.

4.10(6) *Admissibility.* In the event the licensee submits to evaluation and subsequent proceedings are held before the board, all objections shall be waived as to the admissibility of the examining physicians' or health care providers' testimony or examination reports on the grounds that they constitute privileged communication. The medical testimony or examination reports shall not be used against the licensee in any proceeding other than one relating to licensee discipline by the board.

4.10(7) *Failure to submit.* Failure of a licensee to submit to a board-ordered physical, mental, substance abuse or clinical competency examination constitutes a violation of the rules of the board and is grounds for disciplinary action.

645—4.11(252J,272D) Noncompliance rules regarding child support and nonpayment of state debt.

4.11(1) *Child support noncompliance.* The board hereby adopts by reference 641—Chapter 192, “Child Support Noncompliance,” Iowa Administrative Code.

4.11(2) *Nonpayment of state debt.* The board hereby adopts by reference 641—Chapter 194, “Nonpayment of State Debt,” Iowa Administrative Code.

These rules are intended to implement Iowa Code chapters 17A, 21, 147, 252J, 272C and 272D.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 5
“Fees”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code sections 17A, 147, and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link: meet.google.com/bfq-qaeb-nwu
Phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Emily DeRonde
Iowa Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.249.7038
Email: emily.deronde@dia.iowa.gov

Purpose and Summary

The purpose of this proposed chapter is to establish fees for licensed professions. This chapter provides fees for the following boards: Hearing Aid Specialist Board, Speech Pathology and Audiology Board, Nursing Home Administrator Board, Optometry Board, Sign Language Interpreters and Transliterators Board, Barbering and Cosmetology Arts Sciences Board, Physical and Occupational Therapy Board, Athletic Training Board, Mortuary Science Board, Physician Assistants Board, Chiropractic Board, Behavioral Science Board, Psychology Board, Social Work Board, Podiatry Board, Massage Therapy Board, Dietetics Board and the Respiratory Care Board.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Costs are not generally incurred by the public related to Chapter 5. Licensees incur costs through the licensing fees as established in this chapter, which include fees related to applications for initial licensing, renewal of licenses, late fees for renewing licenses, temporary licenses (if permitted by statute), reactivation of a license, purchasing a duplicate certificate, and returned check fees.

The professional licensing fees go to the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557, to support the work of the boards. Fees provide support for all functions that are within the authority of boards including licensing, investigations, continuing education, administrative support to boards including rulemaking and rule waivers, board discipline, outreach to professional

associations and other members of the public, disciplinary hearing fees, examination fees (if applicable) and verification of license fee.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this chapter because it establishes set amounts for licensing fees for each profession.

DIAL benefits because the licensing fees are paid to the Fund to cover the costs of the operations of the regulated professional licensing boards.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Licensees must pay a fee at the time of initial application for license as well as at renewal. The licensing fees are paid into the Fund, which funds the operations of the boards. A cost comparison of license fees to nearby states can be found below.

| License Type | Initial Fee IA | Initial Fee IL | Initial Fee MN | Initial Fee MO | Initial Fee NE |
|------------------------------------|----------------|----------------|----------------|----------------|----------------|
| Athletic Training | \$120 | \$200 | \$183 | \$25 | \$117 |
| Barbering | \$60 | \$30 | \$160 | \$20 | \$220 |
| Barbering Instructor | \$60 | \$156 | \$180 | \$20 | \$100 |
| Behavior Analyst | \$120 | unknown | unknown | \$150 | unknown |
| Marital and Family Therapist | \$120 | \$100 | \$125 | \$100 | \$50 |
| Mental Health Counselor | \$120 | \$100 | \$125 | \$100 | \$50 |
| Chiropractic | \$270 | \$500 | \$250 | \$200 | \$144 |
| Cosmetologist | \$60 | \$30 | \$155 | \$146 | \$95 |
| Electrologist | \$60 | \$125 | unknown | unknown | \$95 |
| Esthetician | \$60 | \$30 | \$155 | N/A | \$95 |
| Manicurist | \$60 | \$80 | \$285 | \$210 | \$148 |
| Nail Technician | \$60 | \$30 | \$155 | \$30 | \$50 |
| Cosmetology Instructor | \$60 | \$30 | \$195 | \$20 | \$50 |
| Dietician | \$120 | \$100 | \$150 | \$50 | unknown |
| Hearing Aid Specialists | \$156 | \$200 | \$750 | \$250 | \$165 |
| Funeral Director | \$120 | \$100 | \$200 | \$150 | \$90 |
| Massage Therapist | \$120 | \$175 | not required | \$125 | \$110 |
| Nursing Home Administrators | \$120 | \$180 | \$150 | \$150 | \$166 |
| Optometrist | \$300 | \$500 | \$160 | \$225 | \$166 |
| Physician Assistant | \$120 | \$50 | \$120 | \$25 | \$150 |
| Podiatrist | \$400 | \$400 | \$600 | \$200 | \$131 |
| Orthotist, Prosthetist, Pedorthist | \$400 | \$400 | \$600 | unknown | unknown |
| Psychologist | \$120 | \$50 | \$500 | \$150 | \$183 |
| Occupational Therapist | \$120 | \$25 | \$185 | \$30 | \$120 |

| | | | | | |
|--|-----------|-----------|-----------|-----------|-----------|
| Physical Therapist | \$120 | \$100 | \$60 | \$25 | \$133 |
| Respiratory Care Practitioner | \$75 | \$100 | \$190 | \$40 | \$118 |
| Sign Language Interpreter and Transliterater | \$120 | \$175 | unknown | \$75 | \$150 |
| Audiologist | \$120 | \$90 | \$544 | \$25 | \$140 |
| Speech Pathologist | \$120 | \$90 | \$219 | \$25 | \$140 |
| Social Worker Bachelor's Level | \$120 | \$50 | \$81 | \$60 | \$125 |
| Social Worker Independent Level | \$120 | unknown | \$108 | unknown | unknown |
| Social Worker Master's Level | \$120 | \$50 | \$239 | \$60 | \$125 |
| | IA | IL | MN | MO | NE |
| Average Initial Licensing Fee | \$133 | \$142 | \$244 | \$96 | \$122 |

NOTE: Supplemental fees (e.g., examination fees, background check fees) vary across state lines. The figures in this comparative analysis represent only the licensing fee to the extent that it could be isolated from the total cost of initial licensure.

| License Type | Renewal Fee IA | Renewal Fee IL | Renewal Fee MN | Renewal Fee MO | Renewal Fee NE |
|------------------------------|----------------|----------------|----------------|----------------|----------------|
| Athletic Training | \$60 | \$100 | \$100 | \$25 | \$59 |

| Massage Therapist | \$30 | \$88 | not required | \$50 | \$55 |

| | | | | | |
|--|-----------|-----------|-----------|-----------|-----------|
| Nursing Home Administrators | \$30 | \$25 | \$113 | \$75 | \$83 |
| Optometrist | \$72 | \$200 | \$130 | \$75 | \$73 |
| Physician Assistant | \$60 | \$20 | \$135 | \$25 | \$55 |
| Podiatrist | \$200 | \$200 | \$300 | \$100 | \$66 |
| Orthotist, Prosthetist, Pedorthist | \$200 | \$125 | \$300 | unknown | unknown |
| Psychologist | \$85 | \$40 | \$250 | \$150 | \$92 |
| Occupational Therapist | \$30 | \$20 | \$15 | \$15 | \$60 |
| Physical Therapist | \$30 | \$30 | \$60 | \$25 | \$67 |
| Respiratory Care Practitioner | \$38 | \$60 | \$90 | \$15 | \$59 |
| Sign Language Interpreter and Transliterator | \$60 | \$150 | unknown | \$90 | \$75 |
| Audiologist | \$48 | \$50 | \$255 | \$17 | \$70 |
| Speech Pathologist | \$48 | \$50 | \$100 | \$17 | \$70 |
| Social Worker Bachelor's Level | \$36 | \$30 | \$41 | \$29 | \$63 |
| Social Worker Independent Level | \$72 | unknown | unknown | unknown | unknown |
| Social Worker Master's Level | \$60 | \$30 | \$119 | \$29 | \$63 |
| | IA | IL | MN | MO | NE |
| Average Renewal Licensing Fee | \$56 | \$62 | \$143 | \$51 | \$59 |

NOTE: Renewal schedules vary across professions and across state lines. The figures in this comparative analysis represent only the licensing renewal fee to the extent that it could be isolated. Additionally, the fees have been adjusted to the cost equivalent of one year in order to account for differing renewal schedules.

- Qualitative description of impact:

A review of licensing and renewal fees in surrounding states shows that Iowa's fees are generally in line with the other states. The fees are necessary to provide funds to support the board operations so that the boards can ensure Iowans receive competent and safe services.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Staff salaries to support the work of the boards are covered by the Fund. There are currently 16.5 full-time equivalent (FTE) positions that support the work of the 19 boards contained in this chapter at an annual budget of roughly \$2 million. These 19 boards license and regulate over 61,000 licensees. Staff process licenses, provide administrative support to boards and the decisions they are authorized to make pursuant to the Iowa Code, investigate complaints, assist with disciplinary action when needed, and monitor licensees under board order or in confidential health monitoring programs. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues from this rulemaking. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees are paid into the fund to cover the operation costs of the boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs of licenses vary depending on the profession. The licensing fees are paid into the Fund to cover the costs of operation of the professional licensing boards. An alternative to licensing fees would be reducing or eliminating the fee or license requirement. Without the licensing fee, the boards would not have the financial resources necessary to carry out their work to protect the public's health and safety.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to lower licensing fees or eliminate licensure for specific professions. Less restrictive forms of regulation include a registration, certification or registry. There are typically fewer requirements to a registration, certification or registry, which means operational costs, and therefore fees, can be lowered. While these are options that exist for consideration, the boards that regulate these professions believe that Iowa's regulatory scheme, as it exists today, is important and necessary because it provides safeguards to the public. FY 2024 will be the first fiscal year that professional licensing board fees are collectively pooled in the Fund to support the cost of regulating the professions. This new model may allow for additional assessment of licensing board budgets and operational needs.

Additionally, the Boards and Commissions Review Committee is currently assessing the efficiency and effectiveness of all boards and commissions, including those in the DIAL Licensing Division. Action items from this committee could trigger a review of fees in specific areas.

The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations about alternative methods and less restrictive forms of regulation such as a registration, certification, or registry. There are typically fewer requirements to a registration, certification or registry, which means operational costs, and therefore fees, can be lowered. While these are options that exist for consideration, the boards that regulate these professions believe that Iowa's regulatory scheme, as it exists today, is important and necessary because it provides safeguards to the public.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The boards that regulate these professions believe that Iowa's regulatory scheme, as it exists today, is important and necessary because it provides safeguards to the public.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.

- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The boards believe the fees for licensing should be the same for each licensee in a particular profession. If the individual licensee finds a rule to be overly burdensome where the goals of which could be achieved in a manner that results in less impact on the small business, the licensee utilizes DIAL's established waiver process.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 5 and adopt the following **new** chapter in lieu thereof:

CHAPTER 5
FEES

645—5.1(147,152D) Athletic training license fees. All fees are nonrefundable.

- 5.1(1) License fee for license to practice athletic training is \$120.
- 5.1(2) Temporary license fee for license to practice athletic training is \$120.
- 5.1(3) Biennial license renewal fee for each biennium is \$120.
- 5.1(4) Late fee for failure to renew before expiration is \$60.
- 5.1(5) Reactivation fee is \$180.
- 5.1(6) Duplicate or reissued license certificate fee is \$20.
- 5.1(7) Verification of license fee is \$20.
- 5.1(8) Returned check fee is \$25.
- 5.1(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code chapters 17A, 147, 152D and 272C.

645—5.2(147,158) Barbering license fees. All fees are nonrefundable.

- 5.2(1) License fee for an initial license to practice barbering, license by endorsement, license by reciprocity or an instructor's license is \$60.
- 5.2(2) Biennial renewal fee for a barber license or barber instructor license is \$60.
- 5.2(3) Temporary permit fee is \$12.
- 5.2(4) Practical examination fee is \$75.
- 5.2(5) Demonstrator permit fee is \$45 for the first day and \$12 for each day thereafter for which the permit is valid.
- 5.2(6) Barber school license fee is \$600.
- 5.2(7) Barber school annual renewal fee is \$300.
- 5.2(8) Barbershop license fee is \$72.
- 5.2(9) Biennial renewal fee for a barbershop license is \$72.
- 5.2(10) Late fee for failure to renew before expiration is \$60.
- 5.2(11) Reactivation fee for a barber license is \$120.
- 5.2(12) Reactivation fee for a barbershop license is \$132.
- 5.2(13) Reactivation fee for a barber school license is \$360.
- 5.2(14) Duplicate or reissued license certificate fee is \$20.
- 5.2(15) Verification of license fee is \$20.
- 5.2(16) Returned check fee is \$25.
- 5.2(17) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.80 and chapter 158.

645—5.3(147,154D) Behavioral science license fees. All fees are nonrefundable.

5.3(1) License fee for license to practice marital and family therapy or mental health counseling is \$120.

5.3(2) Temporary license fee for license to practice marital and family therapy or mental health counseling is \$120.

5.3(3) License fee for license to practice as a behavior analyst or assistant behavior analyst is \$120. Behavior analyst and assistant behavior analyst licenses issued for less than one year shall not be subject to a renewal fee for the first renewal.

5.3(4) Biennial license renewal fee for each biennium is \$120.

5.3(5) Late fee for failure to renew before expiration is \$60.

5.3(6) Reactivation fee is \$180.

5.3(7) Duplicate or reissued license certificate fee is \$20.

5.3(8) Verification of license fee is \$20.

5.3(9) Returned check fee is \$25.

5.3(10) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 154D and 272C.

645—5.4(151) Chiropractic license fees. All fees are nonrefundable.

5.4(1) License fee for license to practice chiropractic is \$270.

5.4(2) Fee for issuance of annual temporary certificate is \$120.

5.4(3) Biennial license renewal fee is \$120.

5.4(4) Late fee for failure to renew before the expiration date is \$60.

5.4(5) Reactivation fee is \$180.

5.4(6) Duplicate or reissued license certificate fee is \$20.

5.4(7) Fee for verification of license is \$20.

5.4(8) Returned check fee is \$25.

5.4(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code chapters 17A, 151 and 272C.

645—5.5(147,157) Cosmetology arts and sciences license fees. All fees are nonrefundable.

5.5(1) License fee for license to practice cosmetology arts and sciences, license by endorsement, license by reciprocity, or an instructor's license is \$60.

5.5(2) Biennial license renewal fee for each license for each biennium is \$60.

5.5(3) Late fee for failure to renew before expiration is \$60.

5.5(4) Reactivation fee for applicants licensed to practice cosmetology is \$120; for salons, \$144; and for schools, \$330.

5.5(5) Duplicate or reissued license certificate fee is \$20.

5.5(6) Fee for verification of license is \$20.

5.5(7) Returned check fee is \$25.

5.5(8) Disciplinary hearing fee is a maximum of \$75.

5.5(9) Fee for license to conduct a school teaching cosmetology arts and sciences is \$600.

5.5(10) Fee for renewal of a school license is \$270 annually.

5.5(11) Salon license fee is \$84.

5.5(12) Biennial license renewal fee for each salon license for each biennium is \$84.

5.5(13) Demonstrator and not-for-profit temporary permit fee is \$42 for the first day and \$12 for each day thereafter that the permit is valid.

5.5(14) An initial fee or a reactivation fee for certification to administer microdermabrasion or utilize a certified laser product or an intense pulsed light (IPL) device is \$25 for each type of procedure or certified laser product or IPL device.

5.5(15) An initial fee or a reactivation fee for certification of cosmetologists to administer chemical peels is \$25.

This rule is intended to implement Iowa Code section 147.80 and chapter 157.

645—5.6(147,152A) Dietetics license fees. All fees are nonrefundable.

5.6(1) License fee for license to practice dietetics, license by endorsement, or license by reciprocity is \$120.

5.6(2) Biennial license renewal fee for each biennium is \$120.

5.6(3) Late fee for failure to renew before expiration is \$60.

5.6(4) Reactivation fee is \$180.

5.6(5) Duplicate or reissued license certificate fee is \$20.

5.6(6) Verification of license fee is \$20.

5.6(7) Returned check fee is \$25.

5.6(8) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 152A and 272C.

645—5.7(147,154A) Hearing aid specialists license fees. All fees are nonrefundable.

5.7(1) Application fee for a license to practice by examination, endorsement, or reciprocity is \$156.

5.7(2) Renewal of license fee is \$60.

5.7(3) Temporary permit fee is \$42.

5.7(4) Late fee is \$60.

5.7(5) Reactivation fee is \$120.

5.7(6) Duplicate or reissued license certificate fee is \$20.

5.7(7) Verification of license fee is \$20.

5.7(8) Returned check fee is \$25.

5.7(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code chapter 154A.

645—5.8(147) Massage therapy license fees. All fees are nonrefundable.

5.8(1) License fee for license to practice massage therapy is \$120.

5.8(2) Biennial license renewal fee for each biennium is \$60.

5.8(3) Temporary license fee for up to one year is \$120.

5.8(4) Late fee for failure to renew before expiration is \$60.

5.8(5) Reactivation fee is \$120.

5.8(6) Duplicate or reissued license certificate fee is \$20.

5.8(7) Verification of license fee is \$20.

5.8(8) Returned check fee is \$25.

5.8(9) Disciplinary hearing fee is a maximum of \$75.

5.8(10) Initial application fee for approval of massage therapy education curriculum is \$120.

This rule is intended to implement Iowa Code chapters 17A, 147 and 272C.

645—5.9(147,156) Mortuary science license fees. All fees are nonrefundable.

5.9(1) License fee for license to practice funeral directing is \$120.

5.9(2) Biennial funeral director's license renewal fee for each biennium is \$120.

5.9(3) Late fee for failure to renew before expiration is \$60.

5.9(4) Reactivation fee for a funeral director is \$180 and for a funeral establishment or cremation establishment is \$150.

5.9(5) Duplicate or reissued license certificate fee is \$20.

5.9(6) Verification of license fee is \$20.

5.9(7) Returned check fee is \$25.

5.9(8) Disciplinary hearing fee is a maximum of \$75.

5.9(9) Funeral establishment or cremation establishment fee is \$90.

5.9(10) Three-year renewal fee of funeral establishment or cremation establishment is \$90.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 156 and 272C.

645—5.10(147,155) Nursing home administrators license fees. All fees are nonrefundable.

- 5.10(1) License fee for license to practice nursing home administration is \$120.
- 5.10(2) Biennial license renewal fee for each license for each biennium is \$60.
- 5.10(3) Late fee for failure to renew before expiration is \$60.
- 5.10(4) Reactivation fee is \$120.
- 5.10(5) Duplicate or reissued license certificate fee is \$20.
- 5.10(6) Verification of license fee is \$20.
- 5.10(7) Returned check fee is \$25.
- 5.10(8) Disciplinary hearing fee is a maximum of \$75.
- 5.10(9) Provisional license fee is \$120.

This rule is intended to implement Iowa Code section 147.80 and chapter 155.

645—5.11(147,148B) Occupational therapy license fees. All fees are nonrefundable.

- 5.11(1) License fee for an OT or OTA license to practice occupational therapy is \$120.
- 5.11(2) Biennial license renewal fee to practice occupational therapy is \$60.
- 5.11(3) Biennial license renewal fee for an occupational therapy assistant is \$60.
- 5.11(4) Late fee for failure to renew before expiration is \$60.
- 5.11(5) Reactivation fee is \$120.
- 5.11(6) Duplicate or reissued license certificate fee is \$20.
- 5.11(7) Verification of license fee is \$20.
- 5.11(8) Returned check fee is \$25.
- 5.11(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 148B and 272C.

645—5.12(147,154) Optometry license fees. All fees are nonrefundable.

- 5.12(1) License fee for license to practice optometry, license by endorsement, or license by reciprocity is \$300.
- 5.12(2) Biennial license renewal fee for each biennium is \$144.
- 5.12(3) Late fee for failure to renew before expiration date is \$60.
- 5.12(4) Reactivation fee is \$204.
- 5.12(5) Duplicate or reissued license certificate fee is \$20.
- 5.12(6) Verification of license fee is \$20.
- 5.12(7) Returned check fee is \$25.
- 5.12(8) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code chapters 17A, 147, 154 and 272C.

645—5.13(147,148A) Physical therapy license fees. All fees are nonrefundable.

- 5.13(1) License fee for license to practice physical therapy or as a physical therapist assistant is \$120.
- 5.13(2) Biennial license renewal fee for a physical therapist is \$60.
- 5.13(3) Biennial license renewal fee for a physical therapist assistant is \$60.
- 5.13(4) Late fee for failure to renew before expiration is \$60.
- 5.13(5) Reactivation fee is \$120.
- 5.13(6) Duplicate or reissued license certificate fee is \$20.
- 5.13(7) Verification of license fee is \$20.
- 5.13(8) Returned check fee is \$25.
- 5.13(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 148A and 272C.

645—5.14(148C) Physician assistants license fees. All fees are nonrefundable.

- 5.14(1) Application fee for a license is \$120.
- 5.14(2) Fee for a temporary license is \$120.
- 5.14(3) Renewal of license fee is \$120.

5.14(4) Late fee for failure to renew before expiration is \$60.

5.14(5) Reactivation fee is \$180.

5.14(6) Duplicate or reissued license certificate fee is \$20.

5.14(7) Fee for verification of license is \$20.

5.14(8) Returned check fee is \$25.

5.14(9) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 148C and 272C.

645—5.15(147,148F,149) Podiatry license fees. All fees are nonrefundable.

5.15(1) License fee for license to practice podiatry, license by endorsement, or license by reciprocity is \$400.

5.15(2) License fee for temporary license to practice podiatry is \$200.

5.15(3) The fee for a license to practice orthotics, prosthetics, or pedorthics received on or before July 1, 2015, shall be \$600. The fee for a license to practice orthotics, prosthetics, or pedorthics received after July 1, 2015, shall be \$400.

5.15(4) Biennial license renewal fee is \$400 for each biennium.

5.15(5) Reactivation fee is \$460.

5.15(6) Temporary license renewal fee is \$200.

5.15(7) Late fee for failure to renew before expiration is \$60.

5.15(8) Duplicate or reissued license certificate fee is \$20.

5.15(9) Verification of license fee is \$20.

5.15(10) Returned check fee is \$25.

5.15(11) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 148F, 149 and 272C.

645—5.16(147,154B) Psychology license fees. All fees are nonrefundable.

5.16(1) License fee for license to practice psychology is \$120.

5.16(2) Biennial license renewal fee is \$170.

5.16(3) Late fee for failure to renew before expiration is \$60.

5.16(4) Reactivation fee is \$230.

5.16(5) Duplicate or reissued license certificate fee is \$20.

5.16(6) Verification of license fee is \$20.

5.16(7) Returned check fee is \$25.

5.16(8) Disciplinary hearing fee is a maximum of \$75.

5.16(9) Processing fee for exemption to licensure is \$60.

5.16(10) Certification fee for a health service provider is \$60.

5.16(11) Biennial renewal fee for certification as a certified health service provider in psychology is \$60.

5.16(12) Reactivation fee for certification as a certified health service provider in psychology is \$60.

5.16(13) Provisional license fee is \$120.

5.16(14) Provisional license renewal fee is \$170.

This rule is intended to implement Iowa Code section 147.80 and chapters 17A, 154B and 272C and 2014 Iowa Acts, chapter 1043.

645—5.17(147,152B) Respiratory care license fees. All fees are nonrefundable.

5.17(1) Initial license fee.

a. The initial license fee for a respiratory care practitioner license is \$75, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI).

b. The initial license fee for a polysomnographic technologist license is \$75, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI).

c. The initial license fee for a respiratory care and polysomnography practitioner license is \$90, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI).

5.17(2) Biennial license renewal fee for each biennium.

a. The biennial license renewal fee for each biennium for a respiratory care practitioner license is \$75.

b. The biennial license renewal fee for each biennium for a polysomnographic technologist license is \$75.

c. The biennial license renewal fee for each biennium for a respiratory care and polysomnography practitioner license is \$90.

5.17(3) Late fee for failure to renew before expiration is \$60.

5.17(4) Reactivation fee.

a. The reactivation fee to practice respiratory care is \$135, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI) if the license has been on inactive status for two or more years.

b. The reactivation fee to practice as a polysomnographic technologist is \$135, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI) if the license has been on inactive status for two or more years.

c. The reactivation fee to practice respiratory care and polysomnography is \$150, plus the cost for evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI) if the license has been on inactive status for two or more years.

5.17(5) Duplicate or reissued license certificate fee is \$20.

5.17(6) Verification of license fee is \$20.

5.17(7) Returned check fee is \$25.

5.17(8) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.8 and chapters 17A, 152B and 272C.

645—5.18(147,154E) Sign language interpreters and transliterators license fees. All fees are nonrefundable.

5.18(1) License fee for license to practice interpreting or transliterating is \$120.

5.18(2) License fee for temporary license to practice interpreting or transliterating is \$120.

5.18(3) Biennial license renewal fee for each biennium is \$120.

5.18(4) Late fee for failure to renew before expiration is \$60.

5.18(5) Duplicate or reissued license certificate fee is \$20.

5.18(6) Verification of license fee is \$20.

5.18(7) Returned check fee is \$25.

5.18(8) Disciplinary hearing fee is a maximum of \$75.

5.18(9) Reactivation fee is \$180.

This rule is intended to implement Iowa Code chapters 17A, 147, 154E and 272C.

645—5.19(147,154C) Social work license fees. All fees are nonrefundable.

5.19(1) License fee for license to practice social work is \$120.

5.19(2) Biennial license renewal fee for a license at the bachelor's level is \$72; at the master's level, \$120; and independent level, \$144.

5.19(3) Late fee for failure to renew before expiration is \$60.

5.19(4) Reactivation fee for the bachelor's level is \$132; for the master's level, \$180; and independent level, \$204.

5.19(5) Duplicate or reissued license certificate fee is \$20.

5.19(6) Verification of license fee is \$20.

5.19(7) Returned check fee is \$25.

5.19(8) Disciplinary hearing fee is a maximum of \$75.

This rule is intended to implement Iowa Code section 147.80 and chapters 17A, 154C and 272C.

645—5.20(147) Speech pathology and audiology license fees. All fees are nonrefundable.

5.20(1) License fee for license to practice speech pathology or audiology, temporary clinical license, license by endorsement, or license by reciprocity is \$120.

5.20(2) Biennial license renewal fee for each biennium is \$96.

5.20(3) Late fee for failure to renew before expiration is \$60.

5.20(4) Reactivation fee is \$156.

5.20(5) Duplicate or reissued license certificate fee is \$20.

5.20(6) Verification of license fee is \$20.

5.20(7) Returned check fee is \$25.

5.20(8) Disciplinary hearing fee is a maximum of \$75.

5.20(9) Temporary clinical license renewal fee is \$60.

5.20(10) Temporary permit fee is \$30.

This rule is intended to implement Iowa Code chapters 17A, 147 and 272C.

Regulatory Analysis

6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.249.7038
Email: emily.deronde@dia.iowa.gov

Purpose and Summary

This proposed rulemaking is intended to provide guidance on complaint and investigation procedures. The rulemaking ensures licensees are aware of the investigative process and understand their rights and responsibilities related to the complaint and investigative process. The rulemaking sets forth information such as the process for submitting a complaint, duties of the licensee in reporting the licensee’s own malpractice or disciplinary actions, and duties of the licensee in reporting first-hand knowledge of violations from other licensees. The rulemaking also provides the procedure to issue investigatory subpoenas, initiate the peer review process and require board appearances by the licensee.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is not a direct cost to the licensee to comply with this rulemaking. However, a licensee does have to pay licensing application and renewal fees, which in turn gives the professional licensing boards the ability to hire staff to investigate the complaints. The licensee could also incur costs if the licensee decides to retain counsel to represent the licensee during the investigative process.

The agency bears the cost of staff to review complaints and investigate complaints. The time needed to manage this rulemaking is generally in the form of written and verbal correspondence, issuing subpoenas, gathering records, conducting interviews and preparing investigative reports. The board reviews the investigative information at board meetings. The board members are paid a per diem

for official board duties (\$50 per day) and mileage. Mileage costs have been minimal due to the use of virtual meetings. Peer reviews require additional costs. There is 1.0 full-time equivalent (FTE) staff member assigned to investigate professional licensing (PL) complaints, with support from executive officers. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from the proposed rulemaking. The rulemaking ensures licensees have knowledge of the complaint and investigative process. This ensures licensees understand their responsibilities and rights surrounding complaints and investigations. The investigative process also benefits the board because it permits the board to gather needed information to determine if a violation of board rule did occur. In turn, the public benefits because the investigatory process is the primary mechanism the boards have to ensure the public safety and welfare.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There are 19 boards impacted by this rulemaking, which account for over 61,000 licensed professionals. In total, these boards receive on average 300 to 350 complaints per year. Complaints are processed and investigated by board staff. The boards ultimately determine whether a board rule has been violated and whether discipline should be initiated against the licensee. While the licensee does not have a direct cost associated with complaints/investigations, a licensee may incur costs to hire legal counsel to represent the licensee during the investigation. Additionally, licensees are required to pay application and renewal fees for the license, which are used to fund the board operations. Most boards assess renewal fees every two years, but the cost of renewal varies depending on the board, with an average low of \$60 every two years ranging to \$400 every two years. There is 1.0 FTE position assigned to investigate PL complaints, with additional support from executive officers. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

The purpose of complaints and investigations is to address allegations against licensees, enable the board to make informed decisions and protect the public from unscrupulous practice. Eliminating complaints and investigations would allow acts detrimental to the public to go unchecked, which would ultimately be harmful to the public safety and welfare. The process proposed by this rulemaking works to allow staff to obtain necessary information and for the boards to then evaluate the extent to which a complaint does or does not violate board rule. This process is fairly similar across the country for regulated professions.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The Department bears costs to enforce this rule; however, the costs to support board staff salaries is paid by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. The Fund is funded through licensing fees. There is 1.0 FTE position assigned to investigate PL complaints. The board members are paid a \$50 per diem for official board duties as well as mileage.

- Anticipated effect on state revenues:

There is no anticipated impact from this rulemaking to state revenues. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The purpose of this rulemaking is to provide a method whereby the public can submit complaints to a board for violations of board rules by a licensee. The rulemaking further allows the boards a process to investigate the complaints and determine whether said violation did occur. When there is a violation, licensees are held accountable for the violation to ensure the protection of the public's safety and welfare. Eliminating boards' ability to receive complaints and conduct investigations would allow acts detrimental to the public to go unchecked and cause harm to the public.

The public and state bear no costs to implement this rulemaking because the boards' costs are funded through the Licensing and Regulation Fund established by 2023 Iowa Acts, Senate File 557. This Fund is created through licensing fees paid by the licensees for initial and renewal licenses and is used to cover the operations of the regulated professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The boards' investigative process is largely dictated by statute in Iowa Code chapter 272C. This rulemaking sets forth the mechanisms to implement Iowa Code chapter 272C as required. The majority of the time and costs to implement this rulemaking come from the resources to investigate and the board's time to review and deliberate on the investigative findings. The board does utilize cost-effective measures to reduce the costs, such as letter correspondence when available instead of conducting personal interviews. After reviewing similar practices in states across the country, it was found that the investigative process in Iowa is fairly similar to the processes used across the country for regulated and licensed professionals.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations on alternative methods to implement and enforce this rulemaking. After reviewing the processes used in surrounding states, staff found that the complaint and investigative process in Iowa is similar to the processes used across the country to investigate licensed professionals.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The boards' ultimate goal is ensuring the public safety and welfare. The purpose of this rulemaking is to allow a method for the public to bring complaints against licensed professionals and allow the boards to investigate complaints. The boards need the ability to investigate complaints, gather information and make informed decisions on whether a rule has been violated. Without this process, acts detrimental to the public will go unchecked and ultimately harm the public.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The licensees affected by this rulemaking come from a variety of professions. While some licensees could be running a small business, some also work for large hospitals, clinics and retailers. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business to comply with this rulemaking.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 9 and adopt the following **new** chapter in lieu thereof:

CHAPTER 9
COMPLAINTS AND INVESTIGATIONS

645—9.1(272C) Complaints.

9.1(1) Complaints can be submitted online, in writing, or verbally and are to include the name and contact information of the complainant, the name of the licensee, and a concise statement of the allegations against the licensee. A complaint may also be initiated by the board.

9.1(2) A person is not civilly liable for filing a complaint in good faith, or for cooperating with a board investigation.

645—9.2(272C) Report of malpractice claims or actions or disciplinary actions. The licensee will submit any judgment or settlement in a malpractice claim or any disciplinary action taken by another licensing authority in another state or jurisdiction to the board within 30 days of the date of occurrence.

645—9.3(272C) Report of acts or omissions. A licensee who has knowledge of rule violations committed by another licensee will file a report to the board. The report will include the name and contact information of the licensee and the date, time, and place of the incident.

645—9.4(272C) Investigation of complaints or reports. Board staff may request additional information, solicit a response from the licensee, subpoena records, conduct interviews, gather evidence, and perform other investigatory duties to sufficiently inform the board.

645—9.5(17A,272C) Issuance of investigatory subpoenas.

9.5(1) The board administrator or designee may, upon the written request of a board investigator or on the administrator's own initiative, subpoena books, papers, records, and other real evidence which is necessary for the board to decide whether to institute a contested case proceeding. In the case of a subpoena for mental health records, each of the following conditions shall be satisfied prior to the issuance of the subpoena:

- a. The nature of the complaint reasonably justifies the issuance of a subpoena;
- b. Adequate safeguards have been established to prevent unauthorized disclosure;
- c. An express statutory mandate, articulated public policy, or other recognizable public interest favors access; and
- d. An attempt was made to notify the patient and to secure an authorization from the patient for release of the records at issue.

9.5(2) Each subpoena will contain:

- a. The name and address of the person to whom the subpoena is directed;
- b. A description of the books, papers, records or other real evidence requested;
- c. The date, time and location for production, or inspection and copying;
- d. The deadline for a motion to quash or modify the subpoena to be filed;
- e. The signature, address and telephone number of the board administrator or designee;
- f. The date of issuance;
- g. A return of service.

9.5(3) A person can challenge the subpoena by filing a motion to quash describing the legal justification for the motion accompanied by a legal brief or factual affidavits, within 14 days after service of the subpoena.

9.5(4) Upon receipt of a timely motion to quash or modify a subpoena, an administrative law judge will issue a decision. The administrative law judge may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

9.5(5) A person aggrieved by a ruling of an administrative law judge who desires to challenge that ruling must appeal the ruling to the board by serving on the board administrator, either in person, via email, or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

9.5(6) If the person contesting the subpoena is not the person under investigation, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the board's decision is not final for purposes of judicial review until either (1) the person is notified the investigation has been concluded with no formal action, or (2) there is a final decision in the contested case.

645—9.6(272C) Peer review.

9.6(1) A complaint may be assigned to a peer reviewer for review and report to the board.

9.6(2) The board determines what complaints or other matters are referred to a peer reviewer.

9.6(3) Peer reviewers are not to be liable for acts, omissions, or decisions made in connection with service made in good faith.

9.6(4) The peer reviewer will observe the requirements of confidentiality imposed by Iowa Code section 272C.6.

645—9.7(17A) Appearance. The board may request that a licensee appear before a committee of the board to discuss a pending investigation. By electing to participate in the committee appearance, the licensee waives any objection to a board member both participating in the appearance and later participating as a decision maker in a contested case proceeding. By electing to participate in the committee appearance, the licensee further waives any objection to the board administrator assisting the board in the contested case proceeding.

These rules are intended to implement Iowa Code chapter 17A as amended by 1998 Iowa Acts, chapter 1202, and Iowa Code chapter 272C.

Email: emily.deronde@dia.iowa.gov

Purpose and Summary

Proposed Chapter 11 provides regulation on the contested case hearings including time requirements for taking action on a contested case, direction on the service of the statement of charges and notice of hearing as well as the required contents of the statement of charges and notice of hearing, the discovery process including issuance of subpoenas, the handling of pretrial motions and conferences and procedures for the hearings. The purpose of the chapter is to provide a licensee an outline of how a contested case proceeding is initiated and the rights and responsibilities of the licensee during that process. This chapter ensures the licensee is aware of how a contested case begins, how the licensee can gather information to prepare for the hearing and the potential result of the hearing.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The licensee may incur costs of legal representation to represent the licensee during the investigation and contested case hearing. The agency incurs costs to implement the chapter including board staff to investigate the complaints, prepare the investigative files for board review and hold the contested hearings.

- Classes of persons that will benefit from the proposed rulemaking:

The public and licensees benefit from the proposed chapter. The chapter provides licensees with a procedure that ensures due process is met when allegations arise against a licensee. The public is

benefited by the assurance that allegations are taken seriously and that an avenue exists to investigate and hold hearings against the licensee for conduct that may be a violation of board rule.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The licensee may incur costs for representation during a contested case hearing. Additional costs may include the recording and transcribing of records should the case go to appeal, examination and responding to discovery requests and service of subpoenas.

A board incurs costs for service by mail, publication or personal service at the initiation of a contested case hearing as well as the staff necessary to conduct the contested case hearing and the board member's time for the hearings.

The board does have the option to consolidate cases if there is more than one complaint filed against a licensee at the same time. This allows for more efficient use of time and resources for both the board and the licensee.

- Qualitative description of impact:

The process for contested cases is largely dictated by Iowa Code section 17A.12. The board believes the proposed chapter provides a balanced regulatory process for initiating and holding contested case hearings. The chapter ensures licensees are aware of their rights and responsibilities when a contested case is set and also provides licensees with guidance on what the licensee can do in terms of legal representation, discovery requests and options after the board issues a final order. Without this chapter, boards would have large discretion on how to conduct contested hearings and implement discipline against a licensee and licensees would not have a procedure in place to contest allegations in an adversarial fashion. The chapter ensures due process is afforded to each licensee.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The agency incurs costs in the form of board staff, board members per diem and procedural costs to carry out this chapter. The board staff assist with preparing the notices for hearing and correspondence with the licensee to set hearings. The board members are paid a per diem (\$50 per day) for official board business and mileage to attend the contested hearings. The boards generally hold contested hearings at the time of their regularly scheduled board meetings, but sometimes additional dates have to be set just for the contested hearings. The board is responsible for ensuring process of service on the licensee to initiate the contested case, which includes costs to serve the licensee by mail, publication or personal service. The board does attempt to utilize the least expensive option (service by mail) before opting for an alternative service option.

Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues as a result of this rulemaking. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

During contested case hearings, the boards utilize an administrative law judge (ALJ) to preside over the hearing and provide rulings on prehearing motions. The ALJ is paid through state funds. The board does not have data on the ALJ salaries or the percentage of work completed by the ALJ on behalf of the boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

DIAL regulates licenses for 19 boards, which lends to over 61,000 licensees. The proposed rule affects all 61,000 licensees. Without this chapter, boards would have large discretion on how to conduct

contested hearings and implement discipline against a licensee and the licensees would not have a procedure in place to contest allegations in an adversarial fashion. The chapter ensures due process is afforded to each licensee.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The process for contested case hearings is largely dictated by Iowa Code chapter 17A. The board does have the option to consolidate cases if a licensee has more than one complaint filed against that licensee at the same time. The board also has procedures in place for contested case hearings where there is no factual dispute. This allows for more efficient use of time and resources for both the board and the licensee.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations about alternative, less intrusive methods to implement and enforce this chapter. Staff was not able to identify a less intrusive method; however, the chapter does provide for alternatives such as consolidated cases and hearings with no factual dispute to allow for more efficiency in handling contested cases where applicable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The process for contested cases is largely dictated by Iowa Code chapter 17A. The board has little discretion on how to conduct the hearings or the process of getting to the hearings.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

While some licensees could be running a small business, some also work for large corporations, clinics and retailers. The board does recognize that the impact of a contested case could certainly be greater on a small business than it would on a large company, for instance, to carve time out of the schedule for a small business owner to be present for a hearing. However, the chapter is proposed to ensure due process for all licensees including small business licensees.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 11 and adopt the following **new** chapter in lieu thereof:

CHAPTER 11 CONTESTED CASES AND INFORMAL SETTLEMENT

645—11.1(17A) Scope and applicability. This chapter applies to contested case proceedings conducted by the board of _____ examiners.

645—11.2(17A) Definitions. Except where otherwise specifically defined by law:

“*Contested case*” means a proceeding defined by Iowa Code section 17A.2(5) and includes any matter defined as a no factual dispute contested case under Iowa Code section 17A.10A.

“*Issuance*” means the date of mailing of a decision or order or date of delivery if service is by other means unless another date is specified in the order.

“*Party*” means the state of Iowa as represented by the assistant attorney general assigned to prosecute the case on behalf of the public interest, the respondent, or an intervenor.

“*Presiding officer*” means the board of _____ examiners.

645—11.3(17A) Time requirements.

11.3(1) Time will be computed as provided in Iowa Code section 4.1(34).

11.3(2) For good cause, the presiding officer may extend or shorten the time to take any action, except as precluded by statute or by rule. Except for good cause stated in the record, before extending or shortening the time to take any action, the presiding officer will afford all parties an opportunity to be heard or to file written arguments.

645—11.4(17A) Probable cause. If the board finds there is probable cause for taking disciplinary action against a licensee following investigation, the board will order a contested case hearing be commenced by the filing of a statement of charges and notice of hearing.

645—11.5(17A) Statement of charges and notice of hearing.

11.5(1) Legal review. Every statement of charges and notice of hearing prepared by the board will be reviewed by the office of the attorney general prior to filing.

11.5(2) Delivery. Delivery of the statement of charges and notice of hearing constitutes the commencement of the contested case proceeding. Delivery may be executed by:

- a. Personal service as provided in the Iowa Rules of Civil Procedure; or
- b. Restricted certified mail, return receipt requested; or
- c. Publication, as provided in the Iowa Rules of Civil Procedure.

11.5(3) Contents. The statement of charges and notice of hearing will contain the following information:

- a. A statement by the board showing that there is probable cause to file the statement of charges;
- b. A statement of the time, place, and nature of the hearing;
- c. A statement of the legal authority and jurisdiction under which the hearing is to be held;
- d. A reference to the particular sections of the statutes and rules involved;
- e. A short and plain statement of the matters asserted containing sufficient detail to give the respondent fair notice of the allegations so that the respondent may adequately respond to the charges, and to give the public notice of the matters at issue;
- f. Identification of all parties including the name, address and telephone number of the assistant attorney general designated as prosecutor for the state and the parties’ counsel, if known;
- g. Reference to the procedural rules governing conduct of the contested case proceeding;
- h. Reference to the procedural rules governing informal settlement;
- i. Identification of the board as the presiding officer; and
- j. Notification of the time period in which a party may request, when applicable, and pursuant to Iowa Code section 17A.11, and rules 645—11.8(17A,272C) and 645—11.9(17A,272C), that the presiding officer be an administrative law judge.

645—11.6(17A,272C) Legal representation. Following the filing of the statement of charges and notice of hearing, the office of the attorney general will be responsible for the legal representation of the public interest in all proceedings before the board. The assistant attorney general assigned to prosecute a contested case before the board will not represent the board in that case but will represent the public

interest. All other parties to a proceeding before the board will be entitled to have counsel at their own expense.

645—11.7(17A,272C) Presiding officer in a disciplinary contested case. The presiding officer in a disciplinary contested case will be the board. The board may request that an administrative law judge assist the board with initial rulings on prehearing matters. Decisions of the administrative law judge serving in this capacity are subject to the interlocutory appeal provisions of rule 645—11.24(17A). An administrative law judge may assist and advise the board at the contested case hearing.

645—11.8 Reserved.

645—11.9(17A) Presiding officer in a nondisciplinary contested case.

11.9(1) Any party in a nondisciplinary contested case who wishes to request that the presiding officer assigned to render a proposed decision be an administrative law judge employed by the department of inspections, appeals, and licensing must file a written request within 20 days after service of a notice of hearing which identifies or describes the presiding officer as the board.

11.9(2) The board may deny the request only upon a finding that one or more of the following apply:

- a. There is a compelling need to expedite issuance of a final decision in order to protect the public health, safety, or welfare.
- b. An administrative law judge with the qualifications identified in subrule 11.9(4) is unavailable to hear the case within a reasonable time.
- c. The case involves significant policy issues of first impression that are inextricably intertwined with the factual issues presented.
- d. The demeanor of the witnesses is likely to be dispositive in resolving the disputed factual issues.
- e. Funds are unavailable to pay the costs of an administrative law judge and an interagency appeal.
- f. The request was not timely filed.
- g. The request is not consistent with a specified statute.

11.9(3) The board will issue a written ruling specifying the grounds for its decision within 20 days after a request for an administrative law judge is filed. If the ruling is contingent upon the availability of an administrative law judge with the qualifications identified in subrule 11.9(4), the parties shall be notified at least ten days prior to hearing if a qualified administrative law judge will not be available.

11.9(4) An administrative law judge assigned to act as presiding officer in a nondisciplinary contested case shall have a J.D. degree unless waived by the agency.

11.9(5) Except as provided otherwise by another provision of law, all rulings by an administrative law judge acting as presiding officer in a nondisciplinary contested case are subject to appeal to the board. A party must seek appeal to the board in order to exhaust adequate administrative remedies. Such appeals must be filed within ten days of the date of the issuance of the challenged ruling, but no later than the time for compliance with the order or the date of hearing, whichever is first.

