  2. Original prescription or updated prescriptions for corrective lenses or contact lenses.
  3. Prior authorization documentation.
- (8) Psychologist services:
  1. Service or office psychotherapy notes or narratives.
  2. Psychological examination report and notes.
- (9) Clinic services:
  1. Service or office notes or narratives.
  2. Procedure, laboratory, or test orders and results.
  3. Nurses' notes.
  4. Prescriptions.
  5. Medication administration records.
- (10) Services provided by rural health clinics or federally qualified health centers:
  1. Service or office notes or narratives.
  2. Form 470-2942, Prenatal Risk Assessment.
  3. Procedure, laboratory, or test orders and results.
  4. Immunization records.
- (11) Services provided by community mental health centers:
  1. Service referral documentation.
  2. Initial evaluation.
  3. Individual treatment plan.
  4. Service or office notes or narratives.

5. Narratives related to the peer review process and peer review activities related to a member's treatment.
6. Written plan for accessing emergency services.
- (12) Screening center services:
  1. Service or office notes or narratives.
  2. Immunization records.
  3. Laboratory reports.
  4. Results of health, vision, or hearing screenings.
- (13) Family planning services:
  1. Service or office notes or narratives.
  2. Procedure, laboratory, or test orders and results.
  3. Nurses' notes.
  4. Immunization records.
  5. Consent forms.
  6. Prescriptions.
  7. Medication administration records.
- (14) Maternal health center services:
  1. Service or office notes or narratives.
  2. Procedure, laboratory, or test orders and results.
  3. Form 470-2942, Prenatal Risk Assessment.
- (15) Birthing center services:
  1. Service or office notes or narratives.
  2. Form 470-2942, Prenatal Risk Assessment.
- (16) Ambulatory surgical center services:
  1. Service notes or narratives (history and physical, consultation, operative report, discharge summary).
  2. Physician orders.
  3. Consent forms.
  4. Anesthesia records.
  5. Pathology reports.
  6. Laboratory and X-ray reports.
- (17) Hospital services:
  1. Physician orders.
  2. Service notes or narratives (history and physical, consultation, operative report, discharge summary).
  3. Progress or status notes.
  4. Diagnostic procedures, including laboratory and X-ray reports.
  5. Pathology reports.
  6. Anesthesia records.
  7. Medication administration records.
- (18) State mental hospital services:
  1. Service referral documentation.
  2. Resident assessment and initial evaluation.
  3. Individual comprehensive treatment plan.
  4. Service notes or narratives (history and physical, therapy records, discharge summary).
  5. Form 470-0042, Case Activity Report.
  6. Medication administration records.
- (19) Services provided by skilled nursing facilities, nursing facilities, and nursing facilities for persons with mental illness:
  1. Physician orders.
  2. Progress or status notes.
  3. Service notes or narratives.

4. Procedure, laboratory, or test orders and results.
  5. Nurses' notes.
  6. Physical therapy, occupational therapy, and speech therapy notes.
  7. Medication administration records.
  8. Form 470-0042, Case Activity Report.
- (20) Services provided by intermediate care facilities for persons with mental retardation:
1. Physician orders.
  2. Progress or status notes.
  3. Preliminary evaluation.
  4. Comprehensive functional assessment.
  5. Individual program plan.
  6. Form 470-0374, Resident Care Agreement.
  7. Program documentation.
  8. Medication administration records.
  9. Nurses' notes.
  10. Form 470-0042, Case Activity Report.
- (21) Services provided by psychiatric medical institutions for children:
1. Physician orders or court orders.
  2. Independent assessment.
  3. Individual treatment plan.
  4. Service notes or narratives (history and physical, therapy records, discharge summary).
  5. Form 470-0042, Case Activity Report.
  6. Medication administration records.
- (22) Hospice services:
1. Physician certifications for hospice care.
  2. Form 470-2618, Election of Medicaid Hospice Benefit.
  3. Form 470-2619, Revocation of Medicaid Hospice Benefit.
  4. Plan of care.
  5. Physician orders.
  6. Progress or status notes.
  7. Service notes or narratives.
  8. Medication administration records.
  9. Prescriptions.
- (23) Services provided by rehabilitation agencies:
1. Physician orders.
  2. Initial certification, recertifications, and treatment plans.
  3. Narratives from treatment sessions.
  4. Treatment and daily progress or status notes and forms.
- (24) Home- and community-based habilitation services:
1. Notice of decision for service authorization.
  2. Service plan (initial and subsequent).
  3. Service notes or narratives.
- (25) Behavioral health intervention:
1. Order for services.
  2. Comprehensive treatment or service plan (initial and subsequent).
  3. Service notes or narratives.
- (26) Services provided by area education agencies and local education agencies:
1. Service notes or narratives.
  2. Individualized education program (IEP).
  3. Individual health plan (IHP).
  4. Behavioral intervention plan.
- (27) Home health agency services:

1. Plan of care or plan of treatment.
2. Certifications and recertifications.
3. Service notes or narratives.
4. Physician orders or medical orders.
- (28) Services provided by independent laboratories:
  1. Laboratory reports.
  2. Physician order for each laboratory test.
- (29) Ambulance services:
  1. Documentation on the claim or run report supporting medical necessity of the transport.
  2. Documentation supporting mileage billed.
- (30) Services of lead investigation agencies:
  1. Service notes or narratives.
  2. Child's lead level logs (including laboratory results).
  3. Written investigation reports to family, owner of building, child's medical provider, and local childhood lead poisoning prevention program.
  4. Health education notes, including follow-up notes.
- (31) Medical supplies:
  1. Prescriptions.
  2. Certificate of medical necessity.
  3. Prior authorization documentation.
  4. Medical equipment invoice or receipt.
- (32) Orthopedic shoe dealer services:
  1. Service notes or narratives.
  2. Prescriptions.
  3. Certifying physician's statement.
- (33) Case management services, including HCBS case management services:
  1. Form 470-3956, MR/CMI/DD Case Management Service Authorization Request, for services authorized before May 1, 2007.
  2. Notice of decision for service authorization.
  3. Service notes or narratives.
  4. Social history.
  5. Comprehensive service plan.
  6. Reassessment of member needs.
  7. Incident reports in accordance with 441—subrule 24.4(5).
- (34) Early access service coordinator services:
  1. Individualized family service plan (IFSP).
  2. Service notes or narratives.
- (35) Home- and community-based waiver services, other than case management:
  1. Notice of decision for service authorization.
  2. Service plan.
  3. Service logs, notes, or narratives.
  4. Mileage and transportation logs.
  5. Log of meal delivery.
  6. Invoices or receipts.
  7. Forms 470-3372, HCBS Consumer-Directed Attendant Care Agreement, and 470-4389, Consumer-Directed Attendant Care (CDAC) Service Record.
- (36) Physical therapist services:
  1. Physician order for physical therapy.
  2. Initial physical therapy certification, recertifications, and treatment plans.
  3. Treatment notes and forms.
  4. Progress or status notes.
- (37) Chiropractor services:

1. Service or office notes or narratives.
2. X-ray results.
- (38) Hearing aid dealer and audiologist services:
  1. Physician examinations and audiological testing (Form 470-0361, Sections A, B, and C).
  2. Documentation of hearing aid evaluation and selection (Form 470-0828).
  3. Waiver of informed consent.
  4. Prior authorization documentation.
  5. Service or office notes or narratives.
- (39) Behavioral health services:
  1. Assessment.
  2. Individual treatment plan.
  3. Service or office notes or narratives.
- (40) Health home services:
  1. Comprehensive care management plan.
  2. Care coordination and health promotion plan.
  3. Comprehensive transitional care plan, including appropriate follow-up, from inpatient to other settings.
  4. Documentation of member and family support (including authorized representatives).
  5. Documentation of referral to community and social support services, if relevant.
- (41) Services of public health agencies:
  1. Service or office notes or narratives.
  2. Immunization records.
  3. Results of communicable disease testing.
- (42) Community-based neurobehavioral rehabilitation residential services and community-based neurobehavioral rehabilitation intermittent services:
  1. Department-approved standardized neurobehavioral assessment tool.
  2. Community-based neurobehavioral treatment order.
  3. Treatment plan.
  4. Clinical records documenting diagnosis and treatment history.
  5. Progress or status notes.
  6. Service notes or narratives.
  7. Procedure, laboratory, or test orders and results.
  8. Therapy notes including but not limited to occupational therapy, physical therapy, and speech-language pathology services as applicable.
  9. Medication administration records.
- (43) Child care medical services:
  1. Plan of care.
  2. Certification and recertification.
  3. Service notes or narratives.
  4. Physician orders or medical orders.
  5. Abbreviation list (a copy of the abbreviation list utilized within the member's record).
  6. If initials or incomplete signatures are noted within the member's record, a signature log (a typed listing of each provider's name, including initials, professional credentials and title, followed by the individual provider's signature).
    - e. Corrections.* A provider may correct the medical record before submitting a claim for reimbursement.
      - (1) Corrections must be made or authorized by the person who provided the service or by a person who has first-hand knowledge of the service.
      - (2) A correction to a medical record must not be written over or otherwise obliterate the original entry. A single line may be drawn through erroneous information, keeping the original entry legible. In the case of electronic records, the original information must be retained and retrievable.

(3) Any correction must indicate the person making the change and any other person authorizing the change, must be dated and signed by the person making the change, and must be clearly connected with the original entry in the record.

(4) If a correction made after a claim has been submitted affects the accuracy or validity of the claim, an amended claim must be submitted.

**79.3(3) Maintenance requirement.** The provider shall maintain records as required by this rule:

- a. During the time the member is receiving services from the provider.
- b. For a minimum of five years from the date when a claim for the service was submitted to the medical assistance program for payment.
- c. As may be required by any licensing authority or accrediting body associated with determining the provider's qualifications.

**79.3(4) Availability.** Rescinded IAB 1/30/08, effective 4/1/08.

This rule is intended to implement Iowa Code section 249A.4.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 8262B, IAB 11/4/09, effective 12/9/09; ARC 9440B, IAB 4/6/11, effective 4/1/11; ARC 9487B, IAB 5/4/11, effective 7/1/11; ARC 0198C, IAB 7/11/12, effective 7/1/12; ARC 0358C, IAB 10/3/12, effective 11/7/12; ARC 0711C, IAB 5/1/13, effective 7/1/13; ARC 1695C, IAB 10/29/14, effective 1/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16; ARC 2341C, IAB 1/6/16, effective 2/10/16]

#### **441—79.4(249A) Reviews and audits.**

##### **79.4(1) Definitions.**

“*Authorized representative*,” within the context of this rule, means the person appointed to carry out audit or review procedures, including assigned auditors, reviewers or agents contracted for specific audits, reviews, or audit or review procedures.

“*Claim*” means each record received by the department or the Iowa Medicaid enterprise that states the amount of requested payment and the service rendered by a specific and particular Medicaid provider to an eligible member.

“*Clinical record*” means a legible electronic or hard-copy history that documents the criteria established for medical records as set forth in rule 441—79.3(249A). A claim form or billing statement does not constitute a clinical record.

“*Confidence level*” means the statistical reliability of the sampling parameters used to estimate the proportion of payment errors (overpayment and underpayment) in the universe under review.

“*Customary and prevailing fee*” means a fee that is both (1) the most consistent charge by a Medicaid provider for a given service and (2) within the range of usual charges for a given service billed by most providers with similar training and experience in the state of Iowa.

“*Extrapolation*” means that the total amount of overpayment or underpayment will be determined by using sample data meeting the confidence level requirement.

“*Fiscal record*” means a legible electronic or hard-copy history that documents the criteria established for fiscal records as set forth in rule 441—79.3(249A). A claim form or billing statement does not constitute a fiscal record.

“*Overpayment*” means any payment or portion of a payment made to a provider that is incorrect according to the laws and rules applicable to the Medicaid program and that results in a payment greater than that to which the provider is entitled.

“*Procedure code*” means the identifier that describes medical or remedial services performed or the supplies, drugs, or equipment provided.

“*Random sample*” means a statistically valid random sample for which the probability of selection for every item in the universe is known.

“*Underpayment*” means any payment or portion of a payment not made to a provider for services delivered to eligible members according to the laws and rules applicable to the Medicaid program and to which the provider is entitled.

“*Universe*” means all items or claims under review or audit during the period specified by the audit or review.

**79.4(2) Audit or review of clinical and fiscal records by the department.** Any Medicaid provider may be audited or reviewed at any time at the discretion of the department.

*a.* Authorized representatives of the department shall have the right, upon proper identification, to audit or review the clinical and fiscal records to determine whether:

- (1) The department has correctly paid claims for goods or services.
- (2) The provider has furnished the services to Medicaid members.
- (3) The provider has retained clinical and fiscal records that substantiate claims submitted for payment.
- (4) The goods or services provided were in accordance with Iowa Medicaid policy.

*b.* Requests for provider records by the Iowa Medicaid enterprise program integrity unit shall include Form 470-4479, Documentation Checklist, which is available at [www.ime.state.ia.us/Providers/Forms.html](http://www.ime.state.ia.us/Providers/Forms.html), listing the specific records that must be provided for the audit or review pursuant to paragraph 79.3(2)“*d*” to document the basis for services or activities provided.

*c.* Records generated and maintained by the department may be used by auditors or reviewers and in all proceedings of the department.

**79.4(3) *Audit or review procedures.*** The department will select the method of conducting an audit or review and will protect the confidential nature of the records being audited or reviewed. The provider may be required to furnish records to the department. Unless the department specifies otherwise, the provider may select the method of delivering any requested records to the department.

*a.* Upon a written request for records, the provider must submit all responsive records to the department or its authorized agent within 30 calendar days of the mailing date of the request, except as provided in paragraph “*b.*”

*b.* Extension of time limit for submission.

(1) The department may grant an extension to the required submission date of up to 15 calendar days upon written request from the provider or the provider’s designee. The request must:

1. Establish good cause for the delay in submitting the records; and
2. Be received by the department before the date the records are due to be submitted.

(2) For purposes of these rules, “good cause” has the same meaning as in Iowa Rule of Civil Procedure 1.977.

(3) The department may grant a request for an extension of the time limit for submitting records at its discretion. The department shall issue a written notice of its decision.

(4) The provider may appeal the department’s denial of a request to extend the time limit for submission of requested records according to the procedures in 441—Chapter 7.

*c.* The department may elect to conduct announced or unannounced on-site reviews or audits. Records must be provided upon request and before the end of the on-site review or audit.

(1) For an announced on-site review or audit, the department’s employee or authorized agent may give as little as one day’s advance notice of the review or audit and the records and supporting documentation to be reviewed.

(2) Notice is not required for unannounced on-site reviews and audits.

(3) In an on-site review or audit, the conclusion of that review or audit shall be considered the end of the period within which to produce records.

*d.* Audit or review procedures may include, but are not limited to, the following:

- (1) Comparing clinical and fiscal records with each claim.
- (2) Interviewing members who received goods or services and employees of providers.
- (3) Examining third-party payment records.
- (4) Comparing Medicaid charges with private-patient charges to determine that the charge to Medicaid is not more than the customary and prevailing fee.
- (5) Examining all documents related to the services for which Medicaid was billed.

*e.* Use of statistical sampling techniques. The department’s procedures for auditing or reviewing Medicaid providers may include the use of random sampling and extrapolation.

(1) A statistically valid random sample will be selected from the universe of records to be audited or reviewed. The sample size shall be selected using accepted sample size estimation methods. The confidence level of the sample size calculation shall not be less than 95 percent.

(2) Following the sample audit or review, the statistical margin of error of the sample will be computed, and a confidence interval will be determined. The estimated error rate will be extrapolated to the universe from which the sample was drawn within the computed margin of error of the sampling process.

(3) Commonly accepted statistical analysis programs may be used to estimate the sample size and calculate the confidence interval, consistent with the sampling parameters.

(4) The audit or review findings generated through statistical sampling procedures shall constitute prima facie evidence in all department proceedings regarding the number and amount of overpayments or underpayments received by the provider.

*f.* Self-audit. The department may require a provider to conduct a self-audit and report the results of the self-audit to the department.

**79.4(4) Preliminary report of audit or review findings.** If the department concludes from an audit or review that an overpayment has occurred, the department will issue a preliminary finding of a tentative overpayment and inform the provider of the opportunity to request a reevaluation.

**79.4(5) Disagreement with audit or review findings.** If a provider disagrees with the preliminary finding of a tentative overpayment, the provider may request a reevaluation by the department and may present clarifying information and supplemental documentation.

*a.* *Reevaluation request.* A request for reevaluation must be submitted in writing within 15 calendar days of the date of the notice of the preliminary finding of a tentative overpayment. The request must specify the issues of disagreement.

(1) If the audit or review is being performed by the Iowa Medicaid enterprise surveillance and utilization review services unit, the request should be addressed to: IME SURS Unit, P.O. Box 36390, Des Moines, Iowa 50315.

(2) If the audit or review is being performed by any other departmental entity, the request should be addressed to: Iowa Department of Human Services, Attention: Fiscal Management Division, Hoover State Office Building, 1305 E. Walnut Street, Des Moines, Iowa 50319-0114.

*b.* *Additional information.* A provider that has made a reevaluation request pursuant to paragraph “a” of this subrule may submit clarifying information or supplemental documentation that was not previously provided. This information must be received at the applicable address within 30 calendar days of the mailing of the preliminary finding of a tentative overpayment to the provider, except as provided in paragraph “c” of this subrule.

*c.* *Disagreement with sampling results.* When the department’s audit or review findings have been generated through sampling and extrapolation and the provider disagrees with the findings, the burden of proof of compliance rests with the provider. The provider may present evidence to show that the sample was invalid. The evidence may include a 100 percent audit or review of the universe of provider records used by the department in the drawing of the department’s sample. Any such audit or review must:

(1) Be arranged and paid for by the provider.

(2) Be conducted by an individual or organization with expertise in coding, medical services, and Iowa Medicaid policy if the issues relate to clinical records.

(3) Be conducted by a certified public accountant if the issues relate to fiscal records.

(4) Demonstrate that bills and records that were not audited or reviewed in the department’s sample are in compliance with program regulations.

(5) Be submitted to the department with all supporting documentation within 60 calendar days of the mailing of the preliminary finding of a tentative overpayment to the provider.

**79.4(6) Finding and order for repayment.** Upon completion of a requested reevaluation or upon expiration of the time to request reevaluation, the department shall issue a finding and order for repayment of any overpayment and may immediately begin withholding payments on other claims to recover any overpayment.

**79.4(7) Appeal by provider of care.** A provider may appeal the finding and order of repayment and withholding of payments pursuant to 441—Chapter 7. However, an appeal shall not stay the withholding of payments or other action to collect the overpayment. Records not provided to the department during the review process set forth in subrule 79.4(3) or 79.4(5) shall not be admissible

in any subsequent contested case proceeding arising out of a finding and order for repayment of any overpayment identified under subrule 79.4(6). This provision does not preclude providers that have provided records to the department during the review process set forth in subrule 79.4(3) or 79.4(5) from presenting clarifying information or supplemental documentation in the appeals process in order to defend against any overpayment identified under subrule 79.4(6). This provision is intended to minimize potential duplication of effort and delay in the audit or review process, minimize unnecessary appeals, and otherwise forestall fraud, waste, and abuse in the Iowa Medicaid program.

This rule is intended to implement Iowa Code section 249A.4.  
[ARC 0712C, IAB 5/1/13, effective 7/1/13; ARC 1155C, IAB 10/30/13, effective 1/1/14]

**441—79.5(249A) Nondiscrimination on the basis of handicap.** All providers of service shall comply with Section 504 of the Rehabilitation Act of 1973 and Federal regulations 45 CFR Part 84, as amended to December 19, 1990, which prohibit discrimination on the basis of handicap in all Department of Health and Human Services funded programs.

This rule is intended to implement Iowa Code subsection 249A.4(6).

**441—79.6(249A) Provider participation agreement.** Providers of medical and health care wishing to participate in the program shall execute an agreement with the department on Form 470-2965, Agreement Between Provider of Medical and Health Services and the Iowa Department of Human Services Regarding Participation in Medical Assistance Program.

EXCEPTION: Dental providers are required to complete Form 470-3174, Addendum to Dental Provider Agreement for Orthodontia, to receive reimbursement under the early and periodic screening, diagnosis, and treatment program.

In these agreements, the provider agrees to the following:

**79.6(1)** To maintain clinical and fiscal records as specified in rule 441—79.3(249A).

**79.6(2)** That the charges as determined in accordance with the department's policy shall be the full and complete charge for the services provided and no additional payment shall be claimed from the recipient or any other person for services provided under the program.

**79.6(3)** That it is understood that payment in satisfaction of the claim will be from federal and state funds and any false claims, statements, or documents, or concealment of a material fact may be prosecuted under applicable federal and state laws.

This rule is intended to implement Iowa Code section 249A.4.

**441—79.7(249A) Medical assistance advisory council.**

**79.7(1) Officers.** Officers shall be a chairperson and a vice-chairperson.

*a.* The director of public health shall serve as chairperson of the council. Elections for vice-chairperson will be held the first meeting after the beginning of the calendar year.

*b.* The vice-chairperson's term of office shall be two years. A vice-chairperson shall serve no more than two terms.

*c.* The vice-chairperson shall serve in the absence of the chairperson.

*d.* The chairperson and vice-chairperson shall have the right to vote on any issue before the council.

*e.* The chairperson shall appoint a committee of not less than three members to nominate vice-chairpersons and shall appoint other committees approved by the council.

**79.7(2) Membership.** The membership of the council and its executive committee shall be as prescribed at Iowa Code section 249A.4B, subsections 2 and 3.

**79.7(3) Expenses, staff support, and technical assistance.** Expenses of the council and executive committee, such as those for clerical services, mailing, telephone, and meeting place, shall be the responsibility of the department of human services. The department shall arrange for a meeting place, related services, and accommodations. The department shall provide staff support and independent technical assistance to the council and the executive committee.

**79.7(4) Meetings.** The council shall meet no more than quarterly. The executive committee shall meet on a monthly basis. Meetings may be called by the chairperson, upon written request of at least 50 percent of the members, or by the director of the department of human services.

- a. Meetings shall be held in the Des Moines, Iowa, area, unless other notification is given.
- b. Written notice of council meetings shall be mailed at least two weeks in advance of the meeting.

Each notice shall include an agenda for the meeting.

**79.7(5) Procedures.**

- a. A quorum shall consist of 50 percent of the voting members.
- b. Where a quorum is present, a position is carried by two-thirds of the council members present.
- c. Minutes of council meetings and other written materials developed by the council shall be distributed by the department to each member and to the executive office of each professional group or business entity represented.
- d. Notice shall be given to a professional group or business entity represented on the council when the representative of that group or entity has been absent from three consecutive meetings.
- e. In cases not covered by these rules, Robert's Rules of Order shall govern.

**79.7(6) Duties.**

a. *Executive committee.* Based upon the deliberations of the medical assistance advisory council and the executive committee, the executive committee shall make recommendations to the director regarding the budget, policy, and administration of the medical assistance program. Such recommendations may include:

- (1) Recommendations on the reimbursement for medical services rendered by providers of services.
- (2) Identification of unmet medical needs and maintenance needs which affect health.
- (3) Recommendations for objectives of the program and for methods of program analysis and evaluation, including utilization review.
- (4) Recommendations for ways in which needed medical supplies and services can be made available most effectively and economically to the program recipients.
- (5) Advice on such administrative and fiscal matters as the director of the department of human services may request.

b. *Council.* The medical assistance advisory council shall:

- (1) Advise the professional groups and business entities represented and act as liaison between them and the department.
- (2) Report at least annually to the professional groups and business entities represented.
- (3) Perform other functions as may be provided by state or federal law or regulation.
- (4) Communicate information considered by the council to the professional groups and business entities represented.

**79.7(7) Responsibilities.**

a. Recommendations of the council shall be advisory and not binding upon the department of human services or the professional groups and business entities represented. The director of the department of human services shall consider the recommendations offered by the council and the executive committee in:

- (1) The director's preparation of medical assistance budget recommendations to the council on human services, pursuant to Iowa Code section 217.3, and
- (2) Implementation of medical assistance program policies.

b. The council may choose subjects for consideration and recommendation. It shall consider all matters referred to it by the department of human services.

c. Any matter referred by a member organization or body shall be considered upon an affirmative vote of the council.

d. The department shall provide the council with reports, data, and proposed and final amendments to rules, laws, and guidelines, for its information, review, and comment.

e. The department shall present the annual budget for the medical assistance program for review and comment.

*f.* The department shall permit staff members to appear before the council to review and discuss specific information and problems.

*g.* The department shall maintain a current list of members on the council and executive committee.

[ARC 8263B, IAB 11/4/09, effective 12/9/09]

**441—79.8(249A) Requests for prior authorization.** This rule governs requests for prior authorization for services not provided through a managed care organization. For services provided through a managed care organization, the prior authorization request is submitted, reviewed, and authorized by the managed care organization.

**79.8(1) Making the request.**

*a.* Providers may submit requests for prior authorization for any items or procedures by mail or by facsimile transmission (fax) using Form 470-0829, Request for Prior Authorization, or electronically using the Accredited Standards Committee (ASC) X12N 278 transaction, Health Care Services Request for Review and Response. Requests for prior authorization for drugs must be submitted on any Request for Prior Authorization form designated for the drug being requested in the preferred drug list published pursuant to Iowa Code chapter 249A.

*b.* Providers shall send requests for prior authorization to the Iowa Medicaid enterprise. The request should address the relevant criteria applicable to the particular service, medication or equipment for which prior authorization is sought, according to rule 441—78.28(249A). Copies of history and examination results may be attached to rather than incorporated in the letter.

*c.* If a request for prior authorization submitted electronically requires attachments or supporting clinical documentation and a national electronic attachment has not been adopted, the provider shall:

(1) Use Form 470-3970, Prior Authorization Attachment Control, as the cover sheet for the paper attachments or supporting clinical documentation; and

(2) Reference on Form 470-3970 the attachment control number submitted on the ASC X12N 278 electronic transaction.

**79.8(2)** The policy applies to services or items specifically designated as requiring prior authorization.

**79.8(3)** The provider shall receive a notice of approval or denial for all requests.

*a.* In the case of prescription drugs, notices of approval or denial will be faxed to the prescriber and pharmacy.

*b.* Decisions regarding approval or denial will be made within 24 hours from the receipt of the prior authorization request. In cases where the request is received during nonworking hours, the time limit will be construed to start with the first hour of the normal working day following the receipt of the request.

**79.8(4)** Prior authorizations approved because a decision is not timely made shall not be considered a precedent for future similar requests.

**79.8(5)** Approved prior authorization applies to covered services and does not apply to the recipient's eligibility for medical assistance.

**79.8(6)** If a provider is unsure if an item or service is covered because it is rare or unusual, the provider may submit a request for prior approval in the same manner as other requests for prior approval in 79.8(1).

**79.8(7)** Requests for prior approval of services shall be reviewed according to rule 441—79.9(249A) and the conditions for payment as established by rule in 441—Chapter 78.

*a.* Where ambiguity exists as to whether a particular item or service is covered, requests for prior approval shall be reviewed according to the following criteria in order of priority:

(1) The conditions for payment outlined in the provider manual with reference to coverage and duration.

(2) The determination made by the Medicare program unless specifically stated differently in state law or rule.

(3) The recommendation to the department from the appropriate advisory committee.

(4) Whether there are other less expensive procedures which are covered and which would be as effective.

(5) The advice of an appropriate professional consultant.

*b.* When the Iowa Medicaid enterprise has not reached a decision on a request for prior authorization after 60 days from the date of receipt, the request will be approved.

**79.8(8)** The amount, duration and scope of the Medicaid program is outlined in 441—Chapters 78, 79, 81, 82 and 85. Additional clarification of the policies is available in the provider manual distributed and updated to all participating providers.

**79.8(9)** The Iowa Medicaid enterprise shall issue a notice of decision to the recipient upon a denial of request for prior approval pursuant to 441—Chapter 7. The Iowa Medicaid enterprise shall mail the notice of decision to the recipient within five working days of the date the prior approval form is returned to the provider.

**79.8(10)** If a request for prior approval is denied by the Iowa Medicaid enterprise, the request may be resubmitted for reconsideration with additional information justifying the request. The aggrieved party may file an appeal in accordance with 441—Chapter 7.

This rule is intended to implement Iowa Code section 249A.4.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

#### **441—79.9(249A) General provisions for Medicaid coverage applicable to all Medicaid providers and services.**

**79.9(1)** Medicare definitions and policies shall apply to services provided unless specifically defined differently.

**79.9(2)** The services covered by Medicaid shall:

- a.* Be consistent with the diagnosis and treatment of the patient's condition.
- b.* Be in accordance with standards of good medical practice.
- c.* Be required to meet the medical need of the patient and be for reasons other than the convenience of the patient or the patient's practitioner or caregiver.
- d.* Be the least costly type of service which would reasonably meet the medical need of the patient.
- e.* Be eligible for federal financial participation unless specifically covered by state law or rule.
- f.* Be within the scope of the licensure of the provider.
- g.* Be provided with the full knowledge and consent of the recipient or someone acting in the recipient's behalf unless otherwise required by law or court order or in emergency situations.
- h.* Be supplied by a provider who is eligible to participate in the Medicaid program. The provider must use the billing procedures and documentation requirements described in 441—Chapters 78 and 80.

**79.9(3)** Providers shall supply all the same services to Medicaid eligibles served by the provider as are offered to other clients of the provider.

**79.9(4)** Recipients must be informed before the service is provided that the recipient will be responsible for the bill if a noncovered service is provided.

**79.9(5)** Coverage in public institutions. Medical services provided to a person while the person is an inmate of a public jail, prison, juvenile detention center, or other public penal institution of more than four beds are not covered by Medicaid.

**79.9(6)** The acceptance of Medicaid funds by means of a prospective or interim rate creates an express trust. The Medicaid funds received constitute the trust res. The trust terminates when the rate is retrospectively adjusted or otherwise finalized and, if applicable, any Medicaid funds determined to be owed are repaid in full to the department.

**79.9(7)** Incorrect payment.

*a.* Except as provided in paragraph 79.9(7)“*b*,” medical assistance funds are incorrectly paid whenever an individual who provided the service to the member for which the department paid was at the time service was provided the parent of a minor child, spouse, or legal representative of the member.

*b.* Notwithstanding paragraph 79.9(7)“*a*,” medical assistance funds are not incorrectly paid when an individual who serves as a member's legal representative provides services to the member under a home- and community-based services waiver consumer-directed attendant care agreement or under a

consumer choices option employment agreement in effect on or after December 31, 2013. For purposes of this paragraph, “legal representative” means a person, including an attorney, who is authorized by law to act on behalf of the medical assistance program member but does not include the spouse of a member or the parent or stepparent of a member aged 17 or younger.

**79.9(8)** The rules of the medical assistance program shall not be construed to require payment of medical assistance funds, in whole or in part, directly or indirectly, overtly or covertly, for the provision of non-Medicaid services. The rules of the medical assistance program shall be interpreted in such a manner to minimize any risk that medical assistance funds might be used to subsidize services to persons other than members of the medical assistance program.

This rule is intended to implement Iowa Code section 249A.4 and 2014 Iowa Acts, Senate File 2320. [ARC 1155C, IAB 10/30/13, effective 1/1/14; ARC 1610C, IAB 9/3/14, effective 8/13/14]

**441—79.10(249A) Requests for preadmission review.** The inpatient hospitalization of Medicaid recipients is subject to preadmission review by the Iowa Medicaid enterprise (IME) medical services unit as required in rule 441—78.3(249A).

**79.10(1)** The patient’s admitting physician, the physician’s designee, or the hospital will contact the IME medical services unit to request approval of Medicaid coverage for the hospitalization, according to instructions issued to providers by the IME medical services unit and instructions in the Medicaid provider manual.

**79.10(2)** Medicaid payment will not be made to the hospital if the IME medical services unit denies the procedure requested in the preadmission review.

**79.10(3)** The IME medical services unit shall issue a letter of denial to the patient, the physician, and the hospital when a request is denied. The patient, the physician, or the hospital may request a reconsideration of the decision by filing a written request with the IME medical services unit within 60 days of the date of the denial letter.

**79.10(4)** The aggrieved party may appeal a denial of a request for reconsideration by the IME medical services unit according to 441—Chapter 7.

**79.10(5)** The requirement to obtain preadmission review is waived when the patient is enrolled in the managed health care option known as patient management and proper authorization for the admission has been obtained from the patient manager as described in 441—Chapter 73.

This rule is intended to implement Iowa Code section 249A.4. [ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—79.11(249A) Requests for preprocedure surgical review.** The Iowa Medicaid enterprise (IME) medical services unit conducts a preprocedure review of certain frequently performed surgical procedures to determine the necessity of the procedures and if Medicaid payment will be approved according to requirements found in 441—subrules 78.1(19), 78.3(18), and 78.26(3).

**79.11(1)** The physician must request approval from the IME medical services unit when the physician expects to perform a surgical procedure appearing on the department’s preprocedure surgical review list published in the Medicaid provider manual. All requests for preprocedure surgical review shall be made according to instructions issued to physicians, hospitals and ambulatory surgical centers appearing in the Medicaid provider manual and instructions issued to providers by the IME medical services unit.

**79.11(2)** The IME medical services unit shall issue the physician a validation number for each request and shall advise whether payment for the procedure will be approved or denied.

**79.11(3)** Medicaid payment will not be made to the physician and other medical personnel or the facility in which the procedure is performed, i.e., hospital or ambulatory surgical center, if the IME medical services unit does not give approval.

**79.11(4)** The IME medical services unit shall issue a denial letter to the patient, the physician, and the facility when the requested procedure is not approved. The patient, the physician, or the facility may request a reconsideration of the decision by filing a written request with the IME medical services unit within 60 days of the date of the denial letter.

**79.11(5)** The aggrieved party may appeal a denial of a request for reconsideration by the IME medical services unit in accordance with 441—Chapter 7.

**79.11(6)** The requirement to obtain preprocedure surgical review is waived when the patient is enrolled in the managed health care option known as patient management and proper authorization for the procedure has been obtained from the patient manager as described in 441—Chapter 73.

This rule is intended to implement Iowa Code section 249A.4.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—79.12(249A) Advance directives.** “Advance directive” means a written instruction, such as a living will or durable power of attorney for health care, recognized under state law and related to the provision of health care when the person is incapacitated. All hospitals, home health agencies, home health providers of waiver services, hospice programs, and health maintenance organizations (HMOs) participating in Medicaid shall establish policies and procedures with respect to all adults receiving medical care through the provider or organization to comply with state law regarding advance directives as follows:

**79.12(1)** A hospital at the time of a person’s admission as an inpatient, a home health care provider in advance of a person’s coming under the care of the provider, a hospice provider at the time of initial receipt of hospice care by a person, and a health maintenance organization at the time of enrollment of the person with the organization shall provide written information to each adult which explains the person’s rights under state law to make decisions concerning medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate advance directives, and the provider’s policies regarding the implementation of these rights.

**79.12(2)** The provider or organization shall document in the person’s medical record whether or not the person has executed an advance directive.

**79.12(3)** The provider or organization shall not condition the provision of care or otherwise discriminate against a person based on whether or not the person has executed an advance directive.

**79.12(4)** The provider or organization shall ensure compliance with requirements of state law regarding advance directives.

**79.12(5)** The provider or organization shall provide for education for staff and the community on issues concerning advance directives.

Nothing in this rule shall be construed to prohibit the application of a state law which allows for an objection on the basis of conscience for any provider or organization which as a matter of conscience cannot implement an advance directive.

This rule is intended to implement Iowa Code section 249A.4.

**441—79.13(249A) Requirements for enrolled Medicaid providers supplying laboratory services.** Medicaid enrolled entities providing laboratory services are subject to the provisions of the Clinical Laboratory Improvement Amendments of 1988 (CLIA), Public Law 100-578, and implementing federal regulations published at 42 CFR Part 493 as amended to December 29, 2000. Medicaid payment shall not be afforded for services provided by an enrolled Medicaid provider supplying laboratory services that fails to meet these requirements. For the purposes of this rule, laboratory services are defined as services to examine human specimens for the diagnosis, prevention or treatment of any disease or impairment of, or assessment of, the health of human beings.

This rule is intended to implement Iowa Code section 249A.4.

**441—79.14(249A) Provider enrollment.**

**79.14(1)** Application request. Iowa Medicaid providers, including those enrolled with a managed care organization, shall begin the enrollment process by completing the appropriate application on the Iowa Medicaid enterprise Web site. Managed care organizations and fiscal agents are exempt from completing an application.

*a.* Providers of home- and community-based waiver services shall submit Form 470-2917, Medicaid HCBS Provider Application, at least 90 days before the planned service implementation date.

*b.* Providers enrolling as ordering or referring providers shall submit Form 470-5111, Iowa Medicaid Ordering/Referring Provider Enrollment Application.

*c.* All other providers shall submit Form 470-0254, Iowa Medicaid Provider Enrollment Application.

*d.* A nursing facility shall also complete the process set forth in 441—subrule 81.13(1).

*e.* An intermediate care facility for persons with an intellectual disability shall also complete the process set forth in 441—subrule 82.3(1).

**79.14(2)** Submittal of application. The provider shall submit the appropriate application forms, including the application fee, if required, to the Iowa Medicaid enterprise provider services unit by personal delivery, by e-mail, via online enrollment systems, or by mail to P.O. Box 36450, Des Moines, Iowa 50315.

*a.* The application shall include the provider's national provider identifier number or shall indicate that the provider is an atypical provider that is not issued a national provider identifier number.

*b.* With the application form, an assertive community treatment program shall submit Form 470-4842, Assertive Community Services (ACT) Provider Agreement Addendum, and agree to file with the department an annual report containing information to be used for rate setting, including:

(1) Data by practitioner on the utilization by Medicaid members of all the services included in assertive community treatment, and

(2) Cost information by practitioner type and by type of service actually delivered as part of assertive community treatment.

*c.* With the application form, or as a supplement to a previously submitted application, providers of health home services shall submit Form 470-5100, Health Home Provider Agreement.

*d.* Application fees.

(1) Providers who are enrolling or reenrolling in the Iowa Medicaid program shall submit an application fee with their application unless they are exempt as set forth in this paragraph.

(2) Fee amount. The application fee shall be in the amount prescribed by the Secretary of the U.S. Department of Health and Human Services (the Secretary) for the calendar year in which the application is submitted and in accordance with 42 U.S.C. 1395cc(j)(2)(C).

(3) Nonrefundable. The application fee is nonrefundable, except if submitted with one of the following:

1. A hardship exception request that is subsequently approved by the Secretary.

2. An application that is subsequently denied as a result of a temporary moratorium under 2013 Iowa Acts, Senate File 357, section 12.

3. An application or other transaction in which the application fee is not required.

(4) The process for enrolling or reenrolling a provider will not begin until the application fee has been received by the department or a hardship exception request has been approved by the Secretary.

(5) Exempt providers. The following providers shall not be required to submit an application fee:

1. Individual physicians or nonphysician practitioners.

2. Providers that are enrolled in Medicare, another state's Medicaid program or another state's children's health insurance program.

3. Providers that have paid the applicable application fee within 12 months of the date of application submission to a Medicare contractor or another state.

(6) All application fees collected shall be used for the costs associated with the screening procedures as described in subrule 79.14(4). Any unused portion of the application fees collected shall be returned to the federal government in accordance with 42 CFR § 455.460.

**79.14(3)** Program integrity information requirements.

*a.* All providers, including but not limited to managed care organizations and Medicaid fiscal agents, applying for participation in the Iowa Medicaid program must disclose all information required to be submitted pursuant to 42 CFR Part 455. In addition, all providers shall disclose any current, or previous, direct or indirect affiliation with a present or former Iowa Medicaid provider that:

(1) Has any uncollected debt owed to Medicaid or any other health care program funded by any governmental entity, including but not limited to the federal and state of Iowa governments;

- (2) Has been or is subject to a payment suspension under a federally funded health care program;
- (3) Has been excluded from participation under Medicaid, Medicare, or any other federally funded health care program;
- (4) Has had its billing privileges denied or revoked;
- (5) Has been administratively dissolved by the Iowa secretary of state, or similar action has been taken by a comparable agency in another state; or
- (6) Shares a national provider identification (NPI) number or tax ID number with another provider that meets the criteria specified in subparagraph 79.14(3)“a”(1), (2), (3), (4), or (5).

*b.* The Iowa Medicaid enterprise may deny enrollment to a provider applicant or disenroll a current provider that has any affiliation as set forth in this rule if the department determines that the affiliation poses a risk of fraud, waste, or abuse. Such denial or disenrollment is appealable under 441—Chapter 7 but, notwithstanding any provision to the contrary in that chapter, the provider shall bear the burden to prove by clear and convincing evidence that the affiliation does not pose any risk of fraud, waste, or abuse. The Iowa Medicaid enterprise shall deny enrollment to or shall immediately disenroll any person that the Iowa Medicaid enterprise, Medicare, or any other state Medicaid program has ever terminated under rule 441—79.2(249A) or a similar provision and shall deny enrollment to any person presently suspended from participation, or who would be subject to a suspension, under paragraph 79.2(3)“c.” Further, a person sanctioned under rule 441—79.2(249A) or a similar provision may not manage consumer choices option (CCO) funds for a member.

*c.* For purposes of this rule, the term “direct or indirect affiliation” includes but is not limited to relationships between individuals, business entities, or a combination of the two. The term includes but is not limited to direct or indirect business relationships that involve:

- (1) A compensation arrangement;
- (2) An ownership arrangement;
- (3) Managerial authority over any member of the affiliation;
- (4) The ability of one member of the affiliation to control or influence any other; or
- (5) The ability of a third party to control or influence any member of the affiliation.

*d.* Notwithstanding any previous successful enrollment in the medical assistance program, the passing of any background check by the department or any other entity, or similar prior approval for participation as a provider in the medical assistance program, in whole or in part, disenrollment from the medical assistance program is mandatory when, in the case of a corporation or similar entity, 5 percent or more of the corporation or similar entity is owned, controlled, or directed by a person who (1) has within the last five years been listed on any dependent adult abuse registry, child abuse registry, or sex offender registry; (2) has pled guilty or nolo contendere to, or was convicted of, any crime punishable by a term of imprisonment greater than five years; (3) has, within the last five years, pled guilty or nolo contendere to, or was convicted of, any controlled substance offense; (4) has, within the last ten years, pled guilty or nolo contendere to, or was convicted of, any crime involving an allegation of dishonesty punishable by a term of imprisonment greater than one year but not more than five years; or (5) within the last ten years, has on more than one occasion pled guilty or nolo contendere to, or was convicted of, any crime involving an allegation of dishonesty.

**79.14(4)** Screening procedures and requirements. Providers applying for participation in the Iowa Medicaid program shall be subject to the “limited,” “moderate,” or “high” categorical risk screening procedures and requirements in accordance with 42 CFR §455.450.

*a.* For the types of providers that are recognized as a provider under the Medicare program, the Iowa Medicaid enterprise shall use the same categorical risk screening procedures and requirements assigned to that provider type by Medicare pursuant to 42 CFR §424.518.

*b.* Provider types not assigned a screening level by the Medicare program shall be subject to the procedures of the “limited” risk screening level pursuant to 42 CFR §455.450.

*c.* Adjustment of risk level. The Iowa Medicaid enterprise shall adjust the categorical risk screening procedures and requirements from “limited” or “moderate” to “high” when any of the following occurs:

(1) The Iowa Medicaid enterprise imposes a payment suspension on a provider based on a credible allegation of fraud, waste, or abuse; the provider has an existing Medicaid overpayment; or within the previous ten years, the provider has been excluded by the Office of the Inspector General or another state's Medicaid program; or

(2) The Iowa Medicaid enterprise or the Centers for Medicare and Medicaid Services in the previous six months lifted a temporary moratorium for the particular provider type, and a provider that was prevented from enrolling based on the moratorium applies for enrollment as a provider at any time within six months from the date the moratorium was lifted.

**79.14(5) Notification.** A provider shall be notified of the decision on the provider's application within 30 calendar days of receipt by the Iowa Medicaid enterprise provider services unit of a complete and correct application with all required documents, including, but not limited to, if applicable, any application fees or screening results.

**79.14(6)** A provider that is not approved as the Medicaid provider type requested shall have the right to appeal under 441—Chapter 7.

**79.14(7) Effective date of approval.** An application shall be approved retroactive to the date requested by the provider or the date the provider meets the applicable participation criteria, whichever is later, not to exceed 12 months retroactive from the receipt of the application with all required documents by the Iowa Medicaid enterprise provider services unit.

**79.14(8)** A provider approved for certification as a Medicaid provider shall complete a provider participation agreement as required by rule 441—79.6(249A).

**79.14(9)** No payment shall be made to a provider for care or services provided prior to the effective date of the Iowa Medicaid enterprise's approval of an application.

**79.14(10)** Payment rates dependent on the nature of the provider or the nature of the care or services provided shall be based on information on the application, together with information on claim forms, or on rates paid the provider prior to April 1, 1993.

**79.14(11)** An amendment to an application shall be submitted to the Iowa Medicaid enterprise provider services unit and shall be approved or denied within 30 calendar days. Approval of an amendment shall be retroactive to the date requested by the provider or the date the provider meets all applicable criteria, whichever is later, not to exceed 30 days prior to the receipt of the amendment by the Iowa Medicaid enterprise provider services unit. Denial of an amendment may be appealed under 441—Chapter 7.

**79.14(12)** A provider that has not submitted a claim in the last 24 months will be sent a notice asking if the provider wishes to continue participation. A provider that fails to reply to the notice within 30 calendar days of the date on the notice will be terminated as a provider. Providers that do not submit any claims in 48 months will be terminated as providers without further notification.

**79.14(13) Report of changes.** The provider shall inform the Iowa Medicaid enterprise of all pertinent changes to enrollment information within 35 days of the change. Pertinent changes include, but are not limited to, changes to the business entity name, individual provider name, tax identification number, mailing address, telephone number, or any information required to be disclosed by subrule 79.14(3).

*a.* When a provider reports false, incomplete, or misleading information on any application or reapplication, or fails to provide current information within the 35-day period, the Iowa Medicaid enterprise may immediately terminate the provider's Medicaid enrollment. The termination may be appealed under 441—Chapter 7. Such termination remains in effect notwithstanding any pending appeal.

*b.* When the department incurs an informational tax-reporting fine or is required to repay the federal share of medical assistance paid to the provider because a provider submitted inaccurate information or failed to submit changes to the Iowa Medicaid enterprise in a timely manner, the fine or repayment shall be the responsibility of the individual provider to the extent that the fine or repayment relates to or arises out of the provider's failure to keep all provider information current.

(1) The provider shall remit the amount of the fine or repayment to the department within 30 days of notification by the department that the fine has been imposed.

(2) Payment of the fine or repayment may be appealed under 441—Chapter 7.

**79.14(14)** Provider termination or denial of enrollment. The Iowa Medicaid enterprise must terminate or deny any provider enrollment when the provider has violated any requirements identified in 42 CFR §455.416.

**79.14(15)** Temporary moratoria. The Iowa Medicaid enterprise must impose any temporary moratorium pursuant to 2013 Iowa Acts, Senate File 357, section 12.

**79.14(16)** Provider revalidation. Providers are required to complete the application process and screening requirements as detailed in this rule every five years.

**79.14(17)** Recoupment. A provider is strictly liable for any failure to disclose the information required by subrule 79.14(3) or any failure to report a change required by subrule 79.14(13). The department shall recoup as incorrectly paid all funds paid to the provider before a complete disclosure or report of change was made. The department shall also recoup as incorrectly paid all funds to any provider that billed the Iowa Medicaid enterprise while the provider was administratively dissolved by the Iowa secretary of state or comparable agency of another state, even if the provider subsequently obtains a retroactive reinstatement from the Iowa secretary of state or similar action was taken against the provider by a comparable agency of another state.

This rule is intended to implement Iowa Code section 249A.4.

[ARC 9440B, IAB 4/6/11, effective 4/1/11; ARC 0198C, IAB 7/11/12, effective 7/1/12; ARC 0580C, IAB 2/6/13, effective 4/1/13; ARC 1153C, IAB 10/30/13, effective 1/1/14; ARC 1695C, IAB 10/29/14, effective 1/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—79.15(249A) Education about false claims recovery.** The provisions in this rule apply to any entity that has received medical assistance payments totaling at least \$5 million during a federal fiscal year (ending on September 30). For entities whose payments reach this threshold, compliance with this rule is a condition of receiving payments under the medical assistance program during the following calendar year.

**79.15(1) Policy requirements.** Any entity whose medical assistance payments meet the threshold shall:

*a.* Establish written policies for all employees of the entity and for all employees of any contractor or agent of the entity, including management, which provide detailed information about:

(1) The False Claims Act established under Title 31, United States Code, Sections 3729 through 3733;

(2) Administrative remedies for false claims and statements established under Title 31, United States Code, Chapter 38;

(3) Any state laws pertaining to civil or criminal penalties for false claims and statements;

(4) Whistle blower protections under the laws described in subparagraphs (1) to (3) with respect to the role of these laws in preventing and detecting fraud, waste, and abuse in federal health care programs, as defined in Title 42, United States Code, Section 1320a-7b(f); and

(5) The entity's policies and procedures for detecting and preventing fraud, waste, and abuse.

*b.* Include in any employee handbook a specific discussion of:

(1) The laws described in paragraph 79.15(1) "a";

(2) The rights of employees to be protected as whistle blowers; and

(3) The entity's policies and procedures for detecting and preventing fraud, waste, and abuse.

**79.15(2) Reporting requirements.**

*a.* Any entity whose medical assistance payments meet the specified threshold during a federal fiscal year shall provide the following information to the Iowa Medicaid enterprise by the following December 31:

(1) The name, address, and national provider identification numbers under which the entity receives payment;

(2) Copies of written or electronic policies that meet the requirements of subrule 79.15(1); and

(3) A written description of how the policies are made available and disseminated to all employees of the entity and to all employees of any contractor or agent of the entity.

*b.* The information may be provided by:

(1) Mailing the information to the IME Program Integrity Unit, P.O. Box 36390, Des Moines, Iowa 50315; or

(2) Faxing the information to (515)725-1354.

**79.15(3) Enforcement.** Any entity that fails to comply with the requirements of this rule shall be subject to sanction under rule 441—79.2(249A), including probation, suspension or withholding of payments, and suspension or termination from participation in the medical assistance program.

This rule is intended to implement Iowa Code section 249A.4 and Public Law 109-171, Section 6032.

[ARC 9440B, IAB 4/6/11, effective 4/1/11]

**441—79.16(249A) Electronic health record incentive program.** The department has elected to participate in the electronic health record (EHR) incentive program authorized under Section 4201 of the American Recovery and Reinvestment Act of 2009 (ARRA), Public Law No. 111-5. The electronic health record incentive program provides incentive payments to eligible hospitals and professionals participating in the Iowa Medicaid program that adopt and successfully demonstrate meaningful use of certified electronic health record technology.

**79.16(1) State elections.** In addition to the statutory provisions in ARRA Section 4201, the electronic health record incentive program is governed by federal regulations at 42 CFR Part 495 as amended to September 4, 2012. In compliance with the requirements of federal law, the department establishes the following state options under the Iowa electronic health record incentive program:

*a.* For purposes of the term “hospital-based eligible professional (EP)” as set forth in 42 CFR Section 495.4 as amended to September 4, 2012, the department elects the calendar year preceding the payment year as the period used to gather data to determine whether or not an eligible professional is “hospital-based” for purposes of the regulation.

*b.* For purposes of calculating patient volume as required by 42 CFR Section 495.306 as amended to September 4, 2012, the department has elected that eligible providers may use either:

(1) The patient encounter methodology found in 42 CFR Section 495.306(c) as amended to September 4, 2012, or

(2) The patient panel methodology found in 42 CFR Section 495.306(d) as amended to September 4, 2012.

*c.* For purposes of 42 CFR Section 495.310(g)(1)(i)(B) as amended to September 4, 2012, the “12-month period selected by the state” shall mean the hospital fiscal year.

*d.* For purposes of 42 CFR Section 495.310(g)(2)(i) as amended to September 4, 2012, the “12-month period selected by the state” shall mean the hospital fiscal year.

**79.16(2) Eligible providers.** To be deemed an “eligible provider” for the electronic health record incentive program, a provider must satisfy the applicable criterion in each paragraph of this subrule:

*a.* The provider must be currently enrolled as an Iowa Medicaid provider.

*b.* The provider must be one of the following:

(1) An eligible professional, listed as:

1. A physician,

2. A dentist,

3. A certified nurse midwife,

4. A nurse practitioner, or

5. A physician assistant practicing in a federally qualified health center or a rural health clinic when the physician assistant is the primary provider, clinical or medical director, or owner of the site.

(2) An acute care hospital, as defined in 42 CFR Section 495.302 as amended to September 4, 2012.

(3) A children’s hospital, as defined in 42 CFR Section 495.302 as amended to September 4, 2012.

*c.* For the year for which the provider is applying for an incentive payment:

(1) An acute care hospital must have 10 percent Medicaid patient volume.

(2) An eligible professional must have at least 30 percent of the professional’s patient volume enrolled in Medicaid, except that:

1. A pediatrician must have at least 20 percent Medicaid patient volume. For purposes of this subrule, a “pediatrician” is a physician who is board-certified in pediatrics by the American Board of Pediatrics or the American Osteopathic Board of Pediatrics or who is eligible for board certification.

2. When a professional has at least 50 percent of patient encounters in a federally qualified health center or rural health clinic, patients who were furnished services either at no cost or at a reduced cost based on a sliding scale or ability to pay, patients covered by the HAWK-I program, and Medicaid members may be counted to meet the 30 percent threshold.

**79.16(3) Application and agreement.** Any eligible provider that intends to participate in the Iowa electronic health record incentive program must declare the intent to participate by registering with the CMS Registration and Attestation Web site, as developed by the Centers for Medicare and Medicaid Services (CMS). CMS will notify the department of an eligible provider’s application for the incentive payment.

a. Upon receipt of an application for participation in the program, the department will contact the applicant with instructions for accessing the Iowa EHR Medicaid incentive payment administration Web site at [www.imeincentives.com](http://www.imeincentives.com). The applicant shall use the Web site to:

- (1) Attest to the applicant’s qualifications to receive the incentive payment, and
- (2) Digitally sign Form 470-4976, Iowa Electronic Health Record Incentive Program Provider Agreement.

b. For the second year of participation, eligible providers must submit meaningful use and clinical quality measures to the department, either through attestation or electronically as required by the department.

c. The department shall verify the applicant’s eligibility, including patient volume and practice type, and the applicant’s use of certified electronic health record technology.

**79.16(4) Payment.** The department shall issue the incentive payment only after confirming that all eligibility and performance criteria have been satisfied. Payments will be processed and paid to the tax identification number designated by the applicant. The department will communicate the payment or denial of payment to the CMS Registration and Attestation Web site.

a. The primary communication channel from the department to the provider will be the Iowa EHR Medicaid incentive payment administration Web site. If the department finds that the applicant is ineligible or has failed to achieve the criteria necessary for the payment, the department shall notify the provider through the Web site. Providers shall access the Web site to determine the status of their payment, including whether the department denied payment and the reason for the denial.

b. Providers must retain records supporting their eligibility for the incentive payment for a minimum of six years. The department will select providers for audit after issuance of an incentive payment. Incentive recipients shall cooperate with the department by providing proof of:

- (1) Eligibility,
- (2) Purchase of certified electronic health record technology, and
- (3) Meaningful use of electronic health record technology.

**79.16(5) Administrative appeal.** Any eligible provider or any provider that claims to be an eligible provider and who has been subject to an adverse action related to the Iowa electronic health record incentive program may seek review of the department’s action pursuant to 441—Chapter 7. Appealable issues include:

- a. Provider eligibility determination.
- b. Incentive payments.
- c. Demonstration of adopting, implementing, upgrading and meaningful use of technology.

This rule is intended to implement Iowa Code section 249A.4 and Public Law No. 111-5.

◊ Two or more ARCs

- <sup>1</sup> Effective date of 79.1(2) and 79.1(5)“t” delayed 70 days by the Administrative Rules Review Committee at its January 1988, meeting.
- <sup>2</sup> Effective date of 4/1/90 delayed 70 days by the Administrative Rules Review Committee at its March 12, 1990, meeting; delay lifted by this Committee, effective May 11, 1990.
- <sup>3</sup> Effective date of subrule 79.1(13) delayed until adjournment of the 1992 Sessions of the General Assembly by the Administrative Rules Review Committee at its meeting held July 12, 1991.
- <sup>4</sup> Effective date of 3/1/92 delayed until adjournment of the 1992 General Assembly by the Administrative Rules Review Committee at its meeting held February 3, 1992.
- <sup>5</sup> At a special meeting held January 24, 2002, the Administrative Rules Review Committee voted to delay until adjournment of the 2002 Session of the General Assembly the effective date of amendments published in the February 6, 2002, Iowa Administrative Bulletin as **ARC 1365B**.

- <sup>6</sup> Effective date of October 1, 2002, delayed 70 days by the Administrative Rules Review Committee at its meeting held September 10, 2002. At its meeting held November 19, 2002, the Committee voted to delay the effective date until adjournment of the 2003 Session of the General Assembly.
- <sup>7</sup> July 1, 2009, effective date of amendments to 79.1(1) "d," 79.1(2), and 79.1(24) "a"(1) delayed 70 days by the Administrative Rules Review Committee at a special meeting held June 25, 2009.
- <sup>8</sup> See HJR 2008 of 2012 Session of the Eighty-fourth General Assembly regarding nullification of amendment to 79.1(7) "b" (ARC 9959B, IAB 1/11/12).

CHAPTER 81  
NURSING FACILITIES

[Prior to 7/1/83 Social Services[770] Ch 81]

[Prior to 2/11/87, Human Services[498]]

DIVISION I  
GENERAL POLICIES

**441—81.1(249A) Definitions.**

“*Abuse*” means any of the following which occurs as a result of the willful or negligent acts or omissions of a nursing facility employee:

1. Physical injury to, or injury which is at a variance with the history given of the injury, or unreasonable confinement or unreasonable punishment or assault as defined in Iowa Code section 708.1 of a resident.

2. The commission of a sexual offense under Iowa Code chapter 709 or Iowa Code section 726.2 or 728.12, subsection 1, or sexual exploitation under Iowa Code chapter 235B, as a result of the acts or omissions of the facility employee responsible for the care of the resident with or against a resident.

3. Exploitation of a resident which means the act or process of taking unfair advantage of a resident or the resident’s physical or financial resources for one’s own personal or pecuniary profit without the informed consent of the resident, including theft, by the use of undue influence, harassment, duress, deception, false representation or false pretenses.

4. The deprivation of the minimum food, shelter, clothing, supervision, physical or mental health care, or other care necessary to maintain a resident’s life or health.

“*Advance directive*” means a written instruction, such as a living will or durable power of attorney for health care, recognized under state law and related to the provision of health care when the resident is incapacitated.

“*Allowable costs*” means the price a prudent, cost-conscious buyer would pay a willing seller for goods or services in an arm’s-length transaction, not to exceed the limitations set out in rules.

“*Beginning eligibility date*” means date of an individual’s admission to the facility or date of eligibility for medical assistance, whichever is the later date.

“*Case mix*” means a measure of the intensity of care and services used by similar residents in a facility.

“*Case-mix index*” means a numeric score within a specific range that identifies the relative resources used by similar residents and represents the average resource consumption across a population or sample.

“*Civil penalty*” shall mean a civil money penalty not to exceed the amount authorized under Iowa Code section 135C.36 for health care facility violations.

“*Clinical experience*” means application or learned skills for direct resident care in a nursing facility.

“*Complete replacement*” means completed construction on a new nursing facility to replace an existing licensed and certified nursing facility. The replacement facility shall have no more licensed beds than the facility being replaced and shall be located either in the same county as the facility being replaced or within 30 miles from the facility being replaced.

“*Cost normalization*” refers to the process of removing cost variations associated with different levels of resident case mix. Normalized cost is determined by dividing a facility’s per diem direct care component costs by the facility cost report period case-mix index.

“*Denial of critical care*” is a pattern of care in which the resident’s basic needs are denied or ignored to such an extent that there is imminent or potential danger of the resident suffering injury or death, or is a denial of, or a failure to provide the mental health care necessary to adequately treat the resident’s serious social maladjustment, or is a gross failure of the facility employee to meet the emotional needs of the resident necessary for normal functioning, or is a failure of the facility employee to provide for the proper supervision of the resident.

“*Department*” means the Iowa department of human services.

“*Direct care component*” means the portion of the Medicaid reimbursement rates that is attributable to the salaries and benefits of registered nurses, licensed practical nurses, certified nursing assistants,

rehabilitation nurses, and contracted nursing services. “Direct care component” also includes costs related to therapy services provided to residents during inpatient stays and not billed as an outpatient service.

“*Discharged resident*” means a resident whose accounts and records have been closed out and whose personal effects have been taken from the facility. When a resident is discharged, the facility shall notify the department via Form 470-0042, Case Activity Report.

“*Facility*” means a licensed nursing facility certified in accordance with the provisions of 42 CFR Part 483, as amended to September 23, 1992, to provide health services and includes hospital-based nursing facilities that are Medicare-certified and provide only skilled level of care and swing-bed hospitals unless stated otherwise.

“*Facility-based nurse aide training program*” means a nurse aide training program that is offered by a nursing facility and taught by facility employees or under the control of the licensee.

“*Facility cost report period case-mix index*” is the average of quarterly facilitywide average case-mix indices, carried to four decimal places. The quarters used in this average will be the quarters that most closely coincide with the financial and statistical reporting period. For example, a 01/01/2000-12/31/2000 financial and statistical reporting period would use the facilitywide average case-mix indices for quarters ending 03/31/00, 06/30/00, 09/30/00 and 12/31/00.

“*Facilitywide average case-mix index*” is the simple average, carried to four decimal places, of all resident case-mix indices based on the last day of each calendar quarter.

“*Informed consent*” means a resident’s agreement to allow something to happen that is based on a full disclosure of known facts and circumstances needed to make the decision intelligently, i.e., with knowledge of the risks involved or alternatives.

“*Iowa Medicaid enterprise*” means the entity comprised of department staff and contractors responsible for the management and reimbursement of Medicaid services.

“*Laboratory experience*” means practicing care-giving skills prior to contact in the clinical setting.

“*Level I review*” means screening to identify persons suspected of having mental illness or intellectual disability as defined in 42 CFR 483.102 as amended to July 1, 2014.

“*Level II review*” means the evaluation of a person identified in a Level I review to determine whether nursing facility services and specialized services are needed.

“*Major renovations*” means new construction or facility improvements to an existing licensed and certified nursing facility in which the total depreciable asset value of the new construction or facility improvements exceeds \$1.5 million. The \$1.5 million threshold shall be calculated based on the total depreciable asset value of new construction or facility improvements placed into service during a two-year period ending on the date the last asset was placed into service. When the property costs of an asset have been included in a facility’s financial and statistical report that has already been used in a biennial rebasing, the costs of that asset shall not be considered in determining whether the facility meets the \$1.5 million threshold.

“*Managed care organization*” means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medicaid average case-mix index*” is the simple average, carried to four decimal places, of all resident case-mix indices where Medicaid is known to be the per diem payor source on the last day of the calendar quarter.

“*Minimum data set*” or “*MDS*” refers to a federally required resident assessment tool. Information from the MDS is used by the department to determine the facility’s case-mix index for purposes of normalizing per diem allowable direct care costs as provided by paragraph 81.6(16)“b,” for determining the Medicaid average case-mix index to adjust the direct care component pursuant to paragraphs 81.6(16)“c” and “e,” the excess payment allowance pursuant to paragraph 81.6(16)“d,” and the limits on reimbursement components pursuant to paragraph 81.6(16)“f.” MDS is described in subrule 81.13(9).

*“Minimum food, shelter, clothing, supervision, physical or mental health care, or other care”* means that food, shelter, clothing, supervision, physical or mental health care, or other care which, if not provided, would constitute denial of critical care.

*“Mistreatment”* means any intentional act, or threat of an act, coupled with the apparent ability to execute the act, which causes or puts another person in fear of mental anguish, humiliation, deprivation or physical contact which is or will be painful, insulting or offensive. Actions utilized in providing necessary treatment or care in accordance with accepted standards of practice are not considered mistreatment.

*“New construction”* means the construction of a new nursing facility that does not replace an existing licensed and certified facility and that requires the provider to obtain a certificate of need pursuant to Iowa Code chapter 135, division VI.

*“Non-direct care component”* means the portion of Medicaid reimbursement rates attributable to administrative, environmental, property, and support care costs reported on the financial and statistical report.

*“Non-facility-based nurse aide training program”* means a nurse aide training program that is offered by an organization that is not licensed to provide nursing facility services.

*“Nurse aide”* means any individual who is not a licensed health professional or volunteer providing nursing or nursing-related services to residents in a nursing facility.

*“Nurse aide registry”* means Nurse Aide Registry, Department of Inspections and Appeals, Third Floor, Lucas State Office Building, Des Moines, Iowa 50319.

*“Nurse aide training and competency evaluation programs (NATCEP)”* are educational programs approved by the department of inspections and appeals for nurse aide training as designated in subrule 81.16(3).

*“Nursing facility level of care”* means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member’s daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member’s capacity to live independently.
2. The member’s physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

*“PASRR”* means a Level I screening or a Level II evaluation for mental illness or intellectual disability for all persons who live in or seek entry to a Medicaid-certified nursing facility, as required by 42 CFR Part 483, Subpart C, as amended to July 1, 2014.

*“Patient-day-weighted median cost”* means the per diem cost of the nursing facility that is at the median per diem cost of all nursing facilities based on patient days provided when per diem allowable costs are ranked from low to high. A separate patient-day-weighted median cost amount shall be determined for the direct care and non-direct care components.

*“Physical abuse”* means any nonaccidental physical injury, or injury which is at variance with the history given of it, suffered by a resident as the result of the acts or omissions of a person responsible for the care of the resident.

*“Physical injury”* means damage to any bodily tissue to the extent that the tissue must undergo a healing process in order to be restored to a sound and healthy condition, or damage to any bodily tissue to the extent that the tissue cannot be restored to a sound and healthy condition, or damage to any bodily tissue which results in the death of the person who has sustained the damage.

*“Poor performing facility (PPF)”* is a facility designated by the department of inspections and appeals as a poor performing facility (PPF) based on surveys conducted by the department of inspections and appeals pursuant to subrule 81.13(1). A facility shall be designated a PPF if it has been cited for substandard quality of care on the current standard survey and it:

1. Has been cited for substandard quality of care or immediate jeopardy on at least one of the previous two standard surveys;
2. Has a history of substantiated complaints during the last two years;
3. Has a current deficiency for not having a quality assurance program; or
4. Does not have an effective quality assurance program as defined in paragraph 81.13(19)“o.”

*“Primary instructor”* means a registered nurse responsible for teaching a state-approved nurse aide training course.

*“Program coordinator”* means a registered nurse responsible for administrative aspects of a state-approved nurse aide training course.

*“Rate determination letter”* means the letter that is distributed quarterly by the Iowa Medicaid enterprise to each nursing facility notifying the facility of the facility’s Medicaid reimbursement rate calculated in accordance with this rule and of the effective date of the reimbursement rate.

*“Skilled nursing facility level of care”* means that the following conditions are met:

1. The member’s medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.
2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).
3. Documentation submitted for review indicates that the member has:
  - a. A physician order for all skilled services.
  - b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.
  - c. An individualized care plan that identifies support needs.
  - d. Confirmation that skilled services are provided to the member.
  - e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.
  - f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

*“Skills performance record”* means a record of major duties and skills taught which consists of, at a minimum:

1. A listing of the duties and skills expected to be learned in the program.
2. Space to record the date when the aide performs the duty or skill.
3. Space to note satisfactory or unsatisfactory performance.
4. The signature of the instructor supervising the performance.

*“Special population nursing facility”* refers to a nursing facility that serves the following populations:

1. One hundred percent of the residents served are aged 21 and under and require the skilled level of care.
2. Seventy percent of the residents served require the skilled level of care for neurological disorders.
3. One hundred percent of the residents require care from a facility licensed by the department of inspections and appeals as an intermediate care facility for persons with mental illness.

*“Surgical or other invasive procedure”* means an operative procedure in which skin or mucous membranes and connective tissue are incised or an instrument is introduced through a natural body orifice. Surgical or other invasive procedures include a range of procedures from minimally invasive dermatological procedures (biopsy, excision, and deep cryotherapy for malignant lesions) to extensive multiorgan transplantation. Surgical or other invasive procedures include all procedures described by the codes in the surgery section of the Current Procedural Terminology (CPT) published by the American Medical Association and other invasive procedures such as percutaneous transluminal angioplasty and cardiac catheterization. Surgical or other invasive procedures include minimally invasive procedures involving biopsies or placement of probes or catheters requiring the entry into a body cavity through a needle or trocar. “Surgical or other invasive procedure” does not include use of instruments such as otoscopes for examinations or very minor procedures such as drawing blood.

*“Terminated from the Medicare or Medicaid program”* means a facility has lost the final appeal to which it is entitled.

“*Testing entity*” means a person, agency, institution, or facility approved by the department of inspections and appeals to take responsibility for obtaining, keeping secure and administering the competency test and reporting nurse aide scores to the nurse aide registry.

This rule is intended to implement Iowa Code sections 249A.2(6), 249A.3(2) “a,” and 249A.4. [ARC 8445B, IAB 1/13/10, effective 12/11/09; ARC 9726B, IAB 9/7/11, effective 9/1/11; ARC 9888B, IAB 11/30/11, effective 1/4/12; ARC 0994C, IAB 9/4/13, effective 11/1/13; ARC 1806C, IAB 1/7/15, effective 3/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.2** Rescinded, effective 11/21/79.

**441—81.3(249A) Initial approval for nursing facility care.**

**81.3(1) *Need for nursing facility care.*** Residents of nursing facilities must be in need of either nursing facility care or skilled nursing care. Payment will be made for nursing facility care residents only upon certification of the need for the level of care by a licensed physician of medicine or osteopathy and approval of the level of care by the department.

*a.* Decisions on level of care, subject to paragraph 81.3(1) “b,” shall be made for the department by the Iowa Medicaid enterprise (IME) medical services unit within two working days of receipt of medical information. The IME medical services unit determines whether the level of care provided or to be provided should be approved based on medical necessity and the appropriateness of the level of care under 441—subrules 79.9(1) and 79.9(2).

*b.* For residents subject to a Level II PASRR review pursuant to subrule 81.3(3), the level of care determination shall be made as part of the Level II PASRR review, based on medical necessity and the appropriateness of the level of care under 441—subrules 79.9(1) and 79.9(2).

*c.* Adverse level of care decisions may be appealed to the department pursuant to 441—Chapter 7.

**81.3(2) *Skilled nursing care level of need.*** Rescinded IAB 7/11/01, effective 7/1/01.

**81.3(3) *Preadmission review.*** The department’s contractor for PASRR screening and evaluation shall complete a Level I review for all persons seeking admission to a Medicaid-certified nursing facility, regardless of the source of payment for the person’s care. When a Level I review identifies evidence for the presence of mental illness or intellectual disability, the department’s contractor for PASRR evaluations shall complete a Level II review before the person is admitted to the facility.

*a.* Exceptions to Level II review. Persons in the following circumstances may be exempted from Level II review based on a categorical determination that, in that circumstance, admission to or residence in a nursing facility is normally needed and the provision of specialized services for mental illness or intellectual disability is normally not needed.

(1) The person’s attending physician certifies that the person is terminally ill with death expected within six months, the person requires nursing care or supervision due to the person’s physical condition, and the person is not a danger to self or others. If the person’s nursing facility stay exceeds six months, a Level II review must be completed.

(2) The severity of the person’s illness results in impairment so severe that the person could not be expected to benefit from specialized services, and the person does not present a danger to self or others. This category includes persons who are comatose, who function at brain-stem level, who are ventilator-dependent, or who have diagnoses such as Parkinson’s disease, Huntington’s chorea, amyotrophic lateral sclerosis, chronic obstructive pulmonary disease (COPD), or congestive heart failure (CHF).

(3) The person is suffering from delirium. Exemptions made on a basis of delirium are valid until the delirium clears or for seven days, whichever is sooner.

(4) The person is in an emergency situation that requires protective services with placement in the nursing facility. A Level II review must be completed if the admission lasts more than seven days.

(5) The admission is for the purpose of providing respite to the person’s caregiver. If the nursing facility stay exceeds 30 days, a Level II review must be completed.

(6) The person has dementia in combination with an intellectual disability.

(7) The person has been approved for specialized services in another facility based on a previous Level II evaluation, the specialized services still meet the person’s needs, and the receiving facility agrees to provide the specialized services.

(8) The person is transferring directly from receiving acute hospital inpatient care and requires nursing facility services for the same acute physical illness for which hospital care was received, and the person's attending physician certifies before the admission that the person is likely to require less than 30 days of nursing facility services. If the person is later found to require more than 30 days of nursing facility care, a Level II review must be completed within 40 calendar days of the person's admission date.

(9) The person:

1. Is transferring to a nursing facility directly from receiving acute hospital inpatient care, and
2. Requires nursing facility services for convalescence from the same acute physical illness for which the person received hospital care, and

3. Is clearly sufficiently psychiatrically and behaviorally stable enough for nursing facility admission, and

4. Before entering the facility, has been certified by the attending physician as likely to require less than 60 days of nursing facility services.

*b.* Outcome of Level II review. The Level II review shall determine:

- (1) Whether nursing facility care or skilled nursing care is medically necessary and appropriate under 441—subrules 79.9(1) and 79.9(2) for the person seeking admission;

- (2) Whether the person seeking admission needs specialized services for mental illness as defined in paragraph 81.13(14)“*b*,” using the procedures set forth in 42 CFR 483.134 as amended to July 1, 2014; and

- (3) Whether the person seeking admission needs specialized services for intellectual disability as defined in paragraph 81.13(14)“*c*,” using the procedures set forth in 42 CFR 483.136 as amended to July 1, 2014.

*c.* The department's division of mental health and disability services or its designee shall review each Level II evaluation and plan for obtaining needed specialized services before the person's admission to a nursing facility to determine whether nursing facility care or skilled nursing care is medically necessary and whether the nursing facility is an appropriate placement.

*d.* Nursing facility payment under the Iowa Medicaid program will be made for Medicaid members residing in the nursing facility:

- (1) Only if a Level I review was completed prior to admission;

- (2) For persons with mental illness or intellectual disability, only if a Level II review has been completed, or an exception under paragraph 81.3(3)“*a*” has been approved, and it is determined by the division of mental health and disability services that nursing facility care or skilled nursing care is medically necessary and appropriate and that the person's treatment needs related to a mental illness or intellectual disability will be or are being met.

*e.* Adverse PASRR decisions may be appealed to the department pursuant to 441—Chapter 7.

*f.* A nursing facility requesting an administrative hearing regarding a PASRR determination must have the prior, express, signed, written consent of the resident or the resident's lawfully appointed guardian to request such a hearing. Notwithstanding any contrary provision in 441—Chapter 7, no hearing will be granted unless the nursing facility submits a document providing such resident's consent to the request for a state fair hearing. The document must specifically inform the resident that protected health information (PHI) may be discussed at the hearing and may be made public in the course of the hearing and subsequent administrative and judicial proceedings. The document must contain language that indicates the resident's knowledge of the potential for PHI to become public and that the resident knowingly, voluntarily, and intelligently consents to the nursing facility's bringing the state fair hearing on the resident's behalf.

**81.3(4)** *Special care level of need.* Rescinded IAB 3/20/91, effective 3/1/91.

This rule is intended to implement Iowa Code sections 249A.2(6), 249A.3(2)“*a*” and 249A.4.  
[ARC 8445B, IAB 1/13/10, effective 12/11/09; ARC 9726B, IAB 9/7/11, effective 9/1/11; ARC 9888B, IAB 11/30/11, effective 1/4/12; ARC 1806C, IAB 1/7/15, effective 3/1/15]

**441—81.4(249A) Arrangements with residents.**

**81.4(1)** *Resident care agreement.* Rescinded IAB 12/6/95, effective 2/1/96.

**81.4(2)** *Financial participation by resident.* A resident's payment for care may include any voluntary payments made by family members toward cost of care of the resident. The resident's client participation and medical payments from a third party shall be paid toward the total cost of care for the month before any state payment is made. The state will pay the balance of the cost of care for the remainder of the month. The facility shall make arrangements directly with the resident for payment of client participation.

**81.4(3)** *Personal needs account.* When a facility manages the personal needs funds of a resident, it shall establish and maintain a system of accounting for expenditures from the resident's personal needs funds. (See subrule 81.13(5)“c.”) The funds shall be deposited in a bank within the state of Iowa insured by FDIC. Expense for bank service charges for this account is an allowable expense under rule 441—81.6(249A) if the service cannot be obtained free of charge. The department shall charge back to the facility any maintenance item included in the computation of the audit cost that is charged to the resident's personal needs when the charge constitutes double payment. Unverifiable expenditures charged to personal needs accounts may be charged back to the facility. The accounting system is subject to audit by representatives of the department and shall meet the following criteria:

*a.* Upon admittance, a ledger sheet shall be credited with the resident's total incidental money on hand. Thereafter, the ledger shall be kept current on a monthly basis. The facility may combine the accounting with the disbursement section showing the date, amount given the resident, and the resident's signature. A separate ledger shall be maintained for each resident.

*b.* When something is purchased for the resident and is not a direct cash disbursement, each expenditure item in the ledger shall be supported by a signed, dated receipt. The receipt shall indicate the article furnished for the resident's benefit.

*c.* Personal funds shall only be turned over to the resident, the resident's guardian, or other persons selected by the resident. With the consent of the resident, when the resident is able and willing to give consent the administrator may turn over personal funds to a close relative or friend of the resident to purchase a particular item. A signed, dated receipt shall be required to be deposited in the resident's files.

*d.* The ledger and receipts for each resident shall be made available for periodic audits by an accredited department representative. Audit certification shall be made by the department's representative at the bottom of the ledger sheet. Supporting receipts may then be destroyed.

*e.* Upon a patient's death, a receipt shall be obtained from the next of kin, the resident's guardian, or the representative handling the funeral before releasing the balance of the personal needs funds. In the event there is no next of kin or guardian available and there are no outstanding funeral expenses, any funds shall revert to the department. In the event that an estate is opened, the department shall turn the funds over to the estate.

**81.4(4)** *Safeguarding personal property.* The facility shall safeguard the resident's personal possessions. Safeguarding shall include, but is not limited to:

*a.* Providing a method of identification of the resident's suitcases, clothing, and other personal effects, and listing these on an appropriate form attached to the resident's record at the time of admission. These records shall be kept current. Any personal effects released to a relative of the resident shall be covered by a signed receipt.

*b.* Providing adequate storage facilities for the resident's personal effects.

*c.* Ensuring that all mail is delivered unopened to the resident to whom it is addressed, except in those cases where the resident is too confused, as documented in the person's permanent medical record, to receive it, in which case the mail is held unopened for the resident's conservator or relatives. Mail may be opened by the facility in cases where the resident or relatives or guardian have given permission in writing for mail to be opened and read to the resident.

This rule is intended to implement Iowa Code sections 249A.2, 249A.3(2)“a,” and 249A.4.

**441—81.5(249A) Discharge and transfer.** (See paragraph 81.13(6)“c.”)

**81.5(1) Notice.** When a Medicaid member requests transfer or discharge, or another person requests this for the member, the administrator shall promptly notify the department. This shall be done in sufficient time to permit a social service worker or case manager to assist in the planning for the transfer or discharge.

**81.5(2) Case activity report.** A Case Activity Report, Form 470-0042, shall be submitted to the department whenever a Medicaid applicant or recipient enters the facility, changes level of care, or is discharged from the facility.

**81.5(3) Plan.** The administrator and staff shall assist the resident in planning for transfer or discharge through development of a discharge plan.

**81.5(4) Transfer records.** When a resident is transferred to another facility, transfer information shall be summarized from the facility's records in a copy to accompany the resident. This information shall include:

- a. A transfer form of diagnosis.
- b. Aid to daily living information.
- c. Transfer orders.
- d. Nursing care plan.
- e. Physician's orders for care.
- f. The resident's personal records.
- g. When applicable, the personal needs fund record.
- h. Resident care review team assessment.

**81.5(5) Unused client participation.** When a resident leaves the facility during the month, any unused portion of the resident's client participation shall be refunded.

This rule is intended to implement Iowa Code sections 249A.2, 249A.3(2) "a," and 249A.4.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.6(249A) Financial and statistical report and determination of payment rate.** With the exception of hospital-based nursing facilities that are Medicare-certified and provide only the skilled level of care, herein referred to as Medicare-certified hospital-based nursing facilities, all facilities in Iowa wishing to participate in the program shall submit a Financial and Statistical Report, Form 470-0030, to the Iowa Medicaid enterprise provider cost audit and rate setting unit. All Medicare-certified hospital-based nursing facilities shall submit a copy of their Medicare cost report. These reports shall be based on the following rules.

**81.6(1) Failure to maintain records.** Failure to adequately maintain fiscal records, including census records, medical charts, ledgers, journals, tax returns, canceled checks, source documents, invoices, and audit reports by or for a facility may result in the penalties specified in subrule 81.14(1).

**81.6(2) Accounting procedures.** Financial information shall be based on that appearing in the audited financial statements of the facility. If the financial statements have been compiled, reviewed or audited by an outside firm, a copy of the compilation, review or audit, including notes, for the reporting period shall be included with the submission of the financial and statistical report. Adjustments to convert to the accrual basis of accounting shall be made when the records are maintained on other accounting bases.

a. Facilities which are a part of a larger health facility extending short-term, intensive, or other health care not generally considered nursing care may submit a cost apportionment schedule prepared in accordance with recognized methods and procedures. A schedule shall be required when necessary for a fair presentation of expense attributable to nursing facility patients.

b. Costs for patient care services shall be divided into the subcategories of "direct patient care costs" and "support care costs." Costs associated with food and dietary wages shall be included in the "support care costs" subcategory.

**81.6(3) Submission of reports.** All nursing facilities, except the Iowa Veterans Home, shall submit reports electronically, in a format approved by the department, to the Iowa Medicaid enterprise provider cost audit and rate setting unit not later than the last day of the fifth calendar month after the close of the provider's reporting year. The Iowa Veterans Home shall submit the report electronically, in a format approved by the department, no later than three months after the close of each six-month period of the

facility's established fiscal year. The annual financial report shall coincide with the fiscal year used by the provider to report federal income taxes for the operation unless the provider requests in writing that a different reporting period be used. Such a request shall be submitted within 60 days after the initial certification of a provider. The option to change the reporting period may be exercised only one time by a provider, and the reporting period shall coincide with the fiscal year end for Medicare cost-reporting purposes. If a reporting period other than the tax year is established, audit trails between the periods are required, including reconciliation statements between the provider's records and the annual financial report.

*a.* Nursing facilities that are certified to provide Medicare-covered skilled nursing facility services are required to submit a copy of their Medicare cost report that covers their most recently completed historical reporting period as submitted to the Medicare fiscal intermediary.

*b.* The submission shall include a working trial balance that corresponds to all financial data contained on the cost report. The working trial balance must provide sufficient detail to enable the Iowa Medicaid enterprise provider cost audit and rate setting unit to reconcile accounts reported on the general ledger to those on the financial and statistical report. For reporting costs that are not directly assigned to the nursing facility in the working trial balance, an allocation method must be identified for each line, including the statistics used in the calculation. Reports submitted without a working trial balance shall be considered incomplete, and the facility shall be subject to the rate reductions set forth in paragraph 81.6(3) "e."

*c.* If the financial statements have been compiled, reviewed or audited by an outside firm, a copy of the compilation, review or audit, including notes, for the reporting period shall be included with the submission of the financial and statistical report as set forth in subrule 81.6(2).

*d.* For nursing facilities, except the Iowa Veterans Home, an extension of the five-month filing period shall not be granted unless one is granted for the filing of the Medicare cost report. If the Medicare filing deadline for submitting the Medicare cost report is delayed by the Medicare fiscal intermediary, the Medicaid cost report and all required forms shall be submitted on the date Medicare requires submission of its report. Notice of the extension shall be presented to the department within ten days of a decision by Medicare.

*e.* A complete submission shall include all of the items identified in this subrule. Failure to submit a complete report that meets the requirements of this rule within the stated time shall reduce payment to 75 percent of the current rate.

(1) The reduced rate shall be effective the first day of the sixth month following the provider's fiscal year end and shall remain in effect until the first day of the month after the delinquent report is received by the Iowa Medicaid enterprise provider cost audit and rate setting unit.

(2) The reduced rate shall be paid for no longer than three months, after which time no further payments will be made until the first day of the month after the delinquent report is received by the Iowa Medicaid enterprise provider cost audit and rate setting unit.

*f.* When a nursing facility continues to include in the total costs an item or items which had in a prior period been removed through an adjustment made by the department or its contractor, the contractor shall recommend to the department that the per diem be reduced to 75 percent of the current payment rate for the entire quarter beginning the first day of the fourth month after the facility's fiscal year end. If the adjustment has been contested and is still in the appeals process, the provider may include the cost, but must include sufficient detail so that the Iowa Medicaid enterprise provider cost audit and rate setting unit can determine if a similar adjustment is needed in the current period. The department may, after considering the seriousness of the offense, make the reduction.

*g.* Nothing in this subrule relieves a facility of its obligation to immediately inform the department that the facility has retained Medicaid funds to which the facility is not entitled as a result of any cost report process. A facility shall notify the Iowa Medicaid enterprise when the facility determines that funds have been incorrectly paid or when an overpayment has been detected.

*h.* A facility may change its fiscal year one time in any two-year period. If the facility changes its fiscal year, the facility shall notify the Iowa Medicaid enterprise cost audit and rate setting unit 60 days prior to the first date of the change.

**81.6(4) Payment at new rate.**

a. Except for state-operated nursing facilities and special population nursing facilities, payment rates shall be updated July 1, 2001, and every second year thereafter with new cost report data, and adjusted quarterly to account for changes in the Medicaid average case-mix index. For nursing facilities receiving both an ICF and SNF Medicaid rate effective June 30, 2001, the June 30, 2001, Medicaid rate referenced in subparagraphs (1) and (2) below shall be the patient-day-weighted average of the ICF and SNF Medicaid rates effective June 30, 2001, excluding the case-mix transition add-on amount.

(1) The Medicaid payment rates for services rendered from July 1, 2001, through June 30, 2002, shall be 66.67 percent of the facility's Medicaid rate effective June 30, 2001, excluding the case-mix transition add-on amount, plus an inflation allowance of 6.21 percent, not to exceed \$94, and 33.33 percent of the July 1, 2001, modified price-based rate pursuant to subrule 81.6(16). In no case shall the July 1, 2001, Medicaid rate be less than the Medicaid rate effective June 30, 2001, excluding the case-mix transition add-on amount, and increased by a 6.21 percent inflation allowance.

(2) Payment rates for services rendered from July 1, 2002, through June 30, 2003, shall be 33.33 percent of the facility's Medicaid rate effective June 30, 2001, excluding the case-mix transition add-on amount, plus an inflation allowance of 6.21 percent, and an additional inflation factor based on the CMS/SNF Total Market Basket Index. However, the current system rate to be used effective July 1, 2002, shall not exceed \$94, times an inflation factor pursuant to subrule 81.6(18), and 66.67 percent of the July 1, 2002, modified price-based rate. In no case shall the July 1, 2002, Medicaid rate be less than the Medicaid rate effective June 30, 2002, plus an inflation factor pursuant to subrule 81.6(18) projected for the following 12 months.

(3) Payment rates for services rendered from July 1, 2003, and thereafter will be 100 percent of the modified price-based rate.

(4) Rescinded IAB 9/8/10, effective 8/12/10.

b. The Medicaid payment rate for special population nursing facilities shall be updated annually without a quarterly adjustment.

c. The Medicaid payment rate for state-operated nursing facilities shall be updated annually without a quarterly adjustment.

**81.6(5) Accrual basis.** Facilities not using the accrual basis of accounting shall adjust recorded amounts to the accrual basis. Records of cash receipts and disbursements shall be adjusted to reflect accruals of income and expense.

**81.6(6) Census of public assistance recipients.** Census figures of public assistance recipients shall be obtained on the last day of the month ending the reporting period.

**81.6(7) Patient days.** In determining inpatient days, a patient day is that period of service rendered a patient between the census-taking hours on two successive days, the day of discharge being counted only when the patient was admitted that same day.

**81.6(8) Opinion of accountant.** The department may require that an opinion of a certified public accountant or public accountant accompany the report when adjustments made to prior reports indicate disregard of the certification and reporting instructions.

**81.6(9) Calculating patient days.** When calculating patient days, facilities shall use an accumulation method.

a. Census information shall be based on a patient's status at midnight at the end of each day.

b. When a recipient is on a reserve bed status and the department is paying on a per diem basis for the holding of a bed, or any day a bed is reserved for a public assistance or nonpublic assistance patient and a per diem rate for the bed is charged to any party, the reserved days shall be included in the total census figures for inpatient days.

**81.6(10) Revenues.** Revenues shall be reported as recorded in the general books and records. Expense recoveries credited to expense accounts shall not be reclassified in order to be reflected as revenues.

a. Routine daily services shall represent the established charge for daily care. Routine daily services include room, board, nursing services, therapies, and such services as supervision, feeding,

pharmaceutical consulting, over-the-counter drugs, incontinency, and similar services, for which the associated costs are in nursing service. Routine daily services shall not include:

(1) Laboratory or diagnostic radiology services, unless the service is provided by facility staff using facility equipment, and

(2) Prescription (legend) drugs.

*b.* Revenue from ancillary services provided to patients shall be applied in reduction of the related expense.

*c.* Revenue from the sale of medical supplies, food or services to employees or nonresidents of the facility shall be applied in reduction of the related expense. Revenue from the sale to private pay residents of items or services which are included in the medical assistance per diem will not be offset.

*d.* Investment income adjustment is necessary only when interest expense is incurred, and only to the extent of the interest expense.

*e.* Laundry revenue shall be applied to laundry expense.

*f.* Accounts receivable charged off or provision for uncollectible accounts shall be reported as a deduction from gross revenue.

**81.6(11) *Limitation of expenses.*** Certain expenses that are not normally incurred in providing patient care shall be eliminated or limited according to the following rules.

*a.* Federal and state income taxes are not allowed as reimbursable costs.

*b.* Fees paid directors and nonworking officers' salaries are not allowed as reimbursable costs.

*c.* Bad debts are not an allowable expense.

*d.* Charity allowances and courtesy allowances are not an allowable expense.

*e.* Personal travel and entertainment are not allowable as reimbursable costs. Certain expenses such as rental or depreciation of a vehicle and expenses of travel which include both business and personal costs shall be prorated. Amounts which appear to be excessive may be limited after consideration of the specific circumstances. Records shall be maintained to substantiate the indicated charges.

(1) Commuter travel by the owner(s), owner-administrator(s), administrator, nursing director or any other employee is not an allowable cost (from private residence to facility and return to residence).

(2) The expense of one car or one van or both designated for use in transporting patients shall be an allowable cost. All expenses shall be documented by a sales slip, invoice or other document setting forth the designated vehicle as well as the charges incurred for the expenses to be allowable.

(3) At the time of annual contract renewal with the Iowa department of transportation, each facility which supplies transportation services as defined in Iowa Code section 324A.1 shall provide current documentation of compliance with or exemption from public transit coordination requirements as found in Iowa Code section 324A.5 and 761—Chapter 910 of the Iowa department of transportation's rules. Failure to cooperate in obtaining or in providing the required documentation of compliance or exemption after receipt from the Iowa department of transportation shall result in disallowance of vehicle costs and other costs associated with transporting residents.

(4) Expenses related to association business meetings, limited to individual members of the association who are members of a national affiliate, and expenses associated with workshops, symposiums, and meetings which provide administrators or department heads with hourly credits required to comply with continuing education requirements for licensing, are allowable expenses.

(5) Travel of an emergency nature required for supplies, repairs of machinery or equipment, or building is an allowable expense.

(6) Travel for which a patient must pay is not an allowable expense.

(7) Allowable expenses in subparagraphs (2) through (5) above are limited to 6 percent of total administrative expense.

*f.* Entertainment provided by the facility for participation of all residents who are physically and mentally able to participate is an allowable expense except that entertainment for which the patient is required to pay is not an allowable expense.

*g.* Loan acquisition fees and standby fees are not considered part of the current expense of patient care, but should be amortized over the life of the related loan.

*h.* A reasonable allowance of compensation for services of owners or immediate relatives is an allowable cost, provided the services are actually performed in a necessary function. For this purpose, the following persons are considered immediate relatives: husband and wife; natural parent, child and sibling; adopted child and adoptive parent; stepparent, stepchild, stepbrother, and stepsister; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, and sister-in-law; grandparent and grandchild. Adequate time records shall be maintained. Adjustments may be necessary to provide compensation as an expense for nonsalaried working proprietors and partners. Members of religious orders serving under an agreement with their administrative office are allowed salaries paid persons performing comparable services. When maintenance is provided these persons by the facility, consideration shall be given to the value of these benefits and this amount shall be deducted from the amount otherwise allowed for a person not receiving maintenance.

(1) Compensation means the total benefit received by the owner or immediate relative for services rendered. Compensation includes all remuneration, paid currently or accrued, for managerial, administrative, professional and other services rendered during the period. Compensation shall include all items that should be reflected on IRS Form W-2, Wage and Tax Statement, including, but not limited to, salaries, wages, and fringe benefits; the cost of assets and services received; and deferred compensation. Fringe benefits shall include, but are not limited to, costs of leave, employee insurance, pensions and unemployment plans. If the facility's fiscal year end does not correlate to the period of the W-2, a reconciliation between the latest issued W-2 and current compensation shall be required to be disclosed to the Iowa Medicaid enterprise provider cost audit and rate setting unit. Employer portions of payroll taxes associated with amounts of compensation that exceed the maximum allowed compensation shall be considered unallowable for reimbursement. All compensation paid to related parties, including payroll taxes, shall be required to be reported to the Iowa Medicaid enterprise provider cost audit and rate setting unit with the submission of the financial and statistical report. If it is determined that there have been undisclosed related-party salaries, the cost report shall be determined to have been submitted incomplete and the facility shall be subject to the penalties set forth in paragraph 81.6(3) "e."

(2) Reasonableness requires that the compensation allowance be the same amount as would ordinarily be paid for comparable services by comparable institutions, and depends upon the facts and circumstances of each case.

(3) Necessary requires that the function be such that had the owner or immediate relative not rendered the services, the facility would have had to employ another person to perform the service, and be pertinent to the operation and sound conduct of the institution.

(4) Effective July 1, 2001, the base maximum allowed compensation for an administrator who is involved in ownership of the facility or who is an immediate relative of an owner of the facility is \$3,296 per month plus \$35.16 per month per licensed bed capacity for each bed over 60, not to exceed \$4,884 per month. An administrator is considered to be involved in ownership of a facility when the administrator has ownership interest of 5 percent or more.

On an annual basis, the maximum allowed compensation amounts for these administrators shall be increased or decreased by an annual inflation factor as specified by subrule 81.6(18).

(5) The maximum allowed compensation for an assistant administrator who is involved in ownership of the facility or who is an immediate relative of an owner of the facility in facilities having a licensed capacity of 151 or more beds is 60 percent of the amount allowed for the administrator. An assistant administrator is considered to be involved in ownership of a facility when the assistant administrator has ownership interest of 5 percent or more.

(6) The maximum allowed compensation for a director of nursing or any employee who is involved in ownership of the facility or who is an immediate relative of an owner of the facility is 60 percent of the amount allowed for the administrator. Persons involved in ownership or relatives providing professional services shall be limited to rates prevailing in the community not to exceed 60 percent of the allowable rate for the administrator on a semiannual basis. Records shall be maintained in the same manner for an employee involved in ownership or a relative as are maintained for any other employee of the facility. Ownership is defined as an interest of 5 percent or more.

(7) The maximum allowed compensation for anyone working for another entity (e.g., home office) that allocates cost to the nursing facility and is involved in ownership of the facility or allocating entity or who is an immediate relative of an owner of the facility or allocating entity is 60 percent of the amount allowed for the administrator. An employee working for another entity that allocates cost to the nursing facility is considered to be involved in ownership of a facility when that individual has ownership interest of 5 percent or more of the home office or the nursing facility.

(8) The maximum allowed compensation for employees as set forth in subparagraphs 81.6(11) "h"(4) to 81.6(11) "h"(7) shall be adjusted by the percentage of the average work week that the employee devoted to business activity at the nursing facility for the fiscal year of the financial and statistical report. The time devoted to the business shall be disclosed on the financial and statistical report and shall correspond to any amounts reported to the Medicare fiscal intermediary. In the case that an owner's or immediate relative's time is allocated to the facility from another entity (e.g., home office), the compensation limit shall be adjusted by the percentage of total costs of the entity allocated to the nursing facility. In no case shall the amount of salary for one employee allocated to multiple nursing facilities be more than the maximum allowed compensation for that employee had the salary been allocated to only one facility.

*i.* Management fees paid to a related party shall be limited on the same basis as the owner administrator's salary, but shall have the amount paid the resident administrator deducted. When the parent company can separately identify accounting costs, the costs are allowed.

*j.* Depreciation based upon tax cost using only the straight-line method of computation, recognizing the estimated useful life of the asset as defined in the American Hospital Association Useful Life Guide, 1983 edition, may be included as a patient cost. When accelerated methods of computation have been elected for income tax purposes, an adjustment shall be made. For change of ownership, refer to subrule 81.6(12).

*k.* Necessary and proper interest on both current and capital indebtedness is an allowable cost.

(1) Interest is the cost incurred for the use of borrowed funds. Interest on current indebtedness is the cost incurred for funds borrowed for a relatively short term. Interest on capital indebtedness is the cost incurred for funds borrowed for capital purposes.

(2) "Necessary" requires that the interest be incurred on a loan made to satisfy a financial need of the provider, be incurred on a loan made for a purpose reasonably related to patient care, and be reduced by investment income except where the income is from gifts and grants whether restricted or unrestricted, and which are held separate and not commingled with other funds.

(3) "Proper" requires that interest be incurred at a rate not in excess of what a prudent borrower would have had to pay in the money market on the date the loan was made, and be paid to a lender not related through control or ownership to the borrowing organization.

(4) Interest on loans is allowable as cost at a rate not in excess of the amount an investor could receive on funds invested in the locality on the date the loan was made.

(5) Interest is an allowable cost when the general fund of a provider borrows from a donor-restricted fund, a funded depreciation account of the provider, or the provider's qualified pension fund, and pays interest to the fund, or when a provider operated by members of a religious order borrows from the order.

(6) When funded depreciation is used for purposes other than improvement, replacement or expansion of facilities or equipment related to patient care, allowable interest expense is reduced to adjust for offsets not made in prior years for earnings on funded depreciation. A similar treatment will be accorded deposits in the provider's qualified pension fund where the deposits are used for other than the purpose for which the fund was established.

*l.* Costs applicable to supplies furnished by a related party or organization are a reimbursable cost when included at the cost to the related party or organization. The cost shall not exceed the price of comparable supplies that could be purchased elsewhere.

(1) Related means that the facility, to a significant extent, is associated with or has control of or is controlled by the organization furnishing the services, facilities, or supplies.

(2) Common ownership exists when an individual or individuals possess significant ownership or equity in the facility and the institution or organization serving the provider.

(3) Control exists where an individual or an organization has power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

(4) When the facility demonstrates by convincing evidence that the supplying organization is a bona fide separate organization; that a substantial part of its business activity of the type carried on with the facility is transacted with others and there is an open competitive market for the type of services, facilities, or supplies furnished by the organization; that the services, facilities, or supplies are those which commonly are obtained by similar institutions from other organizations and are not a basic element of patient care ordinarily furnished directly to patients by the institutions; and that the charge to the facility is in line with the charge for the services, facilities, or supplies in the open market and no more than the charge made under comparable circumstances to others by the organization for the services, facilities, or supplies, the charges by the supplier shall be allowable costs.

*m.* When the operator of a participating facility rents from a nonrelated party, the amount of rent expense allowable on the cost report shall be based on the cost of the facility as identified in subrule 81.6(12), paragraph “a,” plus the landlord’s other expenses and a reasonable rate of return, not to exceed actual rent payments.

When the operator of a participating facility rents the building from a related party, the amount of rent expense allowable on the cost report shall be no more than the amortized cost of the facility as identified in subrule 81.6(12), paragraph “a,” plus the landlord’s other expenses.

The landlord must be willing to provide documentation of these costs for rental arrangements.

*n.* Depreciation, interest and other capital costs attributable to construction of new facilities, expanding existing facilities, or the purchase of an existing facility, are allowable expenses only if prior approval has been gained through the health planning process specified in rules of the public health department, 641—Chapter 201.

*o.* Reasonable legal, accounting, consulting and other professional fees, including association dues, are allowable costs if the fees are directly related to patient care. Legal, accounting, consulting and other professional fees, including association dues, described by the following are not considered to be patient-related and therefore are unallowable:

- (1) Any fees or portion of fees used or designated for lobbying.
- (2) Nonrefundable and unused retainers.
- (3) Fees paid by the facility for the benefit of employees.

(4) Legal fees, expenses related to expert witnesses, accounting fees and other consulting fees incurred in an administrative or judicial proceeding. EXCEPTION: Facilities may report the reasonable costs incurred in an administrative or judicial proceeding if all of the conditions below are met. Recognition of any costs will be in the fiscal period when a final determination in the administrative or judicial proceeding is made.

1. The costs have actually been incurred and paid,
2. The costs are reasonable expenditures for the services obtained,
3. The facility has made a good-faith effort to settle the disputed issue before the completion of the administrative or judicial proceeding, and
4. The facility prevails on the disputed issue.

*p.* The nursing facility quality assurance assessment paid pursuant to 441—Chapter 36, Division II, shall not be an allowable cost for cost reporting and audit purposes but shall be reimbursed pursuant to paragraph 81.6(21) “a.”

*q.* Prescription (legend) drug costs are excluded from services covered as part of the nursing facility per diem rate as set forth in paragraph 81.10(5) “d.” The Iowa Medicaid program will provide direct payment for drugs covered pursuant to 441—subrule 78.1(2) to relieve the facility of payment responsibility. As Medicaid reimburses pharmacy providers only for the cost and dispensation of legend drugs included on the Medicaid preferred drug list, no drug costs will be recognized for other payor sources.

*r.* Inpatient therapy services provided by nursing facilities are included in the established rate as a direct care cost and subject to the normalization process and quarterly case-mix index adjustments.

(1) Under no circumstances shall therapies for Medicaid members residing in a nursing facility be billed to Medicaid through any provider other than the nursing facility. Therapy services for nursing facility residents that are reimbursed by other payment sources shall not be reimbursed by Medicaid.

(2) For purposes of determining allowable therapy costs, the Iowa Medicaid enterprise provider cost audit and rate setting unit shall adjust each provider's reported cost of therapy services, including any employee benefits prorated based on total salaries and wages, to account for nonfacility patients including patients with costs paid by Medicare. Such adjustments shall be applied to each cost report in order to remove reported costs attributable to outpatient therapy services reimbursed for non-inpatient services. When the costs of the services are not determinable, an adjustment shall be calculated based on an allocation of reported therapy revenues and shall be subject to field audit verification.

s. Penalties or fines imposed by federal, state or local agencies are not allowable expenses.

t. Penalties, fines or fees imposed for insufficient funds or delinquent payments are not allowable expenses.

u. Laboratory costs are excluded from services covered as part of the nursing facility per diem rate unless the service is provided by facility staff using facility equipment.

v. Diagnostic radiology costs are excluded from services covered as part of the nursing facility per diem rate unless the service is provided by facility staff using facility equipment.

**81.6(12) Termination or change of owner.**

a. A participating facility contemplating termination of participation or negotiating a change of ownership shall provide the department of human services with at least 60 days' prior notice. A transfer of ownership or operation terminates the participation agreement. A new owner or operator shall establish that the facility meets the conditions for participation and enter into a new agreement. The person responsible for transfer of ownership or for termination is responsible for submission of a final financial and statistical report through the date of the transfer. The new owner shall be responsible for all Medicaid debts incurred by the previous owner, including those incurred due to changes in rates, fines, penalties and quality assurance fees, from the first day of the quarter until the date the change occurs. No payment to the new owner will be made until formal notification is received. The following situations are defined as a transfer of ownership:

(1) In the case of a partnership which is a party to an agreement to participate in the medical assistance program, the removal, addition, or substitution of an individual for a partner in the association in the absence of an express statement to the contrary, dissolves the old partnership and creates a new partnership which is not a party to the previously executed agreement and a transfer of ownership has occurred.

(2) When a participating nursing facility is a sole proprietorship, a transfer of title and property to another party constitutes a change of ownership.

(3) When the facility is a corporation, neither a transfer of corporate stock nor a merger of one or more corporations with the participating corporation surviving is a transfer of ownership. A consolidation of two or more corporations resulting in the creation of a new corporate entity constitutes a change of ownership.

(4) When a participating facility is leased, a transfer of ownership is considered to have taken place. When the entire facility is leased, the total agreement with the lessor terminates. When only part of the facility is leased, the agreement remains in effect with respect to the unleased portion, but terminates with respect to the leased portion.

b. No increase in the value of property shall be allowed in determining the Medicaid rate for the new owner with any change of ownership (including lease agreements). When filing the first cost report, the new owner shall either continue the schedule of depreciation and interest established by the previous owner, or the new owner may choose to claim the actual rate of interest expense. The results of the actual rate of interest expense shall not be higher than would be allowed under the Medicare principles of reimbursement and shall be applied to the allowed depreciable value established by the previous owner, less any down payment made by the new owner.

c. Other acquisition costs of the new owner such as legal fees, accounting and administrative costs, travel costs and the costs of feasibility studies attributable to the negotiation or settlement of the sale or purchase of the property shall not be allowed.

d. In general, the provisions of Section 1861(v)(1)(0) of the Social Security Act regarding payment allowed under Medicare principles of reimbursement at the time of a change of ownership shall be followed, except that no return on equity or recapture of depreciation provisions shall be employed.

e. A new owner or lessee wishing to claim a new rate of interest expense must submit documentation which verifies the amount of down payment made, the actual rate of interest, and the number of years required for repayment with the next annual cost report. In the absence of the necessary supportive documentation, interest and other property costs for all facilities that have changed or will change ownership shall continue at the rate allowed the previous owner.

**81.6(13) Amended reports.** The department, in its sole discretion, may reopen a review of a financial and statistical report at any time. No other entity or person has the right to request that the department or its contractor reopen a review of a financial and statistical report, or submit an amended financial and statistical report for review by the department, after the facility is notified of its per diem summary and adjustments following a review of a financial and statistical report. Nothing in this subrule relieves a facility of its obligation to immediately inform the department that the facility has retained Medicaid funds to which the facility is not entitled as a result of any cost report process. A facility shall notify the Iowa Medicaid enterprise when the facility determines that funds have been incorrectly paid or when an overpayment has been detected.

**81.6(14) Payment to new facility.** The payment to a new facility shall be the sum of the patient-day-weighted median cost for the direct care and non-direct care components pursuant to paragraph 81.6(16)“c.” After the first full calendar quarter of operation, the patient-day-weighted median cost for the direct care component shall be adjusted by the facility’s average Medicaid case-mix index pursuant to subrule 81.6(19). A financial and statistical report shall be submitted from the beginning day of operation to the end of the fiscal year. Following the completion of the new facility’s first fiscal year, rates will be established in accordance with subrule 81.6(16). Subsequent financial and statistical reports shall be submitted annually for a 12-month period ending with the facility’s fiscal year.

**81.6(15) Payment to new owner.** An existing facility with a new owner shall continue to be reimbursed using the previous owner’s per diem rate adjusted quarterly for changes in the Medicaid average case-mix index. The facility shall submit a financial and statistical report for the period from beginning of actual operation under new ownership to the end of the facility’s fiscal year. Subsequent financial and statistical reports shall be submitted annually for a 12-month period ending with the facility’s fiscal year. The facility shall notify the Iowa Medicaid enterprise provider cost audit and rate setting unit of the date the facility’s fiscal year will end.

**81.6(16) Establishment of the direct care and non-direct care patient-day-weighted medians and modified price-based reimbursement rate.** This subrule provides for the establishment of the modified price-based reimbursement rate. The first step in the rate calculation (paragraph “a”) determines the per diem direct care and non-direct care component costs. The second step (paragraph “b”) normalizes the per diem direct care component costs to remove cost variations associated with different levels of resident case mix. The third step (paragraph “c”) calculates the patient-day-weighted medians for the direct care and non-direct care components that are used in subsequent steps to establish rate component limits and excess payment allowances, if any. The fourth step (paragraph “d”) calculates the potential excess payment allowance. The fifth step (paragraph “e”) calculates the reimbursement rate, including any applicable capital cost per diem instant relief add-on described in paragraph “h,” that is further subjected to the rate component limits, including any applicable enhanced non-direct care rate component limit described in paragraph “h,” in step six (paragraph “f”). The seventh step (paragraph “g”) calculates the additional reimbursement based on accountability measures available beginning July 1, 2002.

a. Calculation of per diem cost. For purposes of calculating the non-state-owned nursing facility Medicaid reimbursement rate and the Medicare-certified hospital-based nursing facility Medicaid reimbursement rate, the costs shall be divided into two components, the direct care component and non-direct care component as defined in rule 441—81.1(249A). Each nursing facility’s per diem

allowable direct care and non-direct care cost shall be established. Effective July 1, 2001, and every second year thereafter, the per diem allowable cost shall be arrived at by dividing total reported allowable costs by total inpatient days during the reporting period. On July 1, 2001, July 1, 2003, July 1, 2004, July 1, 2005, and every second year thereafter, total reported allowable costs shall be adjusted using the inflation factor specified in subrule 81.6(18) from the midpoint of the cost report period to the beginning of the state fiscal year rate period.

(1) Non-state-owned nursing facilities. Effective December 1, 2009, patient days for purposes of the computation of administrative, environmental, and property expenses for non-state-owned facilities shall be inpatient days as determined in subrule 81.6(7) or 85 percent of the licensed capacity of the facility, whichever is greater. Patient days for purposes of the computation of all other expenses shall be inpatient days as determined in subrule 81.6(7).

(2) Medicare-certified hospital-based nursing facilities. Patient days for purposes of the computation of all expenses shall be inpatient days as determined by subrule 81.6(7).

b. Cost normalization. The per diem allowable direct care costs are normalized by dividing a facility's per diem direct care costs by the facility's cost report period case-mix index as defined in rule 441—81.1(249A) and subrule 81.6(19).

c. Calculation of patient-day-weighted medians. For each of the rate components, a patient-day-weighted median shall be established for both the non-state-owned nursing facilities and the Medicare-certified hospital-based nursing facilities, hereinafter referred to as the non-state-owned nursing facility patient-day-weighted medians and the Medicare-certified hospital-based nursing facility patient-day-weighted medians.

The per diem normalized direct care cost for each facility is arrayed from low to high to determine the direct care component patient-day-weighted median cost based on the number of patient days provided by facilities. The per diem non-direct care cost for each facility is also arrayed from low to high to determine the non-direct care component patient-day-weighted median cost based on the number of patient days provided by facilities. An array and patient-day-weighted median for each cost component is determined separately for both non-state-owned nursing facilities and the Medicare-certified hospital-based nursing facilities.

(1) For the fiscal period beginning July 1, 2001, and ending June 30, 2003, the non-state-owned nursing facility direct care and non-direct care patient-day-weighted medians and the Medicare-certified hospital-based nursing facility direct care and non-direct care patient-day-weighted medians shall be calculated using the latest financial and statistical report with a fiscal year end of December 31, 2000, or earlier, inflated from the midpoint of the cost report period to July 1, 2001, using the inflation factor specified in subrule 81.6(18).

(2) Effective July 1, 2003, and each second year thereafter, the patient-day-weighted medians used in rate setting shall be recalculated. The non-state-owned nursing facility direct care and non-direct care patient-day-weighted medians and the Medicare-certified hospital-based nursing facility direct care and non-direct care patient-day-weighted medians shall be calculated using the latest completed cost report with a fiscal year end of the preceding December 31 or earlier. When patient-day-weighted medians are recalculated, inflation is applied from the midpoint of the cost report period to the first day of the state fiscal year rate period using the inflation factor specified in subrule 81.6(18).

(3) For the fiscal period beginning July 1, 2004, and ending June 30, 2005, the non-state-owned and Medicare-certified hospital-based nursing facility direct care and the non-direct care patient-day-weighted medians calculated July 1, 2003, shall be inflated to July 1, 2004, using the inflation factor specified in subrule 81.6(18).

d. Excess payment allowance.

(1) For non-state-operated nursing facilities not located in a Metropolitan Statistical Area as defined by the Centers for Medicare and Medicaid Services (not including Medicare-certified hospital-based nursing facilities), the excess payment allowance is calculated as follows:

1. For the direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the direct care non-state-operated nursing facility patient-day-weighted

median times the percentage specified in 441—subrule 79.1(2) times the Medicaid average case-mix index pursuant to subrule 81.6(19), minus a provider's allowable normalized per patient day direct care costs pursuant to 81.6(16) "b" times the Medicaid average case-mix index pursuant to subrule 81.6(19). In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the direct care non-state-operated nursing facility patient-day-weighted median.

2. For the non-direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the non-direct care non-state-operated nursing facility patient-day-weighted median times the percentage specified in 441—subrule 79.1(2), minus a provider's allowable per patient day non-direct care cost pursuant to paragraph 81.6(16) "a." In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the non-direct care non-state-operated nursing facility patient-day-weighted median.

(2) For non-state-operated nursing facilities located in a Metropolitan Statistical Area as defined by the Centers for Medicare and Medicaid Services (not including Medicare-certified hospital-based nursing facilities), the excess payment allowance is calculated as follows:

1. For the direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the direct care non-state-operated nursing facility patient-day-weighted median times the percentage specified in 441—subrule 79.1(2) times the wage index factor specified below times the Medicaid average case-mix index pursuant to subrule 81.6(19), minus a provider's allowable normalized per patient day direct care costs pursuant to paragraph 81.6(16) "b" times the Medicaid average case-mix index pursuant to subrule 81.6(19). In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the direct care non-state-operated nursing facility patient-day-weighted median.

The wage index factor applied July 1, 2001, through June 30, 2002, shall be 11.46 percent. Beginning July 1, 2002, and thereafter, the wage index factor shall be determined annually by calculating the average difference between the Iowa hospital-based rural wage index and all Iowa hospital-based Metropolitan Statistical Area wage indices as published by the Centers for Medicare and Medicaid Services (CMS) each July. The geographic wage index adjustment shall not exceed \$8 per patient day.

A nursing facility may request an exception to application of the geographic wage index based upon a reasonable demonstration of wages, locations, and total cost. The nursing facility shall request the exception within 30 days of receipt of notification to the nursing facility of the new reimbursement rate using the department's procedures for requesting exceptions at rule 441—1.8(17A,217).

2. For the non-direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the non-direct care non-state-operated nursing facility patient-day-weighted median times the percentage specified in 441—subrule 79.1(2), minus a provider's allowable per patient day non-direct care cost pursuant to paragraph 81.6(16) "a." In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the non-direct care non-state-operated nursing facility patient-day-weighted median.

(3) For Medicare-certified hospital-based nursing facilities, the excess payment allowance is calculated as follows:

1. For the direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the direct care Medicare-certified hospital-based nursing facility patient-day-weighted median times the percentage specified in 441—subrule 79.1(2) times the Medicaid average case-mix index pursuant to subrule 81.6(19), minus a provider's normalized allowable per patient day direct care costs pursuant to paragraph 81.6(16) "b" times the Medicaid average case-mix index pursuant to subrule 81.6(19). In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the direct care Medicare-certified hospital-based nursing facility patient-day-weighted median.

2. For the non-direct care component, subject to the limit provided below, the excess payment allowance is equal to the percentage specified in 441—subrule 79.1(2) times the difference (if greater than zero) of the following: the non-direct care Medicare-certified hospital-based nursing facility patient-day-weighted median times the percentage specified in 441—subrule 79.1(2), minus a provider's allowable per patient day non-direct care cost pursuant to paragraph 81.6(16)“a.” In no case shall the excess payment allowance exceed the percentage specified in 441—subrule 79.1(2) times the non-direct care Medicare-certified hospital-based nursing facility patient-day-weighted median.

*e.* Reimbursement rate. The Medicaid reimbursement rate is based on allowable costs, updated July 1, 2001, and every second year thereafter, as specified in subparagraphs (1) and (2) below, plus a potential excess payment allowance determined by the methodology in paragraph “d,” not to exceed the rate component limits determined by the methodology in paragraph “f.”

(1) For non-state-owned nursing facilities and Medicare-certified hospital-based nursing facilities, direct care and non-direct care rate components are calculated as follows:

1. The direct care component is equal to the provider's normalized allowable per patient day costs times the Medicaid average case-mix index pursuant to subrule 81.6(19), plus the allowed excess payment allowance as determined by the methodology in paragraph “d.”

2. The non-direct care component is equal to the provider's allowable per patient day costs, plus the allowed excess payment allowance as determined by the methodology in paragraph “d” and the allowable capital cost per diem instant relief add-on as determined by the methodology in paragraph “h.”

(2) The reimbursement rate for state-operated nursing facilities and special population nursing facilities shall be the facility's average allowable per diem costs, adjusted for inflation pursuant to subrule 81.6(18), based on the most current financial and statistical report.

*f.* Notwithstanding paragraphs “d” and “e,” in no instance shall a rate component exceed the rate component limit defined as follows:

(1) For non-state-operated nursing facilities not located in a Metropolitan Statistical Area (not including Medicare-certified hospital-based nursing facilities), the direct care and non-direct care rate component limits are calculated as follows:

1. The direct care rate component limit is the direct care non-state-operated nursing facility patient-day-weighted median times the percentage of the median specified in 441—subrule 79.1(2) times the Medicaid average case-mix index pursuant to subrule 81.6(19).

2. The non-direct care rate component limit is the non-direct care non-state-operated nursing facility patient-day-weighted median multiplied by the percentage of the median specified in 441—subrule 79.1(2) or is 120 percent of the median if the facility qualifies for the enhanced non-direct care rate component limit pursuant to paragraph “h.”

(2) For non-state-operated nursing facilities located in a Metropolitan Statistical Area (not including Medicare-certified hospital-based nursing facilities), the direct care and non-direct care rate component limits are calculated as follows:

1. The direct care rate component limit is the direct care non-state-operated nursing facility patient-day-weighted median times the percentage of the median specified in 441—subrule 79.1(2) times the wage factor specified in paragraph “d” times the Medicaid average case-mix index pursuant to subrule 81.6(19).

2. The non-direct care rate component limit is the non-direct care non-state-operated nursing facility patient-day-weighted median multiplied by the percentage of the median specified in 441—subrule 79.1(2) or is 120 percent of the median if the facility qualifies for the enhanced non-direct care rate component limit pursuant to paragraph “h.”

(3) For Medicare-certified hospital-based nursing facilities, the direct care and non-direct care rate component limits are calculated as follows:

1. The direct care rate component limit is the direct care Medicare-certified hospital-based nursing facility patient-day-weighted median times the percentage of the median specified in 441—subrule 79.1(2) times the Medicaid average case-mix index pursuant to subrule 81.6(19).

2. The non-direct care rate component limit is the non-direct care Medicare-certified hospital-based nursing facility patient-day-weighted median multiplied by the percentage of the median specified in 441—subrule 79.1(2) or is 120 percent of the median if the facility qualifies for the enhanced non-direct care rate component limit pursuant to paragraph “h.”

(4) For special population nursing facilities enrolled on or after June 1, 1993, the upper limit on their rate is equal to the sum of the following:

1. The direct care Medicare-certified hospital-based nursing facility patient-day-weighted median times the percentage of the median specified in 441—subrule 79.1(2).

2. The non-direct care Medicare-certified hospital-based nursing facility patient-day-weighted median multiplied by the percentage of the median specified in 441—subrule 79.1(2) or 120 percent of the median if the facility qualifies for the enhanced non-direct care rate component limit pursuant to paragraph “h.”

g. Pay-for-performance program. Effective July 1, 2010, additional reimbursement based on the nursing facility pay-for-performance program is available for non-state-owned facilities as provided in this paragraph in state fiscal years for which funding is appropriated by the legislature. The pay-for-performance program provides additional reimbursement based upon a nursing facility’s achievement of multiple favorable outcomes as determined by established benchmarks. The reimbursement is issued as an add-on payment after the end of any state fiscal year (which is referred to in this paragraph as the “payment period”) for which there is funding appropriated by the legislature.

(1) Scope. Additional reimbursement for the nursing facility pay-for-performance program is not available to Medicare-certified hospital-based nursing facilities, state-operated nursing facilities, or special population nursing facilities. Therefore, data from these facility types shall not be used when determining eligibility for or the amount of additional reimbursement based on the nursing facility pay-for-performance program.

(2) Benchmarks. The pay-for-performance benchmarks include characteristics in four domains: quality of life, quality of care, access, and efficiency. These characteristics are objective and measurable and when considered in combination with each other are deemed to have a correlation to a resident’s quality of life and care. While any single measure does not ensure the delivery of quality care, a nursing facility’s achievement of multiple measures suggests that quality is an essential element in the facility’s delivery of resident care.

(3) Definition of direct care. For the purposes of the nursing facility pay-for-performance program, “direct care staff” is defined to include registered nurses (RNs), licensed practical nurses (LPNs), certified nurse assistants (CNAs), rehabilitation nursing, and other contracted nursing services. “Direct care staff” does not include the director of nursing (DON) or minimum data set (MDS) coordinator.

(4) Qualifying for additional reimbursement. The Iowa Medicaid enterprise shall annually award points based on the measures achieved in each of the four domains, as described in subparagraphs (5) through (8). The maximum available points are 100. To qualify for additional Medicaid reimbursement under the nursing facility pay-for-performance program, a facility must achieve a minimum score of 51 points. The relationship of the score achieved to additional payments is described in subparagraph (10). Payments are subject to reduction or forfeiture as described in subparagraphs (12) and (13).

(5) Domain 1: Quality of life.

Standard	Measurement Period	Value	Source
Subcategory: Person-Directed Care			
Enhanced Dining A: The facility makes available menu options and alternative selections for all meals.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification

Standard	Measurement Period	Value	Source
Enhanced Dining B: The facility provides residents with access to food and beverages 24 hours per day and 7 days per week and empowers staff to honor resident choices.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification
Enhanced Dining C: The facility offers at least one meal per day for an extended period to give residents the choice of what time to eat.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	2 points	Self-certification
Resident Activities A: The facility employs a certified activity coordinator for at least 38 minutes per week per licensed bed.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification
Resident Activities B: The facility either has activity staff that exceed the required minimum set by law or has direct care staff who are trained to plan and conduct activities and carry out both planned and spontaneous activities on a daily basis.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification
Resident Activities C: The facility's residents report that activities meet their social, emotional and spiritual needs.	For SFY 2010, 10/1/09 to 3/31/10; thereafter, July through March of payment period	2 points	Self-certification
Resident Choice A: The facility allows residents to set their own schedules, including what time to get up and what time to go to bed.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification
Resident Choice B: The facility allows residents to have a choice of whether to take a bath or shower and on which days and at what time the bath or shower will be taken.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	1 point	Self-certification
Consistent Staffing: The facility has all direct care staff members caring for the same residents at least 70% of their shifts..	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	3 points	Self-certification
National Accreditation: The facility has CARF or another nationally recognized accreditation for the provision of person-directed care.	For SFY 2010, 10/1/09 to 6/30/10; thereafter, payment period	13 points NOTE: A facility that receives points for this measure does not receive points for any other measures in this subcategory.	Self-certification

Standard	Measurement Period	Value	Source
Subcategory: Resident Satisfaction			
<p>Resident/Family Satisfaction Survey: The facility administers an anonymous resident/family satisfaction survey annually. The survey tool must be developed, recognized, and standardized by an entity external to the facility. Results must be tabulated by an entity external to the facility.</p> <p>To qualify for the measure, the facility must have a response rate of at least 35%. A summary report of the aggregate results and point scale must be made publicly available and be posted prominently along with the facility's state survey results until the next satisfaction survey is completed.</p>	For SFY 2010, survey completed between 9/1/08 and 3/31/10; thereafter, survey completed between October 1 and March 31 of the payment period	5 points	Form 470-3891, Nursing Facility Opinion Survey Transmittal, submitted by independent entity that compiled results
<p>Long-Term Care Ombudsman: The facility has resolved 70% or more of complaints received and investigated by the local or state ombudsman.</p>	Calendar year ending December 31 of the payment period	5 points if resolution 70% to 74%  7 points if resolution 75% or greater	LTC ombudsman's list of facilities meeting the standard

## (6) Domain 2: Quality of care.

Standard	Measurement Period	Value	Source
Subcategory: Survey			
<p>Deficiency-Free Survey: The facility is deficiency-free on the latest annual state and federal licensing and certification survey and any subsequent surveys, complaint investigations, or revisit investigations.</p> <p>If a facility's only scope and severity deficiencies are an A level pursuant to 42 CFR Part 483, Subparts B and C, as amended to July 30, 1999, the facility shall be deemed to have a deficiency-free survey for purposes of this measure. Surveys are considered complete when all appeal rights have been exhausted.</p>	Calendar year ending December 31 of the payment period, including any subsequent surveys, revisit, or complaint investigations	10 points	DIA list of facilities meeting the standard
<p>Regulatory Compliance with Survey: No on-site revisit to the facility is required for recertification surveys or for any substantiated complaint investigations during the measurement period.</p>	Calendar year ending December 31 of the payment period, including any subsequent surveys, revisits, or complaint investigations	5 points NOTE: A facility that receives points for a deficiency-free survey does not receive points for this measure.	DIA list of facilities meeting the standard

Standard	Measurement Period	Value	Source
<b>Subcategory: Staffing</b>			
<p><b>Nursing Hours Provided:</b> The facility's per-resident-day nursing hours are at or above one-half standard deviation above the mean of per-resident-day nursing hours for all facilities.</p> <p>Nursing hours include those of RNs, LPNs, CNAs, rehabilitation nurses, and other contracted nursing services. Nursing hours shall be normalized to remove variations in staff hours associated with different levels of resident case mix.</p>	Facility fiscal year ending on or before December 31 of the payment period	<p>5 points if case-mix adjusted nursing hours are above mean plus one-half standard deviation</p> <p>10 points if case-mix adjusted nursing hours are greater than mean plus one standard deviation</p>	Form 470-0030, Financial and Statistical Report, as analyzed by IME provider cost audit and rate setting unit. The facility cost report period case-mix index shall be used to normalize nursing hours.
<p><b>Employee Turnover:</b> The facility has overall employee turnover of 50% or less and CNA turnover of 55% or less.</p>	Facility fiscal year ending on or before December 31 of the payment period	<p>5 points if overall turnover is between 40% and 50% and CNA turnover is between 45% and 55%</p> <p>10 points if overall turnover is less than or equal to 40% and CNA turnover is less than or equal to 45%</p>	Form 470-0030, Financial and Statistical Report, as analyzed by IME provider cost audit and rate setting unit
<p><b>Staff Education, Training and Development:</b> The facility provides staff education, training, and development at 25% above the basic requirements for each position that requires continuing education. The number of hours for these programs must apply to at least 75% of all staff of the facility, based upon administrator or officer certification.</p>	Calendar year ending December 31 of the payment period	5 points	Self-certification
<p><b>Staff Satisfaction Survey:</b> The facility annually administers an anonymous staff satisfaction survey. The survey tool must be developed, recognized, and standardized by an entity external to the facility and must identify worker job classification. Results must be tabulated by an entity external to the facility.</p> <p>To qualify for this measure, the facility must have a response rate of at least 35%. A summary report of the aggregate results and point scale must be made publicly available and be posted prominently along with the facility's state survey results until the next satisfaction survey is completed.</p>	For SFY 2010, survey completed between 9/1/08 and 3/31/10; thereafter, survey completed between October 1 and March 31 of the payment period	5 points	Form 470-3891, Nursing Facility Opinion Survey Transmittal, submitted by independent entity that compiled results

Standard	Measurement Period	Value	Source
Subcategory: Nationally Reported Quality Measures			
High-Risk Pressure Ulcer: The facility has occurrences of high-risk pressure ulcers at rates one-half standard deviation or more below the mean percentage of occurrences for all facilities, based on MDS data as applied to the nationally reported quality measures.	12-month period ending September 30 of the payment period	3 points if one-half to one standard deviation below the mean percentage of occurrences  5 points if one standard deviation or more below the mean percentage of occurrences	IME medical services unit report based on MDS data as reported by CMS
Physical Restraints: The facility has a physical restraint rate of 0% based on MDS data as applied to the nationally reported quality measures.	12-month period ending September 30 of the payment period	5 points	IME medical services unit report based on MDS data as reported by CMS
Chronic Care Pain: The facility has occurrences of chronic care pain at rates one-half standard deviation or more below the mean rate of occurrences for all facilities based on MDS data as applied to the nationally reported quality measures.	12-month period ending September 30 of the payment period	3 points if one-half to one standard deviation below the mean rate of occurrences  5 points if one standard deviation or more below the mean rate of occurrences	IME medical services unit report based on MDS data as reported by CMS
High Achievement of Nationally Reported Quality Measures: The facility received at least 9 points from a combination of the measures listed in this subcategory.	12-month period ending September 30 of the payment period	2 points if the facility receives 9 to 12 points in the subcategory of nationally reported quality measures  4 points if the facility receives 13 to 15 points in this subcategory	IME medical services unit report based on MDS data as reported by CMS

## (7) Domain 3: Access.

Standard	Measurement Period	Value	Source
Special Licensure Classification: The facility has a unit licensed for the care of residents with chronic confusion or a dementing illness (CCDI unit).	Status on December 31 of the payment period	4 points	DIA list of facilities meeting the standard

Standard	Measurement Period	Value	Source
High Medicaid Utilization: The facility has Medicaid utilization at or above the statewide median plus 10%. Medicaid utilization is determined by dividing total nursing facility Medicaid days by total nursing facility patient days.	Facility fiscal year ending on or before December 31 of the payment period	3 points if Medicaid utilization is more than the median plus 10%  4 points if Medicaid utilization is more than the median plus 20%	Form 470-0030, Financial and Statistical Report, as analyzed by IME provider cost audit and rate setting unit

## (8) Domain 4: Efficiency.

Standard	Measurement Period	Value	Source
High Occupancy Rate: The facility has an occupancy rate at or above 95%. "Occupancy rate" is defined as the percentage derived when dividing total patient days based on census logs by total bed days available based on the number of authorized licensed beds within the facility.	Facility fiscal year ending on or before December 31 of the payment period	4 points	Form 470-0030, Financial and Statistical Report, as analyzed by IME provider cost audit and rate setting unit
Low Administrative Costs: The facility's percentage of administrative costs to total allowable costs is one-half standard deviation or more below the mean percentage of administrative costs for all Iowa facilities.	Facility fiscal year ending on or before December 31 of the payment period	3 points if administrative costs percentage is less than the mean less one-half standard deviation  4 points if administrative costs percentage is less than the mean less one standard deviation	Form 470-0030, Financial and Statistical Report, as analyzed by IME provider cost audit and rate setting unit

(9) Source of measurements. Source reports are due to the department by May 1 of each year. For those measures whose source is self-certification, the data shall be drawn from Form 470-4828, Nursing Facility Medicaid Pay-for-Performance Self-Certification Report, submitted by the facility to IME. The independent party that collects and compiles the results of the resident/family survey shall communicate the results to IME on Form 470-3891, Nursing Facility Opinion Survey Transmittal. The department shall request required source reports from the long-term care ombudsman and the department of inspections and appeals (DIA).

(10) Calculation of potential add-on payment. The number of points awarded shall be determined annually, for each state fiscal year for which funding is appropriated by the legislature. A determination is made on whether a facility qualifies for an add-on payment at the end of the payment period. Based upon the number of points awarded, a retroactive add-on payment is made effective beginning the first day of the payment period as follows, contingent upon legislative funding for the state fiscal year, and subject to subparagraph (11):

<u>Score</u>	<u>Amount of Add-on Payment</u>
0-50 points	No additional reimbursement
51-60 points	1 percent of the direct care plus nondirect care cost component patient-day-weighted medians, subject to reduction as provided in subparagraph (13)
61-70 points	2 percent of the direct care plus nondirect care cost component patient-day-weighted medians, subject to reduction as provided in subparagraph (13)
71-80 points	3 percent of the direct care plus nondirect care cost component patient-day-weighted medians, subject to reduction as provided in subparagraph (13)
81-90 points	4 percent of the direct care plus nondirect care cost component patient-day-weighted medians, subject to reduction as provided in subparagraph (13)
91-100 points	5 percent of the direct care plus nondirect care cost component patient-day-weighted medians, subject to reduction as provided in subparagraph (13)

(11) Monitoring for reduction or forfeiture of reimbursement. The department shall request the department of inspections and appeals to furnish by September 1, December 1, March 1, and August 1 of each year a list of nursing facilities subject to a reduction or forfeiture of the additional reimbursement pursuant to the criteria in subparagraph (12) or (13).

(12) Forfeiture of additional reimbursement. A nursing facility shall not be eligible for any additional reimbursement under this program if during the payment period the nursing facility is cited for a deficiency resulting in actual harm or immediate jeopardy pursuant to the federal certification guidelines at a scope and severity level of H or higher, regardless of the amount of fines assessed.

(13) Reduction of additional reimbursement. The additional reimbursement for the nursing facility pay-for-performance program calculated according to subparagraph (10) shall be subject to reduction based on survey compliance as follows:

1. The add-on payment shall be suspended for any month in which the nursing facility has received denial of payment for new admission status that was enforced by CMS.

2. A facility's add-on payment shall be reduced by 25 percent for each citation received during the year for a deficiency resulting in actual harm at a scope and severity level of G pursuant to the federal certification guidelines.

3. If the facility fails to cure a cited level G deficiency within the time allowed by the department of inspections and appeals, the add-on payment shall be forfeited, and the facility shall not receive any nursing facility pay-for-performance program payment for the payment period.

(14) Application of additional payments. The additional reimbursement for the nursing facility pay-for-performance program shall be paid to qualifying facilities at the end of the state fiscal year. At the end of each state fiscal year, the Iowa Medicaid enterprise shall:

1. Retroactively adjust each qualifying facility's quarterly rates from the first day of the state fiscal year to include the amount of additional reimbursement for the nursing facility pay-for-performance program calculated according to paragraph 81.6(16)"g"; and

2. Reprice all facility claims with dates of service during the period in which an additional reimbursement for the nursing facility pay-for-performance program is effective to reflect the adjusted reimbursement rate.

(15) Use of additional payments. As a condition of eligibility for such payments, any additional payments received by a nursing facility for the pay-for-performance program must be:

1. Used to support direct care staff through increased wages, enhanced benefits, and expanded training opportunities; and

2. Used in a manner that improves and enhances quality of care for residents.

(16) Monitoring facility compliance on the use of payments. Each nursing facility shall complete Form 470-4829, Nursing Facility Medicaid Enhanced Payment Report, to report the use of any additional payments received for the nursing facility pay-for-performance program. Form 470-4829 is due to the department each year by May 1, beginning May 1, 2011. Failure to submit the report by the due date shall result in disqualification for add-on payment for the next pay-for-performance payment period.

(17) Reporting results of the program. The department shall publish the results of the nursing facility pay-for-performance program annually.

*h.* Capital cost per diem instant relief add-on and enhanced non-direct care rate component limit. Contingent upon approval from the Centers for Medicare and Medicaid Services (CMS) and to the extent that funding is appropriated by the Iowa general assembly, additional reimbursement is available for nursing facilities that have completed a complete replacement, new construction, or major renovations. Additional reimbursement under this paragraph is available for services rendered beginning on October 1, 2007, or beginning on the effective date of CMS approval if CMS approval is effective on a later date.

(1) Types of additional reimbursement. Two types of additional reimbursement are available:

1. The capital cost per diem instant relief add-on is an amount per patient day to be added to the non-direct care component of the reimbursement rate and is subject to the non-direct care rate component limit as determined in paragraph “*f.*”

2. The enhanced non-direct care rate component limit provides an increase in the percentage of the median that is applied when calculating the non-direct care rate component limit as defined in paragraph “*f.*” The percentage of the median is increased to 120 percent when the enhanced non-direct care rate component limit is granted.

(2) Eligible projects. To qualify for either the capital cost per diem instant relief add-on or the enhanced non-direct care rate component limit, a facility must have undertaken a complete replacement, new construction, or major renovations for the purpose of:

1. Rectification of a violation of Life Safety Code requirements; or
2. Development of home- and community-based waiver program services.

(3) Additional requirements for all requests. To qualify for additional reimbursement, a facility with an eligible project must also meet the following requirements:

1. The facility has Medicaid utilization at or above 40 percent for the two-month period before the request for additional reimbursement is submitted. Medicaid utilization for this purpose is calculated as total nursing facility Medicaid patient days divided by total licensed bed capacity as reported on the facility’s most current financial and statistical report.

2. The facility meets the accountability measure criteria set forth in paragraph “*g.*” subparagraph (1), deficiency-free survey, or subparagraph (2), regulatory compliance with survey, based on the most current information available when the request for additional reimbursement is submitted.

3. The facility has documented active participation in a quality of care program.

4. The facility has documented plans to facilitate person-directed care, dementia units, or specialty post-acute services.

(4) Additional requirements for waiver services. To qualify for additional reimbursement for the development of home- and community-based waiver services, the facility shall also meet the following requirements:

1. Services shall be provided in an underserved area, which may include a rural area.
2. Services shall be provided on the direct site of the facility but not as a nursing facility service.
3. Services shall meet all federal and state requirements for Medicaid reimbursement.
4. Services shall include one or more of the following: adult day care as defined by 441—subrule 78.37(1), consumer-directed attendant care as defined by 441—subrule 78.37(15) provided in an assisted living setting, day habilitation as defined by 441—subrule 78.41(14), home-delivered meals as defined by 441—subrule 78.37(8), emergency response system as defined by 441—subrule 78.37(2), and respite care as defined by 441—subrule 78.37(6).

(5) Submission of request. A facility shall submit a written request for the capital cost per diem instant relief add-on, the enhanced non-direct care rate component limit, or a preliminary evaluation of whether a project may qualify for additional reimbursement to the Iowa Medicaid Enterprise, Provider

Cost Audit and Rate Setting Unit, 100 Army Post Road, Des Moines, Iowa 50315. A qualifying facility may request one or both types of additional reimbursement.

1. A request for the capital cost per diem instant relief add-on may be submitted no earlier than 30 days before the complete replacement, new construction, or major renovations are placed in service.

2. A request for the enhanced non-direct care rate component limit may be submitted with a request for a capital cost per diem instant relief add-on or within 60 days after the release of a rate determination letter reflecting a change in the non-direct care rate component limit.

3. A request for a preliminary evaluation may be submitted when a facility is preparing a feasibility projection for a construction or renovation project. A preliminary evaluation does not guarantee approval of the capital cost per diem instant relief add-on or enhanced non-direct care rate component limit upon submission of a formal request.

(6) Content of request for add-on. A facility's request for the capital cost per diem instant relief add-on shall include:

1. A description of the project for which the add-on is requested, including a list of goals for the project and a time line of the project that spans the life of the project.

2. Documentation that the facility meets the qualifications in subparagraphs (2) and (3) and, if applicable, in subparagraph (4).

3. The period during which the add-on is requested (no more than two years).

4. Whether the facility is also requesting the enhanced non-direct care rate component limit. (See subparagraph (7) for requirements.)

5. A copy of the facility's most current depreciation schedule which clearly identifies the cost of the project for which the add-on is requested if assets placed in service by that project are included on the schedule. Any removal of assets shall be clearly identifiable either on the depreciation schedule or on a separate detailed schedule, and that schedule shall include the amount of depreciation expense for removed assets that is included in the current reimbursement rate.

6. If the cost of the project is not reported on the submitted depreciation schedule, a detailed schedule of the assets to be placed in service by the project, including:

- The estimated date the assets will be placed into service;
- The total estimated depreciable value of the assets;
- The estimated useful life of the assets based upon existing Medicaid and Medicare provisions;

and

- The estimated annual depreciation expense of the assets using the straight-line method in accordance with generally accepted accounting principles.

7. The facility's estimated annual licensed bed capacity and estimated annual total patient days. If this information is not provided, estimated annual total patient days shall be determined using the most current submitted financial and statistical report.

8. If interest expense has been or will be incurred and is related to the project for which the add-on is requested, a copy of the general terms of the debt service and the estimated annual amount of interest expense shall be submitted.

9. If any debt service has been retired, a copy of the general terms of the debt service and the amount of interest expense for debt service retired that is included in the current reimbursement rate.

(7) Content of request for enhanced limit. A facility's request for the enhanced non-direct care rate component limit shall include:

1. A description of the project for which the enhanced non-direct care rate component limit is requested, including a list of goals for the project and a time line of the project that spans the life of the project.

2. Documentation that the facility meets the qualifications in subparagraphs (2) and (3) and, if applicable, in subparagraph (4).

3. Identification of any period in which the capital cost per diem instant relief add-on was previously granted and the number of times the capital cost per diem instant relief add-on and the enhanced non-direct care rate component limit have previously been granted.

(8) Content of request for preliminary evaluation. A facility's request for a preliminary evaluation of a proposed project shall include:

1. The estimated completion date of the project.
2. The estimated date when a formal request for an add-on or enhanced limit will be submitted.
3. For a preliminary evaluation for a capital cost per diem instant relief add-on, all information required in subparagraph (6).
4. For a preliminary evaluation for the enhanced non-direct care rate component limit, all information required in subparagraph (7).

(9) Calculation of capital cost per diem instant relief add-on. The capital cost per diem instant relief add-on is calculated by dividing the annual estimated property costs for the complete replacement, new construction, or major renovation project for which the add-on is granted by the facility's estimated annual total patient days.

1. Effective December 1, 2009, total patient days shall be determined using the most current submitted financial and statistical report or using the estimated total patient days as reported in the request for the add-on. For purposes of calculating the add-on, total patient days shall be the greater of the estimated annual total patient days or 85 percent of the facility's estimated licensed capacity.

2. The annual estimated property costs for the project are calculated as the estimated annual depreciation expense for the cost of the project, plus estimated annual interest expense for the cost of the project, less the amount of depreciation expense for assets removed that is included in the current reimbursement rate and the amount of interest expense for debt service retired that is included in the current reimbursement rate.

3. A reconciliation between the estimated amounts and actual amounts shall be completed as described in subparagraph (12).

(10) Effective date of capital cost per diem instant relief add-on. Subject to available funding and previously approved requests for capital cost per diem instant relief add-ons and enhanced non-direct care rate component limits, a capital cost per diem instant relief add-on shall be effective the first day of the calendar quarter following the placement in service of the assets associated with the add-on and receipt of all required information. The capital cost per diem instant relief add-on shall be added to the non-direct care component of the reimbursement rate, not to exceed the non-direct care rate component limit as determined in paragraph "f."

(11) Term of capital cost per diem instant relief add-on. The period for which a facility may be granted the capital cost per diem instant relief add-on shall not exceed two years. The capital cost per diem instant relief add-on shall terminate at the time of the subsequent biennial rebasing. If the facility's submitted annual financial and statistical report used in the subsequent biennial rebasing does not include 12 months of property costs for the assets with which the capital cost per diem instant relief add-on is associated, including interest expense, if applicable, the facility may submit a new request for the capital cost per diem instant relief add-on.

(12) Reconciliation of capital cost per diem instant relief add-on. During the period in which the capital cost per diem instant relief add-on is granted, the Iowa Medicaid enterprise shall recalculate the amount of the add-on based on actual allowable costs and patient days reported on the facility's submitted annual financial and statistical report. A separate reconciliation shall be performed for each cost report period in which the capital cost per diem instant relief add-on was paid. The facility shall submit with the annual financial and statistical report a separate schedule reporting total patient days per calendar quarter and a current depreciation schedule identifying the assets related to the add-on.

1. Effective December 1, 2009, for purposes of recalculating the capital cost per diem instant relief add-on, total patient days shall be based on the greater of the number of actual patient days during the period in which the add-on was paid or 85 percent of the facility's actual licensed bed capacity during the period in which the add-on was paid.

2. The recalculated capital cost per diem instant relief add-on shall be added to the non-direct care component of the reimbursement rate for the relevant period, not to exceed the non-direct care rate component limit as determined in paragraph "f." The facility's quarterly rates for the relevant period shall be retroactively adjusted to reflect the recalculated non-direct care component of the reimbursement

rate. All claims with dates of service during the period the capital cost per diem instant relief add-on is paid shall be repriced to reflect the recalculated capital cost per diem instant relief add-on.

(13) Effective date of enhanced non-direct care rate component limit. Subject to available funding and previously approved requests for capital cost per diem instant relief add-ons and enhanced non-direct care rate component limits, an enhanced non-direct care rate component limit shall be effective:

1. With a capital cost per diem instant relief add-on (if requested at the same time); or
2. Retroactive to the first day of the quarter in which the revised non-direct care rate component limit amount is effective. All claims with dates of service from the effective date shall be repriced.

(14) Term of enhanced non-direct care rate component limit. The period for which a facility may be granted an enhanced non-direct care rate component limit without reapplication shall not exceed two years. The total period for which a facility may be granted enhanced non-direct care rate component limits shall not exceed ten years. If the amount of the non-direct care rate component limit is revised during the period for which a facility is granted the enhanced limit, the approval shall be terminated effective the first day of the quarter in which the revised non-direct care rate component limit is effective. The facility may submit a new request for the enhanced non-direct care rate component limit.

(15) Ongoing conditions. Any capital cost per diem instant relief add-on or enhanced non-direct care rate component limit granted by the Iowa Medicaid enterprise is temporary. Additional reimbursement shall be immediately terminated if:

1. The facility does not continue to meet all of the initial qualifications for additional reimbursement; or
2. The facility does not make reasonable progress on any plans required for initial qualification; or
3. The facility's medical assistance program or Medicare certification is revoked. A facility whose certification is revoked is not eligible to submit a subsequent request for a capital cost per diem instant relief add-on or the enhanced non-direct care rate component limit.

(16) Change of ownership. Following a change in nursing facility ownership, any capital cost per diem instant relief add-on or enhanced non-direct care rate component limit that was granted before the change in ownership shall continue under the new owner. Future reimbursement rates shall be determined pursuant to subrules 81.6(15) and 81.6(16).

**81.6(17) Cost report documentation.** All nursing facilities, except the Iowa Veterans Home, shall submit an annual cost report based on the closing date of the facility's fiscal year that incorporates documentation as set forth below. The Iowa Veterans Home shall submit semiannual cost reports based on the closing date of the facility's fiscal year and the midpoint of the facility's fiscal year that incorporate documentation as set forth below. The documentation incorporated in all cost reports shall include all of the following information:

- a. Information on staffing costs, including the number of hours of the following provided per resident per day by all the following: nursing services provided by registered nurses, licensed practical nurses, certified nurse aides, restorative aides, certified medication aides, and contracted nursing services; other care services; administrative functions; housekeeping and maintenance; and dietary services.
- b. The starting and average hourly wage for each class of employees for the period of the report.
- c. An itemization of expenses attributable to the home or principal office or headquarters of the nursing facility included in the administrative cost line item.

**81.6(18) Inflation factor.** The department shall consider an inflation factor in determining the reimbursement rate. The inflation factor shall be based on the CMS Total Skilled Nursing Facility (CMS/SNF) Market Basket Index published by Data Resources, Inc. The CMS/SNF index listed in the latest available quarterly publication prior to the July 1 rate setting shall be used to determine the inflation factor.

**81.6(19) Case-mix index calculation.**

- a. The Resource Utilization Groups-III (RUG-III) Version 5.12b, 34 group, index maximizer model shall be used as the resident classification system to determine all case-mix indices, using data from the minimum data set (MDS) submitted by each facility pursuant to subrule 81.13(9). Standard Version 5.12b case-mix indices developed by CMS shall be the basis for calculating the average

case-mix index and shall be used to adjust the direct care costs in the determination of the direct care patient-day-weighted median and the reimbursement rate pursuant to subrule 81.6(16).

*b.* Each resident in the facility on the last day of each calendar quarter with a completed and submitted assessment shall be assigned a RUG-III 34 group calculated on the resident's most current assessment available on the last day of each calendar quarter. This RUG-III group shall be translated to the appropriate case-mix index referenced in paragraph "a." From the individual resident case-mix indices, two average case-mix indices for each Medicaid nursing facility shall be determined four times per year based on the last day of each calendar quarter.

The facilitywide average case-mix index is the simple average, carried to four decimal places, of all resident case-mix indices. The Medicaid average case-mix index is the simple average, carried to four decimal places, of all indices for residents where Medicaid is known to be the per diem payor source on the last day of the calendar quarter. Assessments that cannot be classified to a RUG-III group due to errors shall be excluded from both average case-mix index calculations.

**81.6(20) Medicare crossover claims for nursing facility services.**

*a. Definitions.* For purposes of this subrule:

"Crossover claim" means a claim for Medicaid payment for Medicare-covered nursing facility services rendered to a Medicare beneficiary who is also eligible for Medicaid. Crossover claims include claims for services rendered to beneficiaries who are eligible for Medicaid in any category including, but not limited to, qualified Medicare beneficiaries and beneficiaries who are eligible for full Medicaid coverage.

"Medicaid-allowed amount" means the Medicaid reimbursement rate for the services rendered (including any portion to be paid by the Medicaid beneficiary as client participation) multiplied by the number of Medicaid units of service included in a crossover claim, as determined under state and federal law and policies.

"Medicaid reimbursement" includes any amount to be paid by the Medicaid beneficiary as Medicaid client participation and any amount to be paid by the department after application of any applicable Medicaid client participation.

"Medicare payment amount" means the Medicare reimbursement rate for the services rendered multiplied by the number of Medicare units of service included in a crossover claim, excluding any Medicare coinsurance or deductible amounts to be paid by the Medicare beneficiary.

*b. Crossover claims.* Crossover claims for services covered under Medicare Part A and under Medicaid are reimbursed as set out in this paragraph.

(1) If the Medicare payment amount for a crossover claim exceeds or equals the Medicaid-allowed amount for that claim, Medicaid reimbursement for the crossover claim will be zero.

(2) If the Medicaid-allowed amount for a crossover claim exceeds the Medicare payment amount for that claim, Medicaid reimbursement for the crossover claim is the lesser of:

1. The Medicaid-allowed amount minus the Medicare payment amount; or
2. The Medicare coinsurance and deductible amounts applicable to the claim.

**81.6(21) Nursing facility quality assurance payments.**

*a. Quality assurance assessment pass-through.* Effective with the implementation of the quality assurance assessment paid pursuant to 441—Chapter 36, Division II, a quality assurance assessment pass-through shall be added to the Medicaid per diem reimbursement rate as otherwise calculated pursuant to this rule. The quality assurance assessment pass-through shall equal the per-patient-day assessment determined pursuant to 441—subrule 36.6(2).

*b. Quality assurance assessment rate add-on.* Effective with the implementation of the quality assurance assessment paid pursuant to 441—Chapter 36, Division II, a quality assurance add-on of \$10 per patient day shall be added to the Medicaid per diem reimbursement rate as otherwise calculated pursuant to this rule.

*c. Use of the pass-through and add-on.* As a condition for receipt of the pass-through and add-on, each nursing facility shall submit information to the department on Form 470-4829, Nursing Facility Medicaid Enhanced Payment Report, demonstrating compliance by the nursing facility with the requirements for use of the pass-through and add-on. If the sum of the quality assurance assessment

pass-through and the quality assurance assessment rate add-on is greater than the total cost incurred by a nursing facility in payment of the quality assurance assessment:

(1) No less than 35 percent of the difference shall be used to increase compensation and costs of employment for direct care workers determined pursuant to 2009 Iowa Acts, Senate File 476.

(2) No less than 60 percent of the difference shall be used to increase compensation and costs of employment for all nursing facility staff, with increases in compensation and costs of employment determined pursuant to 2009 Iowa Acts, Senate File 476.

*d. Effective date.* Until federal financial participation to match money collected from the quality assurance assessment pursuant to 441—Chapter 36, Division II, has been approved by the federal Centers for Medicare and Medicaid Services, none of the nursing facility rate-setting methodologies of this subrule shall become effective.

*e. End date.* If the federal Centers for Medicare and Medicaid Services determines that federal financial participation to match money collected from the quality assurance assessment pursuant to 441—Chapter 36, Division II, is unavailable for any period, or if the department no longer has the authority to collect the assessment, then beginning on the effective date that such federal financial participation is not available or authority to collect the assessment is rescinded, none of the nursing facility rate-setting methodologies of this subrule shall be effective. If the period for which federal match money is unavailable or the authority to collect the assessment is rescinded includes a retroactive period, the department shall:

(1) Recalculate Medicaid rates in effect during that period without the rate-setting methodologies of this subrule;

(2) Recompute Medicaid payments due based on the recalculated Medicaid rates;

(3) Recoup any previous overpayments; and

(4) Determine for each nursing facility the amount of quality assurance assessment collected during that period and refund that amount to the facility.

This rule is intended to implement Iowa Code sections 249A.4 and 249A.16, Iowa Code chapter 249K, and 2009 Iowa Code Supplement chapter 249L.

[ARC 8258B, IAB 11/4/09, effective 1/1/10; ARC 8344B, IAB 12/2/09, effective 12/1/09; ARC 8445B, IAB 1/13/10, effective 12/11/09; ARC 8643B, IAB 4/7/10, effective 3/11/10; ARC 8995B, IAB 8/11/10, effective 9/15/10; ARC 9046B, IAB 9/8/10, effective 8/12/10; ARC 0994C, IAB 9/4/13, effective 11/1/13; ARC 1806C, IAB 1/7/15, effective 3/1/15]

#### **441—81.7(249A) Continued review.**

**81.7(1) Level of care.** The IME medical services unit shall review Medicaid members' need for continued care in nursing facilities, pursuant to the standards and subject to the appeals process in subrule 81.3(1). For all members enrolled with a managed care organization, the managed care organization shall review a Medicaid member's need for continued care in a nursing facility at least annually. The managed care organization must submit documentation to the IME medical services unit for all reviews that indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reviews that indicate a change in the level of care.

**81.7(2) PASRR.** As a condition of payment for nursing facility care under the Medicaid program when there is a significant change in a resident's condition, the nursing facility shall, within 24 hours, initiate a PASRR review by the department's contractor for PASRR evaluations. For purposes of this subrule, "significant change in a resident's condition" means any admission or readmission to the facility immediately following an inpatient psychiatric hospitalization or any change that is likely to impact the resident's treatment needs related to a mental illness or intellectual disability. The evaluation shall determine:

*a.* Whether nursing facility care or skilled nursing care is medically necessary and appropriate for the resident under 441—subrules 79.9(1) and 79.9(2);

*b.* Whether nursing facility services continue to be appropriate for the resident, as opposed to care in a more specialized facility or in a community-based setting; and

c. Whether the resident needs specialized services for mental illness or intellectual disability, as described in paragraph 81.3(3) "b."

This rule is intended to implement Iowa Code sections 249A.2(1), 249A.3(3), and 249A.4. [ARC 8445B, IAB 1/13/10, effective 12/11/09; ARC 9726B, IAB 9/7/11, effective 9/1/11; ARC 9888B, IAB 11/30/11, effective 1/4/12; ARC 1806C, IAB 1/7/15, effective 3/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.8(249A) Quality of care review.** Rescinded IAB 8/8/90, effective 10/1/90.

**441—81.9(249A) Records.**

**81.9(1) Content.** The facility shall as a minimum maintain the following records:

a. All records required by the department of public health and the department of inspections and appeals.

b. Records of all treatments, drugs, and services for which vendors' payments have been made or are to be made under the medical assistance program, including the authority for and the date of administration of the treatment, drugs, or services.

c. Documentation in each resident's records which will enable the department to verify that each charge is due and proper prior to payment.

d. Financial records maintained in the standard, specified form including the facility's most recent audited cost report.

e. All other records as may be found necessary by the department in determining compliance with any federal or state law or rule or regulation promulgated by the United States Department of Health and Human Services or by the department.

f. Census records to include the date, number of residents at the beginning of each day, names of residents admitted, and names of residents discharged.

(1) Census information shall be provided for all residents of the facility.

(2) Census figures for each type of care shall be totaled monthly to indicate the number admitted, the number discharged, and the number of patient days.

(3) Failure to maintain acceptable census records shall result in the per diem rate being computed on the basis of 100 percent occupancy and a request for refunds covering indicated recipients of nursing care which have not been properly accounted for.

g. Resident accounts.

h. In-service education program records.

i. Inspection reports pertaining to conformity with federal, state and local laws.

j. Residents' personal records.

k. Residents' medical records.

l. Disaster preparedness reports.

**81.9(2) Retention.** Records identified in subrule 81.9(1) shall be retained in the facility for a minimum of five years or until an audit is performed on those records, whichever is longer.

**81.9(3) Change of owner.** All records shall be retained within the facility upon change of ownership.

This rule is intended to implement Iowa Code sections 249A.2(6) and 249A.3(2) "a."

**441—81.10(249A) Payment procedures.**

**81.10(1) Method of payment.** Except for Medicaid accountability measures payment established in paragraph 81.6(16) "g," facilities shall be reimbursed under a modified price-based vendor payment program. A per diem rate shall be established based on information submitted according to rule 441—81.6(249A). Effective July 1, 2002, the per diem rate shall include an amount for Medicaid accountability measures.

**81.10(2) Authorization of payment.** The department shall authorize payment for care in a facility. The authorization shall be obtained prior to admission of the resident, whenever possible. For a nursing facility to be eligible for Medicaid payment for a resident, the facility must, when applicable, exhaust all Medicare benefits.

**81.10(3)** Rescinded IAB 8/9/89, effective 10/1/89.

**81.10(4) *Periods authorized for payment.***

*a.* Payment shall be made on a per diem basis for the portion of the month the resident is in the facility.

*b.* Payment will be authorized as long as the resident is certified as needing care in a nursing facility.

*c.* Payment will be approved for the day of admission but not the day of discharge or death.

*d.* Payment will be approved for periods the resident is absent overnight for purpose of visitation or vacation. The facility will be paid to hold the bed for a period not to exceed 18 days in any calendar year. Additional days shall be based upon a recommendation by the resident's physician in the plan of care that additional days would be rehabilitative.

*e.* Payment will be approved for a period not to exceed 10 days in any calendar month when the resident is absent due to hospitalization. Medicaid payment to the facility may not be initiated while a resident is on reserve bed days unless the person was residing in the facility as a private pay resident prior to the hospitalization and returns to the facility as a resident.

*f.* Payment for periods when residents are absent for a visit, vacation, or hospitalization shall be made at zero percent of the nursing facility's rate, except for special population facilities and state-operated nursing facilities, which shall be paid for such periods at 42 percent of the facility's rate.

*g.* Payment for residents determined by utilization review to require the residential level of care shall be made at the maximum state supplementary assistance rate. This rate is effective as of the date of final notice by utilization review that the lower level of care is required.

*h.* In-state nursing facilities serving Medicaid eligible patients who require a ventilator at least six hours every day, are inappropriate for home care, and have medical needs that require skilled care as determined by the peer review organization shall receive reimbursement for the care of these patients equal to the sum of the Medicare-certified hospital-based nursing facility direct care rate component limit plus the Medicare-certified hospital-based nursing facility non-direct care rate component limit factor pursuant to subparagraph 81.6(16) "f"(3). Facilities may continue to receive reimbursement at this rate for 30 days for any person weaned from a respirator who continues to reside in the facility and continues to meet skilled care criteria for those 30 days.

*i.* Payment for residents of a special population facility licensed by the department of inspections and appeals as an intermediate care facility for persons with mental illness will be made only when the resident is aged 65 or over. If a resident under the age of 65 is admitted with a payment source other than Medicaid, the facility shall notify the resident, or when applicable the resident's guardian or legal representative, that Iowa Medicaid may neither make payment to the facility nor make payment for any other services rendered by any provider while the person resides in the facility, until the resident attains the age of 65.

*j.* Nonpayment for provider-preventable conditions. Reimbursement will not be made for patient days attributable to preventable conditions identified pursuant to this rule that develop in a nursing facility. Any patient days attributable to a provider-preventable condition must be billed as noncovered days. A provider-preventable condition is one in which any of the following occur:

- (1) The wrong surgical or other invasive procedure is performed on a resident; or
- (2) A surgical or other invasive procedure is performed on the wrong body part; or
- (3) A surgical or other invasive procedure is performed on the wrong resident.

**81.10(5) *Supplementation.*** Only the amount of client participation may be billed to the resident for the cost of care, and the facility must accept the combination of client participation and payment made through the Iowa Medicaid program as payment in full for the care of a resident. No additional charges shall be made to residents or family members for any supplies or services required in the facility-developed plan of care for the resident.

Residents may choose to spend their personal funds on items of personal care such as professional beauty or barber services, but the facility shall not require this expenditure and shall not routinely obligate residents to any use of their personal funds.

- a.* Supplies or services that the facility shall provide:

(1) Nursing services, social work services, activity programs, individual and group therapy, rehabilitation or habilitation programs provided by facility staff in order to carry out the plan of care for the resident.

(2) Services related to the nutrition, comfort, cleanliness and grooming of a resident as required under state licensure and Medicaid survey regulations.

(3) Medical equipment and supplies including wheelchairs except for customized wheelchairs for which separate payment may be made pursuant to 441—subparagraph 78.10(2)“a”(4), medical supplies except for those listed in 441—paragraph 78.10(4)“b,” oxygen except under circumstances specified in 441—paragraph 78.10(2)“a,” and other items required in the facility-developed plan of care.

(4) Nonprescription drugs ordered by the physician except for those specified in 441—paragraph 78.1(2)“f.”

(5) Fees charged by medical professionals for services requested by the facility that do not meet criteria for direct Medicaid payment.

*b.* The facility shall arrange for nonemergency transportation for members to receive necessary medical services outside the facility.

(1) If a family member, friend, or volunteer is not available to provide the transportation at no charge, the facility shall arrange and pay for the medically necessary transportation within 30 miles of the facility (one way).

(2) For medically necessary transportation beyond 30 miles from the facility (one way), when no family member, friend, or volunteer is available to provide the transportation at no charge, the facility shall arrange for transportation through the broker designated by the department, with the cost to be paid by the broker pursuant to rule 441—78.13(249A).

*c.* The Medicaid program will provide direct payment to relieve the facility of payment responsibility for certain medical equipment and services that meet the Medicare definition of medical necessity and are provided by providers enrolled in the Medicaid programs including:

(1) Physician services.

(2) Ambulance services.

(3) Hospital services.

(4) Hearing aids, braces and prosthetic devices.

(5) Customized wheelchairs for which separate payment may be made pursuant to 441—subparagraph 78.10(2)“a”(4).

*d.* Other supplies or services for which direct Medicaid payment may be available include:

(1) Drugs covered pursuant to 441—subrule 78.1(2).

(2) Dental services.

(3) Optician and optometrist services.

(4) Repair of medical equipment and appliances that belong to the resident.

(5) Transportation to receive medical services beyond 30 miles from the facility (one way), through the broker designated by the department pursuant to a contract between the department and the broker.

(6) Other medical services specified in 441—Chapter 78.

*e.* The following supplementation is permitted:

(1) The resident, the resident’s family, or friends may pay to hold the resident’s bed in cases where a resident who is not discharged from the facility is absent overnight. When the resident is discharged, the facility may handle the holding of the bed in the same manner as for a private paying resident.

(2) Payments made by the resident’s family toward cost of care of the resident shall not be considered as supplementation so long as the payments are included in client participation and are not over and above the payment made by the state for care of the resident.

(3) If a physician does not order a nonprescription drug by brand name, the facility may offer a generic. If a resident or family member requests a brand name, the resident or family member may pay for the brand-name nonprescription drug.

(4) Supplementation for provision of a private room not otherwise covered under the medical assistance program, subject to the following conditions, requirements, and limitations:

1. Supplementation for provision of a private room is not permitted for any time period during which the private room is therapeutically required pursuant to 42 CFR § 483.10(c)(8)(ii).

2. Supplementation for provision of a private room is not permitted for a calendar month if no room other than the private room was available as of the first day of the month or as of the resident's subsequent initial occupation of the private room.

3. Supplementation for provision of a private room is not permitted for a calendar month if the facility's occupancy rate was less than 50 percent as of the first day of the month or as of the resident's subsequent initial occupation of the private room.

4. Supplementation for provision of a private room is not permitted if the nursing facility only provides one type of room or all private rooms.

5. If a nursing facility provides for supplementation for provision of a private room, the facility may base the supplementation amount on the difference between the amount paid for a room covered under the medical assistance program and the private-pay rate for the private room identified for supplementation. However, the total payment for the private room from all sources for a calendar month shall not be greater than the aggregate average private room rate during that month for the type of rooms covered under the medical assistance program for which the resident would be eligible.

6. If a nursing facility provides for supplementation for provision of a private room, the facility shall inform all residents, prospective residents, and their legal representatives of the following:

- That if the resident desires a private room, the resident or resident's family may provide supplementation by directly paying the facility the amount of supplementation;
- The nursing facility's policy if a resident residing in a private room converts from private pay to payment under the medical assistance program but the resident or resident's family is not willing or able to pay supplementation for the private room;
- The private rooms for which supplementation is available, including a description and identification of such rooms; and
- The process for an individual to take legal responsibility for providing supplementation, including identification of the individual and the extent of the legal responsibility.

7. For a resident for whom the nursing facility receives supplementation, the nursing facility shall indicate in the resident's record all of the following:

- A description and identification of the private room for which the nursing facility is receiving supplementation;
- The identity of the individual making the supplemental payments;
- The private-pay charge for the private room for which the nursing facility is receiving supplementation; and
- The total charge to the resident for the private room for which the nursing facility is receiving supplementation, the portion of the total charge reimbursed under the medical assistance program, and the portion of the total charge reimbursed through supplementation.

8. Supplementation pursuant to this subparagraph shall not be required as a precondition of admission, expedited admission, or continued stay in a facility.

9. The nursing facility shall ensure that all appropriate care is provided to all residents notwithstanding the applicability or availability of supplementation.

10. A private room for which supplementation is required shall be retained for the resident consistent with bed-hold policies.

11. A nursing facility that utilizes the supplementation pursuant to this subparagraph during any calendar year shall report to the department annually by January 15 the following information for the preceding calendar year:

- The total number of nursing facility beds available at the nursing facility, the number of such beds available in private rooms, and the number of such beds available in other types of rooms.
- The average occupancy rate of the facility on a monthly basis.
- The total number of residents for whom supplementation was utilized.
- The average private pay charge for a private room in the nursing facility.

- For each resident for whom supplementation was utilized, the total charge to the resident for the private room, the portion of the total charge reimbursed under the Medicaid program, and the total charge reimbursed through supplementation.

*f.* Any medical equipment, supplies, appliances, or devices, personal care items, drugs, or other items of personal property that are paid for directly by the Medicaid program or are paid for by the resident or the resident's family, on a nonrental basis, are the personal property of the resident.

*g.* The facility shall not charge a resident for days that are not covered under Medicaid due to a provider-preventable condition pursuant to paragraph 81.10(4) "j" and shall not discharge a resident due to nonpayment for such days.

**81.10(6)** *Payment for out-of-state care.* Rescinded IAB 9/5/90, effective 11/1/90.

**81.10(7)** *Comparative charges between private pay and Medicaid residents.* Rescinded IAB 2/6/02, effective 4/1/02.

This rule is intended to implement Iowa Code section 249A.4.

[ARC 8344B, IAB 12/2/09, effective 12/1/09; ARC 8643B, IAB 4/7/10, effective 3/11/10; ARC 8994B, IAB 8/11/10, effective 10/1/10; ARC 8995B, IAB 8/11/10, effective 9/15/10; ARC 0714C, IAB 5/1/13, effective 7/1/13; ARC 1151C, IAB 10/30/13, effective 1/1/14; ARC 1806C, IAB 1/7/15, effective 3/1/15]

#### **441—81.11(249A) Billing procedures.**

**81.11(1)** *Claims.* Claims for service must be sent to the Iowa Medicaid enterprise after the month of service and within 365 days of the date of service. Claims must be submitted electronically through Iowa Medicaid's electronic clearinghouse. A remittance advice of the claims paid may be obtained through the Iowa Medicaid portal access (IMPA) system. Adjustments to submitted claims may be made electronically as provided for by the Iowa Medicaid enterprise. A request for an adjustment to a paid claim must be received by the Iowa Medicaid enterprise within one year from the date the claim was paid in accordance with rule 441—80.4(249A).

**81.11(2)** Reserved.

This rule is intended to implement Iowa Code sections 249A.2(6) and 249A.3(2) "a."

[ARC 1806C, IAB 1/7/15, effective 3/1/15]

**441—81.12(249A) Closing of facility.** When a facility is planning on closing, the department and the department's contracted managed care organizations with which the facility is enrolled shall be notified at least 60 days in advance of the closing. Plans for the transfer of residents receiving medical assistance shall be approved by the resident's managed care organization or by the IME medical services unit for residents not enrolled with a managed care organization.

This rule is intended to implement Iowa Code sections 249A.2(6) and 249A.3(2) "a."

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.13(249A) Conditions of participation for nursing facilities.** All nursing facilities shall enter into a contractual agreement with the department which sets forth the terms under which they will participate in the program.

**81.13(1)** *Procedures for establishing health care facilities as Medicaid facilities.* All survey procedures and certification process shall be in accordance with Department of Health and Human Services publication "State Operations Manual."

*a.* The facility shall obtain the applicable license from the department of inspections and appeals and must be recommended for certification by the department of inspections and appeals.

*b.* The facility shall request an application, Form 470-0254, Iowa Medicaid Provider Enrollment Application, from the Iowa Medicaid enterprise provider services unit.

*c.* The Iowa Medicaid enterprise provider services unit shall transmit an application form and a copy of the nursing facility provider manual to the facility.

*d.* The facility shall complete its portion of the application form and submit it to the Iowa Medicaid enterprise provider services unit.

*e.* The Iowa Medicaid enterprise provider services unit shall review the application form and verify with the department of inspections and appeals that the facility is licensed and has been recommended for certification.

*f.* Prior to requesting enrollment, the facility shall contact the department of inspections and appeals to schedule a survey. The department of inspections and appeals shall schedule and complete a survey of the facility.

*g.* The department of inspections and appeals shall notify the facility of any deficiencies and ask for a plan for the correction of the deficiencies.

*h.* The facility shall submit a plan of correction within ten days after receipt of written deficiencies from the health facilities division department of inspections and appeals. This plan must be approved before the facility can be certified.

*i.* The department of inspections and appeals shall evaluate the survey findings and plan of correction and either recommend the facility for certification or recommend denial of certification. The date of certification will be the date of approval of the plan of corrections.

*j.* When certification is recommended, the department of inspections and appeals shall notify the department recommending a provider agreement.

*k.* Rescinded IAB 12/6/95, effective 2/1/96.

**81.13(2) Medicaid provider agreements.** The health care facility shall be recommended for certification by the department of inspections and appeals for participation as a nursing facility before a provider agreement may be issued. All survey procedures and certification process shall be in accordance with Department of Health and Human Services publication "Providers Certification State Operations Manual." The effective date of a provider agreement may not be earlier than the date of certification.

*a.* Rescinded IAB 2/3/93, effective 4/1/93.

*b.* Rescinded IAB 2/3/93, effective 4/1/93.

*c.* Rescinded IAB 2/3/93, effective 4/1/93.

*d.* Rescinded IAB 2/3/93, effective 4/1/93.

*e.* When it becomes necessary for the department to cancel or refuse to renew a Title XIX provider agreement, federal financial participation may continue for 30 days beyond the date of cancellation, if the extension is necessary to ensure the orderly transfer of residents.

*f.* Rescinded IAB 2/3/93, effective 4/1/93.

**81.13(3) Distinct part requirement.** All facilities which provide nursing facility care and also provide other types of care shall set aside a distinct or identifiable part for the provision of the nursing facility care.

*a.* The distinct part shall meet the following conditions:

(1) The distinct part shall meet all requirements for a nursing facility.

(2) The distinct part shall be identifiable as a unit such as a designated group of rooms, an entire ward or contiguous wards, wings, floor, or building. It shall consist of all beds and related facilities in the unit for whom payment is being made for nursing facility services. It shall be clearly identified and licensed by the department of inspections and appeals.

(3) The appropriate personnel shall be assigned to the identifiable unit and shall work regularly therein. Immediate supervision of staff shall be provided in the unit at all times by qualified personnel as required for licensure.

(4) The distinct part may share such central services and facilities as management services, dietary services, building maintenance and laundry with other units.

(5) When members of the staff share time between units of the facility, written records shall be maintained of the time assigned to each unit.

*b.* Hospitals participating as nursing facilities shall meet all of the same conditions applicable to freestanding nursing facilities.

*c.* Nothing herein shall be construed as requiring transfer of a resident within or between facilities when in the opinion of the attending physician the transfer might be harmful to the physical or mental health of the resident. The opinion of the physician shall be recorded on the resident's medical chart and stands as a continuing order unless the circumstances requiring the exception change.

**81.13(4) Civil rights.** The nursing facility shall comply with Title VI of the Civil Rights Act of 1964 in all areas of administration including admissions, records, services and physical facilities,

room assignments and transfers, attending physicians' privileges and referrals. Written statements of compliance shall be available to residents, employees, attending physicians and other members of the public.

**81.13(5) Resident rights.** The resident has a right to a dignified existence, self-determination and communication with and access to persons and services inside and outside the facility. A facility shall protect and promote the rights of each resident, including each of the following rights:

*a. Exercise of rights.*

(1) The resident has the right to exercise rights as a resident of the facility and as a citizen of the United States.

(2) The resident has the right to be free of interference, coercion, discrimination, or reprisal from the facility in exercising those rights.

(3) In the case of a resident adjudged incompetent under the laws of a state, by a court of competent jurisdiction, the rights of the resident are exercised by the person appointed under state law to act on the resident's behalf.

(4) In the case of a resident who has not been adjudged incompetent by the state court, any legal-surrogate designated in accordance with state law may exercise the resident's rights to the extent provided by state law.

*b. Notice of rights and services.*

(1) The facility shall inform the resident, both orally and in writing in a language that the resident understands, of the resident's rights and all rules and regulations governing resident conduct and responsibilities during the stay in the facility. The facility shall also provide the resident with the pamphlet "Medicaid for People in Nursing Homes and Other Care Facilities," Comm. 52. This notification shall be made prior to or upon admission and during the resident's stay. Receipt of this information, and any amendments to it, must be acknowledged in writing.

(2) The resident or the resident's legal representative has the right, upon an oral or written request, to access all records pertaining to the resident including clinical records within 24 hours (excluding weekends and holidays); and after receipt of the records for inspection, to purchase at a cost not to exceed the community standard photocopies of the records or any portions of them upon request and two working days' advance notice to the facility.

(3) The resident has the right to be fully informed in language that the resident can understand of the resident's total health status, including, but not limited to, medical condition.

(4) The resident has the right to refuse treatment and to refuse to participate in experimental research.

(5) The facility shall:

1. Inform each resident who is entitled to Medicaid benefits, in writing, at the time of admission to the nursing facility or when the resident becomes eligible for Medicaid, of the items and services that are included in nursing facility services under the state plan and for which the resident may not be charged and of those other items and services that the facility offers and for which the resident may be charged, and the amount of charges for those services.

2. Inform each resident when changes are made to the items and services specified in number "1" of this subparagraph.

(6) The facility shall inform each resident before, or at the time of admission, and periodically during the resident's stay, of services available in the facility and of charges for those services, including any charges for services not covered under Medicare or by the facility's per diem rate.

(7) The facility shall furnish a written description of legal rights which includes:

1. A description of the manner of protecting personal funds.

2. A description of the requirements and procedures for establishing eligibility for Medicaid, including the right to request an assessment which determines the extent of a couple's nonexempt resources at the time of institutionalization and attributes to the community spouse an equitable share of resources which cannot be considered available for payment toward the cost of the institutionalized spouse's medical care in the resident's process of spending down to Medicaid eligibility levels.

