**ARC 5279C****ECONOMIC DEVELOPMENT AUTHORITY[261]****Notice of Intended Action****Proposing rule making related to apprenticeships  
and providing an opportunity for public comment**

The Economic Development Authority hereby proposes to amend Chapter 12, “Apprenticeship Training Program,” and Chapter 13, “Future Ready Iowa Registered Apprenticeship Development Fund,” and to adopt new Chapter 14, “Future Ready Iowa Expanded Registered Apprenticeship Opportunities Program,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in 2020 Iowa Acts, House File 2629.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code chapter 15C.

*Purpose and Summary*

2020 Iowa Acts, House File 2629, creates new Iowa Code section 15C.2, the Future Ready Iowa Expanded Registered Apprenticeship Opportunities Program, and directs the Authority to promulgate rules. The purpose of the program is to encourage sponsors of apprenticeship programs with 20 or fewer apprentices to maintain programs in high-demand occupations. The Act also amends Iowa Code chapter 15B and section 15C.1 to exclude apprenticeship sponsors from participating in more than one apprenticeship program administered by the Authority in the same fiscal year.

*Fiscal Impact*

This rule making has no fiscal impact to the State of Iowa. No funds have been appropriated for the program.

*Jobs Impact*

After analysis and review of this rule making, the Authority has determined that if the Legislature appropriates funds for the program, this rule making will positively impact jobs in the state of Iowa by implementing the administration of a program designed to support apprentices and businesses in high-demand jobs.

*Waivers*

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Authority for a waiver of the discretionary provisions, if any, pursuant to 261—Chapter 199.

*Public Comment*

Any interested person may submit written or oral comments concerning this proposed rule making. Written or oral comments in response to this rule making must be received by the Authority no later than 4:30 p.m. on December 8, 2020. Comments should be directed to:

year following the start of the fiscal year. The authority may adjust these dates under extenuating circumstances and will notify affected parties. The authority may add a funding window if available funds are not exhausted during the initial submission window and will publish such application dates on the authority's website.

*d. Complete application required.* An application shall not be considered submitted for review until the application is completed and all required supporting documentation and information are provided to the authority.

**14.3(3) Application review.** If the amount of funding requested by eligible applicants exceeds the amount of funding available to the authority in any given fiscal year, authority staff will make recommendations to the director as to allocation of available funding based on the scoring criteria described in subrule 14.4(2). The authority may deny applications for incompleteness or because of insufficient funds.

**261—14.4(15C) Program eligibility, application scoring, and awards.****14.4(1) Program eligibility.**

*a.* To be considered for an award under this program, an apprenticeship program sponsor must meet the following eligibility requirements:

(1) The apprenticeship sponsor has an apprenticeship program with at least one eligible apprenticeable occupation.

(2) Twenty or fewer apprentices are registered in the apprenticeship program as of December 31 of the calendar year prior to the date the authority receives the eligible apprenticeship sponsor's application. Apprentices are considered registered in the program as of December 31 if they were actively training as of December 31 or completed training during the calendar year prior to the date the authority receives the apprenticeship sponsor's application.

(3) More than 70 percent of the applicant's apprentices are residents of Iowa, and the remainder of the applicant's apprentices are residents of states contiguous to Iowa. In determining the number of apprentices in an applicant's apprenticeship program for the purposes of determining the percentage of Iowa residents, the authority may calculate the average number of apprentices in the program within the most recent two-year period.

*b.* An apprenticeship sponsor receiving financial assistance under Iowa Code chapter 15B or section 15C.1 is ineligible for financial assistance under these rules during the same fiscal year.

*c.* An apprenticeship sponsor who trains through a lead apprenticeship sponsor that qualifies for financial assistance under Iowa Code chapter 15B is ineligible to receive financial assistance under these rules.

**14.4(2) Application scoring criteria.** Applications for financial assistance under the program shall be reviewed and scored as described below. To be considered eligible for funding, an application must receive a minimum score of 65 out of a possible 100 points and meet all other eligibility criteria specified in these rules. If an applicant does not meet all eligibility requirements, the application will not be scored.

*a. Budget and costs.* The extent to which the applicant's budget and estimated or real program costs are based on industry standards for the eligible occupation. (maximum 30 points)

*b. Application of financial assistance.* The applicant has provided specific details regarding the use of funding and how it will be applied. (maximum 30 points)

*c. Local support.* The applicant has provided documentation of local support from area partners, such as schools, local government entities, and other employers that may benefit from the apprenticeship program. (maximum 10 points)

*d. Additional funding.* The authority will take into consideration sources of funding for establishing an apprenticeable occupation. Scores will be based on whether the source of funding is public or private, whether the funding is repayable, and the proportion of internal funding to funding from other sources. Higher scores will be awarded if the source of funding is a private entity, if the funding is repayable, and if the amount of internal funding is more than 50 percent of funding needed to establish the apprenticeable occupation. (maximum 10 points)

## ECONOMIC DEVELOPMENT AUTHORITY[261](cont'd)

*e. Certification of worker safety.* The applicant has not violated state or federal statutes, rules or regulations, including environmental and worker safety regulations, or if such violations have occurred, the violations have been addressed and mitigated. (maximum 10 points)

*f. Certification of employment at an Iowa work site.* The applicant has certified that the apprentices identified by their U.S. Department of Labor identification numbers and represented in the application are registered with the applying sponsor or lead sponsor's registered apprenticeship program and that each apprentice listed worked some time in Iowa during the prior calendar year. (maximum 10 points)

**14.4(3) Financial assistance awards.**

*a. Director approval.* The director will make final funding decisions after considering the recommendations of staff. Successful applicants will be notified in writing of an award of financial assistance, including the conditions and terms of approval.

*b. Disbursement of funds.* The authority will disburse funds to a successful applicant only after approval of a completed application and execution of an agreement between the applicant and the authority pursuant to this chapter. Prior to disbursement of funds, the applicant must provide the authority with confirmation of expenses and the authority must confirm that all terms for financial assistance have been met.

*c. Form of financial assistance.* The authority will provide financial assistance in the form of a grant to the applicant. The amount of the grant and any other terms shall be included in the agreement required pursuant to this chapter.

*d. Use of funds.* An applicant shall use funds only for reimbursement of the costs directly related to the project. The authority may require documentation or other information establishing the actual costs incurred for a project. Failure to use the funds for reimbursement of the costs directly related to a project shall be grounds for default under the agreement required pursuant to this chapter.

**261—14.5(15C) Agreement required.**

**14.5(1)** Each applicant that is approved for financial assistance under the program shall enter into an agreement with the authority for the provision of such financial assistance. The agreement will establish the terms on which the financial assistance is to be provided and may include any other terms reasonably necessary for the efficient administration of the program.

**14.5(2)** The authority and the applicant may amend the agreement at any time upon the mutual agreement of both the authority and the applicant.

**14.5(3)** The agreement may require an applicant that has been approved for financial assistance under the program to submit information reasonably required by the authority to make reports to the authority's board, the governor's office, or the general assembly.

These rules are intended to implement Iowa Code section 15C.2.

The amount taken shall not exceed the delinquent amount owed by the obligor.

ITEM 20. Adopt the following new rule 441—98.83(252B):

**441—98.83(252B) *Offset against state income tax refund or rebate.*** The department will make a claim against an obligor’s state income tax refund or rebate when a support payment is delinquent as set forth in 11—Chapter 40. A claim against an obligor’s state income tax refund or rebate shall apply to support which the department is attempting to collect.

**98.83(1)** By the first day of each month, the department shall submit to the department of administrative services a list of obligors who are delinquent at least \$50 in support payments.

**98.83(2)** When the department claims an obligor’s state income tax refund or rebate, the department shall send a preoffset notice to the obligor to inform the obligor of the amount the department intends to claim and apply to support. The department shall send a preoffset notice when:

The request for release of a spouse’s proportionate share shall be received by the department within 15 days of the date of the preoffset notice.

**98.83(5)** The department shall refund any amount incorrectly offset to the obligor unless the obligor agrees in writing to apply the refund of the incorrect offset to any other support obligation due.

**98.83(6)** The department shall notify an obligor of the final decision regarding the claim against the tax refund or rebate by sending a final disposition of support recovery claim notice to the obligor.

**98.83(7)** Offsets shall be applied as provided in rule 441—95.3(252B).

**441—98.84(252B) Offset against federal income tax refund and federal nontax payment.** The department will make a claim against an obligor's federal income tax refund or federal nontax payment when delinquent support is owed. For purposes of this offset, delinquent support shall include the entire balance of a judgment for accrued support, as provided in Iowa Code section 252B.5(4).

**98.84(1) Amount of assigned support.** If the delinquent support is assigned to the department, the amount of delinquent support shall be at least \$150, calculated by combining the assigned delinquent support in all of the obligor's cases in which the assigned delinquent support is at least \$50.

**98.84(2) Amount of nonassigned support.** If delinquent support is not assigned to the department, the claim shall be made if the amount of delinquent support is at least \$500, calculated by combining the nonassigned delinquent support in all of the obligor's cases in which the nonassigned delinquent support is at least \$50.

*a.* The amount distributed to an obligee shall be the amount remaining following payment of a support delinquency assigned to the department. The department shall distribute to an obligee the amount collected from an offset according to subrule 98.84(9) within the following time frames:

(1) Within six months from the date the department applies an offset amount from a joint income tax refund to the child support account of the responsible person, or within 15 days of the date of resolution of an appeal under subrule 98.84(8), whichever is later, or

(2) Within 30 days from the date the department applies an offset amount from a single income tax refund to the child support account of the responsible person, or within 15 days of the date of resolution of an appeal under subrule 98.84(8), whichever is later.

(3) However, the department is not required to distribute until it has received the amount collected from an offset from the federal Department of the Treasury.

*b.* Federal nontax payment offsets shall be applied as provided in rule 441—95.3(252B).

**98.84(3) Notification to federal agency.** The department shall, by October 1 of each year or at times as permitted or specified by federal regulations, submit a notification(s) of liability for delinquent support to the federal Office of Child Support Enforcement.

**98.84(4) Preoffset notice and review.** Each obligor who does not have an existing support debt on record with the federal Office of Child Support Enforcement will be sent a preoffset notice in writing, using address information provided to the federal Office of Child Support Enforcement, stating the amount of the delinquent support certified for offset.

*a.* Individuals whose names were submitted for federal offset who wish to dispute the offset must notify the department in writing within the time period specified in the preoffset notice.

*b.* Upon receipt of a complaint from the individual disputing the submission for offset, the child support recovery unit shall conduct a review to determine if there is a mistake of fact and respond to the individual in writing within ten days.

**98.84(5) Recalculation of delinquency.** When the records of the department differ with those of the obligor for determining the amount of the delinquent support, the obligor may provide and the department will accept documents verifying modifications of the order, and records of payments made pursuant to state law, and will recalculate the delinquency.

**98.84(6) Notification of modification or elimination.** The department shall notify the federal Office of Child Support Enforcement, within time frames established by the federal Office of Child Support Enforcement, of any modification or elimination of an amount referred for offset.

**98.84(7) Failure to timely respond.** When an individual does not respond to the preoffset notice within the specified time even though the department later agrees a certification error was made, the individual must wait for corrective action as specified in subrule 98.84(8).

**98.84(8) Offset notice, appeal, and refund.** The federal Department of the Treasury will send notice that a federal income tax refund or federal nontax payment owed to the obligor has been intercepted. When the unit receives information from the federal Office of Child Support Enforcement regarding the offset, or when the individual whose name was submitted for federal offset notifies the department that

## HUMAN SERVICES DEPARTMENT[441](cont'd)

the individual has received an offset notice, the department shall issue to that individual Form 470-3684, Appeal Rights for Federal Offsets.

*a.* The individual whose name was submitted for federal offset shall have 15 days from the date of the notice to contest the offset by initiating an administrative appeal pursuant to 441—Chapter 7. Except as specifically provided in this rule, administrative appeals will be governed by 441—Chapter 7. The issue on appeal shall be limited to a mistake of fact. Any other issue may be determined only by a court of competent jurisdiction.

*b.* The department shall refund the incorrect portion of a federal income tax offset or federal nontax payment offset within 30 days following verification of the offset amount. Verification shall mean a listing from the federal Office of Child Support Enforcement containing the obligor's name and the amount of tax refund or nontax payment to which the obligor is entitled. The date the department receives the federal listing will be the beginning day of the 30-day period in which to make a refund.

*c.* The department shall refund the amount incorrectly set off to the obligor unless the obligor agrees in writing to apply the refund of the incorrect offset to any other support obligation due.

**98.84(9) Application of offsets.** Offsets of federal income tax refunds shall be applied to delinquent support only. The department shall first apply the amount collected from an offset to delinquent support assigned to the department under Iowa Code chapters 234 and 239B. The department shall then apply any amount remaining in equal proportions to delinquent support due individuals receiving nonassistance services.

This rule is intended to implement Iowa Code sections 252B.3, 252B.4, and 252B.5.

ITEM 22. Amend **441—Chapter 98, Division IX**, heading, as follows:

DIVISION ~~IX~~ X

However, before the unit will release the information to a consumer reporting agency, the agency must meet the requirements for a nationwide consumer reporting agency under Iowa Code section 252B.9(3)“j.”

**98.116(1) Request of information.** Agencies may request the information from the Bureau of Collections, Department of Human Services, 400 SW Eighth Street, Suite H, Des Moines, Iowa 50309-4691. Requests for information about an individual shall include the individual's name and identifying information such as a social security number or birth date. Agencies may also request a listing of all obligors owing support in excess of \$1,000.

**98.116(2) Notice of proposed release of information.** A notice of proposed release of information shall be sent to the last known address of the responsible person 30 calendar days prior to the release of the support arrearage information to a consumer reporting agency. This notice shall explain the information to be released and the methods available for contesting the accuracy of the information.

**98.116(3) Contesting proposed release of information.** The responsible person may, within 15 calendar days of the date of the notice of proposed release of information, request a conference with the child support recovery officer to contest the accuracy of the information to be given to the consumer reporting agency. In contested cases no referral shall be made to the consumer reporting agency until after the amount of overdue support has been confirmed to exceed \$1,000.

The following rule-making actions are proposed:

ITEM 1. Amend rule 441—77.49(249A) as follows:

**441—77.49(249A) Physician assistants.** All physician assistants licensed to practice in the state of Iowa are eligible for participation in the program. Physician assistants duly licensed to practice in other states are also eligible for participation. ~~Enrollment is for the purpose of providing professional services for Medicaid members including orders and referrals, as required under Public Law 111-148, Section 6401, otherwise known as the Patient Protection and Affordable Care Act (PPACA). Enrollment will not affect the provider's payment arrangements with facilities or supervising providers.~~

This rule is intended to implement Iowa Code section 249A.4.

ITEM 2. Amend paragraph **78.1(9)“d”** as follows:

*d.* Payment will be approved for tasks related to a resident receiving nursing facility care which are performed by a ~~physician's employee who is a~~ nurse practitioner, clinical nurse specialist, or physician assistant as specified in 441—paragraph 81.13(13)“*e.*” On-site supervision of the physician is not required for these services.

ITEM 3. Amend paragraph **78.1(13)“a”** as follows:

*a.* Auxiliary personnel are nurses, ~~physician's assistants~~, psychologists, social workers, audiologists, occupational therapists and physical therapists.

ITEM 4. Amend paragraph **78.1(13)“c”** as follows:

*c.* Direct personal supervision in the office setting means the physician must be present in the same office suite, not necessarily the same room, and be available to provide immediate assistance and direction.

Direct personal supervision outside the office setting, such as the member's home, hospital, emergency room, or nursing facility, means the physician must be present in the same room as the auxiliary person.

Advanced registered nurse practitioners certified under board of nursing rules 655—Chapter 7 performing services within their scope of practice are exempt from the direct personal supervision requirement for the purpose of reimbursement to the employing physicians. In these exempted circumstances, the employing physicians must still provide general supervision and be available to provide immediate needed assistance by telephone. Advanced registered nurse practitioners who prescribe drugs and medical devices are subject to the guidelines in effect for physicians as specified in rule 441—78.1(249A).

A physician assistant licensed under board of physician assistants' professional licensure rules in ~~645—Chapter 325~~ Chapters 326 to 329 is exempt from the direct personal supervision requirement ~~but the physician must still provide general supervision and be available to provide immediate needed assistance by telephone except as expressly required by Iowa Code chapter 148C or required by rules in 645—Chapters 326 to 329.~~ A physician shall be accessible at all times for consultation with a physician assistant unless the physician assistant is providing emergency medical services pursuant to 645—paragraph 327.1(2)“n.” Physician assistants who prescribe drugs and medical devices are subject to the guidelines in effect for physicians as specified in rule 441—78.1(249A).

**ARC 5277C****HUMAN SERVICES DEPARTMENT[441]****Notice of Intended Action****Proposing rule making related to HCBS elderly waiver budget cap  
and providing an opportunity for public comment**

The Human Services Department hereby proposes to amend Chapter 83, “Medicaid Waiver Services,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in 2020 Iowa Acts, House File 2269.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, 2020 Iowa Acts, House File 2269.

*Purpose and Summary*

During the 2020 Legislative Session, House File 2269 directed the Department to eliminate the monthly budget maximum or cap for individuals eligible for the Medicaid home- and community-based services (HCBS) elderly waiver. The proposed amendments remove the total limit on the monthly cost of care for the elderly waiver.

*Fiscal Impact*

The fiscal impact of increasing or eliminating a waiver monthly cap must be calculated; however, because the majority of the HCBS elderly waiver members’ assessed needs are currently met within the established funding limits, the anticipated increase is cost-neutral or minimal. The Department estimated the fiscal impact of removing the monthly waiver funding cap by looking at approved exceptions to policy. Even though most elderly waiver service plans have a monthly maximum funding cap, the established exception-to-policy process allows for funding in excess of the waiver cap for medically necessary services to meet a member’s assessed needs. During calendar year 2019, the Iowa Medicaid Enterprise received 14 exception-to-policy requests to exceed the elderly waiver monthly cap; all of these requests were approved. A nominal fiscal impact of less than \$250,000 is expected.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

*Waivers*

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 441—1.8(17A,217).

*Public Comment*

Any interested person may submit written comments concerning this proposed rule making. Written comments in response to this rule making must be received by the Department no later than 4:30 p.m. on December 8, 2020. Comments should be directed to:

The following rule-making actions are proposed:

ITEM 1. Amend subparagraph **83.22(2)“c”(2)** as follows:

(2) Services must be the least costly available to meet the service needs of the member. ~~The total monthly cost of the elderly waiver services exclusive of case management services shall not exceed the established monthly cost of the level of care. Aggregate monthly costs, excluding the cost of case management and home and vehicle modifications, are limited as follows:~~

<u>Skilled level of care</u>	<u>Nursing level of care</u>
\$2,792.65	\$1,365.78

ITEM 2. Amend paragraph **83.28(1)“c”** as follows:

c. Service needs ~~exceed the aggregate monthly costs established in 83.22(2)“b,”~~ or are not met by services provided.