11.9(6) Unless otherwise provided by law, when reviewing a proposed decision of an administrative law judge in a nondisciplinary contested case upon appeal, the board will have the powers of and will comply with the provisions of this chapter which apply to presiding officers.

645—11.10(17A) Disqualification.

11.10(1) A presiding officer or other person will withdraw from participation in the making of any proposed or final decision in a contested case if that person:

- a. Has a personal bias or prejudice concerning a party or a representative of a party;
- b. Has personally investigated, prosecuted or advocated, in connection with that case, the specific controversy underlying that case, another pending factually related contested case, or a pending factually related controversy that may culminate in a contested case involving the same parties;
- c. Is subject to the authority, direction or discretion of any person who has personally investigated, prosecuted or advocated in connection with that contested case, the specific controversy underlying that contested case, or a pending factually related contested case or controversy involving the same parties;

- d. Has acted as counsel to any person who is a private party to that proceeding within the past two years;
- e. Has a personal financial interest in the outcome of the case or any other significant personal interest that could be substantially affected by the outcome of the case;
- f. Has a spouse or relative within the third degree of relationship that: (1) is a party to the case, or an officer, director or trustee of a party; (2) is a lawyer in the case; (3) is known to have an interest that could be substantially affected by the outcome of the case; or (4) is likely to be a material witness in the case; or
- g. Has any other legally sufficient cause to withdraw from participation in the decision making in that case.

11.10(2) The term “personally investigated” means taking affirmative steps to interview witnesses directly or to obtain documents or other information directly. The term “personally investigated” does not include:

- a. General direction and supervision of assigned investigators;
- b. Unsolicited receipt of information which is relayed to assigned investigators;
- c. Review of another person’s investigative work product in the course of determining whether there is probable cause to initiate a proceeding; or
- d. Exposure to factual information while performing other agency functions, including fact gathering for purposes other than investigation of the matter which culminates in a contested case.

11.10(3) Factual information relevant to the merits of a contested case received by a person who later serves as presiding officer in that case will be disclosed if required by Iowa Code section 17A.17(3) and subrules 11.10(3) and 11.22(9).

11.10(4) In a situation where a presiding officer or other person knows of information which might reasonably be deemed to be a basis for disqualification and decides voluntary withdrawal is unnecessary, that person will submit the relevant information for the record by affidavit including a statement of the reasons for the determination that withdrawal is unnecessary.

11.10(5) If a party asserts disqualification on any appropriate ground, including those listed in subrule 11.10(1), the party will file a motion supported by an affidavit pursuant to Iowa Code section 17A.17(7). The motion must be filed as soon as practicable after the reason alleged in the motion becomes known to the party. The board will determine the matter as part of the record in the case.

645—11.11(17A) Consolidation—severance.

11.11(1) Consolidation. The presiding officer may consolidate any or all matters at issue in two or more contested case proceedings where:

- a. The matters at issue involve common parties or common questions of fact or law;
- b. Consolidation would expedite and simplify consideration of the issues involved; and
- c. Consolidation would not adversely affect the rights of any of the parties to those proceedings.

11.11(2) Severance. The presiding officer may, for good cause shown, order any contested case proceedings or portions thereof severed.

645—11.12(17A) Pleadings.

11.12(1) Pleadings. Pleadings may be required by rule, by the statement of charges, or by order of the presiding officer.

11.12(2) Answer. An answer will be filed within 20 days of service of the statement of charges and notice of hearing.

- a. An answer will:
 - (1) Identify on whose behalf it is filed;
 - (2) Set forth the name, address and telephone number of the person filing the answer, the person on whose behalf it is filed, and the attorney, if any, representing that person;
 - (3) Specifically admit, deny, or otherwise answer all material allegations of the statement of charges; and

(4) Set forth any facts deemed necessary to show an affirmative defense and contain as many additional defenses as the respondent may claim.

b. The presiding officer may refuse to consider any defense not raised in the answer which could have been raised on the basis of facts known when the answer was filed if any party would be prejudiced.

11.12(3) Amendments. Any notice of hearing or statement of charges may be amended before a responsive pleading has been filed. Otherwise, a party may amend a pleading only with the consent of the other parties or at the discretion of the presiding officer who may impose terms or grant a continuance.

645—11.13(17A) Service and filing.

11.13(1) Service—when required. Except where otherwise provided by law, every document filed in a contested case proceeding will be served upon each of the parties of record to the proceeding, including the person designated as prosecutor for the state, simultaneously with its filing. Except for the original statement of charges and notice of hearing and an application for rehearing as provided in Iowa Code section 17A.16(2), the party filing a document is responsible for service on all parties.

11.13(2) Service—how made. Service upon a party represented by an attorney will be made upon the attorney unless otherwise ordered. Service is made by delivery or by mailing a copy to the person's last-known address. Service by mail is complete upon mailing, except where otherwise specifically provided by statute, rule, or order.

11.13(3) Filing—when required. After the notice of hearing, all documents in a contested case proceeding will be filed with the board. All documents that are required to be served upon a party will be filed simultaneously with the board.

11.13(4) Filing—when made. Except where otherwise provided by law, a document is deemed filed at the time it is delivered to the Board of _____ Examiners, Board Administrator, Lucas State Office Building, Des Moines, Iowa 50319; delivered to an established courier service for immediate delivery to that office; or mailed by first-class mail or state interoffice mail to that office, so long as there is proof of mailing.

11.13(5) Proof of mailing. Proof of mailing includes:

- a.* A legible United States Postal Service postmark on the envelope, or
- b.* A certificate of service, or
- c.* A notarized affidavit, or
- d.* A certification in substantially the following form:

I certify under penalty of perjury and pursuant to the laws of Iowa that, on (date of mailing), I mailed copies of (describe document) addressed to the _____ Board, and to the names and addresses of the parties listed below by depositing the same in (a United States Post Office mailbox with correct postage properly affixed or state interoffice mail).

(Date)

(Signature)

645—11.14(17A) Discovery.

11.14(1) Discovery procedures applicable in civil actions are applicable in contested cases. Unless lengthened or shortened by these rules, by order of the presiding officer, or by agreement of the parties, time periods for compliance with discovery will be as provided in the Iowa Rules of Civil Procedure.

11.14(2) Any motion relating to discovery will allege that the moving party has previously made a good-faith attempt to resolve the discovery issues involved with the opposing party. Motions in regard to discovery will be ruled upon by the presiding officer. Opposing parties will be afforded the opportunity to respond within ten days of the filing of the motion unless the time is shortened as provided in subrule 11.14(1). The presiding officer may rule on the basis of the written motion and any response, or may order argument on the motion.

11.14(3) Evidence obtained in discovery may be used in the contested case proceeding if that evidence would otherwise be admissible in that proceeding.

645—11.15(17A,272C) Subpoenas in a contested case.

11.15(1) Subpoenas issued in a contested case may compel the attendance of witnesses at deposition or hearing, and may compel the production of books, papers, records, and other real evidence. A command to produce evidence or to permit inspection may be joined with a command to appear at deposition or hearing, or may be issued separately. Subpoenas shall be issued by the board administrator or designee upon written request. A request for a subpoena of mental health records must confirm the conditions described in 645—subrule 9.5(1) prior to the issuance of the subpoena.

11.15(2) A request for a subpoena will include the following information, as applicable, unless the subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes:

- a.* The name, address and telephone number of the person requesting the subpoena;
- b.* The name and address of the person to whom the subpoena shall be directed;
- c.* The date, time, and location at which the person shall be commanded to attend and give testimony;
- d.* Whether the testimony is requested in connection with a deposition or hearing;
- e.* A description of the books, papers, records or other real evidence requested;
- f.* The date, time and location for production, or inspection and copying; and
- g.* In the case of a subpoena request for mental health records, confirmation that the conditions described in 645—subrule 9.5(1) have been satisfied.

11.15(3) Each subpoena will contain, as applicable:

- a.* The caption of the case;
- b.* The name, address and telephone number of the person who requested the subpoena;
- c.* The name and address of the person to whom the subpoena is directed;
- d.* The date, time, and location at which the person is commanded to appear;
- e.* Whether the testimony is commanded in connection with a deposition or hearing;
- f.* A description of the books, papers, records or other real evidence the person is commanded to produce;
- g.* The date, time and location for production, or inspection and copying;
- h.* The time within which a motion to quash or modify the subpoena must be filed;
- i.* The signature, address and telephone number of the board administrator or designee;
- j.* The date of issuance; and
- k.* A return of service.

11.15(4) Unless a subpoena is requested to compel testimony or documents for rebuttal or impeachment purposes, the board administrator or designee will mail the subpoena to the requesting party, with a copy to the opposing party. The person who requested the subpoena is responsible for serving the subpoena upon the subject of the subpoena.

11.15(5) Any person who is aggrieved or adversely affected by compliance with the subpoena, or any party to the contested case who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the board a motion to quash or modify the subpoena describing the legal reasons why the subpoena should be quashed or modified, and may be accompanied by legal briefs or factual affidavits.

11.15(6) Upon receipt of a timely motion to quash or modify a subpoena, the board may request an administrative law judge to issue a decision, or the board may issue a decision. Oral argument may be scheduled at the discretion of the board or the administrative law judge. The administrative law judge or the board may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

11.15(7) A person aggrieved by a ruling of an administrative law judge who desires to challenge that ruling must appeal the ruling to the board by serving on the board administrator, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

11.15(8) If the person contesting the subpoena is not a party to the contested case, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is a party to the contested case, the board's decision is not final for purposes of judicial review until there is a final decision in the contested case.

645—11.16(17A) Motions.

11.16(1) Prehearing motions must be in writing, state the grounds for relief, and state the relief sought.

11.16(2) Any party may file a written response to a motion within ten days after the motion is served, unless the time period is extended or shortened by the presiding officer. The presiding officer may consider a failure to respond within the required time period in ruling on a motion.

11.16(3) The presiding officer may schedule oral argument on any motion.

11.16(4) Motions pertaining to the hearing must be filed and served at least ten days prior to the date of hearing unless there is good cause for permitting later action or the time for such action is lengthened or shortened by rule of the agency or an order of the presiding officer.

645—11.17(17A) Prehearing conferences.

11.17(1) Any party may request a prehearing conference. Prehearing conferences will be conducted by the board administrator, who may request the assistance of an administrative law judge. A written request for prehearing conference or an order for prehearing conference on the board administrator's own motion will be filed prior to the contested case hearing, but no later than 20 days prior to the hearing date. Written notice of the prehearing conference will be given by the board administrator to all parties. For good cause the board administrator may permit variances from this rule.

11.17(2) The parties at a prehearing conference will be prepared to discuss the following subjects, and the board administrator or administrative law judge may issue appropriate orders concerning:

- a.* The possibility of settlement.
- b.* The entry of a scheduling order to include deadlines for completion of discovery.
- c.* Stipulations of law or fact.
- d.* Stipulations on the admissibility of exhibits.
- e.* Submission of expert and other witness lists. Witness lists may be amended subsequent to the prehearing conference within the time limits established by the board administrator or administrative law judge at the prehearing conference. Any such amendments must be served on all parties. Witnesses not listed on the final witness list may be excluded from testifying unless there was good cause for the failure to include their names.
- f.* Submission of exhibit lists. Exhibit lists may be amended subsequent to the prehearing conference within the time limits established by the board administrator or administrative law judge at the prehearing conference. Exhibits other than rebuttal exhibits that are not listed on the final exhibit list may be excluded from admission into evidence unless there was good cause for the failure to include them.
- g.* Stipulations for waiver of any provision of law.
- h.* Identification of matters which the parties intend to request be officially noticed.
- i.* Consideration of any additional matters which will expedite the hearing.

11.17(3) Prehearing conferences may be conducted by telephone unless otherwise ordered.

645—11.18(17A) Continuances.

11.18(1) Applications for continuances will be filed with the board. If the application for continuance is not contested, the board administrator will issue the appropriate order. If the application for continuance is contested, the matter will be heard by the board or may be delegated by the board to an administrative law judge.

11.18(2) A written application for a continuance will:

- a.* Be made at the earliest possible time and no less than five working days before the hearing. Within five working days of the date set for hearing, no continuances shall be granted except for extraordinary, extenuating, or emergency circumstances;
- b.* State the specific reasons for the request; and
- c.* Be signed by the requesting party or the party's representative.

11.18(3) The presiding officer may require documentation of any grounds for continuance. In determining whether to grant a continuance, the presiding officer may consider:

- a.* Prior continuances;
- b.* The interests of all parties;
- c.* The public interest;
- d.* The likelihood of informal settlement;
- e.* The existence of an emergency;
- f.* Any objection;
- g.* Any applicable time requirements;
- h.* The existence of a conflict in the schedules of counsel, parties, or witnesses;
- i.* The timeliness of the request; and
- j.* Other relevant factors.

645—11.19(17A,272C) Hearing procedures.

11.19(1) The presiding officer will have the authority to administer oaths, to admit or exclude testimony or other evidence, and to rule on all motions and objections. The presiding officer may request that an administrative law judge perform any of these functions and may be assisted and advised by an administrative law judge.

11.19(2) All objections will be timely made and stated on the record.

11.19(3) Parties have the right to participate or to be represented in all hearings or prehearing conferences related to their case. Any party may be represented by an attorney at their own expense.

11.19(4) Subject to terms and conditions prescribed by the presiding officer, parties have the right to introduce evidence on issues of material fact, cross-examine witnesses present at the hearing as necessary for a full and true disclosure of the facts, present evidence in rebuttal, and submit briefs and engage in oral argument.

11.19(5) The presiding officer will maintain the decorum of the hearing and may refuse to admit or may expel anyone whose conduct is disorderly.

11.19(6) Witnesses may be sequestered during the hearing.

11.19(7) The presiding officer will have authority to grant immunity from disciplinary action to a witness as provided by Iowa Code section 272C.6(3).

11.19(8) The presiding officer will conduct the hearing in the following manner:

a. The presiding officer will give an opening statement briefly describing the nature of the proceedings;

b. The parties will be given an opportunity to present opening statements;

c. The parties will present their cases in the sequence determined by the presiding officer;

d. Each witness will be sworn or affirmed by the presiding officer or the court reporter, and be subject to examination and cross-examination. The presiding officer may limit questioning in a manner consistent with law;

e. When all parties and witnesses have been heard, the parties may be given the opportunity to present final arguments.

11.19(9) The board members and the administrative law judge have the right to question a witness. Examination of witnesses is subject to properly raised objections.

11.19(10) The hearing will be open to the public unless the licensee requests that the hearing be closed.

645—11.20(17A) Evidence.

11.20(1) The presiding officer will rule on admissibility of evidence and may, where appropriate, take official notice of facts in accordance with all applicable requirements of law.

11.20(2) Stipulation of facts is encouraged. The presiding officer may make a decision based on stipulated facts.

11.20(3) Evidence in the proceeding will be confined to the issues as to which the parties received notice prior to the hearing unless a party waives the party's right to such notice or the presiding officer determines that good cause justifies expansion of the issues. If the presiding officer decides to admit evidence on issues outside the scope of the notice over the objection of a party who did not have actual

notice of those issues, that party, upon timely request, will receive a continuance sufficient to amend pleadings and to prepare on the additional issue.

11.20(4) The party seeking admission of an exhibit must provide opposing parties with an opportunity to examine the exhibit prior to the ruling on its admissibility. Copies of documents should normally be provided to opposing parties. All exhibits admitted into evidence will be appropriately marked and be made part of the record.

11.20(5) Any party may object to specific evidence or may request limits on the scope of any examination or cross-examination. Such an objection will be accompanied by a brief statement of the grounds upon which it is based. The objection, the ruling on the objection, and the reasons for the ruling will be noted in the record. The presiding officer may rule on the objection at the time it is made or may reserve a ruling until the written decision.

11.20(6) Whenever evidence is ruled inadmissible, the party offering that evidence may submit an offer of proof on the record. The party making the offer of proof for excluded oral testimony will briefly summarize the testimony or, with permission of the presiding officer, present the testimony. If the excluded evidence consists of a document or exhibit, it will be marked as part of an offer of proof and inserted in the record.

11.20(7) Irrelevant, immaterial and unduly repetitious evidence should be excluded. A finding will be based upon the kind of evidence upon which reasonably prudent persons are accustomed to rely for the conduct of their serious affairs, and may be based on hearsay or other types of evidence which may or would be inadmissible in a jury trial.

645—11.21(17A) Default.

11.21(1) If a party fails to appear or participate in a contested case proceeding after proper service of notice, the presiding officer may, if no adjournment is granted, enter a default decision or proceed with the hearing and render a decision in the absence of the party.

11.21(2) Where appropriate and not contrary to law, any party may move for default against a party who has failed to appear after proper service.

11.21(3) Default decisions or decisions rendered on the merits after a party has failed to appear or participate in a contested case proceeding become final agency action unless, within 15 days after the date of notification or mailing of the decision, a motion to vacate is filed and served on all parties or an appeal of a decision on the merits is timely initiated. A motion to vacate must state all facts relied upon by the moving party which establish that good cause existed for that party's failure to appear or participate at the contested case proceeding. Each fact so stated must be substantiated by at least one sworn affidavit of a person with personal knowledge of each such fact, which affidavit(s) must be attached to the motion.

11.21(4) The time for further appeal of a decision for which a timely motion to vacate has been filed is stayed pending a decision on the motion to vacate.

11.21(5) Properly substantiated and timely filed motions to vacate will be granted only for good cause shown. The burden of proof as to good cause is on the moving party. Adverse parties will have ten days to respond to a motion to vacate. Adverse parties will be allowed to conduct discovery as to the issue of good cause and to present evidence on the issue prior to a decision on the motion, if a request to do so is included in that party's response.

11.21(6) "Good cause" for purposes of this rule shall have the same meaning as "good cause" for setting aside a default judgment under the Iowa Rules of Civil Procedure.

11.21(7) A decision denying a motion to vacate is subject to further appeal within the time limit allowed for further appeal of a decision on the merits in the contested case proceeding. A decision granting a motion to vacate is subject to interlocutory appeal by the adverse party pursuant to rule 645—11.24(17A).

11.21(8) If a motion to vacate is granted and no timely interlocutory appeal has been taken, the presiding officer will issue another notice of hearing and the contested case will proceed accordingly.

11.21(9) A default decision may provide either that the default decision is to be stayed pending a timely motion to vacate or that the default decision is to take effect immediately, subject to a request for stay under rule 645—11.26(17A).

645—11.22(17A) Ex parte communication.

11.22(1) Prohibited communications. Unless required for the disposition of ex parte matters specifically authorized by statute, following issuance of the statement of charges and notice of hearing, there will be no communication, directly or indirectly, between the presiding officer and any party or representative of any party or any other person with a direct or indirect interest in such case in connection with any issue of fact or law in the case except upon notice and opportunity for all parties to participate. Nothing in this provision is intended to preclude board members from communicating with other board members or members of the board staff, other than those with a personal interest in, or those engaged in personally investigating, prosecuting, or advocating in, either the case under consideration or a pending factually related case involving the same parties, as long as those persons do not directly or indirectly communicate to the presiding officer any ex parte communications they have received of a type that the presiding officer would be prohibited from receiving or that furnish, augment, diminish, or modify the evidence in the record.

11.22(2) Prohibitions on ex parte communications commence with the issuance of the statement of charges and notice of hearing in a contested case and continue for as long as the case is pending before the board.

11.22(3) Written, oral or other forms of communication are “ex parte” if made without notice and opportunity for all parties to participate.

11.22(4) To avoid prohibited ex parte communications notice must be given in a manner reasonably calculated to give all parties a fair opportunity to participate. Notice of written communications will be provided in compliance with rule 645—11.6(17A) and may be supplemented by telephone, facsimile, electronic mail or other means of notification. Where permitted, oral communications may be initiated through conference telephone call including all parties or their representatives.

11.22(5) Persons who jointly act as presiding officer in a pending contested case may communicate with each other without notice or opportunity for parties to participate.

11.22(6) The board administrator or other persons may be present in deliberations or otherwise advise the presiding officer without notice or opportunity for parties to participate as long as they are not disqualified from participating in the making of a final decision under any provision of law and they comply with this rule.

11.22(7) Communications with the presiding officer involving uncontested scheduling or procedural matters do not require notice or opportunity for parties to participate. Parties should notify other parties prior to initiating such contact with the presiding officer when feasible, and will notify other parties when seeking to continue hearings or other deadlines.

11.22(8) A presiding officer who receives a prohibited ex parte communication during the pendency of a contested case must initially determine if the effect of the communication is so prejudicial that the presiding officer should be disqualified.

a. If the presiding officer determines that disqualification is warranted, a copy of any prohibited written communication, all written responses to the communication, a written summary stating the substance of any prohibited oral or other communication not available in written form for disclosure, all responses made, and the identity of each person from whom the presiding officer received a prohibited ex parte communication will be submitted for inclusion in the record under seal by protective order.

b. If the presiding officer determines that disqualification is not warranted, such documents will be submitted for inclusion in the record and served on all parties. Any party desiring to rebut the prohibited communication must be allowed the opportunity to do so upon written request filed within ten days after notice of the communication.

11.22(9) Promptly after being assigned to serve as presiding officer at any stage in a contested case proceeding, a presiding officer shall disclose to all parties material factual information received through ex parte communication prior to such assignment unless the factual information has already been or shortly will be disclosed pursuant to Iowa Code section 17A.13(2) or through discovery. Factual information contained in an investigative report or similar document need not be separately disclosed by the presiding officer as long as such documents have been or will shortly be provided to the parties.

11.22(10) The presiding officer may render a proposed or final decision imposing appropriate sanctions for violations of this rule including default, a decision against the offending party, censure, suspension or revocation of the privilege to practice before the agency. Violation of ex parte communication prohibitions by board personnel will be reported to the board and its board administrator for possible sanctions including censure, suspension, dismissal, or other disciplinary action.

645—11.23(17A) Recording costs. Upon request, the board will provide a copy of the whole or any portion of the record at cost. The cost of preparing a copy of the record or of transcribing the hearing record will be paid by the requesting party.

645—11.24(17A) Interlocutory appeals. Upon written request of a party or on its own motion, the board may review an interlocutory order of the board administrator or an administrative law judge. Any request for interlocutory review must be filed within 14 days of issuance of the challenged order, but no later than the time for compliance with the order or the date of hearing, whichever is first. In determining whether to do so, the board will consider:

1. The extent to which its granting the interlocutory appeal would expedite final resolution of the case; and
2. The extent to which review of that interlocutory order by the board at the time it reviews the proposed decision of the presiding officer would provide an adequate remedy.

645—11.25(17A) Applications for rehearing.

11.25(1) Who may file. Any party to a contested case proceeding may file an application for rehearing from a final order. The filing of an application for rehearing is not necessary to exhaust administrative remedies for purposes of judicial review.

11.25(2) Content of application. The application for rehearing will state on whose behalf it is filed, the specific grounds for rehearing, and the relief sought. In addition, the application shall state whether the applicant desires reconsideration of all or part of the agency decision on the existing record and whether the applicant requests an opportunity to submit additional evidence.

11.25(3) Additional evidence. A party may request the taking of additional evidence only by establishing that (a) the facts or other evidence arose after the original proceeding, or (b) the party offering such evidence could not reasonably have provided such evidence at the original proceedings, or (c) the party offering the additional evidence was misled by any party as to the necessity for offering such evidence at the original proceeding. A written request to present additional evidence must be filed with the application for rehearing or, by a nonappealing party, within 14 days of service of the notice of appeal.

11.25(4) Filing deadline. The application will be filed with the board within 20 days after issuance of the final decision.

11.25(5) Notice to other parties. A copy of the application will be timely mailed by the applicant to all parties of record not joining therein.

11.25(6) Disposition. Any application for a rehearing will be deemed denied unless the agency grants the application within 20 days after its filing.

11.25(7) Only remedy. Application for rehearing is the only procedure by which a party may request that the board reconsider a final board decision.

11.25(8) Proceedings. If the board grants an application for rehearing, the board may set the application for oral argument or for hearing if additional evidence will be received. If additional evidence will not be received, the board may issue a ruling without oral argument or hearing. The board may, on the request of a party or on its own motion, order or permit the parties to provide written argument on one or more designated issues. The board may be assisted by an administrative law judge in all proceedings related to an application for rehearing.

645—11.26(17A) Stays of agency actions.

11.26(1) *When available.* Any party to a contested case proceeding may petition the board for a stay of an order issued in that proceeding or for other temporary remedies, pending review by the board or pending judicial review. The petition shall state the reasons justifying a stay or other temporary remedy.

11.26(2) *When granted.* In determining whether to grant a stay, the board will consider the factors listed in Iowa Code section 17A.19(5) “c.”

11.26(3) *Vacation.* A stay may be vacated by the issuing authority upon application of the board or any other party.

645—11.27(17A) No factual dispute contested cases. If the parties agree that no dispute of material fact exists as to a matter that would be a contested case if such a dispute of fact existed, the parties may present all relevant admissible evidence either by stipulation or otherwise as agreed by the parties, without necessity for the production of evidence at an evidentiary hearing. If such agreement is reached, a jointly submitted schedule detailing the method and timetable for submission of the record, briefs and oral argument should be submitted to the presiding officer for approval as soon as practicable.

645—11.28(17A) Emergency adjudicative proceedings.

11.28(1) *Emergency action.* To the extent necessary to prevent or avoid immediate danger to the public health, safety, or welfare, and consistent with the Constitution and other provisions of law, the board may issue a written order in compliance with Iowa Code section 17A.18A to suspend a license in whole or in part, order the cessation of any continuing activity, order affirmative action, or take other action within the jurisdiction of the board by emergency adjudicative order.

11.28(2) Before issuing an emergency adjudicative order, the board will consider factors including, but not limited to, the following:

- a. Whether there has been a sufficient factual investigation to ensure that the board is proceeding on the basis of reliable information;
- b. Whether the specific circumstances which pose immediate danger to the public health, safety or welfare have been identified and determined to be continuing;
- c. Whether the person required to comply with the emergency adjudicative order may continue to engage in other activities without posing immediate danger to the public health, safety or welfare;
- d. Whether imposition of monitoring requirements or other interim safeguards would be sufficient to protect the public health, safety or welfare; and
- e. Whether the specific action contemplated by the board is necessary to avoid the immediate danger.

11.28(3) *Issuance of order.*

a. An emergency adjudicative order will contain findings of fact, conclusions of law, and policy reasons to justify the determination of an immediate danger in the board’s decision to take immediate action. The order is a public record.

b. The written emergency adjudicative order will be immediately delivered to the person who is required to comply with the order by utilizing one or more of the following procedures:

- (1) Personal delivery;
- (2) Certified mail, return receipt requested, to the last address on file with the agency;
- (3) Certified mail to the last address on file with the agency; or
- (4) Fax. Fax may be used as the sole method of delivery if the person required to comply with the order has filed a written request that agency orders be sent by fax and has provided a fax number for that purpose.

c. To the degree practicable, the board will select the procedure for providing written notice that best ensures prompt, reliable delivery.

11.28(4) *Oral notice.* Unless the written emergency adjudicative order is provided by personal delivery on the same day that the order issues, the board will make reasonable immediate efforts to contact by telephone the person who is required to comply with the order.

11.28(5) *Completion of proceedings.* After the issuance of an emergency adjudicative order, the board will proceed as quickly as feasible to complete any proceedings that would be required if the matter did not involve an immediate danger.

a. Issuance of a written emergency adjudicative order will include notification of the date on which board proceedings are scheduled for completion.

b. After issuance of an emergency adjudicative order, continuance of further board proceedings to a later date will be granted only in compelling circumstances upon application in writing unless the person who is required to comply with the order is the party requesting the continuance.

645—11.29(17A) Appeal. Any appeal to district court from a decision in a contested case will be taken within 30 days from the date of issuance of the decision by the board pursuant to Iowa Code section 17A.19.

645—11.30(272C) Publication of decisions. Final decisions of the board in a contested case will be transmitted to the appropriate association, the news media, and the employer.

645—11.31(272C) Reinstatement.

11.31(1) Any person whose license to practice has been revoked or suspended may apply to the board for reinstatement in accordance with the terms and conditions of the order of revocation or suspension, unless the order of revocation provides that the license is permanently revoked.

11.31(2) Unless otherwise provided by law, if the order of revocation or suspension did not establish terms and conditions upon which reinstatement might occur, or if the license was voluntarily surrendered, an initial application for reinstatement may not be made until one year has elapsed from the date of the order or the date of the voluntary surrender.

11.31(3) All proceedings for reinstatement will be initiated by the respondent, who will file with the board an application for reinstatement of the license. Such application will be docketed in the original case in which the license was revoked, suspended, or relinquished. All proceedings upon the application for reinstatement will be subject to the same rules of procedure as other cases before the board.

11.31(4) An application for reinstatement will allege facts which, if established, will be sufficient to enable the board to determine that the basis for the revocation, suspension or voluntary surrender of the respondent's license no longer exists and that it will be in the public interest for the license to be reinstated. The burden of proof to establish such facts is on the respondent.

11.31(5) An order of reinstatement will be based upon a decision which incorporates findings of facts and conclusions of law. The order will be published as provided for in this chapter.

645—11.32(17A,272C) License denial.

11.32(1) An applicant who has been denied licensure by the board may appeal the denial and request a hearing on the issues related to the licensure denial by serving a notice of appeal and request for hearing upon the board not more than 30 days following the date of mailing of the notification of licensure denial to the applicant. The request for hearing will specifically delineate the facts to be contested at hearing.

11.32(2) All hearings held pursuant to this rule will be held pursuant to the process outlined in this chapter.

645—11.33(17A,272C) Informal settlement.

11.33(1) *Informal settlement—parties.* A contested case may be resolved by informal settlement. Negotiation of an informal settlement may be initiated by the state of Iowa represented by an assistant attorney general, the respondent, or the board. The board shall designate a board member with authority to negotiate on behalf of the board. The full board will not be involved in negotiations until the presentation of a final, written, signed informal settlement to the full board for approval.

11.33(2) *Informal settlement—waiver of notice and opportunity to be heard.* Consent to negotiation by a respondent constitutes a waiver of notice and opportunity to be heard pursuant to Iowa Code chapter 17A during informal settlement negotiation, and the assistant attorney general is thereafter authorized to discuss informal settlement with the board's designee until that consent is expressly withdrawn.

11.33(3) *Informal settlement—board approval.* All informal settlements are subject to approval of a majority of the board. No informal settlement will be presented to the board for approval except in final, written form executed by the respondent. If the board fails to approve the informal settlement, it will be of no force or effect to either party.

11.33(4) *Informal settlement—disqualification of designee.* A board member who is designated to act in negotiation of settlement is not disqualified from participating in the contested case should the case proceed to hearing.

11.33(5) *Voluntary surrender.* The board may accept the voluntary surrender of a license if accompanied by a written statement of intention. A voluntary surrender, when accepted in connection with a disciplinary proceeding, has the same force and effect as an order of revocation.

These rules are intended to implement Iowa Code chapters 17A and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 13
“Discipline”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 21.7 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code section 21.7 and chapter 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9 a.m.

6200 Park Avenue
Des Moines, Iowa
Video call link:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
tel.meet/bfq-qaeb-nwu?pin=7324359836726

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Des Moines, Iowa 50321
Phone: 515.249.7038
Email: emily.deronde@dia.iowa.gov

Purpose and Summary

This proposed rulemaking provides protection to Iowa by publicly defining required professional standards for the 19 boards represented in this chapter. This includes the following boards: Hearing Aid Specialist Board, Speech Pathology and Audiology Board, Nursing Home Administrator Board, Optometry Board, Sign Language Interpreters and Transliterators Board, Barbering and Cosmetology Arts and Sciences Board, Physical and Occupational Therapy Board, Athletic Training Board, Mortuary Science Board, Physician Assistants Board, Chiropractic Board, Behavioral Science Board, Psychology Board, Social Work Board, Podiatry Board, Massage Therapy Board, Dietetics Board, and Respiratory Care Board. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals. When professional standards are not met, licensees can be subject to discipline against their license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation.

The boards have the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Health and Human Services (HHS) Bureau of Professional Licensing have similar disciplinary standards for all professions. For this reason, and to reduce redundant language, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are standard to the regulated professions and are therefore covered in this general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees and the agency bear the costs of implementing and enforcing disciplinary rules.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is to ensure public safety and maintain a high level of care for Iowans. The public is undoubtedly the class most benefited by disciplinary regulation. In order to regulate the professions as directed in statute, disciplinary authority and action are crucial to protecting the public safety. Discipline ensures corrective action of licensees not abiding by requirements established to reduce harm to the public.

Licensees also benefit from disciplinary measures because the measures ensure all members of the profession are providing high-quality care and services.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Discipline allows for action to be taken against licensees found to have violated the requirements of their profession. In 2022, the 19 boards in the legacy HHS Bureau of Professional Licensure received 322 complaints and issued 28 public discipline orders. In 2021, the boards received 352 complaints and issued 42 public discipline orders.

A board may impose a civil penalty against a licensee for violation of board rules. Civil penalties are set by statute and capped at a certain amount depending on the profession. Additionally, licensees may incur legal costs for representation during the disciplinary proceedings and costs to correct the violating behavior such as evaluations or additional education on a particular subject matter.

- Qualitative description of impact:

These boards regulate professionals utilizing skills that could harm the public if not regulated. The boards need to have a method to initiate disciplinary proceedings when a licensee violates the Board's rules and puts the public safety and welfare at risk.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The agency incurs costs in the form of staff needed to manage board activities, which include managing complaints and conducting investigations when a licensee violates a practice standard. Five full-time executive officers support the full scope of work of the boards regulated in the Professional Licensure Division[645]. Additionally, these 19 boards employ one full-time investigator. Staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go into the Fund to cover operations of the regulated professional boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the boards are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund.

During disciplinary proceedings, the boards bring in an administrative law judge to preside over the hearing. Administrative law judges are paid by the State of Iowa. The boards do not have data on the salary or annual cost of the administrative law judge's services for the boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The boards believe the costs associated with this rulemaking are justified by the benefits being achieved. In order to regulate the profession as directed in statute, the boards need the authority to discipline and act on complaints of rule violations in order to protect the public and ensure the safety and well-being of our public. Discipline ensures corrective action against licensees who are not abiding by requirements established to reduce harm to the public.

The boards believe inaction in the area of discipline would create a situation where incompetent practitioners are serving the public. Incompetency could lead to serious harm for the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The boards have not identified less intrusive or less costly methods for achieving the purpose of this rulemaking. The boards believe these requirements are important in order to ensure that Iowans receive services from competent practitioners.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The boards considered options of reducing or eliminating grounds for discipline, but the boards believe that these requirements are important in order to ensure high-quality services for all Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The boards are tasked with regulating the professions as directed in statute. Reducing or eliminating the grounds for discipline would leave the public at risk of harm from incompetent practitioners.

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of practice standards for licensed professionals. While some licensees may be running a small business, some also work for large organizations. To exempt small businesses from adhering to this

rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 13 and adopt the following **new** chapter in lieu thereof:

CHAPTER 13
DISCIPLINE

645—13.1(272C) Definitions.

“Board” means a professional licensing board established pursuant to Iowa Code chapter 147.

“Licensee” means a person licensed under Iowa Code chapter 147.

“Licensee discipline” means the same as defined in Iowa Code section 272C.1.

645—13.2(147,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in Iowa Code section 147.55:

13.2(1) Fraud in procuring a license. Fraud in procuring a license includes, but is not limited to, an intentional perversion of the truth in making application for a license to practice in this state, which includes the following:

a. False representations of a material fact, whether by word or by conduct, by false or misleading allegations, or by concealment of that which should have been disclosed when making application for a license in this state; or

b. Attempting to file or filing with the board or the department of public health any false or forged diploma or certificate or affidavit or identification or qualification in making an application for a license in this state.

13.2(2) Professional incompetence. Professional incompetence includes, but is not limited to:

a. A substantial lack of knowledge or ability to perform professional obligations within the scope of practice.

b. A substantial deviation from the standards of learning or skill ordinarily possessed and applied by other licensees in the state of Iowa acting in the same or similar circumstances.

c. A failure to exercise the degree of care which is ordinarily exercised by the average licensees acting in the same or similar circumstances.

d. Failure to conform to the minimal standard of acceptable and prevailing practice of a licensee in this state.

e. Mental or physical inability reasonably related to and adversely affecting the licensee’s ability to practice in a safe and competent manner.

f. Being adjudged mentally incompetent by a court of competent jurisdiction.

13.2(3) Practice outside the scope of the profession.

13.2(4) Habitual intoxication or addiction to the use of drugs, including:

a. The inability of a licensee to practice with reasonable skill and safety by reason of the excessive use of alcohol on a continuing basis.

b. The excessive use of drugs which may impair a licensee’s ability to practice with reasonable skill or safety.

13.2(5) Obtaining, possessing, attempting to obtain or possess, or administering controlled substances without lawful authority.

13.2(6) Falsification, alteration or destruction of client or patient records with the intent to deceive.

13.2(7) Acceptance of any fee by fraud or misrepresentation.

13.2(8) Negligence by the licensee in the practice of the profession includes a failure to exercise due care, including negligent delegation of duties or supervision of employees or other individuals, whether or not injury results; or any conduct, practice or conditions which impair the ability to safely and skillfully practice the profession.

13.2(9) Being convicted of an offense that directly relates to the duties and responsibilities of the profession. A conviction includes a guilty plea, including Alford and nolo contendere pleas, or a finding or verdict of guilt, even if the adjudication of guilt is deferred, withheld, or not entered. A copy of the guilty plea or order of conviction constitutes conclusive evidence of conviction. An offense directly relates to the duties and responsibilities of the profession if the actions taken in furtherance of the offense are actions customarily performed within the scope of practice of the profession or the circumstances under which the offense was committed are circumstances customary to the profession.

13.2(10) Violation of a regulation, rule, or law of this state, another state, or the United States, which relates to the practice of the profession.

13.2(11) Revocation, suspension, or other disciplinary action taken by a licensing authority of this state, another state, territory or country; or failure of the licensee to report such action within 30 days of the final action by such licensing authority. A stay by an appellate court shall not negate this requirement; however, if such disciplinary action is overturned or reversed by a court of last resort, such report shall be expunged from the records of the board.

13.2(12) Failure of a licensee or an applicant for licensure in this state to report any voluntary agreements restricting the individual's practice in another state, district, territory or country.

13.2(13) Failure to notify the board of a criminal conviction within 30 days of the action, regardless of the jurisdiction where it occurred.

13.2(14) Failure to notify the board within 30 days after occurrence of any judgment or settlement of a malpractice claim or action.

13.2(15) Engaging in any conduct that subverts or attempts to subvert a board investigation.

13.2(16) Failure to comply with a subpoena issued by the board or failure to cooperate with an investigation of the board.

13.2(17) Failure to respond within 30 days of receipt of communication from the board which was sent by registered or certified mail.

13.2(18) Failure to comply with the terms of a board order or the terms of a settlement agreement or consent order.

13.2(19) Failure to pay costs assessed in any disciplinary action.

13.2(20) Submission of a false report of continuing education or failure to submit the biennial report of continuing education.

13.2(21) Failure to report another licensee to the board for any violations listed in these rules, pursuant to Iowa Code section 272C.9.

13.2(22) Knowingly aiding, assisting, or advising a person to unlawfully practice the profession.

13.2(23) Failure to report a change of name or address within 30 days after it occurs.

13.2(24) Representing oneself as a licensee when one's license has been suspended or revoked, or when one's license is on inactive status.

13.2(25) Permitting another person to use the licensee's license for any purpose.

13.2(26) Permitting an unlicensed employee or person under the licensee's control to perform activities that require a license to practice the profession.

13.2(27) Unethical conduct. In accordance with Iowa Code section 147.55(3), behavior (i.e., acts, knowledge, and practices) which constitutes unethical conduct may include, but is not limited to, the following:

- a. Verbally or physically abusing a patient or client.
- b. Improper sexual contact with or making suggestive, lewd, lascivious or improper remarks or advances to a patient, client or coworker.
- c. Betrayal of a professional confidence.
- d. Engaging in a professional conflict of interest.

13.2(28) Repeated failure to comply with standard precautions for preventing transmission of infectious diseases as issued by the Centers for Disease Control and Prevention of the United States Department of Health and Human Services.

13.2(29) Violation of the terms of an initial agreement with the impaired practitioner review committee or violation of the terms of an impaired practitioner recovery contract with the impaired practitioner review committee.

645—13.3(272C) Method of discipline. The board has the authority to impose the following disciplinary sanctions as defined in Iowa Code section 272C.3, and as follows:

1. Order a physical or mental evaluation, or order alcohol and drug screening within a time specified by the board.
2. Such other sanctions allowed by law.

645—13.4(272C) Discretion of board. The following factors may be considered by the board in determining the nature and severity of the disciplinary sanction to be imposed:

1. The relative serious nature of the violation as it relates to assuring the citizens of this state a high standard of professional care.
2. The facts of the particular violation.
3. Any extenuating facts or other countervailing considerations.
4. The number of prior violations or complaints.
5. The seriousness of prior violations or complaints.
6. Whether remedial action has been taken.
7. Such other factors as may reflect upon the competency, ethical standards, and professional conduct of the licensee.

These rules are intended to implement Iowa Code sections 21.7, 272C.4, 272C.5, and 272C.6.

Purpose and Summary

This proposed rulemaking clarifies the pathway to potential licensure for individuals with criminal convictions. The requirements set out in rule ensure a streamlined pathway while protecting the public through criteria that allows a board to review the complete criminal record, evidence of rehabilitation, and other information when making a determination on eligibility for licensure. This rulemaking implements recent legislation, 2020 Iowa Acts, House File 2627.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees and the board will bear the costs of this rulemaking. Licensees have the option to petition the board for an eligibility waiver prior to completing a license application. The purpose of the eligibility

waiver is to inform the licensee of whether the individual's convictions are disqualifying offenses. There is a \$25 fee associated with the eligibility waiver. The board employs staff to process the waivers and applications. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees greatly benefit from this rulemaking. While the board is unable to pull statistics from the licensing database on the number of individuals with a criminal conviction, multiple individuals with prior criminal convictions have been licensed. These rules, as directed by the legislation, open up career opportunities for individuals with criminal convictions that may not have previously existed.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

While there are no known quantitative costs to the public, the licensee does incur costs related to licensing and eligibility. An individual may petition the board for an eligibility waiver prior to completing the licensing application. The board uses the eligibility waiver process to determine if the individual's criminal convictions are disqualifying offenses. There is a \$25 fee associated with the eligibility waiver. Licensing fees depend on the profession.

Board staff are needed to process the license applications and eligibility waiver petitions. The Department employs 5.0 full-time equivalent (FTE) positions dedicated to processing all licensure applications for those professions regulated by the Professional Licensure Division[645]. If the application needs higher review, it is sent on to a board executive and the Attorney General's office. Staff salaries to support the work of the board are covered by the Fund. Licensing fees go into the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

This rulemaking, as directed by legislation, opens up career opportunities for individuals with criminal convictions who may not have been able to secure a license in the past. The rulemaking provides some discretion of the board to determine whether a person has been rehabilitated to a point where the public would be safe with the individual receiving a license in a particular field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The agency incurs costs in the form of staff to support the board with the license applications and eligibility waivers. The DIAL Licensing Division employs 5.0 FTE positions dedicated to processing all licensure applications for those professions regulated in the Professional Licensure Division[645]. If an application needs higher review, it is sent on to a board executive and the Attorney General's office. Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenue from this rulemaking. The rulemaking allows for more individuals to receive a professional license, which creates more job opportunities for those individuals. Having more potential and more opportunities allows the licensee to contribute back to the state revenue.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The board believes the intended benefit of this rulemaking outweighs any potential costs of the rulemaking. The intended benefit is being achieved because this rulemaking is allowing a pathway for those with criminal convictions to obtain professional licenses that the persons may not otherwise be able to obtain. The board believes it needs to have a streamlined approach to review licensees' criminal convictions and potential rehabilitation to determine whether that past criminal conviction would have a negative impact on the individual obtaining a license. While the board does not have a statistic for how many people have been able to obtain a license with a criminal conviction, several licensees have utilized

this chapter to be able to obtain a license and have opportunities for jobs. Without this rulemaking, some individuals would be automatically excluded from practicing in certain professions.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The purpose of this rulemaking is to allow individuals with past criminal convictions the opportunity to petition the board for a determination on whether the individual is able to obtain a license. The rulemaking also provides a streamlined process for the board to review past criminal convictions and determine whether or not a license should be granted based on the nature of the criminal conviction and the potential rehabilitation. The rulemaking itself provides a less intrusive method to determine whether an individual can obtain a license through the petition for eligibility waiver. The waiver process allows individuals to apply for a determination just on the criminal convictions prior to filing for the license application. The cost of the waiver is \$25, whereas the cost for license application is much more.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The boards have not identified a less restrictive alternative to the requirements for use of criminal convictions in eligibility determinations and initial licensing decisions because these rules set the pathway for licensure of an individual with criminal convictions. Included in the rulemaking is the option for potential licensees to petition the board for eligibility determination prior to their initial license application. This allows for the potential licensee to pay only a fraction of the cost (\$25) as opposed to the entire licensing fees prior to a finding of whether the licensee's criminal convictions will disqualify the licensee from receiving a license.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Alternative methods were not considered because this rulemaking is required by statute enacted by 2020 Iowa Acts, House File 2627.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The eligibility waiver allows small business licensees to pay a small fee for the board to determine whether the individual's criminal convictions are disqualifying offenses that would prevent the individual from obtaining a license. The eligibility waiver is a tool used by a licensee prior to completing the full licensure process, which has a much higher fee associated with it.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 14 and adopt the following new chapter in lieu thereof:

CHAPTER 14
USE OF CRIMINAL CONVICTIONS IN ELIGIBILITY DETERMINATIONS AND INITIAL
LICENSING DECISIONS

645—14.1(272C) Definitions.