3. A posting of names, addresses, and telephone numbers of all pertinent state client advocacy groups such as the state survey and certification agency, the state licensure office, the state ombudsman program, the protection and advocacy network, and the Medicaid fraud control unit.

4. A statement that the resident may file a complaint with the state survey and certification agency concerning resident abuse, neglect and misappropriation of resident property in the facility.

(8) The facility shall inform each resident of the name, specialty and way of contacting the physician responsible for the resident's care.

(9) The facility shall prominently display in the facility written information and provide to residents and applicants for admission oral and written information about how to apply for and use Medicare and Medicaid benefits, and how to receive refunds for previous payments covered by these benefits.

(10) Notification of changes.

1. A facility shall immediately inform the resident, consult with the resident's physician, and, if known, notify the resident's legal representative or an interested family member when there is an accident involving the resident which results in injury and has the potential for requiring physician intervention; a significant change in the resident's physical, mental, or psychosocial status (i.e., a deterioration in health, mental, or psychosocial status in either life-threatening conditions or clinical complications); a need to alter treatment significantly (i.e., a need to discontinue an existing form of treatment due to adverse consequences, or to commence a new form of treatment); or a decision to transfer or discharge the resident from the facility.

2. The facility shall also promptly notify the resident and, if known, the resident's legal representative or interested family member when there is a change in room or roommate assignment or a change in resident rights under federal or state law or regulations.

3. The facility shall record and periodically update the address and telephone number of the resident's legal representative or interested family member.

*c. Protection of resident funds.*

(1) The resident has the right to manage the resident's financial affairs and the facility may not require residents to deposit their personal funds with the facility.

(2) Management of personal funds. Upon written authorization of a resident, the facility shall hold, safeguard, manage and account for the personal funds of the resident deposited with the facility, as specified in subparagraphs (3) to (8) of this paragraph.

(3) Deposit of funds. The facility shall deposit any residents' personal funds in excess of \$50 in an interest-bearing account that is separate from any of the facility's operating accounts, and that credits all interest earned on the resident's funds to that account. In pooled accounts, there must be a separate accounting for each resident's share.

The facility shall maintain a resident's personal funds that do not exceed \$50 in a non-interest-bearing account, an interest-bearing account, or petty cash fund.

(4) Accounting and records. The facility shall establish and maintain a system that ensures a full and complete and separate accounting, according to generally accepted accounting principles, of each resident's personal funds entrusted to the facility on the resident's behalf.

1. The system shall preclude any commingling of resident funds with facility funds or with the funds of any person other than another resident.

2. The individual financial record shall be available through quarterly statements and on request to the resident or the resident's legal representative.

(5) Notice of certain balances. The facility shall notify each resident that receives Medicaid benefits:

1. When the amount in the resident's account reaches \$200 less than the SSI resource limit for one person.

2. That, if the amount in the account, in addition to the value of the resident's other nonexempt resources, reaches the SSI resource limit for one person, the resident may lose eligibility for Medicaid or SSI.

(6) Conveyance upon death. Upon the death of a resident with a personal fund deposited with the facility, the facility shall convey within 30 days the resident's funds, and a final accounting of those funds, to the individual or probate jurisdiction administering the resident's estate.

(7) Assurance of financial security. The facility shall purchase a surety bond, or otherwise provide assurance satisfactory to the department of inspections and appeals and the department of human services, to ensure the security of all personal funds of residents deposited with the facility.

(8) Limitation on charges to personal funds. The facility may not impose a charge against the personal funds of a resident for any item or service for which payment is made under Medicaid or Medicare.

*d. Free choice.* The resident has the right to:

- (1) Choose a personal attending physician.
- (2) Be fully informed in advance about care and treatment and of any changes in that care or treatment that may affect the resident's well-being.
- (3) Unless adjudged incompetent or otherwise found to be incapacitated under the laws of the state, participate in planning care and treatment or changes in care and treatment.

*e. Privacy and confidentiality.* The resident has the right to personal privacy and confidentiality of personal and clinical records.

(1) Personal privacy includes accommodations, medical treatment, written and telephone communications, personal care, visits, and meetings of family and resident groups, but this does not require the facility to provide a private room.

(2) Except as provided in subparagraph (3) below, the resident may approve or refuse the release of personal and clinical records to any person outside the facility.

(3) The resident's right to refuse release of personal and clinical records does not apply when the resident is transferred to another health care institution or record release is required by law.

*f. Grievances.* A resident has the right to:

(1) Voice grievances without discrimination or reprisal for voicing the grievances. The grievances include those with respect to treatment which has been furnished as well as that which has not been furnished.

(2) Prompt efforts by the facility to resolve grievances the resident may have, including those with respect to the behavior of other residents.

*g. Examination of survey results.* A resident has the right to:

(1) Examine the results of the most recent survey of the facility conducted by federal or state surveyors and any plan of correction in effect with respect to the facility. The facility must make the results available for examination in a place readily accessible to residents, and must post a notice of their availability.

(2) Receive information from agencies acting as client advocates, and be afforded the opportunity to contact these agencies.

*h. Work.* The resident has the right to:

- (1) Refuse to perform services for the facility.
- (2) Perform services for the facility if the resident chooses, when:
  1. The facility has documented the need or desire for work in the plan of care.
  2. The plan specifies the nature of the services performed and whether the services are voluntary or paid.
  3. Compensation for paid services is at or above prevailing rates.
  4. The resident agrees to the work arrangement described in the plan of care.
  5. Rescinded IAB 3/4/92, effective 4/8/92.

*i. Mail.* The resident has the right to privacy in written communications, including the right to send and receive mail promptly that is unopened and to have access to stationery, postage and writing implements at the resident's own expense.

*j. Access and visitation rights.*

(1) The resident has the right and the facility shall provide immediate access to any resident by the following:

1. Any representative of the secretary of the Department of Health and Human Services.
2. Any representative of the state.
3. The resident's individual physician.
4. The state long-term care ombudsman.
5. The agency responsible for the protection and advocacy system for developmentally disabled individuals.
6. The agency responsible for the protection and advocacy system for mentally ill individuals.
7. Immediate family or other relatives of the resident subject to the resident's right to deny or withdraw consent at any time.
8. Others who are visiting with the consent of the resident subject to reasonable restrictions and to the resident's right to deny or withdraw consent at any time.

(2) The facility shall provide reasonable access to any resident by any entity or individual that provides health, social, legal, or other services to the resident, subject to the resident's right to deny or withdraw consent at any time.

(3) The facility shall allow representatives of the state ombudsman to examine a resident's clinical records with the permission of the resident or the resident's legal representative, and consistent with state law.

*k. Telephone.* The resident has the right to have reasonable access to the use of a telephone where calls can be made without being overheard.

*l. Personal property.* The resident has the right to retain and use personal possessions, including some furnishings, and appropriate clothing, as space permits, unless to do so would infringe upon the rights or health and safety of other residents.

*m. Married couples.* The resident has the right to share a room with the resident's spouse when married residents live in the same facility and both spouses consent to the arrangement.

*n. Self-administration of drugs.* An individual resident has the right to self-administer drugs if the interdisciplinary team has determined that this practice is safe.

*o. Refusal of certain transfers.*

(1) A person has the right to refuse a transfer to another room within the institution, if the purpose of the transfer is to relocate a resident of a skilled nursing facility from the distinct part of the institution that is a skilled nursing facility to a part of the institution that is not a skilled nursing facility or, if a resident of a nursing facility, from the distinct part of the institution that is a nursing facility to a distinct part of the institution that is a skilled nursing facility.

(2) A resident's exercise of the right to refuse transfer under subparagraph (1) does not affect the resident's eligibility or entitlement to Medicare or Medicaid benefits.

*p. Advance directives.*

(1) The nursing facility, at the time of admission, shall provide written information to each resident which explains the resident's rights under state law to make decisions concerning medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate advance directives and the nursing facility's policies regarding the implementation of these rights.

(2) The nursing facility shall document in the resident's medical record whether or not the resident has executed an advance directive.

(3) The nursing facility shall not condition the provision of care or otherwise discriminate against a resident based on whether or not the resident has executed an advance directive.

(4) The nursing facility shall ensure compliance with requirements of state law regarding advance directives.

(5) The nursing facility shall provide for education for staff and the community on issues concerning advance directives.

Nothing in this paragraph shall be construed to prohibit the application of a state law which allows for an objection on the basis of conscience for any nursing facility which as a matter of conscience cannot implement an advance directive.

**81.13(6)** *Admission, transfer and discharge rights.*

*a. Transfer and discharge.*

(1) Definition: Transfer and discharge includes movement of a resident to a bed outside of the certified facility whether that bed is in the same physical plant or not. Transfer and discharge does not refer to movement of a resident to a bed within the same certified facility.

(2) Transfer or discharge requirements. The facility shall permit each resident to remain in the facility, and not transfer or discharge the resident from the facility unless:

1. The transfer or discharge is necessary for the resident's welfare and the resident's needs cannot be met in the facility.

2. The transfer or discharge is appropriate because the resident's health has improved sufficiently so the resident no longer needs the services provided by the facility.

3. The safety of persons in the facility is endangered.

4. The health of persons in the facility would otherwise be endangered.

5. The resident has failed, after reasonable and appropriate notice, to pay for (or to have paid under Medicare or Medicaid) a stay at the facility. For a resident who becomes eligible for Medicaid after admission to a facility, the facility may charge a resident only allowable charges under Medicaid.

6. The facility ceases to operate.

(3) Documentation. When the facility transfers or discharges a resident under any of the circumstances specified in subparagraph (2), numbers 1 through 5 above, the resident's clinical record shall be documented. The documentation shall be made by:

1. The resident's physician when transfer or discharge is necessary under subparagraph (2), number 1 or 2.

2. A physician when transfer or discharge is necessary under subparagraph (2), number 4.

(4) Notice before transfer. Before a facility transfers or discharges a resident, the facility shall:

1. Notify the resident, the resident's case manager for those residents enrolled with a managed care organization and, if known, a family member or legal representative of the resident of the transfer or discharge and the reasons for the move in writing and in a language and manner they understand.

2. Record the reasons in the resident's clinical record.

3. Include in the notice the items in subparagraph (6) below.

(5) Timing of the notice. The notice of transfer or discharge shall be made by the facility at least 30 days before the resident is transferred or discharged except that notice shall be made as soon as practicable before transfer or discharge when:

1. The safety of persons in the facility would be endangered.

2. The health of persons in the facility would be endangered.

3. The resident's health improves sufficiently to allow a more immediate transfer or discharge.

4. An immediate transfer or discharge is required by the resident's urgent medical needs.

5. A resident has not resided in the facility for 30 days.

(6) Contents of the notice. The written notice shall include the following:

1. The reason for transfer or discharge.

2. The effective date of transfer or discharge.

3. The location to which the resident is transferred or discharged.

4. A statement that the resident has the right to appeal the action to the department.

5. The name, address, and telephone number of the state long-term care ombudsman.

6. The mailing address and telephone number of the agency responsible for the protection and advocacy of developmentally disabled individuals for residents with developmental disabilities.

7. The mailing address and telephone number of the agency responsible for the protection and advocacy of mentally ill individuals for residents who are mentally ill.

(7) Orientation for transfer or discharge. A facility shall provide sufficient preparation and orientation to residents to ensure safe and orderly transfer or discharge from the facility.

*b. Notice of bed-hold policy and readmission.*

(1) Notice before transfer. Before a facility transfers a resident to a hospital or allows a resident to go on therapeutic leave, the facility shall provide written information to the resident and a family member or legal representative that specifies:

1. The duration of the bed-hold policy under the state plan during which the resident is permitted to return and resume residence in the facility.

2. The facility's policies regarding bed-hold periods, which shall be consistent with subparagraph (3) below, permitting a resident to return.

(2) Notice upon transfer. At the time of transfer of a resident to a hospital or for therapeutic leave, a nursing facility shall provide written notice to the resident and a family member or legal representative, which specifies the duration of the bed-hold policy described in subparagraph (1) above.

(3) Permitting resident to return to facility. A nursing facility shall establish and follow a written policy under which a resident, whose hospitalization or therapeutic leave exceeds the bed-hold period under the state plan, is readmitted to the facility immediately upon the first availability of a bed in a semiprivate room if the resident requires the services provided by the facility and is eligible for Medicaid nursing facility services.

*c. Equal access to quality care.*

(1) A facility shall establish and maintain identical policies and practices regarding transfer, discharge, and the provision of services under the state plan for all persons regardless of source of payment.

(2) The facility may charge any amount for services furnished to non-Medicaid residents consistent with the notice requirement in 81.13(1)“a”(5).

(3) The state is not required to offer additional services on behalf of a resident other than services provided in the state plan.

*d. Admissions policy.*

(1) The facility shall not require residents or potential residents to:

1. Waive their rights to Medicare or Medicaid; or

2. Give oral or written assurance that they are not eligible for, or will not apply for, Medicare or Medicaid benefits. However, a continuing care retirement community or a life care community that is licensed, registered, certified, or the equivalent by the state, including a nursing facility that is part of such a community, may require in its contract for admission that before a resident applies for medical assistance, the resources that the resident declared for the purposes of admission must be spent on the resident's care, subject to 441—subrule 75.5(3), 441—paragraph 75.5(4)“a,” and 441—subrule 75.16(2).

(2) The facility shall not require a third-party guarantee of payment to the facility as a condition of admission or expedited admission, or continued stay in the facility. However, the facility may require a person who has legal access to a resident's income or resources available to pay for facility care to sign a contract, without incurring personal financial liability, to provide facility payment from the resident's income or resources.

(3) In the case of a person eligible for Medicaid, a nursing facility must not charge, solicit, accept, or receive, in addition to any amount otherwise required to be paid under the state plan, any gift, money, donation, or other consideration as a precondition of admission, expedited admission or continued stay in the facility. However:

1. A nursing facility may charge a resident who is eligible for Medicaid for items and services the resident has requested and received, and that are not specified in the state plan as included in the term “nursing facility services” so long as the facility gives proper notice of the availability and cost of these services to residents and does not condition the resident's admission or continued stay on the request for and receipt of these additional services.

2. A nursing facility may solicit, accept, or receive a charitable, religious, or philanthropic contribution from an organization or from a person unrelated to a Medicaid-eligible resident or potential resident, but only to the extent that the contribution is not a condition of admission, expedited admission, or continued stay in the facility for a Medicaid-eligible resident.

(4) States or political subdivisions may apply stricter admission standards under state or local laws than are specified in these rules, to prohibit discrimination against persons entitled to Medicaid.

**81.13(7) Resident behavior and facility practices.**

*a. Restraints.* The resident has the right to be free from any physical or chemical restraints imposed for purposes of discipline or convenience and not required to treat the resident's medical symptoms.

*b. Abuse.* The resident has the right to be free from verbal, sexual, physical, or mental abuse, corporal punishment, and involuntary seclusion.

*c. Staff treatment of residents.* The facility shall develop and implement written policies and procedures that prohibit mistreatment, neglect, and abuse of residents and misappropriation of resident property.

\* (1) Facility staff shall not use verbal, mental, sexual, or physical abuse, including corporal punishment, or involuntary seclusion of residents. The facility shall not employ persons who have been found guilty by a court of law of abusing, neglecting or mistreating residents or who have had a finding entered into the state nurse aide registry concerning abuse, neglect, mistreatment of residents or misappropriation of their property.

The facility shall report any knowledge it has of actions by a court of law against an employee, which would indicate unfitness for service as a nurse aide or other facility staff to the state nurse aide registry or licensing authorities.

\*See Objection filed 8/25/92 published herein at end of 441—Chapter 81.

(2) The facility shall ensure that all alleged violations involving mistreatment, neglect or abuse including injuries of unknown source and misappropriation of resident property, are reported immediately to the administrator of the facility or to other officials (including the department of inspections and appeals) in accordance with state law through established procedures.

(3) The facility shall have evidence that all alleged violations are thoroughly investigated and shall prevent further potential abuse while the investigation is in progress.

(4) The results of all investigations conducted by facility staff shall be reported to the administrator or the administrator's designated representative or to other officials (including the department of inspections and appeals) in accordance with state law within five working days of the incident and if the alleged violation is verified, take appropriate corrective action.

**81.13(8) Quality of life.** A facility shall care for its residents in a manner and in an environment that promotes maintenance or enhancement of each resident's quality of life.

*a. Dignity.* The facility shall promote care for residents in a manner and in an environment that maintains or enhances each resident's dignity and respect in full recognition of the resident's individuality.

*b. Self-determination and participation.* The resident has the right to:

(1) Choose activities, schedules, and health care consistent with the resident's interests, assessments and plans of care.

(2) Interact with members of the community both inside and outside the facility.

(3) Make choices about aspects of life in the facility that are significant to the resident.

*c. Participation in resident and family groups.*

(1) A resident has the right to organize and participate in resident groups in the facility.

(2) A resident's family has the right to meet in the facility with the families of other residents in the facility.

(3) The facility shall provide a resident or family group, if one exists, with private space.

(4) Staff or visitors may attend meetings at the group's invitation.

(5) The facility shall provide a designated staff person responsible for providing assistance and responding to written requests that result from group meetings.

(6) When a resident or family group exists, the facility shall listen to the views and act upon the grievances and recommendations of residents and families concerning proposed policy and operational decisions affecting resident care and life in the facility.

*d. Participation in other activities.* A resident has the right to participate in social, religious, and community activities that do not interfere with the rights of other residents in the facility.

*e. Accommodation of needs.* A resident has the right to:

(1) Reside and receive services in the facility with reasonable accommodation of individual needs and preferences, except when the health or safety of the individual or other residents would be endangered.

(2) Receive notice before the resident's room or roommate in the facility is changed.

*f. Activities.*

(1) The facility shall provide for an ongoing program of activities designed to meet, in accordance with the comprehensive assessment, the interests and the physical, mental, and psychosocial well-being of each resident.

(2) The activities program shall be directed by a qualified professional who meets one of the following criteria:

1. Is a qualified therapeutic recreation specialist or an activities professional who is eligible for certification as a therapeutic recreation specialist or as an activities professional by a recognized accrediting body on or after October 1, 1990.

2. Has two years of experience in a social or recreational program within the last five years, one of which was full-time in a patient activities program in a health care setting.

3. Is a qualified occupational therapist or occupational therapy assistant.

4. Has completed a training course approved by the state.

*g. Social services.*

(1) The facility shall provide medically related social services to attain or maintain the highest practicable physical, mental, or psychosocial well-being of each resident.

(2) A facility with more than 120 beds shall employ a qualified social worker on a full-time basis.

(3) Qualifications of social worker. A qualified social worker is a person who meets both of the following criteria:

1. A bachelor's degree in social work or a bachelor's degree in a human services field including, but not limited to, sociology, special education, rehabilitation, counseling and psychology.

2. One year of supervised social work experience in a health care setting working directly with individuals.

*h. Environment.* The facility shall provide:

(1) A safe, clean, comfortable and homelike environment, allowing the resident to use personal belongings to the extent possible.

(2) Housekeeping and maintenance services necessary to maintain a sanitary, orderly and comfortable interior.

(3) Clean bed and bath linens that are in good condition.

(4) Private closet space in each resident room.

(5) Adequate and comfortable lighting levels in all areas.

(6) Comfortable and safe temperature levels. Facilities initially certified after October 1, 1990, shall maintain a temperature range of 71 to 81 degrees Fahrenheit.

(7) For the maintenance of comfortable sound levels.

**81.13(9) Resident assessment.** The facility shall conduct initially and periodically a comprehensive, accurate, standardized, reproducible assessment of each resident's functional ability.

*a. Admission orders.* At the time each resident is admitted, the facility shall have physician orders for the resident's immediate care.

*b. Comprehensive assessments.*

(1) The facility shall make a comprehensive assessment of a resident's needs which is based on the minimum data set (MDS) specified by the department of inspections and appeals, which describes the resident's capability to perform daily life functions and significant impairments in functional capacity.

(2) The assessment process shall include direct observation and communication with the resident, as well as communication with licensed and nonlicensed direct care staff members on all shifts. The comprehensive assessment shall include at least the following information:

1. Identification and demographic information.

2. Customary routine.

3. Cognitive patterns.

4. Communication.
  5. Vision.
  6. Mood and behavior patterns.
  7. Psychosocial well-being.
  8. Physical functioning and structural problems.
  9. Continence.
  10. Disease diagnoses and health conditions.
  11. Dental and nutritional status.
  12. Skin condition.
  13. Activity pursuit.
  14. Medications.
  15. Special treatments and procedures.
  16. Discharge potential.
  17. Documentation of summary information regarding the additional assessment performed through the resident assessment protocols.
  18. Documentation of participation in assessment.
  19. Additional specification relating to resident status as required in Section S of the MDS.
- (3) Frequency. Assessments shall be conducted:
1. Within 14 calendar days after admission or readmission, excluding readmissions in which there is no significant change in the resident's physical or mental condition. "Readmission" means a return to the facility following a temporary absence for hospitalization or for therapeutic leave.
  2. Within 14 calendar days after the facility determines, or should have determined, that there has been a significant change in the resident's physical or mental condition. A "significant change" means a major decline or improvement in the resident's status that will not normally resolve itself without further intervention by staff or by implementing standard disease-related clinical interventions, that has an impact on more than one area of the resident's health status, and that requires either interdisciplinary review, revision of the care plan, or both.
  3. In no case less often than once every 12 months.
- (4) Review of assessments. The facility shall examine each resident no less than once every three months, and as appropriate, revise the resident's assessment to ensure the continued accuracy of the assessment.
- (5) Maintenance and use. A facility shall maintain all resident assessments completed within the previous 15 months in the resident's active record and use the results to develop, review and revise the resident's comprehensive plan of care.
- (6) Coordination. The facility shall coordinate assessments with any state-required preadmission screening program to the maximum extent practicable to avoid duplicative testing and effort.
- (7) Automated data processing requirement.
1. Entering data. Within seven days after a facility completes a resident's assessment, a facility shall enter the following information for the resident into a computerized format that meets the specifications defined in numbered paragraphs "2" and "4" below.
    - Admission assessment.
    - Annual assessment updates.
    - Significant change in status assessments.
    - Quarterly review assessments.
    - A subset of items upon a resident's transfer, reentry, discharge, and death.
    - Background (face sheet) information, if there is no admission assessment.
  2. Transmitting data. Within seven days after a facility completes a resident's assessment, a facility shall be capable of transmitting to the state each resident's assessment information contained in the MDS in a format that conforms to standard record layouts and data dictionaries and that passes edits that ensure accurate and consistent coding of the MDS data as defined by the Centers for Medicare and Medicaid Services (CMS) and the department of human services or the department of inspections and appeals.

3. Monthly transmittal requirements. On at least a monthly basis, a facility shall input and electronically transmit accurate and complete MDS data for all assessments conducted during the previous month, including the following:

- Admission assessment.
- Annual assessment.
- Significant correction of prior full assessment.
- Significant correction of prior quarterly assessment.
- Quarterly review.
- A subset of items upon a resident's transfer, reentry, discharge, and death.
- Background (face sheet) information, for an initial transmission of MDS data on a resident who does not have an admission assessment.

4. The facility must transmit MDS data in the ASCII format specified by CMS.

(8) Resident-identifiable information. A facility shall not release information that is resident-identifiable to the public. The facility may release information that is resident-identifiable to an agent only in accordance with a contract under which the agent agrees not to use or disclose the information except to the extent the facility itself is permitted to do so.

*c. Accuracy of assessments.* The assessment shall accurately reflect the resident's status.

(1) Coordination. Each assessment shall be conducted or coordinated with the appropriate participation of health professionals. Each assessment shall be conducted or coordinated by a registered nurse.

(2) Certification. Each person who completes a portion of the assessment shall sign and certify the accuracy of that portion of the assessment. A registered nurse shall sign and certify that the assessment is completed.

(3) Penalty for falsification. An individual who willfully and knowingly certifies a material and false statement in a resident assessment is subject to a civil money penalty of not more than \$1,000 for each assessment. An individual who willfully and knowingly causes another individual to certify a material and false statement in a resident assessment is subject to a civil money penalty of not more than \$5,000 for each assessment.

Clinical disagreement does not constitute a material and false statement.

(4) Use of independent assessors. If the department of human services or the department of inspections and appeals determines, under a survey or otherwise, that there has been a knowing and willful certification of false statements under subparagraph (3) above, the department of human services or the department of inspections and appeals may require that resident assessments under this paragraph be conducted and certified by individuals who are independent of the facility and who are approved by the department of human services or the department of inspections and appeals for a period specified by the agency.

*d. Comprehensive care plans.*

(1) The facility shall develop a comprehensive care plan for each resident that includes measurable objectives and timetables to meet a resident's medical, nursing, and mental and psychosocial needs that are identified in the comprehensive assessment.

The care plan shall describe the following:

1. The services that are to be furnished to attain or maintain the resident's highest practicable physical, mental, and psychosocial well-being as required under subrule 81.13(10).

2. Any services that would otherwise be required under subrule 81.13(10), but are not provided due to the resident's exercise of rights under subrule 81.13(5), including the right to refuse treatment under subrule 81.13(5), paragraph "b," subparagraph (4).

(2) A comprehensive care plan shall be developed within seven days after completion of the comprehensive assessment by an interdisciplinary team and with the participation of the resident, the resident's case manager as appropriate and as allowed by the resident for those residents enrolled with a managed care organization, and the resident's family or legal representative to the extent practicable, and shall be periodically reviewed and revised by a team of qualified persons after each assessment.

The interdisciplinary team shall include the attending physician, a registered nurse with responsibility for the resident, and other appropriate staff in disciplines as determined by the resident's needs.

(3) The services provided or arranged by the facility shall meet professional standards of quality and be provided by qualified persons in accordance with each resident's written plan of care.

*e. Discharge summary.* When the facility anticipates discharges, a resident shall have a discharge summary that includes:

(1) A recapitulation of the resident's stay.

(2) A final summary of the resident's status to include items in paragraph "b," subparagraph (2) above, at the time of the discharge that is available for release to authorized persons and agencies, with the consent of the resident or legal representative.

(3) A postdischarge plan of care developed with the participation of the resident and resident's family which will assist the resident to adjust to a new living environment.

*f. Preadmission screening for mentally ill individuals and individuals with mental retardation.* Rescinded IAB 9/7/11, effective 9/1/11.

*g. Preadmission resident assessment.* The facility shall conduct prior to admission a resident assessment of all persons seeking nursing facility placement. The assessment information gathered shall be similar to the data in the minimum data set (MDS) resident assessment tool.

**81.13(10) Quality of care.** Each resident shall receive and the facility shall provide the necessary care and services to attain or maintain the highest practicable physical, mental and psychosocial well-being, in accordance with the comprehensive assessment and plan of care.

*a. Activities of daily living.* Based on the comprehensive assessment of a resident, the facility shall ensure that:

(1) A resident's abilities in activities of daily living do not diminish unless circumstances of the individual's clinical condition demonstrate that diminution was unavoidable. This includes the resident's ability to bathe, dress and groom; transfer and ambulate; toilet; eat, and to use speech, language or other functional communication systems.

(2) A resident is given the appropriate treatment and services to maintain or improve the resident's abilities specified in subparagraph (1) above.

(3) A resident who is unable to carry out activities of daily living receives the necessary services to maintain good nutrition, grooming, and personal and oral hygiene.

*b. Vision and hearing.* To ensure that residents receive proper treatment and assistive devices to maintain vision and hearing abilities, the facility shall, if necessary, assist the resident:

(1) In making appointments.

(2) By arranging for transportation to and from the office of a medical practitioner specializing in the treatment of vision or hearing impairment or the office of a professional specializing in the provision of vision or hearing assistive devices.

*c. Pressure sores.* Based on the comprehensive assessment of a resident, the facility shall ensure that:

(1) A resident who enters the facility without pressure sores does not develop pressure sores unless the individual's clinical condition demonstrates that they were unavoidable.

(2) A resident having pressure sores receives necessary treatment and services to promote healing, prevent infection and prevent new sores from developing.

*d. Urinary incontinence.* Based on the resident's comprehensive assessment, the facility shall ensure that:

(1) A resident who enters the facility without an indwelling catheter is not catheterized unless the resident's clinical condition demonstrates that catheterization was necessary.

(2) A resident who is incontinent of bladder receives appropriate treatment and services to prevent urinary tract infections and to restore as much normal bladder function as possible.

*e. Range of motion.* Based on the comprehensive assessment of a resident, the facility shall ensure that:

(1) A resident who enters the facility without a limited range of motion does not experience reduction in range of motion unless the resident's clinical condition demonstrates that a reduction in range of motion is unavoidable.

(2) A resident with a limited range of motion receives appropriate treatment and services to increase range of motion to prevent further decrease in range of motion.

*f. Mental and psychosocial functioning.* Based on the comprehensive assessment of a resident, the facility shall ensure that:

(1) A resident who displays mental or psychosocial adjustment difficulty receives appropriate treatment and services to correct the assessed problem.

(2) A resident whose assessment did not reveal a mental or psychosocial adjustment difficulty does not display a pattern of decreased social interaction or increased withdrawn, angry or depressive behaviors, unless the resident's clinical condition demonstrates that such a pattern was unavoidable.

*g. Naso-gastric tubes.* Based on the comprehensive assessment of a resident, the facility shall ensure that:

(1) A resident who has been able to eat enough alone or with assistance is not fed by naso-gastric tube unless the resident's clinical condition demonstrates that use of a naso-gastric tube was unavoidable.

(2) A resident who is fed by a naso-gastric or gastrostomy tube receives the appropriate treatment and services to prevent aspiration pneumonia, diarrhea, vomiting, dehydration, metabolic abnormalities, and nasopharyngeal ulcers and to restore, if possible, normal eating skills.

*h. Accidents.* The facility shall ensure that:

(1) The resident environment remains as free of accident hazards as is possible.

(2) Each resident receives adequate supervision and assistive devices to prevent accidents.

*i. Nutrition.* Based on a resident's comprehensive assessment, the facility shall ensure that a resident:

(1) Maintains acceptable parameters of nutritional status, such as body weight and protein levels, unless the resident's clinical condition demonstrates that this is not possible.

(2) Receives a therapeutic diet when there is a nutritional problem.

*j. Hydration.* The facility shall provide each resident with sufficient fluid intake to maintain proper hydration and health.

*k. Special needs.* The facility shall ensure that residents receive proper treatment and care for the following special services:

(1) Injections.

(2) Parenteral and enteral fluids.

(3) Colostomy, ureterostomy or ileostomy care.

(4) Tracheostomy care.

(5) Tracheal suctioning.

(6) Respiratory care.

(7) Foot care.

(8) Prostheses.

*l. Unnecessary drugs.*

(1) General. Each resident's drug regimen shall be free from unnecessary drugs. An unnecessary drug is any drug when used:

1. In excessive dose including duplicate drug therapy; or

2. For excessive duration; or

3. Without adequate monitoring; or

4. Without adequate indications for its use; or

5. In the presence of adverse consequences which indicate the dose should be reduced or discontinued; or

6. Any combinations of the reasons above.

(2) Antipsychotic drugs. Based on a comprehensive assessment of a resident, the facility shall ensure that:

1. Residents who have not used antipsychotic drugs are not given these drugs unless antipsychotic drug therapy is necessary to treat a specific condition as diagnosed and documented in the clinical record.

2. Residents who use antipsychotic drugs receive gradual dose reductions and behavioral programming, unless clinically contraindicated in an effort to discontinue these drugs.

*m. Medication errors.* The facility shall ensure that:

(1) It is free of significant medication error rates of 5 percent or greater.

(2) Residents are free of any significant medication errors.

**81.13(11) Nursing services.** The facility shall have sufficient nursing staff to provide nursing and related services to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident, as determined by resident assessments and individual plans of care.

*a. Sufficient staff.*

(1) The facility shall provide services by sufficient numbers of each of the following types of personnel on a 24-hour basis to provide nursing care to all residents in accordance with resident care plans:

1. Except when waived under paragraph “c,” licensed nurses.

2. Other nursing personnel.

(2) Except when waived under paragraph “c,” the facility shall designate a licensed nurse to serve as a charge nurse on each tour of duty.

*b. Registered nurse.*

(1) Except when waived under paragraph “c,” the facility shall use the services of a registered nurse for at least eight consecutive hours a day, seven days a week.

(2) Except when waived under paragraph “c,” the facility shall designate a registered nurse to serve as the director of nursing on a full-time basis.

(3) The director of nursing may serve as a charge nurse only when the facility has an average daily occupancy of 60 or fewer residents.

*c. Nursing facilities.* Waiver of requirement to provide licensed nurses on a 24-hour basis. A facility may request a waiver from either the requirement that a nursing facility provide a registered nurse for at least eight consecutive hours a day, seven days a week, as specified in paragraph “b,” or the requirement that a nursing facility provide licensed nurses on a 24-hour basis, including a charge nurse as specified in paragraph “a,” if the following conditions are met:

(1) The facility demonstrates to the satisfaction of the state that the facility has been unable, despite diligent efforts (including offering wages at the community prevailing rate for nursing facilities), to recruit appropriate personnel.

(2) The department of inspections and appeals determines that a waiver of the requirement will not endanger the health or safety of individuals staying in the facility.

(3) The department of inspections and appeals finds that, for any periods in which licensed nursing services are not available, a registered nurse or a physician is obligated to respond immediately to telephone calls from the facility.

(4) A waiver granted under the conditions listed in paragraph “c” is subject to annual department of inspections and appeals review.

(5) In granting or renewing a waiver, a facility may be required by the department of inspections and appeals to use other qualified, licensed personnel.

(6) The department of inspections and appeals shall provide notice of a waiver granted under this paragraph to the state long-term care ombudsman established under Section 307(a)(12) of the Older Americans Act of 1965 and the protection and advocacy system in the state for the mentally ill and mentally retarded.

(7) The nursing facility that is granted a waiver under this paragraph shall notify residents of the facility or, where appropriate, the guardians or legal representatives of the residents and members of their immediate families of the waiver.

**81.13(12) Dietary services.** The facility shall provide each resident with a nourishing, palatable, well-balanced diet that meets the daily nutritional and special dietary needs of each resident.

*a. Staffing.* The facility shall employ a qualified dietitian either full-time, part-time or on a consultant basis.

(1) If a qualified dietitian is not employed full-time, the facility shall designate a person to serve as the director of food services who receives frequently scheduled consultation from a qualified dietitian.

(2) A qualified dietitian is one who is licensed by the state according to Iowa Code chapter 152A.

*b. Sufficient staff.* The facility shall employ sufficient support personnel competent to carry out the functions of the dietary service.

*c. Menus and nutritional adequacy.* Menus shall:

(1) Meet the nutritional needs of residents in accordance with the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences.

(2) Be prepared in advance.

(3) Be followed.

*d. Food.* Each resident receives and the facility provides:

(1) Food prepared by methods that conserve nutritive value, flavor and appearances.

(2) Food that is palatable, attractive and at the proper temperature.

(3) Food prepared in a form designed to meet individual needs.

(4) Substitutes offered of similar nutritive value to residents who refuse food served.

*e. Therapeutic diets.* Therapeutic diets shall be prescribed by the attending physician.

*f. Frequency of meals.*

(1) Each resident receives and the facility provides at least three meals daily, at regular times comparable to normal mealtimes in the community.

(2) There shall be no more than 14 hours between a substantial evening meal and breakfast the following day, except as provided in subparagraph (4) below.

(3) The facility shall offer snacks at bedtime daily.

(4) When a nourishing snack is provided at bedtime, up to 16 hours may elapse between a substantial evening meal and breakfast the following day if a resident group agrees to this meal span.

*g. Assistive devices.* The facility shall provide special eating equipment and utensils for residents who need them.

*h. Sanitary conditions.* The facility shall:

(1) Procure food from sources approved or considered satisfactory by federal, state or local authorities.

(2) Store, prepare, distribute and serve food under sanitary conditions.

(3) Dispose of garbage and refuse properly.

**81.13(13) Physician services.** A physician shall personally approve in writing a recommendation that an individual be admitted to a facility. Each resident shall remain under the care of a physician.

*a. Physician supervision.* The facility shall ensure that:

(1) The medical care of each resident is supervised by a physician.

(2) Another physician supervises the medical care of residents when their attending physician is unavailable.

*b. Physician visits.* The physician shall:

(1) Review the resident's total program of care, including medications and treatments, at each visit required by paragraph "c" below.

(2) Write, sign and date progress notes at each visit.

(3) Sign and date all orders.

*c. Frequency of physician visits.*

(1) The resident shall be seen by a physician at least once every 30 days for the first 90 days after admission, and at least once every 60 days thereafter.

(2) A physician visit is considered timely if it occurs not later than ten days after the date the visit was required.

(3) Except as provided in paragraph "e," all required physician visits shall be made by the physician personally.

*d. Availability of physicians for emergency care.* The facility shall provide or arrange for the provision of physician services 24 hours a day, in case of an emergency.

*e. Performance of physician tasks in nursing facilities.* Any required physician task in a nursing facility (including tasks which the rules specify must be performed personally by the physician) may also be satisfied when performed by a nurse practitioner, clinical nurse specialist, or physician assistant who is not an employee of the facility, but who is working in collaboration with a physician except where prohibited by state law.

**81.13(14) Specialized services.** When indicated, specialized services shall be provided to residents as follows:

*a. Specialized rehabilitative services.* Specialized rehabilitative services shall be provided by qualified personnel under the written order of a physician. If specialized rehabilitative services such as, but not limited to, physical therapy, speech-language pathology, and occupational therapy, are required in the resident's comprehensive plan of care, the facility shall:

- (1) Provide the required services; or
- (2) Obtain the required services from an outside provider of specialized rehabilitative services.

*b. Specialized services for mental illness.* "Specialized services for mental illness" means services provided in response to an exacerbation of a resident's mental illness that:

- (1) Are beyond the normal scope and intensity of nursing facility responsibility;
- (2) Involve treatment other than routine nursing care, supportive therapies such as activity therapy, and supportive counseling by nursing facility staff;
- (3) Are provided through a professionally developed plan of care with specific goals and interventions;

- (4) May be provided only by a specialized licensed or certified practitioner;

- (5) Are expected to result in specific, identified improvements in the resident's psychiatric status to the level before the exacerbation of the resident's mental illness; and

- (6) May include:

1. Acute inpatient psychiatric treatment. When inpatient psychiatric treatment may be prevented through specialized services provided in the nursing facility, services provided in the nursing facility are preferred.

2. Initial psychiatric evaluation to determine a resident's diagnosis and to develop a plan of care.

3. Follow-up psychiatric services by a psychiatrist to evaluate resident response to psychotropic medications, to modify medication orders and to evaluate the need for ancillary therapy services.

4. Psychological testing required for a specific differential diagnosis that will result in the adoption of appropriate treatment services.

5. Individual or group psychotherapy as part of a plan of care addressing specific symptoms.

6. Any clinically appropriate service which is available through the Iowa plan for behavioral health and for which the member meets eligibility criteria.

*c. Specialized services for intellectual disability.* "Specialized services for intellectual disability" means services that:

- (1) Are beyond the normal scope and intensity of nursing facility responsibility;

- (2) Involve treatment other than routine nursing care, supportive therapies such as activity therapy, and supportive counseling by nursing facility staff;

- (3) Are provided through a professionally developed plan of care with specific goals and interventions;

- (4) Must be supervised by a qualified intellectual disability professional; and

- (5) May include:

1. A functional assessment of maladaptive behaviors.

2. Development and implementation of a behavioral support plan.

3. Community living skills training for members who desire to live in a community setting and for whom community living is appropriate as determined by the Level II evaluation. Training may include adaptive behavior skills, communication skills, social skills, personal care skills, and self-advocacy skills.

**81.13(15) Dental services.** The facility shall assist residents in obtaining routine and 24-hour emergency dental care. The facility shall:

*a.* Provide or obtain from an outside resource the following dental services to meet the needs of each resident:

- (1) Routine dental services to the extent covered under the state plan.
- (2) Emergency dental services.

*b.* If necessary, assist the resident in making appointments; and by arranging for transportation to and from the dentist's office.

*c.* Promptly refer residents with lost or damaged dentures to a dentist.

**81.13(16) Pharmacy services.** The facility shall provide routine and emergency drugs and biologicals to its residents or obtain them under an agreement. The nursing facility may permit a certified medication aide to administer drugs, but only under the general supervision of a licensed nurse.

*a. Procedures.* A facility shall provide pharmaceutical services (including procedures that ensure the accurate acquiring, receiving, dispensing, and administering of all drugs and biologicals) to meet the needs of each resident.

*b. Service consultation.* The facility shall employ or obtain the services of a licensed pharmacist who:

- (1) Provides consultation on all aspects of the provision of pharmacy services in the facility.
- (2) Establishes a system of records of receipt and disposition of all controlled drugs in sufficient detail to enable an accurate reconciliation.
- (3) Determines that drug records are in order and that an account of all controlled drugs is maintained and periodically reconciled.

*c. Drug regimen review.*

(1) The drug regimen of each resident shall be reviewed at least once a month by a licensed pharmacist.

(2) The pharmacist shall report any irregularities to the attending physician and the director of nursing, and these reports shall be acted upon.

*d. Labeling of drugs and biologicals.* Drugs and biologicals used in the facility shall be labeled in accordance with currently accepted professional principles, and include the appropriate accessory and cautionary instructions, and the expiration date when applicable.

*e. Storage of drugs and biologicals.*

(1) In accordance with state and federal laws, the facility shall store all drugs and biologicals in locked compartments under proper temperature controls and permit only authorized personnel to have access to the keys.

(2) The facility shall provide separately locked, permanently affixed compartments for storage of controlled drugs listed in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1976 and other drugs subject to abuse, except when the facility uses single unit package drug distribution systems in which the quantity stored is minimal and a missing dose can be readily detected.

*f. Consultant pharmacists.* When the facility does not employ a licensed pharmacist, it shall have formal arrangements with a licensed pharmacist to provide consultation on methods and procedures for ordering, storage, administration and disposal and record keeping of drugs and biologicals. The formal arrangements with the licensed pharmacist shall include separate written contracts for pharmaceutical vendor services and consultant pharmacist services. The consultant's visits are scheduled to be of sufficient duration and at a time convenient to work with nursing staff on the resident care plan, consult with the administrator and others on developing and implementing policies and procedures, and planning in-service training and staff development for employees. The consultant shall provide monthly drug regimen review reports. The facility shall provide reimbursement for consultant pharmacists based on fair market value. Documentation of consultation shall be available for review in the facility.

**81.13(17) Infection control.** The facility shall establish and maintain an infection control program designed to provide a safe, sanitary, and comfortable environment in which residents reside and to help prevent the development and transmission of disease and infection.

a. *Infection control program.* The facility shall establish an infection control program under which it:

- (1) Investigates, controls and prevents infections in the facility.
- (2) Decides what procedures, such as isolation, should be applied to an individual resident.
- (3) Maintains a record of incidents and corrective actions related to infections.

b. *Preventing spread of infection.*

(1) When the infection control program determines that a resident needs isolation to prevent the spread of infection, the facility shall isolate the resident.

(2) The facility shall prohibit employees with a communicable disease or infected skin lesions from direct contact with residents or their food, if direct contact will transmit the disease.

(3) The facility shall require staff to wash their hands after each direct resident contact for which handwashing is indicated by accepted professional practice.

c. *Linens.* Personnel shall handle, store, process, and transport linens so as to prevent the spread of infection.

**81.13(18) Physical environment.** The facility shall be designed, constructed, equipped and maintained to protect the health and safety of residents, personnel and the public.

a. *Life safety from fire.* Except as provided in subparagraph (1) or (3) below, the facility shall meet the applicable provisions of the 1985 edition of the Life Safety Code of the National Fire Protection Association.

(1) A facility is considered to be in compliance with this requirement as long as the facility:

1. On November 26, 1982, complied with or without waivers with the requirements of the 1967 or 1973 editions of the Life Safety Code and continues to remain in compliance with those editions of the code; or

2. On May 9, 1988, complied, with or without waivers, with the 1981 edition of the Life Safety Code and continues to remain in compliance with that edition of the Code.

(2) When Medicaid nursing facilities and Medicaid distinct part nursing facility providers request a waiver of Life Safety Code requirements in accordance with Subsection 1919(d)(2)(B)(i) of the Social Security Act, the department of inspections and appeals shall forward the requests to the Centers for Medicare and Medicaid Services Regional Office for review and approval.

(3) The provisions of the Life Safety Code do not apply in a state where the Centers for Medicare and Medicaid Services finds that a fire and safety code imposed by state law adequately protects patients, residents and personnel in long-term care facilities.

b. *Emergency power.*

(1) An emergency electrical power system shall supply power adequate at least for lighting all entrances and exits, equipment to maintain the fire detection, alarm and extinguishing systems, and life support systems in the event the normal electrical supply is interrupted.

(2) When life support systems are used that have no nonelectrical backup, the facility shall provide emergency electrical power with an emergency generator, as defined in NFPA 99, Health Care Facilities, that is located on the premises.

c. *Space and equipment.* The facility shall:

(1) Provide sufficient space and equipment in dining, health services, recreation, and program areas to enable staff to provide residents with needed services as required by these standards and as identified in each resident's plan of care.

(2) Maintain all essential mechanical, electrical, and patient care equipment in safe operating condition.

d. *Resident rooms.* Resident rooms shall be designed and equipped for adequate nursing care, comfort and privacy of residents.

(1) Bedrooms shall:

1. Accommodate no more than four residents.

2. Measure at least 80 square feet per resident in multiple resident bedrooms, and at least 100 square feet in single resident rooms.

3. Have direct access to an exit corridor.

4. Be designed or equipped to ensure full visual privacy for each resident.

5. In facilities initially certified after March 31, 1992, except in private rooms, each bed shall have ceiling-suspended curtains, which extend around the bed to provide total visual privacy, in combination with adjacent walls and curtains.

6. Have at least one window to the outside.

7. Have a floor at or above grade level.

(2) The facility shall provide each resident with:

1. A separate bed of proper size and height for the convenience of the resident.

2. A clean, comfortable mattress.

3. Bedding appropriate to the weather and climate.

4. Functional furniture appropriate to the resident's needs and individual closet space in the resident's bedroom with clothes racks and shelves accessible to the resident.

(3) The department of inspections and appeals may permit variations in requirements specified in paragraph "d," subparagraph (1), numbers 1 and 2 above relating to rooms in individual cases when the facility demonstrates in writing that the variations are required by the special needs of the residents and will not adversely affect residents' health and safety.

*e. Toilet facilities.* Each resident room shall be equipped with or located adjacent to toilet facilities unless a waiver is granted by the department of inspections and appeals. Additionally, each resident room shall be equipped with or located adjacent to bathing facilities.

*f. Resident call system.* The nurse's station shall be equipped to receive resident calls through a communication system from:

(1) Resident rooms.

(2) Toilet and bathing facilities.

*g. Dining and resident activities.* The facility shall provide one or more rooms designated for resident dining and activities. These rooms shall:

(1) Be well lighted.

(2) Be well ventilated, with nonsmoking areas identified.

(3) Be adequately furnished.

(4) Have sufficient space to accommodate all activities.

*h. Other environmental conditions.* The facility shall provide a safe, functional, sanitary and comfortable environment for residents, staff and the public. The facility shall:

(1) Establish procedures to ensure that water is available to essential areas when there is a loss of normal water supply.

(2) Have adequate outside ventilation by means of windows or mechanical ventilation or a combination of the two.

(3) Equip corridors with firmly secured handrails on each side.

(4) Maintain an effective pest control program so that the facility is free of pests and rodents.

**81.13(19) Administration.** A facility shall be administered in a manner that enables it to use its resources effectively and efficiently to attain or maintain the highest practicable physical, mental and psychosocial well-being of each resident.

*a. Licensure.* A facility shall be licensed under applicable state and federal law.

*b. Compliance with federal, state and local laws and professional standards.* The facility shall operate and provide services in compliance with all applicable federal, state, and local laws, regulations and codes, and with accepted professional standards and principles that apply to professionals providing services in such a facility.

*c. Relationship to other Department of Health and Human Services (HHS) regulations.* In addition to compliance with these rules, facilities shall meet the applicable provisions of other HHS regulations, including, but not limited to, those pertaining to nondiscrimination on the basis of race, color, or national origin, nondiscrimination on the basis of handicap, nondiscrimination on the basis of age, protection of human subjects of research, and fraud and abuse. Although these regulations are not in themselves considered requirements under these rules, their violation may result in the termination or suspension of, or the refusal to grant or continue payment with federal funds.

*d. Governing body.*

(1) The facility shall have a governing body, or designated persons functioning as a governing body, that is legally responsible for establishing and implementing policies regarding the management and operation of the facility.

(2) The governing body appoints the administrator who is:

1. Licensed by the state.
2. Responsible for management of the facility.

*e. Required training of nurse aides.*

(1) Definitions.

“*Licensed health professional*” means a physician; physician assistant; nurse practitioner; physical, speech or occupational therapist; registered professional nurse; licensed practical nurse; or licensed or certified social worker.

“*Nurse aide*” means any person providing nursing or nursing-related services to residents in a facility who is not a licensed health professional, a registered dietitian, or someone who volunteers to provide these services without pay.

(2) General rule. A facility shall not use any person working in the facility as a nurse aide for more than four months, on a permanent basis, unless:

1. That person is competent to provide nursing and nursing-related services.
2. That person has completed a training and competency evaluation program or a competency evaluation program approved by the department of inspections and appeals; or that person has been deemed or determined competent by the department of inspections and appeals.

(3) Nonpermanent employees. A facility shall not use on a temporary, per diem, leased, or any basis other than a permanent employee any person who does not meet the requirements in subparagraph (2).

(4) Competency. A facility shall not use any person who has worked less than four months as a nurse aide in that facility unless the person:

1. Is a permanent employee and is in a nurse aide training and competency evaluation program approved by the department of inspections and appeals;
2. Has demonstrated competence through satisfactory participation in a nurse aide training and competency evaluation program or competency evaluation program approved by the department of inspections and appeals; or
3. Has been deemed or determined competent by the department of inspections and appeals.

(5) Registry verification. Before allowing a person to serve as a nurse aide, a facility shall receive registry verification that the person has met competency evaluation requirements unless:

1. The person is a permanent employee and is in a training and competency evaluation program approved by the department of inspections and appeals; or
2. The person can prove that the person has recently successfully completed a training and competency evaluation program or competency evaluation program approved by the department of inspections and appeals and has not yet been included in the registry. Facilities shall follow up to ensure that such a person actually becomes registered.

(6) Multistate registry verification. Before allowing a person to serve as a nurse aide, a facility shall seek information from every state registry the facility believes will include information on the person.

(7) Required retraining. If since October 1, 1990, there has been a continuous period of 24 consecutive months during none of which the person provided nursing or nursing-related services for monetary compensation, the person shall complete a new training and competency evaluation program or a new competency evaluation program.

(8) Regular in-service education. The facility shall complete a performance review of every nurse aide at least once every 12 months and shall provide regular in-service education based on the outcome of these reviews. The in-service training shall:

1. Be sufficient to ensure the continuing competencies of nurse aides, but shall be no less than 12 hours per year.

2. Address areas of weakness as determined in nurse aides' performance reviews and may address the special needs of residents as determined by the facility staff.

3. For nurse aides providing services to persons with cognitive impairments, also address the care of the cognitively impaired.

*f. Proficiency of nurse aides.* The facility shall ensure that nurse aides are able to demonstrate competency in skills and technique necessary to care for residents' needs, as identified through resident assessments, and described in the plan of care.

*g. Staff qualifications.*

(1) The facility shall employ on a full-time, part-time, or consultant basis those professionals necessary to carry out the provisions of these conditions of participation.

(2) Professional staff shall be licensed, certified or registered in accordance with applicable state laws.

*h. Use of outside resources.*

(1) If the facility does not employ a qualified professional person to furnish a specific service to be provided by the facility, the facility shall have that service furnished to residents by a person or agency outside the facility under an arrangement described in Section 1861(w) of the Omnibus Budget Reconciliation Act of 1987 or an agreement described in subparagraph (2) below.

(2) Arrangements or agreements pertaining to services furnished by outside resources shall specify in writing that the facility assumes responsibility for obtaining services that meet professional standards and principles that apply to professionals providing services in such a facility and for the timeliness of the services.

*i. Medical director.*

(1) The facility shall designate a physician to serve as medical director.

(2) The medical director is responsible for implementation of resident care policies and the coordination of medical care in the facility.

*j. Laboratory services.*

(1) The facility shall provide or obtain clinical laboratory services to meet the needs of its residents. The facility is responsible for the quality and timeliness of the services.

1. If the facility provides its own laboratory services, the services shall meet the applicable conditions for coverage of the services furnished by laboratories specified in 42 CFR Part 493 as amended to October 1, 1990.

2. If the facility provides blood bank and transfusion services, it shall meet the requirements for laboratories specified in 42 CFR Part 493 as amended to October 1, 1990.

3. If the laboratory chooses to refer specimens for testing to another laboratory, the referral laboratory shall be approved or licensed to test specimens in the appropriate specialties or subspecialties of service in accordance with 42 CFR Part 493 as amended to October 1, 1990.

4. If the facility does not provide laboratory services on site, it shall have an agreement to obtain these services only from a laboratory that meets the requirements of 42 CFR Part 493 as amended to October 1, 1990, or from a physician's office.

(2) The facility shall:

1. Provide or obtain laboratory services only when ordered by the attending physician.

2. Promptly notify the attending physician of the findings.

3. Assist the resident in making transportation arrangements to and from the source of service, if the resident needs assistance.

4. File in the resident's clinical record signed and dated reports of clinical laboratory services.

*k. Radiology and other diagnostic services.*

(1) The facility shall provide or obtain radiology and other diagnostic services to meet the needs of its residents. The facility is responsible for the quality and timeliness of the services.

1. If the facility provides its own diagnostic services, the services shall meet the applicable conditions of participation for hospitals.

2. If the facility does not provide its own diagnostic services, it shall have an agreement to obtain these services from a provider or supplier that is approved to provide these services under Medicare.

- (2) The facility shall:
  1. Provide or obtain radiology and other diagnostic services only when ordered by the attending physician.
  2. Promptly notify the attending physician of the findings.
  3. Assist the resident in making transportation arrangements to and from the source of service, if the resident needs assistance.
  4. File in the resident's clinical record signed and dated reports of X-ray and other diagnostic services.
    - l. *Clinical records.*
      - (1) The facility shall maintain clinical records on each resident in accordance with accepted professional standards and practices that are complete, accurately documented, readily accessible, and systematically organized.
      - (2) Clinical records shall be retained for:
        1. The period of time required by state law.
        2. Five years from the date of discharge when there is no requirement in state law.
        3. For a minor, three years after a resident reaches legal age under state law.
      - (3) The facility shall safeguard clinical record information against loss, destruction, or unauthorized use.
      - (4) The facility shall keep confidential all information contained in the resident's records, regardless of the form or storage method of the records, except when release is required by:
        1. Transfer to another health care institution.
        2. Law.
        3. Third-party payment contract.
        4. The resident.
      - (5) The clinical record shall contain:
        1. Sufficient information to identify the resident.
        2. A record of the resident's assessments.
        3. The plan of care and services provided.
        4. The results of any preadmission screening conducted by the state.
        5. Progress notes.
      - m. *Disaster and emergency preparedness.*
        - (1) The facility shall have detailed written plans and procedures to meet all potential emergencies and disasters, such as fire, severe weather, and missing residents.
        - (2) The facility shall train all employees in emergency procedures when they begin to work in the facility, periodically review the procedures with existing staff, and carry out staff drills using those procedures.
      - n. *Transfer agreement.*
        - (1) The facility shall have in effect a written transfer agreement with one or more hospitals approved for participation under the Medicare and Medicaid programs that reasonably ensures that:
          1. Residents will be transferred from the facility to the hospital and ensured of timely admission to the hospital when transfer is medically appropriate as determined by the attending physician.
          2. Medical and other information needed for care and treatment of residents, and, when the transferring facility deems it appropriate, for determining whether the residents can be adequately cared for in a less expensive setting than either the facility or the hospital, will be exchanged between the institutions.
        - (2) The facility is considered to have a transfer agreement in effect if the facility has attempted in good faith to enter into an agreement with a hospital sufficiently close to the facility to make transfer feasible.
      - o. *Quality assessment and assurance.*
        - (1) A facility shall maintain a quality assessment and assurance committee consisting of the director of nursing services, a physician designated by the facility, and at least three other members of the facility's staff.

- (2) The quality assessment and assurance committee:
  1. Meets at least quarterly to identify issues with respect to which quality assessment and assurance activities are necessary.
  2. Develops and implements appropriate plans of action to correct identified quality deficiencies.
- (3) The state or the Secretary of the Department of Health and Human Services may not require disclosure of the records of the committee except insofar as the disclosure is related to the compliance of the committee with the requirements of this paragraph.
- (4) Good faith attempts by the committee to identify and correct quality deficiencies will not be used as a basis for sanctions.
  - p. Disclosure of ownership.*
    - (1) The facility shall comply with the disclosure requirements of 42 CFR 420.206 and 455.104.
    - (2) The facility shall provide written notice to the department of inspections and appeals at the time of change, if a change occurs in:
      1. Persons with an ownership or control interest.
      2. The officers, directors, agents, or managing employees.
      3. The corporation, association, or other company responsible for the management of the facility.
      4. The facility's administrator or director of nursing.
    - (3) The notice specified in subparagraph (2) above shall include the identity of each new individual or company.

This rule is intended to implement Iowa Code sections 249A.2, 249A.3(2) "a," and 249A.4. [ARC 8445B, IAB 1/13/10, effective 12/11/09; ARC 9726B, IAB 9/7/11, effective 9/1/11; ARC 9888B, IAB 11/30/11, effective 1/4/12; ARC 1806C, IAB 1/7/15, effective 3/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

#### **441—81.14(249A) Audits.**

**81.14(1) *Audit of financial and statistical report.*** Authorized representatives of the department or the Department of Health and Human Services shall have the right, upon proper identification, to audit, using generally accepted auditing procedures, the general financial records of a facility to determine if expenses reported on the Financial and Statistical Report, Form 470-0030, are reasonable and proper according to the rules set forth in 441—81.6(249A). The aforementioned audits may be done either on the basis of an on-site visit to the facility, their central accounting office, or office(s) of their agent(s).

*a.* When a proper per diem rate cannot be determined, through generally accepted and customary auditing procedures, the auditor shall examine and adjust the report to arrive at what appears to be an acceptable rate and shall recommend to the department that the indicated per diem should be reduced to 75 percent of the established payment rate for the ensuing six-month period and if the situation is not remedied on the subsequent Financial and Statistical Report, Form 470-0030, the health facility shall be suspended and eventually canceled from the nursing facility program, or

*b.* When a health facility continues to include as an item of cost an item or items which had in a prior audit been removed by an adjustment in the total audited costs, the auditor shall recommend to the department that the per diem be reduced to 75 percent of the current payment rate for the ensuing six-month period. The department may, after considering the seriousness of the exception, make the reduction.

#### **81.14(2) *Audit of proper billing and handling of patient funds.***

*a.* The Iowa Medicaid enterprise, the department's contracted managed care organizations, field auditors of the department of inspections and appeals, and representatives of the U.S. Department of Health and Human Services, upon proper identification, shall have the right to audit billings to the department and receipts of client participation, to ensure the facility is not receiving payment in excess of the contractual agreement and that all other aspects of the contractual agreement are being followed, as deemed necessary.

*b.* The Iowa Medicaid enterprise, the department's contracted managed care organizations, field auditors of the department of inspections and appeals and representatives of the U.S. Department of Health and Human Services, upon proper identification, shall have the right to audit records of the facility to determine proper handling of patient funds in compliance with subrule 81.4(3).

c. The auditor shall recommend and the department shall request repayment by the facility to either the department or the resident(s) involved, any sums inappropriately billed to the department or collected from the resident.

d. The facility shall have 60 days to review the audit and repay the requested funds or present supporting documentation which would indicate that the requested refund amount, or part thereof, is not justified.

e. When the facility fails to comply with paragraph “d,” the requested refunds may be withheld from future payments to the facility. The withholding shall not be more than 25 percent of the average of the last six monthly payments to the facility. The withholding shall continue until the entire requested refund amount is recovered. If in the event the audit results indicate significant problems, the audit results may be referred to the attorney general’s office for whatever action may be deemed appropriate.

f. When exceptions are taken during the scope of an audit which are similar in nature to the exceptions taken in a prior audit, the auditor shall recommend and the department may, after considering the seriousness of the exceptions, reduce payment to the facility to 75 percent of the current payment rate.

This rule is intended to implement Iowa Code sections 249A.2, 249A.3(2) “a” and 249A.4.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.15(249A) Nurse aide training and testing programs.** Rescinded IAB 12/9/92, effective 2/1/93.

**441—81.16(249A) Nurse aide requirements and training and testing programs.**

**81.16(1) Deemed meeting of requirements.** A nurse aide is deemed to satisfy the requirement of completing a training and competency evaluation approved by the department of inspections and appeals if the nurse aide successfully completed a training and competency evaluation program before July 1, 1989. The aide would have satisfied this requirement if:

- a. At least 60 hours were substituted for 75 hours; and
- b. The aide has made up at least the difference in the number of hours in the program the aide completed and 75 hours in supervised practical nurse aide training or in regular in-service nurse education; or
- c. The person was found to be competent (whether or not by the state) after completion of a nurse aide training of at least 100 hours’ duration; or
- d. The person can demonstrate that the person served as a nurse aide at one or more facilities of the same employer in Iowa for at least 24 consecutive months before December 19, 1989; or
- e. The person completed, before July 1, 1989, a nurse aide training and competency evaluation program that the department of inspections and appeals determines would have met the requirements for approval at the time it was offered.

**81.16(2) State review and approval of nurse aide training and competency evaluation programs or competency evaluation programs.**

a. The department of inspections and appeals shall, in the course of all surveys, determine whether the nurse aide training and evaluation requirements of 81.13(19) “e” and 81.16(1) are met.

b. Requirements for approval of programs.

(1) Before the department of inspections and appeals approves a nurse aide training and competency evaluation program or competency evaluation program, the department of inspections and appeals shall determine whether:

1. A nurse aide training and competency evaluation program meets the course requirements of 81.16(3).
2. A nurse aide competency evaluation program meets the requirements of 81.16(4).

(2) Except as provided by paragraph 81.16(2) “f,” the department of inspections and appeals shall not approve a nurse aide training and competency evaluation program or competency evaluation program offered by or in a facility which, in the previous two years:

1. Has operated under a nurse staffing waiver for a period in excess of 48 hours per week; or

2. Has been subject to an extended or partial extended survey; or
  3. Has been assessed a civil money penalty of not less than \$5,000; or
  4. Has operated under temporary management appointed to oversee the operation of the facility and to ensure the health and safety of the facility's residents; or
  5. Pursuant to state action, was closed or had its residents transferred; or
  6. Has been terminated from participation in the Medicaid or Medicare program; or
  7. Has been denied payment under subrule 81.40(1) or 81.40(2).
- (3) Rescinded IAB 10/7/98, effective 12/1/98.

c. Application process. Applications shall be submitted to the department of inspections and appeals before a new program begins and every two years thereafter on Form 427-0517, Application for Nurse Aide Training. The department of inspections and appeals shall, within 90 days of the date of a request or receipt of additional information from the requester:

- (1) Advise the requester whether or not the program has been approved; or
- (2) Request additional information from the requesting entity.

d. Duration of approval. The department of inspections and appeals shall not grant approval of a nurse aide training and competency evaluation program for a period longer than two years. A program shall notify the department of inspections and appeals and the department of inspections and appeals shall review that program when there are substantive changes made to that program within the two-year period.

e. Withdrawal of approval.

(1) The department of inspections and appeals shall withdraw approval of a nurse aide training and competency evaluation program or nurse aide competency evaluation program offered by or in a facility described in 81.16(2) "b"(2).

(2) The department of inspections and appeals may withdraw approval of a nurse aide training and competency evaluation program or nurse aide competency evaluation program if the department of inspections and appeals determines that any of the applicable requirements for approval or registry, as set out in subrule 81.16(3) or 81.16(4), are not met.

(3) The department of inspections and appeals shall withdraw approval of a nurse aide training and competency evaluation program or a nurse aide competency evaluation program if the entity providing the program refuses to permit unannounced visits by the department of inspections and appeals.

(4) If the department of inspections and appeals withdraws approval of a nurse aide training and competency evaluation program or competency evaluation program, the department of inspections and appeals shall notify the program in writing, indicating the reasons for withdrawal of approval of the program. Students who have started a training and competency evaluation program from which approval has been withdrawn shall be allowed to complete the course.

f. An exception to subparagraph 81.16(2) "b"(2) may be granted by the department of inspections and appeals (DIA) for 75-hour nurse aide training courses offered in (but not by) a facility under the following conditions:

(1) The facility has submitted Form 470-3494, Nurse Aide Education Program Waiver Request, to the DIA to request a waiver for each 75-hour nurse aide training course to be offered in (but not by) the facility.

(2) The 75-hour nurse aide training is offered in a facility by an approved nurse aide training and competency evaluation program (NATCEP).

(3) No other NATCEP program is offered within 30 minutes' travel from the facility, unless the facility can demonstrate the distance or program would create a hardship for program participants.

(4) The facility is in substantial compliance with the federal requirements related to nursing care and services.

(5) The facility is not a poor performing facility.

(6) Employees of the facility do not function as instructors for the program unless specifically approved by DIA.

(7) The NATCEP sponsoring the 75-hour nursing aide training course is responsible for program administration and for ensuring that program requirements are met.

(8) The NATCEP has submitted an evaluation to the DIA indicating that an adequate teaching and learning environment exists for conducting the course.

(9) The NATCEP has developed policies for communicating and resolving problems encountered during the course, including notice by the facility to the program instructor and students on how to contact the DIA to register any concerns encountered during the course.

(10) The NATCEP shall require the program instructor and students to complete an evaluation of the course. The instructor shall return the completed evaluations to the NATCEP which shall return the evaluations to DIA.

**81.16(3)** *Requirements for approval of a nurse aide training and competency evaluation program.* The department has designated the department of inspections and appeals to approve required nurse aide training and testing programs. Policies and procedures governing approval of the programs are set forth in these rules.

a. For a nurse aide training and competency evaluation program to be approved by the department of inspections and appeals, it shall, at a minimum:

(1) Consist of no less than 75 clock hours of training.

(2) Include at least the subjects specified in 81.16(3).

(3) Include at least 15 hours of laboratory experience, 30 hours of classroom instruction (the first 16 hours of which must occur before the nurse aide has resident contact) and 30 hours of supervised clinical training. Supervised clinical training means training in a setting in which the trainee demonstrates knowledge while performing tasks on a resident under the general supervision of a registered nurse or licensed practical nurse.

(4) Ensure that students do not independently perform any services for which they have not been trained and found proficient by the instructor. It shall also ensure that students who are providing services to residents are under the general supervision of a licensed nurse or a registered nurse.

(5) Meet the following requirements for instructors who train nurse aides:

1. The training of nurse aides shall be performed by or under the general supervision of a registered nurse who possesses a minimum of two years of nursing experience, at least one year of which shall be in the provision of long-term care facility services.

2. Instructors shall be registered nurses and shall have completed a course in teaching adults or have experience teaching adults or supervising nurse aides.

3. In a facility-based program, when the director of nursing is a registered nurse, the training of nurse aides may be performed under the general supervision of the director of nursing for the facility. The director of nursing is prohibited from performing the actual training.

4. Other personnel from the health professions may supplement the instructor. Supplemental personnel shall have at least one year of experience in their fields.

5. The ratio of qualified trainers to students shall not exceed one instructor for every ten students in the clinical setting.

(6) Contain information regarding competency evaluation through written or oral and skills testing.

b. The curriculum of the nurse aide training program shall include:

(1) At least a total of 16 hours of training in the following areas prior to any direct contact with a resident:

1. Communication and interpersonal skills.

2. Infection control.

3. Safety and emergency procedures including the Heimlich maneuver.

4. Promoting residents' independence.

5. Respecting residents' rights.

(2) Basic nursing skills:

1. Taking and recording vital signs.

2. Measuring and recording height and weight.

3. Caring for the residents' environment.

4. Recognizing abnormal changes in body functioning and the importance of reporting these changes to a supervisor.

5. Caring for residents when death is imminent.
- (3) Personal care skills, including, but not limited to:
  1. Bathing.
  2. Grooming, including mouth care.
  3. Dressing.
  4. Toileting.
  5. Assisting with eating and hydration.
  6. Proper feeding techniques.
  7. Skin care.
  8. Transfers, positioning, and turning.
- (4) Mental health and social service needs:
  1. Modifying aide's behavior in response to residents' behavior.
  2. Awareness of developmental tasks associated with the aging process.
  3. How to respond to resident behavior.
  4. Allowing the resident to make personal choices, providing and reinforcing other behavior consistent with the resident's dignity.
  5. Using the resident's family as a source of emotional support.
- (5) Care of cognitively impaired residents:
  1. Techniques for addressing the unique needs and behaviors of persons with dementia (Alzheimer's and others).
  2. Communicating with cognitively impaired residents.
  3. Understanding the behavior of cognitively impaired residents.
  4. Appropriate responses to the behavior of cognitively impaired residents.
  5. Methods of reducing the effects of cognitive impairments.
- (6) Basic restorative services:
  1. Training the resident in self-care according to the resident's ability.
  2. Use of assistive devices in transferring, ambulation, eating and dressing.
  3. Maintenance of range of motion.
  4. Proper turning and positioning in bed and chair.
  5. Bowel and bladder training.
  6. Care and use of prosthetic and orthotic devices.
- (7) Residents' rights:
  1. Providing privacy and maintenance of confidentiality.
  2. Promoting the residents' rights to make personal choices to accommodate their needs.
  3. Giving assistance in resolving grievances and disputes.
  4. Providing needed assistance in getting to and participating in resident and family groups and other activities.
  5. Maintaining care and security of residents' personal possessions.
  6. Promoting the residents' rights to be free from abuse, mistreatment, and neglect and the need to report any instances of this type of treatment to appropriate facility staff.
  7. Avoiding the need for restraints in accordance with current professional standards.
- c. Prohibition of charges.
  - (1) No nurse aide who is employed by, or who has received an offer of employment from, a facility on the date on which the aide begins a nurse aide training and competency evaluation program or competency evaluation program may be charged for any portion of the program including any fees for textbooks or other required evaluation or course materials.
  - (2) If a person who is not employed, or does not have an offer to be employed, as a nurse aide becomes employed by, or receives an offer of employment from, a facility not later than 12 months after completing a nurse aide training and competency evaluation program or competency evaluation program, the facility shall reimburse the nurse aide for costs incurred in completing the program or competency evaluation on a pro rata basis during the period in which the person is employed as a nurse aide. The formula for paying the nurse aides on a pro rata basis shall be as follows:

1. Add all costs incurred by the aides for the course, books, and tests.
2. Divide the total arrived at in No. 1 above by 12 to prorate the costs over a one-year period and establish a monthly rate.
3. The aide shall be reimbursed the monthly rate each month the aide works at the facility until one year from the time the aide completed the course.
- d.* Setting and equipment. The classroom shall have appropriate equipment, be of adequate size, and not interfere with resident activities.
- e.* Records and reports. Nurse aide education programs approved by the department of inspections and appeals shall:
  - (1) Notify the department of inspections and appeals:
    1. Of dates of classroom and clinical sessions as well as location of classrooms and clinical practice sites before each course begins and if the course is canceled.
    2. When a facility or other training entity will no longer be offering nurse aide training courses.
    3. Whenever the person coordinating the training program is hired or terminates employment.
  - (2) Keep a list of faculty members and their qualifications available for department review.
  - (3) Provide each nurse aide a record of skills for which the nurse aide has been found competent during the course and which may be performed before completion of the competency evaluation.
  - (4) Complete a lesson plan for each unit which includes behavioral objectives, a topic outline and student activities and experiences.
  - (5) Provide the student, within 30 days of the last class period, evidence of having successfully completed the course.

**81.16(4) Nurse aide competency evaluation.** A competency evaluation program shall contain a written or oral portion and a skills demonstration portion.

*a.* Notification to person. The department of inspections and appeals shall advise in advance any person who takes the competency evaluation that a record of the successful completion of the evaluation will be included in the state's nurse aide registry.

*b.* Content of the competency evaluation program.

- (1) Written or oral examinations. The competency evaluation shall:
  1. Allow an aide to choose between a written and oral examination.
  2. Address each of the course requirements listed in 81.16(3) "b."
  3. Be developed from a pool of test questions, only a portion of which is used in any one examination.
  4. Use a system that prevents disclosure of both the pool of questions and the individual competency evaluations.
  5. If oral, be read from a prepared text in a neutral manner.
  6. Be tested for reliability and validity using a nationally recognized standard as determined by the department of education.
  7. Be in English, unless the prevailing language used in the facility where a nurse aide will be working is other than English.

(2) Demonstration of skills. The skills demonstration evaluation shall consist of a demonstration of randomly selected items drawn from a pool consisting of tasks generally performed by nurse aides. This pool of skills shall include all of the personal care skills listed in 81.16(3) "b"(3).

*c.* Administration of the competency evaluation.

(1) The competency examination shall be administered and evaluated only by an entity approved by the department of inspections and appeals, which is neither a skilled nursing facility that participates in Medicare nor a nursing facility that participates in Medicaid.

(2) Charging nurse aides for competency testing is prohibited in accordance with 81.16(3) "c."

(3) The skills demonstration part of the evaluation shall be performed in a facility or laboratory setting comparable to the setting in which the person will function as a nurse aide and shall be administered and evaluated by a registered nurse with at least one year's experience in providing care for the elderly or the chronically ill of any age.

*d.* Facility proctoring of the competency evaluation.

(1) The competency evaluation may, at the nurse aide's option, be conducted at the facility in which the nurse aide is or will be employed unless the facility is prohibited from being a competency evaluation site.

(2) The department of inspections and appeals may permit the competency evaluation to be proctored by facility personnel if the department of inspections and appeals finds that the procedure adopted by the facility ensures that the competency evaluation program:

1. Is secure from tampering.

2. Is standardized and scored by a testing, educational, or other organization approved by the department of inspections and appeals.

3. Requires no scoring by facility personnel.

(3) The department of inspections and appeals shall retract the right to proctor nurse aide competency evaluations from facilities in which the department of inspections and appeals finds any evidence of impropriety, including evidence of tampering by facility staff.

*e.* Successful completion of the competency evaluation program.

(1) A score of 70 percent or above is passing for both the written or oral and skills demonstration parts of the test.

(2) A record of successful completion of the competency evaluation shall be included in the nurse aide registry within 30 days of the date the person is found to be competent.

(3) The competency testing entity shall inform the nurse aide of the test score within 30 calendar days of the completion of the test and shall inform the nurse aide registry of the nurse aide's scores within 20 calendar days after the test is administered.

*f.* Unsuccessful completion of the competency evaluation program.

(1) If the person does not complete the evaluation satisfactorily, the person shall be advised in writing within ten working days after the test is scored:

1. Of the areas which the person did not pass.

2. That the person has three opportunities to take the evaluation.

(2) Each person shall have three opportunities to pass each part of the test. If one part of the test is failed, only that part need be taken a second or third time. If either part of the test is failed three times, the 75-hour course shall be taken or retaken before the test can be taken again.

*g.* Storage of evaluation instrument. The person responsible for administering a competency evaluation shall provide secure storage of the evaluation instruments when they are not being administered or processed.

*h.* Application process. Entities wishing to secure approval for a competency evaluation program shall submit a copy of the evaluation plan and procedures to the department of inspections and appeals. The department of inspections and appeals shall notify the applicant of its decision within 90 days of receipt of the application. The notification shall include the reason for not giving approval if approval is denied and the applicable rule citation.

**81.16(5)** *Registry of nurse aides.*

*a.* Establishment of registry. The department of inspections and appeals shall establish and maintain a registry of nurse aides that meets the following requirements. The registry:

(1) Shall include, at a minimum, the information required in 81.16(5) "c."

(2) Shall be sufficiently accessible to meet the needs of the public and health care providers promptly.

(3) Shall provide that any response to an inquiry that includes a finding of abuse, neglect, mistreatment of a resident or misappropriation of property also include any statement made by the nurse aide which disputes the finding.

*b.* Registry operation.

(1) Only the department of inspections and appeals may place on the registry findings of abuse, neglect, mistreatment of a resident or misappropriation of property.

(2) The department of inspections and appeals shall determine which persons:

1. Have successfully completed a nurse aide training and competency evaluation program or nurse aide competency evaluation program.

2. Have been deemed as meeting these requirements.
3. Do not qualify to remain on the registry because they have performed no nursing or nursing-related services for monetary compensation during a period of 24 consecutive months.

(3) The department of inspections and appeals shall not impose any charges related to registration on persons listed in the registry.

(4) The department of inspections and appeals shall provide information on the registry promptly.

*c. Registry content.*

(1) The registry shall contain at least the following information on each person who has successfully completed a nurse aide training and competency evaluation program or competency evaluation program which was approved by the department of inspections and appeals or who may function as a nurse aide because of having been deemed competent:

1. The person's full name.

2. Information necessary to identify each person.

3. The date the person became eligible for placement in the registry through successfully completing a nurse aide training and competency evaluation program or competency evaluation or by being deemed competent.

4. The following information on any finding by the department of inspections and appeals of abuse, neglect, mistreatment of residents or misappropriation of property by the person: documentation of the department of inspections and appeals' investigation, including the nature of the allegation and the evidence that led the department of inspections and appeals to conclude that the allegation was valid; the date of the hearing, if the person chose to have one, and its outcome; and a statement by the person disputing the allegation, if the person chooses to make one. This information must be included in the registry within ten working days of the finding and shall remain in the registry permanently, unless the finding was made in error, the person was found not guilty in a court of law, or the department of inspections and appeals is notified of the person's death.

5. A record of known convictions by a court of law of a person convicted of abuse, neglect, mistreatment or misappropriation of resident property.

(2) The registry shall remove entries for persons who have performed no nursing or nursing-related services for monetary compensation for a period of 24 consecutive months unless the person's registry entry includes documented findings or convictions by a court of law of abuse, neglect, mistreatment or misappropriation of property.

*d. Disclosure of information.* The department of inspections and appeals shall:

(1) Disclose all of the information listed in 81.16(5) "c"(1), (3), and (4) to all requesters and may disclose additional information it deems necessary.

(2) Promptly provide persons with all information contained in the registry about them when adverse findings are placed on the registry and upon request. Persons on the registry shall have sufficient opportunity to correct any misstatements or inaccuracies contained in the registry.

*e. Placement of names on nurse aide registry.* The facility shall ensure that the name of each person employed as a nurse aide in a Medicare- or Medicaid-certified nursing facility in Iowa is submitted to the registry. The telephone number of the registry is (515)281-4963. The address is Nurse Aide Registry, Lucas State Office Building, Des Moines, Iowa 50319-0083.

(1) Persons employed as nurse aides shall complete Form 427-0496, Nurse Aide Registry Application, within the first 30 days of employment. This form shall be submitted to the department of inspections and appeals. Form 427-0496 may be obtained by calling or writing the nurse aide registry.

(2) A nurse aide who is not employed may apply for inclusion on the registry by submitting a copy of completed Form 427-0496 to the nurse aide registry.

(3) When the registry has received a signed application and entered the required training and testing information on the registry, a letter will be sent to the nurse aide that includes all the information the registry has on the nurse aide. A nurse aide may obtain a copy of the information on the registry by writing the nurse aide registry and requesting the information. The letter requesting the information must include the nurse aide's social security number, current or last facility of employment, date of birth and current mailing address and must be signed by the nurse aide.

**81.16(6) Hearing.** When there is an allegation of abuse against a nurse aide, the department of inspections and appeals shall investigate that allegation. When the investigation by the department of inspections and appeals makes a finding of an act of abuse, the nurse aide named will be notified of this finding and the right to a hearing. The nurse aide shall have 30 days to request a hearing. The request shall be in writing and shall be sent to the department of inspections and appeals. The hearing shall be held pursuant to department of inspections and appeals rules 481—Chapter 10. After 30 days, if the nurse aide fails to appeal, or when all appeals are exhausted, the nurse aide registry will include a notation that the nurse aide has a founded abuse report on record if the final decision indicates the nurse aide performed an abusive act.

**81.16(7) Appeals.** Adverse decisions made by the department of inspections and appeals in administering these rules may be appealed pursuant to department of inspections and appeals rules 481—Chapter 10.

This rule is intended to implement Iowa Code section 249A.4.

**441—81.17(249A) Termination procedures.** Rescinded IAB 5/10/95, effective 7/1/95.

**441—81.18(249A) Sanctions.**

**81.18(1) Penalty for falsification of a resident assessment.** An individual, who willfully and knowingly certifies a material and false statement in a resident assessment, is subject to a civil money penalty of not less than \$100 or more than \$1,000 for each falsified assessment. An individual who willfully and knowingly causes another individual to certify a material and false statement in a resident assessment is subject to a civil money penalty of not less than \$500 nor more than \$5,000 for each falsified assessment. These fines shall be administratively assessed by the department of inspections and appeals.

*a.* Factors determining the size of fine. In determining the monetary amount of the penalty, the director of the department of inspections and appeals or the director's designee may consider evidence of the circumstances surrounding the violation, including, but not limited to, the following factors:

- (1) The number of assessments willingly and knowingly falsified.
- (2) The history of the individual relative to previous assessment falsifications.
- (3) The intent of the individual who falsifies an assessment or causes an assessment to be falsified.
- (4) The areas of assessment falsified or caused to be falsified and the potential for harm to the resident.
- (5) The relationship of the falsification of assessment to falsification of other records at the time of the visit.

*b.* Notification of a fine imposed for falsification of assessments or causing another individual to falsify an assessment shall be served upon the individual personally or by certified mail.

*c.* Appeals of fines. Notice of intent to formally contest the fine shall be given to the department of inspections and appeals in writing and be postmarked within 20 working days after receipt of the notification of the fine. An administrative hearing will be conducted pursuant to Iowa Code chapter 17A and department of inspections and appeals rules 481—Chapter 10. An individual who has exhausted all administrative remedies and is aggrieved by the final action of the department of inspections and appeals may petition for judicial review in the manner provided by Iowa Code chapter 17A.

**81.18(2) Use of independent assessors.** If the department of inspections and appeals determines that there has been a knowing and willful certification of false assessments, or the causation of knowing and willful false assessments, the department of inspections and appeals may require that resident assessments be conducted and certified by individuals independent of the facility and who are approved by the state.

*a.* Criteria used to determine the need for independent assessors shall include:

- (1) The involvement of facility management in the falsification of or causing resident assessments to be falsified.
- (2) The facility's response to the falsification of or causing resident assessments to be falsified.
- (3) The method used to prepare facility staff to do resident assessments.

(4) The number of individuals involved in the falsification.

(5) The number of falsified resident assessments.

(6) The extent of harm to residents caused by the falsifications.

*b.* The department of inspections and appeals will specify the length of time that these independent assessments will be conducted and when they will begin. This determination will be based on the extent of assessments and reassessments needed and the plan submitted by the facility to ensure falsifications will not occur in the future.

*c.* The individuals or agency chosen by the facility to conduct the independent assessments shall be approved by the department of inspections and appeals before conducting any assessments. The approval will be based on the ability of the individual or agency to conduct resident assessments in accordance with the applicable rules. Any costs incurred shall be the responsibility of the facility.

*d.* Notice of the requirement to obtain independent assessments will be in writing and sent to the facility by certified mail or personal service. The notice shall include the date independent assessors are to begin assessments, information on how independent assessors are to be approved and the anticipated length of time independent assessors will be needed.

*e.* Criteria for removal of the requirement for independent assessors.

(1) Independent assessors shall be utilized until all residents assessed by the disciplines involved have been reassessed by the independent assessor.

(2) The facility shall submit a plan to the department of inspections and appeals for completing its own assessments.

(3) The department of inspections and appeals will evaluate the facility's proposal for ensuring assessments will not be falsified in the future.

*f.* Appeal procedures.

(1) A written notice to appeal shall be postmarked or personally served to the department of inspections and appeals within five working days after receipt of the notice requiring independent assessors.

(2) An evidentiary hearing shall be held pursuant to department of inspections and appeals rules 481—Chapter 10 no later than 15 working days after receipt of the appeal.

(3) The written decision shall be rendered no later than ten working days after the hearing.

(4) The decision rendered is a proposed decision which may be appealed to the director of the department of inspections and appeals pursuant to department of inspections and appeals rules 481—Chapter 50.

(5) A notice of appeal stays the effective date of the requirement for independent assessments pending a final agency decision.

(6) Final agency action may be appealed pursuant to Iowa Code chapter 17A.

**81.18(3)** *Penalty for notification of time or date of survey.* Any individual who notifies, or causes to be notified, a nursing facility of the time or date on which a survey is scheduled to be conducted shall be subject to a fine not to exceed \$2,000.

**81.18(4)** *Failure to meet requirements for participation.* Rescinded IAB 5/10/95, effective 7/1/95.

This rule is intended to implement Iowa Code section 249A.4.

**441—81.19(249A) Criteria related to the specific sanctions.** Rescinded IAB 5/10/95, effective 7/1/95.

**441—81.20(249A) Out-of-state facilities.** Payment will be made for care in out-of-state nursing facilities. For members enrolled with a managed care organization, authorization for admission must be obtained from the managed care organization prior to admission. Out-of-state facilities shall abide by the same policies as in-state facilities with the following exceptions:

**81.20(1) Out-of-state providers.** Except for Medicare-certified hospital-based nursing facilities and special population nursing facilities, out-of-state providers shall be reimbursed at the same nursing facility rate they would receive from the Medicaid program in their state of residence or an amount equal to the sum of the Iowa non-state-operated nursing facility direct care rate component limit

pursuant to subparagraph 81.6(16)“f”(1) plus the non-direct care rate limit pursuant to subparagraph 81.6(16)“f”(1), whichever is lower.

*a.* Medicare-certified hospital-based nursing facilities providing skilled care in other states shall be reimbursed at an amount equal to the sum of the Iowa Medicare-certified hospital-based nursing facility direct care rate component limit pursuant to subparagraph 81.6(16)“f”(3) plus the non-direct care rate component limit pursuant to subparagraph 81.6(16)“f”(3) if one of the following criteria is met:

(1) The placement is recommended because moving the resident back to Iowa would endanger the resident’s health, because services are not readily available in Iowa, or because the out-of-state placement is cost-effective.

(2) The placement is temporary until services are available to the resident in Iowa or until the program of treatment is completed.

*b.* Special population nursing facilities shall be reimbursed at the same nursing facility rate they would receive from Medicaid in their state of residence or, if not participating in the Medicaid program in their state, they shall be reimbursed pursuant to subparagraph 81.6(16)“e”(2), if one of the following criteria is met:

(1) The placement is recommended because moving the resident back to Iowa would endanger the resident’s health, because services are not readily available in Iowa, or because the out-of-state placement is cost-effective.

(2) The placement is temporary until services are available to the resident in Iowa or until the program of treatment is completed.

**81.20(2)** Out-of-state facilities shall not submit financial and statistical reports as required in rule 441—81.6(249A).

**81.20(3)** Effective December 1, 2009, payment for periods when residents are absent for visitation or hospitalization will be made to out-of-state facilities at zero percent of the rate paid to the facility by the Iowa Medicaid program.

**81.20(4)** Rescinded IAB 3/20/91, effective 3/1/91.

This rule is intended to implement Iowa Code section 249A.4.

[ARC 8995B, IAB 8/11/10, effective 9/15/10; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—81.21(249A) Outpatient services.** Medicaid outpatient services provided by certified skilled nursing facilities are defined in the same way as the Medicare program.

This rule is intended to implement Iowa Code section 249A.4 and 1991 Iowa Acts, House File 479, section 132, subsection 1, paragraph “i.”

**441—81.22(249A) Rates for Medicaid eligibles.**

**81.22(1) Maximum client participation.** A nursing facility may not charge more client participation for Medicaid-eligible clients as determined in rule 441—75.16(249A) than the maximum monthly allowable payment for their facility as determined according to 441—subrule 79.1(9) or rule 441—81.6(249A). When the department makes a retroactive increase in the maximum daily rate, the nursing facility can charge the client the increased amount for the retroactive period.

**81.22(2) Beginning date of payment.** When a resident becomes eligible for Medicaid payments for facility care, the facility shall accept Medicaid rates effective when the resident’s Medicaid eligibility begins. A nursing facility is required to refund any payment received from a resident or family member for any period of time during which the resident is determined to be eligible for Medicaid.

Any refund owing shall be made no later than 15 days after the nursing facility first receives Medicaid payment for the resident for any period of time. Facilities may deduct the resident’s client participation for the month from a refund of the amount paid for a month of Medicaid eligibility.

The beginning and renewal date of eligibility and resident client participation amounts may be obtained through the Iowa Medicaid portal access (IMPA) system. When the beginning Medicaid eligibility date is a future month, the facility shall accept the Medicaid rate effective the first of that future month.

This rule is intended to implement Iowa Code section 249A.4.

[ARC 1806C, IAB 1/7/15, effective 3/1/15]

**441—81.23(249A) State-funded personal needs supplement.** A Medicaid member living in a nursing facility who has countable income for purposes of rule 441—75.16(249A) of less than \$50 per month shall receive a state-funded payment from the department for the difference between that countable income and \$50 if the legislature has appropriated funding specifically for this purpose. This payment shall not be considered a benefit under Title XIX of the Social Security Act.

This rule is intended to implement Iowa Code Supplement section 249A.30A.

**441—81.24 to 81.30** Reserved.

DIVISION II  
ENFORCEMENT OF COMPLIANCE

PREAMBLE

These rules specify remedies that may be used when a nursing facility is not in substantial compliance with the requirements for participation in the Medicaid program. These rules also provide for ensuring prompt compliance and specify that these remedies are in addition to any others available under state or federal law.

**441—81.31(249A) Definitions.**

“*CMS*” means the Centers for Medicare and Medicaid Services of the federal Department of Health and Human Services.

“*Deficiency*” means a nursing facility’s failure to meet a participation requirement.

“*Department*” means the Iowa department of human services.

“*Immediate jeopardy*” means a situation in which immediate corrective action is necessary because the provider’s noncompliance with one or more requirements of participation has caused, or is likely to cause, serious injury, harm, impairment, or death to a resident.

“*New admission*” means a resident who is admitted to the facility on or after the effective date of a denial of payment remedy and, if previously admitted, has been discharged before that effective date. Residents admitted before the effective date of the denial of payment, and taking temporary leave, are not considered new admissions, nor are they subject to the denial of payment.

“*Noncompliance*” means any deficiency that causes a facility to not be in substantial compliance.

“*Plan of correction*” means a plan developed by the facility and approved by the department of inspections and appeals which describes the actions the facility shall take to correct deficiencies and specifies the date by which those deficiencies shall be corrected.

“*Standard survey*” means a periodic, resident-centered inspection which gathers information about the quality of service furnished in a facility to determine compliance with the requirements for participation.

“*Substandard quality of care*” means one or more deficiencies related to the participation requirements for resident behavior and facility practices, quality of life, or quality of care which constitute either immediate jeopardy to resident health or safety; a pattern of or widespread actual harm that is not immediate jeopardy; or a widespread potential for more than minimal harm, but less than immediate jeopardy, with no actual harm.

“*Substantial compliance*” means a level of compliance with the requirements of participation such that any identified deficiencies pose no greater risk to resident health or safety than the potential for causing minimal harm.

“*Temporary management*” means the temporary appointment by the department of inspections and appeals of a substitute facility manager or administrator with authority to hire, terminate or reassign staff, obligate facility funds, alter facility procedures, and manage the facility to correct deficiencies identified in the facility’s operation.

**441—81.32(249A) General provisions.**

**81.32(1) Purpose of remedies.** The purpose of remedies is to ensure prompt compliance with program requirements.

**81.32(2) Basis for imposition and duration of remedies.** The department of inspections and appeals, as the state survey agency under contract with the department, determines the remedy to be applied for noncompliance with program requirements. When the department of inspections and appeals chooses to apply one or more remedies specified in rule 441—81.34(249A), the remedies are applied on the basis of noncompliance found during surveys conducted by the department of inspections and appeals.

**81.32(3) Number of remedies.** The department of inspections and appeals may apply one or more remedies for each deficiency constituting noncompliance or for all deficiencies constituting noncompliance.

**81.32(4) Plan of correction requirement.**

*a.* Except as specified in paragraph “*b*,” regardless of which remedy is applied, each facility that has deficiencies with respect to program requirements shall submit a plan of correction for approval by the department of inspections and appeals.

*b.* A facility is not required to submit a plan of correction when the department of inspections and appeals determines the facility has deficiencies that are isolated and have a potential for minimal harm, but no actual harm has occurred.

**81.32(5) Disagreement regarding remedies.** If the department of inspections and appeals and CMS disagree on the decision to impose a remedy, the disagreement shall be resolved in accordance with rule 441—81.55(249A).

**81.32(6) Notification requirements.**

*a.* The department of inspections and appeals shall give the provider written notice of remedy, including the:

- (1) Nature of the noncompliance.
- (2) Which remedy is imposed.
- (3) Effective date of the remedy.
- (4) Right to appeal the determination leading to the remedy.

*b.* Except for civil money penalties and state monitoring imposed when there is immediate jeopardy, for all remedies specified in rule 441—81.34(249A) imposed when there is immediate jeopardy, the notice shall be given at least two calendar days before the effective date of the enforcement action.

*c.* Except for civil money penalties and state monitoring, notice shall be given at least 15 calendar days before the effective date of the enforcement action in situations where there is no immediate jeopardy.

*d.* The 2- and 15-day notice periods begin when the facility receives the notice, but in no event will the effective date of the enforcement action be later than 20 calendar days after the notice is sent.

*e.* For civil money penalties, the notices shall be given in accordance with rules 441—81.48(249A) and 441—81.51(249A).

*f.* For state monitoring imposed when there is immediate jeopardy, no prior notice is required.

**81.32(7) Informal dispute resolution.**

*a.* Opportunity to refute survey findings.

(1) For nonfederal surveys, the department of inspections and appeals (DIA) shall offer a facility an informal opportunity, at the facility’s request, to dispute survey findings upon the facility’s receipt of the official statement of deficiencies.

(2) For a federal survey, the Centers for Medicare and Medicaid Services (CMS) offers a facility an informal opportunity, at the facility’s request, to dispute survey findings upon the facility’s receipt of the official statement of deficiencies.

*b.* Delay of enforcement action.

(1) Failure of DIA or CMS, as appropriate, to complete informal dispute resolution timely cannot delay the effective date of any enforcement action against the facility.

(2) A facility may not seek a delay of any enforcement action against it on the grounds that informal dispute resolution has not been completed before the effective date of the enforcement action.

c. If a provider is subsequently successful, during the informal dispute resolution process, at demonstrating that deficiencies should not have been cited, the deficiencies are removed from the statement of deficiencies and any enforcement actions imposed solely as a result of those cited deficiencies are rescinded.

d. Notification. DIA shall provide the facility with written notification of the informal dispute resolution process.

**441—81.33(249A) Factors to be considered in selecting remedies.**

**81.33(1) Initial assessment.** In order to select the appropriate remedy, if any, to apply to a facility with deficiencies, the department of inspections and appeals shall determine the seriousness of the deficiencies.

**81.33(2) Determining seriousness of deficiencies.** To determine the seriousness of the deficiency, the department of inspections and appeals shall consider at least the following factors:

a. Whether a facility's deficiencies constitute:

- (1) No actual harm with a potential for minimal harm.
- (2) No actual harm with a potential for more than minimal harm, but not immediate jeopardy.
- (3) Actual harm that is not immediate jeopardy.
- (4) Immediate jeopardy to resident health or safety.

b. Whether the deficiencies:

- (1) Are isolated.
- (2) Constitute a pattern.
- (3) Are widespread.

**81.33(3) Other factors which may be considered in choosing a remedy within a remedy category.** Following the initial assessment, the department of inspections and appeals may consider other factors, which may include, but are not limited to, the following:

a. The relationship of the one deficiency to other deficiencies resulting in noncompliance.

b. The facility's prior history of noncompliance in general and specifically with reference to the cited deficiencies.

**441—81.34(249A) Available remedies.** In addition to the remedy of termination of the provider agreement, the following remedies are available:

1. Temporary management.
2. Denial of payment for all new admissions.
3. Civil money penalties.
4. State monitoring.
5. Closure of the facility in emergency situations or transfer of residents, or both.
6. Directed plan of correction.
7. Directed in-service training.

**441—81.35(249A) Selection of remedies.**

**81.35(1) Categories of remedies.** Remedies specified in rule 441—81.34(249A) are grouped into categories and applied to deficiencies according to the severity of noncompliance.

**81.35(2) Application of remedies.** After considering the factors specified in rule 441—81.33(249A), if the department of inspections and appeals applies remedies, as provided in paragraphs 81.35(3) "a," 81.35(4) "a," and 81.35(5) "a," for facility noncompliance, instead of, or in addition to, termination of the provider agreement, the department of inspections and appeals shall follow the criteria set forth in 81.35(3) "b," 81.35(4) "b," and 81.35(5) "b," as applicable.

**81.35(3) Category 1.**

a. Category 1 remedies include the following:

- (1) Directed plan of correction.

- (2) State monitoring.
- (3) Directed in-services training.

b. The department of inspections and appeals shall apply one or more of the remedies in Category 1 when there:

- (1) Are isolated deficiencies that constitute no actual harm with a potential for more than minimal harm but not immediate jeopardy; or
- (2) Is a pattern of deficiencies that constitutes no actual harm with a potential for more than minimal harm but not immediate jeopardy.

c. Except when the facility is in substantial compliance, the department of inspections and appeals may apply one or more of the remedies in Category 1 to any deficiency.

**81.35(4) Category 2.**

a. Category 2 remedies include the following:

- (1) Denial of payment for new admissions.
- (2) Civil money penalties of \$50 to \$3,000 per day.

b. The department of inspections and appeals shall apply one or more of the remedies in Category 2 when there are:

- (1) Widespread deficiencies that constitute no actual harm with a potential for more than minimal harm but not immediate jeopardy; or
- (2) One or more deficiencies that constitute actual harm that is not immediate jeopardy.

c. Except when the facility is in substantial compliance, the department of inspections and appeals may apply one or more of the remedies in Category 2 to any deficiency.

**81.35(5) Category 3.**

a. Category 3 remedies include the following:

- (1) Temporary management.
- (2) Immediate termination.
- (3) Civil money penalties of \$3,050 to \$10,000 per day.

b. When there is one or more deficiencies that constitute immediate jeopardy to resident health or safety, one or both of the following remedies shall be applied:

- (1) Temporary management.
- (2) Termination of the provider agreement.

In addition the department of inspections and appeals may impose a civil money penalty of \$3,050 to \$10,000 per day.

c. When there are widespread deficiencies that constitute actual harm that is not immediate jeopardy, the department of inspections and appeals may impose temporary management, in addition to Category 2 remedies.

**81.35(6) Plan of correction.**

a. Except as specified in paragraph "b," each facility that has a deficiency with regard to a requirement for long-term care facilities shall submit a plan of correction for approval by the department of inspections and appeals, regardless of:

- (1) Which remedies are applied.
- (2) The seriousness of the deficiencies.

b. When there are only isolated deficiencies that the department of inspections and appeals determines constitute no actual harm with a potential for minimal harm, the facility need not submit a plan of correction.

**81.35(7) Appeal of a determination of noncompliance.**

a. A facility may request a hearing on a determination of noncompliance leading to an enforcement remedy. The affected nursing facility, or its legal representative or other authorized official, shall file the request for hearing in writing to the department of inspections and appeals within 60 days from receipt of the notice of the proposed denial, termination, or nonrenewal of participation, or imposition of a civil money penalty or other remedies.

(1) A request for a hearing shall be made in writing to the department of inspections and appeals within 60 days from receipt of the notice.

(2) Hearings shall be conducted pursuant to department of inspections and appeals rules 481—Chapter 10 and rule 481—50.6(10A), with an administrative law judge appointed as the presiding officer and with the department of inspections and appeals as the final decision maker, with subject matter jurisdiction.

*b.* A facility may not appeal the choice of remedy, including the factors considered by the department of inspections and appeals in selecting the remedy.

*c.* A facility may not challenge the level of noncompliance found by the department of inspections and appeals, except that in the case of a civil money penalty, a facility may challenge the level of noncompliance found by the department of inspections and appeals only if a successful challenge on this issue would affect the range of civil money penalty amounts that the department could collect.

*d.* Except when a civil remedy penalty is imposed, the imposition of a remedy shall not be stayed pending an appeal hearing.

**441—81.36(249A) Action when there is immediate jeopardy.**

**81.36(1)** *Terminate agreement or appoint temporary manager.* If there is immediate jeopardy to resident health or safety, the department of inspections and appeals shall appoint a temporary manager to remove the immediate jeopardy or the provider agreement shall be terminated within 23 calendar days of the last date of the survey.

The rules for appointment of a temporary manager in an immediate jeopardy situation are as follows:

*a.* The department of inspections and appeals shall notify the facility that a temporary manager is being appointed.

*b.* If the facility fails to relinquish control to the temporary manager, the provider agreement shall be terminated within 23 calendar days of the last day of the survey if the immediate jeopardy is not removed. In these cases, state monitoring may be imposed pending termination.

*c.* If the facility relinquishes control to the temporary manager, the department of inspections and appeals shall notify the facility that, unless it removes the immediate jeopardy, its provider agreement shall be terminated within 23 calendar days of the last day of the survey.

*d.* The provider agreement shall be terminated within 23 calendar days of the last day of survey if the immediate jeopardy has not been removed.

**81.36(2)** *Other remedies.* The department of inspections and appeals may also impose other remedies, as appropriate.

**81.36(3)** *Notification of CMS.* In a nursing facility or dually participating facility, if the department of inspections and appeals finds that a facility's noncompliance poses immediate jeopardy to resident health or safety, the department of inspections and appeals shall notify CMS of the finding.

**81.36(4)** *Transfer of residents.* The department shall provide for the safe and orderly transfer of residents when the facility is terminated from participation.

**81.36(5)** *Notification of physicians and state board.* If the immediate jeopardy is also substandard quality of care, the department of inspections and appeals shall notify attending physicians and the Iowa board of nursing home administrators of the finding of substandard quality of care.

**441—81.37(249A) Action when there is no immediate jeopardy.**

**81.37(1)** *Termination of agreement or limitation of participation.* If a facility's deficiencies do not pose immediate jeopardy to residents' health or safety, and the facility is not in substantial compliance, the facility's provider agreement may be terminated or the facility may be allowed to continue to participate for no longer than six months from the last day of the survey if:

*a.* The department of inspections and appeals finds that it is more appropriate to impose alternative remedies than to terminate the facility's provider agreement;

*b.* The department of inspections and appeals has submitted a plan of correction approved by CMS; and

*c.* The facility agrees to repay payments received after the last day of the survey that first identified the deficiencies if corrective action is not taken in accordance with the approved plan of correction and posts bond acceptable to the department to guarantee the repayment.

**81.37(2) Termination.** If a facility does not meet the criteria for continuation of payment under subrule 81.37(1), the facility's provider agreement shall be terminated.

**81.37(3) Denial of payment.** Payment shall be denied for new admissions when the facility is not in substantial compliance three months after the last day of the survey.

**81.37(4) Failure to comply.** The provider agreement shall be terminated and all payments stopped to a facility for which participation was continued under subrule 81.37(1) if the facility is not in substantial compliance within six months of the last day of the survey.

**441—81.38(249A) Action when there is repeated substandard quality of care.**

**81.38(1) General.** If a facility has been found to have provided substandard quality of care on the last three consecutive standard surveys, regardless of other remedies provided:

a. Payment for all new admissions shall be denied, as specified in rule 441—81.40(249A).

b. The department of inspections and appeals shall impose state monitoring, as specified in rule 441—81.42(249A) until the facility has demonstrated to the satisfaction of the department of inspections and appeals that it is in substantial compliance with all requirements and will remain in substantial compliance with all requirements.

**81.38(2) Repeated noncompliance.** For purposes of this rule, repeated noncompliance is based on the repeated finding of substandard quality of care and not on the basis that the substance of the deficiency or the exact deficiency was repeated.

**81.38(3) Standard surveys to which this provision applies.** Standard surveys completed by the department of inspections and appeals on or after October 1, 1990, are used to determine whether the threshold of three consecutive standard surveys is met.

**81.38(4) Program participation.**

a. The determination that a certified facility has repeated instances of substandard quality of care is made without regard to any variances in the facility's program participation (that is, any standard survey completed for Medicare, Medicaid or both programs will be considered).

b. Termination would allow the count of repeated substandard quality of care surveys to start over.

c. Change of ownership.

(1) A facility may not avoid a remedy on the basis that it underwent a change of ownership.

(2) In a facility that has undergone a change of ownership, the department of inspections and appeals may not restart the count of repeated substandard quality of care surveys unless the new owner can demonstrate to the department of inspections and appeals that the poor past performance no longer is a factor due to the change in ownership.

**81.38(5) Compliance.** Facility alleges corrections or achieves compliance after repeated substandard quality of care is identified.

a. If a penalty is imposed for repeated substandard quality of care, it will continue until the facility has demonstrated to the satisfaction of the department of inspections and appeals that it is in substantial compliance with the requirements and that it will remain in substantial compliance for a period of time specified by the department of inspections and appeals.

b. A facility will not avoid the imposition of remedies or the obligation to demonstrate that it will remain in compliance when it:

(1) Alleges correction of the deficiencies cited in the most recent standard survey; or

(2) Achieves compliance before the effective date of the remedies.

**441—81.39(249A) Temporary management.** The department of inspections and appeals may appoint a temporary manager from qualified applicants.

**81.39(1) Qualifications.** The temporary manager must:

a. Be qualified to oversee correction of deficiencies on the basis of experience and education, as determined by the department of inspections and appeals.

b. Not have been found guilty of misconduct by any licensing board or professional society in any state.

c. Have, or a member of the manager's immediate family have, no financial ownership interest in the facility.

d. Not currently serve or, within the past two years, have served as a member of the staff of the facility.

**81.39(2) *Payment of salary.*** The temporary manager's salary:

a. Is paid directly by the facility while the temporary manager is assigned to that facility.

b. Shall be at least equivalent to the sum of the following:

(1) The prevailing salary paid by providers for positions of this type in the facility's geographic area.

(2) Additional costs that would have reasonably been incurred by the provider if the person had been in an employment relationship.

(3) Any other transportation and lodging costs incurred by the person in furnishing services under the arrangement up to the maximum per diem for state employees.

c. May exceed the amount specified in paragraph "b" if the department of inspections and appeals is otherwise unable to attract a qualified temporary manager.

**81.39(3) *Failure to relinquish authority to temporary management.***

a. If a facility fails to relinquish authority to the temporary manager, the provider agreement shall be terminated in accordance with rule 441—81.57(249A).

b. A facility's failure to pay the salary of the temporary manager is considered a failure to relinquish authority to temporary management.

**81.39(4) *Duration of temporary management.*** Temporary management ends when the facility meets any of the conditions specified in subrule 81.56(3).

#### **441—81.40(249A) Denial of payment for all new admissions.**

**81.40(1) *Optional denial of payment.*** Except as specified in subrule 81.40(2), the denial of payment for all new admissions may be imposed when a facility is not in substantial compliance with the requirements.

**81.40(2) *Required denial of payment.*** Payment for all new admissions shall be denied when:

a. The facility is not in substantial compliance three months after the last day of the survey identifying the noncompliance; or

b. The department of inspections and appeals has cited a facility with substandard quality of care on the last three consecutive standard surveys.

**81.40(3) *Resumption of payments.*** Repeated instances of substandard quality of care. When a facility has repeated instances of substandard quality of care, payments to the facility resume on the date that:

a. The facility achieves substantial compliance as indicated by a revisit or written credible evidence acceptable to the department of inspections and appeals.

b. The department of inspections and appeals determines that the facility is capable of remaining in substantial compliance.

**81.40(4) *Resumption of payments.*** No repeated instances of substandard quality of care. When a facility does not have repeated instances of substandard quality of care, payments to the facility resume prospectively on the date that the facility achieves substantial compliance, as indicated by a revisit or written credible evidence acceptable to the department of inspections and appeals.

**81.40(5) *Restriction.*** No payments to a facility are made for the period between the date that the denial of payment remedy is imposed and the date the facility achieves substantial compliance, as determined by the department of inspections and appeals.

#### **441—81.41(249A) Secretarial authority to deny all payments.**

**81.41(1) *CMS option to deny all payment.*** If a facility has not met a requirement, in addition to the authority to deny payment for all new admissions as specified in rule 441—81.40(249A), CMS may deny any further payment to the state for all Medicaid residents in the facility. When CMS denies payment to the state, the department shall deny payment to the facility.

**81.41(2) Resumption of payment.** When CMS resumes payment to the state, the department shall also resume payment to the facility. The department shall make payments to the facility for the same periods for which payment is made to the state.

**441—81.42(249A) State monitoring.**

**81.42(1) State monitor.** A state monitor:

- a. Oversees the correction of deficiencies specified by the department of inspections and appeals at the facility site and protects the facility's residents from harm.
- b. Is an employee or a contractor of the department of inspections and appeals.
- c. Is identified by the department of inspections and appeals as an appropriate professional to monitor cited deficiencies.
- d. Is not an employee of the facility.
- e. Does not function as a consultant to the facility.
- f. Does not have an immediate family member who is a resident of the facility to be monitored.

**81.42(2) Use of state monitor.** A state monitor shall be used when the department of inspections and appeals has cited a facility with substandard quality of care deficiencies on the last three consecutive standard surveys.

**81.42(3) Discontinuance of state monitor.** State monitoring is discontinued when:

- a. The facility has demonstrated that it is in substantial compliance with the requirement, and it will remain in compliance for a period of time specified by the department of inspections and appeals.
- b. Termination procedures are completed.

**441—81.43(249A) Directed plan of correction.** The department of inspections and appeals or the temporary manager (with department of inspections and appeals' approval) may develop a plan of correction and require a facility to take action within specified time frames.

**441—81.44(249A) Directed in-service training.**

**81.44(1) Required training.** The department of inspections and appeals may require the staff of a facility to attend an in-service training program if:

- a. The facility has a pattern of deficiencies that indicate noncompliance; and
- b. Education is likely to correct the deficiencies.

**81.44(2) Action following training.** After the staff has received in-service training, if the facility has not achieved substantial compliance, the department of inspections and appeals may impose one or more other remedies.

**81.44(3) Payment.** The facility is responsible for the payment for the directed in-service training.

**441—81.45(249A) Closure of a facility or transfer of residents, or both.**

**81.45(1) Closure during an emergency.** In an emergency, the department and the department of inspections and appeals have the authority to:

- a. Transfer Medicaid and Medicare residents to another facility; or
- b. Close the facility and transfer the Medicaid and Medicare residents to another facility.

**81.45(2) Required transfer in immediate jeopardy situations.** When a facility's provider agreement is terminated for a deficiency that constitutes immediate jeopardy, the department arranges for the safe and orderly transfer of all Medicaid and Medicare residents to another facility.

**81.45(3) All other situations.** Except for immediate jeopardy situations, as specified in subrule 81.45(2), when a facility's provider agreement is terminated, the department arranges for the safe and orderly transfer of all Medicare and Medicaid residents to another facility.

**441—81.46(249A) Civil money penalties—basis for imposing penalty.** The department of inspections and appeals may impose a civil money penalty for the number of days a facility is not in substantial compliance with one or more participation requirements, regardless of whether or not the deficiencies constitute immediate jeopardy.

The department of inspections and appeals may impose a civil money penalty for the number of days of past noncompliance since the last standard survey, including the number of days of immediate jeopardy.

**441—81.47(249A) Civil money penalties—when penalty is collected.**

**81.47(1) *When facility requests a hearing.***

*a.* A facility shall request a hearing on the determination of the noncompliance that is the basis for imposition of the civil money penalty within the time limit specified in subrule 81.35(7).

*b.* If a facility requests a hearing within the time specified in subrule 81.35(7), the department of inspections and appeals initiates collection of the penalty when there is a final administrative decision that upholds the department of inspections and appeals' determination of noncompliance after the facility achieves substantial compliance or is terminated.

**81.47(2) *When facility does not request a hearing.*** If a facility does not request a hearing, in accordance with subrule 81.47(1), the department of inspections and appeals initiates collection of the penalty when the facility:

- a.* Achieves substantial compliance; or
- b.* Is terminated.

**81.47(3) *When facility waives a hearing.*** If a facility waives its right to a hearing in writing, as specified in rule 441—81.49(249A), the department of inspections and appeals initiates collection of the penalty when the facility:

- a.* Achieves substantial compliance; or
- b.* Is terminated.

**81.47(4) *Accrual and computation of penalties.*** Accrual and computation of penalties for a facility that:

- a.* Requests a hearing or does not request a hearing as specified in rule 441—81.50(249A);
- b.* Waives its right to a hearing in writing, as specified in subrule 81.49(2) and rule 441—81.50(249A).

**81.47(5) *Collection.*** The collection of civil money penalties is made as provided in rule 441—81.52(249A).

**441—81.48(249A) Civil money penalties—notice of penalty.** The department of inspections and appeals shall notify the facility of intent to impose a civil money penalty in writing. The notice shall include, at a minimum, the following information:

1. The nature of the noncompliance.
2. The statutory basis for the penalty.
3. The amount of penalty per day of noncompliance.
4. Any factors specified in subrule 81.50(6) that were considered when determining the amount of the penalty.
5. The date on which the penalty begins to accrue.
6. When the penalty stops accruing.
7. When the penalty is collected.
8. Instructions for responding to the notice, including a statement of the facility's right to a hearing, and the implication of waiving a hearing, as provided in rule 441—81.49(249A).

**441—81.49(249A) Civil money penalties—waiver of hearing, reduction of penalty amount.**

**81.49(1) *Waiver of a hearing.*** The facility may waive the right to a hearing, in writing, within 60 days from the date of the notice of intent to impose the civil money penalty.

**81.49(2) *Reduction of penalty amount.***

*a.* If the facility waives its right to a hearing, the department of inspections and appeals reduces the civil money penalty amount by 35 percent.

*b.* If the facility does not waive its right to a hearing, the civil money penalty is not reduced by 35 percent.

**441—81.50(249A) Civil money penalties—amount of penalty.**

**81.50(1) Amount of penalty.** The penalties are within the following ranges, set at \$50 increments:

a. Upper range—\$3,050 to \$10,000. Penalties in the range of \$3,050 to \$10,000 per day are imposed for deficiencies constituting immediate jeopardy, as specified in 81.50(4) “b.”

b. Lower range—\$50 to \$3,000. Penalties in the range of \$50 to \$3,000 per day are imposed for deficiencies that do not constitute immediate jeopardy, but either caused actual harm, or caused no actual harm, but have the potential for more than minimal harm.

**81.50(2) Basis for penalty amount.** The amount of penalty is based on the department of inspections and appeals’ assessment of factors listed in subrule 81.50(6).

**81.50(3) Decreased penalty amounts.** Except as specified in 81.50(4) “b,” if immediate jeopardy is removed, but the noncompliance continues, the department of inspections and appeals shall shift the penalty amount to the lower range.

**81.50(4) Increased penalty amounts.**

a. Before the hearing, the department of inspections and appeals may propose to increase the penalty amount for facility noncompliance which, after imposition of a lower level penalty amount, becomes sufficiently serious to pose immediate jeopardy.

b. The department of inspections and appeals shall increase the penalty amount for any repeated deficiencies for which a lower level penalty amount was previously imposed, regardless of whether the increased penalty amount would exceed the range otherwise reserved for nonimmediate jeopardy deficiencies.

c. Repeated deficiencies are deficiencies in the same regulatory grouping of requirements found at the last survey, subsequently corrected, and found again at the next survey.

**81.50(5) Review of the penalty.** When an administrative law judge (or director of the department of inspections and appeals) finds that the basis for imposing a civil money penalty exists, the administrative law judge (or director) may not:

a. Set a penalty of zero or reduce a penalty to zero.

b. Review the exercise of discretion by the department of inspections and appeals to impose a civil money penalty.

c. Consider any factors in reviewing the amount of the penalty other than those specified in subrule 81.50(6).

**81.50(6) Factors affecting the amount of penalty.** In determining the amount of penalty, the department of inspections and appeals shall take into account the following factors:

a. The facility’s history of noncompliance, including repeated deficiencies.

b. The facility’s financial condition.

c. The factors specified in rule 441—81.33(249A).

d. The facility’s degree of culpability. Culpability includes, but is not limited to, neglect, indifference, or disregard for resident care, comfort or safety. The absence of culpability is not a mitigating circumstance in reducing the amount of the penalty.

**81.50(7) Authority to settle penalties.** The department of inspections and appeals has the authority to settle cases at any time before the evidentiary hearing.

[ARC 9402B, IAB 3/9/11, effective 4/1/11]

**441—81.51(249A) Civil money penalties—effective date and duration of penalty.**

**81.51(1) When penalty begins to accrue.** The civil money penalty may start accruing as early as the date the facility was first out of compliance, as determined by the department of inspections and appeals.

**81.51(2) Duration of penalty.** The civil money penalty is computed and collectible, as specified in rules 441—81.47(249A) and 441—81.52(249A), for the number of days of noncompliance until the date the facility achieves substantial compliance or, if applicable, the date of termination when:

a. The department of inspections and appeals’ decision of noncompliance is upheld after a final administrative decision;

b. The facility waives its right to a hearing in accordance with rule 441—81.49(249A); or

c. The time for requesting a hearing has expired and the department of inspections and appeals has not received a hearing request from the facility.

**81.51(3) *Penalty due.*** The entire accrued penalty is due and collectible, as specified in the notice sent to the provider under subrules 81.51(4) and 81.54(5).

**81.51(4) *Notice after facility achieves compliance.*** When a facility achieves substantial compliance, the department of inspections and appeals shall send a separate notice to the facility containing:

- a. The amount of penalty per day;
- b. The number of days involved;
- c. The total amount due;
- d. The due date of the penalty; and
- e. The rate of interest assessed on the unpaid balance beginning on the due date, as provided in rule 441—81.52(249A).

**81.51(5) *Notice to terminated facility.*** In the case of a terminated facility, the department of inspections and appeals shall send this penalty information after the:

- a. Final administrative decision is made;
- b. Facility has waived its right to a hearing in accordance with rule 441—81.49(249A); or
- c. Time for requesting a hearing has expired and the department of inspections and appeals has not received a hearing request from the facility.

**81.51(6) *Accrual of penalties when there is no immediate jeopardy.***

a. In the case of noncompliance that does not pose immediate jeopardy, the daily accrual of civil money penalties is imposed for the days of noncompliance prior to the notice specified in rule 441—81.48(249A) and an additional period of no longer than six months following the last day of the survey.

b. After the period specified in paragraph “a,” if the facility has not achieved substantial compliance, the provider agreement may be terminated.

**81.51(7) *Accrual of penalties when there is immediate jeopardy.***

a. When a facility has deficiencies that pose immediate jeopardy, the provider agreement shall be terminated within 23 calendar days after the last day of the survey if the immediate jeopardy remains.

b. The accrual of the civil money penalty stops on the day the provider agreement is terminated.

**81.51(8) *Documenting substantial compliance.***

a. If an on-site revisit is necessary to confirm substantial compliance and the provider can supply documentation acceptable to the department of inspections and appeals that substantial compliance was achieved on a date preceding the revisit, penalties only accrue until that date of correction for which there is written credible evidence.

b. If an on-site revisit is not necessary to confirm substantial compliance, penalties only accrue until the date of correction for which the department of inspections and appeals receives and accepts written credible evidence.

#### **441—81.52(249A) Civil money penalties—due date for payment of penalty.**

**81.52(1) *When payments are due.***

a. A civil money penalty payment is due 15 days after a final administrative decision is made when:

- (1) The facility achieves substantial compliance before the final administrative decision; or
- (2) The effective date of termination occurs before the final administrative decision.

b. A civil money penalty is due 15 days after the time period for requesting a hearing has expired and a hearing request was not received when:

- (1) The facility achieves substantial compliance before the hearing request was due; or
- (2) The effective date of termination occurs before the hearing request was due.

c. A civil money penalty payment is due 15 days after receipt of the written request to waive a hearing when:

(1) The facility achieved substantial compliance before the department of inspections and appeals received the written waiver of hearing; or

(2) The effective date of termination occurs before the department of inspections and appeals received the written waiver of hearing.

*d.* A civil money penalty payment is due 15 days after substantial compliance is achieved when:

- (1) The final administrative decision is made before the facility came into compliance;
- (2) The facility did not file a timely hearing request before it came into substantial compliance; or
- (3) The facility waived its right to a hearing before it came into substantial compliance.

*e.* A civil money penalty payment is due 15 days after the effective date of termination, if before the effective date of termination:

- (1) The final administrative decision was made;
- (2) The time for requesting a hearing has expired and the facility did not request a hearing; or
- (3) The facility waived its right to a hearing.

*f.* In the cases specified in paragraph “*d.*,” the period of noncompliance may not extend beyond six months from the last day of the survey.

**81.52(2) *Deduction of penalty from amount owed.*** The amount of the penalty, when determined, may be deducted from any sum then or later owing by the department to the facility.

**81.52(3) *Interest.*** Interest of 10 percent per year is assessed on the unpaid balance of the penalty, beginning on the due date.

**81.52(4) *Penalties collected by the department.*** Rescinded IAB 3/9/11, effective 4/1/11.  
[ARC 9402B, IAB 3/9/11, effective 4/1/11]

**441—81.53(249A) Use of penalties collected by the department.** Civil money penalties collected by the department shall be applied to the protection of the health or property of residents of facilities that the department of inspections and appeals finds deficient. Funds may be used for:

1. Payment for the cost of relocating residents to other facilities;
2. Recovery of state costs related to the operation of a facility pending correction of deficiencies or closure;
3. Reimbursement of residents for personal funds or property lost at a facility as a result of actions by the facility or by individuals used by the facility to provide services to residents; and
4. Funding of projects to improve the quality of life or quality of care of nursing facility residents through quality improvement initiative grants awarded pursuant to 441—Chapter 166.

[ARC 9402B, IAB 3/9/11, effective 4/1/11]

**441—81.54(249A) Continuation of payments to a facility with deficiencies.**

**81.54(1) *Criteria.***

*a.* The department may continue payments to a facility that is not in substantial compliance for the periods specified in subrule 81.54(3) if the following criteria are met:

- (1) The department of inspections and appeals finds that it is more appropriate to impose alternative remedies than to terminate the facility;
- (2) The department of inspections and appeals has submitted a plan and timetable for corrective action approved by CMS; and
- (3) The facility agrees to repay the department for all payments received under this provision if corrective action is not taken in accordance with the approved plan and timetable for corrective action and posts a bond acceptable to the department to guarantee agreement to repay.

*b.* The facility provider agreement may be terminated before the end of the correction period if the criteria in 81.54(1) “*a*” are not met.

**81.54(2) *Cessation of payments.*** If termination is not sought, either by itself or along with another remedy or remedies, or any of the criteria in 81.54(1) “*a*” are not met or agreed to by either the facility or the department, the facility shall receive no payments, as applicable, from the last day of the survey.

**81.54(3) *Period of continued payments.*** If the conditions in 81.54(1) “*a*” are met, the department may continue payments to a facility with noncompliance that does not constitute immediate jeopardy for up to six months from the last day of the survey.

**81.54(4) Failure to achieve substantial compliance.** If the facility does not achieve substantial compliance by the end of the period specified in subrule 81.54(3), the provider agreement for the facility may be terminated.

**441—81.55(249A) State and federal disagreements involving findings not in agreement when there is no immediate jeopardy.** This rule applies when CMS and the department of inspections and appeals disagree over findings of noncompliance or application of remedies.

**81.55(1) Disagreement over whether facility has met requirements.**

*a.* The department of inspections and appeals' finding of noncompliance takes precedence when:

- (1) CMS finds the facility is in substantial compliance with the participation requirements; and
- (2) The department of inspections and appeals finds the facility has not achieved substantial compliance.

*b.* CMS's findings of noncompliance take precedence when:

- (1) CMS finds that a facility has not achieved substantial compliance; and
- (2) The department of inspections and appeals finds the facility is in substantial compliance with the participation requirements.

*c.* When CMS's survey findings take precedence, CMS may:

- (1) Impose any of the alternative remedies specified in rule 441—81.34(249A);
- (2) Terminate the provider agreement subject to the applicable conditions of rule 441—81.54(249A); and
- (3) Stop federal financial participation to the department for a nursing facility.

**81.55(2) Disagreement over decision to terminate.**

*a.* CMS's decision to terminate the participation of a facility takes precedence when:

- (1) Both CMS and the department of inspections and appeals find that the facility has not achieved substantial compliance; and
- (2) CMS, but not the department of inspections and appeals, finds that the facility's participation should be terminated. CMS will permit continuation of payment during the period prior to the effective date of termination, not to exceed six months, if the applicable conditions of rule 441—81.54(249A) are met.

*b.* The department of inspections and appeals' decision to terminate a facility's participation and the procedures for appealing the termination take precedence when:

- (1) The department of inspections and appeals, but not CMS, finds that a facility's participation should be terminated; and
- (2) The department of inspections and appeals' effective date for the termination of the nursing facility's provider agreement is no later than six months after the last day of survey.

**81.55(3) Disagreement over timing of termination of facility.** The department of inspections and appeals' timing of termination takes precedence if it does not occur later than six months after the last day of the survey when both CMS and the department of inspections and appeals find that:

*a.* A facility is not in substantial compliance; and

*b.* The facility's participation should be terminated.

**81.55(4) Disagreement over remedies.**

*a.* When CMS or the department of inspections and appeals, but not both, establishes one or more remedies, in addition to or as an alternative to termination, the additional or alternative remedies will also apply when:

- (1) Both CMS and the department of inspections and appeals find that a facility has not achieved substantial compliance; and
- (2) Both CMS and the department of inspections and appeals find that no immediate jeopardy exists.

*b.* When CMS and the department of inspections and appeals establish one or more remedies, in addition to or as an alternative to termination, only the CMS remedies apply when both CMS and the department of inspections and appeals find that a facility has not achieved substantial compliance.

**81.55(5) One decision.** Regardless of whether CMS's or the department of inspections and appeals' decision controls, only one noncompliance and enforcement decision is applied to the Medicaid

agreement, and for a dually participating facility, that same decision will apply to the Medicare agreement.

**441—81.56(249A) Duration of remedies.**

**81.56(1) Remedies continue.** Except as specified in subrule 81.56(2), alternative remedies continue until:

- a. The facility has achieved substantial compliance as determined by the department of inspections and appeals based upon a revisit or after an examination of credible written evidence that it can verify without an on-site visit; or
- b. The provider agreement is terminated.

**81.56(2) State monitoring.** In the cases of state monitoring and denial of payment imposed for repeated substandard quality of care, remedies continue until:

- a. The department of inspections and appeals determines that the facility has achieved substantial compliance and is capable of remaining in substantial compliance; or
- b. The provider agreement is terminated.

**81.56(3) Temporary management.** In the case of temporary management, the remedy continues until:

- a. The department of inspections and appeals determines that the facility has achieved substantial compliance and is capable of remaining in substantial compliance;
- b. The provider agreement is terminated; or
- c. The facility which has not achieved substantial compliance reassumes management control. In this case, the department of inspections and appeals initiates termination of the provider agreement and may impose additional remedies.

**81.56(4) Facility in compliance.** If the facility can supply documentation acceptable to the department of inspections and appeals that it was in substantial compliance, and was capable of remaining in substantial compliance, if necessary, on a date preceding that of the revisit, the remedies terminate on the date that the department of inspections and appeals can verify as the date that substantial compliance was achieved.

**441—81.57(249A) Termination of provider agreement.**

**81.57(1) Effect of termination.** Termination of the provider agreement ends payment to the facility and any alternative remedy.

**81.57(2) Basis of termination.**

- a. A facility's provider agreement may be terminated if a facility:
  - (1) Is not in substantial compliance with the requirements of participation, regardless of whether or not immediate jeopardy is present; or
  - (2) Fails to submit an acceptable plan of correction within the time frame specified by the department of inspections and appeals.
- b. A facility's provider agreement shall be terminated if a facility:
  - (1) Fails to relinquish control to the temporary manager, if that remedy is imposed by the department of inspections and appeals; or
  - (2) Does not meet the eligibility criteria for continuation of payment as set forth in 81.37(1)“a.”

**81.57(3) Notice of termination.** Before a provider agreement is terminated, the department of inspections and appeals shall notify the facility and the public:

- a. At least two calendar days before the effective date of termination for a facility with immediate jeopardy deficiencies; and
- b. At least 15 calendar days before the effective date of termination for a facility with nonimmediate jeopardy deficiencies that constitute noncompliance.

These rules are intended to implement Iowa Code section 249A.4.

<sup>1</sup> Effective date of 81.16(4) delayed 30 days by the Administrative Rules Review Committee at its September 12, 1990, meeting; at the October 9, 1990, meeting the delay was extended to 70 days. Amendment effective 12/1/90 superseded the 70-day delay.

<sup>2</sup> Effective date of 81.10(5) delayed until adjournment of the 1991 session of the General Assembly by the Administrative Rules Review Committee at its November 13, 1990, meeting.

- <sup>3</sup> Effective date of 81.13(7) "c"(1) delayed 70 days by the Administrative Rules Review Committee at its meeting held July 14, 1992; delay lifted by the Committee at its meeting held August 11, 1992, effective August 12, 1992.
- <sup>4</sup> Effective date of 81.6(3), first unnumbered paragraph, delayed 70 days by the Administrative Rules Review Committee at its meeting held April 5, 1993.
- <sup>5</sup> At a special meeting held January 24, 2002, the Administrative Rules Review Committee voted to delay until adjournment of the 2002 Session of the General Assembly the effective date of amendments published in the February 6, 2002, Iowa Administrative Bulletin as **ARC 1365B**.

## OBJECTION

At its meeting held August 11, 1992, the Administrative Rules Review Committee voted to object to the amendments published in **ARC 3069A** on the grounds the amendments are unreasonable. This filing is published in IAB Vol. XIV No. 253 (06-10-92). It is codified as an amendment to paragraph 441 IAC 81.13(7)“c”(1).

In brief, this filing provides that care facilities shall not employ persons who have been found guilty in a court of law of abusing, neglecting or mistreating facility residents, or who have had a “finding” entered into the state nurse aide registry concerning abuse, neglect, mistreatment of residents or misappropriation of their property. Additionally, the filing eliminates a previous provision which allowed the Department of Inspections and Appeals some discretion in deciding whether the lifetime ban on employment should be applied.

This language originated in the federal government which mandated that the department adopt these provisions or possibly face sanctions. The Committee does not believe these amendments are an improvement to Iowa’s system and has the following objection. The Committee believes that the amendments published in **ARC 3069A** are unreasonable because of the inconsistency in the burdens of proof and the levels of procedural safeguards in the two proceedings. A facility employee may either be found guilty in a court of law or have an administrative finding entered into the registry. In either case the result is the same, the employee is permanently banned from further employment in a care facility; however, the two paths to the result are significantly different. The first proceeding is a criminal tribunal in which the burden of proof is “beyond a reasonable doubt.” The second proceeding is a simple administrative hearing in which the burden is “preponderance of the evidence.” The two proceedings also differ in the level of many other due process protections accorded to the individual. A criminal proceeding provides the accused with the opportunity for a trial by jury, competent legal counsel, strict rules of evidence and many procedural protections not present in administrative hearings. It should also be noted that the penalty in this situation—a lifetime ban on employment—is more serious than is usually imposed in contested cases. In licensee discipline cases, a license can be revoked, but the possibility of reinstatement exists; under this new rule no reinstatement is allowed, the facility employee is banned from employment no matter how serious or minor the offense or how far in the past it occurred. Because of the magnitude of this penalty, the Committee believes that the accused should be provided with greater procedural protections than are generally found in administrative hearings.

The Committee also believes this filing is unreasonable because it eliminates the discretion accorded to the Department of Inspections and Appeals to not apply the lifetime ban on employment. Under the previous rule, the department’s discretion in applying the employment ban acted as a safeguard against unjust results. It recognized that a person would make amends for past offenses and earn a second chance. The provision was a genuine improvement in the process; it recognized that flexibility was needed in government decision making and that some decisions should be made on a case-by-case basis. There does not appear to be any rational basis to justify the elimination of this safeguard and, therefore, the Committee believes this action to be unreasonable.

CHAPTER 82  
INTERMEDIATE CARE FACILITIES FOR PERSONS  
WITH AN INTELLECTUAL DISABILITY

[Prior to 7/1/83, Social Services[770] Ch 82]

[Prior to 2/11/87, Human Services[498]]

**441—82.1(249A) Definition.**

*“Department”* means the Iowa department of human services.

*“Intermediate care facility for persons with an intellectual disability (ICF/ID)”* means an institution that is primarily for the diagnosis, treatment, or rehabilitation of persons with an intellectual disability or persons with related conditions and that provides, in a protected residential setting, ongoing evaluation, planning, 24-hour supervision, coordination and integration of health or related services to help each person function at the greatest ability and is an approved Medicaid vendor.

*“Intermediate care facility for persons with an intellectual disability level of care”* means that the individual has a diagnosis of intellectual disability made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or has a related condition as defined in 42 CFR 435.1009; and needs assistance in at least three of the following major life areas: mobility, musculoskeletal skills, activities of daily living, domestic skills, toileting, eating skills, vision, hearing or speech or both, gross/fine motor skills, sensory-taste, smell, tactile, academic skills, vocational skills, social/community skills, behavior, and health care.

*“Managed care organization”* means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

This rule is intended to implement Iowa Code section 249A.12.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.2(249A) Licensing and certification.** In order to participate in the program, a facility shall be licensed as an intermediate care facility for persons with an intellectual disability by the department of inspections and appeals under the department of inspections and appeals rules found in 481—Chapter 64. The facility shall meet the following conditions of participation:

**82.2(1) Governing body and management.**

*a. Governing body.* The facility shall identify an individual or individuals to constitute the governing body of the facility. The governing body shall:

- (1) Exercise general policy, budget, and operating direction over the facility.
- (2) Set the qualifications (in addition to those already set by state law) for the administrator of the facility.

- (3) Appoint the administrator of the facility.

*b. Compliance with federal, state, and local laws.* The facility shall be in compliance with all applicable provisions of federal, state and local laws, regulations and codes pertaining to health, safety, and sanitation.

*c. Client records.*

- (1) The facility shall develop and maintain a record-keeping system that includes a separate record for each client and that documents the clients’ health care, active treatment, social information, and protection of the client’s rights.

- (2) The facility shall keep confidential all information contained in the clients’ records, regardless of the form or storage method of the records.

- (3) The facility shall develop and implement policies and procedures governing the release of any client information, including consents necessary from the client or parents (if the client is a minor) or legal guardian.

- (4) Any individual who makes an entry in a client’s record shall make it legibly, date it, and sign it.

- (5) The facility shall provide a legend to explain any symbol or abbreviation used in a client’s record.

(6) The facility shall provide each identified residential living unit with appropriate aspects of each client's record.

*d. Services provided under agreements with outside sources.*

(1) If a service required under this rule is not provided directly, the facility shall have a written agreement with an outside program, resource, or service to furnish the necessary service, including emergency and other health care.

(2) The agreement shall:

1. Contain the responsibilities, functions, objectives, and other terms agreed to by both parties.

2. Provide that the facility is responsible for ensuring that the outside services meet the standards for quality of services contained in this rule.

(3) The facility shall ensure that outside services meet the needs of each client.

(4) If living quarters are not provided in a facility owned by the ICF/ID, the ICF/ID remains directly responsible for the standards relating to physical environment that are specified in subrule 82.2(7), paragraphs "a" to "g," "j," and "k."

*e. Disclosure of ownership.* The facility shall supply to the licensing agency full and complete information, and promptly report any changes which would affect the current accuracy of the information, as to identify:

(1) Each person having a direct or indirect ownership interest of 5 percent or more in the facility and the owner in whole or in part of any property or assets (stock, mortgage, deed of trust, note or other obligation) secured in whole or in part by the facility.

(2) Each officer and director of the corporation, if the facility is organized as a corporation.

(3) Each partner, if the facility is organized as a partnership.

**82.2(2) Client protections.**

*a. Protection of clients' rights.* The facility shall ensure the rights of all clients. Therefore, the facility shall:

(1) Inform each client, parent (if the client is a minor), or legal guardian of the client's rights and the rules of the facility.

(2) Inform each client, parent (if the child is a minor), or legal guardian, of the client's medical condition, developmental and behavioral status, attendant risks of treatment, and of the right to refuse treatment.

(3) Allow and encourage individual clients to exercise their rights as clients of the facility, and as citizens of the United States, including the right to file complaints and the right to due process.

(4) Allow individual clients to manage their financial affairs and teach them to do so to the extent of their capabilities.

(5) Ensure that clients are not subjected to physical, verbal, sexual, or psychological abuse or punishment.

(6) Ensure that clients are free from unnecessary drugs and physical restraints and are provided active treatment to reduce dependency on drugs and physical restraints.

(7) Provide each client with the opportunity for personal privacy and ensure privacy during treatment and care of personal needs.

(8) Ensure that clients are not compelled to perform services for the facility and ensure that clients who do work for the facility are compensated for their efforts at prevailing wages and commensurate with their abilities.

(9) Ensure clients the opportunity to communicate, associate and meet privately with individuals of their choice, and to send and receive unopened mail.

(10) Ensure that clients have access to telephones with privacy for incoming and outgoing local and long distance calls except as contraindicated by factors identified within their individual program plans.

(11) Ensure clients the opportunity to participate in social, religious, and community group activities.

(12) Ensure that clients have the right to retain and use appropriate personal possessions and clothing, and ensure that each client is dressed in the client's own clothing each day.

(13) Permit a husband and wife who both reside in the facility to share a room.

*b. Client finances.*

(1) The facility shall establish and maintain a system that ensures a full and complete accounting of clients' personal funds entrusted to the facility on behalf of clients and precludes any commingling of client funds with facility funds or with the funds of any person other than another client.

(2) The client's financial record shall be available on request to the client, parents (if the client is a minor), or legal guardian.

*c. Communication with clients, parents, and guardians.* The facility shall:

(1) Promote participation of parents (if the client is a minor) and legal guardians in the process of providing active treatment to a client unless their participation is unobtainable or inappropriate.

(2) Answer communications from clients' families and friends promptly and appropriately.

(3) Promote visits by individuals with a relationship to the client (such as family, close friends, legal guardians and advocates) at any reasonable hour, without prior notice, consistent with the right of that client's and other clients' privacy, unless the interdisciplinary team determines that the visit would not be appropriate.

(4) Promote visits by parents or guardians to any area of the facility that provides direct client care services to the client, consistent with the right of that client's and other clients' privacy.

(5) Promote frequent and informal leaves from the facility for visits, trips, or vacations.

(6) Notify promptly the client's parents or guardian of any significant incidents or changes in the client's condition including, but not limited to, serious illness, accident, death, abuse, or unauthorized absence.

*d. Staff treatment of clients.*

(1) The facility shall develop and implement written policies and procedures that prohibit mistreatment, neglect or abuse of the client.

1. Staff of the facility shall not use physical, verbal, sexual or psychological abuse or punishment.

2. Staff shall not punish a client by withholding food or hydration that contributes to a nutritionally adequate diet.

3. The facility shall prohibit the employment of individuals with a conviction or prior employment history of child or client abuse, neglect or mistreatment.

(2) The facility shall ensure that all allegations of mistreatment, neglect or abuse, as well as injuries of unknown source, are reported immediately to the administrator or to other officials in accordance with state law through established procedures.

(3) The facility shall have evidence that all alleged violations are thoroughly investigated and shall prevent further potential abuse while the investigation is in progress.

(4) The results of all investigations shall be reported to the administrator or designated representative or to other officials in accordance with state law within five working days of the incident, and, if the alleged violation is verified, appropriate corrective action shall be taken.

**82.2(3) Facility staffing.**

*a. Qualified intellectual disability professional.* Each client's active treatment program shall be integrated, coordinated and monitored by a qualified intellectual disability professional who has at least one year of experience working directly with persons with an intellectual disability or other developmental disabilities and is one of the following:

(1) A doctor of medicine or osteopathy.

(2) A registered nurse.

(3) An individual who holds at least a bachelor's degree in a professional category specified in 82.2(3) "b"(5).

*b. Professional program services.*

(1) Each client shall receive the professional program services needed to implement the active treatment program defined by each client's individual program plan. Professional program staff shall work directly with clients and with paraprofessional, nonprofessional and other professional program staff who work with clients.

(2) The facility shall have available enough qualified professional staff to carry out and monitor the various professional interventions in accordance with the stated goals and objectives of every individual program plan.

(3) Professional program staff shall participate as members of the interdisciplinary team in relevant aspects of the active treatment process.

(4) Professional program staff shall participate in ongoing staff development and training in both formal and informal settings with other professional, paraprofessional, and nonprofessional staff members.

(5) Professional program staff shall be licensed, certified, or registered, as applicable, to provide professional services by the state in which the staff practices. Those professional program staff who do not fall under the jurisdiction of state licensure, certification, or registration requirements shall meet the following qualifications:

1. To be designated as an occupational therapist, an individual shall be eligible for certification as an occupational therapist by the American Occupational Therapy Association or another comparable body.

2. To be designated as an occupational therapy assistant, an individual shall be eligible for certification as an occupational therapy assistant by the American Occupational Therapy Association or another comparable body.

3. To be designated as a physical therapist, an individual shall be eligible for certification as a physical therapist by the American Physical Therapy Association or another comparable body.

4. To be designated as a physical therapy assistant, an individual shall be eligible for registration as a physical therapy assistant by the American Physical Therapy Association or be a graduate of a two-year college-level program approved by the American Physical Therapy Association or another comparable body.

5. To be designated as a psychologist, an individual shall have at least a master's degree in psychology from an accredited school.

6. To be designated as a social worker, an individual shall hold a graduate degree from a school of social work accredited or approved by the Council on Social Work Education or another comparable body or hold a bachelor of social work degree from a college or university accredited or approved by the Council on Social Work Education or another comparable body.

7. To be designated as a speech-language pathologist or audiologist, an individual shall be eligible for a Certificate of Clinical Competence in Speech-Language Pathology or Audiology granted by the American Speech-Language Hearing Association or another comparable body or meet the educational requirements for certification and be in the process of accumulating the supervised experience required for certification.

8. To be designated as a professional recreation staff member, an individual shall have a bachelor's degree in recreation or in a specialty area such as art, dance, music or physical education.

9. To be designated as a professional dietitian, an individual shall be eligible for registration by the American Dietetics Association.

10. To be designated as a human services professional, an individual shall have at least a bachelor's degree in a human services field (including, but not limited to, sociology, special education, rehabilitation counseling and psychology).

(6) If the client's individual program plan is being successfully implemented by facility staff, professional program staff meeting the qualifications of 82.2(3)"b"(5) are not required except for qualified intellectual disability professionals who must meet the requirements set forth in 82.2(3)"a."

*c. Facility staffing.*

(1) The facility shall not depend upon clients or volunteers to perform direct care services for the facility.

(2) There shall be responsible direct care staff on duty and awake on a 24-hour basis, when clients are present, to take prompt, appropriate action in case of injury, illness, fire or other emergency, in each defined residential living unit housing: clients for whom a physician has ordered a medical care plan; clients who are aggressive, assaultive or security risks; more than 16 clients; or fewer than 16 clients within a multi-unit building.

(3) There shall be a responsible direct care staff person on duty on a 24-hour basis, when clients are present, to respond to injuries and symptoms of illness, and to handle emergencies, in each defined

residential living unit housing: clients for whom a physician has not ordered a medical care plan; clients who are not aggressive, assaultive or security risks; and 16 or fewer clients.

(4) The facility shall provide sufficient support staff so that direct care staff are not required to perform support services to the extent that these duties interfere with the exercise of their primary direct client care duties.

*d. Direct care (residential living unit) staff.*

(1) The facility shall provide sufficient direct care staff to manage and supervise clients in accordance with their individual program plans.

(2) Direct care staff are defined as the present on-duty staff calculated over all shifts in a 24-hour period for each defined residential living unit.

(3) Direct care staff shall be provided by the facility in the following minimum ratios of direct care staff to clients:

1. For each defined residential living unit serving children under the age of 12, severely and profoundly intellectually disabled clients, clients with severe physical disabilities, or clients who are aggressive, assaultive, or security risks, or who manifest severely hyperactive or psychotic-like behavior, the staff-to-client ratio is 1 to 3.2.

2. For each defined residential living unit serving moderately intellectually disabled clients, the staff-to-client ratio is 1 to 4.

3. For each defined residential living unit serving clients who function within the range of mild intellectual disability, the staff-to-client ratio is 1 to 6.4.

4. When there are no clients present in the living unit, a responsible staff member must be available by telephone.

*e. Staff training program.*

(1) The facility shall provide each employee with initial and continuing training that enables the employee to perform the employee's duties effectively, efficiently, and competently.

(2) For employees who work with clients, training shall focus on skills and competencies directed toward clients' developmental, behavioral, and health needs.

(3) Staff shall be able to demonstrate the skills and techniques necessary to administer interventions to manage the inappropriate behavior of clients.

(4) Staff shall be able to demonstrate the skills and techniques necessary to implement the individual program plans for each client for whom they are responsible.

**82.2(4) Active treatment services.**

*a. Active treatment.*

(1) Each client shall receive a continuous active treatment program, which includes aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services described in this paragraph, that is directed toward: the acquisition of the behaviors necessary for the client to function with as much self-determination and independence as possible; and the prevention or deceleration of regression or loss of current optimal functional status.

(2) Active treatment does not include services to maintain generally independent clients who are able to function with little supervision or in the absence of a continuous active treatment program.

*b. Admissions, transfers, and discharge.*

(1) Clients who are admitted by the facility shall be in need of and receiving active treatment services.

(2) Admission decisions shall be based on a preliminary evaluation of the client that is conducted or updated by the facility or by outside sources.

(3) A preliminary evaluation shall contain background information as well as currently valid assessments of functional developmental, behavioral, social, health and nutritional status to determine if the facility can provide for the client's needs and if the client is likely to benefit from placement in the facility.

(4) If a client is to be either transferred or discharged, the facility shall have documentation in the client's record that the client was transferred or discharged for good cause, and shall provide a reasonable

time to prepare the client and the client's parents or guardian for the transfer or discharge (except in emergencies).

(5) At the time of the discharge, the facility shall develop a final summary of the client's developmental, behavioral, social, health and nutritional status and, with the consent of the client, parents (if the client is a minor) or legal guardian, provide a copy to authorized persons and agencies, and shall provide a post-discharge plan of care that will assist the client to adjust to the new living environment.

*c. Individual program plan.*

(1) Each client shall have an individual program plan developed by an interdisciplinary team that represents the professions, disciplines or service areas that are relevant to identifying the client's needs, as described by the comprehensive functional assessments required in 82.2(4) "c"(3), and designing programs that meet the client's needs.

(2) Appropriate facility staff shall participate in interdisciplinary team meetings. Participation by other agencies serving the client is encouraged. For those clients enrolled with a managed care organization, the client's case manager shall participate as appropriate and as allowed by the client. Participation by the client, the client's parents (if the client is a minor), or the client's legal guardian is required unless that participation is unobtainable or inappropriate.

(3) Within 30 days after admission, the interdisciplinary team shall perform accurate assessments or reassessments as needed to supplement the preliminary evaluation conducted prior to admission. The comprehensive functional assessment shall take into consideration the client's age (for example, child, young adult, elderly person) and the implications for active treatment at each stage, as applicable, and shall:

1. Identify the presenting problems and disabilities and, where possible, their causes.
2. Identify the client's specific developmental strengths.
3. Identify the client's specific developmental and behavioral management needs.
4. Identify the client's need for services without regard to the actual availability of the services needed.
5. Include physical development and health, nutritional status, sensorimotor development, affective development, speech and language development and auditory functioning, cognitive development, social development, adaptive behaviors or independent living skills necessary for the client to be able to function in the community, and, as applicable, vocational skills.

(4) Within 30 days after admission, the interdisciplinary team shall prepare for each client an individual program plan that states the specific objectives necessary to meet the client's needs, as identified by the comprehensive assessment required by 82.2(4) "c"(3), and the planned sequence for dealing with those objectives. These objectives shall:

1. Be stated separately, in terms of a single behavioral outcome.
2. Be assigned projected completion dates.
3. Be expressed in behavioral terms that provide measurable indices of performance.
4. Be organized to reflect a developmental progression appropriate to the individual.
5. Be assigned priorities.

(5) Each written training program designed to implement the objectives in the individual program plan shall specify:

1. The methods to be used.
2. The schedule for use of the method.
3. The person responsible for the program.
4. The type of data and frequency of data collection necessary to be able to assess progress toward the desired objectives.
5. The inappropriate client behaviors, if applicable.
6. Provision for the appropriate expression of behavior and the replacement of inappropriate behavior, if applicable, with behavior that is adaptive or appropriate.

(6) The individual program plan shall also:

1. Describe relevant interventions to support the individual toward independence.

2. Identify the location where program strategy information (which shall be accessible to any person responsible for implementation) can be found.

3. Include, for those clients who lack them, training in personal skills essential for privacy and independence (including, but not limited to, toilet training, personal hygiene, dental hygiene, self-feeding, bathing, dressing, grooming, and communication of basic needs), until it has been demonstrated that the client is developmentally incapable of acquiring them.

4. Identify mechanical supports, if needed, to achieve proper body position, balance, or alignment. The plan shall specify the reason for each support, the situations in which each is to be applied, and a schedule for the use of each support.

5. Provide that clients who have multiple disabling conditions spend a major portion of each waking day out of bed and outside the bedroom area, moving about by various methods and devices whenever possible.

6. Include opportunities for client choice and self-management.

(7) A copy of each client's individual program plan shall be made available to all relevant staff, including staff of other agencies who work with the client, and to the client, parents (if the client is a minor) or legal guardian.

*d. Program implementation.*

(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client shall receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.

(2) The facility shall develop an active treatment schedule that outlines the current active treatment program and that is readily available for review by relevant staff.

(3) Except for those facets of the individual program plan that must be implemented only by licensed personnel, each client's individual program plan shall be implemented by all staff who work with the client, including professional, paraprofessional and nonprofessional staff.

*e. Program documentation.*

(1) Data relative to accomplishment of the criteria specified in client individual program plan objectives shall be documented in measurable terms.

(2) The facility shall document significant events that are related to the client's individual program plan and assessments and that contribute to an overall understanding of the client's ongoing level and quality of functioning.

*f. Program monitoring and change.*

(1) The individual program plan shall be reviewed at least by the qualified intellectual disability professional and revised as necessary, including, but not limited to, situations in which the client:

1. Has successfully completed an objective or objectives identified in the individual program plan.
2. Is regressing or losing skills already gained.
3. Is failing to progress toward identified objectives after reasonable efforts have been made.
4. Is being considered for training toward new objectives.

(2) At least annually, the comprehensive functional assessment of each client shall be reviewed by the interdisciplinary team for relevancy and updated as needed, and the individual program plan shall be revised, as appropriate, repeating the process set forth in 82.2(4) "c."

(3) The facility shall designate and use a specially constituted committee or committees consisting of members of facility staff, parents, legal guardians, clients (as appropriate), qualified persons who have either experience or training in contemporary practices to change inappropriate client behavior, and persons with no ownership or controlling interest in the facility to:

1. Review, approve, and monitor individual programs designed to manage inappropriate behavior and other programs that, in the opinion of the committee, involve risks to client protection and rights.

2. Ensure that these programs are conducted only with the written informed consent of the client, parent (if the client is a minor), or legal guardian.

3. Review, monitor and make suggestions to the facility about its practices and programs as they relate to drug usage, physical restraints, time-out rooms, application of painful or noxious stimuli, control

of inappropriate behavior, protection of client rights and funds, and any other area that the committee believes needs to be addressed.

(4) The provisions of 82.2(4)“f”(3) may be modified only if, in the judgment of the department of inspections and appeals, court decrees, state law or regulations provide for equivalent client protection and consultation.

**82.2(5) Client behavior and facility practices.**

*a. Facility practices—conduct toward clients.*

(1) The facility shall develop and implement written policies and procedures for the management of conduct between staff and clients. These policies and procedures shall:

1. Promote the growth, development and independence of the client.
2. Address the extent to which client choice will be accommodated in daily decision making, emphasizing self-determination and self-management, to the extent possible.
3. Specify client conduct to be allowed or not allowed.
4. Be available to all staff, clients, parents of minor children, and legal guardians.

(2) To the extent possible, clients shall participate in the formulation of these policies and procedures.

(3) Clients shall not discipline other clients, except as part of an organized system of self-government, as set forth in facility policy.

*b. Management of inappropriate client behavior.*

(1) The facility shall develop and implement written policies and procedures that govern the management of inappropriate client behavior. These policies and procedures shall be consistent with the provisions of 82.2(5)“a.” These procedures shall:

1. Specify all facility-approved interventions to manage inappropriate client behavior.
2. Designate these interventions on a hierarchy to be implemented ranging from most positive or least intrusive to least positive or most intrusive.
3. Ensure, prior to the use of more restrictive techniques, that the client’s record documents that programs incorporating the use of less intrusive or more positive techniques have been tried systematically and have been demonstrated to be ineffective.

4. Address the use of time-out rooms, the use of physical restraints, the use of drugs to manage inappropriate behavior, the application of painful or noxious stimuli, the staff members who may authorize the use of specified interventions, and a mechanism for monitoring and controlling the use of these interventions.

(2) Interventions to manage inappropriate client behavior shall be employed with sufficient safeguards and supervision to ensure that the safety, welfare and civil and human rights of clients are adequately protected.

(3) Techniques to manage inappropriate client behavior shall never be used for disciplinary purposes, for the convenience of staff or as a substitute for an active treatment program.

(4) The use of systematic interventions to manage inappropriate client behavior shall be incorporated into the client’s individual program plan, in accordance with 82.2(4)“c”(4) and (5).

(5) Standing or as-needed programs to control inappropriate behavior are not permitted.

*c. Time-out rooms.*

(1) A client may be placed in a room from which egress is prevented only if the following conditions are met:

1. The placement is a part of an approved systematic time-out program as required by 82.2(5)“b.”
2. The client is under the direct constant visual supervision of designated staff.
3. The door to the room is held shut by staff or by a mechanism requiring constant physical pressure from a staff member to keep the mechanism engaged.

(2) Placement of a client in a time-out room shall not exceed one hour.

(3) Clients placed in time-out rooms shall be protected from hazardous conditions including, but not limited to, presence of sharp corners and objects, uncovered light fixtures, unprotected electrical outlets.

(4) A record of time-out activities shall be kept.

*d. Physical restraints.*

- (1) The facility may employ physical restraint only:
  1. As an integral part of an individual program plan that is intended to lead to less restrictive means of managing and eliminating the behavior for which the restraint is applied.
  2. As an emergency measure, but only if absolutely necessary to protect the client or others from injury.
  3. As a health-related protection prescribed by a physician, but only if absolutely necessary during the conduct of a specific medical or surgical procedure, or only if absolutely necessary for client protection during the time that a medical condition exists.
- (2) Authorizations to use or extend restraints as an emergency shall be in effect no longer than 12 consecutive hours and shall be obtained as soon as the client is restrained or stable.
- (3) The facility shall not issue orders for restraint on a standing or as-needed basis.
- (4) A client placed in restraint shall be checked at least every 30 minutes by staff trained in the use of restraints, shall be released from the restraint as quickly as possible, and a record of these checks and usage shall be kept.
- (5) Restraints shall be designated and used so as not to cause physical injury to the client and so as to cause the least possible discomfort.
- (6) Opportunity for motion and exercise shall be provided for a period of not less than ten minutes during each two-hour period in which restraint is employed, and a record of the activity shall be kept.
- (7) Barred enclosures shall not be more than three feet in height and shall not have tops.

*e. Drug usage.*

- (1) The facility shall not use drugs in doses that interfere with the individual client's daily living activities.
- (2) Drugs used for control of inappropriate behavior shall be approved by the interdisciplinary team and be used only as an integral part of the client's individual program plan that is directed specifically toward the reduction and eventual elimination of the behaviors for which the drugs are employed.
- (3) Drugs used for control of inappropriate behavior shall not be used until it can be justified that the harmful effects of the behavior clearly outweigh the potentially harmful effects of the drugs.
- (4) Drugs used for control of inappropriate behavior shall be monitored closely, in conjunction with the physician and the drug regimen review requirement at 82.2(6) "j," for desired responses and adverse consequences by facility staff, and shall be gradually withdrawn at least annually in a carefully monitored program conducted in conjunction with the interdisciplinary team, unless clinical evidence justifies that this is contraindicated.

**82.2(6) Health care services.**

*a. Physician services.*

- (1) The facility shall ensure the availability of physician services 24 hours a day.
- (2) The physician shall develop, in coordination with licensed nursing personnel, a medical care plan of treatment for a client if the physician determines that an individual client requires 24-hour licensed nursing care. This plan shall be integrated in the individual program plan.
- (3) The facility shall provide or obtain preventive and general medical care as well as annual physical examinations of each client that at a minimum include the following:
  1. Evaluation of vision and hearing.
  2. Immunizations, using as a guide the recommendations of the Public Health Service Advisory Committee on Immunization Practices or of the Committee on the Control of Infectious Diseases of the American Academy of Pediatrics.
  3. Routine screening laboratory examinations as determined necessary by the physician, and special studies when needed.
  4. Tuberculosis control, appropriate to the facility's population, and in accordance with the recommendations of the American College of Chest Physicians or the section of diseases of the chest of the American Academy of Pediatrics, or both.
- (4) To the extent permitted by state law, the facility may utilize physician assistants and nurse practitioners to provide physician services as described in this subrule.

*b. Physician participation in the individual program plan.* A physician shall participate in:

- (1) The establishment of each newly admitted client's initial individual program plan.
- (2) If appropriate, physicians shall participate in the review and update of an individual program plan as part of the interdisciplinary team process either in person or through written report to the interdisciplinary team.

*c. Nursing services.* The facility shall provide clients with nursing services in accordance with their needs. These services shall include:

(1) Participation as appropriate in the development, review, and update of an individual program plan as part of the interdisciplinary team process.

(2) The development, with a physician, of a medical care plan of treatment for a client when the physician has determined that an individual client requires such a plan.

(3) For those clients certified as not needing a medical care plan, a review of their health status which shall:

1. Be by a direct physical examination.
  2. Be by a licensed nurse.
  3. Be on a quarterly or more frequent basis depending on client need.
  4. Be recorded in the client's record.
  5. Result in any necessary action including referral to a physician to address client health problems.
- (4) Other nursing care as prescribed by the physician or as identified by client needs.
- (5) Implementing, with other members of the interdisciplinary team, appropriate protective and preventive health measures that include, but are not limited to:

1. Training clients and staff as needed in appropriate health and hygiene methods.

2. Control of communicable diseases and infections, including the instruction of other personnel in methods of infection control.

3. Training direct care staff in detecting signs and symptoms of illness or dysfunction, first aid for accidents or illness, and basic skills required to meet the health needs of the clients.

*d. Nursing staff.*

(1) Nurses providing services in the facility shall have a current license to practice in the state.

(2) The facility shall employ or arrange for licensed nursing services sufficient to care for clients' health needs including those clients with medical care plans.

(3) The facility shall utilize registered nurses as appropriate and required by state law to perform the health services specified in this subrule.

(4) If the facility utilizes only licensed practical or vocational nurses to provide health services, it shall have a formal arrangement with a registered nurse to be available for verbal or on-site consultation with the licensed practical or vocational nurse.

(5) Nonlicensed nursing personnel who work with clients under a medical care plan shall do so under the supervision of licensed persons.

*e. Dental services.*

(1) The facility shall provide or make arrangements for comprehensive diagnostic and treatment services for each client from qualified personnel, including licensed dentists and dental hygienists, either through organized dental services in-house or through arrangement.

(2) If appropriate, dental professionals shall participate in the development, review and update of an individual program plan as part of the interdisciplinary process either in person or through written report to the interdisciplinary team.

(3) The facility shall provide education and training in the maintenance of oral health.

*f. Comprehensive dental diagnostic services.* Comprehensive dental diagnostic services include:

(1) A complete extraoral and intraoral examination, using all diagnostic aids necessary to properly evaluate the client's oral condition, not later than one month after admission to the facility unless the examination was completed within 12 months before admission.

(2) Periodic examination and diagnosis performed at least annually, including radiographs when indicated and detection of manifestations of systemic disease.

(3) A review of the results of examination and entry of the results in the client's dental record.

*g. Comprehensive dental treatment.* The facility shall ensure comprehensive dental treatment services that include:

- (1) The availability for emergency dental treatment on a 24-hour-a-day basis by a licensed dentist.
- (2) Dental care needed for relief of pain and infections, restoration of teeth and maintenance of dental health.

*h. Documentation of dental services.*

- (1) If the facility maintains an in-house dental service, the facility shall keep a permanent dental record for each client, with a dental summary maintained in the client's living unit.
- (2) If the facility does not maintain an in-house dental service, the facility shall obtain a dental summary of the results of dental visits and maintain the summary in the client's living unit.

*i. Pharmacy services.* The facility shall provide or make arrangements for the provision of routine and emergency drugs and biologicals to its clients. Drugs and biologicals may be obtained from community or contract pharmacists or the facility may maintain a licensed pharmacy.

*j. Drug regimen review.*

- (1) A pharmacist with input from the interdisciplinary team shall review the drug regimen of each client at least quarterly.
- (2) The pharmacist shall report any irregularities in clients' drug regimens to the prescribing physician and interdisciplinary team.
- (3) The pharmacist shall prepare a record of each client's drug regimen reviews and the facility shall maintain that record.
- (4) An individual medication administration record shall be maintained for each client.
- (5) As appropriate, the pharmacist shall participate in the development, implementation, and review of each client's individual program plan either in person or through written report to the interdisciplinary team.

*k. Drug administration.* The facility shall have an organized system for drug administration that identifies each drug up to the point of administration. The system shall ensure that:

- (1) All drugs are administered in compliance with the physician's orders.
- (2) All drugs, including those that are self-administered, are administered without error.
- (3) Unlicensed personnel are allowed to administer drugs only if state law permits.
- (4) Clients are taught how to administer their own medications if the interdisciplinary team determines that self-administration of medications is an appropriate objective, and if the physician does not specify otherwise.
- (5) The client's physician is informed of the interdisciplinary team's decision that self-administration of medications is an objective for the client.
- (6) No client self-administers medications until the client demonstrates the competency to do so.
- (7) Drugs used by clients while not under the direct care of the facility are packaged and labeled in accordance with state law.
- (8) Drug administration errors and adverse drug reactions are recorded and reported immediately to a physician.

*l. Drug storage and record keeping.*

- (1) The facility shall store drugs under proper conditions of sanitation, temperature, light, humidity, and security.
- (2) The facility shall keep all drugs and biologicals locked except when being prepared for administration. Only authorized persons may have access to the keys to the drug storage area. Clients who have been trained to self-administer drugs in accordance with 82.2(6) "k"(4) may have access to keys to their individual drug supply.
- (3) The facility shall maintain records of the receipt and disposition of all controlled drugs.
- (4) The facility shall, on a sample basis, periodically reconcile the receipt and disposition of all controlled drugs in Schedules II through IV (drugs subject to the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. 801 et seq.).
- (5) If the facility maintains a licensed pharmacy, the facility shall comply with the regulations for controlled drugs.

*m. Drug labeling.*

(1) Labeling of drugs and biologicals shall be based on currently accepted professional principles and practices, and shall include the appropriate accessory and cautionary instructions, as well as the expiration date, if applicable.

(2) The facility shall remove from use outdated drugs and drug containers with worn, illegible, or missing labels.

(3) Drugs and biologicals packaged in containers designated for a particular client shall be immediately removed from the client's current medication supply if discontinued by the physician.

*n. Laboratory services.*

(1) For purposes of this subrule, "laboratory" means an entity for the microbiological, serological, chemical, hematological, radiobioassay, cytological, immunohematological, pathological or other examination of materials derived from the human body, for the purpose of providing information for the diagnosis, prevention, or treatment of any disease or assessment of a medical condition.

(2) If a facility chooses to provide laboratory services, the laboratory shall meet the management requirements specified in 42 CFR 493.1407 and provide personnel to direct and conduct the laboratory services.

The laboratory director shall be technically qualified to supervise the laboratory personnel and test performance and shall meet licensing or other qualification standards established by the state with respect to directors of clinical laboratories.

The laboratory director shall provide adequate technical supervision of the laboratory services and ensure that tests, examinations and procedures are properly performed, recorded and reported.

The laboratory director shall ensure that the staff has appropriate education, experience, and training to perform and report laboratory tests promptly and proficiently; is sufficient in number for the scope and complexity of the services provided; and receives in-service training appropriate to the type of complexity of the laboratory services offered.

The laboratory technologists shall be technically competent to perform test procedures and report test results promptly and proficiently.

(3) The laboratory shall meet the proficiency testing requirements specified in 42 CFR 493.801.

(4) The laboratory shall meet the quality control requirements specified in 42 CFR 493.1501.

(5) If the laboratory chooses to refer specimens for testing to another laboratory, the referral laboratory shall be an approved Medicare laboratory.

**82.2(7) Physical environment.**

*a. Client living environment.*

(1) The facility shall not house clients of grossly different ages, developmental levels, and social needs in close physical or social proximity unless the housing is planned to promote the growth and development of all those housed together.

(2) The facility shall not segregate clients solely on the basis of their physical disabilities. It shall integrate clients who have ambulation deficits or who are deaf, blind, or have seizure disorders with others of comparable social and intellectual development.

*b. Client bedrooms.*

(1) Bedrooms shall:

1. Be rooms that have at least one outside wall.

2. Be equipped with or located near toilet and bathing facilities.

3. Accommodate no more than four clients unless granted a variance under 82.2(7) "b"(3).

4. Measure at least 60 square feet per client in multiple-client bedrooms and at least 80 square feet in single-client bedrooms.

5. In all facilities initially certified or in buildings constructed or with major renovations or conversions, have walls that extend from floor to ceiling.

(2) If a bedroom is below grade level, it shall have a window that is usable as a second means of escape by the client occupying the rooms and shall be no more than 44 inches measured to the windowsill above the floor unless the facility is surveyed under the Health Care Occupancy Chapter of the Life

Safety Code, in which case the window must be no more than 36 inches measured to the windowsill above the floor.

(3) The department of inspections and appeals may grant a variance from the limit of four clients per room only if a physician who is a member of the interdisciplinary team and who is a qualified intellectual disability professional certifies that each client to be placed in a bedroom housing more than four persons is so severely medically impaired as to require direct and continuous monitoring during sleeping hours and documents the reasons why housing in a room of only four or fewer persons would not be medically feasible.

(4) The facility shall provide each client with:

1. A separate bed of proper size and height for the convenience of the client.
2. A clean, comfortable mattress.
3. Bedding appropriate to the weather and climate.
4. Functional furniture appropriate to the client's needs, and individual closet space in the client's

bedroom with clothes racks and shelves accessible to the client.

*c. Storage space in bedroom.* The facility shall provide:

(1) Space and equipment for daily out-of-bed activity for all clients who are not yet mobile, except those who have a short-term illness or those few clients for whom out-of-bed activity is a threat to health and safety.

(2) Suitable storage space, accessible to clients, for personal possessions such as televisions, radios, prosthetic equipment and clothing.

*d. Client bathrooms.* The facility shall:

(1) Provide toilet and bathing facilities appropriate in number, size, and design to meet the needs of the clients.

(2) Provide for individual privacy in toilets, bathtubs, and showers.

(3) In areas of the facility where clients who have not been trained to regulate water temperature are exposed to hot water, ensure that the temperature of the water does not exceed 110 degrees Fahrenheit.

*e. Heating and ventilation.*

(1) Each client bedroom in the facility shall have at least one window to the outside and direct outside ventilation by means of windows, air conditioning, or mechanical ventilation.

(2) The facility shall maintain the temperature and humidity within a normal comfort range by heating, air conditioning or other means and ensure that the heating apparatus does not constitute a burn or smoke hazard to clients.

*f. Floors.* The facility shall have:

(1) Floors that have a resilient, nonabrasive, and slip-resistant surface.

(2) Nonabrasive carpeting, if the area used by clients is carpeted and serves clients who lie on the floor or ambulate with parts of their bodies, other than feet, touching the floor.

(3) Exposed floor surfaces and floor coverings that promote mobility in areas used by clients, and promote maintenance of sanitary conditions.

*g. Space and equipment.* The facility shall:

(1) Provide sufficient space and equipment in dining, living, health services, recreation, and program areas (including adequately equipped and sound treated areas for hearing and other evaluations if they are conducted in the facility) to enable staff to provide clients with needed services as required by this rule and as identified in each client's individual program plan.

(2) Furnish, maintain in good repair, and teach clients to use and to make informed choices about the use of dentures, eyeglasses, hearing and other communications aids, braces, and other devices identified by the interdisciplinary team as needed by the client.

(3) Provide adequate clean linen and dirty linen storage areas.

*h. Emergency plan and procedures.*

(1) The facility shall develop and implement detailed written plans and procedures to meet all potential emergencies and disasters such as fire, severe weather, and missing clients.

(2) The facility shall communicate, periodically review, make the plan available, and provide training to the staff.

*i. Evacuation drills.*

(1) The facility shall hold evacuation drills at least quarterly for each shift of personnel and under varied conditions to ensure that all personnel on all shifts are trained to perform assigned tasks; ensure that all personnel on all shifts are familiar with the use of the facility's fire protection features; and evaluate the effectiveness of emergency and disaster plans and procedures.

(2) The facility shall actually evacuate clients during at least one drill each year on each shift; make special provisions for the evacuation of clients with physical disabilities; file a report and evaluation on each evacuation drill; and investigate all problems with evacuation drills, including accidents, and take corrective action. During fire drills, clients may be evacuated to a safe area in facilities certified under the Health Care Occupancies Chapter of the Life Safety Code.

(3) Facilities shall meet the requirements of 82.2(7) "i"(1) and (2) for any live-in and relief staff they utilize.

*j. Fire protection.*

(1) General.

1. Except as specified in 82.2(7) "i"(2), the facility shall meet the applicable provisions of either the Health Care Occupancies Chapters or the Residential Board and Care Occupancies Chapter of the Life Safety Code (LSC) of the National Fire Protection Association, 1985 edition, which is incorporated by reference.

2. The department of inspections and appeals may apply a single chapter of the LSC to the entire facility or may apply different chapters to different buildings or parts of buildings as permitted by the LSC.

3. A facility that meets the LSC definition of a residential board and care occupancy and that has 16 or fewer beds shall have its evacuation capability evaluated in accordance with the Evacuation Difficulty Index of the LSC (Appendix F).

(2) Exceptions.

1. For facilities that meet the LSC definition of a health care occupancy, the Centers for Medicare and Medicaid Services may waive, for a period it considers appropriate, specific provisions of the LSC if the waiver would not adversely affect the health and safety of the clients and rigid application of specific provisions would result in an unreasonable hardship for the facility.

The department of inspections and appeals may apply the state's fire and safety code instead of the LSC if the Secretary of the Department of Health and Human Services finds that the state has a code imposed by state law that adequately protects a facility's clients.

Compliance on November 28, 1982, with the 1967 edition of the LSC or compliance on April 18, 1986, with the 1981 edition of the LSC, with or without waivers, is considered to be compliance with this standard as long as the facility continues to remain in compliance with that edition of the code.

2. For facilities that meet the LSC definition of a residential board and care occupancy and that have more than 16 beds, the department of inspections and appeals may apply the state's fire and safety code as specified above.

*k. Paint.* The facility shall:

(1) Use lead-free paint inside the facility.

(2) Remove or cover interior paint or plaster containing lead so that it is not accessible to clients.

*l. Infection control.*

(1) The facility shall provide a sanitary environment to avoid sources and transmission of infections. There shall be an active program for the prevention, control, and investigation of infection and communicable diseases.

(2) The facility shall implement successful corrective action in affected problem areas.

(3) The facility shall maintain a record of incidents and corrective actions related to infections.

(4) The facility shall prohibit employees with symptoms or signs of a communicable disease from direct contact with clients and their food.

**82.2(8)** *Dietetic services.*

*a. Food and nutrition services.*

(1) Each client shall receive a nourishing, well-balanced diet including modified and specially prescribed diets.

(2) A qualified dietitian shall be employed either full-time, part-time or on a consultant basis at the facility's discretion.

(3) If a qualified dietitian is not employed full-time, the facility shall designate a person to serve as the director of food services.

(4) The client's interdisciplinary team, including a qualified dietitian and physician, shall prescribe all modified and special diets including those used as a part of a program to manage inappropriate client behavior.

(5) Foods proposed for use as a primary reinforcement of adaptive behavior are evaluated in light of the client's nutritional status and needs.

(6) Unless otherwise specified by medical needs, the diet shall be prepared at least in accordance with the latest edition of the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences, adjusted for age, sex, disability and activity.

*b. Meal services.*

(1) Each client shall receive at least three meals daily, at regular times comparable to normal mealtimes in the community with:

1. Not more than 14 hours between a substantial evening meal and breakfast of the following day, except on weekends and holidays when a nourishing snack is provided at bedtime, 16 hours may elapse between a substantial evening meal and breakfast.

2. Not less than 10 hours between breakfast and the evening meal of the same day, except as provided under 82.2(8) "b"(1)"1."

(2) Food shall be served:

1. In appropriate quantity.

2. At appropriate temperature.

3. In a form consistent with the developmental level of the client.

4. With appropriate utensils.

(3) Food served to clients individually and uneaten shall be discarded.

*c. Menus.*

(1) Menus shall:

1. Be prepared in advance.

2. Provide a variety of foods at each meal.

3. Be different for the same days of each week and adjusted for seasonal change.

4. Include the average portion sizes for menu items.

(2) Menus for food actually served shall be kept on file for 30 days.

*d. Dining areas and service.* The facility shall:

(1) Serve meals for all clients, including persons with ambulation deficits, in dining areas, unless otherwise specified by the interdisciplinary team or a physician.

(2) Provide table service for all clients who can and will eat at a table, including clients in wheelchairs.

(3) Equip areas with tables, chairs, eating utensils, and dishes designed to meet the developmental needs of each client.

(4) Supervise and staff dining rooms adequately to direct self-help dining procedure, to ensure that each client receives enough food and to ensure that each client eats in a manner consistent with the client's developmental level.

(5) Ensure that each client eats in an upright position, unless otherwise specified by the interdisciplinary team or physician.

This rule is intended to implement Iowa Code section 249A.12.

[ARC 0582C, IAB 2/6/13, effective 4/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.3(249A) Conditions of participation for intermediate care facilities for persons with an intellectual disability.** All intermediate care facilities for persons with an intellectual disability must

enter into a contractual agreement with the department which sets forth the terms under which they will participate in the program.

**82.3(1)** *Procedures for establishing health care facilities as Title XIX facilities.* All survey procedures and the certification process shall be in accordance with Department of Health and Human Services publication "Providers Certification State Operations Manual."

*a.* The facility shall obtain the applicable license from the department of inspections and appeals.  
*b.* The facility shall request an application, Form 470-0254, Iowa Medicaid Provider Enrollment Application, from the Iowa Medicaid enterprise provider services unit.

*c.* The department shall transmit an application form and copies of standards to the facility.  
*d.* The facility shall complete its portion of the application form and submit it to the department.  
*e.* The department shall review the application form and forward it to the department of inspections and appeals.

*f.* The department of inspections and appeals shall schedule and complete a survey of the facility.  
*g.* The department of inspections and appeals shall notify the facility of any deficiencies and ask for a plan for the correction of the deficiencies.

*h.* The facility shall submit a plan of correction within ten days after receipt of written deficiencies from the health facilities division, department of inspections and appeals. This plan must be approved before the facility can be certified.

*i.* The department of inspections and appeals shall evaluate the survey findings and plan of correction and either recommend the facility for certification or recommend denial of certification. The date of certification will be the date of approval of the plan of corrections.

*j.* When certification is recommended, the department of inspections and appeals shall notify the department recommending terms and conditions of a provider agreement.