ITEM 3. Rescind paragraph **83.28(2)“b.”**

ITEM 4. Reletter paragraphs **83.28(2)“c”** to “e” as **83.28(2)“b”** to “d.”

**ARC 5275C****HUMAN SERVICES DEPARTMENT[441]****Notice of Intended Action****Proposing rule making related to extended services  
and providing an opportunity for public comment**

The Human Services Department hereby proposes to amend Chapter 187, “Aftercare Services Program,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in Iowa Code section 234.46.

HUMAN SERVICES DEPARTMENT[441](cont'd)

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code section 234.46.

*Purpose and Summary*

The Aftercare Services Program, including the Preparation for Adult Living (PAL) financial component, helps youth who were formerly in foster care, the Iowa state training school, or a court-ordered Iowa juvenile detention center enter adulthood with ongoing services and supports. Contracted support provides case management, life skills training, and financial supports for housing, transportation, clothing, food and other costs related to the participants' self-sufficiency plan. This program serves youth up to the age of 23.

Under 2020 Iowa Acts, House File 2220, youth who age out of relative foster care may receive the same financial support under the PAL program as youth who leave from State-paid care. This proposed rule making implements this change. This change is consistent with the spirit of the federal Family First Prevention Services Act and the Department's efforts to help families take care of their own families.

Additionally, to align the term "postservices" with current practice, this proposed rule making changes the term to "extended services."

*Fiscal Impact*

This rule making has no fiscal impact to the State of Iowa.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

*Waivers*

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 441—1.8(17A,217).

- (2) The youth is 21 or 22 years of age; and
- ~~(2)~~ (3) The youth was served by the aftercare services program prior to the age of 21; and

**PUBLIC HEALTH DEPARTMENT[641]****Notice of Intended Action****Proposing rule making related to school dental screenings  
and providing an opportunity for public comment**

The Public Health Department hereby proposes to amend Chapter 51, "Dental Screening," Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is proposed under the authority provided in Iowa Code chapter 135.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code section 135.17.

*Purpose and Summary*

Based on feedback from a recent quality improvement exercise (as a result of recommendations provided by the legislatively mandated Student Health Working Group), the Bureau of Oral and Health Delivery Systems (OHDS) has developed a template for the new certificate of dental screening. The new certificate eliminates some of the currently collected demographic information, which will reduce the administrative burden on parents, providers, and school staff. The proposed amendments implement this change.

*Fiscal Impact*

This rule making has no fiscal impact to the State of Iowa.

*“Applicant”* means an individual employed by a commercial explosive contractor or person associated with a commercial explosive contractor who meets the definition of “employee possessor” or “responsible person” as defined in this chapter.

2. The circumstances under which an offense was committed are circumstances customary to a licensed profession.

**235.10(4)** *Disqualifications for criminal convictions limited.*

a. Notwithstanding any other provision of law to the contrary, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession and the state fire marshal does not grant an exception pursuant to paragraph 235.10(4) "d."

b. The state fire marshal shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

c. The state fire marshal shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on other similar basis.

d. The state fire marshal shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

(1) The nature and seriousness of the crime for which the applicant was convicted.

(2) The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of Iowa Code section 709.4, a sexually violent offense as defined in Iowa Code section 229A.2, dependent adult abuse in violation of Iowa Code section 235B.20, a forcible felony as defined in Iowa Code section 702.11, or domestic abuse assault in violation of Iowa Code section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

(3) The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

(4) The age of the applicant at the time the offense was committed.

(5) Any treatment undertaken by the applicant.

(6) Whether a certification of employability has been issued to the applicant pursuant to Iowa Code section 906.19.

(7) Any letters of reference submitted on behalf of the applicant.

(8) All other relevant evidence of rehabilitation and present fitness of the applicant.

e. An applicant may petition the state fire marshal in writing as specified in 661—subrule 275.1(4) for a determination as to whether the applicant's criminal record will prevent the applicant from receiving

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

a license. The state fire marshal shall issue such a determination within 30 days of receiving the petition. The state fire marshal shall determine whether an applicant's criminal record will prevent the applicant from receiving a license and while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. The state fire marshal may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed \$25.

f. When the state fire marshal denies an applicant a license solely or partly because of the applicant's prior conviction of a crime, the state fire marshal shall notify the applicant in writing of all of the following:

- (1) The grounds for the denial or disqualification.
- (2) That the applicant has the right to a hearing to challenge the state fire marshal's decision.
- (3) The earliest date the applicant may submit a new application.
- (4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

g. A determination by the state fire marshal that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in paragraph 235.10(4)"d" sufficient for a review by a court.

h. In any administrative or civil hearing authorized by this rule or Iowa Code chapter 17A, the state fire marshal shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

i. The state fire marshal may require an applicant with a criminal record to submit the applicant's complete criminal record detailing an applicant's offenses with an application. The state fire marshal may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant's occupation. For the purposes of this subrule, "complete criminal record" includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

**661—235.11(101A,252J) Child support collection procedures.** The following procedures shall apply to actions taken by the state fire marshal on a certificate of noncompliance received from the Iowa department of human services pursuant to Iowa Code chapter 252J:

**235.11(1)** The notice required by Iowa Code section 252J.8 shall be served upon the applicant or licensee by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the licensee or applicant may accept service personally or through authorized counsel.

**235.11(2)** The effective date of revocation or suspension of a license or denial of the issuance or renewal of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service upon the licensee or applicant.

**235.11(3)** Licensees and applicants for licensure shall keep the state fire marshal informed of all court actions and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J and shall provide the state fire marshal with copies, within 7 seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

**235.11(4)** All fees for applications, license renewal or reinstatement must be paid by the licensee or applicant before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 252J.

**235.11(5)** In the event a licensee or applicant files a timely district court action following service of a notice pursuant to Iowa Code sections 252J.8 and 252J.9, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation, suspension or denial of the issuance or renewal of a license, the state fire

NOTE: The procedures established in this rule implement the requirements of Iowa Code chapter 252J. The provisions of Iowa Code chapter 252J establish mandatory requirements for an agency which administers a licensure program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A but must be appealed directly to district court.

**661—235.12(101A,272D) Suspension or revocation for nonpayment of debts owed state or local government.** The following procedures shall apply to actions taken by the state fire marshal on a certificate of noncompliance received from the Iowa department of revenue pursuant to Iowa Code chapter 272D.

**235.12(3)** Licensees shall keep the state fire marshal informed of all court actions and centralized collection unit actions taken under or in connection with Iowa Code chapter 272D and shall provide the state fire marshal with copies, within 7 seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 272D.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the centralized collection unit.

**235.12(4)** All applicable fees for an application or reinstatement must be paid by the licensee before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 272D.

**235.12(5)** In the event the licensee files a timely district court action following service of a notice pursuant to Iowa Code section 272D.8, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation or suspension of the license, the state fire marshal shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

**235.12(6)** Suspensions or revocations imposed pursuant to this rule may not be appealed administratively to the state fire marshal or within the department of public safety.

NOTE: The procedures established in ~~rule 661—235.9(101A,272D)~~ this rule implement the requirements of Iowa Code chapter 272D. The provisions of Iowa Code chapter 272D establish mandatory requirements for an agency which administers a licensing program and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A, but must be appealed directly to district court.

**661—275.2(100C) Definitions.** The following definitions apply to rules 661—275.1(100C) through 661—275.7(100C) ~~661—275.9(100C)~~:

“Aerosol fire extinguishing system” means a system that uses a combination of microparticles and gaseous matter to flood the protected area. The particles are in a vapor state until discharged from the device. On release, a chain reaction produces solid particles and gaseous matter to suppress the fire.

“Automatic dry-chemical extinguishing system” means a system supplying a powder composed of small particles, usually of sodium bicarbonate, potassium bicarbonate, urea-potassium-based bicarbonate, potassium chloride, or monoammonium phosphate, with added particulate material supplemented by special treatment to provide resistance to packing, resistance to moisture absorption, and the proper flow capabilities.

“Automatic fire extinguishing system” means a system of devices and equipment that automatically detects a fire and discharges an approved fire extinguishing agent onto or in the area of a fire and includes automatic sprinkler systems, carbon dioxide extinguishing systems, deluge systems, automatic dry-chemical extinguishing systems, foam extinguishing systems, and halogenated extinguishing systems, aerosol systems, hybrid-inert water mist systems, or other equivalent fire extinguishing technologies recognized by the fire extinguishing system contractors advisory board.

“Automatic sprinkler system” means an integrated fire protection sprinkler system usually activated by heat from a fire designed in accordance with fire protection engineering standards and includes a suitable water supply. The portion of the system above the ground is a network of specially sized or hydraulically designed piping installed in a structure or area, generally overhead, and to which automatic sprinklers are connected in a systematic pattern.

“Carbon dioxide extinguishing system” means a system supplying carbon dioxide from a pressurized vessel through fixed pipes and nozzles and includes a manual or automatic actuating mechanism.

“Clean agent” means an electrically nonconducting, volatile, or gaseous fire extinguishant that does not leave a residue upon evaporation.

“Deluge system” means a sprinkler system employing open sprinklers attached to a piping system connected to a water supply through a valve that is opened by the operation of a detection system installed in the same area as the sprinklers.

“Dry chemical” means a powder composed of very small particles, usually sodium bicarbonate-, potassium bicarbonate-, or ammonium phosphate-based, with added particulate material supplemented by special treatment to provide resistance to packing, resistance to moisture absorption (caking), and the proper flow capabilities.

“Dry pipe sprinkler system” means an extinguishing system employing automatic sprinklers that are attached to a piping system containing air or nitrogen under pressure, the release of which (as from the opening of a sprinkler) permits the water pressure to open a valve known as a dry pipe valve, which allows the water to flow into the piping system and out the opened sprinklers.

“Fire extinguishing system contractor,” “fire protection system contractor,” or “contractor” means a person engaging in or representing oneself to the public as engaging in the activity or business of layout, installation, repair, alteration, addition, maintenance, or maintenance inspection of automatic fire extinguishing systems in this state.

“Foam extinguishing system” means a special system discharging foam made from concentrates, either mechanically or chemically, over the area to be protected.

“Halogenated extinguishing system” means a fire extinguishing system using one or more atoms of an element from the halogen chemical series of fluorine, chlorine, bromine, and iodine.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

“Hybrid-inert water mist system” means a system that combine the benefits of inert gas systems and water mist systems to extinguish fires. These systems provide both extinguishment and cooling to prevent reignition utilizing nontoxic, non-ozone-depleting hybrid media.

“Layout” means drawings, calculations and component specifications to achieve the specified system design installation. “Layout” does not include design.

“Listed” means equipment, materials, or services included in a list published by a nationally recognized independent testing organization concerned with evaluation of products or services that maintains periodic inspection of production of listed equipment or materials or periodic evaluation of services and whose listing states that either the equipment, material, or service meets appropriate designated standards or has been tested and found suitable for a specified purpose.

“Maintenance inspection” means periodic inspection and certification completed by a fire extinguishing system contractor. For purposes of this chapter, “maintenance inspection” does not include an inspection completed by a local building official, fire inspector, or insurance inspector, when acting in an official capacity.

“Offense directly relates” refers to either of the following:

1. The actions taken in furtherance of an offense are actions customarily performed within the scope of practice of a licensed profession.

2. The circumstances under which an offense was committed are circumstances customary to a licensed profession.

“Preengineered dry chemical or wet agent fire suppression system” means any system having predetermined flow rates, nozzle pressures and limited quantities of either agent. These systems have specific pipe sizes, maximum and minimum pipe lengths, flexible hose specifications, number of fittings and number and types of nozzles prescribed by a nationally recognized testing laboratory. The hazards against which these systems protect are specifically limited by the testing laboratory as to the type and size based upon actual fire tests. Limitations on hazards that can be protected against by these systems are contained in the manufacturer’s installation manual, which is referenced as part of the listing.

“Preengineered water-based system” means a packaged, water-based sprinkler system including all components connected to a water supply and designed to be installed according to pretested limitations.

“Responsible managing employee” means an owner, partner, officer, or manager employed full-time by a fire extinguishing system contractor who is designated as a responsible managing employee for a fire extinguishing system contractor and who meets the requirements for a responsible managing employee established in rule 661—275.3(100C).

“Special hazards suppression system” means a fire extinguishing system utilizing fire detection and control methods to release an extinguishing agent, other than water connected to a dedicated fire protection water supply.

“Wet agent” or “wet chemical” means an aqueous solution of organic or inorganic salts or a combination thereof that forms an extinguishing agent.

**661—275.3(100C) Responsible managing employee.** Each fire extinguishing system contractor shall designate a responsible managing employee and may designate one or more alternate responsible managing employees. A contractor may designate more than one responsible managing employee in order to satisfy the requirements for more than one endorsement as provided in subrule 275.1(2). If more than one responsible managing employee is designated, the contractor shall indicate for which responsible managing employee each designated alternate managing employee serves as an alternate.

**275.3(1)** The responsible managing employee or employees shall be designated in the application for certification; licensure, and, if a responsible managing employee is no longer acting in that role, the contractor shall so notify the fire marshal, in writing, within 30 calendar days, ~~on a form designated by the fire marshal~~ as provided in subrule 275.1(4).

**275.3(2)** If a responsible managing employee is no longer acting in that role and the contractor has designated an alternate responsible managing employee, the alternate responsible managing employee shall become the responsible managing employee and the contractor shall so notify the state fire marshal, in writing, within 30 calendar days of the date on which the preceding responsible managing

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

employee ceased to act in that role. If the contractor has designated more than one alternate responsible managing employee, the notice to the state fire marshal shall indicate which alternate responsible managing employee has assumed the position of responsible managing employee.

**275.3(3)** If a responsible managing employee designated by a fire extinguishing system contractor is no longer acting in the role of responsible managing employee and the contractor has not designated an alternate responsible managing employee, the contractor shall designate a new responsible managing employee and shall notify the state fire marshal, in writing as provided in subrule 275.1(4), of the designation within six months of the date on which the former responsible managing employee ceased to act in that capacity, ~~on a form designated by the fire marshal~~. If the state fire marshal has not been notified of the appointment of a new responsible managing employee within six months of the date on which a responsible managing employee ceased serving in that capacity, the state fire marshal shall suspend the ~~certification~~ license of the fire extinguishing protection system contractor.

**275.3(4)** A responsible managing employee or an alternate responsible managing employee shall meet one of the following requirements for the following endorsements:

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

**661—275.4(100C) Certification License requirements.** A fire extinguishing system contractor shall meet all of the following requirements in order to receive certification licensure from the state fire marshal and shall continue to meet all requirements throughout the period of certification licensure. The contractor shall notify the state fire marshal, in writing, ~~on a form designated by the fire marshal~~ as specified in subrule 275.1(4), within 30 calendar days if the contractor fails to meet any requirement for certification licensure.

**275.4(1)** No change.

**275.4(2)** The contractor shall maintain general and complete operations liability insurance for the layout, installation, repair, alteration, addition, maintenance, and inspection of automatic fire extinguishing systems in the following amounts: \$500,000 per person, \$1,000,000 per occurrence, and \$1,000,000 property damage.

*a.* The carrier of any insurance coverage maintained to meet this requirement shall notify the state fire marshal 30 days prior to the effective date of cancellation or reduction of the coverage.

*b.* The contractor shall cease operation immediately if the insurance coverage required by this subrule is no longer in force and other insurance coverage meeting the requirements of this subrule is not in force. A contractor shall not initiate any installation of a fire extinguishing system which cannot reasonably be expected to be completed prior to the effective date of the cancellation of the insurance coverage required by this subrule and of which the contractor has received notice, unless new insurance coverage meeting the requirements of this subrule has been obtained and will be in force upon cancellation of the prior coverage.

**275.4(3)** The contractor shall maintain current registration as a contractor with the labor services division of the Iowa workforce development department in compliance with Iowa Code chapter 91C and 875—Chapter 150, Iowa Administrative Code. The contractor shall provide a copy of the contractor's current registration from Iowa workforce development with the contractor's application for licensure.

EXCEPTION: A contractor shall not be required to maintain registration with the labor services division of the Iowa workforce development department if the contractor does not meet the definition of “contractor” for purposes of Iowa Code chapter 91C and 875—Chapter 150, Iowa Administrative Code. Written documentation of such exemption must be provided to the state fire marshal at the time of application for licensure as a fire protection system contractor.

**275.4(4)** No change.

**275.4(5)** A license may be renewed only if the licensee has completed recertification of the applicable requirements relative to the endorsements for which the licensee is renewing.

ITEM 3. Renumber rules **661—275.5(100C)** to **661—275.7(100C)** as **661—275.6(100C)** to **661—275.8(100C)**.

ITEM 4. Adopt the following **new** rule 661—275.5(272C):

**661—275.5(272C) Licensure of persons licensed in other jurisdictions.**

**275.5(1)** For the purposes of this rule, “issuing jurisdiction” means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

**275.5(2)** Notwithstanding any other provision of law, a fire protection system contractor license shall be issued without an examination to a person who establishes residency in this state or to a person who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state if all of the following conditions are met:

*b.* The person has been licensed by another issuing jurisdiction for at least one year.

*c.* When the person was licensed by the issuing jurisdiction, the issuing jurisdiction imposed minimum educational requirements and, if applicable, work experience requirements, and the issuing

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

jurisdiction verifies that the person met those requirements in order to be licensed in that issuing jurisdiction.

*d.* The person previously passed an examination required by the other issuing jurisdiction for licensure, if applicable.

*e.* The person has not had a license revoked and has not voluntarily surrendered a license in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

*f.* The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the state fire marshal shall determine if the cause for the action was corrected and the matter resolved. If the state fire marshal determines that the matter has not been resolved by the jurisdiction imposing discipline, the state fire marshal shall not issue or deny a license to the person until the matter is resolved.

*g.* The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the state fire marshal shall not issue or deny a license to the person until the complaint, allegation, or investigation is resolved.

*h.* The person pays all applicable fees.

*i.* The person does not have a criminal history that would prevent the person from holding the fire protection system contractor license applied for in this state.

**275.5(3)** A person licensed pursuant to this rule is subject to the laws regulating the person's practice in this state and is subject to the jurisdiction of the state fire marshal.

**275.5(4)** This rule does not apply to any of the following:

*a.* The ability of the state fire marshal to require the submission of fingerprints or completion of a criminal history check.

*b.* The ability of the state fire marshal to require a person to take and pass an examination specific to the laws of this state prior to issuing a license. If the state fire marshal requires an application to take and pass an examination specific to the laws of this state, the state fire marshal shall issue an applicant a temporary license that is valid for a period of three months and may be renewed once for an additional period of three months.

**275.5(5)** Except as provided in subrule 275.5(2), a person applying for a license in this state who relocates to this state from another state that did not require a license to practice as a fire protection system contractor may be considered to have met any education, training, or work experience requirements imposed by the state fire marshal in this state if the person has three or more years of related work experience with a substantially similar scope of practice within the four years preceding the date of application as determined by the state fire marshal.