“*Complete criminal record*” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted, regardless of whether the offense is classified as a felony or a misdemeanor, and regardless of the jurisdiction in which the offense occurred.

“*Conviction*” means a finding, plea, or verdict of guilt made or returned in a criminal proceeding, even if the adjudication of guilt is deferred, withheld, or not entered. “Conviction” includes Alford pleas and pleas of nolo contendere.

“*Disqualifying offense*” means a conviction directly related to the duties and responsibilities of the profession pursuant to Iowa Code section 272C.1(8).

“*License*” means any license, registration, or permit issued by the board.

645—14.2(272C) License application. Unless an applicant for licensure petitions the board for an eligibility determination pursuant to rule 645—14.3(272C), the applicant’s convictions will be reviewed when the board receives a completed license application.

14.2(1) An applicant must disclose all convictions on a license application. Failure to disclose all convictions is grounds for license denial or disciplinary action following license issuance.

14.2(2) An applicant with one or more convictions shall submit the complete criminal record for each conviction and a personal statement regarding whether each conviction directly relates to the practice of the profession in order for the license application to be considered complete.

14.2(3) An applicant must submit all evidence of rehabilitation that the applicant wishes to be considered by the board.

14.2(4) The board may deny a license if the applicant has a disqualifying offense unless the applicant demonstrates by clear and convincing evidence that the applicant is rehabilitated pursuant to Iowa Code section 272C.15.

14.2(5) An applicant with one or more disqualifying offenses who has been found rehabilitated must still satisfy all other requirements for licensure.

14.2(6) Any application fees paid will not be refunded if the license is denied.

645—14.3(272C) Eligibility determination.

14.3(1) An individual who has not yet submitted a completed license application may petition the board for a determination of whether one or more of the individual’s convictions are disqualifying offenses that would render the individual ineligible for licensure.

14.3(2) To petition the board for an eligibility determination of whether one or more of the petitioner’s convictions are disqualifying offenses, a petitioner shall submit all of the following:

- a. A completed petition for eligibility determination form;
- b. The complete criminal record for each of the petitioner’s convictions;
- c. A personal statement regarding whether each conviction directly relates to the duties and responsibilities of the profession and why the board should find the petitioner rehabilitated;
- d. All evidence of rehabilitation that the petitioner wishes to be considered by the board; and
- e. Payment of a nonrefundable fee of \$25.

645—14.4(272C) Appeal. A petitioner deemed ineligible or an applicant denied a license due to a disqualifying offense may appeal the decision in the manner and time frame set forth in the board’s written decision. A timely appeal will initiate a nondisciplinary contested case proceeding. The board’s rules governing contested case proceedings will apply unless otherwise specified in this rule. If the petitioner or applicant fails to timely appeal, the board’s written decision will become a final order.

14.4(1) An administrative law judge will serve as the presiding officer of the nondisciplinary contested case proceeding, unless the board elects to serve as the presiding officer. When an administrative law judge serves as the presiding officer, the decision rendered shall be a proposed decision.

14.4(2) The contested case hearing shall be closed to the public, and the board's review of a proposed decision shall occur in closed session.

14.4(3) The office of the attorney general shall represent the board's initial ineligibility determination or license denial and shall have the burden of proof to establish that the petitioner or applicant's convictions include at least one disqualifying offense. Upon satisfaction of this burden by a preponderance of the evidence by the office of the attorney general, the burden of proof shall shift to the petitioner or applicant to establish rehabilitation by clear and convincing evidence.

14.4(4) A petitioner or applicant must appeal an ineligibility determination or license denial in order to exhaust administrative remedies. A petitioner or applicant may only seek judicial review of an ineligibility determination or license denial after the issuance of a final order following a contested case proceeding. Judicial review of the final order following a contested case proceeding shall be in accordance with Iowa Code chapter 17A.

645—14.5(272C) Future petitions or applications. If a final order determines a petitioner is ineligible, the petitioner may not submit a subsequent petition for eligibility determination or a license application prior to the date specified in the final order. If a final order denies a license application, the applicant may not submit a subsequent license application or a petition for eligibility determination prior to the date specified in the final order.

These rules are intended to implement 2020 Iowa Acts, House File 2627.

Email: emily.deronde@dia.iowa.gov

Purpose and Summary

The purpose of this proposed rulemaking is to form a committee to monitor impaired professionals for the purpose of public safety. The committee may include a licensed practitioner who has expertise in the area of substance abuse and addiction treatment; a licensed practitioner who has expertise in diagnosis and treatment of psychological disorders and disabilities; a specialty board-certified psychiatrist; a licensee who has remained free of addiction for a period of no less than two years since successfully completing the board-approved recovery program; and a licensed physician, physician assistant or advanced registered nurse practitioner whose specialty area is family practice or who has expertise in neurological disorders. The goal of this composition is to ensure that the committee has expertise in medicine, addiction, disability and/or recovery. The program is confidential and participation is not a matter of public record. Specific eligibility criteria must be met to ensure that matters that may need to be addressed by the board are routed appropriately. The goal of the program is to ensure that a licensee is safe to practice the licensee’s profession through ongoing committee monitoring. Participants enter into a contract with the committee and agree to adhere to all terms and agreements set forth in the contract. Failure to comply with the provisions of the contract gives the committee the authority to make a referral to the board for possible disciplinary action. If a contract provision is breached that poses an immediate risk to the public, the committee may place immediate practice restrictions on the licensee.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to the licensee to participate in this program. The licensee has to have a diagnosed impairment, which is often determined through a substance abuse or other type of evaluation to assess the potential impairment. This evaluation is done at the expense of the licensee. The terms of the contract set forth requirements the licensee must meet to participate in the program, which may include therapy, random drug screens, Alcoholics Anonymous meetings, etc. Participation in these requirements is at the expense of the licensee.

The boards incur costs associated with this rule as well, including staff to review applications for the program and monitor the licensee's participation. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operation costs for the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The impaired practitioner program gives licensees an opportunity to receive the treatment they need and be rehabilitated. This sets up licensees who complete the program to safely and successfully continue their practice, benefiting the public and licensee alike.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The annual caseload of the Iowa Professionals Review Committee is roughly 15 to 20 participants, with 2 to 3 people graduating from the program each year. Contracts are generally 3 to 5 years long, with a host of monitoring requirements. This program offers licensees an opportunity to receive treatment and, if they graduate, regain full privileges of licensure.

- Qualitative description of impact:

The rulemaking provides for a confidential program to assist professionals who may be struggling with addiction, mental health or physical disabilities. Substantively, the goal of the terms of participation is to ensure that the licensee is safe to practice the licensee's profession. The program provides ongoing monitoring through the committee, adding accountability for the licensee. Failure to comply with the requirements of the contract could result in referral to the board for disciplinary action. A licensee who successfully completes the program is able to regain full privileges of licensure.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to review applications and monitor participants of the program. Staff salaries to support the work of the professional licensing boards are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. Staff salaries to support the work of the board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The boards believe the costs of this program are justified by the benefits received. The program allows licensees an avenue outside of discipline to address areas of impairment while being monitored by a professional group. Without this confidential program, licensees would likely be subject to discipline, lose their license to practice or seriously harm a member of the public by attempting to practice while impaired.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

This program is less restrictive than discipline. The program is not punitive, and it is confidential. The program provides the ability for individuals dealing with impairment to heal privately while simultaneously being monitored by a qualified group of professionals to ensure the public is protected. The costs of the program are individually based and determined by the evaluations and needs of the licensee. At this time, the boards have not identified a less restrictive alternative for the impaired practitioner program.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

At this time, the boards have not identified any alternative methods for the impaired practitioner program.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The boards believe this program is needed to provide options for impaired professionals to rehabilitate themselves and be able to safely practice. This program provides licensees with a less restrictive option other than discipline. The licensees can participate confidentially and receive the help they need to be successful in their professions.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking provides an alternative for small business licensees who may be encountering impairment. Instead of being subject to discipline procedures, the licensee may enter the confidential program to seek assistance. When the licensee graduates from the program, the licensee will regain full privileges of licensure. Disciplinary proceedings are often costly for the licensee to hire legal counsel and can result in suspension or revocation of the license. This program allows the licensee to maintain the license and be monitored to ensure safe practice for all Iowans.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 16 and adopt the following **new** chapter in lieu thereof:

CHAPTER 16 IOWA PROFESSIONALS REVIEW COMMITTEE

645—16.1(272C) Definitions.

“*Contract*” means the written document establishing the terms for participation in the impaired practitioner program.

“*Initial agreement*” means the written document establishing the initial terms for participation in the impaired practitioner program.

“*IPRC*” or “*committee*” means the impaired Iowa professionals review committee.

“*Participant*” means an applicant or person licensed under Iowa Code chapter 147, 153, 154A, 154E, 155, or 155A who self-reports a potential impairment to the program, is referred to the program by the board, or signs an initial agreement or contract with the committee.

“*Self-report*” means written notification provided by the licensee to the board or committee that the licensee has been, is, or may be impaired. Information relative to impairment or a potential impairment provided on a license application or a renewal form may be considered a self-report. A self-report can be received even if the applicable licensing board has received a complaint or a third party has alleged the same.

645—16.2(272C) Composition of the committee. The division of licensing shall appoint members of the committee.

16.2(1) Membership. The committee may be composed of, but not limited to, members with the following qualifications:

- a. A licensed practitioner who has expertise in the area of substance abuse and addiction treatment.
- b. A licensed practitioner who has expertise in the diagnosis and treatment of psychological disorders and disabilities.
- c. A specialty board-certified psychiatrist who holds a current, active Iowa license as defined in 653—9.1(147,148,150,150A).
- d. A licensee who has remained free of addiction for a period of no less than two years since successfully completing a board-approved recovery program; board-ordered probation for drug or alcohol dependency, addiction or abuse; or an Iowa professionals review committee contract.
- e. An Iowa licensed physician, a physician assistant or an advanced registered nurse practitioner (ARNP) whose specialty area is family practice or who has expertise in neurological disorders.
- f. A board of pharmacy specialty certified psychiatric pharmacist who holds a current, active Iowa pharmacist license.
- g. An at-large public member.
- h. The board administrator for professional licensure or designee.

16.2(2) Officers. At the last meeting of each calendar year, the committee elects co-chairpersons to serve a one-year term beginning January 1. A chairperson, in consultation with counsel, may offer guidance and direction to staff between regularly scheduled committee meetings concerning program descriptions, interim restrictions on practice, and negotiation and execution of initial agreements and contracts on behalf of the committee. The committee retains authority to review all interim decisions at its discretion.

16.2(3) Terms. Committee members are appointed to a three-year term, for a maximum of three terms. Each term expires on December 31 of the third year of the term. Initial terms are for a period of one to three years as designated by the division to provide continuity to the committee.

645—16.3(272C) Eligibility.

16.3(1) To be eligible for participation in the program, an applicant or licensee must self-report or be referred by the board for an impairment or suspected impairment. The committee will determine for each self-report or referral whether the applicant or licensee is an appropriate candidate for participation in the program. An applicant or licensee is ineligible if the committee finds sufficient evidence that the applicant or licensee:

- a. Diverted medication for distribution to third parties or for personal profit;
- b. Adulterated, misbranded, or otherwise tampered with medication intended for a patient;
- c. Provided inaccurate, misleading, or fraudulent information or failed to fully cooperate with the committee;
- d. Participated in the program, or a similar program offered by another state, without success;
- e. Failed to sign an initial agreement or a contract when offered by the committee; or

f. Caused injury or harm to a patient or client.

16.3(2) Discretion. Eligibility of a person to participate in the program is at the sole discretion of the committee. No person is entitled to participate in the program.

16.3(3) Limitations. The committee establishes the terms and monitors a participant's compliance with the program specified in the contract. The committee is not responsible for participants who fail to comply with the terms of or successfully complete the program. Participation in the program shall not relieve the licensee's board of any duties or divest the board of any authority or jurisdiction otherwise provided. Any violation of the statutes or rules governing the practice of the licensee's profession by a participant will be referred to the board for appropriate action.

645—16.4(272C) Terms of participation. A participant is responsible for complying with the terms of participation established in the initial agreement and the contract, and for all expenses incurred to comply with the terms imposed by the program. Terms of participation specified in the contract shall include, but not be limited to:

16.4(1) Duration. The length of participation in the program is determined by the committee and will vary depending upon the recommendations of an approved evaluator and review of all relevant information.

16.4(2) Noncompliance. Participants are responsible for notifying the committee of any instance of noncompliance including, but not limited to, a relapse. Notification of noncompliance made to the IPRC by the participant, a monitoring provider, or another party may result in notice to the board for the filing of formal charges or other action the board deems appropriate.

16.4(3) Practice restrictions. The IPRC may impose practice restrictions on a participant as a term of the initial agreement or contract until such time as an approved evaluator and the IPRC determines, based on all relevant information, that the participant is capable of practicing with reasonable safety and skill. Participation in the program requires that participants agree to restrict practice in accordance with a request from the IPRC. If a participant refuses to agree to or comply with the restrictions established in the initial agreement or contract, the committee will refer the practitioner to the board for appropriate action.

645—16.5(272C) Confidentiality. Information in the possession of the board or the committee is subject to the confidentiality requirements of Iowa Code section 272C.6.

16.5(1) Program participants must report their participation to the applicable monitoring program or licensing authority in any state in which the participant is currently licensed or in which the participant seeks licensure.

16.5(2) The committee is authorized to communicate information about a participant to any person assisting in the participant's treatment, recovery, rehabilitation, monitoring, or maintenance for the duration of the contract.

16.5(3) The committee is authorized to communicate information about a program participant to the board in the event a participant does not comply with the terms of the contract as set forth in rule 701—16.4(272C). The committee may provide the board with a participant's program file when the committee refers the case to the board for noncompliance. If the board initiates disciplinary action against a licensee as a result of the noncompliance, the board may include in the public disciplinary documents information about a licensee's participation in the program.

16.5(4) The committee is authorized to communicate information about a current or former program participant to the board if reliable information held by the committee reasonably indicates that a significant risk to the public exists. If the board initiates disciplinary action based upon this information, the board may include in the public disciplinary documents information about a licensee's participation if necessary to address impairment issues related to the violations which are the subject of the disciplinary action.

These rules are intended to implement Iowa Code chapter 272C.

Purpose and Summary

This chapter provides an alternative pathway to licensure. This alternative option streamlines the process for individuals who are licensed in another state to be licensed in Iowa. The requirements set out in this chapter ensure licensees have proper skills to practice. The chapter provides for certain criteria to be assessed, including prior discipline, proof of residency and work experience, in order to protect the public.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:
Licensees and the agency have costs associated with this rulemaking. Licensees incur fees for licensure upon application in the State of Iowa. Those fees are set out by rule.

The Department utilizes staff members to process the applications, respond to inquiries and manage phone calls. Staff salaries to support the work of the Department are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

Licensees benefit from this rulemaking because it provides an alternative path for those licensees that already have a license in another state. The licensees that qualify for license by verification are able to apply for an Iowa license without going through all of the steps of the initial application process. This saves the licensee time and expense.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Department does not have an exact number of licensees that have been licensed by verification as the licensing database does not differentiate between traditional licensure and alternative pathways. An estimated 35 licensees have been successfully licensed by verification since the inception of the statute.

- Qualitative description of impact:

In order to regulate and license the professions as directed in statute, base standards for licensure are critical to protecting the public safety. This rulemaking allows for individuals with licenses in other states to apply for licensure in Iowa through a streamlined verification process. The streamlined process allows for quicker licensing and also allows more professionals for the public to access to meet their critical needs.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency include the staff time needed to process license applications. The DIAL Licensing Division employs 5.0 full-time equivalent (FTE) positions dedicated to processing all licensure applications for those professions regulated in the Professional Licensure Division[645]. Staff salaries to support the work of the Department are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated effect on state revenues. Staff salaries to support the work of the Department are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

While there are no costs to the public to enact this rulemaking, there are costs to the licensee. Licensees must pay licensing application fees in order to utilize this chapter. Licensing fees vary depending on the profession and are set by separate rule. The Department believes the benefits associated with license application justify the costs. In order to regulate and license professions, base standards have to be set to ensure public safety. The licensing fees paid through this rule, as well as any other licensing application, are paid to the Licensing and Regulation Fund established in Senate File 557. This Fund covers the operations of the regulated professional licensure boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The boards have not identified a less restrictive alternative to the requirements for licensure by verification as these rules already reflect a streamlined licensure process.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
The boards have not identified a less restrictive alternative to the requirements for licensure by verification as these rules already reflect a streamlined process for licensure.
- Reasons why alternative methods were rejected in favor of the proposed rulemaking:
This rulemaking implements recent legislation, 2020 Iowa Acts, House File 2627. The boards were not able to identify a less restrictive alternative that would also ensure public safety.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

This rulemaking benefits licensees who may own or work for small businesses because it provides a more efficient means for licensees to obtain their Iowa license if they are already licensed in another state and meet certain qualifications. This cuts down on the time and expenses the small business may have to wait to engage in business in Iowa.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 19 and adopt the following **new** chapter in lieu thereof:

CHAPTER 19

LICENSURE BY VERIFICATION AND OF APPLICANTS WITH WORK EXPERIENCE

645—19.1(272C) Licensure by verification. Licensure by verification is available in accordance with the following.

19.1(1) Eligibility. A person may seek licensure by verification if the person is licensed in at least one other jurisdiction that has a scope of practice substantially similar to that of Iowa.

19.1(2) Board application. The applicant must submit the following:

- a. A completed application.
- b. Payment of the application fee.
- c. Completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check, if required for initial licensure by the board.
- d. An attestation that the applicant's license in that jurisdiction complies with the requirements of Iowa Code section 272C.12.
- e. A copy of the complete criminal record if the applicant has a criminal history.
- f. A copy of the relevant disciplinary documents if another jurisdiction has taken disciplinary action against the applicant.
- g. A written statement from the applicant detailing the scope of practice in the other state.
- h. Copies of relevant laws setting forth the scope of practice in the other state.

19.1(3) *Applicants with prior discipline.* If another jurisdiction has taken disciplinary action against an applicant, the board will determine whether the cause for the disciplinary action has been corrected and the matter has been resolved. If the board determines the disciplinary matter has not been resolved, the board will neither issue a license nor deny the application for licensure until the matter is resolved. A person who has had a license revoked, or who has voluntarily surrendered a license, in another jurisdiction is ineligible for licensure by verification.

19.1(4) *Applicants with pending licensing complaints or investigations.* If an applicant is currently the subject of a complaint, allegation, or investigation relating to unprofessional conduct pending before any regulating entity in another jurisdiction, the board will neither issue a license nor deny the application for licensure until the complaint, allegation, or investigation is resolved.

19.1(5) *Compact privileges.* A person who has a privilege to practice in Iowa by virtue of an interstate licensure compact is ineligible for licensure by verification. Licenses issued pursuant to this rule do not grant privileges to practice in any other jurisdiction pursuant to any interstate licensure compact.

645—19.2(272C) Applicants with work experience in jurisdictions without licensure requirements.

19.2(1) *Work experience.* An applicant for initial licensure who has relocated to Iowa from another jurisdiction that did not require a professional license to practice in the profession may be considered to have met any educational and training requirements if the person has at least three years of work experience with a scope of practice substantially similar to that of the profession for which a license in Iowa is sought. The three years of work experience must be within the four years preceding the date of application for initial licensure. The applicant must satisfy all other requirements, including passing any required examinations, to receive a license.

19.2(2) *Required documentation.* An applicant who wishes to substitute work experience in lieu of satisfying applicable education or training requirements shall carry the burden of proving all of the following by submitting relevant documents as part of a completed license application:

- a.* Proof of Iowa residency.
- b.* Proof of three or more years of work experience within the four years preceding the application for licensure.
- c.* Proof that the work experience was in a practice with a scope of practice substantially similar to that for the license sought in Iowa.

These rules are intended to implement 2020 Iowa Acts, House File 2627.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 31
“Licensure of Marital and Family Therapists, Mental Health Counselors, Behavior Analysts, and
Assistant Behavior Analysts”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 17A, 147, 154D, and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 154D, and
272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:40 to 10 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
PH: 402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Tony Alden
Department of Inspections, Appeals, and Licensing
6200 Park Avenue
Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This proposed rulemaking sets minimum standards for entry into the professions of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts. Iowa residents, licensees and employers benefit from the rulemaking as it articulates the processes by which individuals apply for licensure in these professions in the State of Iowa, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the profession has minimum competency. Requirements include the application process, minimum educational qualifications, and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no known direct cost to the general public, but there is a cost to the applicant because compliance with the minimum requirements to enter into the profession is at the expense of the licensee. The fee for initial licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts is \$120 and the renewal fee is \$120 in the State of Iowa.

Iowa's initial licensure application process is similar to those implemented by other state boards of behavioral science. The application fees vary by state, however. The application fees by state for initial licensure as a mental health counselor are as follows:

Nebraska: \$155

Minnesota: \$400

Illinois: \$150

South Dakota: \$225

Kansas: \$50

Missouri: \$100

The application fees by state for initial licensure as a marital and family therapist are as follows:

Nebraska: \$155

Minnesota: \$125

Illinois: \$100

South Dakota: \$225

Kansas: \$50

Missouri: \$100

The application fees for initial licensure as a behavior analyst are as follows:

Nebraska: A license cost is not found yet because Nebraska just implemented licensure this year.

Minnesota: No license.

Illinois: A license cost is not found yet. Illinois implemented licensure last year.

South Dakota: \$350

Kansas: \$70

Missouri: \$150

The licensee would also incur costs related to educational requirements and examination requirements. The Board of Behavioral Science has not identified an exact cost of education for these fields because costs vary depending on the school the licensee chooses to attend to meet the requirements. Examination costs are consistent across states that have a national exam. The fee for the mental health counselor examination is \$275, the fee for the marital and family therapist examination is \$365, the fee for the behavior analyst examination is \$350, and the fee for the assistant behavior analyst examination is \$300.

Board staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.35 full-time equivalent (FTE) position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rule. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide the academic training for mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts to obtain their license in the State of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on the cost of education or examination preparation.

Licensing fees are \$120 for an initial license and \$120 for each renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would be an increase in the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. It takes roughly 0.35 FTE position to review application materials. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. There is no anticipated impact of this rulemaking on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the professions, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the State of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, the Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). DIAL — Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. This rulemaking supports this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is

provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the chapter provides consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, the Board is now part of DIAL. DIAL — Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rule edits support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns which are present whether the business is a small business or a large organization. The rule is meant to ensure public safety in terms of licensing requirements for mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts. While some mental health counselors, marital and family therapists, behavior analysts and assistant behavior analysts are likely running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 31 and adopt the following **new** chapter in lieu thereof:

BEHAVIORAL SCIENTISTS

- CHAPTER 31 LICENSURE OF MARITAL AND FAMILY THERAPISTS, MENTAL HEALTH COUNSELORS, BEHAVIOR ANALYSTS, AND ASSISTANT BEHAVIOR ANALYSTS
- CHAPTER 32 CONTINUING EDUCATION FOR MARITAL AND FAMILY THERAPISTS AND MENTAL HEALTH COUNSELORS
- CHAPTER 33 DISCIPLINE FOR MARITAL AND FAMILY THERAPISTS, MENTAL HEALTH COUNSELORS, BEHAVIOR ANALYSTS, AND ASSISTANT BEHAVIOR ANALYSTS

CHAPTER 31

LICENSURE OF MARITAL AND FAMILY THERAPISTS, MENTAL HEALTH COUNSELORS, BEHAVIOR ANALYSTS, AND ASSISTANT BEHAVIOR ANALYSTS

645—31.1(154D) Definitions. For purposes of these rules, the following definitions shall apply:

“*ACA*” means the American Counseling Association.

“*Active license*” means a license that is current and has not expired.

“*AMFTRB*” means the Association of Marital and Family Therapy Regulatory Boards.

“*AMHCA*” means the American Mental Health Counselors Association.

“*BACB*” means the Behavior Analyst Certification Board.

“*Board*” means the board of behavioral science.

“*CCE*” means the Center for Credentialing and Education, Inc.

“*Course*” means three graduate semester credit hours.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Licensee*” means any person licensed to practice as a marital and family therapist, mental health counselor, behavior analyst, or assistant behavior analyst in the state of Iowa.

“*License expiration date*” means September 30 of even-numbered years for marital and family therapists and mental health counselors, and means the expiration date of the certification issued by the Behavior Analyst Certification Board for behavior analysts and assistant behavior analysts.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice mental health counseling or marital and family therapy to an applicant who is or has been licensed in another state.

“*Mental health setting*” means a behavioral health setting where an applicant is providing mental health services including the diagnosis, treatment, and assessment of emotional and mental health disorders and issues.

“*NBCC*” means the National Board for Certified Counselors.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—31.13(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

“*Temporary license*” means a license to practice marital and family therapy or mental health counseling under direct supervision of a qualified supervisor as determined by the board by rule to fulfill the postgraduate supervised clinical experience requirement in accordance with this chapter.

645—31.2(154D) Requirements for permanent and temporary licensure as a mental health counselor or marriage and family therapist. The following criteria shall apply to licensure:

31.2(1) The applicant shall submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.3(147,154D).

31.2(2) The applicant for a mental health counseling license shall submit two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI). The cost of the criminal history background check by the DCI and the FBI shall be assessed to the applicant.

31.2(3) No application will be considered by the board until official copies of academic transcripts sent directly from the school to the board of behavioral science have been received by the board or an equivalency evaluation completed by the Center for Credentialing and Education, Inc. (CCE) has been received by the board. The applicant shall present proof of meeting the educational requirements. Documentation of such proof shall be on file in the board office with the application and include one of the following:

a. For licensure as a marital and family therapist, an official transcript verifying completion of a marital and family therapy program accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) as defined in subrule 31.5(1) or an equivalency evaluation of the applicant's educational credentials completed by CCE as defined in subrule 31.5(2).

b. For licensure as a mental health counselor, an official transcript verifying completion of a mental health counseling program accredited by the Council on Accreditation of Counseling and Related Educational Programs (CACREP) as defined in subrule 31.6(1) or an equivalency evaluation of the applicant's educational credentials completed by CCE as defined in subrule 31.6(2).

31.2(4) The candidate is required to take the examination(s) provided in rule 645—31.3(1).

31.2(5) The candidate for permanent licensure shall submit the required attestation of supervision forms documenting clinical experience as required in rule 645—31.7(154D).

31.2(6) The candidate for temporary licensure must submit a supervision plan to the board prior to licensure. Within 30 days of completion of the supervised clinical experience, the attestation of the completed supervised experience must be submitted to the board office. The temporary licensee shall remain under supervision until a permanent license is issued.

31.2(7) A temporary license is only valid for the purpose of fulfilling the postgraduate supervised clinical experience requirement. It is valid for three years and may be renewed at the discretion of the board.

31.2(8) A licensee who was issued an initial permanent license within six months prior to the renewal shall not be required to renew the license until the renewal date two years later.

31.2(9) An application for a temporary or permanent license will be considered active for two years from the date the application is received. If the applicant does not submit all materials within this time period or if the applicant does not meet the requirements for the license, the application shall be considered incomplete. An applicant whose application is filed incomplete must submit a new application, supporting materials, and the application fee. The board shall destroy incomplete applications after two years.

645—31.3(154D) Examination requirements for mental health counselors and marital and family therapists. The following criteria shall apply to the written examination(s):

31.3(1) The applicant will take and pass the following examinations in order to qualify for licensing:

a. For a marital and family therapist license, the Association of Marital and Family Therapy Regulatory Boards (AMFTRB) Examination in Marital and Family Therapy.

b. For a mental health counselor license or a temporary mental health counselor license, the National Counselor Examination (NCE) of the NBCC or the National Clinical Mental Health Counselor Examination (NCMHCE) of the NBCC. For a temporary mental health counselor license, the NCE of the NBCC or the NCMHCE of the NBCC.

c. For a mental health counselor license, the NCMHCE of the NBCC.

31.3(2) The passing score on the written examination shall be the passing point criterion established by the appropriate national testing authority at the time the test was administered.

31.3(3) An applicant who is requesting approval to take the licensure examination prior to graduation shall:

a. Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.3(147,154D).

b. Have a letter on official school letterhead sent directly from the program director to the board indicating that the applicant is in good academic standing; that the applicant will graduate from the program within three months of the date on the letter; and the applicant's anticipated date of graduation.

645—31.4(147) Professional counselor licensing compact. The rules of the Counseling Compact Commission are incorporated by reference.

645—31.5(154D) Educational qualifications for marital and family therapists. The applicant must complete the required semester credit hours, or equivalent quarter hours, of graduate level coursework in each of the content areas identified in subrule 31.5(2); no course may be used more than once. The applicant must present proof of completion of the following educational requirements for licensure as a marital and family therapist:

31.5(1) Accredited program. Applicants must present with the application an official transcript verifying completion of a master's degree of 60 semester hours (or 80 quarter hours or equivalent) or a doctoral degree in marital and family therapy from a program accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) from a college or university accredited by an agency recognized by the United States Department of Education. Applicants who entered a program of study prior to July 1, 2010, must present with the application an official transcript verifying completion of a master's degree of 45 semester hours or the equivalent; or

31.5(2) Content-equivalent program. Applicants must present an official transcript verifying completion of a master's degree of 60 semester hours (or 80 quarter hours or equivalent) or a doctoral degree in marital and family therapy, behavioral science, or a counseling-related field from a college or university accredited by an agency recognized by the United States Department of Education, which is content-equivalent to a graduate degree in marital and family therapy. Applicants who entered a program of study prior to July 1, 2010, must present with the application an official transcript verifying completion of a master's degree of 45 semester hours or the equivalent. Graduates from non-COAMFTE-accredited marital and family therapy programs shall provide an equivalency evaluation of the graduates' educational credentials by the Center for Credentialing and Education, Inc. (CCE), website cce-global.org.

645—31.6(154D) Educational qualifications for mental health counselors. The applicant must complete three semester credit hours, or equivalent quarter hours, of graduate level coursework in each of the content areas identified in subrule 31.6(2); no course may be used to fulfill more than one content area. The applicant must present proof of completion of the following educational requirements for licensure as a mental health counselor:

31.6(1) Accredited program. Applicants must present with the application an official transcript verifying completion of a master's degree of 60 semester hours (or equivalent quarter hours) or a doctoral degree in counseling with emphasis in mental health counseling from a mental health counseling program accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) from a college or university accredited by an agency recognized by the United States Department of Education. Applicants who entered a program of study prior to July 1, 2012, must present with the application an official transcript verifying completion of a master's degree of 45 semester hours or the equivalent; or

31.6(2) Content-equivalent program. Applicants must present an official transcript verifying completion of a master's degree or a doctoral degree from a college or university accredited by an agency recognized by the United States Department of Education which is content-equivalent to a master's degree in counseling with emphasis in mental health counseling. Graduates from non-CACREP accredited mental health counseling programs shall provide an equivalency evaluation of their educational credentials by the Center for Credentialing and Education, Inc. (CCE), website cce-global.org.

31.6(3) *Foreign-trained marital and family therapists or mental health counselors.* Foreign-trained marital and family therapists or mental health counselors shall:

a. Provide an equivalency evaluation of their educational credentials by the following: International Educational Research Foundation, Inc., Credentials Evaluation Service, P.O. Box 3665, Culver City, CA 90231-3665; telephone (310)258-9451; website www.ierf.org or email at info@ierf.org. A candidate shall bear the expense of the curriculum evaluation.

b. Receive a final determination from the board regarding the application for licensure.

645—31.7(154D) Supervised clinical experience. An applicant for licensure as a mental health counselor or marital and family therapist must complete a supervised clinical experience as set forth in this rule.

31.7(1) *Minimum requirements.* The supervised clinical experience must satisfy all of the following requirements:

a. Timing. The supervised clinical experience cannot begin until after all graduate coursework has been completed with the exception of the thesis.

b. Duration. The supervised clinical experience must be for a minimum of two years.

c. Minimum number of hours. The supervised clinical experience must consist of at least 3,000 hours of practice.

d. Minimum number of direct client hours. The supervised clinical experience will consist of at least 1,500 hours of direct client contact.

e. Minimum number of direct supervision hours. The supervised clinical experience will consist of at least 110 hours of direct supervision equitably distributed throughout the supervised clinical experience, including at least 24 hours of live or recorded direct observation of client interaction. A maximum of 50 hours of direct supervision may be obtained through group supervision. Direct supervision can occur in person or by using videoconferencing. After 110 hours of direct supervision are complete, ongoing direct supervision will continue to occur for the remainder of the supervised clinical experience.

f. Number of supervisors. A supervisee may utilize a maximum of four supervisors at any given time. A supervisee is responsible for notifying each supervisor if another supervisor is also being utilized to allow for coordination as appropriate.

g. Number of supervisees. A supervisor will determine the number of supervisees who can be supervised safely and competently and will not exceed that number.

h. Content. The supervised clinical experience must involve performing psychosocial assessments, diagnostic practice using the current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM), and providing treatment, including the establishment of treatment goals, psychosocial therapy using evidence-based therapeutic modalities, and differential treatment planning. The supervised clinical experience will prepare the supervisee for independent practice and must include training on practice management, ethical standards, legal and regulatory requirements, documentation, coordination of care, and self-care.

31.7(2) *Eligible supervisors.* A supervisor must satisfy all of the following requirements:

a. Hold an active license as an independent level social worker, mental health counselor, or marital and family therapist in Iowa.

b. Have a minimum of three years of independent practice.

c. Have completed at least a six-hour continuing education course in supervision or one graduate-level course in supervision.

d. Must be knowledgeable of the applicable ethical code and licensing rules governing the supervisee.

Any request for a supervisor who does not meet these requirements must be approved by the board before supervision begins.

31.7(3) *Supervision plan.* Prior to beginning supervision, the supervisee will submit a written supervision plan to the board using the current form published by the board. The supervisee will also submit a written supervision plan to the board prior to beginning supervision with a new supervisor.

31.7(4) *Supervision report.* When supervision is complete, or when a supervisor ceases providing supervision to the supervisee, the supervisee will ensure a completed supervision report using the current form published by the board is submitted to the board. If the supervisor reports that the supervisee is not adequately prepared for independent licensure, or reports violations of the board's rules or applicable ethical code, the board may require the supervisee to complete additional supervision or training as deemed appropriate prior to licensure.

31.7(5) *Supervised clinical experience in other states.* An applicant who completed some or all of the supervised clinical experience in another state without obtaining licensure in that state should contact the board to determine whether some or all of the supervised clinical experience that has been completed can be used to qualify for licensure in Iowa.

31.7(6) *Grandfather clause.* Any new or additional requirements imposed by this rule do not apply to supervision that started prior to July 20, 2022.

645—31.8(154D) Licensure by endorsement for mental health counselors and marital and family therapists. An applicant who has been a licensed marriage and family therapist or mental health counselor under the laws of another jurisdiction may file an application for licensure by endorsement with the board office.

31.8(1) The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

- a. Meets the requirements of rule 645—31.2(154D); and
- b. Provides verification of license from the jurisdiction in which the applicant has been most recently licensed, sent directly from the jurisdiction(s) to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;
- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license.

31.8(2) In lieu of meeting the requirements of subrules 31.2(4) and 31.2(5), applicants who meet the qualifications below may instead submit documentation demonstrating how each of the qualifications below is satisfied:

- a. The applicant possesses a master's degree or higher in mental health counseling or marital and family therapy or an equivalent counseling-related field; and
- b. The applicant does not have any past or pending disciplinary action from any state licensing boards related to any mental health counseling or marital and family therapy license currently or previously held by the applicant.

31.8(3) A person who is licensed in another jurisdiction but who is unable to satisfy the requirements for licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

645—31.9(147) Licensure of behavior analysts and assistant behavior analysts.

31.9(1) The applicant must submit a completed application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.3(147,154D).

31.9(2) For licensure as a behavior analyst, the applicant shall submit proof of current BACB certification as a board-certified behavior analyst or board-certified behavior analyst-doctoral. For licensure as an assistant behavior analyst, the applicant shall submit proof of current BACB certification as a board-certified assistant behavior analyst.

645—31.10(147) License renewal for mental health counselors and marriage and family therapists.

31.10(1) The biennial license renewal period for a license to practice marital and family therapy or mental health counseling shall begin on October 1 of an even-numbered year and end on September 30 of

the next even-numbered year. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

31.10(2) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—32.2(272C). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the next renewal two years later.

31.10(3) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children in Iowa shall indicate on the renewal application completion of two hours of training in child abuse identification and reporting as required by Iowa Code section 232.69(3) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph "d."

b. A licensee who, in the course of employment, examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of two hours of training in dependent adult abuse identification and reporting as required by Iowa Code section 235B.16(5) "b" in the previous three years or condition(s) for waiver of this requirement as identified in paragraph "d."

c. The licensee shall maintain written documentation for five years after mandatory training as identified in paragraphs "a" and "b," including program date(s), content, duration, and proof of participation.

d. The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 645—Chapter 4.

e. The board may select licensees for audit of compliance with the requirements in paragraphs "a" to "d."

31.10(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

31.10(5) A person licensed to practice as a marital and family therapist or mental health counselor shall keep the person's license certificate and wallet card displayed in a conspicuous public place at the primary site of practice.

31.10(6) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the wallet card. The licensee shall be assessed a late fee as specified in 645—subrule 5.3(3). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

31.10(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice mental health counseling or marital and family therapy in Iowa until the license is reactivated. A licensee who practices mental health counseling or marital and family therapy in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

645—31.11(272C) Initial licensing, reactivation, and license renewal for behavior analysts and assistant behavior analysts.

31.11(1) An initial license for a behavior analyst or assistant behavior analyst shall be issued with the same expiration date as the applicant's current certification issued by BACB.

31.11(2) The biennial license renewal period for a behavior analyst or assistant behavior analyst shall run concurrent with the licensee's BACB certification. Each license renewed shall be given the expiration date that is on the licensee's current BACB certification. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive notice from the board does not relieve the licensee of the responsibility for renewing the license.

31.11(3) A licensee seeking renewal shall:

- a. Meet the continuing education requirements required by BACB to renew a certification.
- b. Maintain current certification as a board-certified behavior analyst, board-certified behavior analyst-doctoral, or board-certified assistant behavior analyst issued by BACB.
- c. Submit the completed renewal application and renewal fee before the license expiration date.

31.11(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

31.11(5) A person licensed as a behavior analyst or assistant behavior analyst shall keep the person's license certificate and renewal displayed in a conspicuous public place at the primary site of practice.

31.11(6) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.3(5). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

31.11(7) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not engage in the practice of applied behavior analysis for which a license is required in Iowa until the license is reactivated. A licensee who practices applied behavior analysis in a capacity that requires licensure in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

31.11(8) Reactivation. To apply for reactivation of an inactive license, a licensee shall submit a completed renewal application and proof of current certification and shall be assessed a reactivation fee as specified in 645—subrule 5.3(6).

645—31.12(147) Licensee record keeping.

31.12(1) A licensee shall maintain sufficient, timely, and accurate documentation in client records.

31.12(2) For purposes of this rule, "client" means the individual, couple, family, or group to whom a licensee provides direct clinical services.

31.12(3) A licensee's records shall reflect the services provided, facilitate the delivery of services, and ensure continuity of services in the future.

31.12(4) Clinical services. A licensee who provides clinical services in any employment setting, including private practice, shall:

a. Store records in accordance with state and federal statutes and regulations governing record retention and with the guidelines of the licensee's employer or agency, if applicable. If no other legal provisions govern record retention, a licensee shall store all client records for a minimum of seven years after the date of the client's discharge or death, or, in the case of a minor, for three years after the client reaches the age of majority under state law or seven years after the date of the client's discharge or death, whichever is longer.

b. Maintain timely records that include subjective and objective data, an assessment, a treatment plan, and any revisions to the assessment or plan made during the course of treatment.

c. Provide the client with reasonable access to records concerning the client. A licensee who is concerned that a client's access to the client's records could cause serious misunderstanding or harm to the client shall provide assistance in interpreting the records and consultation with the client regarding the records. A licensee may limit a client's access to the client's records, or portions of the records, only in exceptional circumstances when there is compelling evidence that such access would cause serious harm to the client. Both the client's request for access and the licensee's rationale for withholding some or all of a record shall be documented in the client's records.

d. Take steps to protect the confidentiality of other individuals identified or discussed in any records to which a client is provided access.

31.12(5) Electronic record keeping. The requirements of this rule apply to electronic records as well as to records kept by any other means. When electronic records are kept, the licensee shall ensure that a duplicate hard-copy record or a backup, unalterable electronic record is maintained.

31.12(6) *Correction of records.*

a. Hard-copy records. Original notations shall be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the original record, it must be crossed out with a single, nondeleting line and be initialed and dated by the licensee.

b. Electronic records. If a record is stored in an electronic format, the record may be amended with a signed addendum attached to the record.

31.12(7) Confidentiality and transfer of records. Marital and family therapists or mental health counselors shall preserve the confidentiality of client records in accordance with their respective rules of conduct and with federal and state law. Upon receipt of a written release or authorization signed by the client, the licensee shall furnish such therapy records, or copies of the records, as will be beneficial for the future treatment of that client. A fee may be charged for duplication of records, but a licensee may not refuse to transfer records for nonpayment of any fees. A written request may be required before transferring the record(s).

31.12(8) *Retirement, death or discontinuance of practice.*

a. If a licensee is retiring or discontinuing practice and is the owner of a practice, the licensee shall notify in writing all active clients and, upon knowledge and agreement of the clients, shall make reasonable arrangements with those clients to transfer client records, or copies of those records, to the succeeding licensee.

b. Upon a licensee's death:

(1) The licensee's employer or representative must ensure that all client records are transferred to another licensee or entity that is held to the same standards of confidentiality and agrees to act as custodian of the records.

(2) The licensee's employer or representative shall notify each active client that the client's records will be transferred to another licensee or entity that will retain custody of the records and that, at the client's written request, the records will be sent to the licensee or entity of the client's choice.

31.12(9) Nothing stated in this rule shall prohibit a licensee from conveying or transferring the licensee's client records to another licensed individual who is assuming a practice, provided that written notice is furnished to all clients.

645—31.13(17A,147,272C) **License reactivation for mental health counselors and marital and family therapists.** To apply for reactivation of an inactive license, a licensee shall:

31.13(1) Submit a reactivation application.

31.13(2) Pay the reactivation fee that is due as specified in 645—Chapter 5.

31.13(3) Provide:

a. Verification of license from the jurisdiction in which the applicant has been most recently licensed, sent directly from the jurisdiction(s) to the board office. The applicant must also disclose any public or pending complaints against the applicant in any other jurisdiction. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- (1) Licensee's name;
- (2) Date of initial licensure;

- (3) Current licensure status; and
- (4) Any disciplinary action taken against the license; and

b. Verification of a current active license in another jurisdiction at the time of application or verification of completion of continuing education taken within two years of the application. If the license has been inactive for less than five years, the applicant must submit verification of 40 hours of continuing education, and if the license has been inactive for more than five years, the applicant must submit verification of 80 hours of continuing education.

645—31.14(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—31.13(17A,147,272C) or subrule 31.11(8) prior to practicing mental health counseling, marital and family therapy, or applied behavior analysis in this state.

645—31.15(154D) Marital and family therapy and mental health counselor services subject to regulation. Marital and family therapy and mental health counselor services provided to an individual in this state through telephonic, electronic or other means, regardless of the location of the marital and family therapy and mental health counselor, shall constitute the practice of marital and family therapy and mental health counseling and shall be subject to regulation in Iowa.

645—31.16(154D) Temporary licensees. A temporary licensee shall engage only in the practice of marital and family therapy or mental health counseling as part of an agency or group practice with oversight over the temporary licensee. The agency or group practice shall have at least one independently licensed mental health provider. A temporary licensee shall not practice as a solo practitioner or solely with other temporary licensees.

These rules are intended to implement Iowa Code chapters 17A, 147, 154D and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 32
“Continuing Education for Marital and Family Therapists and Mental Health Counselors”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 154D, 147, 272C, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 154D, 147, 272C, and 17A

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
9:40 to 10 a.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:

Des Moines, Iowa 50321
Phone: 515.281.4401
Email: tony.alden@dia.iowa.gov

Purpose and Summary

This rulemaking sets forth continuing education requirements for mental health counselors and marital and family therapists. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rule, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that mental health counselors and marital and family therapists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses, so the Board of Behavioral Science is not privy to exact costs. Licensees have multiple options. Courses can range anywhere from \$100 per hour to \$0 per hour. The Board allows for online coursework, which increases the availability of free or low-cost options.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that mental health counselors and marital and family therapists maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry, including educational institutions, professional associations, and businesses, offers these courses, so the Board is not privy to exact costs. Courses can range anywhere from \$100 per hour to \$0 per hour. The Board allows for online coursework, which increases the availability of free or low-cost options. The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures that licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.35 full-time equivalent (FTE) position, which includes questions from the public and licensees such as practice standards, continuing education, board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities which provide continuing education opportunities, not the State. There is not an anticipated impact on this rulemaking to state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board has not recommended a reduction in hours.