*k.* The department shall review the certification data and:  
(1) Transmit the provider agreement as recommended, or  
(2) Transmit the provider agreement for a term less than recommended by the department of inspections and appeals or elect not to execute an agreement for reasons of good cause as defined in 82.3(2) "c."

**82.3(2)** *Title XIX provider agreements.* The health care facility must be recommended for certification by the Iowa department of inspections and appeals for participation as an intermediate care facility for persons with an intellectual disability before a provider agreement may be issued. All survey procedures and certification processes shall be in accordance with Department of Health and Human Services publication "Providers Certification State Operations Manual." The effective date of a provider agreement may not be earlier than the date of certification.

*a.* Terms of the agreement for facilities without deficiencies are as follows:  
(1) The provider agreement shall be issued for a period not to exceed 12 months.  
(2) The provider agreement shall be for the term of and in accordance with the provisions of certification, except that for good cause, the department may elect to execute an agreement for a term less than the period of certification, elect not to execute an agreement for reasons of good cause, or cancel an agreement.

*b.* Terms of the agreement for facilities with deficiencies are as follows:  
(1) A new provider agreement may be executed for a period not to exceed 60 days from the time required to correct deficiencies up to a period of 12 months.

(2) A new provider agreement may be issued for a period of up to 12 months subject to automatic cancellation 60 days following the scheduled date for correction unless required corrections have been completed or unless the survey agency finds and notifies the department that the facility has made substantial progress in correcting the deficiencies and has resubmitted in writing a new plan of correction acceptable to the survey agency.

(3) There will be no new agreement when the facility continues to be out of compliance with the same standard(s) at the end of the term of agreement.

c. The department may, for good cause, elect not to execute an agreement. Good cause shall be defined as a continued or repeated failure to operate an intermediate care facility for persons with an intellectual disability in compliance with rules and regulations of the program.

d. The department may at its option extend an agreement with a facility for two months under either of the following conditions:

(1) The health and safety of the residents will not be jeopardized thereby and the extension is necessary to prevent irreparable harm to the facility or hardship to the resident.

(2) It is impracticable to determine whether the facility is complying with the provisions and requirements of the provider agreement.

e. When it becomes necessary for the department to cancel or refuse to renew a Title XIX provider agreement, federal financial participation may continue for 30 days beyond the date of cancellation if the extension is necessary to ensure the orderly transfer of residents.

f. When the department of inspections and appeals survey indicates deficiencies in the areas of the Life Safety Code (LSC) or environment and sanitation, a timetable detailing corrective measures shall be submitted to the department of inspections and appeals before a provider agreement can be issued. This timetable shall not exceed two years from the date of initial certification and shall detail corrective steps to be taken and when corrections will be accomplished. The following shall apply in these instances.

(1) The department of inspections and appeals shall determine that the facility can make corrections within the two-year period.

(2) During the period allowed for corrections, the facility shall be in compliance with existing state fire safety and sanitation codes and regulations.

(3) The facility shall be surveyed at least semiannually until corrections are completed. The facility must have made substantial effort and progress in its plan of correction as evidenced by work orders, contracts, or other evidence.

**82.3(3) Appeals of decertification.** A facility may appeal a decertification action according to 441—subrule 81.13(28).

This rule is intended to implement Iowa Code section 249A.12.  
[ARC 0582C, IAB 2/6/13, effective 4/1/13]

**441—82.4** Rescinded, effective March 1, 1987.

**441—82.5(249A) Financial and statistical report.** All facilities wishing to participate in the program shall submit a Financial and Statistical Report, Form 470-0030, to the department. These reports shall be based on the following rules.

**82.5(1) Failure to maintain records.** Failure to maintain and submit adequate accounting or statistical records shall result in termination or suspension of participation in the program.

**82.5(2) Accounting procedures.** Financial information shall be based on that appearing in the audited financial statement. Adjustments to convert to the accrual basis of accounting shall be made when the records are maintained on other accounting bases. Facilities which are a part of a larger health facility extending short-term, intensive, or other health care not generally considered nursing care may submit a cost apportionment schedule prepared in accordance with recognized methods and procedures. The schedule shall be required when necessary for a fair presentation of expense attributable to intermediate care facility patients.

**82.5(3) Submission of reports.** The facility's cost report shall be received by the Iowa Medicaid enterprise provider cost audit and rate setting unit no later than September 30 each year except as described in subrule 82.5(14).

a. The submission shall include a working trial balance that corresponds to all financial data contained on the cost report. The working trial balance must provide sufficient detail to enable the Iowa Medicaid enterprise provider cost audit and rate setting unit to reconcile accounts reported on the general ledger to those on the financial and statistical report. For reporting costs that are not directly assigned to the facility in the working trial balance, an allocation method must be identified for each line, including the statistics used in the calculation. Reports submitted without a working trial balance shall

be considered incomplete, and the facility shall be subject to the rate reductions set forth in paragraph 82.5(3) "c."

b. If the financial statements have been compiled, reviewed or audited by an outside firm, a copy of the compilation, review or audit, including notes, for the reporting period shall be included with the submission of the financial and statistical report.

c. Failure to timely submit the complete report shall reduce payment to 75 percent of the current rate.

(1) The reduced rate shall be effective October 1 and shall remain in effect until the first day of the month after the delinquent report is received by the Iowa Medicaid enterprise provider cost audit and rate setting unit.

(2) The reduced rate shall be paid for no longer than three months, after which time no further payments will be made until the first day of the month after the delinquent report is received by the Iowa Medicaid enterprise provider cost audit and rate setting unit.

d. Amended reports. The department, in its sole discretion, may reopen a review of a financial and statistical report at any time. No other entity or person has the right to request that the department or its contractor reopen a review of a financial and statistical report, or submit an amended financial and statistical report for review by the department, after the facility is notified of its per diem payment rate following a review of a financial and statistical report.

e. When an intermediate care facility for persons with an intellectual disability continues to include in the total costs an item or items which had in a prior period been removed through an adjustment made by the department or its contractor, the contractor shall recommend to the department that the per diem be reduced to 75 percent of the current payment rate for the entire quarter beginning the first day of the fourth month after the facility's fiscal year end. If the adjustment has been contested and is still in the appeals process, the facility may include the cost, but must include sufficient detail so the Iowa Medicaid enterprise provider cost audit and rate setting unit can determine if a similar adjustment is needed in the current period. The department may, after considering the seriousness of the offense, make the reduction.

f. Nothing in this subrule relieves a facility of its obligation to immediately inform the department that the facility has retained Medicaid funds to which the facility is not entitled as a result of any cost report process. A facility shall notify the Iowa Medicaid enterprise when the facility determines that funds have been incorrectly paid or when an overpayment has been detected.

**82.5(4) *Payment at new rate.*** When a new rate is established, payment at the new rate shall be effective with services rendered as of the first day of the month in which the report is postmarked, or if the report was personally delivered, the first day of the month in which the report was received by the department. Adjustments shall be included in the payment the third month after the receipt of the report.

**82.5(5) *Accrual basis.*** Facilities not using the accrual basis of accounting shall adjust recorded amounts to the accrual basis. Expenses which pertain to an entire year shall be properly amortized by month in order to be properly recorded for the annual fiscal year report. Records of cash receipts and disbursements shall be adjusted to reflect accruals of income and expense.

**82.5(6) *Census of Medicaid members.*** Census figures of Medicaid members shall be obtained on the last day of the month ending the reporting period.

**82.5(7) *Patient days.*** In determining inpatient days, a patient day is that period of service rendered a patient between the census-taking hours on two successive days, the day of discharge being counted only when the patient was admitted that same day.

**82.5(8) *Opinion of accountant.*** The department may require that an opinion of a certified public accountant or public accountant accompany the report when adjustments made to prior reports indicate disregard of the certification and reporting instructions.

**82.5(9) *Calculating patient days.*** When calculating patient days, facilities shall use an accumulation method.

a. Census information shall be based on a patient status at midnight each day. A patient whose status changes from one class to another shall be shown as discharged from the previous status and admitted to the new status on the same day.

b. When a member is on a reserve bed status and the department is paying on a per diem basis for the holding of a bed, or any day a bed is reserved for a public assistance or nonpublic assistance patient and a per diem rate for the bed is charged to any party, the reserved days shall be included in the total census figures for inpatient days.

**82.5(10) Revenues.** Revenues shall be reported as recorded in the general books and records. Expense recoveries credited to expense accounts shall not be reclassified in order to be reflected as revenues.

a. Routine daily services shall represent the established charge for daily care. Routine daily services are those services which include room, board, nursing services, and such services as supervision, feeding, incontinency, and similar services, for which the associated costs are in nursing service.

b. Revenue from ancillary services provided to patients shall be applied in reduction of the related expense.

c. Revenue from the sale of medical supplies, food or services to employees or nonresidents of the facility shall be applied in reduction of the related expense. Revenue from the sale to private-pay residents of items or services which are included in the medical assistance per diem will not be offset.

d. Investment income adjustment is necessary only when interest expense is incurred, and only to the extent of the interest expense.

e. Laundry revenue shall be applied to laundry expense.

f. Accounts receivable charged off or provision for uncollectible accounts shall be reported as a deduction from gross revenue.

**82.5(11) Limitation of expenses.** Certain expenses that are not normally incurred in providing patient care shall be eliminated or limited according to the following rules.

a. Federal and state income taxes are not allowed as reimbursable costs. These taxes are considered in computing the fee for services for proprietary institutions.

b. Fees paid directors and nonworking officer's salaries are not allowed as reimbursable costs.

c. Personal travel and entertainment are not allowed as reimbursable costs. Certain expenses such as rental or depreciation of a vehicle and expenses of travel which include both business and personal shall be prorated. Amounts that appear excessive may be limited after considering the specific circumstances. Records shall be maintained to substantiate the indicated charges.

d. Loan acquisition fees and standby fees are not considered part of the current expense of patient care, but should be amortized over the life of the related loan.

e. A reasonable allowance of compensation for services of owners or immediate relatives is an allowable cost, provided the services are actually performed in a necessary function. For this purpose, the following persons are considered immediate relatives: husband and wife; natural parent, child and sibling; adopted child and adoptive parent; stepparent, stepchild, stepbrother and stepsister; father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, and sister-in-law; grandparent and grandchild. Adequate time records shall be maintained. Adjustments may be necessary to provide compensation as an expense for nonsalaried working proprietors and partners. Members of religious orders serving under an agreement with their administrative office are allowed salaries paid persons performing comparable services. When maintenance is provided these persons by the facility, consideration shall be given to the value of these benefits and this amount shall be deducted from the amount otherwise allowed for a person not receiving maintenance.

(1) Compensation means the total benefit received by the owner or immediate relative for services rendered. Compensation includes all remuneration, paid currently or accrued, for managerial, administrative, professional and other services rendered during the period. Compensation shall include all items that should be reflected on IRS Form W-2, Wage and Tax Statement, including, but not limited to, salaries, wages, and fringe benefits; the cost of assets and services received; and deferred compensation. Fringe benefits shall include, but are not limited to, costs of leave, employee insurance, pensions and unemployment plans. If the facility's fiscal year end does not correlate to the period of the W-2, a reconciliation between the latest issued W-2 and current compensation shall be required to be disclosed to the Iowa Medicaid enterprise provider cost audit and rate setting unit. Employer portions of

payroll taxes associated with amounts of compensation that exceed the maximum allowed compensation shall be considered unallowable for reimbursement. All compensation paid to related parties, including payroll taxes, shall be required to be reported to the Iowa Medicaid enterprise provider cost audit and rate setting unit with the submission of the financial and statistical report. If it is determined that there have been undisclosed related-party salaries, the cost report shall be determined to have been submitted incomplete and the facility shall be subject to the penalties set forth in paragraph 82.5(3)“c.”

(2) Reasonableness—requires that the compensation allowance be such an amount as would ordinarily be paid for comparable services by comparable institutions, and depends upon the facts and circumstances of each case.

(3) Necessary—requires that the function be such that had the owner or immediate relative not rendered the services, the facility would have had to employ another person to perform the service, and be pertinent to the operation and sound conduct of the institution.

(4) The base maximum allowed compensation for an administrator who is involved in ownership of the facility or who is an immediate relative of an owner of the facility is \$1,926 per month plus \$20.53 per month per licensed bed capacity for each bed over 60, not to exceed \$2,852 per month. An administrator is considered to be involved in ownership of a facility when the administrator has ownership interest of 5 percent or more.

On a semiannual basis, the maximum allowed compensation amounts for these administrators shall be increased or decreased by the inflation factor applied to facility rates.

(5) The maximum allowed compensation for an assistant administrator who is involved in ownership of the facility or who is an immediate relative of an owner of the facility in facilities having a licensed capacity of 151 or more beds is 60 percent of the amount allowed for the administrator. An assistant administrator is considered to be involved in ownership of a facility when the assistant administrator has ownership interest of 5 percent or more.

(6) The maximum allowed compensation for a director of nursing or any employee who is involved in ownership of the facility or who is an immediate relative of an owner of the facility is 60 percent of the amount allowed for the administrator. Persons involved in ownership or relatives providing professional services shall be limited to rates prevailing in the community not to exceed 60 percent of the allowable rate for the administrator on a semiannual basis. Records shall be maintained in the same manner for an employee involved in ownership as are maintained for any employee of the facility. Ownership is defined as an interest of 5 percent or more.

(7) The maximum allowed compensation for employees as set forth in subparagraphs 82.5(11)“e”(4) to 82.5(11)“e”(6) shall be adjusted by the percentage of the average work week that the employee devoted to business activity at the intermediate care facility for persons with an intellectual disability for the fiscal year of the financial and statistical report. The time devoted to the business shall be disclosed on the financial and statistical report and shall correspond to any amounts reported to the Medicare fiscal intermediary. If an owner’s or immediate relative’s time is allocated to the facility from another entity (e.g., home office), the compensation limit shall be adjusted by the percentage of total costs of the entity allocated to the facility. In no case shall the amount of salary for one employee allocated to multiple facilities be more than the maximum allowed compensation for that employee had the salary been allocated to only one facility.

*f.* Management fees and home office costs shall be allowed only to the extent that they are related to patient care and replace or enhance but do not duplicate functions otherwise carried out in a facility.

*g.* Depreciation based upon tax cost using only the straight-line method of computation, recognizing the estimated useful life of the asset as defined in the American Hospital Association Useful Life Guide, may be included as a patient cost. When accelerated methods of computation have been elected for income tax purposes, an adjustment shall be made. For change of ownership, refer to subrule 82.5(12).

*h.* Necessary and proper interest on both current and capital indebtedness is an allowable cost.

(1) Interest is the cost incurred for the use of borrowed funds. Interest on current indebtedness is the cost incurred for funds borrowed for a relatively short term. Interest on capital indebtedness is the cost incurred for funds borrowed for capital purposes.

(2) "Necessary" requires that the interest be incurred on a loan made to satisfy a financial need of the provider, be incurred on a loan made for a purpose reasonably related to patient care, and be reduced by investment income except where the income is from gifts and grants whether restricted or unrestricted, and which are held separate and not commingled with other funds.

(3) "Proper" requires that interest be incurred at a rate not in excess of what a prudent borrower would have had to pay in the money market on the date the loan was made, and be paid to a lender not related through control or ownership to the borrowing organization.

(4) Interest on loans is allowable as cost at a rate not in excess of the amount an investor could receive on funds invested in the locality on the date the loan was made.

(5) Interest is an allowable cost when the general fund of a provider borrows from a donor-restricted fund, a funded depreciation account of the provider, or the provider's qualified pension fund, and pays interest to the fund, or when a provider operated by members of a religious order borrows from the order.

(6) When funded depreciation is used for purposes other than improvement, replacement or expansion of facilities or equipment related to patient care, allowable interest expense is reduced to adjust for offsets not made in prior years for earnings on funded depreciation. A similar treatment will be accorded deposits in the provider's qualified pension fund where the deposits are used for other than the purpose for which the fund was established.

*i.* Costs applicable to supplies furnished by a related party or organization are a reimbursable cost when included at the cost to the related party or organization. The cost shall not exceed the price of comparable supplies that could be purchased elsewhere.

(1) Related means that the facility, to a significant extent, is associated with or has control of or is controlled by the organization furnishing the services, facilities, or supplies.

(2) Common ownership exists when an individual or individuals possess significant ownership or equity in the facility and the institution or organization serving the provider.

(3) Control exists where an individual or an organization has power, directly or indirectly, to significantly influence or direct the actions or policies of an organization or institution.

(4) When the facility demonstrates by convincing evidence that the supplying organization is a bona fide separate organization; that a substantial part of its business activity of the type carried on with the facility is transacted with others and there is an open competitive market for the type of services, facilities, or supplies furnished by the organization; that the services, facilities, or supplies are those which commonly are obtained by similar institutions from other organizations and are not a basic element of patient care ordinarily furnished directly to patients by the institutions; and that the charge to the facility is in line with the charge for services, facilities, or supplies in the open market and no more than the charge made under comparable circumstances to others by the organization for the services, facilities, or supplies, the charges by the supplier shall be allowable costs.

*j.* A facility entering into a new or renewed rent or lease agreement on or after June 1, 1994, shall be subject to the provisions of this paragraph.

When the operator of a participating facility rents from a nonrelated party, the amount of rent expense allowable on the cost report shall be the lesser of the actual rent payments made under the terms of the lease or an annual reasonable rate of return applied to the cost of the facility. The cost of the facility shall be determined as the historical cost of the facility in the hands of the owner when the facility first entered the Iowa Medicaid program. Where the facility has previously participated in the program, the cost of the facility shall be determined as the historical cost of the facility, as above, less accumulated depreciation claimed for cost reimbursement under the program. The annual reasonable rate of return shall be defined as one and one-half times the annualized interest rate of 30-year Treasury bonds as reported by the Federal Reserve Board on a weekly-average basis, at the date the lease was entered into.

When the operator of a participating facility rents the building from a related party, the amount of rent expense allowable on the cost report shall be limited to the lesser of the actual rent payments made under the terms of the lease or the amount of property costs that would otherwise have been allowable under the Iowa Medicaid program to an owner-provider of that facility.

The lessee shall submit a copy of the lease agreement, documentation of the cost basis used and a schedule demonstrating that the limitations have been met with the first cost report filed for which lease costs are claimed.

*k.* Each facility which supplies transportation services as defined in Iowa Code section 324A.1, subsection 1, shall provide current documentation of compliance with or exemption from public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules 761—Chapter 910 at the time of annual contract renewal. Failure to cooperate in obtaining or in providing the required documentation of compliance or exemption after receipt from the Iowa department of transportation, public transit division, shall result in disallowance of vehicle costs and other costs associated with transporting residents.

*l.* Depreciation, interest and other capital costs attributable to construction of new facilities, expanding existing facilities, or the purchase of an existing facility, are allowable expenses only if prior approval has been gained through the health planning process specified in rules of the public health department, 641—Chapter 201.

*m.* Reasonable legal, accounting, consulting and other professional fees, including association dues, are allowable costs if the fees are directly related to patient care. Legal, accounting, consulting and other professional fees, including association dues, described by the following are not considered to be patient-related and therefore are not allowable expenses:

- (1) Any fees or portion of fees used or designated for lobbying.
- (2) Nonrefundable and unused retainers.
- (3) Fees paid by the facility for the benefit of employees.
- (4) Legal fees, expenses related to expert witnesses, accounting fees and other consulting fees incurred in an administrative or judicial proceeding. EXCEPTION: Facilities may report the reasonable costs incurred in an administrative or judicial proceeding if all of the following conditions are met. Recognition of any costs will be in the fiscal period when a final determination in the administrative or judicial proceeding is made.

1. The costs have actually been incurred and paid,
2. The costs are reasonable expenditures for the services obtained,
3. The facility has made a good-faith effort to settle the disputed issue before the completion of the administrative or judicial proceeding, and
4. The facility prevails on the disputed issue.

*n.* Penalties or fines imposed by federal or state agencies are not allowable expenses.

*o.* Penalties, fines or fees imposed for insufficient funds or delinquent payments are not allowable expenses.

**82.5(12) Termination or change of owner.**

*a.* A participating facility contemplating termination of participation or negotiating a change of ownership shall provide the department with at least 60 days' prior notice. A transfer of ownership or operation terminates the participation agreement. A new owner or operator shall establish that the facility meets the conditions for participation and enter into a new agreement. The person responsible for transfer of ownership or for termination is responsible for submission of a final financial and statistical report through the date of the transfer. No payment to the new owner will be made until formal notification is received. The following situations are defined as a transfer of ownership:

(1) In the case of a partnership which is a party to an agreement to participate in the medical assistance program, the removal, addition, or substitution of an individual for a partner in the association, in the absence of an express statement to the contrary, dissolves the old partnership and creates a new partnership which is not a party to the previously executed agreement and a transfer of ownership has occurred.

(2) When a participating nursing home is a sole proprietorship, a transfer of title and property to another party constitutes a change of ownership.

(3) When the facility is a corporation, neither a transfer of corporate stock nor a merger of one or more corporations with the participating corporation surviving is a transfer of ownership. A

consolidation of two or more corporations resulting in the creation of a new corporate entity constitutes a change of ownership.

(4) When a participating facility is leased, a transfer of ownership is considered to have taken place. When the entire facility is leased, the total agreement with the lessor terminates. When only part of the facility is leased, the agreement remains in effect with respect to the unleased portion, but terminates with respect to the leased portion.

*b.* No increase in the value of the property shall be allowed in determining the Medicaid rate for the new owner with any change of ownership (including lease agreements). When filing the first cost report, the new owner shall either continue the schedule of depreciation and interest established by the previous owner, or the new owner may choose to claim the actual rate of interest expense. The results of the actual rate of interest expense shall not be higher than would be allowed under the Medicare principles of reimbursement and shall be applied to the allowed depreciable value established by the previous owner, less any down payment made by the new owner.

*c.* Other acquisition costs of the new owner such as legal fees, accounting and administrative costs, travel costs and the costs of feasibility studies attributable to the negotiation or settlement of the sale or purchase of the property shall not be allowed.

*d.* In general, the provisions of Section 1861(v)(1)(0) of the Social Security Act regarding payment allowed under Medicare principles of reimbursement at the time of a change of ownership shall be followed, except that no return on equity or recapture of depreciation provisions shall be employed.

*e.* A new owner or lessee wishing to claim a new rate of interest expense must submit documentation which verifies the amount of down payment made, the actual rate of interest, and the number of years required for repayment with the next semiannual cost report. In the absence of the necessary supportive documentation, interest and other property costs for all facilities which have changed or will change ownership shall continue at the rate allowed the previous owner.

**82.5(13) Assessed fee.** The fee assessed pursuant to 441—Chapter 36 shall be an allowable cost for cost reporting and audit purposes.

*a.* For the purpose of implementing the assessment for facilities operated by the state, Medicaid reimbursement rates shall be recalculated effective October 1, 2003, as provided in paragraph “*b.*”

*b.* For purposes of determining rates paid for services rendered after October 1, 2003, each state-operated facility’s annual costs for periods before implementation of the assessment shall be increased by an amount equal to 6 percent of the facility’s annual revenue for the preceding fiscal year.

**82.5(14) Payment to new facility.** A facility receiving Medicaid ICF/ID certification on or after July 1, 1992, shall be subject to the provisions of this subrule.

*a.* A facility receiving initial Medicaid certification for ICF/ID level of care shall submit a budget for six months of operation beginning with the month in which Medicaid certification is given. The budget shall be submitted at least 30 days in advance of the anticipated certification date. The Medicaid per diem rate for a new facility shall be based on the submitted budget subject to review by the accounting firm under contract with the department. The rate shall be subject to a maximum set at the eightieth percentile of all participating community-based Iowa ICFs/ID with established base rates. The eightieth percentile maximum rate shall be adjusted July 1 of each year. The state hospital schools shall not be included in the compilation of facility costs. The beginning rates for a new facility shall be effective with the date of Medicaid certification.

*b.* Initial cost report. Following six months of operation as a Medicaid-certified ICF/ID, the facility shall submit a report of actual costs. The rate computed from this cost report shall be adjusted to 100 percent occupancy plus the annual percentage increase of the Consumer Price Index for all urban consumers, U.S. city average (hereafter referred to as the Consumer Price Index). For the period beginning July 1, 2009, and ending June 30, 2010, 3 percent shall be used to adjust costs for inflation, instead of the annual percentage increase of the Consumer Price Index. Business start-up and organization costs shall be accounted for in the manner prescribed by the Medicare and Medicaid standards. Any costs that are properly identifiable as start-up costs, organization costs or capitalizable as construction costs must be appropriately classified as such.

(1) Start-up costs. In the period of developing a provider's ability to furnish patient care services, certain costs are incurred. The costs incurred during this time of preparation are referred to as start-up costs. Since these costs are related to patient care services rendered after the time of preparation, the costs must be capitalized as deferred charges and amortized over a five-year period.

Start-up costs include, for example, administrative and program staff salaries, heat, gas and electricity, taxes, insurance, mortgage and other interest, employee training costs, repairs and maintenance, and housekeeping.

(2) Organization costs. Organization costs are those costs directly related to the creation of a corporation or other form of business. These costs are an intangible asset in that they represent expenditures for rights and privileges which have a value to the enterprise. The services inherent in organization costs extend over more than one accounting period and affect the costs of future periods of operation. Organization costs must be amortized over a five-year period.

1. Allowable organization costs. Allowable organization costs include, but are not limited to, legal fees incurred in establishing the corporation or other organization (such as drafting the corporate charter and bylaws, legal agreements, minutes of organization meetings, terms of original stock certificates), necessary accounting fees, expenses of temporary directors and organizational meetings of directors and stockholders, and fees paid to states for incorporation.

2. Unallowable organization costs. The following types of costs are not considered allowable organization costs: costs relating to the issuance and sale of shares of capital stock or other securities, such as underwriters' fees and commissions, accountant's or lawyer's fees; costs of qualifying the issues with the appropriate state or federal authorities; and stamp taxes.

c. Standardization of cost reporting period for new facilities.

(1) Facilities receiving initial certification between July 1 and December 31 (inclusive) shall submit three successive six-month cost reports covering their first 18 months of operation. The fourth six-month cost report shall cover the January 1 to June 30 period. Thereafter, the facility shall submit a cost report on an annual basis of July 1 to June 30.

(2) Facilities receiving initial certification between January 1 and June 30 (inclusive) shall submit two successive six-month cost reports covering the first 12 months of operation. The third six-month cost report shall cover the January 1 to June 30 period. Thereafter, the facility shall submit a cost report on an annual basis of July 1 to June 30.

(3) All facilities shall comply with the requirements of subrule 82.5(3) when submitting reports.

d. Completion of 12 months of operation. Following the first 12 months of operation as a Medicaid-certified ICF/ID as described in subrule 82.5(14), the facility shall submit a cost report for the second six months of operation. An on-site audit of facility costs shall be performed by the accounting firm under contract with the department. Based on the audited cost report, a rate shall be established for the facility. This rate shall be considered the base rate until rebasing of facility costs occurs.

(1) A new maximum allowable base cost will be calculated each year by increasing the prior year's maximum allowable base by the annual percentage increase of the Consumer Price Index. For the period beginning July 1, 2009, and ending June 30, 2010, the prior year's maximum allowable base cost shall be increased by 3 percent, instead of the annual percentage increase of the Consumer Price Index.

(2) Each year's maximum allowable base cost represents the maximum amount that can be reimbursed.

e. Maximum rate. Facilities shall be subject to a maximum rate set at the eightieth percentile of the total per diem cost of all participating community-based ICFs/MR with established base rates. The eightieth percentile maximum rate shall be adjusted July 1 of each year using cost reports on file December 31 of the previous year.

f. Incentive factor. New facilities which complete the second annual period of operation that have an annual per unit cost percentage increase of less than the percentage increase of the Consumer Price Index, as described in 82.5(14) "d," shall be given their actual percentage increase plus one-half the difference of their actual percentage increase compared to the allowable maximum percentage increase. This percentage difference multiplied by the actual per diem cost for the annual period just completed

is the incentive factor. For the period beginning July 1, 2009, and ending June 30, 2010, the incentive factor shall be calculated using 3 percent in place of the percentage increase of the Consumer Price Index.

(1) The incentive factor will be added to the new reimbursement base rate to be used as the per diem rate for the next annual period of operation.

(2) Facilities whose annual per unit cost decreased from the prior year shall be given their actual per unit cost plus one and one-half the percentage increase in the Consumer Price Index as an incentive for cost containment.

*g.* Reimbursement for first annual period. The reimbursement for the first annual period will be determined by multiplying the per diem rate calculated for the base period by the Consumer Price Index plus one.

(1) The projected reimbursement for each period thereafter (until rebasing) will be calculated by multiplying the lower of the prior year's actual or the projected reimbursement per diem by the Consumer Price Index plus one. For the period beginning July 1, 2009, and ending June 30, 2010, the projected reimbursement will be determined using a multiplier of 3 percent instead of the Consumer Price Index.

(2) If a facility experiences an increase in actual costs that exceeds both the actual reimbursement and the maximum allowable base cost as determined for that annual period, the facility shall receive as reimbursement in the following period the maximum allowable base as calculated.

(3) All calculated per diem rates shall be subject to the prevailing maximum rate.

**82.5(15) Payment to new owner.** An existing facility with a new owner shall continue with the previous owner's per diem rate until a new financial and statistical report has been submitted and a new rate established according to subrule 82.5(16). The facility may submit a report for the period of July 1 to June 30 or may submit two cost reports within the fiscal year provided the second report covers a period of at least six months ending on the last day of the fiscal year. The facility shall notify the department of the reporting option selected.

**82.5(16) Payment to existing facilities.** The following reimbursement limits shall apply to all non-state-owned ICFs/MR:

*a.* Each facility shall file a cost report covering the period from January 1, 1992, to June 30, 1992. This cost report shall be used to establish a reimbursement rate to be paid to the facility and shall be used to establish the base allowable cost per unit to be used in future reimbursement rate calculations. Subsequent cost reports shall be filed annually by each facility covering the 12 months from July 1 to June 30.

*b.* The reimbursement rate established based on the report covering January 1, 1992, to June 30, 1992, shall be calculated using the method in place prior to July 1, 1992, including inflation and incentive factors.

*c.* The audited per unit cost from the January 1, 1992, to June 30, 1992, cost report shall become the initial allowable base cost. A new maximum allowable base cost will be calculated each year as described in 82.5(14) "d."

*d.* Facilities which have an annual per unit cost percentage increase of less than the percentage increase of the Consumer Price Index or of less than 3 percent for rates effective July 1, 2009, through June 30, 2010, shall be given their actual percentage increase plus one-half the difference of their actual percentage increase compared to the allowable maximum percentage increase. This percentage difference multiplied by the actual per diem costs for the annual period just completed is the incentive factor.

(1) The incentive factor will be added to the new reimbursement base rate to be used as the per diem rate for the following annual period.

(2) Facilities whose annual per unit cost decreased from the prior year shall receive their actual per unit cost plus one and one-half the percentage increase in the Consumer Price Index as an incentive for cost containment. For the period beginning July 1, 2009, and ending June 30, 2010, 3 percent shall be used in lieu of the percentage increase in the Consumer Price Index.

*e.* Administrative costs shall not exceed 18 percent of total facility costs. Administrative costs are comprised of those costs incurred in the general management and administrative functions of the

facility. Administrative costs include, but are not necessarily limited to, the administrative portion of the following:

- (1) Administrator's salary.
- (2) Assistant administrator's salary.
- (3) Bookkeeper's salary.
- (4) Other accounting and bookkeeping costs.
- (5) Other clerical salaries and clerical costs.
- (6) Administrative payroll taxes.
- (7) Administrative unemployment taxes.
- (8) Administrative group insurance.
- (9) Administrative general liability and worker's compensation insurance.
- (10) Directors' and officers' insurance or salaries.
- (11) Management fees.
- (12) Indirect business expenses and other costs related to the management of the facility including home office and other organizational costs.
- (13) Legal and professional fees.
- (14) Dues, conferences and publications.
- (15) Postage and telephone.
- (16) Administrative office supplies and equipment, including depreciation, rent, repairs, and maintenance as documented by a supplemental schedule which identifies the portion of repairs and maintenance, depreciation, and rent which applies to office supplies and equipment.
- (17) Data processing and bank charges.
- (18) Advertising.
- (19) Travel, entertainment and vehicle expenses not directly involving residents.

*f.* Facility rates shall be rebased using the cost report for the year covering state fiscal year 1996 and shall subsequently be rebased each four years. The department shall consider allowing special rate adjustments between rebasing cycles if:

- (1) An increase in the minimum wage occurs.
- (2) A change in federal regulations occurs which necessitates additional staff or expenditures for capital improvements, or a change in state or federal law occurs, or a court order with force of law mandates program changes which necessitate the addition of staff or other resources.
- (3) A decision is made by a facility to serve a significantly different client population or to otherwise make a dramatic change in program structure (documentation and verification will be required).
- (4) A facility increases or decreases licensed bed capacity by 20 percent or more.

*g.* Total patient days for purposes of the computation shall be inpatient days as determined in subrule 82.5(7) or 80 percent of the licensed capacity of the facility, whichever is greater. The reimbursement rate shall be determined by dividing total reported patient expenses by total patient days during the reporting period. This cost per day will be limited by an inflation increase which shall not exceed the percentage change in the Consumer Price Index. For the period beginning July 1, 2009, and ending June 30, 2010, the inflation increase shall be 3 percent, notwithstanding the percentage change in the Consumer Price Index.

*h.* State-owned ICFs/MR shall submit semiannual cost reports and shall receive semiannual rate adjustments based on actual costs of operation inflated by the percentage change in the Consumer Price Index. For the period beginning July 1, 2009, and ending June 30, 2010, costs of operation shall be inflated by 3 percent instead of the percentage change in the Consumer Price Index.

*i.* The projected reimbursement for the first annual period will be determined by multiplying the per diem rate calculated for the base period by the Consumer Price Index plus one.

- (1) The projected reimbursement for each period thereafter (until rebasing) will be calculated by multiplying the lower of the prior year's actual or the projected reimbursement per diem by the Consumer Price Index plus one. For the period beginning July 1, 2009, and ending June 30, 2010, the projected reimbursement will be determined using a multiplier of 3 percent instead of the Consumer Price Index.

(2) If a facility experiences an increase in actual costs that exceeds both the actual reimbursement and the maximum allowable base cost as determined for that annual period, the facility shall receive as reimbursement in the following period the maximum allowable base as calculated.

This rule is intended to implement Iowa Code sections 249A.12 and 249A.16.  
 [ARC 8207B, IAB 10/7/09, effective 12/1/09; ARC 8446B, IAB 1/13/10, effective 2/17/10; ARC 0582C, IAB 2/6/13, effective 4/1/13; ARC 0995C, IAB 9/4/13, effective 11/1/13]

#### **441—82.6(249A) Eligibility for services.**

**82.6(1) *Interdisciplinary team.*** The initial evaluation for admission shall be conducted by an interdisciplinary team. The team shall consist of a physician, a social worker, and other professionals. At least one member of the team shall be a qualified intellectual disability professional.

**82.6(2) *Evaluation.*** The evaluation shall include a comprehensive medical, social, and psychological evaluation. The comprehensive evaluation shall include:

*a.* Diagnoses, summaries of present medical, social and where appropriate, developmental findings, medical and social family history, mental and physical functional capacity, prognoses, range of service needs, and amounts of care required.

*b.* An evaluation of the resources available in the home, family, and community.

*c.* An explicit recommendation with respect to admission or in the case of persons who make application while in the facility, continued care in the facility. Where it is determined that intermediate care facility for persons with an intellectual disability services are required by an individual whose needs might be met through the use of alternative services which are currently unavailable, this fact shall be entered in the record, and plans shall be initiated for the active exploration of alternatives.

*d.* An individual plan for care shall include diagnosis, symptoms, complaints or complications indicating the need for admission, a description of the functional level of the resident; written objective; orders as appropriate for medications, treatments, restorative and rehabilitative services, therapies, diet, activities, social services, and special procedures designed to meet the objectives; and plans for continuing care, including provisions for review and necessary modifications of the plan, and discharge.

*e.* Written reports of the evaluation and the written individual plan of care shall be delivered to the facility and entered in the individual's record at the time of admission or, in the case of individuals already in the facility, immediately upon completion.

**82.6(3) *Certification statement.*** Eligible individuals may be admitted to an intermediate care facility for persons with an intellectual disability upon the certification of a physician that there is a necessity for care at the facility. For clients enrolled with a managed care organization, authorization for admission must be obtained from the managed care organization prior to admission. Eligibility shall continue as long as a valid need for the care exists.

**82.6(4)** Rescinded IAB 4/9/97, effective 6/1/97.

This rule is intended to implement Iowa Code section 249A.12.  
 [ARC 0582C, IAB 2/6/13, effective 4/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

#### **441—82.7(249A) Initial approval for ICF/ID care.**

**82.7(1) *Referral through targeted case management.*** Persons seeking ICF/ID placement shall be referred through targeted case management. The case management program shall:

*a.* Identify appropriate service alternatives;

*b.* Inform the person of the alternatives; and

*c.* Refer a person without appropriate alternatives to the department.

**82.7(2) *Approval of placement by department.***

*a.* Within 30 days of receipt of a referral, the department shall:

(1) Approve ICF/ID placement;

(2) Offer a home- or community-based alternative; or

(3) Refer the person back to the targeted case management program for further consideration of service needs.

*b.* Once ICF/ID placement is approved, including approval of ICF/ID level of care as described in subrule 82.7(3), the eligible person, or the person's representative, is free to seek placement in the facility

of the person's or the person's representative's choice, subject to the provision of ICF/ID services through managed care pursuant to 441—Chapter 73.

**82.7(3) *Approval of level of care.*** Medicaid payment shall be made for ICF/ID care upon certification of need for this level of care by a licensed physician of medicine or osteopathy and approval by the Iowa Medicaid enterprise (IME) medical services unit.

**82.7(4) *Appeal rights.*** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7.

This rule is intended to implement Iowa Code section 249A.12 as amended by 2012 Iowa Acts, Senate File 2336, section 58.

[ARC 8207B, IAB 10/7/09, effective 12/1/09; ARC 8446B, IAB 1/13/10, effective 2/17/10; ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.8(249A) Determination of need for continued stay.** For clients not enrolled with a managed care organization, certification of need for continued stay shall be made according to procedures established by the Iowa Medicaid enterprise (IME) medical services unit. For all clients enrolled with a managed care organization, the managed care organization shall review the Medicaid client's need for continued care in an ICF/ID at least annually. The managed care organization must submit documentation to the IME medical services unit for all reviews that indicate a change in the client's level of care. The IME medical services unit shall make a final determination for any reviews that indicate a change in the level of care.

This rule is intended to implement Iowa Code section 249A.12.  
[ARC 8207B, IAB 10/7/09, effective 12/1/09; ARC 8446B, IAB 1/13/10, effective 2/17/10; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.9(249A) Arrangements with residents.**

**82.9(1) *Resident care agreement.*** The ICF/ID Resident Care Agreement, Form 470-0374, shall be used as a three-party contract among the facility, the resident, and the department to spell out the duties, rights, and obligation of all parties.

**82.9(2) *Financial participation by resident.*** A resident's payment for care may include any voluntary payments made by family members toward cost of care of the resident. The resident's client participation and medical payments from a third party shall be paid toward the total cost of care for the month before any Medicaid payment is made. Medicaid will pay the balance of the cost of care for the remainder of the month. The facility shall make arrangements directly with the resident for payment of client participation.

**82.9(3) *Personal needs account.*** When a facility manages the personal needs funds of a resident, it shall establish and maintain a system of accounting for expenditures from the resident's personal needs funds. The department shall charge back to the facility any maintenance item included in the computation of the audit cost that is charged to the resident's personal needs account when the charge constitutes double payment. Unverifiable expenditures charged to personal needs accounts may be charged back to the facility. The accounting system is subject to audit by representatives of the department of inspections and appeals and shall meet the following criteria:

*a.* Upon admittance, a ledger sheet shall be credited with the resident's total incidental money on hand. Thereafter, the ledger shall be kept current on a monthly basis. The facility may combine the accounting with the disbursement section showing the date, amount given the resident, and the resident's signature. A separate ledger shall be maintained for each resident.

*b.* When something is purchased for the resident and is not a direct cash disbursement, each expenditure item in the ledger shall be supported by a signed, dated receipt. The receipt shall indicate the article furnished for the resident's benefit.

*c.* Personal funds shall only be turned over to the resident, the resident's guardian, or other persons selected by the resident. With the consent of the resident, when the resident is able and willing to give consent, the administrator may turn over personal funds to a close relative or friend of the resident to purchase a particular item. A signed, itemized, dated receipt shall be required to be deposited in the resident's files.

*d.* The receipts for each resident shall be kept until canceled by auditors.

*e.* The ledger and receipts for each resident shall be made available for periodic audits by an accredited department of inspections and appeals representative. Audit certification shall be made by the department's representative at the bottom of the ledger sheet. Supporting receipts may then be destroyed.

*f.* Upon a member's death, a receipt shall be obtained from the next of kin or the member's guardian before releasing the balance of the personal needs funds. When the member has been receiving a grant from the department for all or part of the personal needs, any funds shall revert to the department. The department shall turn the funds over to the member's estate.

**82.9(4) *Safeguarding personal property.*** The facility shall safeguard the resident's personal possessions. Safeguarding shall include, but is not limited to:

*a.* Providing a method of identification of the resident's suitcases, clothing, and other personal effects, and listing these on an appropriate form attached to the resident's record at the time of admission. These records shall be kept current. Any personal effects released to a relative of the resident shall be covered by a signed receipt.

*b.* Providing adequate storage facilities for the resident's personal effects.

*c.* Ensuring that the resident is accorded privacy and uncensored communication with others by mail and telephone and with persons of the resident's choice except when therapeutic or security reasons dictate otherwise. Any limitations or restrictions imposed shall be approved by the administrator and the reasons noted shall be made a part of the resident's record.

This rule is intended to implement Iowa Code section 249A.12.

[ARC 8207B, IAB 10/7/09, effective 12/1/09; ARC 8446B, IAB 1/13/10, effective 2/17/10; ARC 0582C, IAB 2/6/13, effective 4/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

#### **441—82.10(249A) Discharge and transfer.**

**82.10(1) *Notice.*** When a Medicaid member requests transfer or discharge to a community setting, or another person requests this for the member, the administrator shall promptly notify a targeted case management provider. Names of local providers are available from the department's local office. This shall be done in sufficient time to permit a case manager to assist in the decision and planning for the transfer or discharge.

**82.10(2) *Case activity report.*** A Case Activity Report, Form 470-0042, shall be submitted to the department whenever a Medicaid applicant or member enters the facility, changes level of care, or is discharged from the facility.

**82.10(3) *Plan.*** The administrator and staff shall assist the resident in planning for transfer or discharge through development of a discharge plan.

**82.10(4) *Transfer records.*** When a resident is transferred to another facility, transfer information shall be summarized from the facility's records in a copy to accompany the resident. This information shall include:

*a.* A transfer form of diagnosis.

*b.* Aid to daily living information.

*c.* Transfer orders.

*d.* Nursing care plan.

*e.* Physician's or qualified intellectual disability professional's orders for care.

*f.* The resident's personal records.

*g.* When applicable, the personal needs fund record.

**82.10(5) *Income refund.*** When a resident leaves the facility during the month, any unused portion of the resident's income shall be refunded.

This rule is intended to implement Iowa Code section 249A.12.

[ARC 8207B, IAB 10/7/09, effective 12/1/09; ARC 8446B, IAB 1/13/10, effective 2/17/10; ARC 0582C, IAB 2/6/13, effective 4/1/13]

**441—82.11(249A) Continued stay review.** Rescinded ARC 2361C, IAB 1/6/16, effective 1/1/16.

**441—82.12(249A) Quality of care review.** Rescinded ARC 2361C, IAB 1/6/16, effective 1/1/16.

**441—82.13(249A) Records.**

**82.13(1) Content.** The facility shall as a minimum maintain the following records:

- a. All records required by the department of public health and the department of inspections and appeals.
- b. Medical records as required by Section 1902(a)(31) of Title XIX of the Social Security Act.
- c. Records of all treatments, drugs and services for which vendors' payments have been made or are to be made under the medical assistance program, including the authority for and the date of administration of the treatment, drugs, or services.
- d. Documentation in each resident's records which will enable the department to verify that each charge is due and proper prior to payment.
- e. Financial records maintained in the standard, specified form including the facility's most recent audited cost report.
- f. All other records as may be found necessary by the department in determining compliance with any federal or state law or rule or regulation promulgated by the United States Department of Health and Human Services or by the department.
- g. Census records to include the date, number of residents at the beginning of each day, names of residents admitted, and names of residents discharged.
  - (1) Census information shall be provided for residents in skilled, intermediate, and residential care.
  - (2) Census figures for each type of care shall be totaled monthly to indicate the number admitted, the number discharged, and the number of patient days.
  - (3) Failure to maintain acceptable census records shall result in the per diem rate being computed on the basis of 100 percent occupancy and a request for refunds covering indicated recipients of nursing care which have not been properly accounted for.
- h. Resident accounts.
- i. Inservice education program records.
- j. Inspection reports pertaining to conformity with federal, state, and local laws.
- k. Residents' personal records.
- l. Residents' medical records.
- m. Disaster preparedness reports.

**82.13(2) Retention.** Records shall be retained in the facility for a minimum of five years or until an audit is performed on those records, whichever is longer.

**82.13(3) Change of owner.** All records shall be retained within the facility upon change of ownership.

This rule is intended to implement Iowa Code section 249A.12.

**441—82.14(249A) Payment procedures.**

**82.14(1) Method of payment.** Facilities shall be reimbursed under a cost-related vendor payment program. A per diem rate shall be established based on information submitted according to rule 441—82.5(249A).

**82.14(2) Payment responsibility.** Rescinded IAB 7/11/12, effective 7/1/12.

**82.14(3)** Rescinded IAB 8/9/89, effective 10/1/89.

**82.14(4) Periods authorized for payment.**

- a. Payment shall be made on a per diem basis for the portion of the month the resident is in the facility.
- b. Payment will be authorized as long as the resident is certified as needing care in an intermediate care facility for persons with an intellectual disability.
- c. Payment will be approved for the day of admission but not the day of discharge or death.
- d. Payment will be approved for periods the resident is absent to visit home for a maximum of 30 days annually. Additional days may be approved for special programs of evaluation, treatment or habilitation outside the facility. Documentation as to the appropriateness and therapeutic value of resident visits and outside programming, signed by a physician or qualified intellectual disability professional, shall be maintained at the facility.

*e.* Payment will be approved for a period not to exceed ten days in any calendar month when the resident is absent due to hospitalization. Medicaid payment to the facility may not be initiated while a resident is on reserve bed days unless the person was residing in the facility as a private pay resident prior to the hospitalization and returns to the facility as a resident.

*f.* Payment for periods when residents are absent for visitation or hospitalization from facilities with more than 15 beds will be made at 80 percent of the allowable audited costs for those beds. Facilities with 15 or fewer beds will be reimbursed at 95 percent of the allowable audited costs for those beds.

**82.14(5) *Supplementation.*** Only the amount of client participation may be billed to the resident for the cost of care. No supplementation of the state payment shall be made by any person.

EXCEPTION: The resident, the resident's family or friends may pay to hold the resident's bed in cases where a resident spends over 30 days on yearly visitation or spends over 10 days on a hospital stay. When the resident is not discharged from the facility, the payments shall not exceed 80 percent of the allowable audited costs for the facility, not to exceed the maximum reimbursement rate. When the resident is discharged, the facility may handle the holding of the reserved bed in the same manner as a private paying resident.

**82.14(6) *Payment for out-of-state care.*** Rescinded IAB 9/5/90, effective 11/1/90.

This rule is intended to implement Iowa Code section 249A.12 as amended by 2012 Iowa Acts, Senate File 2336, section 58.

[ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12; ARC 0582C, IAB 2/6/13, effective 4/1/13]

#### **441—82.15(249A) Billing procedures.**

**82.15(1) *Claims.*** Claims for service for clients not enrolled with a managed care organization must be sent to the Iowa Medicaid enterprise after the month of service and within 365 days of the date of service. Such claims must be submitted electronically through IME's electronic clearinghouse.

*a.* A remittance advice of the claims paid may be obtained through the Iowa Medicaid portal access (IMPA) system.

*b.* Adjustments to claims may be made electronically as provided for by the Iowa Medicaid enterprise.

**82.15(2) Reserved.**

This rule is intended to implement Iowa Code section 249A.12.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.16(249A) Closing of facility.** When a facility is planning on closing, the department and the department's contracted managed care organizations with which the facility is enrolled shall be notified at least 60 days in advance of the closing. Plans for the transfer of residents receiving Medicaid shall be approved by the resident's managed care organization or by the Iowa Medicaid enterprise for residents not enrolled with a managed care organization.

This rule is intended to implement Iowa Code section 249A.12.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

#### **441—82.17(249A) Audits.**

**82.17(1) *Audits of financial and statistical report.*** Authorized representatives of the department or the Department of Health and Human Services shall have the right, upon proper identification, to audit, using generally accepted auditing procedures, the general financial records of a facility to determine if expenses reported on the Financial and Statistical Report, Form 470-0030, are reasonable and proper according to the rules set forth in 441—82.5(249A). These audits may be done either on the basis of an on-site visit to the facility, their central accounting office, or office(s) of their agents.

*a.* When a proper per diem rate cannot be determined, through generally accepted auditing procedures, the auditor shall examine and adjust the report to arrive at what appears to be an acceptable rate and shall recommend to the department that the indicated per diem should be reduced to 75 percent of the established payment rate for the ensuing fiscal period and if the situation is not remedied on the subsequent Financial and Statistical Report, Form 470-0030, the facility shall be suspended and eventually canceled from the intermediate care facility program, or

*b.* When a facility continues to include as an item of cost an item or items which had in a prior audit been removed by an adjustment in the total audited costs, the auditor shall recommend to the department that the per diem be reduced to 75 percent of the current payment rate for the ensuing fiscal period. The department may, after considering the seriousness of the exception, make the reduction.

**82.17(2) Auditing of proper billing and handling of patient funds.**

*a.* The Iowa Medicaid enterprise, the department's contracted managed care organizations, field auditors of the department of inspections and appeals and representatives of the U.S. Department of Health and Human Services, upon proper identification, shall have the right to audit billings to the department and receipts of client participation, to ensure that the facility is not receiving payment in excess of the contractual agreement and that all other aspects of the contractual agreement are being followed, as deemed necessary.

*b.* The Iowa Medicaid enterprise, the department's contracted managed care organizations, field auditors of the department of inspections and appeals and representatives of the U.S. Department of Health and Human Services, upon proper identification, shall have the right to audit records of the facility to determine proper handling of patient funds in compliance with subrule 82.9(3).

*c.* The auditor shall recommend and the department shall request repayment by the facility to either the department or the resident(s) involved, such sums inappropriately billed to the department or collected from the resident.

*d.* The facility shall have 60 days to review the audit and repay the requested funds or present supporting documentation which would indicate that the requested refund amount, or part thereof, is not justified.

*e.* When the facility fails to comply with paragraph "d" the requested refunds may be withheld from future payments to the facility. The withholding shall not be more than 25 percent of the average of the last six monthly payments to the facility. The withholding shall continue until the entire requested refund amount is recovered. If in the event the audit results indicate significant problems, the audit results may be referred to the attorney general's office for whatever action may be deemed appropriate.

*f.* When exceptions are taken during the scope of an audit which are similar in nature to the exceptions taken in a prior audit, the auditor shall recommend and the department may, after considering the seriousness of the exceptions, reduce payment to the facility to 75 percent of the current payment rate.

This rule is intended to implement Iowa Code section 249A.12.  
[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—82.18(249A) Out-of-state facilities.** Payment will be made for care in out-of-state intermediate care facilities for persons with an intellectual disability. Out-of-state facilities shall abide by the same policies as in-state facilities with the following exceptions:

**82.18(1)** Out-of-state providers will be reimbursed at the same intermediate care facility rate they are receiving for their state of residence.

**82.18(2)** Out-of-state facilities shall not submit financial and statistical reports as required in rule 441—81.6(249A).

**82.18(3)** Payment for periods when residents are absent for visitation or hospitalization will be made to out-of-state facilities at 80 percent of the rate paid to the facility by the Iowa Medicaid program. Out-of-state facilities with 15 or fewer beds shall be reimbursed at 95 percent of the rate paid to the facility by the Iowa Medicaid program.

This rule is intended to implement Iowa Code section 249A.12.  
[ARC 0582C, IAB 2/6/13, effective 4/1/13]

**441—82.19(249A) State-funded personal needs supplement.** A Medicaid member living in an intermediate care facility for persons with an intellectual disability who has countable income for purposes of rule 441—75.16(249A) of less than \$50 per month shall receive a state-funded payment from the department for the difference between that countable income and \$50 if the legislature has

appropriated funding specifically for this purpose. This payment shall not be considered a benefit under Title XIX of the Social Security Act.

This rule is intended to implement Iowa Code section 249A.30A.

CHAPTER 83  
MEDICAID WAIVER SERVICES

PREAMBLE

Medicaid waiver services are services provided to maintain persons in their own homes or communities who would otherwise require care in medical institutions. Provision of these services must be cost-effective. Services are limited to certain targeted client groups for whom a federal waiver has been requested and approved. Services provided through the waivers are not available to other Medicaid recipients as the services are beyond the scope of the Medicaid state plan.

DIVISION I—HCBS HEALTH AND DISABILITY WAIVER SERVICES

**441—83.1(249A) Definitions.**

*“Attorney in fact under a durable power of attorney for health care”* means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

*“Basic individual respite”* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals without specialized needs requiring the care of a licensed registered nurse or licensed practical nurse.

*“Blind individual”* means an individual who has a central visual acuity of 20/200 or less in the better eye with the use of corrective lens or visual field restriction to 20 degrees or less.

*“Client participation”* means the amount of the recipient income that the person must contribute to the cost of health and disability waiver services exclusive of medical vendor payments before Medicaid will participate.

*“Deeming”* means the specified amount of parental or spousal income and resources considered in determining eligibility for a child or spouse according to current supplemental security income guidelines.

*“Disabled person”* means an individual who is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which has lasted or is expected to last for a continuous period of not less than 12 months. A child under the age of 18 is considered disabled if the child suffers a medically determinable physical or mental impairment of comparable severity.

*“Financial participation”* means client participation and medical payments from a third party including veterans’ aid and attendance.

*“Group respite”* is respite provided on a staff-to-consumer ratio of less than one to one.

*“Guardian”* means a guardian appointed in probate court.

*“Intermediate care facility for persons with an intellectual disability level of care”* means that the individual has a diagnosis of intellectual disability made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or has a related condition as defined in 42 CFR 435.1009; and needs assistance in at least three of the following major life areas: mobility, musculoskeletal skills, activities of daily living, domestic skills, toileting, eating skills, vision, hearing or speech or both, gross/fine motor skills, sensory-taste, smell, tactile, academic skills, vocational skills, social/community skills, behavior, and health care.

*“Intermittent homemaker service”* means homemaker service provided from one to three hours a day for not more than four days per week.

*“Intermittent respite service”* means respite service provided from one to three times a week.

*“Managed care organization”* means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medical assessment*” means a visual and physical inspection of the consumer, noting deviations from the norm, and a statement of the consumer’s mental and physical condition that can be amendable to or resolved by appropriate actions of the provider.

“*Medical institution*” means a nursing facility or an intermediate care facility for persons with an intellectual disability which has been approved as a Medicaid vendor.

“*Medical intervention*” means consumer care in the areas of hygiene, mental and physical comfort, assistance in feeding and elimination, and control of the consumer’s care and treatment to meet the physical and mental needs of the consumer in compliance with the plan of care in areas of health, prevention, restoration, and maintenance.

“*Medical monitoring*” means observation for the purpose of assessing, preventing, maintaining, and treating disease or illness based on the consumer’s plan of care.

“*Nursing facility level of care*” means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member’s daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member’s capacity to live independently.

2. The member’s physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

“*Service plan*” means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process, which addresses all relevant services and supports being provided. It may involve more than one provider.

“*Skilled nursing facility level of care*” means that the following conditions are met:

1. The member’s medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.

2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).

3. Documentation submitted for review indicates that the member has:

a. A physician order for all skilled services.

b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.

c. An individualized care plan that identifies support needs.

d. Confirmation that skilled services are provided to the member.

e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.

f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

“*Specialized respite*” means respite provided on a staff-to-consumer ratio of one to one or higher to individuals with specialized medical needs requiring the care, monitoring or supervision of a licensed registered nurse or licensed practical nurse.

“*Substantial gainful activity*” means productive activities which add to the economic wealth, or produce goods or services to which the public attaches a monetary value.

“*Third-party payments*” means payments from an attorney, individual, institution, corporation, or public or private agency which is liable to pay part or all of the medical costs incurred as a result of injury, disease or disability by or on behalf of an applicant or a past or present recipient of medical assistance.

“*Usual caregiver*” means a person or persons who reside with the consumer and are available on a 24-hour-per-day basis to assume responsibility for the care of the consumer.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0757C, IAB 5/29/13, effective 8/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.2(249A) Eligibility.** To be eligible for health and disability waiver services, a person must meet certain eligibility criteria and be determined to need a service(s) allowable under the program.

**83.2(1) Eligibility criteria.**

a. The person must be under the age of 65 and blind or disabled as determined by the receipt of social security disability benefits or by a disability determination made through the department.

Disability determinations are made according to supplemental security income guidelines under Title XVI of the Social Security Act.

*b.* The person must be ineligible for Supplemental Security Income (SSI) if the person is 21 years of age or older, except that persons who are receiving health and disability waiver services upon reaching the age of 21 may continue to be eligible regardless of SSI eligibility until they reach the age of 25.

*c.* Persons shall meet the eligibility requirements of the supplemental security income program except for the following:

(1) The person is under 18 years of age, unmarried and not the head of a household and is ineligible for supplemental security income because of the deeming of the parent's(s') income.

(2) The person is married and is ineligible for supplemental security income because of the deeming of the spouse's income or resources.

(3) The person is ineligible for supplemental security income due to excess income and the person's income does not exceed 300 percent of the maximum monthly payment for one person under supplemental security income.

(4) The person is under 18 years of age and is ineligible for supplemental security income because of excess resources.

*d.* The person must be certified as being in need of nursing facility or skilled nursing facility level of care or as being in need of care in an intermediate care facility for persons with an intellectual disability, based on information submitted on Form 470-4392, Level of Care Certification for HCBS Waiver Program.

(1) A physician, doctor of osteopathy, registered nurse practitioner, or physician assistant shall complete Form 470-4392 when the person applies for waiver services, upon request to report a change in the person's condition, and annually for reassessment of the person's level of care.

(2) The IME medical services unit shall be responsible for the initial determination of the member's level of care certification. The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

(3) Health and disability waiver services will not be provided when the person is an inpatient in a medical institution.

(4) The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

*e.* To be eligible for interim medical monitoring and treatment services the consumer must be:

(1) Under the age of 21;

(2) Currently receiving home health agency services under rule 441—78.9(249A) and require medical assessment, medical monitoring, and regular medical intervention or intervention in a medical emergency during those services. (The home health aide services for which the consumer is eligible must be maximized before the consumer accesses interim medical monitoring and treatment.);

(3) Residing in the consumer's family home or foster family home; and

(4) In need of interim medical monitoring and treatment as ordered by a physician or a physician assistant.

*f.* The person must meet income and resource guidelines for Medicaid as if in a medical institution pursuant to 441—Chapter 75. When a husband and wife who are living together both apply for the waiver, income and resource guidelines as specified at 441—paragraphs 75.5(2) "b" and 75.5(4) "c" shall be applied.

*g.* The person must have service needs that can be met by this waiver program. At a minimum a person must receive one billable unit of service under the waiver per calendar quarter.

*h.* To be eligible for the consumer choices option as set forth in 441—subrule 78.34(13), a person cannot be living in a residential care facility.

**83.2(2) Need for services.**

a. The member shall have a service plan approved by the department which is developed by the service worker or targeted case manager identified by the county of residence. This service plan must be completed prior to services provision and annually thereafter.

The service worker or targeted case manager shall establish the interdisciplinary team for the member and, with the team, identify the member's need for service based on the member's needs and desires as well as the availability and appropriateness of services, using the following criteria:

(1) This service plan shall be based, in part, on information in the completed Service Worker Comprehensive Assessment, Form 470-5044. Form 470-5044 shall be completed annually. The service worker or targeted case manager shall have a face-to-face visit with the member at least annually.

(2) Service plans for persons aged 20 or under shall be developed to reflect use of all appropriate nonwaiver Medicaid services and so as not to replace or duplicate those services. The service worker or targeted case manager shall list all nonwaiver Medicaid services in the service plan.

(3) Service plans for persons aged 20 or under that include home health or nursing services shall not be approved until a home health agency has made a request to cover the member's service needs through nonwaiver Medicaid services.

b. Except as provided below, the total monthly cost of the health and disability waiver services, excluding the cost of home and vehicle modification services, shall not exceed the established aggregate monthly cost for level of care as follows:

<u>Skilled level of care</u>	<u>Nursing level of care</u>	<u>ICF/ID</u>
\$2,765	\$950	\$3,365

(1) For members eligible for SSI who remain eligible for health and disability waiver services until the age of 25 because they are receiving health and disability waiver services upon reaching the age of 21, these amounts shall be increased by the cost of services for which the member would be eligible under 441—subrule 78.9(10) if still under 21 years of age.

(2) If more than \$505 is paid for home and vehicle modification services, the service worker or targeted case manager shall encumber up to \$505 per month within the monthly dollar cap allowed for the member until the total amount of the modification is reached within a 12-month period.

c. Interim medical monitoring and treatment services must be needed because all usual caregivers are unavailable to provide care due to one of the following circumstances:

(1) Employment. Interim medical monitoring and treatment services are to be received only during hours of employment.

(2) Academic or vocational training. Interim medical monitoring and treatment services provided while a usual caregiver participates in postsecondary education or vocational training shall be limited to 24 periods of no more than 30 days each per caregiver as documented by the service worker or targeted case manager. Time spent in high school completion, adult basic education, GED, or English as a second language does not count toward the limit.

(3) Absence from the home due to hospitalization, treatment for physical or mental illness, or death of the usual caregiver. Interim medical monitoring and treatment services under this subparagraph are limited to a maximum of 30 days.

(4) Search for employment.

1. Care during job search shall be limited to only those hours the usual caregiver is actually looking for employment, including travel time.

2. Interim medical monitoring and treatment services may be provided under this paragraph only during the execution of one job search plan of up to 30 working days in a 12-month period, approved by the department service worker or targeted case manager pursuant to 441—subparagraph 170.2(2) "b"(5).

3. Documentation of job search contacts shall be furnished to the department service worker or targeted case manager.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0757C, IAB 5/29/13, effective 8/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 1445C, IAB 4/30/14, effective 7/1/14; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.3(249A) Application.**

**83.3(1)** *Application for HCBS health and disability waiver services.* The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed.

**83.3(2)** *Application and services program limit.* The number of persons who may be approved for the HCBS health and disability waiver shall be subject to the number of members to be served as set forth in the federally approved HCBS health and disability waiver. The number of members to be served is set forth at the time of each five-year renewal of the waiver or in amendments to the waiver approved by the Centers for Medicare and Medicaid Services (CMS). When the number of applicants exceeds the number of members specified in the approved waiver, the applicant's name shall be placed on a waiting list maintained by the bureau of long-term care.

*a.* The county department office shall enter all waiver applications into the individualized services information system (ISIS) to determine if a payment slot is available.

(1) For applicants not currently receiving Medicaid, the county department office shall make the entry by the end of the fifth working day after receipt of a completed Form 470-2927 or 470-2927(S), Health Services Application, or within five working days after receipt of disability determination, whichever is later.

(2) For current Medicaid members, the county department office shall make the entry by the end of the fifth working day after receipt of a written request signed and dated by the applicant.

(3) A payment slot shall be assigned to the applicant upon confirmation of an available slot.

(4) Once a payment slot is assigned, the county department office shall give written notice to the applicant. The department shall hold the payment slot for the applicant as long as reasonable efforts are being made to arrange services and the applicant has not been determined to be ineligible for the program. If services have not been initiated and reasonable efforts are no longer being made to arrange services, the slot shall revert for use by the next person on the waiting list, if applicable. The applicant originally assigned the slot must reapply for a new slot.

*b.* If no payment slot is available, the department shall enter persons on a waiting list according to the following:

(1) Applicants not currently eligible for Medicaid shall be entered on the waiting list on the basis of the date a completed Form 470-2927 or 470-2927(S), Health Services Application, is received by the department or upon receipt of disability determination, whichever is later.

(2) Applicants currently eligible for Medicaid shall be added to the waiting list on the basis of the date a request as specified in 83.3(2)“a”(2) is received by the department.

(3) In the event that more than one application is received at one time, persons shall be entered on the waiting list on the basis of the month of birth, January being month one and the lowest number.

(4) Applicants who do not fall within the available slots shall have their application rejected, and their names shall be maintained on the waiting list. They shall be contacted to reapply as slots become available based on their order on the waiting list so that the number of approved persons on the program is maintained. The bureau of long-term care shall contact the county department office when a slot becomes available.

(5) Once a payment slot is assigned, the county department office shall give written notice to the person within five working days. The department shall hold the payment slot for 30 days for the person to file a new application. If an application has not been filed within 30 days, the slot shall revert for use by the next person on the waiting list, if applicable. The person originally assigned the slot must reapply for a new slot.

*c.* The county department office shall notify the bureau of long-term care within five working days of the receipt of an application and of any action on or withdrawal of an application.

**83.3(3) Approval of application.**

*a.* Applications for the HCBS health and disability waiver program shall be processed in 30 days unless one or more of the following conditions exist:

(1) An application has been filed and is pending for federal supplemental security income benefits.

(2) The application is pending because the department has not received information which is beyond the control of the client or the department.

(3) The application is pending due to the disability determination process performed through the department.

(4) The application is pending because a level of care determination has not been made although the completed Form 470-4392, Level of Care Certification for HCBS Waiver Program, has been submitted to the IME medical services unit.

(5) The application is pending because the assessment, Form 470-4392, or the service plan has not been completed. When a determination is not completed 90 days from the date of application due to the lack of a completed assessment, Form 470-4392, or service plan, the application shall be denied.

*b.* Decisions shall be mailed or given to the applicant on the date when income maintenance eligibility and level of care determinations are completed.

*c.* An applicant must be given the choice between HCBS health and disability waiver services and institutional care. The applicant, parent, guardian, or attorney in fact under a durable power of attorney for health care shall sign Form 470-5044, Service Worker Comprehensive Assessment, and indicate that the applicant has elected home- and community-based services.

*d.* Waiver services provided prior to approval of eligibility for the waiver cannot be paid.

*e.* A member may be enrolled in only one waiver program at a time. Costs for waiver services are not reimbursable while the member is in a medical institution (hospital or nursing facility) or residential facility. Services may not be simultaneously reimbursed for the same time period as Medicaid or other Medicaid waiver services.

**83.3(4)** *Effective date of eligibility.*

*a.* Deeming of parental or spousal income and resources ceases and eligibility shall be effective on the date the income and resource eligibility and level of care determinations are completed but shall not be earlier than the first of the month following the date of application.

*b.* The effective date of eligibility for the health and disability waiver for persons who qualify for Medicaid due to eligibility for the waiver services and to whom paragraphs 83.3(4) “*a*” and “*c*” do not apply is the date on which the income eligibility and level of care determinations are completed.

*c.* Eligibility for persons covered under subparagraph 83.2(1) “*c*”(3) shall exist on the date the income and resource eligibility and level of care determinations are completed but shall not be earlier than the first of the month following the date of application.

*d.* Eligibility continues until the member has been in a medical institution for 30 consecutive days for other than respite care. Members who are inpatients in a medical institution for 30 or more consecutive days for other than respite care shall be terminated from health and disability waiver services and reviewed for eligibility for other Medicaid coverage groups. The member will be notified of that decision through Form 470-0602, Notice of Decision. If the member returns home before the effective date of the notice of decision and the member’s condition has not substantially changed, the denial may be rescinded and eligibility may continue.

**83.3(5)** *Attribution of resources.* For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver applicant met the level of care criteria in a medical institution as established by the peer review organization shall be used as the date of entry to the medical institution. Only one attribution of resources shall be completed per person. Attributions completed for prior institutionalizations shall be applied to the waiver application.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0757C, IAB 5/29/13, effective 8/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.4(249A) Financial participation.** Persons must contribute their predetermined financial participation to the cost of health and disability waiver services or other Medicaid services, as applicable.

**83.4(1)** *Maintenance needs of the individual.* The maintenance needs of the individual shall be computed by deducting an amount which is 300 percent of the maximum monthly payment for one person under supplemental security income (SSI) from the client’s total income.

**83.4(2)** *Limitation on payment.* If the sum of the third-party payment and client participation equals or exceeds the reimbursement established by the service worker or targeted case manager for health and disability waiver services, Medicaid shall make no payments to health and disability waiver service providers. However, Medicaid shall make payments to other medical vendors, as applicable.

**83.4(3)** *Maintenance needs of spouse and other dependents.* Rescinded IAB 4/9/97, effective 6/1/97.  
[ARC 0757C, IAB 5/29/13, effective 8/1/13]

**441—83.5(249A) Redetermination.** A complete redetermination of eligibility for the health and disability waiver shall be completed at least once every 12 months or when there is significant change in the person's situation or condition.

A redetermination of continuing eligibility factors shall be made in accordance with rules 441—76.7(249A) and 441—83.2(249A). A redetermination shall include verification of the existence of a current service plan meeting the requirements listed in rule 441—83.7(249A).

**83.5(1)** The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

**83.5(2)** The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

[ARC 0757C, IAB 5/29/13, effective 8/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.6(249A) Allowable services.** Services allowable under the health and disability waiver are homemaker, home health, adult day care, respite care, nursing, counseling, consumer-directed attendant care, interim medical monitoring and treatment, home and vehicle modification, personal emergency response system, home-delivered meals, nutritional counseling, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.34(249A).

[ARC 0757C, IAB 5/29/13, effective 8/1/13]

**441—83.7(249A) Service plan.** A service plan shall be prepared for health and disability waiver members in accordance with 441—paragraph 90.5(1) "b." Service plans for both children and adults shall be completed every 12 months or when there is significant change in the person's situation or condition.

**83.7(1)** The service plan shall include the frequency of the health and disability waiver services and the types of providers who will deliver the services.

**83.7(2)** The service plan shall indicate whether the member has elected the consumer choices option. If the member has elected the consumer choices option, the service plan shall identify:

- a. The independent support broker selected by the member; and
- b. The financial management service selected by the member.

**83.7(3)** The service plan shall also list all nonwaiver Medicaid services.

**83.7(4)** The service plan shall identify a plan for emergencies and the supports available to the member in an emergency.

[ARC 0757C, IAB 5/29/13, effective 8/1/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.8(249A) Adverse service actions.**

**83.8(1)** Denial. An application for services shall be denied when it is determined by the department that:

- a. The client is not eligible for or in need of services.
- b. Needed services are not available or received from qualified providers.
- c. Service needs exceed the aggregate monthly costs established in 83.2(2) "b," or are not met by the services provided.
- d. Needed services are not available or received from qualifying providers.

**83.8(2)** Termination. A particular service may be terminated when the department determines that:

- a. The provisions of 441—paragraph 130.5(2) "a," "b," "c," "g," or "h" apply.
- b. The costs of the health and disability waiver service for the person exceed the aggregate monthly costs established in 83.2(2) "b."

c. The member receives care in a hospital, nursing facility, or intermediate care facility for persons with an intellectual disability for 30 days in any one stay for purposes other than respite care.

d. The member receives health and disability waiver services and the physical or mental condition of the member requires more care than can be provided in the member's own home as determined by the service worker or targeted case manager.

e. Service providers are not available.

**83.8(3)** Reduction of services shall apply as in 441—subrule 130.5(3), paragraphs “a” and “b.”  
[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0757C, IAB 5/29/13, effective 8/1/13]

**441—83.9(249A) Appeal rights.** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234). The applicant or recipient is entitled to have a review of the level of care determination by the IME medical services unit by sending a letter requesting a review to the IME medical services unit. If dissatisfied with that decision, the applicant or recipient may file an appeal with the department.

**441—83.10(249A) County reimbursement.** Rescinded IAB 4/9/97, effective 6/1/97.

**441—83.11(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

These rules are intended to implement Iowa Code sections 249A.3 and 249A.4.

**441—83.12 to 83.20** Reserved.

#### DIVISION II—HCBS ELDERLY WAIVER SERVICES

#### **441—83.21(249A) Definitions.**

“*Attorney in fact under a durable power of attorney for health care*” means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

“*Basic individual respite*” means respite provided on a staff-to-consumer ratio of one to one or higher to individuals without specialized needs requiring the care of a licensed registered nurse or licensed practical nurse.

“*Client participation*” means the amount of the recipient income that the person must contribute to the cost of elderly waiver services exclusive of medical vendor payments before Medicaid will participate.

“*Group respite*” is respite provided on a staff-to-consumer ratio of less than one to one.

“*Guardian*” means a guardian appointed in probate court.

“*Interdisciplinary team*” means a collection of persons with varied professional backgrounds who develop one plan of care to meet a client's need for services.

“*Managed care organization*” means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medical institution*” means a nursing facility which has been approved as a Medicaid vendor.

“*Nursing facility level of care*” means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member's daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member's capacity to live independently.

2. The member's physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

“*Service plan*” means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process, which addresses all relevant services and supports being provided. It may involve more than one provider.

“*Skilled nursing facility level of care*” means that the following conditions are met:

1. The member's medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.
2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).
3. Documentation submitted for review indicates that the member has:
  - a. A physician order for all skilled services.
  - b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.
  - c. An individualized care plan that identifies support needs.
  - d. Confirmation that skilled services are provided to the member.
  - e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.
  - f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

*“Specialized respite”* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals with specialized medical needs requiring the care, monitoring or supervision of a licensed registered nurse or licensed practical nurse.

*“Third-party payments”* means payments from an individual, institution, corporation, or public or private agency which is liable to pay part or all of the medical costs incurred as a result of injury, disease or disability by or on behalf of an applicant or a past or present recipient of medical assistance.

*“Usual caregiver”* means a person or persons who reside with the consumer and are available on a 24-hour-per-day basis to assume responsibility for the care of the consumer.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.22(249A) Eligibility.** To be eligible for elderly waiver services a person must meet certain eligibility criteria and be determined to need a service(s) allowable under the program.

**83.22(1) Eligibility criteria.** All of the following criteria must be met. The person must be:

- a. Sixty-five years of age or older.
- b. A resident of the state of Iowa.
- c. Eligible for Medicaid as if in a medical institution pursuant to 441—Chapter 75. When a husband and wife who are living together both apply for the waiver, income and resource guidelines as specified at 441—paragraphs 75.5(2) “b” and 75.5(4) “c” shall be applied.
- d. Certified as being in need of the intermediate or skilled level of care based on information submitted on Form 470-4392, Level of Care Certification for HCBS Waiver Program.
  - (1) A physician, doctor of osteopathy, registered nurse practitioner, or physician assistant shall complete Form 470-4392 when the person applies for waiver services, upon request to report a change in the person's condition, and annually for reassessment of the person's level of care. The IME medical services unit shall be responsible for determination of the initial level of care.
  - (2) The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.
  - (3) Elderly waiver services will not be provided when the person is an inpatient in a medical institution.
  - (4) The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.
  - e. Determined to need services as described in subrule 83.22(2).
  - f. Rescinded IAB 10/11/06, effective 10/1/06.
  - g. For the consumer choices option as set forth in rule 441—subrule 78.37(16), residing in a living arrangement other than a residential care facility.

**83.22(2) Need for services, service plan, and cost.**

*a. Case management.* Consumers under the elderly waiver shall receive case management services from a provider qualified pursuant to 441—subrule 77.33(21). Case management services shall be provided as set forth in rules 441—90.5(249A) and 441—90.8(249A).

*b. Interdisciplinary team.* The case manager shall establish an interdisciplinary team for the consumer.

(1) *Composition.* The interdisciplinary team shall include the case manager and the consumer and, if appropriate, the consumer's legal representative, family, service providers, and others directly involved in the consumer's care.

(2) *Role.* The team shall identify:

1. The consumer's need for services based on the consumer's needs and desires.
2. Available and appropriate services to meet the consumer's needs.
3. Health and safety issues for the consumer that indicate the need for an emergency plan, based on a risk assessment conducted before the team meeting.
4. Emergency backup support and a crisis response system to address problems or issues arising when support services are interrupted or delayed or when the consumer's needs change.

*c. Service plan.* An applicant for elderly waiver services shall have a service plan developed by a qualified provider of case management services under the elderly waiver.

(1) Services included in the service plan shall be appropriate to the problems and specific needs or disabilities of the consumer.

(2) Services must be the least costly available to meet the service needs of the member. The total monthly cost of the elderly waiver services exclusive of case management services shall not exceed the established monthly cost of the level of care. Aggregate monthly costs, excluding the cost of case management and home and vehicle modifications, are limited as follows:

<u>Skilled level of care</u>	<u>Nursing level of care</u>
\$2,765	\$1,339

(3) The service plan must be completed before services are provided.

(4) The service plan must be reviewed at least annually and when there is any significant change in the consumer's needs.

*d. Content of service plan.* The service plan shall include the following information based on the consumer's current assessment and service needs:

- (1) Observable or measurable individual goals.
- (2) Interventions and supports needed to meet those goals.
- (3) Incremental action steps, as appropriate.
- (4) The names of staff, people, businesses, or organizations responsible for carrying out the interventions or supports.
- (5) The desired individual outcomes.
- (6) The identified activities to encourage the consumer to make choices, to experience a sense of achievement, and to modify or continue participation in the service plan.
- (7) Description of any restrictions on the consumer's rights, including the need for the restriction and a plan to restore the rights. For this purpose, rights include maintenance of personal funds and self-administration of medications.
- (8) A list of all Medicaid and non-Medicaid services that the consumer received at the time of waiver program enrollment that includes:
  1. The name of the service provider responsible for providing the service.
  2. The funding source for the service.
  3. The amount of service that the consumer is to receive.
- (9) Indication of whether the consumer has elected the consumer choice option and, if so, the independent support broker and the financial management service that the consumer has selected.
- (10) The determination that the services authorized in the service plan are the least costly.

(11) A plan for emergencies that identifies the supports available to the consumer in situations for which no approved service plan exists and which, if not addressed, may result in injury or harm to the consumer or other persons or in significant amounts of property damage. Emergency plans shall include:

1. The consumer's risk assessment and the health and safety issues identified by the consumer's interdisciplinary team.
2. The emergency backup support and crisis response system identified by the interdisciplinary team.
3. Emergency, backup staff designated by providers for applicable services.

**83.22(3) Providers—standards.** Rescinded IAB 10/11/06, effective 10/1/06.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 1445C, IAB 4/30/14, effective 7/1/14; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.23(249A) Application.**

**83.23(1) Application for HCBS elderly waiver.** The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed.

**83.23(2) Application for services.** Rescinded IAB 12/6/95, effective 2/1/96.

**83.23(3) Approval of application.**

a. Applications for the elderly waiver program shall be processed in 30 days unless the worker can document difficulty in locating and arranging services or circumstances beyond the worker's control. In these cases a decision shall be made as soon as possible.

b. Decisions shall be mailed or given to the applicant on the date when both service and income maintenance eligibility determinations are completed.

c. An applicant must be given the choice between elderly waiver services and institutional care. The applicant, guardian, or attorney in fact under a durable power of attorney for health care shall sign Form 470-4694, Case Management Comprehensive Assessment, indicating that the applicant has elected waiver services.

d. Waiver services provided prior to approval of eligibility for the waiver cannot be paid.

**83.23(4) Effective date of eligibility.**

a. The effective date of eligibility is the date on which the income eligibility and level of care determinations are completed.

b. Eligibility for persons whose income exceeds supplemental security income guidelines shall not exist until the persons require care in a medical institution for a period of 30 consecutive days and shall be effective no earlier than the first day of the month in which the 30-day period begins.

c. Eligibility continues until the consumer has been in a medical institution for 30 consecutive days for other than respite care or fails to meet eligibility criteria listed in rule 441—83.22(249A). Consumers who are inpatients in a medical institution for 30 or more consecutive days for other than respite care shall be terminated from elderly waiver services and reviewed for eligibility for other Medicaid coverage groups. The consumer will be notified of that decision through Form 470-0602, Notice of Decision. If the consumer returns home before the effective date of the notice of decision and the consumer's condition has not substantially changed, the denial may be rescinded and eligibility may continue.

**83.23(5) Attribution of resources.** For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver applicant met the level of care criteria in a medical institution as established by the peer review organization shall be used as the date of entry to the medical institution. Only one attribution of resources shall be completed per person. Attributions completed for prior institutionalizations shall be applied to the waiver application.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.24(249A) Client participation.** Persons must contribute their predetermined client participation to the cost of elderly waiver services.

**83.24(1) Computation of client participation.** Client participation shall be computed by deducting an amount for the maintenance needs of the individual which is 300 percent of the maximum SSI grant for an individual from the client's total income.

**83.24(2) Limitation on payment.** If the sum of the third-party payment and client participation equals or exceeds the reimbursement established by the service worker, Medicaid will make no payments for elderly waiver service providers. However, Medicaid will make payments to other medical vendors.

**441—83.25(249A) Redetermination.** A complete redetermination of eligibility for elderly waiver services shall be done at least once every 12 months.

A redetermination of continuing eligibility factors shall be made when a change in circumstances occurs that affects eligibility in accordance with rule 441—83.22(249A). A redetermination shall contain the components listed in rule 441—83.27(249A).

**83.25(1)** The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

**83.25(2)** The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.26(249A) Allowable services.** Services allowable under the elderly waiver are case management, adult day care, emergency response system, homemaker, home health aide, nursing, respite care, chore, home-delivered meals, home and vehicle modification, mental health outreach, transportation, nutritional counseling, assistive devices, senior companions, consumer-directed attendant care, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.37(249A).

**441—83.27(249A) Service plan.** The service plan shall be completed jointly by the consumer, the elderly waiver case manager, and any other person identified by the consumer.

**83.27(1)** The service plan shall indicate whether the consumer has elected the consumer choices option. If the consumer has elected the consumer choices option, the service plan shall identify:

- a. The independent support broker selected by the consumer; and
- b. The financial management service selected by the consumer.

**83.27(2)** The service plan shall identify a plan for emergencies and the supports available to the consumer in an emergency.

**441—83.28(249A) Adverse service actions.**

**83.28(1) Denial.** An application for services shall be denied when it is determined by the department that:

- a. The client is not eligible for or in need of services.
- b. Except for respite care, the elderly waiver services are not needed on a regular basis.
- c. Service needs exceed the aggregate monthly costs established in 83.22(2) "b," or are not met by services provided.
- d. Needed services are not available or received from qualifying providers.
- e. Rescinded IAB 3/2/94, effective 3/1/94.

**83.28(2) Termination.** A particular service may be terminated when the department determines that:

- a. The provisions of 441—subrule 130.5(2), paragraph "a," "b," "c," "d," "g," or "h" apply.
- b. The costs of the elderly waiver services for the person exceed the aggregate monthly costs established in 83.22(2) "b."
- c. The client receives care in a hospital or nursing facility for 30 days in any one stay for purposes other than respite care.

d. The client receives elderly waiver services and the physical or mental condition of the client requires more care than can be provided in the client's own home as determined by the case manager and the interdisciplinary team.

e. Service providers are not available.

**83.28(3)** Reduction of services shall apply as in 441—subrule 130.5(3), paragraphs “a” and “b.”

**441—83.29(249A) Appeal rights.** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

**441—83.30(249A) Enhanced services.** When a household has one person receiving service in accordance with rules set forth in 441—Chapter 24 and another receiving elderly waiver services, the persons providing case management shall cooperate to make the best plan for both clients. When a person is eligible for services as set forth in 441—Chapter 24 and eligible for services under the elderly waiver, the person's primary diagnosis will determine which services shall be used.

**441—83.31(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

These rules are intended to implement Iowa Code sections 249A.3 and 249A.4.

**441—83.32 to 83.40** Reserved.

#### DIVISION III—HCBS AIDS/HIV WAIVER SERVICES

**441—83.41(249A) Definitions.**

“*AIDS*” means a medical diagnosis of acquired immunodeficiency syndrome based on the Centers for Disease Control “Revision of the CDC Surveillance Case Definition for Acquired Immunodeficiency Syndrome,” August 14, 1987, Vol. 36, No. 1S issue of “Morbidity and Mortality Weekly Report.”

“*Attorney in fact under a durable power of attorney for health care*” means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

“*Basic individual respite*” means respite provided on a staff-to-consumer ratio of one to one or higher to individuals without specialized needs requiring the care of a licensed registered nurse or licensed practical nurse.

“*Client participation*” means the amount of the recipient's income that the person must contribute to the cost of AIDS/HIV waiver services exclusive of medical vendor payments before Medicaid will participate.

“*Deeming*” means the specified amount of parental or spousal income and resources considered in determining eligibility for a child or spouse according to current supplemental security income guidelines.

“*Financial participation*” means client participation and medical payments from a third party including veterans' aid and attendance.

“*Group respite*” is respite provided on a staff-to-consumer ratio of less than one to one.

“*Guardian*” means a guardian appointed in probate court.

“*HIV*” means a medical diagnosis of human immunodeficiency virus infection based on a positive HIV-related test.

“*Managed care organization*” means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medical institution*” means a nursing facility or hospital which has been approved as a Medicaid vendor.

“*Nursing facility level of care*” means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member's daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member's capacity to live independently.

2. The member's physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

*"Service plan"* means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process, which addresses all relevant services and supports being provided. It may involve more than one provider.

*"Skilled nursing facility level of care"* means that the following conditions are met:

1. The member's medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.

2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).

3. Documentation submitted for review indicates that the member has:

a. A physician order for all skilled services.

b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.

c. An individualized care plan that identifies support needs.

d. Confirmation that skilled services are provided to the member.

e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.

f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

*"Specialized respite"* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals with specialized medical needs requiring the care, monitoring or supervision of a licensed registered nurse or licensed practical nurse.

*"Third-party payments"* means payments from an attorney, individual, institution, corporation, or public or private agency which is liable to pay part or all of the medical costs incurred as a result of injury, disease or disability by or on behalf of an applicant or a past or present recipient of medical assistance.

*"Usual caregiver"* means a person or persons who reside with the consumer and are available on a 24-hour-per-day basis to assume responsibility for the care of the consumer.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.42(249A) Eligibility.** To be eligible for AIDS/HIV waiver services a person must meet certain eligibility criteria and be determined to need a service(s) allowable under the program.

**83.42(1) Eligibility criteria.** All of the following criteria must be met. The person must:

a. Be diagnosed by a physician as having AIDS or HIV infection.

b. Be certified in need of the level of care that, but for the waiver, would otherwise be provided in a nursing facility or hospital based on information submitted on Form 470-4392, Level of Care Certification for HCBS Waiver Program.

(1) A physician, doctor of osteopathy, registered nurse practitioner, or physician assistant shall complete Form 470-4392 when the person applies for waiver services, upon request to report a change in the person's condition, and annually for reassessment of the person's level of care.

(2) The IME medical services unit shall be responsible for approval of the certification of the level of care, and the IME medical services unit or a managed care organization will be responsible for annual redeterminations.

(3) AIDS/HIV waiver services shall not be provided when the person is an inpatient in a medical institution.

c. Be eligible for medical assistance under SSI, SSI-related, FMAP, or FMAP-related coverage groups; medically needy at hospital level of care; or a special income level (300 percent group); or become eligible through application of the institutional deeming rules.

*d.* Require, and use at least quarterly, one service available under the waiver as determined through an evaluation of need described in subrule 83.42(2).

*e.* Have service needs such that the costs of the waiver services are not likely to exceed the costs of care that would otherwise be provided in a medical institution.

*f.* Have income which does not exceed 300 percent of the maximum monthly payment for one person under supplemental security income.

*g.* For the consumer choices option as set forth in 441—subrule 78.38(9), not be living in a residential care facility.

**83.42(2) *Need for services.***

*a.* The department service worker shall perform an assessment of the person's need for waiver services and determine the availability and appropriateness of services. This assessment shall be based, in part, on information in the completed Service Worker Comprehensive Assessment, Form 470-5044. Form 470-5044 shall be completed annually.

*b.* The total monthly cost of the AIDS/HIV waiver services shall not exceed the established aggregate monthly cost for level of care. The monthly cost of AIDS/HIV waiver services cannot exceed the established limit of \$1,840.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.43(249A) *Application.***

**83.43(1) *Application for HCBS AIDS/HIV waiver services.*** The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed.

**83.43(2) *Application for services.*** Rescinded IAB 12/6/95, effective 2/1/96.

**83.43(3) *Approval of application.***

*a.* Applications for the HCBS AIDS/HIV waiver program shall be processed in 30 days unless one or more of the following conditions exist:

(1) The application is pending because the department has not received information, which is beyond the control of the client or the department.

(2) The application is pending because a level of care determination has not been made although the completed Form 470-4392, Level of Care Certification for HCBS Waiver Program, has been submitted to the IME medical services unit.

(3) Rescinded IAB 3/7/01, effective 5/1/01.

*b.* Decisions shall be mailed or given to the applicant on the date when income maintenance eligibility and level of care determinations and the consumer service plan are completed.

*c.* An applicant must be given the choice between HCBS AIDS/HIV waiver services and institutional care. The applicant, parent, guardian, or attorney in fact under a durable power of attorney for health care shall sign Form 470-5044, Service Worker Comprehensive Assessment, and indicate that the applicant has elected home- and community-based services.

*d.* Waiver services provided prior to approval of eligibility for the waiver cannot be paid.

**83.43(4) *Effective date of eligibility.***

*a.* The effective date of eligibility for the AIDS/HIV waiver for persons who are already determined eligible for Medicaid is the date on which the income and resource eligibility and level of care determinations are completed.

*b.* The effective date of eligibility for the AIDS/HIV waiver for persons who qualify for Medicaid due to eligibility for the waiver services and to whom 441—subrule 75.1(7) and rule 441—75.5(249A) do not apply is the date on which income and resource eligibility and level of care determinations are completed.

*c.* Eligibility for the waiver continues until the recipient has been in a medical institution for 30 consecutive days for other than respite care or fails to meet eligibility criteria listed in rule 441—83.42(249A). Recipients who are inpatients in a medical institution for 30 or more consecutive days for other than respite care shall be reviewed for eligibility for other Medicaid coverage groups and terminated from AIDS/HIV waiver services if found eligible under another coverage group. The

recipient will be notified of that decision through Form 470-0602, Notice of Decision. If the consumer returns home before the effective date of the notice of decision and the person's condition has not substantially changed, the denial may be rescinded and eligibility may continue.

*d.* The effective date of eligibility for the AIDS/HIV waiver for persons who qualify for Medicaid due to eligibility for the waiver services and to whom the eligibility factors set forth in 441—subrule 75.1(7) and, for married persons, in rule 441—75.5(249A) have been satisfied is the date on which the income eligibility and level of care determinations are completed but shall not be earlier than the first of the month following the date of application.

**83.43(5) Attribution of resources.** For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver applicant met the level of care criteria in a medical institution as established by the peer review organization shall be used as the date of entry to the medical institution. Only one attribution of resources shall be completed per person. Attributions completed for prior institutionalizations shall be applied to the waiver application.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.44(249A) Financial participation.** Persons must contribute their predetermined financial participation to the cost of AIDS/HIV waiver services or other Medicaid services, as applicable.

**83.44(1) Maintenance needs of the individual.** The maintenance needs of the individual shall be computed by deducting an amount which is 300 percent of the maximum monthly payment for one person under supplemental security income (SSI) from the client's total income.

**83.44(2) Limitation on payment.** If the amount of the financial participation equals or exceeds the reimbursement established by the service worker for AIDS/HIV services, Medicaid will make no payments to AIDS/HIV waiver service providers. Medicaid will, however, make payments to other medical vendors.

**83.44(3) Maintenance needs of spouse and other dependents.** Rescinded IAB 4/9/97, effective 6/1/97.

**441—83.45(249A) Redetermination.** A complete redetermination of eligibility for AIDS/HIV waiver services shall be completed at least once every 12 months or when there is significant change in the person's situation or condition. A redetermination of continuing eligibility factors shall be made in accordance with rules 441—76.7(249A) and 441—83.42(249A). A redetermination shall include the components listed in rule 441—83.47(249A).

**83.45(1)** The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

**83.45(2)** The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.46(249A) Allowable services.** Services allowable under the AIDS/HIV waiver are counseling, home health aide, homemaker, nursing care, respite care, home-delivered meals, adult day care, consumer-directed attendant care, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.38(249A).

**441—83.47(249A) Service plan.** A service plan shall be prepared for AIDS/HIV waiver consumers in accordance with rule 441—130.7(234) except that service plans for both children and adults shall be completed every 12 months or when there is significant change in the person's situation or condition.

**83.47(1)** The service plan shall include the frequency of the AIDS/HIV waiver services and the types of providers who will deliver the services.

**83.47(2)** The service plan shall indicate whether the consumer has elected the consumer choices option. If the consumer has elected the consumer choices option, the service plan shall identify:

- a. The independent support broker selected by the consumer; and
- b. The financial management service selected by the consumer.

**83.47(3)** Service plans for consumers aged 20 or under must be developed to reflect use of all appropriate nonwaiver Medicaid services so as not to replace or duplicate those services.

**83.47(4)** The service plan shall identify a plan for emergencies and the supports available to the consumer in an emergency.

**441—83.48(249A) Adverse service actions.**

**83.48(1)** Denial. An application for services shall be denied when it is determined by the department that:

- a. The client is not eligible for or in need of services.
- b. Except for respite care, the AIDS/HIV waiver services are not needed on a regular basis.
- c. Service needs exceed the aggregate monthly costs established in 83.42(2) “b” or cannot be met by the services provided under the waiver.
- d. Needed services are not available from qualified providers.

**83.48(2)** Termination. Participation in the AIDS/HIV waiver program may be terminated when the department determines that:

- a. The provisions of 441—subrule 130.5(2), paragraph “a,” “b,” “c,” “d,” “g,” or “h” apply.
- b. The costs of the AIDS/HIV waiver services for the person exceed the aggregate monthly costs established in 83.42(2) “b.”
- c. The client receives care in a hospital or nursing facility for 30 days or more in any one stay for purposes other than respite care.
- d. The client receives AIDS/HIV waiver services and the physical or mental condition of the client requires more care than can be provided in the client’s own home as determined by the service worker.
- e. Service providers are not available.

**83.48(3)** Reduction of services shall apply as in 441—subrule 130.5(3), paragraphs “a” and “b.”

**441—83.49(249A) Appeal rights.** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

**441—83.50(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

These rules are intended to implement Iowa Code section 249A.4.

**441—83.51 to 83.59** Reserved.

DIVISION IV—HCBS INTELLECTUAL DISABILITY WAIVER SERVICES

**441—83.60(249A) Definitions.**

“*Adaptive*” means age-appropriate skills related to taking care of one’s self and one’s ability to relate to others in daily living situations. These skills include limitations that occur in the areas of communication, self-care, home-living, social skills, community use, self-direction, safety, functional activities of daily living, leisure or work.

“*Adult*” means a person with an intellectual disability aged 18 or over.

“*Appropriate*” means that the services or supports or activities provided or undertaken by the organization are relevant to the consumer’s needs, situation, problems, or desires.

“*Attorney in fact under a durable power of attorney for health care*” means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

*“Basic individual respite”* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals without specialized needs requiring the care of a licensed registered nurse or licensed practical nurse.

*“Behavior”* means skills related to regulating one’s own behavior including coping with demands from others, making choices, controlling impulses, conforming conduct to laws, and displaying appropriate sociosexual behavior.

*“Case management services”* means those services established pursuant to Iowa Code chapter 225C.

*“Child”* means a person with an intellectual disability aged 17 or under.

*“Client participation”* means the posteligibility amount of the consumer’s income that persons eligible through a special income level must contribute to the cost of the home and community-based waiver service.

*“Counseling”* means face-to-face mental health services provided to the consumer and caregiver by a qualified intellectual disability professional (QIDP) to facilitate home management of the consumer and prevent institutionalization.

*“Deemed status”* means acceptance of certification or licensure of a program or service by another certifying body in place of certification based on review and evaluation.

*“Department”* means the Iowa department of human services.

*“Direct service”* means services involving face-to-face assistance to a consumer such as transporting a consumer or providing therapy.

*“Fiscal accountability”* means the development and maintenance of budgets and independent fiscal review.

*“Group respite”* is respite provided on a staff-to-consumer ratio of less than one to one.

*“Guardian”* means a guardian appointed in probate court.

*“Health”* means skills related to the maintenance of one’s health including eating; illness identification, treatment and prevention; basic first aid; physical fitness; regular physical checkups and personal habits.

*“Immediate jeopardy”* means circumstances where the life, health, or safety of a person will be severely jeopardized if the circumstances are not immediately corrected.

*“Intellectual disability”* means a diagnosis of intellectual disability (intellectual developmental disorder), global developmental delay, or unspecified intellectual disability (intellectual developmental disorder) which shall be made only when the onset of the person’s condition was during the developmental period and shall be based on an assessment of the person’s intellectual functioning and level of adaptive skills. The diagnosis shall be made by a person who is a licensed psychologist or psychiatrist who is professionally trained to administer the tests required to assess intellectual functioning and to evaluate a person’s adaptive skills. The diagnosis shall be made in accordance with the criteria provided in the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-5), published by the American Psychiatric Association.

*“Intermediate care facility for persons with an intellectual disability (ICF/ID)”* means an institution that is primarily for the diagnosis, treatment, or rehabilitation of persons with an intellectual disability or persons with related conditions and that provides, in a protected residential setting, ongoing evaluation, planning, 24-hour supervision, coordination and integration of health or related services to help each person function at the greatest ability and is an approved Medicaid vendor.

*“Intermediate care facility for persons with an intellectual disability level of care”* means that the individual has a diagnosis of intellectual disability made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or has a related condition as defined in 42 CFR 435.1009; and needs assistance in at least three of the following major life areas: mobility, musculoskeletal skills, activities of daily living, domestic skills, toileting, eating skills, vision, hearing or speech or both, gross/fine motor skills, sensory-taste, smell, tactile, academic skills, vocational skills, social/community skills, behavior, and health care.

*“Intermittent supported community living service”* means supported community living service provided not more than 52 hours per month.

*“Maintenance needs”* means costs associated with rent or mortgage, utilities, telephone, food and household supplies.

*“Managed care”* means a system that provides the coordinated delivery of services and supports that are necessary and appropriate, delivered in the least restrictive settings and in the least intrusive manner. Managed care seeks to balance three factors:

1. Achieving high-quality outcomes for participants.
2. Coordinating access.
3. Containing costs.

*“Managed care organization”* means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

*“Medical assessment”* means a visual and physical inspection of the consumer, noting deviations from the norm, and a statement of the consumer’s mental and physical condition that can be amendable to or resolved by appropriate actions of the provider.

*“Medical institution”* means a nursing facility, intermediate care facility for persons with an intellectual disability, or hospital which has been approved as a Medicaid vendor.

*“Medical intervention”* means consumer care in the areas of hygiene, mental and physical comfort, assistance in feeding and elimination, and control of the consumer’s care and treatment to meet the physical and mental needs of the consumer in compliance with the plan of care in areas of health, prevention, restoration, and maintenance.

*“Medical monitoring”* means observation for the purpose of assessing, preventing, maintaining, and treating disease or illness based on the consumer’s plan of care.

*“Natural supports”* means services and supports identified as wanted or needed by the consumer and provider by persons not for pay (family, friends, neighbors, coworkers, and others in the community) and organizations or entities that serve the general public.

*“Organization”* means the entity being certified.

*“Organizational outcome”* means a demonstration by the organization of actions taken by the organization to provide for services or supports to consumers.

*“Outcome”* means an action or event that follows as a result or consequence of the provision of a service or support.

*“Procedures”* means the steps to be taken to implement a policy.

*“Process”* means service or support provided by an agency to a consumer that will allow the consumer to achieve an outcome. This can include a written, formal, consistent trackable method or an informal process that is not written but is trackable.

*“Program”* means a set of related resources and services directed to the accomplishment of a fixed set of goals and objectives for the population of a specified geographic area or for special target populations. It can mean an agency, organization, or unit of an agency, organization or institution.

*“Qualified intellectual disability professional”* means a person who has at least one year of experience working directly with persons with an intellectual disability or other developmental disabilities and who is one of the following:

1. A doctor of medicine or osteopathy.
2. A registered nurse.
3. An occupational therapist eligible for certification as an occupational therapist by the American Occupational Therapy Association or another comparable body.
4. A physical therapist eligible for certification as a physical therapist by the American Physical Therapy Association or another comparable body.
5. A speech-language pathologist or audiologist eligible for certification of Clinical Competence in Speech-Language Pathology or Audiology by the American Speech-Language Hearing Association or another comparable body or who meets the educational requirements for certification and who is in the process of accumulating the supervised experience required for certification.
6. A psychologist with a master’s degree in psychology from an accredited school.

7. A social worker with a graduate degree from a school of social work, accredited or approved by the Council on Social Work Education or another comparable body or who holds a bachelor of social work degree from a college or university accredited or approved by the Council of Social Work Education or another comparable body.

8. A professional recreation staff member with a bachelor's degree in recreation or in a specialty area such as art, dance, music or physical education.

9. A professional dietitian who is eligible for registration by the American Dietetics Association.

10. A human services professional who must have at least a bachelor's degree in a human services field including, but not limited to, sociology, special education, rehabilitation counseling and psychology.

*"Related condition"* means a severe, chronic disability that meets all the following conditions:

1. It is attributable to cerebral palsy, epilepsy, or any other condition, other than mental illness, found to be closely related to intellectual disability because the condition results in impairment of general intellectual functioning or adaptive behavior similar to that of a person with an intellectual disability and requires treatment or services similar to those required for a person with an intellectual disability.

2. It is manifested before the age of 22.

3. It is likely to continue indefinitely.

4. It results in substantial functional limitations in three or more of the following areas of major life activity:

- Self-care.
- Understanding and use of language.
- Learning.
- Mobility.
- Self-direction.
- Capacity for independent living.

*"Service plan"* means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process, which addresses all relevant services and supports being provided. It may involve more than one provider.

*"SIS assessment"* means the Supports Intensity Scale® assessment developed and licensed by the American Association on Intellectual and Developmental Disabilities for use in the assessment of the support and service needs of individuals.

*"Specialized respite"* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals with specialized medical needs requiring the care, monitoring or supervision of a licensed registered nurse or licensed practical nurse.

*"Staff"* means a person under the direction of the organization to perform duties and responsibilities of the organization.

*"Third-party payments"* means payments from an attorney, individual, institution, corporation, insurance company, or public or private agency which is liable to pay part or all of the medical costs incurred as a result of injury, disease or disability by or on behalf of an applicant or a past or present recipient of Medicaid.

*"Usual caregiver"* means a person or persons who reside with the consumer and are available on a 24-hour-per-day basis to assume responsibility for the care of the consumer.

[ARC 9650B, IAB 8/10/11, effective 10/1/11; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2050C, IAB 7/8/15, effective 7/1/15; ARC 2168C, IAB 9/30/15, effective 11/4/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.61(249A) Eligibility.** To be eligible for HCBS intellectual disability waiver services a person must meet certain eligibility criteria and be determined to need a service(s) available under the program.

**83.61(1) Eligibility criteria.** All of the following criteria must be met. The person must:

a. Have a diagnosis of intellectual disability as defined in rule 441—83.60(249A). The diagnosis shall be initially established and recertified as follows:

Age	Initial application to HCBS intellectual disability waiver program	Recertification for persons with a diagnosis of moderate, severe or profound level of severity	Recertification for persons with a diagnosis of mild or unspecified level of severity
0 through 17 years	Psychological documentation within three years of the application date substantiating a diagnosis of intellectual disability as defined in rule 441—83.60(249A)	After the initial psychological evaluation, substantiate a diagnosis of intellectual disability as defined in rule 441—83.60(249A) every six years and when a significant change occurs	After the initial psychological evaluation, substantiate a diagnosis of intellectual disability as defined in rule 441—83.60(249A) every three years and when a significant change occurs
18 years and above	Current psychological documentation substantiating a diagnosis of intellectual disability if the last testing date was (1) more than six years ago for an applicant with a diagnosis of mild or unspecified severity, or (2) more than ten years ago for an applicant with a diagnosis of moderate, severe or profound level of severity	Psychological documentation substantiating a diagnosis of intellectual disability made since the member reached 22 years of age	Psychological documentation substantiating a diagnosis of intellectual disability every six years and whenever a significant change occurs

*b.* Be eligible for Medicaid under SSI, SSI-related, FMAP, or FMAP-related coverage groups; eligible under the special income level (300 percent) coverage group; or become eligible through application of the institutional deeming rules or would be eligible for Medicaid if in a medical institution.

*c.* Be certified as being in need for long-term care that, but for the waiver, would otherwise be provided in an ICF/ID. The IME medical services unit shall be responsible for the initial approval, and the IME medical services unit or a managed care organization will be responsible for the annual approval of the certification of the level of care based on the data collected by the case manager and interdisciplinary team on a tool designated by the department.

*d.* Be a recipient of the Medicaid case management services or be identified to receive Medicaid case management services immediately following program enrollment.

*e.* Have service needs that can be met by this waiver program. At a minimum, a consumer must receive one billable unit of service per calendar quarter under this program.

*f.* Have a service plan completed annually and approved by the department in accordance with rule 441—83.67(249A).

*g.* For supported employment services:

(1) Be at least age 16.

(2) Rescinded IAB 7/1/98, effective 7/1/98.

(3) Not be eligible for supported employment service funding under Public Law 94-142 or for the Rehabilitation Act of 1973.

(4) Not reside in a medical institution.

*h.* Choose HCBS intellectual disability waiver services rather than ICF/ID services.

*i.* To be eligible for interim medical monitoring and treatment services the consumer must be:

(1) Under the age of 21;

(2) Currently receiving home health agency services under rule 441—78.9(249A) and require medical assessment, medical monitoring, and regular medical intervention or intervention in a medical emergency during those services. (The home health aide services for which the consumer is eligible must be maximized before the consumer accesses interim medical monitoring and treatment.);

(3) Residing in the consumer's family home or foster family home; and

(4) In need of interim medical monitoring and treatment as ordered by a physician.

*j.* Be assigned an HCBS intellectual disability payment slot pursuant to subrule 83.61(4).

*k.* For residential-based supported community living services, meet all of the following additional criteria:

(1) Be less than 18 years of age.

(2) Be preapproved as appropriate for residential-based supported community living services by the bureau of long-term care. Requests for approval shall be submitted in writing to the DHS Bureau of Long-Term Care, 1305 East Walnut Street, Des Moines, Iowa 50319-0114, and shall include the following:

1. Social history;
2. Case history that includes previous placements and service programs;
3. Medical history that includes major illnesses and current medications;
4. Current psychological evaluations and consultations;
5. Summary of all reasonable and appropriate service alternatives that have been tried or considered;
6. Any current court orders in effect regarding the child;
7. Any legal history;
8. Whether the child is at risk of out-of-home placement or the proposed placement would be less restrictive than the child's current placement for services;
9. Whether the proposed placement would be safe for the child and for other children living in that setting; and
10. Whether the interdisciplinary team is in agreement with the proposed placement.

(3) Either:

1. Be residing in an ICF/ID;
2. Be at risk of ICF/ID placement, as documented by an interdisciplinary team assessment pursuant to paragraph 83.61(2)"a"; or
3. Be a child whose long-term placement outside the home is necessary because continued stay in the home would be a detriment to the health and welfare of the child or the family, and all service options to keep the child in the home have been reviewed by an interdisciplinary team, as documented in the service file.
  - l.* For day habilitation, be 16 years of age or older.
  - m.* For the consumer choices option as set forth in 441—subrule 78.41(5), not be living in a residential care facility.

**83.61(2) Need for services.**

*a.* Applicants currently receiving Medicaid case management shall have the applicable staff coordinate with the department to arrange an SIS assessment.

*b.* Applicants not receiving services as set forth in paragraph 83.61(2)"a" shall have a department service worker or case manager:

- (1) Arrange an SIS assessment for the initial level of care determination;
- (2) Establish an initial interdisciplinary team for HCBS intellectual disability waiver services; and
- (3) With the initial interdisciplinary team, identify the applicant's needs and desires as well as the availability and appropriateness of services.

*c.* Applicants meeting other eligibility criteria who do not have a Medicaid case manager shall be referred to a Medicaid case manager.

*d.* Services shall not exceed the number of maximum units established for each service.

*e.* The cost of services shall not exceed unit expense maximums. Requests shall only be reviewed for funding needs exceeding the supported community living service unit cost maximum. Requests require special review by the department and may be denied as not cost-effective.

*f.* The case manager shall coordinate with the department to arrange an SIS assessment for the initial level of care determination within 30 days from the date of the HCBS application unless the worker can document difficulty in locating information necessary to arrange the SIS assessment or other circumstances beyond the worker's control.

*g.* At initial enrollment, the case manager shall establish an interdisciplinary team for each applicant and, with the team, identify the applicant's need for service based on the applicant's needs and desires as well as the availability and appropriateness of services. The Medicaid case manager shall complete an annual review thereafter. The following criteria shall be used for the initial and ongoing identification of need for services:

(1) The assessment shall be based on the results of the most recent SIS assessment or of the SIS contractor's off-year review.

(2) Service plans must be developed or reviewed to reflect use of all appropriate nonwaiver Medicaid services so as not to replace or duplicate those services.

(3) Service plans for applicants aged 20 or under which include supported community living services beyond intermittent shall be approved (signed and dated) by the designee of the bureau of long-term care. The service worker, department QIDP, or Medicaid case manager shall attach a written request for a variance from the maximum for intermittent supported community living with a summary of services and service costs. The written request for the variance shall provide a rationale for requesting supported community living beyond intermittent. The rationale shall contain sufficient information for the designee to make a decision regarding the need for supported community living beyond intermittent.

*h.* Interim medical monitoring and treatment services must be needed because all usual caregivers are unavailable to provide care due to one of the following circumstances:

(1) Employment. Interim medical monitoring and treatment services are to be received only during hours of employment.

(2) Academic or vocational training. Interim medical monitoring and treatment services provided while a usual caregiver participates in postsecondary education or vocational training shall be limited to 24 periods of no more than 30 days each per caregiver as documented by the service worker. Time spent in high school completion, adult basic education, GED, or English as a second language does not count toward the limit.

(3) Absence from the home due to hospitalization, treatment for physical or mental illness, or death of the usual caregiver. Interim medical monitoring and treatment services under this subparagraph are limited to a maximum of 30 days.

(4) Search for employment.

1. Care during job search shall be limited to only those hours the usual caregiver is actually looking for employment, including travel time.

2. Interim medical monitoring and treatment services may be provided under this paragraph only during the execution of one job search plan of up to 30 working days in a 12-month period, approved by the department service worker or targeted case manager pursuant to 441—subparagraph 170.2(2)“b”(5).

3. Documentation of job search contacts shall be furnished to the department service worker or targeted case manager.

**83.61(3)** *HCBS intellectual disability waiver program limit.* The number of persons receiving HCBS intellectual disability waiver services in the state shall be limited to the number of payment slots provided in the HCBS intellectual disability waiver approved by the Centers for Medicare and Medicaid Services (CMS). The department shall make a request to CMS to adjust the program limit as deemed necessary.

*a.* The payment slots are available on a statewide basis. These slots shall be available based on the prioritized need of an applicant pursuant to subrule 83.61(4).

*b.* When services are denied because the limit is reached, a notice of decision denying service based on the limit and stating that the person's name will be put on a waiting list shall be sent to the person by the department.

**83.61(4)** *Securing a payment slot.* The department shall determine if a payment slot is available for each applicant for the HCBS intellectual disability waiver.

*a.* A payment slot shall be assigned to the applicant upon confirmation of an available slot.

(1) Once a payment slot is assigned, the department shall give written notice to the applicant.

(2) The department shall hold the payment slot for the applicant as long as reasonable efforts are being made to arrange services and the applicant has not been determined to be ineligible for the program. If services have not been initiated and reasonable efforts are no longer being made to arrange services, the slot shall revert for use by the next person on the waiting list, if applicable. The applicant originally assigned the slot must reapply for a new slot.

*b.* If no payment slot is available, the applicant shall be placed on a statewide priority waiting list. The department shall assess each applicant to determine the applicant's priority need. The assessment

shall be made for all applicants who are on a waiting list maintained by the state or a county on September 30, 2011, and for all new applications received on or after October 1, 2011.

(1) Emergency need criteria are as follows:

1. The usual caregiver has died or is incapable of providing care, and no other caregivers are available to provide needed supports.
2. The applicant has lost primary residence or will be losing housing within 30 days and has no other housing options available.
3. The applicant is living in a homeless shelter and no alternative housing options are available.
4. There is founded abuse or neglect by a caregiver or others living within the home of the applicant, and the applicant must move from the home.
5. The applicant cannot meet basic health and safety needs without immediate supports.

(2) Urgent need criteria are as follows:

1. The caregiver will need support within 60 days in order for the applicant to remain living in the current situation.
2. The caregiver will be unable to continue to provide care within the next 60 days.
3. The caregiver is 55 years of age or older and has a chronic or long-term physical or psychological condition that limits the ability to provide care.
4. The applicant is living in temporary housing and plans to move within 31 to 120 days.
5. The applicant is losing permanent housing and plans to move within 31 to 120 days.
6. The caregiver will be unable to be employed if services are not available.
7. There is a potential risk of abuse or neglect by a caregiver or others within the home of the applicant.
8. The applicant has behaviors that put the applicant at risk.
9. The applicant has behaviors that put others at risk.
10. The applicant is at risk of facility placement when needs could be met through community-based services.

(3) Applicants who meet an emergency need criterion shall be placed on the priority waiting list based on the total number of criteria in subparagraph 83.61(4) "b"(1) that are met. If applicants meet an equal number of criteria, the position on the waiting list shall be based on the date of application and the age of the applicant. The applicant who has been on the waiting list longer shall be placed higher on the waiting list. If the application date is the same, the older applicant shall be placed higher on the waiting list.

(4) Applicants who meet an urgent need criterion shall be placed on the priority waiting list after applicants who meet emergency need criteria. The position on the waiting list shall be based on the total number of criteria in subparagraph 83.61(4) "b"(2) that are met. If applicants meet an equal number of criteria, the position on the waiting list shall be based on the date of application and the age of the applicant. The applicant who has been on the waiting list longer shall be placed higher on the waiting list. If the application date is the same, the older applicant shall be placed higher on the waiting list.

(5) Applicants who do not meet emergency or urgent need criteria shall be placed lower on the waiting list than the applicants meeting urgent need criteria, based on the date of application. If the application date is the same, the older applicant shall be placed higher on the waiting list.

(6) Applicants shall remain on the waiting list until a payment slot has been assigned to them for use, they withdraw from the list, or they become ineligible for the waiver. If there is a change in an applicant's need, the applicant may contact the local department office and request that a new assessment be completed. The outcome of the assessment shall determine placement on the waiting list as directed in this subrule.

c. To maintain the approved number of members in the program, persons shall be selected from the waiting list as payment slots become available, based on their priority order on the waiting list.

(1) Once a payment slot is assigned, the department shall give written notice to the person within five working days.

(2) The department shall hold the payment slot for 30 days for the person to file a new application. If an application has not been filed within 30 days, the slot shall revert for use by the next person on the waiting list, if applicable. The person originally assigned the slot must reapply for a new slot.

#### **441—83.62(249A) Application.**

**83.62(1)** *Application for HCBS intellectual disability waiver services.* The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed.

**83.62(2)** Rescinded IAB 6/5/96, effective 8/1/96.

**83.62(3)** *Approval of application.*

a. Applications for the HCBS intellectual disability waiver program shall be processed in 30 days unless the case manager or worker can document difficulty in locating and arranging services or other circumstance beyond the worker's control. In these cases a decision shall be made as soon as possible.

b. Decisions shall be mailed or given to the applicant on the date when both service and income maintenance eligibility determinations are completed.

c. An applicant shall be given the choice between HCBS waiver services and ICF/ID care. The case manager or worker shall have the consumer or legal representative indicate the consumer's choice of care.

d. HCBS intellectual disability waiver services provided before eligibility for the waiver is approved shall not be reimbursed by the HCBS waiver program.

e. Services provided when the person is a consumer of group foster care services or is an inpatient in a medical institution shall not be reimbursed.

f. HCBS intellectual disability waiver services are not available in conjunction with other Medicaid waiver services or group foster care services.

g. Rescinded IAB 5/6/09, effective 7/1/09.

**83.62(4)** *Effective date of eligibility.*

a. Deeming of parental income and resources ceases the month following the month in which a person requires care in a medical institution.

b. The effective date of eligibility for the waiver for persons who are already determined eligible for Medicaid is the date on which the person is determined to meet the criteria set forth in rule 441—83.61(249A).

c. The effective date of eligibility for the waiver for persons who qualify for Medicaid due to eligibility for the waiver services is the date on which the person is determined to meet criteria set forth in rule 441—83.61(249A) and when the eligibility factor set forth in 441—subrule 75.1(7) and for married persons, in rule 441—75.5(249A) have been satisfied.

d. Eligibility continues until the consumer fails to meet eligibility criteria listed in rule 441—83.61(249A). Consumers who are inpatients in a medical institution for 30 consecutive days shall receive a review by the interdisciplinary team to determine additional inpatient needs for possible termination from the HCBS program. Consumers shall be reviewed for eligibility under other Medicaid coverage groups. The consumer or legal representative shall participate in the review and receive formal notification of that decision through Form 470-0602, Notice of Decision.

If the consumer returns home before the effective date of the notice of decision and the consumer's needs can still be met by the HCBS waiver services, the denial may be rescinded and eligibility may continue.

e. Eligibility and service reimbursement are effective through the last day of the month of the previous annual service plan staffing meeting and the corresponding long-term care need determination.

**83.62(5)** *Attribution of resources.* For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver applicant met the level of care criteria in a medical institution as established by the peer review organization shall be used as the date of entry to the medical

institution. Only one attribution of resources shall be completed per person. Attributions completed for prior institutionalizations shall be applied to the waiver application.

[ARC 7741B, IAB 5/6/09, effective 7/1/09; ARC 9650B, IAB 8/10/11, effective 10/1/11; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2168C, IAB 9/30/15, effective 11/4/15]

**441—83.63(249A) Client participation.** Persons who are eligible under the 300 percent group must contribute a predetermined client participation amount to the costs of the services.

**83.63(1) Computation of client participation.** Client participation shall be computed by deducting an amount for the maintenance needs of the individual which is 300 percent of the maximum SSI grant for an individual from the client's total income.

**83.63(2) Limitation on payment.** If the sum of the third-party payment and client participation equals or exceeds the reimbursement for the specific HCBS waiver service, Medicaid will make no payments for the HCBS waiver service. However, Medicaid will make payments to other medical vendors.

**441—83.64(249A) Redetermination.** A redetermination of nonfinancial eligibility for HCBS intellectual disability waiver services shall be completed at least once every 12 months. In years in which an SIS assessment is not completed, the SIS contractor shall conduct a review in collaboration with the case manager, documenting any changes in the member's functional status since the previous SIS or other full assessment.

A redetermination of continuing eligibility factors shall be made when a change in circumstances occurs that affects eligibility in accordance with rule 441—83.61(249A).

**83.64(1)** The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

**83.64(2)** The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

[ARC 9650B, IAB 8/10/11, effective 10/1/11; ARC 2168C, IAB 9/30/15, effective 11/4/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.65(249A)** Rescinded IAB 6/5/96, effective 8/1/96.

**441—83.66(249A) Allowable services.** Services allowable under the HCBS intellectual disability waiver are supported community living, respite, personal emergency response system, nursing, home health aide, home and vehicle modification, supported employment, consumer-directed attendant care, interim medical monitoring and treatment, transportation, adult day care, day habilitation, prevocational services, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.41(249A).

[ARC 9650B, IAB 8/10/11, effective 10/1/11]

**441—83.67(249A) Service plan.** A service plan shall be prepared for each HCBS intellectual disability waiver consumer.

**83.67(1) Development.** The service plan shall be developed by the interdisciplinary team, which includes the consumer, and, if appropriate, the legal representative, consumer's family, case manager or service worker, service providers, and others directly involved.

**83.67(2) Retention.** The service plan shall be stored by the case manager for a minimum of three years.

**83.67(3) Interdisciplinary team meeting.** The interdisciplinary team meeting shall be conducted before the current service plan expires.

**83.67(4) Information in plan.** The plan shall be in accordance with 441—subrule 24.4(3) and shall additionally include the following information to assist in evaluating the program:

- a. A listing of all services received by a consumer at the time of waiver program enrollment.
- b. For supported community living:

- (1) The consumer's living environment at the time of waiver enrollment.
- (2) The number of hours per day of on-site staff supervision needed by the consumer.
- (3) The number of other waiver consumers who will live with the consumer in the living unit.
- c. An identification and justification of any restriction of the consumer's rights including, but not limited to:
  - (1) Maintenance of personal funds.
  - (2) Self-administration of medications.
- d. The name of the service provider responsible for providing each service.
- e. The service funding source.
- f. The amount of the service to be received by the consumer.
- g. Whether the consumer has elected the consumer choices option and, if so:
  - (1) The independent support broker selected by the consumer; and
  - (2) The financial management service selected by the consumer.
- h. A plan for emergencies and identification of the supports available to the consumer in an emergency.

**83.67(5) Documentation.** The Medicaid case manager shall ensure that the consumer's case file contains the consumer's service plan and documentation supporting the diagnosis of mental retardation.

**83.67(6) Approval of plan.** The plan shall be approved through the Individualized Services Information System (ISIS). Services shall be entered into ISIS based on the service plan.

- a. Services must be authorized and entered into ISIS before the plan implementation date.
- b. The department has 15 working days after receipt of the summary and service costs in which to approve the services and service cost or request modification of the service plan unless the parties mutually agree to extend that time frame.

c. If the department and the service worker or case manager are unable to agree on the terms of the services or service cost within 10 days, the department has final authority regarding the services and service cost.

[ARC 9650B, IAB 8/10/11, effective 10/1/11; ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12]

#### **441—83.68(249A) Adverse service actions.**

**83.68(1) Denial.** An application for services shall be denied when it is determined by the department that:

- a. The applicant is not eligible for the services.
- b. Service needs exceed the service unit or reimbursement maximums.
- c. Service needs are not met by the services provided.
- d. Needed services are not available or received from qualifying providers.
- e. No HCBS intellectual disability waiver service is identified in the applicant's service plan.
- f. There is another community resource available to provide the service or a similar service free of charge to the applicant that will meet the applicant's needs.
- g. Completion or receipt of required documents by the department for the HCBS program applicant has not occurred.

**83.68(2) Reduction.** A particular service may be reduced when the department determines that the provisions of 441—subrule 130.5(3), paragraph "a" or "b," apply.

**83.68(3) Termination.** A particular service may be terminated when the department determines that:

- a. The provisions of 441—subrule 130.5(2) paragraph "d," "g," or "h," apply.
- b. Needed services are not available or received from qualifying providers.
- c. No HCBS intellectual disability waiver service is identified in the member's annual service plan.
- d. Service needs are not met by the services provided.
- e. Services needed exceed the service unit or reimbursement maximums.
- f. Completion or receipt of required documents by the department for the HCBS program consumer has not occurred.

- g. The consumer receives services from other Medicaid waiver programs.
  - h. The consumer or legal representative through the interdisciplinary process requests termination from the services.
- [ARC 9650B, IAB 8/10/11, effective 10/1/11]

**441—83.69(249A) Appeal rights.** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).  
[ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12]

**441—83.70(249A) County reimbursement.** Rescinded ARC 0191C, IAB 7/11/12, effective 7/1/12.

**441—83.71(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

**441—83.72(249A) Rent subsidy program.** Members in the HCBS intellectual disability waiver program may be eligible for a rent subsidy. See 265—Chapter 24.  
[ARC 9650B, IAB 8/10/11, effective 10/1/11]

These rules are intended to implement Iowa Code sections 249A.3 and 249A.4.

**441—83.73 to 83.80** Reserved.

#### DIVISION V—BRAIN INJURY WAIVER SERVICES

**441—83.81(249A) Definitions.**

*“Adaptive”* means age appropriate skills related to taking care of one’s self and the ability to relate to others in daily living situations. These skills include limitations that occur in the areas of communication, self-care, home living, social skills, community use, self-direction, safety, functional academics, leisure and work.

*“Adult”* means a person with a brain injury aged 18 years or over.

*“Appropriate”* means that the services or supports or activities provided or undertaken by the organization are relevant to the consumer’s needs, situation, problems, or desires.

*“Assessment”* means the review of the consumer’s current functioning in regard to the consumer’s situation, needs, strengths, abilities, desires and goals.

*“Attorney in fact under a durable power of attorney for health care”* means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

*“Basic individual respite”* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals without specialized needs requiring the care of a licensed registered nurse or licensed practical nurse.

*“Behavior”* means skills related to regulating one’s own behavior including coping with demands from others, making choices, conforming conduct to laws, and displaying appropriate sociosexual behavior.

*“Brain injury”* means clinically evident damage to the brain resulting directly or indirectly from trauma, infection, anoxia, vascular lesions or tumor of the brain, not primarily related to degenerative or aging processes, which temporarily or permanently impairs a person’s physical, cognitive, or behavioral functions. The person must have a diagnosis from the following list:

- Malignant neoplasms of brain, cerebrum.
- Malignant neoplasms of brain, frontal lobe.
- Malignant neoplasms of brain, temporal lobe.
- Malignant neoplasms of brain, parietal lobe.
- Malignant neoplasms of brain, occipital lobe.
- Malignant neoplasms of brain, ventricles.
- Malignant neoplasms of brain, cerebellum.
- Malignant neoplasms of brain, brain stem.

Malignant neoplasms of brain, other part of brain, includes midbrain, peduncle, and medulla oblongata.

Malignant neoplasms of brain, cerebral meninges.

Malignant neoplasms of brain, cranial nerves.

Secondary malignant neoplasm of brain.

Secondary malignant neoplasm of other parts of the nervous system, includes cerebral meninges.

Benign neoplasm of brain and other parts of the nervous system, brain.

Benign neoplasm of brain and other parts of the nervous system, cranial nerves.

Benign neoplasm of brain and other parts of the nervous system, cerebral meninges.

Encephalitis, myelitis and encephalomyelitis.

Intracranial and intraspinal abscess.

Anoxic brain damage.

Subarachnoid hemorrhage.

Intracerebral hemorrhage.

Other and unspecified intracranial hemorrhage.

Occlusion and stenosis of precerebral arteries.

Occlusion of cerebral arteries.

Transient cerebral ischemia.

Acute, but ill-defined, cerebrovascular disease.

Other and ill-defined cerebrovascular diseases.

Fracture of vault of skull.

Fracture of base of skull.

Other and unqualified skull fractures.

Multiple fractures involving skull or face with other bones.

Concussion.

Cerebral laceration and contusion.

Subarachnoid, subdural, and extradural hemorrhage following injury.

Other and unspecified intracranial hemorrhage following injury.

Intracranial injury of other and unspecified nature.

Poisoning by drugs, medicinal and biological substances.

Toxic effects of substances.

Effects of external causes.

Drowning and nonfatal submersion.

Asphyxiation and strangulation.

Child maltreatment syndrome.

Adult maltreatment syndrome.

*“Case management services”* means those services established pursuant to Iowa Code chapter 225C.

*“Child”* means a person with a brain injury aged 17 years or under.

*“Client participation”* means the amount of the consumer’s income that the person must contribute to the cost of brain injury waiver services, exclusive of medical vendor payments, before Medicaid will provide additional reimbursement.

*“Deemed status”* means acceptance of certification or licensure of a program or service by another certifying body in place of certification based on review and evaluation.

*“Department”* means the Iowa department of human services.

*“Direct service”* means services involving face-to-face assistance to a consumer such as transporting a consumer or providing therapy.

*“Fiscal accountability”* means the development and maintenance of budgets and independent fiscal review.

*“Group respite”* is respite provided on a staff-to-consumer ratio of less than one to one.

*“Guardian”* means a guardian appointed in probate court.

*“Health”* means skills related to the maintenance of one’s health including eating; illness identification, treatment and prevention; basic first aid; physical fitness; regular physical checkups and personal habits.

*“Immediate jeopardy”* means circumstances where the life, health, or safety of a person will be severely jeopardized if the circumstances are not immediately corrected.

*“Intermediate care facility for persons with an intellectual disability level of care”* means that the individual has a diagnosis of intellectual disability made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or has a related condition as defined in 42 CFR 435.1009; and needs assistance in at least three of the following major life areas: mobility, musculoskeletal skills, activities of daily living, domestic skills, toileting, eating skills, vision, hearing or speech or both, gross/fine motor skills, sensory-taste, smell, tactile, academic skills, vocational skills, social/community skills, behavior, and health care.

*“Intermittent supported community living service”* means supported community living service provided from one to three hours a day for not more than four days a week.

*“Managed care organization”* means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

*“Medical assessment”* means a visual and physical inspection of the consumer, noting deviations from the norm, and a statement of the consumer’s mental and physical condition that can be amendable to or resolved by appropriate actions of the provider.

*“Medical institution”* means a nursing facility, a skilled nursing facility, intermediate care facility for persons with an intellectual disability, or hospital which has been approved as a Medicaid vendor.

*“Medical intervention”* means consumer care in the areas of hygiene, mental and physical comfort, assistance in feeding and elimination, and control of the consumer’s care and treatment to meet the physical and mental needs of the consumer in compliance with the plan of care in areas of health, prevention, restoration, and maintenance.

*“Medical monitoring”* means observation for the purpose of assessing, preventing, maintaining, and treating disease or illness based on the consumer’s plan of care.

*“Natural supports”* means services and supports identified as wanted or needed by the consumer and provider by persons not for pay (family, friends, neighbors, coworkers, and others in the community) and organizations or entities that serve the general public.

*“Nursing facility level of care”* means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member’s daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member’s capacity to live independently.

2. The member’s physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

*“Organization”* means the entity being certified.

*“Organizational outcome”* means a demonstration by the organization of actions taken by the organization to provide for services or supports to consumers.

*“Outcome”* means an action or event that follows as a result or consequence of the provision of a service or support.

*“Procedures”* means the steps to be taken to implement a policy.

*“Process”* means service or support provided by an agency to a consumer that will allow the consumer to achieve an outcome. This can include a written, formal, consistent trackable method or an informal process that is not written but is trackable.

*“Program”* means a set of related resources and services directed to the accomplishment of a fixed set of goals and objectives for the population of a specified geographic area or for special target populations. It can mean an agency, organization, or unit of an agency, organization or institution.

*“Qualified brain injury professional”* means one of the following who meets the educational and licensure or certification requirements for the profession as required in the state of Iowa and who has two

years' experience working with people living with a brain injury: a psychologist; psychiatrist; physician; physician assistant; registered nurse; certified teacher; social worker; mental health counselor; physical, occupational, recreational, or speech therapist; or a person with a bachelor of arts or science degree in psychology, sociology, or public health or rehabilitation services.

*"Service coordination"* means activities designed to help individuals and families locate, access, and coordinate a network of supports and services that will allow them to live a full life in the community.

*"Service plan"* means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process, which addresses all relevant services and supports being provided. It may involve more than one provider.

*"Skilled nursing facility level of care"* means that the following conditions are met:

1. The member's medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.
2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).
3. Documentation submitted for review indicates that the member has:
  - a. A physician order for all skilled services.
  - b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.
  - c. An individualized care plan that identifies support needs.
  - d. Confirmation that skilled services are provided to the member.
  - e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.
  - f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

*"Specialized respite"* means respite provided on a staff-to-consumer ratio of one to one or higher to individuals with specialized medical needs requiring the care, monitoring or supervision of a licensed registered nurse or licensed practical nurse.

*"Staff"* means a person under the direction of the organization to perform duties and responsibilities of the organization.

*"Third-party payments"* means payments from an individual, institution, corporation, or public or private provider which is liable to pay part or all of the medical costs incurred as a result of injury or disease on behalf of a consumer of medical assistance.

*"Usual caregiver"* means a person or persons who reside with the consumer and are available on a 24-hour-per-day basis to assume responsibility for the care of the consumer.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.82(249A) Eligibility.** To be eligible for brain injury waiver services a consumer must meet eligibility criteria and be determined to need a service allowable under the program.

**83.82(1) Eligibility criteria.** All of the following criteria must be met. The person must:

- a. Have a diagnosis of brain injury.
- b. Be eligible for Medicaid under SSI, SSI-related, FMAP, or FMAP-related coverage groups or be eligible under the special income level (300 percent) coverage group consistent with a level of care in a medical institution.
- c. Be at least one month of age.
- d. Be a U.S. citizen and Iowa resident.
- e. Rescinded IAB 7/11/01, effective 7/1/01.
- f. Be determined by the IME medical services unit as in need of intermediate care facility for persons with an intellectual disability (ICF/ID), skilled nursing, or ICF level of care.
- g. Be assessed by the IME medical services unit as able to live in a home- or community-based setting where all medically necessary service needs can be met within the scope of this waiver.
- h. At a minimum, receive a waiver service each quarter in addition to case management.
- i. Choose HCBS.

- j.* To be eligible for interim medical monitoring and treatment services the consumer must be:
- (1) Under the age of 21;
  - (2) Currently receiving home health agency services under rule 441—78.9(249A) and require medical assessment, medical monitoring, and regular medical intervention or intervention in a medical emergency during those services. (The home health aide services for which the consumer is eligible must be maximized before the consumer accesses interim medical monitoring and treatment.);
  - (3) Residing in the consumer's family home or foster family home; and
  - (4) In need of interim medical monitoring and treatment as ordered by a physician.
- k.* Receive services in a community, not an institutional, setting.
- l.* Be assigned a state payment slot within the yearly total approved by the Centers for Medicare and Medicaid Services.
- m.* For the consumer choices option as set forth in rule 441—subrule 78.43(15), not be living in a residential care facility.

**83.82(2) Need for services.**

*a.* The applicant shall have a service plan approved by the department that is developed by the certified case manager for this waiver as identified by the county of residence. This must be completed before services provision and annually thereafter. The case manager shall establish the interdisciplinary team for the applicant and, with the team, identify the applicant's need for service based on the applicant's needs and desires as well as the availability and appropriateness of services using the following criteria:

(1) The assessment shall be based, in part, on information provided to the IME medical services unit.

(2) Service plans must be developed to reflect use of all appropriate nonwaiver Medicaid state services so as not to replace or duplicate those services.

(3) Service plans for applicants aged 20 or under which include supported community living services beyond intermittent shall not be approved until a home health provider has made a request to cover the service through all nonwaiver Medicaid services.

(4) Service plans for applicants aged 20 or under which include supported community living services beyond intermittent must be approved (signed and dated) by the designee of the bureau of long-term care. The Medicaid case manager must request in writing more than intermittent supported community living with a summary of services and service costs, and submit a written justification with the service plan. The rationale must contain sufficient information for the bureau's designee to make a decision regarding the need for supported community living beyond intermittent.

*b.* Interim medical monitoring and treatment services must be needed because all usual caregivers are unavailable to provide care due to one of the following circumstances:

(1) Employment. Interim medical monitoring and treatment services are to be received only during hours of employment.

(2) Academic or vocational training. Interim medical monitoring and treatment services provided while a usual caregiver participates in postsecondary education or vocational training shall be limited to 24 periods of no more than 30 days each per caregiver as documented by the service worker. Time spent in high school completion, adult basic education, GED, or English as a second language does not count toward the limit.

(3) Absence from the home due to hospitalization, treatment for physical or mental illness, or death of the usual caregiver. Interim medical monitoring and treatment services under this subparagraph are limited to a maximum of 30 days.

(4) Search for employment.

1. Care during job search shall be limited to only those hours the usual caregiver is actually looking for employment, including travel time.

2. Interim medical monitoring and treatment services may be provided under this paragraph only during the execution of one job search plan of up to 30 working days in a 12-month period, approved by the department service worker or targeted case manager pursuant to 441—subparagraph 170.2(2) "b"(5).

3. Documentation of job search contacts shall be furnished to the department service worker or targeted case manager.

c. The consumer shall access, if a child, all other services for which the person is eligible and which are appropriate to meet the person's needs as a precondition of eligibility for the HCBS BI waiver.

d. The total cost of brain injury waiver services, excluding the cost of case management and home and vehicle modifications, shall not exceed \$2,954 per month.

**83.82(3)** *HCBS brain injury (BI) waiver program limit for persons requiring the ICF/MR level of care.* Rescinded IAB 7/11/01, effective 7/1/01.

**83.82(4)** *Securing a state payment slot.*

a. The county department office shall enter all waiver applications into the individualized services information system (ISIS) to determine if a payment slot is available for all new applicants for the HCBS BI waiver program.

(1) For applicants not currently receiving Medicaid, the county department office shall make the entry by the end of the fifth working day after receipt of a completed Form 470-2927 or 470-2927(S), Health Services Application, or within five working days after receipt of disability determination, whichever is later.

(2) For current Medicaid members, the county department office shall make the entry by the end of the fifth working day after receipt of a written request signed and dated by the waiver applicant.

b. If no payment slot is available, the department shall enter the applicant on a waiting list according to the following:

(1) Applicants not currently eligible for Medicaid shall be entered on the waiting list on the basis of the date a completed Form 470-2927 or 470-2927(S), Health Services Application, is received by the department or upon receipt of disability determination, whichever is later. Applicants currently eligible for Medicaid shall be added to the waiting list on the basis of the date the applicant requests HCBS BI program services.

(2) In the event that more than one application is received at one time, applicants shall be entered on the waiting list on the basis of the month of birth, January being month one and the lowest number.

c. Persons who do not fall within the available slots shall have their applications rejected but their names shall be maintained on the waiting list. As slots become available, persons shall be selected from the waiting list to maintain the number of approved persons on the program based on their order on the waiting list.

[ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 1445C, IAB 4/30/14, effective 7/1/14]

#### **441—83.83(249A) Application.**

**83.83(1)** *Application for financial eligibility.* The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed.

**83.83(2)** *Approval of application for eligibility.*

a. Applications for the determination of ability of the consumer to have all medically necessary service needs met within the scope of this waiver shall be initiated on behalf of the consumer and with the consumer's consent or with the consent of the consumer's legal representative by the discharge planner of the medical facility where the consumer resides at the time of application or the case manager. The discharge planner or case manager shall provide to the IME medical services unit all appropriate information needed regarding all the medically necessary service needs of the consumer. After completing the determination of ability to have all medically necessary service needs met within the scope of this waiver, the IME medical services unit shall inform the discharge planner or case manager on behalf of the consumer or the consumer's legal representative and send to the income maintenance worker a copy of the decision as to whether all of the consumer's service needs can be met in a home- or community-based setting.

b. Eligibility for the HCBS BI waiver shall be effective as of the date when both the service eligibility and financial eligibility have been completed. Decisions shall be mailed or given to the consumer or the consumer's legal representative on the date when each eligibility determination is completed.

c. An applicant shall be given the choice between waiver services and institutional care. The applicant or legal representative shall complete and sign Form 470-4694, Case Management Comprehensive Assessment, indicating that the applicant has elected home- and community-based services. This shall be arranged by the medical facility discharge planner or case manager.

d. The medical facility discharge planner, if there is one involved, shall contact the appropriate case manager for the consumer's county of residence to initiate development of the consumer's service plan and initiation of waiver services.

e. HCBS BI waiver services provided prior to both approvals of eligibility for the waiver cannot be paid.

f. HCBS BI waiver services are not available in conjunction with other HCBS waiver programs or group foster care services.

g. The Medicaid case manager shall establish an HCBS BI waiver interdisciplinary team for each consumer and, with the team, identify the consumer's "need for service" based on the consumer's needs and desires as well as the availability and appropriateness of services.

**83.83(3) *Effective date of eligibility.***

a. The effective date of eligibility for the waiver for persons who are already determined eligible for Medicaid is the date on which the person is determined to meet all of the criteria set forth in rule 441—83.82(249A).

b. The effective date of eligibility for the waiver for persons who qualify for Medicaid due to eligibility for the waiver services is the date on which the person is determined to meet all of the criteria set forth in rule 441—83.82(249A) and when the eligibility factors set forth in 441—subrule 75.1(7) and for married persons, in rule 441—75.5(249A), have been satisfied.

c. Eligibility for the waiver continues until the consumer fails to meet eligibility criteria listed in rule 441—83.82(249A). Consumers who return to inpatient status in a medical institution for more than 30 consecutive days shall be reviewed by the IME medical services unit to determine additional inpatient needs for possible termination from the brain injury waiver. The consumer shall be reviewed for eligibility under other Medicaid coverage groups in accordance with rule 441—76.11(249A). The consumer shall be notified of that decision through Form 470-0602, Notice of Decision.

If the consumer returns home before the effective date of the notice of decision and the consumer's condition has not substantially changed, the denial may be rescinded and eligibility may continue.

**83.83(4) *Attribution of resources.*** For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver consumer meets the level of care criteria in a medical institution as established by the peer review organization shall be used as the date of entry to the medical institution. Only one attribution of resources shall be completed per person. Attributions completed for prior institutionalizations shall be applied to the waiver application.

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

**441—83.84(249A) Client participation.** Consumers who are financially eligible under 441—subrule 75.1(7) (the 300 percent group) must contribute a predetermined participation amount to the cost of brain injury waiver services.

**83.84(1) *Computation of client participation.*** Client participation shall be computed by deducting an amount for the maintenance needs of the consumer which is 300 percent of the maximum SSI grant for an individual from the consumer's total income. For a couple, client participation is determined as if each person were an individual.

**83.84(2) *Limitation on payment.*** If the sum of the third-party payment and client participation equals or exceeds the reimbursement for the specific brain injury waiver service, Medicaid shall make no payments for the waiver service. However, Medicaid shall make payments to other medical providers.

**441—83.85(249A) Redetermination.** A complete financial redetermination of eligibility for brain injury waiver shall be completed at least once every 12 months. A redetermination of continuing eligibility factors shall be made when a change in circumstances occurs that affects eligibility in

accordance with rule 441—83.82(249A). A redetermination shall contain the components listed in rule 441—83.82(249A).

**441—83.86(249A) Allowable services.** Services allowable under the brain injury waiver are case management, respite, personal emergency response, supported community living, behavioral programming, family counseling and training, home and vehicle modification, specialized medical equipment, prevocational services, transportation, supported employment, adult day care, consumer-directed attendant care, interim medical monitoring and treatment, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.43(249A).

**441—83.87(249A) Service plan.** A service plan shall be prepared and utilized for each HCBS BI waiver consumer. The service plan shall be developed by an interdisciplinary team, which includes the consumer, and, if appropriate, the legal representative, consumer's family, case manager, providers, and others directly involved. The service plan shall be stored by the case manager for a minimum of three years. The service plan staffing shall be conducted before the current service plan expires.

**83.87(1) Information in plan.** The plan shall be in accordance with 441—subrule 24.4(3) and shall additionally include the following information to assist in evaluating the program:

- a. A listing of all services received by a consumer at the time of waiver program enrollment.
- b. For supported community living:
  - (1) The consumer's living environment at the time of waiver enrollment.
  - (2) The number of hours per day of on-site staff supervision needed by the consumer.
  - (3) The number of other waiver consumers who will live with the consumer in the living unit.
- c. An identification and justification of any restriction of a consumer's rights including, but not limited to:
  - (1) Maintenance of personal funds.
  - (2) Self-administration of medications.
- d. The names of all providers responsible for providing all services.
- e. All service funding sources.
- f. The amount of the service to be received by the consumer.
- g. Whether the consumer has elected the consumer choices option and, if so:
  - (1) The independent support broker selected by the consumer; and
  - (2) The financial management service selected by the consumer.
- h. A plan for emergencies and identification of the supports available to the consumer in an emergency.

**83.87(2) Use of nonwaiver services.** Service plans must be developed to reflect use of all appropriate nonwaiver Medicaid services and so as not to replace or duplicate those services. Service plans for members aged 20 or under which include supported community living services beyond intermittent must be approved (signed and dated) by the designee of the bureau of long-term care. The Medicaid case manager shall attach a written request for a variance from the limitation on supported community living to intermittent.

**83.87(3) Annual assessment.** The IME medical services unit shall assess the member annually and certify the member's need for long-term care services. The IME medical services unit shall be responsible for determining the level of care based on the completed Form 470-4694, Case Management Comprehensive Assessment, and supporting documentation as needed.

- a. The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.
- b. The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

**83.87(4) Service file.** The Medicaid case manager must ensure that the consumer service file contains the consumer's service plan.

*a. to d.* Rescinded IAB 8/7/02, effective 10/1/02.

[ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.88(249A) Adverse service actions.**

**83.88(1) Denial.** An application for services shall be denied when it is determined by the department that:

- a.* The consumer is not eligible for the services because all of the medically necessary service needs cannot be met in a home- or community-based setting.
- b.* Service needs exceed the service unit or reimbursement maximums.
- c.* Service needs are not met by the services provided.
- d.* Needed services are not available or received from qualifying providers.
- e.* The brain injury waiver service is not identified in the consumer's service plan.
- f.* There is another community resource available to provide the service or a similar service free of charge to the consumer that will meet the consumer's needs.
- g.* The consumer receives services from other Medicaid waiver providers.
- h.* The consumer or legal representative through the interdisciplinary process requests termination from the services.

**83.88(2) Reduction.** A particular service may be reduced when the department determines that the provisions of 441—subrule 130.5(3), paragraph “a” or “b,” apply.

**83.88(3) Termination.** A particular service may be terminated when the department determines that:

- a.* The provisions of 441—subrule 130.5(2), paragraph “d,” “g,” or “h,” apply.
- b.* Needed services are not available or received from qualifying providers.
- c.* The brain injury waiver service is not identified in the consumer's annual service plan.
- d.* Service needs are not met by the services provided.
- e.* Services needed exceed the service unit or reimbursement maximums.
- f.* Completion or receipt of required documents by the department or the medical facility discharge planner for the brain injury waiver service consumer has not occurred.
- g.* The consumer receives services from other Medicaid providers.
- h.* The consumer or legal representative through the interdisciplinary process requests termination from the services.

**441—83.89(249A) Appeal rights.** Notice of adverse actions and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).

[ARC 0191C, IAB 7/11/12, effective 7/1/12; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0359C, IAB 10/3/12, effective 12/1/12]

**441—83.90(249A) County reimbursement.** Rescinded ARC 0191C, IAB 7/11/12, effective 7/1/12.

**441—83.91(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

These rules are intended to implement Iowa Code sections 249A.3 and 249A.4.

**441—83.92 to 83.100** Reserved.

DIVISION VI—PHYSICAL DISABILITY WAIVER SERVICES

**441—83.101(249A) Definitions.**

“*Adaptive*” means age-appropriate skills related to taking care of one's self and the ability to relate to others in daily living situations. These skills include limitations that occur in the areas of communication, self-care, home living, social skills, community use, self-direction, safety, functional academics, leisure and work.

“*Adult*” means a person with a physical disability aged 18 years to 64 years.

“*Appropriate*” means that the services or supports or activities provided or undertaken by the organization are relevant to the consumer’s needs, situation, problems, or desires.

“*Assessment*” means the review of the consumer’s current functioning in regard to the consumer’s situation, needs, strengths, abilities, desires and goals.

“*Attorney in fact under a durable power of attorney for health care*” means an individual who is designated by a durable power of attorney for health care, pursuant to Iowa Code chapter 144B, as an agent to make health care decisions on behalf of an individual and who has consented to act in that capacity.

“*Behavior*” means skills related to regulating one’s own behavior including coping with demands from others, making choices, controlling impulses, conforming conduct to laws, and displaying appropriate sociosexual behavior.

“*Client participation*” means the amount of the consumer’s income that the person must contribute to the cost of physical disability waiver services, exclusive of medical vendor payments, before Medicaid will provide additional reimbursement.

“*Department*” means the Iowa department of human services.

“*Guardian*” means a guardian appointed in probate court for an adult.

“*Intermediate care facility for persons with an intellectual disability level of care*” means that the individual has a diagnosis of intellectual disability made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association; or has a related condition as defined in 42 CFR 435.1009; and needs assistance in at least three of the following major life areas: mobility, musculoskeletal skills, activities of daily living, domestic skills, toileting, eating skills, vision, hearing or speech or both, gross/fine motor skills, sensory-taste, smell, tactile, academic skills, vocational skills, social/community skills, behavior, and health care.

“*Managed care organization*” means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medical institution*” means a nursing facility, a skilled nursing facility, intermediate care facility for persons with an intellectual disability, or hospital which has been approved as a Medicaid vendor.

“*Nursing facility level of care*” means that the following conditions are met:

1. The presence of a physical or mental impairment which restricts the member’s daily ability to perform the essential activities of daily living, bathing, dressing, and personal hygiene, and impedes the member’s capacity to live independently.

2. The member’s physical or mental impairment is such that self-execution of required nursing care is improbable or impossible.

“*Physical disability*” means a severe, chronic condition that is attributable to a physical impairment that results in substantial limitations of physical functioning in three or more of the following areas of major life activities: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency.

“*Service plan*” means a written consumer-centered, outcome-based plan of services developed using an interdisciplinary process which addresses all relevant services and supports being provided. It may involve more than one provider.

“*Skilled nursing facility level of care*” means that the following conditions are met:

1. The member’s medical condition requires skilled nursing services or skilled rehabilitation services as defined in 42 CFR 409.31(a), 409.32, and 409.34.

2. Services are provided in accordance with the general provisions for all Medicaid providers and services as described in rule 441—79.9(249A).

3. Documentation submitted for review indicates that the member has:

- a. A physician order for all skilled services.

- b. Services that require the skills of medical personnel, including registered nurses, licensed practical nurses, physical therapists, occupational therapists, speech pathologists, or audiologists.

- c. An individualized care plan that identifies support needs.

- d. Confirmation that skilled services are provided to the member.
- e. Skilled services that are provided by, or under the supervision of, medical personnel as described above.
- f. Skilled nursing services that are needed and provided seven days a week or skilled rehabilitation services that are needed and provided at least five days a week.

“*Third-party payments*” means payments from an individual, institution, corporation, or public or private provider which is liable to pay part or all of the medical costs incurred as a result of injury or disease on behalf of a consumer of medical assistance.

“*Waiver year*” means a 12-month period commencing on April 1 of each year.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.102(249A) Eligibility.** To be eligible for physical disability waiver services, a consumer must meet eligibility criteria set forth in subrule 83.102(1) and be determined to need a service allowable under the program per subrule 83.102(2).

**83.102(1) Eligibility criteria.** All of the following criteria must be met. The person must:

- a. Have a physical disability.
- b. Be blind or disabled as determined by the receipt of social security disability benefits or by a disability determination made through the department. Disability determinations are made according to supplemental security income guidelines under Title XVI of the Social Security Act or the disability guidelines for the Medicaid employed people with disabilities coverage group.
- c. Be ineligible for the HCBS intellectual disability waiver.
- d. Have the ability to hire, supervise, and fire the provider as determined by the service worker, and be willing to do so, or have a parent or guardian named by probate court, or attorney in fact under a durable power of attorney for health care who will take this responsibility on behalf of the consumer.
- e. Be eligible for Medicaid under 441—Chapter 75.
- f. Be aged 18 years to 64 years.
- g. Rescinded IAB 2/7/01, effective 2/1/01.
- h. Be in need of skilled nursing or intermediate care facility level of care based on information submitted on Form 470-4392, Level of Care Certification for HCBS Waiver Program.

(1) A physician, doctor of osteopathy, registered nurse practitioner, or physician assistant shall complete Form 470-4392 when the person applies for waiver services, upon request to report a change in the person’s condition, and annually for reassessment of the person’s level of care.

(2) Initial decisions on level of care shall be made for the department by the IME medical services unit within two working days of receipt of medical information. The IME medical services unit determines whether the level of care requirement is met based on medical necessity and the appropriateness of the level of care under 441—subrules 79.9(1) and 79.9(2).

(3) Adverse decisions by the IME medical services unit may be appealed to the department pursuant to 441—Chapter 7.

- i. Choose HCBS.
- j. Use a minimum of one unit of service per calendar quarter under this program.
- k. For the consumer choices option as set forth in 441—subrule 78.46(6), not be living in a residential care facility.

**83.102(2) Need for services.**

a. The applicant shall have a service plan which is developed by the applicant and a department service worker. The plan must be completed and approved before service provision.

(1) The service worker shall identify the need for service based on the needs of the applicant, as documented in Form 470-5044, Service Worker Comprehensive Assessment, as well as the availability and appropriateness of services.

(2) The service worker shall have a face-to-face visit with the member at least annually.

b. The total cost of physical disability waiver services, excluding the cost of home and vehicle modifications, shall not exceed \$692 per month.

**83.102(3) Slots.** The total number of persons receiving HCBS physical disability waiver services in the state shall be limited to the number provided in the waiver approved by the Secretary of the U.S. Department of Health and Human Services. These slots shall be available on a first-come, first-served basis.

**83.102(4) County payment slots for persons requiring the ICF/MR level of care.** Rescinded IAB 10/6/99, effective 10/1/99.

**83.102(5) Securing a slot.**

*a.* The county department office shall enter all waiver applications into the individualized services information system (ISIS) to determine if a slot is available for all new applicants for the HCBS physical disability waiver program.

(1) For applicants not currently receiving Medicaid, the county department office shall make the entry by the end of the fifth working day after receipt of a completed Form 470-2927 or 470-2927(S), Health Services Application, or within five working days after receipt of disability determination, whichever is later.

(2) For current Medicaid members, the county department office shall make the entry by the end of the fifth working day after receipt of a written request signed and dated by the waiver applicant.

*b.* If no slot is available, the department shall enter applicants on the HCBS physical disabilities waiver waiting list according to the following:

(1) Applicants not currently eligible for Medicaid shall be entered on the basis of the date a completed Form 470-2927 or 470-2927(S), Health Services Application, is received by the department or upon receipt of disability determination, whichever is later. Applicants currently eligible for Medicaid shall be added on the basis of the date the applicant requests HCBS physical disability program services. In the event that more than one application is received on the same day, applicants shall be entered on the waiting list on the basis of the day of the month of their birthday, the lowest number being first on the list. Any subsequent tie shall be decided by the month of birth, January being month one and the lowest number.

(2) Persons who do not fall within the available slots shall have their applications rejected but their names shall be maintained on the waiting list. As slots become available, persons shall be selected from the waiting list to maintain the number of approved persons on the program based on their order on the waiting list.

**83.102(6) Securing a county payment slot.** Rescinded IAB 10/6/99, effective 10/1/99.

**83.102(7) HCBS physical disability waiver waiting list.** When services are denied because the limit on the number of slots is reached, a notice of decision denying service based on the limit and stating that the person's name shall be put on a waiting list shall be sent to the person by the department.

[ARC 9650B, IAB 8/10/11, effective 10/1/11; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 1445C, IAB 4/30/14, effective 7/1/14]

#### **441—83.103(249A) Application.**

**83.103(1) Application for financial eligibility.** The application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed. Applications for this program may only be filed on or after April 1, 1999.

**83.103(2) Approval of application for eligibility.**

*a.* Applications for this waiver shall be initiated on behalf of the applicant who is a resident of a medical institution with the applicant's consent or with the consent of the applicant's legal representative by the discharge planner of the medical facility where the applicant resides at the time of application.

(1) The discharge planner shall have the applicant's primary care provider complete Form 470-4392, Level of Care Certification for HCBS Waiver Program, and submit it to the IME medical services unit.

(2) After completing the determination of the level of care needed by the applicant, the IME medical services unit shall inform the income maintenance worker and the discharge planner of the IME medical services unit's decision.

b. Applications for this waiver shall be initiated by the applicant, the applicant's parent or legal guardian, or the applicant's attorney in fact under a durable power of attorney for health care on behalf of the applicant who is residing in the community.

(1) The applicant's primary care provider shall complete Form 470-4392, Level of Care Certification for HCBS Waiver Program, and submit it to the IME medical services unit.

(2) After completing the determination of the level of care needed by the applicant, the IME medical services unit shall inform the income maintenance worker and the applicant, the applicant's parent or legal guardian, or the applicant's attorney in fact under a durable power of attorney for health care.

c. Eligibility for this waiver shall be effective as of the date when both the eligibility criteria in subrule 83.102(1) and need for services in subrule 83.102(2) have been established. Decisions shall be mailed or given to the applicant, the applicant's parent or legal guardian, or the applicant's attorney in fact under a durable power of attorney for health care on the date when each eligibility determination is completed.

d. An applicant shall be given the choice between waiver services and institutional care. The applicant or the applicant's parent, legal guardian, or attorney in fact under a durable power of attorney for health care shall sign Form 470-5044, Service Worker Comprehensive Assessment, indicating that the applicant has elected home- and community-based services.

e. The applicant, the applicant's parent or guardian, or the applicant's attorney in fact under a durable power of attorney for health care shall cooperate with the service worker or case manager in the development of the service plan prior to the start of services.

f. HCBS physical disability waiver services provided prior to both approvals of eligibility for the waiver cannot be paid.

g. HCBS physical disability waiver services are not available in conjunction with other HCBS waiver programs. The consumer may also receive in-home health-related care service if eligible for that program.

**83.103(3) *Effective date of eligibility.***

a. The effective date of eligibility for the waiver for persons who are already determined eligible for Medicaid is the date on which the person is determined to meet all of the criteria set forth in subrule 83.102(1).

b. The effective date of eligibility for the waiver for persons who qualify for Medicaid due to eligibility for the waiver services is the date on which the person is determined to meet all of the criteria set forth in subrule 83.102(1) and when the eligibility factors set forth in 441—subrule 75.1(7) and, for married persons, in rule 441—75.5(249A), have been satisfied.

c. Eligibility for the waiver continues until the consumer fails to meet eligibility criteria listed in subrule 83.102(1). Consumers who return to inpatient status in a medical institution for more than 30 consecutive days shall be reviewed by the IME medical services unit to determine additional inpatient needs for possible termination from the physical disability waiver. The consumer shall be reviewed for eligibility under other Medicaid coverage groups in accordance with rule 441—76.11(249A). The consumer shall be notified of that decision through Form 470-0602, Notice of Decision.

If the consumer returns home before the effective date of the notice of decision and the consumer's condition has not substantially changed, the denial may be rescinded and eligibility may continue.

**83.103(4) *Attribution of resources.*** For the purposes of attributing resources as provided in rule 441—75.5(249A), the date on which the waiver consumer meets the institutional level of care requirement as determined by the IME medical services unit or an appeal decision shall be used as the date of entry to the medical institution. Only one attribution of resources shall be completed per person. Attributions completed for a prior institutionalization shall be applied to the waiver application.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.104(249A) Client participation.** Consumers who are financially eligible under 441—subrule 75.1(7) (the 300 percent group) must contribute a client participation amount to the cost of physical disability waiver services.

**83.104(1) *Computation of client participation.*** Client participation shall be computed by deducting a maintenance needs allowance equal to 300 percent of the maximum SSI grant for an individual from the consumer's total income. For a couple, client participation is determined as if each person were an individual.

**83.104(2) *Limitation on payment.*** If the sum of the third-party payment and client participation equals or exceeds the reimbursement for the specific physical disability waiver service, Medicaid shall make no payments for the waiver service. However, Medicaid shall make payments to other medical providers.

**441—83.105(249A) *Redetermination.*** A complete financial redetermination of eligibility for the physical disability waiver shall be completed at least once every 12 months. A redetermination of continuing eligibility factors shall be made when a change in circumstances occurs that affects eligibility in accordance with rule 441—83.102(249A). A redetermination shall contain the components listed in rule 441—83.102(249A).

**441—83.106(249A) *Allowable services.*** The services allowable under the physical disability waiver are consumer-directed attendant care, home and vehicle modification, personal emergency response system, transportation, specialized medical equipment, financial management, independent support brokerage, self-directed personal care, self-directed community supports and employment, and individual-directed goods and services as set forth in rule 441—78.46(249A).

**441—83.107(249A) *Individual service plan.*** An individualized service plan shall be prepared and used for each HCBS physical disability waiver consumer. The service plan shall be developed and approved by the consumer and the DHS service worker prior to services beginning and payment being made to the provider. The plan shall be reviewed by the consumer and the service worker annually, and the current version approved by the service worker.

**83.107(1) *Information in plan.*** The plan shall be in accordance with 441—subrule 24.4(3) and shall additionally include the following information to assist in evaluating the program:

- a. A listing of all services received by a consumer at the time of waiver program enrollment.
- b. The name of all providers responsible for providing all services.
- c. All service funding sources.
- d. The amount of the service to be received by the consumer.
- e. Whether the consumer has elected the consumer choices option and, if so:
  - (1) The independent support broker selected by the consumer; and
  - (2) The financial management service selected by the consumer.
- f. A plan for emergencies and identification of the supports available to the consumer in an emergency.

**83.107(2) *Annual assessment.*** The IME medical services unit shall review the member's need for continued care annually and recertify the member's need for long-term care services, pursuant to paragraph 83.102(1) "h" and the appeal process at rule 441—83.109(249A), based on the completed Form 470-4392, Level of Care Certification for HCBS Waiver Program, and supporting documentation as needed.

a. The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

b. The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

**83.107(3) *Case file.*** Rescinded IAB 8/7/02, effective 10/1/02.  
[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.108(249A) Adverse service actions.**

**83.108(1) Denial.** An application for services shall be denied when it is determined by the department that:

- a. All of the medically necessary service needs cannot be met in a home- or community-based setting.
- b. Service needs exceed the reimbursement maximums.
- c. Service needs are not met by the services provided.
- d. Needed services are not available or received from qualifying providers.
- e. The physical disability waiver service is not identified in the consumer's service plan.
- f. There is another community resource available to provide the service or a similar service free of charge to the consumer that will meet the consumer's needs.
- g. The consumer receives services from other Medicaid waiver providers.
- h. The consumer or legal representative requests termination from the services.

**83.108(2) Reduction.** A particular service may be reduced when the department determines that the provisions of 441—subrule 130.5(3), paragraph “a” or “b,” apply.

**83.108(3) Termination.** A particular service may be terminated when the department determines that:

- a. The provisions of 441—subrule 130.5(2), paragraph “d,” “g,” or “h,” apply.
- b. Needed services are not available or received from qualifying providers.
- c. The physical disability waiver service is not identified in the consumer's annual service plan.
- d. Service needs are not met by the services provided.
- e. Services needed exceed the service unit or reimbursement maximums.
- f. Completion or receipt of required documents by the consumer for the physical disability waiver service has not occurred.
- g. The consumer receives services from other Medicaid providers.
- h. The consumer or legal representative requests termination from the services.

**441—83.109(249A) Appeal rights.** Notice of adverse actions and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).

**83.109(1) Appeal to county.** Rescinded IAB 2/7/01, effective 2/1/01.

**83.109(2) Reconsideration request to IME medical services unit.** Rescinded IAB 9/5/12, effective 11/1/12.

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

**441—83.110(249A) County reimbursement.** Rescinded IAB 10/6/99, effective 10/1/99.

**441—83.111(249A) Conversion to the X-PERT system.** Rescinded IAB 8/7/02, effective 10/1/02.

These rules are intended to implement Iowa Code sections 249A.3 and 249A.4.

**441—83.112 to 83.120** Reserved.

DIVISION VII—HCBS CHILDREN'S MENTAL HEALTH WAIVER SERVICES

**441—83.121(249A) Definitions.**

“*Assessment*” means the review of the consumer's current functioning in regard to the consumer's situation, needs, abilities, desires, and goals.

“*Case manager*” means the person designated to provide Medicaid targeted case management services for the consumer.

“*CMS*” means the Centers for Medicare and Medicaid Services, a division of the U.S. Department of Health and Human Services.

“*Consumer*” means an individual up to the age of 18 who is included in a Medicaid coverage group listed in 441—75.1(249A) and is a recipient of children's mental health waiver services.

“*Deeming*” means considering parental or spousal income or resources as income or resources of a consumer in determining eligibility for a consumer according to Supplemental Security Income program guidelines.

“*Department*” means the Iowa department of human services.

“*Guardian*” means a parent of a consumer or a legal guardian appointed by the court.

“*HCBS*” means home- and community-based services provided under a Medicaid waiver.

“*IME*” means the Iowa Medicaid enterprise.

“*IME medical services unit*” means the contracted entity in the Iowa Medicaid enterprise that determines level of care for consumers initially applying for or continuing to receive children’s mental health waiver services.

“*Interdisciplinary team*” means the consumer, the consumer’s family, and persons of varied professional and nonprofessional backgrounds with knowledge of the consumer’s needs, as designated by the consumer and the consumer’s family, who meet to develop a service plan based on the individualized needs of the consumer.

“*ISIS*” means the department’s individualized services information system.

“*Local office*” means a department of human services office as described in 441—subrule 1.4(2).

“*Managed care organization*” means an entity that (1) is under contract with the department to provide services to Medicaid recipients and (2) meets the definition of “health maintenance organization” as defined in Iowa Code section 514B.1.

“*Medical institution*” means a nursing facility, an intermediate care facility for persons with an intellectual disability, a psychiatric hospital or psychiatric medical institution for children, or a state mental health institute that has been approved as a Medicaid vendor.

“*Mental health professional*” means a person who meets all of the following conditions:

1. Holds at least a master’s degree in a mental health field including, but not limited to, psychology, counseling and guidance, psychiatric nursing and social work; or is a doctor of medicine or osteopathic medicine; and
2. Holds a current Iowa license when required by the Iowa professional licensure laws (such as a psychiatrist, a psychologist, a marital and family therapist, a mental health counselor, an advanced registered nurse practitioner, a psychiatric nurse, or a social worker); and
3. Has at least two years of postdegree experience supervised by a mental health professional in assessing mental health problems, mental illness, and service needs and in providing mental health services.

“*Psychiatric medical institution for children level of care*” means that the member has been diagnosed with a serious emotional disturbance and an independent team as identified in 441—subrule 85.22(3) has certified that ambulatory care resources available in the community do not meet the treatment needs of the recipient, that proper treatment of the recipient’s psychiatric condition requires services on an inpatient basis under the direction of a physician, and that the services can reasonably be expected to improve the recipient’s condition or prevent further regression so that the services will no longer be needed.

“*Serious emotional disturbance*” means a diagnosable mental, behavioral, or emotional disorder that (1) is of sufficient duration to meet diagnostic criteria for the disorder specified by the current version of the Diagnostic and Statistical Manual of Mental Disorders (DSM) published by the American Psychiatric Association; and (2) has resulted in a functional impairment that substantially interferes with or limits a consumer’s role or functioning in family, school, or community activities. “Serious emotional disturbance” shall not include neurodevelopmental disorders, substance-related disorders, or conditions or problems classified in the current version of the DSM as “other conditions that may be a focus of clinical attention,” unless these conditions co-occur with another diagnosable serious emotional disturbance.

“*Service plan*” means a written, consumer-centered, outcome-based plan of services developed by the consumer’s interdisciplinary team that addresses all relevant services and supports being provided. The service plan may involve more than one provider.

“*Skill development*” means that the service provided is habilitative and is intended to impart an ability or capacity to the consumer. Supervision without habilitation is not skill development.

“*Targeted case management*” means Medicaid case management services accredited under 441—Chapter 24 and provided according to 441—Chapter 90 for consumers eligible for the children’s mental health waiver.

“*Waiver year*” for the children’s mental health waiver means a 12-month period commencing on July 1 of each year.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2164C, IAB 9/30/15, effective 10/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.122(249A) Eligibility.** To be eligible for children’s mental health waiver services, a consumer must meet all of the following requirements:

**83.122(1) Age.** The consumer must be under 18 years of age.

**83.122(2) Diagnosis.** The consumer must be diagnosed with a serious emotional disturbance.

*a. Initial certification.* For initial application to the HCBS children’s mental health waiver program, psychological documentation that substantiates a mental health diagnosis of serious emotional disturbance as determined by a mental health professional must be current within the 12-month period before the application date.

*b. Ongoing certification.* A mental health professional must complete an annual evaluation that substantiates a mental health diagnosis of serious emotional disturbance.

**83.122(3) Level of care.** The applicant must be certified as being in need of a level of care that, but for the waiver, would be provided in a psychiatric hospital serving children under the age of 21. The IME medical services unit or a managed care organization shall certify the applicant’s level of care annually based on Form 470-4694, Case Management Comprehensive Assessment.

**83.122(4) Financial eligibility.** The consumer must be eligible for Medicaid as follows:

*a.* Be eligible for Medicaid under an SSI, SSI-related, FMAP, or FMAP-related coverage group; or

*b.* Be eligible under the special income level (300 percent) coverage group; or

*c.* Become eligible through application of the institutional deeming rules; or

*d.* Would be eligible for Medicaid if in a medical institution. For this purpose, deeming of parental or spousal income or resources ceases in the month after the month of application.

**83.122(5) Choice of program.** The applicant must choose HCBS children’s mental health waiver services over institutional care, as indicated by the signature of the applicant’s parent or legal guardian on Form 470-4694, Case Management Comprehensive Assessment.

**83.122(6) Need for service.** The consumer must have service needs that can be met under the children’s mental health waiver program, as documented in the service plan developed in accordance with rule 441—83.12(249A).

*a.* The consumer must be a recipient of targeted case management services or be identified to receive targeted case management services immediately following program enrollment.

*b.* The total cost of children’s mental health waiver services needed to meet the member’s needs, excluding the cost of environmental modifications, adaptive devices and therapeutic resources, may not exceed \$1,967 per month.

*c.* At a minimum, each consumer must receive one billable unit of a children’s mental health waiver service per calendar quarter.

*d.* A consumer may not receive children’s mental health waiver services and foster family care services under 441—Chapter 202 at the same time.

*e.* A consumer may be enrolled in only one HCBS waiver program at a time.

[ARC 7741B, IAB 5/6/09, effective 7/1/09; ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 0548C, IAB 1/9/13, effective 1/1/13; ARC 0665C, IAB 4/3/13, effective 6/1/13; ARC 0842C, IAB 7/24/13, effective 7/1/13; ARC 1056C, IAB 10/2/13, effective 11/6/13; ARC 1445C, IAB 4/30/14, effective 7/1/14; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.123(249A) Application.** The Medicaid application process as specified in rules 441—76.1(249A) to 441—76.6(249A) shall be followed for an application for HCBS children’s mental health waiver services.

**83.123(1) Program limit.** The number of persons who may be approved for the HCBS children's mental health waiver shall be subject to the number of consumers to be served as set forth in the federally approved HCBS children's mental health waiver. When the number of applicants exceeds the number of consumers specified in the approved waiver, the consumer's application shall be rejected and the consumer's name shall be placed on a waiting list.

*a.* The local office shall determine if a payment slot is available by the end of the fifth working day after receipt of:

(1) A completed Form 470-2297, Health Services Application, from a consumer who is not currently a Medicaid member;

(2) Form 470-4694, Case Management Comprehensive Assessment, with HCBS waiver choice indicated by signature of a Medicaid member's parent or legal guardian; or

(3) A written request signed and dated by a Medicaid member's parent or legal guardian.

*b.* When a payment slot is available, the local office shall enter the application into ISIS to begin the waiver approval process.

(1) The department shall hold the payment slot for the consumer as long as reasonable efforts are being made to arrange services and the consumer has not been determined to be ineligible for the program.

(2) If services have not been initiated and reasonable efforts are no longer being made to arrange services, the slot shall revert for use by the next consumer on the waiting list, if applicable. The consumer must reapply for a new slot.

*c.* If no payment slot is available, the department shall enter the names of persons on a waiting list according to the following:

(1) The names of applicants not currently eligible for Medicaid shall be entered on the waiting list on the basis of the date a completed Form 470-2927 or 470-2927(S), Health Services Application, is received by the department;

(2) The names of Medicaid members shall be added to the waiting list on the date as specified in paragraph 83.123(1) "a."

(3) In the event that more than one application is received at one time, the names of consumers shall be entered on the waiting list on the basis of the month of birth, January being month one and the lowest number.

*d.* Consumers whose names are on the waiting list shall be contacted to reapply as slots become available, based on the order of the waiting list, so that the number of approved consumers on the program is maintained.

(1) Once a payment slot is assigned, the department shall give written notice to the consumer within five working days.

(2) The department shall hold the payment slot for 30 days for the consumer to file a new application.

(3) If an application has not been filed within 30 days, the slot shall revert for use by the next consumer on the waiting list, if applicable. The consumer originally assigned the slot must reapply for a new slot.

**83.123(2) Approval of waiver eligibility.**

*a. Time limit.* Applications for the HCBS children's mental health waiver program shall be processed within 30 days unless one or more of the following conditions exist:

(1) An application has been filed and is pending for federal Supplemental Security Income (SSI) benefits.

(2) The application is pending because the department has not received information for a reason that is beyond the control of the consumer or the department.

(3) The application is pending because the assessment has not been completed. When a determination is not completed 90 days after the date of application due to the lack of a completed assessment, the application shall be denied.

*b. Notice of decisions.* The department shall mail or give decisions to the applicant on the dates when eligibility and level of care determinations are completed.

**83.123(3) *Effective date of eligibility.*** The effective date of a consumer's eligibility for children's mental health waiver services shall be the first date that all of the following conditions exist:

- a. All eligibility requirements are met; and
- b. Eligibility and level of care determinations have been made.

[ARC 0306C, IAB 9/5/12, effective 11/1/12; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.124(249A) Financial participation.** A consumer must contribute to the cost of children's mental health waiver services to the extent of the consumer's total income less 300 percent of the maximum monthly payment for one person under the federal Supplemental Security Income (SSI) program.

**441—83.125(249A) Redetermination.** The department shall redetermine a consumer's eligibility for the children's mental health waiver at least once every 12 months or when there is significant change in the consumer's situation or condition.

**83.125(1) *Eligibility review.***

a. Every 12 months, the department shall review a consumer's eligibility in accordance with procedures in rule 441—76.7(249A). The review shall verify continuing eligibility factors as specified in rule 441—83.122(249A).

b. The IME medical services unit or a managed care organization shall review the member's need for continued care annually and recertify the member's need for long-term care services, pursuant to rule 441—83.122(249A) and the appeal process at rule 441—83.129(249A), based on the completed department-approved assessment and supporting documentation as needed.

c. The IME medical services unit or the member's managed care organization shall be responsible for annual redetermination of the level of care.

d. The managed care organization must submit documentation to the IME medical services unit for all reassessments, performed at least annually, which indicate a change in the member's level of care. The IME medical services unit shall make a final determination for any reassessments which indicate a change in the level of care. If the level of care reassessment indicates no change in level of care, the member is approved to continue at the already established level of care.

**83.125(2) *Continuation of eligibility.*** A consumer's waiver eligibility shall continue until one of the following conditions occurs.

a. The consumer fails to meet eligibility criteria listed in rule 441—83.122(249A).

b. The consumer is an inpatient of a medical institution for 30 or more consecutive days.

(1) After the consumer has spent 30 consecutive days in a medical institution, the local office shall terminate the consumer's waiver eligibility and review the consumer for eligibility under other Medicaid coverage groups. The local office shall notify the consumer and the consumer's parents or legal guardian through Form 470-0602, Notice of Decision.

(2) If the consumer returns home after 30 consecutive days but no more than 60 days, the consumer must reapply for children's mental health waiver services, and the IME medical services unit must redetermine the consumer's level of care.

c. The consumer does not reside at the consumer's natural home for a period of 60 consecutive days. After the consumer has resided outside the home for 60 consecutive days, the local office shall terminate the consumer's waiver eligibility and review the consumer for eligibility under other Medicaid coverage groups. The local office shall notify the consumer and the consumer's parents or legal guardian through Form 470-0602, Notice of Decision.

**83.125(3) *Payment slot.*** When a consumer loses waiver eligibility, the consumer's assigned payment slot shall revert for use to the next consumer on the waiting list.

[ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—83.126(249A) Allowable services.** Services allowable under the children's mental health waiver shall be provided as set forth in rule 441—78.52(249A) and shall include:

1. Environmental modifications, adaptive devices and therapeutic resources;
2. Family and community support services;

3. In-home family therapy; and
4. Respite care.

**441—83.127(249A) Service plan.** The consumer's case manager shall prepare an individualized service plan for each consumer that meets the requirements set for case plans in rule 441—130.7(234).