**275.5(6)** A person applying for a license in this state under the requirements of this subrule shall submit their request in writing to the state fire marshal as established in subrule 275.1(4) providing proof of residency in this state and documentation to verify all conditions are met under this subrule.

ITEM 5. Amend renumbered rules 661—275.6(100C) to 661—275.8(100C) as follows:

**661—275.6(100C) Application and fees.**

**275.6(1) Application.** Any contractor seeking ~~certification~~ licensure as a fire ~~extinguishing~~ protection system contractor shall submit a completed application form to the state fire marshal. The application shall be filed no later than 30 days prior to the date ~~on which certification is required~~ of beginning work in this state or the date on which an existing ~~certification~~ license expires. An application form may be obtained from the state fire marshal or from the ~~Web site of the fire extinguishing system contractors certification program~~ state fire marshal's website. The application form shall be submitted with all required attachments and the required application fee established in subrule ~~275.5(2)~~ 275.6(2). An application shall not be considered complete unless all required information is submitted, including required attachments and fees, and shall not be processed until it is complete.

NOTE: The ~~Web site~~ website for the fire ~~extinguishing system contractors certification~~ protection system contractor license program is: <http://www.dps.state.ia.us/fm/fescep/index.shtml>  
[dps.iowa.gov/divisions/state-fire-marshal/licensing/fire-protection](http://dps.iowa.gov/divisions/state-fire-marshal/licensing/fire-protection).

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

**275.6(2) *Certification License fee.***

*a.* The certification license fee shall be \$500 per year. ~~If an application is denied, all except \$100 of the fee may be refunded if the applicant applies to the fire marshal for a refund. No refund of the certification fee shall be made if the certification is revoked or if the denial of the certification is based on the applicant's knowingly including false or misleading information on the application.~~

*b.* If an application for certification licensure provides for more than one responsible managing employee pursuant to rule 661—275.3(100C), there shall be an additional fee of \$50 for each responsible managing employee beyond the first. If an application for certification licensure provides for more than one endorsement as provided in subrule 275.1(2), there shall be an additional fee of \$50 for each endorsement beyond the first.

*c.* The state fire marshal shall waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

~~EXCEPTION: If a certification is effective after April 1 and no later than June 30, the certification fee shall be \$500. The certification fee for a certification which becomes effective between July 1 and September 30 shall be \$400. The certification fee for a certification which becomes effective between October 1 and December 31 shall be \$300. The certification fee for a certification which becomes effective between January 1 and March 31 shall be \$200. If an application for certification provides for more than one responsible managing employee pursuant to rule 661—275.3(100C), there shall be an additional fee of \$50 for each responsible managing employee beyond the first. If an application for certification provides for more than one endorsement as provided in subrule 275.1(2), there shall be an additional fee of \$50 for each endorsement beyond the first.~~

**275.6(3) *Payment.*** The certification license fee shall be submitted electronically or by draft, check, or money order in the applicable amount payable to the Fire Extinguishing System Contractors Certification Program Iowa State Fire Marshal Division. Draft, check, or money order shall be addressed to the state fire marshal as established in subrule 275.1(4). ~~If the application is denied, the certification fee less \$100 shall be returned to the applicant, except as provided in subrule 275.5(2). Payment shall not be made in cash.~~

**275.6(4) *Amended certification licensure fee.*** The fee for issuance of an amended certification license is \$100 the difference between the original license fee paid and changes in endorsement(s) or responsible managing employee(s), if applicable. The fee shall be submitted with the request for an amended certification license. A contractor shall request and the fire marshal shall issue an amended certification license for any of the items listed in paragraphs "*a*," "*b*," and "*c*" below, and a fee does not apply:

- a.* A change in the designation of a responsible managing employee;
- b.* A change in insurance coverage; or
- c.* A change in any other material information included in or with the initial or renewal application. A change in the address of the business is a material change. However, if the request for an amended certification license is solely a change of business address, the address of the business to which the certification license being amended was sent is in an area subject to a disaster emergency proclamation issued by the governor pursuant to Iowa Code section 29C.6, and the relocation occurs as a result of flooding or storm damage or other conditions which form a basis for the issuance of the disaster emergency proclamation, the fee shall not apply, although an amended certification license shall be issued.
- d.* Other changes in the information required in the application form, including renewal of insurance coverage with a new expiration date, shall be reported to the fire marshal but shall not require issuance of an amended certification license or payment of the amended certification license fee.

**275.6(5) *Attachments.*** Required attachments to the application for certification licensure include, but are not limited to, the following:

- a.* Documentation verifying that the contractor has in force the insurance coverage required by subrule 275.4(2). The documentation shall include an acknowledgment that the contractor's insurance coverage extends to any work performed by the contractor within the scope of certification licensure

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

pursuant to this chapter. The documentation may consist of a letter from the insurance carrier or a copy of the insurance certificate with an endorsement showing the required information.

*b.* Documentation verifying that the person designated as the responsible managing employee and any persons designated as alternate responsible managing employees have met the applicable ~~certification~~ licensure requirements.

*c.* Documentation of qualifying licensure in another issuing jurisdiction by providing the following:

- (1) Proof of residency in this state.
- (2) Proof all conditions are met as established in rule 661—275.5(272C).
  1. Copy of a license from other issuing jurisdiction.
  2. Evidence the applicant met the issuing jurisdiction's educational requirements and, if applicable, work experience requirements.
  3. Evidence the applicant passed the issuing jurisdiction's required examination, if applicable.
  4. Evidence the applicant has not had a license revoked or voluntarily surrendered, had discipline imposed, or been under investigation by another issuing jurisdiction.
  5. Evidence the applicant does not have a complaint, allegation, or investigation pending before any regulatory entity related to unprofessional conduct.

**661—275.7(100C) Complaints.** Complaints regarding the performance of any ~~certified~~ licensed contractor, failure of a ~~certified~~ licensed contractor to meet any of the requirements established in Iowa Code chapter 100C or this chapter or any other provision of law, or operation as a fire extinguishing system contractor without ~~certification~~ licensure may be filed with the state fire marshal. Complaints should be addressed as follows:

~~Fire Extinguishing System Contractors Certification Program~~  
~~State Fire Marshal Division~~  
~~Iowa Department of Public Safety~~  
~~State Public Safety Headquarters Building Attn: SFM Licensing Administration~~  
~~215 East 7th Street~~  
~~Des Moines, Iowa 50319~~

Complaints may be submitted by electronic mail to ~~fescep@dps.state.ia.us~~ or by facsimile to ~~(515)725-6172~~ sfmlicense@dps.state.ia.us or by the United States Postal Service.

Complaints should be as specific as possible and shall clearly identify the contractor against whom the complaint is filed. ~~A form which may be used to file complaints is available on the Web site of the fire extinguishing system contractors certification program. Complaints may be filed without using the complaint form provided, but shall be submitted in writing.~~ Complaints shall be submitted in writing to the state fire marshal. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant will be notified of the disposition of the complaint.

NOTE: ~~The Web site for the fire extinguishing system contractors certification program is: <http://www.dps.state.ia.us/fm/fescep/index.shtml>.~~

**661—275.8(100C) Denial, suspension, or revocation of ~~certification~~ licensure; civil penalties; and appeals.** The state fire marshal may deny, suspend or revoke the ~~certification~~ license of a contractor, or assess a civil penalty to the contractor, if any provision of these rules or any other provision of law related to operation as a fire extinguishing system contractor is violated.

**275.8(1) Denial.** The state fire marshal may deny an application for ~~certification~~ licensure for reasons including, but not limited to:

*a.* If the applicant makes a false statement on the application form or in any other submission of information required for ~~certification~~ license. “False statement” means providing false information or failing to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

b. If the applicant fails to meet all of the requirements for ~~certification~~ licensure established in this chapter.

c. If the applicant is currently barred for cause from acting as a fire extinguishing system contractor in another jurisdiction.

d. If an applicant has previously been barred for cause from operating in another jurisdiction as a fire extinguishing system contractor and if the basis of that action reflects upon the integrity of the applicant in operating as a fire extinguishing system contractor. If an applicant is found to have been previously barred for cause from operating as a fire extinguishing system contractor in another jurisdiction and is no longer barred from doing so, the state fire marshal shall evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a certified licensed contractor. If an applicant is denied under this provision, the applicant shall be notified of the specific reasons for the denial.

e. ~~If the applicant has been convicted of a crime which reflects upon the integrity of the applicant in operating as a fire extinguishing system contractor. If an applicant is found to have a criminal record, the fire marshal shall evaluate that record with regard to the likelihood that the applicant would operate with integrity as a certified contractor.~~ Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. "Conviction" as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied under this provision, the applicant shall be notified of the specific reasons for the denial.

f. Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

g. Willful or repeated violations of the provisions of this chapter.

**275.8(2) Suspension.** A suspension of a ~~certification~~ license may be imposed by the state fire marshal for any violation of these rules or Iowa Code chapter 100C or for a failure to meet any legal requirement to operate as a fire extinguishing system contractor in this state. Failure to provide any notice to the state fire marshal as provided in these rules shall be grounds for suspension. An order of suspension shall specify the length of the suspension and shall specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the ~~certification~~ license even after the period of the suspension.

**275.8(3) Revocation.** A revocation is a termination of a ~~certification~~ license. A ~~certification~~ license may be revoked by the state fire marshal for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by a fire extinguishing system incorrectly installed by a certified licensed contractor or when information comes to the attention of the state fire marshal which, if known to the state fire marshal when the application was being considered, would have resulted in denial of the ~~certification~~ license.

A new application for ~~certification~~ licensure from a contractor whose ~~certification~~ license had previously been revoked shall not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The state fire marshal may specify in the revocation order a longer period than one year before a new application for ~~certification~~ licensure may be considered. When a new application for ~~certification~~ licensure from a contractor whose ~~certification~~ license was previously revoked is being considered, the applicant may be denied ~~certification~~ licensure based upon the same information which was the basis for revocation even after any such period established by the state fire marshal has expired.

**275.8(4) Disqualifications for criminal convictions limited.**

a. Notwithstanding any other provision of law to the contrary, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

safety exists because the offense directly relates to the duties and responsibilities of the profession and the state fire marshal does not grant an exception pursuant to paragraph 275.9(4) "d."

b. The state fire marshal shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

c. The state fire marshal shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on another similar basis.

d. The state fire marshal shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

(1) The nature and seriousness of the crime for which the applicant was convicted.

(2) The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of Iowa Code section 709.4, a sexually violent offense as defined in Iowa Code section 229A.2, dependent adult abuse in violation of Iowa Code section 235B.20, a forcible felony as defined in Iowa Code section 702.11, or domestic abuse assault in violation of Iowa Code section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

(3) The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

(4) The age of the applicant at the time the offense was committed.

(5) Any treatment undertaken by the applicant.

(6) Whether a certificate of employability has been issued to the applicant pursuant to Iowa Code section 906.19.

(7) Any letters of reference submitted on behalf of the applicant.

(8) All other relevant evidence of rehabilitation and present fitness of the applicant.

e. An applicant may petition the state fire marshal in writing as specified in subrule 275.1(4) for a determination as to whether the applicant's criminal record will prevent the applicant from receiving a license. The state fire marshal shall issue such a determination within 30 days of receiving the petition. The state fire marshal shall determine whether an applicant's criminal record will prevent the applicant from receiving a license while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. The state fire marshal may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed \$25.

f. When the state fire marshal denies an applicant a license solely or partly because of the applicant's prior conviction of a crime, the state fire marshal shall notify the applicant in writing of all of the following:

(1) The grounds for the denial or disqualification.

(2) That the applicant has the right to a hearing to challenge the state fire marshal's decision.

(3) The earliest date the applicant may submit a new application.

(4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

g. A determination by the state fire marshal that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in paragraph 275.8(4) "d" sufficient for a review by a court.

h. In any administrative or civil hearing authorized by this rule or Iowa Code chapter 17A, the state fire marshal shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

i. The state fire marshal may require an applicant with a criminal record to submit the applicant's complete criminal record detailing an applicant's offenses with an application. The state fire marshal may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant's occupation. For the purposes

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

of this subrule, “complete criminal record” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

~~275.8(4)~~ **275.8(5)** *Civil penalties.* The state fire marshal may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty shall not be imposed in lieu of a revocation.

~~275.8(5)~~ **275.8(6)** *Suspension or revocation for nonpayment of child support.* The following procedures shall apply to actions taken by the department on a certificate of noncompliance received from the Iowa department of human services pursuant to Iowa Code chapter 252J:

a. The notice required by Iowa Code section 252J.8 shall be served upon the ~~certified~~ licensed contractor by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the contractor may accept service personally or through authorized counsel.

b. The effective date of revocation or suspension of ~~certification~~ licensure of a contractor, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service upon the contractor.

c. Contractors shall keep the state fire marshal informed of all court actions and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J and shall provide the state fire marshal with copies, within 7 seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

d. All applicable fees for an application or reinstatement must be paid by the contractor before a ~~certificate~~ license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a ~~certification~~ license or has suspended or revoked a ~~certification~~ license pursuant to Iowa Code chapter 252J.

e. In the event a contractor files a timely district court action following service of a notice pursuant to Iowa Code sections 252J.8 and 252J.9, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the department to proceed. For the purpose of determining the effective date of revocation or suspension of the ~~certification~~ license, the department shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

f. Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively within the department of public safety.

NOTE: The procedures established in subrule ~~275.7(5)~~ **275.8(6)** implement the requirements of Iowa Code chapter 252J. The provisions of Iowa Code chapter 252J establish mandatory requirements for an agency which administers a ~~certification~~ licensure program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A, but must be appealed directly to district court.

**275.8(7)** *Suspension or revocation for nonpayment of debts owed state or local government.* The following procedures shall apply to actions taken by the state fire marshal on a certificate of noncompliance received from the Iowa department of revenue pursuant to Iowa Code chapter 272D:

a. The notice required by Iowa Code section 272D.3 shall be served upon the licensee by regular mail.

b. The effective date of revocation or suspension of a license, as specified in the notice required by Iowa Code section 272D.3, shall be 20 days following service upon the licensee.

c. Licensees shall keep the state fire marshal informed of all court actions and centralized collection unit actions taken under or in connection with Iowa Code chapter 272D and shall provide the state fire marshal with copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 272D.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the centralized collection unit.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

*d.* All applicable fees for an application or reinstatement must be paid by the licensee before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 272D.

*e.* In the event the licensee files a timely district court action following service of a notice pursuant to Iowa Code section 272D.8, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation or suspension of the license, the state fire marshal shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

*f.* Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively to the state fire marshal or within the department of public safety.

NOTE: The procedures established in subrule 275.8(7) implement the requirements of Iowa Code chapter 272D. The provisions of Iowa Code chapter 272D establish mandatory requirements for an agency which administers a licensing program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A but must be appealed directly to district court.

**275.8(6) Appeals.** Any denial, suspension, or revocation of a ~~certification~~ license, or any civil penalty imposed upon a ~~certified~~ licensed contractor under this rule, other than one imposed pursuant to subrule ~~275.7(5)~~ 275.8(6) or 275.8(7), may be appealed by the contractor within 14 days of receipt of the notice. Appeals of actions taken by the state fire marshal under this rule shall be to the commissioner of public safety and shall be treated as contested cases, following the procedures established in rules 661—10.301(17A) through 661—10.332(17A).

ITEM 6. Adopt the following new rule 661—275.9(272C):

**661—275.9(272C) Veterans, military service members, and certain survivor beneficiaries.** Any individual while serving honorably on federal active duty, state active duty, or national guard duty, as defined in Iowa Code section 29A.1, applying for licensure as a fire protection system contractor shall apply for licensure following 661—Chapter 278.

**661—276.2(100D) Definitions.** The following definitions apply to rules 661—276.1(100D) through 661—276.6(100D) 661—276.8(100D):

“Aerosol fire extinguishing system” means a system that uses a combination of microparticles and gaseous matter to flood the protected area. The particles are in a vapor state until discharged from the device. On release, a chain reaction produces solid particles and gaseous matter to suppress the fire.

“Apprentice fire protection system installer and maintenance worker” means a person, other than a fire protection system technician trainee, who is registered in an apprenticeship program approved by the United States Department of Labor and who is engaged in learning the fire protection system industry trade under the direct supervision of a responsible managing employee of a certified licensed fire extinguishing protection system contractor or licensed fire protection system installer and maintenance worker technician.

“Automatic fire extinguishing system” means a system of devices and equipment that automatically detects a fire and discharges an approved fire extinguishing agent onto or in the area of a fire and includes automatic sprinkler systems, carbon dioxide extinguishing systems, deluge systems, automatic dry-chemical extinguishing systems, foam extinguishing systems, halogenated extinguishing systems, aerosol systems, hybrid-inert water mist systems, or other equivalent fire extinguishing technologies recognized by the fire extinguishing system contractors advisory board.

“Automatic sprinkler system” means an integrated fire protection sprinkler system usually activated by heat from a fire designed in accordance with fire protection engineering standards and includes a suitable water supply. The portion of the system above the ground is a network of specially sized or hydraulically designed piping installed in a structure or area, generally overhead, and to which automatic sprinklers are connected in a systematic pattern.

“Carbon dioxide extinguishing system” means a system supplying carbon dioxide from a pressurized vessel through fixed pipes and nozzles and includes a manual or automatic actuating mechanism.

“Clean agent” means an electrically nonconducting, volatile, or gaseous fire extinguishant that does not leave a residue upon evaporation.

“Deluge system” means a sprinkler system employing open sprinklers attached to a piping system connected to a water supply through a valve that is opened by the operation of a detection system installed in the same area as the sprinklers.

“Department” means the department of public safety.

“Dry chemical” means a powder composed of very small particles, usually sodium bicarbonate-, potassium bicarbonate-, or ammonium phosphate-based, with added particulate material supplemented by special treatment to provide resistance to packing, resistance to moisture absorption (caking), and the proper flow capabilities.

“Dry pipe sprinkler system” means an extinguishing system employing automatic sprinklers that are attached to a piping system containing air or nitrogen under pressure, the release of which (as from the opening of a sprinkler) permits the water pressure to open a valve known as a dry pipe valve, which allows the water to flow into the piping system and out the opened sprinklers.

“Fire extinguishing system contractor,” “fire protection system contractor,” or “contractor” means a person(s) engaging in or representing oneself to the public as engaging in the activity or business of layout, installation, repair, service, alteration, addition, testing, maintenance, or maintenance inspection of automatic fire extinguishing systems in this state, as defined in Iowa Code section 100C.1, and who is certified licensed pursuant to Iowa Code chapter 100C.

“Fire protection system” means a sprinkler, standpipe, hose system, special hazard system, dry system, foam system, or any water-based fire protection system, whether engineered or preengineered and whether manually or automatically activated, used for fire protection purposes which may include an integrated system of underground and overhead piping and which may be connected to a water source.