The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Less restrictive alternatives would be to reduce the amount of continuing education required. A review of surrounding states has shown that Iowa is in line with neighboring jurisdictions. Iowa requires 40 hours of continuing education every two years. Illinois and Kansas require 30 hours;

Nebraska requires 32 hours; and Minnesota, Missouri, and South Dakota require 40 hours. Staff held conversations with Board members inquiring if the Board would recommend lowering the continuing education requirements. The Board did not recommend a change in continuing education hours.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board has considered a change of the total continuing education hours, considering the frequency and the safety of the public. While the Board is not inclined at this time to make changes, it will consider evidence-based practice and data for future review.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Mental health counselors and marriage and family therapists practice in a number of settings including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. While some licensees are likely running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Conversely, the entities that provide continuing education may experience a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 32 and adopt the following **new** chapter in lieu thereof:

CHAPTER 32 CONTINUING EDUCATION FOR MARITAL AND FAMILY THERAPISTS AND MENTAL HEALTH COUNSELORS

645—32.1(272C) Definitions. For the purpose of these rules, the following definitions will apply:

“Active license” means the license is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of behavioral science.

“*Continuing education*” means planned, organized learning acts designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Independent study*” means a continuing education program or activity that a licensee pursues autonomously that includes a posttest and meets the general criteria in subrule 32.3(1).

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice marital and family therapy or mental health counseling in the state of Iowa.

645—32.2(272C) Continuing education requirements.

32.2(1) The biennial continuing education compliance period shall extend for a 25-month period beginning on September 1 of the even-numbered year and ending on September 30 of the next even-numbered year. Each biennium, each person who is licensed to practice as a licensee in this state is required to complete a minimum of 40 hours of continuing education approved by the board.

32.2(2) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired any time from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 40 hours of continuing education per biennium for each subsequent license renewal.

32.2(3) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

32.2(4) No hours of continuing education will be carried over into the next biennium except as stated for the second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

32.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—32.3(154D,272C) Standards.

32.3(1) General criteria. A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters.
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program contact hours; and

(3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

32.3(2) Specific criteria. Continuing education hours of credit may be obtained by completing the following:

a. Attendance at workshops, conferences, symposiums and webinars.
b. Academic courses. Official transcripts indicating successful completion of academic courses which apply to the field of mental health counseling or marital and family therapy, as appropriate, will be necessary in order to receive the following continuing education credits:

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

c. Completion of independent study courses that meet the general criteria in subrule 32.3(1).
d. A maximum of 20 hours of continuing education credit may be granted for any of the following activities not to exceed a combined total of 20 hours:

(1) Presenting professional programs which meet the criteria in rule 645—32.3(272C). Two hours of credit will be awarded for each hour of presentation. A course schedule or brochure must be maintained for audit. Presentation at a professional program does not include teaching class at an institution of higher learning at which the applicant is regularly and primarily employed. Presentations to lay public are excluded.

(2) Scholarly research or other activities, the results of which are published in a recognized professional publication such as a refereed journal, monograph or conference proceedings. The scholarly research must be integrally related to the practice of the professions.

(3) Publication in a refereed journal. The article in a refereed journal for which the licensee is seeking continuing education credit must be integrally related to the practice of the professions.

(4) Teaching in an approved college, university, or graduate school. The licensee may receive credit on a one-time basis for the first offering of the course.

(5) Authoring papers, publications, and books. The licensee will receive five hours of credit per page with a maximum of 20 hours of credit.

(6) Serving on a state or national professional board. The licensee will receive a maximum of three hours of credit.

32.3(3) Required specific criteria:

a. Three hours of the 40 continuing education hours will be in ethics.
b. Effective with the biennial continuing education compliance period that begins October 1, 2022, persons serving in a supervisory role must complete three hours of continuing education in supervision.

c. Effective July 1, 2019, a licensee who regularly examines, attends, counsels or treats adults in Iowa shall complete, within six months of employment or prior to the expiration of a current certification, an initial two-hour course in dependent adult abuse training for mandatory reporters offered by the department of health and human services. Thereafter, all mandatory reporters shall take a one-hour recertification training every three years, prior to the expiration of a current certification.

d. Effective July 1, 2019, a licensee who regularly examines, attends, counsels or treats children in Iowa shall complete, within six months of employment or prior to the expiration of a current certification, an initial two-hour course in child abuse training for mandatory reporters offered by the department of health and human services. Thereafter, all mandatory reporters shall take a one-hour recertification training every three years, prior to the expiration of a current certification.

These rules are intended to implement Iowa Code section 272C.2 and chapter 154D.

Purpose and Summary

This rulemaking provides protection to Iowans because it publicly defines disciplinary options when a mental health counselor, marital and family therapist, behavior analyst, or assistant behavior analyst fails to provide the standard of care. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the State of Iowa. When professional standards are not met, a licensee can be subject to discipline against a license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The board has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the Board of Behavioral Science and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are undoubtedly associated with costs to the licensed professional. This chapter is related to standard of care, so there would be a cost to the practitioner in taking the needed time to review prevailing standards of care in medical journals, etc. The Board is unable to assess a cost related to this specific requirement.

Licensees may also be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fines are capped at \$1,000.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.35 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees such as practice standards, continuing education, board meeting administration, etc. The Board receives a number of complaints each year. In 2021 the Board received 55 complaints, and in 2022 it received 50. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rule is to ensure public safety and maintain a high level of care for Iowans. The Board receives a number of complaints each year and regularly issues discipline. In 2021 the Board received 55 complaints, and in 2022 it received 50. The Board initiated 11 public disciplinary actions during that two-year period. The Board has approximately 3,200 active licensees.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be an increase in the potential for injury to the public and leaving the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.35 FTE position.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, no civil penalties were paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board receives a number of complaints each year. In 2021 the Board received 55 complaints, and in 2022 it received 50. The Board initiated 11 public disciplinary actions during that two-year period. Licensees routinely provide mental health services to Iowans. Licensees who fail to meet practice standards have the potential to inflict serious harm to vulnerable Iowans who receive their services, so the Board believes that regulation is necessary.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative for public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the mental health counselor, marital and family therapist, behavior analyst, or assistant behavior analyst professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important to ensure Iowans receive services from competent practitioners.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns, which are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of practice standards for mental health counselors, marital and family therapists, behavior analysts, or assistant behavior analysts. While some mental health counselors, marital and family therapists, behavior analysts, or assistant behavior analysts are likely running a small business of their own, some also work for large organizations, such as hospital systems. To exempt small businesses from adhering

to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 33 and adopt the following **new** chapter in lieu thereof:

CHAPTER 33
DISCIPLINE FOR MARITAL AND FAMILY THERAPISTS,
MENTAL HEALTH COUNSELORS, BEHAVIOR ANALYSTS,
AND ASSISTANT BEHAVIOR ANALYSTS

645—33.1(154D,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—33.3(147,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in rule 645—Chapter 13:

33.1(1) Failure to comply with the national association's code of ethics.

a. Marital and family therapists. Failure to comply with the current American Association for Marriage and Family Therapy (AAMFT) Code of Ethics, which is hereby adopted by reference. Copies of the Code of Ethics may be obtained from the AAMFT's website.

b. Mental health counselors. Failure to comply with the current Code of Ethics of the American Counseling Association (ACA), which is hereby adopted by reference. Copies of the Code of Ethics may be obtained from the ACA website.

c. Behavior analysts and assistant behavior analysts. Failure to comply with the current Behavior Analyst Certification Board (BACB) Professional and Ethical Compliance Code for Behavior Analysts, which is hereby adopted by reference. Copies of the Professional and Ethical Compliance Code may be obtained from the BACB website.

33.1(2) Sexual relationships.

a. Current clients. A licensee shall not engage in sexual activities or sexual contact with a client, regardless of whether such contact is consensual or nonconsensual.

b. Former clients. A licensee shall not engage in sexual activities or sexual contact with a former client within the five years following termination of the client relationship. A licensee shall not engage in sexual activities or sexual contact with a former client, regardless of the length of time elapsed since termination of the client relationship, if the client has a history of physical, emotional, or sexual abuse or if the client has ever been diagnosed with any form of psychosis or personality disorder or if the client is likely to remain in need of therapy due to the intensity or chronicity of a problem.

c. A licensee shall not engage in sexual activities or sexual contact with a client's or former client's spouse or significant other.

d. A licensee shall not engage in sexual activities or sexual contact with a client's or former client's relative within the second degree of consanguinity (client's parent, grandparent, child, grandchild, or sibling) when there is a risk of exploitation or potential harm to a client or former client.

e. A licensee shall not provide clinical services to an individual with whom the licensee has had prior sexual contact.

33.1(3) Physical contact. A licensee shall not engage in physical contact with a client when there is a possibility of psychological harm to the client as a result of the contact. A licensee who engages in appropriate physical contact with a client is responsible for setting clear, appropriate, and culturally and age-sensitive boundaries which govern such contact.

This rule is intended to implement Iowa Code chapters 17A, 147, 154D and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 41
“Licensure of Chiropractic Physicians”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 151, 147 and 272C
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 151

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:30 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

These proposed rules establish minimum standards for obtaining licensure as a chiropractor. Iowa residents, licensees, and employers benefit from the rule as it articulates the processes by which individuals apply for licensure, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the practice has minimum competency. Requirements include the application process, minimum educational qualifications and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the minimum requirements to enter the profession. All states, at a minimum, require applicants to complete a doctor of chiropractic degree program from an accredited college. The national examination proctored

by the National Board of Chiropractic Examiners consists of passing four parts and costs the applicant \$2,580. The application fee is \$120 for a biannual license.

Licensure costs run slightly below surrounding states with the national exam fee remaining consistent. In Nebraska, applicants must pay an application fee of \$144; in Minnesota, applicants must pay an application fee of \$250.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. All 50 states and the District of Columbia have established minimum licensing requirements to ensure that practitioners are competent to practice. Without an established threshold to enter the profession, the health, welfare, and safety of the public would be at risk.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Accredited educational institutions provide the academic training for chiropractors to obtain licensure in the state of Iowa. Additional private industries and educational institutions provide examinations and materials to prepare for the exam.

Because the cost of education is so variable depending on the institution the person attends, the Board of Chiropractic is unable to put an exact cost on the cost of education or exam preparation. Licensing fees are \$120 for an initial license and \$120 for each renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing applications for initial licenses, renewals and reinstatements. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. There is no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. Since 2021, there were 52 complaints filed. The Board believes that the benefits achieved justify the costs because the rules provide required guardrails for providing high-quality patient care to Iowans. These regulations help to ensure chiropractors understand their obligations to safely manage and treat patients within their scope of practice. Costs to licensees in the state of Iowa are similar to those of surrounding states.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of chiropractors. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is

provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario. Doing so would also place Iowa out of line with the rest of the country. The regulation and licensure of chiropractors is consistent across the country.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. These rule revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the licensure of chiropractors. The Board believes all current requirements ensure public safety and a minimum competency of care afforded to Iowans. Licensure requirements could be reduced but would implicate a lower standard of care for Iowans. Additionally, the rules provide consistency related to the licensure of optometrists in other states, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of chiropractors. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the rulemaking provides consistency related to the licensure of chiropractors in other states, which makes obtaining licensure in multiple states simpler for applicants.

DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These rule revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns which are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for chiropractors. While some chiropractors may be self-employed in a private clinic, others may work in a hospital setting. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small businesses.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 41 and adopt the following **new** chapter in lieu thereof:

CHIROPRACTIC

| | |
|------------|--|
| CHAPTER 41 | LICENSURE OF CHIROPRACTIC PHYSICIANS |
| CHAPTER 42 | COLLEGES FOR CHIROPRACTIC PHYSICIANS |
| CHAPTER 43 | PRACTICE OF CHIROPRACTIC PHYSICIANS |
| CHAPTER 44 | CONTINUING EDUCATION FOR CHIROPRACTIC PHYSICIANS |
| CHAPTER 45 | DISCIPLINE FOR CHIROPRACTIC PHYSICIANS |

CHAPTER 41
LICENSURE OF CHIROPRACTIC PHYSICIANS

645—41.1(151) Definitions. The following definitions will be applicable to the rules of the Iowa board of chiropractic:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the Iowa board of chiropractic.

“*Council on Chiropractic Education*” or “*CCE*” means the organization that establishes the Educational Standards of Chiropractic Colleges and Bylaws.

“*Department*” means the Iowa Department of Inspections, Appeals, and Licensing.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*License*” means license to practice chiropractic in Iowa.

“*Licensee*” means any person licensed to practice as a chiropractic physician in Iowa.

“*License expiration date*” means June 30 of even-numbered years.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice chiropractic to an applicant who is or has been licensed in another state and meets the criteria for licensure in this state.

“*NBCE*” means the National Board of Chiropractic Examiners.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—41.14(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

“*SPEC*” means Special Purposes Examination for Chiropractic, which is an examination provided by the NBCE that is designed specifically for utilization by state or foreign licensing agencies.

645—41.2(151) Initial licensure.

41.2(1) To apply for a license, the applicant will complete an online application packet and pay the nonrefundable application fee.

a. If licensed in another jurisdiction, the applicant will complete the licensure by endorsement application and submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed.

b. A person who is licensed in another jurisdiction and cannot satisfy the requirements of licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

c. An application not completed according to guidelines will not be reviewed by the board.

d. The applicant will request the accredited chiropractic school submit official copies of the applicant's transcripts to the board office.

e. The applicant will submit an official certificate of completion of 120 hours of physiotherapy that includes a practicum component from a board-approved chiropractic college.

f. The applicant will pass all parts of the NBCE examination as outlined in rule 645—41.3(151).

g. The applicant will submit a copy of the chiropractic diploma.

41.2(2) Licensees who were issued their licenses within six months prior to the renewal date are not required to renew their licenses until the renewal date two years later.

41.2(3) Incomplete applications that have been on file in the board office for more than two years will be:

a. Considered invalid and destroyed; or

b. Maintained upon written request from the candidate.

41.2(4) A license will be publicly displayed in the licensee's primary place of practice.

41.2(5) Licensees are required to notify the board of chiropractic of changes in residence or place of practice within 30 days after the change of address occurs.

645—41.3(151) Examination requirements.

41.3(1) Applicants will submit the application for the NBCE examination and the fee directly to the NBCE.

41.3(2) The following criteria will apply for the NBCE:

a. Prior to July 1, 1973, applicants will provide proof of being issued a basic science certificate.

b. After July 1, 1973, applicants will provide proof of successful completion of the required examination from the NBCE. The required examination will meet the following criteria:

(1) Examinations completed after July 1, 1973, will be defined as the successful completion of Parts I and II of the NBCE examination.

(2) Examinations completed after August 1, 1976, will be defined as the successful completion of Parts I, II and Physiotherapy of the NBCE examination.

(3) Examinations completed after January 1, 1987, will be defined as the successful completion of Parts I, II, III and Physiotherapy of the NBCE examination.

(4) Examinations completed after January 1, 1996, will be defined as satisfactory completion of Parts I, II, III, IV and Physiotherapy of the NBCE examination.

645—41.4(151) Educational qualifications.

41.4(1) An applicant will present an official transcript verifying graduation from a CCE-accredited and board-approved college of chiropractic.

41.4(2) Foreign-trained chiropractic physicians will:

a. Provide an equivalency evaluation of their educational credentials processed by the International Education Research Foundation, Inc. The professional curriculum must be equivalent to that stated in these rules. The candidate will bear the expense of the curriculum evaluation.

b. Provide a copy of the certificate or diploma awarded to the applicant from a chiropractic program in the country in which the applicant was educated.

c. Receive a final determination from the board regarding the application for licensure.

645—41.5(151) Temporary certificate.

41.5(1) The board may issue a temporary certificate to practice chiropractic at its discretion if the issuance is in the public interest and the applicant demonstrates a need for the temporary certificate and meets the professional qualifications for licensure.

41.5(2) Demonstrated need. An applicant must submit information explaining the demonstrated need, how the issuance would serve the public interest, the scope of practice requested, and why a temporary certificate should be granted. To meet the demonstrated need requirement, the applicant will show the need meets one of the following conditions:

- a.* The applicant will provide chiropractic services in connection with a special activity, event or program conducted in this state;
- b.* The applicant will provide chiropractic services in connection with a state emergency as proclaimed by the governor;
- c.* The applicant previously held an unrestricted license to practice chiropractic in this state and will provide gratuitous chiropractic services as a voluntary public service; or
- d.* The applicant will provide chiropractic services in connection with an urgent need.

41.5(3) Qualifications for licensure include the following:

- a.* Complete an online application packet on the Iowa Board of Chiropractic website and pay the nonrefundable application fee.
- b.* If licensed in another jurisdiction, submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed.
- c.* Provide a copy of a chiropractic diploma.

41.5(4) A temporary certificate will be issued for one year to fulfill the demonstrated need as described in subrule 41.5(2).

41.5(5) An applicant or temporary certificate holder who has been denied a temporary certificate may appeal the denial pursuant to rule 645—4.10(17A,147,272C). A temporary certificate holder is subject to discipline for any grounds for which licensee discipline may be imposed.

41.5(6) A temporary certificate holder who meets all licensure conditions as specified in rule 645—41.2(151) may obtain a permanent license in lieu of the temporary certificate. To obtain a permanent license, the applicant will submit any additional documentation required for permanent licensure that was not submitted as a part of the temporary certificate application. The applicant may receive fee credit toward the permanent licensure fee equivalent to the fee paid for the temporary certificate if the application for the permanent license and all required documentation are received by the board prior to the expiration of the temporary certificate.

645—41.6(151) License renewal.

41.6(1) The license renewal period for a license to practice begins on July 1 of an even numbered year and ends on June 30 of the next even numbered year.

41.6(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

41.6(3) A licensee applying for renewal will:

- a.* Meet the continuing education requirements of rule 645—44.2(272C) and the mandatory reporting requirements of subrule 41.8(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

- b.* Complete the online renewal application, pay the fee, and attach certificate of completing continuing education hours on the Iowa board of chiropractic website before the expiration date.

41.6(4) Mandatory reporter training requirements.

- a.* A licensee who examines, attends, counsels, or treats children, dependent adults or both in the scope of the licensee's professional practice will complete the applicable department of health and human services training for identifying and reporting child abuse, dependent adult abuse or both. A licensee will maintain written documentation of training completion for three years. The training is not required if the licensee is engaged in active duty military service or holds a waiver from the board demonstrating a hardship in complying with these training requirements.

- b.* The board may select licensees for audit of compliance with the requirements in paragraph 41.8(4) "a."

41.6(5) A two-year license will be issued after the requirements of rule are met. If the board receives adverse information on the renewal application, the board may refer the adverse information for further consideration or disciplinary investigation.

41.6(6) Late renewal. The licensee is responsible for renewing the license prior to expiration every two years. The licensee will complete the renewal requirements and pay the late fee within the 30-day grace period.

41.6(7) Inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice until the license is reactivated.

645—41.7(17A,147,272C) Requirements for reactivation. To apply for reactivation, a licensee will:

41.7(1) Complete an online reactivation application on the Iowa board of chiropractic website and pay the nonrefundable reactivation fee.

41.7(2) Provide verification of current competence to practice as a chiropractic physician by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification. If licensed in another jurisdiction, submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed.

(2) Proof. Submit proof of completing 40 hours of continuing education within two years of application.

b. If the license has been on inactive status for more than five years, an applicant must:

(1) Send verification. Submit a license verification document that discloses if disciplinary action was taken against the applicant from every jurisdiction in which the applicant has been licensed.

(2) Submit proof of completing 40 hours of continuing education within two years of application.

(3) Send verification of passing the SPEC if the applicant does not have a current license and has not had an active license in the United States during three of the past five years.

645—41.8(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive board-approved reinstatement of the license and must apply for and be granted reactivation prior to practicing in the state.

These rules are intended to implement Iowa Code chapters 17A, 147, 151 and 272C.

Purpose and Summary

This proposed rulemaking is intended to establish requirements for chiropractic colleges that meet accreditation standards by the U.S. Department of Education and to support an internship program that allows students to be mentored by a licensed chiropractor.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the minimum requirements to enter the profession. All states, at a minimum, require applicants to complete a doctorate of chiropractic degree program from an accredited college. The national examination proctored by the National Board of Chiropractic Examiners consists of passing four parts and costs the applicant \$2,580. The application fee is \$120 for a biannual license.

Licensure costs run slightly below surrounding states, with the national examination fee remaining consistent. In Nebraska, applicants must pay an application fee of \$144; in Minnesota, applicants must pay an application fee of \$250.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could cause serious harm to the public during their practice. Chiropractors are medical providers who require certain skills and training to effectively help and treat their patients.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

There is no direct cost to the general public, but there is a cost to the applicant to comply with the minimum requirements to enter the profession. All states, at a minimum, require applicants to complete a doctorate of chiropractic degree program from an accredited college. The national examination proctored by the National Board of Chiropractic Examiners consists of passing four parts and costs the applicant \$2,580. The application fee is \$120 for a biannual license.

Licensure costs run slightly below surrounding states with the national exam fee remaining consistent. In Nebraska, applicants must pay an application fee of \$144; in Minnesota, applicants must pay an application fee of \$250.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. This proposed chapter further articulates the clear expectations to ensure consistency in the educational program and offers students the opportunity to have hands-on experience under the supervision of a licensed chiropractor while being gainfully employed. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on this rule to state revenues.

Staff salaries to support the work of the Board of Chiropractic (Board) are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. By integrating students into the Iowa workforce, students gain competencies and incorporate into the workforce. The Iowa chiropractic schools and internship program contribute to the growth of the profession. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of chiropractors in other states, which makes obtaining licensure in multiple states simpler for applicants.

The costs to licensees in the state of Iowa are similar to those of surrounding states. The surrounding states all require similar licensing procedures for chiropractors.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of chiropractors. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of chiropractors in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this board is now part of the Department of Inspections, Appeals, and Licensing. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These proposed rule revisions support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board does not believe there is a less restrictive means of ensuring proper training for chiropractic students. The current model relies on trusted, national accrediting entities to complete a comprehensive evaluation of training programs, while allowing the Board the discretion to independently evaluate factors that may be of concern with an individual program. This model ensures appropriate oversight to protect against insufficient or potentially fraudulent training programs that could place the health and safety of Iowans at risk. According to the statistics from the Federation of Chiropractic Licensing Boards, most states offer chiropractic internship programs under a licensed chiropractor.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the licensure of chiropractors. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. In addition, the proposed rules provide consistency related to the licensure of chiropractors in other states, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment this board is now part of the Department of Inspections, Appeals, and Licensing. DIAL—Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize Board processes across all professional licensing boards. These revisions support this effort. The Department is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rules are meant to ensure public safety in terms of licensing requirements for chiropractors. While some chiropractors likely are running a small business of their own, some also work for large corporations and hospitals. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 42 and adopt the following **new** chapter in lieu thereof:

CHAPTER 42
COLLEGES FOR CHIROPRACTIC PHYSICIANS

645—42.1(151) Definitions. For the purposes of these rules, the following definitions will apply:

“Chiropractic intern” means a chiropractic student of an approved college of chiropractic in the student’s last academic quarter, semester, or trimester of study, who is eligible for graduation from the college of chiropractic and is eligible to complete a preceptorship program, as authorized by these rules.

“Chiropractic preceptor” means a chiropractic physician licensed and practicing in Iowa pursuant to Iowa Code chapter 151, who accepts a chiropractic intern or resident into the practice for the purpose of providing the chiropractic student with a clinical experience of the practice of chiropractic, and who meets the requirements of these rules.

“Chiropractic resident” means a graduate chiropractic physician who has received a doctor of chiropractic degree from a college of chiropractic approved by the board, and who is not licensed in any state, but who is practicing under a chiropractic preceptorship authorized under these rules.

“Chiropractic student” means a student of an approved college of chiropractic.

“Council on Chiropractic Education” or *“CCE”* means the organization that establishes the Educational Standards of Chiropractic Colleges and Bylaws. A copy of the standards may be requested from the Council on Chiropractic Education (CCE).

“Preceptorship practice” means the chiropractic practice of a single chiropractic physician or group of chiropractic physicians in a particular business or clinic, into which a licensed practicing chiropractic physician has accepted a chiropractic intern or chiropractic resident for the limited purpose of providing the intern or resident with a clinical experience in the practice of chiropractic.

“60-minute hour” means at least 50 minutes of resident attendance with no more than 10 minutes for note taking and breaks.

645—42.2(151) Board-approved chiropractic colleges. Approval of a chiropractic college may be granted if the program submits proof to the board of chiropractic that the chiropractic program meets the following requirements:

42.2(1) The chiropractic college is fully accredited by the Commission on Accreditation of the Council on Chiropractic Education (CACCE), as recognized by the U.S. Department of Education.

42.2(2) The core curriculum meets the requirements of the CACCE standards and, in addition:

a. Covers a period of four academic years totaling not less than 4,000 60-minute hours in actual resident attendance;

b. Comprises a supervised course of study, including clinical practical instruction, in all of the subjects specified in Iowa Code section 151.1(3); and

c. Includes a minimum of 120 hours of physiotherapy coursework with a clinical practical component on the procedures covered in the course.

42.2(3) The chiropractic college publishes in a regularly issued catalog the requirements for graduation and degrees that are required by the Iowa board of chiropractic.

42.2(4) Transcripts include entries for all completed coursework.

645—42.3(151) Practice by chiropractic interns and chiropractic residents. A student enrolled in a board-approved chiropractic preceptorship program in the state of Iowa may treat patients without obtaining an Iowa license, provided the requirements of these rules are met.

645—42.4(151) Approved chiropractic preceptorship program. The board will approve a chiropractic college’s preceptorship program if the program meets the following requirements:

42.4(1) The preceptorship program meets current CCE standards for consumer protection.

42.4(2) The preceptorship program is an established component of the curriculum offered by a board-approved chiropractic college.

42.4(3) Chiropractic interns who participate in the preceptorship program have met all requirements for graduation from the chiropractic college except for completion of the preceptorship period.

42.4(4) Chiropractic residents who participate in the postgraduate preceptorship program have graduated from a chiropractic college approved by the board.

42.4(5) All chiropractic physicians who serve as preceptors will be approved under rule 645—42.5(151).

42.4(6) The chiropractic college retains ultimate responsibility for student learning and evaluations during the preceptorship.

42.4(7) The chiropractic preceptor will supervise no more than one chiropractic intern or one chiropractic resident for the duration of a given preceptorship period.

42.4(8) If a preceptor agreement must be canceled for any reason, it is the responsibility of the chiropractic college to assign the intern or resident to another preceptor and notify the Iowa board of chiropractic of the preceptorship cancellation. The notice shall include reasons for cancellation of the preceptorship.

645—42.5(151) Approved chiropractic physician preceptors.

42.5(1) A chiropractic physician will be approved to be a chiropractic physician preceptor if the following criteria are met:

a. The chiropractic physician holds a current Iowa chiropractic license and has continuously held licensure in the United States for the previous five years prior to preceptorship;

b. The chiropractic physician is currently fully credentialed by the sponsoring chiropractic college and approved by the board; and

c. The chiropractic physician has not had any formal disciplinary action.

42.5(2) The role of the chiropractic physician preceptor will include:

a. Responsibility for supervising the practice of the chiropractic intern or chiropractic resident who is accepted into a preceptorship practice.

b. Identifying the chiropractic intern or chiropractic resident to the patients of the preceptorship practice to ensure that no patient will misconstrue the status of the intern or resident. The intern or resident will wear a badge identifying that person as an intern or resident at all times in the presence of preceptorship patients.

c. Exercising direct, on-premises supervision of the chiropractic intern or chiropractic resident at all times that the intern or resident is engaged in any facet of patient care in the chiropractic physician preceptor's clinic.

d. Directing the chiropractic intern or chiropractic resident only in treatment care that is within the educational background and experience of the preceptor.

e. Notifying the preceptorship program within 30 days of either of the following actions:

(1) If the preceptor has any formal disciplinary action taken by any licensing entity; or

(2) If the preceptor is a party to any malpractice settlement or judgment.

645—42.6(151) Termination of preceptorship. A preceptorship may terminate upon the occurrence of one of the following events:

42.6(1) Interns. The intern graduates from a board-approved college of chiropractic.

42.6(2) Residents. Twelve months have passed since the resident graduated from a board-approved college of chiropractic.

42.6(3) Formal disciplinary action is taken against the preceptor or the preceptor is a party to a final malpractice judgment or settlement agreement.

These rules are intended to implement Iowa Code chapter 151.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 43
“Practice of Chiropractic Physicians”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 151, 147, 272C, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 151

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:30 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: (US) + 1 402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

These proposed rules articulate the medical scope of practice that a chiropractor can provide. They provide Iowans, licensees, and their employers with more information on the accepted minimum standards for the practice of this profession in Iowa.

Costs to the Department include the staff time needed to manage the full scope of the Board of Chiropractic (Board) activities, which includes oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.37 of an FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

The general public and licensees benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

Costs to the Department include the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, and administration of board meetings. An executive officer supports the work of this Board at approximately 0.37 of an FTE position. Staff salaries to support the work of the Board are covered by the Licensing

and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from these proposed rules. The rules provide standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing it is receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes that the costs justify the benefits achieved in order to regulate the chiropractic profession in accordance with Iowa Code. Since 2021, 52 complaints have been filed. Absent these rules, lower-skilled individuals could provide chiropractic services in Iowa, and the Board anticipates there would be an increase in the number of complaints from the public.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. If this profession were not regulated, it could mean an individual who does not meet the educational and licensure requirements could engage in providing chiropractic services and potentially cause injury to a consumer.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the Department include the staff time needed to manage the full scope of Board activities, which includes oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.37 of an FTE position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing board.

- Anticipated effect on state revenues:

There is no anticipated impact to state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There are currently 1,959 licensed chiropractors. If this profession were not regulated, it could mean that lower-skilled individuals would provide this service to Iowans, which could be a public safety concern due to the scope of practice of a chiropractor. Doctors of chiropractic are regulated in all 50 states plus the District of Columbia and many U.S. territories.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board determined there is no other less costly or less intrusive method to regulate the profession. Costs to sustain practice requirements are justified by the safety and welfare of the patients.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified any alternative methods to the licensure of chiropractors. Doctors of chiropractic are licensed and regulated in all 50 states plus the District of Columbia and many U.S. territories. These proposed rules provide consistency related to the licensure of chiropractors.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes that to ensure public safety and the integrity of the profession, licensure requirements should stay in effect. Currently, all 50 states regulate chiropractors. Not regulating this profession could jeopardize public safety and lead to serious injury for consumers. The Board believes regulations are necessary and critical to ensuring public safety, which is the paramount concern.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rules relate to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rules are meant to ensure public safety in terms of practice standards for chiropractors. While some licensees could be running a small business, some also work for large hospitals and clinics. To exempt a small business from adhering to these rules would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 43 and adopt the following **new** chapter in lieu thereof:

CHAPTER 43 PRACTICE OF CHIROPRACTIC PHYSICIANS

645—43.1(151) Definitions. The following definitions will be applicable to the rules of the Iowa board of chiropractic.

“Active chiropractic physiotherapy” means therapeutic treatment performed by the patient, including but not limited to exercises and functional activities that promote strength, endurance, flexibility, and coordination.

“Acupuncture” means the same as defined in Iowa Code section 148E.1.

“Adjustment/manipulation of neuromusculoskeletal structures” means the use by a doctor of chiropractic of a skillful treatment based upon differential diagnosis of neuromusculoskeletal structures and procedures related thereto by the use of passive movements with the chiropractic physician's hands or instruments in a manipulation of a joint by thrust so the patient's volitional resistance cannot prevent the motion. The manipulation is directed toward the goal of restoring joints to their proper physiological relationship of motion and related function, or stimulation of joint receptors. Movement of the joint is by force beyond its active limit of motion, but within physiologic integrity. Adjustment or manipulation commences where mobilization ends and specifically begins when the elastic barrier of resistance is encountered by the doctor of chiropractic and ends at the limit of anatomical integrity. Adjustment or manipulation as described in this definition is directed to the goal of the restoration of joints to their

proper physiological relationship and associated functions of motion and related function, release of adhesions or stimulation of joint receptors. Adjustment or manipulation as described in this definition is by hand or instrument. The primary emphasis of this adjustment or manipulation is upon specific joint element adjustment or manipulation and treatment of the articulation and adjacent tissues of the neuromusculoskeletal structures of the body and nervous system, using one or more of the following:

1. Impulse adjusting or the use of sudden, high velocity, short amplitude thrust of a nature that patient volitional resistance is overcome, commencing where the motion encounters the elastic barrier of resistance and ending at the limit of anatomical integrity.

2. Instrument adjusting, utilizing instruments specifically designed to deliver sudden, high velocity, short amplitude thrust.

3. Light force adjusting, utilizing sustained joint traction or applied directional pressure, or both, which may be combined with passive motion to restore joint mobility.

4. Long distance lever adjusting, utilizing forces delivered at some distance from the dysfunctional site and aimed at transmission through connected structures to accomplish joint mobility.

“*Anatomic barrier*” means the limit of motion imposed by anatomic structure, the limit of passive motion.

“*CCCA*” means the Certified Chiropractic Clinical Assistant program offered by the FCLB.

“*Certified chiropractic assistant*” means a person who has completed a certified chiropractic assistant training program to perform selected chiropractic health care services under the supervision of a chiropractic physician.

“*Chiropractic insurance consultant*” means an Iowa-licensed chiropractic physician registered with the board who serves as a liaison and advisor to an insurance company.

“*Chiropractic manipulation*” means care of an articular dysfunction or neuromusculoskeletal disorder by manual or mechanical adjustment of any skeletal articulation and contiguous articulations.

“*Differential diagnosis*” means to examine the body systems and structures of a human subject to determine the source, nature, kind or extent of a disease, vertebral subluxation, neuromusculoskeletal disorder or other physical condition, and to make a determination of the source, nature, kind, or extent of a disease or other physical condition.

“*Elastic barrier*” means the range between the physiologic and anatomic barrier of motion in which passive ligamentous stretching occurs before tissue disruption.

“*Extremity manipulation*” means a corrective thrust or maneuver by a doctor of chiropractic by hand or instrument based upon differential diagnosis of neuromusculoskeletal structures applied to a joint of the appendicular skeleton.

“*FCLB*” means the Federal Chiropractic Licensing Board.

“*Malpractice*” means any error or omission, unreasonable lack of skill, or failure to maintain a reasonable standard of care by a chiropractic physician in the practice of the profession.

“*Mobilization*” means movement applied singularly or repetitively within or at the physiological range of joint motion, without imparting a thrust or impulse, with the goal of restoring joint mobility.

“*PACE*” means Providers of Approved Continuing Education and is the signature program of the FCLB.

“*Passive chiropractic physiotherapy*” means therapeutic treatment administered and received by the patient, including but not limited to mechanical, electrical, thermal, or manual methods.

“*Physiologic barrier*” means the limit of active motion, which can be altered to increase range of active motion by warm-up activity.

“*Practice of acupuncture*,” means the same as defined in Iowa Code section 148E.1.

“*Supervising chiropractic physician*” means the Iowa-licensed chiropractor responsible for supervision of services provided to a patient by a certified chiropractic assistant.

“*Supervision*” means the physical presence and direction of the supervising chiropractic physician at the location where services are rendered.

645—43.2(147,272C) Principles of chiropractic ethics. The following principles of chiropractic ethics are adopted by the board for the practice of chiropractic in this state.

43.2(1) These principles are intended to aid chiropractic physicians individually and collectively in maintaining a high level of ethical conduct. These are standards by which a chiropractic physician may determine the propriety of the chiropractic physician's conduct in the chiropractic physician's relationship with patients, with colleagues, with members of allied professions, and with the public.

43.2(2) The principal objective of the chiropractic profession is to render service to humanity with full respect for the dignity of the person. Chiropractic physicians should merit the confidence of patients entrusted to their care, rendering to each a full measure of service and devotion.

43.2(3) Chiropractic physicians should strive continually to improve chiropractic knowledge and skill, and should make available to their patients and colleagues the benefits of their professional attainments.

43.2(4) A chiropractic physician should practice a method of healing founded on a scientific basis, and should not voluntarily associate professionally with anyone who violates this principle.

43.2(5) The chiropractic profession should safeguard the public and itself against chiropractic physicians deficient in moral character or professional competence. Chiropractic physicians should observe all laws, uphold the dignity and honor of the profession and accept its self-imposed disciplines. They should expose, without hesitation, illegal or unethical conduct of fellow members of the profession.

43.2(6) A chiropractic physician may choose whom to serve. In an emergency, however, services should be rendered to the best of the chiropractic physician's ability. Having undertaken the case of a patient, the chiropractic physician may not neglect the patient; and, unless the patient has been discharged, the chiropractic physician may discontinue services only after giving adequate notice.

43.2(7) A chiropractic physician should not dispose of services under terms or conditions which tend to interfere with or impair the free and complete exercise of professional judgment and skill or tend to cause a deterioration of the quality of chiropractic care.

43.2(8) A chiropractic physician should seek consultation upon request, in doubtful or difficult cases, or whenever it appears that the quality of chiropractic service may be enhanced thereby.

43.2(9) A chiropractic physician may not reveal the confidences entrusted in the course of chiropractic attendance, or the deficiencies observed in the character of patients, unless required to do so by law or unless it becomes necessary in order to protect the welfare of the individual or of the community.

43.2(10) The honored ideals of the chiropractic profession imply that the responsibilities of the chiropractic physician extend not only to the individual, but also to society where these responsibilities deserve interest and participation in activities which have the purpose of improving both the health and well-being of the individual and the community.

645—43.3 Reserved.

645—43.4(151) Chiropractic insurance consultant.

43.4(1) A chiropractic insurance consultant advises insurance companies, third-party administrators and other similar entities of Iowa standards of (a) recognized and accepted chiropractic services and procedures permitted by the Iowa Code and administrative rules and (b) the propriety of chiropractic diagnosis and care.

43.4(2) All licensees who review chiropractic records for the purposes of determining the adequacy or sufficiency of chiropractic treatments, or the clinical indication for those treatments, will indicate on their licensure renewals that they are engaged in those activities and the location where those activities are performed.

43.4(3) Licensed chiropractic physicians will not hold themselves out as chiropractic insurance consultants unless they meet the following requirements:

- a. Hold a current license in Iowa.
- b. Have practiced chiropractic in the state of Iowa during the immediately preceding five years.

c. Are actively involved in a chiropractic practice during the term of appointment as a chiropractic insurance consultant. Active practice includes but is not limited to maintaining an office location and providing clinical care to patients.

645—43.5(151) Acupuncture. A chiropractic physician who engages in the practice of acupuncture will maintain documentation that shows the chiropractic physician has successfully completed a course in acupuncture consisting of at least 100 hours of traditional, in-person classroom instruction with the instructor on site. The licensee will maintain a transcript or certification of completion showing the licensee's name, school or course sponsor's name, date of course completion or graduation, grade or other evidence of successful completion, and number of course hours. The licensee will provide the transcript or certification of completion to the board upon request.

645—43.6(151) Adjunctive procedures.

43.6(1) Adjunctive procedures are defined as procedures related to differential diagnosis.

43.6(2) For any applicant for licensure to practice chiropractic in the state of Iowa who chooses to be tested in limited adjunctive procedures, those limited procedures must be adequate for the applicant to come to a differential diagnosis in order to pass the examination.

43.6(3) Applicants for licenses to practice chiropractic who refuse to utilize any of the adjunctive procedures which they have been taught in approved colleges of chiropractic must adequately show the board that they can come to an adequate differential diagnosis without the use of adjunctive procedures.

645—43.7(151) Physical examination. The chiropractic physician is to perform physical examinations to determine human ailments, or the absence thereof, utilizing principles taught by chiropractic colleges. Physical examination procedures will not include prescription drugs or operative surgery.

645—43.8(151) Record keeping.

43.8(1) Chiropractic physicians will maintain clinical records in a manner consistent with the protection of the welfare of the patient. Records will be timely, dated, chronological, accurate, signed or initialed, legible, and easily understandable. Record-keeping rules apply to all patient records whether handwritten, typed or maintained electronically. Electronic signatures are acceptable when the record has been reviewed by the physician whose signature appears on the record.

43.8(2) Chiropractic physicians will maintain clinical records for each patient, which include all of the following:

a. *Personal data.*

- (1) Name;
- (2) Date of birth;
- (3) Address; and
- (4) Name of parent or guardian if a patient is a minor.

b. *Health history.* Records will include information from the patient or the patient's parent or guardian regarding the patient's health history.

c. *Patient's reason for visit.* When a patient presents with a chief complaint, clinical records will include the patient's stated health concerns.

d. *Clinical examination progress notes.* Records will include chronological dates and descriptions of the following:

- (1) Clinical examination findings, tests conducted, a summary of all pertinent diagnoses, and updated health assessments;
- (2) Plan of intended treatment, including description of treatment, frequency and duration;
- (3) Services rendered and any treatment complications;
- (4) All testing ordered or performed;
- (5) Diagnostic imaging report if imaging procedure is ordered or performed;
- (6) Sufficient data to support the recommended treatment plan.

e. Clinical record. Each page of the clinical record will include the patient's name, the date information was recorded and the doctor's name or facility's name.

43.8(3) Retention of records. A chiropractic physician will maintain a patient's record(s) for a minimum of six years after the date of last examination or treatment. Records for minors will be maintained for one year after the patient reaches the age of majority (18) or six years after the date of last examination or treatment, whichever is longer. Proper safeguards will be maintained to ensure the safety of records from destructive elements. This provision includes both clinical and fiscal records.

43.8(4) Electronic record keeping. When electronic records, which include both electronically created records and scanned paper records, are utilized, a chiropractic physician will maintain either a duplicate hard-copy record or a backup electronic record.

43.8(5) Correction of written records. Notations will be legible, written in ink, and contain no erasures or whiteouts. If incorrect information is placed in the record, it must be crossed out with a single nondeleting line. Entries recorded at a time other than the date of the patient encounter must include the date of the entry and the initials of the author.

43.8(6) Correction of electronic records. Any alterations made after the date of service will be visibly recorded. All alterations will include a notation setting forth the date of alteration and identification of the author. Entries recorded at a time other than the date of the patient encounter must include the date of the entry and the initials of the author.

43.8(7) Abbreviations will be standard and common to all health care disciplines. Nonstandard abbreviations will be referenced with a key that is included in the record when the record is requested.

43.8(8) Confidentiality and transfer of records. Chiropractic physicians will preserve the confidentiality of patient records. Upon signed request of the patient, the chiropractic physician will furnish such records or copies of the records as directed by the patient within 30 days. A notation indicating the items transferred, date of transfer and method of transfer will be maintained in the patient record. The chiropractic physician may charge a reasonable fee for duplication of records but may not refuse to transfer records for nonpayment of any fees. A written request may be required before the transfer of the record(s), including, for example, compliance with HIPAA regulations. In certain instances, a summary of the record may be more beneficial for the future treatment of the patient; however, if a third party requests copies of the original documentation, that request must be honored.

43.8(9) Retirement or discontinuance of practice. A licensee, upon retirement, discontinuation of the practice of chiropractic, leaving a practice, or moving from a community, will:

a. Notify all active patients, in writing one month prior to discontinuation of practice. The notification will include the following information:

(1) That the licensee intends to discontinue the practice of chiropractic in the community and that patients are encouraged to seek the services of another licensee; and

(2) How patients can obtain their records, including the name and contact information of the records custodian.

b. Make reasonable arrangements with active patients for the transfer of patient records, or copies of those records, to the succeeding licensee.

c. For the purposes of this subrule, "active patient" means a person whom the licensee has examined, treated, cared for, or otherwise consulted with during the one-year period prior to retirement, discontinuation of the practice of chiropractic, leaving a practice, or moving from a community.

43.8(10) Record-keeping procedures and standards will be utilized for all individuals who receive treatment from a chiropractic physician in all sites where care is provided.

43.8(11) A chiropractic physician who offers a prepayment plan for chiropractic services will:

a. Have a written prepayment policy statement that is maintained in the office and available to patients upon request. The policy statement, at a minimum, will include provisions that:

(1) Prepaid funds will not be expended until services are provided; and

(2) The patient will receive a prompt refund of any unused funds upon request. The refund will be calculated based on a defined method, which will be clearly set forth in the written prepayment policy statement.

- b.* Require the patient to sign and date a prepayment document that incorporates the conditions and descriptions of the written prepayment policy statement.
- c.* Maintain the signed and dated written prepayment policy statement in the patient's record.

645—43.9(151) Billing procedures.

43.9(1) Chiropractic physicians will maintain accurate billing records for each patient. Records may be stored on paper or electronically. The records will contain all of the following:

- a.* Name, date of birth and address.
- b.* Diagnosis indicated with description or ICD code.
- c.* Services provided with description or CPT code.
- d.* Dates of services provided.
- e.* Charges for each service provided.
- f.* Payments made for each service and indication of the party providing payment.
- g.* Dates payments are made.
- h.* Balance due for any outstanding charges.

43.9(2) Chiropractic physicians will preserve the confidentiality of billing records.

43.9(3) Upon signed request of the patient, the chiropractic physician will furnish billing records or copies of the records as directed by the patient within 30 days. The chiropractic physician may charge a reasonable fee for duplication of records, but may not refuse to transfer records for nonpayment of any outstanding balance.

43.9(4) Each chiropractic physician is responsible for the accuracy and validity of billings submitted under the chiropractic physician's name.

43.9(5) Chiropractic physicians:

- a.* Who are owners, operators, members, partners, shareholders, officers, directors, or managers of a chiropractic clinic will be responsible for the policies, procedures and billings generated by the clinic.
- b.* Who provide clinical services are required to familiarize themselves with the clinic's billing practices to ensure that the services rendered are accurately reflected in the billings generated. In the event an error occurs which results in an overbilling, the licensee must promptly make reimbursement of the overbilling whether or not the licensee is in any way compensated for such reimbursement by an employer, agent or any other individual or business entity responsible for such error.