**83.127(1)** The service plan shall be developed through an interdisciplinary team process.

**83.127(2)** The service plan shall be developed annually or when there is significant change in the consumer's situation or condition.

**83.127(3)** The service plan shall be based on information in Form 470-4694, Case Management Comprehensive Assessment.

**83.127(4)** The service plan shall specify the type and frequency of the waiver services and the providers that will deliver the services.

**83.127(5)** The service plan shall identify and justify any restriction of the consumer's rights.

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

**441—83.128(249A) Adverse service actions.**

**83.128(1) Denial.** An application for children's mental health waiver services shall be denied when the department determines that:

- a. The consumer is not eligible for or in need of waiver services.
- b. Needed services are not available or received from qualified providers.
- c. Service needs exceed the limit on aggregate monthly costs established in 83.122(6) "c" or are not met by the services provided.

**83.128(2) Termination.** A consumer's participation in the children's mental health waiver program may be terminated when the department determines that:

- a. The provisions of 441—paragraph 130.5(2) "a," "b," "c," "g," or "h" apply.
- b. The costs of the children's mental health waiver services for the consumer exceed the aggregate monthly costs established in 83.122(6) "c."
- c. The consumer receives care in a hospital, nursing facility, psychiatric hospital serving children under the age of 21, or psychiatric medical institution for children for 30 days in any one stay.
- d. The physical or mental condition of the consumer requires more care than can be provided in the consumer's own home, as determined by the consumer's case manager.
- e. Service providers are not available.

**83.128(3) Reduction.** Reduction of services shall apply as specified in 441—paragraphs 130.5(3) "a" and "b."

**441—83.129(249A) Appeal rights.** Notice of adverse action and right to appeal shall be given in accordance with 441—Chapter 7 and rule 441—130.5(234).

[ARC 0306C, IAB 9/5/12, effective 11/1/12]

These rules are intended to implement Iowa Code section 249A.4 and 2005 Iowa Acts, chapter 167, section 13, and chapter 117, section 3.

CHAPTER 85  
SERVICES IN PSYCHIATRIC INSTITUTIONS

PREAMBLE

Inpatient psychiatric services are provided in three types of psychiatric facilities in addition to general hospitals with psychiatric units: acute care psychiatric hospitals, psychiatric medical institutions for children, and nursing facilities for the mentally ill. Except for services in the state mental health institutes, Medicaid covers only persons under the age of 21 and persons aged 65 and older in acute care psychiatric hospitals. Medicaid covers only persons under the age of 21 in psychiatric medical institutions for children, and only persons aged 65 and older in nursing facilities for the mentally ill. These rules establish conditions of participation for providers, record-keeping requirements, reimbursement methodologies, and client eligibility requirements.

DIVISION I  
PSYCHIATRIC HOSPITALS

**441—85.1(249A) Acute care in psychiatric hospitals.** These rules do not apply to general hospitals with psychiatric units.

**85.1(1)** *Psychiatric hospitals serving persons aged 21 and older.* A psychiatric hospital serving persons aged 21 and older shall meet the federal criteria for an institution for mental disease and shall be licensed pursuant to department of inspections and appeals rule 481—51.36(135B). An out-of-state facility shall be licensed as a psychiatric hospital, shall meet the federal criteria for an institution for mental disease, and shall be certified to participate in the Medicare program. An institution is an institution for mental disease only if its overall character is that of a facility established and maintained primarily for the care and treatment of persons with mental diseases. The following guidelines are used by the department in evaluating the overall character of a facility. These guidelines are all useful in identifying institutions for mental disease; however, no single guideline is necessarily determinative in any given case.

*a.* The facility:

- (1) Is licensed as a psychiatric facility for the care and treatment of persons with mental diseases.
- (2) Advertises or holds itself out as a facility for the care and treatment of persons with mental diseases.
- (3) Is accredited as a psychiatric facility by the Joint Commission on the Accreditation of Health Care Organizations or by any other federally recognized accrediting organization that has comparable standards or surveys and is approved by the department of inspections and appeals.

(4) Specializes in providing psychiatric or psychological care and treatment. This may be ascertained through review of patients' records. It may also be indicated by the fact that an unusually large proportion of the staff has specialized psychiatric or psychological training or that a large proportion of the patients are receiving psychopharmacological drugs.

(5) Is under the jurisdiction of the division of behavioral, developmental, and protective services for families, adults, and children of the department.

*b.* More than 50 percent of all the patients in the facility have mental diseases which require inpatient treatment according to the patient's medical records.

*c.* A large proportion of the patients in the facility has been transferred from a state mental institution for continuing treatment of their mental disorders.

*d.* Independent review teams report a preponderance of mental illness in the diagnoses of the patients in the facility.

*e.* The average patient age is significantly lower than that of a typical nursing home.

*f.* Part or all of the facility consists of locked wards.

**85.1(2)** *Psychiatric hospitals serving persons under the age of 21.* A psychiatric hospital serving persons under the age of 21 shall be licensed pursuant to department of inspections and appeals rule 481—51.36(135B) or shall be licensed in another state as a hospital, shall be accredited by the Joint

Commission on the Accreditation of Health Care Organizations, the Commission of Accreditation of Rehabilitation Facilities, the Council on Accreditation of Services for Families and Children, or by any other federally recognized accrediting organization that has comparable standards or surveys and is approved by the department of inspections and appeals, and shall meet federal service requirements.

**441—85.2(249A) Out-of-state placement.** Placement in an out-of-state psychiatric hospital for acute care requires prior approval by the bureau of managed care and clinical services and shall be approved only if special services are not available in Iowa facilities as determined by the division of behavioral, developmental, and protective services for families, adults, and children.

**441—85.3(249A) Eligibility of persons under the age of 21.**

**85.3(1) Age.** To be eligible for payment for the cost of care provided by a psychiatric hospital, the person shall be under 21 years of age. When treatment in the hospital is provided immediately preceding the person's twenty-first birthday, coverage continues to be available until the twenty-second birthday or until service is no longer required, whichever is earlier.

**85.3(2) Period of eligibility.** The person is considered to be an inpatient until unconditionally discharged. Coverage extends until the last day of the month of the discharge or the twenty-second birthday. While on inpatient status the eligible person is entitled to the full scope of Medicaid benefits.

**85.3(3) Certification of need for care.** For persons eligible for Medicaid prior to admission, an independent team shall certify that ambulatory care resources available in the community do not meet the treatment needs of the recipient, that proper treatment of the recipient's psychiatric condition requires services on an inpatient basis under the direction of a physician, and that the services can reasonably be expected to improve the recipient's condition or prevent further regression so that the services will no longer be needed. Team members are independent when they are not employees of or consultants to the facility. Form 470-2780, Certification of Need for Inpatient Psychiatric Services, may be used to document these criteria.

*a.* For persons eligible for Medicaid prior to admission, this preadmission certification shall be performed within 45 days prior to the proposed date for admission to the facility by an independent team that includes a physician who has competence in diagnosis and treatment of mental illness, preferably in child psychiatry, and who has knowledge of the person's situation. If a social worker is a part of the team, the social worker may be from the county office of the department of human services.

The evaluation shall be submitted to the facility on or prior to the date of the patient's admission.

*b.* When a person makes application for Medicaid subsequent to admission or has an application in process at the time of admission, a certification by the team responsible for the plan of care shall be provided within 14 days after admission and shall cover any period prior to application for which claims are to be made.

*c.* For emergency admissions, a certification shall be provided by the team responsible for the plan of care within 14 days after admission.

**85.3(4) Financial eligibility for persons under the age of 21.** To be eligible for payments for the cost of care provided by a psychiatric facility, persons under the age of 21 must be eligible under one of the coverage groups listed in rule 441—75.1(249A).

**441—85.4(249A) Eligibility of persons aged 65 and over.** To be eligible for payment for the cost of care provided by an institution for mental disease, persons must be aged 65 or over and be eligible under one of the coverage groups listed in rule 441—75.1(249A).

**441—85.5(249A) Client participation.**

**85.5(1) Before July 2005.** For months before July 2005, the resident shall be liable to pay client participation toward the cost of care on a monthly basis. The state will pay the balance of the cost of care for the month. The facility shall make arrangements directly with the resident for payment of client participation. Client participation is determined according to rule 441—75.16(249A).

**85.5(2)** *July 2005 and after.* Effective with the month of July 2005, the resident shall not be liable to pay client participation toward the cost of care, and no client participation amount shall be deducted from the state payment to the hospital.

**441—85.6(249A) Responsibilities of hospitals.**

**85.6(1)** *Medical record requirements.* The medical records maintained by the psychiatric hospital shall permit determination of the degree and intensity of the treatment provided to persons who are furnished services in the hospital.

*a.* Development of assessment and diagnostic data. Medical records shall stress the psychiatric components of the record, including history of findings and treatment provided for the psychiatric condition for which the patient is hospitalized.

(1) The identification data shall include the patient's legal status.

(2) A provisional or admitting diagnosis shall be made on every patient at the time of admission, and shall include the diagnoses of intercurrent diseases as well as the psychiatric diagnoses.

(3) The reasons for admission shall be clearly documented as stated by the patient or others significantly involved.

(4) The social service records, including reports of interviews with patients, family members, and others, shall provide an assessment of home plans and family attitudes and community resource contacts, as well as a social history.

(5) When indicated, a complete neurological examination shall be recorded at the time of the admission physical examination.

*b.* Psychiatric evaluation. Each patient shall receive a psychiatric evaluation that shall:

(1) Be completed within 60 hours of admission.

(2) Include a medical history.

(3) Contain a record of mental status.

(4) Note the onset of illness and the circumstances leading to admission.

(5) Describe attitudes and behavior.

(6) Estimate intellectual functioning, memory functioning, and orientation.

(7) Include an inventory of the patient's assets in descriptive, not interpretive, fashion.

*c.* Treatment plan.

(1) Each patient shall have an individual comprehensive treatment plan that shall be based on an inventory of the patient's strengths and disabilities. The written plan shall include a substantiated diagnosis, short-term and long-range goals, the specific treatment modalities utilized, the responsibilities of each member of the treatment team, and adequate documentation to justify the diagnosis and the treatment and rehabilitation activities carried out.

(2) The treatment received by the patient shall be documented in a way to ensure that all active therapeutic efforts are included.

*d.* Recording progress. Progress notes shall be recorded by the doctor of medicine or osteopathy responsible for the care of the patient, nurse, social worker and, when appropriate, others significantly involved in active treatment modalities. The frequency of progress notes is determined by the condition of the patient but shall be recorded at least weekly for the first two months and at least once a month thereafter and shall contain recommendations for revisions in the treatment plan as indicated, as well as precise assessment of the patient's progress in accordance with the original or revised treatment plan.

*e.* Discharge planning and discharge summary. The record of each patient who has been discharged shall have a discharge summary that includes a recapitulation of the patient's hospitalization and recommendations from appropriate services concerning follow-up or aftercare, as well as a brief summary of the patient's condition on discharge.

*f.* The facility shall obtain a professional review organization (PRO) determination that the person requires acute psychiatric care when a person applying or eligible for Medicaid enters the facility, returns from an acute care general hospital, or enters the facility after 30 consecutive days of visitation.

**85.6(2) Fiscal records.**

a. A Case Activity Report, Form 470-0042, shall be submitted to the department whenever a Medicaid applicant or recipient enters the facility, changes level of care, is hospitalized in a general hospital, leaves for visitation, or is discharged from the facility.

b. The facility shall bill after each calendar month for the previous month's services.

**85.6(3) Additional requirements.** Additional requirements are mandated for persons under the age of 21.

a. *Active treatment.* Inpatient psychiatric services shall involve active treatment. Active treatment means implementation of a professionally developed and supervised individual plan of care that is developed and implemented by an interdisciplinary team no later than 14 days after admission and is designed to achieve the recipient's discharge from inpatient status at the earliest possible time.

b. *Individual plan of care.* An individual plan of care is a written plan developed for each recipient to improve the recipient's condition to the extent that inpatient care is no longer necessary. The plan shall be reviewed every 30 days by the team to determine that services being provided are or were required on an inpatient basis and to recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient. The plan of care shall:

(1) Be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral and developmental aspects of the recipient's situation and reflects the need for inpatient psychiatric care.

(2) Be developed by a team of professionals, as specified in paragraph "c" below, in consultation, if possible, with the recipient and the recipient's parents, legal guardians or others in whose care the recipient will be released after discharge.

(3) State the treatment objectives.

(4) Prescribe an integrated program of therapies, activities and experiences designed to meet the objectives.

(5) Include, at an appropriate time, postdischarge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school and community upon discharge.

c. *Interdisciplinary team.* The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or who provide services to patients in the facility.

(1) Based on education and experience, preferably including competence in child psychiatry, the team shall be capable of assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities; assessing the potential resources of the recipient's family; setting treatment objectives; and prescribing therapeutic modalities to achieve the plan's objectives.

(2) The team shall include, as a minimum, either a board-eligible or board-certified psychiatrist, a clinical psychologist who has a doctoral degree and a physician licensed to practice in medicine or osteopathy, or a physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnosis and treatment of mental diseases and a psychologist who has a master's degree in clinical psychology and has been licensed by the state.

(3) The team shall also include one of the following: a social worker with a master's degree in social work with specialized training or one year's experience in treating persons with mental illness, a registered nurse with specialized training or one year's experience in treating persons with mental illness, an occupational therapist who is licensed and who has specialized training or one year of experience in treating persons with mental illness, or a psychologist who has a master's degree in clinical psychology or who has been licensed by the state.

**441—85.7(249A) Psychiatric hospital reimbursement.**

**85.7(1) Reimbursement formula.** Acute care in psychiatric hospitals shall be reimbursed on a per diem rate based on Medicare principles.

*a.* The reimbursement principles follow and comply with the retrospective Principles of Medicare reimbursement found in Title 18 of the Social Security Act and amendments to that Act, Medicare regulations found in the Health Insurance Regulation Manual (HIRM-1), and General Instructions-Health Insurance Manual sections 10, 11, 12 and 15 when applicable.

*b.* Allowable costs are those defined as allowable in 42 CFR, Subpart A, Sections 413.5 and 413.9, as amended to December 2, 1996, and 42 CFR 447.250 as amended to September 23, 1992. Only those costs are considered in calculating the Medicaid inpatient reimbursement.

*c.* Medicare and Medicaid principles of reimbursement require hospitals to be paid at the lower of customary charges or reasonable cost and to adhere to all Medicare cost principles in the calculation of the facility rates.

*d.* Payment for inpatient hospital care for recipients for whom the PRO has determined that the level of care that is medically necessary is only that of skilled care or nursing care will be made at a rate equal to the statewide average Medicaid skilled nursing facility rate or the average state nursing facility rate. Periodic PRO determinations of the need for continuing care are also required.

*e.* Each participating Medicaid provider shall file a CMS 2552 Medicare Cost Report or a substitute accepted by the Centers for Medicare and Medicaid Services. In addition, supplemental information sheets are furnished to all Medicaid providers to be filed with the annual cost report. This report must be filed with the Iowa Medicaid enterprise provider audits and rate-setting unit for Iowa within 150 days after the close of the hospital's fiscal year.

*f.* Compensation for a disproportionate share of indigent patients is determined as described in 441—subrule 79.1(5).

*g.* Medicaid reimbursement shall be reduced by any payments from a third party toward the cost of a patient's care.

**85.7(2) *Medical necessity.*** The medical necessity of admission and continued stay will be determined by the PRO. Payment shall not be made for admissions which are determined not to be medically necessary nor will payment be approved for stays beyond the time at which inpatient specialized hospital care at the acute level has been determined not to be medically necessary.

**85.7(3) *Reserve bed day payment.*** No reserve bed day payments are made to acute care psychiatric hospitals.

**85.7(4) *Outpatient services.*** No coverage is available for outpatient psychiatric hospital services. These rules are intended to implement Iowa Code section 249A.4.

#### **441—85.8(249A,81GA,ch167) Eligibility of persons aged 21 through 64.**

**85.8(1) *Facility.*** Acute care in a psychiatric hospital is covered for persons aged 21 through 64 only at the state mental health institutes at Cherokee, Clarinda, Independence, and Mount Pleasant.

**85.8(2) *Basis of eligibility.*** To be eligible for payment for the cost of care provided by one of the covered facilities, a person aged 21 through 64 must be either:

*a.* Eligible for one of the coverage groups listed in 441—75.1(249A); or

*b.* Eligible under the IowaCare program pursuant to 441—Chapter 92.

**85.8(3) *Period of eligibility.*** A person is considered to be an inpatient until unconditionally discharged. Coverage extends until the last day of the month of discharge.

**85.8(4) *Extent of eligibility.***

*a.* While on inpatient status, a person eligible under a coverage group listed in 441—75.1(249A) is entitled to the full scope of Medicaid benefits.

*b.* While on inpatient status, a person eligible under the IowaCare program is entitled to the services listed at 441—92.8(249A,81GA,ch167).

**441—85.9 to 85.20** Reserved.

DIVISION II  
PSYCHIATRIC MEDICAL INSTITUTIONS FOR CHILDREN

**441—85.21(249A) Conditions for participation.** Psychiatric medical institutions for children shall be issued a license by the department of inspections and appeals under Iowa Code chapter 135H and shall hold either a license from the department of human services under Iowa Code section 237.3, subsection 2, paragraph “a,” subparagraph (3) or, for facilities which provide substance abuse treatment, a license from the department of public health under Iowa Code section 125.13.

This rule is intended to implement Iowa Code sections 135H.4 and 249A.4.

**441—85.22(249A) Eligibility of persons under the age of 21.**

**85.22(1) Age.** To be eligible for payment for the cost of care provided by a psychiatric medical institution for children, the person shall be under 21 years of age. When treatment in the facility is provided immediately preceding the individual’s twenty-first birthday, coverage continues to be available until the twenty-second birthday or until service is no longer required, whichever is earlier.

**85.22(2) Period of eligibility.** The person is considered to be an inpatient until unconditionally discharged. Coverage extends until the last day of the month of the discharge or the twenty-second birthday. While on inpatient status, the eligible individual is entitled to the full scope of Medicaid benefits.

**85.22(3) Certification for need for care.** For persons eligible for Medicaid prior to admission, an independent team shall certify that ambulatory care resources available in the community do not meet the treatment needs of the recipient, that proper treatment of the recipient’s psychiatric condition requires services on an inpatient basis under the direction of a physician, and that the services can reasonably be expected to improve the recipient’s condition or prevent further regression so that the services will no longer be needed. Team members are independent when they are not employees of or consultants to the facility. Form 470-2780, Certification of Need for Inpatient Psychiatric Services, may be used to document these criteria.

*a.* For persons determined eligible for Medicaid prior to admission, this preadmission certification shall be performed within 45 days prior to the proposed date for admission to the facility by an independent team that includes a physician who has competence in diagnosis and treatment of mental illness, preferably in child psychiatry, and who has knowledge of the person’s situation. If a social worker is a part of the team, the social worker may be from the county office of the department of human services.

The evaluation shall be submitted to the facility on or prior to the date of the patient’s admission.

*b.* When a person makes application for Medicaid subsequent to admission or has an application in process at the time of admission, a certification by the team responsible for the plan of care shall be provided within 14 days after admission and shall cover any period prior to application for which claims are to be made.

*c.* For emergency admissions, a certification shall be provided by the team responsible for the plan of care within 14 days after admission.

**85.22(4) Financial eligibility for persons under the age of 21.** To be eligible for payments for the cost of care provided by psychiatric medical institutions, persons under the age of 21 shall be eligible under one of the coverage groups listed in rule 441—75.1(249A), except medically needy.

**441—85.23(249A) Client participation.** The resident’s client participation and medical payments from a third party shall be paid toward the total cost of care on a monthly basis. The state will pay the balance of the cost of care for the month. The facility shall make arrangements directly with the resident for payment of client participation. Client participation is determined according to rule 441—75.16(249A).

**441—85.24(249A) Responsibilities of facilities.**

**85.24(1) Medical record requirements.** The medical records maintained by psychiatric medical institutions for children shall permit determination of the degree and intensity of the treatment provided to persons who are furnished services in the facility.

a. Development of assessment and diagnostic data. Medical records shall stress the psychiatric components of the record, including history of findings and treatment provided for the psychiatric condition for which the patient is admitted.

(1) The identification data shall include the patient's legal status.

(2) A provisional or admitting diagnosis shall be made on every patient at the time of admission, and shall include the diagnoses of intercurrent diseases as well as the psychiatric diagnoses.

(3) The reasons for admission shall be clearly documented as stated by the patient or others significantly involved.

(4) The social service records, including reports of interviews with patients, family members, and others, shall provide an assessment of home plans and family attitudes and community resource contacts, as well as a social history.

(5) When indicated, a complete neurological examination shall be recorded at the time of the admission physical examination.

b. Psychiatric evaluation. Each patient shall receive a psychiatric evaluation that shall:

(1) Be completed within seven days of admission.

(2) Include a medical history.

(3) Contain a record of mental status.

(4) Note the onset of illness and the circumstances leading to admission.

(5) Describe attitudes and behavior.

(6) Estimate intellectual functioning, memory functioning, and orientation.

(7) Include an inventory of the patient's assets in descriptive, not interpretive, fashion.

c. Treatment plan.

(1) Each patient shall have an individual comprehensive treatment plan that shall be based on an inventory of the patient's strengths and disabilities. The written plan shall include a substantiated diagnosis, short-term and long-range goals, the specific treatment modalities utilized, the responsibilities of each member of the treatment team, and adequate documentation to justify the diagnosis and the treatment and rehabilitation activities carried out.

(2) The treatment received by the patient shall be documented in a way to ensure that all active therapeutic efforts are included.

d. Recording progress. Progress notes shall be recorded by the doctor of medicine or osteopathy responsible for the care of the patient, nurse, social worker and, when appropriate, others significantly involved in active treatment modalities. The frequency of progress notes is determined by the condition of the patient but shall be recorded at least weekly for the first two months and at least once a month thereafter and shall contain recommendations for revisions in the treatment plan as indicated, as well as precise assessment of the patient's progress in accordance with the original or revised treatment plan.

e. Discharge planning and discharge summary. The record of each patient who has been discharged shall have a discharge summary that includes a recapitulation of the patient's stay at the facility and recommendations from appropriate services concerning follow-up or aftercare, as well as a brief summary of the patient's condition on discharge.

f. The facility shall obtain a professional review organization (PRO) determination that the person requires psychiatric medical institution level of care when a person applying or eligible for Medicaid enters the facility, returns from an acute care hospital stay longer than 10 days, or enters the facility after 30 consecutive days of visitation. Periodic PRO determinations of the need for continuing care are also required.

**85.24(2) Fiscal records.**

a. A Case Activity Report, Form 470-0042, shall be submitted to the department whenever a Medicaid applicant or recipient enters the facility, changes level of care, is hospitalized, leaves for visitation, or is discharged from the facility.

b. The facility shall bill after each calendar month for the previous month's services.

**85.24(3) Additional requirements.** Additional requirements are mandated for persons under the age of 21.

*a. Active treatment.* Inpatient psychiatric services shall involve active treatment. Active treatment means implementation of a professionally developed and supervised individual plan of care that is developed and implemented by an interdisciplinary team no later than 14 days after admission and is designed to achieve the recipient's discharge from inpatient status at the earliest possible time.

*b. Individual plan of care.* An individual plan of care is a written plan developed for each recipient to improve the recipient's condition to the extent that inpatient care is no longer necessary. The plan shall be reviewed every 30 days by the team to determine that services being provided are or were required on an inpatient basis and to recommend changes in the plan as indicated by the recipient's overall adjustment as an inpatient. The plan of care shall:

(1) Be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral and developmental aspects of the recipient's situation and reflects the need for inpatient psychiatric care.

(2) Be developed by a team of professionals, as specified in paragraph "c" below, in consultation, if possible, with the recipient and the recipient's parents, legal guardians or others in whose care the recipient will be released after discharge.

(3) State the treatment objectives.

(4) Prescribe an integrated program of therapies, activities and experiences designed to meet the objectives.

(5) Include, at an appropriate time, postdischarge plans and coordination of inpatient services with partial discharge plans and related community services to ensure continuity of care with the recipient's family, school and community upon discharge.

*c. Interdisciplinary team.* The individual plan of care shall be developed by an interdisciplinary team of physicians and other personnel who are employed by the facility or who provide services to patients in the facility. Membership in the interdisciplinary plan of care team includes those physicians and other professionals who are involved in the direct provision of treatment services, involved in the organization of the plan of care, or involved in consulting with or supervising those professionals involved in the direct provision of care.

(1) Based on education and experience, preferably including competence in child psychiatry, the team shall be capable of assessing the recipient's immediate and long-range therapeutic needs, developmental priorities, and personal strengths and liabilities; assessing the potential resources of the recipient's family; setting treatment objectives; and prescribing therapeutic modalities to achieve the plan's objectives.

(2) The team shall include, as a minimum, either a board-eligible or board-certified psychiatrist, a clinical psychologist who has a doctoral degree and a physician licensed to practice in medicine or osteopathy, or a physician licensed to practice medicine or osteopathy with specialized training and experience in the diagnosis and treatment of mental diseases and a psychologist who has a master's degree in clinical psychology and has been licensed by the state.

(3) The team shall also include one of the following: a social worker with a master's degree in social work with specialized training or one year's experience in treating persons with mental illness, a registered nurse with specialized training or one year's experience in treating persons with mental illness, an occupational therapist who is licensed and who has specialized training or one year of experience in treating persons with mental illness, or a psychologist who has a master's degree in clinical psychology or who has been licensed by the state.

#### **441—85.25(249A) Reimbursement to psychiatric medical institutions for children.**

**85.25(1)** *Computation of inpatient rate for non-state-owned facilities prior to July 1, 2014, and for state-owned facilities.* For services rendered by non-state-owned facilities on or before June 30, 2014, or by state-owned facilities, facilities are paid at a per diem rate based on the facility's actual and allowable cost for the service not to exceed the upper limit as provided in 441—subrule 79.1(2).

*a.* Rates for new facilities are based on historical costs submitted on Form 470-0664, Financial and Statistical Report for Purchase of Service Contracts, if the institution is established and has the historical data. If the institution is newly established, the rate shall be based on a proposed budget submitted on

Form 470-0664. A Form 470-0664 with actual cost data shall be submitted after at least six months of participation in the program for a new rate adjustment.

*b.* After the initial cost report period, the institution shall submit Form 470-0664 annually within three months of the close of the facility's fiscal year. Failure to submit the report within this time shall reduce payment to 75 percent of the current rate. The reduced rate shall be paid for no longer than three months, after which time no further payments will be made.

*c.* For services rendered on or after August 1, 2011, rates paid shall be adjusted to 100 percent of the facility's actual and allowable average costs per patient day, based on the cost information submitted pursuant to paragraphs 85.25(1) "a" and "b," subject to the upper limit provided in 441—subrule 79.1(2) for non-state-owned facilities. Before rate adjustment, providers shall be paid a prospective interim rate equal to the previous year's retrospectively calculated unit-of-service rate.

**85.25(2)** *Inpatient reimbursement for non-state-owned facilities effective January 1, 2016.* Services rendered by non-state-owned facilities on or after January 1, 2016, are paid on a fee-for-service basis.

**85.25(3)** *Reserve bed payments.*

*a.* Reserve bed day payment for days a resident of a psychiatric medical institution for children is absent from the facility for hospitalization in an acute care general hospital is paid in accordance with the following policies:

(1) The intent of the department and the facility shall be for the resident to return to the facility after the hospitalization.

(2) Staff from the psychiatric medical institution shall be available to provide support to the child and family during the hospitalization.

(3) Payment for reserve bed days shall be canceled and payment returned if the facility refuses to accept the child back except when the department and the facility agree that the return would not be in the child's best interests. If the department and the facility agree that the return would not be in the child's best interests, payment shall be canceled effective the day after the joint decision not to return the child.

(4) Payment will not be authorized for over ten days per calendar month and will not be authorized for over ten days for any continuous hospital stay.

*b.* Reserve bed days for visitation shall be made for days a resident is absent from a psychiatric medical institution for children at the time of a nightly census for the purpose of visitation when the absence is in accordance with the following policies:

(1) The visits are consistent with the child's case permanency plan and the facility's individual case plan.

(2) The intent of the department and the facility shall be for the child to return to the facility after the visitation.

(3) Staff from the psychiatric medical institution shall be available to provide support to the child and family during the visit.

(4) Payment for reserve bed days shall be canceled and payments returned if the facility refuses to accept the child back except when the department and the facility agree that the return would not be in the child's best interests. If the department and the facility agree that the return would not be in the child's best interests, payment shall be canceled effective the day after the joint decision not to return the child.

(5) Payment for reserve bed days shall be canceled effective the day after a decision not to return the child is made by the court or, in a voluntary placement, by the parent.

(6) Payment for reserve bed days shall not exceed 14 consecutive days or 30 days per year, except upon written approval of the regional administrator. In no case shall payment exceed 60 days per year for visitation or other absences.

*c.* Reserve bed payment shall be made for days a resident is absent from a psychiatric medical institution for children at the time of the nightly census for reasons such as detention, shelter care, or running away when the absence is in accordance with the following policies:

(1) The intent of the department and the psychiatric medical institution for children shall be for the child to return to the facility after the absence.

(2) Payment for reserve bed days shall be canceled and payments returned if the facility refuses to accept the child back except when the department and the facility agree that the return would not be in the child's best interests. If the department and the facility agree that the return would not be in the child's best interests, payment shall be canceled effective the day after the joint decision not to return the child.

(3) Payment for reserve bed days shall be canceled effective the day after a decision is made not to return the child by the court or, in a voluntary placement, by the parent.

(4) Payment for reserve bed days shall not exceed 14 consecutive days or 30 days per year, except upon written approval of the regional administrator. In no case shall payment exceed 60 days per year for visitation or other absences.

(5) Reserve bed day payment is not available until the child has been physically admitted to the psychiatric medical institution.

(6) The psychiatric medical institution shall notify the department social worker within 24 hours after the child is out of the facility for running away or other unplanned reasons.

**85.25(4) Day treatment rates.** Outpatient day treatment services are paid on a fixed fee basis. [ARC 8649B, IAB 4/7/10, effective 3/11/10; ARC 8899B, IAB 6/30/10, effective 7/1/10; ARC 9176B, IAB 11/3/10, effective 12/8/10; ARC 9710B, IAB 9/7/11, effective 8/17/11; ARC 0028C, IAB 3/7/12, effective 4/11/12; ARC 2026C, IAB 6/10/15, effective 8/1/15; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—85.26(249A) Outpatient day treatment for persons aged 20 or under.** Payment to a psychiatric medical institution for children will be approved for day treatment services for persons aged 20 or under if the psychiatric medical institution for children is certified by the department of inspections and appeals for day treatment services and the services are provided on the licensed premises of the psychiatric medical institution for children.

EXCEPTION: Field trips away from the premises are a covered service when the trip is therapeutic and integrated into the day treatment program's description and milieu plan. All conditions for the day treatment program for persons aged 20 or under as outlined in 441—subrule 78.16(7) for community mental health centers shall apply to psychiatric medical institutions for children.

These rules are intended to implement Iowa Code section 249A.4.

**441—85.27 to 85.40** Reserved.

DIVISION III  
NURSING FACILITIES FOR PERSONS WITH MENTAL ILLNESS

**441—85.41(249A) Conditions of participation.** A nursing facility for persons with mental illness shall be licensed pursuant to department of inspections and appeals rules 481—Chapter 65, or, if the facility is a distinct part of a hospital, pursuant to department of inspections and appeals rule 481—51.33(135B). A distinct part of a general hospital may be considered a psychiatric institution. In addition, the facility shall be certified to participate in the Iowa Medicaid program as a nursing facility pursuant to 441—Chapter 81 and shall be 16 beds or more. The facility shall also meet the criteria set forth in subrule 85.1(1).

**441—85.42(249A) Out-of-state placement.** Placement in out-of-state nursing facilities for persons with mental illness is not payable.

**441—85.43(249A) Eligibility of persons aged 65 and over.** To be eligible for payment for the cost of care provided by nursing facilities for persons with mental illness, persons must be aged 65 or over and be eligible under one of the coverage groups listed in rule 441—75.1(249A), except for medically needy.

**441—85.44(249A) Client participation.** The resident's client participation and medical payments from a third party shall be paid toward the total cost of care on a monthly basis. The state will pay the balance of the cost of care for the month. The facility shall make arrangements directly with the resident for payment of client participation. Client participation is determined according to rule 441—75.16(249A).

**441—85.45(249A) Responsibilities of nursing facility.**

**85.45(1) Medical record requirements.** The facility shall obtain a PRO determination that the person requires psychiatric care when a person applying or eligible for Medicaid enters the facility, returns from an acute care hospital stay longer than 10 days, or enters the facility after 30 consecutive days of visitation. Periodic PRO determinations of the need for continuing care are also required.

**85.45(2) Fiscal records.**

*a.* A Case Activity Report, Form 470-0042, shall be submitted to the department whenever a Medicaid applicant or recipient enters the facility, changes level of care, is hospitalized, leaves for visitation, or is discharged from the facility.

*b.* The facility shall bill after each calendar month for the previous month's services.

**441—85.46(249A) Policies governing reimbursement.** Cost reporting, reserve bed day payment, and reimbursement shall be the same for nursing facilities for persons with mental illness as for nursing facilities as set forth in 441—Chapter 81.

**441—85.47(249A) State-funded personal needs supplement.** A Medicaid member living in an intermediate care facility for persons with mental illness who has countable income for purposes of rule 441—75.16(249A) of less than \$50 per month shall receive a state-funded payment from the department for the difference between that countable income and \$50 if the legislature has appropriated funding specifically for this purpose. This payment shall not be considered a benefit under Title XIX of the Social Security Act.

This rule is intended to implement Iowa Code Supplement section 249A.30A.

These rules are intended to implement Iowa Code section 249A.4.

CHAPTER 88  
SPECIALIZED MANAGED CARE PROGRAMS

[Prior to 2/11/87, Human Services[498]]

PREAMBLE

This chapter provides for specialized programs of managed care, within the Iowa medical assistance program but outside of managed care pursuant to 441—Chapter 73. Managed care providers under these programs are not required to comply with 441—Chapter 73.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

DIVISION I  
PREPAID HEALTH PLANS

**441—88.1(249A) Definitions.**

“*Capitation rate*” shall mean the fee the department pays monthly to a PHP for each enrolled recipient for the provision of covered medical services whether or not the enrolled recipient received services during the month for which the fee is intended.

“*Contract*” shall mean a contract between the department and a PHP for the provision of medical services to enrolled Medicaid recipients for whom the PHP assumes a risk as defined in the contract. These contracts shall meet the requirements of the Code of Federal Regulations, Title 42, Part 434 as amended to December 31, 1996.

“*Department*” shall mean the Iowa department of human services.

“*Emergency service*” shall mean those medical services rendered under unforeseen conditions which require hospitalization for the treatment of accidental injury and relief of acute pain, which, if not immediately diagnosed and treated, would result in risk of permanent danger to the patient’s health.

“*Enrollment area*” shall mean the county or counties which the PHP has capability to serve and is defined in the contract with the department. An enrollment area shall not be less than an entire county.

“*Grievance*” shall mean an incident, complaint, or concern which cannot be resolved in a manner satisfactory to enrolled recipients by the immediate response, verbal or otherwise, of the PHP staff member receiving the complaint or any complaint received in writing.

“*Managed health care*” shall mean any one of the alternative deliveries of regular, fee-for-service Medicaid such as defined in subrules dealing with health maintenance organizations (HMOs), or prepaid health plans (PHPs), or Medicaid Patient Access to Service System (MediPASS).

“*Managed health care review committee*” shall mean a committee composed of representatives from the department. The committee shall review and render a decision on all requests for disenrollment which are not automatically approvable.

“*Managed services*” shall mean all or part of those medical services set forth in 441—Chapter 78 and covered in the contract between the department and a PHP.

“*Nonmanaged services*” shall mean medical services covered under regular Medicaid, but which are not covered in the PHP’s contract with the department. Payment for nonmanaged services incurred by an enrolled recipient shall be made under regular Medicaid procedures.

“*Participating providers*” shall mean the providers of covered medical services who subcontract with or who are employed by the PHP.

“*Prepaid health plan (PHP)*” shall mean an entity defined in Section 1903(m)(2)(B)(iii) of the Social Security Act and considered to be a PHP by the department based upon criteria set forth in the Code of Federal Regulations at Title 42, Part 434.20(a)(3) as amended to March 31, 1991.

“*Recipient*” shall mean any person determined by the department to be eligible for Medicaid and for PHP enrollment. See subrule 88.2(4) for a list of Medicaid eligibles who are not eligible for PHP enrollment.

“*Routine care*” shall mean medical care which is not urgent or emergent in nature and can wait for a regularly scheduled physician appointment without risk of permanent damage to the patient’s life or health status. The condition requiring routine care is not likely to substantially worsen without immediate clinical intervention.

“*Urgent, nonemergency need*” shall mean the existence of conditions due to an illness or injury which are not life threatening but which require expeditious treatment because of the prospect of the condition worsening without immediate clinical intervention.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.2(249A) Participation.**

**88.2(1) *Contracts with PHPs.*** The department shall enter into contracts for the scope of services specified in 441—Chapter 78, or a part thereof, with a PHP which has verified to the department that the criteria set forth in the Social Security Act have been met. This verification shall be reviewed by Centers for Medicare and Medicaid Services (CMS) staff to ensure that the status of PHP is rightfully conferred. The department may also include the scope of services described in 441—Chapter 74, known as the Iowa Health and Wellness Plan, or part thereof, in contracts with PHPs.

a. The department shall also determine that the PHP meets the following additional requirements:

(1) The PHP shall make the services it provides to enrolled recipients at least as accessible (in terms of timeliness, duration, and scope) to them as those services are accessible to recipients in the enrollment area who are not enrolled.

(2) The PHP shall provide satisfaction to the department that insolvency is not likely to occur and that enrolled Medicaid recipients shall not be responsible for its debts if the PHP should become insolvent.

b. The contract shall meet the following minimum requirements. The contract shall:

(1) Be in writing.

(2) Be renewable by mutual consent for a period of up to three years.

(3) List the services covered.

(4) Describe information access and disclosure.

(5) List conditions for nonrenewal, termination, suspension, and modification.

(6) Specify the method and rate of reimbursement.

(7) Provide for disclosure of ownership and subcontractor relationship.

(8) Be made with the licensee by the department.

c. Any protests to the award of contracts shall be in writing and submitted to the director of the department. Prior to termination or suspension of a contract, the department shall send a notice to cure to the PHP, specifying the number of days the PHP has to correct the problems. Failure to correct the problems in the time given shall then result in termination or suspension. The PHP may appeal the decision of the department in writing to the director of the department or to the federal Department of Health and Human Services, Centers for Medicare and Medicaid Services, if the appeal documents state violations of federal law or regulation.

**88.2(2) *Method of selection of PHP.*** In counties served by a single prospective PHP, the department shall attempt to negotiate directly with the PHP. In counties where two or more prospective PHPs exist, the department shall initiate communication and attempt to negotiate as many contracts as are administratively feasible.

**88.2(3) *Termination of contract.*** Either party may, by mutual consent, terminate a contract. Either party may give 60 days written notice to the other party. The effective date of termination must be the first day of a month. The department may terminate or suspend a contract if the contract is determined by the department to be inconsistent with the overall goals and objectives of the Medicaid program. The determination shall be based upon, but not limited to, the following:

a. The PHP’s delivery system does not ensure enrolled recipients adequate access to medical services.

b. The PHP’s delivery system does not ensure the availability of all services covered under the contract.

c. There are not proper assurances of solvency on the part of the PHP.

d. There is not substantial compliance with all provisions of the contract.

*e.* The PHP has discriminated against persons eligible to be covered under the contract on the basis of age, race, sex, religion, national origin, creed, color, physical or mental disability, political belief, health status, or the need for health services.

**88.2(4) Recipients eligible to enroll.** Any Medicaid-eligible recipient is eligible to enroll in a contracting PHP except for the following:

- a.* Recipients who are medically needy as defined at 441—subrule 75.1(35).
- b.* Recipients over the age of 65 and under the age of 21 in psychiatric institutions as defined at 441—Chapter 85.
- c.* Recipients who are supplemental security income-related case members.
- d.* Rescinded IAB 10/3/01, effective 12/1/01.
- e.* Recipients whose eligibility is in the process of automatic redetermination as defined at rule 441—76.11(249A).
- f.* Recipients who are foster care and subsidized adoption-related case members.
- g.* Recipients who are Medicare beneficiaries.
- h.* Recipients who are pregnant women and who are deemed to be presumptively eligible as defined at 441—subrule 75.1(30).
- i.* Recipients who are Native American Indians or Alaskan natives.
- j.* Recipients who are receiving services from a Title V provider.

[ARC 1135C, IAB 10/30/13, effective 10/2/13; ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.3(249A) Enrollment.**

**88.3(1) Enrollment area.** Counties in a PHP enrollment area shall be designated as voluntary or mandatory. In voluntary counties, enrollment is not required but eligible recipients may choose to join the PHP. Recipients not excluded in rule 441—88.1(249A) may volunteer to enroll in the PHP. In mandatory counties, enrollment in managed health care is required for eligible recipients.

**88.3(2) Voluntary enrollment.** When only one managed health care option is providing service in a county, enrollment by recipients is voluntary. The department encourages recipients to enroll in a managed health care option. Applicants and recipients are offered the option of managed health care enrollment or regular Medicaid coverage. Applicants and recipients who do not choose one option or the other shall be assigned to a managed health care provider as defined in subrule 88.3(6). These persons shall have the right to request disenrollment at any time as defined in subrule 88.3(3).

Applicants or recipients may designate their choices of providers on a form designated by the managed health care contractor or in writing to or through a verbal request to the managed health care contractor. The form shall be available through the county office, the PHP office, provider offices, the managed health care contractor, or other locations at the department's discretion. If the PHP (or any entity listed above other than the managed health care contractor) receives the form, it shall be forwarded to the managed health care contractor within three working days.

Recipients shall be accepted by the PHP as they are enrolled by the department unless a maximum limit has been specified in the contract.

Recipients who choose not to enroll in a PHP shall be covered under regular Medicaid.

**88.3(3) Mandatory enrollment.** In a county where the department has a contract with more than one PHP, HMO, or other managed health care provider, the department shall require whenever it is administratively feasible that all eligible recipients enroll with a managed health care provider of their own choosing. Administrative feasibility is determined by whether the managed health care providers have the capacity to adequately serve all potential enrolled recipients. Recipients may enroll by completing the choice form designated by the managed health care contractor, in writing to or through verbal request to the managed health care offices. Recipients may also contact the managed health care contractor by the publicized toll-free telephone number for enrollment assistance.

**88.3(4) Effective date.** The effective date of enrollment shall be no later than the first day of the second month subsequent to the date on which the managed health care contractor receives the form designated by the managed health care contractor.

**88.3(5) Identification card.** The PHP may issue an appropriate identification card to the enrolled recipient or request the department to do so on its behalf. The identification card shall be issued so that the recipient receives it prior to the effective date of enrollment.

**88.3(6) Assignment methodology.** When no choice is made, the recipient shall be systematically assigned to, between, or among the contracting managed health care providers.

*a. Notification.* Recipients who are assigned to a managed health care provider shall receive notification of the assignment and the name of the provider in a timely fashion prior to the effective date of enrollment.

*b. Limitations.* Contracting providers may specify in the contract a limit to the number of recipients who can be assigned under this subrule. If a specified limitation is attained, the remaining assignment needs in that county shall be met by the other managed health care providers who are contracting with the department in that county.

*c. Household member enrollment.* Inasmuch as persons within a household are allowed to make individual decisions about choosing enrollment in managed health care, it is possible that a case may exist where some household members have made a choice and some have not (so that assignment is required). In these instances, a systematic search of household member choices regarding managed health care option shall be completed. Assignment of those who have made no choice shall be made whenever possible to the managed health care provider with whom the first household member is already enrolled.

*d. Assigned recipients who desire another choice.* Recipients who are assigned to a managed health care provider as described in this subrule shall have at least 30 days in which to request enrollment in a different available managed health care plan. The change of plan is subject to provisions in subrules 88.3(4) and 88.4(2) dealing with effective date.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.4(249A) Disenrollment.**

**88.4(1) Disenrollment request.** An enrolled recipient may request disenrollment at any time. In voluntary counties, this request shall be approved and acted upon within ten days of receipt without requiring the recipient to demonstrate good cause. In mandatory counties as defined at subrule 88.3(3), the disenrollment shall not be acted upon by the health care contractor unless the request includes an alternate choice of managed health care.

**88.4(2) Effective date.** Disenrollment will be effective no later than the first day of the second calendar month after the month in which the department receives a request for disenrollment. The recipient will remain enrolled in the PHP and the PHP will be responsible for services covered under the contract until the effective date of disenrollment which will always be the first day of a month.

**88.4(3) Disenrollment process.** If the recipient is requesting disenrollment, the recipient shall complete the choice form designated by the managed health care contractor which can be obtained through the PHP, the county office, or the managed health care contractor. If the PHP receives a request from the recipient, the PHP shall forward the form to the managed health care contractor within three working days. If the recipient must show good cause for disenrollment, the determination as to whether disenrollment shall occur shall be made by the managed health care review committee within 30 days. If the recipient or the PHP disagrees with the decision of the review committee, an appeal may be filed under the provisions of 441—Chapter 7. If the PHP is requesting disenrollment, the PHP shall complete Form 470-2169, Managed Health Care Provider Request for Disenrollment. If the county office receives a completed Form 470-2169 from the managed health care provider, the county office shall forward the form to the managed health care review committee within three working days.

*a. Request for disenrollment by the recipient.* In voluntary counties, the request shall be approved and acted upon within ten days of receipt by the managed health care contractor. In mandatory counties, a request for disenrollment shall be denied unless a choice of another managed health care provider is requested simultaneously or good cause can be demonstrated to the review committee. Examples of good cause include services received which were untimely, inaccessible, of insufficient quality, or inadequately provided by all of the contracting managed health care providers in the recipient's county of residence. If the recipient has not experienced the above conditions in all the other available managed health care

programs, enrollment in one of the alternative managed health care programs shall be a condition of approving disenrollment.

*b. Request for disenrollment by the PHP.* With prior approval of the managed health care review committee, a request for disenrollment of an enrolled recipient may be approved when:

- (1) There is evidence of fraud or forgery in the use of PHP services or in the choice for PHP services.
- (2) There is evidence of unauthorized use of the PHP identification card.
- (3) Upon documentation, the PHP has been unable after reasonable efforts to establish or maintain a satisfactory physician-patient relationship with the recipient.

**88.4(4) *Disenrollments by the department.*** Disenrollments will occur when:

- a.* The contract between the department and the PHP is terminated.
- b.* The recipient becomes ineligible for Medicaid. If the recipient becomes ineligible and is later reinstated to Medicaid, enrollment in the PHP will also be reinstated.
- c.* The recipient permanently moves outside the PHP's enrollment area.
- d.* The recipient transfers to an eligibility group excluded from PHP enrollment. See definition of recipient in rule 441—88.1(249A).
- e.* The department has determined that participation in the HIPP (Health Insurance Premium Payment) program as described in rule 441—75.21(249A) is more cost-effective than enrollment in managed health care.

**88.4(5) *No disenrollment for health reasons.*** No recipient shall be disenrolled from a PHP because of an adverse change in health status.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.5(249A) Covered services.**

**88.5(1) *Amount, duration, and scope of services.*** Except as provided for in the contract, PHPs shall cover as a minimum all services covered by the Medicaid program as set forth in 441—Chapter 78.

**88.5(2) *Mandatory services.***

*a.* Although the contract may specify additional services covered (with the exception of those defined in 88.5(3)), the PHP shall cover as a minimum the following services:

- (1) Inpatient hospital services.
- (2) Outpatient hospital services.
- (3) Physician services.
- (4) Family planning services.
- (5) Home health agency services.
- (6) Laboratory and X-ray services.
- (7) Early periodic screening, diagnosis and treatment for persons under age 21.
- (8) Rural health clinic services (where available).
- (9) Advanced registered nurse practitioners.

*b.* PHPs shall attempt to subcontract with all local family planning clinics funded by Title X moneys and all maternal and child health centers funded by Title V moneys.

*c.* According to the Consolidated Omnibus Budget Reconciliation Act of 1985, Public Law 99-272, recipients enrolled in managed health care options (including PHPs) may seek family planning services anywhere without referral, even if they are minors. The PHP must pay any claims submitted by a provider of family planning services when the service has been provided to a recipient in a month for which a capitation rate has been paid on the recipient's behalf to the PHP by the department.

**88.5(3) *Excluded services.*** Unless specifically included in the contract, PHPs will not be required to cover long-term care (skilled nursing facilities, intermediate care facilities, residential care facilities, state resource centers, or intermediate care facilities for the mentally retarded), inpatient psychiatric care provided at the state-administered mental health institutes, services provided by the area education agencies, services provided at specialized adolescent psychiatric facilities, day treatment and partial hospitalization services for persons aged 20 or under, or the enhanced services provided to certain eligible recipients. Reimbursement to recipients for nonemergency medical transportation as described at rule

441—78.13(249A) will not be covered by the PHP; the department will continue to reimburse through its fee-for-service methodology for this service.

**88.5(4) *Restrictions and limitations.*** If the PHP covers a type of service which is also covered under Medicaid, the PHP may not impose any restrictions or limitations on that service more stringent than those applicable in Medicaid according to the provisions at 441—Chapter 78. The PHP may, at its discretion, offer services to its enrolled recipients beyond the scope of Medicaid as defined at 441—Chapter 78.

**88.5(5) *Recipient use of PHP services.*** An enrolled recipient must utilize PHP participating providers of service. No payment by the PHP will be made for services provided by non-PHP providers if the same type of service is available through the PHP under its contract with the department except as provided in subrule 88.5(2) “c,” and rule 441—88.6(249A).

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.6(249A) Emergency services.**

**88.6(1) *Availability of services.*** The PHP will ensure that the services of a primary care physician are available on an emergency basis 24 hours a day, seven days a week, either through the PHP’s own providers or through arrangements with other providers. In addition, the PHP must provide payment to nonparticipating providers within 60 days of receipt of the bill for all contracted services furnished by providers which do not have contractual arrangements with the PHP to provide services but which were needed immediately because of an injury or illness and in which case the illness or injury did not permit a choice of provider.

**88.6(2) *PHP payment liability.*** PHP payment liability on account of injury or emergency illness is limited to emergency care required before the recipient can, without medically harmful consequences, return to the enrollment area or to the care of a provider with whom the PHP has arrangements to provide services. If an ambulance is necessary to transport the recipient to follow-up treatment, the PHP shall be financially liable. Benefits for continuing the follow-up treatment are provided only in the PHP’s enrollment area.

If an enrolled recipient is injured or becomes ill and receives emergency services outside the PHP’s enrollment area, the PHP shall pay the facility or person who provided the emergency care for emergency medical services and medical services, for inpatient hospital services in a general hospital as a result of the emergency, and for emergency ambulance service.

**88.6(3) *Notification and claim filing time span.*** The PHP may set notification and claim filing time limitations in the event of the provision of care by nonparticipating providers. However, failure to give notice or to file claims within those time limitations will not invalidate any claim if it can be shown that it was not reasonably possible to give the notice and that notice was, in fact, given as soon as was reasonably possible.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.7(249A) Access to service.**

**88.7(1) *Choice of provider.*** Recipients will have the opportunity to choose their health care professionals to the extent possible and medically appropriate from any of the PHP providers participating in the Medicaid contract.

**88.7(2) *Medical service delivery sites.*** Medical service delivery sites shall have the following specific characteristics:

- a. Be located within 30 miles of and be accessible from the personal residences of enrolled recipients.
- b. Have sufficient staff resources to adequately provide the medical services for which the contract is in effect including physicians with privileges at one or more acute care hospitals.
- c. Have arrangements for services to be provided by other providers where in-house capability to serve specific medical needs does not exist.
- d. Meet the applicable standards for participating in the Medicaid program.
- e. Be in compliance with all applicable local, state, and federal standards related to the service provided as well as those for fire and safety.

**88.7(3) Adequate appointment system.** The PHP shall have procedures for the scheduling of patient appointments which are appropriate to the reason for the visit as follows:

- a. Patients with urgent nonemergency needs shall be seen within one hour of presentation at a PHP medical service delivery site.
- b. Patients with persistent symptoms shall be seen within 48 hours of reporting of the onset of the persistent symptoms.
- c. Patient routine visits shall be scheduled within four to six weeks of the date the patient requests the appointment.
- d. Scheduling of appointments shall be by specific time intervals and not on a block basis.

**88.7(4) Adequate after hours call-in coverage.** The PHP must have in effect the following arrangements which provide for adequate after hours call-in coverage:

- a. Twenty-four-hour-a-day telephone coverage shall exist.
- b. If a physician does not respond to the initial telephone call, there must be a written protocol specifying when a physician must be consulted. Calls requiring a medical decision shall be forwarded to the on-call physician and a response to each call which requires a medical decision must be provided within 30 minutes.
- c. Notations shall be made in the patient's medical record of relevant information related to an after-hours call.

**88.7(5) Adequate referral system.** The PHP must effect the following arrangements which provide for an adequate referral system:

- a. A network of referral sources for all services which are covered in the contract, but not directly provided by the PHP.
- b. Procedures for the return of relevant medical information from referral sources including review of information by the referring physicians, entry of information into the patient's medical record, and arrangements for periodic reports from ongoing referral arrangements.
- c. A notation in the medical record for hospitals' patients indicating the reason, date, and duration of hospitalization and entry of pertinent reports from the hospitalization and discharge planning in the medical record.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.8(249A) Grievance procedures.**

**88.8(1) Written procedure.** The PHP must have a written procedure by which enrolled recipients may express grievances, complaints, or recommendations, either individually or as a class and which:

- a. Is approved by the department prior to use.
- b. Acknowledges receipt of a grievance to the grievant.
- c. Sets time frames for resolution including emergency procedures which are appropriate to the nature of the grievance and which require that all grievances shall be resolved within 30 days.
- d. Ensures the participation of persons with authority to require corrective action.
- e. Includes at least one level of appeal.
- f. Ensures the confidentiality of the grievant.

**88.8(2) Written record.** All grievances, including all informal or verbal complaints, which must be referred or researched for resolution must be recorded in writing. A log of the grievances must be retained and made available at the time of audit and must include progress notes and method of resolution.

**88.8(3) Information concerning grievance procedures.** The PHP's written grievance procedure must be provided to each newly enrolled recipient not later than the effective date of coverage.

**88.8(4) Appeals to the department.** A recipient who has exhausted the grievance procedure of the PHP may appeal the issue to the department under the provisions of 441—Chapter 7. Instances where the substance of the grievance relates to department policy shall be appealed directly to the department.

**88.8(5) Periodic report to the department.** The PHP shall make quarterly reports to the department summarizing grievances and resolutions as specified in the contract.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.9(249A) Records and reports.**

**88.9(1) *Medical records system.*** The PHP shall comply with the provisions of rule 441—79.3(249A) regarding maintenance and retention of clinical and fiscal records and, in addition, the PHP must maintain a medical record system which:

- a. Identifies each medical record by the departmentally assigned state identification number.
- b. Identifies the location of every medical record.
- c. Places medical records in a given order and location.
- d. Provides a specific medical record on demand.
- e. Maintains the confidentiality of medical records information and releases the information only in accordance with established policy pursuant to subrule 88.9(3).
- f. Maintains inactive medical records in a specific place.
- g. Permits effective professional review in medical audit processes.
- h. Facilitates an adequate system for follow-up treatment including monitoring and follow-up of off-site referrals and inpatient stays.
- i. Meets state and federal reporting requirements applicable to PHPs.

**88.9(2) *Content of individual medical record.*** The PHP must have in effect arrangements which provide for an adequate medical record-keeping system which includes a complete medical record for each enrolled recipient in accordance with provisions set forth in the contract.

**88.9(3) *Confidentiality of records.*** PHPs must maintain the confidentiality of medical record information and release the information only in the following manner:

- a. All medical records of enrolled recipients shall be confidential and shall not be released without the written consent of the enrolled recipients or the responsible party acting on behalf of the enrolled recipient.
- b. Written consent is not required for the transmission of medical record information to physicians, other practitioners, or facilities which are providing services to enrolled recipients under a subcontract with the PHP. This provision also applies to specialty providers who are retained by the PHP to provide services which are infrequently used or are of an unusual nature.
- c. Written consent is not required for the transmission of medical record information to physicians or facilities providing emergency care pursuant to rule 441—89.26(249A).
- d. Written consent is required for the transmission of medical record information of a former enrolled recipient to any medical provider not connected with the PHP.
- e. The extent of medical record information to be released in each instance shall be based upon tests of medical necessity and a “need to know” on the part of the practitioner or facility requesting the information.
- f. Medical records maintained by subcontracting providers must meet the requirements of this rule.

**88.9(4) *Reports to the department.*** Each PHP shall submit reports to the department as follows:

- a. Annual audited financial statements no later than 120 days after the close of the PHP’s fiscal year.
- b. Periodic financial, utilization, and statistical reports as required by the department under the contract.

**88.9(5) *Audits.*** The department or its designee and the U.S. Department of Health and Human Services (HHS) may evaluate through inspections or other means, the quality, appropriateness, and timeliness of services performed by the PHP. The department or HHS may audit and inspect any records of a PHP, or the subcontractors of a PHP, which pertain to services performed and the determination of amounts paid under the contract. These records will be made available at times, places, and in a manner as authorized representatives of the department, its designee, or HHS may request.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.10(249A) Marketing.**

**88.10(1) *Marketing procedures.*** All marketing plans, procedures, and materials used by the PHP must be approved in writing by the department prior to use. Random door-to-door marketing of low-income families or the offering of financial incentives will not be approved.

**88.10(2) *Marketing representatives.*** Marketing representatives utilized to market Medicaid recipients must be sufficiently trained and capable of performing marketing activities within the requirements of the contract. The PHP's marketing representatives must represent the PHP in an honest and straightforward manner. In its marketing presentations, the PHP must include information which ensures that the representative is not mistaken for a department employee. Marketing presentations which intentionally belittle or maliciously downplay the benefit package, services, or providers of another participating managed health care option will not be approved.

**88.10(3) *Marketing presentations.*** The PHP may make marketing presentations in the local office(s) of the department or otherwise include the department in marketing efforts at the discretion of the department.

**88.10(4) *Marketing materials.*** Written material must include a marketing brochure or a member handbook which fully explains the services available, how and when to obtain them, and special factors applicable to enrolled recipients as specified in the contract.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.11(249A) Patient education.**

**88.11(1) *Use of services.*** The PHP shall have procedures in effect to orient enrolled recipients in the use of services the PHP is contracting to provide. This includes what to do if the recipient requires medical care while out of the enrollment area, a 24-hour-a-day telephone number, appropriate use of the referral system, grievance procedures, and how emergency treatment is to be provided.

**88.11(2) *Patient rights and responsibilities.*** The PHP shall have in effect a written statement of patient rights and responsibilities which is available upon request as well as issued to all new enrolled recipients. This statement may be part of an informational brochure provided to all new enrollees. The right of the enrolled recipient to request disenrollment must be included.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.12(249A) Payment to the PHP.**

**88.12(1) *Capitation rate.*** In consideration for all services rendered by a PHP under a contract with the department, the PHP will receive a payment each month for each enrolled recipient. This capitation rate represents the total obligation of the department with respect to the costs of medical care and services provided to enrolled recipients under the contract.

**88.12(2) *Determination of rate.*** The capitation rate is actuarially determined by the department for the beginning of the new fiscal year using statistics and data about Medicaid fee-for-service expenses for PHP-covered services to a similar population during the preceding fiscal year. (For example, fiscal year 1990 rates are predicted with fiscal year 1988 dates of service for Medicaid fee-for-service expenditures.) The capitation rate may not exceed the cost to the department of providing the same services on a fee-for-service basis to an actuarially equivalent nonenrolled population group. A 1 percent incentive will be available to PHPs who contract to cover all services except those specified in subrule 88.5(3). PHPs electing to share risk with the department will have their payment rates reduced by an amount reflecting the department's experience for high cost fee-for-service recipients.

**88.12(3) *Amounts not included in rate.*** The capitation rate does not include any amounts for the recoupment of losses suffered by the PHP for risks assumed under the current or any previous contract. The PHP accepts the rate as payment in full for the contracted services. Any savings realized by the PHP due to lower utilization from a less frequent incidence of health problems among the enrolled population shall be wholly retained by the PHP.

**88.12(4) *Third-party liability.*** If an enrolled recipient has health coverage or a responsible party other than the Medicaid program available for purposes of payment for medical expenses, it is the right and responsibility of the PHP to investigate these third-party resources and attempt to obtain payment.

The PHP shall retain all funds collected through third-party sources. A complete record of all income from these sources must be maintained and made available to the department.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.13(249A) Quality assurance.** The PHP shall have in effect an internal quality assurance system that meets the requirements of 42 CFR 434.44 as amended to December 31, 1996, and a system of periodic medical audits meeting the requirements of 42 CFR 434.53 as amended to December 13, 1990.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.14 to 88.20** Reserved.

DIVISION II  
PROGRAMS OF ALL-INCLUSIVE CARE FOR THE ELDERLY

**441—88.21(249A) Scope and definitions.**

**88.21(1) Purpose.** A program of all-inclusive care for the elderly (PACE) organization provides prepaid, capitated, comprehensive health care services designed to meet the following objectives:

- a. Enhance the quality of life and autonomy of frail older adults.
- b. Maximize the dignity of and respect for frail older adults.
- c. Enable frail older adults to live in the community as long as medically and socially feasible.
- d. Preserve and support frail older adults' family units.

**88.21(2) Scope.** PACE programs may serve Medicaid members, Medicare beneficiaries, persons eligible for both Medicare and Medicaid benefits, and private-pay individuals. Enrollment to receive services from a PACE organization is voluntary.

a. Enrollment is limited to persons who are 55 years of age or older and who need care at the nursing facility level but are able to live in a community setting without jeopardizing their health and safety.

b. If a Medicaid member chooses to enroll in a PACE program, the member must receive Medicaid benefits solely through the PACE organization while enrolled in the program.

**88.21(3) Authorization.** A PACE organization must enter into a three-way agreement with the department and the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services.

**88.21(4) Definitions.** For purposes of this division:

“*Alternate PACE service site*” means a location outside a primary or alternate PACE center in which one or more PACE services are offered to PACE enrollees.

“*Capitation rate*” means the monthly fee the department pays to a PACE organization for each Medicaid enrollee for the provision of covered medical and health services, whether or not the enrollee received services during the month for which the fee is intended.

“*CMS*” means the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services.

“*Contract year*” means the term of a PACE program agreement. The term is a calendar year, with the exception that a PACE organization's initial contract year is determined by CMS and may be from 12 to 23 months.

“*Department*” means the Iowa department of human services.

“*Enrollee*” means a person who is enrolled in a PACE program.

“*Federal PACE regulations*” means the standards published in 42 CFR Part 460, Programs of All-Inclusive Care for the Elderly. These rules shall be interpreted so as to comply with the federal PACE regulations.

“*Interdisciplinary team*” means the team designated by the PACE organization to assess the needs of and develop a comprehensive plan of care for each enrollee.

“*Medicaid enrollee*” means a Medicaid member who is enrolled in a PACE program.

“*Medicare beneficiary*” means a person who is entitled to Medicare Part A benefits, is enrolled under Medicare Part B, or both.

“*Medicare enrollee*” means a Medicare beneficiary who is enrolled in a PACE program.

“*PACE*” means programs of all-inclusive care for the elderly.

“*PACE center*” means a facility operated by a PACE organization where primary care is furnished to PACE enrollees. A primary PACE center is the principal facility operated by a PACE organization. An alternate PACE center is another facility operated by a PACE organization outside its primary center. “Primary care” shall include all program components in accordance with 42 CFR Section 460.92 as amended to December 8, 2006.

“*PACE enrollment agreement*” means the contract between the PACE organization and the enrollee that includes, at a minimum, all information identified in 42 CFR Section 460.154 as amended to December 8, 2006.

“*PACE organization*” means an entity that has in effect a PACE program agreement with the department and CMS to operate a PACE program in Iowa.

“*PACE program*” means a program of all-inclusive care for the elderly operated by an approved PACE organization that provides comprehensive health care services to enrollees in Iowa in accordance with a PACE program agreement.

“*PACE program agreement*” means a three-way agreement between CMS, the department, and an entity approved to be a PACE organization for the operation of a PACE program.

“*Service area*” means the specific counties in which a PACE provider may provide services, as identified in the PACE program agreement.

“*Services*” means both items and services provided to an enrollee by the PACE organization.

“*Trial period*” means the first three contract years in which a PACE organization operates under a PACE program agreement.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.22(249A) PACE organization application and waiver process.** This rule sets forth the application requirements for an entity that seeks approval from the department as a PACE organization and the process by which a prospective PACE organization may request department review and approval of requests to CMS for waiver of federal requirements.

**88.22(1) Application requirements.** A person authorized to act on behalf of an entity seeking approval as a PACE organization shall prepare an application in the format suggested by CMS at: [http://www.cms.hhs.gov/PACE/06\\_ProviderApplicationandRelatedResources.asp](http://www.cms.hhs.gov/PACE/06_ProviderApplicationandRelatedResources.asp).

*a.* The application shall:

(1) Describe how the entity meets the requirements of this division and of the federal PACE regulations; and

(2) Identify the counties in which the entity proposes to provide PACE services.

*b.* Upon completion of the application sections designated for PACE providers, the prospective PACE organization shall submit the application to the attention of the PACE program manager at the following address: Iowa Medicaid Enterprise, 100 Army Post Road, Des Moines, Iowa 50315.

**88.22(2) Waiver of federal requirements.** A prospective PACE organization must also receive CMS approval as a PACE organization. A prospective PACE organization must submit any request for waiver of federal PACE regulations to the department for initial review before submitting the request to CMS.

*a.* The waiver request shall be submitted as a document separate from the application. The request may be submitted:

(1) In conjunction with and at the same time as the application; or

(2) At any time during the approval process.

*b.* The prospective PACE organization shall submit the waiver request and documentation to the attention of the PACE program manager at the following address: Iowa Medicaid Enterprise, 100 Army Post Road, Des Moines, Iowa 50315.

**88.22(3)** *Review of applications and requests for waiver of federal requirements.* The department may conduct on-site visits and may request additional information from an entity in connection with an application for approval as a PACE organization or a request for waiver of federal requirements.

**88.22(4)** *Department action on applications.* Upon review of an application for approval as a PACE organization and action by CMS on any request for waiver of federal requirements, the department shall determine whether it considers the entity qualified to be a PACE organization and whether it is willing to enter into a PACE program agreement with the entity. If so, the department shall complete the application sections designated for the state administering agency and submit the completed application in its entirety to CMS.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.23(249A) PACE program agreement.** An entity that has been approved by the department and CMS to be a PACE organization must enter into an agreement with CMS and the department for the operation of a PACE program under Medicare and Medicaid. The agreement must be signed by an authorized official of CMS, the PACE organization, and the department.

**88.23(1)** *Content and terms of agreement.*

*a. Required content.* A PACE program agreement must include the following information:

(1) A designation of the service area of the PACE organization's program, identified by county. The department and CMS must approve any change in the designated service area.

(2) The PACE organization's commitment to meet all applicable requirements under federal, state, and local laws and regulations, including provisions of the Civil Rights Act, the Age Discrimination Act, and the Americans with Disabilities Act.

(3) The effective date and term of the agreement.

(4) A description of the organizational structure of the PACE organization and information on the organization's administrative contacts.

(5) An enrollee bill of rights approved by CMS and an assurance that the listed rights and protections will be provided.

(6) A description of the process for handling enrollee grievances and appeals.

(7) A statement of the PACE organization's policies on eligibility, enrollment, voluntary disenrollment, and involuntary disenrollment.

(8) A description of the services available to enrollees.

(9) A description of the PACE organization's quality assessment and performance improvement program.

(10) A statement of the levels of performance required in CMS standard quality measures.

(11) A statement of the data and information required by the department and CMS to be collected on enrollee care.

(12) The Medicaid capitation rate and the methodology used to calculate the Medicare capitation rate.

(13) A description of procedures that the PACE organization will follow if the PACE program agreement is terminated, including how the organization will:

1. Inform enrollees, the community, CMS, and the department, in writing, about the organization's termination and transition procedures.

2. Initiate contact with income maintenance staff in the local department office and assist enrollees in obtaining reinstatement of conventional Medicare and Medicaid benefits.

3. Transition enrollees' care to other providers.

4. Terminate marketing and enrollment activities.

*b. Optional content.* An agreement may:

(1) Provide additional requirements for individuals to qualify as PACE enrollees in accordance with subparagraph 88.84(1)"a"(5).

(2) Contain any additional terms and conditions agreed to by the parties.

**88.23(2)** *Duration of agreement.* A PACE program agreement shall be effective for a contract year but may be extended for additional contract years in the absence of a notice by a party to terminate.

**88.23(3) Enforcement of agreement.** If the department determines that the PACE organization is not in substantial compliance with requirements of the federal PACE regulations or of this division, the department may take one or more of the following actions:

- a. Condition the continuation of the PACE program agreement upon timely execution of a corrective action plan.
- b. Withhold some or all payments under the PACE program agreement until the PACE organization corrects the deficiency.
- c. Terminate the PACE program agreement.

**88.23(4) Termination of agreement by the department.**

a. *Grounds for termination.* The department may terminate a PACE program agreement at any time for cause, including but not limited to the following circumstances:

(1) Termination due to uncorrected deficiencies. The department may terminate a PACE program agreement if both of the following circumstances exist:

1. The department has determined through a review pursuant to subrule 88.87(4) that the PACE organization has significant deficiencies in the quality of care furnished to enrollees or has failed to comply substantially with the conditions for a PACE organization or PACE program under this division, the federal PACE regulations, or the terms of its PACE program agreement.

2. The PACE organization has failed to develop and successfully initiate a plan to correct the deficiencies within 30 days of the date of receipt of a written notice of deficiencies, as confirmed by certified mail, or has failed to continue implementation of the corrective action plan.

(2) Termination due to health and safety risk. The department may terminate a PACE program agreement if the department determines that the PACE organization cannot ensure the health and safety of its enrollees. This determination may result from the identification of deficiencies that the department determines cannot be corrected.

b. *Notice and opportunity for hearing.* Except as provided in paragraph “c” of this subrule, before terminating an agreement, the department shall furnish the PACE organization with the following:

(1) A reasonable opportunity to develop and implement a corrective action plan to correct the deficiencies that are the basis of the department’s determination that cause exists for termination.

(2) Reasonable notice and opportunity for hearing (including the right to appeal an initial determination) before terminating the agreement.

c. *Immediate termination.* The department may terminate an agreement without invoking the procedures described in paragraph “b” of this subrule if the department determines that a delay in termination resulting from compliance with those procedures before termination would pose an imminent and serious risk to the health of the enrollees.

**88.23(5) Termination of agreement by PACE organization.** A PACE organization may terminate an agreement after timely notice issued as follows:

a. To CMS and the department, 90 days before termination.

b. To enrollees, 60 days before termination.

**88.23(6) Transitional care during termination.** A PACE organization whose PACE program agreement is being terminated must provide assistance to each enrollee in obtaining necessary transitional care by making appropriate referrals and making the enrollee’s medical records available to new providers.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.24(249A) Enrollment and disenrollment.** A PACE organization must comply with the federal enrollment requirements stated in 42 CFR Sections 460.152 through 460.156 as amended to December 8, 2006.

**88.24(1) Eligibility for Medicaid enrollees.** To enroll in a PACE program as an Iowa Medicaid enrollee, a person must meet the eligibility requirements specified in this subrule.

a. *Basic eligibility requirements.*

(1) The person must be 55 years of age or older.

(2) The person must reside in the service area of the PACE organization.

(3) The person must be eligible for Medicaid pursuant to the provisions in 441—Chapter 75 for persons in a medical institution.

(4) The department must determine that the person is eligible for Iowa Medicaid pursuant to 441—Chapter 76.

(5) The department must determine that the person needs the nursing facility level of care.

(6) The person must meet any additional program-specific eligibility conditions imposed under the PACE program agreement. These additional conditions shall not modify the requirements stated in this subrule.

*b. Other eligibility requirements.*

(1) At the time of enrollment, the person must be able to live in a community setting without jeopardizing the person's health or safety, pursuant to the criteria specified in the PACE program agreement.

(2) To continue to be eligible for PACE as an Iowa Medicaid enrollee, a person must meet the annual recertification requirements specified in subrule 88.24(4).

**88.24(2) *Effective date of enrollment.*** A person's enrollment in the program is effective on the first day of the calendar month following the date the PACE organization receives the signed enrollment agreement.

**88.24(3) *Duration of enrollment.*** Enrollment continues until the enrollee's death unless either of the following actions occurs:

*a.* The enrollee voluntarily disenrolls. An enrollee may voluntarily disenroll from the program without cause at any time.

*b.* The enrollee is involuntarily disenrolled, as described in subrule 88.24(5).

**88.24(4) *Annual recertification.***

*a.* At least annually, the department shall:

(1) Reevaluate whether each enrollee continues to need the nursing facility level of care; and

(2) Review all financial and nonfinancial eligibility requirements for Medicaid enrollees. The enrollee shall complete Form 470-3118 or 470-3118(S), Medicaid Review.

*b.* Deemed continued eligibility. If the department determines that an enrollee no longer needs the nursing facility level of care, the department, in consultation with the PACE organization, shall determine whether, in the absence of continued PACE coverage, the enrollee reasonably would be expected to meet the nursing facility level-of-care requirement within the next six months. This determination shall be based on a review of the enrollee's medical record and plan of care, applying criteria specified in the PACE program agreement. If the enrollee reasonably would be expected to meet the level-of-care requirement within six months, the enrollee's eligibility for the PACE program may continue until the next annual reevaluation.

**88.24(5) *Involuntary disenrollment.*** An involuntary disenrollment shall not become effective until the Department has determined that the PACE organization has adequately documented acceptable grounds for disenrollment.

*a. Reasons for involuntary disenrollment.* An enrollee may be involuntarily disenrolled for any of the following reasons:

(1) After a 30-day grace period, the enrollee fails to pay any amount due to the PACE organization pursuant to subrule 88.28(2) or refuses to make satisfactory arrangements to pay.

(2) The enrollee engages in disruptive or threatening behavior as described in paragraph 88.24(5) "b."

(3) The enrollee moves out of the PACE program service area or is out of the service area for more than 30 consecutive days, unless the PACE organization agrees to a longer absence due to extenuating circumstances.

(4) The department determines that the enrollee no longer needs the nursing facility level of care and the enrollee is not deemed eligible pursuant to paragraph 88.24(4) "b."

(5) The PACE program agreement with CMS and the department is not renewed or is terminated.

(6) The PACE organization is unable to offer health care services due to the loss of state licenses or contracts with outside providers.

*b. Disruptive or threatening behavior.* “Disruptive or threatening behavior” refers to either of the following:

- (1) Behavior that jeopardizes the enrollee’s health or safety or the safety of others; or
- (2) Consistent refusal by the enrollee to comply with the enrollee’s individual plan of care or the terms of the PACE enrollment agreement when the enrollee has decision-making capacity.

*c. Documentation of disruptive or threatening behavior.* If a PACE organization proposes to disenroll an enrollee who is disruptive or threatening, the organization must document the following information in the enrollee’s medical record:

- (1) The reasons for proposing to disenroll the enrollee.
- (2) All efforts to remedy the situation.

*d. Noncompliant behavior.* A PACE organization may not disenroll an enrollee on the grounds that the enrollee has engaged in noncompliant behavior if the behavior is related to a mental or physical condition of the enrollee, unless the enrollee’s behavior jeopardizes the enrollee’s health or safety or the safety of others. “Noncompliant behavior” includes repeated noncompliance with medical advice and repeated failure to keep appointments.

**88.24(6) Effective date of disenrollment.**

*a.* In disenrolling a Medicaid enrollee, the PACE organization must:

- (1) Use the most expedient process allowed under the PACE program agreement;
- (2) Coordinate the disenrollment date between Medicare and Medicaid for an enrollee who is eligible for both Medicare and Medicaid; and
- (3) Give reasonable advance notice to the enrollee.

*b.* Until the date when enrollment is terminated, the following requirements must be met:

- (1) The PACE organization must continue to furnish all needed services.
- (2) The enrollee must continue to use PACE organization services.

**88.24(7) Documentation of disenrollment.** A PACE organization must meet the following requirements:

- a.* Have a procedure in place to document the reasons for all voluntary and involuntary disenrollments.
- b.* Make documentation available for review by CMS and the department.
- c.* Use the information on voluntary disenrollments in the PACE organization’s internal quality assessment and performance improvement program.

**88.24(8) Reinstatement in other Medicare and Medicaid programs.** After a disenrollment, the PACE organization shall work with CMS and the department to facilitate the former enrollee’s reinstatement in other Medicare and Medicaid programs by:

- a.* Making appropriate referrals to other Medicare and Medicaid programs for which the enrollee may be eligible; and
- b.* Ensuring that medical records are made available to new providers in a timely manner.

**88.24(9) Reinstatement in PACE.** A previously disenrolled enrollee may be reinstated in a PACE program.

[ARC 0758C, IAB 5/29/13, effective 8/1/13; ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.25(249A) Program services.** A PACE organization shall furnish comprehensive medical, health, and social services that integrate acute and long-term care.

**88.25(1) Required services.** The PACE benefit package for all enrollees, regardless of the source of payment, must include the following:

- a.* All Medicare-covered items and services.
- b.* All Medicaid-covered items and services as specified in 441—Chapters 78, 81, 82, 85, and 90. Medicaid benefit limitations and conditions relating to amount, duration, scope of services, deductibles, copayments, coinsurance, or other cost sharing do not apply to PACE services.
- c.* Other services determined necessary by the enrollee’s interdisciplinary team to improve or maintain the enrollee’s overall health status.

**88.25(2) Excluded services.** The following services are excluded from coverage under PACE:

a. Any service that is not authorized by the enrollee's interdisciplinary team, even if it is a required service, unless it is an emergency service.

b. In an inpatient facility:

(1) A private room and private-duty nursing services unless medically necessary; and

(2) Nonmedical items for personal convenience, such as telephone charges and radio or television rental, unless specifically authorized by the interdisciplinary team as part of the enrollee's plan of care.

c. Cosmetic surgery. "Cosmetic surgery" does not include surgery that is required for improved functioning of a malformed part of the body resulting from an accidental injury or for reconstruction following mastectomy.

d. Experimental medical, surgical, or other health procedures.

e. Services furnished outside the United States, except in accordance with 42 CFR Sections 424.122 and 424.124 as amended to September 29, 1995, or as otherwise permitted under the Iowa Medicaid program.

**88.25(3) Service delivery.** The PACE organization must establish and implement a written plan to furnish care that meets the needs of each enrollee in all care settings 24 hours a day, every day of the year.

a. *Provision of services.* PACE services must be furnished in at least:

(1) The PACE center,

(2) The enrollee's home, and

(3) Inpatient facilities.

b. *PACE center operation.* A PACE organization must ensure accessible and adequate services to meet the needs of its enrollees. The interdisciplinary team shall determine the frequency of each enrollee's attendance at a PACE center, based on the needs and preferences of the enrollee.

(1) A PACE organization must operate at least one PACE center either in or contiguous to its defined service area. A PACE center must be certified as an adult day services program pursuant to Iowa Code chapter 231D and the department of elder affairs' rules at 321—Chapter 24.

(2) If necessary to maintain sufficient capacity to allow routine attendance by enrollees, a PACE organization must add staff or develop alternate PACE centers or service sites. If a PACE organization operates more than one center, each alternate PACE center must offer the full range of services and have sufficient staff to meet the needs of enrollees.

**88.25(4) Minimum services furnished at a PACE center.** At a minimum, the following services must be furnished at each primary or alternate PACE center:

a. Primary care, including physician and nursing services.

b. Social services.

c. Restorative therapies, including physical therapy and occupational therapy.

d. Personal care and supportive services.

e. Nutritional counseling.

f. Recreational therapy.

g. Meals.

**88.25(5) Primary care.** Primary medical care must be furnished to an enrollee by a PACE primary care physician. Each primary care physician is responsible for:

a. Managing an enrollee's medical situations; and

b. Overseeing an enrollee's use of medical specialists and inpatient care.

**88.25(6) Out-of-network emergency care.** A PACE organization must pay for out-of-network emergency care when the care is needed immediately because of an injury or sudden illness and the time required to reach the PACE organization or one of its contract providers would cause risk of permanent damage to the enrollee's health.

a. *Definitions.* As used in this subrule, the following definitions apply:

"*Emergency medical condition*" means a condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent lay person with an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in any of the following:

1. Serious jeopardy to the health of the enrollee.
2. Serious impairment to bodily functions of the enrollee.
3. Serious dysfunction of any bodily organ or part of the enrollee.

*“Emergency services”* means inpatient and outpatient services that are needed to evaluate or stabilize an emergency medical condition and are furnished by a qualified emergency services provider other than the PACE organization or one of its contract providers, either inside or outside the PACE organization’s service area.

*“Poststabilization care”* means services provided subsequent to an emergency that a treating physician views as medically necessary after an emergency medical condition has been stabilized but that do not meet the definition of emergency services.

*“Urgent care”* means care that is provided to an enrollee outside the service area because the enrollee believes that an illness or injury is too severe to postpone treatment until the enrollee returns to the service area but that does not meet the definition of emergency services because the enrollee’s life or functioning is not in severe jeopardy.

*b. Plan.* A PACE organization must establish and maintain a written plan to handle out-of-network emergency care. The plan must ensure that CMS, the department, and the enrollee are held harmless if the PACE organization does not pay for out-of-network emergency services. The plan must provide for the following:

(1) An on-call provider available 24 hours per day to address enrollee questions about out-of-network emergency services and to respond to requests for authorization of out-of-network urgent care and poststabilization care following emergency services.

(2) Coverage of out-of-network urgent care and poststabilization care when either of the following conditions is met:

1. The PACE organization has approved the services.
2. The PACE organization has not approved the services because the PACE organization did not respond to a request for approval within one hour after being contacted or because the PACE organization cannot be contacted for approval.

*c. Explanation to enrollee.* The organization must ensure that the enrollee or caregiver, or both, understand:

- (1) When and how to access out-of-network emergency services, and
- (2) That no prior authorization is needed.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.26(249A) Access to PACE services.** An enrollee’s access to PACE services is governed by a comprehensive plan of care developed for each enrollee by an interdisciplinary team based on a comprehensive assessment of the enrollee’s health and social status.

**88.26(1) Interdisciplinary team.** A PACE organization shall establish an interdisciplinary team at each PACE center to comprehensively assess and meet the individual needs of each enrollee.

*a. Team composition.* The members of the interdisciplinary team must primarily serve PACE enrollees. At a minimum, the interdisciplinary team shall be composed of the following members:

- (1) Primary care physician.
- (2) Registered nurse.
- (3) Master’s-level social worker.
- (4) Physical therapist.
- (5) Occupational therapist.
- (6) Recreational therapist or activity coordinator.
- (7) Dietitian.
- (8) PACE center manager.
- (9) Home care coordinator.
- (10) Personal care attendant or attendant’s representative.
- (11) Driver or driver’s representative.

*b. Team responsibilities.* Each enrollee shall be assigned to an interdisciplinary team functioning at the PACE center that the enrollee attends. The interdisciplinary team is responsible for the initial assessment, periodic reassessments, plan of care, and coordination of 24-hour care delivery for each assigned enrollee. Each interdisciplinary team member is responsible for the following:

- (1) Regularly informing the team of the medical, functional, and psychosocial condition of each enrollee.
- (2) Remaining alert to pertinent input from other team members, enrollees, and caregivers.
- (3) Documenting changes in an enrollee's condition in the enrollee's medical record, consistent with documentation policies established by the medical director.

*c. Exchange of information.* The PACE organization must establish, implement, and maintain documented internal procedures governing the exchange of information between team members, contractors, and enrollees and their caregivers consistent with the federal requirements for confidentiality in 42 CFR Section 460.200(e) as amended to November 24, 1999.

**88.26(2) Initial assessment.** The interdisciplinary team must conduct an initial comprehensive assessment of each enrollee promptly following enrollment.

*a.* Each of the following members of the interdisciplinary team must evaluate the enrollee, at appropriate intervals, and develop a discipline-specific assessment of the enrollee's health and social status:

- (1) Primary care physician.
- (2) Registered nurse.
- (3) Master's-level social worker.
- (4) Physical therapist.
- (5) Occupational therapist.
- (6) Recreational therapist or activity coordinator.
- (7) Dietitian.
- (8) Home care coordinator.

*b.* At the recommendation of interdisciplinary team members, other professional disciplines (such as speech-language pathology, dentistry, or audiology) may be included in the comprehensive assessment process.

*c.* The assessment of each enrollee must include, but not be limited to, assessment of the following:

- (1) Physical and cognitive function and ability.
- (2) Medication use.
- (3) Enrollee and caregiver preferences for care.
- (4) Socialization and availability of family support.
- (5) Current health status and treatment needs.
- (6) Nutritional status.
- (7) Home environment, including home access and egress.
- (8) Enrollee behavior.
- (9) Psychosocial status.
- (10) Medical and dental status.
- (11) Enrollee language.

**88.26(3) Plan of care.** The interdisciplinary team must promptly consolidate discipline-specific assessments into a single plan of care for each enrollee through discussion in team meetings and consensus of the entire team.

*a. Development.* The interdisciplinary team must develop, review, and reevaluate the plan of care in collaboration with the enrollee or caregiver, or both, to ensure that there is agreement with the plan of care and that the enrollee's concerns are addressed. In developing the plan of care, female enrollees must be informed that they are entitled to choose a qualified specialist for women's health services from the PACE organization's network to furnish routine or preventive women's health services.

*b. Content.* The plan of care must:

- (1) Specify the care needed to meet the enrollee's medical, physical, emotional, and social needs, as identified in the initial comprehensive assessment.

- (2) Identify measurable outcomes to be achieved.
- c. Documentation.* The interdisciplinary team shall document in the enrollee's medical record the plan of care and any changes made to the plan of care.
- d. Implementation.* The interdisciplinary team shall:
  - (1) Implement, coordinate, and monitor the plan of care, whether the services are furnished by PACE employees or contractors; and
  - (2) Continuously monitor the enrollee's health and psychosocial status, as well as the effectiveness of the plan of care, through the provision of services, informal observation, input from enrollees and caregivers, and communications among team members and other providers.
- e. Evaluation.* On at least a semiannual basis, the interdisciplinary team shall reevaluate the plan of care, including defined outcomes, and make changes as necessary.

**88.26(4) Reassessment.**

*a. Semiannual reassessment.* On at least a semiannual basis, or more often if an enrollee's condition dictates, the following interdisciplinary team members must conduct an in-person reassessment:

- (1) Primary care physician.
- (2) Registered nurse.
- (3) Master's-level social worker.
- (4) Recreational therapist or activity coordinator.
- (5) Other interdisciplinary team members actively involved in the development or implementation of the enrollee's plan of care, such as the home care coordinator, physical therapist, occupational therapist, or dietitian.

*b. Annual reassessment.* On at least an annual basis, the following interdisciplinary team members must conduct an in-person reassessment:

- (1) Physical therapist.
- (2) Occupational therapist.
- (3) Dietitian.
- (4) Home care coordinator.

*c. Unscheduled reassessments.* In addition to annual and semiannual reassessments, unscheduled reassessments may be required based on the following:

- (1) A change in enrollee status. If the health or psychosocial status of an enrollee changes, the interdisciplinary team members listed in paragraph 88.26(2) "a" must conduct an in-person reassessment.
- (2) A request by the enrollee or designated representative. If an enrollee (or the enrollee's designated representative) believes that the enrollee needs to initiate, eliminate, or continue a particular service, the appropriate interdisciplinary team members, as identified by the interdisciplinary team, must conduct an in-person reassessment.

*d. Changes to plan of care.* Interdisciplinary team members who conduct a reassessment must:

- (1) Reevaluate the enrollee's plan of care.
- (2) Discuss any changes in the plan of care with the interdisciplinary team.
- (3) Obtain approval of the revised plan of care from the interdisciplinary team and the enrollee or the enrollee's designated representative.
- (4) Document all assessment and reassessment information in the enrollee's medical record.
- (5) Furnish to the enrollee any services included in the revised plan of care as a result of a reassessment as expeditiously as the enrollee's health condition requires.

**88.26(5) Procedures for resolving enrollee request to change the plan of care.** The PACE organization must have explicit procedures for timely resolution of a request by an enrollee or an enrollee's designated representative to initiate, eliminate, or continue a particular service.

*a.* Except as provided in paragraph "b" of this subrule, the interdisciplinary team must notify the enrollee or the enrollee's designated representative of its decision to approve or deny the request from the enrollee or the designated representative as expeditiously as the enrollee's condition requires, but no later than 72 hours after the date the interdisciplinary team receives the request.

*b.* The interdisciplinary team may extend the 72-hour period for notifying the enrollee or the designated representative of its decision to approve or deny the request by no more than five additional days if:

- (1) The enrollee or designated representative requests the extension; or
- (2) The interdisciplinary team documents its need for additional information and how the delay is in the interest of the enrollee.

*c.* The PACE organization must:

- (1) Explain to the enrollee or the enrollee's designated representative orally and in writing any denial of a request to change the plan of care; and
- (2) Provide the specific reasons for the denial in understandable language.

*d.* The PACE organization is responsible for:

- (1) Informing the enrollee or the enrollee's designated representative of the enrollee's right to appeal the decision as specified in 42 CFR Section 460.122 as amended to December 8, 2006.
- (2) Describing both the standard and expedited appeals processes of the PACE organization, including the right to obtain and conditions for obtaining expedited consideration of an appeal of a denial of services as specified in 42 CFR Section 460.122 as amended to December 8, 2006.
- (3) Describing the right to and conditions for continuation of appealed services through the period of an appeal as specified in 42 CFR Section 460.122(e) as amended to December 8, 2006.

*e.* If the interdisciplinary team fails to provide the enrollee with timely notice of the resolution of the request or fails to furnish the services required by the revised plan of care, this failure constitutes an adverse decision. The enrollee's request must be automatically processed by the PACE organization as an appeal in accordance with 42 CFR Section 460.122 as amended to December 8, 2006.

*f.* The PACE organization must submit all documentation related to an appeal to the attention of the PACE program manager at the following address: Iowa Medicaid Enterprise, 100 Army Post Road, Des Moines, Iowa 50315.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

**441—88.27(249A) Program administrative requirements.** A PACE organization shall comply with the federal administrative requirements stated in 42 CFR Sections 460.60 through 460.82 as amended to December 8, 2006, including requirements relating to organizational structure, governing body, qualifications for staff who have direct contact with enrollees, training, program integrity, contracted services, oversight of direct care services, physical environment, infection control, transportation services, dietary services, fiscal soundness, and marketing.

**88.27(1) Enrollee rights.** A PACE organization shall comply with the federal participant rights requirements stated in 42 CFR Sections 460.110 through 460.124 as amended to December 8, 2006. Upon exhaustion of the PACE organization's appeal process, a Medicaid enrollee has the right to appeal to the department any adverse coverage or payment decision regarding any service, including any denial, reduction, or termination of any service, pursuant to 441—Chapter 7.

**88.27(2) Data collection, record maintenance, and reporting.** A PACE organization shall comply with federal data collection, records maintenance, and reporting requirements stated in 42 CFR Sections 460.200 through 460.210 as amended to December 8, 2006.

**88.27(3) Quality assessment and performance improvement.** A PACE organization shall comply with the federal quality assessment and performance improvement requirements stated in 42 CFR Sections 460.130 through 460.140 as amended to November 24, 1999.

**88.27(4) Federal and state monitoring.**

*a.* The PACE program shall cooperate with federal and state monitoring pursuant to 42 CFR Sections 460.190 through 460.196 as amended to Nov. 24, 1999, including:

- (1) Corrective action required pursuant to 42 CFR Section 460.194; and
- (2) Disclosure of review results pursuant to 42 CFR Section 460.196(c) and (d).

*b.* The PACE program is subject to sanctions or termination pursuant to subrules 88.23(3) and 88.23(4).

c. During the trial period, CMS, in cooperation with the department, shall conduct comprehensive annual reviews of the operations of a PACE organization to ensure compliance with PACE federal regulations and 441—Chapter 88, Division II.

d. After the trial period, the department, in cooperation with CMS, shall conduct on-site reviews of a PACE organization at least every two years.

e. After a review, CMS and the department shall report the results of the review to the PACE organization, along with any recommendations for changes to the organization's program.

f. Within 30 days of issuance of the report, the PACE organization shall develop and implement a corrective action plan to address any deficiencies identified through the review.

g. CMS or the department shall monitor the effectiveness of the corrective actions implemented.  
[ARC 2358C, IAB 1/6/16, effective 1/1/16]

#### **441—88.28(249A) Payment.**

**88.28(1) Medicaid payment to PACE organization.** Under a PACE program agreement, the department shall make a prospective monthly payment to the PACE organization of a capitation amount for each Medicaid enrollee. The monthly capitation payment amount shall be negotiated between the PACE organization and the department and shall be specified in the PACE program agreement.

a. The amount of the capitation payment:

(1) Shall be less than the amount that would otherwise have been paid under the Medicaid program if the enrollees were not enrolled under the PACE program.

(2) Shall be a fixed amount regardless of changes in the enrollee's health status.

(3) May be renegotiated on an annual basis.

b. The PACE organization must accept the capitation payment amount as payment in full for Medicaid enrollees. The organization shall not collect or receive any other form of payment from the department or from, or on behalf of, the enrollee except for any amounts due from the enrollee pursuant to subrule 88.88(2).

**88.28(2) Liability of Medicaid enrollee.** A Medicaid enrollee shall contribute toward the cost of the enrollee's care according to the terms of this subrule. A PACE organization may not charge a premium to a Medicaid enrollee except for any amounts due pursuant to this subrule.

a. *Institutionalized enrollees.* Medicaid enrollees who reside in a medical facility are liable to the PACE organization for the Medicaid capitation payment to the extent of their total monthly income, with the exceptions allowed by 441—subrule 75.16(1) and the deductions allowed by 441—subrule 75.16(2).

b. *Noninstitutionalized enrollees.* Medicaid enrollees who do not reside in a medical facility are liable to the PACE organization for the Medicaid capitation payment to the extent of their total monthly income, with the deductions required by 42 CFR Section 435.726(c) as amended to July 25, 1994, with maintenance needs amounts set at the following levels:

(1) The amount for the maintenance needs of the enrollee is set at 300 percent of the maximum SSI grant for an individual.

(2) The additional amount for the maintenance needs of a spouse at home is set at the Iowa Medicaid program's medically needy income standard for one person.

(3) The additional amount for the maintenance needs of a family at home is set at the Iowa Medicaid program's medically needy income standard for a family of the same size, to the extent that amount exceeds any amount allowed for the maintenance needs of a spouse at home.

[ARC 2358C, IAB 1/6/16, effective 1/1/16]

CHAPTER 90  
TARGETED CASE MANAGEMENT

PREAMBLE

These rules define and structure medical assistance targeted case management services provided in accordance with Iowa Code section 225C.20 for Medicaid members with an intellectual disability, a chronic mental illness, or a developmental disability and members eligible for the home- and community-based services (HCBS) children's mental health waiver. Provider accreditation standards are set forth in 441—Chapter 24.

Case management is a method to manage multiple resources effectively for the benefit of Medicaid members. The service is designed to ensure the health, safety, and welfare of members by assisting them in gaining access to appropriate and necessary medical services and interrelated social, educational, housing, transportation, vocational, and other services.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 2164C, IAB 9/30/15, effective 10/1/15]

**441—90.1(249A) Definitions.**

*“Adult”* means a person 18 years of age or older on the first day of the month in which service begins.

*“Child”* means a person under 18 years of age.

*“Chronic mental illness”* means the condition present in adults who have a persistent mental or emotional disorder that seriously impairs their functioning relative to such primary aspects of daily living as personal relations, living arrangements, or employment.

People with chronic mental illness typically meet at least one of the following criteria:

1. They have undergone psychiatric treatment more intensive than outpatient care more than once in a lifetime (e.g., emergency services, alternative home care, partial hospitalization, or inpatient hospitalization).

2. They have experienced at least one episode of continuous, structured supportive residential care other than hospitalization.

In addition, people with chronic mental illness typically meet at least two of the following criteria on a continuing or intermittent basis for at least two years:

1. They are unemployed, or employed in a sheltered setting, or have markedly limited skills and a poor work history.

2. They require financial assistance for out-of-hospital maintenance and may be unable to procure this assistance without help.

3. They show severe inability to establish or maintain a personal social support system.

4. They require help in basic living skills.

5. They exhibit inappropriate social behavior that results in demand for intervention by the mental health or judicial system.

In atypical instances, a person who varies from these criteria could still be considered to be a person with chronic mental illness.

For purposes of this chapter, people with mental disorders resulting from Alzheimer's disease or substance abuse shall not be considered chronically mentally ill.

*“Department”* means the department of human services.

*“Developmental disability”* means a severe, chronic disability that:

1. Is attributable to a mental or physical impairment or combination of mental and physical impairments;

2. Is manifested before the age of 22;

3. Is likely to continue indefinitely;

4. Results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency; and

5. Reflects the person's need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance that are of lifelong or extended duration and are individually planned and coordinated.

*"Intellectual disability"* means a diagnosis of intellectual disability (intellectual developmental disorder), global developmental delay, or unspecified intellectual disability (intellectual developmental disorder) which:

1. Is made only when the onset of the person's condition was during the developmental period;
2. Is based on an assessment of the person's intellectual functioning and level of adaptive skills;
3. Is made by a licensed psychologist or psychiatrist who is professionally trained to administer the tests required to assess intellectual functioning and to evaluate a person's adaptive skills; and
4. Is made in accordance with the criteria provided in the current version of the Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association.

*"Major incident"* means an occurrence involving a member using the service that:

1. Results in a physical injury to or by the member that requires a physician's treatment or admission to a hospital; or
2. Results in a member's death or the death of another person; or
3. Requires emergency mental health treatment for the member; or
4. Requires the intervention of law enforcement; or
5. Requires a report of child abuse pursuant to Iowa Code section 232.69 or a report of dependent adult abuse pursuant to Iowa Code section 235B.3; or
6. Constitutes a prescription medication error or a pattern of medication errors that leads to the outcome in paragraph "1," "2," or "3."
7. Involves a member's location being unknown by provider staff who are assigned protective oversight.

*"Medical institution"* means an institution that is organized, staffed, and authorized to provide medical care as set forth in 42 Code of Federal Regulations 435.1009, as amended to October 1, 2001. A residential care facility is not a medical institution.

*"Member"* means a person who has been determined to be eligible for Medicaid under 441—Chapter 75.

*"Rights restriction"* means limitations not imposed on the general public in the areas of communication, mobility, finances, medical or mental health treatment, intimacy, privacy, type of work, religion, place of residence, and people with whom a person may share a residence.

*"Targeted case management"* means services furnished to assist members who are part of a targeted population and who reside in a community setting or are transitioning to a community setting in gaining access to needed medical, social, educational, housing, transportation, vocational, and other services in order to ensure the health, safety, and welfare of the members. Case management is provided to a member on a one-to-one basis by one case manager.

*"Targeted population"* means people who meet one of the following criteria:

1. An adult who is identified with a primary diagnosis of intellectual disability, chronic mental illness or developmental disability; or
2. A child who is eligible to receive HCBS intellectual disability waiver or HCBS children's mental health waiver services according to 441—Chapter 83.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 2164C, IAB 9/30/15, effective 10/1/15]

**441—90.2(249A) Eligibility.** A person who meets all of the following criteria shall be eligible for targeted case management:

- 90.2(1)** The person is eligible for Medicaid or is conditionally eligible under 441—subrule 75.1(35).
- 90.2(2)** The person is a member of the targeted population.
- 90.2(3)** The person resides in a community setting or qualifies for transitional case management as set forth in subrule 90.5(3).
- 90.2(4)** The person has applied for targeted case management in accordance with the policies of the provider.

**90.2(5)** The person's need for targeted case management has been determined in accordance with rule 441—90.3(249A).

[ARC 7957B, IAB 7/15/09, effective 7/1/09]

**441—90.3(249A) Determination of need for service.**

**90.3(1)** *Authorization required.* Rescinded IAB 7/15/09, effective 7/1/09.

**90.3(2)** *Need for service.* Assessment of the need for targeted case management is required at least annually as a condition of payment under the medical assistance program. The case management provider shall determine the initial and ongoing need for service based on diagnostic reports, documentation of provision of services, and information supplied by the member and other appropriate sources. The evidence shall be documented in the member's file and shall demonstrate that all of the following criteria are met:

a. The member has a need for targeted case management to manage needed medical, social, educational, housing, transportation, vocational, and other services for the benefit of the member.

b. The member has functional limitations and lacks the ability to independently access and sustain involvement in necessary services.

c. The member is not receiving other paid benefits under the medical assistance program or under a Medicaid managed health care plan that serve the same purpose as targeted case management.

**90.3(3)** *Managed health care.* Rescinded IAB 1/6/16, effective 1/1/16.

**90.3(4)** *Transition authorization.* Rescinded IAB 7/15/09, effective 7/1/09.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 2361C, IAB 1/6/16, effective 1/1/16]

**441—90.4(249A) Application.** The provider shall process an application for targeted case management no later than 30 days after receipt of the application. The provider shall refer the applicant to the department's service unit if other services are needed or requested.

**90.4(1)** *Application process and documentation.* The application shall include the member's name, the nature of the request for services, and a summary of any evaluation activities completed. The provider shall inform the applicant in writing of the applicant's right to choose the provider of case management services and, at the applicant's request, shall provide a list of other case management agencies from which the applicant may choose. The provider shall maintain this documentation for at least five years.

**90.4(2)** *Application decision.* The provider shall inform the applicant or the applicant's legally authorized representative of any decision to approve, deny, or delay the service in accordance with notification requirements at 441—subrule 7.7(1).

**90.4(3)** *Delayed services.* The application shall be approved and the member put on the referral list for assignment to a case manager when targeted case management cannot begin immediately because there is no opening on a caseload. The provider shall notify the applicant or the applicant's legally authorized representative in writing of approval and placement on the referral list. If an applicant is on a referral list for more than 90 days from the date of application, this shall be considered a denial of service.

**90.4(4)** *Denying applications.* The provider shall deny applications for service when:

a. The applicant is not currently eligible for Medicaid; or

b. The applicant does not meet the eligibility criteria in rule 441—90.2(249A); or

c. The applicant or the applicant's legally authorized representative withdraws the application; or

d. The applicant does not provide information required to process the application; or

e. The applicant is receiving targeted case management from another Medicaid provider; or

f. The applicant does not have a need for targeted case management.

[ARC 7957B, IAB 7/15/09, effective 7/1/09]

**441—90.5(249A) Service provision.**

**90.5(1)** *Covered services.* The following shall be included in the assistance that case managers provide to members in obtaining services:

a. *Assessment.* The case manager shall perform a comprehensive assessment and periodic reassessment of the member's individual needs using Form 470-4694, Targeted Case Management

Comprehensive Assessment, to determine the need for any medical, social, educational, housing, transportation, vocational or other services. The comprehensive assessment shall address all of the member's areas of need, strengths, preferences, and risk factors, considering the member's physical and social environment. A face-to-face reassessment must be conducted at a minimum annually and more frequently if changes occur in the member's condition. The assessment and reassessment activities include the following:

(1) Taking the member's history, including current and past information and social history in accordance with 441—subrule 24.4(2), and updating the history annually.

(2) Identifying the needs of the member and completing related documentation.

(3) Gathering information from other sources, such as family members, medical providers, social workers, legally authorized representatives, and others as necessary to form a complete assessment of the member.

*b. Service plan.* The case manager shall develop and periodically revise a comprehensive service plan based on the comprehensive assessment, which shall include a crisis intervention plan based on the risk factors identified in the risk assessment portion of the comprehensive assessment. The case manager shall ensure the active participation of the member and work with the member or the member's legally authorized representative and other sources to choose providers and develop the goals. This plan shall:

(1) Document the parties participating in the development of the plan.

(2) Specify the goals and actions to address the medical, social, educational, housing, transportation, vocational or other services needed by the member.

(3) Identify a course of action to respond to the member's assessed needs, including identification of all providers, services to be provided, and time frames for services.

(4) Document services identified to meet the needs of the member which the member declined to receive.

(5) Include an individualized crisis intervention plan that identifies the supports available to the member in an emergency. A crisis intervention plan shall identify:

1. Any health and safety issues applicable to the individual member based on the risk factors identified in the member's comprehensive assessment.

2. An emergency backup support and crisis response system, including emergency backup staff designated by providers, to address problems or issues arising when support services are interrupted or delayed or the member's needs change. The interdisciplinary team shall determine which of the following options will be included in the crisis intervention plan:

- After-hours contact information for all persons or resources identified for the member and an alternate contact to be used in the event that an individual provider not employed by an agency is not present to provide services as scheduled; or

- After-hours contact information for an on-call system for the provider of case management to ensure that in the event of an emergency, members have access to a case manager 24 hours per day, including weekends and holidays.

(6) Include a discharge plan.

(7) Be revised at least annually, and more frequently if significant changes occur in the member's medical, social, educational, housing, transportation, vocational or other service needs or risk factors.

*c. Referral and related activities.* The case manager shall perform activities to help the member obtain needed services, such as scheduling appointments for the member, and activities that help link the member with medical, social, educational, housing, transportation, vocational or other service providers or programs that are capable of providing needed services to address identified needs and risk factors and to achieve goals specified in the service plan.

*d. Monitoring and follow-up.* The case manager shall perform activities and make contacts that are necessary to ensure the health, safety, and welfare of the member and to ensure that the service plan is effectively implemented and adequately addresses the needs of the member. At a minimum, monitoring shall include assessing the member, the places of service (including the member's home when applicable), and all services. Monitoring may also include review of service provider documentation. Monitoring shall be conducted to determine whether:

(1) Services are being furnished in accordance with the member's service plan, including the amount of service provided and the member's attendance and participation in the service.

(2) The member has declined services in the service plan.

(3) Communication is occurring among all providers to ensure coordination of services.

(4) Services in the service plan are adequate, including the member's progress toward achieving the goals and actions determined in the service plan.

(5) There are changes in the needs or status of the member. Follow-up activities shall include making necessary adjustments in the service plan and service arrangements with providers.

*e. Contacts.* Case management contacts shall occur as frequently as necessary and shall be conducted and documented as follows:

(1) The case manager shall have at least one face-to-face contact with the member every three months.

(2) The case manager shall have at least one contact per month with the member, the member's legally authorized representative, the member's family, service providers, or other entities or individuals. This contact may be face-to-face or by telephone. The contact may also be by written communication, including letters, E-mail, and fax, when the written communication directly pertains to the needs of the member. E-mail contacts are allowed only when other means of communication are not feasible for the member, representative or family and the necessity for E-mail communication is documented in the member's comprehensive service plan. A copy of any written communication must be maintained in the case file. When E-mail communication is used, there must be clear two-way communication in the member's record showing an exchange of information as well as follow-up activity related to the information.

(3) The case manager may bill for contacts with non-eligible persons if the contacts are directly related to identifying the member's needs and care as necessary for the purpose of helping the member access services, identifying needs and supports to assist the member in obtaining services, providing case managers with useful feedback, and alerting case managers to changes in the member's needs.

(4) When applicable, documentation of case management contacts shall include:

1. The name of the service provider.

2. The need for and occurrences of coordination with other case managers within the same agency or of referral or transition to another case management agency.

**90.5(2) Exclusions.** Payment shall not be made for activities otherwise within the definition of case management when any of the following conditions exist:

*a.* The activities are an integral component of another covered Medicaid service, including but not limited to assertive community treatment (ACT).

*b.* The activities constitute the direct delivery of underlying medical, social, educational, housing, transportation, vocational or other services to which a member has been referred. Such services include, but are not limited to:

(1) Services under parole and probation programs.

(2) Public guardianship programs.

(3) Special education programs.

(4) Child welfare and child protective services.

(5) Foster care programs.

*c.* The activities are integral to the administration of foster care programs, including but not limited to the following:

(1) Research gathering and completion of documentation required by the foster care program.

(2) Assessing adoption placements.

(3) Recruiting or interviewing potential foster care parents.

(4) Serving legal papers.

(5) Home investigations.

(6) Providing transportation.

(7) Administering foster care subsidies.

(8) Making placement arrangements.

*d.* The activities for which a member may be eligible are integral to the administration of another nonmedical program, such as a guardianship, child welfare or child protective services, parole, probation, or special education program, except for case management that is included in an individualized education program or individualized family service plan consistent with Section 1903(c) of the Social Security Act.

*e.* The activities duplicate institutional discharge planning.

**90.5(3) *Transition to a community setting.*** Case management services may be provided to a member transitioning to a community setting during the 60 days before the member's discharge from a medical institution when the following requirements are met:

*a.* The member is an adult who qualifies for targeted case management under a targeted population. Transitional case management is not an allowable service under the HCBS brain injury waiver, the HCBS elderly waiver, or HCBS habilitation services.

*b.* Case management services shall be coordinated with institutional discharge planning, but shall not duplicate institutional discharge planning.

*c.* The amount, duration, and scope of case management services shall be documented in the member's plan of care, which must include case management services before and after discharge, to facilitate a successful transition to community living.

*d.* Payment shall be made only for services provided by community case management providers.

*e.* Claims for reimbursement for case management shall not be submitted until the member's discharge from the medical institution and enrollment in community services.

**90.5(4) *Rights restrictions.*** Member rights may be restricted only with the consent of the member or the member's legally authorized representative and only if the service plan includes:

*a.* Documentation of why there is a need for the restriction;

*b.* A plan to restore those rights or a reason why restoration is not necessary or appropriate; and

*c.* Documentation that periodic evaluations of the restriction are conducted to determine continued need.

**90.5(5) *Documentation.*** Service documentation shall also meet the requirements set forth in rule 441—79.3(249A) and 441—subrule 24.4(4).

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 9588B, IAB 6/29/11, effective 9/1/11]

#### **441—90.6(249A) Terminating services.**

**90.6(1)** Targeted case management shall be terminated when:

*a.* The member does not meet eligibility criteria under rule 441—90.2(249A); or

*b.* The member has achieved all goals and objectives of the service; or

*c.* The member has no current need for targeted case management; or

*d.* The member receiving targeted case management based on eligibility under an HCBS waiver is no longer eligible for the waiver; or

*e.* The member or the member's legally authorized representative requests termination; or

*f.* The member is unwilling or unable to accept further services; or

*g.* The member or the member's legally authorized representative fails to provide access to information necessary for the development of the service plan or implementation of targeted case management.

**90.6(2)** The provider shall notify the member or the member's legally authorized representative in writing of the termination of targeted case management, in accordance with 441—subrule 7.7(1).

[ARC 7957B, IAB 7/15/09, effective 7/1/09]

#### **441—90.7(249A) Appeal rights.**

**90.7(1) *Appeal to the provider.*** After notice of an adverse decision by the provider of targeted case management, the member or the member's representative may request an appeal as provided in the appeal process established by the provider agency.

**90.7(2) *Appeal to the department.*** After notice of an adverse decision by the department pertaining to authorization and need for service, the member or the member's representative may request reconsideration by the department by sending a letter to the department not more than 30 days after

the date of the notice of adverse decision. The member or the member's representative may appeal an adverse reconsideration decision by the department as provided in 441—Chapter 7.

**90.7(3) *Appeal to the managed health care contractor.*** After notice of an adverse decision by a managed health care plan, the member or the member's representative may request a review as provided in rule 441—88.68(249A).

[ARC 7957B, IAB 7/15/09, effective 7/1/09]

**441—90.8(249A) Provider requirements.**

**90.8(1) *Incident reporting.***

*a.* When a major incident occurs during the provision of case management services:

(1) The case management provider shall notify the following persons of the incident by the end of the next calendar day after the incident:

1. The case management supervisor.
2. The member's legally authorized representative.

(2) By the end of the next calendar day after the incident, the case manager who observed the incident shall also report as much information as is known about the incident to the member's managed care organization in the format defined by the managed care organization. If the member is not enrolled with a managed care organization, the staff member shall report the information to the department's bureau of long-term care either:

1. By direct data entry into the Iowa Medicaid Provider Access System, or
2. By faxing or mailing Form 470-4698, Critical Incident Report, according to the directions on the form.

(3) The following information shall be reported:

1. The name of the member involved.
2. The date and time the incident occurred.
3. A description of the incident.
4. The names of all case management staff and others who were present at the time of the incident or who responded after becoming aware of the incident. The confidentiality of other members or nonmembers who were present must be maintained by the use of initials or other means.
5. The action that the case manager took to manage the incident.
6. The resolution of or follow-up to the incident.
7. The date the report is made and the handwritten or electronic signature of the person making the report.

(4) The case manager shall monitor the situation as required in paragraph 90.5(1) "d" to ensure the member's needs continue to be met. Submission of the initial report will generate a workflow in the Individualized Services Information System (ISIS) for follow-up by the case manager.

(5) The case management provider shall maintain the completed report in a centralized file, with a notation in the member's file.

*b.* When an incident report for a major incident is received from any provider, the case manager shall monitor the situation as required in paragraph 90.5(1) "d" to ensure the member's needs continue to be met.

*c.* When any major incident occurs, the case manager shall reevaluate the risk factors identified in the risk assessment portion of the comprehensive assessment as required in paragraph 90.5(1) "a" in order to ensure the continued health, safety, and welfare of the member.

**90.8(2) *Emergency coverage.*** Rescinded IAB 6/29/11, effective 9/1/11.

**90.8(3) *Quality assurance.*** Providers shall cooperate with quality assurance activities conducted by the Iowa Medicaid enterprise to ensure the health, safety, and welfare of Medicaid members. These activities may include, but are not limited to:

- a.* Postpayment reviews of case management services,
- b.* Review of incident reports,
- c.* Review of reports of abuse or neglect, and

*d.* Technical assistance in determining the need for service.

[ARC 7957B, IAB 7/15/09, effective 7/1/09; ARC 9588B, IAB 6/29/11, effective 9/1/11; ARC 2361C, IAB 1/6/16, effective 1/1/16]

These rules are intended to implement Iowa Code sections 249A.4, 249A.26, and 249A.27.

CHAPTER 92  
IOWACARE

Rescinded **ARC 2361C**, IAB 1/6/16, effective 1/1/16

TITLE XIV  
GRANT/CONTRACT/PAYMENT ADMINISTRATION

CHAPTER 150  
PURCHASE OF SERVICE

[Prior to 7/1/83, Social Services[770] Ch 145]  
[Previously appeared as Ch 145—renumbered IAB 2/29/84]  
[Prior to 2/11/87, Human Services[498]]

DIVISION I  
TERMS AND CONDITIONS FOR IOWA PURCHASE OF SOCIAL SERVICES AGENCY AND  
INDIVIDUAL CONTRACTS, IOWA PURCHASE OF ADMINISTRATIVE SUPPORT, AND  
IOWA DONATIONS OF FUNDS CONTRACT AND PROVISIONS FOR PUBLIC ACCESS TO CONTRACTS

**441—150.1(234) Definitions.**

*“Accounting year”* means a 12 consecutive month period for which accounting records are maintained. It can be either a calendar year or another designated fiscal year.

*“Accrual basis accounting”* means the accounting basis which shows all expenses incurred and income earned for a given time even though the expenses may not have been paid or income received in cash during the period.

*“Administrative support”* means technical assistance, studies, surveys, or securing volunteers to assist the department in fulfilling its administrative responsibilities.

*“Agency”* means an organization or organizational unit that provides social services.

1. Public agency means a general or special-purpose unit of government and organizations administered by that unit to deliver social services, for example, county boards of supervisors, community colleges, and state agencies.

2. Private nonprofit agency means a voluntary agency operated under the authority of a board of directors for purposes other than generating profit and incorporated under Iowa Code chapter 504A. An out-of-state agency must meet requirements of similar laws governing nonprofit organizations in its state.

3. Private proprietary agency means a for-profit agency operated by an owner or board for the operator’s financial benefit.

*“Bureau of purchased services”* means a bureau of the division of fiscal management, which is responsible for administering the purchase of service system.

*“Cash basis accounting”* means the accounting basis which records expenses when bills are paid and income when money is received.

*“Ceiling”* means the maximum limit for payment for a service which has been established by an administrative rule or by the Iowa Code specifically for that service.

*“Client”* means an individual or family group who has applied for and been found to be eligible for social services from the Iowa department of human services.

*“Common ownership”* means that relationship existing when an individual or individuals possess significant ownership or equity in the provider and the institution or organization serving the provider.

*“Components of service”* means the elements or activities that make up a specific service.

*“Contract”* means formal written agreement between the Iowa department of human services and another legal entity, except for those government agencies whose services are covered under provision of Iowa Code chapter 28E.

*“Contractor”* means an institution, organization, facility or individual who is a legal entity and has entered into a contract with the department of human services.

*“Control”* means that relationship existing where an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution.

*“Department”* means the Iowa department of human services.

*“Direct cost”* means those expenses which can be identified specifically and solely to a particular program.

*“Donor”* means a local source of funding (public or private) that enters into an Iowa donation of funds contract.

*“Effective date.”*

1. Contract effective date for agency contracts means the first day of a month on which the contract shall become in force.

2. Effective date of rate means the date specified in a purchase of service contract on which the specified rate of payment for service provided begins.

*“Field staff”* means department employees outside of central office reporting to the deputy director of field operations.

*“Grant”* means an award of funds to develop specific programs or achieve specific outcomes.

*“Indirect cost”* means those expenses which cannot be related directly to a specific program and are, therefore, allocated to more than one program.

*“Project manager”* means a department employee who is assigned to assist in developing, monitoring and evaluating a contract and to provide related technical assistance.

*“Provider”* means an institution, organization, facility, or individual who is a legal entity and has entered into a contract with the department to provide social services to clients of the department.

*“Purchase of service system”* means the system within the department for contracting and payment for services, including contracts for funding and contracts for technical assistance.

*“Related to provider”* means that the provider to a significant extent is associated or affiliated with or has control of, or is controlled by, the organization furnishing the services, facilities, or supplies.

*“Relatives”* include the following persons: husband and wife, natural parent and child, sibling, adopted child and adoptive parent, stepparent, stepchild, stepbrother, stepsister, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, grandparent and grandchild.

*“Social services”* means a set of actions purposefully directed toward human needs which are socially identified as requiring assistance from others for their resolution.

*“Unit of service”* means a specified quantity of service or a specific outcome as a result of the service provided.

**441—150.2(234) Categories of contracts.**

**150.2(1)** *Iowa purchase of social services contract.* An Iowa purchase of social services contract is a legal contract between the department and a provider for a specified service or services to clients referred by the department. This contract establishes the components of service to be provided, the rate per unit of service, a maximum number of units to be available, and other negotiated conditions. The department has three types of contracts for purchasing social services.

*a.* An agency contract is a contract written with an agency. Iowa Purchase of Social Services Agency Contract, Form 470-0628, shall be completed prior to services being purchased from the agency.

*b.* A child care certificate is an agreement written with a licensed child care center, a family day care home, a group day care home, an in-home care provider, or a relative care provider. Policies governing child care certificates may be found in 441—Chapter 170.

*c.* An individual in-home health-related provider agreement is an agreement written with an individual provider of in-home health services. Policies governing individual in-home health-related provider agreements may be found in 441—Chapter 177.

**150.2(2)** *Iowa purchase of administrative support contract.* An Iowa purchase of administrative support contract is between the department and a contractor for the provision of administrative support. This contract establishes the support services to be provided, the rate and the method of payment, and other negotiated conditions. A contractor or the division of a contractor who is a multiservice organization holding an administrative support contract may not provide direct client services during the period of the contract.

*a.* A volunteer contract is the administrative support contract between an individual or agency and the department to secure volunteers to assist the department in service delivery.

*b.* A general use administrative support contract is between the department and a contractor for the provision of administrative support.

**150.2(3)** *County board of supervisors’ participation contract.* Rescinded IAB 7/8/92, effective 7/1/92.

**150.2(4) Iowa donation of funds contract.** The department may accept donated funds.

*a.* Upon mutual agreement regarding the scope and use of the funds to be donated, the department may negotiate and shall execute a contract between the department and the donor in accordance with department of administrative services rules in 11—Chapters 106 and 107. The contract shall contain specifications concerning amendment, termination, transmittal of funds, accounting, and reversion of unspent funds.

*b.* Except for restrictions permitted by the contract, all funds shall be donated on an unrestricted basis for use as if they were appropriated funds and shall be under the administrative control of the department. The donor may specify the geographic area to be served and the specific service to be provided.

*c.* No funds donated and transmitted to the department will be returned to the donor unless specified in the contract.

**441—150.3(234) Iowa purchase of social services agency contract.**

**150.3(1) Initiation of contract proposal.** When the department issues a request for proposal to select providers, the process and conditions for approving contract proposals shall be as specified in the request, and the department shall not be required to contract with a provider that is not selected. Otherwise, the following procedures for initiation of contract proposals shall apply.

*a. Right to request a contract.* All potential provider agencies have a right to request a contract.

*b. Initial contact.* The initial contact should be between the potential provider and the service area manager for the service area in which the provider's headquarters is located. In the case of out-of-state providers, this contact can be with the service area manager for either the closest service area or the service area initiating the contact. At the beginning of the process of developing a contract, the bureau of purchased services shall give the provider:

- (1) Information about the contracting process; and
- (2) Instructions on how to access the Purchase of Service Provider Handbook electronically.

*c. Contract proposal development.* When the service area manager determines that a contract is to be developed, a project manager will be assigned who will assist in contract development and processing. The project manager will assist the contractor in completing the contract proposal and fiscal information appropriate to the contract. This information shall include documentation that the conditions of participation are met. Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet, shall be completed at the same time as Form 470-0628, Iowa Purchase of Social Services Agency Contract, or Form 470-0630, Amendment or Renewal of the Iowa Purchase of Social Services Agency Contract, is prepared.

*d. Contract proposal approval or rejection.* Before a contract can be effective, it shall be signed by the following persons within the time frames provided:

- (1) Authorized representative of the provider agency.
- (2) Service area manager, within one week from receipt.
- (3) Rescinded IAB 5/11/05, effective 5/1/05.
- (4) Chief of the bureau of purchased services, within 30 days from receipt.

The provider shall be given a notice and explanation in writing of delays in the process or of rejection of the proposal. Payment cannot be made until the contract is signed by the provider's authorized representative and the chief of the bureau of purchased services.

*e. Criteria for rejection.* The following criteria may cause a proposed contract to be rejected:

- (1) The service is not needed by department clients.
- (2) The service is not in the social services block grant plan for the counties to be served by the program.
- (3) No funds are available for the service being proposed.
- (4) The proposed contract does not meet applicable rules, regulations, or guidelines, including service definition.

*f. Contract effective date.* When the agreed-upon contract conditions have been met, the effective date of the contract is the first day of an agreed-upon month following signature by the chief of the bureau of purchased services.

**150.3(2) Contract administration.**

*a. Contract management.* During the contract period the assigned project manager shall be the contract liaison between the department and the provider. The project manager shall be contacted on all interpretations and problems relating to the contract and shall follow the issues through to their resolution. The project manager shall also monitor performance under the contract and shall provide or arrange for technical assistance to improve the provider's performance, if needed. Report of On-Site Visit, Form 470-0670, may be used to monitor performance under the contract.

*b. Contract amendment.* The contract shall be amended only upon agreement of both parties. Amendments which affect the cost of services shall include reestablishment of applicable rates. Amendment or Renewal of Iowa Purchase of Social Services Agency Contract, Form 470-0630, shall be used to amend or renew the contract.

*c. Contract renewal.* A joint decision to pursue renewal of the contract must be made at least 60 days before the expiration date.

(1) Each contract shall be evaluated. The department shall take the results of the evaluation into consideration in making the decision on renewal. This evaluation may involve use of the Monitoring and Evaluation Review Guide, Form 470-2571, or other evaluation tools specified in the contract.

(2) Desk Audit for Civil Rights Contract Compliance, Form 470-2215, shall be completed by the provider.

*d. Contract termination.* Causes for termination during the period of the contract are:

- (1) Mutual agreement of the parties involved.
- (2) Demonstration that sufficient funds are unavailable to continue the services involved.
- (3) Failure to make required reporting.
- (4) Failure to make financial and statistical records available for review.
- (5) Failure to abide by the provisions of the contract.

**150.3(3) Conditions of participation.** The provider shall meet the following standards:

*a. Licensure, approval, or accreditation.* The provider shall have any license, approval, and accreditation required by law, regulation or administrative rules, or standards of operation required by the state or the federal government before the contract can be effective. Out-of-state providers shall meet Iowa licensing standards related to treatment, professional staff to client ratio, and staff qualifications.

*b. Signed contract.* A contract can be effective only when signed by all parties required in 150.3(1) "d."

*c. Civil rights laws.* The providers shall be in compliance with all federal, state and local civil rights laws and regulations with respect to equal employment opportunity, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

*d. Title VI compliance.* The provider shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services, or have a written plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

*e. Section 504 compliance.* The provider shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, Plan Review Accessibility Checklist, Form 470-0149, and Section 504 Transition Plan: Structural Accessibility, Form 470-0150, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

*f. Affirmative action.* The provider shall be in compliance with all federal, state, and local laws and regulations regarding affirmative action, or have a written work plan approved by the diversity programs unit to come into compliance. Equal Opportunity Review, Form 470-0148, shall be completed by the provider. Equal Opportunity Review Status Report, Form 470-2194, shall be completed by the diversity programs unit.

*g. Abuse reporting.* The provider shall have a written policy and procedure approved by the service area manager or designee for reporting abuse or denial of critical care of children or dependent adults.

*h. Confidentiality.* The provider shall comply with all applicable federal and state laws and regulations on confidentiality including rules on confidentiality contained in 441—Chapter 9. The provider shall have a written policy and procedure approved by the service area manager or designee for maintaining individual client confidentiality including client record destruction.

*i. Client appeals and grievances.* Clients receiving service through a purchase of service contract have the right to appeal adverse decisions made by the department or the provider. The provider shall have a written policy and procedure approved by the service area manager or designee for handling client appeals and grievances and shall provide information to clients about their rights to appeal.

*j. Client reports.* The provider shall maintain the following client records:

(1) Provider service plan or individual program plan. Providers shall develop a written service plan or individual program plan for each client within 30 days of service initiation. The plan shall include a concise description of the situation or area which will be the focus of the service; statement of the goals to be achieved through the delivery of services; time limited and measurable objectives which will lead to the attainment of the goal to be achieved; specific service components, frequency, and the assignment of responsibility for the provision of the components; and the month and year when it is estimated the client will be able to achieve the current goals and objectives. The provider service plan shall be updated upon receipt of a new departmental case plan, but at least once every six months.

(2) Quarterly progress reports. Quarterly progress reports shall be sent to the department service worker responsible for the client. The first report shall be submitted to the department three months after service is initiated. Reports shall be submitted quarterly thereafter, unless provided for otherwise in rules for a specific service.

The progress report shall include a description of the specific service components provided, their frequency, and who provided them; the client's progress with respect to the goals and service objectives; and any recommended changes in the service plan or individual program plan. For all placement cases the report shall include interpretation of the client's reaction to placement, a summary of medical or dental services that were provided, a summary of educational or vocational progress and participation, and a summary of the involvement of the family with the client and the services.

Reports for the supervised apartment living service shall also include supporting documentation for service provision. The documentation shall list dates of client and collateral contacts, type of contact, persons contacted, and a brief explanation of the focus of each contact. Each unit of service for which payment is sought should be the subject of a written progress note.

(3) Termination of service summary. A termination of service summary shall be sent to the department service worker responsible for the client within two weeks of service termination. The summary shall include the rationale for service termination and the impact of the service components on the client in relationship to the established goals and objectives.

*k. Financial and statistical records.* Each provider of service must maintain sufficient financial and statistical records, including program and census data, to document the validity of the reports submitted to the department.

(1) The records shall be available for review at any time during normal business hours by department personnel, the purchase of service fiscal consultant, and state or federal audit personnel.

(2) These records shall be retained for a period of five years after final payment.

*l. Reports on financial and statistical records.* Reports on financial and statistical records shall be submitted as required. Failure to do so within the required time limits is grounds for termination of the contract.

*m. Maintenance of client records.* Records for clients served through a purchase of service contract must be retained by the provider for a period of three years after service to the client terminates.

*n. Provider charges.* A provider shall not charge department clients more than it receives for the same services provided to nondepartmental clients.

*o. Special-purpose organizations.* A provider may establish a separate, special-purpose organization to conduct certain of the provider's client-related or nonclient-related activities. For example, a development foundation assumes the provider's fund-raising activity. Often, the provider does not own the special-purpose organization (e.g., a nonprofit, nonstock-issuing corporation), and has no common governing body membership. However, a special-purpose organization is considered to be related to a provider if:

(1) The provider controls the organization through contracts or other legal documents that give the provider the authority to direct the organization's activities, management, and policies; or

(2) The provider is, for all practical purposes, the primary beneficiary of the organization's activities. The provider should be considered the special-purpose organization's primary beneficiary if one or more of the following circumstances exist:

The organization has solicited funds on the provider's behalf with provider approval, and substantially all funds so solicited were contributed with intent of benefiting the provider.

The provider has transferred some of its resources to the organization, substantially all of whose resources are held for the benefit of the provider; or

The provider has assigned certain of its functions to a special-purpose organization that is operating primarily for the benefit of the provider.

*p. Certification by department of transportation.*

(1) If the provider furnishes public transit service as defined in 761—910.1(324A), the provider shall annually submit to the project manager information regarding compliance with or exemption from public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules in 761—Chapter 910. This information shall include:

1. Form 020107, Certification Application for Coordination of Public Transit Services, which the project manager shall submit to the department of transportation; and

2. A copy of an ACORD Certificate of Insurance or similar self-insurance documentation, as applicable.

(2) If a provider believes it does not furnish public transit service as defined in 761—910.1(324A) and therefore is exempt from the requirements in subparagraph (1), the provider shall submit Form 020107 with only Section 1 completed when the provider enters into a new contract.

(3) If a provider that has furnished public transit service as defined in 761—910.1(324A) ceases to do so, the provider becomes exempt from the requirements in subparagraph (1).

(4) If an exempt provider begins to furnish public transit service as defined in 761—910.1(324A), the provider shall inform the project manager within 30 days of the change and shall adhere to the procedures in subparagraph (1).

(5) Failure of the provider to cooperate in obtaining or providing the required documentation for compliance or exemption is grounds for denial or termination of the contract.

*q. Services provided.* Services provided, as described in Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet, and attachments, shall at a minimum meet the rules found in the Iowa Administrative Code for a particular service or the contract may be terminated.

*r. Bonding, indemnity and insurance clauses.*

(1) Rescinded IAB 2/3/93, effective 4/1/93.

(2) Indemnity. The provider agrees that it will at all times during the existence of this contract indemnify and hold harmless the department and county against any and all liability, loss, damages, costs or expenses which the provider may hereafter sustain, incur or be required to pay:

1. By reason of any client's suffering personal injury, death or property loss or damages either while participating in or receiving from the provider the care and services to be furnished by the provider under this contract, or while on premises owned, leased, or operated by the provider, or while being

transported in any vehicle owned, operated, leased, chartered, or otherwise contracted for by the provider or any officer, agency, or employee thereof.

2. By reason of any client's causing injury to or damage to another person or property during any time when the provider or any officer, agency or employee thereof has undertaken or is furnishing the care and service called for under this contract.

(3) Insurance. The provider agrees that in order to protect itself as well as the department and county under the indemnity agreement above, it will at all times during the term of the contract have and keep in force a liability insurance policy, verification of which shall accompany Form 470-0663, Iowa Purchase of Social Services Agency Contract Face Sheet. The provider agrees that all employees, volunteers, or any other person, other than employees of the department acting within the scope of their employment in the department, authorized to transport clients in privately owned vehicles, have liability insurance in force.

*s. Renegotiation clause.* In the event there is a revision of federal or state laws or regulations and this contract no longer conforms to those laws or regulations, both parties will review the contract and renegotiate those items necessary to conform with the new federal or state laws or regulations.

*t. Performance measures.* The department may require performance measures.

**150.3(4) Establishment of rates.** The Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, is the basis for establishing the rates to be paid to all providers under an Iowa Purchase of Social Services Agency Contract, Form 470-0628, except as provided below.

*a. Injectable contraceptive unit.* Rescinded IAB 8/1/07, effective 9/5/07.

*b. Out-of-state providers.*

(1) Rescinded IAB 9/1/93, effective 11/1/93.

(2) Out-of-state providers of other services shall have rates established using the applicable portions of the Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664.

*c. Family-centered flexible supportive services.* Rescinded IAB 5/6/09, effective 7/1/09.

**150.3(5) Financial and statistical report.** The Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, shall be completed by those providers as required in 150.3(4). The reports shall be based on the following rules.

*a. Accounting procedures.* Financial information shall be based on the agency's financial records. When the records are not kept on an accrual basis of accounting, the provider shall make the adjustments necessary to convert the information to an accrual basis for reporting. Providers who are multiple program agencies shall submit a cost allocation schedule prepared in accordance with recognized methods and procedures.

(1) Direct program expense shall include all direct client contact personnel involved in a program including the time of a supervisor of a program, or the apportioned share of the supervisor's time when the supervisor supervises more than one program.

(2) Expenses other than salary and fringe benefits shall be charged as direct program expenses when the expenses are identifiable to a program. They may also be charged as direct program expenses when a method of distribution acceptable to the department is maintained on a consistent basis.

(3) Occupancy expenses shall be allocated to programs on a space utilization formula. The space utilization formula may be used for salaries and fringes of building maintenance and janitorial type personnel.

(4) All expenses which relate jointly to two or more programs shall be allocated to program service costs by utilizing a cost allocation method which fairly distributes costs to the related programs. Any expenses which relate directly to a particular program shall be reflected as such. All maintenance costs shall be charged directly or allocated proportionately to the related programs affected.

(5) Indirect program service costs shall be distributed over all applicable services.

(6) Expenses such as supplies, conferences, and similar expenses that cannot be directly related to a program shall be charged to indirect program service costs.

(7) A multiservice agency shall establish a method acceptable to the department of distributing indirect program service costs.

(8) Income received from fund-raising efforts or donations shall be reported as revenue on the financial and statistical report and used to offset fund-raising costs. Fund-raising costs remaining after the offset shall be an unallowable cost.

All contributions shall be accompanied by a schedule showing the contribution and anticipated designation by the agency. No private moneys contributed to the agency shall be included by the department in its reimbursement rate determination unless these moneys are contributed for services provided to specific individuals for whom the reimbursement rate is established by the department.

If a shelter care provider's actual and allowable costs for a child's shelter care placement exceed the amount the department is authorized to pay and the provider is reimbursed by the child's county of legal settlement for the difference between actual and allowable costs and the amount reimbursed by the department, the amount paid by the county shall not be included by the department in its reimbursement rate determination, as long as the amount paid is not greater than the provider's actual and allowable costs, or the statewide average of actual and allowable costs in May of the preceding year for juvenile shelter care homes, whichever is less.

(9) When an agency has a certified public accounting firm perform an audit of its financial statements, the resulting audit report shall follow one of the uniform audit report formats recommended by the American Institute of Certified Public Accountants. These formats are specified in the industry audit guide series, "Audits of Voluntary Health and Welfare Organizations," prepared by the Committee on Voluntary Health and Welfare Organizations, American Institute of Certified Public Accountants, New York, 1974. A copy of the certified audit report shall be submitted to the department within 60 days of receipt.

(10) All expenses reported on Form 470-0664 shall be supported by an agency's general ledger and documentation on file in the agency's office.

*b. Failure to maintain records.* Failure to maintain records adequate to support the Financial and Statistical Report for Purchase of Service Contracts, Form 470-0664, may result in termination of the contract. These records include, but are not limited to:

- (1) Reviewable, legible census reports.
- (2) Payroll information.
- (3) Capital asset schedules.
- (4) All canceled checks, deposit slips, invoices (paid and unpaid).
- (5) Audit reports (if any).
- (6) Board of directors' minutes.

*c. Submission of reports.* The financial and statistical report shall be submitted to the department no later than three months after the close of the provider's established fiscal year. At least one week must be allowed prior to this deadline for the project manager to review the report and transmit it to the bureau of purchased services in central office. Failure to submit the report in time without written approval from the chief of the bureau of purchased services may reduce payment to 75 percent of the current rate. Failure to submit the report within six months of the end of the fiscal year shall be cause for terminating the contract.

*d. Rate modification.* Modification of rates shall be made when required by changes in licensing requirements, changes in the law, or amendments to the contract. Requests for modification of a rate may be made when changes are because of program expansion or modification and have the approval of the service area where services are provided. Even if there is a modification of the rate, the modified rate is still subject to any maximum established in any law or rule.

*e. Payment of new rate.* New rates shall be effective for services provided beginning the first day of the second calendar month after receipt by the bureau of purchased services of a report sufficient to establish rates or, by mutual agreement, new rates shall be effective the first day of the month following completion of the fiscal review. Failure to submit a report sufficient to establish a rate will result in the effective date's being delayed. At least one week must be allowed prior to the deadline in paragraph "c" above for the project manager to review the report and transmit it to central office.

*f. Exceptions to costs.* Exceptions to costs identified by the bureau of purchased services or its fiscal consultant will be communicated to the provider in writing.

*g. Accrual basis.* Providers not using the accrual basis of accounting shall adjust amounts to the accrual basis when the financial and statistical report is completed. Records of cash receipts and disbursements shall be adjusted to reflect accruals of income and expenses.

*h. Census data.* Documentation of units of service provided which identifies the individual client shall be available on a daily basis and summarized on a monthly report. The documentation and reports shall be retained by the provider for review at the time the expenditure report is prepared and reviewed by the department's fiscal consultant.

*i. Opinion of accountant.* The department may require that an opinion of a certified public accountant or public accountant accompany the report when adjustments made to prior reports indicate noncompliance with reporting instructions.

*j. Revenues.* When the Financial and Statistical Report is completed, revenues shall be reported as recorded in the general books and records adjusted for accruals. Expense recoveries shall be reflected as revenues.

*k. Capital asset use allowance (depreciation) schedule.* The Capital Asset Use Allowance Schedule shall be prepared using the guidelines for provider reimbursement in the Medicare and Medicaid Guide, December 1981.

*l. The following expenses shall not be allowed:*

- (1) Fees paid directors and nonworking officers' salaries.
- (2) Bad debts.
- (3) Entertainment expenses.
- (4) Memberships in recreational clubs, paid for by an agency (country clubs, dinner clubs, health clubs, or similar places) which are primarily for the benefit of the employees of the agency.
- (5) Legal assistance on behalf of clients.
- (6) Costs eligible for reimbursement through the medical assistance program.
- (7) Food and lodging expenses for personnel incurred in the city or immediate area surrounding the personnel's residence or office of employment, except when the specific expense is required by the agency and documentation is maintained for audit purposes. Food and lodging expenses incurred as part of programmed activities on behalf of clients, their parents, guardians, or consultants are allowable expenses when documentation is available for audit purposes.
- (8) Business conferences and conventions. Meeting costs of an agency which are not required in licensure.
- (9) Awards and grants to recognize board members and community citizens for achievement. Awards and grants to clients as part of treatment program are reimbursable.
- (10) Survey costs when required certification is not attained.
- (11) Federal and state income taxes.

*m. Limited service—without a ceiling.* The following expenses are limited for service without a ceiling established by administrative rule or law for that service. This includes services with maximum rates, with the exception of shelter care.

(1) Moving and recruitment are allowed as a reimbursable cost only to the extent allowed for state employees. Expenses incurred for placing advertising for purposes of locating qualified individuals for staff positions are allowed for reimbursement purposes.

(2) and (3) Rescinded IAB 5/18/88, effective May 1, 1988.

(4) Costs for participation in educational conferences are limited to 3 percent of the agency's actual salary costs, less excluded or limited salary costs as recorded on the financial and statistical report.

(5) Costs of reference publications and subscriptions for program-related materials are limited to \$500 per year.

(6) Memberships in professional service organizations are allowed to the extent they do not exceed one-half of 1 percent of the total salary costs less excluded salary costs.

(7) In-state travel costs for mileage and per diem expenses are allowable to the extent they do not exceed the maximum mileage and per diem rates for state employees for travel in the state.

(8) Reimbursement for air travel shall not exceed the lesser of the minimum commercial rate or the rate allowed for mileage in subparagraph (7) above.

(9) The maximum reimbursable salary for the agency administrator or executive director charged to purchase of service is \$40,000 annually.

(10) Annual meeting costs of an agency which are required in licensure are allowed to the extent required by licensure.

*n. Limited service—with a ceiling.* The following expenses are limited for services with a ceiling established by administrative rule or law for that service. This includes shelter care.

(1) The maximum reimbursable compensation for the agency administrator or executive director charged to purchase of service annually is \$40,000.

(2) Annual meeting costs of an agency which are required for licensure are allowed to the extent required by licensure.

*o. Establishment of ceiling and reimbursement rate.*

(1) The maximum allowable rate ceiling applicable to each service is found in the rules for that particular service.

(2) When a ceiling exists, the reimbursement rate shall be established by determining on a per unit basis the allowable cost plus the current cost adjustment subject to the maximum allowable cost ceiling.

*p. Rate limits.* Interruptions in service programs will not affect the rate. If an agency assumes the delivery of service from another agency, the rate shall remain the same as for the former agency.

(1) The combined service and maintenance reimbursement rate paid to a shelter care provider shall be based on the financial and statistical report submitted to the department. For the fiscal year beginning July 1, 2015, the maximum reimbursement rate shall be \$101.83 per day, based on a 365-day year. If the department reimburses the provider at less than the maximum rate, the department shall adjust the provider's reimbursement rate to the provider's actual and allowable cost plus the inflation factor or to the maximum reimbursement rate, whichever is less.

(2) The initial reimbursement rate for any new service shall be based upon actual and allowable costs. A new service does not include a new building or location or other changes in method of service delivery for a service currently provided under the contract.

1. For shelter care, if the provider is currently offering shelter care under social services contract, the only time the provider shall be considered to be offering a new service is if the provider adds a service other than shelter care.

2. For supervised apartment living, the only time a provider shall be considered to be offering a new service is when the agency adds a cluster site or a scattered site for the first time. If, for example, the agency has a supervised apartment living cluster site, the addition of a new site does not constitute a new service.

3. If the department defines, in administrative rule, a new service as a social service that may be purchased, this shall constitute a new service for purposes of establishment of a rate. Once the rate for the new service is established for a provider, the rate will be subject to any limitations established by administrative rule or law.

(3) If a social service provider loses a source of income used to determine the reimbursement rate for the provider, the provider's reimbursement rate may be adjusted to reflect the loss of income, provided that the lost income was used to support actual and allowable costs of a service purchased under a purchase of service contract.

*q. Related party costs.* Direct and indirect costs applicable to services, facilities, equipment, and supplies furnished to the provider by organizations related to the provider are includable in the allowable cost of the provider at the cost to the related organization. All costs allowable at the provider level are also allowable at the related organization level, unless these related organization costs are duplicative of provider costs already subject to reimbursement.

(1) Allowable costs shall be all actual direct and indirect costs applying to any service or item interchanged between related parties, such as capital use allowance (depreciation), interest on borrowed money, insurance, taxes, and maintenance costs.

(2) When the related party's costs are used as the basis for allowable rental or supply costs, the related party shall supply documentation of these costs to the provider. The provider shall complete a

schedule displaying amount paid to related parties, related party cost, and total amount allowable. The resulting costs shall be allocated according to policies in 150.3(5) “a”(3) to (7).

Financial and statistical records shall be maintained by the related party under the provisions in 150.3(3) “k.”

(3) Tests for relatedness shall be those specified in rule 441—150.1(234) and 150.3(3) “o.” The department or the purchase of service fiscal consultant shall have access to the records of the provider and landlord or supplier to determine if relatedness exists. Applicable records may include financial and accounting records, board minutes, articles of incorporation, and list of board members.

*r. Day care increase.* Rescinded IAB 7/7/93, effective 7/1/93.

*s. Interest on unpaid invoices.* Any invoice that remains unpaid after 60 days following the receipt of a valid claim is subject to the payment of interest. The rate of interest is 1 percent per month beyond the 60-day period, on a simple interest basis. A separate claim for the interest is to be generated by the agency. If the original claim was paid with both federal and state funds, only that portion of the original claim paid with state funds will be subject to interest charges.

*t. Interest as an allowable cost.* Necessary and proper interest on both current and capital indebtedness is an allowable cost.

(1) “Interest” is the cost incurred for the use of borrowed funds. Interest on current indebtedness is the cost incurred for funds borrowed for a relatively short term. Interest on capital indebtedness is the cost incurred for funds borrowed for capital purposes.

(2) “Necessary” requires that the interest be incurred on a loan made to satisfy a financial need of the provider, be incurred on a loan made for a purpose reasonably required to operate a program, and be reduced by investment income except where the income is from gifts and grants whether restricted or unrestricted, and which are held separate and not commingled with other funds.

(3) “Proper” requires that interest be incurred at a rate not in excess of what a prudent borrower would have had to pay in the money market on the date the loan was made, and be paid to a lender not related through control or ownership to the borrowing organization.

*u. Rate formula.* Paragraph 150.3(5) “p” notwithstanding, when rates are determined based on cost of providing the service involved, they will be calculated according to the following mathematical formula:

$$\frac{\text{Net allowable expenditures}}{\text{Effective utilization level}} \times \text{Reimbursement factor} = \text{Base Rate}$$

(1) Net allowable expenditures are those expenditures attributable to service to clients which are allowable as set forth in subrule 150.3(5), paragraphs “a” to “t.”

(2) Effective utilization level shall be 80 percent or actual (whichever is greater) of the licensed or staffed capacity (whichever is less) of the program.

(3) Inflation factor is the percentage which will be applied to develop payment rates consistent with current policy and funding of the department. The inflation factor is intended to overcome the time lag between the time period for which costs were reported and the time period during which the rates will be in effect. The inflation factor shall be the amount by which the Consumer Price Index for all urban consumers increased during the preceding calendar year ending December 31.

(4) Base rate is the rate which is developed independent of any limits which are in effect. Actual rates paid are subject to applicable limits or maximums.

*v.* Rescinded IAB 5/13/92, effective 4/16/92.

**150.3(6) Client eligibility and referral.**

*a.* Program eligibility. To receive services through the purchase of service system, clients shall be determined eligible and be formally referred by the department.

(1) The department shall not make payment for services provided before the client’s application, eligibility determination, and referral. See “b” below for an exception to this requirement.

(2) Except as provided in paragraph “c,” the department shall use the following forms to authorize services:

1. Form 470-0622, Referral of Client for Purchase of Social Services.
2. Form 470-0719, Placement Agreement: Child Placing or Child Caring Agency (Provider).

*b.* When a court orders foster care and the department has no responsibility for supervision or placement of the client, the department will pay the rate established by these rules for maintenance and service provided by the facility.

*c.* Family-centered services. For family-centered services, the provisions in rule 441—172.3(234) relating to approval, authorization, and referral shall apply.

**150.3(7) Client fees.** The provider shall agree not to require any fee for service from departmental clients unless a fee is required by the department and is consistent with federal regulation and state policy. Rules governing client fees are found in 441—130.4(234).

The provider shall collect fees due from clients. The provider shall maintain records of fees collected, and these records shall be available for audit by the department or its representative. When a client does not pay the fee, the provider shall demonstrate that a reasonable effort has been made to collect the fee. Reasonable effort to collect means an original billing and two follow-up notices of nonpayment. When the second notice of nonpayment is sent, the provider shall send a copy of the notice to the department worker.

**150.3(8) Billing procedures.** At the end of each month the provider agency shall prepare Form 470-0020, Purchase of Service Provider Invoice, for contractual services provided by the agency during the month.

Separate invoices shall be prepared for each county from which clients were referred, each service, and each funding source involved in payment. Complete invoices shall be sent to the departmental county office responsible for the client for approval and forwarding for payment.

More frequent billings may be permitted on an exception basis with the written approval of the service area and the chief of the bureau of purchased services.

*a.* Time limit for submitting vouchers, invoices, or claims. The time limit for submission of original vouchers, invoices, or claims shall be three months from the date of service.

*b.* Resubmittals of rejected claims. Valid claims which were originally submitted within the time limit specified in paragraph “a” but were rejected because of an error shall be resubmitted without regard to time frames.

**150.3(9) Reviews of departmental actions.** A provider who is adversely affected by a departmental decision may request a review. A review request may cause the action to be stopped pending the outcome of the review, except in cases where it can be documented that to do so would be detrimental to the health and welfare of clients. The procedure for review is:

*a.* The provider shall send a written request for review to the project manager responsible for the contract within ten days of receipt of the decision in question. This request shall document the specific area in question and the remedy desired. The project manager shall provide a written response within ten days.

*b.* When dissatisfied with the response, the provider shall submit to the service area manager within ten days the original request, the response received, and any additional information desired. The service area manager shall study the concerns and the action taken, and render a decision in writing within 14 days. A meeting with the provider may be held to clarify the situation.

*c.* If still dissatisfied, the provider may within ten days request a review by the chief of the bureau of purchased services. The request for review should include copies of material from paragraphs “a” and “b” above. The bureau chief shall review the issues and positions of the parties involved and provide a written decision within 14 days. A meeting may be held with the provider, project manager, and service area manager or designee.

*d.* The provider may appeal this decision within ten days to the director of the department, who will issue the final department decision within 14 days.

**150.3(10) Review of financial and statistical reports.** Authorized representatives of the department or state or federal audit personnel shall have the right to review the general financial records of a provider. The purpose of the review is to determine if expenses reported to the department have been handled as required under 150.3(5). Representatives shall provide proper identification and shall use generally

accepted auditing principles. The reviews may include an on-site visit to the provider, the provider's central accounting office, the offices of the provider's agents, a combination of these, or, by mutual decision, to other locations.

**150.3(11)** Rescinded, effective 3/1/87.

This rule is intended to implement Iowa Code section 234.6.

[**ARC 7741B**, IAB 5/6/09, effective 7/1/09; **ARC 8447B**, IAB 1/13/10, effective 1/1/10; **ARC 8651B**, IAB 4/7/10, effective 5/12/10; **ARC 8902B**, IAB 6/30/10, effective 7/1/10; **ARC 0860C**, IAB 7/24/13, effective 7/1/13; **ARC 1060C**, IAB 10/2/13, effective 11/6/13; **ARC 2342C**, IAB 1/6/16, effective 2/10/16]

**441—150.4(234) Iowa purchase of social services contract—individual providers.**

**150.4(1)** *Individual child day care provider agreement.* Rules governing individual child day care provider agreements may be found in 441—Chapter 170.

**150.4(2)** *Individual in-home health-related provider agreement.* Rules governing individual in-home health-related provider agreements may be found in 441—Chapter 177.

**441—150.5(234) Iowa purchase of administrative support.**

**150.5(1)** *Initiation of contract proposal.*

*a. Right to request a contract.* All potential contractors have a right to request a contract.

*b. Initial contact.*

(1) Volunteer contract. The initial contact for a volunteer contract may be between the potential contractor and the service area manager of the service area in which the individual or the contractor agency's headquarters is located or the contract may be between the potential contractor and the director of the state volunteer program in the central office of the department. If so, the director will communicate with the service area.

(2) General use administrative support contract. The initial contact for a general use administrative support contract may be between the potential contractor and the service area manager of the service area in which the individual or contractor organization's headquarters is located or the contract may be between the potential contractor and the chief of the bureau of purchased services, who will communicate with the service area.

*c. Contract proposal development.* When the service area manager determines that a contract is to be developed, a project manager will be assigned who will assist in contract development and processing. The project manager will assist the contractor in completing the contract proposal and fiscal information appropriate to the contract. This includes documentation that the conditions of participation required below are met.

*d. Contract proposal approval or rejection.* Before a contract can be effective it shall be signed by the following persons within the time frames provided:

(1) Volunteer contract.

Individual contractor or authorized representative of the contractor agency.

Service area manager within one week from receipt.

Director of the state volunteer program within 30 days from receipt.

(2) General use administrative support contract.

Individual contractor or authorized representative of the contractor agency.

Service area manager within one week from receipt.

Chief of the bureau of purchased services within two weeks from receipt.

Administrator of the division of fiscal management within two weeks from receipt.

The contractor shall be notified of delays in the process or of rejection of the proposal. This notification along with an explanation shall be in writing. The applicant has a right to have the decision reviewed by the director of the state volunteer program, or chief of the bureau of purchased services.

*e. Criteria for rejection.* The following criteria may cause a proposed contract to be rejected.

(1) The proposed activity is not needed by the department.

(2) No funds are available for the activity being proposed.

(3) The proposed contract does not meet applicable rules, regulations, or guidelines.

*f. Contract effective date.* If the agreed-upon contract conditions have been met, the effective date of the contract is the first day of an agreed-upon month following signature by the director of the state volunteer program, or the chief of the bureau of purchased services.

**150.5(2) Contract administration.**

*a. Contract management.* During the contract period, the assigned project manager shall be the liaison between the department and the contractor. The project manager shall be contacted on all interpretations and problems related to the contract and shall follow issues through to their resolution. The project manager shall also monitor performance under the contract and will provide or arrange for technical assistance to improve the contractor's performance, if needed.

*b. Contract amendments.* The contract shall be amended only upon agreement of both parties. Amendments which affect the cost of providing the volunteer services must include reestablishment of amounts to be paid.

*c. Contract renewal.* A joint decision to pursue renewal of the contract must be made at least 60 days prior to the expiration date. Each contract shall be evaluated. The results of the evaluation shall be taken into consideration in the decision on renewal. This evaluation may involve use of evaluation tools specified in the contract.

*d. Contract termination.* Causes for termination during the period of the contract are:

- (1) Mutual agreement of the parties involved.
- (2) Demonstration that sufficient funds are unavailable to continue the service(s) involved.
- (3) Failure to make reports required by the contract.
- (4) Failure to make financial, statistical, and program records available.
- (5) Failure to abide by the provisions of the contract.

**150.5(3) Conditions of participation.** The contractor shall meet the following standards:

*a. Licensure, approval, or accreditation.* The contractor shall have any license, approval, and third-party accreditation required by law, regulation, or administrative rules, or shall meet standards of operation required by state or federal regulation. This requirement must be met before the contract can be effective.

*b. Signed contract.* A contract can be effective only when signed by all parties required in 150.5(1) "d."

*c. Civil rights laws.* The contractors shall be in compliance with all federal, state, and local civil rights laws and regulations with respect to equal employment opportunity, or have a written work plan approved by the diversity programs unit to come into compliance.

*d. Title VI compliance.* The contractors shall be in compliance with Title VI of the 1964 Civil Rights Act and all other federal, state, and local laws and regulations regarding the provision of services, or have a written plan approved by the diversity programs unit to come into compliance.

*e. Section 504 compliance.* The contractors shall be in compliance with Section 504 of the Rehabilitation Act of 1973 and with all federal, state, and local Section 504 laws and regulations, or have a written work plan approved by the diversity programs unit to come into compliance.

*f. Affirmative action.* The contractors shall be in compliance with all federal, state, and local laws and regulations regarding affirmative action, or have a written work plan approved by the diversity programs unit to come into compliance.

*g. Abuse reporting.* The contractor shall have an approved policy and procedure for reporting abuse or denial of critical care of children or dependent adults.

*h. Confidentiality.* The contractor shall comply with all applicable federal and state laws and regulations on confidentiality.

*i. Financial and statistical records.* Each contractor of service shall maintain sufficient financial and statistical records, including program and census data, to document the validity of the reports submitted to the department.

(1) The records shall be available for review at any time during normal business hours by department personnel, the purchase of service fiscal consultant, or state or federal audit personnel.

(2) These records shall be retained for a period of five years after final payment.

*j. Certification by department of transportation.* Each contractor who supplies transportation services shall submit Form 020107, Certification Application for Coordination of Public Transit Services, and a copy of “Certificate of Insurance” (an ACORD form or similar or self-insurance documentation) to the applicable project manager annually showing information regarding compliance with, or exemption from, public transit coordination requirements as found in Iowa Code chapter 324A and department of transportation rules 761—Chapter 910.

Failure to provide the required documentation for compliance or exemption is grounds for denial or termination of the contract.

**150.5(4) *Establishing amounts to be paid.*** The amounts to be paid under purchase of administrative support contracts are actual approved expenses as negotiated in the contract. Approved items of cost are based on submission of a proposed budget listing those items necessary for provision of the volunteer coordination or technical assistance to be delivered. At the termination of the contract a statement of actual expenses incurred shall be submitted by the contractor.

**150.5(5) *Billing procedures.*** At the end of each month, or as otherwise provided in the contract, the contractor shall prepare a claim on Form GAX, General Accounting Expenditure, for expenses for which reimbursement is permitted in the contract. The claim shall be sent to the office of the department that administers the contract for approval and forwarding for payment.

*a. Time limit for submitting claims.* The time limit for submission of original claims shall be within 90 days of the provision of service.

*b. Resubmittals of rejected claims.* Valid claims which were originally submitted within this time limit but were rejected because of an error must be resubmitted, but without regard to time frames.

**150.5(6) *Reviews of department actions.*** A contractor who is adversely affected by a department decision may request a review. A review request may cause the action to be stopped pending the outcome of the review process, except in cases where it can be documented that to do so would be detrimental to the health and welfare of clients. The procedure for review is:

*a.* Within ten days of receipt of the decision in question the contractor shall send a written request for review to the project manager responsible for the contract. This request shall document the specific area in question and the remedy desired. A written response from the project manager shall be provided within ten days.

*b.* When dissatisfied with the response, the contractor shall submit the original request, the response received, and any additional information desired to the service area manager within ten days. The service area manager shall study the concerns, the action taken and render a decision in writing within 14 days. A meeting with the contractor may be held to clarify the situation.

*c.* If still dissatisfied, the contractor may within ten days request a review by the chief of the bureau of purchased services. The request for review should include copies of material from paragraphs “a” and “b” above. The bureau chief shall review the issues and positions of the parties involved and provide a written decision within 14 days. A meeting with the contractor, project manager, and service area manager or designee may be held.

*d.* The contractor may appeal this decision within ten days to the director of the department, who will issue the final department decision within 14 days.

**150.5(7) *Reviews.*** Authorized representatives of the department or state or federal audit personnel have the right to review the general financial records of a contractor. The purpose of the review is to determine if expenses reported to the department have been handled as required under 150.5(4). Representatives shall provide proper identification and shall use generally accepted auditing principles. The reviews may be on the basis of an on-site visit to the contractor, the contractor’s central accounting office, the offices of the contractor’s agents, a combination of these, or, by mutual decision, to other locations.

This rule is intended to implement Iowa Code sections 234.6 and 324A.5, subsection 3, paragraph “c.”

**441—150.6(234) County board of supervisors participation contract.** Rescinded IAB 7/8/92, effective 7/1/92.

**441—150.7(234) Iowa donation of funds contract.** Rescinded IAB 12/3/08, effective 2/1/09.

**441—150.8(234) Provider advisory committee.** Rescinded IAB 12/3/08, effective 2/1/09.

**441—150.9(234) Public access to contracts.** Subject to applicable federal and state laws and regulations on confidentiality including 441—Chapter 9, all material submitted to the department of human services pursuant to this chapter shall be considered public information.

These rules are intended to implement Iowa Code section 234.6 and 2001 Iowa Acts, House File 732, section 31, subsection 6, and Senate File 537, section 1, subsection 1, paragraph “d.”

**441—150.10 to 150.20** Reserved.

CHAPTER 202  
FOSTER CARE PLACEMENT AND SERVICES

[Prior to 7/1/83, Social Services[770] Ch 136]  
[Previously appeared as Ch 136—renumbered IAB 2/29/84]  
[Prior to 2/11/87, Human Services[498]]

**441—202.1(234) Definitions.**

*“Age- or developmentally appropriate activities”* means activities or items that are generally accepted as suitable for children of the same chronological age or level of maturity or that are determined to be developmentally appropriate for a child, based on the development of cognitive, emotional, physical, and behavioral capacities that are typical for an age or age group; and in the case of a specific child, activities or items that are suitable for the child based on the developmental stages attained by the child with respect to the cognitive, emotional, physical, and behavioral capacities of the child.

*“Case permanency plan”* shall mean the plan identifying goals, needs, strengths, problems, services, time frames for meeting goals and for delivery of the services to the child and parents, objectives, desired outcomes, and responsibilities of all parties involved and reviewing progress.

*“Child”* shall mean the same as defined by Iowa Code section 234.1.

*“Department”* shall mean the Iowa department of human services and includes the local offices of the department.

*“Eligible child”* shall mean a child for whom the court has given guardianship to the department or has transferred legal custody to the department or for whom the department has agreed to provide foster care services on the basis of a signed placement agreement or who has been placed in emergency care for a period of not more than 30 days upon the approval of the director or the director’s designee.

*“Facility”* means the personnel, program, plant and equipment of a person or agency providing child foster care.

*“Family safety, risk, and permanency service”* means a service provided under 441—Chapter 172 that uses strategies and interventions designed to achieve safety and permanency for a child with an open department child welfare case, regardless of the setting in which the child resides.

*“Foster care”* shall mean substitute care furnished on a 24-hour-a-day basis to an eligible child in a licensed or approved facility by a person or agency other than the child’s parent or guardian but does not include care provided in a family home through an informal arrangement for a period of 20 days or less. Child foster care shall include but is not limited to the provision of food, lodging, training, education, supervision, and health care.

*“Natural parent”* shall mean a parent by blood, marriage, or adoption.

*“Person”* or *“agency”* shall mean individuals, institutions, partnerships, voluntary associations, and corporations, other than institutions under the management or control of the department, who are licensed by the department as a foster family home, child caring agency or child placing agency, or approved as a shelter care facility.

*“Reasonable and prudent parent standard”* means the standard characterized by careful and sensible parental decisions that maintain the health, safety, and best interests of a child while at the same time encourage the emotional and developmental growth of the child, that a caregiver shall use when determining whether to allow a child in foster care under the responsibility of the state to participate in extracurricular, enrichment, cultural, and social activities. For the purposes of this definition, “caregiver” means a foster parent with whom a child in foster care has been placed or a designated official for a child care institution (including group homes, residential treatment, shelters, or other congregate care settings) in which a child in foster care has been placed.

*“Resource family”* means an individual person or married couple who is licensed to provide foster family care or approved for adoption.

*“Safety-related information”* means information that indicates whether the child has behaved in a manner that threatened the safety of another person, has committed a violent act causing bodily injury to another person, or has been a victim or perpetrator of sexual abuse.

“*Service area manager*” shall mean the department employee responsible for managing department offices and personnel within the service area and for implementing policies and procedures of the department.

“*Social history*” or “*child study*” means a written description of the child that includes strengths and needs; medical, mental, social, educational, placement and court history; and the child’s relationships with the birth family and significant others.

This rule is intended to implement Iowa Code section 234.6(6) “*b.*”  
[ARC 8010B, IAB 7/29/09, effective 10/1/09; ARC 2069C, IAB 8/5/15, effective 10/1/15]

#### **441—202.2(234) Eligibility.**

**202.2(1)** Only an eligible child as defined in these rules shall be considered for foster care services supervised by the department.

**202.2(2)** The need for foster care placement and social and other related services, including but not limited to medical, psychiatric, psychological, and educational services, shall be determined by an assessment of the child and family to determine their needs and the appropriateness of services.

*a.* Assessments shall include:

(1) The educational, physical, psychological, social, family living, and recreational needs of the child,

(2) The family’s ability to meet those needs, and

(3) A family genogram to determine relatives and other suitable support persons who have a kinship bond with the child.

*b.* The assessment is a continual process to identify needed changes in service or placement for the child.

**202.2(3)** With the exception of emergency care, a social history shall be completed on each child before a department recommendation for foster care placement, using the outline RC-0027, Social History Format.

*a.* For voluntary emergency placements, a social history shall be completed before a decision is made to extend the placement beyond 30 days.

*b.* For court-ordered emergency placements, a social history shall be completed before the disposition hearing.

**202.2(4)** Foster care placement shall be recommended by the department only after efforts have been made to prevent or eliminate the need for removal of the child from the family unless the child is in immediate danger at home.

**202.2(5)** The need for foster care and the efforts to prevent placement shall be evaluated by a review committee prior to placement or, for emergency placements only, within 30 days after the date of placement. For children who are mentally retarded or developmentally disabled and receive case management services, this requirement may be met by the interdisciplinary staffing described in 441—Chapter 90, as long as the service area manager approves, the department worker attends the staffing, and the staffing meets the requirements of paragraphs “*b*” to “*h*” below.

The review shall meet the following requirements:

*a.* Department staff on the review committee shall be the child’s service worker, a supervisor knowledgeable in child welfare, and one or more additional persons appointed by the service area manager.

*b.* The review shall be open to the participation of the parents or guardian of the child, local and area education staff, juvenile court staff, the guardian ad litem, current service providers and previous service providers who have maintained a license.

*c.* The present foster care provider, if any, shall be notified of the review and have the opportunity to participate.

*d.* Written notice of the review shall be sent to the child’s parents or guardian at least five working days prior to the date of the review.

*e.* Other persons may be invited to the review with the consent of the parents or guardian.

*f.* A written summary of the review recommendations shall be sent to the child's parents or guardian following the review.

*g.* Review committee recommendations shall be advisory to the service worker and supervisor, who are responsible for development of the department case plan and for reports and recommendations to the juvenile court.

*h.* At least one of the persons on the review committee shall be someone without responsibility for the case management or the delivery of services to either the child or the parents or guardian who are the subject of the review.

**202.2(6)** The citizenship or alien status of a child who enters foster care must be verified.

*a.* When the child will remain in foster care for no more than 60 days, Form 470-4500, Statement of Citizenship Status: Foster Care, signed by the parent or guardian of the child is sufficient.

*b.* When the child will remain in foster care for more than 60 days, one of the documents listed in this paragraph is required. Any one of the following documents shall be accepted as satisfactory documentation of citizenship or nationality:

(1) A certificate of birth in the United States.

(2) Form FS-240 (Report of Birth Abroad of a Citizen of the United States) issued by the U.S. Citizenship and Immigration Services.

(3) Form FS-545 or Form DS-1350 (Certification of Birth Abroad) issued by the U.S. Citizenship and Immigration Services.

(4) A United States passport.

(5) Form I-97 (United States Citizen Identification Card) issued by the U.S. Citizenship and Immigration Services.

(6) Form N-560 or N-561 (Certificate of United States Citizenship) issued by the U.S. Citizenship and Immigration Services.

(7) Form N-550 or N-570 (Certificate of Naturalization) issued by the U.S. Citizenship and Immigration Services.

(8) A valid state-issued driver's license or other identity document described in Section 274A(b)(1)(D) of the United States Immigration and Nationality Act, but only if the state issuing the license or document either:

1. Requires proof of United States citizenship before issuance of the license or document; or

2. Obtains a social security number from the applicant and verifies before certification that the number is valid and is assigned to the applicant who is a citizen.

(9) Another document that provides proof of United States citizenship or nationality as the Secretary of the U.S. Department of Health and Human Services may specify by regulation pursuant to 42 U.S.C. Section 1396b(x)(3)(B)(v) or 1396b(x)(3)(C)(v).

*c.* A child entering foster care is exempt from these requirements when the family has previously presented satisfactory documentary evidence of citizenship, as specified by the Secretary of the U.S. Department of Health and Human Services.

*d.* The parent or guardian of the child shall have a reasonable period to obtain and provide proof of citizenship. For the purposes of this requirement, the "reasonable period" begins on the date when the child is placed in foster care and continues to the date when the proof is provided or when the department establishes that the parent or guardian is no longer making a good-faith effort to obtain the proof.

This rule is intended to implement Iowa Code sections 234.6(1) and 234.6(6) "b."

[ARC 8010B, IAB 7/29/09, effective 10/1/09]

#### **441—202.3(234) Voluntary placements.**

**202.3(1)** All voluntary placement agreements initiated after July 1, 2003, for children under the age of 18 shall terminate after 90 days.

**202.3(2)** When the voluntary placement is of a child who is under the age of 18, a Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the parent(s) or guardian and the county office where the parent or guardian resides. Voluntary Foster Care Placement Agreements shall not be used to place children outside Iowa and shall not be signed with parents or guardians who

reside outside Iowa. Voluntary Foster Care Placement Agreements shall terminate if the child's parent or guardian moves outside Iowa after the placement.

**202.3(3)** Voluntary placement of a child aged 18 or older may be granted for six months at a time.

*a.* The department shall enter into the agreement only when the child:

- (1) Meets the definition of "child" in Iowa Code section 234.1,
- (2) Was in foster care or a state institution immediately before reaching the age of 18,
- (3) Has continued in foster care or a state institution since reaching the age of 18,
- (4) Has demonstrated a willingness to participate in case planning and to fulfill responsibilities as defined in the case permanency plan, and
- (5) Will be placed in foster family care or supervised apartment living in Iowa.

*b.* Payment shall be limited pursuant to 441—paragraph 156.20(1) "b."

*c.* When the voluntary placement is of a child who is aged 18 or older and who has a court-ordered guardian, the Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the guardian and the local office where the guardian resides. Voluntary Foster Care Agreements shall not be signed with guardians who reside outside Iowa. Voluntary Foster Care Placement Agreements shall terminate if the child's guardian moves outside Iowa after the placement.

*d.* When the voluntary placement is of a child who is aged 18 or older and who does not have a court-appointed guardian, the Voluntary Foster Care Placement Agreement, Form 470-0715, shall be completed and signed by the child and the local office where the child resides.

*e.* An exception to the requirement for continuous placement may be made for a youth who leaves foster care at age 18 and voluntarily returns to supervised apartment living foster care before the youth's twentieth birthday in order to complete high school or obtain a general equivalency diploma (GED).

**202.3(4)** All voluntary placements shall be approved by the service area manager or designee.

This rule is intended to implement Iowa Code sections 234.6(6) "b" and 234.35(1) "c."

[ARC 8010B, IAB 7/29/09, effective 10/1/09]

**441—202.4(234) Selection of facility.**

**202.4(1)** Placement consistent with the best interests and special needs of the child shall be made in the least restrictive, most family-like facility available and in close proximity to the child's home. Race, color, or national origin may not be routinely considered in placement selections.

**202.4(2)** Efforts shall be made to place siblings together unless to do so would be detrimental to any of the children's physical, emotional or mental well-being. Efforts to prevent separating siblings, reasons for separating siblings, and plans to maintain sibling contact shall be documented in the child's case permanency plan.

**202.4(3)** The department shall first consider placing the child in a relative's home unless no relatives are available or willing to accept placement or such placement would be detrimental to the child's physical, emotional or mental well-being.

*a.* If a relative or a suitable person who has a kinship bond with the child will accept placement of the child:

- (1) The person shall sign Form 595-1489, Non-Law Enforcement Record Check Request, and
- (2) The department shall complete record checks as listed in 441—subrule 113.13(1) to evaluate if the person's home is appropriate for the child before making the placement.

*b.* Efforts to place the child in a relative's home and reasons for using a nonrelative placement shall be documented in the child's case permanency plan.

**202.4(4)** If the child cannot be placed with a relative or a suitable person who has a kinship bond with the child, foster family care shall be used for a child unless the child has problems which require specialized services that cannot be provided in a family setting. Reasons for using a more restrictive placement shall be documented in the child's case permanency plan.

**202.4(5)** A foster family shall be selected on the basis of compatibility with the child, taking into consideration:

*a.* The extent to which interests, strengths, abilities and needs of the foster family enable the foster family members to understand, accept and provide for the individual needs of the child.

*b.* The child's individual problems, medical needs, and plans for future care. The department shall not place a child with asthma or other respiratory health issues in a foster home where any member of the household smokes.

*c.* The capacity of the foster family to understand and accept the child's case permanency plan, the needs and attitudes of the child's parents, and the relationship of the child to the parents.

*d.* The characteristics of the foster family that offer a positive experience for the child who has specific problems as a consequence of past relationships.

*e.* An environment that will cause minimum disruption of the child including few changes in placement for the child.

*f.* Rescinded IAB 4/11/07, effective 7/1/07.

**202.4(6)** A foster group care facility shall be selected on the basis of its ability to meet the needs of the child, promote the child's growth and development, and ensure physical, intellectual and emotional progress during the stay in the facility. The department shall place a child only in a licensed or approved facility which has a current contract with the department pursuant to 441—Chapter 152.

This rule is intended to implement Iowa Code section 234.6(6) "b."  
[ARC 8010B, IAB 7/29/09, effective 10/1/09]

#### **441—202.5(234) Preplacement.**

**202.5(1)** Except for placements made in less than 24 hours, a child placed in a facility shall have a preplacement visit involving:

- a.* The child,
- b.* The foster parents or agency staff, if the child is placed in a public or private agency,
- c.* The department service worker, and
- d.* The child's parents, unless their presence would be disruptive to the child's placement.

**202.5(2)** Before placement, the worker shall provide the facility with general information regarding the child, including a description of the child's medical needs, behavioral patterns including safety-related information, educational plans, and permanency goal. Safety-related information shall be withheld only if:

- a.* Withholding the information is ordered by the court; or
- b.* The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

**202.5(3)** The child shall have a physical examination by a physician before the initial placement in foster care or within 14 calendar days of placement. The physician shall complete a preliminary screening for dental and mental health and refer the child to a dentist or mental health professional if appropriate. To address any immediate medical needs, the child shall be seen immediately at an emergency room, an urgent care center, or other community health resource.

This rule is intended to implement Iowa Code section 234.6(6) "b."  
[ARC 7606B, IAB 3/11/09, effective 5/1/09; ARC 8010B, IAB 7/29/09, effective 10/1/09]

#### **441—202.6(234) Placement.**

**202.6(1)** At the time of placement, the department worker shall furnish to the foster care provider any available information regarding the child.

- a.* The information provided shall include:
  - (1) The child's full name and date of birth;
  - (2) The names, work addresses, and telephone numbers of the placement worker and the worker's supervisor, including a home telephone, cell phone, or on-call number;
  - (3) The names, addresses, and telephone numbers of the child's physician and dentist;
  - (4) The names, addresses, and telephone numbers of significant relatives of the child, including parents, grandparents, brothers and sisters, aunts and uncles, and any other significant persons (for an adopted child, the adoptive parents and adoptive relatives);
  - (5) The case permanency plan;
  - (6) The results of a physical examination, including immunization history;

- (7) The child's medical needs including allergies, physical limitations, dental and medical recommendations, and special needs of HIV;
- (8) Behavioral patterns including safety-related information;
- (9) Educational arrangements including, but not limited to, the school the child attends, special education needs, and school contacts;
- (10) The placement contract or agreement including the date of acceptance for care;
- (11) Medical authorizations, service authorizations, and other releases as needed; and
- (12) If the child is an Indian, the identification of the child's tribe and tribal social service agency including telephone number and contact person.

*b.* Before releasing specific information about HIV, the department shall use Form 470-3225, Authorization to Release HIV-Related Information, to obtain a release from the child or the child's parent or guardian, or a court order permitting the release of the information.

(1) The person receiving this information shall complete Form 470-3227, Receipt of HIV-Related Information, to document understanding of the confidentiality of this knowledge.

(2) Form 470-3226, HIV General Agreement, shall be completed by foster parents who have agreed to care for children who have AIDS, test HIV positive, or are at risk for HIV infection.

*c.* Safety-related information shall be withheld only if:

- (1) Withholding the information is ordered by the court; or
- (2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

**202.6(2)** For each foster care placement in a foster family home supervised directly by department staff, Form 470-0716 or 470-0716(S), Foster Family Placement Contract, shall be completed by the foster family and the placement worker and supervisor. A new foster family placement contract shall be completed when the rate of payment or special provisions change.

**202.6(3)** A follow-up visit shall be made to the child at the foster family home within two weeks of the initial placement for placements supervised directly by the department.

**202.6(4)** The case permanency plan shall be reviewed at least every six months to ensure appropriateness of the child's placement. A copy of the subsequent case plan shall be submitted to the court every six months unless the court orders a different frequency for reports.