*g.* The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. *a.* The fee for a permanent or provisional license, except for a trainee license, shall be \$200. ~~If an application is denied, all except \$25 of the fee may be refunded if the applicant applies to the fire marshal for a refund. Complaints should be addressed as follows:

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

other provision of law related to work requiring licensure pursuant to this chapter, the state fire marshal may deny, suspend or revoke a license or assess a civil penalty to a licensee or to a person who performs work requiring licensure pursuant to this chapter and who is not licensed.

**276.7(1) Denial.** The state fire marshal may deny an application for licensure:

*a.* If the applicant makes a false statement on the application form or in any other submission of information required for licensure. “False statement” means providing false information or failing to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

*b.* If the applicant fails to meet all of the requirements for licensure established in this chapter.

*c.* If the applicant is currently barred for cause from licensure equivalent to that provided for in this chapter in another jurisdiction.

*d.* If an applicant has previously been barred for cause from operating in another jurisdiction as a fire protection system installer and maintenance worker and if the basis of that action reflects upon the integrity of the applicant in operating as a fire protection system installer and maintenance worker. If an applicant is found to have been previously barred for cause from operating as a fire protection system installer and maintenance worker in another jurisdiction and is no longer barred from doing so, the state fire marshal shall evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a licensee. If an applicant is denied licensure under this paragraph, the applicant shall be notified of the specific reasons for the denial.

*e.* ~~If the applicant has been convicted of a crime which reflects upon the integrity of the applicant in operating as a fire protection system installer and maintenance worker. If an applicant is found to have a criminal record, the fire marshal shall evaluate that record with regard to the likelihood that the applicant would operate with integrity as a licensee.~~ Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. “Conviction” as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction. If an applicant is denied licensure under this paragraph, the applicant shall be notified of the specific reasons for the denial.

*f.* Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee’s profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

*g.* Willful or repeated violations of the provisions of this chapter.

**276.7(2) Suspension.** A suspension of a license may be imposed by the state fire marshal for any violation of these rules or 2009 Iowa Code Supplement chapter 100D as amended by 2010 Iowa Acts, Senate File 2355, or for a failure to meet any legal requirement to operate as a fire protection system installer and maintenance worker in this state. Failure to provide any notice to the state fire marshal as required by these rules shall be grounds for suspension. An order of suspension shall specify the length of the suspension and shall specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the license even after the period of the suspension.

**276.7(3) Revocation.**

*a.* A revocation is a termination of a license. A license may be revoked by the state fire marshal for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by a fire protection system incorrectly installed by a licensee or when information comes to the attention of the state fire marshal which, if known to the state fire marshal when the application was being considered, would have resulted in denial of the license.

*b.* A new application for a license from an applicant whose license has previously been revoked shall not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The state fire marshal may specify in the revocation order a period longer than one year before a new application for a license may be considered. When a new application for a license from a person whose license was previously revoked

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

is being considered, the applicant may be denied a license based upon the same information which was the basis for revocation even after any such period established by the state fire marshal has expired.

276.7(4) Disqualifications for criminal convictions limited.

a. Notwithstanding any other provision of law to the contrary, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession and the state fire marshal does not grant an exception pursuant to paragraph 276.7(4) "d."

b. The state fire marshal shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

c. The state fire marshal shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on another similar basis.

d. The state fire marshal shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

(1) The nature and seriousness of the crime for which the applicant was convicted.

(2) The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of Iowa Code section 709.4, a sexually violent offense as defined in Iowa Code section 229A.2, dependent adult abuse in violation of Iowa Code section 235B.20, a forcible felony as defined in Iowa Code section 702.11, or domestic abuse assault in violation of Iowa Code section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

(3) The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

(4) The age of the applicant at the time the offense was committed.

(5) Any treatment undertaken by the applicant.

(6) Whether a certificate of employability has been issued to the applicant pursuant to Iowa Code section 906.19.

(7) Any letters of reference submitted on behalf of the applicant.

(8) All other relevant evidence of rehabilitation and present fitness of the applicant.

e. An applicant may petition the state fire marshal in writing as specified in subrule 276.1(4) for a determination as to whether the applicant's criminal record will prevent the applicant from receiving a license. The state fire marshal shall issue such a determination within 30 days of receiving the petition. The state fire marshal shall determine whether an applicant's criminal record will prevent the applicant from receiving a license while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. The state fire marshal may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed \$25.

f. When the state fire marshal denies an applicant a license solely or partly because of the applicant's prior conviction of a crime, the state fire marshal shall notify the applicant in writing of all of the following:

(1) The grounds for the denial of disqualification.

(2) That the applicant has the right to a hearing to challenge the state fire marshal's decision.

(3) The earliest date the applicant may submit a new application.

(4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

g. A determination by the state fire marshal that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in this subrule sufficient for a review by a court.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

h. In any administrative or civil hearing authorized by this rule or Iowa Code chapter 17A, the state fire marshal shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

i. The state fire marshal may require an applicant with a criminal record to submit the applicant's complete criminal record detailing an applicant's offenses with an application. The state fire marshal may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant's occupation. For the purposes of this subrule, "complete criminal record" includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

~~276.7(4)~~ 276.7(5) *Civil penalties.* The state fire marshal may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty shall not be imposed in lieu of a revocation.

~~276.7(5)~~ 276.7(6) *Suspension or revocation for nonpayment of child support.* The following procedures shall apply to actions taken by the state fire marshal on a certificate of noncompliance received from the Iowa department of human services pursuant to Iowa Code chapter 252J:

Alternatively, the licensee may accept service personally or through authorized counsel.

b. The effective date of revocation or suspension of a license, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service upon the licensee.

d. All applicable fees for an application or reinstatement must be paid by the licensee before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 252J.

e. In the event the licensee files a timely district court action following service of a notice pursuant to Iowa Code sections 252J.8 and 252J.9, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation or suspension of the license, the state fire marshal shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

f. Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively to the state fire marshal or within the department of public safety.

NOTE: The procedures established in subrule ~~276.6(5)~~ 276.7(6) implement the requirements of Iowa Code chapter 252J. The provisions of Iowa Code chapter 252J establish mandatory requirements for an agency which administers a licensing program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A but must be appealed directly to district court.

d. All applicable fees for an application or reinstatement must be paid by the licensee before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 272D.

e. In the event the licensee files a timely district court action following service of a notice pursuant to Iowa Code section 272D.8, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation or suspension of the license, the state fire marshal shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

f. Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively to the state fire marshal or within the department of public safety.

NOTE: The procedures established in subrule ~~276.6(6)~~ 276.7(7) implement the requirements of Iowa Code chapter 272D. There shall be an additional fee of \$25 for each endorsement beyond the first. ~~If an application is denied, all except \$50 of the fee may be refunded if the applicant applies to the fire marshal for a refund. No refund of the certification fee shall be made if the certification is revoked or if the denial of the certification is based on the applicant's knowingly including false or misleading information on the application.~~

The state fire marshal shall waive any fee charged to an applicant for a license if the applicant's household income does not exceed 200 percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

The fee shall be submitted with the request for an amended certification license. ~~An installer~~ A technician shall request and the state fire marshal shall issue an amended certificate license for a change in any material information included in or with the initial or renewal application. A licensee shall request and the state fire marshal shall issue an amended license for any of the following reasons and a fee does not apply:

If the licensee's previous employer paid the license fee, the licensee must reapply for a new license under their new employer and pay the license fee.

(2) A change in any other material information included in or with the initial or renewal application. A change of address is a material change. However, if the request for an amended license is solely for a change of business address, the former address of the business is in an area subject to a disaster emergency proclamation issued by the governor pursuant to Iowa Code section 29C.6, and the relocation occurs as a result of flooding or storm damage or other conditions which form a basis for the issuance of the disaster emergency proclamation, the fee shall not apply, although an amended license shall be issued.

~~b.~~ Other changes in the information required in the application form shall be reported to the state fire marshal but shall not require issuance of an amended certification license or payment of the amended certification license fee.

~~277.7(5) Attachments.~~ Required attachments to the application for certification license include, but are not limited to, documentation of required certifications, licenses or training. the following:

a. Documentation applicant has met the applicable licensure requirements.

4. Evidence the applicant has not had a license revoked or voluntarily surrendered, had discipline imposed, or been under investigation by another issuing jurisdiction.
5. Evidence the applicant does not have a complaint, allegation, or investigation pending before any regulatory entity related to unprofessional conduct.

**277.7(6) National criminal history check.** Each applicant for ~~certification licensure~~ licensure as an installer or technician shall submit fingerprints and the applicable fee ~~as directed by the division of criminal investigation at the time of application for a new or renewal license~~ for a national criminal history check conducted by the Federal Bureau of Investigation.

ITEM 15. Renumber rules **661—277.8(100C)** and **661—277.9(100C)** as **661—277.9(100C)** and **661—277.10(100C)**.

ITEM 16. Adopt the following new rule 661—277.8(272C):

**661—277.8(272C) Licensure of persons licensed in other jurisdictions.**

**277.8(1)** For the purposes of this rule, “issuing jurisdiction” means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

**277.8(2)** Notwithstanding any other provision of law, an alarm system contractor license or alarm system technician license shall be issued without an examination to a person who establishes residency in this state or to a person who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state if all of the following conditions are met:

- a. The person is currently licensed by at least one other issuing jurisdiction as an alarm system contractor or alarm system technician with a substantially similar scope of practice and the license is in good standing in all issuing jurisdictions in which the person holds a license.
- b. The person has been licensed by another issuing jurisdiction for at least one year.
- c. When the person was licensed by the issuing jurisdiction, the issuing jurisdiction imposed minimum educational requirements and, if applicable, work experience requirements, and the issuing jurisdiction verifies that the person met those requirements in order to be licensed in that issuing jurisdiction.
- d. The person previously passed an examination required by the other issuing jurisdiction for licensure, if applicable.
- e. The person has not had a license revoked and has not voluntarily surrendered a license in any other issuing jurisdiction or country while under investigation for unprofessional conduct.
- f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the state fire marshal shall determine if the cause for the action was corrected and the matter resolved. If the state fire marshal determines that the matter has not been resolved by the jurisdiction imposing discipline, the state fire marshal shall not issue or deny a license to the person until the matter is resolved.
- g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the state fire marshal shall not issue or deny a license to the person until the complaint, allegation, or investigation is resolved.
- h. The person pays all applicable fees.
- i. The person does not have a criminal history that would prevent the person from holding the alarm system contractor or alarm system technician license applied for in this state.

**277.8(3)** A person licensed pursuant to this rule is subject to the laws regulating the person's practice in this state and is subject to the jurisdiction of the state fire marshal.

**277.8(4)** This rule does not apply to any of the following:

- a. The ability of the state fire marshal to require the submission of fingerprints or completion of a criminal history check.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

b. The ability of the state fire marshal to require a person to take and pass an examination specific to the laws of this state prior to issuing a license. If the state fire marshal requires an application to take and pass an examination specific to the laws of this state, the state fire marshal shall issue an applicant a temporary license that is valid for a period of three months and may be renewed once for an additional period of three months.

**277.8(5)** Except as provided in subrule 277.8(2), a person applying for a license in this state who relocates to this state from another state that did not require a license to practice as an alarm system contractor or alarm system technician may be considered to have met any education, training, or work experience requirements imposed by the state fire marshal in this state if the person has three or more years of related work experience with a substantially similar scope of practice within the four years preceding the date of application as determined by the state fire marshal.

ITEM 17. Amend renumbered rules 661—277.9(100C) and 661—277.10(100C) as follows:

**661—277.9(100C) Complaints.** Complaints regarding the performance of any ~~certified~~ licensed contractor or ~~installer technician~~, failure of a ~~certified~~ licensed contractor or ~~installer technician~~ to meet any of the requirements established in Iowa Code Supplement chapter 100C or this chapter or any other provision of law, or operation as an alarm system contractor or ~~installer technician~~ without ~~certification~~ licensure may be filed with the state fire marshal.

**277.9(1)** Complaints should be addressed as follows:

~~Alarm System Contractor and Installer Certification Program~~  
State Fire Marshal Division  
Iowa Department of Public Safety  
Attn: SFM Licensing Administration  
215 East 7th Street  
Des Moines, Iowa 50319

**277.9(2)** Complaints may be submitted by electronic mail to [alarminfo@dps.state.ia.us](mailto:alarminfo@dps.state.ia.us) [sfmlicense@dps.state.ia.us](mailto:sfmlicense@dps.state.ia.us) or by ~~facsimile~~ to (515)725-6172 the United States Postal Service.

**277.9(3)** Complaints should be as specific as possible and must clearly identify the contractor or ~~installer technician~~ against whom the complaint is filed. ~~A form which may be used to file complaints is available on the Web site of the alarm system contractor and installer certification program. Complaints may be filed without using the complaint form provided, but shall be submitted in writing. Complaints shall be submitted in writing to the state fire marshal. A complaint may be submitted anonymously, but if the name and contact information of the complainant are provided, the complainant will be notified of the disposition of the complaint.~~

~~NOTE: The Web site for the alarm system contractor and installer certification program is: <http://www.dps.state.ia.us/fm/alarm/index.shtml>.~~

**661—277.10(100C) Denial, suspension, or revocation of ~~certification~~ licensure; civil penalties; and appeals.** The state fire marshal may deny, suspend or revoke the ~~certification~~ license of a contractor or ~~installer technician~~ or may assess a civil penalty to the contractor, if any provision of these rules or any other provision of law related to operation as an alarm system contractor or ~~installer technician~~ is violated.

**277.10(1) Denial.** The state fire marshal may deny an application for ~~certification~~ licensure:

a. If the applicant makes a false statement on the application form or in any other submission of information required for ~~certification~~ licensure. “False statement” means providing false information or failing to include material information, such as a previous criminal conviction or action taken by another jurisdiction, when requested on the application form or otherwise in the application process.

b. If the applicant fails to meet all of the requirements for ~~certification~~ licensure established in this chapter.

c. If the applicant is currently barred for cause from acting as an alarm system contractor or ~~installer technician~~ in another jurisdiction.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

*d.* If an applicant has previously been barred for cause from operating in another jurisdiction as an alarm system contractor or ~~installer technician~~ and if the basis of that action reflects upon the integrity of the applicant in operating as an alarm system contractor or ~~installer technician~~. If an applicant is found to have been previously barred for cause from operating as an alarm system contractor or ~~installer technician~~ in another jurisdiction and is no longer barred from doing so, the state fire marshal shall evaluate the record of that action with regard to the likelihood that the applicant would operate with integrity as a certified licensed contractor or installer technician. If an applicant is denied under this provision, the applicant shall be notified of the specific reasons for the denial.

*e.* ~~If either the applicant or the designated responsible managing employee, if the application is for certification as a contractor, has been convicted of a crime which reflects upon the integrity of the applicant in operating as an alarm system contractor or installer, the fire marshal shall evaluate the conviction or convictions with regard to the likelihood that the applicant would operate with integrity as a certified contractor or installer. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory or country. "Conviction" as used in this subrule includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction.~~ If an applicant is denied under this provision, the applicant shall be notified of the specific reasons for the denial.

*f.* Knowingly making misleading, deceptive, untrue or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

*g.* Willful or repeated violations of the provisions of this chapter.

**277.10(2) Suspension.** A suspension of a ~~certification~~ license may be imposed by the state fire marshal for any violation of these rules or Iowa Code Supplement chapter 100C or for a failure to meet any legal requirement to operate as an alarm system contractor or ~~installer technician~~ in this state. Failure to provide any notice to the state fire marshal as provided in these rules shall be grounds for suspension. An order of suspension shall specify the length of the suspension and shall specify that correction of all conditions which were a basis for the suspension is a condition of reinstatement of the ~~certification~~ license even after the period of the suspension.

**277.10(3) Revocation.** A revocation is a termination of a ~~certification~~ license. A ~~certification~~ license may be revoked by the state fire marshal for repeated violations or for a violation which creates an imminent danger to the safety or health of individuals protected by an alarm system incorrectly installed by a certified contractor or installer technician or when information comes to the attention of the state fire marshal which, if known to the state fire marshal when the application was being considered, would have resulted in denial of the certification license. A new application for ~~certification~~ licensure from a contractor or ~~installer technician~~ whose ~~certification~~ license had previously been revoked shall not be considered for a period of one year after the effective date of the revocation and, in any event, until every condition which was a basis for the revocation has been corrected. The state fire marshal may specify in the revocation order a longer period than one year before a new application for certification licensure may be considered. When a new application for ~~certification~~ licensure from a contractor or ~~installer technician~~ whose ~~certification~~ license was previously revoked is being considered, the applicant may be denied ~~certification~~ licensure based upon the same information which was the basis for revocation even after any such period established by the state fire marshal has expired.

**277.10(4) Disqualifications for criminal convictions limited.**

*a.* Notwithstanding any other provision of law to the contrary, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession and the state fire marshal does not grant an exception pursuant to paragraph 277.10(4) "d."

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

b. The state fire marshal shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

c. The state fire marshal shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on another similar basis.

d. The state fire marshal shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

(1) The nature and seriousness of the crime for which the applicant was convicted.

(2) The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of Iowa Code section 709.4, a sexually violent offense as defined in Iowa Code section 229A.2, dependent adult abuse in violation of Iowa Code section 235B.20, a forcible felony as defined in Iowa Code section 702.11, or domestic abuse assault in violation of Iowa Code section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

(3) The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

(4) The age of the applicant at the time the offense was committed.

(5) Any treatment undertaken by the applicant.

(6) Whether a certificate of employability has been issued to the applicant pursuant to Iowa Code section 906.19.

(7) Any letters of reference submitted on behalf of the applicant.

(8) All other relevant evidence of rehabilitation and present fitness of the applicant.

e. An applicant may petition the state fire marshal in writing as specified in subrule 277.1(4) for a determination as to whether the applicant's criminal record will prevent the applicant from receiving a license. The state fire marshal shall issue such a determination within 30 days of receiving the petition. The state fire marshal shall determine whether an applicant's criminal record will prevent the applicant from receiving a license while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. The state fire marshal may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed \$25.

f. When the state fire marshal denies an applicant a license solely or partly because of the applicant's prior conviction of a crime, the state fire marshal shall notify the applicant in writing of all of the following:

(1) The grounds for the denial of disqualification.

(2) That the applicant has the right to a hearing to challenge the state fire marshal's decision.

(3) The earliest date the applicant may submit a new application.

(4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

g. A determination by the state fire marshal that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in paragraph 277.10(4) "d" sufficient for a review by a court.

h. In any administrative or civil hearing authorized by this subrule or Iowa Code chapter 17A, the state fire marshal shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

i. The state fire marshal may require an applicant with a criminal record to submit the applicant's complete criminal record detailing an applicant's offenses with an application. The state fire marshal may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant's occupation. For the purposes

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

of this subrule, “complete criminal record” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

~~277.10(4)~~ **277.10(5)** *Civil penalties.* The state fire marshal may impose a civil penalty of up to \$500 per day during which a violation has occurred and for every day until the violation is corrected. A civil penalty may be imposed in lieu of or in addition to a suspension or may be imposed in addition to a revocation. A civil penalty shall not be imposed in lieu of a revocation.