43.9(6) A chiropractic physician has a right to review and correct all billings submitted under the chiropractic physician's name or identifying number(s). Signature stamps or electronically generated signatures will be utilized only with the authorization of the chiropractic physician whose name or signature is designated. Such authorization may be revoked at any time in writing by the chiropractic physician.

43.9(7) Chiropractic physicians will not knowingly:

- a.* Increase charges when a patient utilizes a third-party payment program.
- b.* Report incorrect dates or types of service on any billing documents.
- c.* Submit charges for services not rendered.
- d.* Submit charges for services rendered which are not documented in a patient's record.
- e.* Bill patients or make claims under a third-party payer contract for chiropractic services that have not been performed.
- f.* Bill patients or make claims under a third-party payer contract in a manner which misrepresents the nature of the chiropractic services that have been performed.

43.9(8) For cases not involving third-party payers, nothing in this rule will prevent a chiropractic physician from providing a fee reduction for reasonable time of service or substantiated hardship cases. The chiropractic physician will document time of service or hardship case fee reduction provisions in the patient record.

43.9(9) The chiropractic physician will not enter into an agreement to waive, abrogate, or rebate the deductible or copayment amounts of any third-party payer contract by forgiving any or all of any patient's obligation for payment thereunder, except in substantiated hardship cases, unless the third-party payer is notified in writing of the fact of such waiver, abrogation, rebate, or forgiveness in accordance with the

third-party payer contract. The chiropractic physician will document any hardship case fee reduction provisions in the patient record.

645—43.10(151) Certified chiropractic assistants.

43.10(1) *Supervisory responsibilities of the chiropractic physician.*

a. The supervising chiropractic physician will ensure at all times that the certified chiropractic assistant has the necessary training and skills as required by these rules to competently perform the delegated services.

b. The supervising chiropractic physician may delegate services to a certified chiropractic assistant that are within the scope of practice of the chiropractic physician in a manner consistent with these rules. Violation of these rules will be grounds for discipline under 645—Chapter 45.

c. A chiropractic physician will not delegate to the certified chiropractic assistant the following:

- (1) Services outside the chiropractic physician's scope of practice;
- (2) Initiation, alteration, or termination of chiropractic treatment programs;
- (3) Chiropractic manipulation and adjustments;
- (4) Diagnosis of a condition.

d. A supervising chiropractic physician will ensure that a certified chiropractic assistant is informed of the supervisor and certified chiropractic assistant relationship and is responsible for all services performed by the certified chiropractic assistant.

43.10(2) *Education requirements for certified chiropractic assistants.*

a. The supervising chiropractic physician will ensure that a certified chiropractic assistant has completed a professional certification program. A certified chiropractic assistant training program will include training and instruction on the use of chiropractic physiotherapy procedures related to services to be provided by the certified chiropractic assistant. Any certified chiropractic assistant training program will be provided by an approved CCE-accredited chiropractic college, FCLB, PACE, CCCA, or a chiropractic state association.

b. Certified chiropractic assistants performing active chiropractic physiotherapy procedures are required to complete 12 hours of instruction, of which 6 hours will be clinical experience under the supervision of the chiropractic physician.

c. Certified chiropractic assistants performing passive chiropractic physiotherapy procedures are required to complete 12 hours of instruction, of which 6 hours will be clinical experience under the supervision of the chiropractic physician.

d. If both paragraphs "b" and "c" apply, then 12 hours of instruction for active chiropractic physiotherapy procedures and 12 hours of instruction for passive chiropractic physiotherapy procedures will be required for a total of 24 hours of instruction.

e. The supervising chiropractic physician will provide a written attestation to the chiropractic college that the certified chiropractic assistant has completed the clinical experience. The college will issue a separate certificate of completion for the active or passive chiropractic training program as defined in paragraphs "b," "c," and "d" of this subrule.

f. The chiropractic physician will maintain in the chiropractic physician's primary place of business proof of the certified chiropractic assistant's completion of the training program. Copies of such documents will be provided to the board upon request.

These rules are intended to implement Iowa Code chapters 147, 151, 272C, and 514F.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 44
“Continuing Education for Chiropractic Physicians”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 151, 147.36 and 147.76
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 151, 17A, 147 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:30 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

The intended benefit of continuing education is to maintain professional competency and safety in diagnosing and analyzing human ailments, techniques, and to stay current on billing guidelines administered by state and federal programs.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Private industry offers these courses so the Board of Chiropractic is not privy to exact costs but, based on research, estimates it to be around \$15 per continuing education unit (CEU) hour, or approximately \$600 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that chiropractors maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry including educational institutions, professional associations, and businesses, offers these courses so the Board is not privy to exact costs, but based on research, the Board estimates costs to be around \$600 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

The Board does not have data to correlate increased public safety to continuing education hour requirements.

Currently, Iowa requires 40 hours of continuing education for these license types every two years.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit, because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.37 full-time equivalent (FTE) position, which includes questions from the public and licensees, such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is not an anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Iowa continuing education requirements for chiropractors are comparable to those of surrounding states. The Board believes there could be an impact to public safety if continuing education requirements were eliminated. This could lead to more complaints, investigations, and ultimately public discipline.

There would be a loss of revenue for the private industry organizations that offer these continuing education programs.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board reduced its continuing education hours from 60 to 40 on July 11, 2018, through the adoption of **ARC 3774C** to make the Board's requirement comparable to contiguous states. Currently, Iowa requires 40 hours of continuing education every two years. South Dakota requires 40 hours per

biennium. Kansas requires 50 hours annually. Nebraska requires 36 hours per biennium. Missouri requires 48 hours per biennium. Minnesota requires 20 hours annually.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:
The Board believes the current number of continuing education hours is equitable.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes the current number of continuing education hours is equitable and comparable to other states.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The Board reduced its continuing education hours from 60 to 40 on July 11, 2018, through the adoption of **ARC 3774C** to make the Board's requirements comparable to contiguous states. Chiropractors practice in a number of settings including private practice clinics, major hospital systems, residential health care facilities, and educational institutions. The cost of continuing education could be greater for small business owners because they would be responsible for the entire cost, but the proposed reduction in continuing education hours ultimately reduces the burden to the licensee. Conversely, the entities that provide continuing education may face a negative impact on their revenue due to less demand for entities' continuing education services.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 44 and adopt the following **new** chapter in lieu thereof:

CHAPTER 44 CONTINUING EDUCATION FOR CHIROPRACTIC PHYSICIANS

645—44.1(151) Definitions. For the purpose of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the Iowa board of chiropractic.

“*Clinical case management*” means coursework pertaining to diagnosis, treatment, and appropriate referral or coordination of care.

“*Continuing education*” means planned, organized learning acts meeting the standards set forth in these rules, acquired during licensure, and designed to maintain, improve, or expand a licensee's knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the

enhancement of chiropractic practice, education, or theory development to improve the safety and welfare of the public.

“Hour of continuing education” means at least 50 minutes spent by a licensee in actual attendance at and completion of an approved continuing education activity.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“Independent study” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest and certificate of completion.

“License” means license to practice chiropractic in Iowa.

“Licensee” means any person licensed to practice as a chiropractic physician in Iowa.

645—44.2(272C) Continuing education requirements.

44.2(1) The biennial continuing education compliance period extends for a two-year period beginning on July 1 of each even-numbered year and ending on June 30 of each even-numbered year two years later.

44.2(2) Requirements of new licensees. Continuing education is not required in the first renewal period with the exception of two hours in the content areas of 645—Chapters 41 through 45 and Iowa Code chapter 151. Continuing education hours acquired any time from the initial licensing until the second license renewal, with the exception of two hours in the content areas of 645—Chapters 41 through 45 and Iowa Code chapter 151, may be used after the first renewal period. The new licensee will be required to complete a minimum of 40 hours of continuing education per biennium for each subsequent license renewal.

44.2(3) Hours of continuing education credit will be obtained by attending and participating in a continuing education activity as stipulated in rule.

44.2(4) No hours of continuing education will be carried over into the next biennium except as stated in 44.2(2) and 44.3(2)“a”(3). A licensee whose license is reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

44.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—44.3(151,272C) Standards.

44.3(1) General criteria. A continuing education activity must meet the following criteria:

- a. Constitute an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertain to subject matters which integrally relate to the practice of the profession;
- c. Be conducted by individuals who have specialized education, training and experience concerning the subject matter of the program. At the time of audit, the board may request the qualifications of presenters;
- d. Fulfill stated program goals, objectives, or both; and
- e. Provide proof of attendance to licensees in attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program clock hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

44.3(2) Specific criteria.

a. Continuing education hours of credit will be obtained by completing:

- (1) At least 36 hours of continuing education credit obtained from a program that directly relates to clinical case management of chiropractic patients. At least 20 of these hours will be earned by completing a program in which an instructor conducts the class by employing a traditional in-person, classroom-type presentation and the licensee is in attendance in the same room as that instructor. The remaining 16 hours of continuing education credit relating to clinical case management of chiropractic patients may be

obtained by independent study, including any online instruction, that complies with conditions specified in 44.3(1).

(2) A minimum of two hours per biennium in professional boundaries regarding ethical issues related to professional conduct that may include but are not limited to sexual harassment, sensitivity training and ethics.

(3) A minimum of 12 hours per biennium of continuing education in the field of acupuncture is required for licensees certified in acupuncture and may be used toward clinical case management if the chiropractic physician is actively engaged in the practice of acupuncture. Chiropractic physicians not engaged in the active practice of acupuncture may take continuing education hours in the field of acupuncture for continuing education credit.

(4) Classes on child abuse and dependent adult abuse that meet the criteria in 645—subrules 41.8(4) and 44.3(1).

(5) Two hours of continuing education credit is required in the first biennial renewal period and one hour every biennial renewal period after that in the content areas of the administrative rules related to chiropractic physicians in Iowa, found at 645—Chapters 41 through 45 and the statutory provisions specific to the practice of chiropractic in Iowa Code chapter 151.

b. Continuing education hours of credit may be obtained by:

(1) Teaching at a Council on Chiropractic Education (CCE)-approved program or board of chiropractic-approved institution. A maximum of 15 hours per biennium may be obtained for each course taught.

(2) Completing electronically transmitted programs/activities or independent study programs/activities that have a certificate of completion.

(3) Presenting a continuing education program once per biennium for the initial presentation of the program.

(4) Completing a program provided by a CCE-accredited chiropractic college in the United States, the Iowa Chiropractic Society, American Chiropractic Association or International Chiropractors Association.

(5) Completing continuing education courses/programs that are certified by the Providers of Approved Continuing Education (PACE) through the Federation of Chiropractic Licensing Boards (FCLB).

(6) Proctoring at the NBCE examination. Fifteen hours of continuing education hours per NBCE examination event may be claimed up to a maximum of 30 hours of continuing education credit per biennium. The proctoring hours may apply toward the clinical requirement.

c. Continuing education may not be obtained by completing or teaching classes in basic anatomy and physiology or undergraduate level coursework.

44.3(3) *Specific criteria for presenters.* All instructors/presenters of a continuing education activity must include, as part of the continuing education activity, verbal and written statements to the participants regarding any affiliations or employment relationships with any entity promoting, developing or marketing products, services, procedures or treatment methods.

These rules are intended to implement Iowa Code section 272C.2 and chapter 151.

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
12:30 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
Or dial: 402.921.2210
PIN: 301 728 068#

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

The proposed rulemaking defines actions that are inconsistent with professional standards for licensees, which are established to protect the consumer and colleagues. Actions inconsistent with professional standards could result in disciplinary actions against a practitioner’s license.

The 19 boards in the legacy Health and Human Services Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the chiropractor licensees and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional. The rules in this chapter are related to standards of care and consumer protection.

Licenses may be required to pay a civil penalty fee to satisfy disciplinary action. The Board of Chiropractic may impose civil penalties that do not exceed \$1,000 per violation.

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee violates a practice standard. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of work of this Board at approximately 0.37 full-time equivalent (FTE) position. This includes responding to questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Chiropractic treatment is most often sought for musculoskeletal conditions and for a wider spectrum of holistic health issues by consumers. Evidence-based treatment is required and those providers who do not follow this approach or violate consumer protection are subject to discipline.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The cost of taking no action would increase the potential for injury to the public by allowing licensed providers to continue to provide treatment to patients without rehabilitating their standard of care through a form of discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive health care from competent practitioners. There has been some standardization of consideration of criminal convictions.

- Qualitative description of impact:

The rulemaking establishes minimum requirements and imposes grounds for discipline against a chiropractor who violates the standard of care predicated on the chiropractor's standard of care. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer, licensure specialist and investigator support the full scope of this work at 0.37 FTE position. This includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues.

Costs associated with implementing this rulemaking are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$2,200 was paid into the General Fund by disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The costs to review and address the standards of professional behavior are justified by the benefit of protecting Iowa consumers who receive an inadequate delivery of chiropractic services.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less costly or intrusive method to implement this chapter has not been identified by the Board. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

While there has been some standardization of consideration of criminal convictions, the Board has not identified a less restrictive alternative to public protection.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure Iowans receive services from competent chiropractors.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns which are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of practice standards for chiropractors. While some chiropractors likely are running a small business of their own, some also work for large organizations, such as hospital systems. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 45 and adopt the following **new** chapter in lieu thereof:

CHAPTER 45 DISCIPLINE FOR CHIROPRACTIC PHYSICIANS

645—45.1(151,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—45.1(147,272C) when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

45.1(1) Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the profession or engaging in unethical conduct or practice harmful or detrimental to the public. This includes representations utilizing the term “physical therapy” when informing the public of the services offered by the chiropractic physician unless a licensed physical therapist is performing such services. Nothing herein will be construed as prohibiting a chiropractic physician from making representations regarding physiotherapy that may be the same as, or similar to, physical therapy or physical medicine as long as treatment is appropriate as authorized in Iowa Code chapter 151. Proof of actual injury need not be established.

45.1(2) Use of untruthful or improbable statements in advertisements and marketing. Use of untruthful or improbable statements in advertisements includes, but is not limited to, an action by a licensee in making information or intention known to the public which is false, deceptive, misleading or promoted through fraud or misrepresentation, or representations that are likely to cause the average person to misunderstand. The term “advertisements” includes oral, written, electronic, and other types of communication disseminated by or at the direction of a licensee for the purpose of encouraging or soliciting the use of the licensee’s services.

45.1(3) Violate the provisions of direct health care agreements pursuant to Iowa Code section 135N.1.

45.1(4) Failure to maintain a patient’s record(s) for a minimum of six years after the date of last examination or treatment. Records for minors shall be maintained for one year after the patient reaches the age of majority (18) or six years after the date of last examination or treatment, whichever is longer. Proper safeguards shall be maintained to ensure the safety of records from destructive elements. This provision includes both clinical and fiscal records.

These rules are intended to implement Iowa Code chapters 147, 151, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 60
“Licensure of Barbers, Cosmetologists, Electrologists, Estheticians, Nail Technologists, and Instructors
of Barbering and Cosmetology Arts and Sciences”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 157.14, 272C.3, 272C.4 and
272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 157, and
272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:50 to 2:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

This proposed rulemaking sets minimum standards of entry into the barbering and cosmetology arts and sciences professions. Iowa residents, licensees, and employers benefit from the rulemaking because it clarifies the processes by which licensees may apply for licensure as a barber and cosmetologist, nail technician, esthetician, electrologist, or instructor as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety through review of the integrity and competence of the practitioner. Requirements include the application process, educational qualifications, and examination requirements. The rulemaking also articulates the merger of the Board of Barbering with the Board of Cosmetology Arts and Sciences, providing guidance for legacy license holders.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to an applicant because complying with the minimum requirements to enter into the profession is at the expense of the licensee. The license fee for a two-year license to practice cosmetology arts and sciences or barbering is \$60 (license fees are specifically addressed in rules 645—5.2(147,158) and 645—5.5(147,157)). Licensees must also pay an examination fee of \$83. Licensees who are not working for someone who holds an establishment license must also pay a biennial establishment license fee of \$72.

These costs are comparable to surrounding states' licensing fees. Nebraska's two-year license fee is \$95; licensees pay an examination fee of \$85. Nebraska imposes a biennial establishment license fee of \$150 for barbers and \$220 for cosmetologists and estheticians. Minnesota has an annual license fee of \$85 for barbers; cosmetologists and estheticians pay a license fee of \$195 every two years. Licensees must also pay an examination fee of \$85. Minnesota imposes an annual establishment license fee of \$85 for barbers and a three-year establishment license fee of \$350 for cosmetologists and estheticians.

Licensees also have costs related to educational requirements. The cost of barber and cosmetology school ranges from \$17,775 to \$22,384, although this cost estimate is based on a 2,100-hour education program. In 2023, the Legislature enacted and the Governor signed 2023 Iowa Acts, House File 652, which reduced the minimum number of hours from 2,100 to 1,550.

The costs for education are similar to those in surrounding states. The cost of barber and cosmetology school in Minnesota ranges from \$18,988 to \$24,988 (1,550 hours of education). In Nebraska, the cost of education for barbers ranges from \$15,673 to \$21,042 (hours regulated by the Board of Barbers); for cosmetologists and estheticians, it ranges from \$19,300 to \$21,850 (1,800 hours of education).

Board of Barbering and Cosmetology Arts and Sciences staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff also perform compliance audits and investigate complaints. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. The rulemaking establishes a clear process for licensing of barbers and cosmetologists, nail technicians, estheticians, electrologists, and instructors and ensures only qualified individuals are permitted to enter the profession. The rules provide guidance to instructors and students and ensure that establishment and school owners who do not hold a license in any of the prescribed disciplines understand infection control and the laws and rules under which licensees must operate, including public posting requirements.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide training for barbers and cosmetologists, nail technicians, estheticians, and electrologists to obtain their license in the state of Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. The cost of education ranges from \$17,775 to \$22,384, although this cost estimate is based on a 2,100-hour education program. In 2023, the Legislature enacted and the Governor signed 2023 Iowa Acts, House File 652, which reduces the minimum hours from 2,100 to 1,550. The examination fee is \$83.

Licensing fees are \$60 every two years. Licensees may incur an additional biennial establishment license fee of \$72.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff. Complaints are investigated with letters, phone calls, and in-person interviews. Where appropriate, referrals are made to the impaired practitioner program.

An executive officer supports the full scope of this work at 0.74 full-time equivalent (FTE) position. This includes answering inquiries from the public and licensees on items such as practice standards, continuing education, and Board meeting administration. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. The cost of inaction would increase the potential for injury to the public that would remain unchecked without review prior to initial licensure, periodic compliance audits, and complaint investigation. In addition, the rulemaking provides consistency related to the licensure of barbers and cosmetologists, electrologists, estheticians, nail technologists, and instructors in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits, and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rulemaking attempts to provide consistency related to the licensure of barbers and cosmetologists, nail technicians, estheticians, electrologists, and instructors across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Due to the state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits, and complaint investigation. The Board believes all current

requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rulemaking attempts to provide consistency related to the licensure of barbers and cosmetologists, nail technicians, estheticians, electrologists, and instructors across the United States, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits, and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rulemaking attempts to provide consistency related to the licensure of barbers and cosmetologists, nail technicians, estheticians, electrologists, and instructors across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Due to the state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to public safety concerns, which are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for barbers and cosmetologists, electrologists, estheticians, nail technologists, and instructors. Many licensees in these professions run a small business or are employed by a small business. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 60 and adopt the following **new** chapter in lieu thereof:

COSMETOLOGISTS

| | |
|------------|--|
| CHAPTER 60 | LICENSURE OF BARBERS, COSMETOLOGISTS, ELECTROLOGISTS, ESTHETICIANS, NAIL TECHNOLOGISTS, AND INSTRUCTORS OF BARBERING AND COSMETOLOGY ARTS AND SCIENCES |
| CHAPTER 61 | LICENSURE OF ESTABLISHMENTS AND SCHOOLS OF BARBERING AND COSMETOLOGY ARTS AND SCIENCES |
| CHAPTER 62 | RESERVED |
| CHAPTER 63 | INFECTION CONTROL FOR ESTABLISHMENTS AND SCHOOLS OF BARBERING AND COSMETOLOGY ARTS AND SCIENCES |
| CHAPTER 64 | CONTINUING EDUCATION FOR BARBERING AND COSMETOLOGY ARTS AND SCIENCES |
| CHAPTER 65 | DISCIPLINE FOR BARBERING AND COSMETOLOGY ARTS AND SCIENCES LICENSEES, INSTRUCTORS, AND SCHOOLS |

CHAPTER 60

LICENSURE OF BARBERS, COSMETOLOGISTS, ELECTROLOGISTS, ESTHETICIANS, NAIL TECHNOLOGISTS, AND INSTRUCTORS OF BARBERING AND COSMETOLOGY ARTS AND SCIENCES

645—60.1(157) Definitions. In addition to the definitions included in Iowa Code sections 157.1 and 84D.2 and 29 Code of Federal Regulations (CFR) §29.5 as amended on December 19, 2016, the following definitions apply to terms used in this chapter:

“Active license” means a license that is current and has not expired.

“Core curriculum” means the basic core life sciences curriculum that is required for completion of any course of study of barbering and cosmetology arts and sciences except for manicuring.

“Examination” means any of the tests used to determine minimum competency prior to the issuance of a barbering and cosmetology arts and sciences license.

“Grace period” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“Inactive license” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“Legacy curriculum” means a course of study and curriculum offered by barbering schools or cosmetology arts and sciences schools that, as applicable, comply with the administrative rules issued by the Iowa board of barbering or by the Iowa board of cosmetology arts and sciences that were in effect on June 30, 2023.

“Licensee” means any person or entity licensed to perform practice disciplines governed by the board of barbering and cosmetology arts and sciences pursuant to Iowa Code chapter 157 and 645—Chapters 60 through 65.

“Licensure by endorsement” means the issuance of an Iowa license to practice barbering and cosmetology arts and sciences to an applicant who is or has been licensed in the District of Columbia or in another state, territory, province or foreign country and who has held an active license under the laws of such other jurisdiction for at least 12 months during the past 24 months.

“Mentor” means a licensee providing guidance in a mentoring program.

“Mentoring” means a program allowing students to experience barbering and cosmetology arts and sciences in a licensed salon under the guidance of a mentor.

“NIC” means the National-Interstate Council of State Boards of Cosmetology, Inc.

“Pedicuring” means the practice of cleaning, shaping or polishing the toenails.

“Practice discipline” means the practice of electrology, esthetics, nail technology, or barbering and cosmetology as recognized by the board of barbering and cosmetology arts and sciences.

“*Prescribed practice*” means an area of specialty certified by the board within the scope of barbering and cosmetology arts and sciences.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—60.9(17A,147,272C) by which an inactive license is restored to active status.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

“*Shaving*” means the manual cutting or removal of hair with a razor.

“*Testing service*” means a national testing service selected by the board.

645—60.2(157) Initial licensure.

60.2(1) Requirements for licensure. All persons providing services in one or more practice disciplines shall hold a license issued by the board. The applicant shall:

a. Submit a completed online application and pay the nonrefundable fee specified in 645—subrule 5.5(1).

b. Demonstrate professional competence in one of the following ways:

(1) A person who is licensed in another jurisdiction may complete the licensure by endorsement application. If the applicant is licensed in another jurisdiction as an electrologist, nail technician or esthetician, then a successful applicant will receive a license in such practice discipline. If the applicant is licensed in another jurisdiction as a barber or as a cosmetologist, and the applicant is requesting licensure in the practice discipline of barbering and cosmetology, then a successful applicant will receive a license as a barber and cosmetologist. All applicants must provide a verification of license from the jurisdiction in which the applicant has most recently been licensed, sent directly from the jurisdiction to the board office. Web-based verification may be substituted for verification from a jurisdiction’s board office if the verification includes:

1. Licensee’s name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the licensee.

(2) A person who is licensed in another jurisdiction who is unable to satisfy the requirements of licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

(3) An applicant who has relocated to Iowa from a state that did not require licensure to practice the profession may submit proof of work experience in lieu of educational and training requirements, if eligible, in accordance with rule 645—19.2(272C).

c. Provide proof of completion of education.

(1) If the applicant graduated from a school that is licensed by the board, the applicant is to direct the educational program to submit to the board a diploma or an official transcript indicating date of graduation and completion of required hours in each practice discipline for which the applicant is requesting licensure.

If an applicant graduates from a licensed school after completing a course of study constituting a legacy curriculum as prescribed in 645—subrule 61.14(6), such graduation will satisfy the education requirement for the applicable practice discipline for which the applicant is requesting licensure. For purposes of this subrule, a legacy curriculum in barbering or a legacy curriculum in cosmetology will be sufficient proof of education for an applicant requesting a license to practice barbering and cosmetology.

(2) If the applicant graduated from a school that is not licensed by the board, the applicant is to direct the school to provide an official transcript showing completion of a course of study that meets the requirements of rule 645—61.14(157).

(3) If the applicant has graduated from an apprenticeship program, the applicant must direct the Iowa office of apprenticeship registered apprenticeship program to submit a certificate of completion.

(4) If the applicant was educated outside the United States, the applicant is to attach an original evaluation of the applicant's education from any accredited evaluation service.

60.2(2) Requirements for an instructor's license. An applicant for an instructor's license shall:

a. Submit a completed application for licensure and the appropriate fee to the board;

b. Be licensed in the state of Iowa in the prescribed practice discipline to be taught or be licensed as a barber and cosmetologist who possesses the skill and knowledge required to instruct in that practice discipline;

c. Provide documentation of completion of 1,000 hours of instructor's training or two years' active practice in the field of barbering and cosmetology, esthetics, electrology, or nail technology within six years prior to application;

d. For an instructor of electrology license, submit proof of 60 hours of practical experience, excluding school hours, in the area of electrolysis prior to application;

e. Pass an instructor's national examination, which, effective January 1, 2008, shall be the NIC instructor examination unless the applicant is applying for an instructor's license by endorsement as outlined in paragraph 60.2(1) "b."

60.2(3) Conditions. The following conditions apply for all licenses:

a. Incomplete applications that have been on file in the board office for more than two years shall be considered invalid and shall be destroyed.

b. Licensees who were issued their initial licenses within six months prior to the license renewal beginning date are not required to renew their licenses until the renewal month two years later.

c. The board may issue a single license number and expiration date to licensees who hold licenses in multiple practice disciplines.

645—60.3(157) Examination requirements.

60.3(1) An applicant shall pass a national examination prescribed by the board for the particular practice discipline with a score of 75 percent or greater.

The applicant shall submit the test registration fee directly to the test service. NIC examinations are administered according to guidelines set forth by the NIC.

60.3(2) If applying for licensure by endorsement, an applicant who graduated from a barber or cosmetology school prior to January 1, 2000, shall have passed the state written and practical examination required by the state in which the applicant was originally licensed.

60.3(3) An applicant who graduated from a barber or cosmetology school after January 1, 2000, shall have passed a national theory examination for the discipline in which the applicant seeks licensure.

60.3(4) An applicant for the barbering and cosmetology license who graduated from a barber or cosmetology school after July 1, 2023, shall have passed a national theory examination. Shaving with a razor requires additional certification by the board.

645—60.4(157) Criteria for licensure in prescribed practice disciplines.

60.4(1) A barbering and cosmetology license is not a requirement for an electrology, esthetics, or nail technology license.

60.4(2) Core life sciences curriculum hours shall be transferable in their entirety from one practice discipline to another practice discipline.

60.4(3) Theory hours earned in each practice discipline of barbering and cosmetology arts and sciences may be used in applying for a barbering and cosmetology license.

60.4(4) A barber and cosmetologist licensed after July 1, 2005, is not eligible to be certified in chemical peels, microdermabrasion, laser or intense pulsed light (IPL) and shall not provide those services.

60.4(5) Licensees must hold a shaving certificate, or the license will be restricted from the practice of shaving. An individual who was licensed as an Iowa barber prior to July 1, 2023, is not required to hold a shaving certificate.

60.4(6) Pedicuring shall only be done by a licensee who possesses the skill and knowledge required to perform the service in a professionally competent manner in compliance with 645—Chapter 63.

60.4(7) Waxing shall only be done by a licensee who possesses the skill and knowledge required to perform the service in a professionally competent manner in compliance with 645—Chapter 63.

60.4(8) An initial license to practice manicuring shall not be issued by the board after December 31, 2007. A manicurist license issued on or before December 31, 2007, may be renewed subject to licensure requirements identified by statute and administrative rule unless the license becomes inactive. A manicurist license that becomes inactive cannot be reactivated or renewed.

60.4(9) Any person previously licensed as a barber prior to [the effective date of this rulemaking] pursuant to 645—Chapter 21 will, upon successful renewal of such license, receive a barbering and cosmetology license.

60.4(10) Any person previously licensed as a cosmetologist prior to [the effective date of this rulemaking] pursuant to this chapter will, upon successful renewal of such license, receive a barbering and cosmetology license.

645—60.5(157) Prescribed practice training requirements. As outlined below, the board may approve a licensee to provide the prescribed practice services of shaving, microdermabrasion, chemical exfoliation, laser services, and IPL hair removal treatments once a licensee has complied with training requirements and submitted a completed application, the required supporting evidence, and applicable fees as specified in these rules. The applicant shall receive a certification following board approval.

60.5(1) Shaving for hair removal.

a. Shaving shall only be performed by a barber and cosmetologist who is certified by the board to perform those services. A barber licensed before July 1, 2023, is exempt from this requirement.

b. Shaving shall only be used for hair removal on the scalp, face or neck.

c. In order to receive board certification and be eligible to perform shaving for hair removal services, the licensee must complete a shaving program or pass an exam as outlined below:

(1) Provide evidence of passing the NIC barber practical exam or a national barber practical exam, or

(2) Complete a 40-hour shaving program from an Iowa licensed school, or a program sponsored by an Iowa licensed school, that is conducted by a licensed instructor who has specialized education, training and experience by reason of which said licensed instructor should be considered qualified concerning the subject matter of the program, then:

1. Obtain from the program a certification of training that contains the following information:

- Date, location, and course title;
- Name and license number of the instructor;
- Number of contact hours;
- Evidence that the training program includes a safety training component that provides a thorough understanding of the procedures to be performed. The training program shall address fundamentals of skin care, blood-borne pathogens and infection control.

2. Complete a board-approved certification application form and submit to the board office the completed form, a copy of the certification of training, and the required fee pursuant to 645—subrule 5.5(14). The fee is nonrefundable.

60.5(2) Microdermabrasion.

a. Microdermabrasion shall only be performed by a licensed, certified esthetician or a cosmetologist who was licensed prior to July 1, 2005, and is certified by the board.

b. To be eligible to perform microdermabrasion services, the licensee shall:

(1) Complete 14 contact hours of education specific to the material or apparatus used for microdermabrasion. Before an additional material or apparatus is utilized in the licensee's practice, the licensee shall provide official certification of training on the material or apparatus.

(2) Obtain from the program a certification of training that contains the following information:

1. Date, location, and course title;
2. Number of contact hours;
3. Specific identifying description of the microdermabrasion machine covered by the course; and

4. Evidence that the training program includes a safety training component that provides a thorough understanding of the procedures to be performed. The training program shall address fundamentals of potential hazards, management and employee responsibilities relating to control measures, and regulatory requirements.

(3) Complete a board-approved certification application form and submit to the board office the completed form, a copy of the certification of training, and the required fee pursuant to 645—subrule 5.5(14). The fee is nonrefundable.

60.5(3) Chemical exfoliation.

a. Chemical exfoliation shall only be performed by a cosmetologist who was licensed prior to July 1, 2005, and is certified by the board to perform those services. Additional certification is not required for licensed estheticians.

b. Chemical exfoliation procedures are limited to the removal of surface epidermal cells of the skin by using only non-medical-strength cosmetic preparations consistent with labeled instructions and as specified by these rules. This procedure is not intended to elicit viable epidermal or dermal wounding, injury, or destruction.

c. To be eligible to perform chemical peels, a cosmetologist who was licensed prior to July 1, 2005, shall:

(1) Complete 21 hours of training specific to the process and products to be used for chemical peels. Before an additional process or product is utilized in the licensee's practice, the licensee shall provide official certification of training on the new process or product.

(2) Obtain from the program a certification of training that contains the following information:

1. Date, location, and course title;
2. Number of contact hours; and
3. Specific identifying description of the chemical peel process and products covered by the course.

(3) Complete a board-approved certification application form and submit to the board office the completed form, a copy of the certification of training, and the required fee pursuant to 645—subrule 5.5(15). The fee is nonrefundable.

60.5(4) Laser services.

a. A cosmetologist licensed after July 1, 2005, shall not use laser products.

b. An electrologist shall only provide hair removal services when using a laser.

c. Estheticians and cosmetologists shall use a laser for cosmetic purposes only.

d. Cosmetologists licensed prior to July 1, 2005, electrologists and estheticians must be certified to perform laser services.

e. When a laser service is provided to a minor by a licensed cosmetologist, esthetician or electrologist who has been certified by the board, the licensee shall work under the general supervision of a physician. The parent or guardian shall sign a consent form prior to services being provided. Written permission shall remain in the client's permanent record for a period of five years.

f. To be eligible to perform laser services, a cosmetologist who was licensed on or before July 1, 2005, an electrologist, or an esthetician shall:

(1) Complete 40 hours of training specific to each laser machine, model or device to be used for laser services. Before an additional machine, model or device is utilized in the licensee's practice, the licensee shall submit official certification of training on the new machine, model or device.

(2) Obtain from the program a certification of training that contains the following information:

1. Date, location, and course title;
2. Number of contact hours;
3. Specific identifying description of the laser equipment; and
4. Evidence that the training program includes a safety training component that provides a thorough understanding of the procedures to be performed. The training program shall address fundamentals of nonbeam hazards, management and employee responsibilities relating to control measures, and regulatory requirements.

(3) Complete a board-approved certification application form and submit to the board office the completed form, a copy of the certification of training, and the required fee pursuant to 645—subrule 5.5(14). The fee is nonrefundable.

60.5(5) IPL hair removal treatments.

a. A cosmetologist licensed after July 1, 2005, shall not use IPL devices.
b. An IPL device shall only be used for hair removal.
c. Cosmetologists licensed prior to July 1, 2005, electrologists and estheticians must be certified to perform IPL services.

d. When IPL hair removal services are provided to a minor by a licensed cosmetologist, esthetician or electrologist who has been certified by the board, the licensee shall work under the general supervision of a physician. The parent or guardian shall sign a consent form prior to services being provided. Written permission shall remain in the client's permanent record for a period of five years.

e. To be eligible to perform IPL hair removal services, a cosmetologist who was licensed on or before July 1, 2005, an electrologist, or an esthetician shall:

(1) Complete 40 hours of training specific to each IPL machine, model or device to be used for IPL hair removal services. Before an additional machine, model or device is utilized in the licensee's practice, the licensee shall submit official certification of training on the new machine, model or device.

(2) Obtain from the program a certification of training that contains the following information:

1. Date, location, and course title;
2. Number of contact hours;
3. Specific identifying description of the IPL hair removal equipment; and
4. Evidence that the training program includes a safety training component which provides a thorough understanding of the procedures to be performed. The training program shall address fundamentals of nonbeam hazards, management and employee responsibilities relating to control measures, and regulatory requirements.

(3) Complete a board-approved certification application form and submit to the board office the completed form, a copy of the certification of training, and the required fee pursuant to 645—subrule 5.5(14). The fee is nonrefundable.

60.5(6) Health history and incident reporting.

a. Prior to providing laser or IPL hair removal, microdermabrasion or chemical peel services, the cosmetologist, esthetician, and electrologist shall complete a client health history of conditions related to the application for services and include it with the client's records. The history shall include but is not limited to items listed in paragraph 60.5(6) "b."

b. A licensed cosmetologist, esthetician, or electrologist who provides services related to the use of a certified laser product, IPL device, chemical peel, or microdermabrasion shall submit a report to the board within 30 days of any incident in which provision of such services resulted in physical injury requiring medical attention. Failure to comply with this requirement shall result in disciplinary action by the board. The report shall include the following:

- (1) A description of procedures;
- (2) A description of the physical condition of the client;
- (3) A description of any adverse occurrence, including:
 1. Symptoms of any complications including, but not limited to, onset and type of symptoms;
 2. A description of the services provided that caused the adverse occurrence;
 3. A description of the procedure that was followed by the licensee;
- (4) A description of the client's condition on termination of any procedures undertaken;
- (5) If a client is referred to a physician, a statement providing the physician's name and office location, if known;
- (6) A copy of the consent form.

60.5(7) Failure to report. Failure to comply with paragraph 60.5(6) "b" when the adverse occurrence is related to the use of any procedure or device noted in the attestation may result in the licensee's loss of authorization to administer the procedure or device noted in the attestation or may result in other sanctions provided by law.

60.5(8) A licensee shall not provide any services that constitute the practice of medicine.

645—60.6(157) Licensure restrictions relating to practice.

60.6(1) A certified laser product or an intense pulsed light device shall only be used on surface epidermal layers of the skin except for hair removal.

60.6(2) A laser hair removal product or an intense pulsed light device shall not be used on a minor unless the minor is accompanied by a parent or guardian and then shall be used only under general supervision of a physician.

60.6(3) Persons licensed under Iowa Code chapter 157 shall not administer any practice of removing skin by means of a razor-edged instrument.

60.6(4) Persons licensed under this chapter who provide hair removal, manicuring and nail technology services shall not administer any procedure in which human tissue is cut, shaped, vaporized, or otherwise structurally altered, except for the use of a cuticle nipper.

60.6(5) Board-certified licensees providing shaving, microdermabrasion, chemical peels, laser or IPL hair removal treatments in an establishment shall not include any practice, activity, or treatment that constitutes the practice of medicine, osteopathic medicine, chiropractic or acupuncture.

60.6(6) Barbers and cosmetologists licensed prior to July 1, 2005, and licensed estheticians shall only perform medical aesthetic services in a medical spa under the delegation and supervision of a medical director as set forth by the Iowa board of medicine in rule 653—13.8(148,272C). The Iowa board of barbering and cosmetology arts and sciences does not license medical aestheticians.

60.6(7) Persons licensed under this chapter who provide apprenticeship programs must hold an active license sufficient to provide on-the-job training, must operate in an actively licensed establishment, and must comply with relevant Iowa office of apprenticeship laws and regulations for the operation of an apprenticeship program.

60.6(8) Licensees may only perform those services for which they possess the skill and knowledge required to perform the service in a professionally competent manner as set forth in Iowa Code chapter 157 and the related administrative rules and regulations.

645—60.7(157) Consent form requirements. A licensed esthetician, barber and cosmetologist, or electrologist, prior to providing services relating to a certified laser product, intense pulsed light device, chemical peel, or microdermabrasion, shall obtain from a client a consent form that:

1. Specifies in general terms the nature and purpose of the procedure(s);
2. Lists known risks associated with the procedure(s) if reasonably determinable;
3. States an acknowledgment that disclosure of information has been made and that questions asked about the procedure(s) have been satisfactorily answered;
4. Includes a signature of either the client for whom the procedure is performed or, if that client for any reason lacks legal capacity to consent, includes the signature of a person who has legal authority to consent on behalf of that client in those circumstances.

645—60.8(157) License renewal.

60.8(1) The biennial license renewal period for a license to practice cosmetology arts and sciences shall begin on April 1 of one year and end on March 31 two years later. All licensees shall renew on a biennial basis.

a. The board may send a renewal notice by regular mail to each licensee at the address on record prior to the expiration of the license.

b. The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive the notice does not relieve the licensee of the responsibility for renewing the license.

c. A new or reactivated license granted by the board to a licensee who holds a current license in another practice discipline in barbering and cosmetology arts and sciences may have the same license expiration date as the licensee's other license(s). If the licensee does not have another active license with the board, the license expiration date shall be in the current renewal period unless the license is issued within six months of the end of the renewal cycle and subrule 60.8(2) applies.

60.8(2) An individual who was issued a license within six months of the license renewal date will not be required to renew the license until the subsequent renewal two years later.

60.8(3) License renewal.

a. A licensee seeking renewal shall:

(1) Meet the continuing education requirements of rule 645—64.2(157). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

(2) Submit the completed online renewal application and renewal fee and upload certificate(s) of completion for related continuing education before the license expiration date.

b. Licensees currently licensed in Iowa but practicing exclusively in another state or serving honorably as active duty military or the spouse of active duty military service personnel may comply with Iowa continuing education requirements for license renewal by meeting the continuing education requirements of the state where the licensee practices. Those licensees living and practicing exclusively in a state which has no continuing education requirement for renewal of a license shall not be required to meet Iowa's continuing education requirement but shall pay all renewal fees when due. (Iowa Code section 272C.2(4).)

60.8(4) Upon receiving the information required by this rule and the required fee, board staff shall administratively issue a two-year license. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration or disciplinary investigation.

60.8(5) Late renewal. The license shall become late when the license has not been renewed by the expiration date on the renewal. The licensee shall be assessed a late fee as specified in 645—subrule 5.5(3). To renew a late license, the licensee shall complete the renewal requirements and submit the late fee within the grace period.

60.8(6) Inactive license. A licensee who fails to renew the license by the end of the grace period has an inactive license. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice barbering and cosmetology arts and sciences in Iowa until the license is reactivated. A licensee who practices barbering and cosmetology arts and sciences in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

60.8(7) Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

645—60.9(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

60.9(1) Submit a reactivation application on a form provided by the board.

60.9(2) Pay the reactivation fee that is due as specified in rule 645—5.5(147,157).

60.9(3) Provide verification of current competence to practice barbering and cosmetology arts and sciences by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of six hours of continuing education that meet the continuing education standards defined in rule 645—64.3(157,272C) within two years of application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license; and

(2) Verification of completion of 12 hours of continuing education that meet the continuing education standards defined in rule 645—64.3(157,272C) within two years of application for reactivation.

60.9(4) Licensees who are instructors of barbering and cosmetology arts and sciences shall obtain an additional six hours of continuing education in teaching methodology as prescribed in 645—Chapter 64.

645—60.10(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—60.9(17A,147,272C) prior to practicing barbering and cosmetology arts and sciences in this state.

These rules are intended to implement Iowa Code chapters 157 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 61
“Licensure of Establishments and Schools of Barbering and Cosmetology Arts and Sciences”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.36, 157.14, 272C.3, 272C.4 and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 157 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:50 to 2:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

This proposed rulemaking clarifies the processes by which an individual may apply for licensure of establishments and schools in order to provide barbering and cosmetology arts and sciences services, as directed in statute. The rulemaking outlines the process for licensure, including renewal and reinstatement, for fixed and readily moveable establishments. The rulemaking ensures public safety through identification of the limited services allowed outside of a licensed establishment and the requirement to inform the public when services are provided by non-licensees, such as blow-dry stylists, students and apprentices, where applicable.

For the schools, the rulemaking describes the application process, course of study requirements, and physical requirements for schools of barbering and cosmetology arts and sciences, including minimum equipment requirements, classroom use, and public notices, as well as record keeping for student attendance, accelerated learning policies, and mentoring contracts.

The rulemaking also provides guidance for legacy license holders and legacy schools following the merger of the Board of Barbering with the Board of Cosmetology Arts and Sciences.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to an applicant to comply with the minimum requirements to own a school or establishment. This includes a lease, hiring licensed staff and/or instructors (in the case of a school), compliance with Iowa laws and rules, and proper equipment for service delivery and observation of infection control standards. The fee for a biennial establishment license is \$72. The license fee for a school is \$600 for the first year with a \$270 renewal fee thereafter.

These costs are comparable to surrounding states. Minnesota's establishment fees range from \$85 (barber shop annual and renewal license fee) to \$350 (cosmetology salon license and application fee). School fees in Minnesota range from \$280 (barber school renewal fee) to \$4,000 (initial three-year cosmetology school application and license fee). In Nebraska, an initial two-year barber shop license fee is \$220; renewal is \$120. Salon two-year license fees are \$150 in Nebraska. Schools in Nebraska must pay license fees ranging from \$300 to \$900.

Board of Barbering and Cosmetology Arts and Sciences staff review applications for initial and renewal licenses, answer inquiries on licensing, and field phone calls. Staff also perform compliance audits and investigate complaints. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed rulemaking. Licensing these establishments ensures the public that the owner and practitioners are aware of the infection control and universal precautions that must be observed. If an injury occurs, the Board can inspect and evaluate the practice. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The rulemaking ensures that Iowans are treated by competent and qualified practitioners with knowledge of topics including infection control, which is pertinent to the profession to ensure safety and welfare of the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The fee for a biennial establishment license is \$72. The license fee for a school is \$600 for the first year with a \$270 renewal fee annually thereafter.

- Qualitative description of impact:

Establishing minimum requirements for licensure of establishments and inspecting the schools annually ensures safety for students, practitioners and consumers by teaching standards and methods outlined in Iowa's laws and administrative rules that promote a safe experience for the public. The cost of inaction would be increasing the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage board activities. This includes reviews at the time of initial application and during reinstatement. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff. Complaints are investigated with letters, phone calls, and in-person interviews.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rulemaking are paid by individual licensees, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated, but the Board would be concerned about the public safety of Iowans in that scenario. The cost of inaction would be increasing the potential for injury to the public that would remain unchecked without review prior to initial licensure, renewal, and complaint investigation.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, annual school inspections, and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated, but the Board would be concerned about the public safety of Iowans in that scenario.

Due to the state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, annual school inspections, and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated, but the Board would be concerned about the public safety of Iowans in that scenario.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, annual school inspections, and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated, but the Board would be concerned about the public safety of Iowans in that scenario.