**202.6(5)** In conjunction with the case plan review, the case shall be presented every six months to a review committee which conforms to the requirements in subrule 202.2(5). The service area manager may also approve a review by a local foster care review board authorized in Iowa Code section 237.19 or the court as meeting this requirement as long as the review conforms to subrule 202.2(5), paragraphs "b" to "h," and to subrule 202.6(5), paragraphs "a" to "e." The review committee shall:

- a.* Evaluate the continuing necessity for foster care placement.
- b.* Evaluate the continuing appropriateness of the foster care placement.
- c.* Evaluate the extent of compliance with the case plan.
- d.* Evaluate the extent of progress made toward lessening the causes for foster care placement.
- e.* Project a likely date by which the child will leave foster care.

This rule is intended to implement Iowa Code sections 234.6(6) "b," and 237.19.

[ARC 8010B, IAB 7/29/09, effective 10/1/09]

#### **441—202.7(234) Out-of-area placements.**

**202.7(1)** When the department makes a placement of a child in the foster care system out of the service area in which the child resides, this placement shall occur only when there is no appropriate placement within the service area, when the placement is necessary to facilitate reunification of the child with the parents, or when an out-of-area agency is closer to the community where the child resides than an in-area agency offering the same services.

**202.7(2)** The authority for approving out-of-area placements rests with both the placing and receiving service area managers.

**202.7(3)** Transfer of responsibility for supervision, planning, and visitation shall be approved by the placing and receiving service area managers and, when appropriate, by the court.

This rule is intended to implement Iowa Code section 234.6(6)“b.”

**441—202.8(234) Out-of-state placements.**

**202.8(1)** The department shall make an out-of-state foster family care placement only with the approval of the service area manager or designee. Approval shall be granted only when the placement will not interfere with the goals of the child’s case permanency plan and when one of the following conditions exists:

- a. The foster family with whom the child is placed is moving out of state.
- b. An out-of-state family having previous knowledge of the child desires to provide foster care to the child.
- c. An out-of-state family is approved to adopt the child under subsidy and is eligible to receive maintenance payments until the adoption is final.
- d. An out-of-state placement is necessary to facilitate reunification of the child with the parents.

**202.8(2)** Placements shall be made in an out-of-state group care facility only with the approval of the service area manager or designee.

**202.8(3)** All out-of-state placements shall be made pursuant to interstate compact procedures.

**202.8(4)** The reasons for selecting an out-of-state placement shall be documented in the child’s case permanency plan.

**202.8(5)** Regional out-of-state placement committees. Rescinded IAB 7/6/94, effective 7/1/94.

This rule is intended to implement Iowa Code section 234.6(6)“b.”

[ARC 8010B, IAB 7/29/09, effective 10/1/09]

**441—202.9(234) Supervised apartment living.** A supervised apartment living arrangement shall provide a child with an environment in which the child can experience living in the community with supervision and prepare for self-sufficiency. The child must have the capacity to live in the community with less supervision than that provided by a foster family or in a group care setting and must be able to follow the provisions of the case plan and participate in activities and services to achieve self-sufficiency.

**202.9(1) Living arrangements.**

a. The two types of supervised apartment living arrangements are as follows:

(1) A cluster setting, which provides support in a structured setting. Up to six children reside in apartments or bedrooms in one building (such as an apartment building or residential housing), supervised by one agency. The supervising agency must have an adult staff member present and available on site in the living arrangement at any time when more than one child is present.

(2) A scattered-site setting, which is the less restrictive of the two types of living arrangements. Up to three children supervised by one agency may reside in individual housing arrangements, such as apartments or residential housing, located in one building. Children must be able to contact supervising agency staff 24 hours a day, seven days a week.

b. If an agency rents an apartment to the child, there shall be a signed lease between both parties that includes, but is not limited to:

- (1) Amount to be paid for the rental unit.
- (2) The term of the lease with both a beginning and an ending date.
- (3) Rights and responsibilities of the tenant.
- (4) Rights and responsibilities of the landlord.
- (5) Conditions under which the lease can be terminated.

**202.9(2) Eligibility.** To be eligible for supervised apartment living placement, a child shall meet all of the following conditions:

- a. The child must be at least 16½ years old for placement in a cluster setting.
- b. The child must be at least 17 years old for placement in a scattered-site setting.
- c. If the child is under the age of 18, the child must:

(1) Satisfactorily attend school, in accordance with the school's attendance policies, with the objective of obtaining a high school diploma; or

(2) Satisfactorily attend an instructional program, pursuant to the program's policies, necessary to obtain a general equivalency diploma (GED); or

(3) Attend school to obtain postsecondary education or training on a full-time basis (based upon the institution's definition of full-time) or attend on a part-time basis and be either working or participating in a work training program leading to employment; or

(4) Work at least an average of 80 hours per month if not enrolled in school; or

(5) Participate in a work training program leading to employment if not enrolled in school.

d. If the child is aged 18 or older, the child must:

(1) Meet the definition of "child" in Iowa Code section 234.1; and

(2) Have been in foster care immediately before reaching the age of 18 and have continued in foster care since reaching the age of 18. The service area manager or designee may waive the requirement for continuous placement for a child who leaves foster care at age 18 and voluntarily returns before the child's twentieth birthday in order to complete high school or obtain a GED, consistent with Iowa Code sections 234.35(1) "f" and 234.35(3) "c"; and

(3) Attend school on a full-time basis leading to a high school diploma or attend an instructional program leading to a GED.

e. The child must need foster care placement and services, based on an assessment completed according to rule 441—202.2(234) and subrule 202.6(5).

f. The child must participate in services and activities to achieve self-sufficiency.

g. The child must have the capacity to live in the community with less supervision than that provided by a foster family or in a group care setting, as determined by an assessment that reviews available information on the child to identify the needs, strengths, and resources of the child, especially as they pertain to the child's ability to function in the community. To determine if a supervised apartment living foster care placement is suitable for the child, the department worker must complete Form 470-4063, Preplacement Screening for Supervised Apartment Living Foster Care.

h. The child must have an approved living situation that meets the following minimum standards:

(1) Comply with applicable state and local zoning, fire, sanitary and safety regulations.

(2) Be located so as to provide reasonably convenient access to schools, places of employment, and services and supports required by the child.

(3) Be reasonably priced so as to fit within the child's budget.

i. If supervised apartment living foster care is deemed suitable for the child, the worker shall complete Form 470-3186, Request for Approval of Supervised Apartment Living Foster Care Placement, to request that the service area manager or designee approve the placement. This form is also to be used to request that the service area manager or designee waive the requirement for continuous placement for a child who leaves foster care on or after the child's eighteenth birthday and voluntarily returns before the child's twentieth birthday in order to complete high school or obtain a GED.

j. The placement must have the approval of the juvenile court if the child is under court jurisdiction.

**202.9(3) Services to be provided.** To ensure that the supervised apartment living arrangement is meeting the child's needs, required services shall be provided directly by the department or purchased from an agency that has a contract with the department to provide supervised apartment living foster care services. The following services are required:

a. Development of a case or service plan (by either the department worker or the service provider, if contracted out) in consultation with the child and the child's family (unless a reason for noninvolvement is documented in the case record) and significant others whenever appropriate that documents the following:

(1) Goals, intended to meet the specific needs of the child to achieve self-sufficiency, with projected dates of accomplishment.

(2) Objectives (action steps) to be taken by the child, the child's support system, and staff, with projected dates of accomplishment.

(3) Services to be provided and activities to be undertaken, the frequency of such services, who will provide the services, the child's progress with the goals and objectives, and the child's compliance with the service plan.

(4) A budget, developed with the child, based upon the child's monthly maintenance payment, any start-up allowance, any earned or unearned incomes and financially related assistance (e.g., food assistance). Staff will work with the child to ensure payment of bills and receipt of necessary items as outlined in the budget.

b. Life skills training involving interpersonal and daily living skills training to prepare the child to maintain a safe, healthy, and stable lifestyle and achieve self-sufficiency. Life skills training includes training of "hard" skills (e.g., money management, self-care and hygiene, physical and mental health care, skills related to educational and employment goals, housing and home management, time management, accessing community resources) and training of "soft" skills (e.g., decision making, problem solving, developing healthy relationships, self-advocacy). Life skills training should be individualized to the needs of the child toward achieving self-sufficiency. If a child needs a specific life skills training service or services (e.g., parenting skill development, counseling services to reduce stress and social, emotional, or behavioral problems that affect the child's stability or ability to achieve self-sufficiency) in addition to basic life skills training services and services are purchased, the department worker will specify the necessary services under special provisions on Form 470-5081, Placement Agreement and Service Authorization for Supervised Apartment Living (SAL).

c. Through visits with the child and to the living situation, determination and documentation that:

(1) The living arrangement and mode of living are safe and suitable and provide an environment that allows for the child's social and emotional needs to be met; and

(2) There is no reasonable cause to believe that the child's living situation or mode of living presents any unacceptable risks to the child's health or safety; and

(3) The child has access to a telephone; and

(4) There is an operating smoke alarm on each level of occupancy; and

(5) The child is receiving any necessary medical care; and

(6) The child is receiving appropriate and sufficient services and supports to achieve the child's goals and facilitate objectives according to the child's service plan.

d. Supervision to assist the child in developing the needed structure to live in the supervised apartment living setting and in locating and using other needed services. If the child is under the age of 18, supervision shall include a minimum of weekly face-to-face contacts. For a child aged 18 or older, supervision shall include a minimum of biweekly (every other week) face-to-face contacts. Supervision may include guidance, oversight, and behavior monitoring.

e. Ongoing assessment activities to monitor the child's ability to achieve self-sufficiency.

f. If services are purchased, visits by the department to the child according to subrule 202.11(2).

g. If services are purchased, compliance by the provider with all reporting requirements in 441—paragraph 150.3(3)"j," including requirements for the individual service plan, quarterly reports, and a termination summary.

h. A review of the case and case plan every six months, in accordance with subrules 202.6(4) and 202.6(5).

**202.9(4) Method of service provision.** Supervised apartment living services may be provided directly by the department or purchased from an agency that has a contract with the department to provide supervised apartment living foster care services. If services are purchased:

a. Department staff shall be responsible to determine the specific service components and the specific number of service units to be provided for required services. The department case permanency plan shall specify the goals and objectives (action steps) of the services that are being purchased. If services are purchased, the worker shall complete Form 470-5081, Placement Agreement and Service Authorization for Supervised Apartment Living (SAL), to place the child with the contractor and to authorize service codes (scattered-site or cluster setting; individual services or services provided with a group of children in supervised apartment living placement) and the specific number of units to be provided and billable.

*b.* Service billings for services shall be based on one hour (one unit equals one hour of service), or any portion thereof (with monthly cumulative units rounded up or down to the nearest whole unit), of:

(1) Direct face-to-face contact between the service provider and the child.

(2) Activities undertaken to assist the child in developing the needed structure and supports to live in the supervised apartment living setting.

(3) Activities undertaken to assist the child in locating and using other needed services, supports, and community resources and to consult and collaborate on service directions on behalf of the child with schools, employers, landlords, volunteers, extended family members, peer support groups, training resources, or other community resources.

*c.* Service billings for group services shall be based on one hour (one unit equals one hour of service), or any portion thereof (with monthly cumulative units rounded up or down to the nearest whole unit), for each child in the group.

*d.* Expenses of transporting the child, service management activities, and other administrative functions shall be allowable indirect costs subject to the restrictions set forth in rule 441—150.3(234) and are not billable units of service.

*e.* Contractors providing a cluster setting shall be paid \$551.25 per month per child in the setting for agency staffing costs, in addition to billable units of services provided to the child, but are eligible for this payment only when two or more children are in the setting. For a child who enters a cluster setting during the month, the prorated amount per day is \$18.12. If a child exits the setting on or before the last day of the month, the \$551.25 shall be prorated up to the date before the date of exit.

**202.9(5) Termination of services.**

*a.* Mandatory termination. Supervised apartment living services shall be terminated when the child:

(1) No longer meets eligibility criteria;

(2) No longer needs services or needs a more restrictive level of placement;

(3) Chooses to live in a nonapproved setting; or

(4) Refuses to follow the provisions of the case plan.

*b.* When services are purchased and the department plans to remove a child from the supervised apartment living placement, the department shall inform the provider in writing of the date of removal, the reason for the removal, the recourse available, if any, and that the contested case (appeal) proceeding does not apply to the removal.

*c.* The provider shall be informed ten days in advance of the removal, except when the court orders removal of the child from the placement or there is evidence of neglect or physical or sexual abuse.

This rule is intended to implement Iowa Code section 234.6.

[ARC 0417C, IAB 10/31/12, effective 1/1/13; ARC 2342C, IAB 1/6/16, effective 2/10/16]

**441—202.10(234) Services to foster parents.** Foster parents shall be provided necessary supportive services for the purpose of aiding them in the care and supervision of the child. These services shall include, but not be limited to:

**202.10(1)** Availability of social service staff on a 24-hour basis in case of emergency.

**202.10(2)** Conferences to develop in-depth planning regarding family visits, expectations of the department, future objectives and time frames, use of resources, and termination of placements.

**202.10(3)** Visitation by the service worker at least monthly regardless of the duration of the placements.

**202.10(4)** Making available all known pertinent information needed for the care of the child including HIV status, safety-related information, and special confidentiality requirements.

*a.* Before releasing specific information about HIV, the department shall use Form 470-3225, Authorization to Release HIV-Related Information, to obtain a release from the child or the child's parent or guardian, or a court order permitting the release of the information. The person receiving this information shall complete Form 470-3227, Receipt of HIV-Related Information, to document understanding of the confidentiality of this knowledge.

*b.* Safety-related information shall be withheld only if:

- (1) Withholding the information is ordered by the court; or
- (2) The department or the agency developing the service plan determines that providing the information would be detrimental to the child or to the family with whom the child is living.

c. When continued breastfeeding of the child is determined to be in the best interest of the child, the service worker and the foster parents shall make reasonable efforts to support the continued breastfeeding of the child by the mother.

This rule is intended to implement Iowa Code section 234.6(6) “b.”

**441—202.11(234) Services to the child.** The department service worker shall maintain a continuous relationship with the child.

**202.11(1)** The department service worker shall:

- a. Help the child plan for the future,
- b. Evaluate the child’s needs and progress,
- c. Supervise the living arrangement,
- d. Arrange for social and other related services including, but not limited to, medical, psychiatric, psychological, and educational services from other resources as needed, and
- e. Counsel the child in adjusting to the placement.

**202.11(2)** The assigned department service worker shall personally visit each child in out-of-home care at least once every calendar month, with the frequency of the visits based upon the needs of the child.

- a. The visit shall take place in the child’s place of residence the majority of the time.
- b. The visit shall be of sufficient length to focus on issues pertinent to case planning. During the visit, the worker shall address the safety, permanency, and well-being of the child, including the child’s needs, services to the child, and achievement of the case permanency plan goals.

**202.11(3)** When placement of a breastfeeding child is made, the service worker shall:

- a. Assess in consultation with the worker’s supervisor whether continued breastfeeding by the mother is in the best interest of the child;
- b. Make every reasonable effort to support the mother’s continued breastfeeding for the child if determined appropriate; and
- c. Document the assessment and efforts in the child’s case plan and case notes.

**202.11(4)** When a child is in continuous foster care, a new physical examination shall not be required when the child transfers from one foster care placement to another unless there is some indication that an examination is necessary. The service worker shall obtain from the health practitioner or practitioners an annual medical review of treatment the child has received.

This rule is intended to implement Iowa Code section 234.6(6) “b.”

**202.11(5)** Throughout the provision of care, the foster care provider shall actively ensure that the child stays connected to the child’s kin, culture, and community as documented in the child’s case permanency plan.

**202.11(6)** Throughout the provision of care, the foster care provider is permitted to use the reasonable and prudent parent standard to create opportunities for participation of the child in age- or developmentally appropriate activities.

**202.11(7)** Transition planning program. The purpose of the transition planning program is to provide services, supports, activities and referrals to programs that assist children currently or formerly in foster care in acquiring skills and abilities necessary for transition to successful adulthood. The transition planning program offers a life skills assessment, transition plan development, and transition-related services, supports, activities and referrals to programs.

a. *Eligibility.* To be eligible for the transition planning program, a child must be or have been in foster care as defined by rule 441—202.1(234) or 45 Code of Federal Regulations 1355.20 as amended to October 1, 2008, and must meet at least one of the following eligibility requirements:

- (1) Is currently in foster care and is 14 years of age or older.
- (2) Is under the age of 21 and was adopted from foster care at 16 years of age or older.
- (3) Is under the age of 21 and was placed in a subsidized guardianship arrangement from foster care at 16 years of age or older.

(4) Was formerly in foster care and is eligible for and participating in Iowa's aftercare services program as described at 441—Chapter 187.

(5) Was formerly in foster care and is eligible for and participating in Iowa's postsecondary education and training voucher (ETV) program as described at 42 U.S.C. Section 677(a)(6-7).

*b. Assessment.* A life skills assessment shall be administered to all children in foster care who are aged 14 or older. An assessment shall be available upon request to any child who has been discharged from foster care but meets the eligibility requirements in paragraph "a." The assessment is designed to evaluate the child's strengths and needs in areas including, but not limited to:

- (1) Education,
- (2) Physical and mental health,
- (3) Employment,
- (4) Housing and money management, and
- (5) Supportive relationships.

*c. Transition plan development.* A transition plan shall be completed for all children in foster care who are aged 14 or older, as provided in Iowa Code section 232.2(4) "f." Transition plan development shall also be available upon request to any child who has been discharged from foster care but meets the eligibility requirements in paragraph "a," but the transition plan will not be part of a case permanency plan. Transition plan requirements include the following:

(1) The transition plan shall be personalized at the direction of the child and shall be developed in consultation with the child and reviewed by the department in collaboration with a child-centered transition team, honoring the goals and concerns of the child.

(2) The transition plan shall document that the child received and signed a document that describes the rights of the child with respect to education, health, visitation, and court participation. The document must be signed by the child indicating that the child has been provided with a copy of the document and that the rights contained in the document have been explained to the child in an age-appropriate way.

(3) The transition plan shall document that the child received a copy of any credit report pertaining to the child as provided by the child's caseworker on an annual basis until the child is discharged from foster care. The child must receive assistance from the child's caseworker in interpreting and resolving any inaccuracies in the report.

(4) The transition plan shall document that any child leaving foster care at the age of 18 or older was provided with the following documents and information unless the child has been in foster care for less than six months or is not eligible to receive such document:

1. An official or certified copy of the child's birth certificate.
2. The child's social security card.
3. A driver's license or identification card issued by the state to the child.
4. Health insurance information.
5. A copy of the child's medical and education records.

(5) The transition plan shall document that the caseworker provided to the child, at the case permanency plan review in the 90 days before the child reached the age of 18, information and education about the importance of having a durable power of attorney for health care and a copy of the state's form used to identify such a proxy. The child has the option to complete the form at the age of 18 or older.

(6) The transition plan shall address the strengths and needs identified in the assessment and detail the services, supports, activities and referrals to programs needed to implement the plan to best assist the child in preparing for successful adulthood. The membership of the transition team and the meeting dates for the team shall be documented in the transition plan.

(7) The transition plan shall be reviewed and updated at each case review after the plan's initial development; within 90 days before the child's eighteenth birthday; and within 90 days before the child is expected to leave foster care if the child remains in care after reaching the age of 18.

*d. Transition services.* Children shall be offered services, supports, activities and referrals to programs within, but not limited to, the five areas described below according to the child's age and development, strengths and needs, permanency goal, and placement as documented in the case permanency plan.

(1) Education skills increase the child's chances of completing high school or obtaining high school equivalency and of entering a satisfying career. Services may include assistance in academic advising and guidance, secondary and postsecondary educational support, records transfer coordination, tutoring, financial aid planning, career exploration, mentoring, and career advising. Financial assistance for postsecondary education and training may be available to eligible children.

(2) Physical and mental health skills promote healthy physical, mental and emotional functioning. Health education services may include guidance on risk prevention, how to be healthy and fit, how to self-advocate for health care needs and access to health insurance, how to select medical professionals, and how to make informed decisions regarding treatment, lifestyle considerations, spirituality, and recreation. Provision must be made for the child's application for adult services if it is likely the child will need or be eligible for services or other support from the adult service system.

(3) Employment skills enable children to prepare for, seek, and maintain gainful career employment. Services may include employment programs or vocational training, employment search resources, career advising, résumé writing, interview skills, workplace etiquette, and on-the-job training.

(4) Housing and money management skills prepare a child to select, manage, and maintain safe and stable housing. Services may include lessons on the physical maintenance and cleaning of a house and guidance on managing personal finances, such as financial decisions, budgeting, bill paying, use of credit, and financing. Financial assistance for items, including room and board, may be available to children who meet the eligibility criteria of the aftercare services program pursuant to 441—Chapter 187.

(5) Supportive relationships skills promote the healthy development and maintenance of rewarding, lasting relationships. Services may include family support and healthy marriage education, mentoring opportunities, and guidance on how to recognize the needs of others, how to identify and understand personal motivations, how to ensure personal safety, and how to communicate effectively.

[ARC 7606B, IAB 3/11/09, effective 5/1/09; ARC 8010B, IAB 7/29/09, effective 10/1/09; ARC 8718B, IAB 5/5/10, effective 7/1/10; ARC 0417C, IAB 10/31/12, effective 1/1/13; ARC 2069C, IAB 8/5/15, effective 10/1/15]

#### **441—202.12(234) Services to parents.**

**202.12(1)** Child welfare services shall be made available to the parents throughout the period of placement for the purpose of reuniting the family in an agreed-upon time frame. Family safety, risk, and permanency services may be provided to:

- a. Promote identification and enhancement of family strengths and protective capacities;
- b. Address the factors that resulted in the child's being removed from the family home; and
- c. Strengthen family connections to community resources and informal supports.

**202.12(2)** Placement notification.

a. The parents shall be notified of the location and nature of the child's placement, unless the conditions of this subrule are met.

(1) The department evaluates the situation and determines that notifying the child's parents of the location of the placement would be detrimental to the child's safety and well-being and to the stability of the child's placement due to:

1. Evidence of a direct or indirect threat to harm the foster child or the foster family; or
2. Credible third-party information of a threat of harm to the foster child or the foster family.

(2) The department includes a statement in the child's case permanency plan explaining the decision not to disclose the location of the child to the parents.

b. The decision not to disclose the location of a child's placement shall be reviewed at least every six months when the child's case permanency plan is revised.

**202.12(3)** The case plan and treatment plan shall specify the services to be provided and the time frame for reuniting the family. These plans shall be developed in cooperation with the parents.

**202.12(4)** Personal contact shall be made regularly with the parents and the progress towards goal attainment reviewed and documented in the case record. The frequency of the personal contact shall be at least monthly and shall be specified in the child's case permanency plan.

**202.12(5)** When placement of a breastfeeding child is made, the service worker shall:

- a. Assess in consultation with the worker's supervisor whether continued breastfeeding by the mother is in the best interest of the child;
- b. Make every reasonable effort to support the mother's continued breastfeeding of the child if determined appropriate; and
- c. Document the assessment and efforts in the child's case plan and case notes.

This rule is intended to implement Iowa Code section 234.6(6) "b."  
[ARC 8010B, IAB 7/29/09, effective 10/1/09; ARC 9961B, IAB 1/11/12, effective 12/15/11]

**441—202.13(234) Removal of the child.**

**202.13(1)** When the department plans to remove a child from a facility, the facility shall be informed in writing of the date of the removal, the reason for the removal, the recourse available to the facility, if any, and that the chapter 17A contested case proceeding is not applicable to the removal. The department shall inform the facility ten days in advance of the removal, except that the facility may be informed less than ten days prior to the removal in the following instances:

- a. When the parent or guardian removes the child from voluntary placement.
- b. When the court orders removal of a child from placement.
- c. When there is evidence of neglect or physical or sexual abuse.

**202.13(2)** The department may remove a child from a facility when any of the following conditions exist:

- a. There is evidence of abuse, neglect, or exploitation of the child.
- b. The child needs a specialized service that the facility does not offer.
- c. The child is unable to benefit from the placement as evidenced by lack of progress of the child.
- d. There is evidence the facility is unable to provide the care needed by the child and fulfill its responsibilities under the case plan.
- e. There is lack of cooperation of the facility with the department.

**202.13(3)** If a foster family objects in writing within seven days from the date that the department furnishes notice of plans to remove the child, the service area manager or designee shall grant a conference to the foster family to determine whether the removal is in the child's best interest.

a. This conference shall not be construed to be a contested case under the Iowa administrative procedure Act, Iowa Code chapter 17A.

b. The conference shall be provided before the child is removed except in instances listed in 202.13(1) "a" to "c." The service area manager or designee shall review the propriety of the removal and explain the decision to the foster family.

c. The service area manager or designee, on finding that the removal is not in the child's best interests, may overrule the removal decision unless a court order or parental decision prevents the department from doing so.

**202.13(4)** When the facility requests a child be removed from its care, it shall give a minimum of ten days' notice to the department so planning may be made on behalf of the child.

This rule is intended to implement Iowa Code section 234.6(6) "b."  
[ARC 8010B, IAB 7/29/09, effective 10/1/09]

**441—202.14(234) Termination.** The foster care services shall be terminated when the child is no longer an eligible child, or when the attainment of goals in the case plan has been achieved, or when the goals for whatever reasons cannot be achieved, or when it is evident that the family or individual is unable to benefit from the service or unwilling to accept further services.

This rule is intended to implement Iowa Code section 234.6(6) "b."

**441—202.15(234) Case permanency plan.**

**202.15(1)** The department worker shall ensure that a case permanency plan is developed for each child who is placed in foster care if the department has agreed to provide foster care through a voluntary placement agreement, if a court has transferred custody or guardianship to the department for the purpose

of foster care, or if a court has placed the child in foster care and ordered the department to supervise the placement.

**202.15(2)** The department worker shall develop the case permanency plan with the child's parents, unless the child's parents are unwilling to participate in the plan's development, and with the child, unless the child is unable or unwilling to participate. For a child 14 years of age or older in foster care, the case permanency plan must be developed in consultation with the child. The child may choose up to two members of the case planning team who are not the child's foster parent or caseworker. The department may reject an individual selected by a child at any time if the department has good cause to believe the individual would not act in the best interests of the child. One individual selected by the child to be a member of a child's case planning team may be designated to be the child's advisor and, as necessary, advocate with respect to the use of the reasonable and prudent parent standard.

**202.15(3)** The department worker shall be responsible for ensuring the development of the case permanency plan within the time frames specified in rule 441—130.7(234). In all cases, the case permanency plan shall be completed within 60 days of the date the child entered foster care.

**202.15(4)** Copies of the initial and subsequent case permanency plans shall be provided to the child, the child's parents, and the foster care provider. Copies shall also be provided to the following, if involved in services to the child: the juvenile court officer, the judge, the child's attorney, the child's guardian ad litem, the child's guardian, the child's custodian, the child's court-appointed special advocate, the parents' attorneys, the county attorney, the state foster care review board, and any other interested parties identified in the plan.

**202.15(5)** The initial and subsequent case permanency plans shall be completed on the forms specified in rule 441—130.7(234).

**202.15(6)** Rescinded IAB 4/28/04, effective 6/2/04.  
[ARC 2069C, IAB 8/5/15, effective 10/1/15]

**441—202.16(135H) Department approval of need for a psychiatric medical institution for children.**

**202.16(1)** Applicants for departmental approval of need shall submit the following to the division of child and family services:

*a.* A description of the population to be served, including age, sex, and types of disorders, and an estimate of the number of these youth in need of psychiatric care in the area of the state in which the applicant is located.

*b.* A statement of the number of beds requested and a description of the treatment program to be provided, the outcomes to be achieved and the techniques for measuring outcomes.

*c.* A proposed date of operation as a psychiatric medical institution for children.

*d.* A description of the applicant's experience with providing similar services to youth, especially the target population.

*e.* A description of the applicant's plan, including the timeline for achieving accreditation to provide psychiatric services from a federally recognized accrediting organization under the organization's standards for residential settings and licensure as a psychiatric medical institution for children, or a copy of the organization's report if already accredited.

*f.* References from the service area manager for the department service area in which the proposed psychiatric medical institution for children would be located, the chief juvenile court officer of the judicial district in which the proposed psychiatric medical institution for children would be located and the applicant's licenser from the department of inspections and appeals or department of public health.

**202.16(2)** The department shall evaluate proposals and issue a decision based on the following criteria:

*a.* The number of psychiatric medical institutions for children beds for the proposed population which are needed in the area of the state in which the facility would be located, based on the department's most recent needs assessment.

*b.* The steps the facility has taken towards achieving accreditation from a federally recognized accrediting organization and licensure as a psychiatric medical institution for children.

c. The applicant's ability to provide services and support consistent with the requirements under Iowa Code chapter 232 including, but not limited to, evidence that:

- (1) Children will be served in a setting which is in close proximity to their parents' home.
- (2) Each child will receive services consistent with the child's best interests and special psychiatric needs as identified in the child's case permanency plan.
- (3) Children and their families will receive services to facilitate the children's return home or other permanent placement.

d. The applicant's ability to provide children with a non-hospital-type living environment if the applicant is not freestanding from a hospital or health care facility.

e. The limits on the number of beds found in Iowa Code section 135H.6, subsection 5.

**202.16(3)** If a facility has not been licensed as a psychiatric medical institution for children within one year after the date of the department's approval of need, the department's approval shall expire unless the department has approved an extension. An extension may be approved up to a maximum of six months if the agency has documented extenuating circumstances which prevented completion of the licensing process.

This rule is intended to implement Iowa Code section 135H.6.

#### **441—202.17(232) Area group care targets.**

**202.17(1)** *Area target.* A group care budget target shall be established for each departmental service area, which shall be based on the annual statewide group care appropriation established by the general assembly.

a. The department and the judicial branch shall jointly develop a formula for allocating the group care appropriation among the departmental service areas. The formula shall be based on:

- (1) Proportional child population.
- (2) Proportional group foster care usage in the previous five completed fiscal years.
- (3) Other indicators of need.

b. Any portion of the group care appropriation allocated for 50 highly structured juvenile program beds and not used may be used for group care.

c. Upon written agreement of the affected service area managers and chief juvenile court officers, service areas may transfer part of their group care budget from one service area to another. A service area may exceed its budget target figure up to 5 percent during the fiscal year, providing that the overall funding allocation by the department for all child welfare services in the service area is not exceeded.

d. Notwithstanding the statewide appropriation established in this subrule, a budget established in a service area's group care plan pursuant to Iowa Code section 232.143 may be exceeded, a group care placement may be ordered, and state payment may be made if the review organization finds that the placement is necessary to meet the child's service needs and if the service area has additional funds transferred from another service area or if the service area is within 5 percent of its group care budget target figure pursuant to 441—paragraph 202.17(1)“c.”

The department and juvenile court services shall work together to ensure that a service area's group care expenditures shall not exceed the funds allocated to the service area for group care in the fiscal year.

e. If at any time after September 30, 1998, annualization of a service area's current expenditures indicates a service area is at risk of exceeding its group foster care expenditure target under Iowa Code section 232.143 by more than 5 percent, the department and juvenile court services shall examine all group foster care placements in that service area in order to identify those which might be appropriate for termination. In addition, any aftercare services believed to be needed for the children whose placements may be terminated shall be identified.

The department and juvenile court services shall initiate action to set dispositional review hearings for the placements identified. In the dispositional review hearing, the juvenile court shall determine whether needed aftercare services are available and whether termination of the placement is in the best interest of the child and the community.

**202.17(2)** *Plan for achieving target.* For each of the departmental service areas, representatives appointed by the department and juvenile court services shall establish a plan for containing the

expenditure for children placed in group care within the budget target allocated to that service area. The plan shall include monthly targets and strategies for developing alternatives to group care placements.

The plans shall also ensure potential group care referrals are reviewed by the review organization prior to submission of a recommendation for group care placement to the court.

Each area plan shall be established in advance of the fiscal year to which the plan applies. To the extent possible, the department and the juvenile court shall coordinate the planning required under this subrule with planning for services paid under Iowa Code section 232.141, subsection 4. The department's service area manager shall communicate regularly, as specified in the area plan, with the juvenile courts within the service area concerning the current status of the plan's implementation.

This rule is intended to implement Iowa Code section 232.143.

**441—202.18(235) Local transition committees.** Local transition committees shall be established in each of the department service areas. The service area manager or designee shall determine the number of local transition committees needed within the service area, set operating policies and procedures, and appoint committee membership.

**202.18(1) Purpose.** The purpose of local transition committees, as established by Iowa Code Supplement section 235.7, is to ensure that the transition needs of youth in foster care who are 16 years of age or older have been addressed in order to assist the youth in preparing for the transition from foster care to adulthood.

**202.18(2) Membership.** Each committee shall have a designated number of members.

*a.* The standing committee membership may include, but is not limited to:

- (1) Department staff involved with child welfare, adult services, or transition planning.
- (2) Juvenile court services staff.
- (3) Adult service system staff.
- (4) Education staff.
- (5) Service care provider representation.
- (6) Others knowledgeable about community resources.

*b.* Additionally, nonstanding membership may include those knowledgeable about the youth, including the child's court-appointed special advocate, guardian ad litem, and service or care providers.

*c.* In areas where teams or boards already in existence are involved in review and planning for youth needs, such as the foster care review board or child welfare funding decategorization boards, such teams or boards may serve as local transition committees.

**202.18(3) Duties.** Local transition committees shall address the transition needs of youth in foster care who are 16 years of age or older and who have a case permanency plan as defined in Iowa Code Supplement section 232.2. Each committee shall have operating policies and procedures to carry out the duties below.

*a.* Each committee shall establish a process for review and approval of written transition plans for youth for whom the committee has placement responsibility that meets a continuum of case needs and coordinates with local transition planning protocol. The process may include a paper review or an in-person review, or both, according to case need.

*b.* The committee may be involved when the youth is at least 16 years of age, but shall be involved in reviewing and approving a youth's transition plan before the youth reaches age 17½. When a youth enters foster care at age 17½ or older, the committee shall be involved in reviewing and approving the youth's transition plan within 30 days of completion.

*c.* In reviewing a youth's transition plan, the committee shall identify and act to address gaps existing in services or supports available that would assist the youth in the transition from foster care to adulthood.

*d.* For those youth expected to need services as adults, the committee shall ensure that the transition plan was developed with the participation of any person reasonably expected to be a service provider when the youth becomes an adult or to become responsible for the costs of services at that time.

*e.* The committee shall ensure that transition planning and review is coordinated with overall case planning and review. Committee review and approval shall be indicated in the youth's case permanency plan.

*f.* With respect to meetings involving a specific youth receiving foster care and the youth's family, the local transition committees are not subject to Iowa Code chapter 21.

*g.* The information and records of or provided to a local transition committee regarding a youth receiving foster care and the youth's family are not public records pursuant to Iowa Code chapter 22 when the records relate to the foster care placement and transition needs of the youth.

*h.* Members of the committees are subject to the standards of confidentiality set forth in Iowa Code sections 600.16, 217.30 and 235A.15.

**202.18(4) Report.** The service area manager or designee shall submit a report on transition planning committees to the department's division of child and family services. The report shall be submitted annually by October 1 for the immediately preceding fiscal year. The report shall include, but not be limited to, the following:

- a.* The geographical area covered for each committee within the service area.
- b.* Standing committee membership for each committee.
- c.* The number of cases reviewed by each committee.
- d.* Identification of barriers to successful transition and gaps in community services or supports.
- e.* Suggestions for ways to transition youth from foster care to adulthood more effectively.

This rule is intended to implement Iowa Code Supplement section 235.7.

## **ENVIRONMENTAL PROTECTION COMMISSION[567]**

Former Water, Air and Waste Management[900], renamed by 1986 Iowa Acts, chapter 1245, Environmental Protection Commission under the “umbrella” of the Department of Natural Resources.

### TITLE I GENERAL

#### CHAPTER 1

##### OPERATION OF ENVIRONMENTAL PROTECTION COMMISSION

- 1.1(17A,455A) Scope
- 1.2(17A,455A) Time of meetings
- 1.3(17A,455A) Place of meetings
- 1.4(17A,455A) Notification of meetings
- 1.5(17A,455A) Attendance and participation by the public
- 1.6(17A,455A) Quorum and voting requirements
- 1.7(17A,455A) Conduct of meeting
- 1.8(17A,455A) Minutes, transcripts, and recordings of meetings
- 1.9(17A,455A) Officers and duties
- 1.10(17A,455A) Election and succession of officers
- 1.11(68B) Sales of goods and services

#### CHAPTER 2

##### PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

*(Uniform Rules)*

- 2.1(17A,22) Adoption by reference

#### CHAPTER 3

##### SUBMISSION OF INFORMATION AND COMPLAINTS—INVESTIGATIONS

- 3.1(17A,455B) Adoption by reference

#### CHAPTER 4

##### AGENCY PROCEDURE FOR RULE MAKING

- 4.1(17A) Adoption by reference

#### CHAPTER 5

##### PETITIONS FOR RULE MAKING

- 5.1(17A) Adoption by reference

#### CHAPTER 6

##### DECLARATORY ORDERS

- 6.1(17A) Adoption by reference

#### CHAPTER 7

##### RULES OF PRACTICE IN CONTESTED CASES

- 7.1(17A) Adoption by reference

#### CHAPTER 8

##### CONTRACTS FOR PUBLIC IMPROVEMENTS AND PROFESSIONAL SERVICES

- 8.1(17A) Adoption by reference

#### CHAPTER 9

##### DELEGATION OF CONSTRUCTION PERMITTING AUTHORITY

- 9.1(455B) Scope
- 9.2(455B,17A) Forms
- 9.3(455B) Procedures
- 9.4(455B) Criteria for authority

CHAPTER 10  
ADMINISTRATIVE PENALTIES

- 10.1(455B) Scope
- 10.2(455B) Criteria for screening and assessing administrative penalties
- 10.3(455B) Assessment of administrative penalties

CHAPTER 11  
TAX CERTIFICATION OF POLLUTION CONTROL OR RECYCLING PROPERTY

- 11.1(427) Scope
- 11.2(427,17A) Form
- 11.3(427) Time of submission
- 11.4(427) Notice
- 11.5(427) Issuance
- 11.6(427) Criteria for determining eligibility

CHAPTER 12  
ENVIRONMENTAL SELF-AUDITS

- 12.1(455K) General
- 12.2(455K) Notice of audit
- 12.3(455K) Request for extension
- 12.4(455K) Disclosure of violation

CHAPTER 13  
WAIVERS OR VARIANCES FROM ADMINISTRATIVE RULES

- 13.1(17A) Adoption by reference
- 13.2(17A) Report to commission

CHAPTER 14  
ENVIRONMENTAL COVENANTS

- 14.1(455B,455H) Definitions
- 14.2(455B,455H) Environmental covenants
- 14.3(455B,455H) Supporting documentation
- 14.4(455B,455H) Recording and approval
- 14.5(455B,455H) Mandatory provisions
- 14.6(455B,455H) Optional provisions
- 14.7(455B,455H) Modification and termination
- 14.8(455B,455H) Signatories to the environmental covenant
- 14.9(455B,455H) Notice

CHAPTER 15  
CROSS-MEDIA ELECTRONIC REPORTING

- 15.1(455B,554D) Purpose

CHAPTER 16  
REVOCATION, SUSPENSION, AND NONRENEWAL OF LICENSE  
FOR FAILURE TO PAY STATE LIABILITIES

- 16.1(272D,261) Purpose and use
- 16.2(272D,261) Definitions
- 16.3(272D,261) Requirements of the department
- 16.4(272D,261) No administrative appeal of the department's action
- 16.5(272D,261) District court hearing

CHAPTER 17  
COMPLIANCE AND ENFORCEMENT PROCEDURES

17.1(455B)	Scope
17.2(455B)	Basis
17.3(455B)	Option to respond
17.4(455B)	Department discretion

CHAPTERS 18 and 19  
Reserved

TITLE II  
*AIR QUALITY*

CHAPTER 20  
SCOPE OF TITLE—DEFINITIONS—FORMS—RULES OF PRACTICE

20.1(455B,17A)	Scope of title
20.2(455B)	Definitions

CHAPTER 21  
COMPLIANCE

21.1(455B)	Compliance schedule
21.2(455B)	Variances
21.3(455B)	Emission reduction program
21.4(455B)	Circumvention of rules
21.5(455B)	Evidence used in establishing that a violation has or is occurring
21.6(455B)	Temporary electricity generation for disaster situations

CHAPTER 22  
CONTROLLING POLLUTION

22.1(455B)	Permits required for new or existing stationary sources
22.2(455B)	Processing permit applications
22.3(455B)	Issuing permits
22.4(455B)	Special requirements for major stationary sources located in areas designated attainment or unclassified (PSD)
22.5(455B)	Special requirements for nonattainment areas
22.6	Reserved
22.7(455B)	Alternative emission control program
22.8(455B)	Permit by rule
22.9(455B)	Special requirements for visibility protection
22.10(455B)	Permitting requirements for country grain elevators, country grain terminal elevators, grain terminal elevators and feed mill equipment
22.11 to 22.99	Reserved
22.100(455B)	Definitions for Title V operating permits
22.101(455B)	Applicability of Title V operating permit requirements
22.102(455B)	Source category exemptions
22.103(455B)	Insignificant activities
22.104(455B)	Requirement to have a Title V permit
22.105(455B)	Title V permit applications
22.106(455B)	Annual Title V emissions inventory
22.107(455B)	Title V permit processing procedures
22.108(455B)	Permit content
22.109(455B)	General permits
22.110(455B)	Changes allowed without a Title V permit revision (off-permit revisions)
22.111(455B)	Administrative amendments to Title V permits

22.112(455B)	Minor Title V permit modifications
22.113(455B)	Significant Title V permit modifications
22.114(455B)	Title V permit reopenings
22.115(455B)	Suspension, termination, and revocation of Title V permits
22.116(455B)	Title V permit renewals
22.117 to 22.119	Reserved
22.120(455B)	Acid rain program—definitions
22.121(455B)	Measurements, abbreviations, and acronyms
22.122(455B)	Applicability
22.123(455B)	Acid rain exemptions
22.124	Reserved
22.125(455B)	Standard requirements
22.126(455B)	Designated representative—submissions
22.127(455B)	Designated representative—objections
22.128(455B)	Acid rain applications—requirement to apply
22.129(455B)	Information requirements for acid rain permit applications
22.130(455B)	Acid rain permit application shield and binding effect of permit application
22.131(455B)	Acid rain compliance plan and compliance options—general
22.132	Reserved
22.133(455B)	Acid rain permit contents—general
22.134(455B)	Acid rain permit shield
22.135(455B)	Acid rain permit issuance procedures—general
22.136(455B)	Acid rain permit issuance procedures—completeness
22.137(455B)	Acid rain permit issuance procedures—statement of basis
22.138(455B)	Issuance of acid rain permits
22.139(455B)	Acid rain permit appeal procedures
22.140(455B)	Permit revisions—general
22.141(455B)	Permit modifications
22.142(455B)	Fast-track modifications
22.143(455B)	Administrative permit amendment
22.144(455B)	Automatic permit amendment
22.145(455B)	Permit reopenings
22.146(455B)	Compliance certification—annual report
22.147	Reserved
22.148(455B)	Sulfur dioxide opt-ins
22.149 to 22.299	Reserved
22.300(455B)	Operating permit by rule for small sources

#### CHAPTER 23

##### EMISSION STANDARDS FOR CONTAMINANTS

23.1(455B)	Emission standards
23.2(455B)	Open burning
23.3(455B)	Specific contaminants
23.4(455B)	Specific processes
23.5(455B)	Anaerobic lagoons
23.6(455B)	Alternative emission limits (the “bubble concept”)

#### CHAPTER 24

##### EXCESS EMISSION

24.1(455B)	Excess emission reporting
24.2(455B)	Maintenance and repair requirements

CHAPTER 25  
MEASUREMENT OF EMISSIONS

- 25.1(455B) Testing and sampling of new and existing equipment  
 25.2(455B) Continuous emission monitoring under the acid rain program  
 25.3(455B) Mercury emissions testing and monitoring

CHAPTER 26  
PREVENTION OF AIR POLLUTION EMERGENCY EPISODES

- 26.1(455B) General  
 26.2(455B) Episode criteria  
 26.3(455B) Preplanned abatement strategies  
 26.4(455B) Actions taken during episodes

CHAPTER 27  
CERTIFICATE OF ACCEPTANCE

- 27.1(455B) General  
 27.2(455B) Certificate of acceptance  
 27.3(455B) Ordinance or regulations  
 27.4(455B) Administrative organization  
 27.5(455B) Program activities

CHAPTER 28  
AMBIENT AIR QUALITY STANDARDS

- 28.1(455B) Statewide standards

- CHAPTER 29  
QUALIFICATION IN VISUAL DETERMINATION OF THE OPACITY OF EMISSIONS
- 29.1(455B) Methodology and qualified observer

CHAPTER 30  
FEES

- 30.1(455B) Purpose  
 30.2(455B) Fees associated with new source review applications  
 30.3(455B) Fees associated with asbestos demolition or renovation notification  
 30.4(455B) Fees associated with Title V operating permits  
 30.5(455B) Fee advisory groups  
 30.6(455B) Process to establish or adjust fees and notification of fee rates  
 30.7(455B) Fee revenue

CHAPTER 31  
NONATTAINMENT AREAS

- 31.1(455B) Permit requirements relating to nonattainment areas  
 31.2(455B) Conformity of general federal actions to the Iowa state implementation plan or federal implementation plan
- NONATTAINMENT AREAS DESIGNATED ON OR AFTER MAY 18, 1998
- 31.3(455B) Nonattainment new source review requirements for areas designated nonattainment on or after May 18, 1998  
 31.4(455B) Preconstruction review permit program  
 31.5 to 31.8 Reserved  
 31.9(455B) Actuals PALs  
 31.10(455B) Validity of rules  
 31.11 to 31.19 Reserved

## NONATTAINMENT AREAS DESIGNATED BEFORE MAY 18, 1998

- 31.20(455B) Special requirements for nonattainment areas designated before May 18, 1998  
(originally adopted in 567—22.5(455B))

## CHAPTER 32

## ANIMAL FEEDING OPERATIONS FIELD STUDY

- 32.1(455B) Animal feeding operations field study  
 32.2(455B) Definitions  
 32.3(455B) Exceedance of the health effects value (HEV) for hydrogen sulfide  
 32.4(455B) Exceedance of the health effects standard (HES) for hydrogen sulfide  
 32.5(455B) Iowa Air Sampling Manual

## CHAPTER 33

SPECIAL REGULATIONS AND CONSTRUCTION PERMIT REQUIREMENTS  
FOR MAJOR STATIONARY SOURCES—PREVENTION OF SIGNIFICANT  
DETERIORATION (PSD) OF AIR QUALITY

- 33.1(455B) Purpose  
 33.2 Reserved  
 33.3(455B) Special construction permit requirements for major stationary sources in areas  
designated attainment or unclassified (PSD)  
 33.4 to 33.8 Reserved  
 33.9(455B) Plantwide applicability limitations (PALs)  
 33.10(455B) Exceptions to adoption by reference

## CHAPTER 34

## PROVISIONS FOR AIR QUALITY EMISSIONS TRADING PROGRAMS

- 34.1(455B) Purpose  
 34.2 to 34.199 Reserved  
 34.200(455B) Provisions for air emissions trading and other requirements for the Clean Air  
Interstate Rule (CAIR)  
 34.201(455B) CAIR NOx annual trading program general provisions  
 34.202(455B) CAIR designated representative for CAIR NOx sources  
 34.203(455B) Permits  
 34.204 Reserved  
 34.205(455B) CAIR NOx allowance allocations  
 34.206(455B) CAIR NOx allowance tracking system  
 34.207(455B) CAIR NOx allowance transfers  
 34.208(455B) Monitoring and reporting  
 34.209(455B) CAIR NOx opt-in units  
 34.210(455B) CAIR SO2 trading program  
 34.211 to 34.219 Reserved  
 34.220(455B) CAIR NOx ozone season trading program  
 34.221(455B) CAIR NOx ozone season trading program general provisions  
 34.222(455B) CAIR designated representative for CAIR NOx ozone season sources  
 34.223(455B) CAIR NOx ozone season permits  
 34.224 Reserved  
 34.225(455B) CAIR NOx ozone season allowance allocations  
 34.226(455B) CAIR NOx ozone season allowance tracking system  
 34.227(455B) CAIR NOx ozone season allowance transfers  
 34.228(455B) CAIR NOx ozone season monitoring and reporting  
 34.229(455B) CAIR NOx ozone season opt-in units

## CHAPTER 35

## AIR EMISSIONS REDUCTION ASSISTANCE PROGRAM

35.1(455B)	Purpose
35.2(455B)	Definitions
35.3(455B)	Role of the department of natural resources
35.4(455B)	Eligible projects
35.5(455B)	Forms
35.6(455B)	Project selection
35.7(455B)	Funding sources
35.8(455B)	Type of financial assistance
35.9(455B)	Term of loans
35.10(455B)	Reduced award
35.11(455B)	Fund disbursement limitations
35.12(455B)	Applicant cost share
35.13(455B)	Eligible costs
35.14(455B)	Ineligible costs
35.15(455B)	Written agreement
35.16(455B)	Financial assistance denial

## TITLE III

*WITHDRAWAL DIVERSION, STORAGE AND USE OF WATER*

## DIVISION A

## WATER WELL CONSTRUCTION: GENERAL STANDARDS AND REGISTRATION OF CONTRACTORS

## CHAPTERS 36 and 37

Reserved

## CHAPTER 38

## PRIVATE WATER WELL CONSTRUCTION PERMITS

38.1(455B)	Definitions
38.2(455B)	Forms
38.3(455B)	Permit requirement
38.4(455B)	Form of application
38.5(455B)	Fees
38.6(455B)	Well maintenance and reconstruction
38.7(455B)	Emergency permits
38.8(455B)	Permit issuance and conditions
38.9(455B)	Noncompliance
38.10(455B)	Expiration of a permit
38.11(455B)	Transferability
38.12(455B)	Denial of a permit
38.13(455B)	Appeal of a permit denial
38.14	Reserved
38.15(455B)	Delegation of authority to county board of supervisors
38.16(455B)	Concurrent authority of the department
38.17(455B)	Revocation of delegation agreement

## CHAPTER 39

## REQUIREMENTS FOR PROPERLY PLUGGING ABANDONED WELLS

39.1(455B)	Purpose
39.2(455B)	Applicability
39.3(455B)	Definitions
39.4(455B)	Forms
39.5(455B)	Abandoned well plugging schedule

39.6(455B)	Abandoned well owner responsibilities
39.7(455B)	Abandoned well plugging materials
39.8(455B)	Abandoned well plugging procedures
39.9(455B)	Designated agent
39.10(455B)	Designation of standby wells
39.11(455B)	Variances

DIVISION B  
DRINKING WATER

CHAPTER 40

SCOPE OF DIVISION—DEFINITIONS—FORMS—RULES OF PRACTICE

40.1(455B)	Scope of division
40.2(455B)	Definitions
40.3(17A,455B)	Forms
40.4(17A,455B)	Public water supply construction permit application procedures
40.5(17A,455B)	Public water supply operation permit application procedures
40.6(455B)	Drinking water state revolving fund loan application procedures
40.7(455B)	Viability assessment procedures

CHAPTER 41  
WATER SUPPLIES

41.1(455B)	Primary drinking water regulations—coverage
41.2(455B)	Biological maximum contaminant levels (MCL) and monitoring requirements
41.3(455B)	Maximum contaminant levels (MCLs) and monitoring requirements for inorganic contaminants other than lead or copper
41.4(455B)	Lead, copper, and corrosivity
41.5(455B)	Organic chemicals
41.6(455B)	Disinfection byproducts maximum contaminant levels and monitoring requirements
41.7	Reserved
41.8(455B)	Radionuclides
41.9 and 41.10	Reserved
41.11(455B)	Special monitoring
41.12(455B)	Alternative analytical techniques
41.13(455B)	Monitoring of interconnected public water supply systems
41.14(455B)	Department analytical results used to determine compliance
41.15(455B)	Monitoring of other contaminants

CHAPTER 42  
PUBLIC NOTIFICATION, PUBLIC EDUCATION,  
CONSUMER CONFIDENCE REPORTS, REPORTING,  
AND RECORD MAINTENANCE

42.1(455B)	Public notification
42.2(455B)	Public education for lead action level exceedance
42.3(455B)	Consumer confidence reports
42.4(455B)	Reporting
42.5(455B)	Record maintenance

CHAPTER 43  
WATER SUPPLIES—DESIGN AND OPERATION

43.1(455B)	General information
43.2(455B)	Permit to operate
43.3(455B)	Public water supply system construction

43.4(455B)	Certification of completion
43.5(455B)	Filtration and disinfection for surface water and influenced groundwater public water supply systems
43.6(455B)	Residual disinfectant and disinfection byproduct precursors
43.7(455B)	Lead and copper treatment techniques
43.8(455B)	Viability assessment
43.9(455B)	Enhanced filtration and disinfection requirements for surface water and IGW systems serving at least 10,000 people
43.10(455B)	Enhanced filtration and disinfection requirements for surface water and IGW systems serving fewer than 10,000 people
43.11(455B)	Enhanced treatment for <i>Cryptosporidium</i>
43.12(455B)	Optimization goals

## CHAPTER 44

## DRINKING WATER STATE REVOLVING FUND

44.1(455B)	Statutory authority
44.2(455B)	Scope of title
44.3(455B)	Purpose
44.4(455B)	Definitions
44.5(455B)	Set-asides
44.6(455B)	Eligibility
44.7(455B)	Project point ranking system (project priority list)
44.8(455B)	Intended use plan
44.9(455B)	Department initial approval of projects
44.10(455B)	General administrative requirements
44.11	Reserved
44.12(455B)	Construction phase and postconstruction phase requirements
44.13(455B)	Sanctions
44.14(455B)	Disputes

## CHAPTERS 45 to 48

## Reserved

## CHAPTER 49

## NONPUBLIC WATER SUPPLY WELLS

49.1(455B)	Purpose
49.2(455B)	Definitions
49.3(455B)	Applicability
49.4(455B)	General
49.5(455B)	Variances
49.6(455B)	Location of wells
49.7(455B)	General construction requirements
49.8(455B)	Types of well construction
49.9(455B)	Material standards
49.10(455B)	Well reconstruction
49.11(455B)	Disposal of drilling mud
49.12(455B)	Pumps and pumping equipment
49.13(455B)	Drop pipe
49.14(455B)	Pump wiring
49.15(455B)	Pitless adapters and pitless units
49.16(455B)	Well caps and seals
49.17(455B)	Vents
49.18(455B)	Underground piping

49.19(455B)	Underground wiring
49.20(455B)	Sampling faucets
49.21(455B)	Hydropneumatic (pressure) tanks
49.22(455B)	Electrical connections
49.23(455B)	Interconnections and cross connections
49.24(455B)	Backflow prevention for chemical injection systems for nonpotable water wells
49.25(455B)	Filters and water treatment equipment
49.26(455B)	Well disinfection
49.27(455B)	Water sampling and analysis
49.28(455B)	Abandonment of wells
49.29(455B)	Closed circuit vertical heat exchangers

DIVISION C  
WITHDRAWAL, DIVERSION AND STORAGE  
OF WATER: WATER RIGHTS ALLOCATION

CHAPTER 50

SCOPE OF DIVISION—DEFINITIONS—FORMS—RULES OF PRACTICE

50.1(455B)	Scope of division
50.2(455B)	Definitions
50.3(17A,455B)	Forms for withdrawal, diversion or storage of water
50.4(17A,455B)	How to request a permit
50.5(455B)	Initial screening of applications
50.6(17A,455B)	Supporting information
50.7(17A,455B)	Review of complete applications
50.8(17A,455B)	Initial decision by the department
50.9(17A,455B)	Appeal of initial decision

CHAPTER 51

WATER PERMIT OR REGISTRATION—WHEN REQUIRED

51.1(455B)	Scope of chapter
51.2(455B)	Storage (surface)
51.3(455B)	Diversion from surface into aquifer
51.4(455B)	Drain tile lines
51.5(455B)	Cooling/heating systems
51.6(455B)	Miscellaneous uses
51.7(455B)	Excavation and processing of rock and gravel products
51.8(159)	Agricultural drainage wells

CHAPTER 52

CRITERIA AND CONDITIONS FOR AUTHORIZING WITHDRAWAL,  
DIVERSION AND STORAGE OF WATER

52.1(455B)	Scope of chapter
52.2(455B)	Conditions on permitted water uses
52.3(455B)	Conditions on withdrawals from streams
52.4(455B)	Conditions on withdrawals from groundwater sources
52.5(455B)	Duration of permits for withdrawal or diversion of water
52.6(455B)	Monitoring, recording and reporting of water use and effects on water source
52.7(455B)	Modification, cancellation, and emergency suspension of permits
52.8(455B)	Designated protected flows of streams
52.9(455B)	Water conservation
52.10(455B)	Priority allocation restrictions
52.11(455B)	Plugging of abandoned wells
52.12 to 52.19	Reserved

- 52.20(455B) Water storage permits  
 52.21(455B) Permits to divert water to an agricultural drainage well

## CHAPTER 53

PROTECTED WATER SOURCES — PURPOSES — DESIGNATION PROCEDURES —  
 INFORMATION IN WITHDRAWAL APPLICATIONS — LIMITATIONS —  
 LIST OF PROTECTED SOURCES

- 53.1(455B) Scope of chapter  
 53.2(455B) Designation of protected sources  
 53.3(455B) Purposes of designating a protected source  
 53.4(455B) Designation procedure  
 53.5(455B) Information requirements for applications to withdraw water from protected sources  
 53.6(455B) Conditions in permits for withdrawals of water from a protected source  
 53.7(455B) List of protected water sources

## CHAPTER 54

CRITERIA AND CONDITIONS FOR PERMIT RESTRICTIONS OR COMPENSATION BY  
 PERMITTED USERS TO NONREGULATED USERS DUE TO WELL INTERFERENCE

- 54.1(455B) Scope of chapter  
 54.2(455B) Requirements for informal negotiations  
 54.3(455B) Failure to cooperate  
 54.4(455B) Well interference by proposed withdrawals  
 54.5(455B) Well interference by existing permitted uses  
 54.6(455B) Verification of well interference  
 54.7(455B) Settlement procedures  
 54.8(455B) Recurring complaints  
 54.9(455B) Variances  
 54.10(455B) Appeal procedures

## CHAPTER 55

AQUIFER STORAGE AND RECOVERY:  
 CRITERIA AND CONDITIONS FOR AUTHORIZING STORAGE,  
 RECOVERY, AND USE OF WATER

- 55.1(455B) Statutory authority  
 55.2 Reserved  
 55.3(455B) Purpose  
 55.4(455B) Definitions  
 55.5(455B) Application processing  
 55.6(455B) Aquifer storage and recovery technical evaluation criteria

## CHAPTERS 56 to 59

Reserved

## TITLE IV

*WASTEWATER TREATMENT AND DISPOSAL*

## CHAPTER 60

## SCOPE OF TITLE—DEFINITIONS—FORMS—RULES OF PRACTICE

- 60.1(455B,17A) Scope of title  
 60.2(455B) Definitions  
 60.3(455B,17A) Forms  
 60.4(455B,17A) Application procedures and requirements generally

CHAPTER 61  
WATER QUALITY STANDARDS

WATER QUALITY STANDARDS

61.1	Reserved
61.2(455B)	General considerations
61.3(455B)	Surface water quality criteria
61.4 to 61.9	Reserved

VOLUNTEER MONITORING DATA REQUIREMENTS

61.10(455B)	Purpose
61.11(455B)	Monitoring plan required
61.12(455B)	Use of volunteer monitoring data
61.13(455B)	Department audits of volunteer monitoring activities

CHAPTER 62

EFFLUENT AND PRETREATMENT STANDARDS:  
OTHER EFFLUENT LIMITATIONS OR PROHIBITIONS

62.1(455B)	Prohibited discharges
62.2(455B)	Exemption of adoption of certain federal rules from public participation
62.3(455B)	Secondary treatment information: effluent standards for publicly owned treatment works and semipublic sewage disposal systems
62.4(455B)	Federal effluent and pretreatment standards
62.5(455B)	Federal toxic effluent standards
62.6(455B)	Effluent limitations and pretreatment requirements for sources for which there are no federal effluent or pretreatment standards
62.7(455B)	Effluent limitations less stringent than the effluent limitation guidelines
62.8(455B)	Effluent limitations or pretreatment requirements more stringent than the effluent or pretreatment standards
62.9(455B)	Disposal of pollutants into wells
62.10(455B)	Effluent reuse

CHAPTER 63

MONITORING, ANALYTICAL AND REPORTING REQUIREMENTS

63.1(455B)	Guidelines establishing test procedures for the analysis of pollutants
63.2(455B)	Records of monitoring activities and results
63.3(455B)	Minimum self-monitoring requirements in permits
63.4(455B)	Effluent toxicity testing requirements in permits
63.5(455B)	Self-monitoring and reporting for animal feeding operations
63.6(455B)	Bypasses and upsets
63.7(455B)	Submission of records of operation
63.8(455B)	Frequency of submitting records of operation
63.9(455B)	Content of records of operation
63.10(455B)	Records of operation forms
63.11(455B)	Certification and signatory requirements in the submission of records of operation
63.12(455B)	Twenty-four-hour reporting
63.13(455B)	Planned changes
63.14(455B)	Anticipated noncompliance

CHAPTER 64

WASTEWATER CONSTRUCTION AND OPERATION PERMITS

64.1	Reserved
64.2(455B)	Permit to construct
64.3(455B)	Permit to operate

64.4(455B)	Issuance of NPDES permits
64.5(455B)	Notice and public participation in the individual NPDES permit process
64.6(455B)	Completing a Notice of Intent for coverage under a general permit
64.7(455B)	Terms and conditions of NPDES permits
64.8(455B)	Reissuance of operation and NPDES permits
64.9(455B)	Monitoring, record keeping and reporting by operation permit holders
64.10(455B)	Silvicultural activities
64.11 and 64.12	Reserved
64.13(455B)	Storm water discharges
64.14(455B)	Transfer of title and owner or operator address change
64.15(455B)	General permits issued by the department
64.16(455B)	Fees
64.17(455B)	Validity of rules
64.18(455B)	Applicability

## CHAPTER 65 ANIMAL FEEDING OPERATIONS

### DIVISION I CONFINEMENT FEEDING OPERATIONS

65.1(459,459B)	Definitions
65.2(459,459B)	Minimum manure control requirements and reporting of releases
65.3(459,459B)	Requirements and recommended practices for land application of manure
65.4	Reserved
65.5(459,459B)	Departmental evaluation
65.6(459,459B)	Concentrated animal feeding operations; NPDES permits
65.7(459,459B)	Construction permits—required approvals, permits, determinations and declaratory orders
65.8(459,459B)	Construction
65.9(459,459B)	Preconstruction submittal requirements
65.10(459,459B)	Construction permit application review process, site inspections and complaint investigations
65.11(459,459B)	Confinement feeding operation and stockpile separation distance requirements
65.12(459,459B)	Exemptions and variances to confinement feeding operation and stockpile separation distance requirements and prohibition of construction on the one hundred year flood plain
65.13 and 65.14	Reserved
65.15(459,459B)	Manure storage structure design requirements
65.16(459,459B)	Manure management plan requirements
65.17(459,459B)	Manure management plan content requirements
65.18(459,459B)	Construction certification
65.19(459,459B)	Manure applicators certification
65.20(459,459B)	Manure storage indemnity fund
65.21(459,459B)	Transfer of legal responsibilities or title
65.22(459,459B)	Validity of rules
65.23 to 65.99	Reserved

### DIVISION II OPEN FEEDLOT OPERATIONS

65.100(455B,459,459A)	Definitions
65.101(459A)	Minimum open feedlot effluent control requirements and reporting of releases
65.102(455B,459A)	NPDES permits required for CAFOs
65.103(455B,459A)	Departmental evaluation; CAFO designation; remedial actions
65.104(455B,459A)	NPDES permits

- 65.105(459A) Construction permits
- 65.106(459A) Construction
- 65.107(459A) Construction permit application
- 65.108(455B,459A) Water well separation distances for open feedlot operations
- 65.109(459A) Settled open feedlot effluent basins—investigation, design and construction requirements
- 65.110(459A) AT systems—design requirements
- 65.111(459A) Construction certification
- 65.112(459A) Nutrient management plan requirements
- 65.113(459A) Complaint investigations
- 65.114(455B,459A) Transfer of legal responsibilities or title

#### CHAPTER 66

##### PESTICIDE APPLICATION TO WATERS

- 66.1(455B) Aquatic pesticide

#### CHAPTER 67

##### STANDARDS FOR THE LAND APPLICATION OF SEWAGE SLUDGE

- 67.1(455B) Land application of sewage sludge
- 67.2(455B) Exclusions
- 67.3(455B) Sampling and analysis
- 67.4(455B) Land application program
- 67.5(455B) Special definitions
- 67.6(455B) Permit requirements
- 67.7(455B) Land application requirements for Class I sewage sludge
- 67.8(455B) Land application requirements for Class II sewage sludge
- 67.9(455B) Class III sewage sludge
- 67.10(455B) Sampling and analytical methods
- 67.11(455B) Pathogen treatment processes

#### CHAPTER 68

##### COMMERCIAL SEPTIC TANK CLEANERS

- 68.1(455B) Purpose and applicability
- 68.2(455B) Definitions
- 68.3(455B) Licensing requirements
- 68.4(455B) Licensing procedures
- 68.5(455B) Suspension, revocation and denial of license
- 68.6(455B) Licensee's obligations
- 68.7(455B) County obligations
- 68.8(455B) Application sites and equipment inspections
- 68.9(455B) Standards for commercial cleaning of private sewage disposal systems
- 68.10(455B) Standards for disposal
- 68.11(455B) Standards for disposal of on-farm food processing wastewater

#### CHAPTER 69

##### PRIVATE SEWAGE DISPOSAL SYSTEMS

- 69.1(455B) General
- 69.2(455B) Time of transfer inspections
- 69.3(455B) Site analysis
- 69.4(455B) Requirements when effluent is discharged into surface water
- 69.5(455B) Requirements when effluent is discharged above the ground surface
- 69.6(455B) Requirements when effluent is discharged into the soil
- 69.7(455B) Building sewers

69.8(455B)	Primary treatment—septic tanks
69.9(455B)	Secondary treatment—subsurface soil absorption systems
69.10(455B)	Mound systems
69.11(455B)	At-grade systems
69.12(455B)	Drip irrigation
69.13(455B)	Packed bed media filters
69.14(455B)	Aerobic treatment units
69.15(455B)	Constructed wetlands
69.16(455B)	Waste stabilization ponds
69.17(455B)	Requirements for impervious vault toilets
69.18(455B)	Requirements for portable toilets
69.19(455B)	Other methods of wastewater disposal
69.20(455B)	Disposal of septage from private sewage disposal systems
69.21(455B)	Experimental private sewage disposal systems
69.22(455B)	Variances

TITLE V  
*FLOOD PLAIN DEVELOPMENT*

CHAPTER 70

SCOPE OF TITLE—DEFINITIONS—FORMS—RULES OF PRACTICE

70.1(455B,481A)	Scope of title
70.2(455B,481A)	Definitions
70.3(17A,455B,481A)	Forms
70.4(17A,455B,481A)	Requesting approval of flood plain development
70.5(17A,455B,481A)	Procedures for review of applications
70.6(17A,455B,481A)	Appeal of initial decision

CHAPTER 71

FLOOD PLAIN OR FLOODWAY DEVELOPMENT—  
WHEN APPROVAL IS REQUIRED

71.1(455B)	Bridges, culverts, temporary stream crossings, and road embankments
71.2(455B)	Channel changes
71.3(455B)	Dams
71.4(455B)	Levees or dikes
71.5(455B)	Waste or water treatment facilities
71.6(455B)	Sanitary landfills
71.7(455B)	Buildings and associated fill
71.8(455B)	Pipeline crossings
71.9(455B)	Stream bank protective devices
71.10(455B)	Boat docks
71.11(455B)	Excavations
71.12(455B)	Miscellaneous structures, obstructions, or deposits not otherwise provided for in other rules
71.13(455B)	Animal feeding operation structures

CHAPTER 72

CRITERIA FOR APPROVAL

DIVISION I

SPECIAL CRITERIA FOR VARIOUS TYPES OF FLOOD PLAIN DEVELOPMENT

72.1(455B)	Bridges and road embankments
72.2(455B)	Channel changes
72.3(455B)	Dams
72.4(455B)	Levees or dikes

72.5(455B)	Buildings
72.6(455B)	Wastewater treatment facilities
72.7(455B)	Sanitary landfills
72.8(455B)	Water supply treatment facilities
72.9(455B)	Stream protective devices
72.10(455B)	Pipeline river or stream crossings
72.11(455B)	Miscellaneous construction
72.12	Reserved
72.13(455B)	Animal feeding operation structures
72.14 to 72.29	Reserved

DIVISION II  
GENERAL CRITERIA

72.30(455B)	General conditions
72.31(455B)	Variance
72.32(455B)	Protected stream information
72.33 to 72.49	Reserved

DIVISION III  
PROTECTED STREAM DESIGNATION PROCEDURE

72.50(455B)	Protected streams
72.51(455B)	Protected stream designation procedure
72.52(455B)	Protected stream declassification procedure

CHAPTER 73

USE, MAINTENANCE, REMOVAL, INSPECTIONS, AND SAFETY OF DAMS

DIVISION I  
USE AND MAINTENANCE OF DAMS

73.1(109,455B)	Operating plan for dams with movable structures
73.2(109,455B)	Raising or lowering of impoundment levels
73.3 to 73.9	Reserved

DIVISION II  
ABANDONMENT AND REMOVAL OF DAMS

73.10(109,455B)	Abandonment prohibited
73.11(109,455B)	Removal of dams
73.12 to 73.19	Reserved

DIVISION III  
INSPECTION OF DAMS

73.20(109,455B)	Scope and purposes of dam safety inspection program
73.21(109,455B)	Types of inspections; when inspections are made
73.22(109,455B)	Duty of dam owner to maintain, investigate, inspect and report
73.23(109,455B)	Special inspections and investigations
73.24(109,455B)	Inspection by others
73.25(109,455B)	Access for inspections a condition of construction approval
73.26(109,455B)	Inspection reports
73.27 to 73.29	Reserved

DIVISION IV  
DESIGNATION OF UNSAFE DAMS

73.30(109,455B)	Procedures for designation of a dam as unsafe
73.31(109,455B)	Criteria for designating a dam as unsafe
73.32(109,455B)	Agency action concerning an unsafe dam

CHAPTER 74

Reserved

## CHAPTER 75

## MANAGEMENT OF SPECIFIC FLOOD PLAIN AREAS

- 75.1(455B) Applicability and purposes of chapter
- 75.2(455B) Flooding characteristics
- 75.3(455B) Area of regulation
- 75.4(455B) Establishment of a floodway
- 75.5(455B) Minimum standards for flood plain and floodway uses
- 75.6(455B) Preexisting nonconforming development and associated uses
- 75.7(335,414,455B) Delegation of authority to local governments by approval of local regulations
- 75.8(335,414,455B) Review and approval of variances from local regulations
- 75.9(335,414,455B) Notice of proposed department flood plain management order or proposed local flood plain regulation

## CHAPTER 76

## FEDERAL WATER RESOURCE PROJECTS

- 76.1(455B) Referral of federal project
- 76.2(455B) Solicitation of comments
- 76.3(455B) Hearing
- 76.4(455B) Formulation of comments
- 76.5(455B) Transmittal of comments
- 76.6(455B) Other coordination

## CHAPTERS 77 to 79

Reserved

## TITLE VI

*CERTIFICATION OF OPERATORS*

## CHAPTER 80

Reserved

## CHAPTER 81

OPERATOR CERTIFICATION: PUBLIC WATER SUPPLY SYSTEMS  
AND WASTEWATER TREATMENT SYSTEMS

- 81.1(455B) Definitions
- 81.2(455B) General
- 81.3(455B) Wastewater treatment plant grades
- 81.4(455B) Water treatment plant grades
- 81.5(455B) Water distribution system grades
- 81.6(455B) Grade A classification
- 81.7(455B) Operator education and experience qualifications
- 81.8(455B) Certification and examination fees
- 81.9(455B) Examinations
- 81.10(455B) Certification by examination
- 81.11(455B) Certification by reciprocity
- 81.12(455B) Restricted and temporary certification
- 81.13(455B) Certification renewal
- 81.14(455B,272C) Continuing education
- 81.15(455B) Upgrading of certificates
- 81.16(455B) Operator by affidavit
- 81.17(455B,272C) Disciplinary actions

CHAPTER 82  
WELL CONTRACTOR CERTIFICATION

82.1(455B)	Definitions
82.2(455B)	General
82.3(455B)	Classification of well contractors
82.4 and 82.5	Reserved
82.6(455B)	Experience requirements
82.7(455B)	Certification and examination fees
82.8(455B)	Examinations
82.9(455B)	Certification by examination
82.10(455B)	Certification renewal
82.11(455B)	Continuing education
82.12(455B)	Certified well contractor obligations
82.13(455B)	Disciplinary actions
82.14(455B,272C)	Revocation of certificates

CHAPTER 83  
LABORATORY CERTIFICATION

PART A  
GENERAL

83.1(455B)	Authority, purpose, and applicability
83.2(455B)	Definitions

PART B  
CERTIFICATION PROCESS

83.3(455B)	Application for laboratory certification
83.4(455B)	Procedure for initial certification for laboratories analyzing solid waste and contaminated site program parameters
83.5(455B)	Procedures for certification of new laboratories or changes in certification
83.6(455B)	Laboratory recertification
83.7(455B)	Criteria and procedure for provisional, suspended, and revoked laboratory certification

CHAPTERS 84 to 89  
Reserved

TITLE VII  
*WATER POLLUTION CONTROL STATE REVOLVING FUND*

CHAPTER 90  
SCOPE OF TITLE — DEFINITIONS — FORMS

90.1(455B)	Scope of title
90.2(455B)	Definitions
90.3(455B)	Forms

CHAPTER 91  
CRITERIA FOR RATING AND RANKING PROJECTS  
FOR THE WATER POLLUTION CONTROL STATE REVOLVING FUND

91.1(455B)	Statutory authority
91.2(455B)	Scope of title
91.3(455B)	Purpose
91.4 and 91.5	Reserved
91.6(455B)	General information—priority rating system
91.7	Reserved
91.8(455B)	Project priority rating system

## CHAPTER 92

## CLEAN WATER STATE REVOLVING FUND

92.1(455B)	Statutory authority
92.2(455B)	Scope of title
92.3	Reserved
92.4(455B)	General policy
92.5	Reserved
92.6(455B)	Intended use plan management
92.7(455B)	Point source project procedures
92.8(455B)	Point source project requirements

## CHAPTER 93

## NONPOINT SOURCE POLLUTION CONTROL SET-ASIDE PROGRAMS

93.1(455B,466)	Statutory authority
93.2(455B,466)	Scope of title
93.3(455B,466)	Purpose
93.4(455B,466)	Onsite wastewater system assistance program
93.5(455B)	Livestock water quality facilities requirements
93.6(455B)	Local water protection project requirements
93.7(455B)	General nonpoint source project requirements

## CHAPTERS 94 to 99

Reserved

## TITLE VIII

*SOLID WASTE MANAGEMENT  
AND DISPOSAL*

## CHAPTER 100

## SCOPE OF TITLE — DEFINITIONS — FORMS — RULES OF PRACTICE

100.1(455B,455D)	Scope of title
100.2(455B,455D)	Definitions
100.3(17A,455B)	Forms and rules of practice
100.4(455B)	General conditions of solid waste disposal
100.5(455B)	Disruption and excavation of sanitary landfills or closed dumps

## CHAPTER 101

## SOLID WASTE COMPREHENSIVE PLANNING REQUIREMENTS

101.1(455B,455D)	Purpose
101.2(455B,455D)	Definitions
101.3(455B,455D)	Waste management hierarchy
101.4(455B,455D)	Duties of cities and counties
101.5(455B,455D)	Contracts with permitted agencies
101.6(455B,455D)	State volume reduction and recycling goals
101.7(455B,455D)	Base year adjustment method
101.8(455B,455D)	Submittal of initial comprehensive plans and comprehensive plan updates
101.9(455B,455D)	Review of initial comprehensive plans and comprehensive plan updates
101.10(455B,455D)	Municipal solid waste and recycling survey
101.11(455B,455D)	Online database
101.12(455B,455D)	Solid waste comprehensive plan types
101.13(455B,455D)	Types of comprehensive plan submittals to be filed
101.14(455B,455D)	Fees for disposal of solid waste at sanitary landfills

CHAPTER 102  
PERMITS

102.1(455B)	Permit required
102.2(455B)	Types of permits
102.3(455B)	Applications for permits
102.4(455B)	Preparation of plans
102.5(455B)	Construction and operation
102.6(455B)	Compliance with rule changes
102.7(455B)	Amendments
102.8(455B)	Transfer of title and permit
102.9(455B)	Permit conditions
102.10(455B)	Effect of revocation
102.11(455B)	Inspection prior to start-up
102.12(455B)	Primary plan requirements for all sanitary disposal projects
102.13(455B)	Operating requirements for all sanitary disposal projects
102.14(455B)	Emergency response and remedial action plans

CHAPTER 103  
SANITARY LANDFILLS: COAL COMBUSTION RESIDUE

103.1(455B)	Coal combustion residue landfills
103.2(455B)	Emergency response and remedial action plans
103.3(455B)	Coal combustion residue sanitary landfill financial assurance

CHAPTER 104  
SANITARY DISPOSAL PROJECTS WITH PROCESSING FACILITIES

104.1(455B)	Scope and applicability
104.2(455B)	Dumping or holding floors or pits
104.3(455B)	Compaction equipment
104.4(455B)	Hammermills
104.5(455B)	Hydropulping or slurring equipment
104.6(455B)	Air classifiers
104.7(455B)	Metals separation equipment
104.8(455B)	Sludge processing
104.9(455B)	Storage containers and facilities
104.10(455B)	Operating requirements for all processing facilities
104.11(455B)	Closure requirements
104.12 to 104.20	Reserved
104.21(455B)	Specific design requirements
104.22(455B)	Specific operating requirements for all recycling operations
104.23(455B)	Recycling operations processing paper, cans, and bottles
104.24(455B)	Closure requirements
104.25(455B)	Operator certification
104.26(455D)	Financial assurance for solid waste processing facilities

CHAPTER 105  
ORGANIC MATERIALS COMPOSTING FACILITIES

105.1(455B,455D)	General
105.2(455B,455D)	Exemptions
105.3(455B,455D)	General requirements for all composting facilities not exempt pursuant to 105.2(455B,455D)
105.4(455B,455D)	Specific requirements for yard waste composting facilities
105.5(455B,455D)	Small composting facilities receiving off-premises materials
105.6(455B,455D)	Specific requirements for composting of dead farm animals

- 105.7(455B,455D) Permit requirements for solid waste composting facilities
- 105.8(455B,455D) Permit application requirements for solid waste composting facilities
- 105.9(455B,455D) Specific operating requirements for permitted solid waste composting facilities
- 105.10(455B,455D) Operator certification for permitted solid waste composting facilities
- 105.11(455B,455D) Record-keeping requirements for solid waste composting facilities
- 105.12(455B,455D) Reporting requirements for solid waste composting facilities
- 105.13(455B,455D) Closure requirements for solid waste composting facilities
- 105.14(455B,455D) Composting facility financial assurance
- 105.15(455B,455D) Variances

#### CHAPTER 106

##### CITIZEN CONVENIENCE CENTERS AND TRANSFER STATIONS

- 106.1(455B) Compliance
- 106.2(455B,455D) Definitions
- 106.3(455B) Citizen convenience center and transfer station permits
- 106.4(455B) Citizen convenience center permit application requirements
- 106.5(455B) Citizen convenience center operations
- 106.6(455B,455D) Citizen convenience center reporting requirements
- 106.7(455B) Citizen convenience center closure requirements
- 106.8(455B) Transfer station permit application requirements
- 106.9(455B) Transfer station siting and location requirements
- 106.10(455B) Transfer station design standards
- 106.11(455B) Transfer station operating requirements
- 106.12(455B) Temporary solid waste storage at transfer stations
- 106.13(455B,455D) Transfer station record-keeping requirements
- 106.14(455B,455D) Transfer station reporting requirements
- 106.15(455B) Solid waste transport vehicle construction and maintenance requirements
- 106.16(455B) Solid waste transport vehicle operation requirements
- 106.17(455B) Transfer station closure requirements
- 106.18(455B) Citizen convenience center and transfer station financial assurance
- 106.19(455B) Emergency response and remedial action plans

#### CHAPTER 107

##### BEVERAGE CONTAINER DEPOSITS

- 107.1(455C) Scope
- 107.2(455C) Definitions
- 107.3(455C) Labeling requirements
- 107.4(455C) Redemption centers
- 107.5(455C) Redeemed containers—use
- 107.6 Reserved
- 107.7(455C) Redeemed containers must be reasonably clean
- 107.8(455C) Interpretive rules
- 107.9(455C) Pickup and acceptance of redeemed containers
- 107.10(455C) Dealer agent lists
- 107.11(455C) Refund value stated on containers—exceptions
- 107.12(455C) Education
- 107.13(455C) Refusing payment when a distributor discontinues a specific beverage product
- 107.14(455C) Payment of refund value
- 107.15(455C) Sales tax on deposits

## CHAPTER 108

## BENEFICIAL USE DETERMINATIONS:

## SOLID BY-PRODUCTS AS RESOURCES AND ALTERNATIVE COVER MATERIAL

- 108.1(455B,455D) Purpose
- 108.2(455B,455D) Applicability and compliance
- 108.3(455B,455D) Definitions
- 108.4(455B,455D) Universally approved beneficial use determinations
- 108.5(455B,455D) Application requirements for beneficial use determinations other than alternative cover material
- 108.6(455B,455D) Requirements for beneficial uses other than alternative cover material
- 108.7(455B,455D) Record-keeping and reporting requirements for beneficial use projects other than alternative cover material
- 108.8(455B,455D) Universally approved beneficial use determinations for alternative cover material
- 108.9(455B,455D) Beneficial use determination application requirements for alternative cover material
- 108.10(455B,455D) Beneficial use of alternative cover material and state goal progress
- 108.11(455B,455D) Revocation of beneficial use determinations

## CHAPTER 109

## SPECIAL WASTE AUTHORIZATIONS

- 109.1(455B,455D) Purpose
- 109.2(455B,455D) Special waste authorization required
- 109.3(455B,455D) Definitions
- 109.4 Reserved
- 109.5(455B,455D) Applications
- 109.6(455B,455D) Restrictions
- 109.7(455B,455D) Landfill responsibilities
- 109.8(455B,455D) Special waste generator responsibilities
- 109.9(455B,455D) Infectious waste
- 109.10(455B,455D) Other special wastes
- 109.11(455B,455D) Conditions and requirements for the disposal of general special wastes

## CHAPTER 110

Reserved

## CHAPTER 111

## ANNUAL REPORTS OF SOLID WASTE ENVIRONMENTAL MANAGEMENT SYSTEMS

- 111.1(455J) Purpose
- 111.2(455J) Role of the department
- 111.3(455J) Applicability
- 111.4(455J) Definitions
- 111.5(455J) Submittal of annual reports
- 111.6(455J) Contents of annual reports
- 111.7(455J) Evaluation criteria
- 111.8(455J) Evaluation outcomes

## CHAPTER 112

CHAPTER 113  
SANITARY LANDFILLS FOR MUNICIPAL  
SOLID WASTE: GROUNDWATER PROTECTION SYSTEMS FOR THE DISPOSAL OF  
NONHAZARDOUS WASTES

113.1(455B)	Purpose
113.2(455B)	Applicability and compliance
113.3(455B)	Definitions
113.4(455B)	Permits
113.5(455B)	Permit application requirements
113.6(455B)	Siting and location requirements for MSWLFs
113.7(455B)	MSWLF unit design and construction standards
113.8(455B)	Operating requirements
113.9(455B)	Environmental monitoring and corrective action requirements for air quality and landfill gas
113.10(455B)	Environmental monitoring and corrective action requirements for groundwater and surface water
113.11(455B,455D)	Record-keeping and reporting requirements
113.12(455B)	Closure criteria
113.13(455B)	Postclosure care requirements
113.14(455B)	Municipal solid waste landfill financial assurance
113.15(455B,455D)	Variances

CHAPTER 114  
SANITARY LANDFILLS: CONSTRUCTION AND DEMOLITION WASTES

114.1(455B)	Scope and applicability
114.2(455B)	Permit required
114.3(455B)	Types of permits
114.4(455B)	Applications for permits
114.5(455B)	Preparation of plans
114.6(455B)	Construction and operation
114.7(455B)	Compliance with rule changes
114.8(455B)	Amendments
114.9(455B)	Transfer of title and permit
114.10(455B)	Permit conditions
114.11(455B)	Effect of revocation
114.12(455B)	Inspection prior to start-up
114.13(455B)	Primary plan requirements for all sanitary disposal projects
114.14(455B)	Hydrologic monitoring system planning requirements
114.15(455B)	Soil investigation
114.16(455B)	Hydrogeologic investigation
114.17(455B)	Hydrologic monitoring system planning report requirements
114.18(455B)	Evaluation of hydrogeologic conditions
114.19(455B)	Monitoring system plan
114.20(455B)	Sampling protocol
114.21(455B)	Monitoring well maintenance and performance reevaluation plan
114.22(455B)	Monitoring well siting requirements
114.23(455B)	Monitoring well/soil boring construction standards
114.24(455B)	Sealing abandoned wells and boreholes
114.25(455B)	Variance from design, construction, and operation standards
114.26(455B)	General requirements for all sanitary landfills
114.27(455B)	Operating requirements for all sanitary disposal projects

- 114.28(455B) Specific requirements for a sanitary landfill proposing to accept only construction and demolition waste
- 114.29(455B) Operator certification
- 114.30(455B) Emergency response and remedial action plans
- 114.31(455B) Construction and demolition wastes sanitary landfill financial assurance

#### CHAPTER 115

##### SANITARY LANDFILLS: INDUSTRIAL MONOFILLS

- 115.1(455B) Scope and applicability
- 115.2(455B) Permit required
- 115.3(455B) Types of permits
- 115.4(455B) Applications for permits
- 115.5(455B) Preparation of plans
- 115.6(455B) Construction and operation
- 115.7(455B) Compliance with rule changes
- 115.8(455B) Amendments
- 115.9(455B) Transfer of title and permit
- 115.10(455B) Permit conditions
- 115.11(455B) Effect of revocation
- 115.12(455B) Inspection prior to start-up
- 115.13(455B) Primary plan requirements for all sanitary disposal projects
- 115.14(455B) Hydrologic monitoring system planning requirements
- 115.15(455B) Soil investigation
- 115.16(455B) Hydrogeologic investigation
- 115.17(455B) Hydrologic monitoring system planning report requirements
- 115.18(455B) Evaluation of hydrogeologic conditions
- 115.19(455B) Monitoring system plan
- 115.20(455B) Sampling protocol
- 115.21(455B) Monitoring well maintenance and performance reevaluation plan
- 115.22(455B) Monitoring well siting requirements
- 115.23(455B) Monitoring well/soil boring construction standards
- 115.24(455B) Sealing abandoned wells and boreholes
- 115.25(455B) Variance from design, construction, and operation standards
- 115.26(455B) General requirements for all sanitary landfills
- 115.27(455B) Operating requirements for all sanitary disposal projects
- 115.28(455B) Specific requirements for a sanitary landfill proposing to accept a specific type of solid waste
- 115.29(455B) Operator certification
- 115.30(455B) Emergency response and remedial action plans
- 115.31(455B) Industrial monofill sanitary landfill financial assurance

#### CHAPTER 116

##### REGISTRATION OF WASTE TIRE HAULERS

- 116.1(455B,455D) Purpose
- 116.2(455B,455D) Definitions
- 116.3(455B,455D) Registration requirement
- 116.4(455B,455D) Registration form
- 116.5(455B,455D) Registration fee
- 116.6(455B,455D) Bond form
- 116.7(455B,455D) Marking of equipment
- 116.8(455B,455D) Disposition of waste tires collected
- 116.9(455B,455D) Reporting requirements

CHAPTER 117  
WASTE TIRE MANAGEMENT

- 117.1(455B,455D) Purpose
- 117.2(455B,455D) Definitions
- 117.3(455B,455D) Waste tire disposal
- 117.4(455B,455D) Waste tire storage permits and requirements
- 117.5(455B,455D) Used tire storage
- 117.6(455B,455D) Waste tire processing facility permits and requirements
- 117.7(455B,455D) Financial assurance for waste tire sites
- 117.8(455B,455D) Beneficial uses of waste tires

CHAPTER 118  
DISCARDED APPLIANCE DEMANUFACTURING

- 118.1(455B,455D) Purpose
- 118.2(455B,455D) Applicability and compliance
- 118.3(455B,455D) Definitions
- 118.4(455B,455D) Storage and handling of appliances prior to demanufacturing
- 118.5(455B,455D) Appliance demanufacturing permits
- 118.6(455B,455D) Appliance demanufacturing permit application requirements
- 118.7(455B,455D) Fixed facilities and mobile operations
- 118.8(455B,455D) Training
- 118.9(455B,455D) Refrigerant removal requirements
- 118.10(455B,455D) Mercury-containing component removal and disposal requirements
- 118.11(455B,455D) Capacitor removal requirements
- 118.12(455B,455D) Spills
- 118.13(455B,455D) Record keeping and reporting
- 118.14(455B,455D) Appliance demanufacturing facility closure requirements
- 118.15(455B,455D) Shredding of appliances
- 118.16(455B,455D) Appliance demanufacturing facility financial assurance requirements

CHAPTER 119  
USED OIL AND USED OIL FILTERS

- 119.1(455D,455B) Authority, purpose, and applicability
- 119.2(455D,455B) Definitions
- 119.3(455D,455B) Prohibited disposal
- 119.4(455D,455B) Operational requirements for acceptance of used oil
- 119.5(455D,455B) Operational requirements for acceptance of used oil filters
- 119.6(455D,455B) Oil retailer requirements
- 119.7(455D,455B) Oil filter retailer requirements
- 119.8(455D,455B) Tanks
- 119.9(455D,455B) Locating collection sites

CHAPTER 120  
LANDFARMING OF PETROLEUM CONTAMINATED SOIL

- 120.1(455B) Purpose
- 120.2(455B) Applicability and compliance
- 120.3(455B) Definitions
- 120.4(455B) Landfarming permits
- 120.5(455B) Landfarm permit application requirements
- 120.6(455B) PCS analysis and characterization
- 120.7(455B) Site exploration and suitability requirements for landfarms
- 120.8(455B) Landfarm design requirements
- 120.9(455B) Landfarm operating requirements

- 120.10(455B) Emergency response and remedial action plans
- 120.11(455B) Reporting and record-keeping requirements
- 120.12(455B) Landfarm closure
- 120.13(455B,455D) Financial assurance requirements for multiuse and single-use landfarms

#### CHAPTER 121

##### LAND APPLICATION OF WASTES

- 121.1(455B,17A) Scope of title
- 121.2(455B) Definitions
- 121.3(455B) Application for permits and forms
- 121.4(455B) Land application of solid wastes
- 121.5(455B) Land application of solid wastes for home and certain crop use
- 121.6(455B) Permit exemptions
- 121.7(455B) Permit requirements
- 121.8(455B,455D) Financial assurance requirements for land application of wastes

#### CHAPTER 122

##### CATHODE RAY TUBE DEVICE RECYCLING

- 122.1(455B,455D) Purpose
- 122.2(455B,455D) Applicability and compliance
- 122.3(455B,455D) Definitions
- 122.4(455B,455D) CRT recycling permits
- 122.5(455B,455D) Registration for CRT collection facilities
- 122.6(455B,455D) CRT collection and storage requirements for registered collection points
- 122.7(455B,455D) Record-keeping requirements for CRT collection facilities
- 122.8(455B,455D) CRT recycling facility permit application requirements
- 122.9(455B,455D) Site requirements for CRT recycling facilities
- 122.10(455B,455D) Design requirements for CRT recycling facilities
- 122.11(455B,455D) Operational requirements for permitted CRT recycling facilities
- 122.12(455B,455D) Further requirements for batteries for CRT recycling facilities
- 122.13(455B,455D) Further requirements for circuit boards for CRT recycling facilities
- 122.14(455B,455D) Further requirements for CRTs for CRT recycling facilities
- 122.15(455B,455D) Further requirements for removal and disposal of mercury-containing components for CRT recycling facilities
- 122.16(455B,455D) Further requirements for removal and disposal of PCB capacitors for CRT recycling facilities
- 122.17(455B,455D) Spills and releases at CRT recycling facilities
- 122.18(455B,455D) CRT recycling facilities that shred CRTs
- 122.19(455B,455D) Storage requirements for CRT recycling facilities
- 122.20(455B,455D) ERRAP requirements for CRT recycling facilities
- 122.21(455B,455D) Training requirements for CRT recycling facilities
- 122.22(455B,455D) Reporting requirements for CRT recycling facilities
- 122.23(455B,455D) Record-keeping requirements for CRT recycling facilities
- 122.24(455B,455D) Closure requirements for CRT recycling facilities
- 122.25(455B,455D) Financial assurance requirements for cathode ray tube (CRT) recycling facilities

#### CHAPTER 123

##### REGIONAL COLLECTION CENTERS AND MOBILE UNIT COLLECTION AND CONSOLIDATION CENTERS

- 123.1(455B,455D,455F) Purpose
- 123.2(455B,455D,455F) Definitions
- 123.3(455B,455D,455F) Requirements for satellite facilities

- 123.4(455B,455D,455F) Regional collection center and mobile unit collection and consolidation center permits
- 123.5(455B,455D,455F) Permit application requirements for regional collection centers
- 123.6(455B,455D,455F) Permit application requirements for mobile unit collection and consolidation centers
- 123.7(455B,455D,455F) Site selection
- 123.8(455B,455D,455F) Structures
- 123.9(455B,455D,455F) Staff qualifications
- 123.10(455B,455D,455F) Plans and procedures
- 123.11(455B,455D,455F) Emergency response and remedial action plans
- 123.12(455B,455D,455F) Reporting requirements
- 123.13(455B,455D,455F) Financial assurance requirements for regional collection centers and mobile unit collection and consolidation centers

#### RULES FOR DETERMINING

#### CLEANUP ACTIONS AND RESPONSIBLE PARTIES

- 133.1(455B,455E) Scope
- 133.2(455B,455E) Definitions
- 133.3(455B,455E) Documentation of contamination and source
- 133.4(455B,455E) Response to contamination
- 133.5(455B,455E) Report to commission
- 133.6(455B) Compensation for damages to natural resources

#### CHAPTER 134

#### UNDERGROUND STORAGE TANK LICENSING AND CERTIFICATION PROGRAMS

#### PART A

#### CERTIFICATION OF GROUNDWATER PROFESSIONALS

- 134.1(455G) Definition
- 134.2(455G) Certification requirements
- 134.3(455G) Certification procedure
- 134.4(455G) Suspension, revocation and denial of certification
- 134.5(455G) Penalty

#### PART B

#### CERTIFICATION OF UST COMPLIANCE INSPECTORS

- 134.6(455B) Definition
- 134.7(455B) Certification requirements for UST compliance inspectors

- 134.8(455B) Temporary certification
- 134.9(455B) Application for inspector certification
- 134.10(455B) Training and certification examination
- 134.11(455B) Renewal of certification
- 134.12(455B) Professional liability insurance requirements
- 134.13(455B) Licensed company
- 134.14(455B) Compliance inspection
- 134.15(455B) Disciplinary actions
- 134.16(455B) Revocation of inspector certification or company license

PART C  
LICENSING OF UST PROFESSIONALS

- 134.17(455B) Definitions
- 134.18(455B) Applicability of Part C
- 134.19(455B) General licensing requirements
- 134.20(455B) License renewal procedures
- 134.21(455B) Conflict of interest
- 134.22(455B) Duty to report
- 134.23(455B) OSHA safety requirements
- 134.24(455B) Installers
- 134.25(455B) Testers
- 134.26(455B) Liners
- 134.27(455B) Installation inspectors
- 134.28(455B) Removers
- 134.29(455B) Disciplinary actions

CHAPTER 135  
TECHNICAL STANDARDS AND CORRECTIVE ACTION REQUIREMENTS FOR  
OWNERS AND OPERATORS OF UNDERGROUND STORAGE TANKS

- 135.1(455B) Authority, purpose and applicability
- 135.2(455B) Definitions
- 135.3(455B) UST systems—design, construction, installation and notification
- 135.4(455B) General operating requirements
- 135.5(455B) Release detection
- 135.6(455B) Release reporting, investigation, and confirmation
- 135.7(455B) Release response and corrective action for UST systems containing petroleum or hazardous substances
- 135.8(455B) Risk-based corrective action
- 135.9(455B) Tier 1 site assessment policy and procedure
- 135.10(455B) Tier 2 site assessment policy and procedure
- 135.11(455B) Tier 3 site assessment policy and procedure
- 135.12(455B) Tier 2 and 3 site classification and corrective action response
- 135.13(455B) Public participation
- 135.14(455B) Action levels
- 135.15(455B) Out-of-service UST systems and closure
- 135.16(455B) Laboratory analytical methods for petroleum contamination of soil and water
- 135.17(455B) Evaluation of ability to pay
- 135.18(455B) Transitional rules
- 135.19(455B) Analyzing for methyl tertiary-butyl ether (MTBE) in soil and groundwater samples
- 135.20(455B) Compliance inspection of UST system

## CHAPTER 136

## FINANCIAL RESPONSIBILITY FOR UNDERGROUND STORAGE TANKS

136.1(455B)	Applicability
136.2	Reserved
136.3(455B)	Definition of terms
136.4(455B)	Amount and scope of required financial responsibility
136.5(455B)	Allowable mechanisms and combinations of mechanisms
136.6(455B)	Financial test of self-insurance
136.7(455B)	Guarantee
136.8(455B)	Insurance and risk retention group coverage
136.9(455B)	Surety bond
136.10(455B)	Letter of credit
136.11(455B)	Trust fund
136.12(455B)	Standby trust fund
136.13(455B)	Local government bond rating test
136.14(455B)	Local government financial test
136.15(455B)	Local government guarantee
136.16(455B)	Local government fund
136.17(455B)	Substitution of financial assurance mechanisms by owner or operator
136.18(455B)	Cancellation or nonrenewal by a provider of financial assurance
136.19(455B)	Reporting by owner or operator
136.20(455B)	Record keeping
136.21(455B)	Drawing on financial assurance mechanisms
136.22(455B)	Release from the requirements
136.23(455B)	Bankruptcy or other incapacity of owner or operator or provider of financial assurance
136.24(455B)	Replenishment of guarantees, letters of credit, or surety bonds

TITLE II  
AIR QUALITY

## CHAPTER 20

## SCOPE OF TITLE—DEFINITIONS—FORMS—RULES OF PRACTICE

[Prior to 12/3/86, Water, Air and Waste Management[900]]

**567—20.1(455B,17A) Scope of title.** The department has jurisdiction over the atmosphere of the state to prevent, abate and control air pollution, by establishing standards for air quality and by regulating potential sources of air pollution through a system of general rules or specific permits. The construction and operation of any new or existing stationary source which emits or may emit any air pollutant requires a specific permit from the department, unless exempted by the department.

This chapter provides general definitions applicable to this title and rules of practice, including forms, applicable to the public in the department's administration of the subject matter of this title.

Chapter 21 contains the provisions requiring compliance schedules, allowing for variances, and setting forth the emission reduction program. Chapter 22 contains the standards and procedures for the permitting of emission sources. Chapter 23 contains the air emission standards for contaminants. Chapter 24 provides for the reporting of excess emissions and the equipment maintenance and repair requirements. Chapter 25 contains the testing and sampling requirements for new and existing sources. Chapter 26 identifies air pollution emergency episodes and the preplanned abatement strategies. Chapter 27 sets forth the conditions political subdivisions must meet in order to secure acceptance of a local air pollution control program. Chapter 28 identifies the state ambient air quality standards. Chapter 29 sets forth the qualifications for an observer for reading visible emissions. Chapter 30 sets forth requirements to pay fees for specified activities. Chapter 31 contains the conformity of general federal actions to the Iowa state implementation plan or federal implementation plan and requirements for areas designated nonattainment. Chapter 32 specifies requirements for conducting the animal feeding operations field study. Chapter 33 contains special regulations and construction permit requirements for major stationary sources and includes the requirements for prevention of significant deterioration (PSD). Chapter 34 contains provisions for air quality emissions trading programs.

All dates specified in reference to the Code of Federal Regulations (CFR) are the dates of publication of the last amendments to the portion of the CFR being cited.

[ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—20.2(455B) Definitions.** For the purpose of these rules, the following terms shall have the meaning indicated in this chapter. The definitions set out in Iowa Code section 455B.411 shall be considered to be incorporated verbatim in these rules.

*"Air pollution alert"* means that action condition declared when the concentrations of air contaminants reach the level at which the first stage control actions are to begin.

*"Air pollution emergency"* means that action condition declared when the air quality is continuing to degrade to a level that should never be reached, and that the most stringent control actions are necessary.

*"Air pollution episode"* means a combination of forecast or actual meteorological conditions and emissions of air contaminants which may or do present an imminent and substantial endangerment to the health of persons, during which the chief meteorological factors are the absence of winds that disperse air contaminants horizontally and a stable atmospheric layer which tends to inhibit vertical mixing through relatively deep layers.

*"Air pollution forecast"* means an air stagnation advisory issued to the department, the commission, and to appropriate air pollution control agencies by an authorized Air Stagnation Advisory Office of the National Weather Service predicting that meteorological conditions conducive to an air pollution episode may be imminent. This advisory may be followed by a prediction of the duration and termination of such meteorological conditions.

*"Air pollution warning"* means that action condition declared when the air quality is continuing to degrade from the levels classified as an air pollution alert, and where control actions in addition to those conducted under an air pollution alert are necessary.

“*Air quality standard*” means an allowable level of air contaminant or atmospheric air concentration established by the commission.

“*Ambient air*” means that portion of the atmosphere, external to buildings, to which the general public has access. Ambient air does not include the atmosphere over land owned or controlled by the source and to which public access is precluded by a fence or other physical barriers.

“*Anaerobic lagoon*” means an impoundment, the primary function of which is to store and stabilize organic wastes. The impoundment is designed to receive wastes on a regular basis and the design waste loading rates are such that the predominant biological activity in the impoundment will be anaerobic. An anaerobic lagoon does not include:

a. A runoff control basin which collects and stores only precipitation induced runoff from an open feedlot feeding operation; or

b. A waste slurry storage basin which receives waste discharges from confinement feeding operations and which is designed for complete removal of accumulated wastes from the basin at least semiannually; or

c. Any anaerobic treatment system which includes collection and treatment facilities for all off gases.

“*ASME*” means the American Society of Mechanical Engineers.

“*ASTM*” means the American Society for Testing and Materials.

“*Auxiliary fuel firing equipment*” means equipment to supply additional heat, by the combustion of an auxiliary fuel, for the purpose of attaining temperatures sufficient to dry and ignite the waste material, to maintain ignition thereof, and to promote complete combustion of combustible gases, solids and vapors.

“*Backyard burning*” means the disposal of residential waste by open burning on the premises of the property where such waste is generated.

“*Biodiesel fuel*” means a renewable, biodegradable, mono alkyl ester combustible liquid fuel derived from agricultural plant oils or animal fat such as, but not limited to, soybean oil. For purposes of this definition, “biodiesel fuel” must also meet the specifications of American Society for Testing and Material Specifications (ASTM) D 6751-02, “Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels,” and be registered with the U.S. Environmental Protection Agency as a fuel and a fuel additive under Section 211(b) of the Clean Air Act, 42 U.S.C. Sections 7401, et seq. as amended through November 15, 1990.

“*Btu*” means British thermal unit, the quantity of heat required to raise the temperature of one pound of water from 59°F to 60°F.

“*Carbonaceous fuel*” means any form of combustible matter (whether solid, liquid, vapor or gas) consisting primarily of carbon-containing compounds in either fixed or volatile form, and which is burned primarily for its heat content.

“*Chimney or stack*” means any flue, conduit or duct permitting the discharge or passage of air contaminants into the open air, or constructed or arranged for this purpose.

“*COH/1,000 linear feet*” means coefficient of haze per 1,000 linear feet, which is a measure of the optical density of a filtered deposit of particulate matter as given in ASTM Standard D-1704-61, and indicated by the following formula:

$$\text{COH/1,000 linear feet} = \frac{(\text{Area tape, ft}^2)(100,000)}{(\text{Volume of air sample, ft}^3)} \log \frac{100}{\% \text{ transmission}}$$

“*Combustion for indirect heating*” means the combustion of fuel to produce usable heat that is to be transferred through a heat-conducting materials barrier or by a heat storage medium to a material to be heated so that the material being heated is not contacted by, and adds no substance to, the products of combustion.

“*Control equipment*” means any equipment that has the function to prevent the formation of or the emission to the atmosphere of air contaminants from any fuel burning, incinerator or process equipment.

“*Country grain elevator*” shall have the same definition as “country grain elevator” set forth in 567—subrule 22.10(1).

“*Criteria*” means information used as guidelines for decisions when establishing air quality goals, air quality standards and the various air quality levels, and which in no case is to be confused or used interchangeably with air quality goals or standards.

“*Diesel fuel*” means a low sulfur fuel oil that complies with the specifications for grade 1-D or 2-D, as defined by the American Society of Testing and Materials (ASTM) D 975-02, “Standard Specification for Diesel Fuel Oils,” grade 1-GT or 2-GT, as defined by ASTM D 2880-00, “Standard Specification for Gas Turbine Fuel Oils,” or grade 1 or 2, as defined by ASTM D 396-02, “Standard Specification for Fuel Oils.”

1. For purposes of the air quality rules contained in Title II, and unless otherwise specified, diesel fuel may contain a blend of up to 2.0 percent biodiesel fuel, by volume, as “biodiesel fuel” is defined in this rule.

2. The department shall consider air pollutant emissions calculations for the biodiesel fuel blends specified in numbered paragraph “1” to be equivalent to the air pollutant emissions calculations for unblended diesel fuel.

3. Construction permits or operating permits issued under 567—Chapter 22 which restrict equipment fuel use to diesel fuel shall be considered by the department to include the biodiesel fuel blends specified in numbered paragraph “1,” unless otherwise specified in 567—Chapter 22 or in a permit issued under 567—Chapter 22.

“*Director*” means the director of the department of natural resources or the director’s designee.

“*Electric furnace*” means a furnace in which the melting and refining of metals are accomplished by means of electrical energy.

“*Emergency generator*” means any generator of which the sole function is to provide emergency backup power during an interruption of electrical power from the electric utility. An emergency generator does not include:

1. Peaking units at electric utilities; or
2. Generators at industrial facilities that typically operate at low rates, but are not confined to emergency purposes; or
3. Any standby generators that are used during time periods when power is available from the electric utility.

An emergency is an unforeseeable condition that is beyond the control of the owner or operator.

“*Emission limitation*” and “*emission standard*” mean a requirement established by a state, local government, or the administrator which limits the quantity, rate or concentration of emissions of air pollutants on a continuous basis, including any requirements which limit the level of opacity, prescribe equipment, set fuel specifications or prescribe operation or maintenance procedures for a source to ensure continuous emission reduction.

“*EPA conditional method*” means any method of sampling and analyzing for air pollutants that has been validated by the administrator but that has not been published as an EPA reference method.

“*EPA reference method*” means the following methods used for performance tests and continuous monitoring systems:

1. Performance test (stack test). A stack test shall be conducted according to EPA reference methods specified in 40 CFR 51, Appendix M (as amended through December 21, 2010); 40 CFR 60, Appendix A (as amended through September 9, 2010); 40 CFR 61, Appendix B (as amended through October 17, 2000); and 40 CFR 63, Appendix A (as amended through August 20, 2010).

2. Continuous monitoring systems. Minimum performance specifications and quality assurance procedures for performance evaluations of continuous monitoring systems are as specified in 40 CFR 60, Appendix B (as amended through September 9, 2010); 40 CFR 60, Appendix F (as amended through September 9, 2010); 40 CFR 75, Appendix A (as amended through March 28, 2011); 40 CFR 75, Appendix B (as amended through March 28, 2011); and 40 CFR 75, Appendix F (as amended through March 28, 2011).

*“Equipment”* means equipment capable of emitting air contaminants to produce air pollution such as fuel burning, combustion or process devices or apparatus including but not limited to fuel-burning equipment, refuse burning equipment used for the burning of fuel or other combustible material from which the products of combustion are emitted; and including but not limited to apparatus, equipment or process devices which generate heat and may emit products of combustion, and manufacturing, chemical, metallurgical or mechanical apparatus or process devices which may emit smoke, particulate matter or other air contaminants.

*“Excess air”* means that amount of air supplied in addition to the theoretical quantity necessary for complete combustion of all fuel or combustible waste material present.

*“Excess emission”* means any emission which exceeds any applicable emission standard prescribed in 567—Chapter 23 or rule 567—22.4(455B), 567—22.5(455B), 567—31.3(455B), or 567—33.3(455B) or any emission limit specified in a permit or order.

*“Existing equipment”* means equipment, machines, devices or installations that are in operation prior to September 23, 1970.

*“Foundry cupola”* means a stack-type furnace used for melting of metals consisting of, but not limited to, the furnace proper, tuyeres, fans or blowers, tapping spout, charging equipment, gas cleaning devices and other auxiliaries.

*“Fugitive dust”* means any airborne solid particulate matter emitted from any source other than a flue or stack.

*“Garbage”* means all solid and semisolid putrescible and nonputrescible animal and vegetable wastes resulting from the handling, preparing, cooking, storing and serving of food or of material intended for use as food, but excluding recognized industrial by-products.

*“Gas cleaning device”* means a facility designed to remove air contaminants from gases exhausted from equipment as defined herein.

*“Goal”* means a level of air quality which is expected to be obtained.

*“Grain processing”* means the equipment, or the combination of different types of equipment, used in the processing of grain to produce a product primarily for wholesale or retail sale for human or animal consumption, including the processing of grain for production of biofuels, except for “feed mill equipment,” as “feed mill equipment” is defined in rule 567—22.10(455B).

*“Grain storage elevator”* means any plant or installation at which grain is unloaded, handled, cleaned, dried, stored, or loaded and that is located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean oil extraction plant which has a permanent grain storage capacity (grain storage capacity which is inside a building, bin, or silo) of more than 35,200 m<sup>3</sup> (ca. 1 million U.S. bushels).

*“Greenhouse gas”* means carbon dioxide, methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride.

*“Heating value”* means the heat released by combustion of one pound of waste or fuel measured in Btu on an as received basis. For solid fuels, the heating value shall be determined by use of ASTM Standard D2015-66.

*“Incinerator”* means a combustion apparatus designed for high temperature operation in which solid, semisolid, liquid or gaseous combustible refuse is ignited and burned efficiently, and from which the solid residues contain little or no combustible material.

*“Initiation of construction, installation or alteration”* means significant permanent modification of a site to install equipment, control equipment or permanent structures. Not included are activities incident to preliminary engineering, environmental studies, or acquisition of a site for a facility.

*“Landscape waste”* means any vegetable or plant wastes except garbage. The term includes trees, tree trimmings, branches, stumps, brush, weeds, leaves, grass, shrubbery and yard trimmings.

*“Level”* means a certain specified degree, quality or characteristic.

*“Malfunction”* means any sudden and unavoidable failure of control equipment or of a process to operate in a normal manner. Any failure that is caused entirely or in part by poor maintenance, careless operation, lack of an adequate maintenance program, or any other preventable upset condition or preventable equipment breakdown shall not be considered a malfunction.

“*Maximum achievable control technology (MACT)*” means the following regarding regulated hazardous air pollutant sources:

1. For existing sources, the emissions limitation reflecting the maximum degree of reduction in emissions that the administrator or the department, taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impacts and energy requirements, determines is achievable by sources in the category of stationary sources, that shall not be less stringent than the MACT floor.

2. For new sources, the emission limitation which is not less stringent than the emission limitation achieved in practice by the best-controlled similar source and which reflects the maximum degree of reduction in emissions that the administrator or the department, taking into consideration the cost of achieving such emission reduction, and any non-air quality health and environmental impacts and energy requirements, determines is achievable by the affected source.

“*Maximum achievable control technology (MACT) floor*” means the following:

1. For existing sources, the average emission limitation achieved by the best 12 percent of the existing sources in the United States (for which the administrator or the department has or could reasonably obtain emissions information), excluding those sources that have, within 18 months before the emission standard is proposed or within 30 months before such standard is promulgated, whichever is later, first achieved a level of emission rate or emission reduction which complies, or would comply if the source is not subject to such standard, with the lowest achievable emission rate applicable to the source category and prevailing at the time, for categories and subcategories of stationary sources with 30 or more sources in the category or subcategory, or the average emission limitation achieved by the best-performing five sources in the United States (for which the administrator or the department has or could reasonably obtain emissions information), for a category or subcategory of stationary sources with fewer than 30 sources in the category or subcategory.

2. For new sources, the emission limitation achieved in practice by the best-controlled similar source.

“*New equipment*” means except for any equipment or modified equipment to which 567—subrule 23.1(2) applies, any equipment or control equipment not under construction or for which components have not been purchased on or before September 23, 1970, and any equipment which is altered or modified after such date, which may cause the emission of air contaminants or eliminate, reduce or control the emission of air contaminants.

“*Number 1 fuel oil*” and “*number 2 fuel oil*,” also known as “distillate oil,” mean fuel oil that complies with the specifications for fuel oil number 1 or fuel oil number 2, as defined by the American Society of Testing and Materials (ASTM) D 396-02, “Standard Specification for Fuel Oils.”

1. For purposes of the air quality rules contained in Title II, and unless otherwise specified, number 1 fuel oil or number 2 fuel oil may contain a blend of up to 2.0 percent biodiesel fuel, by volume, as “biodiesel fuel” is defined in this rule.

2. The department shall consider air pollutant emissions calculations for the biodiesel fuel blends specified in numbered paragraph “1” to be equivalent to the air pollutant emissions calculations for unblended number 1 fuel oil or unblended number 2 fuel oil.

3. Construction permits or operating permits issued under 567—Chapter 22 which restrict equipment fuel use to number 1 fuel oil or number 2 fuel oil shall be considered by the department to include the biodiesel fuel blends specified in numbered paragraph “1,” unless otherwise specified in 567—Chapter 22 or in a permit issued under 567—Chapter 22.

“*Objective*” means a certain specified degree, quality or characteristic expected to be attained.

“*Odor*” means that which produces a response of the human sense of smell to an odorous substance.

“*Odorous substance*” means a gaseous, liquid, or solid material that elicits a physiological response by the human sense of smell.

“*Odorous substance source*” means any equipment, installation operation, or material which emits odorous substances; such as, but not limited to, a stack, chimney, vent, window, opening, basin, lagoon, pond, open tank, storage pile, or inorganic or organic discharges.

“*One-hour period*” means any 60-minute period commencing on the hour.

“*Opacity*” means the degree to which emissions reduce the transmission of light and obscure the view of an object in the background (See 567—Chapter 29).

“*Open burning*” means any burning of combustible materials where the products of combustion are emitted into the open air without passing through a chimney or stack.

“*Particulate matter*” (except for the purposes of new source performance standards as defined in 40 CFR 60) means any material, except uncombined water, that exists in a finely divided form as a liquid or solid at standard conditions and includes gaseous emissions that condense to liquid or solid form as measured by EPA-approved reference methods.

“*Parts per million (PPM)*” means a term which expresses the volumetric concentration of one material in one million unit volumes of a carrier material.

“*Plan documents*” means the reports, proposals, preliminary plans, survey and basis of design data, general and detail construction plans, profiles, specifications and all other information pertaining to equipment.

“*PM<sub>10</sub>*” means particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers as measured by an EPA-approved reference method.

“*PM<sub>2.5</sub>*” means particulate matter as defined in this rule with an aerodynamic diameter less than or equal to a nominal 2.5 micrometers as measured by an EPA-approved reference method.

“*Potential to emit*” means the maximum capacity of a stationary source to emit any air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of a source to emit an air pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation is enforceable by the administrator. This term does not alter or affect the use of this term for any other purposes under the Act, or the term “capacity factor” as used in Title IV of the Act or the regulations relating to acid rain.

For the purpose of determining potential to emit for country grain elevators, the provisions set forth in 567—subrule 22.10(2) shall apply.

For purposes of calculating potential to emit for emergency generators, “maximum capacity” means one of the following:

1. 500 hours of operation annually, if the generator has actually been operated less than 500 hours per year for the past five years;
2. 8,760 hours of operation annually, if the generator has actually been operated more than 500 hours in one of the past five years; or
3. The number of hours specified in a state or federally enforceable limit.

If the source is subject to new source construction permit review, then potential to emit is defined as stated above or as established in a federally enforceable permit.

“*Privileged communication*” means information other than air pollutant emissions data the release of which would tend to affect adversely the competitive position of the owner or operator of the equipment.

“*Process*” means any action, operation or treatment, and all methods and forms of manufacturing or processing, that may emit smoke, particulate matter, gaseous matter or other air contaminant.

“*Process weight*” means the total weight of all materials introduced into any source operation. Solid fuels charged will be considered as part of the process weight, but liquid and gaseous fuels and combustion air will not.

“*Process weight rate*” means continuous or long-run steady-state source operations, the total process weight for the entire period of continuous operation or for a typical portion thereof, divided by the number of hours of such period or portion thereof; or for a cyclical or batch source operation, the total process weight for a period that covers a complete operation or an integral number of cycles, divided by the number of hours of actual process operation during such a period. Where the nature of any process or operation, or the design of any equipment is such as to permit more than one interpretation of this definition, the interpretation that results in the minimum value for allowable emission shall apply.

“*Refuse*” means garbage, rubbish and all other putrescible and nonputrescible wastes, except sewage and water-carried trade wastes.

“*Residential waste*” means any refuse generated on the premises as a result of residential activities. The term includes landscape waste grown on the premises or deposited thereon by the elements, but excludes garbage, tires, trade wastes, and any locally recyclable goods or plastics.

“*Rubbish*” means all waste materials of nonputrescible nature.

“*Salvage operations*” means any business, industry or trade engaged wholly or in part in salvaging or reclaiming any product or material, including, but not limited to, chemicals, drums, metals, motor vehicles or shipping containers.

“*Shutdown*” means the cessation of operation of any control equipment or process equipment or process for any purpose.

“*Six-minute period*” means any one of the ten equal parts of a one-hour period.

“*Smoke*” means gas-borne particles resulting from incomplete combustion, consisting predominantly, but not exclusively, of carbon, and other combustible material, or ash, that form a visible plume in the air.

“*Smoke monitor*” means a device using a light source and a light detector which can automatically measure and record the light-obscuring power of smoke at a specific location in the flue or stack of a source.

“*Source operation*” means the last operation preceding the emission of an air contaminant, and which results in the separation of the air contaminant from the process materials or in the conversion of the process materials into air contaminants, but is not an air pollution control operation.

“*Standard conditions*” means a temperature of 68°F and a pressure of 29.92 inches of mercury absolute.

“*Standard cubic foot (SCF)*” means the volume of one cubic foot of gas at standard conditions.

“*Standard metropolitan statistical area (SMSA)*” means an area which has at least one city with a population of at least 50,000 and such surrounding areas as geographically defined by the U.S. Bureau of the Budget (Department of Commerce).

“*Startup*” means the setting into operation of any control equipment or process equipment or process for any purpose.

“*Stationary source*” means any building, structure, facility or installation which emits or may emit any air pollutant.

“*Theoretical air*” means the exact amount of air required to supply the required oxygen for complete combustion of a given quantity of a specific fuel or waste.

“*Total suspended particulate*” means particulate matter as defined in this rule.

“*Trade waste*” means any refuse resulting from the prosecution of any trade, business, industry, commercial venture (including farming and ranching), or utility or service activity, and any governmental or institutional activity, whether or not for profit.

“*12-month rolling period*” means a period of 12 consecutive months determined on a rolling basis with a new 12-month period beginning on the first day of each calendar month.

“*Untreated*” as it refers to wood or wood products includes only wood or wood products that have not been treated with compounds such as, but not limited to, paint, pigment-stain, adhesive, varnish, lacquer, or resin or that have not been pressure treated with compounds such as, but not limited to, chromate copper acetate, pentachlorophenol or creosote. “Untreated” as it refers to seeds, pellets or other vegetative matter includes only seeds, pellets or other vegetative matter that has not been treated with pesticides or fungicides.

“*Urban area*” means any Iowa city of 100,000 or more population in the current census and all Iowa cities contiguous to such city.

“*Variance*” means a temporary waiver from rules or standards governing the quality, nature, duration or extent of emissions granted by the commission for a specified period of time.

“*Volatile organic compounds*” or “*VOC*” means any compound included in the definition of “volatile organic compounds” found at 40 CFR Section 51.100(s) as amended through March 27, 2014. [ARC 8215B, IAB 10/7/09, effective 11/11/09; ARC 0330C, IAB 9/19/12, effective 10/24/12; ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 1913C, IAB 3/18/15, effective 4/22/15]

**567—20.3(455B) Air quality forms generally.** Rescinded **ARC 1913C**, IAB 3/18/15, effective 4/22/15.

These rules are intended to implement Iowa Code section 17A.3 and chapter 455B, division II.

<sup>1</sup> Effective date of 20.2(455B), definition of “12-month rolling period,” delayed 70 days by the Administrative Rules Review Committee at its meeting held October 10, 1995; delay lifted by this Committee December 13, 1995, effective December 14, 1995.

CHAPTER 22  
CONTROLLING POLLUTION

[Prior to 7/1/83, DEQ Ch 3]

[Prior to 12/3/86, Water, Air and Waste Management[900]]

**567—22.1(455B) Permits required for new or existing stationary sources.**

**22.1(1) Permit required.** Unless exempted in subrule 22.1(2) or to meet the parameters established in paragraph “c” of this subrule, no person shall construct, install, reconstruct or alter any equipment, control equipment or anaerobic lagoon without first obtaining a construction permit, or permit pursuant to rule 567—22.8(455B), or permits required pursuant to rules 567—22.4(455B), 567—22.5(455B), 567—31.3(455B), and 567—33.3(455B) as required in this subrule. A permit shall be obtained prior to the initiation of construction, installation or alteration of any portion of the stationary source or anaerobic lagoon.

*a.* Existing sources. Sources built prior to September 23, 1970, are not subject to this subrule, unless they have been modified, reconstructed, or altered on or after September 23, 1970.

*b.* New or reconstructed major sources of hazardous air pollutants. No person shall construct or reconstruct a major source of hazardous air pollutants, as defined in 40 CFR 63.2 and 40 CFR 63.41 as amended through April 22, 2004, unless a construction permit has been obtained from the department, which requires maximum achievable control technology for new sources to be applied. The permit shall be obtained prior to the initiation of construction or reconstruction of the major source.

*c.* New, reconstructed, or modified sources may initiate construction prior to issuance of the construction permit by the department if they meet the eligibility requirements stated in subparagraph (1) below. The applicant must assume any liability for construction conducted on a source before the permit is issued. In no case will the applicant be allowed to hook up the equipment to the exhaust stack or operate the equipment in any way that may emit any pollutant prior to receiving a construction permit.

(1) Eligibility.

1. The applicant has submitted a construction permit application to the department, as specified in subrule 22.1(3);

2. The applicant has notified the department of the applicant’s intentions in writing five working days prior to initiating construction; and

3. The source is not subject to rule 567—22.4(455B), 567—subrule 23.1(2), 567—subrule 23.1(3), 567—subrule 23.1(4), 567—subrule 23.1(5), or paragraph “b” of this subrule. Prevention of significant deterioration (PSD) provisions and prohibitions remain applicable until a proposed project legally obtains PSD synthetic minor status (i.e., obtains permitted limits which limit the source below the PSD thresholds).

(2) The applicant must cease construction if the department’s evaluation demonstrates that the construction, reconstruction or modification of the source will interfere with the attainment or maintenance of the national ambient air quality standards or will result in a violation of a control strategy required by 40 CFR Part 51, Subpart G, as amended through August 12, 1996.

(3) The applicant will be required to make any modification to the source that may be imposed in the issued construction permit.

(4) The applicant must notify the department of the date that construction or reconstruction actually started. All notifications shall be submitted to the department in writing no later than 30 days after construction or reconstruction started. All notifications shall include all of the information listed in 22.3(3) “b.”

*d.* Permit requirements for country grain elevators, country grain terminal elevators, grain terminal elevators, and feed mill equipment. The owner or operator of a country grain elevator, country grain terminal elevator, grain terminal elevator or feed mill equipment, as “country grain elevator,” “country grain terminal elevator,” “grain terminal elevator,” and “feed mill equipment” are defined in subrule 22.10(1), may elect to comply with the requirements specified in rule 567—22.10(455B) for equipment at these facilities.

**22.1(2) Exemptions.** The requirement to obtain a permit in subrule 22.1(1) is not required for the equipment, control equipment, and processes listed in this subrule. The permitting exemptions in this subrule do not relieve the owner or operator of any source from any obligation to comply with any other applicable requirements. Equipment, control equipment, or processes subject to rule 567—22.4(455B) and 567—Chapter 33, prevention of significant deterioration requirements, or rule 567—22.5(455B) or 567—31.3(455B), requirements for nonattainment areas, may not use the exemptions from construction permitting listed in this subrule. Equipment, control equipment, or processes subject to 567—subrule 23.1(2), new source performance standards (40 CFR Part 60 NSPS); 567—subrule 23.1(3), emission standards for hazardous air pollutants (40 CFR Part 61 NESHAP); 567—subrule 23.1(4), emission standards for hazardous air pollutants for source categories (40 CFR Part 63 NESHAP); or 567—subrule 23.1(5), emission guidelines, may still use the exemptions from construction permitting listed in this subrule provided that a permit is not needed to create federally enforceable limits that restrict potential to emit. If equipment is permitted under the provisions of rule 567—22.8(455B), then no other exemptions shall apply to that equipment.

Records shall be kept at the facility for exemptions that have been claimed under the following paragraphs: 22.1(2)“a” (for equipment > 1 million Btu per hour input), 22.1(2)“b,” 22.1(2)“e,” 22.1(2)“r” or 22.1(2)“s.” The records shall contain the following information: the specific exemption claimed and a description of the associated equipment. These records shall be made available to the department upon request.

The following paragraphs are applicable to paragraphs 22.1(2)“g” and “i.” A facility claiming to be exempt under the provisions of paragraph 22.1(2)“g” or “i” shall provide to the department the information listed below. If the exemption is claimed for a source not yet constructed or modified, the information shall be provided to the department at least 30 days in advance of the beginning of construction on the project. If the exemption is claimed for a source that has already been constructed or modified and that does not have a construction permit for that construction or modification, the information listed below shall be provided to the department within 60 days of March 20, 1996. After that date, if the exemption is claimed by a source that has already been constructed or modified and that does not have a construction permit for that construction or modification, the source shall not operate until the information listed below is provided to the department:

- A detailed emissions estimate of the actual and potential emissions, specifically noting increases or decreases, for the project for all regulated pollutants (as defined in rule 567—22.100(455B)), accompanied by documentation of the basis for the emissions estimate;
  - A detailed description of each change being made;
  - The name and location of the facility;
  - The height of the emission point or stack and the height of the highest building within 50 feet;
  - The date for beginning actual construction and the date that operation will begin after the changes are made;
- A statement that the provisions of rules 567—22.4(455B), 567—22.5(455B), and 567—31.3(455B) and 567—Chapter 33 do not apply; and
- A statement that the accumulated emissions increases associated with each change under paragraph 22.1(2)“i,” when totaled with other net emissions increases at the facility contemporaneous with the proposed change (occurring within five years before construction on the particular change commences), have not exceeded significant levels, as defined in 40 CFR 52.21(b)(23) as amended through October 20, 2010, and adopted in rules 567—22.4(455B) and 567—33.3(455B), and will not prevent the attainment or maintenance of the ambient air quality standards specified in 567—Chapter 28. This statement shall be accompanied by documentation for the basis of these statements.

The written statement shall contain certification by a responsible official as defined in rule 567—22.100(455B) of truth, accuracy, and completeness. This certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

*a.* Fuel-burning equipment for indirect heating and reheating furnaces or cooling units using natural gas or liquefied petroleum gas with a capacity of less than ten million Btu per hour input per combustion unit.

*b.* Fuel-burning equipment for indirect heating or cooling with a capacity of less than 1 million Btu per hour input per combustion unit when burning untreated wood, untreated seeds or pellets, other untreated vegetative materials, or fuel oil, provided that the equipment and the fuel meet the conditions specified in this paragraph. Used oils meeting the specification from 40 CFR 279.11 as amended through May 3, 1993, are acceptable fuels for this exemption. When combusting used oils, the equipment must have a maximum rated capacity of 50,000 Btu or less per hour of heat input or a maximum throughput of 3,600 gallons or less of used oils per year. When combusting untreated wood, untreated seeds or pellets, or other untreated vegetative materials, the equipment must have a maximum rated capacity of 265,600 Btu or less per hour or a maximum throughput of 378,000 pounds or less per year of each fuel or any combination of fuels. Records shall be maintained on site by the owner or operator for at least two calendar years to demonstrate that fuel usage is less than the exemption thresholds. Owners or operators initiating construction, installation, reconstruction, or alteration of equipment (as defined in rule 567—20.2(455B)) on or before October 23, 2013, burning coal, used oils, untreated wood, untreated seeds or pellets, or other untreated vegetative materials that qualified for this exemption may continue to claim this exemption after October 23, 2013, without being restricted to the maximum heat input or throughput specified in this paragraph.

*c.* Mobile internal combustion and jet engines, marine vessels and locomotives.

*d.* Equipment used for cultivating land, harvesting crops, or raising livestock other than anaerobic lagoons. This exemption is not applicable if the equipment is used to remove substances from grain which were applied to the grain by another person. This exemption is also not applicable to equipment used by a person to manufacture commercial feed, as defined in Iowa Code section 198.3, which is normally not fed to livestock, owned by the person or another person, in a feedlot, as defined in Iowa Code section 172D.1, subsection 6, or a confinement building owned or operated by that person and located in this state.

*e.* Incinerators and pyrolysis cleaning furnaces with a rated refuse burning capacity of less than 25 pounds per hour for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013. Pyrolysis cleaning furnace exemption is limited to those units that use only natural gas or propane. Salt bath units are not included in this exemption. Incinerators or pyrolysis cleaning furnaces for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall not qualify for this exemption. After October 23, 2013, only paint clean-off ovens with a maximum rated capacity of less than 25 pounds per hour that do not combust lead-containing materials shall qualify for this exemption.

*f.* Fugitive dust controls unless a control efficiency can be assigned to the equipment or control equipment.

*g.* Equipment or control equipment which reduces or eliminates all emission to the atmosphere. If a source wishes to obtain credit for emission reductions, a permit must be obtained for the reduction prior to the time the reduction is made. If a construction permit has been previously issued for the equipment or control equipment, all other conditions of the construction permit remain in effect.

*h.* Equipment (other than anaerobic lagoons) or control equipment which emits odors unless such equipment or control equipment also emits particulate matter, or any other regulated air contaminant (as defined in rule 567—22.100(455B)).

*i.* Initiation of construction, installation, reconstruction, or alteration (modification) to equipment (as defined in rule 567—20.2(455B)) on or before October 23, 2013, which will not result in a net emissions increase (as defined in paragraph 22.5(1)“f”) of more than 1.0 lb/hr of any regulated air pollutant (as defined in rule 567—22.100(455B)). Emission reduction achieved through the installation of control equipment, for which a construction permit has not been obtained, does not establish a limit to potential emissions.

Hazardous air pollutants (as defined in rule 567—22.100(455B)) are not included in this exemption except for those listed in Table 1. Further, the net emissions rate INCREASE must not equal or exceed the values listed in Table 1.

Table 1

Pollutant	Ton/year
Lead	0.6
Asbestos	0.007
Beryllium	0.0004
Vinyl Chloride	1
Fluorides	3

This exemption is ONLY applicable to vertical discharges with the exhaust stack height 10 or more feet above the highest building within 50 feet. If a construction permit has been previously issued for the equipment or control equipment, the conditions of the construction permit remain in effect. In order to use this exemption, the facility must comply with the information submission to the department as described above.

The department reserves the right to require proof that the expected emissions from the source which is being exempted from the air quality construction permit requirement, in conjunction with all other emissions, will not prevent the attainment or maintenance of the ambient air quality standards specified in 567—Chapter 28. If the department finds, at any time after a change has been made pursuant to this exemption, evidence of violations of any of the department's rules, the department may require the source to submit to the department sufficient information to determine whether enforcement action should be taken. This information may include, but is not limited to, any information that would have been submitted in an application for a construction permit for any changes made by the source under this exemption, and air quality dispersion modeling.

Equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall not qualify for this exemption.

*j.* Residential heaters, cookstoves, or fireplaces, which burn untreated wood, untreated seeds or pellets, or other untreated vegetative materials.

*k.* Asbestos demolition and renovation projects subject to 40 CFR 61.145 as amended through January 16, 1991.

*l.* The equipment in laboratories used exclusively for nonproduction chemical and physical analyses. Nonproduction analyses means analyses incidental to the production of a good or service and includes analyses conducted for quality assurance or quality control activities, or for the assessment of environmental impact.

*m.* Storage tanks with a capacity of less than 19,812 gallons and an annual throughput of less than 200,000 gallons.

*n.* Stack or vents to prevent escape of sewer gases through plumbing traps. Systems which include any industrial waste are not exempt.

*o.* A nonproduction surface coating process that uses only hand-held aerosol spray cans.

*p.* Brazing, soldering or welding equipment or portable cutting torches used only for nonproduction activities.

*q.* Cooling and ventilating equipment: Comfort air conditioning not designed or used to remove air contaminants generated by, or released from, specific units of equipment.

*r.* An internal combustion engine with a brake horsepower rating of less than 400 measured at the shaft, provided that the owner or operator meets all of the conditions in this paragraph. For the purposes of this exemption, the manufacturer's nameplate rated capacity at full load shall be defined as the brake horsepower output at the shaft. The owner or operator of an engine that was manufactured, ordered, modified or reconstructed after March 18, 2009, may use this exemption only if the owner or operator, prior to installing, modifying or reconstructing the engine, submits to the department a

completed registration, on forms provided by the department, certifying that the engine is in compliance with the following federal regulations:

- (1) New source performance standards (NSPS) for stationary compression ignition internal combustion engines (40 CFR Part 60, Subpart IIII); or
- (2) New source performance standards (NSPS) for stationary spark ignition internal combustion engines (40 CFR Part 60, Subpart JJJJ); and
- (3) National emission standards for hazardous air pollutants (NESHAP) for reciprocating internal combustion engines (40 CFR Part 63, Subpart ZZZZ).

Use of this exemption does not relieve an owner or operator from any obligation to comply with NSPS or NESHAP requirements.

s. Equipment that is not related to the production of goods or services and used exclusively for academic purposes, located at educational institutions (as defined in Iowa Code section 455B.161). The equipment covered under this exemption is limited to: lab hoods, art class equipment, wood shop equipment in classrooms, wood fired pottery kilns, and fuel-burning units with a capacity of less than one million Btu per hour fuel capacity. This exemption does not apply to incinerators.

t. Any container, storage tank, or vessel that contains a fluid having a maximum true vapor pressure of less than 0.75 psia. "Maximum true vapor pressure" means the equilibrium partial pressure of the material considering:

- For material stored at ambient temperature, the maximum monthly average temperature as reported by the National Weather Service, or
- For material stored above or below the ambient temperature, the temperature equal to the highest calendar-month average of the material storage temperature.

u. Equipment for carving, cutting, routing, turning, drilling, machining, sawing, surface grinding, sanding, planing, buffing, sandblast cleaning, shot blasting, shot peening, or polishing ceramic artwork, leather, metals (other than beryllium), plastics, concrete, rubber, paper stock, and wood or wood products, where such equipment is either used for nonproduction activities or exhausted inside a building.

v. Manually operated equipment, as defined in rule 567—22.100(455B), used for buffing, polishing, carving, cutting, drilling, machining, routing, sanding, sawing, scarfing, surface grinding, or turning.

w. Small unit exemption.

(1) "Small unit" means any emission unit and associated control (if applicable) that emits less than the following:

1. 2 pounds per year of lead and lead compounds expressed as lead (40 pounds per year of lead or lead compounds for equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013);

2. 5 tons per year of sulfur dioxide;

3. 5 tons per year of nitrogen oxides;

4. 5 tons per year of volatile organic compounds;

5. 5 tons per year of carbon monoxide;

6. 5 tons per year of particulate matter (particulate matter as defined in 40 CFR Part 51.100(pp));

7. 2.5 tons per year of PM<sub>10</sub>;

8. 0.52 tons per year of PM<sub>2.5</sub> (does not apply to equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013); or

9. 5 tons per year of hazardous air pollutants (as defined in rule 567—22.100(455B)).

For the purposes of this exemption, "emission unit" means any part or activity of a stationary source that emits or has the potential to emit any pollutant subject to regulation under the Act. This exemption applies to existing and new or modified "small units."

An emission unit that emits hazardous air pollutants (as defined in rule 567—22.100(455B)) is not eligible for this exemption if the emission unit is required to be reviewed for compliance with 567—subrule 23.1(3), emission standards for hazardous air pollutants (40 CFR 61, NESHAP), or

567—subrule 23.1(4), emission standards for hazardous air pollutants for source categories (40 CFR 63, NESHAP).

An emission unit that emits air pollutants that are not regulated air pollutants as defined in rule 567—22.100(455B) shall not be eligible to use this exemption.

(2) Permit requested. If requested in writing by the owner or operator of a small unit, the director may issue a construction permit for the emission point associated with that emission unit.

(3) An owner or operator that utilizes the small unit exemption must maintain on site an “exemption justification document.” The exemption justification document must document conformance and compliance with the emission rate limits contained in the definition of “small unit” for the particular emission unit or group of similar emission units obtaining the exemption. Controls which may be part of the exemption justification document include, but are not limited to, the following: emission control devices, such as cyclones, filters, or baghouses; restricted hours of operation or fuel; and raw material or solvent substitution. The exemption justification document for an emission unit or group of similar emission units must be made available for review during normal business hours and for state or EPA on-site inspections, and shall be provided to the director or the director’s representative upon request. If an exemption justification document does not exist, the applicability of the small unit exemption is voided for that particular emission unit or group of similar emission units. The controls described in the exemption justification document establish a limit on the potential emissions. An exemption justification document shall include the following for each applicable emission unit or group of similar emission units:

1. A narrative description of how the emissions from the emission unit or group of similar emission units were determined and maintained at or below the annual small unit exemption levels.

2. If air pollution control equipment is used, a description of the air pollution control equipment used on the emission unit or group of similar emission units and a statement that the emission unit or group of similar emission units will not be operated without the pollution control equipment operating.

3. If air pollution control equipment is used, applicant shall maintain a copy of any report of manufacturer’s testing results of any emissions test, if available. The department may require a test if it believes that a test is necessary for the exemption claim.

4. A description of all production limits required for the emission unit or group of similar emission units to comply with the exemption levels.

5. Detailed calculations of emissions reflecting the use of any air pollution control devices or production or throughput limitations, or both, for applicable emission unit or group of similar emission units.

6. Records of actual operation that demonstrate that the annual emissions from the emission unit or group of similar emission units were maintained below the exemption levels.

7. Facilities designated as major sources with respect to rules 567—22.4(455B) and 567—22.101(455B), or subject to any applicable federal requirements, shall retain all records demonstrating compliance with the exemption justification document for five years. The record retention requirements supersede any retention conditions of an individual exemption.

8. A certification from the responsible official that the emission unit or group of similar emission units have complied with the exemption levels specified in 22.1(2) “w”(1).

(4) Requirement to apply for a construction permit. An owner or operator of a small unit will be required to obtain a construction permit or take the unit out of service if the emission unit exceeds the small unit emission levels.

1. If, during an inspection or other investigation of a facility, the department believes that the emission unit exceeds the emission levels that define a “small unit,” then the department will submit calculations and detailed information in a letter to the owner or operator. The owner or operator shall have 60 days to respond with detailed calculations and information to substantiate a claim that the small unit does not exceed the emission levels that define a small unit.

2. If the owner or operator is unable to substantiate a claim to the satisfaction of the department, then the owner or operator that has been using the small unit exemption must cease operation of that small unit or apply for a construction permit for that unit within 90 days after receiving a letter of notice from

the department. The emission unit and control equipment may continue operation during this period and the associated initial application review period.

3. If the notification of nonqualification as a small unit is made by the department following the process described above, the owner or operator will be deemed to have constructed an emission unit without the required permit and may be subject to applicable penalties.

(5) Required notice for construction or modification of a “substantial small unit.” The owner or operator shall notify the department in writing at least 10 days prior to commencing construction of any new or modified “substantial small unit” as defined in 22.1(2) “w”(6). The owner or operator shall notify the department within 30 days after determining an existing small unit meets the criteria of the “substantial small unit” as defined in 22.1(2) “w”(6). Notification shall include the name of the business, the location where the unit will be installed, and information describing the unit and quantifying its emissions. The owner or operator shall notify the department within 90 days of the end of the calendar year for which the aggregate emissions from substantial small units at the facility have reached any of the cumulative notice thresholds listed below.

(6) For the purposes of this paragraph, “substantial small unit” means a small unit which emits more than the following amounts, as documented in the exemption justification document:

1. 2 pounds per year of lead and lead compounds expressed as lead (30 pounds per year of lead or lead compounds for equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013);

2. 3.75 tons per year of sulfur dioxide;

3. 3.75 tons per year of nitrogen oxides;

4. 3.75 tons per year of volatile organic compounds;

5. 3.75 tons per year of carbon monoxide;

6. 3.75 tons per year of particulate matter (particulate matter as defined in 40 CFR Part 51.100(pp));

7. 1.875 tons per year of PM<sub>10</sub>;

8. 0.4 tons per year of PM<sub>2.5</sub> (does not apply to equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013); or

9. 3.75 tons per year of any hazardous air pollutant or 3.75 tons per year of any combination of hazardous air pollutants.

An emission unit is a “substantial small unit” only for those substances for which annual emissions exceed the above-indicated amounts.

(7) Required notice that a cumulative notice threshold has been reached. Once a “cumulative notice threshold,” as defined in 22.1(2) “w”(8), has been reached for any of the listed pollutants, the owner or operator at the facility must apply for air construction permits for all substantial small units for which the cumulative notice threshold for the pollutant(s) in question has been reached. The owner or operator shall have 90 days from the date it determines that the cumulative notice threshold has been reached in which to apply for construction permit(s). The owner or operator shall submit a letter to the department, within 5 working days of making this determination, establishing the date the owner or operator determined that the cumulative notice threshold had been reached.

(8) “Cumulative notice threshold” means the total combined emissions from all substantial small units using the small unit exemption which emit at the facility the following amounts, as documented in the exemption justification document:

1. 0.6 tons per year of lead and lead compounds expressed as lead;

2. 40 tons per year of sulfur dioxide;

3. 40 tons per year of nitrogen oxides;

4. 40 tons per year of volatile organic compounds;

5. 100 tons per year of carbon monoxide;

6. 25 tons per year of particulate matter (particulate matter as defined in 40 CFR Part 51.100(pp));

7. 15 tons per year of PM<sub>10</sub>;

8. 10 tons per year of PM<sub>2.5</sub> (does not apply to equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013); or

9. 10 tons per year of any hazardous air pollutant or 25 tons per year of any combination of hazardous air pollutants.

x. The following equipment, processes, and activities:

(1) Cafeterias, kitchens, and other facilities used for preparing food or beverages primarily for consumption at the source.

(2) Consumer use of office equipment and products, not including printers or businesses primarily involved in photographic reproduction.

(3) Janitorial services and consumer use of janitorial products.

(4) Internal combustion engines used for lawn care, landscaping, and groundskeeping purposes.

(5) Laundry activities located at a stationary source that uses washers and dryers to clean, with water solutions of bleach or detergents, or to dry clothing, bedding, and other fabric items used on site. This exemption does not include laundry activities that use dry cleaning equipment or steam boilers.

(6) Bathroom vent emissions, including toilet vent emissions.

(7) Blacksmith forges.

(8) Plant maintenance and upkeep activities and repair or maintenance shop activities (e.g., groundskeeping, general repairs, cleaning, painting, welding, plumbing, retarring roofs, installing insulation, and paving parking lots), provided that these activities are not conducted as part of manufacturing process, are not related to the source's primary business activity, and do not otherwise trigger a permit modification. Cleaning and painting activities qualify if they are not subject to control requirements for volatile organic compounds or hazardous air pollutants as defined in rule 567—22.100(455B).

(9) Air compressors and vacuum, pumps, including hand tools.

(10) Batteries and battery charging stations, except at battery manufacturing plants.

(11) Equipment used to store, mix, pump, handle or package soaps, detergents, surfactants, waxes, glycerin, vegetable oils, greases, animal fats, sweetener, corn syrup, and aqueous salt or caustic solutions, provided that appropriate lids and covers are utilized and that no organic solvent has been mixed with such materials.

(12) Equipment used exclusively to slaughter animals, but not including other equipment at slaughterhouses, such as rendering cookers, boilers, heating plants, incinerators, and electrical power generating equipment.

(13) Vents from continuous emissions monitors and other analyzers.

(14) Natural gas pressure regulator vents, excluding venting at oil and gas production facilities.

(15) Equipment used by surface coating operations that apply the coating by brush, roller, or dipping, except equipment that emits volatile organic compounds or hazardous air pollutants as defined in rule 567—22.100(455B).

(16) Hydraulic and hydrostatic testing equipment.

(17) Environmental chambers not using gases which are hazardous air pollutants as defined in rule 567—22.100(455B).

(18) Shock chambers, humidity chambers, and solar simulators.

(19) Fugitive dust emissions related to movement of passenger vehicles on unpaved road surfaces, provided that the emissions are not counted for applicability purposes and that any fugitive dust control plan or its equivalent is submitted as required by the department.

(20) Process water filtration systems and demineralizers, demineralized water tanks, and demineralizer vents.

(21) Boiler water treatment operations, not including cooling towers or lime silos.

(22) Oxygen scavenging (deaeration) of water.

(23) Fire suppression systems.

(24) Emergency road flares.

(25) Steam vents, safety relief valves, and steam leaks.

(26) Steam sterilizers.

(27) Application of hot melt adhesives from closed-pot systems using polyolefin compounds, polyamides, acrylics, ethylene vinyl acetate and urethane material when stored and applied at the manufacturer's recommended temperatures. Equipment used to apply hot melt adhesives shall have a safety device that automatically shuts down the equipment if the hot melt temperature exceeds the manufacturer's recommended application temperature.

y. Direct-fired equipment burning natural gas, propane, or liquefied propane with a capacity of less than 10 million Btu per hour input, and direct-fired equipment burning fuel oil with a capacity of less than 1 million Btu per hour input, with emissions that are attributable only to the products of combustion. Emissions other than those attributable to the products of combustion shall be accounted for in an enforceable permit condition or shall otherwise be exempt under this subrule.

z. Closed refrigeration systems, including storage tanks used in refrigeration systems, but excluding any combustion equipment associated with such systems.

aa. Pretreatment application processes that use aqueous-based chemistries designed to clean a substrate, provided that the chemical concentrate contains no more than 5 percent organic solvents by weight. This exemption includes pretreatment processes that use aqueous-based cleaners, cleaner-phosphatizers, and phosphate conversion coating chemistries.

bb. Indoor-vented powder coating operations with filters or powder recovery systems.

cc. Electric curing ovens or curing ovens that run on natural gas or propane with a maximum heat input of less than 10 million Btu per hour and that are used for powder coating operations, provided that the total cured powder usage is less than 75 tons of powder per year at the stationary source. Records shall be maintained on site by the owner or operator for a period of at least two calendar years to demonstrate that cured powder usage is less than the exemption threshold.

dd. Each production painting, adhesive or coating unit using an application method other than a spray system and associated cleaning operations that use 1,000 gallons or less of coating and solvents annually, unless the production painting, adhesive or coating unit and associated cleaning operations are subject to work practice, process limits, emissions limits, stack testing, record-keeping or reporting requirements under 567—subrule 23.1(2), 567—subrule 23.1(3), or 567—subrule 23.1(4). Records shall be maintained on site by the owner or operator for a period of at least two calendar years to demonstrate that paint, adhesive, or solvent usage is at or below the exemption threshold.

ee. Any production surface coating activity that uses only nonrefillable hand-held aerosol cans, where the total volatile organic compound emissions from all these activities at a stationary source do not exceed 5.0 tons per year.

ff. Production welding.

(1) Consumable electrode.

1. Welding operations for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013, using a consumable electrode, provided that the consumable electrode used falls within American Welding Society specification A5.18/A5.18M for Gas Metal Arc Welding (GMAW), A5.1 or A5.5 for Shielded Metal Arc Welding (SMAW), and A5.20 for Flux Core Arc Welding (FCAW), and provided that the quantity of all electrodes used at the stationary source of the acceptable specifications is below 200,000 pounds per year for GMAW and 28,000 pounds per year for SMAW or FCAW. Records that identify the type and annual amount of welding electrode used shall be maintained on site by the owner or operator for a period of at least two calendar years. For stationary sources where electrode usage exceeds these levels, the welding activity at the stationary source may be exempted if the amount of electrode used (Y) is less than:

Y = the greater of  $1380x - 19,200$  or 200,000 for GMAW, or

Y = the greater of  $187x - 2,600$  or 28,000 for SMAW or FCAW

Where "x" is the minimum distance to the property line in feet and "Y" is the annual electrode usage in pounds per year.

If the stationary source has welding processes that fit into both of the specified exemptions, the most stringent limits must be applied.

2. Welding operations for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, using a consumable electrode, provided that the consumable electrode used falls within American Welding Society specification A5.18/A5.18M for Gas Metal Arc Welding (GMAW), A5.1 or A5.5 for Shielded Metal Arc Welding (SMAW), and A5.20 for Flux Core Arc Welding (FCAW), and provided that the quantity of all electrodes used at the stationary source of the acceptable specifications is below 1,600 pounds per year for GMAW and 12,500 pounds per year for SMAW or FCAW. Records that identify the type and annual amount of welding electrode used shall be maintained on site by the owner or operator for a period of at least two calendar years. For stationary sources where electrode usage exceeds these levels, the welding activity at the stationary source may be exempted if the amount of electrode used (Y) is less than:

Y = the greater of  $84x - 1,200$  or 1,600 for GMAW, or

Y = the greater of  $11x - 160$  or 12,500 for SMAW or FCAW

Where “x” is the minimum distance to the property line in feet and “Y” is the annual electrode usage in pounds per year.

If the stationary source has welding processes that fit into both of the specified exemptions, the most stringent limits must be applied.

(2) Resistance welding, submerged arc welding, or arc welding that does not use a consumable electrode, provided that the base metals do not include stainless steel, alloys of lead, alloys of arsenic, or alloys of beryllium and provided that the base metals are uncoated, excluding manufacturing process lubricants.

*gg.* Electric hand soldering, wave soldering, and electric solder paste reflow ovens for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013. Electric hand soldering, wave soldering, and electric solder paste reflow ovens for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall be limited to 37,000 pounds or less per year of lead-containing solder. Records shall be maintained on site by the owner or operator for at least two calendar years to demonstrate that use of lead-containing solder is less than the exemption thresholds.

*hh.* Pressurized piping and storage systems for natural gas, propane, liquefied petroleum gas (LPG), and refrigerants, where emissions could only result from an upset condition.

*ii.* Emissions from the storage and mixing of paints and solvents associated with the painting operations, provided that the emissions from the storage and mixing are accounted for in an enforceable permit condition or are otherwise exempt.

*jj.* Product labeling using laser and ink-jet printers with target distances less than or equal to six inches and an annual material throughput of less than 1,000 gallons per year as calculated on a stationary sourcewide basis.

*kk.* Equipment related to research and development activities at a stationary source, provided that:

(1) Actual emissions from all research and development activities at the stationary source based on a 12-month rolling total are less than the following levels:

2 pounds per year of lead and lead compounds expressed as lead (40 pounds per year for research and development activities that commenced on or before October 23, 2013);

5 tons per year of sulfur dioxide;

5 tons per year of nitrogen oxides;

5 tons per year of volatile organic compounds;

5 tons per year of carbon monoxide;

5 tons per year of particulate matter (particulate matter as defined in 40 CFR Part 51.100(pp) as amended through November 29, 2004);

2.5 tons per year of  $PM_{10}$ ;

0.52 tons per year of  $PM_{2.5}$  (does not apply to research and development activities that commenced on or before October 23, 2013); and

5 tons per year of hazardous pollutants (as defined in rule 567—22.100(455B)); and

(2) The owner or operator maintains records of actual operations demonstrating that the annual emissions from all research and development activities conducted under this exemption are below the levels listed in subparagraph (1) above. These records shall:

1. Include a list of equipment that is included under the exemption;
2. Include records of actual operation and detailed calculations of actual annual emissions, reflecting the use of any control equipment and demonstrating that the emissions are below the levels specified in the exemption;
3. Include, if air pollution equipment is used in the calculation of emissions, a copy of any report of manufacturer's testing, if available. The department may require a test if it believes that a test is necessary for the exemption claim; and
4. Be maintained on site for a minimum of two years, be made available for review during normal business hours and for state and EPA on-site inspections, and be provided to the director or the director's designee upon request. Facilities designated as major sources pursuant to rules 567—22.4(455B) and 567—22.101(455B), or subject to any applicable federal requirements, shall retain all records demonstrating compliance with this exemption for five years.

(3) An owner or operator using this exemption obtains a construction permit or ceases operation of equipment if operation of the equipment would cause the emission levels listed in this exemption to be exceeded.

For the purposes of this exemption, "research and development activities" shall be defined as activities:

1. That are operated under the close supervision of technically trained personnel; and
2. That are conducted for the primary purpose of theoretical research or research and development into new or improved processes and products; and
3. That do not manufacture more than de minimis amounts of commercial products; and
4. That do not contribute to the manufacture of commercial products by collocated sources in more than a de minimis manner.

*ll.* A regional collection center (RCC), as defined in 567—Chapter 211, involved in the processing of permitted hazardous materials from households and conditionally exempt small quantity generators (CESQG), not to exceed 1,200,000 pounds of VOC containing material in a 12-month rolling period. Latex paint drying may not exceed 120,000 pounds per year on a 12-month rolling total. Other nonprocessing emission units (e.g., standby generators and waste oil heaters) shall not be eligible to use this exemption.

*mm.* Cold solvent cleaning machines that are not in-line cleaning machines, where the maximum vapor pressure of the solvents used shall not exceed 0.7 kPa (5 mmHg or 0.1 psi) at 20°C (68°F). The machine must be equipped with a tightly fitted cover or lid that shall be closed at all times except during parts entry and removal. This exemption cannot be used for cold solvent cleaning machines that use solvent containing methylene chloride (CAS # 75-09-2), perchloroethylene (CAS # 127-18-4), trichloroethylene (CAS # 79-01-6), 1,1,1-trichloroethane (CAS # 71-55-6), carbon tetrachloride (CAS # 56-23-5) or chloroform (CAS # 67-66-3), or any combination of these halogenated HAP solvents in a total concentration greater than 5 percent by weight.

*nn.* Emissions from mobile over-the-road trucks, and mobile agricultural and construction internal combustion engines that are operated only for repair or maintenance purposes at equipment repair shops or equipment dealerships, and only when the repair shops or equipment dealerships are not major sources as defined in rule 567—22.100(455B).

*oo.* A non-road diesel fueled engine, as defined in 40 CFR 1068.30 and as amended through October 8, 2008, with a brake horsepower rating of less than 1,100 at full load measured at the shaft, used to conduct periodic testing and maintenance on natural gas pipelines. For the purposes of this exemption, the manufacturer's nameplate rating shall be defined as the brake horsepower output at the shaft at full load.

(1) To qualify for the exemption, the engine must:

1. Be used for periodic testing and maintenance on natural gas pipelines outside the compressor station, which shall not exceed 330 hours in any 12-month consecutive period at a single location; or

2. Be used for periodic testing and maintenance on natural gas pipelines within the compressor station, which shall not exceed 330 hours in any 12-month consecutive period.

(2) The owner or operator shall maintain a monthly record of the number of hours the engine operated and a record of the rolling 12-month total of the number of hours the engine operated for each location outside the compressor station and within the compressor station. These records shall be maintained for two years. Records shall be made available to the department upon request.

(3) This exemption shall not apply to the replacement or substitution of engines for backup power generation at a pipeline compressor station.

**22.1(3) Construction permits.** The owner or operator of a new or modified stationary source shall apply for a construction permit. Two copies of a construction permit application for a new or modified stationary source shall be presented or mailed to Department of Natural Resources, Air Quality Bureau, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324. Alternatively, the owner or operator may apply for a construction permit for a new or modified stationary source through the electronic submittal format specified by the department. The owner or operator of any new or modified industrial anaerobic lagoon or a new or modified anaerobic lagoon for an animal feeding operation other than a small operation as defined in rule 567—65.1(455B) shall apply for a construction permit. Two copies of a construction permit application for an anaerobic lagoon shall be presented or mailed to Department of Natural Resources, Water Quality Bureau, Henry A. Wallace Building, 502 East Ninth Street, Des Moines, Iowa 50319.

*a. Regulatory applicability determinations.* If requested in writing, the director will review the design concepts of equipment and associated control equipment prior to application for a construction permit. The purpose of the review would be to determine the acceptability of the location of the equipment. If the review is requested, the requester shall supply the following information and submit a fee as required in 567—Chapter 30:

- (1) Preliminary plans and specifications of equipment and related control equipment.
- (2) The exact site location and a plot plan of the immediate area, including the distance to and height of nearby buildings and the estimated location and elevation of the emission points.
- (3) The estimated emission rates of any air contaminants which are to be considered.
- (4) The estimated exhaust gas temperature, velocity at the point of discharge, and stack diameter at the point of discharge.
- (5) An estimate of when construction would begin and when construction would be completed.

*b. Construction permit applications.* Each application for a construction permit shall be submitted to the department on the form “Air Construction Permit Application.” Final plans and specifications for the proposed equipment or related control equipment shall be submitted with the application for a permit and shall be prepared by or under the direct supervision of a professional engineer licensed in the state of Iowa in conformance with Iowa Code section 542B.1, or consistent with the provisions of Iowa Code section 542B.26 for any full-time employee of any corporation while doing work for that corporation. The application for a permit to construct shall include the following information:

- (1) A description of the equipment or control equipment covered by the application;
- (2) A scaled plot plan, including the distance and height of nearby buildings, and the location and elevation of existing and proposed emission points;
- (3) The composition of the effluent stream, both before and after any control equipment with estimates of emission rates, concentration, volume and temperature;
- (4) The physical and chemical characteristics of the air contaminants;
- (5) The proposed dates and description of any tests to be made by the owner or operator of the completed installation to verify compliance with applicable emission limits or standards of performance;
- (6) Information pertaining to sampling port locations, scaffolding, power sources for operation of appropriate sampling instruments, and pertinent allied facilities for making tests to ascertain compliance;
- (7) Any additional information deemed necessary by the department to determine compliance with or applicability of rules 567—22.4(455B), 567—22.5(455B), 567—31.3(455B) and 567—33.3(455B);
- (8) Application for a case-by-case MACT determination. If the source meets the definition of construction or reconstruction of a major source of hazardous air pollutants, as defined in

paragraph 22.1(1)“b,” then the owner or operator shall submit an application for a case-by-case MACT determination, as required in 567—subparagraph 23.1(4)“b”(1), with the construction permit application. In addition to this paragraph, an application for a case-by-case MACT determination shall include the following information:

1. The hazardous air pollutants (HAP) emitted by the constructed or reconstructed major source, and the estimated emission rate for each HAP, to the extent this information is needed by the permitting authority to determine MACT;

2. Any federally enforceable emission limitations applicable to the constructed or reconstructed major source;

3. The maximum and expected utilization of capacity of the constructed or reconstructed major source, and the associated uncontrolled emission rates for that source, to the extent this information is needed by the permitting authority to determine MACT;

4. The controlled emissions for the constructed or reconstructed major source in tons/yr at expected and maximum utilization of capacity to the extent this information is needed by the permitting authority to determine MACT;

5. A recommended emission limitation for the constructed or reconstructed major source consistent with the principles set forth in 40 CFR Part 63.43(d) as amended through December 27, 1996;

6. The selected control technology to meet the recommended MACT emission limitation, including technical information on the design, operation, size, estimated control efficiency of the control technology (and the manufacturer’s name, address, telephone number, and relevant specifications and drawings, if requested by the permitting authority);

7. Supporting documentation including identification of alternative control technologies considered by the applicant to meet the emission limitation, and analysis of cost and non-air quality health environmental impacts or energy requirements for the selected control technology;

8. An identification of any listed source category or categories in which the major source is included;

- (9) A signed statement that ensures the applicant’s legal entitlement to install and operate equipment covered by the permit application on the property identified in the permit application. A signed statement shall not be required for rock crushers, portable concrete or asphalt equipment used in conjunction with specific identified construction projects which are intended to be located at a site only for the duration of the specific, identified construction project; and

- (10) Application fee.

1. The owner or operator shall submit a fee as required in 567—Chapter 30 to obtain a permit under subrule 22.1(1), rule 567—22.4(455B), rule 567—22.5(455B), rule 567—22.8(455B), rule 567—22.10(455B), 567—Chapter 31 or 567—Chapter 33.

2. For application submittals from a minor source as defined in 567—Chapter 30, the department shall not initiate review and processing of a permit application submittal until all required application fees have been paid to the department.

*c. Application requirements for anaerobic lagoons.* The application for a permit to construct an anaerobic lagoon shall include the following information:

- (1) The source of the water being discharged to the lagoon;

- (2) A plot plan, including distances to nearby residences or occupied buildings, local land use zoning maps of the vicinity, and a general description of the topography in the vicinity of the lagoon;

- (3) In the case of an animal feeding operation, the information required in rule 567—65.15(455B);

- (4) In the case of an industrial source, a chemical description of the waste being discharged to the lagoon;

- (5) A report of sulfate analyses conducted on the water to be used for any purpose in a livestock operation proposing to use an anaerobic lagoon. The report shall be prepared by using standard methods as defined in 567—60.2(455B);

- (6) A description of available water supplies to prove that adequate water is available for dilution;

- (7) In the case of an animal feeding operation, a waste management plan describing the method of waste collection and disposal and the land to be used for disposal. Evidence that the waste disposal

equipment is of sufficient size to dispose of the wastes within a 20-day period per year shall also be provided;

(8) Any additional information needed by the department to determine compliance with these rules.

**22.1(4) Conditional permits.** Rescinded IAB 3/18/15, effective 4/22/15.

This rule is intended to implement Iowa Code section 455B.133.

[ARC 7565B, IAB 2/11/09, effective 3/18/09; ARC 8215B, IAB 10/7/09, effective 11/11/09; ARC 1013C, IAB 9/18/13, effective 10/23/13; ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 1913C, IAB 3/18/15, effective 4/22/15; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.2(455B) Processing permit applications.**

**22.2(1) Incomplete applications.** The department will notify the applicant whether the application is complete or incomplete. If the application is found by the department to be incomplete upon receipt, the applicant will be notified within 30 days of that fact and of the specific deficiencies. Sixty days following such notification, the application may be denied for lack of information. When this schedule would cause undue hardship to an applicant, or the applicant has a compelling need to proceed promptly with the proposed installation, modification or location, a request for priority consideration and the justification therefor shall be submitted to the department.

**22.2(2) Public notice and participation.** A notice of intent to issue a construction permit to a major stationary source shall be published by the department in a newspaper having general circulation in the area affected by the emissions of the proposed source. The notice and supporting documentation shall be made available for public inspection upon request from the department's central office. Publication of the notice shall be made at least 30 days prior to issuing a permit and shall include the department's evaluation of ambient air impacts. The public may submit written comments or request a public hearing. If the response indicates significant interest, a public hearing may be held after due notice.

**22.2(3) Final notice.** The department shall notify the applicant in writing of the issuance or denial of a construction permit as soon as practicable and at least within 120 days of receipt of the completed application. This shall not apply to applicants for electric generating facilities subject to Iowa Code chapter 476A.

This rule is intended to implement Iowa Code section 455B.133.

[ARC 1913C, IAB 3/18/15, effective 4/22/15]

**567—22.3(455B) Issuing permits.**

**22.3(1) Stationary sources other than anaerobic lagoons.** In no case shall a construction permit which results in an increase in emissions be issued to any facility which is in violation of any condition found in a permit involving PSD, NSPS, NESHAP or a provision of the Iowa state implementation plan. If the facility is in compliance with a schedule for correcting the violation and that schedule is contained in an order or permit condition, the department may consider issuance of a construction permit. A construction permit shall be issued when the director concludes that the preceding requirement has been met and:

a. That the required plans and specifications represent equipment which reasonably can be expected to comply with all applicable emission standards, and

b. That the expected emissions from the proposed source or modification in conjunction with all other emissions will not prevent the attainment or maintenance of the ambient air quality standards specified in 567—Chapter 28, and

c. That the applicant has not relied on emission limits based on stack height that exceeds good engineering practice or any other dispersion techniques as defined in 567—subrule 23.1(6), and

d. That the applicant has met all other applicable requirements.

**22.3(2) Anaerobic lagoons.** A construction permit for an industrial anaerobic lagoon shall be issued when the director concludes that the application for permit represents an approach to odor control that can reasonably be expected to comply with the criteria in 567—subrule 23.5(2). A construction permit for an animal feeding operation using an anaerobic lagoon shall be issued when the director concludes that the application has met the requirements of rule 567—65.15(455B).

**22.3(3) Conditions of approval.** A permit may be issued subject to conditions which shall be specified in writing. Such conditions may include but are not limited to emission limits, operating conditions, fuel specifications, compliance testing, continuous monitoring, and excess emission reporting.

*a.* Each permit shall specify the date on which it becomes void if work on the installation for which it was issued has not been initiated.

*b.* Each permit shall list the requirements for notifying the department of the dates of intended startup, start of construction and actual equipment startup. All notifications shall be in writing and include the following information:

- (1) The date or dates required by 22.3(3) "b" for which the notice is being submitted.
- (2) Facility name.
- (3) Facility address.
- (4) DNR facility number.
- (5) DNR air construction permit number.
- (6) The name or the number of the emission unit or units in the notification.
- (7) The emission point number or numbers in the notification.
- (8) The name and signature of a company official.
- (9) The date the notification was signed.

*c.* Each permit shall specify that no review has been undertaken on the various engineering aspects of the equipment other than the potential of the equipment for reducing air contaminant emissions.

*d.* Rescinded IAB 3/18/15, effective 4/22/15.

*e.* If changes in the final plans and specifications are proposed by the permittee after a construction permit has been issued, a supplemental permit shall be obtained.

*f.* A permit is not transferable from one location to another or from one piece of equipment to another unless the equipment is portable. When portable equipment for which a permit has been issued is to be transferred from one location to another, the department shall be notified in writing at least 7 days prior to the transfer of the portable equipment to the new location. Written notification shall be submitted to the department through one of the following methods: electronic mail (e-mail), mail delivery service (including U.S. Mail), hand delivery, facsimile (fax), or by electronic format specified by the department (at such time as an Internet-based submittal system or other, similar electronic submittal system becomes available). However, if the owner or operator is relocating the portable equipment to an area currently classified as nonattainment for ambient air quality standards or to an area under a maintenance plan for ambient air quality standards, the owner or operator shall notify the department at least 14 days prior to transferring the portable equipment to the new location. A list of nonattainment and maintenance areas may be obtained from the department, upon request, or on the department's Internet Web site. The owner or operator will be notified by the department at least 10 days prior to the scheduled relocation if said relocation will prevent the attainment or maintenance of ambient air quality standards and thus require a more stringent emission standard and the installation of additional control equipment. In such a case, the owner or operator shall obtain a supplemental permit prior to the initiation of construction, installation, or alteration of such additional control equipment.

*g.* The issuance of a permit (approval to construct) shall not relieve any owner or operator of the responsibility to comply fully with applicable provisions of the state implementation plan and any other requirement under local, state or federal law.

**22.3(4) Denial of a permit.**

*a.* When an application for a construction permit is denied, the applicant shall be notified in writing of the reasons therefor. A denial shall be without prejudice to the right of the applicant to file a further application after revisions are made to meet the objections specified as reasons for the denial.

*b.* The department may deny an application based upon the applicant's failure to provide a signed statement of the applicant's legal entitlement to install and operate equipment covered by the permit application on the property identified in the permit application.

**22.3(5) Modification of a permit.** The director may, after public notice of such decision, modify a condition of approval of an existing permit for a major stationary source or an emission limit contained

in an existing permit for a major stationary source if necessary to attain or maintain an ambient air quality standard, or to mitigate excessive deposition of mercury.

**22.3(6) *Limits on hazardous air pollutants.*** The department may limit a source's hazardous air pollutant potential to emit, as defined at rule 567—22.100(455B), in the source's construction permit for the purpose of establishing federally enforceable limits on the source's hazardous air pollutant potential to emit.

**22.3(7) *Revocation of a permit.*** The department may revoke a permit upon obtaining knowledge that a permit holder has lost legal entitlement to use the property identified in the permit to install and operate equipment covered by the permit, upon notice that the property owner does not wish to have continued the operation of the permitted equipment, or upon notice that the owner of the permitted equipment no longer wishes to retain the permit for future operation.

**22.3(8) *Ownership change of permitted equipment.*** The new owner shall notify the department in writing no later than 30 days after the change in ownership of equipment covered by a construction permit pursuant to rule 567—22.1(455B). The notification to the department shall be mailed to the Air Quality Bureau, Iowa Department of Natural Resources, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324, and shall include the following information:

- a. The date of ownership change;
- b. The name, address and telephone number of the responsible official, the contact person and the owner of the equipment both before and after ownership change; and
- c. The construction permit number of the equipment changing ownership.

This rule is intended to implement Iowa Code section 455B.133

[ARC 8215B, IAB 10/7/09, effective 11/11/09; ARC 0330C, IAB 9/19/12, effective 10/24/12; ARC 1913C, IAB 3/18/15, effective 4/22/15]

**567—22.4(455B) Special requirements for major stationary sources located in areas designated attainment or unclassified (PSD).** As applicable, the owner or operator of a stationary source shall comply with the rules for prevention of significant deterioration (PSD) as set forth in 567—Chapter 33. An owner or operator required to apply for a construction permit under this rule shall submit all required fees as required in 567—Chapter 30.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.5(455B) Special requirements for nonattainment areas.** As applicable, the owner or operator of a stationary source shall comply with the requirements for the nonattainment major NSR program as set forth in rule 567—31.20(455B). An owner or operator required to apply for a construction permit under this rule shall submit all required fees as required in 567—Chapter 30.

[ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.6(455B) Nonattainment area designations.** Rescinded ARC 1227C, IAB 12/11/13, effective 1/15/14.

**567—22.7(455B) Alternative emission control program.**

**22.7(1) *Applicability.*** The owner or operator of any source located in an area with attainment or unclassified status (as published at 40 CFR §81.316 amended August 5, 2013) or located in an area with an approved state implementation plan (SIP) demonstrating attainment by the statutory deadline may apply for an alternative set of emission limits if:

- a. The applicant is presently in compliance with EPA approved SIP requirements, or
- b. The applicant is subject to a consent order to meet an EPA approved compliance schedule and the final compliance date will not be delayed by the use of alternative emission limits.

**22.7(2) *Demonstration requirements.*** The applicant for the alternative emission control program shall have the burden of demonstrating that:

- a. The alternative emission control program will not interfere with the attainment and maintenance of ambient air quality standards, including the reasonable further progress or prevention of significant deterioration requirements of the Clean Air Act;

*b.* The alternative emission limits are equivalent to existing emission limits in pollution reduction, enforceability, and environmental impact; (In the case of a particulate nonattainment area, the difference between the allowable emission rate and the actual emission rate, as of January 1, 1978, cannot be credited in the emissions tradeoff.)

*c.* The pollutants being exchanged are comparable and within the same pollutant category;

*d.* Hazardous air pollutants designated in 40 CFR Part 61, as amended through July 20, 2004, will not be exchanged for nonhazardous air pollutants;

*e.* The alternative program will not result in any delay in compliance by any source.

Specific situations may require additional demonstration as specified at 44 FR 71780-71788, December 11, 1979, or as requested by the director.

**22.7(3) Approval process.**

*a.* The director shall review all alternative emission control program proposals and shall make recommendations on all completed demonstrations to the commission.

*b.* After receiving recommendations from the director and public comments made available through the hearing process, the commission may approve or disapprove the alternative emission control program proposal.

*c.* If approved by the commission, the program will be forwarded to the EPA regional administrator as a revision to the State Implementation Plan. The alternative emission control program must receive the approval of the EPA regional administrator prior to becoming effective.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

**567—22.8(455B) Permit by rule.**

**22.8(1) Permit by rule for spray booths.** Spray booths which comply with the requirements contained in this rule will be deemed to be in compliance with the requirements to obtain an air construction permit and an air operating permit. Spray booths which comply with this rule will be considered to have federally enforceable limits so that their potential emissions are less than the major source limits for regulated air pollutants and hazardous air pollutants as defined in rule 567—22.100(455B). An owner or operator required to apply for a permit by rule under this subrule shall submit fees as required in 567—Chapter 30.

*a.* Definition. “Sprayed material” is material sprayed from spray equipment when used in the surface coating process in the spray booth, including but not limited to paint, solvents, and mixtures of paint and solvents.

*b.* Facilities which facilitywide spray one gallon per day or less of sprayed material are exempt from all other requirements in 567—Chapter 22, except that they must submit the certification in 22.8(1) “e” to the department and keep records of daily sprayed material use. Any spray booth or associated equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall use sprayed material with a maximum lead content of 0.35 pounds or less per gallon if the booth or associated equipment is subject to the following NESHAP: 40 CFR Part 63, Subpart HHHHHH or Subpart XXXXXX. Any spray booth or associated equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, that is not subject to the NESHAP or is otherwise exempt from the NESHAP shall use sprayed material with a maximum lead content of 0.02 pounds or less per gallon. The owner or operator must keep the records of daily sprayed material use for 18 months from the date to which the records apply and shall keep safety data sheets (SDS) or equivalent records for at least two calendar years to demonstrate that the sprayed materials contain lead at less than the exemption thresholds. The owner or operator must also certify that the facility is in compliance with or otherwise exempt from the federal regulations specified in 22.8(1) “e.”

*c.* Facilities which facilitywide spray more than one gallon per day but never more than three gallons per day are exempt from all other requirements in 567—Chapter 22, except that they must submit the certification in 22.8(1) “e” to the department, keep records of daily sprayed material use, and vent emissions from a spray booth(s) through a stack(s) which is at least 22 feet tall, measured from ground level. Any spray booth or associated equipment for which initiation of construction,

installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall use sprayed material with a maximum lead content of 0.35 pounds or less per gallon if the booth or associated equipment is subject to the following NESHAP: 40 CFR Part 63, Subpart HHHHHH or Subpart XXXXXX. Any spray booth or associated equipment for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, that is not subject to the NESHAP or is otherwise exempt from the NESHAP shall use sprayed material with a maximum lead content of 0.02 pounds or less per gallon. The owner or operator must keep the records of daily sprayed material use for 18 months from the date to which the records apply and shall keep safety data sheets (SDS) or equivalent records for at least two calendar years to demonstrate that the sprayed materials contain lead at less than the exemption thresholds. The owner or operator must also certify that the facility is in compliance with or otherwise exempt from the federal regulations specified in 22.8(1) “e.”

*d.* Facilities which facilitywide spray more than three gallons per day are not eligible to use the permit by rule for spray booths and must apply for a construction permit as required by subrules 22.1(1) and 22.1(3) unless otherwise exempt.

*e.* Notification letter.