~~277.10(5)~~ **277.10(6)** *Suspension or revocation for nonpayment of child support.* The following procedures shall apply to actions taken by the department on a certificate of noncompliance received from the Iowa department of human services pursuant to Iowa Code chapter 252J:

*a.* The notice required by Iowa Code section 252J.8 shall be served upon the ~~certified~~ licensed contractor or installer technician by restricted certified mail, return receipt requested, or personal service in accordance with Iowa Rule of Civil Procedure 1.305. Alternatively, the contractor or ~~installer technician~~ technician may accept service personally or through authorized counsel.

*b.* The effective date of revocation or suspension of ~~certification~~ licensure of a contractor or ~~installer technician~~ technician, as specified in the notice required by Iowa Code section 252J.8, shall be 60 days following service upon the contractor or ~~installer technician~~ technician.

*c.* Contractors or ~~installers~~ technicians shall keep the state fire marshal informed of all court actions and all child support recovery unit actions taken under or in connection with Iowa Code chapter 252J and shall provide the state fire marshal with copies, within 7 seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 252J.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the child support recovery unit.

*d.* All applicable fees for an application or reinstatement must be paid by the contractor or ~~installer technician~~ technician before a ~~certificate~~ license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a ~~certification~~ license or has suspended or revoked a ~~certification~~ license pursuant to Iowa Code chapter 252J.

*e.* In the event a contractor or ~~installer technician~~ technician files a timely district court action following service of a notice pursuant to Iowa Code sections 252J.8 and 252J.9, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the department to proceed. For the purpose of determining the effective date of revocation or suspension of the ~~certification~~ license, the department shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

*f.* Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively within the department of public safety.

NOTE: The procedures established in subrule ~~277.9(5)~~ **277.10(6)** implement the requirements of Iowa Code chapter 252J. The provisions of Iowa Code chapter 252J establish mandatory requirements for an agency which administers a ~~certification~~ licensing program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A, but must be appealed directly to district court.

**277.10(7)** *Suspension or revocation for nonpayment of debts owed state or local government.* The following procedures shall apply to actions taken by the state fire marshal on a certificate of noncompliance received from the Iowa department of revenue pursuant to Iowa Code chapter 272D:

*a.* The notice required by Iowa Code section 272D.3 shall be served upon the licensee by regular mail.

*b.* The effective date of revocation or suspension of a license, as specified in the notice required by Iowa Code section 272D.3, shall be 20 days following service upon the licensee.

*c.* Licensees shall keep the state fire marshal informed of all court actions and centralized collection unit actions taken under or in connection with Iowa Code chapter 272D and shall provide the state fire marshal with copies, within seven days of filing or issuance, of all applications filed with the district court pursuant to Iowa Code section 272D.9, all court orders entered in such actions, and withdrawals of certificates of noncompliance by the centralized collection unit.

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

d. All applicable fees for an application or reinstatement must be paid by the licensee before a license will be issued, renewed, or reinstated after the state fire marshal has denied the issuance or renewal of a license or has suspended or revoked a license pursuant to Iowa Code chapter 272D.

e. In the event the licensee files a timely district court action following service of a notice pursuant to Iowa Code section 272D.8, the state fire marshal shall continue with the intended action described in the notice upon the receipt of a court order lifting the stay, dismissing the action, or otherwise directing the state fire marshal to proceed. For the purpose of determining the effective date of revocation or suspension of the license, the state fire marshal shall count the number of days before the action was filed and the number of days after the action was disposed of by the court.

f. Suspensions or revocations imposed pursuant to this subrule may not be appealed administratively to the state fire marshal or within the department of public safety.

NOTE: The procedures established in subrule 277.10(7) implement the requirements of Iowa Code chapter 272D. The provisions of Iowa Code chapter 272D establish mandatory requirements for an agency which administers a licensing program, such as the one established in this chapter, and provide that actions brought under these provisions are not subject to contested case procedures established in Iowa Code chapter 17A but must be appealed directly to district court.

Appeals of actions taken by the state fire marshal under this rule shall be to the commissioner of public safety and shall be treated as contested cases, following the procedures established in rules 661—10.301(17A) through 661—10.332(17A).

ITEM 1. Amend rule 491—1.8(17A,99D,99F) as follows:

**491—1.8(17A,99D,99F) Granting of a waiver.** For purposes of this rule, a waiver ~~or variance~~ means action by the commission that suspends in whole or in part the requirements or provisions of a rule as applied to an identified entity on the basis of the particular circumstances of that entity. ~~For simplicity, the term “waiver” shall include both a waiver and a variance.~~

1. Wind speed exceeds 90 mph for the affected area, or
2. One-half inch of ice is present and wind speed exceeds 40 mph for the affected area, or

“*Timely payment*” means a payment on a customer’s account made on or before the date shown on a current bill for service, or on a form which records an agreement between the customer and a utility for a series of partial payments to settle a delinquent account, as the date which determines application of a late payment charge to the current bill or future collection efforts.

“*Transmission line*” means any single or multiphase electric power line operating at nominal voltages at or in excess of either 69,000 volts between ungrounded conductors or 40,000 volts between grounded and ungrounded conductors, regardless of the functional service provided by the line.

**27.1(6) Electric cooperative service rules tariffs.** Electric cooperatives subject to the board’s jurisdiction under Iowa Code section 476.1A shall maintain tariffs which are consistent with the rules in this chapter and shall file those tariffs with the board for approval.

*a.* Electric cooperatives shall not be obligated to file those portions of their tariff or tariff pages regarding matters over which the board does not have jurisdiction with strikethroughs for the language deleted and underlining of the language that is added.

*b.* If an electric cooperative chooses to file a revised tariff with provisions which are not subject to board jurisdiction, the electric cooperative shall designate the jurisdictional provisions either in the cover letter or by strikeouts of deleted language and underlining of new language.

*c.* An electric cooperative association may file a model tariff for board approval that may be adopted by an electric cooperative with any revisions the electric cooperative proposes to the model tariff.

## UTILITIES DIVISION[199](cont'd)

*d.* An electric cooperative may file a revised tariff adopting the model tariff approved by the board. The electric cooperative shall include the docket number and date of board approval with the revised tariff.

*e.* Electric cooperatives shall make tariffs filed with the board available to all customers.

**27.1(7) *Municipal electric utilities service rules.*** Municipal electric utilities shall not be required to file tariffs with the board implementing the provisions in this chapter; however, municipal utilities shall adopt rules or other legally enforceable provisions that are consistent with the provisions in this chapter. Municipal electric utilities shall make rules or other legally enforceable provisions implementing the requirements of this chapter available to all customers.

**199—27.2(476) Assigned area of service.**

**27.2(1) *Service areas.*** Service areas are defined by the boundaries on service area maps. Electronic maps are available for viewing during regular business hours at the board's offices. Maps are also available for viewing on the board's website. These service area maps are the official electric service territory maps as required pursuant to Iowa Code section 476.24.

**27.2(2) *Modification of service area and answers.***

*a.* An exclusive service area is subject to modification through a contested case proceeding which may be commenced by filing a petition for modification of service area with the board. The board may commence a service area modification proceeding on its own motion.

*b.* Any electric cooperative or municipal electric utility may file a petition for modification of service area, which shall contain: (1) a legal description of the service area desired, (2) a designation of the utilities involved in each boundary section, (3) a justification for the proposed service area modification, and (4) an electronic file, in a format designated by the board, of the proposed service area boundaries. The justification shall include a detailed statement of why the proposed modification is in the public interest. A map showing the affected areas which complies with paragraph 27.2(4) "a" shall be attached to the petition as an exhibit.

*c.* Filing of the petition with the board, and service to other parties, shall be in accordance with 199—Chapter 14.

*d.* An answer to a petition for a service area modification shall comply with 199—subrule 7.9(2).

*e.* Electric cooperatives and municipal electric utilities may agree to service territory modifications by contract pursuant to Iowa Code section 476.25(2). Contracts to be enforceable require board approval. The board shall approve a contract if the board finds that the contract will eliminate or avoid unnecessary duplication of facilities, will provide adequate electric service to all areas and customers affected, will promote the efficient and economical use and development of the electric systems of the contracting utilities, and is in the public interest.

**27.2(3) *Certificate of authority.*** Any electric cooperative or municipal electric utility requesting a service territory modification pursuant to subrule 27.2(2) which would result in service to a customer by a public utility other than the public utility currently serving the customer shall also petition the board for a certificate of authority under Iowa Code section 476.23. The electric cooperative or municipal electric utility shall pay the party currently serving the customer a reasonable price for the facilities serving the customer.

**27.2(4) *Maps.***

*a.* Each electric cooperative and municipal electric utility shall maintain a current map or set of maps showing the physical location of electric lines, stations, and electric transmission facilities for its service areas. The maps shall include the exact location of the following:

(1) Generating stations, with capacity designation.

(2) Purchased power supply points, with maximum contracted capacity designation.

(3) Purchased power metering points if located at other than power delivery points.

(4) Transmission lines, with size and type of conductor designation and operating voltage designation.

(5) Transmission-to-transmission voltage transformation substations, with transformer voltage and capacity designation.

## UTILITIES DIVISION[199](cont'd)

(6) Transmission-to-distribution voltage transformation substations, with transformer voltage and capacity designation.

(7) Distribution lines, with size and type of conductor designation, phase designation and voltage designation.

(8) All points at which transmission, distribution or secondary lines of the utility cross Iowa state boundaries.

(9) All current information required in Iowa Code section 476.24(1).

(10) All county boundaries and county names.

(11) Natural and artificial lakes which cover more than 50 acres and all rivers.

(12) Any additional information required by the board.

b. All maps, except those deemed confidential by the board, shall be available for examination at the designated offices of the electric cooperative or municipal electric utility during regular office hours. The maps shall be drawn with clean, uniform lines to a scale of one inch per mile. A large scale shall be used where it is necessary to clarify areas where there is a heavy concentration of facilities. All cartographic details shall be clean cut, and the background shall contain little or no coloration or shading.

**199—27.3(476) Customer relations.****27.3(1) Notification to customers by bill insert.**

a. Each utility shall notify its customers, by bill insert or notice on the bill form, of the address and telephone number where a utility representative qualified to assist in resolving the complaint can be reached. The bill insert or notice shall also include the following statement: "If (utility name) does not resolve your complaint, you may request assistance from the Iowa Utilities Board by calling (515)725-7300, or toll-free 1-877-565-4450, by writing to 1375 E. Court Avenue, Des Moines, Iowa 50319-0069, or by email to [customer@iub.iowa.gov](mailto:customer@iub.iowa.gov)."

b. The bill insert or notice shall be provided to customers at least annually. Any utility which does not use the standard statement described in this subrule shall file its proposed statement for board approval. A utility that bills by postcard may place an advertisement in a local newspaper of general circulation or a customer newsletter instead of a mailing. The advertisement must be of a type size that is easily legible and conspicuous and must contain the information required in paragraph 27.3(1) "a."

**27.3(2) Payment agreements.**

a. *Availability of a first payment agreement.* When a residential customer cannot pay in full a delinquent bill for utility service or has an outstanding debt to the electric cooperative or municipal electric utility for residential utility service and is not in default of a payment agreement with the electric cooperative or municipal electric utility, an electric cooperative or municipal electric utility shall offer the customer an opportunity to enter into a reasonable payment agreement. The offer of a payment agreement shall be made prior to disconnection. The electric cooperative or municipal electric utility is not required to offer a customer who has been disconnected from service a payment agreement consistent with these rules, unless the utility did not comply with these rules prior to disconnection.

b. *Reasonableness.* Whether a payment agreement is reasonable will be determined by considering the current household income, ability to pay, payment history including prior defaults on similar agreements, the size of the bill, the amount of time and the reasons why the bill has been outstanding, and any special circumstances creating extreme hardships within the household. The electric cooperative or municipal electric utility may require the person to confirm financial difficulty with an acknowledgment from the department of human services or another agency.

c. *Terms of payment agreements.*

(1) First payment agreement. The electric cooperative or municipal electric utility shall offer the following conditions to customers who have received a disconnection notice and are not in default of a payment agreement:

1. For customers who received a disconnection notice in conformance with these rules, the electric cooperative or municipal electric utility shall offer an agreement with at least 12 even monthly payments. The utility shall inform customers they may pay off the delinquency early without incurring any prepayment penalties. A customer shall not be charged interest, or a late payment charge, on a

## UTILITIES DIVISION[199](cont'd)

payment agreement where the customer is making payments consistent with the terms of the payment agreement, and the customer will not be required to pay a portion of the delinquent amount to enter into a payment agreement.

2. The agreement shall also include a provision for payment of the current amount owed by the customer.

3. The electric cooperative or municipal electric utility may also require the customer to enter into a budget billing plan to pay the current bill.

4. When the customer makes the agreement in person, a signed copy of the agreement shall be provided to the customer.

5. The electric cooperative or municipal electric utility may offer the customer the option of making the agreement over the telephone or through electronic transmission.

6. When the customer makes the agreement over the telephone or through electronic transmission, the electric cooperative or municipal electric utility shall provide to the customer a written document reflecting the terms and conditions of the agreement within three days of the date the parties entered into the oral agreement or electronic agreement.

7. The document will be considered provided to the customer when addressed to the customer's last-known address and deposited in the U.S. mail with postage paid. If delivery is by other than U.S. mail, the document shall be considered provided to the customer when delivered to the last-known address of the person responsible for payment for the service.

8. The document shall state that unless the customer notifies the utility otherwise within ten days from the date the document is provided, it will be deemed that the customer accepts the terms as stated in the written document. The document stating the terms and conditions of the agreement shall include the address and a toll-free or collect telephone number where a qualified representative can be reached.

9. Once the first payment required by the agreement is made by the customer or on behalf of the customer, the oral or electronic agreement is deemed accepted by the customer.

10. Each customer entering into a first payment agreement shall be granted at least one late payment that is four days or less beyond the due date for payment, and the first payment agreement shall remain in effect.

11. The initial payment is due on the due date for the next regular bill.

(2) Second payment agreement. The utility shall offer a second payment agreement to a customer who is in default of a first payment agreement if the customer has made at least two consecutive full payments under the first payment agreement.

1. The second payment agreement shall be for a term at least as long as the term of the first payment agreement.

2. The customer shall be required to pay for current service in addition to the monthly payments under the second payment agreement and may be required to make the first payment up front as a condition of entering into the second payment agreement.

3. The electric cooperative or municipal electric utility may also require the customer to enter into a budget billing plan to pay the current bill.

(3) Additional payment agreements. The electric cooperative or municipal electric utility may offer additional payment agreements to the customer.

*d. Refusal by electric cooperative or municipal electric utility.* A customer may offer the electric cooperative or municipal electric utility a proposed payment agreement. If the electric cooperative or municipal electric utility and the customer do not reach an agreement, the electric cooperative or municipal electric utility may refuse the offer orally, but the electric cooperative or municipal electric utility must provide a written refusal to the customer, stating the reason for the refusal, within three days of the oral notification. The written refusal shall be considered provided to the customer when addressed to the customer's last-known address and deposited in the U.S. mail with postage prepaid. If delivery is by other than U.S. mail, the written refusal shall be considered provided to the customer when handed to the customer or when delivered to the last-known address of the person responsible for the payment for the service.

## UTILITIES DIVISION[199](cont'd)

*e. Customer request for assistance.* A customer may ask the board for assistance in working out a reasonable payment agreement. The request for assistance must be made to the board within ten days after the written refusal is provided. During the review of this request, the utility shall not disconnect the service.

**27.3(3) Bill payment terms.** The bill shall be considered provided to the customer when deposited in the U.S. mail with postage prepaid. If delivery is by other than U.S. mail, the bill shall be considered provided when delivered to the last-known address of the party responsible for payment. There shall not be less than 20 days between the providing of a bill and the date by which the account becomes delinquent. Bills for customers on more frequent billing intervals may not be considered delinquent less than 5 days from the date the bill is provided, and a late payment charge may not be assessed if payment is received within 20 days of the date the bill is provided.

*a.* The date of delinquency for all residential customers or other customers whose consumption is less than 3,000 kWh per month shall be changeable for cause; such as, but not limited to, 15 days from the approximate date each month upon which income is received by the person responsible for payment. In no case, however, shall the utility be required to delay the date of delinquency more than 30 days beyond the date of preparation of the previous bill.

*b.* In any case where net and gross amounts are billed to customers, the difference between net and gross is a late payment charge and is valid only when part of a delinquent bill payment. A utility's late payment charge shall not exceed 1.5 percent per month of the past due amount. No collection fee may be levied in addition to this late payment charge. This rule does not prohibit cost-justified charges for disconnection and reconnection of service.

*c.* If the customer makes partial payment in a timely manner, and does not designate the service or product for which payment is made, the payment shall be credited pro rata between the bill for utility services and related taxes.

*d.* Each account shall be granted not less than one complete forgiveness of a late payment charge each calendar year. The utility's rules shall be definitive that on one monthly bill in each period of eligibility, the utility will accept the net amount of such bill as full payment for such month after expiration of the net payment period. The rules shall state how the customer is notified that the eligibility has been used. Complete forgiveness prohibits any effect upon the credit rating of the customer or collection of late payment charge.

**27.3(4) Customer records.** The electric cooperative or municipal electric utility shall retain records not less than five years. Records for each customer shall show where applicable:

- a.* kWh meter reading.
- b.* kWh consumption.
- c.* kW meter reading.
- d.* kW measured demand.
- e.* kW billing demand.
- f.* Total amount of bill.

**27.3(5) Adjustment of bills for meter error.**

*a.* Electric cooperatives and municipal electric utilities shall establish meter testing standards and procedures for customers who have complaints about the accuracy of the customer's meter. The meter testing standards shall be made available to a customer upon request.

*b.* Recalculation of bills based upon failure of a meter to register in compliance with the meter testing standards established by the electric cooperative or municipal electric utility shall be on the basis of actual monthly consumption of the customer for the most recent 24 months. When the average error cannot be determined by test because of failure of part or all of the metering equipment, it shall be permissible to use the registration of check metering installations, if any, or to estimate the quantity of energy consumed based on available data. The customer must be advised of the failure and of the basis for the estimate of quantity billed.

**199—27.4(476) Disconnection of service.**

## UTILITIES DIVISION[199](cont'd)

**27.4(1) Disconnection procedures and notice.** Electric cooperatives and municipal electric utilities shall only disconnect service to customers in compliance with the following procedure and requirements:

*a.* Service may be disconnected without notice:

- (1) In the event of a condition on the customer's premises determined by the utility to be hazardous.
- (2) In the event of customer use of equipment in a manner which adversely affects the utility's equipment or the utility's service to others.
- (3) In the event of tampering with the equipment furnished and owned by the utility. For the purposes of this subrule, a broken or absent meter seal alone shall not constitute tampering.
- (4) In the event of unauthorized use.