Due to the state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards. The revisions to these rules support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety in terms of licensing requirements for establishments and schools of barbering and cosmetology arts and sciences. Most licensees run a small business that provides services to the public. Licensing the establishment communicates to the public that the business is aware of universal precautions, infection control standards, and record keeping requirements. Many small businesses benefit from the Board’s laws and rules, which assist the businesses in setting up their establishments and even in incorporating quarterly reviews with their employees. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 61 and adopt the following **new** chapter in lieu thereof:

CHAPTER 61

LICENSURE OF ESTABLISHMENTS AND SCHOOLS OF BARBERING AND COSMETOLOGY
ARTS AND SCIENCES

645—61.1(157) Definitions. In addition to the definitions included in Iowa Code sections 157.1 and 84D.2 and 29 Code of Federal Regulations (CFR) §29.5 as amended on December 19, 2016, the following definitions apply to terms used in this chapter:

“*Change in ownership*” means any of the following: a new owner of a sole proprietorship; the addition, removal, or replacement of any co-owner(s) in a partnership; or a change of controlling interest in any corporation.

“*Clinic area*” means the area of the school where the paying customers will receive services.

“*Dispensary*” means a separate area to be used for storing and dispensing of supplies and sanitizing of all implements.

“*Establishment license*” means a license issued to an Iowa establishment, as defined in Iowa Code section 157.1(10A), to provide barbering and cosmetology arts and sciences services.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Legacy curriculum*” means a course of study and curriculum offered by barbering schools or cosmetology arts and sciences schools that, as applicable, comply with the administrative rules issued by the Iowa board of barbering or by the Iowa board of cosmetology arts and sciences that were in effect on June 30, 2023.

“*Mentor*” means a licensee providing guidance in a mentoring program.

“*Mentoring*” means a program allowing students in a school to experience barbering and cosmetology arts and sciences in a licensed establishment under the guidance of a mentor.

“On-the-job trainer” means the individual providing instruction and supervision of the apprenticeship program practical hours. This individual must be a licensee of the board in the discipline for which the individual is training, and the training must occur in a licensed establishment.

“School” means a school of barbering and cosmetology arts and sciences.

“School license” means a license issued to an establishment that is a fixed location for the instruction of students in barbering and cosmetology arts and sciences.

645—61.2(157) Establishment licensing. No person shall operate an establishment unless the owner has obtained a license issued by the board. A separate enclosed area inside an establishment that is operated as an independent business for the purpose of providing barbering and cosmetology services shall be considered its own establishment and shall not operate unless an establishment license is obtained. To determine what defines an independent contractor versus an employee, persons should contact the Iowa division of labor services.

61.2(1) The owner shall complete a board-approved application form accompanied by the appropriate fees payable by check or money order to the board of barbering and cosmetology arts and sciences. The fees are nonrefundable. The application shall be completed according to the instructions contained in the application and submitted 30 days prior to the anticipated opening day. If the application is not completed according to the instructions, the application will not be reviewed by the board.

61.2(2) Each establishment shall meet the requirements for sanitary conditions established in 645—Chapter 63 to be eligible for licensing. The establishment may be inspected for compliance with sanitation rules within 12 months following the issuance of the establishment license.

a. The establishment license may be for a fixed location or a location that is readily movable.

(1) Stationary establishment. A stationary establishment license shall be issued for a specific location. A change in location or site of a stationary establishment shall result in the cancellation of the existing license and necessitate application for a new license and payment of the fee required by 645—subrule 5.2(7). A change of address without a change of actual location shall not be construed as a new site.

(2) Readily movable establishment. A readily movable establishment license shall be issued for a permanent physical address. The licensee is required to provide a permanent physical address for board correspondence. A readily movable establishment may operate in a legal parking spot or on private property, with the permission of the owner or the owner’s designee, anywhere in the state of Iowa, provided the readily movable establishment is operating in compliance with applicable federal and state transportation, environmental, and sanitary regulations, including those in this chapter and in 645—Chapter 63.

b. Establishment owner’s contact information. The listed owner of either a stationary or readily movable establishment must update the board within 30 days of a change in contact information, which includes telephone number, email address, and mailing address.

61.2(3) Business may commence at the establishment following activation of the license.

61.2(4) Incomplete applications that have been on file in the board office for more than two years shall be considered invalid and shall be destroyed. The records will be maintained after two years only if the applicant submits a written request to the board.

61.2(5) An establishment license shall be issued for a specific location. A change in location or site of an establishment shall require submission of an application for a new license and payment of the fee required by 645—subrule 5.5(11). A change of address without change of actual location shall not be construed as a new site.

61.2(6) An establishment license is not transferable.

a. A change in ownership of an establishment shall require the issuance of a new license.

b. An establishment cannot be sold if disciplinary actions are pending.

c. If an establishment owner sells the establishment, that owner must send the license certificate and a report of the sale to the board within ten days of the date on which the sale is final. The owner

of the establishment on record shall retain responsibility for the establishment until the notice of sale is received in the board office.

d. The board may request legal proof of the ownership transfer.

e. If the name or the address of an establishment changes, the owner shall notify the board within 30 days of such change. Additionally, the owner shall return the current certificate and pay the reissued certificate fee as specified in rule 645—5.5(147,157).

645—61.3(157) Readily movable establishment. A mobile home, motor home, trailer, or other recreational vehicle may be used as a readily movable establishment if it complies with the following:

61.3(1) The owner shall possess a current readily movable establishment license issued by the board.

61.3(2) The owner shall complete a board-approved application.

61.3(3) The readily movable establishment's owner's telephone number, email address, and permanent address must be included on the application for licensure and must be updated and accurate.

61.3(4) No service may be performed on a client in a moving vehicle. Services shall be performed in a readily movable establishment that is parked in a legal parking spot.

61.3(5) Readily movable establishments must provide:

a. A supply of hot and cold water;

b. Adequate lighting;

c. A floor surface in the service area that is nonabsorbent and easily cleanable;

d. Work surfaces that are easily cleanable;

e. Cabinets secured with safety catches wherein all chemicals shall be stored when the vehicle is moving;

f. A first-aid kit that includes adhesive dressing, gauze and antiseptic, tape, triple antibiotics, eyewash, and gloves.

61.3(6) A readily movable establishment must comply with all rules in 645—Chapter 63, “Infection Control for Establishments and Schools of Barbering and Cosmetology Arts and Sciences,” except rules 645—63.6(157) through 645—63.8(157).

645—61.4(157) Establishment license renewal.

61.4(1) The biennial license renewal period for an establishment license shall begin on January 1 of every odd-numbered year and end on December 31 two years later.

61.4(2) A renewal of license notice shall be electronically mailed to the owner of the establishment prior to the expiration of the license. Failure to receive the renewal notice shall not relieve the owner of the obligation to pay the biennial renewal fee on or before the renewal date.

61.4(3) An establishment that is issued a license within six months of the license renewal date will not be required to renew the license until the next renewal two years later.

61.4(4) The establishment owner shall submit the completed application with the renewal fee to the board office before the license expiration date.

61.4(5) An establishment shall be in full compliance with this chapter and 645—Chapter 63 to be eligible for renewal. When all requirements for license renewal are met, the establishment shall be issued a license renewal.

61.4(6) If the renewal fee and renewal application are received in the office after the license expiration date, but within 30 days following the expiration date, the late fee for failure to renew before expiration shall be charged.

645—61.5(272C) Inactive establishment license.

61.5(1) An establishment that has not renewed the establishment license within the required time frame will have an inactive license and shall not provide cosmetology services until the license is reactivated.

61.5(2) To reactivate an establishment license, the reactivation application and fee shall be submitted to the board office.

645—61.6(157) Display requirements for establishments.

61.6(1) Every establishment shall have a sign visible outside the entrance designating the place of business.

61.6(2) The most current establishment license proof of renewal shall be posted in the establishment front entrance area to provide the public a full, unobstructed view of the license.

61.6(3) The most current license proof of renewal for each licensee working in the establishment shall be posted in the establishment front entrance area to provide the public a full, unobstructed view of the license.

61.6(4) If the licensee works in more than one establishment, the current proof of renewal shall be posted in the primary place of practice, and the licensee shall be able to provide the renewal upon request.

61.6(5) Each licensee, blow-dry stylist and apprentice shall have a valid U.S. government-issued photo ID to provide to an agent of the board upon request as proof of identity.

645—61.7(147) Duplicate certificate for establishments.

61.7(1) A duplicate certificate shall be required if the current certificate is lost, stolen or destroyed. A duplicate certificate shall only be issued under such circumstances.

61.7(2) A duplicate establishment certificate shall be issued upon receipt of a completed application and receipt of the fee as specified in 645—subrule 5.5(5).

61.7(3) If the board receives a completed application stating that the owner of the establishment has not received the certificate within 60 days after the certificate is mailed by the board, no fee shall be required for issuing the duplicate certificate.

645—61.8(157) Licensure for schools of barbering and cosmetology arts and sciences.

61.8(1) An application for a school license shall be submitted 90 days prior to the anticipated opening day of the school. Prior to board review, the application shall include:

a. The exact location of the proposed school including a copy of the essential parts of the lease or other documents to provide proof that the owner of the school has occupancy rights for a minimum of one year; a complete plan of the physical facilities; and an explanation detailing how the facilities will be utilized relative to classrooms, clinic space, and a mentoring program;

b. A list of the names of licensed instructors including the school director(s) for the proposed school if the instructors and school director(s) have been hired by the school at the time of application;

c. Copies of the catalog, brochure, enrollment contract, student policies, and cancellation and refund policies that will be used by the school or distributed by the school to students and the public; and

d. The school's course of study and curriculum, which shall meet the course of study requirements outlined in rule 645—61.14(157).

61.8(2) Prior to issuance of the school license, the school shall:

a. Submit a final list of licensed instructors and director(s) hired for the school. The number of instructors must meet the requirement outlined in Iowa Code section 157.8, with the exception of instructors for the mentoring program; and

b. Meet the requirements of this chapter and 645—Chapter 63 and pass the board's inspection of the facility.

61.8(3) The school owner may be interviewed by the board during the review of the application.

61.8(4) After all criteria have been met, the school license shall be granted for the location identified in the school's application.

61.8(5) Instruction of students shall not begin until the school license is activated.

61.8(6) The school must provide proof of registration with the Iowa college student aid commission.

61.8(7) Incomplete applications that have been on file in the board office for more than two years shall be considered invalid and shall be destroyed. The records shall be maintained after two years only if the applicant submits a written request to the board.

61.8(8) Existing school license, new location. A change of location shall require submission of an application for a new school license and payment of the license fee 90 days in advance of the anticipated

date of opening. A change of address without a change of actual location shall not be construed as a new site.

61.8(9) Existing school license, new name. The owner shall notify the board in writing of a change of name within 30 days after the occurrence. In addition, the owner shall return the current certificate and pay the reissued certificate fee as specified in rule 645—5.5(147,157).

61.8(10) Existing school license, change of ownership. A school license is not transferable. A change in ownership of a school shall require the issuance of a new license. A school cannot be sold if disciplinary actions are pending.

a. The board may request legal proof of the ownership transfer.

b. If a school owner sells the school, that owner must send the license certificate and a report of the sale to the board within ten days of the date on which the sale is final. The owner of the school on record shall retain responsibility for the school until the new school owner has been issued an active school license.

c. The new school owner shall follow all requirements as outlined in rule 645—61.8(157).

61.8(11) Any school licensed as a barber school under rule 645—23.2(158) prior to [the effective date of this rulemaking] will, upon successful renewal, receive a license as a school of barbering and cosmetology arts and sciences. Any school licensed as a cosmetology arts and sciences school under this chapter prior to [the effective date of this rulemaking] will, upon successful renewal, receive a license as a school of barbering and cosmetology arts and sciences.

This rule is intended to implement Iowa Code sections 147.80, 157.6 and 157.8.

645—61.9(157) School license renewal.

61.9(1) The annual license renewal period for a school license shall begin on July 1 and end on June 30 one year later.

a. The online renewal application and renewal fee shall be submitted before the license expiration date.

b. Schools shall be in full compliance with this chapter and 645—Chapter 63 to be eligible for renewal. When all requirements for license renewal are met, the school shall be issued a license renewal.

c. Schools shall successfully complete the annual inspection pursuant to Iowa Code sections 157.6 and 157.8.

61.9(2) A school that is issued a license within six months of the license renewal date will not be required to renew the license until the next renewal one year later.

61.9(3) If the renewal fee and renewal application are submitted after the license expiration date, but within 30 days following the expiration date, the late fee for failure to renew before expiration shall be charged.

645—61.10(272C) Inactive school license.

61.10(1) If the renewal application and fee are not received in the office within 30 days after the license expiration date, the school license is inactive. To reactivate the school license, the reactivation application and fee shall be submitted to the board.

61.10(2) A school that has not renewed the school license within the required time frame will have an inactive license and shall not provide schooling or services until the license is reactivated.

645—61.11(157) Display requirements for schools.

61.11(1) Every school shall have a sign visible outside the entrance designating the place of business.

61.11(2) A school license and the current proof of renewal shall be posted in the school's front entrance area to provide the public a full unobstructed view of the license.

61.11(3) The current license proof of renewal for each instructor working at the school shall be posted in the school's front entrance area to provide the public a full unobstructed view of the license.

61.11(4) Advertisements for a school of barbering and cosmetology arts and sciences shall indicate that all services are performed by students under the supervision of instructors.

61.11(5) A sign shall be clearly displayed in the entrance of a school of barbering and cosmetology arts and sciences that indicates in prominent lettering that students perform all services under the supervision of instructors.

645—61.12(157) Physical requirements for schools of cosmetology arts and sciences. The school shall meet the following physical requirements:

61.12(1) The school premises shall have a minimum floor space of 3,000 square feet.

61.12(2) Each school shall provide a minimum of 100 square feet per student. When the enrollment in a school exceeds 30 students, additional floor space of 30 square feet shall be required for each additional student enrolled in the school.

61.12(3) Each licensed school offering a full barbering and cosmetology arts and sciences curriculum shall provide the following:

a. At least one clinic area where the paying public will receive services. The clinic area shall be confined to the premises occupied by the school.

b. A theory classroom(s) separate from the clinic area.

c. A library that is maintained for students and consists of textbooks, current trade publications and business management materials.

d. A separate area that shall be used as a dispensary. The dispensary shall be equipped with a lavatory, shelves or drawers for storing chemicals, cleansing agents and items, sterilization equipment and any other sanitation items required by 645—Chapter 63. Clean items and dirty items in the dispensary must be kept separated as required by 645—Chapter 63.

e. Two restrooms that are equipped with toilets, lavatories, soap and disposable paper towel dispensers.

f. A laundry room that is separated from the clinic area by a full wall or partition. Students may not lounge, eat, practice or study in the laundry room.

g. A separate room that is equipped for the practice of esthetics and electrology.

h. An administrative office.

61.12(4) Each licensed school offering a single discipline barbering and cosmetology arts and sciences curriculum shall provide the same physical space as outlined in subrule 61.12(3). Single discipline schools are exempt from paragraph 61.12(3) “g” if the board did not originally approve an electrology or esthetics course of study in the curriculum.

This rule is intended to implement Iowa Code sections 157.6 and 157.8.

645—61.13(157) Minimum equipment requirements. Each school of barbering and cosmetology arts and sciences shall have the following minimum equipment:

1. Workstations equipped with chair, workstation, closed drawer or container for sanitized articles, and mirror (maximum of two students per unit);

2. Treatment room(s) when electrology or esthetics or both are offered;

3. One set of hard-copy or electronic textbooks for each student and instructor;

4. Adequate number of shampoo bowls and chairs with headrests located in the clinic area and readily accessible for students and clients if the school offers a curriculum course in barbering and cosmetology;

5. Adequate equipment to perform all services in a safe and sanitary manner;

6. Audiovisual equipment available for each classroom;

7. Chair and table area for each student in the classroom;

8. One set of files maintained for all required records; and

9. Labeled bottles and containers showing intended use of the contents.

This rule is intended to implement Iowa Code sections 157.6 and 157.8.

645—61.14(157) Course of study requirements. A school of barbering and cosmetology arts and sciences shall not be approved by the board of barbering and cosmetology arts and sciences unless it complies with the course of study requirements as provided below.

61.14(1) Requirements for hours.

a. Barbering and cosmetology curriculum. Supervised practical instruction, theory and demonstrations totaling 1,550 hours must include core life sciences hours and all practices within this scope of Iowa Code section 157.1(5).

| | |
|---|--|
| Core life sciences | 150 hours |
| Barbering and cosmetology theory (including business and management related to the practice of cosmetology) | 440 hours |
| Total core life sciences and barbering and cosmetology theory: | 590 hours |
| Applied practical instruction | 960 hours |
| Total course of study | 1550 hours (51 semester credit hours) |

b. Electrology curriculum. Supervised practical instruction, theory and demonstrations totaling 425 hours must include core life sciences hours and all practices within the scope of Iowa Code section 157.1(10).

| | |
|-------------------------------|--------------------------------------|
| Core life sciences | 150 hours |
| Electrology theory | 50 hours |
| Applied practical instruction | 225 hours |
| Total course of study | 425 hours (14 semester credit hours) |

c. Esthetics curriculum. Supervised practical instruction, theory and demonstrations must include core life sciences hours and all practices within the scope of Iowa Code section 157.1(12).

| | |
|-------------------------------|--------------------------------------|
| Core life sciences | 150 hours |
| Esthetics theory | 115 hours |
| Applied practical instruction | 335 hours |
| Total course of study | 600 hours (20 semester credit hours) |

d. Nail technology curriculum. Supervised practical instruction, theory and demonstrations must include core life sciences hours and all practices within the scope of Iowa Code section 157.1(24).

| | |
|-------------------------------|--------------------------------------|
| Core life sciences | 150 hours |
| Nail technology theory | 50 hours |
| Applied practical instruction | 125 hours |
| Total course of study | 325 hours (11 semester credit hours) |

Proof of curriculum requirements may be submitted to the board by either the clock hour or semester credit hour standard. Semester credit hours or the equivalent thereof shall be determined pursuant to administrative rules and regulations promulgated by the U.S. Department of Education.

61.14(2) Curriculum requirements.

a. Theory instruction shall be taught from a standard approved textbook but may be supplemented by other related textbooks. Online coursework is allowed for theory instruction.

b. Course subjects taught in the school curriculum, including skills and business management, shall relate to the specific practice discipline.

c. Required hours for theory and applied practical hours do not have to be obtained from one school.

d. Core life sciences curriculum hours shall be transferable in their entirety from one practice discipline to another practice discipline. Online coursework is allowed for core life sciences instruction.

e. Clock hours may be converted to credit hours using a standard, recognized method of conversion. Only hours from accredited or board-approved school programs will be accepted.

61.14(3) Core life sciences curriculum. The core life sciences curriculum shall contain the following instruction:

- a.* Human anatomy and physiology:
Cell, metabolism and body systems,
Human anatomy;
- b.* Bacteriology;
- c.* Infection control practices:
Universal precautions,
Sanitation,
Sterilization,
Disinfection;
- d.* Basic chemistry;
- e.* Matter;
- f.* Elements:
Compounds and mixtures;
- g.* Basic electricity;
- h.* Electrical measurements:
Reproduction of light rays,
Infrared rays,
Ultraviolet rays,
Visible rays/spectrum;
- i.* Safety;
- j.* Hygiene and grooming:
Personal and professional health;
- k.* Professional ethics;
- l.* Public relations; and
- m.* State and federal law, administrative rules and standards.

61.14(4) The school shall maintain a copy of the curriculum plan as directed by the school's accrediting agency or, if not subject to an accrediting agency, for a minimum of three years after the curriculum plan was taught by the school.

61.14(5) A school initially licensed after [the effective date of this rulemaking] must offer a curriculum and course of study for one or more practice disciplines as prescribed in subrules 61.14(1) through 61.14(3).

61.14(6) For a school licensed prior to [the effective date of this rulemaking], the following provisions apply:

- a.* Students enrolling in the school on or after August 1, 2024, must be taught a curriculum and course of study for one or more practice disciplines as prescribed by subrules 61.14(1) through 61.14(3).
- b.* Students enrolling in the school prior to August 1, 2024, may either be taught:
 - (1) A curriculum and course of study for one or more practice disciplines as prescribed by subrules 61.14(1) through 61.14(3); or
 - (2) A legacy curriculum in one or more practice disciplines. Any student graduating from a school after completing a legacy curriculum pursuant to this subrule will satisfy the education requirement for licensure as provided in 645—subparagraph 60.2(1)“c”(1).

645—61.15(157) Instructors. All instructors in a school of cosmetology arts and sciences shall be licensed by the department.

61.15(1) An instructor teaching a course in electrology, esthetics or nail technology shall also hold a license in that practice discipline or hold a barbering and cosmetology license that shows proof of having completed training in those practices equivalent to that of a license holder in that practice.

61.15(2) An instructor teaching a course in shaving, microdermabrasion, chemical peels, intense pulsed lights (IPLs) and lasers shall be certified by the state of Iowa to provide each of the services, as set forth in rule 645—60.4(157). An individual who was licensed as an Iowa barber prior to July 1, 2023, is not required to hold a shaving certificate.

61.15(3) A minimum of two instructors shall be employed on a full-time basis for up to 30 students and an additional instructor for each additional 15 students.

a. The number of instructors for each school of barbering and cosmetology arts and sciences shall be based upon total enrollment.

b. A student instructor shall not be used to meet licensed instructor-to-student ratios.

c. A school with less than 30 students enrolled may have one licensed instructor on site in the school if offering only clinic services or only theory instruction in a single classroom and less than 15 students are present.

d. If a school is offering clinic services and theory instruction simultaneously to less than 15 students, at least two licensed instructors must be on site.

e. Area community colleges operating a school prior to September 1, 1982, with only one instructor per 15 students are not subject to this subrule and may continue to operate with the ratio of one instructor to 15 students. A student instructor shall not be used to meet licensed instructor-to-student ratios.

61.15(4) An instructor shall:

a. Be responsible for and in direct charge of all physical and virtual core and theory classrooms and practical classrooms and clinics at all times;

b. Familiarize students with the different standard supplies and equipment used in establishments; and

c. Not perform barbering and cosmetology arts and sciences services, with or without compensation, on the school premises except for demonstration purposes.

This rule is intended to implement Iowa Code chapter 157.

645—61.16(157) Student instructors. A student instructor shall be a graduate of an approved school of barbering and cosmetology arts and sciences. Each student instructor shall be under the direct supervision of a licensed instructor at all times.

645—61.17(157) Students.

61.17(1) A school of barbering and cosmetology arts and sciences shall, prior to the time a student is obligated for payment, inform the student of all provisions set forth in Iowa Code section 714.25. The school shall retain a copy of the signed statement for two years following the student's graduating or leaving the program.

61.17(2) Students shall:

a. Wear clean and neat uniforms at all times during school hours and during the mentoring program;

b. Be supervised by a licensed instructor at all times except in a mentoring program when the students shall be under the guidance of a mentor;

c. Be provided regularly scheduled breaks and a minimum of 30 minutes for lunch;

d. Attend school no more than eight hours a day. Schools may offer additional hours to students who submit a written request for additional hours;

e. Receive no compensation from the school for services performed on clients;

f. Provide services to the public only after completion of a minimum of 10 percent of the course of study;

g. Not be called from theory class to provide services to the public;

h. Not be required to perform janitorial services or be allowed to volunteer for such services. Sanitation of the bathroom area shall be limited to replacing products and disinfecting the vanity and mirror surfaces. Sanitation of the toilet and bathroom floor areas is not to be performed by the student and is excluded from student sanitation duty; and

i. Receive no credit or hours for decorating for marketing or merchandising events or for participating in demonstrations of cosmetology arts and sciences when the sole purpose of the event is to recruit students and the event is outside the curriculum course.

645—61.18(157) Attendance requirements.

61.18(1) A school of barbering and cosmetology arts and sciences shall have a written, published attendance policy.

61.18(2) Schools shall ensure:

- a.* Students complete the hours required for each course of study set forth in rule 645—61.14(157).
- b.* Student attendance policies are applied uniformly and fairly for all physical and virtual classes.
- c.* Appropriate credit is given for all hours earned.
- d.* All retake tests and projects to be redone are completed without benefit of additional hours earned. Time scheduled for such work will be scheduled at the school's discretion.
- e.* Hours or credit is not added to the cumulative student record as an award or deducted from the cumulative student record as a penalty.
- f.* Work that must be done for missed hours must be allowed. The student must be given full credit for hours earned.

61.18(3) Pursuant to the federal Department of Education and accrediting standards agency, the school may adopt an absence policy not to exceed 10 percent of required coursework for doctor's excuses and life events. In no way shall this policy create a penalty for the student nor excuse the student from the remaining 10 percent of required coursework.

This rule is intended to implement Iowa Code chapter 157.

645—61.19(157) Accelerated learning.

61.19(1) A school may adopt an accelerated learning policy that includes the acceptance of life experience, prior knowledge learned and test-out procedures.

61.19(2) If the school has an accelerated learning policy, the policy shall be a written, published policy that clearly outlines the criteria for acceptance and hours or credit granted or for test-out procedures. The hours or credit granted for accelerated learning shall not exceed 20 percent of the student's entire course of study and shall be documented in the participating student's file.

- a.* After completion of all entrance requirements, a student may elect to sit for one or more academic written tests to evaluate the knowledge about subject matter gained from life experience or prior learning experience.
- b.* A student in a barbering and cosmetology arts and sciences course of study may be allowed to test out of a subject by sitting for final examinations covering the basic knowledge gained by a student who attends class sessions, or the school may accept and grant hours for prior or concurrent education and life experience.
- c.* A student who wishes to receive test-out credit or be granted hours for prior or concurrent education or life experience shall have maintained the academic grades and attendance policy standards set by the school.
- d.* The school may limit the number of times a student is allowed to sit for a test-out examination of a subject.

645—61.20(157) Mentoring program. Each cosmetology school must have a contract between the student, the school and the establishment mentor that includes scheduling, liability insurance and purpose of the mentoring program.

61.20(1) Students shall not begin the mentoring program until they have completed a minimum of 50 percent of the total contact or credit hours and other requirements of the mentoring program established by the school.

61.20(2) Students may participate in a mentoring program for no more than 5 percent of the total contact or credit hours.

61.20(3) Students shall be under supervision of the mentor at all times. Students may perform the following: drape, shampoo, remove color and perm chemicals, remove perm rods, remove rollers, apply temporary rinses, apply reconditioners and rebuilders with the recommendation of the mentor, remove nail polish, file nails, perform hand and arm massage, remove cosmetic preparations, act as receptionist, handle retail sales, sanitize establishment, consult with client (chairside manners), perform inventory, order supplies, prepare payroll and pay monthly bills, and hand equipment to the mentor.

61.20(4) The establishment mentor's responsibilities include the following: introduce the student to the establishment and the client, record the time of the student's attendance in establishment, prepare evaluation, discuss performance, and allow the student to shadow.

61.20(5) An establishment or school shall not compensate students when the students are participating in the mentoring program.

645—61.21(157) Graduate of a school of barbering and cosmetology arts and sciences.

61.21(1) A student shall be considered a graduate when the student has completed the required course of study and met the minimum attendance standard.

61.21(2) Students shall be given a final examination upon completion of the course of study but before graduation.

61.21(3) After passage of the final examination and completion of the entire course of study including all project sheets, students shall be issued a certificate of completion of hours required for the course of study.

645—61.22(157) Records requirements.

61.22(1) Each school of cosmetology arts and sciences shall maintain a complete set of student records. Individual student hours shall be kept on file at the school for two years following graduation.

61.22(2) Each school shall maintain daily teaching logs for all instructors, which shall be kept on file at the school for two years.

61.22(3) Prior to closure, the controlling school shall establish agreements with another school to maintain student and graduate transcripts and records. Prior to closure, the controlling school shall also notify the board in writing of the location of student records as established by the maintenance agreements and shall submit a copy of the maintenance agreements to the board. Provisions in the agreement must include maintenance of student transcript records for a period of no less than two years.

645—61.23(157) Classrooms used for other educational purposes. The licensed school of barbering and cosmetology arts and sciences may be used during scheduled theory or applied practical time for any use other than for student instruction so long as these activities do not disrupt classes. Activities that disrupt classes include but are not limited to:

61.23(1) Persons attending other educational classes passing through a classroom or clinic area (en masse) while it is in use.

61.23(2) Activities with noise levels that are disruptive to other classes.

61.23(3) Activities that usurp the space available for barbering and cosmetology arts and sciences instruction.

645—61.24(157) Public notice.

61.24(1) A sign shall be clearly displayed in the entrance of a licensed establishment operating an apprenticeship program that indicates in prominent lettering that apprentices are employed at the establishment and may perform services under the supervision of a licensed apprenticeship supervisor.

61.24(2) If any blow-dry stylist(s) engage in the practice of blow-dry styling at a licensed establishment, a sign shall be clearly displayed in the entrance of such establishment that indicates in prominent lettering that blow-dry stylist(s) perform limited services, as defined in Iowa Code section 157.12C, in the licensed establishment.

These rules are intended to implement Iowa Code chapters 157 and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 63
“Infection Control for Establishments and Schools of Barbering and Cosmetology Arts and Sciences”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.76, 157.14, 272C.3, 272C.4 and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 157 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:50 to 2:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

Iowa residents, the public, licensees, and employers benefit from the proposed rulemaking because it clarifies the infection control processes by which service providers may ensure the protection of public health as directed in statute.

The rulemaking publicly establishes the responsibilities of the establishment and school owners and service providers and the processes for keeping clean and used items separated, cleaning and disinfecting implements, storing and dispensing supplies, and disposal of porous instruments. The rulemaking also outlines infection control methods for the use of creams, cosmetics, and applicators and the practices consistently used to prevent exposure to blood-borne pathogens and the transmission of disease.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licenses may incur costs related to infection control responsibilities of the licensee. The Board of Barbering and Cosmetology Arts and Sciences recognizes that there are costs associated with infection control protocols and standards, but is unable to assess an actual cost.

Minnesota infection control requirements mirror Iowa's, including hand washing, use of a biohazard sharps container for needles and other sharp instruments, open sores protocol, and equipment sterilization. Nebraska's infection control requirements are also similar to Iowa's, but Nebraska has more stringent requirements related to safety data recording for services and all disinfectant products.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of infection control regulations is to ensure public safety and maintain a high level of care for Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board does not have data on the actual costs of implementing the infection control regulations for each licensee or establishment. The Board has not identified a more cost-effective alternative to the current complaint investigation and school inspection process.

Infection control requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

- Qualitative description of impact:

Establishing minimum infection control requirements ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public that would remain unchecked without a basic understanding of infection control as outlined in these rules, as well as complaint investigation.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage board activities, which include investigation of complaints with letters, phone calls, and in-person interviews.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing infection control regulations are paid to private entities that provide the necessary cleaning, biohazard disposal equipment, and sterilization equipment for the licensees. This rulemaking has no anticipated impact on state revenues.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

There would be a loss of revenue for the private industries that provide the equipment and supplies necessary to implement safe infection control practices.

Infection control requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

Due to the state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). 2023 Iowa Acts, House File 652, merged the Boards of Cosmetology Arts and Sciences and Barbering to create one board, which also increases efficiencies and reduces

duplication. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize board processes across all professional licensing boards.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current complaint investigation and school inspection process. Infection control requirements could be reduced or eliminated for the purpose of lowering the standard of practice by the profession, but the Board would be concerned about accomplishing the intended benefit of protecting public health and safety of Iowans.

A review of surrounding states has shown that Iowa's infection control policies are in line with those of other states. Minnesota infection control requirements mirror Iowa's, including hand washing, use of a biohazard sharps container for needles and other sharp instruments, open sores protocol, and equipment sterilization. Nebraska's infection control requirements are also similar to Iowa's, but Nebraska has more stringent requirements related to safety data recording for services and all disinfectant products.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring whether the Board would recommend a change in the requirements for infection control. The Board has not identified a more cost-effective alternative to the current requirements that would ensure the same level of safety of Iowans.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes that eliminating the infection control requirements would increase the number of injuries to the public for unsafe practices, contamination, and spread of diseases.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large corporation. The rulemaking is meant to ensure public safety in terms of disease, cleanliness of facilities, and sterilization of equipment. To exempt small businesses from adhering to these rules would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 63 and adopt the following **new** chapter in lieu thereof:

CHAPTER 63
INFECTON CONTROL FOR ESTABLISHMENTS AND SCHOOLS OF BARBERING AND
COSMETOLOGY ARTS AND SCIENCES

645—63.1(157) Definitions. For purposes of these rules, the following definitions shall apply:

“*Cleaning*” refers to removing visible debris and disposable parts, washing the surface or item with water and soap or detergent, rinsing the surface or item thoroughly and drying the surface or item. Cleaning must occur before disinfection can begin.

“*Disinfectant*” means an EPA-registered bactericidal, virucidal, fungicidal, pseudomonacidal chemical solution, spray or wipe that is effective against HIV-1 and human hepatitis B virus and is intended to destroy or irreversibly inactivate specific viruses, bacteria, or pathogenic fungi, but not necessarily their spores, on nonporous items and surfaces.

“*Disinfection*” means the procedure that kills pathogenic microorganisms, but not necessarily their spores.

“*Dispensary*” means a separate physical location or area in an establishment or school to be used for the storing and dispensing of supplies and cleaning and disinfecting of all implements. The dispensary is where products, chemicals and disinfectants are prepared, measured, mixed, portioned, and disposed of.

“*FDA*” means the federal Food and Drug Administration.

“*Germicide*” means an agent that destroys germs.

“*Nonporous*” means an item that lacks minute openings or crevices that keep air, water and bacteria from entering the item.

“*Porous*” means an item that contains minute openings or crevices that allow air, water and bacteria to enter the item, such as untreated wood, paper and cardboard.

“*School*” means a school of cosmetology arts and sciences.

“*Service provider*” means any person regulated by Iowa Code chapter 157, including but not limited to establishment owners, licensees, students, blow-dry stylists and apprentices.

“*Sterilization*” means the procedure that kills all microorganisms, including their spores.

“*Universal precautions*” means practices consistently used to prevent exposure to blood-borne pathogens and the transmission of disease.

“*Wash hands*” means the process of thoroughly washing hands and the exposed portions of the arms up to the elbow with soap or detergent and water and drying with a single-use towel or air dryer. Bar soap shall not be set out for common use.

645—63.2(157) Infection control rules and inspection report. Upon request, the licensee shall make Chapter 63, “Infection Control for Establishments and Schools of Barbering and Cosmetology Arts and Sciences,” and the most recent inspection report available to the board, agents of the board, all persons employed or studying in an establishment or school, and the general public.

645—63.3(157) Responsibilities of establishment owners. Each establishment owner shall ensure the following:

1. The establishment owner holds a current and active establishment license issued by the board that reflects the current name, address and owner information;
2. Individuals employed for barbering and cosmetology arts and sciences services or other licensees working in the establishment hold a current and active license issued by the board of barbering and cosmetology arts and sciences;
3. Licensees employed by the establishment or other licensees working in the establishment do not exceed their scope of practice; and
4. License renewal cards are properly displayed in the front entrance area at eye level. No license which has expired or become invalid for any reason shall be displayed in connection with the practices of the establishment.

645—63.4(157) Responsibilities of licensees. Licensees are responsible for:

1. Their own station areas;
2. Holding a current and active license issued by the board of barbering and cosmetology arts and sciences; and
3. Ensuring that they do not exceed their scope of practice.

645—63.5(157) Joint responsibility. Establishment owners and licensees are jointly responsible for all service and common areas.

645—63.6(157) Building standards. Establishments and schools shall have and maintain:

1. A service area that is equipped with exhaust fans or air filtration equipment that is of sufficient capacity to be capable of removing chemical fumes from the air;
2. A dispensary;
3. A reception area;
4. Hot and cold running water and clean lavatory facilities;
5. Safe drinking water;
6. Hand-washing facilities;
7. Adequate lighting;
8. Work surfaces that are easily cleanable; and
9. A complete first-aid kit in a readily accessible location on the premises. At a minimum, the first-aid kit must include adhesive dressings, gauze and antiseptic, tape, triple antibiotics, eyewash, and gloves.

645—63.7(157) Establishments in residential buildings.

63.7(1) An establishment located in a residential building shall comply with all requirements in rule 645—63.5(157).

63.7(2) A separate entrance shall be maintained for establishment rooms in a residential building. An exception is that an entrance may allow passage through a nonliving area of the residence, i.e., hall, garage or stairway. Any door leading directly from the licensed establishment to any portion of the living area of the residence shall be closed at all times during business hours.

645—63.8(157) Establishments adjacent to other businesses. An establishment operated adjacent to any other business shall be separated by at least a partial partition. When the establishment is operated immediately adjacent to a business where food is handled, the business shall be entirely separated, and any doors between the establishment and the business shall be rendered unusable except in an emergency.

645—63.9(157) Smoking. All establishments licensed by the board shall comply with the smokefree air Act found in Iowa Code chapter 142D.

645—63.10(157) Personal cleanliness. Any service provider engaged in serving the public shall be neat and clean in person and attire.

645—63.11(157) Universal precautions. Any service provider shall practice universal precautions consistently by observing the following:

63.11(1) Thoroughly wash hands after smoking, vaping, eating, using the restroom, etc., and before providing services to each client. Hand sanitizers or gloves are not an acceptable substitute for hand washing.

63.11(2) Maintain biohazard sharps container for disposing of used needles, razor blades and other sharp instruments in establishments. These containers shall be located as close to the use area as is practical. These containers shall not be filled above designated “fill line” and shall be disposed of in accordance with guidelines issued by the Centers for Disease Control and Prevention, U.S. Department of Health and Human Services.

63.11(3) Wear disposable gloves or may refuse to provide the service when encountering clients with open sores. Gloves shall only be used on a single client and shall be disposed of after the client's service. Anytime gloves are used during a service, wash hands both before gloves are worn and after they are removed.

63.11(4) Refrain from all direct client care and from handling client-care equipment if the service provider has open sores that cannot be effectively covered.

63.11(5) Clean and disinfect instruments and implements pursuant to rule 645—63.13(157).

63.11(6) Place instruments and supplies that have been used on a client or soiled in any manner in the proper receptacles clearly labeled "used." All used items shall be kept separate from items that are disinfected and ready for use.

63.11(7) Store disinfectant solution in the dispensary.

645—63.12(157) Blood exposure procedures.

63.12(1) If a service provider injures oneself, the following steps shall be taken before returning to service:

- a. Stop service.
- b. Clean the injured area by washing the area with soap and water. Use antiseptic or ointment as appropriate.
- c. In the case of mucous membrane exposure, wash or rinse the affected area with sufficient water.
- d. Cover the injury with the appropriate dressing.
- e. Clean the client and station as necessary. First, remove all visible debris and then clean the client with an antiseptic that is appropriate for the skin and clean the station with disinfectant.
- f. Bag any blood-soiled porous articles and dispose of articles in the trash.
- g. Wash and disinfect all nonporous items.
- h. Wash hands before returning to service.

63.12(2) If a client injury occurs, the service provider shall take the following steps:

- a. Stop service.
- b. Glove hands.
- c. Clean injured area and use antiseptic or ointment as appropriate.
- d. Cover the injury with the appropriate dressing to prevent further blood exposure.
- e. Clean station by removing all visible debris and using disinfectant that is appropriate for the soiled surface.
- f. Bag any blood-soiled porous articles and dispose of articles in the trash.
- g. Wash and disinfect all nonporous items.
- h. Wash hands before returning to service.

645—63.13(157) Disinfecting and sterilizing instruments and equipment. All nonporous tools and implements must be either disinfected or sterilized according to the requirements of this rule before use upon a client in schools and establishments.

63.13(1) Disinfection.

a. Nonporous tools and implements.

(1) Immersion method. After each use, all immersible nonporous tools and implements shall be disinfected by cleaning the tools and implements followed by complete immersion in a disinfectant. Disinfectant solutions shall be mixed according to manufacturer label instructions. The manufacturer's listed contact time for effectively eliminating all pathogens shall be adhered to at all times.

(2) Nonimmersion method. After each use, any nonporous item that cannot be immersed in a disinfectant shall be cleaned with soap or detergent and water to remove all organic material and then sprayed or wiped with disinfectant. Minimum disinfectant contact time as listed on the manufacturer's label shall be followed. Nonimmersible tools and implements include but are not limited to scissors, trimmers, clippers, handles of hair dryers and curling/flat irons.

b. Disinfected implements shall be stored in a disinfected, dry, covered container and shall be isolated from contaminants. Such container shall be disinfected at least once each week and whenever visibly dirty.

c. Disinfectant solutions shall be changed as instructed on the solution's manufacturer label or whenever visibly dirty.

d. Electric file bits.

(1) After each use, all visible debris shall be removed from diamond, carbide, natural and metal bits by cleaning with either an ultrasonic cleaner or immersion of each bit in acetone for 5 to 10 minutes.

(2) After they are cleaned, diamond, carbide, natural and metal bits shall be disinfected by complete immersion in an appropriate disinfectant. Minimum disinfectant contact time as listed on the manufacturer's label shall be followed.

63.13(2) Sterilization. UV light boxes are prohibited and are not an acceptable method of sterilization.

a. Tools and implements may be sterilized by one of the following methods:

(1) Steam sterilizer, registered and listed with the FDA and used according to the manufacturer's instructions. If steam sterilization, moist heat, is utilized, heat exposure shall be at a minimum of 121°C/250°F, for at least 30 minutes;

(2) Dry heat sterilizer, registered and listed with the FDA and used according to the manufacturer's instructions. If dry heat sterilization is utilized, heat exposure shall be at a minimum of 171°C/340°F, for at least 60 minutes;

(3) Autoclave sterilization equipment, calibrated to ensure that it reaches the temperature required by the manufacturer's instructions. If autoclave sterilization equipment is utilized, spore testing by a contracted independent laboratory shall be performed at least every 30 days. If a positive spore test is received, the autoclave may not be used until a negative spore test is received. The establishment must maintain a log of each autoclave use, all testing samples and results, and a maintenance log of all maintenance performed on the device. Maintenance shall be performed according to the manufacturer's instructions. The establishment must have available for inspection the autoclave maintenance log for the most recent 12 months; or

(4) Chemical sterilization with a hospital grade liquid which, if used, shall be used according to the directions on the label. When chemical sterilization is used, items shall be fully submerged for at least 10 minutes.

b. Sterilization equipment shall be maintained in working order. The equipment shall be checked at least monthly and calibrated to ensure that it reaches the temperature required by the manufacturer's instructions.

This rule is intended to implement Iowa Code section 157.6.

645—63.14(157) Porous instruments and supplies that cannot be disinfected. Porous instruments and supplies that come into direct contact with a client cannot be disinfected. These instruments and supplies include but are not limited to cotton pads, sponges, wooden applicators, emery boards, pumice stones, nail buffers, buffing bits, arbor or sanding bands, sleeves, toe separators and neck strips. These are single-use items and shall be disposed of in a waste receptacle immediately after use.

645—63.15(157) Reserved.

645—63.16(157) Infection control methods for creams, cosmetics and applicators.

63.16(1) Liquids, creams, waxes, powders and cosmetics used for clients must be kept in closed, labeled containers.

63.16(2) All fluids, semifluids and powders must be dispensed with an applicator or from a shaker, dispenser pump, or spray-type container.

a. Applicators made of a washable, nonabsorbent material shall be cleaned and disinfected before being used on a client and shall only be dipped into the container one time before being cleaned and disinfected again.

- b. Applicators made of wood shall be discarded after a single dip, which would be one use.
- c. Roll-on wax products are prohibited.
- d. The use of a styptic pencil is strictly prohibited; its presence in the workplace shall be prima facie evidence of its use. Any material used to stop the flow of blood shall be used in liquid or powder form.
- e. Neck dusters, brushes, and common shaving mugs and soap shall not be used in any establishment or school.

645—63.17(157) Events and services provided outside of a licensed establishment.

63.17(1) Licensed barber and cosmetologists, nail technicians, and estheticians may provide limited services at certain locations (e.g., weddings) outside of a licensed establishment. Limited services:

- a. Include makeup application, strip lashes, polish removal and application, and hairstyling
- b. Do not include the use of chemicals, lasers, or other machines.
- c. May include haircutting, subject to the limitations on location provided in subrule 63.17(2).

63.17(2) Licensees may provide limited services outside of a licensed establishment as follows:

- a. Limited services may not be provided unless scheduled through a licensed establishment.
- b. Limited services must be within the scope of practice of the licensed barber and cosmetologist, nail technician, or esthetician.
- c. Limited services, including haircutting, may be provided at:
 - 1. The temporary or permanent residence of a client.
 - 2. The hospital, health care facility, nursing home or convalescent home of a client.
- d. Limited services, excluding haircutting, may be provided at special events such as, but not limited to, weddings and photo shoots.

645—63.18(157) Prohibited hazardous substances and use of products and equipment.

63.18(1) No establishment or school shall have on the premises cosmetic products containing substances which have been banned or otherwise deemed hazardous or deleterious by the FDA for use in cosmetic products. Prohibited products include, but are not limited to, any product containing liquid methyl methacrylate monomer and methylene chloride. No product shall be used in a manner that is not approved by the FDA. Presence of a prohibited product in a establishment or school is prima facie evidence of that product's use in the establishment or school.

63.18(2) Pedicure instruments designed to remove skin from the bottoms and sides of feet, including but not limited to razor-edged, grating or rasp microplaners, are prohibited. The presence of such equipment is prima facie evidence of the equipment's use.