(1) Facilities which claim to be permitted by provisions of this rule must submit to the department a written notification letter, on forms provided by the department, certifying that the facility meets the following conditions:

1. All paint booths and associated equipment are in compliance with the provisions of subrule 22.8(1);

2. All paint booths and associated equipment are in compliance with all applicable requirements including, but not limited to, the allowable particulate emission rate for painting and surface coating operations of 0.01 gr/scf of exhaust gas as specified in 567—subrule 23.4(13); and

3. All paint booths and associated equipment currently are or will be in compliance with or otherwise exempt from the national emissions standards for hazardous air pollutants (NESHAP) for paint stripping and miscellaneous surface coating at area sources (40 CFR Part 63, Subpart HHHHHH) and the NESHAP for metal fabricating and finishing at area sources (40 CFR Part 63, Subpart XXXXXX) by the applicable NESHAP compliance dates.

(2) The certification must be signed by one of the following individuals:

1. For corporations, a principal executive officer of at least the level of vice president, or a responsible official as defined at rule 567—22.100(455B).

2. For partnerships, a general partner.

3. For sole proprietorships, the proprietor.

4. For municipal, state, county, or other public facilities, the principal executive officer or the ranking elected official.

**22.8(2) Reserved.**

[**ARC 7565B**, IAB 2/11/09, effective 3/18/09; **ARC 8215B**, IAB 10/7/09, effective 11/11/09; **ARC 1013C**, IAB 9/18/13, effective 10/23/13; **ARC 2352C**, IAB 1/6/16, effective 12/16/15]

**567—22.9(455B) Special requirements for visibility protection.**

**22.9(1) Definitions.** Definitions included in this subrule apply to the provisions set forth in rule 567—22.9(455B).

“*Best available retrofit technology (BART)*” means an emission limitation based on the degree of reduction achievable through the application of the best system of continuous emission reduction for each pollutant which is emitted by an existing stationary facility. The emission limitation must be established, on a case-by-case basis, taking into consideration the technology available, the costs of compliance, the energy and non-air quality environmental impacts of compliance, any pollution control equipment in use or in existence at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology.

“*Deciview*” means a haze index derived from calculated light extinction, such that uniform changes in haziness correspond to uniform incremental changes in perception across the entire range

of conditions, from pristine to highly impaired. The deciview haze index is calculated based on an equation found in 40 CFR 51.301, as amended on July 1, 1999.

“Mandatory Class I area” means any Class I area listed in 40 CFR Part 81, Subpart D, as amended through October 5, 1989.

**22.9(2) Best available retrofit technology (BART) applicability.** A source shall comply with the provisions of subrule 22.9(3) if the source falls within numbers 1 through 20 or 22 through 26 of the “stationary source categories” of air pollutants listed in rule 22.100(455B) or is a fossil-fuel fired boiler individually totaling more than 250 million Btu’s per hour heat input and meets the following criteria:

- a. Any emission unit for which startup began after August 7, 1962; and
- b. Construction of the emission unit commenced on or before August 7, 1977; and
- c. The sum of the potential to emit, as “potential to emit” is defined in 567—20.2(455B), from emission units identified above is equal to or greater than 250 tons per year or more of one of the following pollutants: nitrogen oxides, sulfur dioxide, particulate matter (PM<sub>10</sub>), or volatile organic compounds.

**22.9(3) Duty to self-identify.** The owner or operator or designated representative of a facility meeting the conditions of subrule 22.9(2) shall submit two copies of a completed BART Eligibility Certification Form #542-8125, which shall include all information necessary for the department to complete eligibility determinations. The information submitted shall include source identification, description of processes, potential emissions, emission unit and emission point characteristics, date construction commenced and date of startup, and other information required by the department. The completed form was required to be submitted to the Air Quality Bureau, Department of Natural Resources, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324, by September 1, 2005.

**22.9(4) Notification.** The department shall notify in writing the owner or operator or designated representative of a source of the department’s determination that either:

- a. A source meets the conditions listed in 22.9(2) (a source that meets these conditions is BART-eligible); or
- b. For the purposes of the regional haze program, a source may cause or contribute to visibility impairment in any mandatory Class I area, as identified during either:
  - (1) Regional haze plan development required by 40 CFR 51.308(d) as amended on July 6, 2005; or
  - (2) A five-year periodic review on the progress toward the reasonable progress goals required by 40 CFR 51.308(g) as amended on July 6, 2005; or
  - (3) A ten-year comprehensive periodic revision of the implementation plan required by 40 CFR 51.308(f) as amended on July 6, 2005.

**22.9(5) Analysis.** The department may request in writing an analysis from the owner or operator or designated representative of a source that the department has determined may be causing or contributing to visibility impairment in a mandatory Class I area.

a. *BART control analysis.* For the purposes of BART, a source that is responsible for an impact of 1.0 deciview or more at a mandatory Class I area is considered to cause visibility impairment. A source that is responsible for an impact of 0.5 deciview or more at a mandatory Class I area is considered to contribute to visibility impairment. If a source meets either of these criteria, the owner or operator or designated representative shall prepare the BART analysis in accordance with Section IV of Appendix Y of 40 CFR Part 51 as amended through July 5, 2005, and shall submit the BART analysis 180 days after receipt of written notification by the department that a BART analysis is required.

b. *Regional haze analysis.* The owner or operator or designated representative of a source subject to 22.9(4) “b” shall prepare and submit an analysis after receipt of written notification by the department that an analysis is required.

**22.9(6) Control technology implementation.** Following the department’s review of the analysis submitted pursuant to 22.9(5), an owner or operator of a source identified in 22.9(4) shall:

- a. Submit all necessary permit applications to achieve the emissions requirements established following the completion of analysis performed in accordance with 22.9(5).
- b. Install, operate, and maintain the control technology as required by permits issued by the department.

**22.9(7) BART exemption.** The owner or operator of a source subject to the BART emission control requirements may apply for an exemption from subrule 22.9(5) in accordance with 40 CFR 51.303 as amended on July 1, 1999.

[ARC 8215B, IAB 10/7/09, effective 11/11/09]

**567—22.10(455B) Permitting requirements for country grain elevators, country grain terminal elevators, grain terminal elevators and feed mill equipment.** The requirements of this rule apply only to country grain elevators, country grain terminal elevators, grain terminal elevators and feed mill equipment, as these terms are defined in subrule 22.10(1). The requirements of this rule do not apply to equipment located at grain processing plants or grain storage elevators, as “grain processing” and “grain storage elevator” are defined in rule 567—20.2(455B). Compliance with the requirements of this rule does not alleviate any affected person’s duty to comply with any applicable state or federal regulations. In particular, the emission standards set forth in 567—Chapter 23, including the regulations for grain elevators contained in 40 CFR Part 60, Subpart DD (as adopted by reference in 567—paragraph 23.1(2) “ooo”), may apply. An owner or operator subject to this rule shall submit fees as required in 567—Chapter 30.

**22.10(1) Definitions.** For purposes of rule 567—22.10(455B), the following terms shall have the meanings indicated in this subrule.

“*Country grain elevator*” means any plant or installation at which grain is unloaded, handled, cleaned, dried, stored, or loaded and which meets the following criteria:

1. Receives more than 50 percent of its grain, as “grain” is defined in this subrule, from farmers in the immediate vicinity during harvest season;
2. Is not located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean oil extraction plant.

“*Country grain terminal elevator*” means any plant or installation at which grain is unloaded, handled, cleaned, dried, stored, or loaded and which meets the following criteria:

1. Receives 50 percent or less of its grain, as “grain” is defined in this subrule, from farmers in the immediate vicinity during harvest season;
2. Has a permanent storage capacity of less than or equal to 2.5 million U.S. bushels, as “permanent storage capacity” is defined in this subrule;
3. Is not located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean oil extraction plant.

“*Feed mill equipment*,” for purposes of rule 567—22.10(455B), means grain processing equipment that is used to make animal feed including, but not limited to, grinders, crackers, hammermills, and pellet coolers, and that is located at a country grain elevator, country grain terminal elevator or grain terminal elevator.

“*Grain*,” as set forth in Iowa Code section 203.1(9), means any grain for which the United States Department of Agriculture has established standards including, but not limited to, corn, wheat, oats, soybeans, rye, barley, grain sorghum, flaxseeds, sunflower seed, spelt (emmer), and field peas.

“*Grain processing*” shall have the same definition as “grain processing” set forth in rule 567—20.2(455B).

“*Grain storage elevator*” shall have the same definition as “grain storage elevator” set forth in rule 567—20.2(455B).

“*Grain terminal elevator*,” for purposes of rule 567—22.10(455B), means any plant or installation at which grain is unloaded, handled, cleaned, dried, stored, or loaded and which meets the following criteria:

1. Receives 50 percent or less of its grain, as “grain” is defined in this subrule, from farmers in the immediate vicinity during harvest season;
2. Has a permanent storage capacity of more than 88,100 m<sup>3</sup> (2.5 million U.S. bushels), as “permanent storage capacity” is defined in this subrule;
3. Is not located at an animal food manufacturer, pet food manufacturer, cereal manufacturer, brewery, or livestock feedlot;

4. Is not located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean oil extraction plant.

*“Permanent storage capacity”* means grain storage capacity which is inside a building, bin, or silo.

**22.10(2) Methods for determining potential to emit (PTE).** The owner or operator of a country grain elevator, country grain terminal elevator, grain terminal elevator or feed mill equipment shall use the following methods for calculating the potential to emit (PTE) for particulate matter (PM) and for particulate matter with an aerodynamic diameter less than or equal to 10 microns (PM<sub>10</sub>).

*a. Country grain elevators.* The owner or operator of a country grain elevator shall calculate the PTE for PM and PM<sub>10</sub> as specified in the definition of “potential to emit” in rule 567—20.2(455B), except that “maximum capacity” means the greatest amount of grain received at the country grain elevator during one calendar, 12-month period of the previous five calendar, 12-month periods, multiplied by an adjustment factor of 1.2. The owner or operator may make additional adjustments to the calculations for air pollution control of PM and PM<sub>10</sub> if the owner or operator submits the calculations to the department using the PTE calculation tool provided by the department, and only if the owner or operator fully implements the applicable air pollution control measures no later than March 31, 2009, or upon startup of the equipment, whichever event first occurs. Credit for the application of some best management practices, as specified in subrule 22.10(3) or in a permit issued by the department, may also be used to make additional adjustments in the PTE for PM and PM<sub>10</sub> if the owner or operator submits the calculations to the department using the PTE calculation tool provided by the department, and only if the owner or operator fully implements the applicable best management practices no later than March 31, 2009, or upon startup of the equipment, whichever event first occurs.

*b. Country grain terminal elevators.* The owner or operator of a country grain terminal elevator shall calculate the PTE for PM and PM<sub>10</sub> as specified in the definition of “potential to emit” in rule 567—20.2(455B).

*c. Grain terminal elevators.* For purposes of the permitting and other requirements specified in subrule 22.10(3), the owner or operator of a grain terminal elevator shall calculate the PTE for PM and PM<sub>10</sub> as specified in the definition of “potential to emit” in rule 567—20.2(455B). For purposes of determining whether the stationary source is subject to the prevention of significant deterioration (PSD) requirements set forth in 567—Chapter 33, or for determining whether the source is subject to the operating permit requirements set forth in rules 567—22.100(455B) through 567—22.300(455B), the owner or operator of a grain terminal elevator shall include fugitive emissions, as “fugitive emissions” is defined in 567—subrule 33.3(1) and in rule 567—22.100(455B), in the PTE calculation.

*d. Feed mill equipment.* The owner or operator of feed mill equipment, as “feed mill equipment” is defined in subrule 22.10(1), shall calculate the PTE for PM and PM<sub>10</sub> for the feed mill equipment as specified in the definition of “potential to emit” in rule 567—20.2(455B). For purposes of determining whether the stationary source is subject to the prevention of significant deterioration (PSD) requirements set forth in 567—Chapter 33, or for determining whether the stationary source is subject to the operating permit requirements set forth in rules 567—22.100(455B) through 567—22.300(455B), the owner or operator of feed mill equipment shall sum the PTE of the feed mill equipment with the PTE of the country grain elevator, country grain terminal elevator or grain terminal elevator.

**22.10(3) Classification and requirements for permits, emissions controls, record keeping and reporting for Group 1, Group 2, Group 3 and Group 4 grain elevators.** The requirements for construction permits, operating permits, emissions controls, record keeping and reporting for a stationary source that is a country grain elevator, country grain terminal elevator or grain terminal elevator are set forth in this subrule.

*a. Group 1 facilities.* A country grain elevator, country grain terminal elevator or grain terminal elevator may qualify as a Group 1 facility if the PTE at the stationary source is less than 15 tons of PM<sub>10</sub> per year, as PTE is specified in subrule 22.10(2). For purposes of this paragraph, an “existing” Group 1 facility is one that commenced construction or reconstruction before February 6, 2008. A “new” Group 1 facility is one that commenced construction or reconstruction on or after February 6, 2008.

(1) Group 1 registration. The owner or operator of a Group 1 facility shall submit to the department a Group 1 registration, including PTE calculations, on forms provided by the department, certifying that

the facility's PTE is less than 15 tons of PM<sub>10</sub> per year. The owner or operator of an existing facility shall provide the Group 1 registration to the department on or before March 31, 2008. The owner or operator of a new facility shall provide the Group 1 registration to the department prior to initiating construction or reconstruction of a facility. The registration becomes effective upon the department's receipt of the signed registration form and the PTE calculations.

1. If the owner or operator registers with the department as specified in subparagraph 22.10(3) "a"(1), the owner or operator is exempt from the requirement to obtain a construction permit as specified under subrule 22.1(1).

2. Upon department receipt of a Group 1 registration and PTE calculations, the owner or operator is allowed to add, remove and modify the emissions units or change throughput or operations at the facility without modifying the Group 1 registration, provided that the owner or operator calculates the PTE for PM<sub>10</sub> on forms provided by the department prior to making any additions to, removals of or modifications to equipment, and only if the facility continues to meet the emissions limits and operating limits (including restrictions on material throughput and hours of operation, if applicable, as specified in the PTE for PM<sub>10</sub> calculations) specified in the Group 1 registration.

3. If equipment at a Group 1 facility currently has an air construction permit issued by the department, that permit shall remain in full force and effect, and the permit shall not be invalidated by the subsequent submittal of a registration made pursuant to subparagraph 22.10(3) "a"(1).

(2) Best management practices (BMP). The owner or operator of a Group 1 facility shall implement best management practices (BMP) for controlling air pollution at the facility and for limiting fugitive dust at the facility from crossing the property line. The owner or operator shall implement BMP according to the department manual, Best Management Practices (BMP) for Grain Elevators (December 2007; revised July 15, 2014), as adopted by the commission on January 15, 2008, and July 15, 2014, and adopted by reference herein (available from the department, upon request, and on the department's Internet Web site). No later than March 31, 2009, the owner or operator of an existing Group 1 facility shall fully implement applicable BMP, except that BMPs for grain vacuuming operations shall be fully implemented no later than September 10, 2014. Upon startup of equipment at the facility, the owner or operator of a new Group 1 facility shall fully implement applicable BMP.

(3) Record keeping. The owner or operator of a Group 1 facility shall retain a record of the previous five calendar years of total annual grain handled and shall calculate the facility's potential PM<sub>10</sub> emissions annually by January 31 for the previous calendar year. These records shall be kept on site for a period of five years and shall be made available to the department upon request.

(4) Emissions increases. The owner or operator of a Group 1 facility shall calculate any emissions increases prior to making any additions to, removals of or modifications to equipment. If the owner or operator determines that PM<sub>10</sub> emissions at a Group 1 facility will increase to 15 tons per year or more, the owner or operator shall comply with the requirements set forth for Group 2, Group 3 or Group 4 facilities, as applicable, prior to making any additions to, removals of or modifications to equipment.

(5) Changes to facility classification or permanent grain storage capacity. If the owner or operator of a Group 1 facility plans to change the facility's operations or increase the facility's permanent grain storage capacity to more than 2.5 million U.S. bushels, the owner or operator, prior to making any changes, shall reevaluate the facility's classification and the allowed method for calculating PTE to determine if any increases to the PTE for PM<sub>10</sub> will occur. If the proposed change will alter the facility's classification or will increase the facility's PTE for PM<sub>10</sub> such that the facility PTE increases to 15 tons per year or more, the owner or operator shall comply with the requirements set forth for Group 2, Group 3 or Group 4 facilities, as applicable, prior to making the change.

*b. Group 2 facilities.* A country grain elevator, country grain terminal elevator or grain terminal elevator may qualify as a Group 2 facility if the PTE at the stationary source is greater than or equal to 15 tons of PM<sub>10</sub> per year and is less than or equal to 50 tons of PM<sub>10</sub> per year, as PTE is specified in subrule 22.10(2). For purposes of this paragraph, an "existing" Group 2 facility is one that commenced construction, modification or reconstruction before February 6, 2008. A "new" Group 2 facility is one that commenced construction or reconstruction on or after February 6, 2008.

(1) Group 2 permit for grain elevators. The owner or operator of a Group 2 facility may, in lieu of obtaining air construction permits for each piece of emissions equipment at the facility, submit to the department a completed Group 2 permit application for grain elevators, including PTE calculations, on forms provided by the department. Alternatively, the owner or operator may obtain an air construction permit as specified under subrule 22.1(1). The owner or operator of an existing facility shall provide the appropriate completed Group 2 permit application for grain elevators or the appropriate construction permit applications to the department on or before March 31, 2008. The owner or operator of a new facility shall provide the appropriate, completed Group 2 permit application for grain elevators or the appropriate construction permit applications to the department prior to initiating construction or reconstruction of a facility.

1. Upon department issuance of a Group 2 permit to a facility, the owner or operator is allowed to add, remove and modify the emissions units at the facility, or change throughput or operations, without modifying the Group 2 permit, provided that the owner or operator calculates the PTE for PM<sub>10</sub> prior to making any additions to, removals of or modifications to equipment, and only if the facility continues to meet the emissions limits and operating limits (including restrictions on material throughput and hours of operation, if applicable, as specified in the PTE for PM<sub>10</sub> calculations) specified in the Group 2 permit.

2. If a Group 2 facility currently has an air construction permit issued by the department, that permit shall remain in full force and effect, and the permit shall not be invalidated by the subsequent submittal of a Group 2 permit application for grain elevators made pursuant to this rule. However, the owner or operator of a Group 2 facility may request that the department incorporate any equipment with a previously issued construction permit into the Group 2 permit for grain elevators. The department will grant such requests on a case-by-case basis. If the department grants the request to incorporate previously permitted equipment into the Group 2 permit for grain elevators, the owner or operator of the Group 2 facility is responsible for requesting that the department rescind any previously issued construction permits.

(2) Best management practices (BMP). The owner or operator shall implement BMP, as specified in the Group 2 permit, for controlling air pollution at the source and for limiting fugitive dust at the source from crossing the property line. If the department revises the BMP requirements for Group 2 facilities after a facility is issued a Group 2 permit, the owner or operator of the Group 2 facility may request that the department modify the facility's Group 2 permit to incorporate the revised BMP requirements. The department will issue permit modifications to incorporate BMP revisions on a case-by-case basis. No later than March 31, 2009, the owner or operator of an existing Group 2 facility shall fully implement BMP, as specified in the Group 2 permit. Upon startup of equipment at the facility, the owner or operator of a new Group 2 facility shall fully implement BMP, as specified in the Group 2 permit.

(3) Record keeping. The owner or operator of a Group 2 facility shall retain all records as specified in the Group 2 permit.

(4) Emissions inventory. The owner or operator of a Group 2 facility shall submit an emissions inventory for the facility for all regulated air pollutants as specified under 567—subrule 21.1(3).

(5) Emissions increases. The owner or operator of a Group 2 facility shall calculate any emissions increases prior to making any additions to, removals of or modifications to equipment. If the owner or operator determines that potential PM<sub>10</sub> emissions at a Group 2 facility will increase to more than 50 tons per year, the owner or operator shall comply with the requirements set forth for Group 3 or Group 4 facilities, as applicable, prior to making any additions to, removals of or modifications to equipment.

(6) Changes to facility classification or permanent grain storage capacity. If the owner or operator of a Group 2 facility plans to change the facility's operations or increase the facility's permanent grain storage capacity to more than 2.5 million U.S. bushels, the owner or operator, prior to making any changes, shall reevaluate the facility's classification and the allowed method for calculating PTE to determine if any increases to the PTE for PM<sub>10</sub> will occur. If the proposed change will increase the facility's PTE for PM<sub>10</sub> such that the facility PTE increases to more than 50 tons per year, the owner or operator shall comply with the requirements set forth for Group 3 or Group 4 facilities, as applicable, prior to making the change.

*c. Group 3 facilities.* A country grain elevator, country grain terminal elevator or grain terminal elevator may qualify as a Group 3 facility if the PTE for PM<sub>10</sub> at the stationary source is greater than 50 tons per year, but is less than 100 tons of PM<sub>10</sub> per year, as PTE is specified in subrule 22.10(2). For purposes of this paragraph, an “existing” Group 3 facility is one that commenced construction, modification or reconstruction before February 6, 2008. A “new” Group 3 facility is one that commenced construction or reconstruction on or after February 6, 2008.

(1) Air construction permit. The owner or operator of a Group 3 facility shall obtain the required construction permits as specified under subrule 22.1(1). The owner or operator of an existing facility shall provide the construction permit applications, as specified in subrule 22.1(3), to the department on or before March 31, 2008. The owner or operator of a new facility shall obtain the required permits, as specified in subrule 22.1(1), from the department prior to initiating construction or reconstruction of a facility.

(2) Permit conditions. Construction permit conditions for a Group 3 facility shall include, but are not limited to, the following:

1. The owner or operator shall implement BMP, as specified in the permit, for controlling air pollution at the source and for limiting fugitive dust at the source from crossing the property line. If the department revises the BMP requirements for Group 3 facilities after a facility is issued a permit, the owner or operator of the Group 3 facility may request that the department modify the facility’s permit to incorporate the revised BMP requirements. The department will issue permit modifications to incorporate BMP revisions on a case-by-case basis.

2. The owner or operator shall retain all records as specified in the permit.

(3) Emissions inventory. The owner or operator shall submit an emissions inventory for the facility for all regulated air pollutants as specified under 567—subrule 21.1(3).

(4) Changes to facility classification or permanent grain storage capacity. If the owner or operator of a Group 3 facility plans to change its operations or increase the facility’s permanent grain storage capacity to more than 2.5 million U.S. bushels, the owner or operator, prior to making any changes, shall reevaluate the facility’s classification and the allowed method for calculating PTE to determine if any increases to the PTE for PM<sub>10</sub> will occur. If the proposed change will alter the facility’s classification or will increase the facility’s PTE for PM<sub>10</sub> such that the facility PTE increases to greater than or equal to 100 tons per year, the owner or operator shall comply with the requirements set forth for Group 4 facilities, as applicable, prior to making the change.

(5) PSD applicability. If the PTE for PM or PM<sub>10</sub> at the Group 3 facility is greater than or equal to 250 tons per year, the owner or operator shall comply with requirements specified in 567—Chapter 33, as applicable. The owner or operator of a Group 3 facility that is a grain terminal elevator shall include fugitive emissions, as “fugitive emissions” is defined in 567—subrule 33.3(1), in the PTE calculation for determining PSD applicability.

(6) Record keeping. The owner or operator shall keep the records of annual grain handled at the facility and annual PTE for PM and PM<sub>10</sub> emissions on site for a period of five years, and the records shall be made available to the department upon request.

*d. Group 4 facilities.* A facility qualifies as a Group 4 facility if the facility is a stationary source with a PTE equal to or greater than 100 tons of PM<sub>10</sub> per year, as PTE is specified in subrule 22.10(2). For purposes of this paragraph, an “existing” Group 4 facility is one that commenced construction, modification or reconstruction before February 6, 2008. A “new” Group 4 facility is one that commenced construction or reconstruction on or after February 6, 2008.

(1) Air construction permit. The owner or operator of a Group 4 facility shall obtain the required construction permits as specified under subrule 22.1(1). The owner or operator of an existing facility shall provide the construction permit applications, as specified by subrule 22.1(3), to the department on or before March 31, 2008. The owner or operator of a new facility shall obtain the required permits, as specified by subrule 22.1(1), from the department prior to initiating construction or reconstruction of a facility.

(2) Permit conditions. Construction permit conditions for a Group 4 facility shall include, but are not limited to, the following:

1. The owner or operator shall implement BMP, as specified in the permit, for controlling air pollution at the facility and for limiting fugitive dust at the facility from crossing the property line. If the department revises the BMP requirements for Group 4 facilities after a facility is issued a permit, the owner or operator of the Group 4 facility may request that the department modify the facility's permit to incorporate the revised BMP requirements. The department will issue permit modifications to incorporate BMP revisions on a case-by-case basis.

2. The owner or operator shall retain all records as specified in the permit.

(3) PSD applicability. If the PTE for PM or PM<sub>10</sub> at the facility is equal to or greater than 250 tons per year, the owner or operator shall comply with requirements specified in 567—Chapter 33, as applicable. The owner or operator of a Group 4 facility that is a grain terminal elevator shall include fugitive emissions, as “fugitive emissions” is defined in 567—subrule 33.3(1), in the PTE calculation for determining PSD applicability.

(4) Record keeping. The owner or operator shall keep the records of annual grain handled at the facility and annual PTE for PM and PM<sub>10</sub> emissions on site for a period of five years, and the records shall be made available to the department upon request.

(5) Operating permits. The owner or operator of a Group 4 facility shall apply for an operating permit for the facility if the facility's annual PTE for PM<sub>10</sub> is equal to or greater than 100 tons per year as specified in rules 567—22.100(455B) through 567—22.300(455B). The owner or operator of a Group 4 facility that is a grain terminal elevator shall include fugitive emissions in the calculations to determine if the PTE for PM<sub>10</sub> is greater than or equal to 100 tons per year. The owner or operator also shall submit annual emissions inventories and fees, as specified in rule 567—22.106(455B).

**22.10(4) Feed mill equipment.** This subrule sets forth the requirements for construction permits, operating permits, and emissions inventories for an owner or operator of feed mill equipment as “feed mill equipment” is defined in subrule 22.10(1). For purposes of this subrule, the owner or operator of “existing” feed mill equipment shall have commenced construction or reconstruction of the feed mill equipment before February 6, 2008. The owner or operator of “new” feed mill equipment shall have commenced construction or reconstruction of the feed mill equipment on or after February 6, 2008.

*a. Air construction permit.* The owner or operator of feed mill equipment shall obtain an air construction permit as specified under subrule 22.1(1) for each piece of feed mill equipment that emits a regulated air pollutant. The owner or operator of “existing” feed mill equipment shall provide the appropriate permit applications to the department on or before March 31, 2008. The owner or operator of “new” feed mill equipment shall provide the appropriate permit applications to the department prior to initiating construction or reconstruction of feed mill equipment.

*b. Emissions inventory.* The owner or operator shall submit an emissions inventory for the feed mill equipment for all regulated air pollutants as specified under 567—subrule 21.1(3).

*c. Operating permits.* The owner or operator shall sum the PTE of the feed mill equipment with the PTE of the equipment at the country grain elevator, country grain terminal elevator or grain terminal elevator, as PTE is specified in subrule 22.10(2), to determine if operating permit requirements specified in rules 567—22.100(455B) through 567—22.300(455B) apply to the stationary source. If the operating permit requirements apply, then the owner or operator shall apply for an operating permit as specified in rules 567—22.100(455B) through 567—22.300(455B). The owner or operator also shall begin submitting annual emissions inventories and fees, as specified under rule 567—22.106(455B).

*d. PSD applicability.* For purposes of determining whether the stationary source is subject to the prevention of significant deterioration (PSD) requirements set forth in 567—Chapter 33, the owner or operator shall sum the PTE of the feed mill equipment with the PTE of the equipment at the country grain elevator, country grain terminal elevator or grain terminal elevator. If the PTE for PM or PM<sub>10</sub> for the stationary source is equal to or greater than 250 tons per year, the owner or operator shall comply with requirements for PSD specified in 567—Chapter 33, as applicable.

[ARC 1561C, IAB 8/6/14, effective 9/10/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.11 to 22.99** Reserved.

**567—22.100(455B) Definitions for Title V operating permits.** For purposes of rules 567—22.100(455B) to 567—22.116(455B), the following terms shall have the meaning indicated in this rule:

“*Act*” means the Clean Air Act, 42 U.S.C. Sections 7401, et seq.

“*Actual emissions*” means the actual rate of emissions of a pollutant from an emissions unit, as determined in accordance with the following:

1. In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a two-year period which immediately precedes that date and which is representative of normal source operations. The director may allow the use of a different time period upon a demonstration that it is more representative of normal source operations. Actual emissions shall be calculated using the unit’s actual operating hours, production rates, and types of materials processed, stored or combusted during the selected time period. Actual emissions for acid rain affected sources are calculated using a one-year period.

2. Lacking specific information to the contrary, the director may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

3. For any emissions unit which has not begun normal operations on a particular date, actual emissions shall equal the potential to emit of the unit on that date.

4. For purposes of calculating early reductions of hazardous air pollutants, actual emissions shall not include excess emissions resulting from a malfunction or from startups and shutdowns associated with a malfunction.

Actual emissions for purposes of determining fees shall be the actual emissions calculated over a period of one year.

“*Administrator*” means the administrator for the United States Environmental Protection Agency (EPA) or designee.

“*Affected facility*” means, with reference to a stationary source, any apparatus which emits or may emit any regulated air pollutant or contaminant.

“*Affected source*” means a source that includes one or more affected units subject to any emissions reduction requirement or limitation under Title IV of the Act.

“*Affected state*” means any state which is contiguous to the permitting state and whose air quality may be affected through the modification, renewal or issuance of a Title V permit; or which is within 50 miles of the permitted source.

“*Affected unit*” means a unit that is subject to any acid rain emissions reduction requirement or acid rain emissions limitation under Title IV of the Act.

“*Allowable emissions*” means the emission rate of a stationary source calculated using both the maximum rated capacity of the source, unless the source is subject to federally enforceable limits which restrict the operating rate or hours of operation, and the most stringent of the following:

1. The applicable new source performance standards or national emissions standards for hazardous air pollutants, contained in 567—subrules 23.1(2) and 23.1(3);

2. The applicable existing source emission standard contained in 567—Chapter 23; or

3. The emissions rate specified in the air construction permit for the source.

“*Allowance*” means an authorization by the administrator under Title IV of the Act or rules promulgated thereunder to emit during or after a specified calendar year up to one ton of sulfur dioxide.

“*Applicable requirement*” includes the following:

1. Any standard or other requirement provided for in the applicable implementation plan approved or promulgated by EPA through rule making under Title I of the Act that implements the relevant requirements of the Act, including any revisions to that plan promulgated in 40 CFR 52;

2. Any term or condition of any preconstruction permits issued pursuant to regulations approved or promulgated through rule making under Title I, including Parts C and D, of the Act;

3. Any standard or other requirement under Section 111 of the Act (subrule 23.1(2)), including Section 111(d);

4. Any standard or other requirement under Section 112 of the Act, including any requirement concerning accident prevention under Section 112(r)(7) of the Act;

5. Any standard or other requirement of the acid rain program under Title IV of the Act or the regulations promulgated thereunder;
6. Any requirements established pursuant to Section 504(b) or Section 114(a)(3) of the Act;
7. Any standard or other requirement governing solid waste incineration, under Section 129 of the Act;
8. Any standard or other requirement for consumer and commercial products, under Section 183(e) of the Act;
9. Any standard or other requirement for tank vessels under Section 183(f) of the Act;
10. Any standard or other requirement of the program to control air pollution from outer continental shelf sources, under Section 328 of the Act;
11. Any standard or other requirement of the regulations promulgated to protect stratospheric ozone under Title VI of the Act, unless the administrator has determined that such requirements need not be contained in a Title V permit; and
12. Any national ambient air quality standard or increment or visibility requirement under Part C of Title I of the Act, but only as it would apply to temporary sources permitted pursuant to Section 504(e) of the Act.

“*Area source*” means any stationary source of hazardous air pollutants that is not a major source as defined in rule 567—22.100(455B).

“*CFR*” means the Code of Federal Regulations, with standard references in this chapter by Title and Part, so that “40 CFR 51” means “Title 40 of the Code of Federal Regulations, Part 51.”

“*Consumer Price Index*” means for any calendar year the average of the Consumer Price Index for all urban consumers published by the United States Department of Labor, as of the close of the 12-month period ending on August 31 of each calendar year.

“*Country grain elevator*” shall have the same definition as “country grain elevator” set forth in subrule 22.10(1).

“*Designated representative*” means a responsible natural person authorized by the owner(s) or operator(s) of an affected source and of all affected units at the source, as evidenced by a certificate of representation submitted in accordance with Subpart B of 40 CFR Part 72 as amended to October 24, 1997, to represent and legally bind each owner and operator, as a matter of federal law, in matters pertaining to the acid rain program. Whenever the term “responsible official” is used in 567—Chapter 22, it shall be deemed to refer to the designated representative with regard to all matters under the acid rain program.

“*Draft Title V permit*” means the version of a Title V permit for which the department offers public participation or affected state review.

“*Emergency generator*” means any generator of which the sole function is to provide emergency backup power during an interruption of electrical power from the electric utility. An emergency generator does not include:

1. Peaking units at electric utilities;
2. Generators at industrial facilities that typically operate at low rates, but are not confined to emergency purposes; or
3. Any standby generators that are used during time periods when power is available from the electric utility.

An emergency is an unforeseeable condition that is beyond the control of the owner or operator.

“*Emissions allowable under the permit*” means a federally enforceable permit term or condition determined at issuance to be required by an applicable requirement that establishes an emissions limit (including a work practice standard) or a federally enforceable emissions cap that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject.

“*Emissions unit*” means any part or activity of a stationary source that emits or has the potential to emit any regulated air pollutant or any pollutant listed under Section 112(b) of the Act. This term is not meant to alter or affect the definition of the term “unit” for purposes of Title IV of the Act or any related regulations.

“*EPA conditional method*” means any method of sampling and analyzing for air pollutants that has been validated by the administrator but that has not been published as an EPA reference method.

“*EPA reference method*” means the following methods used for performance tests and continuous monitoring systems:

1. Performance test (stack test). A stack test shall be conducted according to EPA reference methods specified in 40 CFR 51, Appendix M (as amended through December 21, 2010); 40 CFR 60, Appendix A (as amended through September 9, 2010); 40 CFR 61, Appendix B (as amended through October 17, 2000); and 40 CFR 63, Appendix A (as amended through August 20, 2010).

2. Continuous monitoring systems. Minimum performance specifications and quality assurance procedures for performance evaluations of continuous monitoring systems are as specified in 40 CFR 60, Appendix B (as amended through September 9, 2010); 40 CFR 60, Appendix F (as amended through September 9, 2010); 40 CFR 75, Appendix A (as amended through March 28, 2011); 40 CFR 75, Appendix B (as amended through March 28, 2011); and 40 CFR 75, Appendix F (as amended through March 28, 2011).

“*Equipment leaks*” means leaks from pumps, compressors, pressure relief devices, sampling connection systems, open-ended valves or lines, valves, connectors, agitators, accumulator vessels, and instrumentation systems.

“*Existing hazardous air pollutant source*” means any source as defined in 40 CFR 61 (as amended through July 20, 2004) and 40 CFR 63.72 (as amended through December 29, 1992) with respect to Section 112(i)(5) of the Act, the construction or reconstruction of which commenced prior to proposal of an applicable Section 112(d) standard.

“*Facility*” means, with reference to a stationary source, any apparatus which emits or may emit any air pollutant or contaminant.

“*Federal implementation plan*” means a plan promulgated by the administrator to fill all or a portion of a gap or otherwise correct all or a portion of an inadequacy in a state implementation plan, and which includes enforceable emission limitations or other control measures, means or techniques, and provides for attainment of the relevant national ambient air quality standard.

“*Federally enforceable*” means all limitations and conditions which are enforceable by the administrator including, but not limited to, the requirements of the new source performance standards and national emission standards for hazardous air pollutants contained in 567—subrules 23.1(2) and 23.1(3); the requirements of such other state rules or orders approved by the administrator for inclusion in the SIP; and any construction, Title V or other federally approved operating permit conditions.

“*Final Title V permit*” means the version of a Title V permit issued by the department that has completed all required review procedures.

“*Fugitive emissions*” are those emissions which could not reasonably pass through a stack, chimney, vent or other functionally equivalent opening.

“*Hazardous air pollutant*” means any of the following air pollutants listed in Section 112 of the Act:

cas #	chemical name
75343	1,1-Dichloroethane
57147	1,1-Dimethyl hydrazine
71556	1,1,1-Trichloroethane
79005	1,1,2-Trichloroethane
79345	1,1,2,2-Tetrachloroethane
106887	1,2-Butylene oxide
96128	1,2-Dibromo-3-chloropropane
106934	1,2-Dibromoethane
107062	1,2-Dichloroethane
78875	1,2-Dichloropropane

cas #	chemical name
122667	1,2-Diphenylhydrazine
120821	1,2,4-Trichlorobenzene
106990	1,3-Butadiene
542756	1,3-Dichloropropylene
106467	1,4-Dichlorobenzene
123911	1,4-Dioxane
53963	2-Acetylaminofluorene
532274	2-Chloroacetophenone
79469	2-Nitropropane
540841	2,2,4-Trimethylpentane
1746016	2,3,7,8-Tetrachlorodibenzo-p-dioxin (TC-DD)
94757	2,4-D salts and esters
95807	2,4-Diaminotoluene
51285	2,4-Dinitrophenol
121142	2,4-Dinitrotoluene
95954	2,4,5-Trichlorophenol
88062	2,4,6-Trichlorophenol
91941	3,3'-Dichlorobenzidine
119904	3,3'-Dimethoxybenzidine
119937	3,3'-Dimethylbenzidine
92671	4-Aminobiphenyl
60117	4-Dimethylaminoazobenzene
92933	4-Nitrobiphenyl
100027	4-Nitrophenol
101144	4,4'-Methylenebis(2-chloroaniline)
101779	4,4'-methylenedianiline
534521	4,6-Dinitro-o-cresol, and salts
75070	Acetaldehyde
60355	Acetamide
75058	Acetonitrile
98862	Acetophenone
107028	Acrolein
79061	Acrylamide
79107	Acrylic acid
107131	Acrylonitrile
107051	Allyl chloride
62533	Aniline
0	Antimony Compounds
0	Arsenic Compounds (inorganic including arsine)
1332214	Asbestos (friable)
71432	Benzene

cas #	chemical name
92875	Benzidine
98077	Benzoic trichloride
100447	Benzyl chloride
0	Beryllium Compounds
57578	Beta-Propiolactone
92524	Biphenyl
111444	Bis(2-chloroethyl) ether
542881	Bis(chloromethyl) ether
75252	Bromoform
74839	Bromomethane
0	Cadmium Compounds
156627	Calcium cyanamide
133062	Captan
63252	Carbaryl
75150	Carbon disulfide
56235	Carbon tetrachloride
463581	Carbonyl sulfide
120809	Catechol
133904	Chloramben
57749	Chlordane
7782505	Chlorine
79118	Chloroacetic acid
108907	Chlorobenzene
510156	Chlorobenzilate
75003	Chloroethane
67663	Chloroform
74873	Chloromethane
107302	Chloromethyl methyl ether
126998	Chloroprene
0	Chromium Compounds
0	Cobalt Compounds
0	Coke Oven Emissions
1319773	Cresol/Cresylic acid (isomers & mixture)
98828	Cumene
0	Cyanide Compounds <sup>1</sup>
72559	DDE
117817	Di(2-ethylhexyl) phthalate
334883	Diazomethane
132649	Dibenzofuran
84742	Dibutyl phthalate
75092	Dichloromethane

cas #	chemical name
62737	Dichlorvos
111422	Diethanolamine
64675	Diethyl sulfate
68122	Dimethyl formamide
131113	Dimethyl phthalate
77781	Dimethyl sulfate
79447	Dimethylcarbamyl chloride
106898	Epichlorohydrin
140885	Ethyl acrylate
100414	Ethylbenzene
107211	Ethylene glycol
75218	Ethylene oxide
96457	Ethylene thiourea
151564	Ethyleneimine
0	Fine Mineral Fibers <sup>3</sup>
50000	Formaldehyde
0	Glycol Ethers <sup>2</sup> , except cas #111-76-2, ethylene glycol mono-butyl ether, also known as EGBE or 2-Butoxyethanol
76448	Heptachlor
87683	Hexachloro-1,3-butadiene
118741	Hexachlorobenzene
77474	Hexachlorocyclopentadiene
67721	Hexachloroethane
822060	Hexamethylene-1,6-diisocyanate
680319	Hexamethylphosphoramide
110543	Hexane
302012	Hydrazine
7647010	Hydrochloric acid
7664393	Hydrogen fluoride
123319	Hydroquinone
78591	Isophorone
0	Lead Compounds
58899	Lindane (all isomers)
108394	m-Cresol
108383	m-Xylene
108316	Maleic anhydride
0	Manganese Compounds
0	Mercury Compounds
67561	Methanol
72435	Methoxychlor
60344	Methyl hydrazine

cas #	chemical name
74884	Methyl iodide
108101	Methyl isobutyl ketone
624839	Methyl isocyanate
80626	Methyl methacrylate
1634044	Methyl tertbutyl ether
101688	Methylene bis(phenylisocyanate)
684935	N-Nitroso-N-methylurea
62759	N-Nitrosodimethylamine
59892	N-Nitrosomorpholine
91203	Naphthalene
0	Nickel Compounds
98953	Nitrobenzene
121697	N,N-Dimethylaniline
90040	o-Anisidine
95487	o-Cresol
95534	o-Toluidine
95476	o-Xylene
106445	p-Cresol
106503	p-Phenylenediamine
106423	p-Xylene
56382	Parathion
87865	Pentachlorophenol
108952	Phenol
75445	Phosgene
7803512	Phosphine
7723140	Phosphorus (yellow or white)
85449	Phthalic anhydride
1336363	Polychlorinated biphenyls
0	Polycyclic Organic Matter <sup>4</sup>
1120714	Propane sultone
123386	Propionaldehyde
114261	Propoxur
75569	Propylene oxide
75558	Propyleneimine
91225	Quinoline
106514	Quinone
82688	Quintozene
0	Radionuclides (including Radon) <sup>5</sup>
0	Selenium Compounds
100425	Styrene
96093	Styrene oxide

cas #	chemical name
127184	Tetrachloroethylene
7550450	Titanium tetrachloride
108883	Toluene
584849	Toluene-2,4-diisocyanate
8001352	Toxaphene
79016	Trichloroethylene
121448	Triethylamine
1582098	Trifluralin
51796	Urethane
108054	Vinyl acetate
593602	Vinyl bromide
75014	Vinyl chloride
75354	Vinylidene chloride
1330207	Xylene (mixed isomers)

NOTE: For all listings above which contain the word “compounds” and for glycol ethers, the following applies: Unless otherwise specified, these listings are defined as including any unique chemical substance that contains the named chemical (i.e., antimony, arsenic, etc.) as part of that chemical’s infrastructure.

<sup>1</sup>X’CN where X=H’ or any other group where a formal dissociation may occur. For example KCN or Ca(CN)<sub>2</sub>

<sup>2</sup>Includes mono- and di-ethers of ethylene glycol, diethylene glycol, and triethylene glycol R(OCH<sub>2</sub>CH<sub>2</sub>)<sub>n</sub>-OR’ where n=1,2, or 3; R=alkyl or aryl groups; R’=R,H, or groups which, when removed, yield glycol ethers with the structure R(OCH<sub>2</sub>CH)<sub>n</sub>-OH. Polymers are excluded from the glycol category.

<sup>3</sup>Includes mineral fiber emissions from facilities manufacturing or processing glass, rock, or slag fibers (or other mineral derived fibers) of average diameter 1 micrometer or less.

<sup>4</sup>Includes organic compounds with more than one benzene ring, and which have a boiling point greater than or equal to 100 degrees C.

<sup>5</sup>A type of atom which spontaneously undergoes radioactive decay.

“*High-risk pollutant*” means one of the following hazardous air pollutants listed in Table 1 in 40 CFR 63.74 as amended through October 21, 1994.

cas #	chemical name	weighting factor
53963	2-Acetylaminofluorene	100
107028	Acrolein	100
79061	Acrylamide	10
107131	Acrylonitrile	10
0	Arsenic compounds	100
1332214	Asbestos	100
71432	Benzene	10
92875	Benzidine	1000
0	Beryllium compounds	10
542881	Bis(chloromethyl) ether	1000
106990	1,3-Butadiene	10
0	Cadmium compounds	10

75558	1,2-Propylenimine	100
1746016	2,3,7,8-Tetrachlorodibenzo-p-dioxin	100,000
8001352	Toxaphene (chlorinated camphene)	100
75014	Vinyl chloride	10

“Major source” means any stationary source (or any group of stationary sources located on one or more contiguous or adjacent properties and under common control of the same person or of persons under common control) belonging to a single major industrial grouping that is any of the following:

1. A major stationary source of air pollutants, as defined in Section 302 of the Act, that directly emits or has the potential to emit 100 tons per year (tpy) or more of any air pollutant subject to regulation (including any major source of fugitive emissions of any such pollutant). The fugitive emissions of a stationary source shall not be considered in determining whether it is a major stationary source for the purposes of Section 302(j) of the Act, unless the source belongs to one of the stationary source categories listed in this chapter.

2. A major source of hazardous air pollutants according to Section 112 of the Act as follows:

For pollutants other than radionuclides, any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential to emit, in the aggregate, 10 tpy or more of any hazardous air pollutant which has been listed pursuant to Section 112(b) of the Act and these rules or 25 tpy or more of any combination of such hazardous air pollutants. Notwithstanding the previous sentence, emissions from any oil or gas exploration or production well (with its associated equipment) and emission from any pipeline compressor or pump station shall not be aggregated with emissions from other similar units, whether or not such units are in a contiguous area or under common control, to determine whether such units or stations are major sources.

For Title V purposes, all fugitive emissions of hazardous air pollutants are to be considered in determining whether a stationary source is a major source.

For radionuclides, "major source" shall have the meaning specified by the administrator by rule.

3. A major stationary source as defined in Part D of Title I of the Act, including:

For ozone nonattainment areas, sources with the potential to emit 100 tpy or more of volatile organic compounds or oxides of nitrogen in areas classified as "marginal" or "moderate," 50 tpy or more in areas classified as "serious," 25 tpy or more in areas classified as "severe" and 10 tpy or more in areas classified as "extreme"; except that the references in this paragraph to 100, 50, 25, and 10 tpy of nitrogen oxides shall not apply with respect to any source for which the administrator has made a finding, under Section 182(f)(1) or (2) of the Act, that requirements under Section 182(f) of the Act do not apply;

For ozone transport regions established pursuant to Section 184 of the Act, sources with potential to emit 50 tpy or more of volatile organic compounds;

For carbon monoxide nonattainment areas (1) that are classified as "serious" and (2) in which stationary sources contribute significantly to carbon monoxide levels, and sources with the potential to emit 50 tpy or more of carbon monoxide;

For particulate matter (PM-10), nonattainment areas classified as "serious," sources with the potential to emit 70 tpy or more of PM-10.

For the purposes of defining "major source," a stationary source or group of stationary sources shall be considered part of a single industrial grouping if all of the pollutant emitting activities at such source or group of sources on contiguous or adjacent properties belong to the same major group (i.e., all have the same two-digit code) as described in the Standard Industrial Classification Manual, 1987.

*"Manually operated equipment"* means a machine or tool that is handheld, such as a handheld circular saw or compressed air chisel; a machine or tool for which the work piece is held or manipulated by hand, such as a bench grinder; a machine or tool for which the tool or bit is manipulated by hand, such as a lathe or drill press; and any dust collection system which is part of such machine or tool; but not including any machine or tool for which the extent of manual operation is to control power to the machine or tool and not including any central dust collection system serving more than one machine or tool.

*"Maximum achievable control technology (MACT)"* means the following regarding regulated hazardous air pollutant sources:

1. For existing sources, the emissions limitation reflecting the maximum degree of reduction in emissions that the administrator or the department, taking into consideration the cost of achieving such emission reduction, and any nonair quality health and environmental impacts and energy requirements, determines is achievable by sources in the category of stationary sources, that shall not be less stringent than the MACT floor.

2. For new sources, the emission limitation which is not less stringent than the emission limitation achieved in practice by the best-controlled similar source, and which reflects the maximum degree of reduction in emissions that the administrator or the department, taking into consideration the cost of achieving such emission reduction, and any nonair quality health and environmental impacts and energy requirements, determines is achievable by sources in the Title IV affected source category.

*"Maximum achievable control technology (MACT) floor"* means the following:

1. For existing sources, the average emission limitation achieved by the best 12 percent of the existing sources in the United States (for which the administrator or the department has or could

reasonably obtain emission information), excluding those sources that have, within 18 months before the emission standard is proposed or within 30 months before such standard is promulgated, whichever is later, first achieved a level of emission rate or emission reduction which complies, or would comply if the source is not subject to such standard, with the lowest achievable emission rate applicable to the source category and prevailing at the time, for categories and subcategories of stationary sources with 30 or more sources in the category or subcategory, or the average emission limitation achieved by the best performing 5 sources in the United States (for which the administrator or the department has or could reasonably obtain emissions information) for a category or subcategory or stationary source with fewer than 30 sources in the category or subcategory.

2. For new sources, the emission limitation achieved in practice by the best-controlled similar source.

*“New Title IV affected source or unit”* means a unit that commences commercial operation on or after November 15, 1990, including any such unit that serves a generator with a nameplate capacity of 25 MWe or less or that is a simple combustion turbine.

*“Nonattainment area”* means an area so designated by the administrator, acting pursuant to Section 107 of the Act.

*“Permit modification”* means a revision to a Title V operating permit that cannot be accomplished under the provisions for administrative permit amendments found at rule 567—22.111(455B). A permit modification for purposes of the acid rain portion of the permit shall be governed by the regulations pertaining to acid rain found at rules 567—22.120(455B) to 567—22.147(455B). This definition of “permit modification” shall be used solely for purposes of this chapter governing Title V operating permits.

*“Permit revision”* means any permit modification or administrative permit amendment.

*“Permitting authority”* means the Iowa department of natural resources or the director thereof.

*“Potential to emit”* means the maximum capacity of a stationary source to emit any air pollutant under its physical and operational design. Any physical or operational limitation on the capacity of a source to emit an air pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation is enforceable by the administrator. This term does not alter or affect the use of this term for any other purposes under the Act, or the term “capacity factor” as used in Title IV of the Act or the regulations relating to acid rain.

For the purpose of determining potential to emit for country grain elevators, the provisions set forth in subrule 22.10(2) shall apply.

For purposes of calculating potential to emit for emergency generators, “maximum capacity” means one of the following:

1. 500 hours of operation annually, if the generator has actually been operated less than 500 hours per year for the past five years;
2. 8,760 hours of operation annually, if the generator has actually been operated more than 500 hours in one of the past five years; or
3. The number of hours specified in a state or federally enforceable limit.

*“Proposed Title V permit”* means the version of a permit that the permitting authority proposes to issue and forwards to the administrator for review in compliance with 22.107(7)“a.”

*“Regulated air contaminant”* shall mean the same thing as “regulated air pollutant.”

*“Regulated air pollutant”* means the following:

1. Nitrogen oxides or any volatile organic compounds;
2. Any pollutant for which a national ambient air quality standard has been promulgated;
3. Any pollutant that is subject to any standard promulgated under Section 111 of the Act;
4. Any Class I or II substance subject to a standard promulgated under or established by Title VI of the Act; or
5. Any pollutant subject to a standard promulgated under Section 112 or other requirements established under Section 112 of the Act, including Sections 112(g), (j), and (r) of the Act, including the following:

- Any pollutant subject to requirements under Section 112(j) of the Act. If the administrator fails to promulgate a standard by the date established pursuant to Section 112(e) of the Act, any pollutant for which a subject source would be major shall be considered to be regulated on the date 18 months after the applicable date established pursuant to Section 112(e) of the Act; and

- Any pollutant for which the requirements of Section 112(g)(2) of the Act have been met, but only with respect to the individual source subject to the Section 112(g)(2) requirement.

6. With respect to Title V, particulate matter, except for PM10, is not considered a regulated air pollutant for the purpose of determining whether a source is considered to be a major source.

“*Regulated air pollutant or contaminant (for fee calculation)*,” which is used only for purposes of 567—Chapter 30, means any “regulated air pollutant or contaminant” except the following:

1. Carbon monoxide;
2. Particulate matter, excluding PM10;
3. Any pollutant that is a regulated air pollutant solely because it is a Class I or II substance subject to a standard promulgated under or established by Title VI of the Act;

4. Any pollutant that is a regulated pollutant solely because it is subject to a standard or regulation under Section 112(r) of the Act;

5. Greenhouse gas, as defined in rule 567—20.2(455B).

“*Renewal*” means the process by which a permit is reissued at the end of its term.

“*Responsible official*” means one of the following:

1. For a corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit and either:
  - The facilities employ more than 250 persons or have gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars); or
  - The delegation of authority to such representative is approved in advance by the permitting authority.

2. For a partnership or sole proprietorship: a general partner or the proprietor, respectively;

3. For a municipality, state, federal, or other public agency: either a principal executive officer or ranking elected official. For the purposes of this chapter, a principal executive officer of a federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., a regional administrator of EPA); or

4. For Title IV affected sources:

- The designated representative insofar as actions, standards, requirements, or prohibitions under Title IV of the Act or the regulations promulgated thereunder are concerned; and

- The designated representative for any other purposes under this chapter or the Act.

“*Section 502(b)(10) changes*” are changes that contravene an express permit term and which are made pursuant to rule 567—22.110(455B). Such changes do not include changes that would violate applicable requirements or contravene federally enforceable permit terms and conditions that are monitoring (including test methods), record keeping, reporting, or compliance certification requirements.

“*State implementation plan (SIP)*” means the plan adopted by the state of Iowa and approved by the administrator which provides for implementation, maintenance, and enforcement of such primary and secondary ambient air quality standards as are adopted by the administrator, pursuant to the Act.

“*Stationary source*” means any building, structure, facility, or installation that emits or may emit any regulated air pollutant or any pollutant listed under Section 112(b) of the Act.

“*Stationary source categories*” means any of the following classes of sources:

1. Coal cleaning plants with thermal dryers;
2. Kraft pulp mills;
3. Portland cement plants;
4. Primary zinc smelters;

5. Iron and steel mills;
6. Primary aluminum ore reduction plants;
7. Primary copper smelters;
8. Municipal incinerators capable of charging more than 250 tons of refuse per day;
9. Hydrofluoric, sulfuric, or nitric acid plants;
10. Petroleum refineries;
11. Lime plants;
12. Phosphate rock processing plants;
13. Coke oven batteries;
14. Sulfur recovery plants;
15. Carbon black plants using the furnace process;
16. Primary lead smelters;
17. Fuel conversion plants;
18. Sintering plants;
19. Secondary metal production plants;
20. Chemical process plants — The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS code 325193 or 312140;
21. Fossil-fuel boilers, or combinations thereof, totaling more than 250 million Btu's per hour heat input;
22. Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;
23. Taconite ore processing plants;
24. Glass fiber processing plants;
25. Charcoal production plants;
26. Fossil fuel-fired steam electric plants of more than 250 million Btu's per hour heat input;
27. Any other stationary source category, which as of August 7, 1980, is regulated under Section 111 or 112 of the Act.

“*Subject to regulation*” means, for any air pollutant, that the pollutant is subject to either a provision in the Clean Air Act, or a nationally applicable regulation codified by the Administrator in 40 CFR Subchapter C (Air Programs) that requires actual control of the quantity of emissions of that pollutant, and that such a control requirement has taken effect and is operative to control, limit or restrict the quantity of emissions of that pollutant released from the regulated activity, except that:

1. Greenhouse gases (GHGs), the air pollutant defined in 40 CFR §86.1818-12(a) (as amended on May 7, 2010) as the aggregate group of six greenhouse gases that includes carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride, shall not be subject to regulation unless, as of July 1, 2011, the GHG emissions are at a stationary source emitting or having the potential to emit 100,000 tpy CO<sub>2</sub> equivalent emissions.

2. The term “tpy CO<sub>2</sub> equivalent emissions (CO<sub>2</sub>e)” shall represent an amount of GHGs emitted and shall be computed by multiplying the mass amount of emissions (tpy) for each of the six greenhouse gases in the pollutant GHGs by the associated global warming potential of the gas published at 40 CFR Part 98, Subpart A, Table A-1, “Global Warming Potentials,” (as amended on October 30, 2009) and summing the resultant value for each to compute a tpy CO<sub>2</sub>e.

For purposes of this definition, prior to July 21, 2014, the mass of the greenhouse gas carbon dioxide shall not include carbon dioxide emissions resulting from the combustion or decomposition of non-fossilized and biodegradable organic material originating from plants, animals, or micro-organisms (including products, by-products, residues and waste from agriculture, forestry and related industries as well as the non-fossilized and biodegradable organic fractions of industrial and municipal wastes, including gases and liquids recovered from the decomposition of non-fossilized and biodegradable organic material).

“*Title V permit*” means an operating permit under Title V of the Act.

“12-month rolling period” means a period of 12 consecutive months determined on a rolling basis with a new 12-month period beginning on the first day of each calendar month.

[ARC 9224B, IAB 11/17/10, effective 12/22/10; ARC 9906B, IAB 12/14/11, effective 11/16/11; ARC 0330C, IAB 9/19/12, effective 10/24/12; ARC 1913C, IAB 3/18/15, effective 4/22/15; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.101(455B) Applicability of Title V operating permit requirements.**

**22.101(1)** Except as provided in rule 567—22.102(455B), any person who owns or operates any of the following sources shall obtain a Title V operating permit and shall submit fees as required in 567—Chapter 30:

- a. Any affected source subject to the provisions of Title IV of the Act;
- b. Any major source;
- c. Any source, including any nonmajor source, subject to a standard, limitation, or other requirement under Section 111 of the Act (567—subrule 23.1(2), new source performance standards; 567—subrule 23.1(5), emission guidelines);
- d. Any source, including any area source, subject to a standard or other requirement under Section 112 of the Act (567—subrules 23.1(3) and 23.1(4), emission standards for hazardous air pollutants), except that a source is not required to obtain a Title V permit solely because it is subject to regulations or requirements under Section 112(r) of the Act;
- e. Any solid waste incinerator unit required to obtain a Title V permit under Section 129(e) of the Act;
- f. Any source category designated by the Administrator pursuant to 40 CFR 70.3 as amended through December 19, 2005.

**22.101(2)** Any nonmajor source required to obtain a Title V operating permit pursuant to subrule 22.101(1) is required to obtain a Title V permit only for the emissions units and related equipment causing the source to be subject to the Title V program.

**22.101(3)** Election to apply for permit. Rescinded IAB 7/19/06, effective 8/23/06.  
[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.102(455B) Source category exemptions.**

**22.102(1)** All sources listed in subrule 22.101(1) that are not major sources, affected sources subject to the provisions of Title IV of the Act or solid waste incineration units required to obtain a permit pursuant to Section 129(e) of the Act are exempt from the obligation to obtain a Title V permit until such time as the Administrator completes a rule making to determine how the program should be structured for nonmajor sources and the appropriateness of any permanent exemptions in addition to those provided for in subrule 22.102(3).

**22.102(2)** In the case of nonmajor sources subject to a standard or other requirement under either Section 111 or Section 112 of the Act after July 21, 1992, publication, the Administrator will determine at the time the new or amended standard is promulgated whether to exempt any or all such applicable sources from the requirement to obtain a Title V permit.

**22.102(3)** The following source categories are exempt from the obligation to obtain a Title V permit:

- a. All sources and source categories that would be required to obtain a Title V permit solely because they are subject to 40 CFR 60, Subpart AAA, Standards of Performance for New Residential Wood Heaters, as amended through December 14, 2000;
- b. All sources and source categories that would be required to obtain a Title V permit solely because they are subject to 40 CFR 61, Subpart M, National Emission Standard for Hazardous Air Pollutants for Asbestos, Section 61.145, Standard for Demolition and Renovation, as amended through July 20, 2004;
- c. All sources and source categories that would be required to obtain a Title V permit solely because they are subject to any of the following subparts from 40 CFR 63:
  - (1) Subpart M, National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities, as amended through December 19, 2005.
  - (2) Subpart N, National Emission Standards for Chromium Emissions from Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks, as amended through December 19, 2005.

(3) Subpart O, Ethylene Oxide Emissions Standards for Sterilization Facilities, as amended through December 19, 2005.

(4) Subpart T, National Emission Standards for Halogenated Solvent Cleaning, as amended through December 19, 2005.

(5) Subpart RRR, National Emission Standards for Hazardous Air Pollutants for Secondary Aluminum Production, as amended through December 19, 2005.

(6) Subpart VVV, National Emission Standards for Hazardous Air Pollutants: Publicly Owned Treatment Works, as amended through June 23, 2003.

**567—22.103(455B) Insignificant activities.** The following are insignificant activities for purposes of the Title V application if not needed to determine the applicability of or to impose any applicable requirement. Title V permit emissions fees are not required from insignificant activities pursuant to 567—paragraph 30.4(2)“f.”

**22.103(1) Insignificant activities excluded from Title V operating permit application.** In accordance with 40 CFR 70.5 (as amended through July 21, 1992), these activities need not be included in the Title V permit application.

- a. Mobile internal combustion and jet engines, marine vessels, and locomotives.
- b. Equipment, other than anaerobic lagoons, used for cultivating land, harvesting crops, or raising livestock. This exemption is not applicable if the equipment is used to remove substances from grain which were applied to the grain by another person. This exemption also is not applicable to equipment used by a person to manufacture commercial feed, as defined in Iowa Code section 198.3, when that feed is normally not fed to livestock:
  - (1) Owned by that person or another person, and
  - (2) Located in a feedlot, as defined in Iowa Code section 172D.1(6), or in a confinement building owned or operated by that person, and
  - (3) Located in this state.
- c. Equipment or control equipment which eliminates all emissions to the atmosphere.
- d. Equipment (other than anaerobic lagoons) or control equipment which emits odors unless such equipment or control equipment also emits particulate matter or any other air pollutant or contaminant.
- e. Air conditioning or ventilating equipment not designed to remove air contaminants generated by or released from associated equipment.
- f. Residential wood heaters, cookstoves, or fireplaces.
- g. The equipment in laboratories used exclusively for nonproduction chemical and physical analyses. Nonproduction analyses means analyses incidental to the production of a good or service and includes analyses conducted for quality assurance or quality control activities, or for the assessment of environmental impact.
- h. Recreational fireplaces.
- i. Barbecue pits and cookers except at a meat packing plant or a prepared meat manufacturing facility.
- j. Stacks or vents to prevent escape of sewer gases through plumbing traps for systems handling domestic sewage only. Systems which include any industrial waste are not exempt.
- k. Retail gasoline and diesel fuel handling facilities.
- l. Photographic process equipment by which an image is reproduced upon material sensitized to radiant energy.
- m. Equipment used for hydraulic or hydrostatic testing.
- n. General vehicle maintenance and servicing activities at the source, other than gasoline fuel handling.
- o. Cafeterias, kitchens, and other facilities used for preparing food or beverages primarily for consumption at the source.
- p. Equipment using water, water and soap or detergent, or a suspension of abrasives in water for purposes of cleaning or finishing provided no organic solvent has been added to the water, the boiling point of the additive is not less than 100°C (212°F), and the water is not heated above 65.5°C (150°F).

*q.* Administrative activities including, but not limited to, paper shredding, copying, photographic activities, and blueprinting machines. This does not include incinerators.

*r.* Laundry dryers, extractors, and tumblers processing clothing, bedding, and other fabric items used at the source that have been cleaned with water solutions of bleach or detergents provided that any organic solvent present in such items before processing that is retained from cleanup operations shall be addressed as part of the volatile organic compound emissions from use of cleaning materials.

*s.* Housekeeping activities for cleaning purposes, including collecting spilled and accumulated materials at the source, but not including use of cleaning materials that contain organic solvent.

*t.* Refrigeration systems, including storage tanks used in refrigeration systems, but excluding any combustion equipment associated with such systems.

*u.* Activities associated with the construction, on-site repair, maintenance or dismantlement of buildings, utility lines, pipelines, wells, excavations, earthworks and other structures that do not constitute emission units.

*v.* Storage tanks of organic liquids with a capacity of less than 500 gallons, provided the tank is not used for storage of any material listed as a hazardous air pollutant pursuant to Section 112(b) of the Clean Air Act.

*w.* Piping and storage systems for natural gas, propane, and liquified petroleum gas, excluding pipeline compressor stations and associated storage facilities.

*x.* Water treatment or storage systems, as follows:

(1) Systems for potable water or boiler feedwater.

(2) Systems, including cooling towers, for process water provided that such water has not been in direct or indirect contact with process steams that contain volatile organic material or materials listed as hazardous air pollutants pursuant to Section 112(b) of the Clean Air Act.

*y.* Lawn care, landscape maintenance, and groundskeeping activities.

*z.* Containers, reservoirs, or tanks used exclusively in dipping operations to coat objects with oils, waxes, or greases, provided no organic solvent has been mixed with such materials.

*aa.* Cold cleaning degreasers that are not in-line cleaning machines, where the vapor pressure of the solvents used never exceeds 2 kPa (15 mmHg or 0.3 psi) measured at 38°C (100°F) or 0.7 kPa (5 mmHg or 0.1 psi) at 20°C (68°F). (Note: Cold cleaners subject to 40 CFR Part 63 Subpart T are not considered insignificant activities.)

*bb.* Manually operated equipment used for buffing, polishing, carving, cutting, drilling, machining, routing, sanding, sawing, scarfing, surface grinding or turning.

*cc.* Use of consumer products, including hazardous substances as that term is defined in the Federal Hazardous Substances Act (15 U.S.C. 1261 et seq.), when the product is used at a source in the same manner as normal consumer use.

*dd.* Activities directly used in the diagnosis and treatment of disease, injury or other medical condition.

*ee.* Firefighting activities and training in preparation for fighting fires conducted at the source. (Note: Written notification pursuant to 567—paragraph 23.2(3) “g” is required at least ten working days before such action commences.)

*ff.* Activities associated with the construction, repair or maintenance of roads or other paved or open areas, including operation of street sweepers, vacuum trucks, spray trucks and other vehicles related to the control of fugitive emissions of such roads or other areas.

*gg.* Storage and handling of drums or other transportable containers when the containers are sealed during storage and handling.

*hh.* Individual points of emission or activities as follows:

(1) Individual flanges, valves, pump seals, pressure relief valves and other individual components that have the potential for leaks.

(2) Individual sampling points, analyzers, and process instrumentation, whose operation may result in emissions.

(3) Individual features of an emission unit such as each burner and sootblower in a boiler or each use of cleaning materials on a coating or printing line.

*ii.* Construction activities at a source solely associated with the modification or building of a facility, an emission unit or other equipment at the source. (Note: Notwithstanding the status of this activity as insignificant, a particular activity that entails modification or construction of an emission unit or construction of air pollution control equipment may require a construction permit pursuant to 22.1(455B) and may subsequently require a revised Title V operating permit. A revised Title V operating permit may also be necessary for operation of an emission unit after completion of a particular activity if the existing Title V operating permit does not accommodate the new state of the emission unit.)

*jj.* Activities at a source associated with the maintenance, repair, or dismantlement of an emission unit or other equipment installed at the source, including preparation for maintenance, repair or dismantlement, and preparation for subsequent startup, including preparation of a shutdown vessel for entry, replacement of insulation, welding and cutting, and steam purging of a vessel prior to startup.

**22.103(2)** *Insignificant activities which must be included in Title V operating permit applications.*

*a.* The following are insignificant activities based on potential emissions:

An emission unit which has the potential to emit less than:

5 tons per year of any regulated air pollutant, except:

2.5 tons per year of PM<sub>10</sub>,

0.52 tons per year of PM<sub>2.5</sub> (does not apply to emission units for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013),

2 lbs per year of lead or lead compounds (40 lbs per year for emission units for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013),

2500 lbs per year of any combination of hazardous air pollutants except high-risk pollutants,

1000 lbs per year of any individual hazardous air pollutant except high-risk pollutants,

250 lbs per year of any combination of high-risk pollutants, or

100 lbs per year of any individual high-risk pollutant.

The definition of “high-risk pollutant” is found in rule 567—22.100(455B).

*b.* The following are insignificant activities:

(1) Fuel-burning equipment for indirect heating and reheating furnaces using natural or liquefied petroleum gas with a capacity of less than 10 million Btu per hour input per combustion unit.

(2) Fuel-burning equipment for indirect heating for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013, with a capacity of less than 1 million Btu per hour input per combustion unit when burning coal, untreated wood, or fuel oil.

Fuel-burning equipment for indirect heating for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, with a capacity of less than 1 million Btu per hour input per combustion unit when burning untreated wood, untreated seeds or pellets, other untreated vegetative materials, or fuel oil provided that the equipment and the fuel meet the condition specified in this subparagraph (22.103(2)“b”(2)). Used oils meeting the specification from 40 CFR 279.11 as amended through May 3, 1993, are acceptable fuels. When combusting used oils, the equipment must have a maximum rated capacity of 50,000 Btu or less per hour of heat input or a maximum throughput of 3600 gallons or less of used oils per year. When combusting untreated wood, untreated seeds or pellets, or other untreated vegetative materials, the equipment must have a maximum rated capacity of 265,600 Btu or less per hour or a maximum throughput of 378,000 pounds or less per year of each fuel or any combination of fuels.

(3) Incinerators with a rated refuse burning capacity of less than 25 pounds per hour for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred on or before October 23, 2013. Incinerators for which initiation of construction, installation, reconstruction, or alteration (as defined in rule 567—20.2(455B)) occurred after October 23, 2013, shall not qualify as an insignificant activity. After October 23, 2013, only paint clean-off ovens with a maximum rated capacity of less than 25 pounds per hour that do not combust lead-containing materials shall qualify as an insignificant activity.

(4) Gasoline, diesel fuel, or oil storage tanks with a capacity of 1,000 gallons or less and an annual throughput of less than 40,000 gallons.

(5) A storage tank which contains no volatile organic compounds above a vapor pressure of 0.75 pounds per square inch at the normal operating temperature of the tank when other emissions from the tank do not exceed the levels in paragraph 22.103(2) "a."

(6) Internal combustion engines that are used for emergency response purposes with a brake horsepower rating of less than 400 measured at the shaft. The manufacturer's nameplate rating at full load shall be defined as the brake horsepower output at the shaft.

[ARC 1013C, IAB 9/18/13, effective 10/23/13; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.104(455B) Requirement to have a Title V permit.** No source may operate after the time that it is required to submit a timely and complete application, except in compliance with a properly issued Title V operating permit. However, if a source submits a timely and complete application for permit issuance (including renewal), the source's failure to have a permit is not a violation of this chapter until the director takes final action on the permit application, except as noted in this rule. In that case, all terms and conditions of the permit shall remain in effect until the renewal permit has been issued or denied.

**22.104(1)** This protection shall cease to apply if, subsequent to the completeness determination, the applicant fails to submit, by the deadline specified in writing by the director, any additional information identified as being needed to process the application.

**22.104(2)** Sources making permit revisions pursuant to rule 567—22.110(455B) shall not be in violation of this rule.

**567—22.105(455B) Title V permit applications.**

**22.105(1) Duty to apply.** For each source required to obtain a Title V permit, the owner or operator or designated representative, where applicable, shall present or mail a complete and timely permit application in accordance with this rule to the following locations: Iowa Department of Natural Resources, Air Quality Bureau, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324 (two copies); and U.S. EPA Region VII, 901 North 5th Street, Kansas City, Kansas 66101 (one copy); and, if applicable, the local permitting authority, which is either Linn County Public Health Department, Air Quality Division, 501 13th Street NW, Cedar Rapids, Iowa 52405 (one copy); or Polk County Public Works, Air Quality Division, 5885 NE 14th Street, Des Moines, Iowa 50313 (one copy). Alternatively, an owner or operator may submit a complete and timely application through the electronic submittal format specified by the department. An owner or operator of a source required to obtain a Title V permit pursuant to subrule 22.101(1) shall submit all required fees as required in 567—Chapter 30.

*a. Timely application.* Each owner or operator applying for a Title V permit shall submit an application as follows:

(1) Initial application for an existing source. The owner or operator of a stationary source that was existing on or before April 20, 1994, shall make the first time submittals of a Title V permit application to the department by November 15, 1994. However, the owner or operator may choose to defer submittal of Part 2 of the permit application until December 31, 1995. The department will mail notice of the deadline for Part 2 of the permit application to all applicants who have filed Part 1 of the application by October 17, 1995.

(2) Initial application for a new source. The owner or operator of a stationary source that commenced construction or reconstruction after April 20, 1994, or that otherwise became subject to the requirement to obtain a Title V permit after April 20, 1994, shall submit an application to the department within 12 months of becoming subject to the Title V permit requirements.

(3) Application related to 112(g), PSD or nonattainment. The owner or operator of a stationary source that is subject to Section 112(g) of the Act, that is subject to rule 567—22.4(455B) or 567—33.3(455B) (prevention of significant deterioration (PSD)), or that is subject to rule 567—22.5(455B) or 567—31.3(455B) (nonattainment area permitting) shall submit an application to the department within 12 months of commencing operation. In cases in which an existing Title V

permit would prohibit such construction or change in operation, the owner or operator must obtain a Title V permit revision before commencing operation.

(4) Renewal application. The owner or operator of a stationary source with a Title V permit shall submit an application to the department for a permit renewal at least 6 months prior to, but not more than 18 months prior to, the date of permit expiration.

(5) Changes allowed without a permit revision (off-permit revision). The owner or operator of a stationary source with a Title V permit who is proposing a change that is allowed without a Title V permit revision (an off-permit revision) as specified in rule 567—22.110(455B) shall submit to the department a written notification as specified in rule 567—22.110(455B) at least 30 days prior to the proposed change.

(6) Application for an administrative permit amendment. Prior to implementing a change that satisfies the requirements for an administrative permit amendment as set forth in rule 567—22.111(455B), the owner or operator shall submit to the department an application for an administrative amendment as specified in rule 567—22.111(455B).

(7) Application for a minor permit modification. Prior to implementing a change that satisfies the requirements for a minor permit modification as set forth in rule 567—22.112(455B), the owner or operator shall submit to the department an application for a minor permit modification as specified in rule 567—22.112(455B).

(8) Application for a significant permit modification. The owner or operator of a source that satisfies the requirements for a significant permit modification as set forth in rule 567—22.113(455B) shall submit to the department an application for a significant permit modification as specified in rule 567—22.113(455B) within three months after the commencing operation of the changed source. However, if the existing Title V permit would prohibit such construction or change in operation, the owner or operator shall not commence operation of the changed source until the department issues a revised Title V permit that allows the change.

(9) Application for an acid rain permit. The owner or operator of a source subject to the acid rain program, as set forth in rules 567—22.120(455B) through 567—22.148(455B), shall submit an application for an initial Phase II acid rain permit by January 1, 1996 (for sulfur dioxide), or by January 1, 1998 (for nitrogen oxides).

*b. Complete application.* To be deemed complete, an application must provide all information required pursuant to subrule 22.105(2), except that applications for permit revision need supply such information only if it is related to the proposed change.

**22.105(2) Standard application form and required information.** To apply for a Title V permit, applicants shall complete the standard permit application form available only from the department and supply all information required by the filing instructions found on that form. The information submitted must be sufficient to evaluate the source and its application and to determine all applicable requirements and to evaluate the fee amount required by rule 567—30.4(455B). If a source is not a major source and is applying for a Title V operating permit solely because of a requirement imposed by paragraphs 22.101(1)“c” and “d,” then the information provided in the operating permit application may cover only the emissions units that trigger Title V applicability. The applicant shall submit the information called for by the application form for each emissions unit to be permitted, except for activities which are insignificant according to the provisions of rule 567—22.103(455B). The applicant shall provide a list of all insignificant activities and specify the basis for the determination of insignificance for each activity. Nationally standardized forms shall be used for the acid rain portions of permit applications and compliance plans, as required by regulations promulgated under Title IV of the Act. The standard application form and any attachments shall require that the following information be provided:

*a.* Identifying information, including company name and address (or plant or source name if different from the company name), owner’s name and agent, and telephone number and names of plant site manager/contact.

*b.* A description of the source’s processes and products (by two-digit Standard Industrial Classification Code) including any associated with each alternate scenario identified by the applicant.

*c.* The following emissions-related information shall be submitted to the department on the emissions inventory portion of the application:

(1) All emissions of pollutants for which the source is major, and all emissions of regulated air pollutants. The permit application shall describe all emissions of regulated air pollutants emitted from any emissions unit except where such units are exempted. The source shall submit additional information related to the emissions of air pollutants sufficient to verify which requirements are applicable to the source, and other information necessary to collect any permit fees owed under the approved fee schedule.

(2) Identification and description of all points of emissions in sufficient detail to establish the basis for fees and the applicability of any and all requirements.

(3) Emissions rates in tons per year and in such terms as are necessary to establish compliance consistent with the applicable standard reference test method, if any.

(4) The following information to the extent it is needed to determine or regulate emissions: fuels, fuel use, raw materials, production rates, and operating schedules.

(5) Identification and description of air pollution control equipment.

(6) Identification and description of compliance monitoring devices or activities.

(7) Limitations on source operations affecting emissions or any work practice standards, where applicable, for all regulated pollutants.

(8) Other information required by any applicable requirement (including information related to stack height limitations developed pursuant to Section 123 of the Act).

(9) Calculations on which the information in subparagraphs (1) to (8) above is based.

(10) Fugitive emissions from a source shall be included in the permit application in the same manner as stack emissions, regardless of whether the source category in question is included in the list of sources contained in the definition of major source.

*d.* The following air pollution control requirements:

(1) Citation and description of all applicable requirements, and

(2) Description of or reference to any applicable test method for determining compliance with each applicable requirement.

*e.* Other specific information that may be necessary to implement and enforce other applicable requirements of the Act or of these rules or to determine the applicability of such requirements.

*f.* An explanation of any proposed exemptions from otherwise applicable requirements.

*g.* Additional information as determined to be necessary by the director to define alternative operating scenarios identified by the source pursuant to subrule 22.108(12) or to define permit terms and conditions relating to operational flexibility and emissions trading pursuant to subrule 22.108(11) and rule 567—22.112(455B).

*h.* A compliance plan that contains the following:

(1) A description of the compliance status of the source with respect to all applicable requirements.

(2) The following statements regarding compliance status: For applicable requirements with which the stationary source is in compliance, a statement that the stationary source will continue to comply with such requirements. For applicable requirements that will become effective during the permit term, a statement that the stationary source will meet such requirements on a timely basis. For requirements for which the stationary source is not in compliance at the time of permit issuance, a narrative description of how the stationary source will achieve compliance with such requirements.

(3) A compliance schedule that contains the following:

1. For applicable requirements with which the stationary source is in compliance, a statement that the stationary source will continue to comply with such requirements. For applicable requirements that will become effective during the permit term, a statement that the stationary source will meet such requirements on a timely basis. A statement that the stationary source will meet in a timely manner applicable requirements that become effective during the permit term shall satisfy this provision, unless a more detailed schedule is expressly required by the applicable requirement.

2. A compliance schedule for sources that are not in compliance with all applicable requirements at the time of permit issuance. Such a schedule shall include a schedule of remedial measures, including an enforceable sequence of actions with milestones, leading to compliance with any applicable requirements for which the stationary source will be in noncompliance at the time of permit issuance.

3. This compliance schedule shall resemble and be at least as stringent as any compliance schedule contained in any judicial consent decree or administrative order to which the source is subject. Any compliance schedule shall be supplemental to, and shall not sanction noncompliance with, the applicable requirements on which it is based.

(4) A schedule for submission of certified progress reports no less frequently than every six months for sources required to have a compliance schedule in the permit.

*i.* Requirements for compliance certification, including the following:

(1) A certification of compliance for the prior year with all applicable requirements certified by a responsible official consistent with subrule 22.107(4) and Section 114(a)(3) of the Act.

(2) A statement of methods used for determining compliance, including a description of monitoring, record keeping, and reporting requirements and test methods.

(3) A schedule for submission of compliance certifications for each compliance period (one year unless required for a shorter time period by an applicable requirement) during the permit term, which shall be submitted annually, or more frequently if required by an underlying applicable requirement or by the director.

(4) A statement indicating the source's compliance status with any applicable enhanced monitoring and compliance certification requirements of the Act.

(5) Notwithstanding any other provisions of these rules, for the purposes of submission of compliance certifications, an owner or operator is not prohibited from using monitoring as required by subrules 22.108(3), 22.108(4) or 22.108(5) and incorporated into a Title V operating permit in addition to any specified compliance methods.

*j.* The compliance plan content requirements specified in these rules shall apply and be included in the acid rain portion of a compliance plan for a Title IV affected source, except as specifically superseded by regulations promulgated under Title IV of the Act, with regard to the schedule and method(s) the source shall use to achieve compliance with the acid rain emissions limitations.

**22.105(3) Hazardous air pollutant early reduction application.** Anyone requesting a compliance extension from a standard issued under Section 112(d) of the Act must submit with its Title V permit application information that complies with the requirements established in 567—paragraph 23.1(4) “d.”

**22.105(4) Acid rain application content.** The acid rain application content shall be as prescribed in the acid rain rules found at rules 567—22.128(455B) and 567—22.129(455B).

**22.105(5) More than one Title V operating permit for a stationary source.** Following application made pursuant to subrule 22.105(1), the department may, at its discretion, issue more than one Title V operating permit for a stationary source, provided that the owner or operator does not have, and does not propose to have, a sourcewide emission limit or a sourcewide alternative operating scenario.

[ARC 8215B, IAB 10/7/09, effective 11/11/09; ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.106(455B) Annual Title V emissions inventory.**

**22.106(1) Emissions fee.** Fees shall be paid as set forth in 567—Chapter 30.

**22.106(2) Emissions inventory and documentation due dates.** For emissions located in Polk County or Linn County, three copies of the following forms shall be submitted annually by March 31 documenting actual emissions for the previous calendar year. For emissions in all other counties, two copies of the following forms shall be submitted annually by March 31, documenting actual emissions for the previous calendar year:

- a.* Form 1.0, “Facility Identification”;
- b.* Form 4.0, “Emission Unit—Actual Operations and Emissions” for each emission unit;
- c.* Form 5.0, “Title V Annual Emissions Summary/Fee”; and
- d.* Part 3, “Application Certification.”

Alternatively, an owner or operator may submit the required emissions inventory information through the electronic submittal format specified by the department.

If there are any changes to the emission calculation form, the department shall make revised forms available to the public by January 1. If revised forms are not available by January 1, forms from the

previous year may be used and the year of emissions documented changed. The department shall calculate the total statewide Title V emissions for the prior calendar year and make this information available to the public no later than April 30 of each year.

**22.106(3) Correction of errors.** If an owner or operator, or the department, finds an error in a Title V emissions inventory, the owner or operator shall submit to the department revised forms making the necessary corrections to the Title V emissions inventory. Corrected forms shall be submitted as soon as possible after the errors are discovered or upon notification by the department.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—22.107(455B) Title V permit processing procedures.**

**22.107(1) Action on application.**

*a. Conditions for action on application.* A permit, permit modification, or renewal may be issued only if all of the following conditions have been met:

(1) The permitting authority has received a complete application for a permit, permit modification, or permit renewal, except that a complete application need not be received before issuance of a general permit under rule 567—22.109(455B);

(2) Except for modifications qualifying for minor permit modification procedures under rule 22.112(455B), the permitting authority has complied with the requirements for public participation under subrule 22.107(6);

(3) The permitting authority has complied with the requirements for notifying and responding to affected states under subrule 22.107(7);

(4) The conditions of the permit provide for compliance with all applicable requirements and the requirements of this chapter;

(5) The administrator has received a copy of the proposed permit and any notices required under subrule 22.107(7), and has not objected to issuance of the permit under subrule 22.107(7) within the time period specified therein;

(6) If the administrator has properly objected to the permit pursuant to the provisions of 40 CFR 70.8(d) as amended to July 21, 1992, or subrule 22.107(7), then the permitting authority may issue a permit only after the administrator's objection has been resolved; and

(7) No permit for a solid waste incineration unit combusting municipal waste subject to the provisions of Section 129(e) of the Act may be issued by an agency, instrumentality or person that is also responsible, in whole or part, for the design and construction or operation of the unit.

*b. Time for action on application.* The permitting authority shall take final action on each complete permit application (including a request for permit modification or renewal) within 18 months of receiving a complete application, except in the following instances:

(1) When otherwise provided under Title V or Title IV of the Act for the permitting of affected sources under the acid rain program.

(2) In the case of initial permit applications, the permitting authority may take up to three years from the effective date of the program to take final action on an application.

(3) Any complete permit applications containing an early reduction demonstration under Section 112(i)(5) of the Act shall be acted upon within nine months of receipt of the complete application.

*c. Prioritization of applications.* The director shall give priority to action on Title V applications involving construction or modification for which a construction permit pursuant to subrule 22.1(1) or Title I of the Act, Parts C and D, is also required. The director also shall give priority to action on Title V applications involving early reduction of hazardous air pollutants pursuant to 567—paragraph 23.1(4) "d."

*d. Completeness of applications.* The department shall promptly provide notice to the applicant of whether the application is complete. Unless the permitting authority requests additional information or otherwise notifies the applicant of incompleteness within 60 days of receipt of an application, the application shall be deemed complete. If, while processing an application that has been determined to be complete, the permitting authority determines that additional information is necessary to evaluate or take final action on that application, the permitting authority may request in writing such information

and set a reasonable deadline for a response. The source's ability to operate without a permit, as set forth in rule 567—22.104(455B), shall be in effect from the date the application is determined to be complete until the final permit is issued, provided that the applicant submits any requested additional information by the deadline specified by the permitting authority. For modifications processed through minor permit modification procedures, a completeness determination shall not be required.

*e. Decision to deny a permit application.* The director shall decide to issue or deny the permit. The director shall notify the applicant as soon as practicable that the application has been denied. Upon denial of the permit the provisions of paragraph 22.107(1) "d" shall no longer be applicable. The new application shall be regarded as an entirely separate application containing all the required information and shall not depend on references to any documents contained in the previous denied application.

*f. Fact sheet.* A draft permit and fact sheet shall be prepared by the permitting authority. The fact sheet shall include the rationale for issuance or denial of the permit; a brief description of the type of facility; a summary of the type and quantity of air pollutants being emitted; a brief summary of the legal and factual basis for the draft permit conditions, including references to applicable statutes and rules; a description of the procedures for reaching final decision on the draft permit including the comment period, the address where comments will be received, and procedures for requesting a hearing and the nature of the hearing; and the name and telephone number for a person to contact for additional information. The permitting authority shall provide the fact sheet to EPA and to any other person who requests it.

*g. Relation to construction permits.* The submittal of a complete application shall not affect the requirement that any source have a construction permit under Title I of the Act and subrule 22.1(1).

**22.107(2) Confidential information.** If a source has submitted information with an application under a claim of confidentiality to the department, the source shall also submit a copy of such information directly to the administrator. Requests for confidentiality must comply with 561—Chapter 2.

**22.107(3) Duty to supplement or correct application.** Any applicant who fails to submit any relevant facts or who has submitted incorrect information in a permit application shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. In addition, an applicant shall provide additional information as necessary to address any requirements that become applicable to the source after the date the source filed a complete application but prior to release of a draft permit. Applicants who have filed a complete application shall have 60 days following notification by the department to file any amendments. Any MACT determinations in permit applications will be evaluated based on the standards, limitations or levels of technology existing on the date the initial application is deemed complete.

**22.107(4) Certification of truth, accuracy, and completeness.** Any application form, report, or compliance certification submitted pursuant to these rules shall contain certification by a responsible official of truth, accuracy, and completeness. This certification and any other certification required under these rules shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

**22.107(5) Early reduction application evaluation.** Hazardous air pollutant early reduction application evaluation review shall follow the procedures established in 567—paragraph 23.1(4) "d."

**22.107(6) Public notice and public participation.**

*a.* The permitting authority shall provide public notice and an opportunity for public comments, including an opportunity for a hearing, before taking any of the following actions: issuance, denial or renewal of a permit; or significant modification or revocation or reissuance of a permit.

*b.* Notice shall be given by publication in a newspaper of general circulation in the area where the source is located or in a state publication designed to give general public notice. Notice also shall be given to persons on a mailing list developed by the permitting authority, including those who request in writing to be on the list. The department may use other means if necessary to ensure adequate notice to the affected public.

*c.* The public notice shall include the following:

- (1) Identification of the Title V source.
- (2) Name and address of the permittee.

- (3) Name and address of the permitting authority processing the permit.
- (4) The activity or activities involved in the permit action.
- (5) The emissions change involved in any permit modification.
- (6) The air pollutants or contaminants to be emitted.
- (7) The time and place of any possible public hearing.
- (8) A statement that any person may submit written and signed comments, or may request a public hearing, or both, on the proposed permit. A statement of procedures to request a public hearing shall be included.

(9) The name, address, and telephone number of a person from whom additional information may be obtained. Information entitled to confidential treatment pursuant to Section 114(c) of the Act or state law shall not be released pursuant to this provision. However, the contents of a Title V permit shall not be entitled to protection under Section 114(c) of the Act.

(10) Locations where copies of the permit application and the proposed permit may be reviewed, including the closest department office, and the times at which they shall be available for public inspection.

*d.* At least 30 days shall be provided for public comment. Notice of any public hearing shall be given at least 30 days in advance of the hearing.

*e.* Any person may request a public hearing. A request for a public hearing shall be in writing and shall state the person's interest in the subject matter and the nature of the issues proposed to be raised at the hearing. The director shall hold a public hearing upon finding, on the basis of requests, a significant degree of relevant public interest in a draft permit. A public hearing also may be held at the director's discretion.

*f.* The director shall keep a record of the commenters and of the issues raised during the public participation process and shall prepare written responses to all comments received. At the time a final decision is made, the record and copies of the director's responses shall be made available to the public.

*g.* The permitting authority shall provide notice and opportunity for participation by affected states as provided by subrule 22.107(7).

**22.107(7) Permit review by EPA and affected states.**

*a. Transmission of information to the administrator.* Except as provided in subrule 22.107(2) or waived by the administrator, the director shall provide to the administrator a copy of each permit application or modification application, including any attachments and compliance plans; each proposed permit; and each final permit. For purposes of this subrule, the application information may be submitted in a computer-readable format compatible with the administrator's national database management system.

*b. Review by affected states.* The director shall provide notice of each draft permit to any affected state on or before the time that public notice is provided to the public pursuant to subrule 22.107(6), except to the extent that subrule 22.112(3) requires the timing of the notice to be different. If the director refuses to accept a recommendation of any affected state, submitted during the public or affected state review period, then the director shall notify the administrator and the affected state in writing. The notification shall include the director's reasons for not accepting the recommendation(s). The director shall not be required to accept recommendations that are not based on applicable requirements.

*c. EPA objection.* No permit for which an application must be transmitted to the administrator shall be issued if the administrator objects in writing to its issuance as not in compliance with the applicable requirements within 45 days after receiving a copy of the proposed permit and necessary supporting information under 22.107(7) "a." Within 90 days after the date of an EPA objection made pursuant to this rule, the director shall submit a response to the objection, if the objection has not been resolved.

**22.107(8) Public petitions to the administrator regarding Title V permits.**

*a.* If the administrator does not object to a proposed permit, any person may petition the administrator within 60 days after the expiration of the administrator's 45-day review period to make an objection pursuant to 40 CFR 70.8(d) as amended to July 21, 1992.

*b.* Any person who petitions the administrator pursuant to the provisions of 40 CFR 70.8(d) as amended to July 21, 1992, shall notify the department by certified mail of such petition immediately,

and in no case more than 10 days following the date the petition is submitted to EPA. Such notice shall include a copy of the petition submitted to EPA and a separate written statement detailing the grounds for the objection(s) and whether the objection(s) was raised during the public comment period. A petition for review shall not stay the effectiveness of a permit or its requirements if the permit was issued after the end of the 45-day EPA review period and prior to the administrator's objection.

c. If the administrator objects to the permit as a result of a petition filed pursuant to 40 CFR 70.8(d) as amended to July 21, 1992, then the director shall not issue a permit until the administrator's objection has been resolved. However, if the director has issued a permit prior to receipt of the administrator's objection, and the administrator modifies, terminates, or revokes such permit, consistent with the procedures in 40 CFR 70.7 as amended to July 21, 1992, then the director may thereafter issue only a revised permit that satisfies the administrator's objection. In any case, the source shall not be in violation of the requirement to have submitted a timely and complete application.

**22.107(9)** *A Title V permit application may be denied if:*

- a. The director finds that a source is not in compliance with any applicable requirement; or
- b. An applicant knowingly submits false information in a permit application.

**22.107(10)** *Retention of permit records.* The director shall keep all records associated with each permit for a minimum of five years.

**567—22.108(455B) Permit content.** Each Title V permit shall include the following elements:

**22.108(1)** Enforceable emission limitations and standards. Each permit issued pursuant to this chapter shall include emissions limitations and standards, including those operational requirements and limitations that ensure compliance with all applicable requirements at the time of permit issuance.

a. The permit shall specify and reference the origin of and authority for each term or condition and identify any difference in form as compared to the applicable requirement upon which the term or condition is based.

b. The permit shall state that, where an applicable requirement of the Act is more stringent than an applicable requirement of regulations promulgated under Title IV of the Act, both provisions shall be incorporated into the permit and shall be enforceable by the administrator.

c. If an applicable implementation plan allows a determination of an alternative emission limit at a Title V source, equivalent to that contained in the plan, to be made in the permit issuance, renewal, or significant modification process, and the state elects to use such process, then any permit containing such equivalency determination shall contain provisions to ensure that any resulting emissions limit has been demonstrated to be quantifiable, accountable, enforceable, and based on replicable procedures.

d. If an early reduction demonstration is approved as part of the Title V permit application, the permit shall include enforceable alternative emissions limitations for the source reflecting the reduction which qualified the source for the compliance extension.

e. Fugitive emissions from a source shall be included in the permit in the same manner as stack emissions, regardless of whether the source category in question is included in the list of sources contained in the definition of major source.

f. For all major sources, all applicable requirements for all relevant emissions units in the major source shall be included in the permit.

**22.108(2)** Permit duration. The permit shall specify a fixed term not to exceed five years except:

- a. Permits issued to Title IV affected sources shall have a fixed term of five years.
- b. Permits issued to solid waste incineration units combusting municipal waste subject to standards under Section 129(e) of the Act shall have a term not to exceed 12 years. Such permits shall be reviewed every five years.

**22.108(3)** Monitoring. Each permit shall contain the following requirements with respect to monitoring:

a. All emissions monitoring and analysis procedures or test methods required under the applicable requirements, including any procedures and methods promulgated pursuant to Section 114(a)(3) or 504(b) of the Act;

*b.* Where the applicable requirement does not require periodic testing or instrumental or noninstrumental monitoring (which may consist of record keeping designed to serve as monitoring), periodic monitoring sufficient to yield reliable data from the relevant time period that are representative of the source's compliance with the permit, as reported pursuant to subrule 22.108(5). Such monitoring shall be determined by application of the "Periodic Monitoring Guidance" (as amended through October 24, 2012) available from the department;

*c.* As necessary, requirements concerning the use, maintenance, and, where appropriate, installation of monitoring equipment or methods; and

*d.* As required, Compliance Assurance Monitoring (CAM) consistent with 40 CFR Part 64 (as amended through October 22, 1997).

**22.108(4)** Record keeping. With respect to record keeping, the permit shall incorporate all applicable record-keeping requirements and require, where applicable, the following:

*a.* Records of required monitoring information that include the following:

- (1) The date, place as defined in the permit, and time of sampling or measurements;
- (2) The date(s) the analyses were performed;
- (3) The company or entity that performed the analyses;
- (4) The analytical techniques or methods used;
- (5) The results of such analyses; and
- (6) The operating conditions as existing at the time of sampling or measurement; and

*b.* Retention of records of all required monitoring data and support information for a period of at least five years from the date of the monitoring sample, measurement, report, or application. Support information includes all calibration and maintenance records and all original strip-chart and other recordings for continuous monitoring instrumentation, and copies of all reports required by the permit.

**22.108(5)** Reporting. With respect to reporting, the permit shall incorporate all applicable reporting requirements and shall require the following:

*a.* Submittal of reports of any required monitoring at least every six months. All instances of deviations from permit requirements must be clearly identified in such reports. All required reports must be certified by a responsible official consistent with subrule 22.107(4).

*b.* Prompt reporting of deviations from permit requirements, including those attributable to upset conditions as defined in the permit, the probable cause of such deviations, and any corrective actions or preventive measures taken. The director shall define "prompt" in relation to the degree and type of deviation likely to occur and the applicable requirements.

**22.108(6)** Risk management plan. Pursuant to Section 112(r)(7)(E) of the Act, if the source is required to develop and register a risk management plan pursuant to Section 112(r) of the Act, the permit shall state the requirement for submission of the plan to the air quality bureau of the department. The permit shall also require filing the plan with appropriate authorities and an annual certification to the department that the plan is being properly implemented.

**22.108(7)** A permit condition prohibiting emissions exceeding any allowances that the affected source lawfully holds under Title IV of the Act or the regulations promulgated thereunder.

*a.* No permit revision shall be required for increases in emissions that are authorized by allowances acquired pursuant to the acid rain program, provided that such increases do not require a permit revision under any other applicable requirement.

*b.* No limit shall be placed on the number of allowances held by the Title IV affected source. The Title IV affected source may not, however, use allowances as a defense to noncompliance with any other applicable requirement.

*c.* Any such allowances shall be accounted for according to the procedures established in regulations promulgated under Title IV of the Act.

*d.* Any permit issued pursuant to the requirements of these rules and Title V of the Act to a unit subject to the provisions of Title IV of the Act shall include conditions prohibiting all of the following:

- (1) Annual emissions of sulfur dioxide in excess of the number of allowances to emit sulfur dioxide held by the owners or operators of the unit or the designated representative of the owners or operators.
- (2) Exceedences of applicable emission rates.

- (3) The use of any allowance prior to the year for which it was allocated.
- (4) Contravention of any other provision of the permit.

**22.108(8)** Severability clause. The permit shall contain a severability clause to ensure the continued validity of the various permit requirements in the event of a challenge to any portions of the permit.

**22.108(9)** Other provisions. The Title V permit shall contain provisions stating the following:

*a.* The permittee must comply with all conditions of the Title V permit. Any permit noncompliance constitutes a violation of the Act and is grounds for enforcement action; for a permit termination, revocation and reissuance, or modification; or for denial of a permit renewal application.

*b.* Need to halt or reduce activity not a defense. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit.

*c.* The permit may be modified, revoked, reopened, and reissued, or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition.

*d.* The permit does not convey any property rights of any sort, or any exclusive privilege.

*e.* The permittee shall furnish to the director, within a reasonable time, any information that the director may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee also shall furnish to the director copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee shall furnish such records directly to the administrator of EPA along with a claim of confidentiality.

**22.108(10)** Fees. The permit shall include a provision to ensure that the Title V permittee pays fees to the director pursuant to rule 567—30.4(455B).

**22.108(11)** Emissions trading. A provision of the permit shall state that no permit revision shall be required, under any approved economic incentives, marketable permits, emissions trading and other similar programs or processes for changes that are provided for in the permit.

**22.108(12)** Terms and conditions for reasonably anticipated operating scenarios identified by the source in its application and as approved by the director. Such terms and conditions:

*a.* Shall require the source, contemporaneously with making a change from one operating scenario to another, to record in a log at the permitted facility a record of the scenario under which it is operating; and

*b.* Must ensure that the terms and conditions of each such alternative scenario meet all applicable requirements and the requirements of the department's rules.

**22.108(13)** Terms and conditions, if the permit applicant requests them, for the trading of emissions increases and decreases in the permitted facility, to the extent that the applicable requirements provide for trading such increases and decreases without a case-by-case approval of each emissions trade. Such terms and conditions:

*a.* Shall include all terms required under subrules 22.108(1) to 22.108(13) and subrule 22.108(15) to determine compliance;

*b.* Must meet all applicable requirements of the Act and regulations promulgated thereunder and all requirements of this chapter; and

*c.* May extend the permit shield described in subrule 22.108(18) to all terms and conditions that allow such increases and decreases in emissions.

**22.108(14)** Federally enforceable requirements.

*a.* All terms and conditions in a Title V permit, including any provisions designed to limit a source's potential to emit, are enforceable by the administrator and citizens under the Act.

*b.* Notwithstanding paragraph "a" of this subrule, the director shall specifically designate as not being federally enforceable under the Act any terms and conditions included in the permit that are not required under the Act or under any of its applicable requirements. Terms and conditions so designated are not subject to the requirements of 40 CFR 70.7 or 70.8 (as amended through July 21, 1992).

**22.108(15)** Compliance requirements. All Title V permits shall contain the following elements with respect to compliance:

*a.* Consistent with the provisions of subrules 22.108(3) to 22.108(5), compliance certification, testing, monitoring, reporting, and record-keeping requirements sufficient to ensure compliance with the terms and conditions of the permit. Any documents, including reports, required by a permit shall contain a certification by a responsible official that meets the requirements of subrule 22.107(4).

*b.* Inspection and entry provisions which require that, upon presentation of proper credentials, the permittee shall allow the director or the director's authorized representative to:

(1) Enter upon the permittee's premises where a Title V source is located or emissions-related activity is conducted, or where records must be kept under the conditions of the permit;

(2) Have access to and copy, at reasonable times, any records that must be kept under the conditions of the permit;

(3) Inspect, at reasonable times, any facilities, equipment (including monitoring and air pollution control equipment), practices, or operations regulated or required under the permit; and

(4) Sample or monitor, at reasonable times, substances or parameters for the purpose of ensuring compliance with the permit or other applicable requirements.

*c.* A schedule of compliance consistent with subparagraphs 22.105(2) "h" and "j" and subrule 22.105(3).

*d.* Progress reports, consistent with an applicable schedule of compliance and with the provisions of paragraphs 22.105(2) "h" and "j," to be submitted at least every six months, or more frequently if specified in the applicable requirement or by the department in the permit. Such progress reports shall contain the following:

(1) Dates for achieving the activities, milestones or compliance required in the schedule of compliance, and dates when such activities, milestones or compliance were achieved; and

(2) An explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted.

*e.* Requirements for compliance certification with terms and conditions contained in the permit, including emission limitations, standards, or work practices. Permits shall include each of the following:

(1) The frequency of submissions of compliance certifications, which shall not be less than annually.

(2) The means to monitor the compliance of the source with its emissions limitations, standards, and work practices, in accordance with the provisions of all applicable department rules.

(3) A requirement that the compliance certification include: the identification of each term or condition of the permit that is the basis of the certification; the compliance status; whether compliance was continuous or intermittent; the method(s) used for determining the compliance status of the source, currently and over the reporting period consistent with all applicable department rules; and other facts as the director may require to determine the compliance status of the source.

(4) A requirement that all compliance certifications be submitted to the administrator and the director.

*f.* Such additional provisions as the director may require.

*g.* Such additional provisions as may be specified pursuant to Sections 114(a)(3) and 504(b) of the Act.

*h.* If there is a federal implementation plan applicable to the source, a provision that compliance with the federal implementation plan is required.

#### **22.108(16) Emergency provisions.**

*a.* For the purposes of a Title V permit, an "emergency" means any situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation under the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventive maintenance, careless or improper operation, or operator error.

*b.* An emergency constitutes an affirmative defense to an action brought for noncompliance with such technology-based emission limitations if the conditions of paragraph 22.108(16) "c" are met.

*c.* Requirements for affirmative defense. The affirmative defense of emergency shall be demonstrated by the source through properly signed, contemporaneous operating logs, or other relevant evidence that:

- (1) An emergency occurred and that the permittee can identify the cause(s) of the emergency;
- (2) The permitted facility was at the time being properly operated;
- (3) During the period of the emergency the permittee took all reasonable steps to minimize levels of emissions that exceeded the emissions standards or other requirements of the permit; and
- (4) The permittee submitted notice of the emergency to the director by certified mail within two working days of the time when emission limitations were exceeded due to the emergency. This notice fulfills the requirement of paragraph 22.108(5) "b." This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

*d.* In any enforcement proceeding, the permittee seeking to establish the occurrence of an emergency has the burden of proof.

*e.* This provision is in addition to any emergency or upset provision contained in any applicable requirement.

**22.108(17) Permit reopenings.**

*a.* A Title V permit issued to a major source shall require that revisions be made to incorporate applicable standards and regulations adopted by the administrator pursuant to the Act, provided that:

- (1) The reopening and revision on this ground is not required if the permit has a remaining term of less than three years;
- (2) The reopening and revision on this ground is not required if the effective date of the requirement is later than the date on which the permit is due to expire, unless the original permit or any of its terms and conditions have been extended pursuant to 40 CFR 70.4(b)(10)(i) or (ii) as amended to May 15, 2001; or
- (3) The additional applicable requirements are implemented in a general permit that is applicable to the source and the source receives approval for coverage under that general permit.

*b.* The revisions shall be made as expeditiously as practicable, but not later than 18 months after the promulgation of such standards and regulations. Any permit revision required pursuant to this subrule shall be treated as a permit renewal.

**22.108(18) Permit shield.**

*a.* The director may expressly include in a Title V permit a provision stating that compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance, provided that:

- (1) Such applicable requirements are included and are specifically identified in the permit; or
- (2) The director, in acting on the permit application or revision, determines in writing that other requirements specifically identified are not applicable to the source, and the permit includes the determination or a concise summary thereof.

*b.* A Title V permit that does not expressly state that a permit shield exists shall be presumed not to provide such a shield.

*c.* A permit shield shall not alter or affect the following:

- (1) The provisions of Section 303 of the Act (emergency orders), including the authority of the administrator under that section;
- (2) The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance;
- (3) The applicable requirements of the acid rain program, consistent with Section 408(a) of the Act;
- (4) The ability of the department or the administrator to obtain information from the facility pursuant to Section 114 of the Act.

**22.108(19) Emission trades.** For emission trades at facilities solely for the purpose of complying with a federally enforceable emissions cap that is established in the permit independent of otherwise applicable requirements, permit applications under this provision are required to include proposed

replicable procedures and proposed permit terms that ensure the emission trades are quantifiable and enforceable.

[ARC 0330C, IAB 9/19/12, effective 10/24/12; ARC 2352C, IAB 1/6/16, effective 12/16/15]

### **567—22.109(455B) General permits.**

**22.109(1) *Applicability.*** The director may issue a general permit for multiple sources that contain a number of operations and processes which emit pollutants with similar characteristics and that have substantially similar requirements regarding emissions, operations, monitoring and record keeping. General permits shall not be issued to Title IV affected sources except as provided in regulations promulgated by the administrator under Title IV of the Act.

**22.109(2) *Issuance of general permits.*** General permits may be issued by the director and codified in this chapter following notice and opportunity for public participation consistent with the procedures contained in subrule 22.107(6). Public participation shall be provided for a new general permit, for any revision of an existing general permit, and for renewal of an existing general permit. Permit review by the administrator and affected states shall be provided consistent with subrule 22.107(7). Each general permit shall identify criteria by which sources may qualify to operate under the general permit and shall comply with all requirements applicable to other Title V permits.

**22.109(3) *Applications.*** Any source that would qualify for a general permit must apply for either (a) coverage under the terms of the general permit or (b) an individual Title V permit. Applications for authority to operate under the terms of a general permit shall be made on the “General Permit Application Form” and shall specify the general permit concerned by citing the subrule containing that general permit. These applications may deviate from the Title V individual permit application but shall include all information necessary to determine qualification for, and to ensure compliance with, the general permit. If a source is later determined not to qualify for the terms and conditions of the general permit, then the source shall be subject to enforcement action for operation without a Title V operating permit.

**22.109(4) *General permit content.*** A general permit shall include all of the following:

- a. The terms and conditions required for all sources authorized to operate under the permit;
- b. Emission limitations and standards, including those operational requirements and limitations that ensure compliance with all applicable requirements at the time of the permit issuance;
- c. A compliance plan;
- d. Monitoring, record keeping, and reporting requirements to ensure compliance with the terms and conditions of the general permit. These requirements shall ensure the use of consistent terms, test methods, units, averaging periods, and other statistical conventions consistent with the applicable emissions limitations, standards, and other requirements contained in the general permit;
- e. The requirement to submit at least every six months the results of any required monitoring;
- f. References to the authority for the term or condition;
- g. A provision specifying permit duration as a fixed term not to exceed five years;
- h. A severability clause provision pursuant to subrule 22.108(8);
- i. A provision for payment of fees pursuant to subrule 22.108(10);
- j. A provision for emissions trading pursuant to subrules 22.108(11) and 22.108(13);
- k. Other provisions pursuant to subrule 22.108(9);
- l. Statement that the Title V permit is to be kept at the site of the source as well as at the corporate offices; and
- m. The process for individual sources to apply for coverage under the general permit.

**22.109(5) *Action on general permit application.***

a. Once the director has issued a general permit, any source which is a member of the class of sources covered by the general permit may apply to the director for authority to operate under the general permit.

b. Review of a general permit application. The director shall grant the conditions and terms of a general permit to all sources that apply and qualify under the identified criteria.

c. The director may grant a source's request for authorization to operate under a general permit without repeating the public participation procedures followed in subrule 22.109(2). However, such a grant shall not be a final permit action for purposes of judicial review.

**22.109(6) *General permit renewal.*** The director shall review and may renew general permits every five years. A source's authorization to operate under a general permit shall expire when the general permit expires regardless of when the authorization began during the five-year period.

**22.109(7) *Relationship to individual permits.*** Any source covered by a general permit may request to be excluded from coverage by applying for an individual Title V permit. Coverage under the general permit shall terminate on the date the individual Title V permit is issued.

**22.109(8) *Permit shield for general permit.*** Each general permit issued under this chapter shall specifically identify all federal, state, and local air pollution control requirements applicable to the source at the time the permit is issued. The permit shall state that compliance with the conditions of the permit shall be deemed compliance with any applicable requirements as of the date of permit issuance. Any permit under this chapter that does not expressly state that a permit shield exists shall be presumed not to provide such a shield. Notwithstanding the above provisions, the source shall be subject to enforcement action for operation without a permit if the source is later determined not to qualify for the conditions and terms of the general permit.

**22.109(9) *Revocations of authority to operate.***

a. The director may require any source or a class of sources authorized to operate under a general permit to individually apply for and obtain a Title V permit at any time if:

- (1) The source is not in compliance with the terms and conditions of the general permit;
- (2) The director has determined that the emissions from the source or class of sources is contributing significantly to ambient air quality standard violations and that these emissions are not adequately addressed by the terms and conditions of the general permit; or
- (3) The director has information which indicates that the cumulative effects on human health and the environment from the sources covered under the general permit are unacceptable.

b. The director shall provide written notice to all sources operating under that general permit of the proposed revocation of that general permit. Such notice shall include an explanation of the basis for the proposed action.

**567—22.110(455B) Changes allowed without a Title V permit revision (off-permit revisions).**

**22.110(1)** A source with a Title V permit may make Section 502(b)(10) changes to the permitted installation/facility without a Title V permit revision if:

a. The changes are not major modifications under any provision of any program required by Section 110 of the Act, modifications under Section 111 of the Act, modifications under Section 112 of the Act, or major modifications of this chapter;

b. The changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions);

c. The changes are not modifications under any provision of Title I of the Act and the changes do not exceed the emissions allowable under the permit (whether expressed therein as a rate of emissions or in terms of total emissions);

d. The changes are not subject to any requirement under Title IV of the Act (revisions affecting Title IV permitting are addressed in rules 567—22.140(455B) through 567—22.144(455B));

e. The changes comply with all applicable requirements; and

f. For each such change, the permitted source provides to the department and the administrator by certified mail, at least 30 days in advance of the proposed change, a written notification, including the following, which shall be attached to the permit by the source, the department, and the administrator:

- (1) A brief description of the change within the permitted facility,
- (2) The date on which the change will occur,
- (3) Any change in emission as a result of the change,
- (4) The pollutants emitted subject to the emissions trade,

(5) If the emissions trading provisions of the state implementation plan are invoked, then the Title V permit requirements with which the source shall comply; a description of how the emission increases and decreases will comply with the terms and conditions of the Title V permit;

(6) A description of the trading of emissions increases and decreases for the purpose of complying with a federally enforceable emissions cap as specified in and in compliance with the Title V permit; and

(7) Any permit term or condition no longer applicable as a result of the change.

**22.110(2)** Such changes do not include changes that would violate applicable requirements or contravene federally enforceable permit terms and conditions that are monitoring (including test methods), record keeping, reporting, or compliance certification requirements.

**22.110(3)** Notwithstanding any other part of this rule, the director may, upon review of a notice, require a stationary source to apply for a Title V permit if the change does not meet the requirements of subrule 22.110(1).

**22.110(4)** The permit shield provided in subrule 22.108(18) shall not apply to any change made pursuant to this rule. Compliance with the permit requirements that the source will meet using the emissions trade shall be determined according to requirements of the state implementation plan authorizing the emissions trade.

**567—22.111(455B) Administrative amendments to Title V permits.**

**22.111(1)** An administrative permit amendment is a permit revision that does any of the following:

- a. Corrects typographical errors;
- b. Identifies a change in the name, address, or telephone number of any person identified in the permit, or provides a similar minor administrative change at the source;
- c. Requires more frequent monitoring or reporting by the permittee; or
- d. Allows for a change in ownership or operational control of a source where the director determines that no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittee has been submitted to the director.

**22.111(2)** Administrative permit amendments to portions of permits containing provisions pursuant to Title IV of the Act shall be governed by regulations promulgated by the administrator under Title IV of the Act.

**22.111(3)** The director shall take no more than 60 days from receipt of a request for an administrative permit amendment to take final action on such request, and may incorporate such changes without providing notice to the public or affected states provided that the director designates any such permit revisions as having been made pursuant to this rule.

**22.111(4)** The director shall submit to the administrator a copy of each Title V permit revised under this rule.

**22.111(5)** The source may implement the changes addressed in the request for an administrative amendment immediately upon submittal of the request.

**567—22.112(455B) Minor Title V permit modifications.**

**22.112(1)** Minor Title V permit modification procedures may be used only for those permit modifications that satisfy all of the following:

- a. Do not violate any applicable requirement;
- b. Do not involve significant changes to existing monitoring, reporting, or record-keeping requirements in the Title V permit;
- c. Do not require or change a case-by-case determination of an emission limitation or other standard, or an increment analysis;
- d. Do not seek to establish or change a permit term or condition for which there is no corresponding underlying applicable requirement and that the source has assumed in order to avoid an applicable requirement to which the source would otherwise be subject. Such terms and conditions include any federally enforceable emissions caps which the source would assume to avoid classification

as a modification under any provision of Title I of the Act; and an alternative emissions limit approved pursuant to regulations promulgated under Section 112(i)(5) of the Act;

- e.* Are not modifications under any provision of Title I of the Act; and
- f.* Are not required to be processed as a significant modification under rule 567—22.113(455B).

**22.112(2)** An application for minor permit revision shall be on the minor Title V modification application form and shall include at least the following:

- a.* A description of the change, the emissions resulting from the change, and any new applicable requirements that will apply if the change occurs;
- b.* The source's suggested draft permit;
- c.* Certification by a responsible official, pursuant to subrule 22.107(4), that the proposed modification meets the criteria for use of minor permit modification procedures and a request that such procedures be used; and
- d.* Completed forms to enable the department to notify the administrator and affected states as required by subrule 22.107(7).

**22.112(3)** The department shall notify the administrator and affected states within five working days of receipt of a complete permit modification application. Notification shall be in accordance with the provisions of subrule 22.107(7). The department shall promptly send to the administrator any notification required by subrule 22.107(7).

**22.112(4)** The director shall not issue a final Title V permit modification until after the administrator's 45-day review period or until the administrator has notified the director that the administrator will not object to issuance of the Title V permit modification, whichever is first. Within 90 days of the director's receipt of an application under the minor permit modification procedures, or 15 days after the end of the administrator's 45-day review period provided for in subrule 22.107(7), whichever is later, the director shall:

- a.* Issue the permit modification as proposed;
- b.* Deny the permit modification application;
- c.* Determine that the requested permit modification does not meet the minor permit modification criteria and should be reviewed under the significant modification procedures; or
- d.* Revise the draft permit modification and transmit to the administrator the proposed permit modification, as required by subrule 22.107(7).

**22.112(5)** Source's ability to make change. The source may make the change proposed in its minor permit modification application immediately after it files the application. After the source makes the change allowed by the preceding sentence, and until the director takes any of the actions specified in paragraphs 22.112(4) "a" to "c," the source must comply with both the applicable requirements governing the change and the proposed permit terms and conditions. During this time, the source need not comply with the existing permit terms and conditions it seeks to modify. However, if the source fails to comply with its proposed permit terms and conditions during this time period, the existing permit terms and conditions it seeks to modify may be enforced against it.

**22.112(6)** Permit shield. The permit shield under subrule 22.108(18) shall not extend to minor Title V permit revisions.

#### **567—22.113(455B) Significant Title V permit modifications.**

**22.113(1)** Significant Title V modification procedures shall be used for applications requesting Title V permit modifications that do not qualify as minor Title V modifications or as administrative amendments. These include, but are not limited to, all significant changes in monitoring permit terms, every relaxation of reporting or record-keeping permit terms, and any change in the method of measuring compliance with existing requirements.

**22.113(2)** Significant Title V permit modifications shall meet all requirements of this chapter, including those for applications, public participation, review by affected states, and review by the administrator, as those requirements that apply to Title V permit issuance and renewal.

**22.113(3)** Unless the director determines otherwise, review of significant Title V permit modification applications shall be completed within nine months of receipt of a complete application.

**22.113(4)** For a change that is subject to the requirements for a significant permit modification (see rule 567—22.113(455B)), the permittee shall submit to the department an application for a significant permit modification not later than three months after commencing operation of the changed source unless the existing Title V permit would prohibit such construction or change in operation, in which event the operation of the changed source may not commence until the department revises the permit.

**567—22.114(455B) Title V permit reopenings.**

**22.114(1)** Each issued Title V permit shall include provisions specifying the conditions under which the permit may be reopened and revised prior to the expiration of the permit. A permit shall be reopened and revised under any of the following circumstances:

*a.* The department receives notice that the administrator has granted a petition for disapproval of a permit pursuant to 40 CFR 70.8(d) as amended to July 21, 1992, provided that the reopening may be stayed pending judicial review of that determination;

*b.* The department or the administrator determines that the Title V permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of the Title V permit;

*c.* Additional applicable requirements under the Act become applicable to a Title V source, provided that the reopening on this ground is not required if the permit has a remaining term of less than three years, the effective date of the requirement is later than the date on which the permit is due to expire, or the additional applicable requirements are implemented in a general permit that is applicable to the source and the source receives approval for coverage under that general permit. Such a reopening shall be complete not later than 18 months after promulgation of the applicable requirement.

*d.* Additional requirements, including excess emissions requirements, become applicable to a Title IV affected source under the acid rain program. Upon approval by the administrator, excess emissions offset plans shall be deemed to be incorporated into the permit.

*e.* The department or the administrator determines that the permit must be revised or revoked to ensure compliance by the source with the applicable requirements.

**22.114(2)** Proceedings to reopen and reissue a Title V permit shall follow the procedures applicable to initial permit issuance and shall affect only those parts of the permit for which cause to reopen exists.

**22.114(3)** A notice of intent shall be provided to the Title V source at least 30 days in advance of the date the permit is to be reopened, except that the director may provide a shorter time period in the case of an emergency.

**22.114(4)** Within 90 days of receipt of a notice from the administrator that cause exists to reopen a permit, the director shall forward to the administrator and the source a proposed determination of termination, modification, revocation, or reissuance of the permit, as appropriate.

**567—22.115(455B) Suspension, termination, and revocation of Title V permits.**

**22.115(1)** Permits may be terminated, modified, revoked, or reissued for cause. The following examples shall be considered cause for the suspension, modification, revocation, or reissuance of a Title V permit:

*a.* The director has reasonable cause to believe that the permit was obtained by fraud or misrepresentation.

*b.* The person applying for the permit failed to disclose a material fact required by the permit application form or the rules applicable to the permit, of which the applicant had or should have had knowledge at the time the application was submitted.

*c.* The terms and conditions of the permit have been or are being violated.

*d.* The permittee has failed to pay the Title V permit fees.

*e.* The permittee has failed to pay an administrative, civil or criminal penalty imposed for violations of the permit.

**22.115(2)** If the director suspends, terminates or revokes a Title V permit under this rule, the notice of such action shall be served on the applicant or permittee by certified mail, return receipt requested.

The notice shall include a statement detailing the grounds for the action sought, and the proceeding shall in all other respects comply with the requirements of rule 561—7.16(17A,455A).

**567—22.116(455B) Title V permit renewals.**

**22.116(1)** An application for Title V permit renewal shall be subject to the same procedural requirements that apply to initial permit issuance, including those for public participation and review by the administrator and affected states.

**22.116(2)** Except as provided in rule 567—22.104(455B), permit expiration terminates a source's right to operate unless a timely and complete application for renewal has been submitted in accordance with rule 567—22.105(455B).

**567—22.117 to 22.119** Reserved.

**567—22.120(455B) Acid rain program—definitions.** The terms used in rules 567—22.120(455B) through 567—22.147(455B) shall have the meanings set forth in Title IV of the Clean Air Act, 42 U.S.C. 7401, et seq., as amended through November 15, 1990, and in this rule. The definitions set forth in 40 CFR Part 72 as amended through January 24, 2008, and 40 CFR Part 76 as amended through October 15, 1999, are adopted by reference.

“40 CFR Part 72,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 72, or the cited provision therein, as amended through January 24, 2008.

“40 CFR Part 73,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 73, or the cited provision therein, as amended through April 28, 2006.

“40 CFR Part 74,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 74, or the cited provision therein, as amended through April 28, 2006.

“40 CFR Part 75,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 75, or the cited provision therein, as amended through February 13, 2008.

“40 CFR Part 76,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 76, or the cited provision therein, as amended through October 15, 1999.

“40 CFR Part 77,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 77, or the cited provision therein, as amended through May 12, 2005.

“40 CFR Part 78,” or any cited provision therein, shall mean 40 Code of Federal Regulations Part 78, or the cited provision therein, as amended through April 28, 2006.

“*Acid rain permit*” means the legally binding written document, or portion of such document, issued by the department (following an opportunity for appeal as set forth in 561—Chapter 7, as adopted by reference at 567—Chapter 7), including any permit revisions, specifying the acid rain program requirements applicable to an affected source, to each affected unit at an affected source, and to the owner and operators and the designated representative of the affected source or the affected unit.

“*Department*” means the department of natural resources and is the state acid rain permitting authority.

“*Draft acid rain permit*” means the version of the acid rain permit, or the acid rain portion of a Title V operating permit, that the department offers for public comment.

“*Permit revision*” means a permit modification, fast-track modification, administrative permit amendment, or automatic permit amendment, as provided in rules 567—22.140(455B) through 567—22.144(455B).

“*Proposed acid rain permit*” means the version of the acid rain permit that the department submits to the Administrator after the public comment period, but prior to completion of the EPA permit review under 40 CFR 70.8(c) as amended through July 21, 1992.

“*Title V operating permit*” means a permit issued under rules 567—22.100(455B) through 567—22.116(455B) implementing Title V of the Act.

“*Ton*” or “*tonnage*” means any short ton (i.e., 2,000 pounds). For purposes of determining compliance with the acid rain emissions limitations and reduction requirements, total tons for a year shall be calculated as the sum of all recorded hourly emissions (or the tonnage equivalent of the

recorded hourly emissions) in accordance with rule 567—25.2(455B), with any remaining fraction of a ton equal to or greater than 0.50 ton deemed to equal one ton and any fraction of a ton less than 0.50 ton deemed not equal to a ton.

**567—22.121(455B) Measurements, abbreviations, and acronyms.** Measurements, abbreviations, and acronyms used in rules 567—22.120(455B) to 567—22.147(455B) are defined as follows:

“*ASTM*” means American Society for Testing and Materials.

“*Btu*” means British thermal unit.

“*CFR*” means Code of Federal Regulations.

“*DOE*” means Department of Energy.

“*EPA*” means Environmental Protection Agency.

“*mmBtu*” means million Btu.

“*MWe*” means megawatt electrical.

“*SO<sub>2</sub>*” means sulfur dioxide.

**567—22.122(455B) Applicability.**

**22.122(1)** Each of the following units shall be an affected unit, and any source that includes such a unit shall be an affected source, subject to the requirements of the acid rain program:

- a. A unit listed in Table 1 of 40 CFR 73.10(a).
- b. An existing unit that is identified in Table 2 or 3 of 40 CFR 73.10, and any other existing utility unit, except a unit under subrule 22.122(2).
- c. A utility unit, except a unit under subrule 22.122(2), that:
  - (1) Is a new unit;
  - (2) Did not serve a generator with a nameplate capacity greater than 25 MWe on November 15, 1990, but serves such a generator after November 15, 1990;
  - (3) Was a simple combustion turbine on November 15, 1990, but adds or uses auxiliary firing after November 15, 1990;
  - (4) Was an exempt cogeneration facility under paragraph 22.122(2)“*d*” but during any three-calendar-year period after November 15, 1990, sold, to a utility power distribution system, an annual average of more than one-third of its potential electrical output capacity and more than 219,000 MWe-hrs electric output, on a gross basis;
  - (5) Was an exempt qualifying facility under paragraph 22.122(2)“*e*” but, at any time after the later of November 15, 1990, or the date the facility commences commercial operation, fails to meet the definition of qualifying facility;
  - (6) Was an exempt independent power production facility under paragraph 22.122(2)“*f*” but, at any time after the later of November 15, 1990, or the date the facility commences commercial operation, fails to meet the definition of independent power production facility; or
  - (7) Was an exempt solid waste incinerator under paragraph 22.122(2)“*g*” but during any three-calendar-year period after November 15, 1990, consumes 20 percent or more (on a Btu basis) fossil fuel.
  - (8) Is a coal-fired substitution unit that is designated in a substitution plan that was not approved and not active as of January 1, 1995, or is a coal-fired compensating unit.

**22.122(2)** The following types of units are not affected units subject to the requirements of the acid rain program:

- a. A simple combustion turbine that commenced operation before November 15, 1990.
- b. Any unit that commenced commercial operation before November 15, 1990, and that did not, as of November 15, 1990, and does not currently, serve a generator with a nameplate capacity of greater than 25 MWe.
- c. Any unit that, during 1985, did not serve a generator that produced electricity for sale and that did not, as of November 15, 1990, and does not currently, serve a generator that produces electricity for sale.
- d. A cogeneration facility which:

(1) For a unit that commenced construction on or prior to November 15, 1990, was constructed for the purpose of supplying equal to or less than one-third its potential electrical output capacity or equal to or less than 219,000 MWe-hrs actual electric output on an annual basis to any utility power distribution system for sale (on a gross basis). If the purpose of construction is not known, it will be presumed to be consistent with the actual operation from 1985 through 1987. However, if in any three-calendar-year period after November 15, 1990, such unit sells to a utility power distribution system an annual average of more than one-third of its potential electrical output capacity and more than 219,000 MWe-hrs actual electric output (on a gross basis), that unit shall be an affected unit, subject to the requirements of the acid rain program; or

(2) For units that commenced construction after November 15, 1990, supplies equal to or less than one-third its potential electrical output capacity or equal to or less than 219,000 MWe-hrs actual electric output on an annual basis to any utility power distribution system for sale (on a gross basis). However, if in any three-calendar-year period after November 15, 1990, such unit sells to a utility power distribution system an annual average of more than one-third of its potential electrical output capacity and more than 219,000 MWe-hrs actual electric output (on a gross basis), that unit shall be an affected unit, subject to the requirements of the acid rain program.

*e.* A qualifying facility that:

(1) Has, as of November 15, 1990, one or more qualifying power purchase commitments to sell at least 15 percent of its total planned net output capacity; and

(2) Consists of one or more units designated by the owner or operator with total installed net output capacity not exceeding 130 percent of the total planned net output capacity. If the emissions rates of the units are not the same, the administrator may exercise discretion to designate which units are exempt.

*f.* An independent power production facility that:

(1) Has, as of November 15, 1990, one or more qualifying power purchase commitments to sell at least 15 percent of its total planned net output capacity; and

(2) Consists of one or more units designated by the owner or operator with total installed net output capacity not exceeding 130 percent of its total planned net output capacity. If the emissions rates of the units are not the same, the administrator may exercise discretion to designate which units are exempt.

*g.* A solid waste incinerator, if more than 80 percent (on a Btu basis) of the annual fuel consumed at such incinerator is other than fossil fuels. For a solid waste incinerator which began operation before January 1, 1985, the average annual fuel consumption of nonfossil fuels for calendar years 1985 through 1987 must be greater than 80 percent for such an incinerator to be exempt. For a solid waste incinerator which began operation after January 1, 1985, the average annual fuel consumption of nonfossil fuels for the first three years of operation must be greater than 80 percent for such an incinerator to be exempt. If, during any three-calendar-year period after November 15, 1990, such incinerator consumes 20 percent or more (on a Btu basis) fossil fuel, such incinerator will be an affected source under the acid rain program.

*h.* A nonutility unit.

**22.122(3)** A certifying official of any unit may petition the administrator for a determination of applicability under 40 CFR 72.6(c). The administrator's determination of applicability shall be binding upon the department, unless the petition is found to have contained significant errors or omissions.

**567—22.123(455B) Acid rain exemptions.**

**22.123(1)** *New unit exemption.* The new unit exemption, as specified in 40 CFR §72.7, except for 40 CFR §72.7(c)(1)(i), is adopted by reference. This exemption applies to new utility units.

**22.123(2)** *Retired unit exemption.* The retired unit exemption, as specified in 40 CFR §72.8, is adopted by reference. This exemption applies to any affected unit that is permanently retired.

**22.123(3)** *Industrial utility-unit exemption.* The industrial utility-unit exemption, as specified in 40 CFR §72.14, is adopted by reference. This exemption applies to any noncogeneration utility unit.

**567—22.124(455B) Retired units exemption.** Rescinded IAB 9/9/98, effective 10/14/98.

**567—22.125(455B) Standard requirements.****22.125(1) Permit requirements.**

*a.* The designated representative of each affected source and each affected unit at the source shall:

(1) Submit a complete acid rain permit application under this chapter in accordance with the deadlines specified in rule 567—22.128(455B);

(2) Submit in a timely manner any supplemental information that the department determines is necessary in order to review an acid rain permit application and issue or deny an acid rain permit.

*b.* The owners and operators of each affected source and each affected unit at the source shall:

(1) Operate the unit in compliance with a complete acid rain permit application or a superseding acid rain permit issued by the department; and

(2) Have an acid rain permit.

**22.125(2) Monitoring requirements.**

*a.* The owners and operators and, to the extent applicable, designated representative of each affected source and each affected unit at the source shall comply with the monitoring requirements as provided in rule 567—25.2(455B) and Section 407 of the Act and regulations implementing Section 407 of the Act.

*b.* The emissions measurements recorded and reported in accordance with rule 567—25.2(455B) and Section 407 of the Act and regulations implementing Section 407 of the Act shall be used to determine compliance by the unit with the acid rain emissions limitations and emissions reduction requirements for sulfur dioxide and nitrogen oxides under the acid rain program.

*c.* The requirements of rule 567—25.2(455B) and regulations implementing Section 407 of the Act shall not affect the responsibility of the owners and operators to monitor emissions of other pollutants or other emissions characteristics at the unit under other applicable requirements of the Act and other provisions of the operating permit for the source.

**22.125(3) Sulfur dioxide requirements.**

*a.* The owners and operators of each source and each affected unit at the source shall:

(1) Hold allowances, as of the allowance transfer deadline, in the unit's compliance subaccount (after deductions under 40 CFR 73.34(c)) not less than the total annual emissions of sulfur dioxide for the previous calendar year from the unit; and

(2) Comply with the applicable acid rain emissions limitation for sulfur dioxide.

*b.* Each ton of sulfur dioxide emitted in excess of the acid rain emissions limitations for sulfur dioxide shall constitute a separate violation of the Act.

*c.* An affected unit shall be subject to the requirements under paragraph 22.125(3) "a" as follows: starting January 1, 2000, an affected unit under paragraph 22.122(1) "b"; or starting on the later of January 1, 2000, or the deadline for monitor certification under rule 567—25.2(455B), an affected unit under paragraph 22.122(1) "c."

*d.* Allowances shall be held in, deducted from, or transferred among allowance tracking system accounts in accordance with the acid rain program.

*e.* An allowance shall not be deducted, in order to comply with the requirements under paragraph 22.125(3) "a," prior to the calendar year for which the allowance was allocated.

*f.* An allowance allocated by the administrator under the acid rain program is a limited authorization to emit sulfur dioxide in accordance with the acid rain program. No provision of the acid rain program, the acid rain permit application, the acid rain permit, or the written exemption under rules 567—22.123(455B) and 567—22.124(455B) and no provision of law shall be construed to limit the authority of the United States to terminate or limit such authorization.

*g.* An allowance allocated by the administrator under the acid rain program does not constitute a property right.

**22.125(4) Nitrogen oxides requirements.** The owners and operators of the source and each affected unit at the source shall comply with the applicable acid rain emission limitation for nitrogen oxides, as specified in 40 CFR Sections 76.5 and 76.7; 76.6; and 76.8, 76.11, 76.12, and 76.15; or by alternative emission limitations provided for by 40 CFR 76.10, as long as the alternative emission limitation has been petitioned and demonstrated according to 40 CFR 76.14 and approved by the department.

**22.125(5) Excess emissions requirements.**

a. The designated representative of an affected unit that has excess emissions in any calendar year shall submit a proposed offset plan to the administrator, as required under 40 CFR Part 77, and submit a copy to the department.

b. The owners and operators of an affected unit that has excess emissions in any calendar year shall:

(1) Pay to the administrator without demand the penalty required, and pay to the administrator upon demand the interest on that penalty, as required by 40 CFR Part 77; and

(2) Comply with the terms of an approved offset plan, as required by 40 CFR Part 77.

**22.125(6) Record-keeping and reporting requirements.**

a. Unless otherwise provided, the owners and operators of the source and each affected unit at the source shall keep on site at the source each of the following documents for a period of five years from the date the document is created. This period may be extended for cause, at any time prior to the end of five years, in writing by the administrator or the department.

(1) The certificate of representation for the designated representative for the source and each affected unit at the source and all documents that demonstrate the truth of the statements in the certificate of representation, in accordance with 40 CFR 72.24; provided that the certificate and documents shall be retained on site at the source beyond such five-year period until such documents are superseded because of the submission of a new certificate of representation changing the designated representative.

(2) All emissions monitoring information, in accordance with rule 567—25.2(455B).

(3) Copies of all reports, compliance certifications, and other submissions and all records made or required under the acid rain program.

(4) Copies of all documents used to complete an acid rain permit application and any other submission under the acid rain program or to demonstrate compliance with the requirements of the acid rain program.

b. The designated representative of an affected source and each affected unit at the source shall submit the reports and compliance certifications required under the acid rain program, including those under rules 567—22.146(455B) and 567—22.147(455B) and rule 567—25.2(455B).

**22.125(7) Liability.**

a. Any person who knowingly violates any requirement or prohibition of the acid rain program, a complete acid rain permit application, an acid rain permit, or a written exemption under rules 567—22.123(455B) or 567—22.124(455B), including any requirement for the payment of any penalty owed to the United States, shall be subject to enforcement by the administrator pursuant to Section 113(c) of the Act and by the department pursuant to Iowa Code section 455B.146.

b. Any person who knowingly makes a false, material statement in any record, submission, or report under the acid rain program shall be subject to criminal enforcement by the administrator pursuant to Section 113(c) of the Act and 18 U.S.C. 1001 and by the department pursuant to Iowa Code section 455B.146.

c. No permit revision shall excuse any violation of the requirements of the acid rain program that occurs prior to the date that the revision takes effect.

d. Each affected source and each affected unit shall meet the requirements of the acid rain program.

e. Any provision of the acid rain program that applies to an affected source (including a provision applicable to the designated representative of an affected source) shall also apply to the owners and operators of such source and of the affected units at the source.

f. Any provision of the acid rain program that applies to an affected unit (including a provision applicable to the designated representative of an affected unit) shall also apply to the owners and operators of such unit. Except as provided under rule 567—22.132(455B) (Phase II repowering extension plans), Section 407 of the Act and regulations implementing Section 407 of the Act, and except with regard to the requirements applicable to units with a common stack under rule 567—25.2(455B), the owners and operators and the designated representative of one affected unit shall not be liable for any violation by any other affected unit of which they are not owners or operators or

the designated representative and that is located at a source of which they are not owners or operators or the designated representative.

*g.* Each violation of a provision of rules 567—22.120(455B) to 567—22.146(455B) and 40 CFR Parts 72, 73, 75, 76, 77, and 78 and regulations implementing Sections 407 and 410 of the Act by an affected source or affected unit, or by an owner or operator or designated representative of such source or unit, shall be a separate violation of the Act.

**22.125(8) *Effect on other authorities.*** No provision of the acid rain program, an acid rain permit application, an acid rain permit, or a written exemption under rule 567—22.123(455B) or 567—22.124(455B) shall be construed as:

*a.* Except as expressly provided in Title IV of the Act, exempting or excluding the owners and operators and, to the extent applicable, the designated representative of an affected source or affected unit from compliance with any other provision of the Act, including the provisions of Title I of the Act relating to applicable National Ambient Air Quality Standards or State Implementation Plans;

*b.* Limiting the number of allowances a unit can hold; provided that the number of allowances held by the unit shall not affect the source's obligation to comply with any other provisions of the Act;

*c.* Requiring a change of any kind in any state law regulating electric utility rates and charges, affecting any state law regarding such state rule, or limiting such state rule, including any prudence review requirements under such state law;

*d.* Modifying the Federal Power Act or affecting the authority of the Federal Energy Regulatory Commission under the Federal Power Act; or

*e.* Interfering with or impairing any program for competitive bidding for power supply in a state in which such program is established.

**567—22.126(455B) Designated representative—submissions.**

**22.126(1)** The designated representative shall submit a certificate of representation, and any superseding certificate of representation, to the administrator in accordance with Subpart B of 40 CFR Part 72, and, concurrently, shall submit a copy to the department. Whenever the term “designated representative” is used in this rule, the term shall be construed to include the alternate designated representative.

**22.126(2)** Each submission under the acid rain program shall be submitted, signed, and certified by the designated representative for all sources on behalf of which the submission is made.

**22.126(3)** In each submission under the acid rain program, the designated representative shall certify by signature:

*a.* The following statement, which shall be included verbatim in such submission: “I am authorized to make this submission on behalf of the owners and operators of the affected source or affected units for which the submission is made.”

*b.* The following statement, which shall be included verbatim in such submission: “I certify under penalty of law that I have personally examined, and am familiar with, the statements and information submitted in this document and all its attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false statements and information or omitting required statements and information, including the possibility of fine or imprisonment.”

**22.126(4)** The department will accept or act on a submission made on behalf of owners or operators of an affected source and an affected unit only if the submission has been made, signed, and certified in accordance with subrules 22.126(2) and 22.126(3).

**22.126(5)** The designated representative of a source shall serve notice on each owner and operator of the source and of an affected unit at the source:

*a.* By the date of submission, of any acid rain program submissions by the designated representative;

*b.* Within ten business days of receipt of a determination, of any written determination by the administrator or the department; and

*c.* Provided that the submission or determination covers the source or the unit.

**22.126(6)** The designated representative of a source shall provide each owner and operator of an affected unit at the source a copy of any submission or determination under subrule 22.126(5), unless the owner or operator expressly waives the right to receive such a copy.

**567—22.127(455B) Designated representative—objections.**

**22.127(1)** Except as provided in 40 CFR 72.23, no objection or other communication submitted to the administrator or the department concerning the authorization, or any submission, action or inaction, of the designated representative shall affect any submission, action, or inaction of the designated representative, or the finality of any decision by the department, under the acid rain program. In the event of such communication, the department is not required to stay any submission or the effect of any action or inaction under the acid rain program.

**22.127(2)** The department will not adjudicate any private legal dispute concerning the authorization or any submission, action, or inaction of any designated representative, including private legal disputes concerning the proceeds of allowance transfers.

**567—22.128(455B) Acid rain applications—requirement to apply.**

**22.128(1) *Duty to apply.*** The designated representative of any source with an affected unit shall submit a complete acid rain permit application by the applicable deadline in subrules 22.128(2) and 22.128(3), and the owners and operators of such source and any affected unit at the source shall not operate the source or unit without a permit that states its acid rain program requirements.

**22.128(2) *Deadlines.***

*a.* For any source with an existing unit described under paragraph 22.122(1)“*b*,” the designated representative shall submit a complete acid rain permit application governing such unit to the department on or before January 1, 1996.

*b.* For any source with a new unit described under subparagraph 22.122(1)“*c*”(1), the designated representative shall submit a complete acid rain permit application governing such unit to the department at least 24 months before the later of January 1, 2000, or the date on which the unit commences operation.

*c.* For any source with a unit described under subparagraph 22.122(1)“*c*”(2), the designated representative shall submit a complete acid rain permit application governing such unit to the department at least 24 months before the later of January 1, 2000, or the date on which the unit begins to serve a generator with a nameplate capacity greater than 25 MWe.

*d.* For any source with a unit described under subparagraph 22.122(1)“*c*”(3), the designated representative shall submit a complete acid rain permit application governing such unit to the department at least 24 months before the later of January 1, 2000, or the date on which the auxiliary firing commences operation.

*e.* For any source with a unit described under subparagraph 22.122(1)“*c*”(4), the designated representative shall submit a complete acid rain permit application governing such unit to the department before the later of January 1, 1998, or March 1 of the year following the three-calendar-year period in which the unit sold to a utility power distribution system an annual average of more than one-third of its potential electrical output capacity and more than 219,000 MWe-hrs actual electric output (on a gross basis).

*f.* For any source with a unit described under subparagraph 22.122(1)“*c*”(5), the designated representative shall submit a complete acid rain permit application governing such unit to the department before the later of January 1, 1998, or March 1 of the year following the calendar year in which the facility fails to meet the definition of qualifying facility.

*g.* For any source with a unit described under subparagraph 22.122(1)“*c*”(6), the designated representative shall submit a complete acid rain permit application governing such unit to the department before the later of January 1, 1998, or March 1 of the year following the calendar year in which the facility fails to meet the definition of an independent power production facility.

*h.* For any source with a unit described under subparagraph 22.122(1)“*c*”(7), the designated representative shall submit a complete acid rain permit application governing such unit to the department

before the later of January 1, 1998, or March 1 of the year following the three-calendar-year period in which the incinerator consumed 20 percent or more fossil fuel (on a Btu basis).

*i.* For a Phase II unit with a Group 1 or a Group 2 boiler, the designated representative shall submit a complete permit application and compliance plan for NO<sub>x</sub> emissions to the department no later than January 1, 1998.

**22.128(3) *Duty to reapply.*** The designated representative shall submit a complete acid rain permit application for each source with an affected unit at least six months prior to the expiration of an existing acid rain permit governing the unit.

**22.128(4) *Submission of copies.*** The original and three copies of all permit applications shall be presented or mailed to the Air Quality Bureau, Iowa Department of Natural Resources, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324.

[ARC 8215B, IAB 10/7/09, effective 11/11/09]

**567—22.129(455B) Information requirements for acid rain permit applications.** A complete acid rain permit application shall be submitted on a form approved by the department, which includes the following elements:

**22.129(1)** Identification of the affected source for which the permit application is submitted;

**22.129(2)** Identification of each affected unit at the source for which the permit application is submitted;

**22.129(3)** A complete compliance plan for each unit, in accordance with rules 567—22.131(455B) and 567—22.132(455B);

**22.129(4)** The standard requirements under rule 567—22.125(455B); and

**22.129(5)** If the unit is a new unit, the date that the unit has commenced or will commence operation and the deadline for monitor certification.

**567—22.130(455B) Acid rain permit application shield and binding effect of permit application.**

**22.130(1)** Once a designated representative submits a timely and complete acid rain permit application, the owners and operators of the affected source and the affected units covered by the permit application shall be deemed in compliance with the requirement to have an acid rain permit under paragraph 22.125(1) “b” and subrule 22.128(1); provided that any delay in issuing an acid rain permit is not caused by the failure of the designated representative to submit in a complete and timely fashion supplemental information, as required by the department, necessary to issue a permit.

**22.130(2)** Prior to the date on which an acid rain permit is issued as a final agency action subject to judicial review, an affected unit governed by and operated in accordance with the terms and requirements of a timely and complete acid rain permit application shall be deemed to be operating in compliance with the acid rain program.

**22.130(3)** A complete acid rain permit application shall be binding on the owners and operators and the designated representative of the affected source and the affected units covered by the permit application and shall be enforceable as an acid rain permit from the date of submission of the permit application until the issuance or denial of such permit as a final agency action subject to judicial review.

**567—22.131(455B) Acid rain compliance plan and compliance options—general.**

**22.131(1)** For each affected unit included in an acid rain permit application, a complete compliance plan shall include:

*a.* For sulfur dioxide emissions, a certification that, as of the allowance transfer deadline, the designated representative will hold allowances in the unit’s compliance subaccount (after deductions under 40 CFR 73.34(c)) not less than the total annual emissions of sulfur dioxide from the unit. The compliance plan may also specify, in accordance with rule 567—22.131(455B), one or more of the acid rain compliance options.

*b.* For nitrogen oxides emissions, a certification that the unit will comply with the applicable limitation established by subrule 22.125(4) or shall specify one or more acid rain compliance options, in accordance with Section 407 of the Act, and 40 CFR Section 76.9.

**22.131(2)** The compliance plan may include a multiunit compliance option under rule 567—22.132(455B) or Section 407 of the Act or regulations implementing Section 407.

*a.* A plan for a compliance option that includes units at more than one affected source shall be complete only if:

(1) Such plan is signed and certified by the designated representative for each source with an affected unit governed by such plan; and

(2) A complete permit application is submitted covering each unit governed by such plan.

*b.* The department's approval of a plan under paragraph 22.131(2) "a" that includes units in more than one state shall be final only after every permitting authority with jurisdiction over any such unit has approved the plan with the same modifications or conditions, if any.

**22.131(3)** Conditional approval. In the compliance plan, the designated representative of an affected unit may propose, in accordance with rules 567—22.131(455B) and 567—22.132(455B), any acid rain compliance option for conditional approval; provided that an acid rain compliance option under Section 407 of the Act may be conditionally proposed only to the extent provided in regulations implementing Section 407 of the Act.

*a.* To activate a conditionally approved acid rain compliance option, the designated representative shall notify the department in writing that the conditionally approved compliance option will actually be pursued beginning January 1 of a specified year. If the conditionally approved compliance option includes a plan described in paragraph 22.131(2) "a," the designated representative of each source governed by the plan shall sign and certify the notification. Such notification shall be subject to the limitations on activation under rule 567—22.132(455B) and regulations implementing Section 407 of the Act.

*b.* The notification under paragraph 22.131(3) "a" shall specify the first calendar year and the last calendar year for which the conditionally approved acid rain compliance option is to be activated. A conditionally approved compliance option shall be activated, if at all, before the date of any enforceable milestone applicable to the compliance option. The date of activation of the compliance option shall not be a defense against failure to meet the requirements applicable to that compliance option during each calendar year for which the compliance option is activated.

*c.* Upon submission of a notification meeting the requirements of paragraphs 22.131(3) "a" and "b," the conditionally approved acid rain compliance option becomes binding on the owners and operators and the designated representative of any unit governed by the conditionally approved compliance option.

*d.* A notification meeting the requirements of paragraphs 22.131(3) "a" and "b" will revise the unit's permit in accordance with rule 567—22.143(455B) (administrative permit amendment).

**22.131(4)** Termination of compliance option.

*a.* The designated representative for a unit may terminate an acid rain compliance option by notifying the department in writing that an approved compliance option will be terminated beginning January 1 of a specified year. Such notification shall be subject to the limitations on termination under rule 567—22.132(455B) and regulations implementing Section 407 of the Act. If the compliance option includes a plan described in paragraph 22.131(2) "a," the designated representative for each source governed by the plan shall sign and certify the notification.

*b.* The notification under paragraph 22.131(4) "a" shall specify the calendar year for which the termination will take effect.

*c.* Upon submission of a notification meeting the requirements of paragraphs 22.131(4) "a" and "b," the termination becomes binding on the owners and operators and the designated representative of any unit governed by the acid rain compliance option to be terminated.

*d.* A notification meeting the requirements of paragraphs 22.131(4) "a" and "b" will revise the unit's permit in accordance with rule 567—22.143(455B) (administrative permit amendment).

**567—22.132(455B) Repowering extensions.** Rescinded IAB 4/8/98, effective 5/13/98.

**567—22.133(455B) Acid rain permit contents—general.**

**22.133(1)** Each acid rain permit (including any draft acid rain permit) will contain the following elements:

- a. All elements required for a complete acid rain permit application under rule 567—22.129(455B), as approved or adjusted by the department;
- b. The applicable acid rain emissions limitation for sulfur dioxide; and
- c. The applicable acid rain emissions limitation for nitrogen oxides.

**22.133(2)** Each acid rain permit is deemed to incorporate the definitions of terms under rule 567—22.120(455B).

**567—22.134(455B) Acid rain permit shield.** Each affected unit operated in accordance with the acid rain permit that governs the unit and that was issued in compliance with Title IV of the Act, as provided in rules 567—22.120(455B) to 567—22.146(455B), rule 567—25.2(455B), or 40 CFR Parts 72, 73, 75, 76, 77, and 78, and the regulations implementing Section 407 of the Act, shall be deemed to be operating in compliance with the acid rain program, except as provided in paragraph 22.125(7) “f.”

**567—22.135(455B) Acid rain permit issuance procedures—general.** The department will issue or deny all acid rain permits in accordance with rules 567—22.100(455B) to 567—22.116(455B), including the completeness determination, draft permit, administrative record, statement of basis, public notice and comment period, public hearing, proposed permit, permit issuance, permit revision, and appeal procedures as amended by rules 567—22.135(455B) to 567—22.145(455B).

**567—22.136(455B) Acid rain permit issuance procedures—completeness.** The department will submit a written notice of application completeness to the administrator within ten working days following a determination by the department that the acid rain permit application is complete.

**567—22.137(455B) Acid rain permit issuance procedures—statement of basis.**

**22.137(1)** The statement of basis will briefly set forth significant factual, legal, and policy considerations on which the department relied in issuing or denying the draft acid rain permit.

**22.137(2)** The statement of basis will include the reasons, and supporting authority, for approval or disapproval of any compliance options requested in the permit application, including references to applicable statutory or regulatory provisions and to the administrative record.

**22.137(3)** The department will submit to the administrator a copy of the draft acid rain permit and the statement of basis and all other relevant portions of the Title V operating permit that may affect the draft acid rain permit.

**567—22.138(455B) Issuance of acid rain permits.**

**22.138(1)** Proposed permit. After the close of the public comment and EPA 45-day review period (pursuant to subrules 22.107(6) and 22.107(7)), the department will address any objections by the administrator, incorporate all necessary changes and issue or deny the acid rain permit.

**22.138(2)** The department will submit the proposed acid rain permit or denial of a proposed acid rain permit to the administrator in accordance with rules 567—22.100(455B) to 567—22.116(455B), the provisions of which shall be treated as applying to the issuance or denial of a proposed acid rain permit.

**22.138(3)** Following the administrator’s review of the proposed acid rain permit or denial of a proposed acid rain permit, the department, or under 40 CFR 70.8(c) as amended to July 21, 1992, the administrator, will incorporate any required changes and issue or deny the acid rain permit in accordance with rules 567—22.133(455B) and 567—22.134(455B).

**22.138(4)** No acid rain permit including a draft or proposed permit shall be issued unless the administrator has received a certificate of representation for the designated representative of the source in accordance with Subpart B of 40 CFR Part 72.

**22.138(5)** Permit issuance deadline and effective date.

*a.* On or before December 31, 1997, the department will issue an acid rain permit to each affected source whose designated representative submitted a timely and complete acid rain permit application by January 1, 1996, in accordance with rule 567—22.126(455B) and meets the requirements of rules 567—22.135(455B) to 567—22.139(455B) and rules 567—22.100(455B) to 567—22.116(455B).

*b.* Nitrogen oxides. Not later than January 1, 1999, the department will reopen the acid rain permit to add the acid rain program nitrogen oxides requirements; provided that the designated representative of the affected source submitted a timely and complete acid rain permit application for nitrogen oxides in accordance with rule 567—22.126(455B). Such reopening shall not affect the term of the acid rain portion of a Title V operating permit.

*c.* Each acid rain permit issued in accordance with paragraph 22.138(5) “*a*” shall take effect by the later of January 1, 2000, or, where the permit governs a unit under paragraph 22.122(1) “*c*,” the deadline for monitor certification under rule 567—25.2(455B).

*d.* Each acid rain permit shall have a term of five years commencing on its effective date.

*e.* An acid rain permit shall be binding on any new owner or operator or designated representative of any source or unit governed by the permit.

**22.138(6)** Each acid rain permit shall contain all applicable acid rain requirements, shall be a portion of the Title V operating permit that is complete and segregable from all other air quality requirements, and shall not incorporate information contained in any other documents, other than documents that are readily available.

**22.138(7)** Invalidation of the acid rain portion of a Title V operating permit shall not affect the continuing validity of the rest of the Title V operating permit, nor shall invalidation of any other portion of the Title V operating permit affect the continuing validity of the acid rain portion of the permit.

#### **567—22.139(455B) Acid rain permit appeal procedures.**

**22.139(1)** Appeals of the acid rain portion of a Title V operating permit issued by the department that do not challenge or involve decisions or actions of the administrator under 40 CFR Parts 72, 73, 75, 76, 77, and 78 and Sections 407 and 410 of the Act and regulations implementing Sections 407 and 410 shall be conducted according to the procedures in Iowa Code chapter 17A and 561—Chapter 7, as adopted by reference at 567—Chapter 7. Appeals of the acid rain portion of such a permit that challenge or involve such decisions or actions of the administrator shall follow the procedures under 40 CFR Part 78 and Section 307 of the Act. Such decisions or actions include, but are not limited to, allowance allocations, determinations concerning alternative monitoring systems, and determinations of whether a technology is a qualifying repowering technology.

**22.139(2)** No administrative appeal or judicial appeal of the acid rain portion of a Title V operating permit shall be allowed more than 30 days following respective issuance of the acid rain portion of the permit that is subject to administrative appeal or issuance of the final agency action subject to judicial appeal.

**22.139(3)** The administrator may intervene as a matter of right in any state administrative appeal of an acid rain permit or denial of an acid rain permit.

**22.139(4)** No administrative appeal concerning an acid rain requirement shall result in a stay of the following requirements:

*a.* The allowance allocations for any year during which the appeal proceeding is pending or is being conducted;

*b.* Any standard requirement under rule 567—22.125(455B);

*c.* The emissions monitoring and reporting requirements applicable to the affected units at an affected source under rule 567—25.2(455B);

*d.* Uncontested provisions of the decision on appeal; and

*e.* The terms of a certificate of representation submitted by a designated representative under Subpart B of 40 CFR Part 72.

**22.139(5)** The department will serve written notice on the administrator of any state administrative or judicial appeal concerning an acid rain provision of any Title V operating permit or denial of an acid rain portion of any Title V operating permit within 30 days of the filing of the appeal.

**22.139(6)** The department will serve written notice on the administrator of any determination or order in a state administrative or judicial proceeding that interprets, modifies, voids, or otherwise relates to any portion of an acid rain permit. Following any such determination or order, the administrator will have an opportunity to review and veto the acid rain permit or revoke the permit for cause in accordance with subrules 22.107(7) and 22.107(8).

**567—22.140(455B) Permit revisions—general.**

**22.140(1)** Rules 567—22.140(455B) to 567—22.145(455B) shall govern revisions to any acid rain permit issued by the department.

**22.140(2)** A permit revision may be submitted for approval at any time. No permit revision shall affect the term of the acid rain permit to be revised. No permit revision shall excuse any violation of an acid rain program requirement that occurred prior to the effective date of the revision.

**22.140(3)** The terms of the acid rain permit shall apply while the permit revision is pending.

**22.140(4)** Any determination or interpretation by the state (including the department or a state court) modifying or voiding any acid rain permit provision shall be subject to review by the administrator in accordance with 40 CFR 70.8(c) as amended to July 21, 1992, as applied to permit modifications, unless the determination or interpretation is an administrative amendment approved in accordance with rule 567—22.143(455B).

**22.140(5)** The standard requirements of rule 567—22.125(455B) shall not be modified or voided by a permit revision.

**22.140(6)** Any permit revision involving incorporation of a compliance option that was not submitted for approval and comment during the permit issuance process, or involving a change in a compliance option that was previously submitted, shall meet the requirements for applying for such compliance option under rule 567—22.132(455B) and Section 407 of the Act and regulations implementing Section 407 of the Act.

**22.140(7)** For permit revisions not described in rules 567—22.141(455B) and 567—22.142(455B), the department may, in its discretion, determine which of these rules is applicable.

**567—22.141(455B) Permit modifications.**

**22.141(1)** Permit modifications shall follow the permit issuance requirements of rules 567—22.135(455B) to 567—22.139(455B) and subrules 22.113(2) and 22.113(3).

**22.141(2)** For purposes of applying subrule 22.141(1), a permit modification shall be treated as an acid rain permit application, to the extent consistent with rules 567—22.140(455B) to 567—22.145(455B).

**22.141(3)** The following permit revisions are permit modifications:

*a.* Relaxation of an excess emission offset requirement after approval of the offset plan by the administrator;

*b.* Incorporation of a final nitrogen oxides alternative emissions limitation following a demonstration period;

*c.* Determinations concerning failed repowering projects under subrule 22.132(6); and

*d.* At the option of the designated representative submitting the permit revision, the permit revisions listed in subrule 22.142(2).

**567—22.142(455B) Fast-track modifications.**

**22.142(1)** Fast-track modifications shall follow the following procedures:

*a.* The designated representative shall serve a copy of the fast-track modification on the administrator, the department, and any person entitled to a written notice under subrules 22.107(6) and 22.107(7). Within five business days of serving such copies, the designated representative shall also give public notice by publication in a newspaper of general circulation in the area where the source is located or in a state publication designed to give general public notice.

*b.* The public shall have a period of 30 days, commencing on the date of publication of the notice, to comment on the fast-track modification. Comments shall be submitted in writing to the air quality bureau of the department and to the designated representative.

*c.* The designated representative shall submit the fast-track modification to the department on or before commencement of the public comment period.

*d.* Within 30 days of the close of the public comment period, the department will consider the fast-track modification and the comments received and approve, in whole or in part or with changes or conditions as appropriate, or disapprove the modification. A fast-track modification shall be effective immediately upon issuance, in accordance with subrule 22.113(2) as applied to significant modifications.

**22.142(2)** The following permit revisions are, at the option of the designated representative submitting the permit revision, either fast-track modifications under this rule or permit modifications under rule 567—22.141(455B):

*a.* Incorporation of a compliance option that the designated representative did not submit for approval and comment during the permit issuance process;

*b.* Addition of a nitrogen oxides averaging plan to a permit; and

*c.* Changes in a repowering plan, nitrogen oxides averaging plan, or nitrogen oxides compliance deadline extension.

**567—22.143(455B) Administrative permit amendment.**

**22.143(1)** Administrative amendments shall follow the procedures set forth at rule 567—22.111(455B). The department will submit the revised portion of the permit to the administrator within ten working days after the date of final action on the request for an administrative amendment.

**22.143(2)** The following permit revisions are administrative amendments:

*a.* Activation of a compliance option conditionally approved by the department; provided that all requirements for activation under subrule 22.131(3) and rule 567—22.132(455B) are met;

*b.* Changes in the designated representative or alternative designated representative; provided that a new certificate of representation is submitted to the administrator in accordance with Subpart B of 40 CFR Part 72;

*c.* Correction of typographical errors;

*d.* Changes in names, addresses, or telephone or facsimile numbers;

*e.* Changes in the owners or operators; provided that a new certificate of representation is submitted within 30 days to the administrator and the department in accordance with Subpart B of 40 CFR Part 72;

*f.* Termination of a compliance option in the permit; provided that all requirements for termination under subrule 22.131(4) shall be met and this procedure shall not be used to terminate a repowering plan after December 31, 1999;

*g.* Changes in the date, specified in a new unit's acid rain permit, of commencement of operation or the deadline for monitor certification; provided that they are in accordance with rule 567—22.125(455B);

*h.* The addition of or change in a nitrogen oxides alternative emissions limitation demonstration period; provided that the requirements of regulations implementing Section 407 of the Act are met; and

*i.* Incorporation of changes that the administrator has determined to be similar to those in paragraphs "a" through "h" of this subrule.

**567—22.144(455B) Automatic permit amendment.** The following permit revisions shall be deemed to amend automatically, and become a part of the affected unit's acid rain permit by operation of law without any further review:

**22.144(1)** Upon recordation by the administrator under 40 CFR Part 73, all allowance allocations to, transfers to, and deductions from an affected unit's allowance tracking system account; and

**22.144(2)** Incorporation of an offset plan that has been approved by the administrator under 40 CFR Part 77.

**567—22.145(455B) Permit reopenings.**

**22.145(1)** As provided in rule 567—22.114(455B), the department will reopen an acid rain permit for cause, including whenever additional requirements become applicable to any affected unit governed by the permit.

**22.145(2)** In reopening an acid rain permit for cause, the department will issue a draft permit changing the provisions, or adding the requirements, for which the reopening was necessary. The draft permit shall be subject to the requirements of rules 567—22.135(455B) to 567—22.139(455B).

**22.145(3)** Any reopening of an acid rain permit shall not affect the term of the permit.

**567—22.146(455B) Compliance certification—annual report.**

**22.146(1)** Applicability and deadline. For each calendar year in which a unit is subject to the acid rain emissions limitations, the designated representative of the source at which the unit is located shall submit to the administrator and the department, within 60 days after the end of the calendar year, an annual compliance certification report for the unit in compliance with 40 CFR 72.90.

**22.146(2)** The submission of complete compliance certifications in accordance with subrule 22.146(1) and rule 567—25.2(455B) shall be deemed to satisfy the requirement to submit compliance certifications under paragraph 22.108(15) “e” with regard to the acid rain portion of the source’s Title V operating permit.

**567—22.147(455B) Compliance certification—units with repowering extension plans.** Rescinded IAB 4/8/98, effective 5/13/98.

**567—22.148(455B) Sulfur dioxide opt-ins.** The department adopts by reference the provisions of 40 CFR Part 74, Acid Rain Opt-Ins.

**567—22.149 to 22.199** Reserved.

**567—22.200(455B) Definitions for voluntary operating permits.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.201(455B) Eligibility for voluntary operating permits.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.202(455B) Requirement to have a Title V permit.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.203(455B) Voluntary operating permit applications.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.204(455B) Voluntary operating permit fees.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.205(455B) Voluntary operating permit processing procedures.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.206(455B) Permit content.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.207(455B) Relation to construction permits.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.208(455B) Suspension, termination, and revocation of voluntary operating permits.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.209(455B) Change of ownership for facilities with voluntary operating permits.** Rescinded ARC 1913C, IAB 3/18/15, effective 4/22/15.

**567—22.210 to 22.299** Reserved.

**567—22.300(455B) Operating permit by rule for small sources.** Except as provided in subrule 22.300(11), any source which otherwise would be required to obtain a Title V operating permit may instead register for an operation permit by rule for small sources. Sources which comply with the requirements contained in this rule will be deemed to have an operating permit by rule for small sources. Sources which comply with this rule will be considered to have federally enforceable limits so that their potential emissions are less than the major source thresholds for regulated air pollutants and hazardous air pollutants as defined in rule 567—22.100(455B).

**22.300(1) Definitions for operating permit by rule for small sources.** For the purposes of rule 567—22.300(455B), the definitions shall be the same as the definitions found at rule 567—22.100(455B).

**22.300(2) Registration for operating permit by rule for small sources.**

*a.* Except as provided in subrules 22.300(3) and 22.300(11), any person who owns or operates a stationary source and meets the following criteria may register for an operating permit by rule for small sources:

(1) The potential to emit air contaminants is equal to or in excess of the threshold for a major stationary source of regulated air pollutants or hazardous air pollutants, and

(2) For every 12-month rolling period, the actual emissions of the stationary source are less than or equal to the emission limitations specified in subrule 22.300(6).

*b.* Eligibility for an operating permit by rule for small sources does not eliminate the source's responsibility to meet any and all applicable federal requirements including, but not limited to, a maximum achievable control technology (MACT) standard.

*c.* Nothing in this rule shall prevent any stationary source which has had a Title V operating permit from qualifying to comply with this rule in the future in lieu of maintaining an application for a Title V operating permit or upon rescission of a Title V operating permit if the owner or operator demonstrates that the stationary source is in compliance with the emissions limitations in subrule 22.300(6).

*d.* The department reserves the right to require proof that the expected emissions from the stationary source, in conjunction with all other emissions, will not prevent the attainment or maintenance of the ambient air quality standards specified in 567—Chapter 28.

**22.300(3) Exceptions to eligibility.**

*a.* Any affected source subject to the provisions of Title IV of the Act or any solid waste incinerator unit required to obtain a Title V operating permit under Section 129(e) of the Act is not eligible for an operating permit by rule for small sources.

*b.* Sources which meet the registration criteria established in 22.300(2)“*a*” and meet all applicable requirements of rule 567—22.300(455B), and are subject to a standard or other requirement under 567—subrule 23.1(2) (standards of performance for new stationary sources) or Section 111 of the Act are eligible for an operating permit by rule for small sources. These sources shall be required to obtain a Title V operating permit when the exemptions specified in subrule 22.102(1) or 22.102(2) no longer apply.

*c.* Sources which meet the registration criteria established in 22.300(2)“*a*” and meet all applicable requirements of rule 567—22.300(455B), and are subject to a standard or other requirement under 567—subrule 23.1(3) (emissions standards for hazardous air pollutants), 567—subrule 23.1(4) (emissions standards for hazardous air pollutants for source categories) or Section 112 of the Act are eligible for an operating permit by rule for small sources. These sources shall be required to obtain a Title V operating permit when the exemptions specified in subrule 22.102(1) or 22.102(2) no longer apply.

**22.300(4) Stationary source with de minimus emissions.** Stationary sources with de minimus emissions must submit the standard registration form and must meet and fulfill all registration and reporting requirements as found in 22.300(8). Only the record-keeping and reporting provisions listed

in 22.300(4) “b” shall apply to a stationary source with de minimus emissions or operations as specified in 22.300(4) “a”:

*a. De minimus emission and usage limits.* For the purpose of this rule a stationary source with de minimus emissions means:

(1) In every 12-month rolling period, the stationary source emits less than or equal to the following quantities of emissions:

1. 5 tons per year of a regulated air pollutant (excluding HAPs), and
2. 2 tons per year of a single HAP, and
3. 5 tons per year of any combination of HAPs.

(2) In every 12-month rolling period, at least 90 percent of the stationary source’s emissions are associated with an operation for which the throughput is less than or equal to one of the quantities specified in paragraphs “1” to “9” below:

1. 1,400 gallons of any combination of solvent-containing materials but no more than 550 gallons of any one solvent-containing material, provided that the materials do not contain the following: methyl chloroform (1,1,1-trichloroethane), methylene chloride (dichloromethane), tetrachloroethylene (perchloroethylene), or trichloroethylene;

2. 750 gallons of any combination of solvent-containing materials where the materials contain the following: methyl chloroform (1,1,1-trichloroethane), methylene chloride (dichloromethane), tetrachloroethylene (perchloroethylene), or trichloroethylene, but not more than 300 gallons of any one solvent-containing material;

3. 365 gallons of solvent-containing material used at a paint spray unit(s);

4. 4,400,000 gallons of gasoline dispensed from equipment with Phase I and II vapor recovery systems;

5. 470,000 gallons of gasoline dispensed from equipment without Phase I and II vapor recovery systems;

6. 1,400 gallons of gasoline combusted;

7. 16,600 gallons of diesel fuel combusted;

8. 500,000 gallons of distillate oil combusted; or

9. 71,400,000 cubic feet of natural gas combusted.

*b. Record keeping for de minimis sources.* Upon registration with the department the owner or operator of a stationary source eligible to register for an operating permit by rule for small sources shall comply with all applicable record-keeping requirements of this rule. The record-keeping requirements of this rule shall not replace any record-keeping requirement contained in a construction permit or in a local, state, or federal rule or regulation.

(1) De minimis sources shall always maintain an annual log of each raw material used and its amount. The annual log and all related material safety data sheets (MSDS) for all materials shall be maintained for a period of not less than the most current five years. The annual log will begin on the date the small source operating permit application is submitted, then on an annual basis, based on a calendar year.

(2) Within 30 days of a written request by the state or the U.S. EPA, the owner or operator of a stationary source not maintaining records pursuant to subrule 22.300(7) shall demonstrate that the stationary source’s emissions or throughput is not in excess of the applicable quantities set forth in paragraph “a” above.

**22.300(5) Provision for air pollution control equipment.** The owner or operator of a stationary source may take into account the operation of air pollution control equipment on the capacity of the source to emit an air contaminant if the equipment is required by federal, state, or local air pollution control agency rules and regulations or permit terms and conditions that are federally enforceable. The owner or operator of the stationary source shall maintain and operate such air pollution control equipment in a manner consistent with good air pollution control practice for minimizing emissions.

**22.300(6) Emission limitations.**

*a.* No stationary source subject to this rule shall emit in every 12-month rolling period more than the following quantities of emissions:

(1) 50 percent of the major source thresholds for regulated air pollutants (excluding hazardous air pollutants), and

(2) 5 tons per year of a single hazardous air pollutant, and

(3) 12.5 tons per year of any combination of hazardous air pollutants.

*b.* The owner or operator of a stationary source subject to this rule shall obtain any necessary permits prior to commencing any physical or operational change or activity which will result in actual emissions that exceed the limits specified in paragraph “*a*” of this subrule.

**22.300(7) Record-keeping requirements for non-de minimis sources.** Upon registration with the department the owner or operator of a stationary source eligible to register for an operating permit by rule for small stationary sources shall comply with all applicable record-keeping requirements in this rule. The record-keeping requirements of this rule shall not replace any record-keeping requirement contained in any operating permit, a construction permit, or in a local, state, or federal rule or regulation.

*a.* A stationary source previously covered by the provisions in 22.300(4) shall comply with the applicable provisions of subrule 22.300(7) (record-keeping requirements) and subrule 22.300(8) (reporting requirements) if the stationary source exceeds the quantities specified in paragraph 22.300(4) “*a*.”

*b.* The owner or operator of a stationary source subject to this rule shall keep and maintain records, as specified in 22.300(7) “*c*” below, for each permitted emission unit and each piece of emission control equipment sufficient to determine actual emissions. Such information shall be maintained on site for five years, and be made available to local, state, or U.S. EPA staff upon request.

*c.* Record-keeping requirements for emission units and emission control equipment. Record-keeping requirements for emission units are specified below in 22.300(7) “*c*”(1) through 22.300(7) “*c*”(4). Record-keeping requirements for emission control equipment are specified in 22.300(7) “*c*”(5).

(1) Coating/solvent emission unit. The owner or operator of a stationary source subject to this rule that contains a coating/solvent emission unit not permitted under 22.8(1) (permit by rule for spray booths) or uses a coating, solvent, ink or adhesive shall keep and maintain the following records:

1. A current list of all coatings, solvents, inks and adhesives in use. This list shall include: material safety data sheets (MSDS), manufacturer’s product specifications, and material VOC content reports for each solvent (including solvents used in cleanup and surface preparation), coating, ink, and adhesive used showing at least the product manufacturer, product name and code, VOC and hazardous air pollutant content;

2. A description of any equipment used during and after coating/solvent application, including type, make and model; maximum design process rate or throughput; and control device(s) type and description (if any);

3. A monthly log of the consumption of each solvent (including solvents used in cleanup and surface preparation), coating, ink, and adhesive used; and

4. All purchase orders, invoices, and other documents to support information in the monthly log.

(2) Organic liquid storage unit. The owner or operator of a stationary source subject to this rule that contains an organic liquid storage unit shall keep and maintain the following records:

1. A monthly log identifying the liquid stored and monthly throughput; and

2. Information on the tank design and specifications including control equipment.

(3) Combustion emission unit. The owner or operator of a stationary source subject to this rule that contains a combustion emission unit shall keep and maintain the following records:

1. Information on equipment type, make and model, maximum design process rate or maximum power input/output, minimum operating temperature (for thermal oxidizers) and capacity and all source test information; and

2. A monthly log of fuel type, fuel usage, fuel heating value (for nonfossil fuels; in terms of Btu/lb or Btu/gal), and percent sulfur for fuel oil and coal.

(4) General emission unit. The owner or operator of a stationary source subject to this rule that contains an emission unit not included in subparagraph (1), (2), or (3) above shall keep and maintain the following records:

1. Information on the process and equipment including the following: equipment type, description, make and model; and maximum design process rate or throughput;

2. A monthly log of operating hours and each raw material used and its amount; and

3. Purchase orders, invoices, or other documents to support information in the monthly log.

(5) Emission control equipment. The owner or operator of a stationary source subject to this rule that contains emission control equipment shall keep and maintain the following records:

1. Information on equipment type and description, make and model, and emission units served by the control equipment;

2. Information on equipment design including, where applicable: pollutant(s) controlled; control effectiveness; and maximum design or rated capacity; other design data as appropriate including any available source test information and manufacturer's design/repair/maintenance manual; and

3. A monthly log of hours of operation including notation of any control equipment breakdowns, upsets, repairs, maintenance and any other deviations from design parameters.

**22.300(8) Registration and reporting requirements.**

*a.* Duty to apply. Any person who owns or operates a source otherwise required to obtain a Title V operating permit and which would be eligible for an operating permit by rule for small sources must either register for an operating permit by rule for small sources or apply for a Title V operating permit. Any source determined not to be eligible for an operating permit by rule for small sources, and operating without a valid Title V operating permit, shall be subject to enforcement action for operation without a Title V operating permit, except as provided for in the application shield provisions contained in rule 567—22.104(455B). For each source registering for an operating permit by rule for small sources, the owner or operator or designated representative, where applicable, shall present or mail to the Air Quality Bureau, Iowa Department of Natural Resources, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324, one original and one copy of a timely and complete registration form in accordance with this rule.

(1) Timely registration. Each source registering for an operating permit by rule for small sources shall submit a registration form:

1. By August 1, 1996, if the source became subject to rule 567—22.101(455B) on or before August 1, 1995, unless otherwise required to obtain a Title V permit under rule 567—22.101(455B).

2. Within 12 months of becoming subject to rule 567—22.101(455B) (the requirement to obtain a Title V operating permit) for a new source or a source which would otherwise become subject to the Title V permit requirement after August 1, 1995.

(2) Complete registration form. To be deemed complete the registration form must provide all information required pursuant to 22.300(8) "b."

(3) Duty to supplement or correct registration. Any registrant who fails to submit any relevant facts or who has submitted incorrect information in an operating permit by rule for small sources registration shall, upon becoming aware of such failure or incorrect submittal, promptly submit such supplementary facts or corrected information. In addition, the registrant shall provide additional information as necessary to address any requirements that become applicable to the source after the date it filed a complete registration.

(4) Certification of truth, accuracy, and completeness. Any registration form, report, or supplemental information submitted pursuant to these rules shall contain certification by a responsible official of truth, accuracy, and completeness. This certification and any other certification required under these rules shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.

*b.* At the time of registration for an operating permit by rule for small sources each owner or operator of a stationary source shall submit to the department a standard registration form and required attachments. To register for an operating permit by rule for small sources, applicants shall complete the registration form and supply all information required by the filing instructions. The information submitted must be sufficient to evaluate the source, its registration, predicted actual emissions from the source; and to determine whether the source is subject to the exceptions listed in subrule 22.300(3). The standard registration form and attachments shall require that the following information be provided:

(1) Identifying information, including company name and address (or plant or source name if different from the company name), owner's name and responsible official, and telephone number and names of plant site manager or contact;

(2) A description of source processes and products;

(3) The following emissions-related information shall be submitted to the department on the standard registration form:

1. The total actual emissions of each regulated air pollutant. Actual emissions shall be reported for one contiguous 12-month period within the 18 months preceding submission of the registration to the department;

2. Identification and description of each emission unit with the potential to emit a regulated air pollutant;

3. Identification and description of air pollution control equipment;

4. Limitations on source operations affecting emissions or any work practice standards, where applicable, for all regulated pollutants;

5. Fugitive emissions sources shall be included in the registration form in the same manner as stack emissions if the source is one of the source categories defined as a stationary source category in rule 567—22.100(455B).