*b.* The electric cooperative or municipal electric utility shall give written notice of pending disconnection except as specified in paragraph 27.4(1) "a." The notice shall set forth the reason for the notice and the final date by which the account is to be settled or specific action taken. The notice shall be considered provided to the customer when addressed to the customer's last-known address and deposited in the U.S. mail with postage prepaid. If delivery is by other than U.S. mail, the notice shall be considered provided when delivered to the last-known address of the person responsible for payment for the service. The date for disconnection of service shall be not less than 12 days after the notice is provided. The date for disconnection of service for customers on shorter billing intervals shall not be less than 24 hours after the notice is posted at the service premises.

*c.* One written notice, including all reasons for the notice, shall be given where more than one cause exists for disconnection of service. In determining the final date by which the account is to be settled or other specific action taken, the days of notice for the causes shall be concurrent.

*d.* Service may be disconnected after proper notice:

- (1) For violation of or noncompliance with the utility's rules.
- (2) For failure of the customer to furnish the service equipment, permits, certificates, or rights-of-way which are specified to be furnished, in the utility's rules filed with the board, as conditions of obtaining service, or for the withdrawal of that same equipment, or for the termination of those same permissions or rights, or for the failure of the customer to fulfill the contractual obligations imposed as conditions of obtaining service by any contract filed with and subject to the regulatory authority of the board.
- (3) For failure of the customer to permit the utility reasonable access to the utility's equipment.

*e.* Service may be disconnected after proper notice for nonpayment of a bill or deposit provided that the electric cooperative or municipal electric utility has complied with the following provisions:

(1) Given the customer a reasonable opportunity to dispute the reason for the disconnection or refusal.

(2) Given the customer, and any other person or agency designated by the customer, written notice that the customer has at least 12 days in which to make settlement of the account to avoid disconnection and a written summary of the rights and responsibilities set out in subrule 27.4(2). Customers billed more frequently than monthly shall be given posted written notice that they have 24 hours to make settlement of the account to avoid disconnection and a written summary of the rights and responsibilities. All written notices shall include a toll-free or collect telephone number where a utility representative qualified to provide additional information about the disconnection can be reached. Each electric cooperative or municipal electric utility representative must provide the representative's name and have immediate access to current, detailed information concerning the customer's account and previous contacts with the utility.

(3) If the electric cooperative or municipal electric utility has adopted a service limitation policy, the following paragraph shall be appended to the end of the standard form of the summary of rights and responsibilities:

Service limitation: We have adopted a limitation of service policy for customers who otherwise could be disconnected. Contact our business office for more information or to learn if you qualify.

(4) When disconnecting service to a residence, made a diligent attempt to contact, by telephone or in person, the customer responsible for payment for service to the residence to inform the customer of the pending disconnection and the customer's rights and responsibilities. If the attempt at customer

## UTILITIES DIVISION[199](cont'd)

contact fails, the premises shall be posted at least one day prior to disconnection with a notice informing the customer of the pending disconnection and a copy of the rights and responsibilities available to avoid disconnection.

If an attempt at personal or telephone contact of a customer occupying a rental unit has been unsuccessful, the electric cooperative or municipal electric utility shall make a diligent attempt to contact the landlord of the rental unit, if known, to determine if the customer is still in occupancy and, if so, the customer's present location. The landlord shall also be informed of the date when service may be disconnected. The electric cooperative or municipal electric utility shall make a diligent attempt to inform the landlord at least 48 hours prior to disconnection of service to a tenant.

If the disconnection will affect occupants of residential units leased from the customer, the premises of any building known by the electric cooperative or municipal electric utility to contain residential units affected by disconnection shall be posted at least two days prior to disconnection, with a notice informing any occupants of the date when service will be disconnected and the reasons for the disconnection.

If the customer has received notice of disconnection and has a dispute concerning a bill for electric service, the electric cooperative or municipal electric utility may require the customer to pay a sum of money equal to the amount of the undisputed portion of the bill pending settlement and thereby avoid disconnection of service. An electric cooperative or municipal electric utility shall delay disconnection for nonpayment of the disputed bill for up to 45 days after the providing of the bill if the customer pays the undisputed amount. The 45 days shall be extended by up to 60 days if requested of the utility by the board in the event the customer files a written complaint with the board in compliance with 199—Chapter 6.

*f.* Disconnection of a residential customer may take place only between the hours of 6 a.m. and 2 p.m. on a weekday and not on weekends or holidays. If a disconnected customer makes payment or other arrangements during normal business hours, or by 7 p.m. for utilities permitting such payment or other arrangements after normal business hours, all reasonable efforts shall be made to reconnect the customer that day. If a disconnected customer makes payment or other arrangements after 7 p.m., all reasonable efforts shall be made to reconnect the customer not later than 11 a.m. the next day.

*g.* A disconnection may not take place where electricity is used as the only source of space heating or to control or operate the only space heating equipment at a residence when the actual temperature or the 24-hour forecast of the National Weather Service for the residence's area is predicted to be 20 degrees Fahrenheit or colder. If the electric cooperative or municipal electric utility has properly posted a disconnect notice but is precluded from disconnecting service because of severe cold weather, the utility may immediately proceed with appropriate disconnection procedures, without further notice, when the temperature in the residence's area rises above 20 degrees Fahrenheit and is forecasted to remain above 20 degrees Fahrenheit for at least 24 hours, unless the customer has paid in full the past due amount or is otherwise entitled to postponement of disconnection.

*h.* Disconnection of a residential customer shall be postponed if the disconnection of service would present an especial danger to the health of any permanent resident of the premises.

(1) An especial danger to health is indicated if a person appears to be seriously impaired and may, because of mental or physical problems, be unable to manage the person's own resources, to carry out activities of daily living or to be protected from neglect or hazardous situations without assistance from others. Indicators of an especial danger to health include but are not limited to: age, infirmity, or mental incapacitation; serious illness; physical disability, including blindness and limited mobility; and any other factual circumstances which indicate a severe or hazardous health situation.

(2) The electric cooperative or municipal electric utility may require written verification of the especial danger to health by a physician or a public health official, including the name of the person endangered; a statement that the person is a resident of the premises in question; the name, business address, and telephone number of the certifying party; the nature of the health danger; and approximately how long the danger will continue. Initial verification by the verifying party may be by telephone if written verification is forwarded to the utility within five days.

(3) Verification shall postpone disconnection for 30 days. In the event service is terminated within 14 days prior to verification of illness by or for a qualifying resident, service shall be restored to that

## UTILITIES DIVISION[199](cont'd)

residence if a proper verification is thereafter made in accordance with the foregoing provisions. If the customer does not enter into a reasonable payment agreement for the retirement of the unpaid balance of the account within the first 30 days and does not keep the current account paid during the period that the unpaid balance is to be retired, the customer is subject to disconnection.

*i.* Winter energy assistance (November 1 through April 1). If the electric cooperative or municipal electric utility is informed that the customer's household may qualify for winter energy assistance or weatherization funds, there shall be no disconnection of service for 30 days from the date the electric cooperative or municipal electric utility is notified to allow the customer time to obtain assistance. Disconnection shall not take place from November 1 through April 1 for a resident who is a head of household and who has been certified to the electric cooperative or municipal electric utility by the community action agency as eligible for either the low-income home energy assistance program or the weatherization assistance program. An electric cooperative or municipal electric utility may develop an incentive program to delay disconnection on April 1 for customers who make payments throughout the November 1 through April 1 period. All such incentive programs shall be set forth in tariffs approved by the board.

*j.* Military service deployment. If the electric cooperative or municipal electric utility is informed that one of the heads of household as defined in Iowa Code section 476.20 is a service member deployed for military service, as defined in Iowa Code section 29A.90, disconnection cannot take place at the residence during the deployment or prior to 90 days after the end of the deployment.

*k.* Abnormal electric consumption. A customer who is subject to disconnection for nonpayment of bill, and who has electric consumption which appears to the customer to be abnormally high, may request the utility to provide assistance in identifying the factors contributing to this usage pattern and to suggest remedial measures. The electric cooperative or municipal electric utility shall provide assistance by discussing patterns of electric usage which may be readily identifiable, suggesting that an energy audit be conducted, and identifying sources of energy conservation information and financial assistance which may be available to the customer.

*l.* An electric cooperative or municipal electric utility may disconnect electric service after 24-hour notice (and without the written 12-day notice) for failure of the customer to comply with the terms of a payment agreement.

*m.* The electric cooperative or municipal electric utility shall, prior to November 1, mail customers a notice describing the availability of winter energy assistance funds and the application process. The notice must be of a type size that is easily legible and conspicuous and must contain the information set out by the state agency administering the assistance program. A utility serving fewer than 25,000 customers may publish the notice in a customer newsletter in lieu of mailing. An electric cooperative or municipal electric utility serving fewer than 6,000 customers may publish the notice in an advertisement in a local newspaper of general circulation or shopper's guide.

**27.4(2) Notice of customer rights and responsibilities.** The standard form of the summary of the rights and responsibilities to be provided to customers is set out below, and all electric cooperatives and municipal electric utilities providing electric service shall provide the notice with all disconnection notices. If an electric cooperative or municipal electric utility does not use the standard form as set out below, the electric cooperative or municipal electric utility shall submit to the board for approval an alternative notice. The standard customer rights and responsibilities notice is as follows:

**CUSTOMER RIGHTS AND RESPONSIBILITIES TO AVOID SHUTOFF OF ELECTRIC SERVICE FOR NONPAYMENT**

**1. What can I do if I receive a notice from the utility that says my service will be shut off because I have a past due bill?**

- a. Pay the bill in full; or
- b. Enter into a reasonable payment plan with the utility (see #2 below); or
- c. Apply for and become eligible for low-income energy assistance (see #3 below); or
- d. Give the electric cooperative or municipal electric utility a written statement from a doctor or public health official stating that shutting off your electric service would pose an especial health danger for a person living at the residence (see #4 below); or

## UTILITIES DIVISION[199](cont'd)

e. Tell the utility if you think part of the amount shown on the bill is wrong. However, you must still pay the part of the bill you agree you owe the utility (see #5 below).

**2. How do I go about making a reasonable payment plan? (Residential customers only)**

a. Contact the electric cooperative or municipal electric utility as soon as you know you cannot pay the amount you owe. If you cannot pay all the money you owe at one time, the utility shall offer you a payment plan that spreads payments evenly over at least 12 months. The plan may be longer depending on your financial situation.

b. If you have not made the payments you promised in a previous payment plan with the utility and still owe money, you may qualify for a second payment agreement under certain conditions.

c. If you do not make the payments you promise, the utility may shut off your electric service on one day's notice unless all the money you owe the utility is paid or you enter into another payment agreement.

**3. How do I apply for low-income energy assistance? (Residential customers only)**

a. Contact the local community action agency in your area (see attached list) or visit [humanrights.iowa.gov/dcaa/where-apply](http://humanrights.iowa.gov/dcaa/where-apply).

b. To avoid disconnection, you must apply for energy assistance or weatherization before your service is shut off. Notify your utility that you may be eligible and have applied for energy assistance. Once your service has been disconnected, it will not be reconnected based on approval for energy assistance.

c. Being certified eligible for energy assistance will prevent your service from being disconnected from November 1 through April 1.

**4. What if someone living at the residence has a serious health condition? (Residential customers only)**

Contact the electric cooperative or municipal electric utility if you believe this is the case. Contact your doctor or a public health official and ask the doctor or health official to contact the utility and state that shutting off your electric service would pose an especial health danger for a person living at your residence. The doctor or public health official must provide a written statement to the electric cooperative's or municipal electric utility's office within five days of when your doctor or public health official notifies the utility of the health condition; otherwise, your electric service may be shut off. If the utility receives this written statement, your service will not be shut off for 30 days. This 30-day delay is to allow you time to arrange payment of your utility bill or find other living arrangements. After 30 days, your service may be shut off if payment arrangements have not been made.

**5. What should I do if I believe my bill is not correct?**

You may dispute your bill. You must tell the electric cooperative or municipal electric utility that you dispute the bill. You must pay the part of the bill you think is correct. If you do this, the utility will not shut off your service for 45 days from the date the bill was mailed while you and the electric cooperative or municipal electric utility work out the dispute over the part of the bill you think is incorrect. You may ask the Iowa Utilities Board for assistance in resolving the dispute (see #9 below).

**6. When can the electric cooperative or municipal electric utility shut off my electric service because I have not paid my bill?**

a. Your electric cooperative or municipal electric utility can shut off service between the hours of 6 a.m. and 2 p.m. Monday through Friday.

b. The electric cooperative or municipal electric utility will not shut off your service on nights, weekends, or holidays for nonpayment of a bill.

c. The electric cooperative or municipal electric utility will not shut off your service if you enter into a reasonable payment plan to pay the overdue amount (see #2 above).

d. The electric cooperative or municipal electric utility will not shut off your service if the temperature is forecasted to be 20 degrees Fahrenheit or colder during the following 24-hour period, including the day your service is scheduled to be shut off.

e. If you have qualified for low-income energy assistance, the electric cooperative or municipal electric utility cannot shut off your service from November 1 through April 1. However, you will still owe the electric cooperative or municipal electric utility for the service used during this time.

## UTILITIES DIVISION[199](cont'd)

f. The electric cooperative or municipal electric utility will not shut off your service if you have notified the electric cooperative or municipal electric utility that you dispute a portion of your bill and you pay the part of the bill that you agree is correct.

g. If one of the heads of household is a service member deployed for military service, electric service cannot be shut off during the deployment or within 90 days after the end of deployment. In order for this exception to disconnection to apply, the electric cooperative or municipal electric utility must be informed of the deployment prior to disconnection. However, you will still owe the electric cooperative or municipal electric utility for service used during this time.

**7. How will I be told the electric cooperative or municipal electric utility is going to shut off my service?**

a. You must be given a written notice at least 12 days before the electric service can be shut off for nonpayment. This notice will include the reason for shutting off your service.

b. If you have not made payments required by an agreed-upon payment plan, your service may be disconnected with only one day's notice.

c. The electric cooperative or municipal electric utility must also try to reach you by telephone or in person before it shuts off your service. From November 1 through April 1, if the electric cooperative or municipal electric utility cannot reach you by telephone or in person, the electric cooperative or municipal electric utility will put a written notice on the door of or another conspicuous place at your residence to tell you that your electric service will be shut off.

**8. If service is shut off, when will it be turned back on?**

a. The electric cooperative or municipal electric utility will turn your service back on if you pay the whole amount you owe.

b. If you make your payment during regular business hours, or by 7 p.m. for electric cooperatives or municipal electric utilities permitting such payment or other arrangements after regular business hours, the electric cooperative or municipal electric utility must make a reasonable effort to turn your service back on that day. If service cannot reasonably be turned on that same day, the utility must do it by 11 a.m. the next day.

c. The electric cooperative or municipal electric utility may charge you a fee to turn your service back on. Those fees may be higher in the evening or on weekends, so you may ask that your service be turned on during normal utility business hours.

**9. Is there any other help available besides my electric cooperative or municipal electric utility?**

If the electric cooperative or municipal electric utility has not been able to help you with your problem, you may contact the Iowa Utilities Board toll-free at 1-877-565-4450. You may also write the Iowa Utilities Board at 1375 E. Court Avenue, Des Moines, Iowa 50319-0069, or by email at [customer@iub.iowa.gov](mailto:customer@iub.iowa.gov). Low-income customers may also be eligible for free legal assistance from Iowa Legal Aid and may contact Iowa Legal Aid at 1-800-532-1275.

**27.4(3) When disconnection is prohibited.**

a. No disconnection may take place from November 1 through April 1 for a resident who has been certified to the public utility by the local community action agency as being eligible for either the low-income home energy assistance program or weatherization assistance program.

b. If the electric cooperative or municipal electric utility is informed that one of the heads of household as defined in Iowa Code section 476.20 is a service member deployed for military service, as defined in Iowa Code section 29A.90, disconnection cannot take place at the residence during the deployment or prior to 90 days after the end of the deployment.

**27.4(4) Servicing of utilization control equipment.** Each electric cooperative or municipal electric utility shall service and maintain any equipment it uses on a customer's premises and shall correctly set and keep in proper adjustment any thermostats, clocks, relays, time switches or other devices which control the customer's service in accordance with the provisions in the utility's schedules.

**27.4(5) Customer complaints.** Complaints concerning the charges, practices, facilities or service of the electric cooperative or municipal electric utility shall be investigated promptly and thoroughly. The electric cooperative or municipal electric utility shall keep such records of customer complaints as will enable it to review and analyze its procedures and actions.

## UTILITIES DIVISION[199](cont'd)

a. Each electric cooperative and municipal electric utility shall develop a fully informative procedure for the resolution of customer complaints.

b. The utility shall take reasonable steps to ensure that customers unable to travel shall not be denied the right to be heard.

c. The final step in a complaint review procedure shall be a filing for board resolution of the issues.

**27.4(6) Limitation of service.** The electric cooperative or municipal electric utility shall have the option of adopting a policy for service limitation at a customer's residence as a measure to be taken in lieu of disconnection of service to the customer. The service limiter policy shall be set out in the utility's tariff, or other legal document, and shall contain the following conditions:

a. A service limitation device shall not be activated without the customer's agreement.

b. A service limitation device shall not be activated unless the customer has defaulted on all payment agreements for which the customer qualifies under the board's rules and the customer has agreed to a subsequent payment agreement.

c. The service limiter shall provide for usage of a minimum of 3,600 watts. If the service limiter policy provides for different usage levels for different customers, the tariff or rules shall set out specific nondiscriminatory criteria for determining the usage levels. Electric-heating residential customers may have their service limited if otherwise eligible, but such customers shall have consumption limits set at a level that allows them to continue to heat their residences. For purposes of this rule, "electric heating" shall mean heating by means of a fixed-installation electric appliance that serves as the primary source of heat and not, for example, one or more space heaters.

d. A provision that, if the minimum usage limit is exceeded such that the limiter function interrupts service, the service limiter function must be capable of being reset manually by the customer, or the service limiter function must reset itself automatically within 15 minutes after the interruption. In addition, the service limiter function may also be capable of being reset remotely. If the option of resetting the meter remotely is available, the utility shall provide a 24-hour toll-free number for the customer to notify the electric cooperative or municipal electric utility that the limiter needs to be reset and the meter shall be reset immediately following notification by the customer. If the remote reset option is used, the meter must still be capable of being reset manually by the customer or the service limiter function must reset itself automatically within 15 minutes after the interruption.

e. There shall be no disconnect, reconnect, or other charges associated with service limiter interruptions or restorations.

f. A provision that, upon installation of a service limiter or activation of a service limiter function on the meter, the electric cooperative or municipal electric utility shall provide the customer with information on the operation of the limiter, including how it can be reset, and information on what appliances or combination of appliances can generally be operated to stay within the limits imposed by the limiter.

g. A provision that the service limiter function of the meter shall be disabled no later than the next working day after the residential customer has paid the delinquent balance in full.

h. A service limiter customer that defaults on the payment agreement is subject to disconnection after a 24-hour notice.