63.18(3) Procedures involving any animal (e.g., fish, leeches, snails) are prohibited in establishments and schools.

63.18(4) No establishment or school may have chamois buffers. If chamois buffers are observed in the workplace, their presence is prima facie evidence of their use.

63.18(5) No establishment or school may use plastic sleeves or envelopes to store cleaned and disinfected implements unless the implements stored in the plastic sleeves or envelopes have actually been sterilized pursuant to paragraph 63.13(2)“a.”

645—63.19(157) Proper protection of neck. A cape, haircloth, or similar article may not be placed directly against the neck of a client but shall be kept from direct contact with the client by means of a paper neckband or clean towel. A neckband of paper shall not be used more than once. Towels or cloth neckbands shall not be used more than once without proper laundering.

645—63.20(157) Proper laundering and storage. All cloth towels, robes and similar items shall be laundered in a washing machine with laundry detergent used according to the manufacturer's directions. All linens shall be dried until hot to the touch. No moisture shall be left in laundered items. A clean storage area shall be provided for clean towels and linen, and a covered hamper or receptacle marked “used” shall be provided for all soiled towels, robes and linens.

645—63.21(157) Animals. Dogs, cats, birds, or other animals are not permitted in establishments or schools. This rule does not apply to service animals as defined by the Americans with Disabilities Act or to fish in an aquarium provided the aquarium is maintained in a sanitary condition.

645—63.22(157) General maintenance. All areas of the establishment and school shall be clean and in good repair.

63.22(1) Walls, floors, and fixtures must be kept clean and in good repair at all times.

63.22(2) Carpeting shall only be allowed in the reception and hooded dryer areas.

645—63.23(157) Records. Client records, appointment records, and employment records shall be maintained for a period of no less than three years following the last date of entry. Proper safeguards shall be provided to ensure the safety of these records from destructive elements.

63.23(1) Records for events and services provided outside of a licensed establishment must include:

a. Client name and contact information.

b. Date, time and location of the event or service.

c. Name and license number of the licensee performing the service.

d. A signed and dated waiver stating that the client understands this limited service shall not include the use of chemicals, must be provided by a licensed practitioner and that all infection control procedures shall be followed.

63.23(2) Records for employment of blow-dry stylists must include:

a. Name and contact information of the employee.

b. Record of completion of a course on Iowa law, rules and infection control prior to employment as outlined in Iowa Code section 157.12C.

c. Hire date and termination date

d. A signed and dated waiver stating that the employee understands blow-dry stylist services may only be performed in a licensed establishment upon completion of a course on Iowa law, rules and infection control. This waiver must be completed every two years as a condition of employment.

63.23(3) Foot spa service area records are outlined in subrule 63.25(3).

645—63.24(157) Establishments and schools providing electrology or esthetics. An establishment or school in which electrology or esthetics is practiced shall follow the infection control rules and requirements pertaining to all establishments and schools and shall also meet the following requirements:

1. The electrology or esthetics room shall have adequate space, lighting and ventilation.

2. The floors in the immediate area where the electrology or esthetics is performed shall have an impervious, smooth, washable surface.

3. All service table surfaces shall be constructed of impervious, easily disinfected material.

4. Needles, probes and lancets shall be single-client use and disposable.

5. Licensees providing electrology services shall wear gloves.

6. Adequate access to a sink or running water shall be provided.

645—63.25(157) Cleaning and disinfecting circulating and noncirculating tubs, bowls, and spas.

63.25(1) After use for each client:

a. Drain the water and remove any visible debris;

b. Clean the surfaces according to the manufacturer's instructions, use a brush to remove all film, and rinse the tub, bowl, or spa basin;

c. Fill the tub, bowl, or spa basin with water and add disinfectant;

d. Allow the disinfectant to stand for noncirculating tubs, bowls, or basins or to circulate for circulating tubs, bowls, or basins for the time specified according to the manufacturer's instructions; and

e. After disinfection, drain and rinse with clean water.

63.25(2) At the end of the day, remove all removable parts from circulating tubs, such as filters, screens, drains, and jets, and clean and disinfect the removable parts as follows:

- a. Scrub with a brush and soap or detergent until free from debris, and then rinse.
- b. Completely immerse in disinfectant.
- c. Rinse and air dry.
- d. Replace the disinfected parts into the tubs, bowl, or basin or store the parts in a disinfected, dry, covered container that is isolated from contaminants.

63.25(3) Foot spa service area records. For each foot spa service, including but not limited to pedicures, a record shall be made of the date and time of the daily cleaning and disinfecting for all circulating and noncirculating tubs, bowls or basins. This record shall be made at or near the time of cleaning and disinfecting. Records of cleaning and disinfecting shall be made available upon request by a client, inspector or investigator. The record must be signed by a licensee and include the licensee's license number beside each recorded cleaning event. Foot spa records shall be maintained for two years from the date of the cleaning.

645—63.26(157) Paraffin wax. Paraffin wax shall be used according to the manufacturer's instructions and shall be used in such a manner so as not to contaminate the remaining wax in the paraffin bath. The following procedures apply:

1. The client shall be free of broken skin or any skin disorder;
 2. Hands or feet of a client shall be cleaned before being dipped into paraffin wax. The client's hands and feet shall not be dipped into the original wax container. The wax shall be removed from the original container and placed in a single-use bag before dipping. Any unused wax remaining in the single-use bag shall be discarded after dipping;
 3. Paraffin wax that has been removed from a client's hands or feet shall be discarded after each use; and
 4. Paraffin wax shall be kept free of any debris and kept covered when not in use.
- These rules are intended to implement Iowa Code section 147.7 and chapter 157.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 64
“Continuing Education for Barbering and Cosmetology Arts and Sciences”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.76, 157.14, 272C.2A, 272C.4 and 272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 157 and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:50 to 2:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call:
meet.google.com/bfq-qaeb-nwu
More phone numbers:
[tel.meet/bfq-qaeb-nwu?pin=7324359836726](tel:meet/bfq-qaeb-nwu?pin=7324359836726)

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

This proposed rulemaking sets forth continuing education requirements for barbers, cosmetologists, nail technicians, estheticians, electrologists, and instructors. The rulemaking includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet in order to comply with the rules, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that licensees stay up-to-date with infection control, laws, rules, and industry standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Iowa requires six hours of continuing education every two years. Private industry offers these courses, so the Board of Barbering and Cosmetology Arts and Sciences is not privy to exact costs, but based on research estimates, costs may be as low as \$30 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that barber and cosmetology arts and sciences licensees maintain up-to-date knowledge on infection control and practical service-related skills and, as a result, provide high quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Iowa Code section 272C.2A requires six hours of continuing education every two years for licensees. Private industry offers these courses, so the Board is not privy to exact costs, but based on research estimates, costs may be as low as \$30 every two years for a licensee to meet these requirements. There are multiple entities that provide continuing education courses to licensees.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standards of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held since it is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. An executive officer supports the full scope of work of this Board at approximately 0.74 full-time equivalent (FTE) position, which includes answering questions from the public and licensees relating to practice standards, continuing education, Board meeting administration, and more.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. This rulemaking has no anticipated impact on state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The continuing education requirement is statutory and would require legislative change. The Board does not recommend a change in continuing education hours at this time. Iowa's six-hour continuing education requirement is consistent with or less than the requirements of a number of neighboring states, including Nebraska, Illinois, and Minnesota.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

A less restrictive alternative would be to reduce the amount of continuing education required. This would require a statutory change. The Board does not recommend a change in continuing education hours at this time. Iowa's six-hour continuing education requirement is consistent with or less than the requirements of a number of neighboring states, including Nebraska, Illinois, and Minnesota, depending on the type of license. For example, Illinois requires 14 hours of continuing education every two years for cosmetologists; Minnesota and Nebraska require 8 hours every two years.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Iowa Code section 272C.2A requires a minimum of six hours of continuing education for licensees. A change in these requirements would require legislative action. Staff held conversations with members of the Board inquiring whether the Board would recommend lowering the continuing education requirements. The Board does not recommend a legislative change at this time.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. This would require a legislative change. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

Continuing education requirements for a minimum of six hours biannually at the time of the practitioner's license renewal are outlined in Iowa Code section 272C.2A. This is a small business opportunity for many licensees, including owners of establishments and schools, as long as the provider meets the requirements of the rules and seeks sponsorship from one of the identified entities prior to offering the class. Presenters also earn the same number of continuing education hours provided to licensees. The cost and the number of hours are minimal. Elimination of continuing education requirements could potentially remove a revenue stream from some practitioners.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 64 and adopt the following **new** chapter in lieu thereof:

CHAPTER 64
CONTINUING EDUCATION FOR BARBERING AND COSMETOLOGY ARTS AND SCIENCES

645—64.1(157) Definitions. For the purpose of these rules, the following definitions shall apply:

“*Active license*” means a license that is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of barbering and cosmetology arts and sciences.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee completing an approved continuing education activity through live, virtual, online or prerecorded means where the instructor provides proof of completion by the licensee as set forth in these rules.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person or entity licensed to practice pursuant to Iowa Code chapter 157 and 645—Chapters 60 to 65.

“*Practice discipline*” means the practice of electrology, esthetics, nail technology, or barbering and cosmetology as recognized by the board of barbering and cosmetology arts and sciences.

“*Prescribed practice*” means an area of specialty certified by the board within the scope of barbering and cosmetology arts and sciences.

645—64.2(157) Continuing education requirements.

64.2(1) The biennial continuing education compliance period shall begin on April 1 of one year and end on March 31 two years later.

64.2(2) Each biennium:

a. A licensee in this state shall be required to complete a minimum of six hours of continuing education that meets the requirements of rule 645—64.3(157,272C). A minimum of four hours of the six hours shall be in the prescribed practice discipline and a minimum of two hours of the six hours shall be in the content areas of Iowa barbering and cosmetology law and rules and sanitation. Individuals holding more than one active license shall obtain four hours of continuing education in each prescribed practice discipline and an additional two hours in the content areas of Iowa barbering and cosmetology law and rules and infection control.

b. A licensee who is an instructor of barbering and cosmetology arts and sciences shall obtain six hours in teaching methodology in addition to meeting all continuing education requirements for renewal of the instructor’s practice license. A licensee must comply with all conditions of licensure including obtaining a minimum of two hours each biennium specific to Iowa barbering and cosmetology law and administrative rules as specified in subrule 64.3(2).

c. A licensee currently licensed in Iowa but practicing exclusively in another state may comply with Iowa continuing education requirements for license renewal by meeting the continuing education requirements of the state or states where the licensee practices. The licensee living and practicing in a state which has no continuing education requirement for renewal of a license shall not be required to meet Iowa’s continuing education requirement but shall pay all renewal fees when due.

d. A licensee shall be deemed to have complied with the continuing education requirements of this state during periods that the licensee:

- (1) Serves honorably on active duty in the military services, or
- (2) Is the spouse of an active duty military service person, or

(3) Is a government employee working in the person's licensed specialty and assigned to duty outside of the United States, or

(4) Is engaged in active practice and absent from the state approved by the board.

64.2(3) Requirements of new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used.

64.2(4) Hours of continuing education credit may be obtained by attending and participating in a continuing education activity. These hours must be in accordance with these rules.

64.2(5) No hours of continuing education shall be carried over into the next biennium. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

64.2(6) It is the responsibility of each licensee to finance the cost of continuing education.

64.2(7) Requirements for blow-dry stylists are outlined in Iowa Code section 157.12C.

645—64.3(157,272C) Standards.

64.3(1) *General criteria.* A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;

b. Pertains to subject matters which integrally relate to the practice of the profession;

c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program.

At the time of audit, the board may request the qualifications of presenters;

d. Fulfills stated program goals, objectives, or both; and

e. Provides proof of attendance to licensees in attendance including:

(1) Date, location, course title, presenter(s), sponsor(s);

(2) Number of program contact hours; and

(3) Evidence of successful completion of the course provided by the course sponsor.

64.3(2) *Specific criteria.* The licensee may obtain the minimum continuing education hours of credit outlined in paragraph 64.2(2) "a" by:

a. Attending workshops, trade shows, conferences or symposiums.

b. Accessing online training, such as viewing interactive conferences, attending webinars, or completing online training courses.

c. Attending programs on product knowledge, methods and systems. Continuing education shall be directly related to the technique and theory specific to the practice of barbering and cosmetology arts and sciences. No direct selling of products is allowed as part of a continuing education offering.

d. Attending business classes specific to owning or managing an establishment are acceptable. In addition to fulfilling the requirements in rule 645—64.2(157), for each prescribed practice license held by a licensee, the licensee is to complete four hours in each area.

64.3(3) *Specific criteria for providers and sponsors of continuing education.*

a. Continuing education shall be obtained by attending programs that meet the criteria in subrule 64.3(1). Individuals or groups may offer continuing education programs for any prescribed practice within the barbering and cosmetology arts and sciences that meet the criteria in rule 645—64.3(157,272C) offered by or with express sponsorship in advance of delivery by the following organization(s).

(1) Barbering and cosmetology arts and sciences organizations, including:

1. National, state or local associations;

2. Schools and institutes;

3. Textbook publishers.

(2) Universities, colleges or community colleges;

(3) If within the licensee's prescribed practice, institutes of laser technology or manufacturers of laser or microdermabrasion products.

b. A licensee who is a presenter of a continuing education program that meets the criteria in rule 645—64.3(157,272C) may receive credit once per biennium for the initial presentation of the program. The presenter may receive the same number of hours granted the attendees.

These rules are intended to implement Iowa Code section 272C.2 and chapter 157.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 65
“Discipline for Barbering and Cosmetology Arts and Sciences Licensees, Instructors, Establishments,
and Schools”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 147.76, 157.14, 272C.3, 272C.4 and
272C.10

State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 157, and
272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:50 to 2:10 p.m.

6200 Park Avenue
Des Moines, Iowa
Via video/conference call
Meeting link: meet.google.com/bfq-qacb-nwu
More phone numbers:
[tel.meet/bfq-qacb-nwu?pin=7324359836726](tel:meet/bfq-qacb-nwu?pin=7324359836726)

Persons who wish to make oral comments at the public hearing may be asked to state their names for the record and to confine their remarks to the subject of this proposed rulemaking. In an effort to ensure accuracy in memorializing a person’s comments, a person may provide written comments in addition to or in lieu of oral comments at the hearing.

Any persons who intend to attend the public hearing and have special requirements, such as those related to hearing or mobility impairments, should contact the Department of Inspections, Appeals, and Licensing and advise of specific needs.

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

The proposed rulemaking provides protection to Iowans because it publicly defines disciplinary options when a licensee fails to act in a manner consistent with professional standards for licensees. This is important to both the public and to the licensee because it creates a shared understanding of what is and is not appropriate for certain types of licensed individuals in the state of Iowa. When professional standards are not met, a licensee can be subject to discipline against the license. Iowans have the ability to submit a complaint to the licensing board, which can then investigate the allegation. The Board of Barbering and Cosmetology Arts and Sciences has the ability to seek discipline against the licensee for those items outlined, ensuring that the public is protected.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary

chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the barbering and cosmetology arts and sciences professions and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional/establishment.

Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fine amounts are not established in rule for these licensees and are determined by the Board.

The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of this work at 0.74 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, and more. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of this rulemaking is ensuring public safety and maintaining a high level of care for Iowans. The Board receives a low number of complaints and issues a small number of disciplinary actions. In 2022, the Board received 74 complaints and issued six public disciplinary actions. While a low number of complaints compared to the total number of licensees could call into question the extent to which a profession needs to be regulated, the Board believes that regulation is necessary because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there is only a small number of complaints submitted, costs are extremely low. The Board believes that the benefits achieved justify the cost because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline.

The Board has not identified a more cost-effective alternative to the current discipline process. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks. With the merger into a singular Board of Barbering and Cosmetology Arts and Sciences, the proposed rules will ensure standardization among all professions.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would be increasing the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

The cost to the agency is the staff time needed to manage Board activities, which includes managing complaints and conducting investigations when a licensee takes action that is grounds for discipline.

The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer supports the full scope of this work at 0.74 FTE position. Due to the low number of complaints associated with this Board, costs specific to managing complaints and investigations are very minimal.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees or establishments, not the State. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

Disciplinary fees collected under this authority go to the General Fund. In 2022, a total of \$14,750 was paid into the General Fund from disciplinary fees assessed by the Board.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The amount of complaints received is relatively low, and costs reflect that. The Board believes the costs are justified because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline.

In 2022, the Board received 74 complaints and issued six public disciplinary actions. While a low number of complaints compared to the total number of licensees could call into question the extent to which a profession needs to be regulated, the Board believes that regulation is necessary because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks. With the merger into a singular Board of Barbering and Cosmetology Arts and Sciences, the proposed rules will ensure standardization amongst all professions.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the barbering and cosmetology arts and sciences professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy HHS Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. This chapter contains only those disciplinary grounds that are unique to the barbering and cosmetology arts and sciences professions and are therefore excluded from the general disciplinary chapter. The Board has not identified any other alternatives to these discipline rules.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed rulemaking relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The rulemaking is meant to ensure public safety. Many licensees are running a small business of their own. To exempt small businesses from adhering to this rulemaking would jeopardize any member of the public who sought services from those small businesses. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 65 and adopt the following **new** chapter in lieu thereof:

CHAPTER 65

DISCIPLINE FOR BARBERING AND COSMETOLOGY ARTS AND SCIENCES LICENSEES,
INSTRUCTORS, ESTABLISHMENTS, AND SCHOOLS

645—65.1(157,272C) Definitions.

“*Board*” means the board of barbering and cosmetology arts and sciences.

“*Discipline*” means any sanction the board may impose upon barbering and cosmetology arts and sciences licensees, instructors, blow-dry stylists, establishments, and schools.

“*Licensure*” means the granting of a license to any person or entity licensed to practice pursuant to Iowa Code chapter 157 and 645—Chapters 60 to 65.

645—65.2(157,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in rule 645—Chapter 13 when the board determines that any of the acts or offenses listed in such chapter or in Iowa Code section 147.55 or any of the following have occurred:

65.2(1) Misappropriation of funds.

65.2(2) Failure to return the salon license to the board within 30 days of discontinuance of business under that license.

65.2(3) Permitting an unlicensed employee or person under the licensee's or the licensed school's or establishment's control to perform activities that require a license.

65.2(4) Permitting a licensed person under the licensee's or the licensed school's or establishment's control to practice outside the scope of the person's license.

65.2(5) A person is determined by the investigator to be providing barbering and cosmetology services and leaving a salon at the time of inspection, which shall be prima facie evidence that an unlicensed person is providing services for which a license is required.

65.2(6) Performing any of those practices coming within the jurisdiction of the board pursuant to Iowa Code chapter 157, with or without compensation, in any place other than a licensed establishment or a licensed school of barbering and cosmetology arts and sciences.

EXCEPTION: A licensee may practice at a location that is not a licensed establishment or school of barbering and cosmetology arts and sciences when:

- a.* Providing a service authorized under Iowa Code section 157.4 (Temporary Permits).
- b.* Providing a service under rule 645—63.17(157), “Events and services provided outside of a licensed establishment” (Iowa Code section 157.13(1) “a”).
- c.* Extenuating circumstances related to the physical or mental disability or death of a customer prevent the customer from seeking services at the licensed establishment or school.

645—65.3(157,272C) Unlawful practices. Practices by an unlicensed person or establishment that are subject to civil penalties include, but are not limited to:

65.3(1) Acts or practices by unlicensed persons that require licensure to practice barbering and cosmetology arts and sciences under Iowa Code chapter 157.

65.3(2) Acts or practices by unlicensed establishments that require licensure as an establishment or school of barbering and cosmetology arts and sciences under Iowa Code chapter 157.

These rules are intended to implement Iowa Code chapters 147, 157 and 272C.

Regulatory Analysis

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Venus Vendoures Walsh
400 S.W. 8th Street
Des Moines, Iowa 50309
Phone: 515.242.6529
Email: venus.vendoures-walsh@iowa.gov

Purpose and Summary

The intended benefit of proposed Chapter 81 is to set minimum standards for entry into the dietetics profession. Iowa residents, licensees and employers benefit from the chapter because it articulates the processes by which individuals apply for licensure as a dietitian in the state of Iowa, as directed in statute. The chapter publicly illustrates the process that will be used to license dietitians including renewal and reinstatement to ensure public safety through review of the integrity and competence of the practitioner. The chapter describes the application process, educational qualifications, and exam requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There is no direct cost to the general public, but there is a cost to the applicant since complying with the minimum requirements to enter into the profession is at the expense of the licensee. Licensees have costs related to educational requirements to obtain a baccalaureate or postbaccalaureate degree. The license fee for a two-year license to practice to become an Iowa licensed dietitian is \$120 (license fees are specifically addressed in rule 645—5.6(147,152A)). Licensees must also pay an examination fee of \$200 to the Commission on Dietetic Registration (CDR).

These costs are comparable to surrounding states licensing fees. Nebraska’s license fee is \$114; licensees pay the CDR examination fee of \$200. Minnesota has a license fee of \$283.25 (includes \$100 application, \$150 initial licensure, \$33.25 criminal background check); licensees pay the CDR examination fee of \$200.

- Classes of persons that will benefit from the proposed rulemaking:

The benefits achieved justify the costs. Establishing minimum licensing requirements ensures that practitioners are competent to practice. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could harm the public. The Board of Dietetics believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowans are treated by competent and qualified practitioners with knowledge of topics pertinent to the profession to ensure the safety and welfare of the public.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide training for dietitians. Additional private industries and educational institutions provide examinations and materials for preparation for the examination.

Licensing fees are \$120 every two years.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities. This includes reviews at the time of initial application and during reinstatement. Compliance audits are performed randomly on renewed licenses. If a licensee was disciplined in another state, the application may be forwarded to the full Board for additional review prior to initial licensure or licensure reinstatement. Licensure by consent agreements and discipline imposed by the Board are monitored by office staff. An executive officer, licensure specialist and investigator support the full scope of this work at 0.10 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this rule are paid by individual licensees, not the State. There is no anticipated impact on this rule to state revenues.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The Board believes all current requirements ensure public safety and ensure minimum competency. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario. The cost of inaction would increase the potential for injury to the public that would remain unchecked without review prior to initial licensure, periodic compliance audits and complaint investigation. In addition, the chapter provides consistency related to the licensure of dietitians in other states, which makes obtaining licensure in multiple states simpler for applicants.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or

eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter attempts to provide consistency related to the licensure of dietitians across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Due to state government alignment, this board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the rule attempts to provide consistency related to the licensure of dietitians across the United States, which makes obtaining licensure in multiple states simpler for applicants.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board has not identified a more cost-effective alternative to the current internal process utilized for licensure review, compliance audits and complaint investigation. The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession, but the Board would be concerned about the public safety of Iowans in that scenario.

In addition, the chapter attempts to provide consistency related to the licensure of dietitians across the United States, which makes obtaining licensure in multiple states simpler for applicants.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for dietitians. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 81 and adopt the following **new** chapter in lieu thereof:

DIETITIANS

| | |
|------------|-------------------------------------|
| CHAPTER 81 | LICENSURE OF DIETITIANS |
| CHAPTER 82 | CONTINUING EDUCATION FOR DIETITIANS |
| CHAPTER 83 | DISCIPLINE FOR DIETITIANS |

CHAPTER 81
LICENSURE OF DIETITIANS

645—81.1(152A) Definitions.

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of dietetics.

“*Consultation*” means the practice of providing professional advice to another dietitian or other professional in a particular case and for a limited time, in affiliation with, and at the request of, a dietitian licensed in this state.

“*Dietetics*” means the integration and application of principles derived from the sciences of nutrition, biochemistry, physiology, food management and from behavioral and social sciences to achieve and maintain an individual’s health.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Licensee*” means any person licensed to practice as a dietitian in the state of Iowa.

“*License expiration date*” means the fifteenth day of the birth month every two years following initial licensure.

“*Nutrition assessment*” means the evaluation of the nutrition needs of individuals and groups based upon appropriate biochemical, anthropometric, physical, and dietary data to determine nutrient needs and to recommend appropriate nutritional intake, including enteral and parenteral nutrition.

“*Nutrition counseling*” means advising and assisting individuals or groups, with consideration of cultural background and socioeconomic status, about appropriate nutritional intake by integrating information from the nutrition assessment with information about food and other sources of nutrients and meal preparation.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—81.15(17A,147,272C) by which an inactive license is restored to active status.

“*Reciprocal license*” means the issuance of an Iowa license to practice dietetics to an applicant who is currently licensed in another state which has a mutual agreement with the Iowa board of dietetics to license persons who have the same or similar qualifications as those required in Iowa.

“*Registered dietitian*” means a dietitian who has met the standards and qualifications of the Commission on Dietetic Registration, a member of the National Commission for Certifying Agencies.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who has voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

“*Supervision of nonlicensees*” means any of the following: delegation of duties, direct oversight, or indirect oversight of employees or other persons not licensed by the board.

645—81.2(152A) Nutrition care. The primary function of dietetic practice is the provision of nutrition care services that include:

1. Assessing the nutrition needs of individuals and groups and determining resources and constraints in the practice setting.
2. Establishing priorities, goals, and objectives that meet nutrition needs and are consistent with available resources and constraints.
3. Providing nutrition counseling concerning health and disease.
4. Developing, implementing, and managing nutrition care systems.
5. Evaluating, making changes in, and maintaining appropriate standards of quality in food and nutrition services.

645—81.3(152A) Requirements for licensure. The following criteria apply to licensure:

81.3(1) Submit a completed online application for licensure and pay the nonrefundable licensure fee specified in rule 645—5.6(147,152A).

81.3(2) No application will be considered by the board until the applicant satisfactorily completes the registration examination for dietitians administered by the Commission on Dietetic Registration (CDR). The board will accept the passing score set by the CDR. Verification of satisfactory completion may be established by one of the following:

- a. The applicant sends to the board a copy of the CDR registration card;
- b. The CDR sends an official letter directly to the board to verify that the applicant holds registration status; or
- c. The CDR posts web-based verification that the applicant holds registration status.

81.3(3) A license is not required for dietitians who are in this state for the purpose of consultation, in accordance with rule 645—81.1(152A), when they are licensed in another state, U.S. territory, or country, or have received at least a baccalaureate degree in human nutrition from a U.S. regionally accredited college or university.

81.3(4) Incomplete applications that have been on file in the board office for more than two years will be considered invalid and destroyed.

645—81.4(152A) Educational qualifications.

81.4(1) The applicant shall possess a baccalaureate degree or postbaccalaureate degree from a U.S. regionally accredited college or university with a major course of study in human nutrition, food and nutrition, nutrition education, dietetics, or food systems management, or in an equivalent major course of study, which meets minimum academic requirements as established by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) and is approved by the board.

81.4(2) A foreign-trained dietitian shall:

- a. Provide an official letter sent directly from the Commission on Dietetic Registration (CDR) to the board to verify that the applicant has met the minimum academic and didactic program requirements of the CDR. Foreign degree equivalency evaluation requirements of the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND) are listed on the ACEND website, and
- b. Provide evidence of meeting all other requirements in these rules.

645—81.5(152A) Supervised experience. The applicant shall complete an accredited competency-based supervised experience program approved by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND).

645—81.6(152A) Licensure by endorsement. An applicant who has been a licensed dietitian under the laws of another jurisdiction may file an application for licensure by endorsement with the board office. The board may receive by endorsement any applicant from the District of Columbia or another state, territory, province or foreign country who:

- 81.6(1)** Meets the requirements of rule 645—81.4(152A).

81.6(2) Provides verification of license(s) from every jurisdiction in which the applicant has been licensed, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification direct from the jurisdiction's board office if the verification provides:

- a. Licensee's name;
- b. Date of initial licensure;
- c. Current licensure status; and
- d. Any disciplinary action taken against the license.

645—81.7(152A) License renewal.

81.7(1) The biennial license renewal period begins on the sixteenth day of the licensee's birth month and ends on the fifteenth day of the licensee's birth month two years later. The licensee is responsible for renewing the license prior to its expiration.

81.7(2) An initial license issued by the board may be valid for an 18- to 29-month period. When an initial license is renewed, it will be placed on a two-year renewal period identified in subrule 81.9(1).

81.7(3) A licensee seeking renewal shall:

a. Meet the continuing education requirements of rule 645—82.2(152A) and the mandatory reporting requirements of subrule 81.9(4). A licensee whose license was reactivated during the current renewal compliance period may use continuing education credit earned during the compliance period for the first renewal following reactivation; and

b. Submit the completed renewal application and renewal fee before the license expiration date.

81.7(4) Mandatory reporter training requirements.

a. A licensee who, in the scope of professional practice or in the licensee's employment responsibilities, examines, attends, counsels or treats children and dependent adults in Iowa will complete the applicable department of health and human services training relating to the identification and reporting of child and dependent adult abuse as required by Iowa Code section 232.69(3) "b."

b. Written documentation of training completion should be maintained for three years.

c. The requirement for mandatory training for identifying and reporting child and dependent adult abuse is suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

(1) Is engaged in active duty in the military service of this state or the United States.

(2) Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including an exemption of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in rule 645—4.14(272C).

d. The board may select licensees for audit of compliance with the requirements in paragraphs 81.9(4) "a" and "b."

81.7(5) Upon receiving the information required by this rule and the required fee, a two-year license will be administratively issued. In the event the board receives adverse information on the renewal application, the renewal license will be issued but the board may refer the adverse information for further consideration or disciplinary investigation.

81.7(6) The license certificate and proof of active licensure will be displayed in a conspicuous public place at the primary site of practice.

81.7(7) *Late renewal.* A license not renewed by the expiration date will be assessed a late fee as specified in 645—subrule 5.6(3). Completion of renewal requirements and submission of the late fee within the grace period are needed to renew the license.

81.7(8) *Inactive license.* A license not renewed by the end of the grace period is inactive. A licensee whose license is inactive continues to hold the privilege of licensure in Iowa, but may not practice as a dietitian in Iowa until the license is reactivated. A licensee who practices as a dietitian in the state of Iowa with an inactive license may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, and other available legal remedies.

81.7(9) *Renewal of a reactivated license.* A licensee who reactivates the license in accordance with rule 645—81.15(17A,147,272C) will not be required to renew the license until the next renewal two years later if the license is reactivated within six months prior to the license renewal date.

645—81.8(17A,147,272C) License reactivation. To apply for reactivation of an inactive license, a licensee shall:

81.8(1) Submit a reactivation application and pay the reactivation fee as specified in 645—Chapter 5.

81.8(2) Provide verification of current competence to practice dietetics by satisfying one of the following criteria:

a. If the license has been on inactive status for five years or less, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license.

(2) Verification of completion of 30 hours of continuing education within two years of the application for reactivation.

b. If the license has been on inactive status for more than five years, an applicant must provide the following:

(1) Verification of the license(s) from every jurisdiction in which the applicant is or has been licensed and is or has been practicing during the time period the Iowa license was inactive, sent directly from the jurisdiction(s) to the board office. Web-based verification may be substituted for verification from a jurisdiction's board office if the verification includes:

1. Licensee's name;
2. Date of initial licensure;
3. Current licensure status; and
4. Any disciplinary action taken against the license.

(2) Verification of completion of 60 hours of continuing education within two years of application for reactivation.

645—81.9(17A,147,272C) License reinstatement. A licensee whose license has been revoked, suspended, or voluntarily surrendered must apply for and receive reinstatement of the license in accordance with rule 645—11.31(272C) and must apply for and be granted reactivation of the license in accordance with rule 645—81.15(17A,147,272C) prior to practicing dietetics in this state.

645—81.10(152A,272C) Telehealth visits. A licensee may provide dietetic services to an individual or a group utilizing a telehealth visit if the dietetic services are provided in accordance with all the requirements of this chapter.

81.10(1) "Telehealth visit" means the provision of dietetic services by a licensee to an individual or a group using technology where the licensee and the individual or group are not at the same physical location for the therapy session.

81.10(2) A licensee engaged in a telehealth visit will utilize technology that is secure and HIPAA-compliant and that includes, at a minimum, audio and video equipment that allows two-way real-time interactive communication between the licensee and the individual or group. A licensee may use non-real-time technologies to prepare for a session or to communicate with an individual or a group between sessions.

81.10(3) A licensee engaged in a telehealth visit will be held to the same standard of care as a licensee who provides in-person dietetic services. A licensee will not utilize a telehealth visit if the standard of care for the particular services cannot be met by using technology.

81.10(4) Any licensee who provides a telehealth visit to an individual or a group located in Iowa shall be licensed in Iowa.

81.10(5) Prior to the first telehealth visit, a licensee is to obtain informed consent from the individual or group specific to the services that will be provided in a telehealth visit. At a minimum, the informed consent shall specifically inform the individual or group of the following:

- a.* The risks and limitations of the use of technology to provide dietetics services;
- b.* The potential for unauthorized access to protected health information; and
- c.* The potential for disruption of technology during a telehealth visit.

81.10(6) A licensee will identify in the clinical record when dietetic services are provided utilizing a telehealth visit.

These rules are intended to implement Iowa Code chapters 17A, 147, 152A, and 272C.

Purpose and Summary

Proposed Chapter 82 sets forth continuing education requirements for dietitians. It includes definitions related to continuing education, the required number of hours of continuing education that licensees are required to obtain, the standards that licensees need to meet, and the types of continuing education courses that are permissible. The intended benefit of continuing education is to ensure that dietitians maintain up-to-date practice standards and, as a result, provide high-quality services to Iowans.

Analysis of Impact

1. Persons affected by the proposed rulemaking:

- Classes of persons that will bear the costs of the proposed rulemaking:

Licensees are responsible for the cost of continuing education. Iowa requires 30 hours of continuing education every two years. This is consistent with a review of surrounding states. Illinois and Nebraska also require 30 hours every two years, Minnesota requires 45 every three years, Missouri requires 75 every five years, and South Dakota requires 15 every year.

- Classes of persons that will benefit from the proposed rulemaking:

The intended benefit of continuing education is to ensure that athletic trainer licensees meet specific continuing education requirements to ensure up-to-date knowledge on practical service-related skills and, as a result, provide high-quality services to Iowans, protecting public health and safety.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Private industry offers these courses, so the Board of Dietetics is not privy to exact costs.

The cost to obtain continuing education is quite variable depending on the focus of the practitioner and may range anywhere from free to more than \$50 per hour. Research estimates it to be around \$150 every two years for a licensee to meet Iowa's requirements. There are multiple entities that provide continuing education courses to licensees.

- Qualitative description of impact:

There has been a historical belief that continuing education has a public safety benefit because it ensures the licensed professionals are receiving education on up-to-date standard of care and potentially reduces the number of complaints. While there is no evidence to prove this correlation, this has been a long-standing belief that boards around the country have held, as is evidenced by the fact that most other boards around the country require some form of continuing education.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities at approximately 0.06 full-time equivalent (FTE) position, which includes continuing education. The time needed to manage this provision is generally in the form of responding to questions related to continuing education requirements. This includes answering questions from the public and licensees such as practice standards, continuing education, Board meeting administration, etc.

Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with completing continuing education hours are paid to entities that provide continuing education opportunities, not the State. There is no anticipated impact on state revenues as a result of this rulemaking. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Reducing or eliminating continuing education hours would reduce/eliminate the cost to the licensee to meet this requirement. The Board does not recommend a change in continuing education hours at this time. Iowa's continuing education requirements are in line with neighboring states. Iowa requires 30 hours of continuing education every two years. This is consistent with a review of surrounding states. Illinois and Nebraska also require 30 hours every two years, Minnesota requires 45 every three years, Missouri requires 75 every five years, and South Dakota requires 15 every year.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Private industry offers these courses, so the Board is not privy to exact costs.

The cost to obtain continuing education is quite variable depending on the focus of the practitioner and may range anywhere from free to more than \$50 per hour. Research estimates it to be around \$150 every two years for a licensee to meet Iowa's requirements. There are multiple entities that provide continuing education courses to licensees.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Staff held conversations with members of the Board inquiring if the Board would recommend lowering the continuing education requirements. The Board does not recommend a change in continuing education hours at this time.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board did consider less restrictive alternatives, such as reducing the number of continuing education hours. The Board believes that eliminating continuing education requirements would increase the number of complaints and investigations that the Board would need to conduct, but the Board has not been able to analyze this correlation so is unable to submit evidence of this belief.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 82 and adopt the following **new** chapter in lieu thereof:

CHAPTER 82 CONTINUING EDUCATION FOR DIETITIANS

645—82.1(152A) Definitions.

“*Active license*” means the license is current and has not expired.

“*Approved program/activity*” means a continuing education program/activity meeting the standards set forth in these rules.

“*Audit*” means the selection of licensees for verification of satisfactory completion of continuing education requirements during a specified time period.

“*Board*” means the board of dietetics.

“*Continuing education*” means planned, organized learning acts acquired during licensure designed to maintain, improve, or expand a licensee’s knowledge and skills in order for the licensee to develop new knowledge and skills relevant to the enhancement of practice, education, or theory development to improve the safety and welfare of the public.

“*Hour of continuing education*” means at least 50 minutes spent by a licensee in actual attendance at and completion of approved continuing education activity.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period.

“*Independent study*” means a subject/program/activity that a person pursues autonomously that meets standards for approval criteria in the rules and includes a posttest.

“*License*” means license to practice.

“*Licensee*” means any person licensed to practice as a dietitian in the state of Iowa.

“*Webinar*” means a web-based seminar, presentation, lecture, or workshop that is transmitted over the web.

645—82.2(152A) Continuing education requirements.

82.2(1) The biennial continuing education compliance period will extend for a two-year period beginning on the sixteenth day of the licensee’s birth month and ending on the fifteenth day of the birth month two years later. Each biennium, each person who is licensed to practice as a dietitian in this state will be required to complete a minimum of 30 hours of continuing education approved by the board.

82.2(2) Requirements for new licensees. Those persons licensed for the first time shall not be required to complete continuing education as a prerequisite for the first renewal of their licenses. Continuing education hours acquired anytime from the initial licensing until the second license renewal may be used. The new licensee will be required to complete a minimum of 30 hours of continuing education per biennium for each subsequent license renewal.

82.2(3) Hours of continuing education credit may be obtained in accordance with the definitions and standards in these rules.

82.2(4) No hours of continuing education will be carried over into the next biennium except as stated for the second renewal. A licensee whose license was reactivated during the current renewal compliance period may use continuing education earned during the compliance period for the first renewal following reactivation.

82.2(5) It is the responsibility of each licensee to finance the cost of continuing education.

645—82.3(152A,272C) Standards.

82.3(1) *General criteria.* A continuing education activity which meets all of the following criteria is appropriate for continuing education credit if the continuing education activity:

- a. Constitutes an organized program of learning which contributes directly to the professional competency of the licensee;
- b. Pertains to subject matters which integrally relate to the practice of the profession;
- c. Is conducted by individuals who have specialized education, training and experience by reason of which said individuals should be considered qualified concerning the subject matter of the program. At the time of audit, the board may request the qualifications of the presenters;
- d. Fulfills stated program goals, objectives, or both; and
- e. Provides proof of attendance to licensees in attendance including:
 - (1) Date(s), location, course title, presenter(s);
 - (2) Number of program contact hours; and
 - (3) Certificate of completion or evidence of successful completion of the course provided by the course sponsor.

82.3(2) *Specific criteria.*

a. Continuing education hours of credit may be obtained by completing programs/activities that reflect the educational needs of the dietitian and the nutritional needs of the consumer. Continuing education programs/activities that are scientifically founded and offered at a level beyond entry-level dietetics for professional growth will be accepted for continuing education.

b. The licensee may engage in other types of activities identified in the individual licensee’s professional development portfolio for Commission on Dietetic Registration (CDR) certification.

c. The licensee may engage in programs/activities via webinars and independent study, in accordance with the definitions and standards in these rules.

d. The licensee may submit completed training to comply with mandatory reporter training requirements, as specified in 645—subrule 81.9(4). Hours reported for credit will not exceed the hours required to maintain compliance with required training.

e. The following areas are appropriate for continuing education credit:

- (1) Sciences related to dietetic practice, education, or research including biological sciences, food and resource management and behavioral and social sciences to achieve and maintain people’s health.

- (2) Dietetic practice related to assessment, counseling, teaching, or care of clients in any setting.
- (3) Management or quality assurance of nutritional care delivery systems.
- (4) Dietetic practice related to community health needs.

f. Criteria for hours of credit are as follows:

(1) Academic coursework. Coursework for credit must be completed at a regionally accredited U.S. college or university. In order for the licensee to receive continuing education credit, the coursework must be beyond entry-level dietetics.

1 academic semester hour = 15 continuing education hours

1 academic quarter hour = 10 continuing education hours

(2) Scholarly publications. Publication may be approved if submitted in published form in the continuing education documentation file of the licensee. All publications must appear in refereed professional journals. Material related to work responsibilities, such as diet and staff manuals, and publications for the lay public are unacceptable. Continuing education credit hours may be reported using the following guidelines:

1. Senior author: first of two or more authors listed.
2. Coauthor: second of two authors listed.
3. Contributing author: all but senior of the three or more authors.

4. Research papers:

- Single author 10 hours
- Senior author 8 hours
- Coauthor 5 hours
- Contributing author 3 hours

5. Technical articles:

- Single author 5 hours
- Senior author 4 hours
- Coauthor 3 hours
- Contributing author 2 hours

6. Information-sharing articles: 1 hour

7. Abstracts:

- Senior author 2 hours
- Coauthor 1 hour

(3) Poster sessions. Continuing education credit may be obtained for attending juried poster sessions at national meetings that meet the criteria for appropriate subject matter as required in these rules. One hour of continuing education credit is allowed for each 12 posters reviewed not to exceed six hours in a continuing education biennium.

(4) Presenters. Presenters may receive continuing education credit. Presentations to the lay public will not receive credit for continuing education. For each 50-minute hour of presentation, two hours of credit for continuing education will be earned. Presenters of poster sessions at national professional meetings will receive a maximum of two hours of credit per topic. A copy of the abstract or manuscript and documentation of the peer review process must be included in the licensee's documentation list.

(5) Staff development training. Staff development training that meets the criteria in this subrule will be credited on the basis of the defined hour of continuing education stated in these rules.

These rules are intended to implement Iowa Code section 272C.2 and chapter 152A.

Purpose and Summary

Proposed Chapter 83 defines actions that are inconsistent with professional standards for licensees, which are established to protect the consumer and colleagues. Actions inconsistent with professional standards could result in disciplinary actions against a practitioner’s license.

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. Proposed Chapter 83 contains only those disciplinary grounds that are unique to the dietetics licensees and are therefore excluded from the general disciplinary chapter.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

While there are no known costs to the public, professional standards of practice are associated with costs to the licensed professional. Licensees may be required to pay a civil penalty fee to satisfy disciplinary action. Disciplinary fine amounts are not established in rule for these licensees and are determined by the Board of Dietetics. The Board has statutory authority to impose a civil penalty on individuals practicing without a license.

- Classes of persons that will benefit from the proposed rulemaking:

The public and professionals benefit from the proposed chapter since it clarifies compliance and potential consequences for noncompliance. The benefit is being achieved since the Board only had nine

founded violations between 2004 and 2013. No public action has been taken since then. The low number of public discipline cases demonstrates the effectiveness of the continuing education requirements in ensuring licensees remain current in their professional knowledge and providing quality care to Iowans.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Because there are only a small number of complaints submitted, costs are extremely low. The Board believes the benefits achieved justify the costs because the cost of inaction would increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. Fees incurred by the professional are up to \$1,000 per violation.

The Board has not identified a more cost-effective alternative to the current discipline process. There could be a consideration of reducing or eliminating grounds for discipline, but the Board believes these requirements are important in order to protect the public from infection risks.

- Qualitative description of impact:

Establishing minimum requirements and imposing discipline on licensees when requirements are not met ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public and would leave the public without a method to file a complaint or seek discipline against a licensee who violates the standards of care.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage Board activities, which include managing complaints and conducting investigations when a licensee takes action that is grounds for discipline. The time needed to manage this provision is generally in the form of responding to questions related to complaints and the act of investigating a case. An executive officer, licensure specialist and investigator supports the full scope of this work at 0.16 full-time equivalent (FTE) position. This additionally includes answering questions from the public and licensees on items such as practice standards, continuing education, Board meeting administration, etc. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees, not the State. There is no anticipated impact on state revenues as a result of this rulemaking. Staff salaries to support the work of the Board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

The amount of complaints received is relatively low, and costs reflect that. The Board believes the costs are justified because inaction could increase the potential for injury to the public by allowing licensed providers to continue providing services without correction, education, or any form of discipline. The cost to review and address the standards of professional behavior is justified by the benefit of protecting the public.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

The Board has not identified a less restrictive alternative to public protection. There could be a consideration of reducing or eliminating professional standards and grounds for discipline, but the Board believes that these requirements are important in order to ensure that Iowans receive services from competent practitioners. There has been some standardization of consideration of criminal convictions.

The Boards and Commissions Review Committee recommended elimination of the Board.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

While there has been some standardization of consideration of criminal convictions, the Board has not recommended a less restrictive alternative to public protection.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The 19 boards in the legacy Department of Health and Human Services (HHS) Bureau of Professional Licensure have similar disciplinary standards for all professions. For this reason, one shared disciplinary chapter has been created that applies to all professions. Proposed Chapter 83 contains only those disciplinary grounds that are unique to the dietetics licensees and are therefore excluded from the general disciplinary chapter.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 83 and adopt the following **new** chapter in lieu thereof:

CHAPTER 83 DISCIPLINE FOR DIETITIANS

645—83.1(152A,272C) Grounds for discipline. The board may impose any of the disciplinary sanctions provided in Iowa Code section 272C.3 when the board determines that the licensee is guilty of any of the following acts or offenses or those listed in 645—Chapter 13:

Failure to comply with the Academy of Nutrition and Dietetics/Commission on Dietetic Registration, Code of Ethics for the Profession of Dietetics and Process for Consideration of Ethics Issues, effective January 1, 2010, hereby adopted by reference. Copies may be obtained from the Academy of Nutrition and Dietetics/Commission on Dietetic Registration website at www.eatright.org/code-of-ethics-for-rdns-and-ndtrs.