(4) Requirements for certification. Facilities which claim to meet the requirements set forth in this rule to qualify for an operating permit by rule for small sources must submit to the department, with a complete registration form, a written statement as follows:

"I certify that all equipment at the facility with a potential to emit any regulated pollutant is included in the registration form, and submitted to the department as required in 22.300(8) "b." I understand that the facility will be deemed to have been granted an operating permit by rule for small sources under the terms of rule 567—22.300(455B) only if all applicable requirements of rule 567—22.300(455B) are met and if the registration is not denied by the director under rule 567—22.300(11). This certification is based on information and belief formed after reasonable inquiry; the statements and information in the document are true, accurate, and complete." The certification must be signed by one of the following individuals.

For corporations, a principal executive officer of at least the level of vice president, or a responsible official as defined at rule 567—22.100(455B).

For partnerships, a general partner.

For sole proprietorships, the proprietor.

For municipal, state, county, or other public facilities, the principal executive officer or the ranking elected official.

**22.300(9)** *Construction permits issued after registration for an operating permit by rule for small sources.* This rule shall not relieve any stationary source from complying with requirements pertaining to any otherwise applicable construction permit, or to replace a condition or term of any construction permit, or any provision of a construction permitting program. This does not preclude issuance of any construction permit with conditions or terms necessary to ensure compliance with this rule.

*a.* If the issuance of a construction permit acts to make the source no longer eligible for an operating permit by rule for small sources, the source shall, within 12 months of issuance of the construction permit, submit an application for a Title V operating permit.

*b.* If the issuance of a construction permit does not prevent the source from continuing to be eligible to operate under an operating permit by rule for small sources, the source shall, within 30 days of issuance of a construction permit, provide to the department the information as listed in 22.300(8) "b" for the new or modified source.

**22.300(10)** *Violations.*

*a.* Failure to comply with any of the applicable provisions of this rule shall constitute a violation of this rule.

*b.* A stationary source subject to this rule shall be subject to applicable federal requirements for a major source, including rules 567—22.101(455B) to 567—22.116(455B) when the conditions specified in either subparagraph (1) or (2) below, occur:

(1) Commencing on the first day following every 12-month rolling period in which the stationary source exceeds a limit specified in subrule 22.300(6), or

(2) Commencing on the first day following every 12-month rolling period in which the owner or operator cannot demonstrate that the stationary source is in compliance with the limits in subrule 22.300(6).

**22.300(11) Suspension, termination, and revocation of an operating permit by rule for small sources.**

a. Registrations may be terminated, modified, revoked, or reissued for cause. The following examples shall be considered cause for the suspension, modification, revocation, or reissuance of an operating permit by rule for small sources:

(1) The director has reasonable cause to believe that the operating permit by rule for small sources was obtained by fraud or misrepresentation.

(2) The person registering for the operating permit by rule for small sources failed to disclose a material fact required by the registration form or the rules applicable to the operating permit by rule for small sources, of which the applicant had or should have had knowledge at the time the registration form was submitted.

(3) The terms and conditions of the operating permit by rule for small sources have been or are being violated.

(4) The owner or operator of the source has failed to pay an administrative, civil or criminal penalty for violations of the operating permit by rule for small sources.

b. If the director suspends, terminates or revokes an operating permit by rule for small sources under this rule, the notice of such action shall be served on the applicant by certified mail, return receipt requested. The notice shall include a statement detailing the grounds for the action sought, and the proceeding shall in all other respects comply with the requirements of rule 561—7.16(17A,455A).

**22.300(12) Change of ownership.** The new owner shall notify the department in writing no later than 30 days after the change of ownership of equipment covered by an operating permit by rule for small sources. The notification to the department shall be mailed to Air Quality Bureau, Iowa Department of Natural Resources, 7900 Hickman Road, Suite 1, Windsor Heights, Iowa 50324, and shall include the following information:

a. The date of ownership change; and

b. The name, address and telephone number of the responsible official, the contact person and the owner of the equipment both before and after the change of ownership.

 [Filed Emergency After Notice ARC 2352C (Notice ARC 2222C, IAB 10/28/15), IAB 1/6/16, effective 12/16/15]

<sup>0</sup> Two or more ARCs

<sup>1</sup> Effective date of 22.1(455B) [DEQ, 3.1] delayed by the Administrative Rules Review Committee 70 days from June 21, 1978. The Administrative Rules Review Committee at the August 15, 1978 meeting delayed 22.1 [DEQ, 3.1] under provisions of 67GA, SF244, §19. (See HJR 6, 1/22/79).

<sup>2</sup> Effective date of 22.100(455B), definition of “12-month rolling period”; 22.200(455B); 22.201(1)“a,” “b,”; 22.201(2)“a”; 22.206(2)“c,” delayed 70 days by the Administrative Rules Review Committee at its meeting held October 10, 1995; delay lifted by this Committee December 13, 1995, effective December 14, 1995.

<sup>3</sup> Effective date of 22.300 delayed 70 days by the Administrative Rules Review Committee at its meeting held June 11, 1996; delay lifted by this Committee at its meeting held June 12, 1996, effective June 12, 1996.

<sup>4</sup> Effective date of 22.1(2), unnumbered introductory paragraphs and paragraphs “g” and “i,” delayed 70 days by the Administrative Rules Review Committee at its meeting held March 9, 2001.

CHAPTER 23  
EMISSION STANDARDS FOR CONTAMINANTS

[Prior to 7/1/83, DEQ Ch 4]

[Prior to 12/3/86, Water, Air and Waste Management[900]]

**567—23.1(455B) Emission standards.**

**23.1(1) *In general.*** The federal standards of performance for new stationary sources (new source performance standards) shall be applicable as specified in subrule 23.1(2). The federal standards for hazardous air pollutants (national emission standards for hazardous air pollutants) shall be applicable as specified in subrule 23.1(3). The federal standards for hazardous air pollutants for source categories (national emission standards for hazardous air pollutants for source categories) shall be applicable as specified in subrule 23.1(4). The federal emission guidelines (emission guidelines) shall be applicable as specified in subrule 23.1(5). Compliance with emission standards specified elsewhere in this chapter shall be in accordance with 567—Chapter 21.

**23.1(2) *New source performance standards.*** The federal standards of performance for new stationary sources, as defined in 40 Code of Federal Regulations Part 60 as amended or corrected through June 28, 2011, are adopted by reference, except § 60.530 through § 60.539b (Part 60, Subpart AAA), and shall apply to the following affected facilities. The corresponding 40 CFR Part 60 subpart designation is in parentheses. An earlier date for adoption by reference may be included with the subpart designation in parentheses. Reference test methods (Appendix A), performance specifications (Appendix B), determination of emission rate change (Appendix C), quality assurance procedures (Appendix F) and the general provisions (Subpart A) of 40 CFR Part 60 also apply to the affected facilities.

*a. Fossil fuel-fired steam generators.* A fossil fuel-fired steam generating unit of more than 250 million Btu heat input for which construction, reconstruction, or modification is commenced after August 17, 1971. Any facility covered under paragraph “z” is not covered under this paragraph. (Subpart D)

*b. Incinerators.* An incinerator of more than 50 tons per day charging rate. (Subpart E)

*c. Portland cement plants.* Any of the following in a Portland cement plant: kiln; clinker cooler; raw mill system; finish mill system; raw mill dryer; raw material storage; clinker storage; finished product storage; conveyor transfer points; bagging and bulk loading and unloading systems. (Subpart F as amended through October 17, 2000)

*d. Nitric acid plants.* A nitric acid production unit. (Subpart G)

*e. Sulfuric acid plants.* A sulfuric acid production unit. (Subpart H)

*f. Asphalt concrete plants.* An asphalt concrete plant. (Subpart I)

*g. Petroleum refineries.* Rescinded IAB 3/18/15, effective 4/22/15.

*h. Secondary lead smelters.* Rescinded IAB 3/18/15, effective 4/22/15.

*i. Secondary brass and bronze ingot production plants.* Any of the following at a secondary brass and bronze ingot production plant; reverberatory and electric furnaces of 1000/kilograms (2205 pounds) or greater production capacity and blast (cupola) furnaces of 250 kilograms per hour (550 pounds per hour) or greater production capacity. (Subpart M)

*j. Iron and steel plants.* A basic oxygen process furnace. (Subpart N)

*k. Sewage treatment plants.* An incinerator which burns the sludge produced by municipal sewage treatment plants. (Subpart O of 40 CFR 60 and Subpart E of 40 CFR 503.)

*l. Steel plants.* Either of the following at a steel plant: electric arc furnaces and dust-handling equipment, the construction, modification, or reconstruction of which commenced after October 21, 1974, and on or before August 17, 1983. (Subpart AA)

*m. Primary copper smelters.* Rescinded IAB 3/18/15, effective 4/22/15.

*n. Primary zinc smelters.* Rescinded IAB 3/18/15, effective 4/22/15.

*o. Primary lead smelter.* Rescinded IAB 3/18/15, effective 4/22/15.

*p. Primary aluminum reduction plants.* Rescinded IAB 3/18/15, effective 4/22/15.

*q. Wet process phosphoric acid plants in the phosphate fertilizer industry.* A wet process phosphoric acid plant, which includes any combination of the following: reactors, filters, evaporators and hotwells. (Subpart T)

*r. Superphosphoric acid plants in the phosphate fertilizer industry.* A superphosphoric acid plant which includes any combination of the following: evaporators, hotwells, acid sumps, and cooling tanks. (Subpart U)

*s. Diammonium phosphate plants in the phosphate fertilizer industry.* A granular diammonium phosphate plant which includes any combination of the following: reactors, granulators, dryers, coolers, screens and mills. (Subpart V)

*t. Triple super phosphate plants in the phosphate fertilizer industry.* A triple super phosphate plant which includes any combination of the following: mixers, curing belts (dens), reactors, granulators, dryers, cookers, screens, mills and facilities which store run-of-pile triple superphosphate. (Subpart W)

*u. Granular triple superphosphate storage facilities in the phosphate fertilizer industry.* A granular triple superphosphate storage facility which includes any combination of the following: storage or curing piles, conveyors, elevators, screens and mills. (Subpart X)

*v. Coal preparation plants.* Any of the following at a coal preparation plant which processes more than 200 tons per day: thermal dryers; pneumatic coal cleaning equipment (air tables); coal processing and conveying equipment (including breakers and crushers); coal storage systems; and coal transfer and loading systems. (Subpart Y)

*w. Ferroalloy production.* Any of the following: electric submerged arc furnaces which produce silicon metal, ferrosilicon, calcium silicon, silicomanganese zirconium, ferrochrome silicon, silvery iron, high-carbon ferrochrome, charge chrome, standard ferromanganese, silicomanganese, ferromanganese silicon, or calcium carbide; and dust-handling equipment. (Subpart Z)

*x. Kraft pulp mills.* Any of the following in a kraft pulp mill: digester system; brown stock washer system; multiple effect evaporator system; black liquor oxidation system; recovery furnace; smelt dissolving tank; lime kiln; and condensate stripper system. In pulp mills where kraft pulping is combined with neutral sulfite semichemical pulping, the provisions of the standard of performance are applicable when any portion of the material charged to an affected facility is produced by the kraft pulping operation. (Subpart BB)

*y. Lime manufacturing plants.* A rotary lime kiln or a lime hydrator used in the manufacture of lime at other than a kraft pulp mill. (Subpart HH)

*z. Electric utility steam generating units.* An electric utility steam generating unit that is capable of combusting more than 250 million Btus per hour (73 megawatts) heat input of fossil fuel for which construction or modification or reconstruction is commenced after September 18, 1978, or an electric utility combined cycle gas turbine that is capable of combusting more than 250 million Btus per hour (73 megawatts) heat input. "Electric utility steam generating unit" means any steam electric generating unit that is constructed for the purpose of supplying more than one-third of its potential electric output capacity and more than 25 MW net-electrical output to any utility power distribution system for sale. Also, any steam supplied to a steam distribution system for the purpose of providing steam to a steam electric generator that would produce electrical energy for sale is considered in determining the electrical energy output capacity of the affected facility. (Subpart Da)

*aa. Stationary gas turbines.* Any simple cycle gas turbine, regenerative cycle gas turbine or any gas turbine portion of a combined cycle steam/electric generating system that is not self-propelled. It may, however, be mounted on a vehicle for portability. (Subpart GG)

*bb. Petroleum storage vessels.* Unless exempted, any storage vessel for petroleum liquids for which the construction, reconstruction, or modification commenced after June 11, 1973, and prior to May 19, 1978, having a storage capacity greater than 151,412 liters (40,000 gallons). (Subpart K)

*cc. Petroleum storage vessels.* Unless exempted, any storage vessel for petroleum liquids for which the construction, reconstruction, or modification commenced after May 18, 1978, and prior to July 23, 1984, having a storage capacity greater than 151,416 liters (40,000 gallons). (Subpart Ka)

*dd. Glass manufacturing plants.* Any glass melting furnace. (Subpart CC)

*ee. Automobile and light-duty truck surface coating operations at assembly plants.* Any of the following in an automobile or light-duty truck assembly plant: prime coat operations, guide coat operations, and topcoat operations. (Subpart MM)

*ff. Ammonium sulfate manufacture.* Any of the following in the ammonium sulfate industry: ammonium sulfate dryers in the caprolactam by-product, synthetic, and coke oven by-product sectors of the industry. (Subpart PP)

*gg. Surface coating of metal furniture.* Any metal furniture surface coating operation in which organic coatings are applied. (Subpart EE)

*hh. Lead-acid battery manufacturing plants.* Any lead-acid battery manufacturing plant which uses any of the following: grid casting, paste mixing, three-process operation, lead oxide manufacturing, lead reclamation, other lead-emitting operations. (Subpart KK)

*ii. Phosphate rock plants.* Any phosphate rock plant which has a maximum plant production capacity greater than four tons per hour including the following: dryers, calciners, grinders, and ground rock handling and storage facilities, except those facilities producing or preparing phosphate rock solely for consumption in elemental phosphorus production. (Subpart NN)

*jj. Graphic arts industry.* Publication rotogravure printing. Any publication rotogravure printing press except proof presses. (Subpart QQ)

*kk. Industrial surface coating — large appliances.* Any surface coating operation in a large appliance surface coating line. (Subpart SS)

*ll. Metal coil surface coating.* Any of the following at a metal coil surface coating operation: prime coat operation, finish coat operation, and each prime and finish coat operation combined when the finish coat is applied wet-on-wet over the prime coat and both coatings are cured simultaneously. (Subpart TT)

*mm. Asphalt processing and asphalt roofing manufacturing.* Any saturator, mineral handling and storage facility at asphalt roofing plants; and any asphalt storage tank and any blowing still at asphalt processing plants, petroleum refineries, and asphalt roofing plants. (Subpart UU)

*nn. Equipment leaks of volatile organic compounds (VOC) in the synthetic organic chemicals manufacturing industry.* Standards for affected facilities in the synthetic organic chemicals manufacturing industry (SOCMI) that commenced construction, reconstruction, or modification after January 5, 1981, and on or before November 7, 2006, are set forth in Subpart VV. Standards for affected SOCMI facilities that commenced construction, reconstruction or modification after November 7, 2006, are set forth in Subpart VVa. The standards apply to pumps, compressors, pressure relief devices, sampling systems, open-ended valves or lines (OEL), valves, and flanges or other connectors which handle VOC. (Subpart VV and Subpart VVa)

*oo. Beverage can surface coating.* Any beverage can surface coating lines for two-piece steel or aluminum containers in which soft drinks or beer are sold. (Subpart WW)

*pp. Bulk gasoline terminals.* The total of all loading racks at bulk gasoline terminals which deliver liquid product into gasoline tank trucks. (Subpart XX)

*qq. Pressure sensitive tape and label surface coating operations.* Any coating line used in the tape manufacture of pressure sensitive tape and label materials. (Subpart RR)

*rr. Metallic mineral processing plants.* Any ore processing and handling equipment. (Subpart LL)

*ss. Synthetic fiber production facilities.* Any solvent-spun synthetic fiber process that produces more than 500 megagrams of fiber per year. (Subpart HHH)

*tt. Equipment leaks of VOC in petroleum refineries.* A compressor and all equipment (defined in 40 CFR, Part 60.591) within a process unit for which the construction, reconstruction, or modification commenced after January 4, 1983. (Subpart GGG)

*uu. Flexible vinyl and urethane coating and printing.* Each rotogravure printing line used to print or coat flexible vinyl or urethane products. (Subpart FFF)

*vv. Petroleum dry cleaners.* Petroleum dry-cleaning plant with a total manufacturer's rated dryer capacity equal to or greater than 38 kilograms (84 pounds): petroleum solvent dry-cleaning dryers, washers, filters, stills, and settling tanks. (Subpart JJJ)

*ww. Electric arc furnaces and argon-oxygen decarburization vessels constructed after August 17, 1983.* Steel plants that produce carbon, alloy, or specialty steels: electric arc furnaces, argon-oxygen decarburization vessels, and dust-handling systems. (Subpart AAa)

*xx. Wool fiberglass insulation manufacturing plants.* Rotary spin wool fiberglass manufacturing line. (Subpart PPP)

*yy. Iron and steel plants.* Secondary emissions from basic oxygen process steelmaking facilities for which construction, reconstruction, or modification commenced after January 20, 1983. (Subpart Na)

*zz. Equipment leaks of VOC from on-shore natural gas processing plants.* A compressor and all equipment defined in 40 CFR, Part 60.631, unless exempted, for which construction, reconstruction, or modification commenced after January 20, 1984. (Subpart KKK)

*aaa. On-shore natural gas processing: SO<sub>2</sub> emissions.* Unless exempted, each sweetening unit and each sweetening unit followed by a sulfur recovery unit for which construction, reconstruction, or modification commenced after January 20, 1984. (Subpart LLL)

*bbb. Nonmetallic mineral processing plants.* Unless exempted, each crusher, grinding mill, screening operation, bucket elevator, belt conveyor, bagging operation, storage bin, enclosed truck or rail car loading station in fixed or portable nonmetallic mineral processing plants for which construction, reconstruction, or modification commenced after August 31, 1983. (Subpart OOO)

*ccc. Industrial-commercial-institutional steam generating units.* Unless exempted, each steam generating unit for which construction, reconstruction, or modification commenced after June 19, 1984, and which has a heat input capacity of more than 100 million Btu/hour. (Subpart Db)

*ddd. Volatile organic liquid storage vessels.* Unless exempted, volatile organic liquid storage vessels for which construction, reconstruction, or modification commenced after July 23, 1984. (Subpart Kb)

*eee. Rubber tire manufacturing plants.* Unless exempted, each undertread cementing operation, each sidewall cementing operation, each tread end cementing operation, each bead cementing operation, each green tire spraying operation, each Michelin-A operation, each Michelin-B operation, and each Michelin-C automatic operation that commences construction or modification after January 20, 1983. (Subpart BBB)

*fff. Industrial surface coating: surface coating of plastic parts for business machines.* Each spray booth in which plastic parts for use in the manufacture of business machines receive prime coats, color coats, texture coats, or touch-up coats for which construction, modification, or reconstruction begins after January 8, 1986. (Subpart TTT)

*ggg. VOC emissions from petroleum refinery wastewater systems.* Each individual drain system, each oil-water separator, and each aggregate facility for which construction, modification or reconstruction is commenced after May 4, 1987. (Subpart QQQ)

*hhh. Magnetic tape coating facilities.* Unless exempted, each coating operation and each piece of coating mix preparation equipment for which construction, modification, or reconstruction is commenced after January 22, 1986. (Subpart SSS)

*iii. Polymeric coating of supporting substrates.* Unless exempted, each coating operation and any on-site coating mix preparation equipment used to prepare coatings for the polymeric coating of supporting substrates for which construction, modification, or reconstruction begins after April 30, 1987. (Subpart VVV)

*jjj. VOC emissions from synthetic organic chemical manufacturing industry air oxidation unit processes.* Unless exempted, any air oxidation reactor, air oxidation reactor and recovery system or combination of two or more reactors and the common recovery system used in the production of any of the chemicals listed in 40 CFR §60.617 for which construction, modification or reconstruction commenced after October 21, 1983. (Subpart III)

*kkk. VOC emissions from synthetic organic chemical manufacturing industry distillation operations.* Unless exempted, any distillation unit, distillation unit and recovery system or combination of two or more distillation units and the common recovery system used in the production of any of the chemicals listed in 40 CFR §60.667 for which construction, modification or reconstruction commenced after December 30, 1983. (Subpart NNN)

*lll. Small industrial-commercial-institutional steam generating units.* Each steam generating unit for which construction, modification, or reconstruction is commenced after June 9, 1989, and that has a maximum design heat input capacity of 100 million Btu per hour or less, but greater than or equal to 10 million Btu per hour. (Subpart Dc)

*mmm. VOC emissions from the polymer manufacturing industry.* Each of the following process sections in the manufacture of polypropylene and polyethylene—raw materials preparation, polymerization reaction, material recovery, product finishing, and product storage; each material recovery section of polystyrene manufacturing using a continuous process; each polymerization reaction section of poly(ethylene terephthalate) manufacturing using a continuous process; each material recovery section of poly(ethylene terephthalate) manufacturing using a continuous process that uses dimethyl terephthalate; each raw material section of poly(ethylene terephthalate) manufacturing using a continuous process that uses terephthalic acid; and each group of fugitive emissions equipment within any process unit in the manufacturing of polypropylene, polyethylene, or polystyrene (including expandable polystyrene). The applicability date for construction, modification or reconstruction for polystyrene and poly(ethylene terephthalate) affected facilities and some polypropylene and polyethylene affected facilities is September 30, 1987. For the other polypropylene and polyethylene affected facilities the applicability date for these regulations is January 10, 1989. (Subpart DDD)

*nnn. Municipal waste combustors.* Unless exempted, a municipal waste combustor with a capacity greater than 225 megagrams per day of municipal solid waste for which construction is commenced after December 20, 1989, and on or before September 20, 1994, and modification or reconstruction is commenced after December 20, 1989, and on or before June 19, 1996. (Subpart Ea)

*ooo. Grain elevators.* A grain terminal elevator or any grain storage elevator except as provided under 40 CFR 60.304(b), August 31, 1993. A grain terminal elevator means any grain elevator which has a permanent storage capacity of more than 2.5 million U.S. bushels except those located at animal food manufacturers, pet food manufacturers, cereal manufacturers, breweries, and livestock feedlots. A grain storage elevator means any grain elevator located at any wheat flour mill, wet corn mill, dry corn mill (human consumption), rice mill, or soybean oil extraction plant which has a permanent grain storage capacity of 1 million bushels. Any construction, modification, or reconstruction after August 3, 1978, is subject to this paragraph. (Subpart DD)

*ppp. Mineral processing plants.* Each calciner and dryer at a mineral processing plant unless excluded for which construction, modification, or reconstruction is commenced after April 23, 1986. (Subpart UUU)

*qqq. VOC emissions from synthetic organic chemical manufacturing industry reactor processes.* Unless exempted, each affected facility that is part of a process unit that produces any of the chemicals listed in 40 CFR §60.707 as a product, coproduct, by-product, or intermediate for which construction, modification, or reconstruction commenced after June 29, 1990. Affected facility is each reactor process not discharging its vent stream into a recovery system, each combination of a reactor process and the recovery system into which its vent stream is discharged, or each combination of two or more reactor processes and the common recovery system into which their vent streams are discharged. (Subpart RRR)

*rrr. Municipal solid waste landfills, as defined by 40 CFR 60.751.* Each municipal solid waste landfill that commenced construction, reconstruction or modification or began accepting waste on or after May 30, 1991, must comply. (Subpart WWW)

*sss. Municipal waste combustors.* Unless exempted, a municipal waste combustor with a combustion capacity greater than 250 tons per day of municipal solid waste for which construction, modification or reconstruction is commenced after September 20, 1994, or for which modification or reconstruction is commenced after June 19, 1996. (Subpart Eb)

*ttt. Hospital/medical/infectious waste incinerators.* Unless exempted, a hospital/medical/infectious waste incinerator for which construction is commenced after June 20, 1996, or for which modification is commenced after March 16, 1998. (Subpart Ec)\*

\*As of November 24, 2010, the adoption by reference of Part 60 Subpart Ec is rescinded.

*uuu. New small municipal waste combustion units.* Unless exempted, this standard applies to a small municipal waste combustion unit that commenced construction after August 30, 1999, or small municipal waste combustion units that commenced reconstruction or modification after June 6, 2001. (Part 60, Subpart AAAA)

*vvv. Commercial and industrial solid waste incineration.* Unless exempted, this standard applies to units for which construction is commenced after November 30, 1999, or for which modification or reconstruction is commenced on or after June 1, 2001. (Part 60, Subpart CCCC)

*www. Other solid waste incineration (OSWI) units.* Unless exempted, this standard applies to other solid waste incineration (OSWI) units for which construction is commenced after December 9, 2004, or for which modification or reconstruction is commenced on or after June 16, 2006. (Part 60, Subpart EEEE)

*xxx.* Reserved.

*yyy. Stationary compression ignition internal combustion engines.* Unless otherwise exempted, these standards apply to each stationary compression ignition internal combustion engine whose construction, modification or reconstruction commenced after July 11, 2005. (Part 60, Subpart IIII)

*zzz. Stationary spark ignition internal combustion engines.* These standards apply to each stationary spark ignition internal combustion engine whose construction, modification or reconstruction commenced after June 12, 2006. (Part 60, Subpart JJJJ)

*aaaa. Stationary combustion turbines.* Unless otherwise exempted, these standards apply to stationary combustion turbines with a heat input at peak load equal to or greater than 10 MMBtu per hour, based on the higher heating value of the fuel, that commence construction, modification, or reconstruction after February 18, 2005. (Part 60, Subpart KKKK)

**23.1(3) Emission standards for hazardous air pollutants.** The federal standards for emissions of hazardous air pollutants, 40 Code of Federal Regulations Part 61 as amended or corrected through May 16, 2007, and 40 CFR Part 503 as adopted on August 4, 1999, are adopted by reference, except 40 CFR §61.20 to §61.26, §61.90 to §61.97, §61.100 to §61.108, §61.120 to §61.127, §61.190 to §61.193, §61.200 to §61.205, §61.220 to §61.225, and §61.250 to §61.256, and shall apply to the following affected pollutants and facilities and activities listed below. The corresponding 40 CFR Part 61 subpart designation is in parentheses. Reference test methods (Appendix B), compliance status information requirements (Appendix A), quality assurance procedures (Appendix C) and the general provisions (Subpart A) of Part 61 also apply to the affected activities or facilities.

*a. Asbestos.* Any of the following involves asbestos emissions: asbestos mills, surfacing of roadways, manufacturing operations, fabricating, insulating, waste disposal, spraying applications and demolition and renovation operations. (Subpart M). Any person subject to notification requirements under this rule shall submit fees as required in 567—Chapter 30.

*b. Beryllium.* Rescinded IAB 3/18/15, effective 4/22/15.

*c. Beryllium rocket motor firing.* Rescinded IAB 3/18/15, effective 4/22/15.

*d. Mercury.* Any of the following involving mercury emissions: mercury ore processing facilities, mercury cell chlor-alkali plants, sludge incineration plants, sludge drying plants, and a combination of sludge incineration plants and sludge drying plants. (Subpart E)

*e. Vinyl chloride.* Ethylene dichloride purification and the oxychlorination reactor in ethylene dichloride plants. Vinyl chloride formation and purification in vinyl chloride plants. Any of the following involving polyvinyl chloride plants: reactor; stripper; mixing, weighing, and holding containers; monomer recovery system; sources following the stripper(s). Any of the following involving ethylene dichloride, vinyl chloride, and polyvinyl chloride plants: relief valve discharge; fugitive emission sources. (Subpart F)

*f. Equipment leaks of benzene (fugitive emission sources).* Any pumps, compressors, pressure relief devices, sampling connection systems, open-ended valves or lines, valves, flanges and other connectors, product accumulator vessels, and control devices or systems which handle benzene. (Subpart J)

*g. Equipment leaks of volatile hazardous air pollutants (fugitive emission sources).* Any pumps, compressors, pressure relief devices, sampling connection systems, open-ended valves or lines, valves,

flanges and other connectors, product accumulator vessels, and control devices or systems which handle volatile hazardous air pollutants. (Subpart V)

*h. Inorganic arsenic emissions from arsenic trioxide and metallic arsenic production facilities.* Rescinded IAB 3/18/15, effective 4/22/15.

*i. Inorganic arsenic emissions from glass manufacturing plants.* Each glass melting furnace (except pot furnaces) that uses commercial arsenic as a raw material. (Subpart N)

*j. Inorganic arsenic emissions from primary copper smelters.* Rescinded IAB 3/18/15, effective 4/22/15.

*k. Benzene emissions from coke by-product recovery plants.* Each of the following sources at furnace and foundry coke by-product recovery plants: tar decanters, tar storage tanks, tar-intercepting sumps, flushing-liquor circulation tanks, light-oil sumps, light-oil condensers, light-oil decanters, wash-oil decanters, wash-oil circulation tanks, naphthalene processing, final coolers, final-cooler cooling towers, and the following equipment that is intended to operate in benzene service: pumps, valves, exhausters, pressure relief devices, sampling connection systems, open-ended valves or lines, flanges or other connectors, and control devices or systems required by 40 CFR §61.135.

The provisions of this subpart also apply to benzene storage tanks, BTX storage tanks, light-oil storage tanks, and excess ammonia-liquor storage tanks at furnace coke by-product recovery plants. (Subpart L)

*l. Benzene emissions from benzene storage vessels.* Unless exempted, each storage vessel that is storing benzene having a specific gravity within the range of specific gravities specified in ASTM D 836-84 for Industrial Grade Benzene, ASTM D 835-85 for Refined Benzene-485, ASTM D 2359-85a for Refined Benzene-535, and ASTM D 4734-87 for Refined Benzene-545. These specifications are incorporated by reference as specified in 40 CFR §61.18. (Subpart Y)

*m. Benzene emissions from benzene transfer operations.* Unless exempted, the total of all loading racks at which benzene is loaded into tank trucks, rail cars, or marine vessels at each benzene production facility and each bulk terminal. (Subpart BB)

*n. Benzene waste operations.* Unless exempted, the provisions of this subrule apply to owners and operators of chemical manufacturing plants, coke by-product recovery plants, petroleum refineries, and facilities at which waste management units are used to treat, store, or dispose of waste generated by any of these listed facilities. (Subpart FF)

**23.1(4) Emission standards for hazardous air pollutants for source categories.** The federal standards for emissions of hazardous air pollutants for source categories, 40 Code of Federal Regulations Part 63 as amended or corrected through December 21, 2012, are adopted by reference, except those provisions which cannot be delegated to the states. The corresponding 40 CFR Part 63 subpart designation is in parentheses. An earlier date for adoption by reference may be included with the subpart designation in parentheses (except for paragraph 23.1(4) “cz,” which specifies a later date for adoption by reference). 40 CFR Part 63, Subpart B, incorporates the requirements of Clean Air Act Sections 112(g) and 112(j) and does not adopt standards for a specific affected facility. Test methods (Appendix A), sources defined for early reduction provisions (Appendix B), and determination of the fraction biodegraded ( $F_{bio}$ ) in the biological treatment unit (Appendix C) of Part 63 also apply to the affected activities or facilities. For the purposes of this subrule, “hazardous air pollutant” has the same meaning found in 567—22.100(455B). For the purposes of this subrule, a “major source” means any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential to emit, considering controls, in the aggregate, 10 tons per year or more of any hazardous air pollutant or 25 tons per year or more of any combination of hazardous air pollutants, unless a lesser quantity is established, or in the case of radionuclides, where different criteria are employed. For the purposes of this subrule, an “area source” means any stationary source of hazardous air pollutants that is not a “major source” as defined in this subrule. Paragraph 23.1(4) “a,” general provisions (Subpart A) of Part 63, shall apply to owners or operators who are subject to subsequent subparts of 40 CFR Part 63 (except when otherwise specified in a particular subpart or in a relevant standard) as adopted by reference below.

*a. General provisions.* General provisions apply to owners or operators of affected activities or facilities except when otherwise specified in a particular subpart or in a relevant standard. (Subpart A)

*b. Requirements for control technology determinations for major sources in accordance with Clean Air Act Sections 112(g) and 112(j).* (40 CFR Part 63, Subpart B)

(1) Section 112(g) requirements. For the purposes of this subparagraph, the definitions shall be the same as the definitions found in 40 CFR 63.2 and 40 CFR 63.41 as amended through December 27, 1996. The owner or operator of a new or reconstructed major source of hazardous air pollutants must apply maximum achievable control technology (MACT) for new sources to the new or reconstructed major source. If the major source in question has been specifically regulated or exempted from regulation under a standard issued pursuant to Section 112(d), Section 112(h), or Section 112(j) of the Clean Air Act and incorporated in another subpart of 40 CFR Part 63, excluded in 40 CFR 63.40(e) and (f), or the owner or operator of such major source has received all necessary air quality permits for such construction or reconstruction project before June 29, 1998, then the major source in question is not subject to the requirements of this subparagraph. The owner or operator of an affected source shall apply for a construction permit as required in 567—paragraph 22.1(1)“b.” The construction permit application shall contain an application for a case-by-case MACT determination for the major source.

(2) Section 112(j) requirements. The owner or operator of a new or existing major source of hazardous air pollutants which includes one or more stationary sources included in a source category or subcategory for which the U.S. Environmental Protection Agency has failed to promulgate an emission standard within 18 months of the deadline established under CAA 112(d) must submit a MACT application (Parts 1 and 2) in accordance with the provisions of 40 CFR 63.52, as amended through April 5, 2002, by the CAA Section 112(j) deadline. In addition, the owner or operator of a new emission unit may submit an application for a Notice of MACT Approval before construction, as defined in 40 CFR 63.41, in accordance with the provisions of 567—paragraph 22.1(3)“a.”

*c.* Reserved.

*d. Compliance extensions for early reductions of hazardous air pollutants.* Compliance extensions for early reductions of hazardous air pollutants are available to certain owners or operators of an existing source who wish to obtain a compliance extension from a standard issued under Section 112(d) of the Act. (Subpart D)

*e.* Reserved.

*f. Emission standards for organic hazardous air pollutants from the synthetic chemical manufacturing industry.* These standards apply to chemical manufacturing process units that are part of a major source. These standards include applicability provisions, definitions and other general provisions that are applicable to Subparts F, G, and H of 40 CFR 63. (Subpart F)

*g. Emission standards for organic hazardous air pollutants from the synthetic organic chemical manufacturing industry for process vents, storage vessels, transfer operations, and wastewater.* These standards apply to all process vents, storage vessels, transfer racks, and wastewater streams within a source subject to Subpart F of 40 CFR 63. (Subpart G)

*h. Emission standards for organic hazardous air pollutants for equipment leaks.* These standards apply to emissions of designated organic hazardous air pollutants from specified processes that are located at a plant site that is a major source. Affected equipment includes: pumps, compressors, agitators, pressure relief devices, sampling connection systems, open-ended valves or lines, valves, connectors, surge control vessels, bottoms receivers, instrumentation systems and control devices or systems required by this subpart that are intended to operate in organic hazardous air pollutant service 300 hours or more during the calendar year within a source subject to the provisions of a specific subpart in 40 CFR Part 63. In organic hazardous air pollutant or in organic HAP service means that a piece of equipment either contains or contacts a fluid (liquid or gas) that is at least 5 percent by weight of total organic HAPs as determined according to the provisions of 40 CFR Part 63.161. The provisions of 40 CFR Part 63.161 also specify how to determine that a piece of equipment is not in organic HAP service. (Subpart H)

*i. Emission standards for organic hazardous air pollutants for certain processes subject to negotiated regulation for equipment leaks.* These standards apply to emissions of designated organic hazardous air pollutants from specified processes (defined in 40 CFR 63.190) that are located at a plant site that is a major source. Subject equipment includes pumps, compressors, agitators, pressure

relief devices, sampling connection systems, open-ended valves or lines, valves, connectors, and instrumentation systems at certain source categories. These standards establish the applicability of Subpart H for sources that are not classified as synthetic organic chemical manufacturing industries. (Subpart I)

*j. Emission standards for hazardous air pollutants for polyvinyl chloride and copolymers production.* Rescinded IAB 3/18/15, effective 4/22/15.

*k. Reserved.*

*l. Emission standards for coke oven batteries.* These standards apply to existing coke oven batteries, including by-product and nonrecovery coke oven batteries and to new coke oven batteries, or as defined in the subpart. (Subpart L)

*m. Perchloroethylene air emission standards for dry cleaning facilities (40 CFR Part 63, Subpart M).* These standards apply to the owner or operator of each dry cleaning facility that uses perchloroethylene (also known as perc). The specific standards applicable to dry cleaning facilities, including the compliance deadlines, are set out in the federal regulations contained in Subpart M. In general, dry cleaning facilities must meet the following requirements, which are set out in greater detail in Subpart M:

(1) New and existing major source dry cleaning facilities are required to control emissions to the level of the maximum achievable control technology (MACT).

(2) New and existing area source dry cleaning facilities are required to control emissions to the level achieved by generally available control technologies (GACT) or management practices.

(3) New area sources that are located in residential buildings and that commence operation after July 13, 2006, are prohibited from using perc.

(4) New area sources located in residential buildings that commenced operation between December 21, 2005, and July 13, 2006, must eliminate all use of perc by July 27, 2009.

(5) Existing area sources located in residential buildings must eliminate all use of perc by December 21, 2020.

(6) New area sources that are not located in residential buildings are prohibited from operating transfer machines.

(7) Existing area sources that are not located in residential buildings are prohibited from operating transfer machines after July 27, 2008.

(8) All sources must comply with the requirements in Subpart M for emissions control, equipment specifications, leak detection and repair, work practice standards, record keeping and reporting.

*n. Emission standards for chromium emissions from hard and decorative chromium electroplating and chromium anodizing tanks.* These standards limit the discharge of chromium compound air emissions from existing and new hard chromium electroplating, decorative chromium electroplating, and chromium anodizing tanks at major and area sources. (Subpart N)

*o. Emission standards for hazardous air pollutants for ethylene oxide commercial sterilization and fumigation operations.* New and existing major source ethylene oxide commercial sterilization and fumigation operations are required to control emissions to the level of the maximum achievable control technology (MACT). New and existing area source ethylene oxide commercial sterilization and fumigation operations are required to control emissions to the level achieved by generally available control technologies (GACT). Certain sources are exempt as described in 40 CFR 63.360. (Subpart O)

*p. Emission standards for primary aluminum reduction plants.* Rescinded IAB 3/18/15, effective 4/22/15.

*q. Emission standards for hazardous air pollutants for industrial process cooling towers.* These standards apply to all new and existing industrial process cooling towers that are operated with chromium-based water treatment chemicals on or after September 8, 1994, and are either major sources or are integral parts of facilities that are major sources. (Subpart Q)

*r. Emission standards for hazardous air pollutants for sources categories: gasoline distribution: (Stage 1).* These standards apply to all existing and new bulk gasoline terminals and pipeline breakout stations that are major sources of hazardous air pollutants or are located at plant sites that are major sources. Bulk gasoline terminals and pipeline breakout stations located within a contiguous area or under

common control with a refinery complying with 40 CFR Subpart CC are not subject to 40 CFR Subpart R standards. (Subpart R)

*s. Emission standards for hazardous air pollutants for pulp and paper (noncombustion).* These standards apply to pulping and bleaching process sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills. Affected sources include pulp mills and integrated mills (mills that manufacture pulp and paper/paperboard) that chemically pulp wood fiber (using kraft, sulfite, soda, or semichemical methods); pulp secondary fiber; pulp nonwood fiber; and mechanically pulp wood fiber. (Subpart S)

*t. Emission standards for hazardous air pollutants: halogenated solvent cleaning.* These standards require batch vapor solvent cleaning machines and in-line solvent cleaning machines to meet emission standards reflecting the application of maximum achievable control technology (MACT) for major and area sources; area source batch cold cleaning machines are required to achieve generally available control technology (GACT). The subpart regulates the emissions of the following halogenated hazardous air pollutant solvents: methylene chloride, perchloroethylene, trichloroethylene, 1,1,1-trichloroethane, carbon tetrachloride, and chloroform. (Subpart T)

*u. Emission standards for hazardous air pollutants: Group I polymers and resins.* Applicable to existing and new major sources that emit organic HAP during the manufacture of one or more elastomers including but not limited to producers of butyl rubber, halobutyl rubber, epichlorohydrin elastomers, ethylene propylene rubber, Hypalon™, neoprene, nitrile butadiene rubber, nitrile butadiene latex, polybutadiene rubber/styrene butadiene rubber by solution, polysulfide rubber, styrene butadiene rubber by emulsion, and styrene butadiene latex. MACT is required for major sources. (Subpart U)

*v. Reserved.*

*w. Emission standards for hazardous air pollutants for epoxy resins production and nonnylon polyamides production.* These standards apply to all existing, new and reconstructed manufacturers of basic liquid epoxy resins and manufacturers of wet strength resins that are located at a plant site that is a major source. (Subpart W)

*x. National emission standards for hazardous air pollutants from secondary lead smelting.* Rescinded IAB 3/18/15, effective 4/22/15.

*y. Emission standards for marine tank vessel loading operations.* This standard requires existing and new major sources to control emissions using maximum achievable control technology (MACT) to control hazardous air pollutants (HAP). (Subpart Y)

*z. Reserved.*

*aa. Emission standards for hazardous air pollutants for phosphoric acid manufacturing.* These standards apply to all new and existing major sources of phosphoric acid manufacturing. Affected processes include, but are not limited to, wet process phosphoric acid process lines, superphosphoric acid process lines, phosphate rock dryers, phosphate rock calciners, and purified phosphoric acid process lines. (Subpart AA)

*ab. Emission standards for hazardous air pollutants for phosphate fertilizers production.* These standards apply to all new and existing major sources of phosphate fertilizer production plants. Affected processes include, but are not limited to, diammonium and monoammonium phosphate process lines, granular triple superphosphate process lines, and granular triple superphosphate storage buildings. (Subpart BB)

*ac. National emission standards for hazardous air pollutants: petroleum refineries.* Rescinded IAB 3/18/15, effective 4/22/15.

*ad. Emission standards for hazardous air pollutants for off-site waste and recovery operations.* This rule applies to major sources of HAP emissions which receive certain wastes, used oil, and used solvents from off-site locations for storage, treatment, recovery, or disposal at the facility. Maximum achievable control technology (MACT) is required to reduce HAP emissions from tanks, surface impoundments, containers, oil-water separators, individual drain systems and other material conveyance systems, process vents, and equipment leaks. Regulated entities include but are not limited to businesses that operate any of the following: hazardous waste treatment, storage, and disposal facilities; Resource Conservation and Recovery Act (RCRA) exempt hazardous wastewater treatment

facilities other than publicly owned treatment works; used solvent recovery plants; RCRA exempt hazardous waste recycling operations; used oil re-refineries. The regulations also apply to federal agency facilities that operate any of the waste management or recovery operations. (Subpart DD)

*ae. Emission standards for magnetic tape manufacturing operations.* These standards apply to major sources performing magnetic tape manufacturing operations. (Subpart EE)

*af. Reserved.*

*ag. National emission standards for hazardous air pollutants for source categories: aerospace manufacturing and rework facilities.* These standards apply to major sources involved in the manufacture, repair, or rework of aerospace components and assemblies, including but not limited to airplanes, helicopters, missiles, and rockets for civil, commercial, or military purposes. Hazardous air pollutants regulated under this standard include chromium, cadmium, methylene chloride, toluene, xylene, methyl ethyl ketone, ethylene glycol, and glycol ethers. (Subpart GG)

*ah. Emission standards for hazardous air pollutants for oil and natural gas production.* These standards apply to all new and existing major sources of oil and natural gas production. Affected sources include, but are not limited to, processing of liquid or gaseous hydrocarbons, such as ethane, propane, butane, pentane, natural gas, and condensate extracted from field natural gas. (Subpart HH)

*ai. Emission standards for hazardous air pollutants for shipbuilding and ship repair (surface coating) operations.* Rescinded IAB 3/18/15, effective 4/22/15.

*aj. Emission standards for hazardous air pollutants for hazardous air pollutant (HAP) emissions from wood furniture manufacturing operations.* These standards apply to each facility that is engaged, either in part or in whole, in the manufacture of wood furniture or wood furniture components and that is located at a plant site that is a major source. (Subpart JJ)

*ak. Emission standards for hazardous air pollutants for the printing and publishing industry.* Existing and new major sources are required to control hazardous air pollutants (HAP) using the maximum achievable control technology (MACT). Affected units are publication rotogravure, product and packaging rotogravure, and wide-web flexographic printing. (Subpart KK)

*al. Emission standards for hazardous air pollutants for primary aluminum reduction plants.* Rescinded IAB 3/18/15, effective 4/22/15.

*am. Emission standards for hazardous air pollutants for chemical recovery combustion sources at kraft, soda, sulfite, and stand-alone semichemical pulp mills.* (Part 63, Subpart MM)

*an. Reserved.*

*ao. Emission standards for tanks – level 1.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Part 63, Subpart OO)

*ap. Emission standards for containers.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Part 63, Subpart PP)

*aq. Emission standards for surface impoundments.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Part 63, Subpart QQ)

*ar. Emission standards for individual drain systems.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and

operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Part 63, Subpart RR)

*as. Emission standards for closed vent systems, control devices, recovery devices and routing to a fuel gas system or a process.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions, (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Subpart SS)

*at. Emission standards for equipment leaks—control level 1.* These provisions apply to the control of air emissions from equipment leaks for which another paragraph under this rule references the use of this paragraph for such emission control. These air emission standards for equipment leaks are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions, (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Subpart TT)

*au. Emission standards for equipment leaks—control level 2 standards.* These provisions apply to the control of air emissions from equipment leaks for which another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards for equipment leaks are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions, (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Subpart UU)

*av. Emission standards for oil-water separators and organic-water separators.* These provisions apply when another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Part 63, Subpart VV)

*aw. Emission standards for storage vessels (tanks)—control level 2.* These provisions apply to the control of air emissions from storage vessels for which another paragraph under this rule references the use of this paragraph for such air emission control. These air emission standards for storage vessels are placed here for administrative convenience and only apply to those owners and operators of facilities subject to the referencing paragraph. The provisions of paragraph 23.1(4)“a,” general provisions, (Subpart A), do not apply to this paragraph except as specified in a referencing paragraph. (Subpart WW)

*ax. Emission standards for ethylene manufacturing process units: heat exchange systems and waste operations.* This standard applies to hazardous air pollutants (HAPs) from heat exchange systems and waste streams at new and existing ethylene production units. (Part 63, Subpart XX)

*ay. Emission standards for hazardous air pollutants: generic maximum achievable control technology (Generic MACT).* These standards apply to new and existing major sources of acetal resins (AR) production, acrylic and modacrylic fiber (AMF) production, hydrogen fluoride (HF) production, polycarbonate (PC) production, carbon black production, cyanide chemicals manufacturing, ethylene production, and Spandex production. Affected processes include, but are not limited to, producers of homopolymers and copolymers of alternating oxymethylene units, acrylic fiber, modacrylic fiber synthetics composed of acrylonitrile (AN) units, hydrogen fluoride and polycarbonate. (Subpart YY)

*az. to bb.* Reserved.

*bc. Emission standards for hazardous air pollutants for steel pickling—HCL process facilities and hydrochloric acid regeneration plants.* Rescinded IAB 3/18/15, effective 4/22/15.

*bd. Emission standards for hazardous air pollutants for mineral wool production.* These standards apply to all new and existing major sources of mineral wool production. Affected processes include, but are not limited to, cupolas and curing ovens. (Subpart DDD)

*be. Emission standards for hazardous air pollutants from hazardous waste combustors.* These standards apply to all hazardous waste combustors: hazardous waste incinerators, hazardous waste burning cement kilns, hazardous waste burning lightweight aggregate kilns, hazardous waste solid fuel boilers, hazardous waste liquid fuel boilers, and hazardous waste hydrochloric acid production furnaces, except as specified in Subpart EEE. Both area sources and major sources are subject to this subpart as of April 19, 1996, and are subject to the requirement to apply for and obtain a Title V permit. (Part 63, Subpart EEE)

*bf.* Reserved.

*bg. Emission standards for hazardous air pollutants for pharmaceutical manufacturing.* These standards apply to producers of finished dosage forms of drugs, for example, tablets, capsules, and solutions, that contain an active ingredient generally, but not necessarily, in association with inactive ingredients. Pharmaceuticals include components whose intended primary use is to furnish pharmacological activity or other direct effect in the diagnosis, cure, mitigation, treatment, or prevention of disease, or to affect the structure or any function of the body of humans or other animals. The regulations do not apply to research and development facilities. (Subpart GGG)

*bh. Emission standards for hazardous air pollutants for natural gas transmission and storage.* These standards apply to all new and existing major sources of natural gas transmission and storage. Natural gas transmission and storage facilities are those that transport or store natural gas prior to its entering the pipeline to a local distribution company. Affected sources include, but are not limited to, mains, valves, meters, boosters, regulators, storage vessels, dehydrators, compressors and delivery systems. (Subpart HHH)

*bi. Emission standards for hazardous air pollutants for flexible polyurethane foam production.* These standards apply to producers of slabstock, molded, and rebond flexible polyurethane foam. The regulations do not apply to processes dedicated exclusively to the fabrication (i.e., gluing or otherwise bonding foam pieces together) of flexible polyurethane foam or to research and development. (Subpart III)

*bj. Emission standards for hazardous air pollutants: Group IV polymers and resins.* Applicable to existing and new major sources that emit organic HAP during the manufacture of the following polymers and resins: acrylonitrile butadiene styrene resin (ABS), styrene acrylonitrile resin (SAN), methyl methacrylate acrylonitrile butadiene styrene resin (MABS), methyl methacrylate butadiene styrene resin (MBS), polystyrene resin, poly (ethylene terephthalate) resin (PET), and nitrile resin. MACT is required for major sources. (Subpart JJJ)

*bk.* Reserved.

*bl. Emission standards for hazardous air pollutants for Portland cement manufacturing operations.* These standards apply to all new and existing major and area sources of Portland cement manufacturing unless exempted. Cement kiln dust (CKD) storage facilities, including CKD piles and landfills, are excluded from this standard. Affected processes include, but are not limited to, all cement kilns and in-line kiln/raw mills, unless they burn hazardous waste. (Subpart LLL as amended through December 20, 2006)

*bm. Emission standards for hazardous air pollutants for pesticide active ingredient production.* These standards apply to all new and existing major sources of pesticide active ingredient production that manufacture organic pesticide active ingredients (PAI), including herbicides, insecticides and fungicides. Affected processes include, but are not limited to, processing equipment, connected piping and ducts, associated storage vessels, pumps, compressors, agitators, pressure relief devices, sampling connection systems, open-ended valves or lines, valves and connectors. Exempted sources include research and development facilities, storage vessels already subject to another 40 CFR Part 63 NESHAP, production of ethylene, storm water from segregated sewers, water from fire-fighting and deluge systems (including testing of such systems) and various spills. (Subpart MMM)

*bn. Emission standards for hazardous air pollutants for wool fiberglass manufacturing.* These standards apply to all new and existing major sources of wool fiberglass manufacturing. Affected processes include, but are not limited to, all glass-melting furnaces, rotary spin (RS) manufacturing lines that produce bonded building insulation, flame attenuation (FA) manufacturing lines producing

bonded pipe insulation and new FA manufacturing lines producing bonded heavy-density products. (Subpart NNN)

*bo. Emission standards for hazardous air pollutants for amino/phenolic resins production.* These standards apply to new or existing facilities that own or operate an amino or phenolic resins production unit. (Part 63, Subpart OOO)

*bp. Emission standards for hazardous air pollutants for polyether polyols production.* These standards apply to all new and existing major sources of polyether polyols. Polyether polyols are compounds formed through polymerization of ethylene oxide, propylene oxide or other cyclic ethers with compounds having one or more reactive hydrogens to form polyethers. Affected processes include, but are not limited to, storage vessels, process vents, heat exchange systems, equipment leaks and wastewater operations. (Subpart PPP)

*bq. Emission standards for hazardous air pollutants for primary copper smelting.* Rescinded IAB 3/18/15, effective 4/22/15.

*br. Emission standards for hazardous air pollutants for secondary aluminum production.* (Part 63, Subpart RRR)

*bs.* Reserved.

*bt. Emission standards for hazardous air pollutants for primary lead smelting.* Rescinded IAB 3/18/15, effective 4/22/15.

*bu. Emission standards for hazardous air pollutants for petroleum refineries: catalytic cracking units, catalytic reforming units, and sulfur recovery units.* This standard applies to a new or existing petroleum refinery that is located at a major source of hazardous air pollutants (HAPs) emissions. (Part 63, Subpart UUU)

*bv. Emission standards for hazardous air pollutants publicly owned treatment works (POTW).* (Part 63, Subpart VVV)

*bw.* Reserved.

*bx. Emission standards for hazardous air pollutants for ferroalloys production: ferromanganese and silicomanganese.* These standards apply to all new and existing major sources of ferroalloys production of ferromanganese and silicomanganese. Affected processes include, but are not limited to, submerged arc furnaces, metal oxygen refining (MOR) processes, crushing and screening operations, and fugitive dust sources. (Subpart XXX)

*by. to bz.* Reserved.

*ca. Emission standards for hazardous air pollutants: municipal solid waste landfills.* This standard applies to existing and new municipal solid waste (MSW) landfills. (Part 63, Subpart AAAA)

*cb.* Reserved.

*cc. Emission standards for hazardous air pollutants for the manufacturing of nutritional yeast.* (Part 63, Subpart CCCC)

*cd. Emission standards for hazardous air pollutants for plywood and composite wood products (formerly plywood and particle board manufacturing).* These standards apply to new and existing major sources with equipment used to manufacture plywood and composite wood products. This equipment includes dryers, refiners, blenders, formers, presses, board coolers, and other process units associated with the manufacturing process. This also includes coating operations, on-site storage and wastewater treatment. However, only certain process units (defined in the federal rule) are subject to control or work practice requirements. (Part 63, Subpart DDDD)

*ce. Emission standards for hazardous air pollutants for organic liquids distribution (non-gasoline).* These standards apply to new and existing major source organic liquids distribution (non-gasoline) operations, which are carried out at storage terminals, refineries, crude oil pipeline stations, and various manufacturing facilities. (Part 63, Subpart EEEE)

*cf. Emission standards for hazardous air pollutants for miscellaneous organic chemical manufacturing (MON).* These standards establish emission limits and work practice standards for new and existing major sources with miscellaneous organic chemical manufacturing process units, wastewater treatment and conveyance systems, transfer operations, and associated ancillary equipment. (Part 63, Subpart FFFF)

*cg. Emission standards for hazardous air pollutants for solvent extraction for vegetable oil production.* (Part 63, Subpart GGGG)

*ch. Emission standards for hazardous air pollutants for wet-formed fiberglass mat production.* This standard applies to wet-formed fiberglass mat production plants that are major sources of hazardous air pollutants. These plants may be stand-alone facilities or located with asphalt roofing and processing facilities. (Part 63, Subpart HHHH)

*ci. Emission standards for hazardous air pollutants for surface coating of automobiles and light-duty trucks.* These standards apply to new, reconstructed, or existing affected sources, as defined in the standard, that are located at a facility which applies topcoat to new automobile or new light-duty truck bodies or body parts for new automobiles or new light-duty trucks and that is a major source, is located at a major source, or is part of a major source of emissions of hazardous air pollutants. Additional applicability criteria and exemptions from these standards may apply. (Part 63, Subpart IIII)

*cj. Emission standards for hazardous air pollutants: paper and other web coating.* This standard applies to a facility that is engaged in the coating of paper, plastic film, metallic foil, and other web surfaces located at a major source of hazardous air pollutant (HAP) emissions. (Part 63, Subpart JJJJ)

*ck. Emission standards for hazardous air pollutants for surface coating of metal cans.* These standards apply to a metal can surface coating operation that uses at least 5,700 liters (1,500 gallons (gal)) of coatings per year and is a major source, is located at a major source, or is part of a major source of hazardous air pollutant emissions. Coating operations located at an area source are not subject to this rule. Additional applicability criteria and exemptions from these standards may apply. (Part 63, Subpart KKKK)

*cl. Reserved.*

*cm. Emission standards for hazardous air pollutants for surface coating of miscellaneous metal parts and products.* These standards apply to miscellaneous metal parts and products surface coating facilities that are a major source, are located at a major source, or are part of a major source of hazardous air pollutant emissions. A miscellaneous metal parts and products surface coating facility that is located at an area source is not subject to this standard. Certain sources are exempt as described in the standard. (Part 63, Subpart MMMM)

*cn. Emission standards for hazardous air pollutants: surface coating of large appliances.* This standard applies to a facility that applies coatings to large appliance parts or products, and is a major source, is located at a major source, or is part of a major source of emissions of hazardous air pollutants (HAPs). The large appliances source category includes facilities that apply coatings to large appliance parts or products. Large appliances include “white goods” such as ovens, refrigerators, freezers, dishwashers, laundry equipment, trash compactors, water heaters, comfort furnaces, electric heat pumps and most HVAC equipment intended for any application. (Part 63, Subpart NNNN)

*co. Emission standards for hazardous air pollutants for printing, coating, and dyeing of fabrics and other textiles.* These standards apply to new and existing facilities with fabric or other textile coating, printing, slashing, dyeing, or finishing operations, or group of such operations, that are a major source of hazardous air pollutants or are part of a facility that is a major source of hazardous air pollutants. Coating, printing, slashing, dyeing, or finishing operations located at an area source are not subject to this standard. Several exclusions from this source category are listed in the standard. (Part 63, Subpart OOOO)

*cp. Emission standards for surface coating of plastic parts and products.* These standards apply to new and existing major sources with equipment used to coat plastic parts and products. The surface coating application process includes drying/curing operations, mixing or thinning operations, and cleaning operations. Coating materials include, but are not limited to, paints, stains, sealers, topcoats, basecoats, primers, inks, and adhesives. (Part 63, Subpart PPPP)

*cq. Emission standards for hazardous air pollutants for surface coating of wood building products.* These standards establish emission limitations, operating limits, and work practice requirements for wood building products surface coating facilities that use at least 1,100 gallons of coatings per year and are a major source, are located at a major source, or are part of a major source of hazardous air pollutant emissions. Wood building products surface coating facilities located at an

area source are not subject to this standard. Several exclusions from this source category are listed in the standard. (Part 63, Subpart QQQQ)

*cr. Emission standards for hazardous air pollutants: surface coating of metal furniture.* This standard applies to a metal furniture surface coating facility that is a major source, is located at a major source, or is part of a major source of HAP emissions. A metal furniture surface coating facility is one that applies coatings to metal furniture or components of metal furniture. Metal furniture means furniture or components that are constructed either entirely or partially from metal. (Part 63, Subpart RRRR)

*cs. Emission standards for hazardous air pollutants: surface coating of metal coil.* This standard requires that all new and existing "major" air toxics sources in the metal coil coating industry meet specific emission limits. Metal coil coating is the process of applying a coating (usually protective or decorative) to one or both sides of a continuous strip of sheet metal. Industries using coated metal include: transportation, building products, appliances, can manufacturing, and packaging. Other products using coated metal coil include measuring tapes, ventilation systems for walls and roofs, lighting fixtures, office filing cabinets, cookware, and sign stock material. (Part 63, Subpart SSSS)

*ct. Emission standards for hazardous air pollutants for leather finishing operations.* This standard applies to a new or existing leather finishing operation that is a major source of hazardous air pollutants (HAPs) emissions or that is located at, or is part of, a major source of HAP emissions. In general, a leather finishing operation is a single process or group of processes used to adjust and improve the physical and aesthetic characteristics of the leather surface through multistage application of a coating comprised of dyes, pigments, film-forming materials, and performance modifiers dissolved or suspended in liquid carriers. (Part 63, Subpart TTTT)

*cu. Emission standards for hazardous air pollutants for cellulose products manufacturing.* This standard applies to a new or existing cellulose products manufacturing operation that is located at a major source of HAP emissions. Cellulose products manufacturing includes both the miscellaneous viscose processes source category and the cellulose ethers production source category. (Part 63, Subpart UUUU)

*cv. Emission standards for hazardous air pollutants for boat manufacturing.* (Part 63, Subpart VVVV)

*cw. Emission standards for hazardous air pollutants: reinforced plastic composites production.* This standard applies to a new or an existing reinforced plastic composites production facility that is located at a major source of HAP emissions. (Part 63, Subpart WWWW)

*cx. Emission standards for hazardous air pollutants: rubber tire manufacturing.* This standard applies to a rubber tire manufacturing facility that is located at, or is a part of, a major source of hazardous air pollutant (HAP) emissions. Rubber tire manufacturing includes the production of rubber tires and/or the production of components integral to rubber tires, the production of tire cord, and the application of puncture sealant. (Part 63, Subpart XXXX)

*cy. Emission standards for hazardous air pollutants for stationary combustion turbines.* These standards apply to stationary combustion turbines which are located at a major source of hazardous air pollutant emissions. Several subcategories have been defined within the stationary combustion turbine source category. Each subcategory has distinct requirements as specified in the standards. These standards do not apply to stationary combustion turbines located at an area source of hazardous air pollutant emissions. (Part 63, Subpart YYYY)

*cz. Emission standards for stationary reciprocating internal combustion engines.* These standards apply to new and existing major sources and to new and existing area sources with stationary reciprocating internal combustion engines (RICE). For purposes of these standards, stationary RICE means any reciprocating internal combustion engine which uses reciprocating motion to convert heat energy into mechanical work and which is not mobile. (Part 63, Subpart ZZZZ, as amended through January 30, 2013)

*da. Emission standards for hazardous air pollutants for lime manufacturing plants.* These standards regulate hazardous air pollutant emissions from new and existing lime manufacturing plants

that are major sources, are colocated with major sources, or are part of major sources. Additional applicability criteria and exemptions from these standards may apply. (Part 63, Subpart AAAAA)

*db. Emission standards for hazardous air pollutants: semiconductor manufacturing.* These standards apply to new and existing major sources with semiconductor manufacturing. (Part 63, Subpart BBBBB)

*dc. Emission standards for hazardous air pollutants for coke ovens: pushing, quenching, and battery stacks.* This standard applies to a new or existing coke oven battery at a plant that is a major source of HAP emissions. (Part 63, Subpart CCCCC)

*dd. Emission standards for industrial, commercial and institutional boilers and process heaters.* These standards apply to new and existing major sources with industrial, commercial or institutional boilers and process heaters. (Part 63, Subpart DDDDD)\*

\*As of April 15, 2009, the adoption by reference of Part 63, Subpart DDDDD, is rescinded. On July 30, 2007, the United States Court of Appeals for the District of Columbia Circuit issued its mandate vacating 40 CFR Part 63, Subpart DDDDD, in its entirety, and requiring EPA to repromulgate final standards for industrial, commercial or institutional boilers and process heaters at new and existing major sources.

*de. Emission standards for hazardous air pollutants for iron and steel foundaries.* These standards apply to each new or existing iron and steel foundary that is a major source of hazardous air pollutant emissions. A new affected source is an iron and steel foundary for which construction or reconstruction began after December 23, 2002. An existing affected source is an iron and steel foundary for which construction or reconstruction began on or before December 23, 2002. (Part 63, Subpart EEEEE)

*df. Emission standards for hazardous air pollutants for integrated iron and steel manufacturing.* These standards apply to affected sources at an integrated iron and steel manufacturing facility that is, or is part of, a major source of hazardous air pollutant emissions. The affected sources are each new or existing sinter plant, blast furnace, and basic oxygen process furnace (BOPF) shop at an integrated iron and steel manufacturing facility that is, or is part of, a major source of hazardous air pollutant emissions. (Part 63, Subpart FFFFF)

*dg. Emission standards for hazardous air pollutants: site remediation.* These standards apply to new and existing major sources with certain types of site remediation activity on the source's property or on a contiguous property. These standards control hazardous air pollutant (HAP) emissions at major sources where remediation technologies and practices are used at the site to clean up contaminated environmental media (e.g., soil, groundwater, or surface water) or certain stored or disposed materials that pose a reasonable potential threat to contaminate environmental media.

Some site remediations already regulated by rules established under the Comprehensive Environmental Response and Compensation Liability Act (CERCLA) or the Resource Conservation and Recovery Act (RCRA) are not subject to these standards, as specified in Subpart GGGGG. There are also exemptions for short-term remediation and for certain leaking underground storage tanks, as specified in Subpart GGGGG. (Part 63, Subpart GGGGG)

*dh. Emission standards for hazardous air pollutants for miscellaneous coating manufacturing.* These standards establish emission limits and work practice requirements for new and existing miscellaneous coating manufacturing operations, including, but not limited to, process vessels, storage tanks, wastewater, transfer operations, equipment leaks, and heat exchange systems. (Part 63, Subpart HHHHH)

*di. Emission standards for mercury emissions from mercury cell chlor-alkali plants.* These standards apply to the chlorine production source category. This source category contains the mercury cell chlor-alkali plant subcategory and includes all plants engaged in the manufacture of chlorine and caustic in mercury cells. These standards define two affected sources: mercury cell chlor-alkali production facilities and mercury recovery facilities. (Part 63, Subpart IIIII)

*dj. Emission standards for hazardous air pollutants for brick and structural clay products manufacturing.* These standards apply to new and existing brick and structural clay products manufacturing facilities that are, are located at, or are part of a major source of hazardous air pollutant emissions. (Part 63, Subpart JJJJJ)\*

\*As of April 15, 2009, the adoption by reference of Part 63, Subpart JJJJJ, is rescinded. On June 18, 2007, the United States Court of Appeals for the District of Columbia Circuit issued its mandate vacating 40 CFR Part 63, Subpart JJJJJ, in its entirety, and requiring EPA to repromulgate final standards for brick and structural clay products manufacturing at new and existing major sources.

*dk. Emission standards for hazardous air pollutants for clay ceramics manufacturing.* These standards apply to clay ceramics manufacturing facilities that are, are located at, or are part of a major source of hazardous air pollutant emissions. The clay ceramics manufacturing source category includes those facilities that manufacture pressed floor tile, pressed wall tile, and other pressed tile; or sanitaryware, such as toilets and sinks. (Part 63, Subpart KKKKK)

*dl. Emission standards for hazardous air pollutants: asphalt processing and asphalt roofing manufacturing.* This standard applies to an existing or new asphalt processing or asphalt roofing manufacturing facility that is a major source of hazardous air pollutants (HAPs) emissions, or is located at, or is part of a major source of HAP emissions. (Part 63, Subpart LLLLL)

*dm. Emission standards for hazardous air pollutants: flexible polyurethane foam fabrication operations.* This standard applies to a new or existing source at a flexible polyurethane foam fabrication facility. The standard defines two affected sources (units or collections of units to which a given standard or limit applies) corresponding to the two subcategories, loop slitter adhesive use or flame lamination. (Part 63, Subpart MMMMM)

*dn. Emission standards for hazardous air pollutants: hydrochloric acid production.* This standard applies to a new or existing HCl production facility that produces a liquid HCl product at a concentration of 30 weight percent or greater during its normal operations and is located at, or is part of, a major source of HAP. This does not include HCl production facilities that only occasionally produce liquid HCl product at a concentration of 30 weight percent or greater. (Part 63, Subpart NNNNN)

*do.* Reserved.

*dp. Emission standards for hazardous air pollutants: engine test cells/stands.* This standard applies to an engine test cell/stand that is located at a major source of HAP emissions. An engine test cell/stand is any apparatus used for testing uninstalled stationary or uninstalled mobile engines. (Part 63, Subpart PTTTT)

*dq. Emission standards for hazardous air pollutants for friction materials manufacturing facilities.* This standard applies to a new or existing friction materials manufacturing facility that is (or is part of) a major source of hazardous air pollutants (HAPs) emissions. Friction materials manufacturing facilities produce friction materials for use in brake and clutch assemblies. (Part 63, Subpart QQQQQ)

*dr. Emission standards for hazardous air pollutants: taconite iron ore processing.* Rescinded IAB 3/18/15, effective 4/22/15.

*ds. Emission standards for hazardous air pollutants for refractory products manufacturing.* This standard applies to a new or existing refractory products manufacturing facility that is, is located at, or is part of, a major source of hazardous air pollutant (HAP) emissions. (Part 63, Subpart SSSSS)

*dt. Emission standards for hazardous air pollutants: primary magnesium refining.* Rescinded IAB 3/18/15, effective 4/22/15.

*du.* and *dv.* Reserved.

*dw. Emission standards for hazardous air pollutants for hospital ethylene oxide sterilizer area sources.* This standard applies to a hospital that is an area source for hazardous air pollutant emissions and that owns or operates a new or existing ethylene oxide sterilization facility. (Part 63, Subpart WTTTT)

*dx.* Reserved.

*dy. Emission standards for hazardous air pollutants for electric arc furnace steelmaking area sources.* This standard applies to new or existing electric arc furnace (EAF) steelmaking facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart YYYYY)

*dz. Emission standards for hazardous air pollutants for iron and steel foundry area sources.* This standard applies to new or existing iron and steel foundries that are area sources for hazardous air pollutant emissions. (Part 63, Subpart ZZZZZ)

*ea.* Reserved.

*eb. Emission standards for hazardous air pollutants for gasoline distribution area sources: bulk terminals, bulk plants and pipeline facilities.* This standard applies to new and existing bulk gasoline terminals, pipeline breakout stations, pipeline pumping stations and bulk gasoline plants that are area sources for hazardous air pollutant emissions. (Part 63, Subpart BBBBBB)

*ec. Emission standards for hazardous air pollutants for area sources: gasoline dispensing facilities.* This standard applies to new and existing gasoline dispensing facilities (GDF) that are area sources for hazardous air pollutant emissions. The affected equipment includes each gasoline cargo tank during delivery of product to GDF and also includes each storage tank. The equipment used for refueling of motor vehicles is not covered under these standards. (Part 63, Subpart CCCCCC)

*ed. to eg.* Reserved.

*eh. Emission standards for hazardous air pollutants for area sources: paint stripping and miscellaneous surface coating operations.* This standard applies to new or existing area sources of hazardous air pollutant emissions that engage in any of the following activities: (1) paint stripping operations that use methylene chloride (MeCl)-containing paint stripping formulations; (2) spray application of coatings to motor vehicles or mobile equipment; or (3) spray application of coatings to plastic or metal substrate with coatings that contain compounds of chromium (Cr), lead (Pb), manganese (Mn), nickel (Ni) or cadmium (Cd). (Part 63, Subpart HHHHHH)

*ei. to ek.* Reserved.

*el. Emission standards for hazardous air pollutants for acrylic and modacrylic fibers production area sources.* This standard applies to acrylic and modacrylic fibers production plants that are area sources for hazardous air pollutant emissions. (Part 63, Subpart LLLLLL)

*em. Emission standards for hazardous air pollutants for carbon black production area sources.* This standard applies to carbon black production plants that are area sources for hazardous air pollutants. (Part 63, Subpart MMMMMM)

*en. Emission standards for hazardous air pollutants for chemical manufacturing of chromium compounds area sources.* This standard applies to plants that produce chromium compounds and are area sources for hazardous air pollutants. (Part 63, Subpart NNNNNN)

*eo. Emission standards for hazardous air pollutants for flexible polyurethane foam production and fabrication area sources.* This standard applies to plants that produce flexible polyurethane foam or rebond foam, and plants that fabricate polyurethane foam, that are area sources for hazardous air pollutants. This standard applies to both new and existing area sources. An affected source is existing if construction or reconstruction commenced on or before April 4, 2007. An affected source is new if construction or reconstruction commenced after April 4, 2007. (Part 63, Subpart OOOOOO)

*ep. Emission standards for hazardous air pollutants for lead acid battery manufacturing area sources.* This standard applies to lead acid battery manufacturing plants that are area sources for hazardous air pollutants. Affected sources include all grid casting facilities, paste mixing facilities, three-process operation facilities, lead oxide manufacturing facilities, lead reclamation facilities, and any other lead-emitting operation that is associated with a lead acid battery manufacturing plant. This standard applies to both new and existing area sources. An affected source is existing if construction or reconstruction commenced on or before April 4, 2007. An affected source is new if construction or reconstruction commenced after April 4, 2007. (Part 63, Subpart PPPPPP)

*eq. Emission standards for hazardous air pollutants for wood preserving area sources.* This standard applies to wood preserving operations that are area sources for hazardous air pollutants. This standard applies to both new and existing area sources. An affected source is existing if construction or reconstruction commenced on or before April 4, 2007. An affected source is new if construction or reconstruction commenced after April 4, 2007. (Part 63, Subpart QQQQQQ)

*er. Emission standards for hazardous air pollutants for clay ceramics manufacturing area sources.* This standard applies to any new or existing clay ceramics manufacturing facility with an atomized glaze spray booth or kiln that fires glazed ceramic ware, that processes more than 50 tons per year of wet clay, and that is an area source for hazardous air pollutant emissions. (Part 63, Subpart RRRRRR)

*es. Emission standards for hazardous air pollutants for glass manufacturing area sources.* This standard applies to any new or existing glass manufacturing facility that is an area source for hazardous air pollutant emissions and meets the following criteria: (1) manufactures flat glass, glass containers or pressed and blown glass by melting a mixture of raw materials to produce molten glass and form the molten glass into sheets, containers or other shapes; and (2) uses one or more continuous furnaces to produce glass at a rate of at least 50 tons per year and that contains compounds of one or more “glass manufacturing metal HAP,” as defined in 40 CFR 63.11459, as raw materials in a glass manufacturing batch formulation. (Part 63, Subpart SSSSSS)

*et. Emissions standards for hazardous air pollutants for secondary nonferrous metals processing area sources.* This standard applies to any new or existing secondary nonferrous metals processing facility that is an area source for hazardous air pollutant emissions. This standard applies to all crushing and screening operations at a secondary zinc processing facility and to all furnace melting operations located at any secondary nonferrous metals processing facility. (Part 63, Subpart TTTTTT)

*eu.* Reserved.

*ev. Emission standards for hazardous air pollutants for area sources: chemical manufacturing.* This standard applies to chemical manufacturing at new and existing facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart VVVVVV)

*ew. Emission standards for hazardous air pollutants for area sources: plating and polishing.* This standard applies to plating and polishing activities at new and existing facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart WWWWWW)

*ex. Emission standards for hazardous air pollutants for area sources: metal fabrication and finishing.* This standard applies to new and existing facilities in which the primary activity or activities at the facility are metal fabrication and finishing and that are area sources for hazardous air pollutant emissions. (Part 63, Subpart XXXXXX)

*ey.* Reserved.

*ez. Emission standards for hazardous air pollutants for area sources: aluminum, copper, and other nonferrous foundries.* This standard applies to aluminum, copper, and other nonferrous foundries at new and existing facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart ZZZZZZ)

*fa. and fb.* Reserved.

*fc. Emission standards for hazardous air pollutants for area sources: paint and allied products manufacturing.* This standard applies to paint and allied products manufacturing at new and existing facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart CCCCCC)

*fd. Emission standards for hazardous air pollutants for area sources: prepared feeds manufacturing.* This standard applies to prepared feeds manufacturing that produces animal feed products (not including feed for cats or dogs) and uses chromium or manganese compounds at new and existing facilities that are area sources for hazardous air pollutant emissions. (Part 63, Subpart DDDDDDD)

**23.1(5) Emission guidelines.** The emission guidelines and compliance times for existing sources, as defined in 40 Code of Federal Regulations Part 60 as amended through June 9, 2006, shall apply to the following affected facilities. The corresponding 40 CFR Part 60 subpart designation is in parentheses. The control of the designated pollutants will be in accordance with federal standards established in Sections 111 and 129 of the Act and 40 CFR Part 60, Subpart B (Adoption and Submittal of State Plans for Designated Facilities), and the applicable subpart(s) for the existing source. Reference test methods (Appendix A), performance specifications (Appendix B), determination of emission rate change (Appendix C), quality assurance procedures (Appendix F) and the general provisions (Subpart A) of 40 CFR Part 60 also apply to the affected facilities.

*a. Emission guidelines for municipal solid waste landfills (Subpart Cc).* Emission guidelines and compliance times for the control of certain designated pollutants from designated municipal solid waste landfills shall be in accordance with federal standards established in Subparts Cc (Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills) and WWW (Standards of Performance for Municipal Solid Waste Landfills) of 40 CFR Part 60.

(1) Definitions. For the purpose of 23.1(5)“a,” the definitions have the same meaning given to them in the Act and 40 CFR Part 60, Subparts A (General Provisions), B, and WWW, if not defined in this subparagraph.

“Municipal solid waste landfill” or “MSW landfill” means an entire disposal facility in a contiguous geographical space where household waste is placed in or on land. An MSW landfill may also receive other types of RCRA Subtitle D wastes such as commercial solid waste, nonhazardous sludge, and industrial solid waste. Portions of an MSW landfill may be separated by access roads. An MSW landfill may be publicly or privately owned. An MSW landfill may be a new MSW landfill, an existing MSW landfill or a lateral expansion.

(2) Designated facilities.

1. The designated facility to which the emission guidelines apply is each existing MSW landfill for which construction, reconstruction or modification was commenced before May 30, 1991.

2. Physical or operational changes made to an existing MSW landfill solely to comply with an emission guideline are not considered a modification or reconstruction and would not subject an existing MSW landfill to the requirements of 40 CFR Part 60, Subpart WWW (40 CFR 60.750).

3. For MSW landfills subject to rule 567—22.101(455B) only because of applicability to subparagraph 23.1(5)“a”(2), the following apply for obtaining and maintaining a Title V operating permit under 567—22.104(455B):

The owner or operator of an MSW landfill with a design capacity less than 2.5 million megagrams or 2.5 million cubic meters is not required to obtain an operating permit for the landfill.

The owner or operator of an MSW landfill with a design capacity greater than or equal to 2.5 million megagrams and 2.5 million cubic meters on or before June 22, 1998, becomes subject to the requirements of 567—subrule 22.105(1) on September 20, 1998. This requires the landfill to submit a Title V permit application to the Air Quality Bureau, Department of Natural Resources, no later than September 20, 1999.

The owner or operator of a closed MSW landfill does not have to maintain an operating permit for the landfill if either of the following conditions are met: the landfill was never subject to the requirement for a control system under subparagraph 23.1(5)“a”(3); or the owner or operator meets the conditions for control system removal specified in 40 CFR § 60.752(b)(2)(v).

(3) Emission guidelines for municipal solid waste landfill emissions.

1. MSW landfill emissions at each MSW landfill meeting the conditions below shall be controlled. A design capacity report must be submitted to the director by November 18, 1997.

The landfill has accepted waste at any time since November 8, 1987, or has additional design capacity available for future waste deposition.

The landfill has a design capacity greater than or equal to 2.5 million megagrams or 2.5 million cubic meters. The landfill may calculate design capacity in either megagrams or cubic meters for comparison with the exemption values. Any density conversions shall be documented and submitted with the report. All calculations used to determine the maximum design capacity must be included in the design capacity report.

The landfill has a nonmethane organic compound (NMOC) emission rate of 50 megagrams per year or more. If the MSW landfill’s design capacity exceeds the established thresholds in 23.1(5)“a”(3)“1,” the NMOC emission rate calculations must be provided with the design capacity report.

2. The planning and installation of a collection and control system shall meet the conditions provided in 40 CFR 60.752(b)(2) at each MSW landfill meeting the conditions in 23.1(5)“a”(3)“1.”

3. MSW landfill emissions collected through the use of control devices must meet the following requirements, except as provided in 40 CFR 60.24 after approval by the Director and U.S. Environmental Protection Agency.

An open flare designed and operated in accordance with the parameters established in 40 CFR 60.18; a control system designed and operated to reduce NMOC by 98 weight percent; or an enclosed combustor designed and operated to reduce the outlet NMOC concentration to 20 parts per million as hexane by volume, dry basis at 3 percent oxygen, or less.

(4) Test methods and procedures. The following must be used:

1. The calculation of the landfill NMOC emission rate listed in 40 CFR 60.754, as applicable, to determine whether the landfill meets the condition in 23.1(5)“a”(3)“3”;

2. The operational standards in 40 CFR 60.753;

3. The compliance provisions in 40 CFR 60.755; and

4. The monitoring provisions in 40 CFR 60.756.

(5) Reporting and record-keeping requirements. The record-keeping and reporting provisions listed in 40 CFR 60.757 and 60.758, as applicable, except as provided under 40 CFR 60.24 after approval by the Director and U.S. Environmental Protection Agency, shall be used.

(6) Compliance times.

1. Except as provided for under 23.1(5)“a”(6)“2,” planning, awarding of contracts, and installation of MSW landfill air emission collection and control equipment capable of meeting the emission guidelines established under 23.1(5)“a”(3) shall be accomplished within 30 months after the date the initial NMOC emission rate report shows NMOC emissions greater than or equal to 50 megagrams per year.

2. For each existing MSW landfill meeting the conditions in 23.1(5)“a”(3)“1” whose NMOC emission rate is less than 50 megagrams per year on August 20, 1997, installation of collection and control systems capable of meeting emission guidelines in 23.1(5)“a”(3) shall be accomplished within 30 months of the date when the condition in 23.1(5)“a”(3)“1” is met (i.e., the date of the first annual nonmethane organic compounds emission rate which equals or exceeds 50 megagrams per year).

*b. Emission guidelines for hospital/medical/infectious waste incinerators (Subpart Ce).* This paragraph contains emission guidelines and compliance times for the control of certain designated pollutants from hospital/medical/infectious waste incinerator(s) (HMIWI) in accordance with Subparts Ce and Ec (Standards of Performance for Hospital/Medical/Infectious Waste Incinerators) of 40 CFR Part 60.\*

\*As of November 24, 2010, the emission guidelines for hospital/medical/infectious waste incinerators (Subpart Ce) are rescinded.

*c. Emission guidelines and compliance schedules for commercial and industrial solid waste incineration units that commenced construction on or before November 30, 1999.* Emission guidelines and compliance schedules for the control of designated pollutants from affected commercial and industrial solid waste incinerators that commenced construction on or before November 30, 1999, shall be in accordance with federal plan requirements established in Subpart III of 40 CFR Part 62.

*d. Emission guidelines for mercury for coal-fired electric utility steam generating units.* Rescinded IAB 10/7/09, effective 11/11/09.

**23.1(6) Calculation of emission limitations based upon stack height.** This rule sets limits for the maximum stack height credit to be used in ambient air quality modeling for the purpose of setting an emission limitation and calculating the air quality impact of a source. The rule does not limit the actual physical stack height for any source.

For the purpose of this subrule, definitions of “stack,” “a stack in existence,” “dispersion technique,” “nearby” and “excessive concentration” as set forth in 40 CFR §§ 51.100(ff) through (hh), (jj) and (kk) as amended through June 14, 1996, are adopted by reference.

*a.* “Good engineering practice (GEP) stack height” means the greater of:

(1) Sixty-five meters, measured from the ground level elevation at the base of the stack; or

(2) For stacks in existence on January 12, 1979, and for which the owner and operator had obtained all applicable permits or approvals required under 567—Chapter 22 and 40 CFR § 52.21 as amended through June 13, 2007,

$$H_g = 2.5H$$

provided the owner or operator produces evidence that this equation was actually relied on in establishing an emission limitation;

For all other stacks,

$$H_g = H + 1.5L$$

where:

$H_g$  = good engineering practice stack height, measured from the ground level elevation at the base of the stack,

H = height of nearby structure(s) measured from the ground level elevation at the base of the stack,

L = lesser dimension, height or projected width, of nearby structure(s), provided that the department may require the use of a field study or fluid model to verify GEP stack height for the source; or

(3) The height demonstrated by a fluid model or a field study approved by the department, which ensures that the emissions from a stack do not result in excessive concentrations of any air pollutant as a result of atmospheric downwash, wakes, or eddy effects created by the source itself, nearby structures or nearby terrain features. Public notification of the availability of such study and opportunity for public hearing are required prior to approval by the department.

b. The degree of emission limitation required for control of any air contaminant under this chapter shall not be affected in any manner by:

(1) The consideration of that portion of a stack which exceeds GEP stack height; or

(2) Varying the rate of emission of a pollutant according to atmospheric conditions or ambient concentrations of that pollutant; or

(3) Increasing final exhaust gas plume rise by manipulating source process parameters, exhaust gas parameters, stack parameters, or combined exhaust gases from several existing stacks into one stack; or other selective handling of exhaust gas streams so as to increase gas plume rise.

This rule is intended to implement Iowa Code section 455B.133.

[ARC 7565B, IAB 2/11/09, effective 3/18/09; ARC 7623B, IAB 3/11/09, effective 4/15/09; ARC 8216B, IAB 10/7/09, effective 11/11/09; ARC 8215B, IAB 10/7/09, effective 11/11/09; ARC 9154B, IAB 10/20/10, effective 11/24/10 (See Delay note at end of chapter) (See Rescission note at end of chapter); ARC 0329C, IAB 9/19/12, effective 10/24/12; ARC 1014C, IAB 9/18/13, effective 10/23/13; ARC 1561C, IAB 8/6/14, effective 9/10/14; ARC 1913C, IAB 3/18/15, effective 4/22/15; ARC 2352C, IAB 1/6/16, effective 12/16/15]

### **567—23.2(455B) Open burning.**

**23.2(1) Prohibition.** No person shall allow, cause or permit open burning of combustible materials, except as provided in 23.2(2) and 23.2(3).

**23.2(2) Variances from rules.** Any person wishing to conduct open burning of materials not exempted in 23.2(3) may make application for a variance as specified in 567—subrule 21.2(1). In addition to requiring the information specified under 567—subrule 21.2(1), the director may require any person applying for a variance from the open burning rules to submit adequate documentation to allow the director to assess whether granting the variance will hinder attainment or maintenance of a National Ambient Air Quality Standard (NAAQS).

**23.2(3) Exemptions.** The open burning exemptions specified in this subrule shall not be construed as exemptions from any other applicable environmental regulations. In particular, the exemptions contained in this subrule do not absolve any person from compliance with the rules for solid waste disposal, including ash disposal, and solid waste permitting contained in 567—Chapters 100 through 130 or the rules for storm water runoff and storm water permitting contained in 567—Chapters 60 and 64. The following shall be permitted unless prohibited by local ordinances or regulations.

a. *Disaster rubbish.* The open burning of rubbish, including landscape waste, for the duration of the community disaster period in cases where an officially declared emergency condition exists. Burning of any structures or demolished structures shall be conducted in accordance with 40 CFR Section 61.145 as amended through January 16, 1991, which is the “Standard for Demolition and Renovation” of the asbestos National Emission Standard for Hazardous Air Pollutants.

b. *Trees and tree trimmings.* The open burning of trees and tree trimmings not originated on the premises provided that the burning site is operated by a local governmental entity, the burning site is fenced and access is controlled, burning is conducted on a regularly scheduled basis and is supervised at all times, burning is conducted only when weather conditions are favorable with respect to surrounding property, and the burning site is limited to areas at least one-quarter mile from any inhabited building unless a written waiver in the form of an affidavit is submitted by the owner of the building to the department and to the local governmental entity prior to the first instance of open burning at the site which occurs after November 13, 1996. The written waiver shall become effective only upon recording

in the office of the recorder of deeds of the county in which the inhabited building is located. However, when the open burning of trees and tree trimmings causes air pollution as defined in Iowa Code section 455B.131(3), the department may take appropriate action to secure relocation of the burning operation. Rubber tires shall not be used to ignite trees and tree trimmings.

This exemption shall not apply within the area classified as the PM10 (inhalable) particulate Group II area of Mason City. This Group II area is described as follows: the area in Cerro Gordo County, Iowa, in Lincoln Township including Sections 13, 24 and 25; in Lime Creek Township including Sections 18, 19, 20, 21, 27, 28, 29, 30, 31, 32, 33, 34 and 35; in Mason Township the W ½ of Section 1, Sections 2, 3, 4, 5, 8, 9, the N ½ of Section 11, the NW ¼ of Section 12, the N ½ of Section 16, the N ½ of Section 17 and the portions of Sections 10 and 15 north and west of the line from U.S. Highway 18 south on Kentucky Avenue to 9th Street SE; thence west on 9th Street SE to the Minneapolis and St. Louis railroad tracks; thence south on Minneapolis and St. Louis railroad tracks to 19th Street SE; thence west on 19th Street SE to the section line between Sections 15 and 16.

*c. Flare stacks.* The open burning or flaring of waste gases, providing such open burning or flaring is conducted in compliance with 23.3(2) “d” and 23.3(3) “e.”

*d. Landscape waste.* The disposal by open burning of landscape waste originating on the premises. However, the burning of landscape waste produced in clearing, grubbing and construction operations shall be limited to areas located at least one-fourth mile from any building inhabited by other than the landowner or tenant conducting the open burning. Rubber tires shall not be used to ignite landscape waste.

*e. Recreational fires.* Open fires for cooking, heating, recreation and ceremonies, provided they comply with 23.3(2) “d.” Burning rubber tires is prohibited from this activity.

*f. Residential waste.* Backyard burning of residential waste at dwellings of four-family units or less. The adoption of more restrictive ordinances or regulations of a governing body of the political subdivision, relating to control of backyard burning, shall not be precluded by these rules.

*g. Training fires.* For purposes of subrule 23.2(3), a “training fire” is a fire set for the purposes of conducting bona fide training of public or industrial employees in firefighting methods. For purposes of this paragraph, “bona fide training” means training that is conducted according to the National Fire Protection Association 1403 Standard of Live Fire Training Evolutions (2002 Edition) or a comparable training fire standard. A training fire may be conducted, provided that all of the following conditions are met:

- (1) A training fire on a building is conducted with the building structurally intact.
- (2) The training fire does not include the controlled burn of a demolished building.
- (3) If the training fire is to be conducted on a building, written notification is provided to the department on DNR Form 542-8010, Notification of an Iowa Training Fire-Demolition or a Controlled Burn of a Demolished Building, and is postmarked or delivered to the director at least ten working days before such action commences.
- (4) Notification shall be made in accordance with 40 CFR Section 61.145, “Standard for Demolition and Renovation” of the asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP), as amended through January 16, 1991.
- (5) All asbestos-containing materials shall be removed prior to the training fire.
- (6) Asphalt roofing may be burned in the training fire only if notification to the director contains testing results indicating that none of the layers of asphalt roofing contain asbestos. During each calendar year, each fire department may conduct no more than two training fires on buildings where asphalt roofing has not been removed, provided that for each of those training fires the asphalt roofing material present has been tested to ensure that it does not contain asbestos. Each fire department’s limit on the burning of asphalt roofing shall include both training fires and the controlled burning of a demolished building, as specified in 23.2(3) “j.”
- (7) Rubber tires shall not be burned during a training fire.

*h. Paper or plastic pesticide containers and seed corn bags.* The disposal by open burning of paper or plastic pesticide containers (except those formerly containing organic forms of beryllium, selenium, mercury, lead, cadmium or arsenic) and seed corn bags resulting from farming activities occurring on the

premises. Such open burning shall be limited to areas located at least one-fourth mile from any building inhabited by other than the landowner or tenant conducting the open burning, livestock area, wildlife area, or water source. The amount of paper or plastic pesticide containers and seed corn bags that can be disposed of by open burning shall not exceed one day's accumulation or 50 pounds, whichever is less. However, when the burning of paper or plastic pesticide containers or seed corn bags causes a nuisance, the director may take action to secure relocation of the burning operation. Since the concentration levels of pesticide combustion products near the fire may be hazardous, the person conducting the open burning should take precautions to avoid inhalation of the pesticide combustion products.

*i. Agricultural structures.* The open burning of agricultural structures, provided that the open burning occurs on the premises and, for agricultural structures located within a city or town, at least one-fourth mile from any building inhabited by a person other than the landowner, a tenant, or an employee of the landowner or tenant conducting the open burning unless a written waiver in the form of an affidavit is submitted by the owner of the building to the department prior to the open burning; all chemicals and asphalt roofing are removed; burning is conducted only when weather conditions are favorable with respect to surrounding property; and permission from the local fire chief is secured in advance of the burning. Rubber tires shall not be used to ignite agricultural structures. The asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP), as amended through January 16, 1991, requires the burning of agricultural structures to be conducted in accordance with 40 CFR Section 61.145, "Standard for Demolition and Renovation."

For the purposes of this subrule, "agricultural structures" means barns, machine sheds, storage cribs, animal confinement buildings, and homes located on the premises and used in conjunction with crop production, livestock or poultry raising and feeding operations. "Agricultural structures," for asbestos NESHAP purposes, includes all of the above, with the exception of a single residential structure on the premises having four or fewer dwelling units, which has been used only for residential purposes.

*j. Controlled burning of a demolished building.* A city, as "city" is defined in Iowa Code section 362.2(4), with approval of its council, as "council" is defined in Iowa Code section 362.2(8), may conduct a controlled burn of a demolished building. A city is the only party that may conduct such a burn and is responsible for ensuring that all of the following conditions are met:

(1) *Prohibition.* The controlled burning of a demolished building is prohibited within the city limits of Cedar Rapids, Marion, Hiawatha, Council Bluffs, Carter Lake, Des Moines, West Des Moines, Clive, Windsor Heights, Urbandale, Pleasant Hill, Buffalo, Davenport, Mason City or any other area where area-specific state implementation plans require the control of particulate matter.

(2) *Notification requirements.* For each building proposed to be burned, the city fire department or a city official, on behalf of the city, shall submit to the department a completed notification postmarked at least 10 working days prior to commencing demolition and at least 30 days before the proposed controlled burn commences. Documentation of city council approval shall be submitted with the notification. Information required to be provided shall include: the exact location of the burn site; the approximate distance to the nearest neighboring residence or business; the method used by the city to notify nearby residents of the proposed burn; an explanation of why alternative methods of demolition debris management are not being used; and information required by 40 CFR Section 61.145, "Standard for Demolition and Renovation" of the asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP), as amended through January 16, 1991. Notification shall be provided on DNR Form 542-8010, Notification of an Iowa Training Fire-Demolition or a Controlled Burn of a Demolished Building. For burns conducted outside the city limits, the city shall send to the chairperson of the applicable county board a copy of the completed DNR notification form 542-8010 and documentation of city council approval. Notification to the county board shall be postmarked, faxed or sent by electronic mail at least 30 days before the proposed controlled burn commences.

(3) *Asbestos removal requirements.* All asbestos-containing materials shall be removed before the building to be burned is demolished. The department may require proof that any applicable inspection, notification, removal and demolition occurred, or will occur, in accordance with 40 CFR Section 61.145, "Standard for Demolition and Renovation" of the asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP), as amended through January 16, 1991.

(4) *Requirements for asphalt roofing.* During each calendar year, each city shall conduct no more than two controlled burns of a demolished building in which asphalt roofing has not been removed, provided that for each controlled burn of a demolished building the asphalt roofing material present has been tested to ensure that it does not contain asbestos. Each city's limit on the burning of asphalt roofing shall include both the controlled burning of a demolished building and training fires, as specified in paragraph 23.2(3) "g."

(5) *Building size limit.* For each proposed controlled burn located within the city limits, more than one demolished building may be included in the burn, provided that the sum total of all building material to be burned at a designated site does not exceed 1700 square feet in size. For a controlled burn site located outside the city limits, the sum total of all building material to be burned, per day, may not exceed 1700 square feet in size. For purposes of this subparagraph, "square feet" includes both finished and unfinished basements and excludes unfinished attics, carports, attached garages, and porches that are not protected from weather.

(6) *Time of day requirements.* The controlled burning of a demolished building may be conducted only between the hours of 6 a.m. and 6 p.m. and only when weather conditions are favorable with respect to surrounding property. The city shall adequately schedule and sufficiently control the burn to ensure that burning is completed by 6 p.m.

(7) *Prohibited materials.* Rubber tires, chemicals, furniture, carpeting, household appliances, vinyl products (such as flooring or siding), trade waste, garbage, rubbish, landscape waste, residential waste, and other nonstructural materials shall not be burned.

(8) *Limits on the number and location of burns.* For burns conducted within the city limits, each city may undertake no more than one controlled burn of demolished building material in every 0.6-mile-radius circle during each calendar year. For burn sites established outside the city limits, each city shall undertake no more than one controlled burn of demolished building material per day. A burn site outside the city limits must be located at least 0.6 of a mile from any building inhabited by a person, as "person" is defined in Iowa Code section 362.2(17).

(9) *Requirements for burn access and supervision.* The city shall control access to all demolished building burn sites. Representatives of the city who are city employees or who are hired by the city shall supervise the burning of demolished building material at all times.

(10) *Record-keeping requirements.* The city shall retain at least one copy of all notifications and supplementary information required to be sent to the department under subparagraph (2). Additionally, the city shall maintain a map of the exact location of each burn site, and supporting documentation showing the date of each demolished building burn and the square feet of building material burned on each date. All maps, notifications and associated records shall be maintained by the city clerk, as "clerk" is defined in Iowa Code section 362.2(7), for a period of at least three years and shall be made available for inspection by the department upon request.

(11) *Variance from this paragraph.* In accordance with 567—subrules 21.2(1) and 23.2(2), a city may apply for a variance from the specific conditions for controlled burning of a demolished building and may request that the director conduct a review of the ambient air impacts of the request. The director shall approve or deny the request in accordance with 567—subrule 21.2(4).

(12) *Compliance with other applicable environmental regulations.* Compliance with the exemption requirements in this paragraph shall not absolve a city of the responsibility to comply with any other applicable environmental regulations. In particular, a city conducting a controlled burn of a demolished building shall comply with all applicable solid waste disposal, including ash disposal, and solid waste permitting rules contained in 567—Chapters 100 through 130, as well as all applicable storm water discharge and storm water permitting rules contained in 567—Chapters 60 and 64.

**23.2(4) Unavailability of exemptions in certain areas.** Notwithstanding 23.2(2) and 23.2(3) "b," "d," "f," and "i," no person shall allow, cause or permit the open burning of trees or tree trimmings, residential or landscape waste or agricultural structures in the cities of: Cedar Rapids, Marion, Hiawatha, Council Bluffs, Carter Lake, Des Moines, West Des Moines, Clive, Windsor Heights, Urbandale, and Pleasant Hill.

This rule is intended to implement Iowa Code section 455B.133.

**567—23.3(455B) Specific contaminants.**

**23.3(1) General.** The emission standards contained in this rule shall apply to each source operation unless a specific emission standard for the process involved is prescribed elsewhere in this chapter, in which case the specific standard shall apply.

**23.3(2) Particulate matter.** No person shall cause or allow the emission of particulate matter from any source in excess of the emission standards specified in this chapter, except as provided in 567—Chapter 24.

*a. General emission rate.*

(1) For sources constructed, modified or reconstructed on or after July 21, 1999, the emission of particulate matter from any process shall not exceed an emission standard of 0.1 grain per dry standard cubic foot (dscf) of exhaust gas, except as provided in 567—21.2(455B), 23.1(455B), 23.4(455B), and 567—Chapter 24.

(2) For sources constructed, modified or reconstructed prior to July 21, 1999, the emission of particulate matter from any process shall not exceed the amount determined from Table I, or amount specified in a permit if based on an emission standard of 0.1 grain per standard cubic foot of exhaust gas, or established from standards provided in 23.1(455B) and 23.4(455B).

TABLE I  
ALLOWABLE RATE OF EMISSION BASED ON PROCESS WEIGHT RATE\*

Process Weight Rate		Emission Rate	Process Weight Rate		Emission Rate
Lb/Hr	Tons/Hr	Lb/Hr	Lb/Hr	Tons/Hr	Lb/Hr
100	0.05	0.55	16,000	8.00	16.5
200	0.10	0.88	18,000	9.00	17.9
400	0.20	1.40	20,000	10.00	19.2
600	0.30	1.83	30,000	15.00	25.2
800	0.40	2.22	40,000	20.00	30.5
1,000	0.50	2.58	50,000	25.00	35.4
1,500	0.75	3.38	60,000	30.00	40.0
2,000	1.00	4.10	70,000	35.00	41.3
2,500	1.25	4.76	80,000	40.00	42.5
3,000	1.50	5.38	90,000	45.00	43.6
3,500	1.75	5.96	100,000	50.00	44.6
4,000	2.00	6.52	120,000	60.00	46.3
5,000	2.50	7.58	140,000	70.00	47.8
6,000	3.00	8.56	160,000	80.00	49.0
7,000	3.50	9.49	200,000	100.00	51.2
8,000	4.00	10.4	1,000,000	500.00	69.0
9,000	4.50	11.2	2,000,000	1,000.00	77.6
10,000	5.00	12.0	6,000,000	3,000.00	92.7
12,000	6.00	13.6			

\*Interpolation of the data in this table for process weight rates up to 60,000 lb/hr shall be accomplished by the use of the equation

$$E=4.10 P^{0.67},$$

and interpolation and extrapolation of the data for process weight rates in excess of 60,000 lb/hr shall be accomplished by use of the equation

$$E=55.0 P^{0.11}-40,$$

where E = rate of emission in lb/hr, and

P = process weight in tons/hr

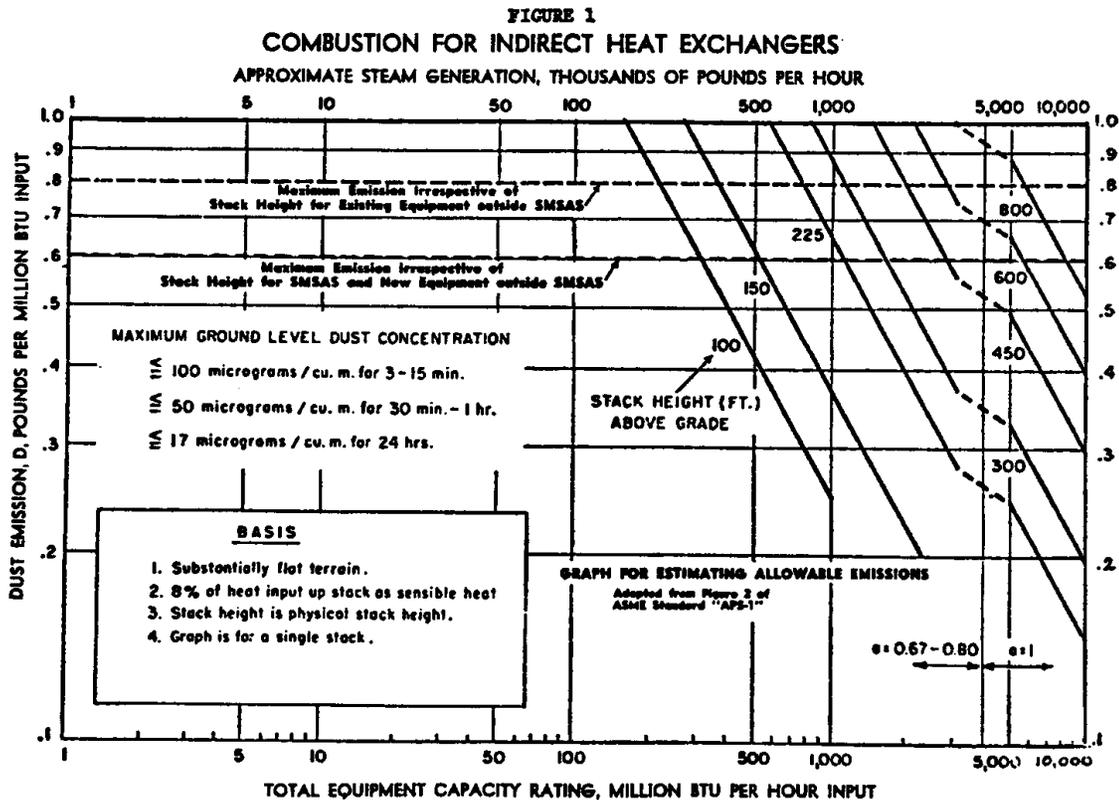

b. *Combustion for indirect heating.* Emissions of particulate matter from the combustion of fuel for indirect heating or for power generation shall be limited by the ASME Standard APS-1, Second Edition, November, 1968, "Recommended Guide for the Control of Dust Emission—Combustion for Indirect Heat Exchangers." For the purpose of this paragraph, the allowable emissions shall be calculated from equation (15) in that standard, with  $Comax^2=50$  micrograms per cubic meter. Allowable emissions from a single stack may be estimated from Figure 1. The maximum ground level dust concentrations designated are above the background level. For plants with 4,000 million Btu/hour input or more, the "a" factor shall be 1.0. In plants with less than 4,000 million Btu/hour input, appropriate "a" factors, less than 1.0, shall be applied. Pertinent correction factors, as specified in the standard, shall be applied for installations with multiple stacks. However, for fuel-burning units in operation on January 13, 1976, the maximum allowable emissions calculated under APS-1 for the facility's equipment configuration on January 13, 1976, shall not be increased even if the changes in the equipment or stack configuration would otherwise allow a recalculation and a higher maximum allowable emission under APS-1.

(1) Outside any standard metropolitan statistical area, the maximum allowable emissions from each stack, irrespective of stack height, shall be 0.8 pounds of particulates per million Btu input.

(2) Inside any standard metropolitan statistical area, the maximum allowable emission from each stack, irrespective of stack height, shall be 0.6 pounds of particulates per million Btu input.

(3) For a new fossil fuel-fired steam generating unit of more than 250 million Btu per hour heat input, 23.1(2) "a" shall apply. For a new unit of between 150 million and 250 million (inclusive) Btu per hour heat input, the maximum allowable emissions from such new unit shall be 0.2 pounds of particulates per million Btu of heat input. For a new unit of less than 150 million Btu per hour heat input, the maximum allowable emissions from such new unit shall be 0.6 pounds of particulates per million Btu of heat input.

(4) Measurements of emissions from a particulate source will be made in accordance with the provisions of 567—Chapter 25.

(5) For fuel-burning sources in operation prior to July 29, 1977, which are not subject to 23.1(2) and which significantly impact a primary or secondary particulate standard nonattainment area, the emission limitations specified in this subparagraph apply. A significant impact shall be equal to or exceeding 5 micrograms of particulate matter per cubic meter of air (24-hour average) or 1 microgram of particulate matter per cubic meter of air (annual average) determined by an EPA approved single source dispersion model using allowable emission rates and five-year worst case meteorological conditions. In the case where two or more boilers discharge into a common stack, the applicable stack emission limitation shall be based upon the heat input of the largest operating boiler. The plantwide allowable emission limitation shall be the weighted average of the allowable emission limitations for each stack or the applicable APS-1 plantwide standard as determined under paragraph 23.3(2) "b," whichever is more stringent.

The maximum allowable emission rate for a single stack with a total heat input capacity less than 250 million Btu per hour shall be 0.60 pound of particulate matter per million Btu heat input; the maximum allowable emission rate for a single stack with a total heat input capacity greater than or equal to 250 million Btu per hour and less than 500 million Btu per hour shall be 0.40 pound of particulate matter per million Btu heat input; the maximum allowable emission rate for a single stack with a total heat input capacity greater than or equal to 500 million Btu per hour shall be 0.30 pound of particulate matter per million Btu heat input; except that the maximum allowable emission rate for the stack serving Unit #1 of Iowa Public Service at Port Neal shall be 0.50 pound of particulate matter per million Btu heat input.

All sources regulated under this subparagraph shall demonstrate compliance by October 1, 1981; however, a source is considered to be in compliance with this subparagraph if by October 1, 1981, it is on a compliance schedule to be completed as expeditiously as possible, but no later than December 31, 1982.

*c. Fugitive dust.*

(1) Attainment and unclassified areas. A person shall take reasonable precautions to prevent particulate matter from becoming airborne in quantities sufficient to cause a nuisance as defined in Iowa Code section 657.1 when the person allows, causes or permits any materials to be handled, transported or stored or a building, its appurtenances or a construction haul road to be used, constructed, altered, repaired or demolished, with the exception of farming operations or dust generated by ordinary travel on unpaved roads. Ordinary travel includes routine traffic and road maintenance activities such as scarifying, compacting, transporting road maintenance surfacing material, and scraping of the unpaved public road surface. All persons, with the above exceptions, shall take reasonable precautions to prevent the discharge of visible emissions of fugitive dusts beyond the lot line of the property on which the emissions originate. The public highway authority shall be responsible for taking corrective action in those cases where said authority has received complaints of or has actual knowledge of dust conditions which require abatement pursuant to this subrule. Reasonable precautions may include, but not be limited to, the following procedures.

1. Use, where practical, of water or chemicals for control of dusts in the demolition of existing buildings or structures, construction operations, the grading of roads or the clearing of land.

2. Application of suitable materials, such as but not limited to asphalt, oil, water or chemicals on unpaved roads, material stockpiles, race tracks and other surfaces which can give rise to airborne dusts.

3. Installation and use of containment or control equipment, to enclose or otherwise limit the emissions resulting from the handling and transfer of dusty materials, such as but not limited to grain, fertilizer or limestone.

4. Covering, at all times when in motion, open-bodied vehicles transporting materials likely to give rise to airborne dusts.

5. Prompt removal of earth or other material from paved streets or to which earth or other material has been transported by trucking or earth-moving equipment, erosion by water or other means.

6. Reducing the speed of vehicles traveling over on-property surfaces as necessary to minimize the generation of airborne dusts.

(2) Nonattainment areas. Subparagraph (1) notwithstanding, no person shall allow, cause or permit any visible emission of fugitive dust in a nonattainment area for particulate matter to go beyond the lot line of the property on which a traditional source is located without taking reasonable precautions

to prevent emission. Traditional source means a source category for which a particulate emission standard has been established in 23.1(2), 23.3(2) "a," 23.3(2) "b" or 23.4(455B) and includes a quarry operation, haul road or parking lot associated with a traditional source. This paragraph does not modify the emission standard stated in 23.1(2), 23.3(2) "a," 23.3(2) "b" or 23.4(455B), but rather establishes a separate requirement for fugitive dust from such sources. For guidance on the types of controls which may constitute reasonable precautions, see "Identification of Techniques for the Control of Industrial Fugitive Dust Emissions," [available from the department] adopted by the commission on May 19, 1981.

(3) Reclassified areas. Reasonable precautions implemented pursuant to the nonattainment area provisions of subparagraph (2) shall remain in effect if the nonattainment area is redesignated to either attainment or unclassified after March 6, 1980.

*d. Visible emissions.* No person shall allow, cause or permit the emission of visible air contaminants into the atmosphere from any equipment, internal combustion engine, premise fire, open fire or stack, equal to or in excess of 40 percent opacity or that level specified in a construction permit, except as provided below and in 567—Chapter 24.

(1) *Residential heating equipment.* Residential heating equipment serving dwellings of four family units or less is exempt.

(2) *Gasoline-powered vehicles.* No person shall allow, cause or permit the emission of visible air contaminants from gasoline-powered motor vehicles for longer than five consecutive seconds.

(3) *Diesel-powered vehicles.* No person shall allow, cause or permit the emission of visible air contaminants from diesel-powered motor vehicles in excess of 40 percent opacity, for longer than five consecutive seconds.

(4) *Diesel-powered locomotives.* No person shall allow, cause or permit the emission of visible air contaminants from diesel-powered locomotives in excess of 40 percent opacity, except for a maximum period of 40 consecutive seconds during acceleration under load, or for a period of four consecutive minutes when a locomotive is loaded after a period of idling.

(5) *Startup and testing.* Initial start and warmup of a cold engine, the testing of an engine for trouble, diagnosis or repair, or engine research and development activities, is exempt.

(6) *Uncombined water.* The provisions of this paragraph shall apply to any emission which would be in violation of these provisions except for the presence of uncombined water, such as condensed water vapor.

**23.3(3) Sulfur compounds.** The provisions of this subrule shall apply to any installation from which sulfur compounds are emitted into the atmosphere.

*a. Sulfur dioxide from use of solid fuels.*

(1) No person shall allow, cause, or permit the emission of sulfur dioxide into the atmosphere from an existing solid fuel-burning unit, (i.e., a unit which was in operation or for which components had been purchased, or which was under construction prior to September 23, 1970), in an amount greater than 6 pounds, replicated maximum three-hour average, per million Btu of heat input if such unit is located within the following counties: Black Hawk, Clinton, Des Moines, Dubuque, Jackson, Lee, Linn, Lousia, Muscatine and Scott.

(2) No person shall allow, cause, or permit the emission of sulfur dioxide into the atmosphere from an existing solid fuel-burning unit, (i.e., a unit which was in operation or for which components had been purchased, or which was under construction prior to September 23, 1970), in an amount greater than 5 pounds, replicated maximum three-hour average, per million Btu of heat input if such unit is located within the remaining 89 counties of the state not listed in subparagraph 23.3(3) "a"(1).

(3) No person shall allow, cause, or permit the emission of sulfur dioxide into the atmosphere from any new solid fuel-burning unit (i.e., a unit which was not in operation or for which components had not been purchased, or which was not under construction prior to September 23, 1970) which has a capacity of 250 million Btu or less per hour heat input, in an amount greater than 6 pounds, replicated maximum three-hour average, per million Btu of heat input.

(4) Subparagraphs (1) through (3) notwithstanding, a fossil fuel-fired steam generator to which 23.1(2)“a,”23.1(2)“z” or 23.1(2)“ccc” applies shall comply with 23.1(2)“a,”23.1(2)“z” or 23.1(2)“ccc,” respectively.

*b. Sulfur dioxide from use of liquid fuels.*

(1) No person shall allow, cause, or permit the combustion of number 1 or number 2 fuel oil exceeding a sulfur content of 0.5 percent by weight.

(2) No person shall allow, cause, or permit the emission of sulfur dioxide into the atmosphere in an amount greater than 2.5 pounds of sulfur dioxide, replicated maximum three-hour average, per million Btu of heat input from a liquid fuel-burning unit.

(3) Notwithstanding this paragraph, a fossil fuel-fired steam generator to which 23.1(2)“a,”23.1(2)“z” or 23.1(2)“ccc” applies shall comply with 23.1(2)“a,”23.1(2)“z” or 23.1(2)“ccc.”

*c. Sulfur dioxide from sulfuric acid manufacture.* After January 1, 1975, no person shall allow, cause or permit the emission of sulfur dioxide from an existing sulfuric acid manufacturing plant in excess of 30 pounds of sulfur dioxide, maximum three-hour average, per ton of product calculated as 100 percent sulfuric acid.

*d. Acid mist from sulfuric acid manufacture.* After January 1, 1974, no person shall allow, cause or permit the emission of acid mist calculated as sulfuric acid from an existing sulfuric acid manufacturing plant in excess of 0.5 pounds, maximum three-hour average, per ton of product calculated as 100 percent sulfuric acid.

*e. Other processes capable of emitting sulfur dioxide.* After January 1, 1974, no person shall allow, cause or permit the emission of sulfur dioxide from any process, other than sulfuric acid manufacture, in excess of 500 parts per million, based on volume. This paragraph shall not apply to devices which have been installed for air pollution abatement purposes where it is demonstrated by the owner of the source that the ambient air quality standards are not being exceeded.

This rule is intended to implement Iowa Code section 455B.133.

#### **567—23.4(455B) Specific processes.**

**23.4(1) General.** The provisions of this rule shall not apply to those facilities for which performance standards are specified in 23.1(2). The emission standards specified in this rule shall apply and those specified in 23.3(2)“a” and 23.3(2)“b” shall not apply to each process of the types listed in the following subrules, except as provided below.

EXCEPTION: Whenever the director determines that a process complying with the emission standard prescribed in this section is causing or will cause air pollution in a specific area of the state, the specific emission standard may be suspended and compliance with the provisions of 23.3(455B) may be required in such instance.

**23.4(2) Asphalt batching plants.** No person shall cause, allow or permit the operation of an asphalt batching plant in a manner such that the particulate matter discharged to the atmosphere exceeds 0.15 grain per standard cubic foot of exhaust gas.

**23.4(3) Cement kilns.** Cement kilns shall be equipped with air pollution control devices to reduce the particulate matter in the gas discharged to the atmosphere to no more than 0.3 percent of the particulate matter entering the air pollution control device. Regardless of the degree of efficiency of the air pollution control device, particulate matter discharged from such kilns shall not exceed 0.1 grain per standard cubic foot of exhaust gas.

**23.4(4) Cupolas for metallurgical melting.** The emissions of particulate matter from all new foundry cupolas, and from all existing foundry cupolas with a process weight rate in excess of 20,000 pounds per hour, shall not exceed the amount specified in paragraph 23.3(2)“a,” except as provided in 567—Chapter 24.

The emissions of particulate matter from all existing foundry cupolas with a process weight rate less than or equal to 20,000 pounds per hour shall not exceed the amount determined from Table II of these rules, except as provided in 567—Chapter 24.

TABLE II  
ALLOWABLE EMISSIONS FROM  
EXISTING SMALL FOUNDRY CUPOLAS

Process weight rate (lb/hr)	Allowable emission (lb/hr)
1,000	3.05
2,000	4.70
3,000	6.35
4,000	8.00
5,000	9.58
6,000	11.30
7,000	12.90
8,000	14.30
9,000	15.50
10,000	16.65
12,000	18.70
16,000	21.60
18,000	23.40
20,000	25.10

**23.4(5) *Electric furnaces for metallurgical melting.*** The emissions of particulate matter to the atmosphere from electric furnaces used for metallurgical melting shall not exceed 0.1 grain per standard cubic foot of exhaust gas.

**23.4(6) *Sand handling and surface finishing operations in metal processing.*** This subrule shall apply to any new foundry or metal processing operation not properly termed a combustion, melting, baking or pouring operation. For purposes of this subrule, a new process is any process which has not started operation, or the construction of which has not been commenced, or the components of which have not been ordered or contracts for the construction of which have not been let on August 1, 1977. No person shall allow, cause or permit the operation of any equipment designed for sand shakeout, mulling, molding, cleaning, preparation, reclamation or rejuvenation or any equipment for abrasive cleaning, shot blasting, grinding, cutting, sawing or buffing in such a manner that particulate matter discharged from any stack exceeds 0.05 grains per dry standard cubic foot of exhaust gas, regardless of the types and number of operations that discharge from the stack.

**23.4(7) *Grain handling and processing plants.*** The owner or operator of equipment at a permanent installation for the handling or processing of grain, grain products and grain by-products shall not cause, allow or permit the particulate matter discharged to the atmosphere to exceed 0.1 grain per dry standard cubic foot of exhaust gas, except as follows:

*a.* The particulate matter discharged to the atmosphere from a grain bin vent at a country grain elevator, as “country grain elevator” is defined in 567—subrule 22.10(1), shall not exceed 1.0 grain per dry standard cubic foot of exhaust gas.

*b.* The particulate matter discharged to the atmosphere from a grain bin vent that was constructed, modified or reconstructed before March 31, 2008, at a country grain terminal elevator, as “country grain terminal elevator” is defined in 567—subrule 22.10(1), or at a grain terminal elevator, as “grain terminal elevator” is defined in 567—subrule 22.10(1), shall not exceed 1.0 grain per dry standard cubic foot of exhaust gas.

*c.* The particulate matter discharged to the atmosphere from a grain bin vent that is constructed or reconstructed on or after March 31, 2008, at a country grain terminal elevator, as “country grain terminal elevator” is defined in 567—subrule 22.10(1), or at a grain terminal elevator, as “grain terminal elevator”

is defined in 567—subrule 22.10(1), shall not exceed 0.1 grain per dry standard cubic foot of exhaust gas.

**23.4(8) *Lime kilns.*** No person shall cause, allow or permit the operation of a kiln for the processing of limestone such that the particulate matter in the gas discharged to the atmosphere exceeds 0.1 grain per standard cubic foot of exhaust gas.

**23.4(9) *Meat smokehouses.*** No person shall cause, allow or permit the operation of a meat smokehouse or a group of meat smokehouses, which consume more than ten pounds of wood, sawdust or other material per hour such that the particulate matter discharged to the atmosphere exceeds 0.2 grain per standard cubic foot of exhaust gas.

**23.4(10) *Phosphate processing plants.***

*a.* Phosphoric acid manufacture. No person shall allow, cause or permit the operation of equipment for the manufacture of phosphoric acid that was in existence on October 22, 1974, in a manner that produces more than 0.04 pound of fluoride per ton of phosphorous pentoxide or equivalent input.

*b.* Diammonium phosphate manufacture. No person shall allow, cause or permit the operation of equipment for the manufacture of diammonium phosphate that was in existence on October 22, 1974, in a manner that produces more than 0.15 pound of fluoride per ton of phosphorous pentoxide or equivalent input.

*c.* Nitrophosphate manufacture. No person shall allow, cause or permit the operation of equipment for the manufacture of nitrophosphate in a manner that produces more than 0.06 pound of fluoride per ton of phosphorus pentoxide or equivalent input.

*d.* No person shall allow, cause or permit the operation of equipment for the processing of phosphate ore, rock or other phosphatic material (other than equipment used for the manufacture of phosphoric acid, diammonium phosphate or nitrophosphate) in a manner that the unit emissions of fluoride exceed 0.4 pound of fluoride per ton of phosphorous pentoxide or its equivalent input.

*e.* Notwithstanding “*a*” through “*d*,” no person shall allow, cause or permit the operation of equipment for the processing of phosphorous ore, rock or other phosphatic material including, but not limited to, phosphoric acid, in a manner that emissions of fluorides exceed 100 pounds per day.

*f.* “Fluoride” means elemental fluorine and all fluoride compounds as measured by reference methods specified in Appendix A to 40 CFR Part 60 as amended through March 12, 1996.

*g.* Calculation. The allowable total emission of fluoride shall be calculated by multiplying the unit emission specified above by the expressed design production capacity of the process equipment.

**23.4(11) *Portland cement concrete batching plants.*** No person shall cause, allow or permit the operation of a Portland cement concrete batching plant such that the particulate matter discharged to the atmosphere exceeds 0.1 grain per standard cubic foot of exhaust gas.

**23.4(12) *Incinerators.*** A person shall not cause, allow or permit the operation of an incinerator unless provided with appropriate control of emissions of particulate matter and visible air contaminants.

*a.* *Particulate matter.* A person shall not cause, allow or permit the operation of an incinerator with a rated refuse burning capacity of 1000 or more pounds per hour in a manner such that the particulate matter discharged to the atmosphere exceeds 0.2 grain per standard cubic foot of exhaust gas adjusted to 12 percent carbon dioxide.

A person shall not cause, allow or permit the operation of an incinerator with a rated refuse burning capacity of less than 1000 pounds per hour in a manner such that the particulate matter discharged to the atmosphere exceeds 0.35 grain per standard cubic foot of exhaust gas adjusted to 12 percent carbon dioxide.

*b.* *Visible emissions.* A person shall not allow, cause or permit the operation of an incinerator in a manner such that it produces visible air contaminants in excess of 40 percent opacity; except that visible air contaminants in excess of 40 percent opacity but less than or equal to 60 percent opacity may be emitted for periods aggregating not more than 3 minutes in any 60-minute period during an operation breakdown or during the cleaning of air pollution control equipment.

**23.4(13) *Painting and surface-coating operations.*** No person shall allow, cause or permit painting and surface-coating operations in a manner such that particulate matter in the gas discharge exceeds 0.01 grain per standard cubic foot of exhaust gas.

This rule is intended to implement Iowa Code section 455B.133.

**567—23.5(455B) Anaerobic lagoons.**

**23.5(1)** Applications for construction permits for animal feeding operations using anaerobic lagoons shall meet the requirements of rules 567—65.9(455B) and 65.15(455B) to 65.17(455B).

**23.5(2)** Criteria for approval of industrial anaerobic lagoons.

*a.* Lagoons designed to treat 100,000 gpd or less.

(1) The sulfate content of the water supply shall not exceed 250 mg/l. However, this paragraph does not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

(2) The design loading rate for the total lagoon volume shall not be less than 10 pounds nor more than 20 pounds of biochemical oxygen demand (five day) per thousand cubic feet per day.

*b.* Lagoons designed to treat more than 100,000 gpd.

(1) The sulfate content of the water supply shall not exceed 100 mg/l. However, this paragraph does not apply to an expansion of an industrial anaerobic lagoon facility which was constructed prior to February 22, 1979.

(2) The design loading rate for the total lagoon volume shall not be less than 10 pounds nor more than 20 pounds of biochemical oxygen demand (five day) per thousand cubic feet per day.

This rule is intended to implement Iowa Code section 455B.133.

**567—23.6(455B) Alternative emission limits (the “bubble concept”).** Emission limits for individual emission points included in 23.3(455B) (except 23.3(2)“d,”23.3(2)“b”(3), and 23.3(3)“a”(3)) and 23.4(455B) (except 23.4(12)“b” and 23.4(6)) may be replaced by alternative emission limits. The alternative emission limits must be consistent with 567—22.7(455B) and 567—subrule 25.1(12). Under this rule, less stringent control limits where costs of emission control are high may be allowed in exchange for more stringent control limits where costs of control are less expensive.

Rules 23.3(455B) to 23.6(455B) are intended to implement Iowa Code section 455B.133.

<sup>0</sup> Two or more ARCs

<sup>1</sup> Objection, see filed rule [DEQ, 4.2(4)] published IAC Supp. 1/22/77, 3/9/77.

<sup>2</sup> Effective date of 23.2(4) delayed 70 days by the Administrative Rules Review Committee on 9/14/83.

<sup>3</sup> 11/24/10 effective date of 23.1(4), introductory paragraph, and 23.1(4) “*ev*” and “*fa*” to “*fd*” delayed 70 days by the Administrative Rules Review Committee at its meeting held November 9, 2010.

<sup>4</sup> Amendment to 23.1(4), introductory paragraph, (ARC 9154B, Item 4) rescinded by Executive Order Number 72 on 4/4/11. Amendment removed and prior language restored IAC Supplement 4/20/11.

CHAPTER 30  
FEES

**567—30.1(455B) Purpose.** This chapter sets forth requirements to pay fees for specified activities. Rule 567—30.1(455B) adds definitions for this chapter, a duty to correct errors, and an exemption to fee requirements for administrative amendments. Rule 567—30.2(455B) sets forth the requirements for applicants to submit fees for specified activities associated with new source review in 567—Chapter 22, 567—Chapter 31 and 567—Chapter 33. Rule 567—30.3(455B) contains requirements for the submission of demolition and renovation notification fees for the asbestos emission standard for hazardous air pollutants listed in 567—paragraph 23.1(3)“a.” Rule 567—30.4(455B) sets forth the requirements for applicants to submit fees for specified activities associated with the Title V program found in 567—Chapter 22. Rule 567—30.5(455B) sets forth the requirement to convene fee advisory groups. Rule 567—30.6(455B) details the process by which fee levels shall be established, lists the types of fees and the dollar caps on the fee types that the commission may set, and establishes the mechanism for notification of the fee schedule. Rule 567—30.7(455B) details how fee revenues may be expended and specifies the calculated estimate of maximum fee revenues.

The department shall not initiate review and processing of an application submittal from a minor source until all required fees have been paid to the department. Fees are nonrefundable, except as provided in subrule 30.1(4).

**30.1(1) Definitions.** For purposes of this chapter, the following definitions shall apply:

“*Application submittal*” means one or more applications required under rule 567—22.1(455B) and submitted at the same time or required to be submitted under rule 567—22.4(455B), rule 567—22.5(455B), 567—Chapter 31 or 567—Chapter 33.

“*Major source*” means a “major source” as defined in rule 567—22.100(455B).

“*Minor source*” means any stationary source not included in the definition of “major source” as defined in rule 567—22.100(455B).

“*Regulated air pollutant*” means “regulated air pollutant or contaminant (for fee calculation)” as defined in rule 567—22.100(455B).

**30.1(2) Duty to correct errors.** If an owner or operator, or the department, finds an error in a fee assessed or collected under this chapter, the owner or operator shall submit to the department revised forms making the necessary corrections to the fee and shall submit the correct fee. Corrected forms shall be submitted as soon as possible after the error is discovered or upon notification by the department. If the error correction results in a determination by the department that a fee was overpaid or that a duplicate fee was submitted, the department will return the overpaid balance of the fee to the applicant.

**30.1(3) Exemption to fee requirements for administrative amendments.** A fee shall not be required for any of the following:

- a. Corrections of typographical errors;
- b. Corrections of word processing errors;
- c. Changes in the name, address, or telephone number of any person identified in a permit, or similar minor administrative changes at the source;
- d. Changes in ownership or operational control of a source where the department determines that no other change in the permit is necessary, provided that a written agreement that contains a specific date for transfer of permit responsibility, coverage, and liability between the current permittee and the new permittee has been submitted to the department.

**30.1(4) Refund of application fee minus administrative cost for permit applications at minor sources.** The department may refund the application fee minus administrative costs if the owner or operator requests to withdraw the application prior to commencement of the technical review of the application.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.2(455B) Fees associated with new source review applications.** Beginning on January 15, 2016, each owner or operator required to provide an application submittal, including air quality

modeling as applicable; registration; permit by rule; and template under 567—subrule 22.1(1), rule 567—22.4(455B), rule 567—22.5(455B), rule 567—22.8(455B), rule 567—22.10(455B), 567—Chapter 31 or 567—Chapter 33, shall pay fees as specified in the fee schedule approved by the commission and posted on the department’s Web site. Fees shall be submitted with forms supplied by the department.

**30.2(1) *Payment of regulatory applicability determination fee.*** Beginning on January 15, 2016, each owner or operator requesting a regulatory applicability determination, as specified in 567—paragraph 22.1(3) “a,” shall pay fees as specified in the fee schedule approved by the commission and posted on the department’s Web site. Fees shall be submitted with forms provided by the department.

**30.2(2) Reserved.**

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.3(455B) Fees associated with asbestos demolition or renovation notification.**

**30.3(1) *Payment of fees established.*** Beginning on January 15, 2016, the owner or operator of a site subject to the national emission standard for hazardous air pollutants (NESHAP) for asbestos notifications, adopted by reference in 567—paragraph 23.1(3) “a,” shall submit a fee with each required original or each annual notification for each demolition or renovation, including abatement. Fees shall be paid as specified in the fee schedule approved by the commission and posted on the department’s Web site. Fees shall be submitted with the notification forms provided by the department.

**30.3(2) *Fee not required.*** A fee shall not be required for the following:

- a. Notifications when the total amount of asbestos to be removed or disturbed is less than 260 linear feet, less than 160 square feet, and less than 35 cubic feet of facility components and is below the reporting thresholds as defined in 40 CFR 61.145 as amended on January 16, 1991;
- b. Notifications of training fires as required in 567—paragraph 23.2(3) “g”;
- c. Controlled burning of demolished buildings as required in 567—paragraph 23.2(3) “j”;
- d. Revised, canceled, and courtesy notifications. A revision to a previously submitted courtesy notification due to applicability of the notification requirements in 567—paragraph 23.1(3) “a” is considered an original notification and is subject to the fee requirements of subrule 30.3(1).

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.4(455B) Fees associated with Title V operating permits.**

**30.4(1) *Payment of Title V application fee.*** Beginning on January 15, 2016, each owner or operator required to apply for a Title V permit, or a renewal of a Title V permit, shall pay fees as specified in the fee schedule approved by the commission and posted on the department’s Web site. Fees shall be submitted with forms supplied by the department.

**30.4(2) *Payment of Title V annual emissions fee.***

a. *Fee required.* Any person required to obtain a Title V permit shall pay an annual fee based on the first 4,000 tons of each regulated air pollutant, beginning on November 15, 1994. Beginning on July 1, 1996, Title V operating permit fees shall be paid on or before July 1 of each year. The Title V emissions fee shall be based on actual emissions required to be included in the Title V operating permit application and the annual emissions statement for the previous calendar year. The commission shall not set the fee higher than \$70 per ton without adopting the change pursuant to formal rule making.

b. *Fee and documentation due dates.* The fee shall be submitted annually by July 1. The fee shall be submitted with a copy of the following forms:

- (1) Form 1.0, “Facility Identification”;
- (2) Form 5.0, “Title V Annual Emissions Summary/Fee”; and
- (3) Part 3, “Application Certification.”

c. *Phase I acid rain sources.* No fee shall be required to be paid for emissions which occurred during the years 1993 through 1999, inclusive, with respect to any Phase I acid rain affected unit under 42 U.S.C. 7651c.

d. *Operation in Iowa.* The fee for a portable emissions unit or stationary source which operates both in Iowa and out of state shall be calculated only for emissions from the source while it is operating in Iowa.

*e. Title V exempted stationary sources.* No fee shall be required for emissions until the year in which sources exempted under 567—subrules 22.102(1) and 22.102(2) are required to apply for a Title V permit. Fees shall be paid for the emission year preceding the year in which the application is due and thereafter.

*f. Insignificant activities.* No fee shall be required for insignificant activities as defined in rule 567—22.103(455B).

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.5(455B) Fee advisory groups.** Prior to each March commission meeting, the director shall convene fee advisory groups for the purposes of reviewing a draft budget and providing recommendations to the department regarding establishing or adjusting fees. Any stakeholder may attend meetings of the advisory groups. The meetings will be open to the public. The date of each meeting shall be posted on the department's Web site 14 days prior to the meeting date.

**30.5(1) New source review for major sources fee advisory group.** The director shall convene annually a fee advisory group to review the draft budget and major source fees required by rule 567—30.2(455B) and listed in rule 567—30.6(455B). Participants in the advisory group may provide recommendations to the department regarding fees necessary to cover all direct and indirect costs to administer the major source permit program.

**30.5(2) New source review for minor sources fee advisory group.** The director shall convene annually a fee advisory group which shall not include major sources as defined in subrule 30.1(1). The fee advisory group will review the draft budget and minor source application fees required in rule 567—30.2(455B) and listed in rule 567—30.6(455B). Participants in the fee advisory group shall include, but may not be limited to, any minor sources and their representatives. The advisory group may provide recommendations to the department regarding fees necessary to cover all direct and indirect costs to administer the minor source permit program.

**30.5(3) Asbestos fee advisory group.** The director shall convene annually an asbestos NESHAP fee advisory group to review the draft budget and asbestos notification fee required by rule 567—30.3(455B) and listed in rule 567—30.6(455B). Participants in the advisory group may provide recommendations to the department regarding fees necessary to cover all direct and indirect costs to administer the asbestos NESHAP program.

**30.5(4) Title V fee advisory group.** The director shall convene annually a fee advisory group to review the draft budget and Title V emissions and application fees required by rule 567—30.4(455B) and listed in rule 567—30.6(455B). Participants in the advisory group may provide recommendations to the department regarding fees necessary to cover all direct and indirect costs to administer the Title V operating permit program.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.6(455B) Process to establish or adjust fees and notification of fee rates.**

**30.6(1) Setting the fees.** Beginning on January 15, 2016, fees shall be paid as specified in the fee schedule approved by the commission and posted on the department's Web site. Following the setting of the fee schedule effective January 15, 2016, the department shall submit the proposed budget and fees for major and minor source construction permit programs, the Title V operating permit program, and the asbestos NESHAP program for the following fiscal year to the commission no later than the March commission meeting of each year, at which time the proposal will be available for public comment until such time as the commission acts on the proposal or until the May commission meeting, whichever occurs first. The department's calculated estimate for each fee shall not produce total revenues in excess of limits specified in Iowa Code sections 455B.133B and 455B.133C during any fiscal year. If an established fee amount must be adjusted, the commission shall set the fees no later than the May commission meeting of each year.

Fees established prior to January 15, 2016, shall become effective on January 15, 2016. In subsequent years, adjusted or established fees shall become effective on July 1. A fee not adjusted by the commission shall remain in effect as previously established until the fee is adjusted by the commission.

**30.6(2) *Fee types and dollar caps on fee types.*** The commission may set fees for the fee types and activities specified in this subrule and shall not set a fee in the fee schedule higher than the levels specified in this subrule without adopting the change pursuant to formal rule making:

- a. New source review applications from major sources, which may include:
  - (1) Review of each application for a construction permit: \$115 per hour;
  - (2) Review of each application for a prevention of significant deterioration permit: \$115 per hour;
  - (3) Review of each plantwide applicability limit request, renewal, or reopening: \$115 per hour;
  - (4) Review of each regulatory applicability determination: \$115 per hour; and
  - (5) Air quality modeling review: \$90 per hour, which may include:
    - 1. Reviewing air quality modeling for construction permit application submittal; prevention of significant deterioration application submittal; and nonattainment new source review project application submittal; and
    - 2. Conducting air quality modeling for construction permit application submittal.
- b. New source review applications from minor sources, which may include:
  - (1) Each application for a construction permit: \$385;
  - (2) Each application for a registration permit: \$100;
  - (3) Each application for a permit by rule: \$100; and
  - (4) Each application for a permit template: \$100.
- c. Asbestos notifications: \$100.
- d. Review of each initial or renewal Title V operating permit application: \$100 per hour.
- e. Title V annual emissions: \$70 per ton.

**30.6(3) *Notification of fee schedule.*** Following the initial setting of any fee by the commission, the department shall make available to the public a fee schedule at least 30 days prior to its effective date. If any established fee amount is adjusted, the department shall make available to the public a revised fee schedule at least 30 days prior to its effective date. The fee schedule shall be posted on the department's Web site.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—30.7(455B) Fee revenue.** Each fee program is established to provide revenue for and is limited in use to specific activities.

**30.7(1) *New source review application fees from major sources.*** In accordance with Iowa Code section 455B.133C(5), new source review fee revenues may be used to fund the direct and indirect costs related to reviewing and acting on applications for new source review permits, including permit revisions submitted by major sources as defined under new source review programs pursuant to the federal Act, and as provided under 567—Chapter 22, 567—Chapter 31, and 567—Chapter 33, as follows:

- a. Reviewing and acting on any application for a new source review permit, including the determination of all applicable requirements and dispersion modeling as part of the processing of a permit or permit revision or an applicability determination;
- b. General administrative costs of administering new source review programs, including supporting and tracking of any application for a new source review permit and related data entry; and
- c. Developing and implementing an expedited new source review permit application process, and additional fees associated with this process.

The calculated estimate of total revenues from new source review application fees from major sources shall not exceed \$1,500,000 during any state fiscal year.

**30.7(2) *New source review application fees from minor sources.*** In accordance with Iowa Code section 455B.133C(6), minor new source review fee revenues may be used to fund the direct and indirect costs for reviewing and acting on applications submitted by minor air contaminant sources for construction permits and providing for registrations, permits by rule, or template permits in lieu of obtaining construction permits, under minor source new source review programs pursuant to the federal Clean Air Act Amendments of 1990, including as provided under 567—Chapter 22. The calculated estimate of total revenues from new source review application fees from minor sources shall not exceed \$250,000 during any state fiscal year.

**30.7(3) Title V emissions.** In accordance with Iowa Code section 455B.133B(5), Title V emissions fee revenues may be used to fund the direct and indirect costs related to:

*a.* General administrative costs of administering the operating permit program, including the supporting and tracking of operating permit applications, compliance certification, and related data entry.

*b.* Costs of implementing and enforcing the terms of an operating permit, not including any court costs or other costs associated with an enforcement action, including adequate resources to determine which sources are subject to the program.

*c.* Costs of emissions and ambient site-specific monitors.

*d.* Costs of Title V source-specific modeling, analyses or demonstrations.

*e.* Costs of preparing inventories and tracking emissions.

*f.* Costs of providing direct support to sources under the small business stationary source technical and environmental compliance assistance program as provided in Iowa Code section 455B.133A.

*g.* Costs associated with implementing and administering regulatory activities, including programs, as provided for in division II of Iowa Code chapter 455B, other than costs covered by any of the following: operating permit application fees, new source review application fees, or notification fees, pursuant to Iowa Code section 455B.133B(5) “d”(2).

The calculated estimate of total revenues from emissions fees shall not exceed \$8,250,000 during any state fiscal year.

**30.7(4) Title V applications.** In accordance with Iowa Code section 455B.133B(6), Title V application fee revenues may be used to fund the direct and indirect costs related to reviewing and acting on applications for operating permits submitted by major sources as defined in rule 567—22.100(455B) and sources subject to rule 567—22.101(455B), as follows:

*a.* Costs of reviewing and acting on any application for an operating permit or operating permit revision.

*b.* General administrative costs of administering the operating permit program, including the supporting and tracking of operating permit applications and related data entry.

The calculated estimate of total revenues from Title V application fees shall not exceed \$1,250,000 during any state fiscal year.

**30.7(5) Asbestos notification.** Pursuant to Iowa Code section 455B.133C(7), asbestos notification fee revenues may be used to fund the direct and indirect costs related to implementing and administering the asbestos national emission standard for hazardous air pollutants program pursuant to 567—Chapter 23. The calculated estimate of total revenues from asbestos notification fees shall not exceed \$450,000 during any state fiscal year.

[ARC 2352C, IAB 1/6/16, effective 12/16/15]

These rules are intended to implement Iowa Code sections 455B.133, 455B.133B and 455B.133C.  
[Filed Emergency After Notice ARC 2352C (Notice ARC 2222C, IAB 10/28/15), IAB 1/6/16, effective 12/16/15]

CHAPTER 31  
NONATTAINMENT AREAS

**567—31.1(455B) Permit requirements relating to nonattainment areas.** This chapter implements the nonattainment major new source review (NSR) program contained in Part D of Title I of the federal Clean Air Act and as promulgated under 40 CFR 51.165 as amended through March 30, 2011, and 40 CFR 51, Appendix S, as amended through July 1, 2011.

The nonattainment major NSR program is a preconstruction review and permitting program applicable to new or modified major stationary sources of air pollutants regulated under Part D of Title I of the federal Clean Air Act as amended on November 15, 1990. The nonattainment major NSR program applies only in areas that do not meet the national ambient air quality standards (NAAQS).

Section 107(d) of the federal Clean Air Act, 42 U.S.C. §7457(d), requires each state to submit to the Administrator of the federal Environmental Protection Agency a list of areas that exceed the NAAQS, that are lower than those standards, or that cannot be classified on the basis of current data.

Requirements for nonattainment areas designated on or after May 18, 1998, are in rules 567—31.3(455B) through 567—31.10(455B). Requirements for nonattainment areas designated before May 18, 1998, are in rule 567—31.20(455B). A list of Iowa's nonattainment area designations is found at 40 CFR 81.316 as amended through August 5, 2013. An owner or operator required to apply for a construction permit under this chapter or requesting a plantwide applicability limit shall submit fees as required in 567—Chapter 30.

[ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—31.2(455B) Conformity of general federal actions to the Iowa state implementation plan or federal implementation plan.** The federal regulations relating to determining conformity of general federal actions to state or federal implementation plans, 40 CFR 93.150 and 93.152 through 93.165, as amended through April 5, 2010, are adopted by reference.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

NONATTAINMENT AREAS DESIGNATED ON OR AFTER MAY 18, 1998

**567—31.3(455B) Nonattainment new source review requirements for areas designated nonattainment on or after May 18, 1998.**

**31.3(1) Definitions.** For the purpose of nonattainment new source review, the following definitions shall apply:

“Act” means the Clean Air Act, 42 U.S.C. Sections 7401, et seq., as amended through November 15, 1990.

“Actual emissions” means:

1. The actual rate of emissions of a regulated NSR pollutant from an emissions unit, as determined in accordance with paragraphs “2” through “4,” except that this definition shall not apply for calculating whether a significant emissions increase has occurred, or for establishing a PAL under rule 567—31.9(455B). Instead, the definitions of projected actual emission and baseline actual emissions shall apply for those purposes.

2. In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a consecutive 24-month period which precedes the particular date and which is representative of normal source operation. The department shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit's actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

3. The department may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

4. For any emissions unit that has not begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date.

*“Administrator”* means the administrator for the U. S. Environmental Protection Agency (EPA) or designee.

*“Allowable emissions”* means the emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to federally enforceable limits which restrict the operating rate, or hours of operation, or both) and the most stringent of the following:

1. The applicable standards as set forth in 567—subrules 23.1(2) through 23.1(5) (new source performance standards, emissions standards for hazardous air pollutants, and federal emissions guidelines) or an applicable federal standard not adopted by the state, as set forth in 40 CFR Parts 60, 61 and 63;

2. The state implementation plan (SIP) emissions limitation, including those with a future compliance date; or

3. The emissions rate specified as an enforceable permit condition, including those with a future compliance date.

*“Baseline actual emissions,”* for the purposes of this rule, means the rate of emissions, in tons per year, of a regulated NSR pollutant, as determined in accordance with paragraphs “1” through “4.”

1. For any existing electric utility steam generating unit, baseline actual emissions means the average rate, in tons per year, at which the unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the five-year period immediately preceding when the owner or operator begins actual construction of the project. The department shall allow the use of a different time period upon a determination that it is more representative of normal source operation.

- (a) The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

- (b) The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emissions limitation that was legally enforceable during the consecutive 24-month period.

- (c) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for the emissions units being changed. A different consecutive 24-month period can be used for each regulated NSR pollutant.

- (d) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraph “1”(b) of this definition.

2. For an existing emissions unit (other than an electric utility steam generating unit), baseline actual emissions means the average rate, in tons per year, at which the emissions unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the ten-year period immediately preceding either the date the owner or operator begins actual construction of the project, or the date on which a complete permit application is received by the department for a permit required either under this rule or under a plan approved by the Administrator, whichever is earlier, except that the ten-year period shall not include any period earlier than November 15, 1990.

- (a) The average rate shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions.

- (b) The average rate shall be adjusted downward to exclude any non-compliant emissions that occurred while the source was operating above an emission limitation that was legally enforceable during the consecutive 24-month period.

- (c) The average rate shall be adjusted downward to exclude any emissions that would have exceeded an emission limitation with which the major stationary source must currently comply, had such major stationary source been required to comply with such limitations during the consecutive 24-month period. However, if an emission limitation is part of a maximum achievable control technology standard that the Administrator proposed or promulgated under 40 CFR Part 63, the baseline actual emissions need only be adjusted if the state has taken credit for such emissions reductions in an attainment demonstration or maintenance plan consistent with the requirements of subparagraph 31.3(3) “b”(7).

(d) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for the emissions units being changed. A different consecutive 24-month period can be used for each regulated NSR pollutant.

(e) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraphs “2”(b) and “2”(c) of this definition.

3. For a new emissions unit, the baseline actual emissions for purposes of determining the emissions increase that will result from the initial construction and operation of such unit shall equal zero; and thereafter, for all other purposes, shall equal the unit’s potential to emit.

4. For a PAL for a major stationary source, the baseline actual emissions shall be calculated for existing electric utility steam generating units in accordance with the procedures contained in paragraph “1,” for other existing emissions units in accordance with the procedures contained in paragraph “2,” and for a new emissions unit in accordance with the procedures contained in paragraph “3.”

“*Begin actual construction*” means, in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework, and construction of permanent storage structures. With respect to a change in method of operating this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

“*Best available control technology*” or “*BACT*” means an emissions limitation, including a visible emissions standard, based on the maximum degree of reduction for each regulated NSR pollutant which would be emitted from any proposed major stationary source or major modification which the department, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes or available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of such pollutant. In no event shall application of best available control technology result in emissions of any pollutant which would exceed the emissions allowed by any applicable standard under 567—subrules 23.1(2) through 23.1(5) (standards for new stationary sources, federal standards for hazardous air pollutants, and federal emissions guidelines), or federal regulations as set forth in 40 CFR Parts 60, 61 and 63 but not yet adopted by the state. If the department determines that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions standard infeasible, a design, equipment, work practice, operational standard, or combination thereof, may be prescribed instead to satisfy the requirement for the application of BACT. Such standard shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operation, and shall provide for compliance by means which achieve equivalent results.

“*Building, structure, facility, or installation*” means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control) except the activities of any vessel. Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same major group (i.e., which have the same two-digit code) as described in the Standard Industrial Classification Manual, 1972, as amended by the 1977 Supplement (U.S. Government Printing Office stock numbers 4101-0065 and 003-005-00176-0, respectively).

“*CFR*” means the Code of Federal Regulations, with standard references in this chapter by title and part, so that “40 CFR 51” or “40 CFR Part 51” means “Title 40 Code of Federal Regulations, Part 51.”

“*Clean coal technology*” means any technology, including technologies applied at the precombustion, combustion, or post combustion stage, at a new or existing facility which will achieve significant reductions in air emissions of sulfur dioxide or oxides of nitrogen associated with the utilization of coal in the generation of electricity, or process steam which was not in widespread use as of November 15, 1990.

“*Clean coal technology demonstration project*” means a project using funds appropriated under the heading “Department of Energy—Clean Coal Technology,” up to a total amount of \$2,500,000,000 for commercial demonstration of clean coal technology, or similar projects funded through appropriations for the EPA. The federal contribution for a qualifying project shall be at least 20 percent of the total cost of the demonstration project.

“*Commence*,” as applied to construction of a major stationary source or major modification, means that the owner or operator has all necessary preconstruction approvals or permits and either has:

1. Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or
2. Entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

“*Construction*” means any physical change or change in the method of operation, including fabrication, erection, installation, demolition, or modification of an emissions unit, that would result in a change in emissions.

“*Continuous emissions monitoring system*” or “*CEMS*” means all of the equipment that may be required to meet the data acquisition and availability requirements of this rule, to sample, to condition (if applicable), to analyze, and to provide a record of emissions on a continuous basis.

“*Continuous emissions rate monitoring system*” or “*CERMS*” means the total equipment required for the determination and recording of the pollutant mass emissions rate (in terms of mass per unit of time).

“*Continuous parameter monitoring system*” or “*CPMS*” means all of the equipment necessary to meet the data acquisition and availability requirements of this rule, to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O<sub>2</sub> or CO<sub>2</sub> concentrations), and to record average operational parameter value(s) on a continuous basis.

“*Electric utility steam generating unit*” means any steam electric generating unit that is constructed for the purpose of supplying more than one-third of its potential electric output capacity and more than 25 MW electrical output to any utility power distribution system for sale. Any steam supplied to a steam distribution system for the purpose of providing steam to a steam-electric generator that would produce electrical energy for sale is also considered in determining the electrical energy output capacity of the affected facility.

“*Emissions unit*” means any part of a stationary source that emits or would have the potential to emit any regulated NSR pollutant and includes an electric steam generating unit. For purposes of this rule, there are two types of emissions units as described in paragraphs “1” and “2.”

1. A new emissions unit is any emissions unit which is (or will be) newly constructed and which has existed for less than two years from the date such emissions unit first operated.
2. An existing emissions unit is any emissions unit that does not meet the requirements in paragraph “1” of this definition. A replacement unit is an existing emissions unit.

“*Federal land manager*” means, with respect to any lands in the United States, the secretary of the department with authority over such lands.

“*Federally enforceable*” means all limitations and conditions which are enforceable by the Administrator and the department, including those federal requirements not yet adopted by the state, developed pursuant to 40 CFR Parts 60, 61, and 63; requirements within 567—subrules 23.1(2) through 23.1(5); requirements within the SIP; any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR Part 51, Subpart I, as amended through October 20, 2010, including operating permits issued under an EPA-approved program that is incorporated into the SIP and expressly requires adherence to any permit issued under such program.

“*Fugitive emissions*” means those emissions which could not reasonably pass through a stack, chimney, vent or other functionally equivalent opening.

“*Lowest achievable emission rate*” or “*LAER*” means, for any source, the more stringent rate of emissions based on the following:

1. The most stringent emissions limitation which is contained in the implementation plan of any state for such class or category of stationary source, unless the owner or operator of the proposed stationary source demonstrates that such limitations are not achievable; or

2. The most stringent emissions limitation which is achieved in practice by such class or category of stationary sources. This limitation, when applied to a modification, means the lowest achievable emissions rate for the new or modified emissions units within or stationary source. In no event shall the application of the term permit a proposed new or modified stationary source to emit any pollutant in excess of the amount allowable under an applicable new source standard of performance.

*“Major modification”* means any physical change in or change in the method of operation of a major stationary source that would result in a significant emissions increase of a regulated NSR pollutant and a significant net emissions increase of that pollutant from the major stationary source.

1. Any significant emissions increase from any emissions units or net emissions increase at a major stationary source that is significant for volatile organic compounds shall be considered significant for ozone.

2. A physical change or change in the method of operation shall not include:

(a) Routine maintenance, repair and replacement;

(b) Use of an alternative fuel or raw material by reason of an order under Sections 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to the Federal Power Act;

(c) Use of an alternative fuel by reason of an order or rule Section 125 of the Act;

(d) Use of an alternative fuel at a steam generating unit to the extent that the fuel is generated from municipal solid waste;

(e) Use of an alternative fuel or raw material by a stationary source which the source was capable of accommodating before December 21, 1976, unless such change would be prohibited under any federally enforceable permit condition which was established after December 12, 1976, pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR Subpart I or § 51.166; or the source is approved to use under any permit issued under regulations approved pursuant to this rule;

(f) An increase in the hours of operation or in the production rate, unless such change is prohibited under any federally enforceable permit condition which was established after December 21, 1976, pursuant to 40 CFR 52.21 or regulations approved pursuant to 40 CFR Part 51, Subpart I, or 40 CFR 51.166.

(g) Any change in ownership at a stationary source.

(h) Reserved.

(i) The installation, operation, cessation, or removal of a temporary clean coal technology demonstration project, provided that the project complies with the SIP, and other requirements necessary to attain and maintain the national ambient air quality standard during the project and after it is terminated.

3. This definition shall not apply with respect to a particular regulated NSR pollutant when the major stationary source is complying with the requirements under rule 567—31.9(455B) of this chapter for a PAL for that pollutant. Instead, the definition at 567—31.9(455B) shall apply.

4. For the purpose of applying the requirements of subrule 31.3(8) to modifications at major stationary sources of nitrogen oxides located in ozone nonattainment areas or in ozone transport regions, whether or not subject to Subpart 2, Part D, Title I of the Act, any significant net emissions increase of nitrogen oxides is considered significant for ozone.

5. Any physical change in, or change in the method of operation of, a major stationary source of volatile organic compounds that results in any increase in emissions of volatile organic compounds from any discrete operation, emissions unit, or other pollutant emitting activity at the source shall be considered a significant net emissions increase and a major modification for ozone, if the major stationary source is located in an extreme ozone nonattainment area that is subject to Subpart 2, Part D, Title I of the Act.

*“Major stationary source”* means:

1. Any stationary source of air pollutants that emits, or has the potential to emit, 100 tons per year or more of any regulated NSR pollutant, except that lower emissions thresholds shall apply in areas subject to Subpart 2, Subpart 3, or Subpart 4 of Part D, Title I of the Act, according to definitions in 31.3(1).

- (a) 50 tons per year of volatile organic compounds in any serious ozone nonattainment area.
- (b) 50 tons per year of volatile organic compounds in an area within an ozone transport region, except for any severe or extreme ozone nonattainment area.
- (c) 25 tons per year of volatile organic compounds in any severe ozone nonattainment area.
- (d) 10 tons per year of volatile organic compounds in any extreme ozone nonattainment area.
- (e) 50 tons per year of carbon monoxide in any serious nonattainment area for carbon monoxide, where stationary sources contribute significantly to carbon monoxide levels in the area (as determined under rules issued by the Administrator as amended through [effective date of these rules]).
- (f) 70 tons per year of PM<sub>10</sub> in any serious nonattainment area for PM<sub>10</sub>;

2. For the purposes of applying the requirements of subrule 31.3(8) to stationary sources of nitrogen oxides located in an ozone nonattainment area or in an ozone transport region, any stationary source which emits, or has the potential to emit, 100 tons per year or more of nitrogen oxides emissions, except that the following emission thresholds apply in areas subject to Subpart 2 of Part D, Title I of the Act:

- (a) 100 tons per year or more of nitrogen oxides in any ozone nonattainment area classified as marginal or moderate.
- (b) 100 tons per year or more of nitrogen oxides in any ozone nonattainment area classified as a transitional, submarginal, or incomplete or no data area, when such area is located in an ozone transport region.
- (c) 100 tons per year or more of nitrogen oxides in any area designated under Section 107(d) of the Act as attainment or unclassifiable for ozone that is located in an ozone transport region.
- (d) 50 tons per year or more of nitrogen oxides in any serious nonattainment area for ozone.
- (e) 25 tons per year or more of nitrogen oxides in any severe nonattainment area for ozone.
- (f) 10 tons per year or more of nitrogen oxides in any extreme nonattainment area for ozone; or

3. Any physical change that would occur at a stationary source not qualifying under subrule 31.3(1) as a major stationary source, if the change would constitute a major stationary source by itself.

4. A major stationary source that is major for volatile organic compounds shall be considered major for ozone.

5. The fugitive emissions of a stationary source shall not be included in determining for any of the purposes of this rule whether it is a major stationary source, unless the source belongs to one of the following categories of stationary sources: coal cleaning plants (with thermal dryers); kraft pulp mills; Portland cement plants; primary zinc smelters; iron and steel mills; primary aluminum ore reduction plants; primary copper smelters; municipal incinerators capable of charging more than 250 tons of refuse per day; hydrofluoric, sulfuric, or nitric acid plants; petroleum refineries; lime plants; phosphate rock processing plants; coke oven batteries; sulfur recovery plants; carbon black plants (furnace process); primary lead smelters; fuel conversion plants; sintering plants; secondary metal production plants; chemical process plants—The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140; fossil-fuel boilers (or combination thereof) totaling more than 250 million British thermal units per hour heat input; petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels; taconite ore processing plants; glass fiber processing plants; charcoal production plants; fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input; and any other stationary source category which, as of August 7, 1980, is being regulated under Section 111 or 112 of the Act.

*“Necessary preconstruction approvals or permits”* means those permits or approvals required under federal air quality control laws and regulations and those air quality control laws and regulations which are part of the SIP.

*“Net emissions increase”* means, with respect to any regulated NSR pollutant emitted by a major stationary source, the amount by which the sum of the following exceeds zero: the increase in emissions from a particular physical change or change in the method of operation at a stationary source as calculated according to the applicability requirements of paragraph 31.3(2) “b,” and any other increases and decreases in actual emissions at the major stationary source that are contemporaneous with the particular change and are otherwise creditable. Baseline actual emissions for calculating increases and decreases shall be determined as provided in the “baseline actual emissions” definition, except that paragraphs “1”(c) and “2”(d) shall not apply.

1. An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if the increase or decrease in actual emissions occurs between the date five years before construction on the particular change commences and the date that the increase from the particular change occurs;

2. An increase or decrease in actual emissions is creditable only if:

(a) The increase or decrease in actual emissions occurs within the contemporaneous time period, as noted in paragraph “1” of this definition; and

(b) The department has not relied on the increase or decrease in actual emissions in issuing a permit for the source under this rule, which permit is in effect when the increase in actual emissions from the particular change occurs; and

(c) Reserved.

3. An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

4. A decrease in actual emissions is creditable only to the extent that:

(a) The old level of actual emission or the old level of allowable emissions whichever is lower, exceeds the new level of actual emissions;

(b) It is enforceable as a practical matter at and after the time that actual construction on the particular change begins; and

(c) The department has not relied on a decrease in actual emissions in issuing any permit under regulations approved pursuant to 40 CFR Part 51, Subpart I, or has not relied on a decrease in actual emissions in demonstrating attainment or reasonable further progress;

(d) The decrease in actual emissions has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change; and

5. An increase that results from a physical change at a source occurs when the emissions unit on which construction occurred becomes operational and begins to emit a particular pollutant. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed 180 days.

6. Actual emissions shall not apply for determining creditable increases and decreases or after a change.

*“Nonattainment major new source review (NSR) program”* means a major source preconstruction permit program that has been approved by the Administrator and incorporated into the plan to implement the requirements of this rule, or a program that implements 40 CFR Part 51, Appendix S, Sections I through VI, as amended on October 25, 2012. Any permit issued under such a program is a major NSR permit.

*“Pollution prevention”* means any activity that through process changes, product reformulation or redesign, or substitution of less polluting raw materials, eliminates or reduces the release of air pollutants (including fugitive emissions) and other pollutants to the environment prior to recycling, treatment, or disposal. “Pollution prevention” does not mean recycling (other than certain “in-process recycling” practices), energy recovery, treatment, or disposal.

*“Potential to emit”* means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design only

if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

*“Predictive emissions monitoring system”* or *“PEMS”* means all of the equipment necessary to monitor process and control device operational parameters (for example, control device secondary voltages and electric currents) and other information (for example, gas flow rate, O<sub>2</sub> or CO<sub>2</sub> concentrations), and calculate and record the mass emissions rate (for example, lb/hr) on a continuous basis.

*“Prevention of significant deterioration (PSD) permit”* means any permit that is issued under a major source preconstruction permit program that has been approved by the Administrator and incorporated into the plan to implement the requirements of 40 CFR 51.166, or under the program in 40 CFR 52.21.

*“Project”* means a physical change in, or change in the method of operation of, an existing major stationary source.

*“Projected actual emissions”* means the maximum annual rate, in tons per year, at which an existing emissions unit is projected to emit a regulated NSR pollutant in any one of the five years (12-month period) following the date the unit resumes regular operation after the project, or in any one of the ten years following that date, if the project involves increasing the emissions unit’s design capacity or its potential to emit of that regulated NSR pollutant and full utilization of the unit would result in a significant emissions increase or a significant net emissions increase at the major stationary source. In determining the projected actual emissions before beginning actual construction, the owner or operator of the major stationary source:

1. Shall consider all relevant information including, but not limited to, historical operational data, the company’s own representations, the company’s expected business activity and the company’s highest projections of business activity, the company’s filings with the state or federal regulatory authorities, and compliance plans under the approved plan; and

2. Shall include fugitive emissions to the extent quantifiable, and emissions associated with startups, shutdowns, and malfunctions; and

3. Shall exclude, in calculating any increase in emissions that results from the particular project, that portion of the unit’s emissions following the project that an existing unit could have accommodated during the consecutive 24-month period used to establish the baseline actual emissions and that are also unrelated to the particular project, including any increased utilization due to product demand growth; or

4. In lieu of using the method set out in paragraphs “1” through “3,” may elect to use the emissions unit’s potential to emit, in tons per year.

*“Reasonable period”* means an increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if the increase or decrease in actual emissions occurs between the date five years before construction on the particular change commences and the date that the increase from the particular change occurs.

*“Regulated NSR pollutant”* means the following:

1. Nitrogen oxides or any volatile organic compounds;

2. Any pollutant for which a national ambient air quality standard has been promulgated;

3. Any pollutant that is identified as a constituent or precursor of a general pollutant listed under paragraph “1” or “2,” provided that such constituent or precursor pollutant may only be regulated under NSR as part of regulation of the general pollutant. Precursors identified by the Administrator for purposes of NSR are the following:

- (a) Volatile organic compounds and nitrogen oxides are precursors to ozone in all ozone nonattainment areas.

- (b) Sulfur dioxide is a precursor to PM<sub>2.5</sub> in all PM<sub>2.5</sub> nonattainment areas.

- (c) Nitrogen oxides are presumed to be precursors to PM<sub>2.5</sub> in all PM<sub>2.5</sub> nonattainment areas, unless the department demonstrates to the EPA’s satisfaction or EPA demonstrates that emissions of nitrogen oxides from sources in a specific area are not a significant contributor to the area’s ambient PM<sub>2.5</sub> concentrations.

- (d) Volatile organic compounds and ammonia are presumed not to be precursors to PM<sub>2.5</sub> in any PM<sub>2.5</sub> nonattainment area, unless the department demonstrates to the EPA’s satisfaction or EPA

demonstrates that emissions of volatile organic compounds or ammonia from sources in a specific area are a significant contributor to that area's ambient PM<sub>2.5</sub> concentrations; or

4. PM<sub>2.5</sub> emissions and PM<sub>10</sub> emissions shall include gaseous emissions from a source or activity which condense to form particulate matter at ambient temperatures.

*"Replacement unit"* means an emissions unit for which all the criteria listed in paragraphs "1" through "4" of this definition are met. No creditable emission reductions shall be generated from shutting down the existing emissions unit that is replaced.

1. The emissions unit is a reconstructed unit within the meaning of 40 CFR 60.15(b)(1) as amended through December 16, 1975, or the emissions unit completely takes the place of an existing emissions unit.

2. The emissions unit is identical to or functionally equivalent to the replaced emissions unit.

3. The replacement does not alter the basic design parameters of the process unit.

4. The replaced emissions unit is permanently removed from the major stationary source, otherwise permanently disabled, or permanently barred from operation by a permit that is enforceable as a practical matter. If the replaced emissions unit is brought back into operation, it shall constitute a new emissions unit.

*"Reviewing authority"* means the department of natural resources.

*"Secondary emissions"* means emissions which would occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. For the purpose of this rule, "secondary emissions" must be specific, well defined, quantifiable, and impact the same general area as the stationary source or modification which causes the secondary emissions. "Secondary emissions" include emissions from any offsite support facility which would not be constructed or increase its emissions except as a result of the construction or operation of the major stationary source or major modification. "Secondary emissions" do not include any emissions which come directly from a mobile source such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

*"Significant"* means:

1. In reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

Pollutant Emission Rate

(a) Carbon monoxide: 100 tons per year (tpy)

(b) Nitrogen oxides: 40 tpy

(c) Sulfur dioxide: 40 tpy

(d) Ozone: 40 tpy of volatile organic compounds or nitrogen oxides

(e) Lead: 0.6 tpy

(f) PM<sub>10</sub>: 15 tpy

(g) PM<sub>2.5</sub>: 10 tpy of direct PM<sub>2.5</sub> emissions; 40 tpy of sulfur dioxide emissions; 40 tpy of nitrogen oxide emissions unless the department demonstrates to EPA's satisfaction that the emissions of nitrogen oxides from sources in a specific area are not a significant contributor to the area's ambient PM<sub>2.5</sub> concentrations.

2. Notwithstanding the significant emissions rate for ozone, significant means, in reference to an emissions increase or a net emissions increase, any increase in actual emissions of volatile organic compounds that would result from any physical change in, or change in the method of operation of, a major stationary source locating in a serious or severe ozone nonattainment area that is subject to Subpart 2, Part D, Title I of the Act, if such emissions increase of volatile organic compounds exceeds 25 tons per year.

3. For the purposes of applying the requirements of subrule 31.3(8) to modifications at major stationary sources of nitrogen oxides located in an ozone nonattainment area or in an ozone transport region, the significant emission rates and other requirements for volatile organic compounds in paragraphs "1," "2," and "5" shall apply to nitrogen oxides emissions.

4. Notwithstanding the significant emissions rate for carbon monoxide, significant means, in reference to an emissions increase or a net emissions increase, any increase in actual emissions of

carbon monoxide that would result from any physical change in, or change in the method of operation of, a major stationary source in a serious nonattainment area for carbon monoxide if such increase equals or exceeds 50 tons per year, provided the department has determined that stationary sources contribute significantly to carbon monoxide levels in that area.

5. Notwithstanding the significant emissions rates for ozone under paragraphs “1” and “2,” any increase in actual emissions of volatile organic compounds from any emissions unit at a major stationary source of volatile organic compounds located in an extreme ozone nonattainment area that is subject to Subpart 2, Part D, Title I of the Act shall be considered a significant net emissions increase.

“*Significant emissions increase*” means, for a regulated NSR pollutant, an increase in emissions that is significant for that pollutant.

“*Stationary source*” means any building, structure, facility, or installation which emits or may emit a regulated NSR pollutant.

“*Temporary clean coal technology demonstration project*” means a clean coal technology demonstration project that is operated for a period of five years or less, and which complies with the SIP and other requirements necessary to attain and maintain the national ambient air quality standards during the project and after it is terminated.

“*Volatile organic compounds*” or “*VOC*” means any compound included in the definition of “volatile organic compounds” found at 40 CFR 51.100(s) as amended through January 21, 2009.

**31.3(2) Applicability procedures.**

*a.* This subrule adopts a preconstruction review program to satisfy the requirements of Sections 172(c)(5) and 173 of the Act for any area designated nonattainment for any national ambient air quality standard under Subpart C of 40 CFR Part 81 as amended on August 5, 2013, and shall apply to any new major stationary source or major modification that is major for the pollutant for which the area is designated nonattainment under Section 107(d)(1)(A)(i) of the Act, if the stationary source or modification would locate anywhere in the designated nonattainment area.

*b.* Each plan shall use the specific provisions of subparagraphs (1) through (6) of this paragraph. Deviations from these provisions will be approved only if the submitted provisions are more stringent than or at least as stringent in all respects as the corresponding provisions in subparagraphs (1) through (6) of this paragraph.

(1) Except as otherwise provided in paragraph 31.3(2)“c,” and consistent with the definition of major modification, a project is a major modification for a regulated NSR pollutant if it causes two types of emissions increases—a significant emissions increase and a significant net emissions increase. The project is not a major modification if it does not cause a significant emissions increase. If the project causes a significant emissions increase, then the project is a major modification only if it also results in a significant net emissions increase.

(2) The procedure for calculating (before beginning actual construction) whether a significant emissions increase (i.e., the first step of the process) will occur depends upon the type of emissions units being modified, according to subparagraphs (3) through (6) of this paragraph. The procedure for calculating (before beginning actual construction) whether a significant net emissions increase will occur at the major stationary source. Regardless of any such preconstruction projections, a major modification results if the project causes a significant emissions increase and a significant net emissions increase.

(3) Actual-to-projected-actual applicability test for projects that only involve existing emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the projected actual emissions and the baseline actual emissions, for each existing emissions unit, equals or exceeds the significant amount for that pollutant.

(4) Actual-to-potential test for projects that only involve construction of a new emissions unit(s). A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the potential to emit from each new emissions unit following completion of the project and the baseline actual emissions of these units before the project equals or exceeds the significant amount for that pollutant.

(5) Reserved.

(6) Hybrid test for projects that involve multiple types of emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the emissions increases for each emissions unit, using the method specified in subparagraphs (3) and (4) of this paragraph as applicable with respect to each emissions unit, for each type of emissions unit equals or exceeds the significant amount for that pollutant.

c. The plan shall require that for any major stationary source for a PAL for a regulated NSR pollutant, the major stationary source shall comply with requirements under rule 567—31.9(455B).

**31.3(3) Creditable offsets.**

a. For sources and modifications subject to any preconstruction review program, the baseline for determining credit for emissions reductions is the emissions limit in effect at the time the application to construct is filed, except that the offset baseline shall be the actual emissions of the source from which offset credit is obtained where;

(1) The demonstration of reasonable further progress and attainment of ambient air quality standards is based upon the actual emissions of sources located within a designated nonattainment area for which the preconstruction review program was adopted; or

(2) The SIP does not contain an emissions limitation for that source or source category.

b. Providing that:

(1) Where the emissions limit under the SIP allows greater emissions than the potential to emit of the source, emissions offset credit will be allowed only for control below this potential;

(2) For an existing fuel combustion source, credit shall be based on the allowable emissions under the SIP for the type of fuel being burned at the time the application to construct is filed. If the existing source commits to switch to a cleaner fuel at some future date, emissions offset credit based on the allowable (or actual) emissions for the fuels involved is not acceptable, unless the permit is conditioned to require the use of a specified alternative control measure which would achieve the same degree of emissions reduction should the source switch back to a dirtier fuel at some later date. The department should ensure that adequate long-term supplies of the new fuel are available before granting emissions offset credit for fuel switches,

(3) Emissions reductions achieved by shutting down an existing emission unit or curtailing production or operating hours may be generally credited for offsets if: such reductions are surplus, permanent, quantifiable, and federally enforceable; and the shutdown or curtailment occurred after the last day of the base year for the SIP planning process. For purposes of this subparagraph, the department may choose to consider a prior shutdown or curtailment to have occurred after the last day of the base year if the projected emissions inventory used to develop the attainment demonstration explicitly includes the emissions from such previously shutdown or curtailed emission units. However, in no event may credit be given for shutdowns that occurred before August 7, 1977.

Emissions reductions achieved by shutting down an existing emissions unit or curtailing production or operating hours and that do not meet the requirements above may be generally credited only if: the shutdown or curtailment occurred on or after the date the construction permit application is filed; or the applicant can establish that the proposed new emissions unit is a replacement for the shutdown or curtailed emissions unit, and the emissions reductions achieved by the shutdown or curtailment met the requirements of this subparagraph.

(4) No emissions credit may be allowed for replacing one hydrocarbon compound with another of lesser reactivity, except for those compounds listed in Table 1 of EPA's "Recommended Policy on Control of Volatile Organic Compounds" (42 FR 35314, July 8, 1977);

(5) All emission reductions claimed as offset credit shall be federally enforceable;

(6) Procedures relating to the permissible location of offsetting emissions shall be followed which are at least as stringent as those set out in 40 CFR Part 51, Appendix S, Section IV.D, as amended on October 25, 2012.

(7) Credit for an emissions reduction can be claimed to the extent that the department has not relied on it in issuing any permit under regulations approved pursuant to 40 CFR Part 51, Subpart I, or the state has not relied on it in demonstration attainment or reasonable further progress.

(8) Reserved.

(9) Reserved.

(10) The total tonnage of increased emissions, in tons per year, resulting from a major modification that must be offset in accordance with Section 173 of the Act shall be determined by summing the difference between the allowable emissions after the modification and the actual emissions before the modification for each emissions unit.

**31.3(4)** The department may provide that the provisions of this subrule do not apply to a source or modification that would be a major stationary source or major modification only if fugitive emissions, to the extent quantifiable, are considered in calculating the potential to emit of the stationary source or modification and the source does not belong to any of the following categories: coal cleaning plants (with thermal dryers); kraft pulp mills; Portland cement plants; primary zinc smelters; iron and steel mills; primary aluminum ore reduction plants; primary copper smelters; municipal incinerators capable of charging more than 250 tons of refuse per day; hydrofluoric, sulfuric, or nitric acid plants; petroleum refineries; lime plants; phosphate rock processing plants; coke oven batteries; sulfur recovery plants; carbon black plants (furnace process); primary lead smelters; fuel conversion plants; sintering plants; secondary metal production plants; chemical process plants—The term chemical processing plant shall not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS codes 325193 or 312140; fossil-fuel boilers (or combination thereof) totaling more than 250 million British thermal units per hour heat input; petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels; taconite ore processing plants; glass fiber processing plants; charcoal production plants; fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input; and any other stationary source category which, as of August 7, 1980, is being regulated under Section 111 or 112 of the Act.

**31.3(5)** Enforceable procedures.

*a.* Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with applicable provision of the plan and any other requirements under local, state or federal law.

*b.* At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforcement limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then the requirements of this rule shall apply to the source or modification as though construction had not yet commenced on the source or modification.

**31.3(6)** Except as otherwise provided in paragraph 31.3(6) “*f*,” the following specific provisions apply with respect to any regulated NSR pollutant emitted from projects at existing emissions units at a major stationary source (other than projects at a source with a PAL) in circumstances where there is a reasonable possibility, within the meaning of paragraph 31.3(6) “*f*,” that a project that is not a part of a major modification may result in a significant emissions increase of such pollutant, and the owner or operator elects to use the method specified in paragraphs “1” through “3” of the definition of “projected actual emissions” for calculating projected actual emissions. Deviations from these provisions will be approved only if the state specifically demonstrates that the submitted provisions are more stringent than or at least as stringent in all respects as the corresponding provisions in paragraphs 31.3(6) “*a*” through “*f*.”

*a.* Before beginning actual construction of the project, the owner or operator shall document and maintain a record of the following information:

(1) A description of the project;

(2) Identification of the emissions unit(s) whose emissions of a regulated NSR pollutant could be affected by the project; and

(3) A description of the applicability test used to determine that the project is not a major modification for any regulated NSR pollutant, including the baseline actual emissions, the projected actual emissions, the amount of emissions excluded under paragraph “3” of the definition of “projected actual emissions” and an explanation for why such amount was excluded, and any netting calculations, if applicable.