**199—27.5(476) Engineering practice.**

**27.5(1) Requirement for good engineering practice.** The electric plant of the electric cooperative or municipal electric utility shall be constructed, installed, maintained and operated in accordance with accepted good engineering practice in the electric industry to assure, as far as reasonably possible, continuity of service, uniformity in the quality of service furnished, and the safety of persons and property.

**27.5(2) Standards incorporated by reference.** The electric cooperative and municipal electric utility shall use the applicable provisions in the publications listed below as standards of accepted good practice unless otherwise ordered by the board.

a. Iowa Electrical Safety Code, as defined in 199—Chapter 25.

b. National Electrical Code, ANSI/NFPA 70-2014.

## UTILITIES DIVISION[199](cont'd)

- c.* American National Standard Requirements for Instrument Transformers, ANSI/IEEE C57.13.1-2006; and C57.13.3-2005.
- d.* American National Standard for Electric Power Systems and Equipment Voltage Ratings (60 Hertz), ANSI C84.1-2011.
- e.* Grounding of Industrial and Commercial Power Systems, IEEE 142-2007.
- f.* IEEE Standard 1159-2009, IEEE Recommended Practice for Monitoring Electric Power Quality, or any successor standard.
- g.* IEEE Standard 519-2014, IEEE Recommended Practices and Requirements for Harmonic Control in Electrical Power Systems, or its successor standard.
- h.* At railroad crossings, 199—42.6(476), “Engineering standards for electric and communications lines.”

**199—27.6(476) Metering.** Each electric cooperative and municipal electric utility shall have a meter inspection and testing program that meets industry standards similar to ANSI C12.1-2014. Each electric cooperative and municipal electric utility shall retain meters removed from service for at least six months or a length of time based upon industry standards.

**199—27.7(476) Standards of quality of service.**

**27.7(1) Standard frequency.** The standard frequency for alternating current distribution systems shall be 60 cycles per second. The frequency shall be maintained within limits which will permit the satisfactory operation of customer’s clocks connected to the system.

**27.7(2) Voltage limits retail.** Each electric cooperative and municipal electric utility supplying electric service to ultimate customers shall provide service voltages in conformance with the standard at 27.5(2)“d.”

**27.7(3) Voltage balance.** Where three-phase service is provided the electric cooperative or municipal electric utility shall exercise reasonable care to assure that the phase voltages are in balance. In no case shall the ratio of maximum voltage deviation from average to average voltage exceed .02.

**27.7(4) Exceptions to voltage requirements.** Voltage outside the limits specified will not be considered a violation when the variations:

- a.* Arise from the action of the elements.
- b.* Are infrequent fluctuations not exceeding five minutes’ duration.
- c.* Arise from service interruptions.
- d.* Arise from temporary separation of parts of the system from the main system.
- e.* Are from causes beyond the control of the electric cooperative or municipal electric utility.
- f.* Do not exceed 10 percent above or below the standard nominal voltage, and service is at a distribution line or transmission line voltage with the retail customer providing voltage regulators.

**27.7(5) Voltage surveys and records.** Voltage measurements shall be made at the customer’s entrance terminals. For single-phase service the measurement shall be made between the grounded conductor and the ungrounded conductors. For three-phase service the measurement shall be made between the phase wires.

**27.7(6) Voltage measurements.** Each electric cooperative or municipal electric utility shall make a sufficient number of voltage measurements in order to determine if voltages are in compliance with the requirements as stated in subrules 27.7(2), 27.7(3), and 27.7(4). All records obtained under this subrule shall be retained by the electric cooperative or municipal electric utility for at least two years and shall be available for inspection by the board’s representatives. Notations on each chart shall indicate the following:

- a.* The location where the voltage was taken.
- b.* The time and date of the test.
- c.* The results of the comparison with a working standard indicating voltmeter.

**27.7(7) Equipment for voltage measurements.**

## UTILITIES DIVISION[199](cont'd)

*a. Secondary standard indicating voltmeter.* Each electric cooperative or municipal electric utility shall have available at least one indicating voltmeter maintained with error no greater than 0.25 percent of full scale.

*b. Working standard indicating voltmeters.* Each electric cooperative or municipal electric utility shall have at least two indicating voltmeters maintained so as to have as-left errors of no greater than 1 percent of full scale.

*c. Recording voltmeters.* Each electric cooperative or municipal electric utility must have readily available at least two portable recording voltmeters with a rated accuracy of 1 percent of full scale.

**27.7(8) Handling of standards and instruments.** Extreme care must be exercised in the handling of standards and instruments to assure that their accuracy is not disturbed. Each standard shall be accompanied at all times by a certificate or calibration card, duly signed and dated, on which are recorded the corrections required to compensate for errors found at the customary test points at the time of the last previous test.

**27.7(9) Planned interruptions.** Planned interruptions shall be made at a time that will not cause unreasonable inconvenience to customers, and interruptions planned for longer than one hour shall be preceded by adequate notice to those who will be affected.

**27.7(10) Power quality monitoring.** Each electric cooperative or municipal electric utility shall investigate power quality complaints from its customers and determine if the cause of the problem is on the utility's systems. In addressing these problems, each electric cooperative or municipal electric utility shall implement to the extent reasonably practical the practices outlined in the standard given at 27.5(2) "f."

**27.7(11) Harmonics.** A harmonic is a sinusoidal component of the 60 cycles per second fundamental wave having a frequency that is an integral multiple of the fundamental frequency. When excessive harmonics problems arise, each electric cooperative or municipal electric utility shall investigate and take actions to rectify the problem. In addressing harmonics problems, the utility and the customer shall implement to the extent practicable and in conformance with prudent operation the practices outlined in the standard at 27.5(2) "g."

**199—27.8(476) Safety.**

**27.8(1) Iowa electrical safety code compliance.** Each electric cooperative and municipal electric utility shall be subject to 199—Chapter 25 under this subrule.

**27.8(2) Interconnection compliance.** Each electric cooperative and municipal electric utility shall be subject to rule 199—15.10(476) under this subrule.

**27.8(3) Protective measures.** Each electric cooperative and municipal electric utility shall exercise reasonable care to reduce those hazards inherent in connection with its electric service and to which its employees, its customers, and the general public may be subjected and shall adopt and execute a safety program designed to protect the public and fitted to the size and type of its operations.

**27.8(4) Accident investigation and prevention.** Electric cooperatives and municipal electric utilities shall give reasonable assistance to the board in the investigation of the cause of accidents and in the determination of suitable means of preventing accidents.

**27.8(5) Reportable accidents.** Electric cooperatives and municipal electric utilities shall maintain a summary of all reportable accidents, as defined in rule 199—25.5(476,478), arising from operations.

**27.8(6) Grounding of secondary distribution system.** Unless otherwise specified by the board, each electric cooperative and municipal electric utility shall comply with, and shall encourage customers to comply with, the applicable provisions of the acceptable standards listed in subrule 27.5(2) for the grounding of secondary circuits and equipment.

*a.* Ground connections should be tested for resistance at the time of installation. Each electric cooperative and municipal electric utility shall keep a record of all ground resistance measurements.

*b.* Each electric cooperative and municipal electric utility shall establish a program of inspection so that all artificial grounds installed shall be inspected within reasonable periods of time.

**199—27.9(476) Customer contribution fund.**

## UTILITIES DIVISION[199](cont'd)

**27.9(1) *Applicability and purpose.*** This rule applies to each electric cooperative and municipal electric utility, as defined in Iowa Code sections 476.1A and 476.1B. Pursuant to Iowa Code section 476.66, each electric cooperative or municipal electric utility shall maintain a program plan to assist the electric cooperative's or municipal electric utility's low-income customers with weatherization and to supplement assistance received under the federal low-income home energy assistance program for the payment of winter heating bills.

**27.9(2) *Notification.*** Each electric cooperative or municipal electric utility shall notify all customers of the customer contribution fund at least twice a year. The method of notice which will ensure the most comprehensive notification to the electric cooperative's or municipal electric utility's customers shall be employed. Upon commencement of service and at least once a year, the notice shall be mailed or personally delivered to all customers, or provided by electronic means to those customers who have consented to receiving electronic notices. The other required notice may be published in a local newspaper(s) of general circulation within the service territory of the electric cooperative or municipal electric utility. A utility serving fewer than 6,000 customers may publish its semiannual notices locally in a free newspaper, utility newsletter or shopper's guide instead of a newspaper. At a minimum, the notice shall include:

- a. A description of the availability and the purpose of the fund.
- b. A customer authorization form. This form shall include a monthly billing option and any other methods of contribution.

**27.9(3) *Methods of contribution.*** The electric cooperative or municipal electric utility shall provide for contributions as monthly pledges, as well as one-time or periodic contributions. A pledge by a customer or other party shall not be construed to be a binding contract between the electric cooperative or municipal electric utility and the pledger. The pledge amount shall not be subject to delayed payment charges by the electric cooperative or municipal electric utility. Each electric cooperative or municipal electric utility may allow persons or organizations to contribute matching funds.

**27.9(4) *Annual report.*** On or before September 30 of each year, each electric cooperative or municipal electric utility shall file with the board a report of all the customer contribution fund activity for the previous fiscal year beginning July 1 and ending June 30. The report shall be in a form provided by the board and shall contain an accounting of the total revenues collected and all distributions of the fund. The electric cooperative or municipal electric utility shall report all utility expenses directly related to the customer contribution fund.

**199—27.10(476,478) Service reliability requirements for electric utilities.**

**27.10(1) *Applicability.*** This rule is applicable to electric cooperatives and associations operating within the state of Iowa subject to Iowa Code chapter 476.

**27.10(2) *Purpose and scope.*** Reliable electric service is of high importance to the health, safety, and welfare of the citizens of Iowa. The purpose of this rule is to establish standards of reliability of the transmission and distribution systems and facilities that are under the board's jurisdiction.

**27.10(3) *General obligations.***

a. Each electric cooperative shall make reasonable efforts to avoid and prevent interruptions of service. However, when interruptions occur, service shall be reestablished within the shortest time practicable, consistent with safety.

b. The electric cooperative's electrical transmission and distribution facilities shall be designed, constructed, maintained, and electrically reinforced and supplemented as required to reliably perform the power delivery burden placed upon them in the storm and traffic hazard environment in which they are located.

c. Each electric cooperative shall carry on an effective preventive maintenance program and shall be capable of emergency repair work on a scale which its storm and traffic damage record indicates as appropriate to its scope of operations and to the physical condition of its transmission and distribution facilities.

## UTILITIES DIVISION[199](cont'd)

*d.* Each electric cooperative shall keep records of interruptions of service on its primary distribution system and shall make an analysis of the records for the purpose of determining steps to be taken to prevent recurrence of such interruptions.

*e.* Each electric cooperative shall make reasonable efforts to reduce the risk of future interruptions by taking into account the age, condition, design, and performance of transmission and distribution facilities and providing adequate investment in the maintenance, repair, replacement, and upgrade of facilities and equipment.

*f.* Any electric cooperative unable to comply with applicable provisions of this rule may file a waiver request pursuant to rule 199—1.3(17A,474,476).

**199—27.11(476,478) Notification of outages.**

**27.11(1) Notification.** The notification requirements in subrules 27.11(1) and 27.11(2) are for the timely collection of electric outage information that may be useful to emergency management agencies in providing for the safety and welfare of individual Iowa citizens. Each electric cooperative and municipal electric utility shall notify the board when it is projected that an outage may result in a loss of service for more than six hours and the outage meets one of the following criteria:

*a.* Loss of service for more than six hours to substantially all of a municipality, including the surrounding area served by the same electric cooperative or municipal electric utility. An electric cooperative or municipal electric utility may use loss of service to 75 percent or more of customers within a municipality, including the surrounding area served by the utility, to meet this criterion;

*b.* A major event as defined in subrule 27.1(4); or

*c.* Any other outage considered significant by the electric cooperative or municipal electric utility. This includes loss of service for more than six hours to significant public health and safety facilities known to the electric cooperative or municipal electric utility at the time of the notification.

**27.11(2) Information required.**

*a.* Notification shall be provided regarding outages that meet the requirements of subrule 27.11(1) by notifying the board duty officer by email at [dutyofficer@iub.iowa.gov](mailto:dutyofficer@iub.iowa.gov) or, in appropriate circumstances, by telephone at (515)745-2332. Notification shall be made at the earliest possible time after it is determined the event may be reportable and should include the following information, as available:

(1) The general nature or cause of the outage;

(2) The area affected;

(3) The approximate number of customers that have experienced a loss of electric service as a result of the outage;

(4) The time when service is estimated to be restored; and

(5) The name of the electric cooperative or municipal electric utility, the name and telephone number of the person making the report, and the name and telephone number of a contact person knowledgeable about the outage. The notice should be supplemented as more complete or accurate information is available.

*b.* The electric cooperative or municipal electric utility shall provide to the board updates of the estimated time when service will be restored to all customers able to receive service or of significant changed circumstances, unless service is restored within one hour of the time initially estimated.

*c.* The electric cooperative or municipal electric utility shall notify the board once service is fully restored to all customers after an outage meeting the requirements of subrule 27.11(1).

**199—27.12(476) Electric vehicle charging service.** A commercial or public electric vehicle charging station is not a public utility under Iowa Code section 476.1 if the charging station receives all electric power from the electric utility in whose service area the charging station is located. If an electric vehicle charging station obtains electric power from a source other than the electric utility, the determination of whether the commercial or public electric vehicle charging station is a public utility shall be resolved by the board.

## UTILITIES DIVISION[199](cont'd)

**199—27.13(476) Exterior flood lighting.**

**27.13(1) *Newly installed lighting.*** All newly installed exterior flood lighting owned by an electric cooperative or municipal electric utility shall be solid-state lighting or lighting with equivalent or better energy efficiency.

**27.13(2) *In-service lighting replacement schedule.*** In-service lighting shall be replaced with solid-state lighting or lighting with equivalent or better energy efficiency when worn out due to ballast, lamp, or fixture failure or for any other reason, such as vandalism or storm damage.

**27.13(3) *Efficacy standards.*** Lighting other than solid-state has equivalent or better efficacy if one or more of the following can be established:

- a.* For fixtures, the mean lumens-per-watt lamp rating is greater than 100; or
- b.* The new lighting uses no more energy per installation than comparable, suitably sized solid-state; or
- c.* The new lighting luminaries have a mean efficacy rating equal to or greater than 100 lumens per watt according to a Department of Energy (DOE) Lighting Facts label, testing under the DOE Commercially Available LED Product Evaluation and Reporting Program (CALiPER), Design Lights Consortium (DLC) or any other testing agency that follows Illuminating Engineering Society of North America LM-79-08 test procedures.

These rules are intended to implement Iowa Code sections 476.1A and 476.1B.

**ENVIRONMENTAL PROTECTION COMMISSION[567]****Adopted and Filed****Rule making related to NPDES general permit no. 7**

The Environmental Protection Commission hereby amends Chapter 64, “Wastewater Construction and Operation Permits,” Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is adopted under the authority provided in Iowa Code section 455B.173(11).

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code sections 455B.173(11) and 455B.186.

*Purpose and Summary*

The purpose of this rule making is to renew National Pollutant Discharge Elimination System (NPDES) General Permit No. 7 (GP7), which authorizes discharges that result from the application of biological pesticides and chemical pesticides that leave residue from point sources to waters of the United States. The permit covers discharges resulting from the application of pesticides to control aquatic nuisance insects and animals, weeds, algae, bacteria, fungi, fish parasites, and forest canopy pests. Irrigation return flows and agricultural runoff are not covered under GP7 because they are excluded from the Clean Water Act. The permit requires the implementation of best management practices and visual monitoring of the application site for adverse impacts caused by the application of pesticides. No fees are associated with GP7.

## ENVIRONMENTAL PROTECTION COMMISSION[567](cont'd)

This rule making includes formatting and other nonsubstantive changes to GP7 to simplify existing language, improve clarity, and minimize unnecessary duplication. This rule making also includes five substantive changes to GP7 as described below.

- Add coverage for discharges resulting from ground application of a pesticide to a forest canopy since this is a method used to control pests such as the gypsy moth and new pests like the walnut twig beetle.

- Require reporting of the exact location of a hazardous condition and the name of any affected water body as part of the six-hour hazardous condition notification requirements since this information is important for Department response efforts.

- Remove the part titled “Additional Permit Requirements,” which states that the Department may impose additional, enforceable permit conditions in a written notice. This part is considered unnecessary since the Department can require an individual permit where requirements beyond those included in the general permit are necessary. Removal of this part does not affect the Department’s authority to enforce permit conditions.

- Remove requirements for operators to keep a copy of GP7 since this requirement is not included in other general permits issued by the Department.

- Revise the definition for “Water of the United States” to reference the current federal definition as of June 22, 2020, which is the effective date of the final Navigable Waters Protection Rule published by the United States Environmental Protection Agency.

## **PUBLIC SAFETY DEPARTMENT[661]**

**Adopted and Filed**

### **Rule making related to standards for electrical work**

The Electrical Examining Board hereby amends Chapter 504, "Standards for Electrical Work," Iowa Administrative Code.

#### *Legal Authority for Rule Making*

This rule making is adopted under the authority provided in Iowa Code section 103.6.

#### *State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code section 103.6.

#### *Purpose and Summary*

The purpose of this amendment is to update the Standards for Electrical Work to the National Electrical Code, 2020 edition. Consistent with rule making in this chapter, the entire National Electrical Code (NEC) is adopted, with the amendments included in this chapter. It is the intention of the Department and the Board to not make further amendments, regardless of new additions to the NEC, until it is necessary for the state of Iowa. A significant effect of the adoption of the 2020 edition of the NEC would have been the requirement for 250-volt receptacles, but the Board, in addition to adopting the 2020 edition of the NEC by reference, is amending the 2020 edition to remove that requirement. Although the ground fault circuit interrupter requirement for 250-volt receptacles is removed, it is possible that future NEC amendments will return this provision to the administrative rules.

#### *Public Comment and Changes to Rule Making*

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on August 26, 2020, as **ARC 5152C**. A public hearing was held on September 17, 2020, at 10 a.m. in First Floor Public Conference Room 125, Oran Pape State Office Building, 215 East 7th Street, Des Moines, Iowa.

Don Iverson, with Schneider-Square D, suggested the Board accept the 2020 NEC without amendments. Mr. Iverson stated that documentation submitted to Code Panel 2 reflected the number of lives lost around outside air conditioners and indoor appliances due to electrocution. As a safety

PUBLIC SAFETY DEPARTMENT[661](cont'd)

advocate for ground-fault circuit interrupter (GFCI) protection, he would like the Board to change direction in amending the 2020 NEC, stating that GFCI technology has been around since the late 1960s and electrocutions have decreased significantly due to GFCIs installed in homes. Mr. Iverson would like the Board to reconsider its stance on removing 250-volt language, and suggested a possible middle ground to GFCI protection in consideration of public safety. Possible middle ground would be to restore Article 210.8A, where the subcommittee struck the 250-volt language, and then place a sunset on outdoor outlets in Article 210.8F to become effective at the next code adoption.