This rule is intended to implement Iowa Code chapters 147, 152A and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 100
“Practice of Funeral Directors, Funeral Establishments, and Cremation Establishments”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 156, 147.36, and 147.76
State or federal law(s) implemented by the rulemaking: Iowa Code chapters 17A, 147, 156, and 272C

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:30 p.m.

6200 Park Avenue
Des Moines, Iowa 50321
meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals, and Licensing (DIAL) no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

Proposed Chapter 100 provides the duties of a funeral director for embalming, cremation, and maintaining the chain of custody of a decedent, and the records to be retained by a funeral establishment. This chapter articulates minimum acceptable standards for the profession.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are costs to the licensees and the establishment associated with the standard of practice and to maintain compliance. For a new establishment, that might include fees associated with city zoning and Department of Natural Resources (DNR) requirements. The Board of Mortuary Science believes these costs are necessary to ensure the licensee is competent to perform the duties within the scope of practice. At this time, the Board is unable to calculate the costs incurred to the public or the licensee.

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes but is not limited to oversight of practice standards, questions from licensees and the public, and administration of board meetings. An executive officer supports the work of this Board at approximately 0.29 full-time equivalent (FTE) position. Staff salaries to support the work of the Board are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

There are approximately 876 licensed individuals who provide these services to Iowans. Since 2021, the Board has opened and investigated 35 complaints. While a low number of complaints can call into question the extent to which a profession needs to be regulated, the Board believes regulation is necessary to provide consumer protection during all aspects of the funeral process.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The Board believes the benefit is that the chapter provides state and federal guidelines a licensee must follow to protect the chain of custody of the decedent and the public.

Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Qualitative description of impact:

Establishing practice standards ensures safety for the licensee and the consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs to the agency are the staff time needed to manage the full scope of Board activities, which includes but is not limited to oversight of practice standards, questions from licensees and the public, and administration of Board meetings. An executive officer supports the work of this Board at approximately 0.29 FTE position. Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries to support the work of the board are covered by the Fund. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

A funeral and related services are the third-largest expenditure a consumer will make in the consumer's lifetime at a vulnerable time. These regulations help to ensure funeral directors conform to these minimum standards for consumer protection. If this profession were not regulated, it is likely that untrained or undertrained individuals would attempt to provide services to Iowa families, increasing the likelihood of potential fraudulent or dangerous practices.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

Licensing is the highest form of regulation. Licensure of funeral directors and establishments is the supported model in the majority of states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about the potential for harm to Iowa patients.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

Licensing is the highest form of regulation. Licensure of funeral directors and establishments is the supported model in the majority of states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about deceptive practices to Iowa consumers.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

Licensing is the highest form of regulation. Licensure of funeral directors and establishments is the supported model in the majority of states. The standards for practice articulated in these rules could be reduced; however, the Board would have concerns about deceptive practices to Iowa consumers.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking’s compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether a business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for funeral directors and establishments. While some funeral directors may work in an independently owned establishment, others may work for multiple establishments owned by the same firm. To exempt a small business from adhering to this rule would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 100 and adopt the following **new** chapter in lieu thereof:

FUNERAL DIRECTORS

| | |
|-------------|--|
| CHAPTER 100 | PRACTICE OF FUNERAL DIRECTORS, FUNERAL ESTABLISHMENTS, AND CREMATION ESTABLISHMENTS |
| CHAPTER 101 | LICENSURE OF FUNERAL DIRECTORS, FUNERAL ESTABLISHMENTS, AND CREMATION ESTABLISHMENTS |
| CHAPTER 102 | CONTINUING EDUCATION FOR FUNERAL DIRECTORS |
| CHAPTER 103 | RESERVED |
| CHAPTER 104 | DISCIPLINARY PROCEEDINGS |
| CHAPTER 105 | ENFORCEMENT PROCEEDINGS AGAINST NONLICENSEES |

CHAPTER 100
PRACTICE OF FUNERAL DIRECTORS, FUNERAL ESTABLISHMENTS,
AND CREMATION ESTABLISHMENTS

645—100.1(156) Definitions.

“*Alternative container*” means an unfinished wood box or other nonmetal receptacle or enclosure, without ornamentation or a fixed interior lining, which is designed for the encasement of human remains and which is made of fiberboard, pressed wood, composition materials (with or without an outside covering) or like materials which prevents the leakage of body fluid.

“*Authorized person*” means that person or persons upon whom a funeral director may reasonably rely when making funeral arrangements including, but not limited to, embalming, cremation, funeral services, and the disposition of human remains pursuant to Iowa Code section 144C.5.

“*Autopsy*” means the postmortem examination of a human remains.

“*Board*” means the board of mortuary science.

“Body parts” means appendages or other portions of the anatomy that are from a human body.

“Burial.” See *“Interment.”*

“Burial transit permit” means a legal document authorizing the removal and transportation of a human remains.

“Casket” means a rigid container which is designed for the encasement of human remains and which is usually constructed of wood, metal, fiberglass, plastic or like material and ornamented and lined with fabric.

“Cemetery” means an area designated for the final disposition of human remains.

“Columbarium” means a structure, room or space in a mausoleum or other building containing niches or recesses for disposition of cremated remains.

“Cremated remains” means all the remains of the cremated human body recovered after the completion of the cremation process, including pulverization which leaves only bone fragments reduced to unidentifiable dimensions and may possibly include the residue of any foreign matter including casket material, bridgework or eyeglasses that were cremated with the human remains.

“Cremation” means the technical process, using heat and flame, that reduces human remains to bone fragments. The reduction takes place through heat and evaporation. Cremation will include the processing, and may include the pulverization, of the bone fragments.

“Cremation authorization form” means a form, completed and signed by a funeral director and authorized person, to accompany all human remains accepted for cremation.

“Cremation chamber” means the enclosed space within which a cremation takes place.

“Cremation establishment” means any person, partnership or corporation that is licensed by the board and provides any aspect of cremation services.

“Cremation permit” means a permit issued by a medical examiner allowing cremation for human remains.

“Cremation room” means the room in which the cremation chamber is located.

“Crypt” means a chamber in a mausoleum of sufficient size to contain casketed human remains.

“Custody” means immediate charge and control exercised by a person or an authority.

“Dead body.” See *“Human remains.”*

“Death certificate” means a legal document containing vital statistics pertaining to the life and death of the decedent.

“Decedent.” See *“Human remains.”*

“Disinterment” means to remove a human remains from its place of final disposition.

“Disinterment permit” means a permit from the department of health and human services which allows the removal of a human remains from its original place of burial, entombment or interment for the purpose of autopsy or reburial.

“Disinterment permit number” means the number assigned to a disinterment permit by the department of health and human services, giving the funeral director the authority to remove a human remains from its place of final disposition.

“Embalming” means the disinfection or temporary preservation of human remains, entire or in part, by the use of chemical substances, fluids or gases in the body, or by the introduction of same into the body by vascular or hypodermic injections, or by surface application into or on the organs or cavities for the purpose of temporary preservation or disinfection.

“Embalming record” means a record completed by the licensed funeral director or registered intern for each body embalmed in Iowa, or otherwise prepared for disposition by the licensee. “Embalming record” includes, at a minimum, a case analysis and a detailed listing of the procedures or treatments or both performed on the deceased.

“Entombment” means to place a casketed body or an urn containing cremated remains in a structure such as a mausoleum, crypt, tomb or columbarium.

“Final disposition” means the burial, interment, cremation, removal from the state, or other disposition of a dead body or fetus.

“Funeral ceremony” means a service commemorating the decedent.

“Funeral director” means a person licensed by the board to practice mortuary science.

“*Funeral establishment*” means a place of business as defined and licensed by the board devoted to providing any aspect of mortuary science.

“*Funeral rule*” means the Federal Trade Commission Funeral Rule.

“*Funeral services*” means any services which may be used to (1) care for and prepare human remains for burial, cremation or other final disposition; and (2) arrange, supervise or conduct the funeral ceremony or final disposition of human remains.

“*Holding facility*” means an area isolated from the general public that is designated for the temporary retention of human remains.

“*Human remains*” means a deceased human being for which a death certificate or fetal death certificate is required.

“*Interment*” means to place a casketed human remains or an urn containing cremated remains in the ground.

“*Intern*” means a person registered by the board to practice mortuary science under the direct supervision of a preceptor certified by the board.

“*Mausoleum*” means an aboveground structure designed for entombment of human remains.

“*Medical examiner*” means a public official whose primary function is to investigate and determine the cause of death when death may be thought to be from other than natural causes.

“*Memorial ceremony*” means a service commemorating the decedent.

“*Niche*” means a recess or space in a columbarium or mausoleum used for placement of cremated human remains.

“*Preparation room*” means a room in a funeral establishment where human remains are prepared, sanitized, embalmed or held for ceremonies and final disposition.

“*Pulverization*” means a process following cremation which reduces identifiable bone fragments into granulated particles.

“*Removal*” means the act of taking a human remains from the place of death or place where a human remains is being held to a funeral establishment or other designated place.

“*Removal technician*” means a person registered with the board to perform removals.

“*Scattering area*” means a designated area where cremated remains may be commingled with other cremated remains.

“*Temporary cremation container*” means a durable receptacle designed for short-term retention of cremated remains.

“*Their own dead*” refers to the legal authority the authorized person has regarding a human remains.

“*Topical disinfection*” means the direct application of chemical substances on the surface of a human remains for the purpose of temporary preservation or disinfection.

“*Transfer.*” See “*Removal.*”

“*Universal precautions*” means a concept of care based upon the assumption that all blood and body fluids, and materials that have come into contact with blood or body fluids, are potentially infectious as prescribed by the Centers for Disease Control and Prevention (CDC).

“*Urn*” means a receptacle designed for permanent retention of cremated remains.

645—100.2(156) Funeral director duties.

100.2(1) Practices requiring a funeral director’s license include but are not limited to:

- a. Removal as specified in rule 645—100.4(142,156).
- b. Embalming human remains as specified in rule 645—100.6(156) and completing embalming records as specified in paragraph 100.11(2)“d.”
- c. Conducting funeral arrangements as specified in subrule 100.7(2).
- d. Conducting funeral services when contracted to do so, including:
 - (1) Direct supervision of visitation and viewing.
 - (2) Funeral and memorial ceremonies.
 - (3) Committal and final disposition services.
- e. Conducting cremation services as specified in rule 645—100.10(156).
- f. Signing death certificates and performing associated duties under Iowa Code chapter 144.

100.2(2) Delegation of professional tasks.

a. Registered interns. Registered interns may provide funeral director services identified in paragraphs 100.2(1) “a” through “f” under the direct supervision of an Iowa-licensed preceptor. A registered intern will not sign a death certificate.

b. A funeral director may delegate solely the transportation of unembalmed human remains to a registered removal technician pursuant to subrule 100.4(3).

100.2(3) CDC universal precautions and OSHA standards. The funeral director will observe current guidelines of universal precautions as prescribed by the Centers for Disease Control (CDC) as well as Occupational Safety and Health Administration (OSHA) standards.

100.2(4) Funeral directors who provide mortuary science services from funeral establishments located in another state. A funeral director who holds an active Iowa funeral director’s license and whose practice is conducted from a funeral establishment located in another state may provide mortuary science services in Iowa if the establishment holds a current license in the state in which it is located, if such a license is required.

100.2(5) Withholding human remains. A funeral director will not withhold human remains based solely on nonpayment of fees.

645—100.3(156) Permanent identification tag.

100.3(1) The funeral director who assumes possession of a human remains will attach a permanent identification tag.

100.3(2) The identification tag will initially contain, at a minimum, the name of the deceased.

100.3(3) Before final disposition, the identification tag will contain the name of the deceased and the date of birth, date of death and social security number of the deceased and the name and license number of the funeral establishment in charge of disposition.

100.3(4) The identification tag will be attached to the human remains throughout the entire time the human remains are in the possession of the funeral establishment and will remain with the human remains.

645—100.4(142,156) Removal and transfer of human remains.

100.4(1) Removal and transfer of human remains. The funeral director will perform the following duties upon notification of a death.

a. Comply with jurisdictional authority, with respect to medicolegal responsibilities, regarding the removal of the human remains.

b. Provide signature and license number when removing a human remains from a hospital, nursing establishment or any other institution involved with the care of the public.

100.4(2) After the funeral director has assumed custody of the human remains, the funeral director may delegate the task of transferring the human remains to an unlicensed employee, removal technician, or agent. Prior to transfer, the funeral director will topically disinfect the body, secure all body orifices to retain all secretions, place the human remains in a leakproof container for transfer that will control odor and prevent the leakage of body fluids, and issue a burial transit permit.

100.4(3) A funeral director may delegate the transportation of unembalmed human remains to an unlicensed employee, removal technician, or agent of the funeral establishment without first assuming custody and without topically disinfecting or securing body orifices if all of the following are true:

a. The transportation is to or from the medical examiner’s office, or otherwise at the direction of the medical examiner;

b. The remains are placed in a leakproof container by medical examiner personnel; and

c. The employee, removal technician, or agent is issued a burial transit permit or other evidence of authorization.

100.4(4) An unlicensed employee, removal technician, or agent referred to in subrules 100.4(2) and 100.4(3) must complete the annual OSHA training related to blood-borne pathogens, training on in-person equipment and disposition of remains; and ethics and professional boundaries.

645—100.5(135,144) Burial transit permits. A licensed funeral director may issue a burial transit permit for the removal and transfer of human remains, according to state law and the administrative rules promulgated by the department of health and human services.

645—100.6(156) Preparation and embalming activities.

100.6(1) The funeral director will perform the following duties prior to and during embalming according to commonly accepted industry standards.

a. Obtain authorization for embalming from an authorized person. If permission to embalm cannot be obtained from the authorized person, the funeral director may proceed with the embalming if necessary to comply with subrule 100.6(3).

b. Embalm entirely in private. No one except the funeral director, intern, immediate family, or student will be allowed in the preparation room without the written permission of the authorized person. A student must be under the direct physical supervision of the funeral director and currently enrolled and attending a program of mortuary science which is recognized by the board to be allowed in the preparation room without written permission during the embalming.

c. Keep the human remains properly covered at all times.

d. Conduct a preembalming case analysis of the human remains. Recognize the potential chemical effects on the body and select the proper embalming chemicals based upon the analysis.

e. Position the human remains on the preparation table and pose the facial features.

f. Select points of drainage and injection, and raise the necessary vessels.

g. Embalm by arterial and cavity injection of embalming chemicals. If the condition of the human remains does not allow arterial and cavity injection of embalming chemicals, topical embalming, using appropriate chemicals and procedures, will be performed.

h. Evaluate the distribution of the embalming chemicals and perform treatment for discoloration, vascular difficulties, decomposition, dehydration, purge and close any incisions once the arterial and cavity injection of the embalming chemicals is complete.

100.6(2) Postembalming activities. The funeral director will perform the following duties at the conclusion of the embalming activities if necessary.

a. Pack or otherwise secure all body orifices with material which will absorb and retain all secretions.

b. Apply chemicals topically and perform hypodermic treatments.

c. Bathe, disinfect and reposition the human remains.

d. Clean and disinfect the embalming instruments, equipment and preparation room.

e. Perform any restorative treatments.

f. Select and apply the appropriate cosmetic treatments.

g. Prepare the human remains for viewing.

100.6(3) Care of the unembalmed human remains.

a. Embalming may be omitted provided that interment or cremation is performed within 72 hours after death or within 24 hours of taking custody if a human remains was previously in the custody of others, whichever is longer.

b. If refrigeration is utilized, embalming or final disposition may be extended up to 72 hours longer than the maximum period provided in paragraph 100.6(3) "a." The body must be kept between 38 and 42 degrees Fahrenheit.

c. If viewing of the unembalmed human remains is requested, the human remains will be topically disinfected and all body orifices will be packed or otherwise secured with material which will absorb and retain all secretions.

645—100.7(156) Arranging and directing funeral and memorial ceremonies.

100.7(1) *The Federal Trade Commission.* The funeral director will observe current guidelines of the Federal Trade Commission (FTC) funeral rule.

100.7(2) *Arrangement conference activities.* If responsible, the funeral director will perform the following duties associated with arranging ceremonies and the final disposition of a human remains.

a. Gather necessary statistical and biographical information relating to the decedent and explain the varied use of the information gathered.

b. Present, discuss and explain the mandated FTC price lists and assist or provide the consumer with:

- (1) The types of ceremony or final disposition.
- (2) The specific goods and services.
- (3) The prices of any goods and services.
- (4) The written, itemized statement of the funeral goods and services.
- (5) A general price list.

At the conclusion of arrangements, the itemized statement will be signed by the purchaser and the funeral director.

100.7(3) *Directing of funeral and memorial ceremonies.* If responsible, the funeral director will perform the following duties:

- a.* Direct and supervise ceremonies.
- b.* Direct and supervise final disposition.

645—100.8(142,156) Unclaimed human remains for scientific use.

100.8(1) A human remains is unclaimed when:

- a.* The decedent did not express a desire to be interred, entombed or cremated.
- b.* Relatives or friends of the decedent did not request that the decedent's human remains be interred, entombed or cremated.

100.8(2) Friend distinguished from casual acquaintance. A friend will be distinguished from a casual acquaintance by the friend's having been closely associated with the decedent during the decedent's lifetime.

100.8(3) Delivery of human remains for scientific purposes. The funeral director, the medical examiner or managing officer of a public health institution, hospital, county home, penitentiary or reformatory will notify the department of health and human services as soon as any unclaimed human remains which may be suitable for scientific purposes will come into the person's custody.

100.8(4) Department instructions. When the department of health and human services receives notice, the funeral director will be instructed as to the proper disposition of a human remains.

100.8(5) Expenses incurred by funeral director. The expenses incurred by the funeral director for the transportation of a human remains to a medical college will be paid by the medical college receiving the human remains.

645—100.9(144) Disinterments. A funeral director in charge of a disinterment will ensure that the disinterment is performed in accordance with rules promulgated by the department of health and human services and will first secure a disinterment permit issued by the department of health and human services.

100.9(1) No person will disinter a human remains or cremated remains unless the funeral director in charge of the disinterment has a numbered disinterment permit which has been issued by the department of health and human services or by an order of the district court of the county in which the human remains or cremated remains are interred or entombed.

100.9(2) All disinterment permits will be requested and provided by the department of health and human services.

100.9(3) All disinterment permits will be signed by the authorizing person.

100.9(4) Disinterment permits will be furnished upon request from the department of health and human services and will remain valid for 30 days after issuance.

100.9(5) Disinterment permits will only be issued to the funeral director, and the disinterment must be done under the direct supervision of the funeral director.

100.9(6) Disinterment permits will be required for any relocation of a human remains from the original site of interment or entombment if the purpose is for autopsy or reburial.

100.9(7) No disinterment permit is necessary to remove a human remains or cremated remains from a holding facility for interment or entombment in the same cemetery where being temporarily held.

100.9(8) A funeral director may await a court order before proceeding with disinterment if the funeral director is aware of a dispute among:

- a. Persons who are members of the same class of persons described in 641—subrule 97.14(4) as having authority to control the human remains; or
- b. Persons who are authorized pursuant to 641—subrule 97.14(4) and the executor named in the decedent's will or personal representative appointed by the court.

645—100.10(156) Cremation of human remains.

100.10(1) Record keeping.

a. Delivery receipt.

(1) When a human remains is delivered to a cremation establishment, the cremation establishment will furnish to the delivery person a delivery receipt containing:

1. The name, address, age, gender, and cause of death of the decedent whose human remains are delivered to the cremation establishment.
2. The date and time of delivery and the type of container that contains the human remains.
3. If applicable, the name of the funeral director who sent the human remains and the name and license number of the funeral director's associated funeral establishment.
4. The signature of the person who delivered the human remains.
5. The signature of the person receiving the human remains on behalf of the cremation establishment.
6. The name and business address of the cremation establishment.

(2) The cremation establishment will retain a copy of the delivery receipt in its permanent records.

b. Receiving receipt.

(1) The cremation establishment will furnish to any person who receives the cremated remains from the cremation establishment a receiving receipt containing:

1. The name of the decedent whose cremated remains are released from the cremation establishment.
2. The date and time when the cremated remains were released from the cremation establishment.
3. The name of the person to whom the cremated remains are released and the name and license number of the funeral establishment, cemetery, family or other person or entity with which that person is affiliated.
4. The signature of the person who receives the cremated remains.
5. The signature of the person who released the cremated remains on behalf of the cremation establishment.
6. The name of the cremation establishment operator and the date and time of the cremation.

(2) The cremation establishment will retain a copy of the receiving receipt in its permanent records.

c. Permanent record. A cremation establishment will maintain at its place of business a permanent record that includes the following:

- (1) Name of the deceased person.
- (2) Date and time of the cremation.
- (3) Copies of the delivery receipt and the receiving receipt.
- (4) Disposition of the cremated remains.
- (5) Cremation authorization.
- (6) Cremation permit if required in the jurisdiction of death.

100.10(2) Employment of a funeral director by a cremation establishment. No aspect of these rules will be construed to require a funeral director to supervise or perform any functions at a cremation establishment not otherwise required by law to be performed by a funeral director. The cremation establishment will contract only with a licensed funeral establishment and will not contract directly with the general public.

100.10(3) Authorizing person and preneed cremation arrangements. The authorized person has legal authority and may make decisions regarding the final disposition of the decedent.

100.10(4) Authorization to cremate.

a. The cremation establishment will have the authority to cremate human remains upon the receipt of the following:

(1) Cremation authorization form signed by the authorized person. The cremation authorization form will contain the following:

1. The name, address, age and gender of the decedent whose human remains are to be cremated.
 2. The date, time of death and cause of death of the decedent.
 3. The name and license number of the funeral establishment and of the funeral director who obtained the cremation authorization form signed by the authorized person.
 4. The signature of the funeral director.
 5. The name and address of the cremation establishment authorized to cremate a human remains.
 6. The name and signature of the authorized person granting permission to cremate the human remains and the authorized person's relationship to the decedent.
 7. A representation that the authorized person has the right to authorize the cremation of the decedent in accordance with this rule.
 8. A representation that in the event there is another person who has superior priority right to that of the authorized person, the authorized person has made all reasonable efforts to contact that person and has no reason to believe that the person would object to the cremation of the decedent.
 9. A representation that a human remains does not contain any material or implants that may be potentially hazardous to equipment or persons performing the cremation.
 10. A representation that the authorized person has made a positive identification of the decedent or, if the authorized person is unavailable or declines, there are alternative means of positive identification.
 11. The name of the person, funeral establishment or funeral establishment's designee to which the cremated remains are to be released.
 12. The manner of the final disposition of the cremated remains.
 13. A listing of all items of value and instructions for their disposition.
- (2) The cremation permit if required in the jurisdiction of death.
- (3) Any other documentation required by this state.

b. If the authorized person is not available to execute the cremation authorization form in person, the funeral director may accept written authorization by facsimile, email, or such alternative written or electronic means the funeral director reasonably believes to be reliable and credible.

c. The authorized person may revoke the authorization and instruct the funeral director or funeral establishment to cancel the cremation. The cremation establishment will honor any instructions from a funeral director or funeral establishment under this rule if the cremation establishment receives instructions prior to beginning the cremation.

100.10(5) Cremation procedures.

a. A cremation establishment will cremate human remains within 24 hours of issuance of the delivery receipt as defined in subrule 100.10(1).

b. No cremation establishment will cremate human remains when it has actual knowledge that the human remains contain a pacemaker or have any other implants or materials which will present a health hazard to those performing the cremation and processing and pulverizing the cremated remains.

c. No cremation establishment will refuse to accept human remains for cremation because such human remains are not embalmed.

d. Whenever a cremation establishment is unable or unauthorized to cremate human remains immediately upon taking custody of the remains, the cremation establishment will place the human remains in a holding facility in accordance with the cremation establishment rules and regulations and within the parameters of rules 645—100.5(135,144) and 645—100.6(156).

e. No cremation establishment will accept human remains unless they are delivered to the cremation establishment in a container which prevents the leakage of body fluids.

f. Under no circumstances will an alternative container or casket be opened at the cremation establishment except to facilitate proper cremation.

g. The container in which a human remains is delivered to the cremation establishment will be cremated with the human remains or safely destroyed.

h. The simultaneous cremation of the human remains of more than one person within the same cremation chamber, without the prior written consent of the authorized person, is prohibited. Nothing in this rule, however, will prevent the simultaneous cremation within the same cremation chamber of body parts delivered to the cremation establishment from multiple sources, or the use of cremation equipment that contains more than one cremation chamber.

i. No unauthorized person will be permitted in the holding facility or cremation room while any human remains are being held there awaiting cremation, being cremated, or being removed from the cremation chamber.

j. A cremation establishment will not allow removal of any dental gold, body parts, organs, or any item of value prior to or subsequent to a cremation without previously having received specific written authorization from the authorized person and written instructions for the delivery of these items to the authorized person.

k. Upon the completion of each cremation, and insofar as is practicable, all of the recoverable residue of the cremation process will be removed from the cremation chamber.

l. If all of the recovered cremated remains will not fit within the receptacle that has been selected, the remainder of the cremated remains will be returned to the authorized person or this person's designee in a separate container. The cremation establishment will not return to an authorized person or this person's designee more or less cremated remains than were removed from the cremation chamber.

m. A cremation establishment will not knowingly represent to an authorized person or this person's designee that a temporary cremation container or urn contains the cremated remains of a specific decedent when it does not.

n. Cremated remains will be shipped only by a method that has an internal tracing system available and that provides a receipt signed by the person accepting delivery.

o. A cremation establishment will maintain an identification system that will ensure the identity of human remains in the cremation establishment's possession throughout all phases of the cremation process. A noncombustible tag or disc that includes the name and license number of the cremation establishment and the city and state where the cremation establishment is located will be attached to the plastic bag with the cremated remains or placed in amongst the cremated remains.

100.10(6) *Disposition of cremated remains.* If responsible, the funeral director will supervise the final disposition of the cremated remains as follows:

a. Cremated remains may be disposed of by placing them in a grave, crypt, or niche or by scattering them in a scattering area as defined in these rules, or they may remain in the personal care and custody of the authorized person. After supervising the transfer of cremated remains to the authorized person or place of final disposition, the funeral director will be discharged.

b. Upon the completion of the cremation process, the cremation establishment will release the cremated remains to the funeral establishment or the authorized person or the authorized person's designee. Upon the receipt of the cremated remains, the individual receiving them may transport them in any manner in this state without a burial transit permit and may dispose of them in accordance with this rule. After releasing the cremated remains, the cremation establishment will be discharged from any legal obligation or liability concerning the cremated remains.

c. If, after a period of 60 days from the date of the cremation, the authorizing person or designee has not instructed the funeral director to arrange for the final disposition of the cremated remains, the funeral director may dispose of the cremated remains in any manner permitted by this rule. The funeral establishment, however, will keep a permanent record identifying the site of final disposition. The authorizing person will be responsible for reimbursing the funeral establishment for all reasonable expenses incurred in disposing of the cremated remains. Any entity that was in possession of cremated remains prior to the effective date of these rules may dispose of them in accordance with this rule.

d. Except with the express written permission of the authorizing person, no funeral director or cremation establishment will:

(1) Dispose of cremated remains in a manner or in a location so that the cremated remains are commingled with those of another person. This prohibition will not apply to the scattering of cremated remains in an area located in a cemetery and used exclusively for those purposes.

(2) Place cremated remains of more than one person in the same temporary cremation container or urn.

100.10(7) Scope of rules. These rules will be construed and interpreted as a comprehensive cremation statute, and the provisions of these rules will take precedence over any existing laws containing provisions applicable to cremation, but that do not specifically or comprehensively address cremation.

645—100.11(156) Records to be retained by a funeral establishment. To ensure a permanent record of the licensed activity relating to the custody of each decedent, each funeral director will create and the funeral establishment will maintain the records identified in this rule. Funeral directors and funeral establishments will comply with the rules adopted by the department of health and human services under Iowa Code section 144.49.

100.11(1) At a minimum, the following information, if applicable, relating to each human remains which enters the custody of the establishment/licensee will be maintained as the permanent record of licensed activity:

- a. Name of the deceased;
- b. Date, time, and place of death (institution or other place, city, state, zip);
- c. Name and address of the person or funeral establishment to whom a human remains is released;
- d. Date and from whom the funeral director assumed custody, including the name of the institution or other place of death releasing a human remains;
- e. Date, time, and name of the licensed funeral director or registered intern completing embalming or other preparation for final disposition;
- f. Date, place and method of final disposition of a human remains.

100.11(2) Each funeral establishment will create and maintain the following records for a period of ten years:

- a. General price list required by the funeral rule, beginning on the most recent effective date;
- b. Each completed statement of goods and services required by the funeral rule, beginning on the date the statement is signed;
- c. Cremation records (see rule 645—100.10(156));
- d. Embalming records;
- e. Each preneed contract (pursuant to Iowa Code chapter 523A), beginning on the date of death.

100.11(3) The funeral records maintained by the funeral establishment as required in subrules 100.11(1) and 100.11(2) will be made available by the manager, funeral director or owner of the funeral establishment to:

- a. Any person or entity assuming a new ownership interest or any person newly assuming the position of manager, at least ten days prior to a change in ownership or manager, unless otherwise mutually agreed upon by the parties;
- b. Any licensed funeral director who practiced funeral directing while under the employment of, or while acting as an agent of, the funeral establishment; and
- c. The state registrar of vital statistics and the board.

100.11(4) In the event a funeral establishment ceases to do business, the owner or manager of the funeral establishment will identify the person or entity which will be responsible for records to be maintained by a funeral establishment as required in subrules 100.11(1) and 100.11(2). The funeral establishment will notify the board if funeral records are moved from the funeral establishment to another location and identify the person responsible for their safekeeping.

These rules are intended to implement Iowa Code chapters 147, 156, and 272C.

Regulatory Analysis

Notice of Intended Action to be published: Iowa Administrative Code 645—Chapter 101
“Licensure of Funeral Directors, Funeral Establishments, and Cremation Establishments”

Iowa Code section(s) or chapter(s) authorizing rulemaking: 156, 147, 272C, and 17A
State or federal law(s) implemented by the rulemaking: Iowa Code chapter 156

Public Hearing

A public hearing at which persons may present their views orally or in writing will be held as follows:

November 21, 2023
1:30 p.m.

6200 Park Avenue
Des Moines, Iowa
meet.google.com/bfq-qaeb-nwu
Or dial: 1.402.921.2210
PIN: 301 728 068#

Public Comment

Any interested person may submit written or oral comments concerning this Regulatory Analysis. Written or oral comments in response to this Regulatory Analysis must be received by the Department of Inspections, Appeals and Licensing no later than 4:30 p.m. on the date of the public hearing. Comments should be directed to:

Susan Reynolds
Bureau of Board Support
Phone: 515.281.5234
Email: susan.reynolds@idph.iowa.gov

Purpose and Summary

Proposed Chapter 101 sets minimum standards for licensure as a funeral director and establishments in Iowa. Iowa residents, licensees, and employers benefit from the chapter because it articulates the processes by which individuals apply for licensure, as directed in statute. This includes the process for initial licensure, renewal, and reinstatement. These requirements ensure public safety by ensuring that any individual entering the public or establishment doing business with the public has minimum competency. Requirements include the application process, minimum educational qualifications and examination requirements.

Analysis of Impact

1. Persons affected by the proposed rulemaking:
 - Classes of persons that will bear the costs of the proposed rulemaking:

There are no direct costs imposed on the public to comply with the chapter; however, there is a cost to the applicant to meet the requirements of statute and rules. The application fee for a funeral director’s license is \$120, and the biannual renewal fee is \$120. Applicants for licensure must complete 60 hours of non-mortuary science hours and successfully pass the certifying examination conducted by The International Conference of Funeral Service Examining Boards; the fee for this examination is \$570. These costs are comparable to surrounding states’ licensing fees for a funeral director. Nebraska’s application fee is \$90; Minnesota’s application fee is \$200.

The licensee would also have costs related to educational requirements and examination requirements. The Board has not identified an exact cost of education for this field since it varies depending on the school the licensee chooses to attend to meet those requirements.

Costs incurred by the agency are staff time to manage the full scope of Board activities, which includes oversight of practice standards, triaging questions from licensees and the public, monitoring interns, and administering Board meetings. An executive officer supports the work of the Board at approximately 0.29 full-time equivalent (FTE) position. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Classes of persons that will benefit from the proposed rulemaking:

The general public and licensees benefit from this chapter. The chapter provides standards of practice for the licensees to ensure the licensee is following standards of care and providing adequate services to the consumer. The public benefits by knowing they are receiving quality services in this industry.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

Educational institutions provide academic training for funeral directors to obtain their license in Iowa. Additional private industries and educational institutions provide examinations and materials for preparation for the examination. Because the cost of education is so variable depending on the institution the person attends, the Board is unable to put an exact cost on the cost of education or examination preparation.

Licensing fees for a funeral director is \$120 for an initial license and \$120 for each biannual renewal period; initial license for a funeral or cremation establishment is \$90 and \$90 for each triennial renewal period.

- Qualitative description of impact:

Establishing minimum requirements for licensure ensures safety for the licensee and consumer. The cost of inaction would increase the potential for injury to the public by a licensee who is not qualified to perform the work in the field.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:

Costs incurred by the agency are staff time to manage the full scope of Board activities, which includes oversight of practice standards, triaging questions from licensees and the public, monitoring interns, and administering Board meetings. An executive officer supports the work of the Board at approximately 0.29 FTE position. Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

- Anticipated effect on state revenues:

Costs associated with implementing this chapter are paid by individual licensees or establishments, not the State. There is no anticipated impact on state revenues as a result of this rulemaking.

Staff salaries are covered by the Licensing and Regulation Fund established in 2023 Iowa Acts, Senate File 557. Licensing fees go to the Fund to cover the operations of the regulated professional licensing boards.

4. Comparison of the costs and benefits of the proposed rulemaking to the costs and benefits of inaction:

Establishing minimum licensing requirements ensures that practitioners are competent to practice. Almost every person at some point will purchase or consume a funeral-related product or service. Without having an established threshold for entry into the profession, individuals who are not appropriately trained could have adverse effects on consumers who are making expensive decisions in stressful circumstances. The Board believes the benefits achieved justify the cost to license this profession because licensure ensures that Iowa consumers are protected.

5. Determination whether less costly methods or less intrusive methods exist for achieving the purpose of the proposed rulemaking:

On a national level, there is a wide variety of alternatives to licensure. The state of Colorado registers the establishment as opposed to the individual. Arkansas does not require a funeral director to obtain college credits as long as the funeral director completes an apprenticeship and passes the national examination. The Board is committed to requiring licensure of funeral directors and establishments to ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario.

Due to state government alignment, this Board is now part of the Department of Inspections, Appeals, and Licensing (DIAL). The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

6. Alternative methods considered by the agency:

- Description of any alternative methods that were seriously considered by the agency:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario.

- Reasons why alternative methods were rejected in favor of the proposed rulemaking:

The Board believes all current requirements ensure public safety and ensure a minimum competency of care is provided to Iowans. Licensure requirements could be reduced or eliminated for the purpose of lowering the bar of entry into the profession; however, the Board would be concerned about the public safety of Iowans in that scenario.

Due to state government alignment, this Board is now part of DIAL. The DIAL Licensing Division continues to assess and implement opportunities to increase efficiencies and standardize processes across all professional licensing boards. These revisions support this effort. DIAL is actively pursuing a single licensing platform to assist in standardizing licensing.

Small Business Impact

If the rulemaking will have a substantial impact on small business, include a discussion of whether it would be feasible and practicable to do any of the following to reduce the impact of the rulemaking on small business:

- Establish less stringent compliance or reporting requirements in the rulemaking for small business.
- Establish less stringent schedules or deadlines in the rulemaking for compliance or reporting requirements for small business.
- Consolidate or simplify the rulemaking's compliance or reporting requirements for small business.
- Establish performance standards to replace design or operational standards in the rulemaking for small business.
- Exempt small business from any or all requirements of the rulemaking.

If legal and feasible, how does the rulemaking use a method discussed above to reduce the substantial impact on small business?

The proposed chapter relates to high-stakes public safety concerns that are present whether the business is a small business or a large organization. The chapter is meant to ensure public safety in terms of licensing requirements for funeral directors and establishments. While some funeral directors may work in an independently owned establishment, others may work for multiple establishments owned by the same firm. To exempt a small business from adhering to this chapter would jeopardize any member of the public who sought services from that small business. The risk to the public is greater than the potential harm or cost to the small business.

Text of Proposed Rulemaking

ITEM 1. Rescind 645—Chapter 101 and adopt the following new chapter in lieu thereof:

CHAPTER 101
LICENSURE OF FUNERAL DIRECTORS, FUNERAL ESTABLISHMENTS, AND
CREMATION ESTABLISHMENTS

645—101.1(156) Definitions. For purposes of these rules, the following definitions will apply:

“*Active license*” means a license that is current and has not expired.

“*Board*” means the board of mortuary science.

“*Change of ownership*” means a change of controlling interest ((1) an interest in a partnership of greater than 50 percent; or (2) greater than 50 percent of the issued and outstanding shares of a stock of a corporation) in a funeral establishment or cremation establishment.

“*Full time*” means a minimum of a 35-hour work week.

“*Grace period*” means the 30-day period following expiration of a license when the license is still considered to be active. In order to renew a license during the grace period, a licensee is required to pay a late fee.

“*Inactive license*” means a license that has expired because it was not renewed by the end of the grace period. The category of “inactive license” may include licenses formerly known as lapsed, inactive, delinquent, closed, or retired.

“*Licensee*” means any person licensed to practice as a funeral director in the state of Iowa.

“*License expiration date*” means the fifteenth day of the birth month every two years following initial licensure.

“*Licensure by endorsement*” means the issuance of an Iowa license to practice mortuary science to an applicant who is or has been licensed in another state.

“*Outer burial container*” means any container which is designed for placement in the ground around a casket or an urn including, but not limited to, containers commonly known as burial vaults, urn vaults, grave boxes, grave liners, and lawn crypts.

“*Reactivate*” or “*reactivation*” means the process as outlined in rule 645—101.11(17A,147,272C) by which an inactive license is restored to active status.

“*Reciprocal license*” means the issuance of an Iowa license to practice mortuary science to an applicant who is currently licensed in another state which has a mutual agreement with the Iowa board of mortuary science to license persons who have the same or similar qualifications to those required in Iowa.

“*Reinstatement*” means the process as outlined in rule 645—11.31(272C) by which a licensee who has had a license suspended or revoked or who voluntarily surrendered a license may apply to have the license reinstated, with or without conditions. Once the license is reinstated, the licensee may apply for active status.

645—101.2(156) Requirements for licensure.

101.2(1) The applicant will be eligible to apply for a license to practice mortuary science by the board pursuant to subrule 101.2(2) when the applicant has completed the educational requirements and examination requirements, followed by a completed internship as prescribed below, in the following alphabetical order:

a. Educational qualifications.

(1) A minimum of 60 hours of college credit as indicated on the transcript from a regionally accredited college or university with a minimum of a 2.0 or “C” grade point average. The 60 college semester hours will not include any technical mortuary science course; and

(2) A program in mortuary science from a school accredited by the American Board of Funeral Service Education; and

(3) A college course of at least one semester hour or equivalent in current Iowa law and rules covering mortuary science content areas including, but not limited to, Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed services.

b. Examination requirements. The board will accept a certificate of examination issued by the International Conference of Funeral Service Examining Boards, Inc., indicating a passing score on both the arts and sciences portions of the examination.

c. Internship requirements as outlined in rule 645—101.3(147,156).

101.2(2) The applicant will complete an online application packet on the Iowa board of mortuary science website and pay the nonrefundable application fee.

a. If licensed in another jurisdiction, the applicant will complete the licensure by endorsement application. Submit a license verification document that discloses if disciplinary action was taken in the jurisdiction where the applicant was most recently licensed.

b. An application that is not completed according to guidelines will not be reviewed by the board.

c. A person who is licensed in another jurisdiction but who is unable to satisfy the requirements of licensure by endorsement may apply for licensure by verification, if eligible, in accordance with rule 645—19.1(272C).

d. An application will not be considered until official copies of the academic transcripts has been directly transmitted from the college to the board office that demonstrates the applicant has completed a program at an approved college of mortuary science.

e. Licensees who were issued their initial licenses within six months prior to the renewal will not be required to renew their licenses until the renewal month two years later.

f. Incomplete applications that have been on file in the board office for more than two years will be:

(1) Considered invalid and will be destroyed; or

(2) Maintained upon written request of the candidate. The candidate is responsible for requesting that the file be maintained.

101.2(3) Foreign-trained funeral directors will:

a. Provide an equivalency evaluation of their educational credentials by International Educational Research Foundation, Inc. The professional curriculum must be equivalent to that stated in these rules. A candidate will bear the expense of the curriculum evaluation.

b. Provide a copy of the certificate or diploma awarded to the applicant from a mortuary science program in the country in which the applicant was educated.

c. Receive a final determination from the board regarding the application for licensure.

d. Successfully complete a college course of at least one semester hour or equivalent in current Iowa law and rules covering mortuary science content areas including, but not limited to, Iowa law and rules governing the practice of mortuary science, cremation, vital statistics, cemeteries and preneed.

645—101.3(147,156) Internship and preceptorship.

101.3(1) *Internship.*

a. The intern must serve a minimum of one year of internship under the direct supervision of an Iowa board-certified preceptor. The beginning and ending dates of the internship will be indicated on the internship certificate. The intern will engage in the practice of mortuary science only during the time indicated on the internship certificate.

b. The intern will, during the internship, be a full-time employee with the funeral establishment at the site of internship except as provided in paragraph 101.3(2)“i.”

c. No licensed funeral director will permit any person in the funeral director’s employ or under the funeral director’s supervision or control to serve an internship in funeral directing unless that person has a certificate of registration as a registered intern from the department of public health. The registration will be posted in a conspicuous place in the intern’s primary place of practice.

d. Registered interns will not advertise or hold themselves out as funeral directors or use the degree F.D. or any other title or abbreviation indicating that the intern is a funeral director.

e. The intern will, during the internship, complete the requirements outlined in subrule 101.3(3), including to embalm not fewer than 25 human remains and direct or assist in the direction of not fewer than 25 funerals under the direct supervision of the certified preceptor and to submit reports on forms furnished by the department of public health. Work on the first 5 embalming cases, first 5 funeral arrangements, and first 5 funeral or memorial services must be completed in the physical presence of the preceptor. The first 12 embalming cases and the first 12 funeral case reports must be completed and submitted by the completion of the sixth month of the internship.

f. Before being eligible for licensure, the intern must have filed the 25 completed embalming and funeral directing case reports and a 6-month and a 12-month evaluation form with the department of public health. These reports will be answered in full and signed by both the intern and preceptor.

g. When, for any valid reason, the board determines that the education a registered intern is receiving under the supervision of the present preceptor might be detrimental to the intern or the profession at large, the intern may be required to serve the remainder of the internship under the supervision of a licensed funeral director who is approved by the board.

h. The length of an internship may be extended if the board determines that the intern requires additional time or supervision in order to meet the minimum proficiency in the practice of mortuary science.

i. The board views a one-year internship completed in a consecutive 12-month period as the best training option. If an internship is interrupted, the internship must be completed within 24 months of the date it started in order to be readily accepted by the board. Internships that are not completed within 24 months will be preapproved by the board on such terms as the board deems reasonable under the circumstances. The board may require any or all of the following:

(1) Completion of a college course or continuing education course covering mortuary science laws and rules;

(2) Additional case reports;

(3) Extension of an internship up to an additional 12 months depending on such factors as the number of months completed during the internship, length of time that has lapsed since the intern was actively involved in the internship program, and the experience attained by the intern.

j. Application for change of preceptor or any other alteration must be made in writing and approval granted by the board before the status of the intern is altered.

k. The intern will complete on a form provided by the board a confidential evaluation of the preceptorship program at the end of the internship. This form will be submitted before a funeral director license is issued to the intern.

l. The intern must be approved and licensed following a successful internship before the intern may practice mortuary science.

101.3(2) Preceptorship.

a. A preceptor must have completed a training course within five years prior to accepting an intern. This training course will cover Iowa law and rule content areas including, but not limited to, Iowa law and rules governing licensure and the practice of mortuary science and human resource issues. The training course may be counted toward the continuing education hours required for the licensure biennium in which the training course was completed.

b. Any duly Iowa-licensed funeral director who has been practicing for a minimum of five years and who has not had any formal disciplinary action within the past five years with the board of mortuary science and has completed a preceptor training course detailed in paragraph 101.3(2)“*a*” will be eligible to be a preceptor.

c. The preceptor will be affiliated with a funeral establishment that has not had any formal disciplinary action within the past five years.

d. The preceptor will certify that the intern engages in the practice of mortuary science only during the time frame designated on the official intern certificate.

e. A preceptor’s duties will include the following:

(1) Ensure the intern completes the training program outlined in subrule 101.3(3);

(2) Be physically present and supervise the first five embalming cases, first five funeral arrangements, and first five funeral or memorial services;