Tim McClintock, with the National Electrical Manufacturers Association (NEMA), thanked the Board for wanting to adopt the 2020 NEC. Mr. McClintock had previously submitted written comments and reiterated his request that the Board adopt the 2020 NEC without amendments. Mr. McClintock explained the process that the National Fire Protection Association (NFPA) uses with the development of the NEC, where the process is open, transparent and balanced, and accredited by the American National Standards Institute (ANSI). Changes are not made to the NEC unless substantiated by logical reasoning, research, data and statistics — all to promote the practical safeguarding of persons and property from hazards arising from the use of electricity. Mr. McClintock also touched on GFCI equipment that was in the 1971 NEC edition, and stated that published data from the U.S. Consumer Product Safety Commission shows decreasing trends in electrocutions in the United States. Mr. McClintock stated that NEMA urges the Board to move forward with adoption of the 2020 NEC and reconsider the proposed amendments to remove GFCIs.

Chris Higgins, an Iowa-licensed master electrician and electrical contractor, stated that his only concern is if the 2020 NEC is adopted without amendments, there may be no indication if the electrocutions were due to faulty installation or faulty equipment. Mr. Higgins understands that one life is too many, but questioned whether that is justification for increased cost of GFCIs being put on consumers.

Trevor Williams submitted the following written comments:

1. **Proposed amendment to 210.8(A)(5).** Add the following amendment to existing Exception to (5):

**Exception to (5)** A receptacle supplying only a permanently installed sump pump shall not be required to have ground-fault circuit interrupter protection if all of the following conditions are met:

1. Receptacle supplying permanently installed sump pump shall be of the single use grounding type.

2. Circuit supplying permanently installed sump pump shall have a disconnecting means within 6 feet of the receptacle supplying it.

3. Disconnecting means shall be labeled as “Sump Pump, Disconnect before servicing” or equivalent. Note: Label may be field applied.

2. **Proposed amendment to 230.67(D).** Remove existing language and replace with:

**(D) Replacement.** Where service equipment is replaced, it shall be allowed, but not required, to meet all of the requirements of this section.

3. **Proposed amendment to 230.71 Maximum number of disconnects.**

Remove existing 2020 NEC language and replace with:

230.71 Maximum Number of Disconnects.

(A) General. The service disconnecting means for each service permitted by 230.2, or for each set of service-entrance conductors permitted by 230.40, Exception No. 1, 3, 4, or 5, shall consist of not more than six switches or sets of circuit breakers, or a combination of not more than six switches and sets of circuit breakers, mounted in a single enclosure, in a group of separate enclosures, or in or on a switchboard or in switchgear. There shall be not more than six sets of disconnects per service grouped in any one location.

For the purpose of this section, disconnecting means installed as part of listed equipment and used solely for the following shall not be considered a service disconnecting means:

- (1) Power monitoring equipment
- (2) Surge-protective device(s)
- (3) Control circuit of the ground-fault protection system

## PUBLIC SAFETY DEPARTMENT[661](cont'd)

(4) Power-operable service disconnecting means

(B) Single-Pole Units. Two or three single-pole switches or breakers, capable of individual operation, shall be permitted on multiwire circuits, one pole for each ungrounded conductor, as one multipole disconnect, provided they are equipped with identified handle ties or a master handle to disconnect all conductors of the service with no more than six operations of the hand.

Informational Note: See 408.36, Exception No. 1 and Exception No. 3, for service equipment in certain panelboards, and see 430.95 for service equipment in motor control centers.

Chris Higgins submitted the following written comments:

Recommend additional changes as follows to the already proposed rewrite of 210.8(A).

210.8(A)(2) GFCI protection for garage and accessory building receptacles.

Exceptions to (A)(2): The following conditions shall not be required to have ground-fault circuit-interrupter protection:

1. A dedicated ceiling mounted receptacle for a garage door opener.
2. A single receptacle supplied by a dedicated branch circuit that is located and identified for specific use by a cord- and plug-connected appliance such as a refrigerator or freezer.
3. A dedicated receptacle supplying a permanently installed fire alarm or security alarm system.
4. A dedicated receptacle supplying a sump pump.

Receptacles installed under exception to 210.8(A)(2) shall not be considered as meeting the requirements of 210.52(G).

210.8(A)(5) Unfinished portions or areas of the basement not intended as habitable rooms.

Exceptions to (A)(5): The following conditions shall not be required to have ground-fault circuit-interrupter protection:

1. A receptacle supplying only a permanently installed fire alarm or burglar alarm system.
2. A single receptacle supplying a permanently installed sump pump.
3. A single receptacle supplied by a dedicated branch circuit that is located and identified for specific use by a cord- and plug-connected appliance such as a refrigerator or freezer.

Receptacles installed under exception to 210.8(A)(5) shall not be considered as meeting the requirements of 210.52(G).

No changes from the Notice have been made.

This rule making was adopted by the Board on October 15, 2020.

*Fiscal Impact*

This rule making has no fiscal impact to the State of Iowa.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

*Waivers*

Pursuant to the provisions of rule 661—10.222(17A), the Department does not have authority to waive requirements established by statute. Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to the provisions of rule 661—10.222(17A).

*Review by Administrative Rules Review Committee*

## **REVENUE DEPARTMENT[701]**

### **Adopted and Filed**

#### **Rule making related to local assessors**

The Revenue Department hereby amends Chapter 7, "Practice and Procedure Before the Department of Revenue," Chapter 71, "Assessment Practices and Equalization," and Chapter 72, "Examination and Certification of Assessors and Deputy Assessors," Iowa Administrative Code.

#### *Legal Authority for Rule Making*

This rule making is adopted under the authority provided in Iowa Code sections 421.14; 441.6(3) as enacted by 2020 Iowa Acts, House File 2641, section 106; and 441.17(2) as amended by 2020 Iowa Acts, House File 2641, section 107.

#### *State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code sections 441.6, 441.8, 441.17 and 441.41 and 2020 Iowa Acts, House File 2641, division XIII.

#### *Purpose and Summary*

This rule making is intended to implement statutory changes to the regulation of local assessors. In particular, this rule making addresses changes to Iowa Code section 441.6 prohibiting an appointee selected by the conference board from assuming the office of city or county assessor until the appointment or reappointment is confirmed by the Director of Revenue. This rule making addresses the process by which the Director may confirm or reject an appointment or reappointment to the position of city or county assessor. Additionally, this rule making provides for an appeal process for an aggrieved assessor or conference board upon the rejection of an appointment of an assessor by the Director.

This rule making also addresses a new statutory requirement under Iowa Code section 441.17(2) prohibiting assessors and deputy assessors from assessing a property if the assessor or deputy assessor or a member of the assessor's or deputy assessor's immediate family owns the property, has a financial interest in the property, or has a financial interest in the entity that owns the property. This rule making sets forth a reporting process for the Department to ensure that this statutory prohibition is followed and defines certain terms within the rule.

Finally, this rule making addresses a new statutory requirement that a conference board obtain city attorney or county attorney approval prior to employing special counsel to assist the city legal department or county attorney under Iowa Code section 441.41.

#### *Public Comment and Changes to Rule Making*

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on September 23, 2020, as **ARC 5182C**. A virtual public hearing was held on October 13, 2020, at 1:30 p.m.

Description of comments at public hearing: The Department received multiple comments at its public hearing. Below is a description of the comments received.

REVENUE DEPARTMENT[701](cont'd)

**Special counsel (Item 3):** It was suggested that this rule exceeds the authority granted by the statute and would be overly burdensome.

**Confirmation by Director/assessor reappointment (Items 4 to 7):** It was suggested that the Department has exceeded its rule-making authority in promulgating a limitation on when assessors may be reappointed by the conference board (150 days before the end of an assessor's term) and that the Department does not have authority to promulgate rules regarding the reappointment of an assessor. The mayor of Clinton called to express that he does not approve of the confirmation powers granted to the Director under the rule.

**Assessors may not assess own property (Item 2):** It was asked who will be assessing the assessor's property, if not the assessor.

Description of comments received during comment period: The Department received a number of comments during the comment period. Below is a description of the comments received.

**Appeals (Item 1):** Clarification as to the applicability of Iowa Code section 421.60(4) was requested, as the proposed rule states that Iowa Code section is cross-referenced in rule. This assessor pointed out an inadvertent cross-reference.

**Assessor shall not assess own property (Item 2):** One assessor suggested that reporting not be required or be minimized in even-numbered years if property values do not change from odd- to even-numbered years.

**Special counsel (Item 3):** It was suggested that this rule exceeds the authority of the statute, that the rule is unnecessary and burdensome, and that county attorney offices are not always equipped to defend assessment appeals. Additionally, an assessor suggested that conference boards might be concerned about spending too much money on outside counsel and settle challenged assessments for amounts below market value, which would shift the tax burden to residential homeowners. Multiple assessors suggested it would be challenging to obtain requisite approval by conference boards because it is already challenging to obtain a quorum for conference board action only a handful of times per year. One county attorney commented, suggesting that the conference board should continue to have the authority to decide whether to employ special counsel.

**Confirmation by Director/assessor reappointment (Items 4 to 7):** It was suggested that the Department has exceeded its rule-making authority by promulgating a 150-day limitation on when an assessor may be reappointed and that the Department does not have authority to promulgate rules regarding the reappointment of an assessor. It was asserted that these powers rest solely with the conference board. The current litigation between the Department and Guthrie County was listed as a potential problem with respect to reappointment powers. Additionally, it was suggested that reappointment power could lead to influential taxpayers exerting political pressure on the Director to influence an assessor's decisions on their property, politicizing the assessor's office. It was also suggested that it could be difficult to obtain a conference board quorum to reappoint an assessor in the new time frame and that the assessor, as clerk of the conference board, should not prepare the statement of misconduct, etc. Assessors also suggested that charges of misconduct, etc., be substantiated first, and be considered by the Department at the time of the charges, and that it is unfair to assessors to hold reappointments around the same time that taxpayers are notified of assessment increases.

Assessors expressed that the assessor position is local, and not a state position with respect to the background check. Some concern as to whether the background check information would be confidential was expressed. Some assessors questioned the purpose of the background check. Finally, the Iowa State Association of Assessors (ISAA) commented that the rules should specify that only proven charges or evidence of misconduct, etc., should be considered in the confirmation process.

Changes from the Notice:

After considering the above comments, the Department has made two changes to its rule making. First, in Item 1, the appeal process was clarified to exclude Iowa Code section 421.60(4) as referenced in the Iowa Administrative Code. Previously, Item 1 was written as if Iowa Code section 421.60(4) was explicitly referenced in subrule 7.17(8). The revision clarifies that this Iowa Code section is not cross-referenced within subrule 7.17(8).

## REVENUE DEPARTMENT[701](cont'd)

Additionally, in Item 6, the 150-day restriction for assessor reappointments was extended to a 180-day window to allow conference boards an additional month to meet to decide whether to reappoint an assessor. This meeting would occur once every six years.

The Department has determined that it has the authority to promulgate the rules set forth in this rule making. The Director has broad supervision authority over the administration of the assessment and tax laws of the state and over officers or boards in the performance of their official duties in all matters relating to assessments and taxation, to the end that all assessments of property and taxes levied on the property be made relatively just and uniform in substantial compliance with the law.

Specifically, related to the authority to promulgate rules regarding the reappointment of assessors, the Department notes that Iowa Code section 441.8(1) states “[a]ppointments for each succeeding term shall be made in the same manner as the original appointment...” Iowa Code section 441.6 sets forth the process for the original appointment. As of July 1, 2020, Iowa Code section 441.6 includes new Iowa Code subsection 441.6(3) providing that the Director of Revenue must confirm an appointment before said appointee assumes office. Therefore, the Director’s confirmation is part of the original appointment process and applies to the reappointment process as well.

*Adoption of Rule Making*

This rule making was adopted by the Department on October 28, 2020.

*Fiscal Impact*

This rule making has nominal fiscal impact to the State of Iowa. It is possible that local governments and the Department will incur nominal costs related to the new reporting requirements.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

*Waivers*

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 701—7.28(17A).

*Review by Administrative Rules Review Committee*

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee’s meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

*Effective Date*

This rule making will become effective on December 23, 2020.

by the director, the property record card of each of the properties described in paragraph 71.27(2) "a" and additional information as required by the director. In the event a property described in paragraph 71.27(2) "a" was reported on January 1 but is no longer owned by one of the parties described in paragraph 71.27(2) "a" and none of the parties described in paragraph 71.27(2) "a" has a financial interest in the property or has a financial interest in the entity that owns the property, the assessor is not required to make the March 1 report described in this subrule for that property but shall report to the department the sale or other circumstances under which the property no longer requires reporting under this subrule.

**71.28(2)** In the event special counsel is employed, the assessor shall provide the department with written notice of said employment, including the matter being litigated, justification for the hiring of special counsel, and the special counsel's name and hourly rate, within ten days of the hiring. The notice shall include a statement by the conference board stating whether there have been any charges or evidence of any misconduct,

nonfeasance, malfeasance, or misfeasance against the appointee. If there have been charges or evidence of any misconduct, nonfeasance, malfeasance, or misfeasance against the appointee, the notice shall include a summary of the misconduct, nonfeasance, malfeasance, or misfeasance and any action taken regarding the misconduct, nonfeasance, malfeasance, or misfeasance. For purposes of this rule, “misconduct” means the same as defined in Iowa Code section 441.9.

ITEM 5. Adopt the following **new** subrule 72.15(4):

For purposes of this rule, “misconduct” means the same as defined in Iowa Code section 441.9. Within 30 days of receiving the notice contemplated in subrule 72.15(1), the director shall notify the conference board and assessor of the acceptance or rejection of the appointment. An appeal of the director’s decision under this subrule may be made under rule 701—7.37(441).

*b.* Immediately following selection by the conference board, the appointee assessor shall submit information to the director as required for the director or designee to conduct a background check. The director or designee may review the department’s records and other records in considering whether to confirm the appointment of an assessor.

ITEM 6. Amend subrule 72.16(1) as follows:

**72.16(1)** *Time for reappointment.* A conference board must decide whether to reappoint an incumbent assessor at least 90 days before the expiration of the incumbent’s term. If the incumbent is not to be reappointed, the conference board shall so notify the incumbent in writing at least 90 days before the expiration of the incumbent’s term. Failure of the conference board to provide timely notification of the decision not to reappoint the assessor shall result in the assessor being reappointed. In no case may an incumbent assessor be reappointed earlier than 180 days before the expiration of the incumbent’s term. Within ten days of reappointment or notification of expiration of the incumbent’s term, the conference board shall notify the director of the reappointment or notification of expiration of the incumbent’s term. If the conference board reappoints an incumbent assessor, the notice shall include a statement by the conference board stating whether there have been any charges or evidence of any misconduct, nonfeasance, malfeasance, or misfeasance against the appointee. If there have been charges or evidence of any misconduct, nonfeasance, malfeasance, or misfeasance against the appointee, the notice shall include a summary of the misconduct, nonfeasance, malfeasance, or misfeasance and any action taken regarding the misconduct, nonfeasance, malfeasance, or misfeasance. For purposes of this rule, “misconduct” means the same as defined in Iowa Code section 441.9.

ITEM 7. Adopt the following **new** subrule 72.16(3):

**72.16(3)** *Confirmation by the director of revenue.*

*a.* An assessor reappointed by the conference board shall not assume the office of city or county assessor in the subsequent term until such reappointment is confirmed by the director of revenue. In considering whether to confirm the reappointment, the director shall consider any charges or evidence of misconduct, nonfeasance, malfeasance, or misfeasance by the appointee. For purposes of this rule, “misconduct” means the same as defined in Iowa Code section 441.9. Within 30 days of receiving notice of reappointment by the conference board, the director shall notify the conference board and assessor of the acceptance or rejection of the reappointment. An appeal of the director’s decision under this subrule may be made under rule 701—7.37(441).

*b.* Immediately following selection by the conference board, the appointee assessor shall submit information to the director as required for the director or designee to conduct a background check. The

**REVENUE DEPARTMENT[701]**

**Adopted and Filed**

**Rule making related to declaration of value forms**

The Revenue Department hereby amends Chapter 79, "Real Estate Transfer Tax and Declarations of Value," Iowa Administrative Code.

*Legal Authority for Rule Making*

This rule making is adopted under the authority provided in Iowa Code section 421.14.

*State or Federal Law Implemented*

This rule making implements, in whole or in part, Iowa Code section 428A.1.

*Purpose and Summary*

This rule making makes an amendment related to the transmittal of declaration of value forms following an amendment to Iowa Code section 428A.1 made in 2020 Iowa Acts, House File 2641.

*Public Comment and Changes to Rule Making*

Notice of Intended Action for this rule making was published in the Iowa Administrative Bulletin on September 23, 2020, as **ARC 5184C**. A virtual public hearing was held on October 13, 2020. There was some concern expressed at the hearing that the amended rule would require that recorders submit the declaration of value (DOV) form directly to the Department, which would be contrary to statutory requirements and would change workflow for recorders. The concern that the amended rule would require recorders, and not assessors, to submit the DOV form directly to the Department was reiterated via email comments. Additionally, one assessor commented that this new process would be overly burdensome, since the assessor's staff would need to investigate sales and properly process DOV forms. No changes from the Notice have been made.

*Adoption of Rule Making*

This rule making was adopted by the Department on October 28, 2020.

*Fiscal Impact*

This rule making has nominal fiscal impact to the State of Iowa. The Department will incur nominal cost in implementing these changes.

*Jobs Impact*

After analysis and review of this rule making, no impact on jobs has been found.

REVENUE DEPARTMENT[701](cont'd)

*Waivers*

Any person who believes that the application of the discretionary provisions of this rule making would result in hardship or injustice to that person may petition the Department for a waiver of the discretionary provisions, if any, pursuant to rule 701—7.28(17A).

*Review by Administrative Rules Review Committee*

The Administrative Rules Review Committee, a bipartisan legislative committee which oversees rule making by executive branch agencies, may, on its own motion or on written request by any individual or group, review this rule making at its [regular monthly meeting](#) or at a special meeting. The Committee's meetings are open to the public, and interested persons may be heard as provided in Iowa Code section 17A.8(6).

*Effective Date*

This rule making will become effective on December 23, 2020.

The following rule-making action is adopted:

Amend subrule 79.3(3) as follows:

**79.3(3) *Transmittal of forms.*** Real estate transfer-declaration of value forms filed with the county recorder shall be transmitted promptly to the appropriate assessor department. ~~City and county assessors shall transmit to the department of revenue within 60 days of the end of each calendar quarter all real estate transfer declaration of value forms received from the county recorder during that calendar quarter. Under no circumstances shall the assessor retain any real estate transfer declaration of value form longer than designated in this subrule. Nothing in this subrule shall be construed to relieve, limit, or prohibit city and county assessors from completing the requirements set forth in Iowa Code sections 421.17(6) "a" and 421.17(6) "b."~~