*b.* If the emissions unit is an existing electric utility steam generating unit, before beginning actual construction, the owner or operator shall provide a copy of the information set out in paragraph

31.3(6) “a” to the department. Nothing in paragraph 31.3(6) “b” shall be construed to require the owner or operator of such a unit to obtain any determination from the reviewing authority before beginning actual construction.

c. The owner or operator shall monitor the emissions of any regulated NSR pollutant that could increase as a result of the project and that is emitted by any emissions units identified in subparagraph 31.3(6) “a”(2); and calculate and maintain a record of the annual emissions, in tons per year on a calendar year basis, for a period of five years following resumption of regular operations after the change, or for a period of ten years following resumption of regular operations after the change if the project increases the design capacity or potential to emit of that regulated NSR pollutant at such emissions unit.

d. If the unit is an existing electric utility steam generating unit, the owner or operator shall submit a report to the department within 60 days after the end of each year during which records must be generated under paragraph 31.3(6) “c” setting out the unit’s annual emissions during the year that preceded submission of the report.

e. If the unit is an existing unit other than an electric utility steam generating unit, the owner or operator shall submit a report to the department if the annual emissions, in tons per year, from the project identified in paragraph 31.3(6) “a,” exceed the baseline actual emissions (as documented and maintained under subparagraph 31.3(6) “a”(3)), by a significant amount for that regulated NSR pollutant, and if such emissions differ from the preconstruction projection as documented and maintained under subparagraph 31.3(6) “a”(3). Such report shall be submitted to the department within 60 days after the end of such year. The report shall contain the following:

- (1) The name, address and telephone number of the major stationary source;
- (2) The annual emissions as calculated pursuant to paragraph 31.3(6) “c”; and
- (3) Any other information that the owner or operator wishes to include in the report (e.g., an explanation as to why the emissions differ from the preconstruction projection).

f. A “reasonable possibility” under this subrule occurs when the owner or operator calculates the project to result in either:

(1) A projected actual emissions increase of at least 50 percent of the amount that is a “significant emissions increase” (without reference to the amount that is a significant net emissions increase) for the regulated NSR pollutant; or

(2) A projected actual emissions increase that, added to the amount of emissions excluded under paragraph “3” of the definition of “projected actual emissions,” sums to at least 50 percent of the amount that is a “significant emissions increase” (without reference to the amount that is a significant net emissions increase) for the regulated NSR pollutant. For a project for which a reasonable possibility occurs only within the meaning of this subparagraph, and not also within the meaning of subparagraph (1), then paragraphs 31.3(6) “b” through “e” do not apply to the project.

**31.3(7)** The owner or operator of the source shall make the information required to be documented and maintained pursuant to this subrule available for review upon a request for inspection by the department or the general public pursuant to the requirements contained in 40 CFR 70.4(b)(3)(viii) as amended through October 6, 2009.

**31.3(8)** The requirements of this subrule applicable to major stationary sources and major modifications of volatile organic compounds shall apply to nitrogen oxides emissions from major stationary sources and major modifications of nitrogen oxides in an ozone transport region or in any ozone nonattainment area, except in ozone nonattainment areas or in portions of an ozone transport region where the Administrator has granted a NO<sub>x</sub> waiver applying the standards set forth under Section 182(f) of the Act and the waiver continues to apply.

**31.3(9)** Offset ratios.

a. In meeting the emissions offset requirements of subrule 31.3(3), the ratio of total actual emissions reductions to the emissions increase shall be at least 1:1 unless an alternative ratio is provided for the applicable nonattainment area in paragraphs 31.3(9) “b” through “d.”

b. The plan shall require that in meeting the emissions offset requirements of subrule 31.3(3) for ozone nonattainment areas that are subject to Subpart 2, Part D, Title I of the Act, the ratio of total actual emissions reductions of VOC to the emissions increase of VOC shall be as follows:

- (1) In any marginal nonattainment area for ozone—at least 1.1:1;
- (2) In any moderate nonattainment area for ozone—at least 1.15:1;
- (3) In any serious nonattainment area for ozone—at least 1.2:1;
- (4) In any severe nonattainment area for ozone—at least 1.3:1 (except that the ratio may be at least 1.2:1 if the approved plan also requires all existing major sources in such nonattainment area to use BACT for the control of VOC); and
- (5) In any extreme nonattainment area for ozone—at least 1.5:1 (except that the ratio may be at least 1.2:1 if the approved plan also requires all existing major sources in such nonattainment area to use BACT for the control of VOC); and

*c.* Notwithstanding the requirements of subrule 31.3(9) for meeting the requirements of subrule 31.3(3), the ratio of total actual emissions reductions of VOC to the emissions increase of VOC shall be at least 1.15:1 for all areas within an ozone transport region that is subject to Subpart 2, Part D, Title I of the Act, except for serious, severe, and extreme ozone nonattainment areas that are subject to Subpart 2, Part D, Title I of the Act.

*d.* In meeting the emissions offset requirements of subrule 31.3(3) for ozone nonattainment areas that are subject to Subpart 1, Part D, Title I of the Act (but are not subject to Subpart 2, Part D, Title I of the Act, including eight-hour ozone nonattainment areas subject to 40 CFR 51.902(b)), the ratio of total actual emissions reductions of VOC to the emissions increase of VOC shall be at least 1:1.

**31.3(10)** The requirements of this rule applicable to major stationary sources and major modifications of PM<sub>10</sub> shall also apply to major stationary sources and major modifications of PM<sub>10</sub> precursors.

**31.3(11)** In meeting the emissions offset requirements of subrule 31.3(3), the emissions offsets obtained shall be for the same regulated NSR pollutant unless interprecursor offsetting is permitted for a particular pollutant as specified in this subrule. The offset requirements in subrule 31.3(3) for direct PM<sub>2.5</sub> emissions or emissions of precursors of PM<sub>2.5</sub> may be satisfied by offsetting reductions in direct PM<sub>2.5</sub> emissions or emissions of any PM<sub>2.5</sub> precursor if such offsets comply with the interprecursor trading hierarchy and ratio established in the approved plan for a particular nonattainment area.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

**567—31.4(455B) Preconstruction review permit program.**

**31.4(1)** Sources shall comply with the requirements of Section 110(a)(2)(D)(i) of the Act for any new major stationary source or major modification as defined in subrule 31.3(1). The definitions in subrule 31.3(1) for “major stationary source” and “major modification” planning to locate in any area designated as attainment or unclassifiable for any national ambient air quality standard pursuant to Section 107 of the Act, apply when that source or modification would cause or contribute to a violation of any national ambient air quality standard.

**31.4(2)** A major source or major modification will be considered to cause or contribute to a violation of a national ambient air quality standard when such source or modification would, at a minimum, exceed the following significance levels at any locality that does not or would not meet the applicable national standard:

Pollutant	Annual	Averaging time (hours)			
		24	8	3	1
SO <sub>2</sub>	1.0 µg/m <sup>3</sup>	5 µg/m <sup>3</sup>		25 µg/m <sup>3</sup>	
PM <sub>10</sub>	1.0 µg/m <sup>3</sup>	5 µg/m <sup>3</sup>			
PM <sub>2.5</sub>	0.3 µg/m <sup>3</sup>	1.2 µg/m <sup>3</sup>			
NO <sub>2</sub>	1.0 µg/m <sup>3</sup>				
CO			0.5 mg/m <sup>3</sup>		2 mg/m <sup>3</sup>

**31.4(3)** A proposed major source or major modification subject to this rule may reduce the impact of its emissions upon air quality by obtaining sufficient emission reductions to, at a minimum, compensate for its adverse ambient impact where the major source or major modification would otherwise cause or

contribute to a violation of any national ambient air quality standard. In the absence of such emission reductions, the proposed construction permit application shall be denied.

**31.4(4)** The requirements of this rule shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that, as to that pollutant, the source or modification is located in an area designated as nonattainment pursuant to Section 107 of the Act.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

**567—31.5(455B) to 31.8(455B)** Reserved.

**567—31.9(455B) Actuals PALs.** Except as provided in subrule 31.9(1), the provisions for actuals PALs as specified in 40 CFR 51.165(f) as amended through March 30, 2011, are adopted by reference.

**31.9(1)** The following portions of actuals PALs in 40 CFR 51.165(f) are modified to read as follows:

*a.* 40 CFR 51.165(f)(2): Definitions. The definitions in paragraphs (f)(2)(i) through (xi) of this section shall be applicable to actuals PALs for purposes of paragraphs (f)(1) through (15) of this section. Any terms not defined in paragraphs (f)(2)(i) through (xi) shall have the meaning prescribed by rule 567—31.3(455B) or the meaning prescribed by the Act.

*b.* 40 CFR 51.165(f)(8)(ii)(B): The reviewing authority shall have discretion to reopen the PAL permit for the following:

*c.* 40 CFR 51.165(f)(10)(ii): Application deadline. A major stationary source owner or operator shall submit a timely application to the reviewing authority to request renewal of a PAL. In order to be considered timely, the application shall be submitted at least 6 months prior to, but not earlier than 18 months prior to, the date of permit expiration. This deadline for application submittal is to ensure that the permit will not expire before the permit is renewed. If the owner or operator of a major stationary source submits a complete application to renew the PAL within this time period, then the PAL shall continue to be effective until the revised permit with the renewed PAL is issued.

*d.* 40 CFR 51.165(f)(15)(i): Each PAL shall comply with the requirements contained in paragraphs (f)(1) through (15) of this section.

*e.* 40 CFR 51.165(f)(15)(ii): Any PAL issued prior to January 15, 2014, may be superseded with a PAL that complies with the requirements of paragraphs (f)(1) through (15) of this section.

**31.9(2)** Reserved.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

**567—31.10(455B) Validity of rules.** If any provision of rules 567—31.3(455B) through 567—31.9(455B), or the application of such provision to any person or circumstance, is held invalid, the remainder of these rules, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

[ARC 1227C, IAB 12/11/13, effective 1/15/14]

**567—31.11(455B) to 31.19(455B)** Reserved.

#### NONATTAINMENT AREAS DESIGNATED BEFORE MAY 18, 1998

**567—31.20(455B) Special requirements for nonattainment areas designated before May 18, 1998 (originally adopted in 567—22.5(455B)).**

**31.20(1) Definitions.**

*a.* “Major stationary source” means any of the following:

(1) Any stationary source of air contaminants which emits, or has the potential to emit, 100 tons per year or more of any regulated air contaminant;

(2) Any physical change that would occur at a stationary source not qualifying under subparagraph (1) as a major stationary source, if the change would constitute a major stationary source by itself;

(3) For ozone nonattainment areas, sources with the potential to emit 100 tpy or more of volatile organic compounds or oxides of nitrogen in areas classified as “marginal” or “moderate,” 50 tpy or more in areas classified as “serious,” 25 tpy or more in areas classified as “severe” and 10 tpy or more in areas

classified as “extreme”; except that the references in this paragraph to 100, 50, 25, and 10 tpy of nitrogen oxides shall not apply with respect to any source for which the Administrator has made a finding, under Section 182(f)(1) or (2) of the Clean Air Act, that requirements under Section 182(f) of the Clean Air Act do not apply;

(4) For ozone transport regions established pursuant to Section 184 of the Clean Air Act, sources with potential to emit 50 tpy or more of volatile organic compounds;

(5) For carbon monoxide nonattainment areas that both are classified as “serious” and in which there are stationary sources which contribute significantly to carbon monoxide levels, sources with the potential to emit 50 tpy or more of carbon monoxide; or

(6) For particulate matter (PM<sub>10</sub>), nonattainment areas classified as “serious,” sources with the potential to emit 70 tpy or more of PM<sub>10</sub>.

A major stationary source that is major for volatile organic compounds shall be considered major for ozone.

*b. “Major modification”* means any physical change in or change in the method of operation of a major stationary source, that would result in a significant net emission increase of any regulated air contaminant.

(1) Any net emissions increase that is considered significant for volatile organic compounds shall be considered significant for ozone.

(2) A physical change, or change in the method of operation, shall not include:

Routine maintenance, repair, and replacement;

Use of an alternative fuel or raw material by reason of an order under Sections 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation), or by reason of a natural gas curtailment plan in effect pursuant to the Federal Power Act;

Use of an alternative fuel by reason of an order or rule under Section 125 of the Clean Air Act;

Any change in ownership at a stationary source;

Use of an alternative fuel at a steam generating unit to the extent that the fuel is generated from municipal solid waste;

Use of an alternative fuel or raw material by a stationary source which the source was capable of accommodating before December 21, 1976, unless such change would be prohibited by any enforceable permit condition; or

An increase in the hours of operation or in the production rate, unless such change is prohibited under any enforceable permit condition.

*c. “Potential to emit”* means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design only if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

The provisions of this paragraph do not apply to a source or modification that would be a major stationary source or major modification only if fugitive emissions, to the extent quantifiable, are considered in calculating the potential to emit of the stationary source or modification and the source does not belong to any of the following categories:

Coal cleaning plants (with thermal dryers);

Kraft pulp mills;

Portland cement plants;

Primary zinc smelters;

Iron and steel mills;

Primary aluminum ore reduction plants;

Primary copper smelters;

Municipal incinerators capable of charging more than 250 tons of refuse per day;

Hydrofluoric, sulfuric, or nitric acid plants;

Petroleum refineries;

Lime plants;  
Phosphate rock processing plants;  
Coke oven batteries;  
Sulfur recovery plants;  
Carbon black plants (furnace process);  
Primary lead smelters;  
Fuel conversion plants;  
Sintering plants;  
Secondary metal production plants;  
Chemical process plants;  
Fossil-fuel boilers (or combination thereof) totaling more than 250 million British thermal units per hour heat input;  
Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;  
Taconite ore processing plants;  
Glass fiber processing plants;  
Charcoal production plants;  
Fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input;

Any other stationary source category which, as of August 7, 1980, is being regulated under Section 111 or 112 of the Clean Air Act, 42 U.S.C. §§7401 et seq.

*d. "Lowest achievable emission rate"* means, for any source, that rate of emissions based on the following, whichever is more stringent:

(1) The most stringent emission limitation which is contained in the implementation plan of any state for such class or category of stationary source, unless the owner or operator of the proposed stationary source demonstrates that such limitations are not achievable; or

(2) The most stringent emission limitation which is achieved in practice by such class or category of source.

This term, applied to a modification, means the lowest achievable emission rate for the new or modified emission units within the stationary source.

This term may include a design, equipment, material, work practice or operational standard or combination thereof.

In no event shall the application of this term permit a proposed new or modified stationary source to emit any regulated air contaminant in excess of the amount allowable under applicable new source standards of performance.

*e. "Secondary emissions"* means emissions which occur or could occur as a result of the construction or operation of a major stationary source or major modification, but do not necessarily come from the major stationary source or major modification itself. For purposes of this rule, secondary emissions must be specific and well-defined, must be quantifiable, and must affect the same general nonattainment area as the stationary source or modification which causes the secondary emission. Secondary emissions may include, but are not limited to:

Emissions from barges or trains coming to or from the new or modified stationary source; and

Emissions from any off-site support facility which would not otherwise be constructed or increase its emissions as a result of the construction or operation of the major stationary source or major modification.

*f. (1) "Net emissions increase"* means the amount by which the sum of the following exceeds zero:

Any increase in actual emissions from a particular physical change or change in the method of operation at a stationary source; and

Any other increases and decreases in actual emissions at the source that are contemporaneous with the particular change and are otherwise creditable.

(2) An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if it occurs between the date five years before construction on the particular change commences and the date that the increase from the particular change occurs.

(3) An increase or decrease in actual emissions is creditable only if the director has not relied on it in issuing a permit for the source under this rule which permit is in effect when the increase in actual emissions from the particular change occurs.

(4) An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

(5) A decrease in actual emissions is creditable only to the extent that:

The old level of actual emissions or the old level of allowable emissions, whichever is lower, exceeds the new level of actual emissions;

It is an enforceable permit condition at and after the time that actual construction on the particular change begins;

The director has not relied on it in issuing any other permit;

Such emission decreases have not been used for showing reasonable further progress; and

It has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change.

(6) An increase that results from a physical change at a source occurs when the emissions unit on which construction occurred becomes operational and begins to emit a particular pollutant. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed 180 days.

*g.* “Emissions unit or installation” means an identifiable piece of process equipment.

*h.* “Reconstruction” will be presumed to have taken place where the fixed capital cost of the new components exceeds 50 percent of the fixed capital cost of a comparable entirely new stationary source. Any final decision as to whether reconstruction has occurred shall be made in accordance with the provisions of new source performance standards (see 567—subrule 23.1(2)). A reconstructed stationary source will be treated as a new stationary source for purposes of this rule. In determining lowest achievable emission rate for a reconstructed stationary source, the definitions in the new source performance standards shall be taken into account in assessing whether a new source performance standard is applicable to such stationary source.

*i.* “Fixed capital cost” means the capital needed to provide all the depreciable components.

*j.* “Fugitive emissions” means those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

*k.* “Significant” means in reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

Pollutant and Emissions Rate

Carbon monoxide: 100 tons per year (tpy)

Nitrogen oxides: 40 tpy

Sulfur dioxide: 40 tpy

Particulate matter: 25 tpy

Ozone: 40 tpy of volatile organic compounds

Lead: 0.6 tpy

PM<sub>10</sub>: 15 tpy

*l.* “Allowable emissions” means the emissions rate calculated using the maximum rated capacity of the source (unless the source is subject to an enforceable permit condition which restricts the operating rate, or hours of operation, or both) and the most stringent of the following:

(1) Applicable standards as set forth in 567—Chapter 23;

(2) Any applicable state implementation plan emissions limitation, including those with a future compliance date; or

(3) The emissions rate specified as an enforceable permit condition, including those with a future compliance date.

*m.* “Enforceable permit condition” for the purpose of this rule means any of the following limitations and conditions: requirements developed pursuant to new source performance standards, prevention of significant deterioration standards, emission standards for hazardous air pollutants,

requirements within the state implementation plan, and any permit requirements established pursuant to this rule, or under construction or Title V operating permit rules.

*n.* (1) “*Actual emissions*” means the actual rate of emissions of a pollutant from an emissions unit as determined in accordance with subparagraphs (2) to (4) below.

(2) In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a two-year period which precedes the particular date and which is representative of normal source operation. The reviewing authority shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit’s actual operating hours, production rates, and types of materials processed, stored or combusted during the selected time period.

(3) The director may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

(4) For any emissions unit which has not begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date.

*o.* “*Construction*” means any physical change or change in the method of operation (including fabrication, erection, installation, demolition, or modification of an emissions unit) which would result in a change in actual emissions.

*p.* “*Commence*” as applied to construction of a major stationary source or major modification means that the owner or operator has all necessary preconstruction approvals or permits and either has:

(1) Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

(2) Entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

*q.* “*Necessary preconstruction approvals or permits*” means those permits or approvals required under federal air quality control laws and regulations and those air quality control laws and regulations which are part of the state implementation plan.

*r.* “*Begin actual construction*” means, in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework and construction of permanent storage structures. With respect to a change in method of operating, this term refers to those on-site activities other than preparatory activities which mark the initiation of the change.

*s.* “*Building, structure, or facility*” means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same “major group” (i.e., which have the same two-digit code) as described in the Standard Industrial Classification Manual, 1972, as amended by the 1977 Supplement (U.S. Government Printing Office stock numbers 4101-0066 and 003-005-00176-0 respectively).

**31.20(2) Applicability.** Areas designated as attainment, nonattainment, or unclassified are as listed in 40 CFR §81.316 as amended through March 19, 1998.

*a.* The requirements contained in rule 567—31.20(455B) shall apply to any new major stationary source or major modification that, as of the date the permit is issued, is major for any pollutant for which the area in which the source would construct is designated as nonattainment.

*b.* The requirements contained in rule 567—31.20(455B) shall apply to each nonattainment pollutant that the source will emit or has the potential to emit in major amounts. In the case of a modification, the requirements shall apply to the significant net emissions increase of each nonattainment pollutant for which the source is major.

*c.* Particulate matter. If a major source or major modification is proposed to be constructed in an area designated nonattainment for particulate matter, then emission offsets must be achieved prior to startup.

If a major source or major modification is proposed to be constructed in an area designated attainment or unclassified for particulate matter, but the modeled (EPA-approved guideline model) worst case ground level particulate concentrations due to the major source or major modification in a designated particulate matter nonattainment area is equal to or greater than five micrograms per cubic meter (24-hour concentration), or one microgram per cubic meter (annual arithmetic mean), then emission offsets must be achieved prior to startup.

*d.* Sulfur dioxide. If a major source or major modification is proposed to be constructed in an area designated nonattainment for sulfur dioxide, then emission offsets must be achieved prior to startup.

If a major source or major modification is proposed to be constructed in an area designated attainment or unclassified for sulfur dioxide, but the modeled (EPA-approved guideline model) worst case ground level sulfur dioxide concentrations due to the major source or major modification in a designated sulfur dioxide nonattainment area is equal to or greater than 25 micrograms per cubic meter (three-hour concentration), five microgram per cubic meter (24-hour concentration), or one microgram per cubic meter (annual arithmetic mean), then emission offsets must be achieved prior to startup.

*e.* At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, then the requirements of this rule shall apply to the source or modification as though construction had not yet commenced on the source or modification.

**31.20(3) Emission offsets.**

*a.* Emission offsets shall be obtained from the same source or other sources in the same nonattainment area, except that the required emissions reductions may be obtained from a source in another nonattainment area if:

(1) The other area, which must be nonattainment for the same pollutant, has an equal or higher nonattainment classification than the nonattainment area in which the source is located, and

(2) Emissions from such other nonattainment areas contribute to a violation of a national ambient air quality standard in the nonattainment area in which the proposed new or modified source would construct.

*b.* Emission offsets for any regulated air contaminant in the designated nonattainment area shall provide for reasonable further progress toward attainment of the applicable national ambient air quality standards and provide a positive net air quality benefit in the nonattainment area.

*c.* The increased emissions of any applicable nonattainment air pollutant allowed from the proposed new or modified source shall be offset by an equal or greater reduction, as applicable, in the total tonnage and impact of actual emissions, as stated in subrule 31.20(4), of such air pollutant from the same or other sources. For purposes of subrule 31.20(3), actual emissions shall be determined in accordance with subparagraphs 31.20(1) "n"(1) and (2).

*d.* All emissions reductions claimed as offset credit shall be federally enforceable prior to, or upon, the issuance of the permit required under this rule and shall be in effect by the time operation of the permitted new source or modification begins.

*e.* Proposals for emission offsets shall be submitted with the application for a permit for the major source or major modification. All approved emission offsets shall be made a part of the permit and shall be deemed a condition of expected performance of the major source or major modification.

**31.20(4) Acceptable emission offsets.**

*a.* *Equivalence.* The effect of the reduction of emissions must be measured or predicted to occur in the same area as the emissions of the major source or major modification. It can be assumed that, if the emission offsets are obtained from an existing source on the same premises or in the immediate vicinity of the major source or major modification and if the air contaminant disperses from substantially the same stack height, the emissions will be equivalent and may be offset. Otherwise, an adequate dispersion model must be used to predict the effect. If the reduction accomplished at the source is as specified in subrule 31.20(3) and if the effect of the reduction is measured or predicted to occur in the same area as the emissions of the major source or major modification, the effect of the reduction at the measured or predicted point does not have to exactly offset the effect of the major source or major modification.

b. Reserved.

c. *Control of uncontrolled existing sources.* If control equipment is proposed for a presently uncontrolled existing source for which controls are not required by rules, then credit may be allowed for any reduction below the source's potential to emit. The reduction shall be proposed at the time of permit application. Any such reductions which occurred prior to January 1, 1978, shall not be accepted for offsets.

d. *Greater control of existing sources.* If more effective control equipment for a source already in compliance with the SIP allowable level is proposed to offset the emissions of the major source or major modification in or affecting a nonattainment area, then the difference in the emissions between the actual level on January 1, 1978, and the new level can be credited for offsets. (This does not allow credit to be granted for any reductions in actual emissions required by the SIP subsequent to January 1, 1978.)

For example, if a cyclone that is being used to meet a SIP emission standard is emitting  $x_1$  lbs/hr and if it is to be replaced by a bag filter emitting  $x_2$  lbs/hr, an emission offset equal to  $(x_1 - x_2)$  lbs/hr may be allowed toward the total required reduction.

e. *Fugitive dust offsets.* Credits may be allowed for permanent control of fugitive dust. EPA's "Technical Guidance for Control of Industrial Process Fugitive Particulate Emissions" (EPA-450/3-77-010, March 1977) shall be used as a guide to estimate reduction from fugitive dust controls on traditional sources. Traditional source means a source category for which a particulate emission standard has been established in 567—subrule 23.1(2), 567—paragraph 23.3(2) "a" or "b" or 567—23.4(455B). The emission factors shall be modified to reflect realistic reductions. This would correspond to a consideration of particles in the less than 3 micron size range and the effectiveness of the fugitive dust control method.

f. *Fuel switching credits.* Credit may be allowed for fuel switching provided there is a demonstration by the applicant that supplies of the cleaner fuel will be available to the applicant for a minimum of five years. The demonstration must include, as a minimum, a written contract with the fuel supplier that the fuel will not be interrupted. The permit for the existing source shall be amended to provide for maintaining those offsets resulting from the fuel switching before offset credit will be granted.

g. *Reduction credits.* Credit for an emissions reduction can be claimed to the extent that the Administrator and the department have not: (1) relied on it in issuing any permit under regulations approved pursuant to 40 CFR Parts 51 (amended through April 9, 1998), 55 (amended through August 4, 1997), 63 (amended through December 28, 1998), 70 (amended through November 26, 1997), or 71 (amended through October 22, 1997); (2) relied on it in demonstrating attainment or reasonable further progress; or (3) the reduction is not otherwise required under the Clean Air Act. Incidental emissions reductions which are not otherwise required under the Act shall be creditable as emissions reductions for such purposes if such emissions reductions meet the requirements of subrule 31.20(3).

h. *Derating of equipment.* If the emissions from a major source or major modification are proposed to be offset by reducing the operating capacity of another existing source, then credit may be allowed for this provided proper documentation (such as stack test results) showing the effect on emissions due to derating is submitted. The permit for the existing source must be amended to limit the operating capacity before offsets will be allowed.

i. *Shutdown or curtailment.*

(1) Emissions reductions achieved by shutting down an existing source or curtailing production or operating hours below baseline levels may be generally credited if such reductions are surplus, permanent, quantifiable, and federally enforceable, and if the area has an EPA-approved attainment plan. In addition, the shutdown or curtailment is creditable only if it occurred on or after the date specified for this purpose in the plan, and if such date is on or after the date of the most recent emissions inventory or attainment demonstration. However, in no event may credit be given for shutdowns which occurred prior to January 1, 1978. For purposes of this paragraph, the director may consider a prior shutdown or curtailment to have occurred after the date of its most recent emissions inventory, if the inventory explicitly includes as current existing emissions the emissions from such previously shutdown

or curtailed sources. The work force shall be notified of the proposed curtailment or shutdown by the source owner or operator.

(2) The reductions described in subparagraph 31.20(4)“i”(1) may be credited in the absence of any approved attainment demonstration only if the shutdown or curtailment occurred on or after the date the new source permit application is filed, or, if the applicant can establish that the proposed new source is a replacement for the shutdown or curtailed source, and the cutoff date provisions in 31.20(4)“i”(1) are observed.

*j. External emission offsets.* If the emissions from the major source or major modification are proposed to be offset by reduction of emissions from a source not owned or operated by the owner or operator of the major source or major modification, then credit may be allowed for such reductions provided the external source's permit is amended to require the reduced emissions or a consent order is entered into by the department and the existing source. Consent orders for external offsets must be incorporated into the SIP and be approved by EPA before offset credit may be granted.

**31.20(5) Banking of offsets in nonattainment areas.** If the offsets in a given situation are more than required by 31.20(3), the amount of offsets that is greater than required may be banked for the exclusive use or control of the person achieving the reduction, subject to the limitations of this subrule. If the person achieving the reduction is not an individual, an authorized representative of the person must release control of the banked emissions in writing before another person, other than the commission, can utilize the banked emissions. The banking of offsets creates no property right in those offsets. The commission may proportionally reduce or cancel banked offsets if it is determined that reduction or cancellation is necessary to demonstrate reasonable further progress or to attain the ambient air quality standards. Prior to reduction or cancellation, the commission shall notify the person who banked the offsets.

**31.20(6) Control technology review.**

*a. Lowest achievable emission rate.* A new or modified major source in a nonattainment area shall comply with the lowest achievable emission rate.

*b. For phased construction projects,* the determination of the lowest achievable emissions rate shall be reviewed and modified as appropriate at the latest reasonable time which occurs no later than 18 months prior to the commencement of construction of each independent phase of the project. At such time, the owner or operator of the applicable stationary source may be required to demonstrate the adequacy of any previous determination of the LAER for the source.

*c. State implementation plan, new source performance standards, and emission standards for hazardous air pollutants.* A major stationary source or major modification shall meet each applicable emissions limitation under the state implementation plan and each applicable emissions standard of performance under 40 CFR Parts 60 (amended through November 24, 1998), 61 (amended through October 14, 1997), and 63 (amended through December 28, 1998).

**31.20(7) Compliance of existing sources.** If a new major source or major modification is subject to rule 567—31.20(455B), then all major sources owned or operated by the applicant (or by any entity controlling, controlled by, or under common control by the applicant) in Iowa shall be either in compliance with applicable emission standards or under a compliance schedule approved by the commission.

**31.20(8) Alternate site analysis.** The permit application shall contain a submittal of an alternative site analysis. Such submittal shall include analysis of alternative sites, sizes, production processes and environmental control techniques for the proposed source. The analysis must demonstrate that benefits of the proposed source significantly outweigh the environmental and social costs that would result from its location, construction or modification. Such analysis shall be completed prior to permit issuance.

**31.20(9) Additional conditions for permit approval.**

*a. For the air pollution control requirements applicable to subrule 31.20(6),* the permit shall require the source to monitor, keep records, and provide reports necessary to determine compliance with and deviations from applicable requirements.

*b. The state shall not issue the permit if the Administrator has determined that the applicable implementation plan is not being adequately implemented for the nonattainment area in which the proposed stationary source or modification is to be constructed.*

**31.20(10) *Public availability of information.*** No permit shall be issued until notice and opportunity for public comment are made available in accordance with the procedure described in 40 CFR 51.161 (as amended through November 7, 1986).

CHAPTER 33  
SPECIAL REGULATIONS AND CONSTRUCTION PERMIT REQUIREMENTS  
FOR MAJOR STATIONARY SOURCES—PREVENTION OF SIGNIFICANT  
DETERIORATION (PSD) OF AIR QUALITY

**567—33.1(455B) Purpose.** This chapter implements the major New Source Review (NSR) program contained in Part C of Title I of the federal Clean Air Act as amended on November 15, 1990, and as promulgated under 40 CFR 51.166 and 52.21 as amended through July 20, 2011. This is a preconstruction review and permitting program applicable to new or modified major stationary sources of air pollutants regulated under Part C of the Clean Air Act as amended on November 15, 1990. In areas that do not meet the national ambient air quality standards (NAAQS), the nonattainment major program applies. The requirements for the nonattainment major NSR program are set forth in 567—22.5(455B), 567—22.6(455B), 567—31.20(455), and 567—31.3(455B). In areas that meet the NAAQS, the PSD program applies. Collectively, the nonattainment major and PSD programs are referred to as the major NSR program. An owner or operator required to apply for a construction permit under 567—Chapter 33 shall submit fees as required in 567—Chapter 30.

Rule 567—33.2(455B) is reserved.

Rule 567—33.3(455B) sets forth the definitions, standards and permitting requirements that are specific to the PSD program.

Rules 567—33.4(455B) through 567—33.8(455B) are reserved.

Rule 567—33.9(455B) includes the conditions under which a source subject to PSD may obtain a plantwide applicability limitation (PAL) on emissions. An owner or operator requesting a PAL under 567—33.9(455B) shall submit fees as required in 567—Chapter 30.

In addition to the requirements in this chapter, stationary sources may also be subject to the permitting requirements in 567—Chapter 22, including requirements for Title V operating permits.

[ARC 9906B, IAB 12/14/11, effective 11/16/11; ARC 1227C, IAB 12/11/13, effective 1/15/14; ARC 2352C, IAB 1/6/16, effective 12/16/15]

**567—33.2(455B)** Reserved.

**567—33.3(455B) Special construction permit requirements for major stationary sources in areas designated attainment or unclassified (PSD).**

**33.3(1) Definitions.** Definitions included in this subrule apply to the provisions set forth in this rule (PSD program requirements). For purposes of this rule, the definitions herein shall apply, rather than the definitions contained in 40 CFR 52.21 and 51.166, except for the PAL program definitions referenced in rule 567—33.9(455B). For purposes of this rule, the following terms shall have the meanings indicated in this subrule:

“*Act*” means the Clean Air Act, 42 U.S.C. Sections 7401, et seq., as amended through November 15, 1990.

“*Actual emissions*” means:

1. The actual rate of emissions of a regulated NSR pollutant from an emissions unit, as determined in accordance with paragraphs “2” through “4,” except that this definition shall not apply for calculating whether a significant emissions increase has occurred, or for establishing a PAL under rule 567—33.9(455B). Instead, the requirements specified under the definitions for “projected actual emissions” and “baseline actual emissions” shall apply for those purposes.

2. In general, actual emissions as of a particular date shall equal the average rate, in tons per year, at which the unit actually emitted the pollutant during a consecutive 24-month period which precedes the particular date and which is representative of normal source operation. The department shall allow the use of a different time period upon a determination that it is more representative of normal source operation. Actual emissions shall be calculated using the unit’s actual operating hours, production rates, and types of materials processed, stored, or combusted during the selected time period.

3. The department may presume that source-specific allowable emissions for the unit are equivalent to the actual emissions of the unit.

4. For any emissions unit that has not begun normal operations on the particular date, actual emissions shall equal the potential to emit of the unit on that date.

“*Administrator*” means the administrator for the United States Environmental Protection Agency (EPA) or designee.

“*Allowable emissions*” means the emissions rate of a stationary source calculated using the maximum rated capacity of the source (unless the source is subject to federally enforceable limits or enforceable permit conditions which restrict the operating rate, or hours of operation, or both) and the most stringent of the following:

1. The applicable standards as set forth in 567—subrules 23.1(2) through 23.1(5) (new source performance standards, emissions standards for hazardous air pollutants, and federal emissions guidelines) or an applicable federal standard not adopted by the state, as set forth in 40 CFR Parts 60, 61 and 63;

2. The applicable state implementation plan (SIP) emissions limitation, including those with a future compliance date; or

3. The emissions rate specified as an enforceable permit condition, including those with a future compliance date.

“*Baseline actual emissions,*” for the purposes of this chapter, means the rate of emissions, in tons per year, of a regulated NSR pollutant, as “regulated NSR pollutant” is defined in this subrule, and as determined in accordance with paragraphs “1” through “4.”

1. For any existing electric utility steam generating unit, “baseline actual emissions” means the average rate, in tons per year, at which the unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the five-year period immediately preceding the date on which the owner or operator begins actual construction of the project. The department shall allow the use of a different time period upon a determination that it is more representative of normal source operation.

(a) The average rate shall include fugitive emissions to the extent quantifiable and emissions associated with startups, shutdowns, and malfunctions.

(b) The average rate shall be adjusted downward to exclude any noncompliant emissions that occurred while the source was operating above an emissions limitation that was legally enforceable during the consecutive 24-month period.

(c) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for the emissions units being changed. A different consecutive 24-month period may be used for each regulated NSR pollutant.

(d) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraph “1”(b) of this definition.

2. For an existing emissions unit, other than an electric utility steam generating unit, “baseline actual emissions” means the average rate, in tons per year, at which the emissions unit actually emitted the pollutant during any consecutive 24-month period selected by the owner or operator within the ten-year period immediately preceding either the date on which the owner or operator begins actual construction of the project, or the date on which a complete permit application is received by the department for a permit required either under this chapter or under a SIP approved by the Administrator, whichever is earlier, except that the ten-year period shall not include any period earlier than November 15, 1990.

(a) The average rate shall include fugitive emissions to the extent quantifiable and emissions associated with startups, shutdowns, and malfunctions.

(b) The average rate shall be adjusted downward to exclude any noncompliant emissions that occurred while the source was operating above an emissions limitation that was legally enforceable during the consecutive 24-month period.

(c) The average rate shall be adjusted downward to exclude any emissions that would have exceeded an emissions limitation with which the major stationary source must currently comply, had such major stationary source been required to comply with such limitations during the consecutive

24-month period. However, if an emissions limitation is part of a maximum achievable control technology standard that the Administrator proposed or promulgated under 40 CFR Part 63, the baseline actual emissions need only be adjusted if the state has taken credit for such emissions reductions in an attainment demonstration or maintenance plan consistent with the requirements of 40 CFR 51.165(a)(3)(ii)(G) as amended through November 29, 2005.

(d) For a regulated NSR pollutant, when a project involves multiple emissions units, only one consecutive 24-month period must be used to determine the baseline actual emissions for the emissions units being changed. A different consecutive 24-month period may be used for each regulated NSR pollutant.

(e) The average rate shall not be based on any consecutive 24-month period for which there is inadequate information for determining annual emissions, in tons per year, and for adjusting this amount if required by paragraphs “2”(b) and “2”(c) of this definition.

3. For a new emissions unit, the baseline actual emissions for purposes of determining the emissions increase that will result from the initial construction and operation of such unit shall equal zero; and thereafter, for all other purposes, shall equal the unit’s potential to emit.

4. For a PAL for a stationary source, the baseline actual emissions shall be calculated for existing electric utility steam generating units in accordance with the procedures contained in paragraph “1”; for other existing emissions units in accordance with the procedures contained in paragraph “2”; and for a new emissions unit in accordance with the procedures contained in paragraph “3.”

*“Baseline area”* means:

1. Any intrastate area (and every part thereof) designated as attainment or unclassifiable under Section 107(d)(1)(A)(ii) or (iii) of the Act in which the major source or major modification establishing the minor source baseline date would construct or would have an air quality impact for the pollutant for which the baseline date is established, as follows: equal to or greater than 1  $\mu\text{g}/\text{m}^3$  (annual average) for sulfur dioxide ( $\text{SO}_2$ ), nitrogen dioxide ( $\text{NO}_2$ ) or  $\text{PM}_{10}$ ; or equal to or greater than 0.3  $\mu\text{g}/\text{m}^3$  (annual average) for  $\text{PM}_{2.5}$ .

2. Area redesignations under Section 107(d)(1)(A)(ii) or (iii) of the Act cannot intersect or be smaller than the area of impact of any major stationary source or major modification which establishes a minor source baseline date or is subject to regulations specified in this rule, in 40 CFR 52.21 (PSD requirements), or in department rules approved by EPA under 40 CFR Part 51, Subpart I, and would be constructed in the same state as the state proposing the redesignation.

3. Any baseline area established originally for the total suspended particulate increments shall remain in effect and shall apply for purposes of determining the amount of available  $\text{PM}_{10}$  increments, except that such baseline area shall not remain in effect if the permitting authority rescinds the corresponding minor source baseline date in accordance with the definition of “baseline date” specified in this subrule.

*“Baseline concentration”* means:

1. The ambient concentration level that exists in the baseline area at the time of the applicable minor source baseline date. A baseline concentration is determined for each pollutant for which a minor source baseline date is established and shall include:

(a) The actual emissions representative of sources in existence on the applicable minor source baseline date, except as provided in paragraph “2” of this definition;

(b) The allowable emissions of major stationary sources that commenced construction before the major source baseline date, but were not in operation by the applicable minor source baseline date.

2. The following will not be included in the baseline concentration and will affect the applicable maximum allowable increase(s):

(a) Actual emissions from any major stationary source on which construction commenced after the major source baseline date; and

(b) Actual emissions increases and decreases at any stationary source occurring after the minor source baseline date.

*“Baseline date”* means:

1. Either “major source baseline date” or “minor source baseline date” as follows:

(a) The “major source baseline date” means, in the case of PM<sub>10</sub> and sulfur dioxide, January 6, 1975; in the case of nitrogen dioxide, February 8, 1988; and in the case of PM<sub>2.5</sub>, October 20, 2010.

(b) The “minor source baseline date” means the earliest date after the trigger date on which a major stationary source or a major modification subject to 40 CFR 52.21 as amended through October 20, 2010, or subject to this rule (PSD program requirements), or subject to a department rule approved by EPA under 40 CFR Part 51, Subpart I, submits a complete application under the relevant regulations. The trigger date for PM<sub>10</sub> and sulfur dioxide is August 7, 1977. For nitrogen dioxide, the trigger date is February 8, 1988. For PM<sub>2.5</sub>, the trigger date is October 20, 2011.

2. The “baseline date” is established for each pollutant for which increments or other equivalent measures have been established if:

(a) The area in which the proposed source or modification would construct is designated as attainment or unclassifiable under Section 107(d)(1)(A)(ii) or (iii) of the Act for the pollutant on the date of its complete application under 40 CFR 52.21 as amended through October 20, 2010, or under regulations specified in this rule (PSD program requirements); and

(b) In the case of a major stationary source, the pollutant would be emitted in significant amounts, or in the case of a major modification, there would be a significant net emissions increase of the pollutant.

Any minor source baseline date established originally for the total suspended particulate increments shall remain in effect and shall apply for purposes of determining the amount of available PM<sub>10</sub> increments, except that the reviewing authority may rescind any such minor source baseline date where it can be shown, to the satisfaction of the reviewing authority, that the emissions increase from the major stationary source, or the net emissions increase from the major modification, responsible for triggering that date did not result in a significant amount of PM<sub>10</sub> emissions.

“*Begin actual construction*” means, in general, initiation of physical on-site construction activities on an emissions unit which are of a permanent nature. Such activities include, but are not limited to, installation of building supports and foundations, laying of underground pipework, and construction of permanent storage structures. With respect to a change in method of operation, this term refers to those on-site activities, other than preparatory activities, which mark the initiation of the change.

“*Best available control technology*” or “*BACT*” means an emissions limitation, including a visible emissions standard, based on the maximum degree of reduction for each regulated NSR pollutant which would be emitted from any proposed major stationary source or major modification which the reviewing authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such source or modification through application of production processes or available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combination techniques for control of such pollutant. In no event shall application of best available control technology result in emissions of any pollutant which would exceed the emissions allowed by any applicable standard under 567—subrules 23.1(2) through 23.1(5) (standards for new stationary sources, federal standards for hazardous air pollutants, and federal emissions guidelines), or federal regulations as set forth in 40 CFR Parts 60, 61 and 63 but not yet adopted by the state. If the department determines that technological or economic limitations on the application of measurement methodology to a particular emissions unit would make the imposition of an emissions standard infeasible, a design, equipment, work practice, operational standard or combination thereof may be prescribed instead to satisfy the requirement for the application of best available control technology. Such standard shall, to the degree possible, set forth the emissions reduction achievable by implementation of such design, equipment, work practice or operation and shall provide for compliance by means which achieve equivalent results.

“*Building, structure, facility, or installation*” means all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control) except the activities of any vessel. Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same major group (i.e., which have the same two-digit code) as described in the Standard Industrial Classification Manual, 1972, as amended by the 1977 Supplement (U.S. Government Printing Office stock numbers 4101-0066 and 003-005-00176-0, respectively).

“CFR” means the Code of Federal Regulations, with standard references in this chapter by title and part, so that “40 CFR 51” or “40 CFR Part 51” means “Title 40 Code of Federal Regulations, Part 51.”

“Clean coal technology” means any technology, including technologies applied at the precombustion, combustion, or postcombustion stage, at a new or existing facility which will achieve significant reductions in air emissions of sulfur dioxide or oxides of nitrogen associated with the utilization of coal in the generation of electricity, or process steam which was not in widespread use as of November 15, 1990.

“Clean coal technology demonstration project” means a project using funds appropriated under the heading “Department of Energy—Clean Coal Technology,” up to a total amount of \$2,500,000,000 for commercial demonstration of clean coal technology, or similar projects funded through appropriations for the Environmental Protection Agency. The federal contribution for a qualifying project shall be at least 20 percent of the total cost of the demonstration project.

“Commence,” as applied to construction of a major stationary source or major modification, means that the owner or operator has all necessary preconstruction approvals or permits and either has:

1. Begun, or caused to begin, a continuous program of actual on-site construction of the source, to be completed within a reasonable time; or

2. Entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of actual construction of the source to be completed within a reasonable time.

“Complete” means, in reference to an application for a permit, that the application contains all the information necessary for processing the application. Designating an application complete for purposes of permit processing does not preclude the department from requesting or accepting any additional information.

“Construction” means any physical change or change in the method of operation, including fabrication, erection, installation, demolition, or modification of an emissions unit, that would result in a change in emissions.

“Continuous emissions monitoring system” or “CEMS” means all of the equipment that may be required to meet the data acquisition and availability requirements of this chapter, to sample, to condition (if applicable), to analyze, and to provide a record of emissions on a continuous basis.

“Continuous emissions rate monitoring system” or “CERMS” means the total equipment required for the determination and recording of the pollutant mass emissions rate (in terms of mass per unit of time).

“Continuous parameter monitoring system” or “CPMS” means all of the equipment necessary to meet the data acquisition and availability requirements of this chapter, to monitor the process device operational parameters and the control device operational parameters (e.g., control device secondary voltages and electric currents) and other information (e.g., gas flow rate, O<sub>2</sub> or CO<sub>2</sub> concentrations), and to record the average operational parameter value(s) on a continuous basis.

“Electric utility steam generating unit” means any steam electric generating unit that is constructed for the purpose of supplying more than one-third of its potential electric output capacity and more than 25 MW electrical output to any utility power distribution system for sale. Any steam supplied to a steam distribution system for the purpose of providing steam to a steam-electric generator that would produce electrical energy for sale is also considered in determining the electrical energy output capacity of the affected facility.

“Emissions unit” means any part of a stationary source that emits or would have the potential to emit any regulated NSR pollutant and includes an electric utility steam generating unit. For purposes of this chapter, there are two types of emissions units:

1. A new emissions unit is any emissions unit that is (or will be) newly constructed and that has existed for less than two years from the date such emissions unit first operated.

2. An existing emissions unit is any emissions unit that does not meet the requirements in “1” above. A replacement unit is an existing emissions unit.

“Enforceable permit condition,” for the purpose of this chapter, means any of the following limitations and conditions: requirements developed pursuant to new source performance standards,

prevention of significant deterioration standards, emissions standards for hazardous air pollutants, requirements within the SIP, and any permit requirements established pursuant to this chapter, any permit requirements established pursuant to 40 CFR 52.21 or Part 51, Subpart I, as amended through October 20, 2010, or under construction or Title V operating permit rules.

*"Federal land manager"* means, with respect to any lands in the United States, the secretary of the department with authority over such lands.

*"Federally enforceable"* means all limitations and conditions which are enforceable by the Administrator and the department, including those federal requirements not yet adopted by the state, developed pursuant to 40 CFR Parts 60, 61 and 63; requirements within 567—subrules 23.1(2) through 23.1(5); requirements within the SIP; any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR Part 51, Subpart I, as amended through October 20, 2010, including operating permits issued under an EPA-approved program, that are incorporated into the SIP and expressly require adherence to any permit issued under such program.

*"Fugitive emissions"* means those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

*"High terrain"* means any area having an elevation 900 feet or more above the base of the stack of a source.

*"Indian governing body"* means the governing body of any tribe, band, or group of Indians subject to the jurisdiction of the United States and recognized by the United States as possessing power of self-government.

*"Indian reservation"* means any federally recognized reservation established by treaty, agreement, executive order, or Act of Congress.

*"Innovative control technology"* means any system of air pollution control that has not been adequately demonstrated in practice, but would have a substantial likelihood of achieving greater continuous emissions reduction than any control system in current practice or of achieving at least comparable reductions at lower cost in terms of energy, economics, or non-air quality environmental impacts.

*"Lowest achievable emissions rate"* or *"LAER"* means, for any source, the more stringent rate of emissions based on the following:

1. The most stringent emissions limitation which is contained in the SIP for such class or category of stationary source, unless the owner or operator of the proposed stationary source demonstrates that such limitations are not achievable; or

2. The most stringent emissions limitation which is achieved in practice by such class or category of stationary sources. This limitation, when applied to a modification, means the lowest achievable emissions rate for the new or modified emissions units within a stationary source. In no event shall the application of the term permit a proposed new or modified stationary source to emit any pollutant in excess of the amount allowable under an applicable new source standard of performance.

*"Low terrain"* means any area other than high terrain.

*"Major modification"* means any physical change in or change in the method of operation of a major stationary source that would result in a significant emissions increase of a regulated NSR pollutant and a significant net emissions increase of that pollutant from the major stationary source.

1. Any significant emissions increase from any emissions units or net emissions increase at a major stationary source that is significant for volatile organic compounds or NO<sub>x</sub> shall be considered significant for ozone.

2. A physical change or change in the method of operation shall not include:

- (a) Routine maintenance, repair and replacement
- (b) Use of an alternative fuel or raw material by reason of any order under Section 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 or by reason of a natural gas curtailment plan pursuant to the Federal Power Act;
- (c) Use of an alternative fuel by reason of an order or rule under Section 125 of the Act;
- (d) Use of an alternative fuel at a steam generating unit to the extent that the fuel is generated from municipal solid waste;

(e) Use of an alternative fuel or raw material by a stationary source that the source was capable of accommodating before January 6, 1975, unless such change would be prohibited under any federally enforceable permit condition, or that the source is approved to use under any federally enforceable permit condition;

(f) An increase in the hours of operation or in the production rate, unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975;

(g) Any change in ownership at a stationary source;

(h) Reserved.

(i) The installation, operation, cessation, or removal of a temporary clean coal technology demonstration project, provided that the project complies with the requirements within the SIP; and other requirements necessary to attain and maintain the national ambient air quality standards during the project and after the project is terminated;

(j) The installation or operation of a permanent clean coal technology demonstration project that constitutes repowering, provided that the project does not result in an increase in the potential to emit of any regulated pollutant emitted by the unit. This exemption shall apply on a pollutant-by-pollutant basis;

(k) The reactivation of a very clean coal-fired electric utility steam generating unit.

3. This definition shall not apply with respect to a particular regulated NSR pollutant when the major stationary source is complying with the requirements under rule 567—33.9(455B) for a PAL for that pollutant. Instead, the definition under rule 567—33.9(455B) shall apply.

*“Major source baseline date”* is defined under the definition of “baseline date.”

*“Major stationary source”* means:

(1) (a) Any one of the following stationary sources of air pollutants which emits, or has the potential to emit, 100 tons per year or more of any regulated NSR pollutant:

- Fossil fuel-fired steam electric plants of more than 250 million British thermal units per hour heat input;

- Coal cleaning plants (with thermal dryers);
- Kraft pulp mills;
- Portland cement plants;
- Primary zinc smelters;
- Iron and steel mill plants;
- Primary aluminum ore reduction plants;
- Primary copper smelters;
- Municipal incinerators capable of charging more than 250 tons of refuse per day;
- Hydrofluoric, sulfuric, and nitric acid plants;
- Petroleum refineries;
- Lime plants;
- Phosphate rock processing plants;
- Coke oven batteries;
- Sulfur recovery plants;
- Carbon black plants (furnace process);
- Primary lead smelters;
- Fuel conversion plants;
- Sintering plants;
- Secondary metal production plants;
- Chemical process plants (which does not include ethanol production facilities that produce ethanol by natural fermentation included in NAICS code 325193 or 312140);

- Fossil-fuel boilers (or combinations thereof) totaling more than 250 million British thermal units per hour heat input;

- Petroleum storage and transfer units with a total storage capacity exceeding 300,000 barrels;
- Taconite ore processing plants;
- Glass fiber processing plants; and
- Charcoal production plants.

(b) Notwithstanding the stationary source size specified in paragraph “1”(a), any stationary source which emits, or has the potential to emit, 250 tons per year or more of a regulated NSR pollutant; or

(c) Any physical change that would occur at a stationary source not otherwise qualifying under this definition as a major stationary source if the change would constitute a major stationary source by itself.

(2) A major source that is major for volatile organic compounds or NO<sub>x</sub> shall be considered major for ozone.

(3) The fugitive emissions of a stationary source shall not be included in determining for any of the purposes of this rule whether it is a major stationary source, unless the source belongs to one of the categories of stationary sources listed in paragraph “1”(a) of this definition or to any other stationary source category which, as of August 7, 1980, is being regulated under Section 111 or 112 of the Act.

“*Minor source baseline date*” is defined under the definition of “baseline date.”

“*Necessary preconstruction approvals or permits*” means those permits or approvals required under federal air quality control laws and regulations and those air quality control laws and regulations which are part of the SIP.

“*Net emissions increase*” means, with respect to any regulated NSR pollutant emitted by a major stationary source, the amount by which the following exceeds zero:

- The increase in emissions from a particular physical change or change in the method of operation at a stationary source as calculated according to the applicability requirements under subrule 33.3(2); and

- Any other increases and decreases in actual emissions at the major stationary source that are contemporaneous with the particular change and are otherwise creditable. Baseline actual emissions for calculating increases and decreases under this definition of “net emissions increase” shall be determined as provided for under the definition of “baseline actual emissions,” except that paragraphs “1”(c) and “2”(d) of the definition of “baseline actual emissions,” which describe provisions for multiple emissions units, shall not apply.

1. An increase or decrease in actual emissions is contemporaneous with the increase from the particular change only if the increase or decrease in actual emissions occurs between the date five years before construction on the particular change commences and the date that the increase from the particular change occurs.

2. An increase or decrease in actual emissions is creditable only if:

- (a) The increase or decrease in actual emissions occurs within the contemporaneous time period, as noted in paragraph “1” of this definition; and

- (b) The department has not relied on the increase or decrease in actual emissions in issuing a permit for the source under this rule, which permit is in effect when the increase in actual emissions from the particular change occurs.

3. An increase or decrease in actual emissions of sulfur dioxide, particulate matter, or nitrogen oxides that occurs before the applicable minor source baseline date is creditable only if the increase or decrease in actual emissions is required to be considered in calculating the amount of maximum allowable increases remaining available.

4. An increase in actual emissions is creditable only to the extent that the new level of actual emissions exceeds the old level.

5. A decrease in actual emissions is creditable only to the extent that:

- (a) The old level of actual emissions or the old level of allowable emissions, whichever is lower, exceeds the new level of actual emissions;

- (b) The decrease in actual emissions is enforceable as a practical matter at and after the time that actual construction on the particular change begins; and

- (c) The decrease in actual emissions has approximately the same qualitative significance for public health and welfare as that attributed to the increase from the particular change.

6. An increase that results from a physical change at a source occurs when the emissions unit on which construction occurred becomes operational and begins to emit a particular pollutant. Any replacement unit that requires shakedown becomes operational only after a reasonable shakedown period, not to exceed 180 days.

7. The definition of “actual emissions,” paragraph “2,” shall not apply for determining creditable increases and decreases.

“*Nonattainment area*” means an area so designated by the Administrator, acting pursuant to Section 107 of the Act.

“*Permitting authority*” means the Iowa department of natural resources or the director thereof.

“*Pollution prevention*” means any activity that, through process changes, product reformulation or redesign, or substitution of less polluting raw materials, eliminates or reduces the release of air pollutants (including fugitive emissions) and other pollutants to the environment prior to recycling, treatment, or disposal. “Pollution prevention” does not mean recycling (other than certain “in-process recycling” practices), energy recovery, treatment, or disposal.

“*Potential to emit*” means the maximum capacity of a stationary source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored, or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is federally enforceable. Secondary emissions do not count in determining the potential to emit of a stationary source.

“*Predictive emissions monitoring system*” or “*PEMS*” means all of the equipment necessary to monitor the process device operational parameters and the control device operational parameters (e.g., control device secondary voltages and electric currents) and other information (e.g., gas flow rate, O<sub>2</sub> or CO<sub>2</sub> concentrations), and calculate and record the mass emissions rate (e.g., lb/hr) on a continuous basis.

“*Prevention of significant deterioration (PSD) program*” means a major source preconstruction permit program that has been approved by the Administrator and incorporated into the SIP or means the program in 40 CFR 52.21. Any permit issued under such a program is a major NSR permit.

“*Project*” means a physical change in, or change in method of operation of, an existing major stationary source.

“*Projected actual emissions,*” for the purposes of this chapter, means the maximum annual rate, in tons per year, at which an existing emissions unit is projected to emit a regulated NSR pollutant in any one of the five years (12-month period) beginning on the first day of the month following the date when the unit resumes regular operation after the project, or in any one of the ten years following that date, if the project involves increasing the emissions unit’s design capacity or its potential to emit that regulated NSR pollutant, and full utilization of the unit would result in a significant emissions increase, or a significant net emissions increase at the major stationary source. For purposes of this definition, “regular” shall be determined by the department on a case-by-case basis.

In determining the projected actual emissions before beginning actual construction, the owner or operator of the major stationary source:

1. Shall consider all relevant information including, but not limited to, historical operational data, the company’s own representations, the company’s expected business activity and the company’s highest projections of business activity, the company’s filings with the state or federal regulatory authorities, and compliance plans under the approved plan; and

2. Shall include fugitive emissions to the extent quantifiable and emissions associated with startups, shutdowns, and malfunctions; and

3. Shall exclude, in calculating any increase in emissions that results from the particular project, that portion of the unit’s emissions following the project that an existing unit could have accommodated during the consecutive 24-month period used to establish the baseline actual emissions and that are also unrelated to the particular project, including any increased utilization due to product demand growth; and

4. In lieu of using the method set out in paragraphs “1” through “3,” may elect to use the emissions unit’s potential to emit, in tons per year.

“*Reactivation of a very clean coal-fired electric utility steam generating unit*” means any physical change or change in the method of operation associated with the commencement of commercial operations by a coal-fired utility unit after a period of discontinued operation in which the unit:

1. Has not been in operation for the two-year period prior to the enactment of the Act, and the emissions from such unit continue to be carried in the permitting authority's emissions inventory at the time of the enactment;

2. Was equipped prior to shutdown with a continuous system of emissions control that achieves a removal efficiency for sulfur dioxide of no less than 85 percent and a removal efficiency for particulates of no less than 98 percent;

3. Is equipped with low-NO<sub>x</sub> burners prior to the time of commencement of operations following reactivation; and

4. Is otherwise in compliance with the requirements of the Act.

*"Regulated NSR pollutant"* means the following:

1. Any pollutant for which a national ambient air quality standard has been promulgated and any constituents or precursors for such pollutants identified by the Administrator:

(a) Volatile organic compounds and nitrogen oxides are precursors to ozone in all attainment and unclassifiable areas;

(b) Sulfur dioxide is a precursor to PM<sub>2.5</sub> in all attainment and unclassifiable areas;

(c) Nitrogen oxides are presumed to be precursors to PM<sub>2.5</sub> in all attainment and unclassifiable areas, unless the department demonstrates to EPA's satisfaction or EPA demonstrates that emissions of nitrogen oxides from sources in a specific area are not a significant contributor to the area's ambient PM<sub>2.5</sub> concentrations;

(d) Volatile organic compounds are presumed not to be precursors to PM<sub>2.5</sub> in any attainment and unclassifiable areas, unless the department demonstrates to EPA's satisfaction or EPA demonstrates that emissions of volatile organic compounds from sources in a specific area are a significant contributor to that area's ambient PM<sub>2.5</sub> concentrations;

2. Any pollutant that is subject to any standard promulgated under Section 111 of the Act;

3. Any Class I or Class II substance subject to a standard promulgated under or established by Title VI of the Act; or

4. Any pollutant that otherwise is subject to regulation under the Act as defined in 33.3(1), definition of "subject to regulation."

5. Notwithstanding paragraphs "1" through "4," the definition of "regulated NSR pollutant" shall not include any or all hazardous air pollutants that are either listed in Section 112 of the Act or added to the list pursuant to Section 112(b)(2) of the Act and that have not been delisted pursuant to Section 112(b)(3) of the Act, unless the listed hazardous air pollutant is also regulated as a constituent or precursor of a general pollutant listed under Section 108 of the Act.

6. Particulate matter (PM) emissions, PM<sub>2.5</sub> emissions and PM<sub>10</sub> emissions shall include gaseous emissions from a source or activity which condense to form particulate matter at ambient temperatures.

*"Replacement unit"* means an emissions unit for which all the criteria listed in paragraphs "1" through "4" of this definition are met. No creditable emissions reductions shall be generated from shutting down the existing emissions unit that is replaced.

1. The emissions unit is a reconstructed unit within the meaning of 40 CFR 60.15(b)(1) as amended through December 16, 1975, or the emissions unit completely takes the place of an existing emissions unit.

2. The emissions unit is identical to or functionally equivalent to the replaced emissions unit.

3. The replacement does not change the basic design parameter(s) of the process unit.

4. The replaced emissions unit is permanently removed from the major stationary source, otherwise permanently disabled, or permanently barred from operation by a permit that is enforceable as a practical matter. If the replaced emissions unit is brought back into operation, it shall constitute a new emissions unit.

*"Repowering"* means:

1. Replacement of an existing coal-fired boiler with one of the following clean coal technologies: atmospheric or pressurized fluidized bed combustion; integrated gasification combined cycle; magnetohydrodynamics; direct and indirect coal-fired turbines; integrated gasification fuel cells; or, as determined by the Administrator in consultation with the Secretary of Energy, a derivative of one

or more of these technologies; and any other technology capable of controlling multiple combustion emissions simultaneously with improved boiler or generation efficiency and with significantly greater waste reduction relative to the performance of technology in widespread commercial use as of November 15, 1990.

2. Repowering shall also include any oil or gas-fired unit which has been awarded clean coal technology demonstration funding as of January 1, 1991, by the Department of Energy.

3. The department shall give expedited consideration to permit applications for any source that satisfies the requirements of this definition and is granted an extension under Section 409 of the Act.

“*Reviewing authority*” means the department, or the Administrator in the case of EPA-implemented permit programs under 40 CFR 52.21.

“*Secondary emissions*” means emissions which occur as a result of the construction or operation of a major stationary source or major modification, but do not come from the major stationary source or major modification itself. For the purposes of this chapter, “secondary emissions” must be specific, well-defined, and quantifiable, and must impact the same general areas as the stationary source modification which causes the secondary emissions. “Secondary emissions” includes emissions from any offsite support facility which would not be constructed or increase its emissions except as a result of the construction or operation of the major stationary source or major modification. “Secondary emissions” does not include any emissions which come directly from a mobile source, such as emissions from the tailpipe of a motor vehicle, from a train, or from a vessel.

“*Significant*” means:

1. In reference to a net emissions increase or the potential of a source to emit any of the following pollutants, a rate of emissions that would equal or exceed any of the following rates:

Pollutant and Emissions Rate

- Carbon monoxide: 100 tons per year (tpy)
- Nitrogen oxides: 40 tpy
- Sulfur dioxide: 40 tpy
- Particulate matter: 25 tpy of particulate matter emissions
- PM<sub>10</sub>: 15 tpy
- PM<sub>2.5</sub>: 10 tpy of direct PM<sub>2.5</sub> emissions; 40 tpy of sulfur dioxide emissions; 40 tpy of nitrogen oxide emissions (unless the department demonstrates to EPA’s satisfaction that emissions of nitrogen oxides from sources in a specific area are not a significant contributor to the area’s ambient PM<sub>2.5</sub> concentrations)
  - Ozone: 40 tpy of volatile organic compounds or NO<sub>x</sub>
  - Lead: 0.6 tpy
  - Fluorides: 3 tpy
  - Sulfuric acid mist: 7 tpy
  - Hydrogen sulfide (H<sub>2</sub>S): 10 tpy
  - Total reduced sulfur (including H<sub>2</sub>S): 10 tpy
  - Reduced sulfur compounds (including H<sub>2</sub>S): 10 tpy
  - Municipal waste combustor organics (measured as total tetra- through octa-chlorinated dibenzo-p-dioxins and dibenzofurans):  $3.2 \times 10^{-6}$  megagrams per year ( $3.5 \times 10^{-6}$  tons per year)
  - Municipal waste combustor metals (measured as particulate matter): 14 megagrams per year (15 tons per year)
  - Municipal waste combustor acid gases (measured as sulfur dioxide and hydrogen chloride): 36 megagrams per year (40 tons per year)
  - Municipal solid waste landfill emissions (measured as nonmethane organic compounds): 45 megagrams per year (50 tons per year)

2. “Significant” means, for purposes of this rule and in reference to a net emissions increase or the potential of a source to emit a regulated NSR pollutant not listed in paragraph “1,” any emissions rate.

3. Notwithstanding paragraph “1,” “significant,” for purposes of this rule, means any emissions rate or any net emissions increase associated with a major stationary source or major modification, which

would construct within ten kilometers of a Class I area and have an impact on such area equal to or greater than 1  $\mu\text{g}/\text{m}^3$  (24-hour average).

“*Significant emissions increase*” means, for a regulated NSR pollutant, an increase in emissions that is significant for that pollutant.

“*State implementation plan*” or “*SIP*” means the plan adopted by the state of Iowa and approved by the Administrator which provides for implementation, maintenance, and enforcement of such primary and secondary ambient air quality standards as they are adopted by the Administrator, pursuant to the Act.

“*Stationary source*” means any building, structure, facility, or installation which emits or may emit a regulated NSR pollutant.

“*Subject to regulation*” means, for any air pollutant, that the pollutant is subject to either a provision in the Clean Air Act, or a nationally applicable regulation codified by the Administrator in 40 CFR Subchapter C (Air Programs) that requires actual control of the quantity of emissions of that pollutant, and that such a control requirement has taken effect and is operative to control, limit or restrict the quantity of emissions of that pollutant released from the regulated activity, except that:

1. Greenhouse gases (GHGs), the air pollutant defined in 40 CFR §86.1818-12(a) (as amended through September 15, 2011) as the aggregate group of six greenhouse gases that includes carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride, shall not be subject to regulation except as provided in paragraphs “4” and “5,” and shall not be subject to regulation if the stationary source maintains its total sourcewide emissions below the GHG PAL level, meets the requirements in rule 567—33.9(455B), and complies with the PAL permit containing the GHG PAL.

2. For purposes of paragraphs “3,” “4,” and “5,” the term “tpy CO<sub>2</sub> equivalent emissions (CO<sub>2</sub>e)” shall represent an amount of GHGs emitted and shall be computed as follows:

(a) Multiply the mass amount of emissions (tpy) for each of the six greenhouse gases in the pollutant GHGs by the associated global warming potential of the gas published at 40 CFR Part 98, Subpart A, Table A-1, “Global Warming Potentials,” (as amended on October 30, 2009). For purposes of this definition, prior to July 21, 2014, the mass of the greenhouse gas carbon dioxide shall not include carbon dioxide emissions resulting from the combustion or decomposition of non-fossilized and biodegradable organic material originating from plants, animals, or micro-organisms (including products, by-products, residues and waste from agriculture, forestry and related industries as well as the non-fossilized and biodegradable organic fractions of industrial and municipal wastes, including gases and liquids recovered from the decomposition of non-fossilized and biodegradable organic material).

(b) Sum the resultant value from paragraph (a) for each gas to compute a tpy CO<sub>2</sub>e.

3. The term “emissions increase,” as used in this paragraph and in paragraphs “4” and “5,” shall mean that both a significant emissions increase (as calculated using the procedures specified in 33.3(2) “c” through 33.3(2) “h”) and a significant net emissions increase (as specified in 33.3(1), in the definitions of “net emissions increase” and “significant”) occur. For the pollutant GHGs, an emissions increase shall be based on tpy CO<sub>2</sub>e and shall be calculated assuming the pollutant GHGs are a regulated NSR pollutant, and “significant” is defined as 75,000 tpy CO<sub>2</sub>e rather than calculated by applying the value specified in 33.3(1), in paragraph “2” of the definition of “significant.”

4. Beginning January 2, 2011, the pollutant GHGs are subject to regulation if:

(a) The stationary source is a new major stationary source for a regulated NSR pollutant that is not a GHG, and also will emit or will have the potential to emit 75,000 tpy CO<sub>2</sub>e or more, or

(b) The stationary source is an existing major stationary source for a regulated NSR pollutant that is not a GHG, and also will have an emissions increase of a regulated NSR pollutant and an emissions increase of 75,000 tpy CO<sub>2</sub>e or more; and

5. Beginning July 1, 2011, in addition to the provisions in paragraph “4,” the pollutant GHGs shall also be subject to regulation:

(a) At a new stationary source that will emit or have the potential to emit 100,000 tpy CO<sub>2</sub>e, or

(b) At an existing stationary source that emits or has the potential to emit 100,000 tpy CO<sub>2</sub>e, when such stationary source undertakes a physical change or change in the method of operation that will result in an emissions increase of 75,000 tpy CO<sub>2</sub>e or more.

*“Temporary clean coal technology demonstration project”* means a clean coal technology demonstration project that is operated for a period of five years or less and that complies with the SIP and other requirements necessary to attain and maintain the national ambient air quality standards during the project and after the project is terminated.

*“Title V permit”* means an operating permit under Title V of the Act.

*“Volatile organic compounds”* or *“VOC”* means any compound included in the definition of “volatile organic compounds” found at 40 CFR 51.100(s) as amended through March 27, 2014.

**33.3(2) Applicability.** The requirements of this rule (PSD program requirements) apply to the construction of any new “major stationary source” as defined in subrule 33.3(1) or any project at an existing major stationary source in an area designated as attainment or unclassifiable under Section 107(d)(1)(A)(ii) or (iii) of the Act. In addition to the provisions set forth in rules 567—33.3(455B) through 567—33.9(455B), the provisions of 40 CFR Part 51, Appendix W (Guideline on Air Quality Models) as amended through November 9, 2005, are adopted by reference.

a. The requirements of subrules 33.3(10) through 33.3(18) apply to the construction of any new major stationary source or the major modification of any existing major stationary source, except as this rule (PSD program requirements) otherwise provides.

b. No new major stationary source or major modification to which the requirements of subrule 33.3(10) through paragraph 33.3(18) “e” apply shall begin actual construction without a permit that states that the major stationary source or major modification will meet those requirements.

c. Except as otherwise provided in paragraphs 33.3(2) “i” and “j,” and consistent with the definition of “major modification” contained in subrule 33.3(1), a project is a major modification for a “regulated NSR pollutant” if it causes two types of emissions increases: a “significant emissions increase”; and a “net emissions increase” which is “significant.” The project is not a major modification if it does not cause a significant emissions increase. If the project causes a significant emissions increase, then the project is a major modification only if it also results in a significant net emissions increase.

d. The procedure for calculating (before beginning actual construction) whether a significant emissions increase (i.e., the first step of the process) will occur depends upon the type of emissions units being modified, according to paragraphs “e” through “h” of this subrule. The procedure for calculating (before beginning actual construction) whether a significant net emissions increase will occur at the major stationary source (i.e., the second step of the process) is contained in the definition of “net emissions increase.” Regardless of any such preconstruction projections, a major modification results if the project causes a significant emissions increase and a significant net emissions increase.

e. Actual-to-projected-actual applicability test for projects that only involve existing emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the “projected actual emissions” and the “baseline actual emissions” for each existing emissions unit equals or exceeds the significant amount for that pollutant.

f. Actual-to-potential test for projects that involve only construction of a new emissions unit(s). A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the difference between the “potential to emit” from each new emissions unit following completion of the project and the “baseline actual emissions” for a new emissions unit before the project equals or exceeds the significant amount for that pollutant.

g. Reserved.

h. Hybrid test for projects that involve multiple types of emissions units. A significant emissions increase of a regulated NSR pollutant is projected to occur if the sum of the emissions increases for each emissions unit, using the method specified in paragraphs “e” through “g” of this subrule, as applicable with respect to each emissions unit, for each type of emissions unit equals or exceeds the significant amount for that pollutant.

i. For any major stationary source with a PAL for a regulated NSR pollutant, the major stationary source shall comply with rule requirements under 567—33.9(455B).

*j.* Reserved.

**33.3(3) *Ambient air increments.*** The provisions for ambient air increments as specified in 40 CFR 52.21(c) as amended through October 20, 2010, are adopted by reference.

**33.3(4) *Ambient air ceilings.*** The provisions for ambient air ceilings as specified in 40 CFR 52.21(d) as amended through November 29, 2005, are adopted by reference.

**33.3(5) *Restrictions on area classifications.*** The provisions for restrictions on area classifications as specified in 40 CFR 52.21(e) as amended through November 29, 2005, are adopted by reference.

**33.3(6) *Exclusions from increment consumption.*** The provisions by which the SIP may provide for exclusions from increment consumption as specified in 40 CFR 51.166(f) as amended through November 29, 2005, are adopted by reference. The following phrases contained in 40 CFR 51.166(f) are not adopted by reference: “the plan may provide that,” “the plan provides that,” and “it shall also provide that.” Additionally, the term “the plan” shall mean “SIP.”

**33.3(7) *Redesignation.*** The provisions for redesignation as specified in 40 CFR 52.21(g) as amended through November 29, 2005, are adopted by reference.

**33.3(8) *Stack heights.*** The provisions for stack heights as specified in 40 CFR 52.21(h) as amended through November 29, 2005, are adopted by reference.

**33.3(9) *Exemptions.*** The provisions for allowing exemptions from certain requirements for PSD-subject sources as specified in 40 CFR 52.21(i) as amended through October 20, 2010, are adopted by reference.

**33.3(10) *Control technology review.*** The provisions for control technology review as specified in 40 CFR 52.21(j) as amended through November 29, 2005, are adopted by reference.

**33.3(11) *Source impact analysis.*** The provisions for a source impact analysis as specified in 40 CFR 52.21(k) as amended through October 20, 2010, are adopted by reference.

**33.3(12) *Air quality models.*** The provisions for air quality models as specified in 40 CFR 52.21(l) as amended through November 29, 2005, are adopted by reference.

**33.3(13) *Air quality analysis.*** The provisions for an air quality analysis as specified in 40 CFR 52.21(m) as amended through November 29, 2005, are adopted by reference.

**33.3(14) *Source information.*** The provisions for providing source information as specified in 40 CFR 52.21(n) as amended through November 29, 2005, are adopted by reference.

**33.3(15) *Additional impact analyses.*** The provisions for an additional impact analysis as specified in 40 CFR 52.21(o) as amended through November 29, 2005, are adopted by reference.

**33.3(16) *Sources impacting federal Class I areas—additional requirements.*** The provisions for sources impacting federal Class I areas as specified in 40 CFR 51.166(p) as amended through October 20, 2010, are adopted by reference. The following phrases contained in 40 CFR 51.166(p) are not adopted by reference: “the plan may provide that,” “the plan shall provide that,” “the plan shall provide” and “mechanism whereby.”

**33.3(17) *Public participation.***

*a.* The department shall notify all applicants within 30 days as to the completeness of the application or any deficiency in the application or information submitted. In the event of such a deficiency, the date of receipt of the application shall be the date on which the department received all required information.

*b.* Within one year after receipt of a complete application, the department shall:

(1) Make a preliminary determination whether construction should be approved, approved with conditions, or disapproved.

(2) Make available in at least one location in each region in which the proposed source would be constructed a copy of all materials the applicant submitted, a copy of the preliminary determination, and a copy or summary of other materials, if any, considered in making the preliminary determination.

(3) Notify the public, by advertisement in a newspaper of general circulation in each region in which the proposed source would be constructed, of the application, of the preliminary determination, of the degree of increment consumption that is expected from the source or modification, and of the opportunity for comment at a public hearing as well as written public comment. At least 30 days shall be provided for public comment and for notification of any public hearing.

(4) Send a copy of the notice of public comment to the applicant, to the Administrator and to officials and agencies having cognizance over the location where the proposed construction would occur as follows: any other state or local air pollution control agencies; the chief executives of the city and county where the source would be located; any comprehensive regional land use planning agency; and any state, federal land manager, or Indian governing body whose lands may be affected by emissions from the source or modification.

(5) Provide opportunity for a public hearing for interested persons to appear and submit written or oral comments on the air quality impact of the source, alternatives to the proposed source or modification, the control technology required, and other appropriate considerations. At least 30 days' notice shall be provided for any public hearing.

(6) Consider all written comments submitted within a time specified in the notice of public comment and all comments received at any public hearing(s) in making a final decision on the approvability of the application. The department shall make all comments available for public inspection at the same locations where the department made available preconstruction information relating to the proposed source or modification.

(7) Make a final determination whether construction should be approved, approved with conditions, or disapproved.

(8) Notify the applicant in writing of the final determination and make such notification available for public inspection at the same locations where the department made available preconstruction information and public comments relating to the proposed source or modification.

*c. Reopening of the public comment period.*

(1) If comments submitted during the public comment period raise substantial new issues concerning the permit, the department may, at its discretion, take one or more of the following actions:

1. Prepare a new draft permit, appropriately modified;
2. Prepare a revised fact sheet;
3. Prepare a revised fact sheet and reopen the public comment period; or
4. Reopen or extend the public comment period to provide interested persons an opportunity to comment on the comments submitted.

(2) The public notice provided by the department pursuant to this rule shall define the scope of the reopening. Department review of any comments filed during a reopened comment period shall be limited to comments pertaining to the substantial new issues causing the reopening.

**33.3(18) Source obligation.**

*a.* Approval to construct shall not relieve any owner or operator of the responsibility to comply fully with applicable provisions of the plan and any other requirements under local, state or federal law.

*b.* At such time that a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation which was established after August 7, 1980, on the capacity of the source or modification otherwise to emit a pollutant, such as a restriction on hours of operation, the requirements of subrules 33.3(10) through 33.3(19) shall apply to the source or modification as though construction had not yet commenced on the source or modification.

*c.* Any owner or operator who constructs or operates a source or modification not in accordance with the application pursuant to the provisions in rule 567—33.3(455B) or with the terms of any approval to construct, or any owner or operator of a source or modification subject to the provisions in rule 567—33.3(455B) who commences construction after April 15, 1987 (the effective date of Iowa's PSD program), without applying for and receiving department approval, shall be subject to appropriate enforcement action.

*d.* Approval to construct shall become invalid if construction is not commenced within 18 months after receipt of such approval, if construction is discontinued for a period of 18 months or more, or if construction is not completed within a reasonable time. The department may extend the 18-month period upon a satisfactory showing that an extension is justified. These provisions do not apply to the time between construction of the approved phases of a phased construction project; each phase must commence construction within 18 months of the projected and approved commencement date.

*e.* Reserved.

*f.* Except as otherwise provided in subparagraph (8), the following specific provisions shall apply with respect to any regulated NSR pollutant emitted from projects at existing emissions units at a major stationary source, other than projects at a source with a PAL, in circumstances where there is a “reasonable possibility,” within the meaning of subparagraph (8), that a project that is not part of a major modification may result in a significant emissions increase of such pollutant, and the owner or operator elects to use the method for calculating projected actual emissions as specified in subrule 33.3(1), paragraphs “1” through “3” of the definition of “projected actual emissions.”

(1) Before beginning actual construction of the project, the owner or operator shall document and maintain a record of the following information:

1. A description of the project;
2. Identification of the emissions unit(s) whose emissions of a regulated NSR pollutant could be affected by the project; and
3. A description of the applicability test used to determine that the project is not a major modification for any regulated NSR pollutant, including the baseline actual emissions, the projected actual emissions, the amount of emissions excluded under paragraph “3” of the definition of “projected actual emissions” in subrule 33.3(1), an explanation describing why such amount was excluded, and any netting calculations, if applicable.

(2) No less than 30 days before beginning actual construction, the owner or operator shall meet with the department to discuss the owner’s or operator’s determination of projected actual emissions for the project and shall provide to the department a copy of the information specified in paragraph “*f.*” The owner or operator is not required to obtain a determination from the department regarding the project’s projected actual emissions prior to beginning actual construction.

(3) If the emissions unit is an existing electric utility steam generating unit, before beginning actual construction, the owner or operator shall provide a copy of the information set out in subparagraph (1) to the department. The requirements in subparagraphs (1), (2) and (3) shall not be construed to require the owner or operator of such a unit to obtain any determination from the department before beginning actual construction.

(4) The owner or operator shall:

1. Monitor the emissions of any regulated NSR pollutant that could increase as a result of the project and that is emitted by any emissions unit identified in subparagraph (1);

2. Calculate the annual emissions, in tons per year on a calendar-year basis, for a period of five years following resumption of regular operations and maintain a record of regular operations after the change, or for a period of ten years following resumption of regular operations after the change if the project increases the design capacity or potential to emit of that regulated NSR pollutant at such emissions unit (for purposes of this requirement, “regular” shall be determined by the department on a case-by-case basis); and

3. Maintain a written record containing the information required in this subparagraph.

(5) The written record containing the information required in subparagraph (4) shall be retained by the owner or operator for a period of ten years after the project is completed.

(6) If the unit is an existing electric utility steam generating unit, the owner or operator shall submit a report to the department within 60 days after the end of each year during which records must be generated under subparagraph (4) setting out the unit’s annual emissions during the calendar year that preceded submission of the report.

(7) If the unit is an existing unit other than an electric utility steam generating unit, the owner or operator shall submit a report to the department if the annual emissions, in tons per year, from the project identified in subparagraph (1), exceed the baseline actual emissions, as documented and maintained pursuant to subparagraph (4), by an amount that is “significant” as defined in subrule 33.3(1) for that regulated NSR pollutant, and if such emissions differ from the preconstruction projection as documented and maintained pursuant to subparagraph (4). Such report shall be submitted to the department within 60 days after the end of such year. The report shall contain the following:

1. The name, address and telephone number of the major stationary source;
2. The annual emissions as calculated pursuant to subparagraph (4); and

3. Any other information that the owner or operator wishes to include in the report (e.g., an explanation as to why the emissions differ from the preconstruction projection).

(8) A “reasonable possibility” under this paragraph (paragraph 33.3(18) “f”) occurs when the owner or operator calculates the project to result in either:

1. A projected actual emissions increase of at least 50 percent of the amount that is a “significant emissions increase,” as defined under subrule 33.3(1) (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant; or

2. A projected actual emissions increase that, when added to the amount of emissions excluded under subrule 33.3(1), paragraph “3” of the definition of “projected actual emissions,” equals at least 50 percent of the amount that is a “significant emissions increase,” as defined under subrule 33.3(1) (without reference to the amount that is a significant net emissions increase), for the regulated NSR pollutant. For a project for which a reasonable possibility occurs only within the meaning of this numbered paragraph, and not also within the meaning of numbered paragraph “1” of this subparagraph (subparagraph (8)), then the provisions of subparagraphs (3) through (7) do not apply to the project.

g. The owner or operator of the source shall make the information required to be documented and maintained pursuant to paragraph “f” available for review upon request for inspection by the department or the general public pursuant to the requirements for Title V operating permits contained in 567—subrule 22.107(6).

**33.3(19) Innovative control technology.** The provisions for innovative control technology as specified in 40 CFR 51.166(s) as amended through November 29, 2005, are adopted by reference. The following phrases contained in 40 CFR 51.166(s) are not adopted by reference: “the plan may provide that” and “the plan shall provide that.”

**33.3(20) Conditions for permit issuance.** Except as explained below, a permit may not be issued to any new “major stationary source” or “major modification” as defined in subrule 33.3(1) that would locate in any area designated as attainment or unclassifiable for any national ambient air quality standard pursuant to Section 107 of the Act, when the source or modification would cause or contribute to a violation of any national ambient air quality standard. A major stationary source or major modification will be considered to cause or contribute to a violation of a national ambient air quality standard when such source or modification would, at a minimum, exceed the following significance levels at any locality that does not or would not meet the applicable national standard:

Significant Impact Levels (SILs)					
	Averaging Time				
	Annual	24 hrs.	8 hrs.	3 hrs.	1 hr.
Pollutant	( $\mu\text{g}/\text{m}^3$ )				
SO <sub>2</sub>	1.0	5	—	25	—
PM <sub>10</sub>	1.0	5	—	—	—
PM <sub>2.5</sub>	0.3	1.2	—	—	—
NO <sub>2</sub>	1.0	—	—	—	—
CO	—	—	500	—	2000

A permit may be granted to a major stationary source or major modification as identified above if the major stationary source or major modification reduces the impact of its emissions upon air quality by obtaining sufficient emissions reductions to compensate for its adverse ambient air impact where the major stationary source or major modification would otherwise contribute to a violation of any national ambient air quality standard. This subrule shall not apply to a major stationary source or major modification with respect to a particular pollutant if the owner or operator demonstrates that the source is located in an area designated under Section 107 of the Act as nonattainment for that pollutant.

**33.3(21) Administrative amendments.**

a. Upon request for an administrative amendment, the department may take final action on any such request and may incorporate the requested changes without providing notice to the public or to

affected states, provided that the department designates any such permit revisions as having been made pursuant to subrule 33.3(21).

*b.* An administrative amendment is a permit revision that does any of the following:

- (1) Corrects typographical errors;
- (2) Corrects word processing errors;
- (3) Identifies a change in name, address or telephone number of any person identified in the permit or provides a similar minor administrative change at the source; or
- (4) Allows for a change in ownership or operational control of a source where the department determines that no other change in the permit is necessary, provided that a written agreement that contains a specific date for transfer of permit responsibility, coverage, and liability between the current permittee and the new permittee has been submitted to the department.

**33.3(22) Permit rescission.** Any permit issued under 40 CFR 52.21 or this chapter or any permit issued under rule 567—22.4(455B) shall remain in effect unless and until it is rescinded. The department will consider requests for rescission that meet the conditions specified under paragraphs “a” and “b” of this subrule. If the department rescinds a permit or a condition in a permit issued under 40 CFR 52.21, this chapter, or rule 567—22.4(455B), the public shall be given adequate notice of the proposed rescission. Publication of an announcement of rescission in a newspaper of general circulation in the affected region 60 days prior to the proposed date for rescission shall be considered adequate notice.

*a.* The department may rescind a permit or a portion of a permit upon request from an owner or operator of a stationary source who holds a permit for a source or modification that was issued under 40 CFR 52.21 as in effect on July 30, 1987, or earlier, provided the application also meets the provisions in paragraph “b” of this subrule.

*b.* If the application for rescission meets the provisions in paragraph “a” of this subrule, the department may rescind a permit if the owner or operator shows that the PSD provisions under 40 CFR 52.21 would not apply to the source or modification.

**567—33.4 to 33.8** Reserved.

**567—33.9(455B) Plantwide applicability limitations (PALs).** This rule provides an existing major source the option of establishing a plantwide applicability limitation (PAL) on emissions, provided the conditions in this rule are met. The provisions for a PAL as set forth in 40 CFR 52.21(aa) as amended through July 12, 2012, are adopted by reference, except that the term “Administrator” shall mean “the department of natural resources.”

[ARC 0783C, IAB 6/12/13, effective 7/17/13]

**567—33.10(455B) Exceptions to adoption by reference.** All references to Clean Units and Pollution Control Projects set forth in 40 CFR Sections 52.21 and 51.166 are not adopted by reference.

These rules are intended to implement Iowa Code chapter 455B.

## **MEDICINE BOARD[653]**

[Prior to 5/4/88, see Health Department[470], Chs 135 and 136, renamed Medical Examiners Board[653] under the "umbrella" of Public Health Department[641] by 1986 Iowa Acts, ch 1245]  
[Prior to 7/4/07, see Medical Examiners Board[653]; renamed by 2007 Iowa Acts, Senate File 74]

### CHAPTER 1

#### ADMINISTRATIVE AND REGULATORY AUTHORITY

- 1.1(17A,147) Definitions
- 1.2(17A) Purpose of board
- 1.3(17A) Organization of board
- 1.4(17A) Official communications
- 1.5(17A) Office hours
- 1.6(17A) Meetings
- 1.7(17A,147) Petition to promulgate, amend or repeal a rule
- 1.8(17A) Public hearings prior to the adoption, amendment or repeal of any rule
- 1.9(17A) Declaratory orders
- 1.10(68B) Selling of goods or services by members of the board or Iowa physician health committee (IPHC)

### CHAPTER 2

#### PUBLIC RECORDS AND FAIR INFORMATION PRACTICES

(Uniform Rules)

- 2.1(17A,22) Definitions
- 2.3(17A,22) Requests for access to records
- 2.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records
- 2.7(17A,22) Consent to disclosure by the subject of a confidential record
- 2.9(17A,22) Disclosures without the consent of the subject
- 2.10(17A,22) Routine use
- 2.11(17A,22) Consensual disclosure of confidential records
- 2.12(17A,22) Release to subject
- 2.13(17A,22) Availability of records
- 2.14(17A,22) Personally identifiable information
- 2.15(17A,22) Other groups of records
- 2.16(17A,22) Data processing system
- 2.17(17A,22) Applicability

### CHAPTER 3

#### WAIVERS AND VARIANCES

- 3.1(17A,147,148) Definition
- 3.2(17A,147,148) Scope of chapter
- 3.3(17A,147,148) Applicability of chapter
- 3.4(17A,147,148) Criteria for waiver or variance
- 3.5(17A,147,148) Filing of petition
- 3.6(17A,147,148) Content of petition
- 3.7(17A,147,148) Additional information
- 3.8(17A,147,148) Notice
- 3.9(17A,147,148) Hearing procedures
- 3.10(17A,147,148) Ruling
- 3.11(17A,147,148) Public availability
- 3.12(17A,147,148) Summary reports
- 3.13(17A,147,148) Cancellation of a waiver
- 3.14(17A,147,148) Violations

- 3.15(17A,147,148) Defense
- 3.16(17A,147,148) Judicial review
- 3.17(17A,147,148) Sample petition for waiver

## CHAPTERS 4 to 7

Reserved

## CHAPTER 8

## FEES

- 8.1(147,148,272C) Definitions
- 8.2(147,148,272C) Application and licensure fees for acupuncturists
- 8.3(147,148,272C) Examination fees for physicians
- 8.4(147,148,272C) Application and licensure fees to practice medicine and surgery or osteopathic medicine and surgery
- 8.5(147,148,272C) Fees for verification of physician licensure and certification of examination scores
- 8.6(147,148,272C) Public records
- 8.7(147,148,272C) Licensee data list
- 8.8(147,148,272C) Returned checks
- 8.9(147,148,272C) Copies of the laws and rules
- 8.10(147,148,272C) Refunds
- 8.11(17A,147,148,272C) Waiver or variance prohibited
- 8.12(8,147,148,272C) Request for reports
- 8.13(8,147,148,272C) Monitoring fee

## CHAPTER 9

## PERMANENT PHYSICIAN LICENSURE

- 9.1(147,148) Definitions
- 9.2(147,148) General licensure provisions
- 9.3(147,148) Eligibility for permanent licensure
- 9.4(147,148) Licensure by examination
- 9.5(147,148) Licensure by endorsement
- 9.6(147,148) Licensure by expedited endorsement
- 9.7(147,148) Licensure examinations
- 9.8(147,148) Permanent licensure application review process
- 9.9(147,148) Licensure application cycle
- 9.10(147,148) Discretionary board actions on licensure applications
- 9.11(147,148) Issuance of a permanent license
- 9.12(147,148) Notification required to change the board's data system
- 9.13(147,148) Renewal of a permanent license
- 9.14(147,148) Inactive status and reinstatement of a permanent license
- 9.15(147,148) Reinstatement of an unrestricted Iowa license
- 9.16(147,148) Reinstatement of a restricted Iowa license
- 9.17(147,148) Denial of licensure
- 9.18(17A,147,148,272C) Waiver or variance requests
- 9.19(147,148) Relinquishment of license to practice

## CHAPTER 10

## RESIDENT, SPECIAL AND TEMPORARY PHYSICIAN LICENSURE

- 10.1(147,148) Definitions
- 10.2(148) Licensure required
- 10.3(147,148) Resident physician licensure
- 10.4(147,148) Special licensure

- 10.5(147,148) Temporary licensure
- 10.6(17A,147,148,272C) Waiver or variance requests

CHAPTER 11  
CONTINUING EDUCATION AND  
TRAINING REQUIREMENTS

- 11.1(272C) Definitions
- 11.2(272C) Continuing education credit and alternatives
- 11.3(272C) Accreditation of providers
- 11.4(272C) Continuing education and training requirements for renewal or reinstatement
- 11.5(272C) Failure to fulfill requirements for continuing education and training for identifying and reporting abuse
- 11.6(17A,147,148E,272C) Waiver or variance requests

CHAPTER 12  
NONPAYMENT OF STATE DEBT

- 12.1(272D) Definitions
- 12.2(272D) Issuance or renewal of a license—denial
- 12.3(272D) Suspension or revocation of a license

CHAPTER 13  
STANDARDS OF PRACTICE AND PRINCIPLES OF MEDICAL ETHICS

- 13.1(148,272C) Standards of practice—packaging, labeling and records of prescription drugs dispensed by a physician
- 13.2(148,272C) Standards of practice—appropriate pain management
- 13.3 Reserved
- 13.4(148) Supervision of pharmacists engaged in collaborative drug therapy management
- 13.5(147,148) Standards of practice—chelation therapy
- 13.6(79GA,HF726) Standards of practice—automated dispensing systems
- 13.7(147,148,272C) Standards of practice—office practices
- 13.8(148,272C) Standards of practice—medical directors at medical spas—delegation and supervision of medical aesthetic services performed by qualified licensed or certified nonphysician persons
- 13.9(147,148,272C) Standards of practice—interventional chronic pain management
- 13.10(147,148,272C) Standards of practice—physicians who prescribe or administer abortion-inducing drugs
- 13.11(147,148,272C) Standards of practice—telemedicine
- 13.12 to 13.19 Reserved
- 13.20(147,148) Principles of medical ethics
- 13.21(17A,147,148,272C) Waiver or variance prohibited

CHAPTER 14  
IOWA PHYSICIAN HEALTH COMMITTEE

- 14.1(272C) Iowa physician health committee
- 14.2(272C) Definitions
- 14.3(272C) Purpose
- 14.4(272C) Organization of the committee
- 14.5(272C) Eligibility
- 14.6(272C) Type of program
- 14.7(272C) Terms of participation
- 14.8(272C) Limitations
- 14.9(272C) Confidentiality

- 14.10(28E) Authority for 28E agreements  
 14.11(272C) Board referrals to the Iowa physician health program

CHAPTER 15  
 CHILD SUPPORT NONCOMPLIANCE

- 15.1(252J) Definitions  
 15.2(252J) Issuance or renewal of a license—denial  
 15.3(252J) Suspension or revocation of a license

CHAPTER 16  
 STUDENT LOAN DEFAULT OR NONCOMPLIANCE

- 16.1(261) Definitions  
 16.2(261) Issuance or renewal of a license—denial  
 16.3(261) Service of denial notice  
 16.4(261) Suspension or revocation of a license  
 16.5(261) Share information

CHAPTER 17  
 LICENSURE OF ACUPUNCTURISTS

- 17.1(148E) Purpose  
 17.2(148E) Licensure exceptions  
 17.3(148E) Definitions  
 17.4(147,148E) Eligibility for licensure  
 17.5(147,148E) Application requirements  
 17.6(147,148E) Display of license and disclosure of information to patients  
 17.7(147,148E,272C) Biennial renewal of license required  
 17.8(147,272C) Reinstatement of an inactive license  
 17.9(272C) Continuing education requirements—course approval  
 17.10(147,148E,272C) General provisions  
 17.11(147,148E,272C) General disciplinary provisions  
 17.12(147,148E,272C) Grounds for discipline  
 17.13(272C) Procedure for peer review  
 17.14(272C) Reporting duties and investigation of reports  
 17.15(272C) Complaints, immunities and privileged communications  
 17.16(272C) Confidentiality of investigative files  
 17.17 to 17.28 Reserved  
 17.29(17A,147,148E,272C) Disciplinary procedures  
 17.30(147,148E,272C) Waiver or variance prohibited

CHAPTER 18  
 MILITARY SERVICE AND VETERAN RECIPROCITY

- 18.1(85GA,ch1116) Definitions  
 18.2(85GA,ch1116) Military education, training, and service credit  
 18.3(85GA,ch1116) Veteran reciprocity

CHAPTERS 19 and 20  
 Reserved

CHAPTER 21  
 PHYSICIAN SUPERVISION OF A PHYSICIAN ASSISTANT

- 21.1(148,272C) Ineligibility determinants  
 21.2(148,272C) Exemptions from this chapter  
 21.3(148) Board notification  
 21.4(148,272C) Grounds for discipline

- 21.5(148,272C) Disciplinary sanction
- 21.6(148,272C) Communication with physician assistant supervisees
- 21.7(17A,147,148,272C) Waiver or variance requests

## CHAPTER 22

### MANDATORY REPORTING

- 22.1(272C) Mandatory reporting—judgments or settlements
- 22.2(272C) Mandatory reporting—wrongful acts or omissions
- 22.3(272C) Mandatory reporting—disciplinary action in another jurisdiction
- 22.4(272C) Mandatory reporting—child abuse and dependent adult abuse
- 22.5(272C) Mandatory reporting—hospital disciplinary action

## CHAPTER 23

### GROUNDS FOR DISCIPLINE

- 23.1(272C) Grounds for discipline

## CHAPTER 24

### COMPLAINTS AND INVESTIGATIONS

- 24.1(17A,147,148,272C) Complaints
- 24.2(17A,147,148,272C) Processing complaints and investigations
- 24.3(272C) Peer review
- 24.4(272C) Order for physical, mental, or clinical competency evaluation

## CHAPTER 25

### CONTESTED CASE PROCEEDINGS

- 25.1(17A) Definitions
- 25.2(17A) Scope and applicability
- 25.3(17A) Combined statement of charges and settlement agreement
- 25.4(17A) Statement of charges
- 25.5(17A) Legal representation
- 25.6(17A) Presiding officer in a disciplinary contested case
- 25.7(17A) Presiding officer in a nondisciplinary contested case
- 25.8(17A) Disqualification
- 25.9(17A) Consolidation—severance
- 25.10(17A) Pleadings
- 25.11(17A) Service and filing
- 25.12(17A) Discovery
- 25.13(17A,272C) Subpoenas in a contested case
- 25.14(17A) Motions
- 25.15(17A) Prehearing conferences
- 25.16(17A) Continuances
- 25.17(272C) Settlement agreements
- 25.18(17A) Hearing procedures
- 25.19(17A) Evidence
- 25.20(17A) Default
- 25.21(17A) Ex parte communication
- 25.22(17A) Recording costs
- 25.23(17A) Interlocutory appeals
- 25.24(17A) Decisions
- 25.25(272C) Disciplinary sanctions
- 25.26(17A) Application for rehearing
- 25.27(17A) Stays of agency actions
- 25.28(17A) No factual dispute contested cases

- 25.29(17A) Emergency adjudicative proceedings
- 25.30(17A) Appeal of license denial
- 25.31(17A) Judicial review and appeal
- 25.32(17A) Open record
- 25.33(272C) Disciplinary hearings—fees and costs

CHAPTER 26

REINSTATEMENT AFTER DISCIPLINARY ACTION

- 26.1(17A) Reinstatement

CHAPTER 9  
PERMANENT PHYSICIAN LICENSURE  
[Prior to 5/30/01, see 653—Chapter 11]

**653—9.1(147,148) Definitions.**

“*ABMS*” means the American Board of Medical Specialties, which is an umbrella organization for at least 24 medical specialty boards in the United States that assists the specialty boards in developing and implementing educational and professional standards to evaluate and certify physician specialists in the United States. The board recognizes specialty board certification by ABMS.

“*ACGME*” means the Accreditation Council for Graduate Medical Education, an accreditation body that is responsible for accreditation of post-medical school training programs in medicine and surgery in the United States of America. The board approves resident training programs accredited by ACGME.

“*AMA*” means the American Medical Association, a professional organization of physicians and surgeons.

“*Any jurisdiction*” means any state, the District of Columbia or territory of the United States of America or any other nation.

“*Any United States jurisdiction*” means any state, the District of Columbia or territory of the United States of America.

“*AOA*” means the American Osteopathic Association, which is the representative organization for osteopathic physicians (D.O.s) in the United States. The board approves osteopathic medical education programs with AOA accreditation; the board approves AOA-accredited resident training programs in osteopathic medicine and surgery at hospitals for graduates of accredited osteopathic medical schools. The board recognizes specialty board certification by AOA. The board recognizes continuing medical education accredited by the Council on Continuing Medical Education of AOA.

“*Applicant*” means a person who seeks authorization to practice medicine and surgery or osteopathic medicine and surgery in this state by making application to the board.

“*Approved abuse education training program*” means a training program using a curriculum approved by the abuse education review panel of the department of public health or a training program offered by a hospital, a professional organization for physicians, or the department of human services, the department of education, an area education agency, a school district, the Iowa law enforcement academy, an Iowa college or university, or a similar state agency.

“*Board*” means Iowa board of medicine.

“*Board-approved resident training program*” means a hospital-affiliated graduate medical education program accredited by ACGME, AOA, RCPSC, or CFPC at the time the applicant is enrolled in the program.

“*Candidate*” means a person who applies to sit for an examination administered by the board or its designated testing service.

“*Category 1 credit*” means any formal education program which is sponsored or jointly sponsored by an organization accredited for continuing medical education by the Accreditation Council for Continuing Medical Education, the Iowa Medical Society, or the Council on Continuing Medical Education of AOA that is of sufficient scope and depth of coverage of a subject area or theme to form an educational unit and is planned, administered and evaluated in terms of educational objectives that define a level of knowledge or a specific performance skill to be attained by the physician completing the program. Credits designated as formal cognates by the American College of Obstetricians and Gynecologists or as prescribed credits by the American Academy of Family Physicians are accepted as equivalent to category 1 credits.

“*CFPC*” means the College of Family Physicians of Canada, an organization that accredits graduate medical education in family practice in Canada.

“*COMLEX*” means the Comprehensive Osteopathic Medical Licensing Examination that is recognized by the board as the licensure examination that replaced the NBOME examination for graduates of osteopathic medical schools or colleges.

“*Committee*” means the licensure committee of the board.

“*COMVEX-USA*” means the Comprehensive Osteopathic Medical Variable-Purpose Examination for the United States of America. The National Board of Osteopathic Medical Examiners prepares the examination and determines its passing score. A licensing authority in any jurisdiction administers the examination. COMVEX-USA is the current evaluative instrument offered to osteopathic physicians who need to demonstrate current osteopathic medical knowledge.

“*Core credentials*” means those documents that demonstrate the applicant’s identity, medical training and practice history. “Core credentials” includes but is not limited to: medical school diploma, medical school transcript, dean’s letter, examination history, ECFMG certificate, fifth pathway certificate, and postgraduate training verification.

“*Current, active status*” means a license that is in effect and grants the privilege of practicing medicine and surgery or osteopathic medicine and surgery, as applicable.

“*ECFMG*” means the Educational Commission for Foreign Medical Graduates, an organization that assesses the readiness of foreign medical school graduates to enter ACGME-approved residency programs in the United States of America.

“*Expedited endorsement*” means the process whereby the state issues an unrestricted license to practice medicine to an applicant who holds a valid unrestricted and unlimited license in another jurisdiction through the acceptance of the applicant’s core credentials that have been subject to primary source verification by another jurisdiction’s physician licensing board or other authority using a process substantially similar to Iowa’s process for verifying the authenticity of the applicant’s core credentials.

“*FCVS*” means the Federation Credentials Verification Service, a service under the Federation of State Medical Boards that verifies and stores core credentials for retrieval whenever needed.

“*FLEX*” means the Federation Licensing Examination, a licensure examination used in the past that was approved by the board for graduates with a medical degree.

“*Foreign medical school,*” also known as an “international medical school,” means a medical school that is located outside of any United States jurisdiction.

“*FSMB*” means the Federation of State Medical Boards, the organization of medical boards of the United States of America.

“*Inactive license*” means any license that is not in current, active status. Inactive license may include licenses formerly known as delinquent, lapsed, or retired. A physician whose license is inactive continues to hold the privilege of licensure in Iowa but may not practice medicine under an Iowa license until the license is reinstated to current, active status.

“*Incidentally called into this state in consultation with a physician and surgeon licensed in this state*” as set forth in Iowa Code section 148.2(5) means all of the following shall be true:

1. The consulting physician shall be involved in the care of patients in Iowa only at the request of an Iowa-licensed physician.
2. The consulting physician has a license in good standing in another United States jurisdiction.
3. The consulting physician provides expertise and acts in an advisory capacity to an Iowa-licensed physician. The consulting physician may examine the patient and advise an Iowa-licensed physician as to the care that should be provided, but the consulting physician may not personally perform procedures, write orders, or prescribe for the patient.
4. The consulting physician practices in Iowa for a period not greater than 10 consecutive days and not more than 20 total days in any calendar year. Any portion of a day counts as one day.
5. The Iowa-licensed physician requesting the consultation retains the primary responsibility for the management of the patient’s care.

“*Initial license*” means the first permanent license granted to a qualified individual.

“*International medical school,*” also known as a “foreign medical school,” means a medical school that is located outside of any United States jurisdiction.

“*LCME*” means Liaison Committee on Medical Education, an organization that accredits educational institutions granting degrees in medicine and surgery. The board approves programs that are accredited by LCME.

“*LMCC*” means enrollment in the Canadian Medical Register as Licentiate of Medical Council of Canada with a certificate of registration as proof. LMCC requires passing the Medical Council of Canada Examination.

“*Medical degree*” means a degree of doctor of medicine and surgery or osteopathic medicine and surgery or comparable education from a foreign medical school.

“*National Practitioner Data Bank*” is a national data bank of disciplinary actions taken against health professionals, including physicians.

“*NBME*” means the National Board of Medical Examiners, an organization that prepares and administers qualifying examinations, either independently or jointly with other organizations.

“*NBOME*” means the National Board of Osteopathic Medical Examiners, an organization that prepares and administers qualifying examinations for osteopathic physicians.

“*Observer*” means a person who is not enrolled in an Iowa medical school or osteopathic medical school, who observes care to patients in Iowa for a defined period of time and for a noncredit experience, and who is supervised and accompanied by an Iowa-licensed physician as defined in 9.2(3). An observer shall not provide or direct hands-on patient care, regardless of the observer’s level of training or supervision. The supervising physician may authorize an observer to read a chart, observe a patient interview or examination, or witness procedures, including surgery. An observer shall not chart; touch a patient as part of an examination; conduct an interview; order, prescribe or administer medications; make decisions that affect patient care; direct others in providing patient care; or conduct procedures, including surgery. Any of these activities requires licensure to practice in Iowa. An unlicensed physician observer or a medical student observer may touch a patient to verify a physical finding in the immediate presence of a physician but shall not conduct a more inclusive physical examination.

An unlicensed physician observer may:

1. Participate in discussions regarding the care of individual patients, including offering suggestions about diagnosis or treatment, provided the unlicensed physician observer does not direct the care; and
2. Elicit information from a patient provided the unlicensed physician observer does not actually perform a physical examination or otherwise touch the patient.

“*Permanent licensure*” means licensure granted after review of the application and credentials to determine that the individual is qualified to enter into practice. The individual may only practice when the license is in current, active status.

“*Practice*” means the practice of medicine and surgery or osteopathic medicine and surgery.

“*Primary source verification*” means:

1. Verification of the authenticity of documents with the original source that issued the document.
2. Original source verification by another jurisdiction’s physician licensing organization.
3. Original source verification by the FSMB’s Federation Credentials Verification Service.

“*RCPSC*” means the Royal College of Physicians and Surgeons of Canada, an organization that accredits graduate medical education in Canada.

“*Reinstatement*” means the process for returning an inactive license to current, active status.

“*Relinquishment*” means that a person’s permanent license to practice medicine and surgery, osteopathic medicine and surgery, or administrative medicine is deemed abandoned if the person fails to renew or reinstate the license within five years after its expiration. A license that has been relinquished is no longer valid or renewable. Relinquishment is not disciplinary in nature.

“*Resident physician*” means a physician enrolled in an internship, residency or fellowship.

“*Resident training program*” means a hospital-affiliated graduate medical education program that enrolls interns, residents or fellows and may be referred to as a postgraduate training program for purposes of licensure.

“*Service charge*” means the amount charged for making a service available on line and is in addition to the actual fee for a service itself. For example, one who renews a license on line will pay the license renewal fee and a service charge.

“*SPEX*” means Special Licensure Examination prepared by the Federation of State Medical Boards and administered by a licensing authority in any jurisdiction. The passing score on SPEX is 75.

“*Training for chronic pain management*” means required training on chronic pain management identified in 653—Chapter 11.

“*Training for end-of-life care*” means required training on end-of-life care identified in 653—Chapter 11.

“*Training for identifying and reporting abuse*” means training on identifying and reporting child abuse or dependent adult abuse required of physicians who regularly provide primary health care to children or adults, respectively, as specified in 653—Chapter 11. The full requirements on mandatory reporting of child abuse and the training requirements are found in Iowa Code section 232.69; the full requirements on mandatory reporting of dependent adult abuse and the training requirements are found in Iowa Code section 235B.16.

“*Uniform application for physician state licensure*” means a Web-based application that is intended to standardize and simplify the licensure application process for state medical licensure. The Federation of State Medical Boards created and maintains the application. This application is used for all license types issued by the Iowa board of medicine.

“*USMLE*” means the United States Medical Licensing Examination.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 2346C, IAB 1/6/16, effective 2/10/16]

### **653—9.2(147,148) General licensure provisions.**

**9.2(1) Licensure required.** Licensure is required for practice in Iowa as identified in Iowa Code section 148.1; the exceptions are identified in subrule 9.2(2). Provisions for permanent physician licensure are found in this chapter; provisions for resident, special and temporary physician licensure are found in 653—Chapter 10.

**9.2(2) Licensure not required.** The following persons are not required to obtain a license to practice in Iowa:

*a.* Those persons described in Iowa Code sections 148.2(1) to 148.2(5).

(1) A medical student or osteopathic medical student in an international medical school may not take on the role of a medical student in the patient care setting unless the student is enrolled in the University of Iowa’s Carver College of Medicine or in Des Moines University’s College of Osteopathic Medicine; however, an international medical student not enrolled at either of these institutions may be an observer as defined in rule 653—9.1(147,148).

(2) A graduate of an international medical school shall not practice medicine without an Iowa medical license; however, the graduate may be an observer as defined in rule 653—9.1(147,148).

*b.* Those persons who are incidentally called into this state in consultation with a physician or surgeon licensed in this state as described in Iowa Code section 148.2(5) and as defined in rule 653—9.1(147,148).

*c.* Physicians and surgeons who hold a current, active license in good standing in another United States jurisdiction and who come into Iowa on a temporary basis to aid disaster victims at the time of a disaster in accordance with Iowa Code section 29C.6.

*d.* Physicians and surgeons who hold a current, active license in good standing in another United States jurisdiction and who come to Iowa to participate in further medical education may participate in patient care under the request and supervision of the patient’s Iowa-licensed physician in charge of the education. The Iowa-licensed physician shall retain the primary responsibility for management of the patient’s care.

*e.* Physicians and surgeons who hold a current, active license in good standing in another United States jurisdiction and who come into Iowa to serve as expert witnesses as long as they do not provide treatment.

*f.* Physicians and surgeons from out of state who hold a current, active license in good standing in another United States jurisdiction and who accompany one or more individuals into Iowa for the purpose of providing medical care to these individuals on a short-term basis, e.g., a team physician for an out-of-state college football team that comes into Iowa for a game.

g. Physicians and surgeons who come to Iowa to observe patient care and who do not provide or direct hands-on patient care.

h. Visiting resident physicians who come to Iowa to practice as part of their resident training program if under the supervision of an Iowa-licensed physician. An Iowa physician license is not required of a physician in training if the physician has a resident or permanent license in good standing in the home state of the resident training program. An Iowa temporary license is required of a physician in training if the physician does not hold a resident or permanent physician license in good standing in the home state of the resident training program (see rule 653—10.5(147,148)).

**9.2(3) *Supervision of an observer.*** An Iowa-licensed physician who supervises an observer shall accompany the observer and solicit consent from each patient, where feasible, for the observation. The physician shall inform the patient of the observer's background, e.g., high school student considering a medical career, a medical graduate who is working on licensure. The supervising physician shall ensure that the observer remains within the scope of an observer as defined in rule 653—9.1(147,148).

[ARC 0215C, IAB 7/25/12, effective 8/29/12]

### **653—9.3(147,148) Eligibility for permanent licensure.**

**9.3(1) Requirements.** To be eligible for permanent licensure, an applicant shall meet all of the following requirements:

a. Fulfill the application requirements specified in rule 653—9.4(147,148), 653—9.5(147,148) or 653—9.6(147,148).

b. Hold a medical degree from an educational institution approved by the board at the time the applicant graduated and was awarded the degree.

(1) Educational institutions approved by the board shall be fully accredited by an accrediting agency recognized by the board as schools of instruction in medicine and surgery or osteopathic medicine and surgery and empowered to grant academic degrees in medicine.

(2) The accrediting bodies currently recognized by the board are:

1. LCME for the educational institutions granting degrees in medicine and surgery; and
2. AOA for educational institutions granting degrees in osteopathic medicine and surgery.

(3) If the applicant holds a medical degree from an educational institution not approved by the board at the time the applicant graduated and was awarded the degree, the applicant shall meet one of the following requirements:

1. Hold a valid certificate issued by ECFMG;
2. Have successfully completed a fifth pathway program established in accordance with AMA criteria;

3. Have successfully passed either a basic science examination administered by a United States or Canadian medical licensing authority or SPEX; and have successfully completed three years of resident training in a program approved by the board; and have submitted evidence of five years of active practice without restriction as a licensee of any United States or Canadian jurisdiction; or

4. Have successfully passed either a basic science examination administered by a United States or Canadian medical licensing authority or SPEX; and hold board certification by a specialty board approved by ABMS or AOA; and submit evidence of five years of active practice without restriction as a licensee of any United States or Canadian jurisdiction.

c. Have successfully completed one year of resident training in a hospital-affiliated program approved by the board at the time the applicant was enrolled in the program. An applicant who is a graduate of an international medical school shall have successfully completed 24 months of such training.

(1) For those required to have 12 months of training, the program shall have been 12 months of progressive training in not more than two specialties and in not more than two programs approved for resident training by the board. For those required to have 24 months of training, the program shall have been 24 continuous months of progressive training in not more than two specialties and in not more than two programs approved for resident training by the board.

(2) Resident training approved by the board shall be accredited by an accrediting agency recognized by the board for the purpose of accrediting resident training programs.

(3) The board approves resident training programs accredited by:

1. ACGME;
2. AOA;
3. RCPSC; and
4. CFPC.

(4) The board shall accept each 12 months of practice as a special licensee as equivalent to one year of resident training in a hospital-affiliated program approved by the board.

*d.* Pass one of the licensure examinations or combinations as prescribed in rule 653—9.7(147,148).

**9.3(2)** Reserved.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12]

**653—9.4(147,148) Licensure by examination.**

**9.4(1) Applicant eligibility.** An applicant who has never been licensed in any United States or Canadian jurisdiction shall meet the following requirements to be eligible for permanent licensure by examination.

**9.4(2) Requirements.** To apply for permanent licensure, an applicant shall:

*a.* Pay a nonrefundable initial application fee of \$450 plus the \$45 fee identified in 653—subrule 8.4(6) for the evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI); and

*b.* Complete and submit forms provided by the board, including required credentials, documents, a completed fingerprint packet, and a sworn statement by the applicant attesting to the truth of all information provided by the applicant.

*c.* Pass the USMLE, COMLEX, or Medical Council of Canada Examination as prescribed in rule 653—9.7(147,148) and authorize the testing authority to verify scores.

**9.4(3) Application.** The application shall require the following information:

*a.* Full legal name, date and place of birth, home address, mailing address and principal business address.

*b.* A photograph of the applicant suitable for positive identification.

*c.* A statement listing every jurisdiction in which the applicant is or has been authorized to practice, including license numbers and dates of issuance.

*d.* A chronology accounting for all time periods from the date the applicant entered medical school to the date of the application.

*e.* A certified statement of scores on any licensure examination required in rule 653—9.7(147,148) that the applicant has taken in any jurisdiction. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*f.* A photocopy of the applicant's medical degree issued by an educational institution.

(1) A complete translation of any diploma not written in English shall be submitted. An official transcript, written in English and received directly from the school, showing graduation from medical school is a suitable alternative.

(2) An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

(3) If a copy of the medical degree cannot be provided because of extraordinary circumstances, the board may accept other reliable evidence that the applicant obtained a medical degree from a specific educational institution.

*g.* A sworn statement from an official of the educational institution certifying the date the applicant received the medical degree and acknowledging what, if any, derogatory comments exist in the institution's record about the applicant. If a sworn statement from an official of the educational institution cannot be provided because of extraordinary circumstances, the board may accept other reliable evidence that the applicant obtained a medical degree from a specific educational institution.

*h.* An official transcript, or its equivalent, received directly from the school for every medical school attended if requested by the board. A complete translation of any transcript not written in English shall be submitted if requested by the board. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*i.* If the educational institution awarding the applicant the degree has not been approved by the board, the applicant shall provide a valid ECFMG certificate or evidence of successful completion of a fifth pathway program in accordance with criteria established by AMA. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*j.* Documentation of successful completion of resident training approved by the board as specified in paragraph 9.3(1)“*c.*” An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*k.* Verification of an applicant’s hospital and clinical staff privileges and other professional experience for the past five years if requested by the board.

*l.* A statement disclosing and explaining any informal or nonpublic actions, warnings issued, investigations conducted, or disciplinary actions taken, whether by voluntary agreement or formal action, by a medical or professional regulatory authority, an educational institution, a training or research program, or a health facility in any jurisdiction.

*m.* A statement of the applicant’s physical and mental health, including full disclosure and a written explanation of any dysfunction or impairment which may affect the ability of the applicant to engage in practice and provide patients with safe and healthful care.

*n.* A statement disclosing and explaining the applicant’s involvement in civil litigation related to practice in any jurisdiction. Copies of the legal documents may be requested if needed during the review process.

*o.* A statement disclosing and explaining any charge of a misdemeanor or felony involving the applicant filed in any jurisdiction, whether or not any appeal or other proceeding to have the conviction or plea set aside is pending.

*p.* A completed fingerprint packet to facilitate a national criminal history background check. The fee for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 1187C, IAB 11/27/13, effective 1/1/14]

### **653—9.5(147,148) Licensure by endorsement.**

**9.5(1) Applicant eligibility.** An applicant who has been licensed in any United States jurisdiction or Canada shall meet one of the following requirements to be eligible for permanent licensure by endorsement.

*a.* Applicants who have been licensed for at least five years may meet expedited endorsement requirements set forth in rule 653—9.6(147,148).

*b.* An M.D. applicant who has been licensed in any United States jurisdiction or Canada shall meet the licensure examination requirements in effect in Iowa at the time of original licensure if the examination precedes USMLE. An M.D. applicant who has been licensed in any United States jurisdiction or Canada based on USMLE shall meet the requirements in rule 653—9.7(147,148). The applicant shall authorize the appropriate testing authority to verify scores obtained on the examination as specified in this rule.

*c.* A D.O. applicant who has been licensed in any United States jurisdiction shall meet the licensure examination requirements in effect in Iowa at the time of original licensure if the examination precedes USMLE or COMLEX, whichever is applicable. A D.O. applicant who has been licensed in any United States jurisdiction based on USMLE or COMLEX shall meet the requirements in rule 653—9.7(147,148). The applicant shall authorize the appropriate testing authority to verify scores obtained on the examination as specified in this rule.

**9.5(2) Requirements.** To apply for permanent licensure, an applicant shall:

*a.* Pay a nonrefundable initial application fee of \$450 plus the \$45 fee identified in 653—subrule 8.4(6) for the evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI); and

*b.* Complete and submit forms provided by the board, including required credentials, documents, a completed fingerprint packet, and a sworn statement by the applicant attesting to the truth of all information provided by the applicant.

**9.5(3) Application.** The application shall require the following information:

*a.* Full legal name, date and place of birth, home address, mailing address and principal business address.

*b.* A photograph of the applicant suitable for positive identification.

*c.* A statement listing every jurisdiction in which the applicant is or has been authorized to practice, including license numbers and dates of issuance.

*d.* A chronology accounting for all time periods from the date the applicant entered medical school to the date of the application.

*e.* A certified statement of scores on any examination required in rule 653—9.7(147,148) that the applicant has taken in any jurisdiction. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*f.* A photocopy of the applicant's medical degree issued by an educational institution.

(1) A complete translation of any diploma not written in English shall be submitted. An official transcript, written in English and received directly from the school, showing graduation from medical school is a suitable alternative.

(2) An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

(3) If a copy of the medical degree cannot be provided because of extraordinary circumstances, the board may accept other reliable evidence that the applicant obtained a medical degree from a specific educational institution.

*g.* A sworn statement from an official of the educational institution certifying the date the applicant received the medical degree and acknowledging what, if any, derogatory comments exist in the institution's record about the applicant. If a sworn statement from an official of the educational institution cannot be provided because of extraordinary circumstances, the board may accept other reliable evidence that the applicant obtained a medical degree from a specific educational institution.

*h.* An official transcript, or its equivalent, received directly from the school for every medical school attended if requested by the board. A complete translation of any transcript not written in English shall be submitted if requested by the board. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*i.* If the educational institution awarding the applicant the degree has not been approved by the board, the applicant shall provide a valid ECFMG certificate or evidence of successful completion of a fifth pathway program in accordance with criteria established by AMA. An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*j.* Documentation of successful completion of resident training approved by the board as specified in paragraph 9.3(1)“c.” An official FCVS Physician Information Profile that supplies this information for the applicant is a suitable alternative.

*k.* Verification of an applicant's hospital and clinical staff privileges and other professional experience for the past five years if requested by the board.

*l.* A statement disclosing and explaining any informal or nonpublic actions, warnings issued, investigations conducted, or disciplinary actions taken, whether by voluntary agreement or formal action, by a medical or professional regulatory authority, an educational institution, a training or research program, or a health facility in any jurisdiction.

*m.* A statement of the applicant's physical and mental health, including full disclosure and a written explanation of any dysfunction or impairment which may affect the ability of the applicant to engage in practice and provide patients with safe and healthful care.

*n.* A statement disclosing and explaining the applicant's involvement in civil litigation related to practice in any jurisdiction. Copies of the legal documents may be requested if needed during the review process.

*o.* A statement disclosing and explaining any charge of a misdemeanor or felony involving the applicant filed in any jurisdiction, whether or not any appeal or other proceeding to have the conviction or plea set aside is pending.

*p.* A completed fingerprint packet to facilitate a national criminal history background check. The fee for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 1187C, IAB 11/27/13, effective 1/1/14]

### **653—9.6(147,148) Licensure by expedited endorsement.**

**9.6(1) Applicant eligibility.** An applicant who has been licensed in any United States jurisdiction or Canada for more than five years shall meet the following requirements to be eligible for permanent licensure by expedited endorsement.

**9.6(2) Requirements.** To apply for permanent licensure by expedited endorsement, an applicant shall:

*a.* Pay a nonrefundable initial application fee of \$450 plus the \$45 fee identified in 653—subrule 8.4(6) for the evaluation of the fingerprint packet and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI); and

*b.* Complete and submit forms provided by the board, including required credentials, documents, a completed fingerprint packet, and a sworn statement by the applicant attesting to the truth of all information provided by the applicant.

*c.* Meet the eligibility requirements set forth in subrule 9.3(1).

*d.* Be licensed in at least one other United States jurisdiction or Canadian province.

*e.* Hold an unrestricted license in every jurisdiction in which the applicant is licensed.

*f.* Have no formal disciplinary actions; no active or pending investigations; no past, pending, public or confidential restrictions or sanctions by a board of medicine, licensing authority, medical society, professional society, hospital, medical school, federal agency, or institution staff sanctions in any state, country or jurisdiction.

*g.* Hold current specialty board certification by an ABMS or AOA specialty board. Lifetime certification is excluded.

*h.* Have been engaged in continuous, active practice within the five years immediately preceding the date of submitting an application for licensure. Continuous, active practice includes private practice, employment in a hospital or clinical setting, employment by any governmental entity in community or public health, or practice of administrative, academic or research medicine. Continuous, active practice does not include residency, fellowship or postgraduate training of any kind.

**9.6(3) Application.** The application shall require the following information:

*a.* Full legal name, date and place of birth, home address, mailing address and principal business address.

*b.* A photograph of the applicant suitable for positive identification.

*c.* A statement listing every jurisdiction in which the applicant is or has been authorized to practice, including license numbers and dates of issuance.

*d.* A chronology accounting for all time periods from the date the applicant entered medical school to the date of the application.

*e.* Verification of an applicant's hospital and clinical staff privileges and other professional experience for the past five years if requested by the board.

*f.* A statement disclosing and explaining any informal or nonpublic actions, warnings issued, investigations conducted, or disciplinary actions taken, whether by voluntary agreement or formal action, by a medical or professional regulatory authority, an educational institution, a training or research program, or a health facility in any jurisdiction.

*g.* A statement of the applicant's physical and mental health, including full disclosure and a written explanation of any dysfunction or impairment which may affect the ability of the applicant to engage in practice and provide patients with safe and healthful care.

*h.* A statement disclosing and explaining the applicant's involvement in civil litigation related to practice in any jurisdiction. Copies of the legal documents may be requested if needed during the review process.

*i.* A statement disclosing and explaining any charge of a misdemeanor or felony involving the applicant filed in any jurisdiction, whether or not any appeal or other proceeding to have the conviction or plea set aside is pending.

*j.* A completed fingerprint packet to facilitate a national criminal history background check. The fee for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant.

NOTE: The board reserves the right to request information listed in rule 653—9.5(147,148).  
[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 1187C, IAB 11/27/13, effective 1/1/14]

### **653—9.7(147,148) Licensure examinations.**

#### **9.7(1) USMLE.**

*a.* The USMLE is a joint program of FSMB and the NBME. The USMLE is a multipart examination consisting of Step 1, Step 2, and Step 3. Steps 1 and 2 are administered by NBME and ECFMG. The board contracts with FSMB for the administration of Step 3. USMLE Steps 1 and 2 were implemented in 1992; Step 3 was implemented in 1994.

*b.* Since 1999, Step 3 is a computerized examination offered at testing centers in the Des Moines area and other locations around Iowa and the United States.

*c.* Applications are available at Department of Examination Services, FSMB, 400 Fuller Wisner Road, Suite 300, Eules, Texas 76039, or [www.fsmb.org](http://www.fsmb.org).

*d.* Candidates who meet the following requirements are eligible to take USMLE Step 3:

(1) Submit a completed application form and pay the required examination fee as specified in 653—subrule 8.3(1).

(2) Document successful completion of USMLE Steps 1 and 2 in accordance with the requirements of NBME. Graduates of a foreign medical school shall meet the requirements of ECFMG.

(3) Document holding a medical degree from a board-approved educational institution. If a candidate holds a medical degree from an educational institution not approved by the board at the time the applicant graduated and was awarded the degree, the candidate shall meet the requirements specified in 9.3(1)“c”(3).

(4) Document successful completion of a minimum of seven calendar months of resident training in a program approved by the board at the time of the application for Step 3 or enrollment in a resident training program approved by the board at the time of the application for Step 3.

*e.* The following conditions shall apply to applicants for licensure in Iowa who utilize USMLE as the licensure examination.

(1) Passing Steps 1, 2, and 3 is required within a ten-year period beginning with the date of passing either Step 1 or Step 2, whichever occurred first. Board certification by the ABMS or AOA is required if the applicant was not able to pass Steps 1, 2, and 3 within the required time as specified in this paragraph.

(2) Step 3 may be taken and passed only after Steps 1 and 2 are passed.

(3) A score of 75 or better on each step shall constitute a passing score on that step.

(4) Each USMLE step must be passed individually, and individual step scores shall not be averaged to compute an overall score.

(5) A failure of any USMLE step, regardless of the jurisdiction for which it was taken, shall be considered a failure of that step for the purposes of Iowa licensure.

(6) Successful completion of a progressive three-year resident training program is required if the applicant passes the examination after more than six attempts on Step 1 or six attempts on Step 2 CK and Step 2 CS combined or three attempts on Step 3.

*f.* Any candidate deemed eligible to sit for USMLE Step 3 is required to adhere to the examination procedures and protocol established by FSMB and NBME in the following publications: USMLE Test Administration Standards and Policies and Procedures Regarding Indeterminate Scores and Irregular Behavior, FSMB, 400 Fuller Wiser Road, Suite 300, Eules, Texas 76039.

**9.7(2) NBME.**

*a.* NBME Part Examinations (Parts I, II, and III) were first administered in 1916. The last regular administration of Part I occurred in 1991, Part II in April 1992, and Part III in May 1994.

*b.* Successful completion of NBME Parts I, II, and III was a requirement for NBME certification.

*c.* A score of 75 or better on each part shall constitute a passing score on that part.

**9.7(3) FLEX.**

*a.* From 1968 to 1985, (Old) FLEX was a three-day examination. Day 1 covered basic science; Day 2 covered clinical science; and Day 3 covered clinical competency. Applicants who took Old FLEX shall provide evidence of successful achievement of at least two of the following:

(1) Certification under seal that the applicant passed FLEX with a FLEX-weighted average of 75 percent or better, as determined by the state medical licensing authority, in no more than two sittings.

(2) Verification under seal of medical licensure in the state that administered the examination.

(3) Evidence of current certification by an American specialty board approved or recognized by the Council of Medical Education of AMA, ABMS, or AOA.

*b.* From 1985 to 1994, (New) FLEX replaced the Old FLEX. New FLEX was a three-day nationally standardized examination consisting of two, one and one-half day components referred to as Component I (basic and clinical science principles and mechanisms underlying disease and modes of therapy) and Component II (knowledge and cognitive abilities required of a physician assuming independent responsibility for the general delivery of medical care to patients). The last regular administration of both components of New FLEX occurred in 1993. Two special administrations of New FLEX Component I were offered in 1994 to examinees who passed Component II but not Component I prior to 1994. To be eligible for permanent licensure, the candidate must have passed both components in Iowa with a FLEX score of 75 or better within a seven-year period beginning with the date of initial examination.

(1) Candidates who took the FLEX for the first time were required to take both components during the initial sitting. A candidate who failed either or both components must have repeated and passed the component failed, though Component II could only be repeated if the candidate had received a passing score of 75 percent or better on Component I.

(2) Eligible candidates were permitted to sit for the initial examination and reapply to the board to repeat a failed component or complete the entire examination two additional times. However, candidates who failed either or both components three times were required to wait one year, during which time the candidate was encouraged to obtain additional training, before being permitted to sit two additional times for either or both components of the FLEX.

**9.7(4) Combination examination sequences.** To accommodate individuals who had already passed some part of the NBME Parts or FLEX before implementation of the USMLE, the USMLE program recommended and the board approved the following licensing combinations of examinations for licensure only if completed prior to January 1, 2000. These combinations are now only acceptable from an applicant who already holds a license from any United States jurisdiction.

*a.* FLEX Component I plus USMLE Step 3 with a passing score of 75 or better on each examination;

*b.* NBME Part I or USMLE Step 1 plus NBME Part II or USMLE Step 2 plus FLEX Component II with a passing score of 75 or better on each examination; or

*c.* NBME Part I or USMLE Step 1 plus NBME Part II or USMLE Step 2 plus NBME Part III or USMLE Step 3 with a passing score of 75 or better on each examination.

**9.7(5) Examinations for graduates of board-approved colleges of osteopathic medicine and surgery.**

*a.* COMLEX.

(1) COMLEX is a three-level examination that replaced the three-part NBOME examination. COMLEX Level 3 was first administered in February 1995; Level 2 was first administered in March

1997; and Level 1 was first administered in June 1998. All three examinations must be successfully completed in sequential order within ten years of the successful completion of COMLEX Level 1. Board certification by the ABMS or AOA is required if the applicant was not able to pass Levels 1, 2, and 3 within the required time as specified in this paragraph.

(2) A standard score of 400 on Level 1 or Level 2 is required to pass the examination. A standard score of 350 on Level 3 is required to pass the examination.

(3) A candidate shall have successfully completed a minimum of seven calendar months of resident training in a program approved by the board at the time of the application for Level 3 or enrollment in a resident training program approved by the board at the time of the application for Level 3.

(4) Successful completion of a progressive three-year resident training program is required if the applicant passes the examination after more than six attempts on Level 1 or six attempts on Level 2 CE and Level 2 PF combined or three attempts on Level 3.

(5) Each COMLEX level must be passed individually, and individual level scores shall not be averaged to compute an overall score.

(6) Level 3 may be taken and passed only after Levels 1 and 2 are passed.

(7) A failure of any COMLEX level, regardless of the jurisdiction for which it was taken, shall be considered a failure of that level for the purposes of Iowa licensure.

*b. NBOME.* The board accepts a passing score on the NBOME licensure examination for graduates of colleges of osteopathic medicine and surgery in any United States jurisdiction.

(1) NBOME was a three-part examination. All three parts must have been successfully completed in sequential order within seven years of the successful completion of NBOME Part 1.

(2) A passing score is required on each part of the examination.

(3) A candidate shall have successfully completed a minimum of seven calendar months of resident training in a program approved by the board at the time of the application for NBOME Part 3. Candidates shall have completed their resident training by the last day of the month in which the examination was taken.

(4) Successful completion of a three-year resident training program is required if the applicant passes the examination after more than six attempts on Part 1 or six attempts on Part 2 or three attempts on Part 3.

(5) Each NBOME part must have been passed individually, and individual part scores shall not be averaged to compute an overall score.

(6) Part 3 must have been taken and passed only after Parts 1 and 2 were passed.

(7) A failure of any NBOME part, regardless of the jurisdiction for which it was taken, shall be considered a failure of that part for the purposes of Iowa licensure.

**9.7(6) LMCC.**

*a.* The board accepts toward Iowa licensure a verification of a Licentiate's registration with the Medical Council of Canada, based on passing the Medical Council of Canada Examination.

*b.* The Medical Council of Canada may be contacted at P.O. Box/CP 8234, Station 'T', Ottawa, Ontario, Canada K1G 3H7 or (613)521-9417.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12]

**653—9.8(147,148) Permanent licensure application review process.** The process below shall be utilized to review each application. Priority shall be given to processing a licensure application when a written request is received in the board office from an applicant whose practice will primarily involve provision of services to underserved populations, including but not limited to persons who are minorities or low-income or who live in rural areas.

**9.8(1)** An application for initial licensure shall be considered open from the date the application form is received in the board office with the nonrefundable initial licensure fee.

**9.8(2)** After reviewing each application, staff shall notify the applicant about how to resolve any problems. An applicant shall provide additional information when requested by staff or the board. Staff shall refer an expedited endorsement applicant to the process for licensure by endorsement or to the committee if:

*a.* The applicant does not meet the requirements set forth in rule 653—9.6(147,148) for expedited endorsement; or

*b.* Staff has reasonable concerns about the accuracy or thoroughness of another jurisdiction's licensing process.

**9.8(3)** If the final review indicates no questions or concerns regarding the applicant's qualifications for licensure, staff may administratively grant the license. The staff may grant the license without having received a report on the applicant from the FBI.

**9.8(4)** If the final review indicates questions or concerns that cannot be remedied by continued communication with the physician, the executive director, director of licensure and administration and director of legal affairs shall determine if the questions or concerns indicate any uncertainty about the applicant's current qualifications for licensure.

*a.* If there is no current concern, staff shall administratively grant the license.

*b.* If any concern exists, the application shall be referred to the committee.

**9.8(5)** Staff shall refer to the committee for review matters which include but are not limited to: falsification of information on the application, criminal record, malpractice, substance abuse, competency, physical or mental illness, or professional disciplinary history.

**9.8(6)** If the committee is able to eliminate questions or concerns without dissension from staff or a committee member, the committee may direct staff to grant the license administratively.

**9.8(7)** If the committee is not able to eliminate questions or concerns without dissension from staff or a committee member, the committee shall recommend that the board:

*a.* Request an investigation;

*b.* Request that the applicant appear for an interview;

*c.* If the physician has not engaged in active practice in the past three years in any jurisdiction of the United States or Canada, require an applicant to:

(1) Successfully pass a competency evaluation approved by the board;

(2) Successfully pass SPEX, COMVEX-USA, or another examination approved by the board;

(3) Successfully complete a retraining program arranged by the physician and approved in advance by the board; or

(4) Successfully complete a reentry to practice program or monitoring program approved by the board.

*d.* Grant a license;

*e.* Grant a license under certain terms and conditions or with certain restrictions;

*f.* Request that the applicant withdraw the licensure application; or

*g.* Deny a license.

**9.8(8)** The board shall consider applications and recommendations from the committee and shall:

*a.* Request further investigation;

*b.* Require that the applicant appear for an interview;

*c.* If the physician has not engaged in active practice in the past three years in any jurisdiction of the United States or Canada, require an applicant to:

(1) Successfully pass a competency evaluation approved by the board;

(2) Successfully pass SPEX, COMVEX-USA, or another examination approved by the board;

(3) Successfully complete a retraining program arranged by the physician and approved in advance by the board; or

(4) Successfully complete a reentry to practice program or monitoring program approved by the board.

*d.* Grant a license;

*e.* Grant a license under certain terms and conditions or with certain restrictions;

*f.* Request that the applicant withdraw the licensure application; or

*g.* Deny a license. The board may deny a license for any grounds on which the board may discipline a license. The procedure for appealing a license denial is set forth in rule 653—9.15(147,148).

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12]

**653—9.9(147,148) Licensure application cycle.**

**9.9(1) Failure to submit application materials.** If the applicant does not submit all materials, including a completed fingerprint packet, within 90 days of the board's initial request for further information, the application shall be considered inactive. The board office shall notify the applicant of this change in status.

**9.9(2) Reactivation of the application.** To reactivate the application, an applicant shall submit a nonrefundable reactivation of application fee of \$150 and shall update credentials.

*a.* The period for requesting reactivation is limited to 90 days from the date the applicant is notified that the application is inactive, unless the applicant is granted an extension in writing by the committee or the board.

*b.* The period for reactivation of application shall extend 90 days from the date the request and fee are received in the board office. During this period, the applicant shall update credentials and submit the remaining requested materials unless granted an extension in writing by the committee or the board.

*c.* Once the reactivation period expires, an applicant must reapply and submit a new nonrefundable application fee and a new application, documents and credentials.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12]

**653—9.10(147,148) Discretionary board actions on licensure applications.** As circumstances warrant, the board may determine that any applicant for licensure is subject to the following:

**9.10(1)** The board may impose limits or restrictions on the practice of any applicant once licensed in this state that are equal in force to the limits or restrictions imposed on the applicant by any jurisdiction.

**9.10(2)** The board may defer final action on an application for licensure if there is an investigation or disciplinary action pending against an applicant in any jurisdiction until such time as the board is satisfied that licensure of the applicant poses no risk to the health and safety of Iowans.

**9.10(3)** The board is not precluded from taking disciplinary action after licensure is granted related to issues that arose in the licensure application process.

[ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.11(147,148) Issuance of a permanent license.**

**9.11(1) Issuance.** Upon the granting of permanent licensure, staff shall issue an original license to practice that shall expire on the first day of the licensee's birth month.

*a.* Licenses of persons born in even-numbered years shall expire in an even-numbered year, and licenses of persons born in odd-numbered years shall expire in an odd-numbered year.

*b.* The license shall not be issued for a period less than two months or greater than two years and two months, in accordance with the licensee's month and year of birth.

*c.* When a resident physician receives a permanent Iowa license, the resident physician license shall immediately become inactive.

*d.* When a physician with a special license receives a permanent Iowa license, the special license shall immediately become inactive.

**9.11(2) Display of license.** The original permanent license shall be displayed in the licensee's primary location of practice.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12]

**653—9.12(147,148) Notification required to change the board's data system.**

**9.12(1) Change of address.** A licensee shall notify the board of any change in the home address or the address of the place of practice within one month of making an address change.

**9.12(2) Change of name.** A licensee shall notify the board of any change in name within one month of making the name change. Notification requires a notarized copy of a marriage license or a notarized copy of court documents.

**9.12(3) Deceased.** A licensee file shall be closed and labeled "deceased" when the board receives a copy of the physician's death certificate.

[ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.13(147,148) Renewal of a permanent license.**

**9.13(1) *Renewal notice.*** Staff shall send a renewal notice by regular mail to each licensee at the licensee's last-known address at least 60 days prior to the expiration of the license.

**9.13(2) *Licensee obligation.*** The licensee is responsible for renewing the license prior to its expiration. Failure of the licensee to receive the notice does not relieve the licensee of responsibility for renewing that license.

**9.13(3) *Renewal application requirements.*** A licensee seeking renewal shall submit a completed renewal application; information on continuing education, training on chronic pain management, training on end-of-life care, and training on identifying and reporting abuse; and the required fee prior to the expiration date on the current license.

*a.* Renewal fee.

(1) The renewal fee is \$550 if renewal is made via paper application or \$450 if renewal is made via on-line application, per biennial period or a prorated portion thereof if the current license was issued for a period of less than 24 months.

(2) There is no renewal fee due for a physician who was on active duty in the U.S. armed forces, reserves or national guard during the renewal period. "Active duty" means full-time training or active service in the U.S. armed forces, reserves or national guard. A physician who fails to renew before the expiration of the license shall be charged a penalty fee as set forth in 653—paragraph 8.4(1) "d."

*b.* The requirements for continuing education and training on identifying and reporting abuse are found in 653—Chapter 11.

*c.* The first renewal fee shall be prorated on a monthly basis according to the date of issuance and the physician's month and year of birth, if the original permanent license was issued for a period of less than 24 months.

**9.13(4) *Issuance of a renewal.*** Upon receiving the completed renewal application, staff shall administratively issue a two-year license that expires on the first day of the licensee's birth month. In the event the board receives adverse information on the renewal application, the board shall issue the renewal license but may refer the adverse information for further consideration.

**9.13(5) *Renewal penalties.*** If the licensee fails to submit the renewal application and renewal fee prior to the expiration date on the current license, the licensee shall be charged a penalty fee as set forth in 653—paragraph 8.4(1) "d."

**9.13(6) *Failure to renew.*** Failure of the licensee to renew a license within two months following its expiration date shall cause the license to become inactive and invalid. A licensee whose license is invalid is prohibited from practice until the license is reinstated in accordance with rule 653—9.15(147,148).

*a.* In order to ensure that the license will not become inactive when a paper renewal form is used, the completed renewal application and appropriate fees must be received in the board office by the fifteenth of the month prior to the month the license becomes inactive. For example, a licensee whose license expires on January 1 has until March 1 to renew the license or the license becomes inactive and invalid. The licensee must submit and the board office must receive the renewal materials prior to or on February 15 to ensure that the license will be renewed prior to becoming inactive and invalid on March 1.

*b.* In order to ensure that the license will not become inactive when on-line renewal is used, the licensee must complete the on-line renewal prior to midnight of the last day of the month in the month after the expiration date on the license. For example, a licensee whose license expiration date is January 1 must complete the on-line renewal before midnight on the last day of February; the license becomes inactive and invalid at 12:01 a.m. on March 1.

**9.13(7) *Display of license.*** Renewal licenses shall be displayed along with the original permanent license in the primary location of practice.

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 0871C, IAB 7/24/13, effective 8/28/13]

**653—9.14(147,148) Inactive status and reinstatement of a permanent license.**

**9.14(1)** *Definition of inactive status.* An inactive license is any license that is not a current, active license.

*a.* “Inactive status” may include licenses formerly known as delinquent, lapsed, or retired.

*b.* A physician with an inactive license may not practice medicine until the license is reinstated to current, active status.

*c.* A physician whose license is inactive continues to hold the privilege of licensure in Iowa but may not practice medicine under an Iowa license until the license is reinstated to current, active status. A licensee who practices under an Iowa license when the license is inactive may be subject to disciplinary action by the board, injunctive action pursuant to Iowa Code section 147.83, criminal sanctions pursuant to Iowa Code section 147.86, or other available legal remedies.

**9.14(2)** *Mechanisms for becoming inactive.* A licensee seeking to become inactive may do so by submitting a written request to the board office or by failing to renew a license by the first day of the third month after the expiration date. For example, a licensee whose license expires on January 1 will be considered inactive if the license is not renewed by March 1.

**9.14(3)** *Fee.* There is no fee to become inactive.

[ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.15(147,148) Reinstatement of an unrestricted Iowa license.**

**9.15(1)** *Reinstatement within one year of the license’s becoming inactive.* An individual whose license is in inactive status for up to one year and who wishes to reinstate the license shall submit a completed renewal application; documentation of continuing education; training on chronic pain management, training on end-of-life care, and training on identifying and reporting abuse; and the reinstatement fee. All of the information shall be received in the board office within one year of the license’s becoming inactive for the applicant to reinstate under this subrule. For example, a physician whose license became inactive on March 1 has until the last day of the following February to renew under this subrule.

*a.* *Fees for reinstatement within one year of the license’s becoming inactive.* The reinstatement fee is \$550 except when the license in the most recent license period had been granted for less than 24 months; in that case, the reinstatement fee is prorated according to the date of issuance and the physician’s month and year of birth.

*b.* *Continuing education and training requirements.* The requirements for continuing education, training on chronic pain management, training on end-of-life care, and training on identifying and reporting abuse are found in 653—Chapter 11. Applicants for reinstatement shall provide documentation of having completed:

(1) The number of hours of category 1 credit needed for renewal in the most recent license period. None of the credits obtained in the inactive period may be carried over to a future license period; and

(2) Training on chronic pain management, end-of-life care, and identifying and reporting abuse, if applicable, within the previous five years.

*c.* *Issuance of a reinstated license.* Upon receiving the completed application, staff shall administratively issue a license that expires on the renewal date that would have been in effect if the licensee had renewed the license before the license expired.

*d.* *Reinstatement application process.* The applicant who fails to submit all reinstatement information required within 365 days of the license’s becoming inactive shall be required to meet the reinstatement requirements of 9.15(2). For example, if a physician’s license expires on January 1, the completed reinstatement application is due in the board office by December 31, in order to meet the requirements of this subrule.

**9.15(2)** *Reinstatement of an unrestricted Iowa license that has been inactive for one year or longer.* An individual whose license is in inactive status and who has not submitted a reinstatement application that was received by the board within one year of the license’s becoming inactive shall follow the application cycle specified in this rule and shall satisfy the following requirements for reinstatement:

a. Submit an application for reinstatement to the board upon forms provided by the board. The application shall require the following information:

(1) Full legal name, date and place of birth, license number, home address, mailing address and principal business address;

(2) A chronology accounting for all time periods from the date of initial licensure;

(3) Every jurisdiction in which the applicant is or has been authorized to practice including license numbers and dates of issuance;

(4) Verification of the applicant's hospital and clinical staff privileges, and other professional experience for the past five years if requested by the board;

(5) A statement disclosing and explaining any warnings issued, investigations conducted or disciplinary actions taken, whether by voluntary agreement or formal action, by a medical or professional regulatory authority, an educational institution, training or research program, or health facility in any jurisdiction;

(6) A statement of the applicant's physical and mental health, including full disclosure and a written explanation of any dysfunction or impairment which may affect the ability of the applicant to engage in practice and provide patients with safe and healthful care;

(7) A statement disclosing and explaining the applicant's involvement in civil litigation related to practice in any jurisdiction. Copies of the legal documents may be requested if needed during the review process;

(8) A statement disclosing and explaining any charge of a misdemeanor or felony involving the applicant filed in any jurisdiction, whether or not any appeal or other proceeding is pending to have the conviction or plea set aside; and

(9) A completed fingerprint packet to facilitate a national criminal history background check. The \$45 fee for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed to the applicant.

b. Pay the reinstatement fee of \$500 plus the \$45 fee identified in 653—subrule 8.4(6) for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks. No fee is required for reinstatement for those whose licenses became inactive between December 8, 1999, and July 4, 2001; however, the \$45 fee for the evaluation of the fingerprint packet and the DCI and FBI criminal history background checks will be assessed.

c. Provide documentation of completion of 80 hours of category 1 credit within the previous two years and documentation of training on chronic pain management, end-of-life care, and identifying and reporting abuse as specified in 653—Chapter 11.

d. If the physician has not engaged in active practice in the past three years in any jurisdiction of the United States or Canada, require an applicant to:

(1) Successfully pass a competency evaluation approved by the board;

(2) Successfully pass SPEX, COMVEX-USA, or another examination approved by the board;

(3) Successfully complete a retraining program arranged by the physician and approved in advance by the board; or

(4) Successfully complete a reentry to practice program or monitoring program approved by the board.

e. An individual who is able to submit a letter from the board with different reinstatement or reactivation criteria is eligible for reinstatement based on those criteria.

**9.15(3) Reinstatement application cycle and process.** The cycle and process are the same as described in rules 653—9.8(147,148) and 653—9.9(147,148).

[ARC 8554B, IAB 3/10/10, effective 4/14/10; ARC 0215C, IAB 7/25/12, effective 8/29/12; ARC 1187C, IAB 11/27/13, effective 1/1/14]

**653—9.16(147,148) Reinstatement of a restricted Iowa license.** A physician whose license has been suspended or revoked following a disciplinary proceeding is required to seek reinstatement pursuant to 653—Chapter 26.

[ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.17(147,148) Denial of licensure.**

**9.17(1) Preliminary notice of denial.** Prior to the denial of licensure to an applicant, the board shall issue a preliminary notice of denial that shall be sent to the applicant by regular, first-class mail at the address provided by the applicant. The preliminary notice of denial is a public record and shall cite the factual and legal basis for denying the application, notify the applicant of the appeal process, and specify the date upon which the denial will become final if it is not appealed.

**9.17(2) Appeal procedure.** An applicant who has received a preliminary notice of denial may appeal the denial and request a hearing on the issues related to the preliminary notice of denial by serving a request for hearing upon the executive director not more than 30 calendar days following the date when the preliminary notice of denial was mailed. The applicant's current address shall be provided in the request for hearing. The request is deemed filed on the date it is received in the board office. If the request is received with a USPS nonmetered postmark, the board shall consider the postmark date as the date the request is filed. The request shall specify the factual or legal errors and that the applicant desires an evidentiary hearing, and may provide additional written information or documents in support of licensure.

**9.17(3) Hearing.** If an applicant appeals the preliminary notice of denial and requests a hearing, the hearing shall be a contested case and subsequent proceedings shall be conducted in accordance with 653—25.30(17A).

- a. License denial hearings are contested cases open to the public.
- b. Either party may request issuance of a protective order in the event privileged or confidential information is submitted into evidence.
- c. Evidence supporting the denial of the license may be presented by an assistant attorney general.
- d. While each party shall have the burden of establishing the affirmative of matters asserted, the applicant shall have the ultimate burden of persuasion as to the applicant's qualification for licensure.
- e. The board, after a hearing on license denial, may grant or deny the application for licensure. The board shall state the reasons for its decision and may grant the license, grant the license with restrictions or deny the license. The final decision is a public record.
- f. Judicial review of a final order of the board denying licensure, or issuing a license with restrictions, may be sought in accordance with the provisions of Iowa Code section 17A.19, which are applicable to judicial review of any agency's final decision in a contested case.

**9.17(4) Finality.** If an applicant does not appeal a preliminary notice of denial in accordance with 9.17(2), the preliminary notice of denial automatically becomes final. A final denial of an application for licensure is a public record.

**9.17(5) Failure to pursue appeal.** If an applicant appeals a preliminary notice of denial in accordance with 9.17(2), but the applicant fails to pursue that appeal to a final decision within one year from the date of the preliminary notice of denial, the board may dismiss the appeal. The appeal may be dismissed only after the board sends a written notice by first-class mail to the applicant at the applicant's last-known address. The notice shall state that the appeal will be dismissed and the preliminary notice of denial will become final if the applicant does not contact the board to schedule the appeal hearing within 30 days of the date the letter is mailed from the board office. Upon dismissal of an appeal, the preliminary notice of denial becomes final. A final denial of an application for licensure under this rule is a public record.

[ARC 7756B, IAB 5/6/09, effective 6/10/09; ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.18(17A,147,148,272C) Waiver or variance requests.** Waiver or variance requests shall be submitted in conformance with 653—Chapter 3.

[ARC 8554B, IAB 3/10/10, effective 4/14/10]

**653—9.19(147,148) Relinquishment of license to practice.** A person's permanent license to practice medicine and surgery, osteopathic medicine and surgery, or administrative medicine shall be deemed relinquished if the person fails to apply for renewal or reinstatement of the license within five years after its expiration.

**9.19(1)** A license shall not be reinstated, reissued, or restored once it is relinquished. The person may apply for a new license pursuant to Iowa Code sections 148.3 and 148.11 and 653—Chapters 9 and 10.

**9.19(2)** The relinquishment of license may be stayed if, at the date of relinquishment, there is an active:

- a. Evaluation order pursuant to Iowa Code section 272C.9(1) and rule 653—24.4(272);
  - b. Combined statement of charges and settlement agreement pursuant to Iowa Code sections 17A.10(2) and 272C.3(4) and rule 653—25.3(17A);
  - c. Statement of charges pursuant to Iowa Code section 17A.12(2) and rule 653—25.4(17A);
  - d. Settlement agreement pursuant to Iowa Code sections 17A.10(2) and 272C.3(4) and rule 653—25.17(272C);
  - e. Final decision pursuant to Iowa Code sections 17A.12 and 272C.6 and rule 653—25.24(17A);
- or
- f. Application for reinstatement of the license pursuant to rule 653—9.15(147,148) or 653—9.16(147,148).

[ARC 2346C, IAB 1/6/16, effective 2/10/16]

These rules are intended to implement Iowa Code chapters 17A, 147, 148, and 272C.

## **NURSING BOARD[655]**

[Prior to 8/26/87, see Nursing, Board of[590], renamed Nursing Board[655]  
under the "umbrella" of Public Health Department by 1986 Iowa Acts, ch 1245]

### **CHAPTER 1 ADMINISTRATIVE AND REGULATORY AUTHORITY**

- 1.1(17A,147,152) Definitions for purposes of nursing board
- 1.2(17A,147,152) Severability
- 1.3(17A,147,152) Description and organization of the board
- 1.4(147,152,272C) Newsletter

### **CHAPTER 2 NURSING EDUCATION PROGRAMS**

- 2.1(152) Definitions
- 2.2(152) Application for interim approval of a nursing program
- 2.3(152) Approval and reapproval procedures
- 2.4(152) Provisional approval
- 2.5(152) Closure of an approved program
- 2.6(152) Organization and administration of the program
- 2.7(152) Resources of the controlling institution
- 2.8(152) Curriculum
- 2.9(152) Faculty
- 2.10(152) Program responsibilities
- 2.11(152) Student criminal history checks
- 2.12(152) Clinical facilities
- 2.13(152) Preceptorship
- 2.14(152) Results of graduates who take the licensure examination for the first time
- 2.15(152) Reports to the board

### **CHAPTER 3 LICENSURE TO PRACTICE—REGISTERED NURSE/LICENSED PRACTICAL NURSE**

- 3.1(17A,147,152,272C) Definitions
- 3.2(17A,147,152,272C) Mandatory licensure
- 3.3(17A,147,152,272C) Licensure qualifications for registered nurse and licensed practical nurse
- 3.4(17A,147,152,272C) Licensure by examination
- 3.5(17A,147,152,272C) Licensure by endorsement
- 3.6(17A,147,152,272C) Special licensure for those licensed in another country
- 3.7(17A,147,152,272C) License cycle
- 3.8(17A,147,152,272C) Verification
- 3.9(17A,272C) License denial

### **CHAPTER 4 DISCIPLINE**

- 4.1(17A,147,152,272C) Board authority
- 4.2(17A,147,152,272C) Complaints and investigations
- 4.3(17A,147,152,272C) Issuance of investigatory subpoenas
- 4.4(17A,147,152,272C) Board action
- 4.5(17A,147,152,272C) Peer review committee
- 4.6(17A,147,152,272C) Grounds for discipline
- 4.7(17A,147,152,272C) Sanctions
- 4.8(17A,147,152,272C) Voluntary surrender

CHAPTER 5  
CONTINUING EDUCATION

- 5.1(152) Definitions  
5.2(152) Continuing education — licensees  
5.3(152) Continuing education — providers

CHAPTER 6  
NURSING PRACTICE FOR  
REGISTERED NURSES/LICENSED PRACTICAL NURSES

- 6.1(152) Definitions  
6.2(152) Minimum standards of nursing practice for registered nurses  
6.3(152) Minimum standards of practice for licensed practical nurses  
6.4(152) Additional acts which may be performed by registered nurses  
6.5(152) Additional acts which may be performed by licensed practical nurses  
6.6(152) Specific nursing practice for licensed practical nurses  
6.7(152) Specific nursing practice for registered nurses

CHAPTER 7  
ADVANCED REGISTERED NURSE PRACTITIONERS

- 7.1(152) Definitions  
7.2(152) General requirements for the advanced registered nurse practitioner

CHAPTER 8  
PETITIONS FOR RULE MAKING  
(Uniform Rules)

- 8.1(17A) Petition for rule making  
8.3(17A) Inquiries

CHAPTER 9  
DECLARATORY ORDERS  
(Uniform Rules)

- 9.1(17A) Petition for declaratory order  
9.2(17A) Notice of petition  
9.3(17A) Intervention  
9.4(17A) Briefs  
9.5(17A) Inquiries  
9.6(17A) Service and filing of petitions and other papers  
9.7(17A) Consideration  
9.8(17A) Action on petition  
9.9(17A) Refusal to issue order  
9.12(17A) Effect of a declaratory order

CHAPTER 10  
AGENCY PROCEDURE FOR RULE MAKING  
(Uniform Rules)

- 10.3(17A) Public rule-making docket  
10.4(17A) Notice of proposed rule making  
10.5(17A) Public participation  
10.6(17A) Regulatory analysis  
10.10(17A) Exemptions from public rule-making procedures  
10.11(17A) Concise statement of reasons  
10.12(17A) Contents, style, and form of rule  
10.13(17A) Agency rule-making record

CHAPTER 11  
EXAMINATION OF PUBLIC RECORDS

- 11.1(17A,22,147,152,272C) Definitions
- 11.2(17A,22,147,152,272C) Public information and inspection of records
- 11.3(17A,22,147,152,272C) Personally identifiable information
- 11.4(17A,22,147,152,272C) Notice to suppliers of information
- 11.5(17A,22,147,152,272C) Rosters

CHAPTER 12  
REGISTERED NURSE CERTIFYING ORGANIZATIONS/  
UTILIZATION AND COST CONTROL REVIEW

- 12.1(509,514,514B,514F) Purpose
- 12.2(509,514,514B,514F) Definition
- 12.3(509,514,514B) National certifying organizations
- 12.4(514F) Utilization and cost control review (U.C.C.R.) committee
- 12.5(514F) Selection and composition of the U.C.C.R. committee
- 12.6(514F) Scope of review
- 12.7(514F) Procedures for utilization and cost control review

CHAPTER 13  
DISCIPLINARY HEARING COSTS

- 13.1(152,272C) Disciplinary hearings—fees and costs

CHAPTER 14  
FAIR INFORMATION PRACTICES  
(Uniform Rules)

- 14.1(17A,22) Definitions
- 14.3(17A,22) Requests for access to records
- 14.6(17A,22) Procedure by which additions, dissents, or objections may be entered into certain records
- 14.7(17A,22) Consent to disclosure by the subject of a confidential record
- 14.8(17A,22) Notice to suppliers of information

CHAPTER 15  
WAIVER AND VARIANCE RULES

- 15.1(147,ExecOrd8,78GA,ch1176) Definition
- 15.2(147,ExecOrd8,78GA,ch1176) Scope of chapter
- 15.3(147,ExecOrd8,78GA,ch1176) Applicability of chapter
- 15.4(147,ExecOrd8,78GA,ch1176) Criteria for waiver or variance
- 15.5(147,ExecOrd8,78GA,ch1176) Filing of petition
- 15.6(147,ExecOrd8,78GA,ch1176) Content of petition
- 15.7(147,ExecOrd8,78GA,ch1176) Additional information
- 15.8(147,ExecOrd8,78GA,ch1176) Notice
- 15.9(147,ExecOrd8,78GA,ch1176) Hearing procedures
- 15.10(147,ExecOrd8,78GA,ch1176) Ruling
- 15.11(147,ExecOrd8,78GA,ch1176) Public availability
- 15.12(147,ExecOrd8,78GA,ch1176) Summary reports
- 15.13(147,ExecOrd8,78GA,ch1176) Cancellation of a waiver
- 15.14(147,ExecOrd8,78GA,ch1176) Violations
- 15.15(147,ExecOrd8,78GA,ch1176) Defense
- 15.16(147,ExecOrd8,78GA,ch1176) Judicial review

CHAPTER 16  
NURSE LICENSURE COMPACT

- 16.1(152E) Definitions  
 16.2(152E) Issuance of a license by a compact party state  
 16.3(152E) Limitations on multistate licensure privilege—discipline  
 16.4(152E) Information system

CHAPTER 17  
NONPAYMENT OF CHILD SUPPORT, STUDENT LOAN, OR STATE DEBT

DIVISION I  
NONPAYMENT OF CHILD SUPPORT

- 17.1(252J) Definitions  
 17.2(252J) Denial of issuance or renewal of a license—nonpayment of child support  
 17.3(252J) Suspension or revocation of a license—nonpayment of child support

DIVISION II  
NONPAYMENT OF STUDENT LOAN

- 17.4(261) Definitions  
 17.5(261) Denial of issuance or renewal of a license—nonpayment of student loan  
 17.6(261) Suspension or revocation of a license—nonpayment of student loan

DIVISION III  
NONPAYMENT OF STATE DEBT

- 17.7(272D) Definitions  
 17.8(272D) Denial of issuance or renewal of a license—nonpayment of state debt  
 17.9(272D) Suspension or revocation of a license—nonpayment of state debt

CHAPTER 18  
MILITARY SERVICE AND VETERAN RECIPROCITY

- 18.1(85GA,ch1116) Definitions  
 18.2(85GA,ch1116) Military education, training, and service credit  
 18.3(85GA,ch1116) Veteran reciprocity

CHAPTER 19  
IOWA NURSE ASSISTANCE PROGRAM

- 19.1(272C) Iowa nurse assistance program committee  
 19.2(272C) Definitions  
 19.3(272C) Organization of the committee  
 19.4(272C) Eligibility  
 19.5(272C) Terms of participation  
 19.6(272C) Limitations  
 19.7(272C) Confidentiality  
 19.8(28E) Authority for 28E agreements

CHAPTER 20  
CONTESTED CASES

- 20.1(17A,272C) Scope and applicability  
 20.2(17A,272C) Definitions  
 20.3(17A,272C) Time requirements  
 20.4(17A,272C) Applicability of Iowa Rules of Civil Procedure  
 20.5(17A,272C) Combined statement of charges and settlement agreement  
 20.6(17A,272C) Notice of hearing  
 20.7(17A,272C) Statement of charges  
 20.8(13,272C) Legal representation  
 20.9(17A,272C) Presiding officer in a disciplinary contested case

20.10(17A,272C)	Presiding officer in a nondisciplinary contested case
20.11(17A,272C)	Disqualification
20.12(17A,272C)	Waiver of procedures
20.13(17A,272C)	Telephone or electronic proceedings
20.14(17A,272C)	Consolidation—severance
20.15(17A,272C)	Appearance
20.16(17A,272C)	Answer
20.17(17A,272C)	Filing and service of documents
20.18(272C)	Investigative file
20.19(17A,272C)	Discovery
20.20(17A,272C)	Issuance of subpoenas in a contested case
20.21(17A,272C)	Motions
20.22(17A,272C)	Prehearing conferences
20.23(17A,272C)	Continuances
20.24(17A,272C)	Settlement agreements
20.25(17A,272C)	Hearing procedures in contested cases
20.26(17A,272C)	Evidence
20.27(17A,272C)	Default
20.28(17A,272C)	Ex parte communication
20.29(17A,272C)	Recording
20.30(17A,272C)	Proposed decisions
20.31(17A,272C)	Final decisions
20.32(17A,272C)	Applications for rehearing
20.33(17A,272C)	Stays of agency actions
20.34(17A,272C)	No factual dispute contested cases
20.35(17A,272C)	Emergency adjudicative proceedings
20.36(17A,147,272C)	Application for reinstatement
20.37(17A,22,272C)	Dissemination of public records
20.38(17A)	Judicial review

CHAPTER 3  
LICENSURE TO PRACTICE—REGISTERED NURSE/LICENSED PRACTICAL NURSE

**655—3.1(17A,147,152,272C) Definitions.**

*“Accredited or approved nursing program”* means a nursing education program whose status has been recognized by the board or by a similar board in another jurisdiction that prepares individuals for licensure as a licensed practical nurse, registered nurse, or advanced registered nurse practitioner; or grants a baccalaureate, master’s or doctorate degree with a major in nursing.

*“Address”* means a street address in any state when a street address is available or a rural route address when a street address is not available.

*“Applicant”* means a person who is qualified to take the examination or apply for licensure by endorsement.

*“Endorsement”* means the process by which a registered nurse/licensed practical nurse licensed in another jurisdiction becomes licensed in Iowa.

*“Examination”* means the tests used to determine minimum competency prior to the issuance of a registered nurse/licensed practical nurse license.

*“Fees”* means those fees collected which are based upon the cost of sustaining the board’s mission to protect the public health, safety and welfare. The nonrefundable fees set by the board are as follows:

1. Application for original license based on the registered nurse examination, \$93 (plus the fee for evaluation of the fingerprint cards and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI)).

2. Application for original license based on the practical nurse examination, \$93 (plus the fee for evaluation of the fingerprint cards and the criminal history background checks by the DCI and the FBI).

3. Application for registered nurse/licensed practical nurse license by endorsement, \$119 (plus the fee for evaluation of the fingerprint cards and the criminal history background checks by the DCI and the FBI).

4. Application for original license or renewal as an advanced registered nurse practitioner, \$81 for any period of licensure up to three years.

5. For a certified statement that a registered nurse/licensed practical nurse is licensed in this state or registered as an advanced registered nurse practitioner, \$25.

6. For written verification of licensure status, not requiring certified statements, \$3 per license.

7. For reactivation of a license to practice as a registered nurse/licensed practical nurse, \$175 for a license lasting more than 24 months up to 36 months (plus the fee for evaluation of the fingerprint cards and the criminal history background checks by the DCI and the FBI).

8. For reactivation of a license to practice as an advanced registered nurse practitioner, \$81 for any period of licensure up to three years.

9. For the renewal of a license to practice as a registered nurse/licensed practical nurse, \$99 for a three-year period.

10. For a duplicate or reissued wallet card or original certificate to practice as a registered nurse, licensed practical nurse, or advanced registered nurse practitioner, \$20.

11. For late renewal of a registered nurse/licensed practical nurse license, \$50, plus the renewal fee as specified in paragraph “9” of this definition.

12. For a check returned for any reason, \$15. If licensure/registration has been issued by the board office based on a check for the payment of fees and the check is later returned by the bank, the board shall request payment by certified check or money order.

13. For a certified copy of an original document, \$20.

14. For special licensure, \$62.

15. For the evaluation of the fingerprint cards and the DCI and FBI criminal history background checks, \$50.

*“Inactive license”* means a registered nurse or licensed practical nurse license that has been placed on inactive status because it was not renewed by the fifteenth day of the month following the expiration date, or the board has received notification that a licensee has declared another compact state as primary

state of residency. Pursuant to 655—subrule 16.2(8), the former home state license shall no longer be valid upon the issuance of a new home state license.

“*Late license*” means a registered nurse or licensed practical nurse license that has not been renewed by the expiration date on the wallet card. The time between the expiration date and the fifteenth day of the month following the expiration date is considered a grace period.

“*Licensee*” means a person who has been issued a license to practice as a registered nurse, licensed practical nurse or advanced registered nurse practitioner under the laws of this state.

“*NCLEX®*” means National Council Licensure Examination for registered nurse/licensed practical nurse licensure.

“*Overpayment*” means payment in excess of the required fee. Overpayment less than \$10 received by the board shall not be refunded.

“*Reactivation*” means the process whereby an inactive licensee obtains a current license.

“*Reinstatement*,” pursuant to rule 655—20.36(17A,147,152,272C), means the process by which any person whose license to practice nursing has been suspended, revoked or voluntarily surrendered by order of the board may apply for license consideration.

“*Temporary license*” means a license issued on a short-term basis for a specified time pursuant to subrule 3.5(4).

“*Unlicensed student*” means a person enrolled in a nursing education program who has never been licensed as a registered nurse or licensed practical/vocational nurse in any U.S. jurisdiction.

“*Verification*” means the process whereby the board provides a certified statement that the license of a registered nurse/licensed practical nurse/advanced registered nurse practitioner is active, inactive, or encumbered/disciplined.

This rule is intended to implement Iowa Code sections 147.80 and 147.82.

[ARC 1130C, IAB 10/30/13, effective 12/4/13; ARC 1815C, IAB 1/7/15, effective 2/11/15; ARC 2339C, IAB 1/6/16, effective 2/10/16]

### **655—3.2(17A,147,152,272C) Mandatory licensure.**

**3.2(1)** A person who practices nursing in the state of Iowa as defined in Iowa Code section 152.1, outside of one’s family, shall have a current Iowa license, whether or not the employer is in Iowa and whether or not the person receives compensation. Any nurse who participates in the care of a patient situated in Iowa, whether that care is provided through telephonic, electronic or in-person means, and regardless of the location of the nurse, must obtain Iowa licensure unless specifically exempted by the licensure compact agreement. The nurse shall maintain verification of licensure and shall have it available for inspection when engaged in the practice of nursing in Iowa.

**3.2(2)** Current Iowa licensure is not mandatory when:

*a.* A nurse who resides in another party state is recognized for licensure in this state pursuant to the nurse licensure compact contained in Iowa Code chapter 152E. The nurse shall maintain verification of licensure and shall have it available for inspection when engaged in the practice of nursing in Iowa.

*b.* A nurse who holds an active license in another state provides services to patients in Iowa only during interstate transit.

*c.* A nurse who holds an active license in another state provides emergency services in an area in which the governor of Iowa has declared a state of emergency.

**3.2(3)** A nurse who is enrolled in an approved nursing program shall hold an active license in the U.S. jurisdiction(s) in which the nurse provides patient care.

This rule is intended to implement Iowa Code section 147.2.

[ARC 1815C, IAB 1/7/15, effective 2/11/15]

### **655—3.3(17A,147,152,272C) Licensure qualifications for registered nurse and licensed practical nurse.**

**3.3(1)** Applicants shall meet the requirements set forth in Iowa Code sections 147.3 and 152.7. Requirements include:

*a.* Graduation from an approved nursing program preparing registered nurses as defined in Iowa Code section 152.5(1) for registered nurse applicants or graduation from an approved nursing

program preparing practical nurses as defined in Iowa Code section 152.5(1) for licensed practical nurse applicants.

*b.* Passing NCLEX® or the State Board Test Pool Examination, the national examination used prior to 1982.

*c.* Board approval of an applicant with a criminal history or a record of prior disciplinary action, regardless of jurisdiction.

**3.3(2)** The requirement listed in paragraph 3.3(1) “*b*” is subject to the following exceptions:

*a.* A practical nurse applicant must have written the same examination as that administered in Iowa and achieved a score established as passing for that test by the board unless the applicant graduated and was licensed prior to July 1951.

*b.* An applicant whose national examination scores do not meet the Iowa requirements in effect at the time of the examination and who wishes to become licensed in Iowa may appeal to the board. The board may require the applicant to pass the current examination.

This rule is intended to implement Iowa Code sections 147.2 and 152.7(3).

[ARC 8222B, IAB 10/7/09, effective 11/11/09; ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.4(17A,147,152,272C) Licensure by examination.**

**3.4(1)** Applicants shall meet qualifications for licensure set forth in subrule 3.3(1).

**3.4(2)** The board contracts with the National Council of State Boards of Nursing, Inc. to use the NCLEX® for registered nurses and licensed practical nurses.

*a.* The NCLEX® is administered according to guidelines and passing standards established by the National Council of State Boards of Nursing, Inc.

*b.* NCLEX® results are reported as pass or fail.

*c.* Examination statistics are available to the public.

**3.4(3)** Application—graduates of approved programs.

*a.* The board shall:

(1) Provide information about licensure application to applicants, nursing education programs in Iowa, and others upon request.

(2) Determine eligibility of each applicant upon receipt of an application, fees, official nursing transcript, fingerprint cards and a signed waiver form.

*b.* The applicant shall:

(1) Submit a completed application for license by examination.

(2) Submit two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check. The fee for the evaluation of the fingerprint cards and the DCI and FBI criminal history background checks will be assessed to the applicant.

(3) Submit fee for application for license by examination plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C). All fees are nonrefundable.

(4) Register for the NCLEX® and submit registration fee to the national test service agency.

(5) Direct the nursing program to submit to the board an official nursing transcript denoting the date of graduation and diploma or degree conferred.

(6) Inform the board that the primary state of residence is Iowa or a noncompact state and provide a current street address and mailing address, if different.

(7) Submit a copy of the court document(s) with the license application if the applicant has a criminal history.

(8) Complete NCLEX® registration through the national test service agency within 12 months of board receipt of the application for license, fingerprint cards, signed waiver form, and fees. The board reserves the right to destroy documents after 12 months.

(9) Self-schedule the examination with an approved testing center.

(10) Applicants who do not test within 91 days of authorization from the national test service agency are required to submit a new application and fee to the board.

**3.4(4)** Application—individuals educated and licensed in another country.

- a.* The board shall:
- (1) Provide information about licensure application to applicants and others upon request.
  - (2) Determine eligibility of each applicant upon receipt of:
    1. Application for license by examination.
    2. Two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check.
    3. Application fee for license by examination plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C). All fees are nonrefundable.
    4. Official nursing transcript denoting date of graduation validated by the Commission on Graduates of Foreign Nursing Schools (CGFNS) International.
    5. Validation of licensure/registration in the original country by CGFNS International.
    6. Credentials Evaluation Service Professional report submitted by CGFNS International for licensed practical nurse and registered nurse applicants.
    7. Verification of ability to read, write, speak and understand the English language as determined by the results of the International English Language Testing System (IELTS), Pearson Test of English Academic (PTE), or Test of English as a Foreign Language (TOEFL) for licensed practical nurse and registered nurse applicants. Applicants shall be exempt from the IELTS, PTE or TOEFL examination when the native language is English; nursing education was completed in a college, university or professional school located in Australia, Barbados, Canada (except Quebec), Ireland, Jamaica, New Zealand, South Africa, Trinidad and Tobago, or the United Kingdom; language of instruction in the nursing program was English; and language of the textbooks in the nursing program was English.
- b.* The applicant shall:
- (1) Submit completed application for license by examination, including two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check.
  - (2) Submit fee for application for license by examination plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C). All fees are nonrefundable.
  - (3) Register for the NCLEX® and submit registration fee to the national test service agency.
  - (4) Direct CGFNS International to validate the official nursing transcript.
  - (5) Direct CGFNS International to validate licensure/registration in the original country.
  - (6) Complete the Credentials Evaluation Service Professional report application through CGFNS International for licensed practical nurse and registered nurse applicants.
  - (7) Complete IELTS, PTE or TOEFL requirements for licensed practical nurse and registered nurse applicants, unless exempt.
  - (8) Inform the board of primary state of residence and a current street address and mailing address, if different.
  - (9) Submit a copy of the court document(s) with the license application if the applicant has a criminal history.
  - (10) Self-schedule the examination with an approved testing center.
  - (11) Complete NCLEX® registration through the national test service agency within 12 months of board receipt of the application for license, fingerprint cards, signed waiver form, and fees. The board reserves the right to destroy documents after 12 months.
  - (12) Applicants who do not test within 91 days of authorization from the national test service agency are required to submit a new application and fee to the board.
- 3.4(5) Application—individuals with disabilities.** Individuals with disabilities as defined in the Americans with Disabilities Act shall be provided modifications during the NCLEX®.
- a.* The board shall:
- (1) Notify applicants of the availability of test modifications for individuals with documented disabilities.
  - (2) Upon request, notify applicants of the process for obtaining board approval of test modification as defined in paragraph 3.4(5) “*b.*”

- (3) Determine eligibility for test modification upon receipt of:
  1. Written request from the applicant for test modifications during the NCLEX®.
  2. Written documentation of the applicant's disability and need for test modifications, including results of appropriate diagnostic testing, submitted by a qualified professional with expertise in the area of the diagnosed disability.
  3. Written documentation of test modifications, if any, granted to the applicant while enrolled in the nursing education program.
    - b. The applicant shall:
      - (1) Submit to the board a written request for specific modifications during the NCLEX®.
      - (2) Obtain appropriate documentation supporting the request for accommodations, including results of appropriate diagnostic testing, submitted by a qualified professional with expertise in the areas of the diagnosed disability. Documentation could include recent reports, test results, evaluations and assessments of the candidate's need for accommodations due to a disability (physical or mental impairment) that substantially limits one or more major life activities.
      - (3) Direct the nursing program to submit to the board documentation of test modifications provided to the applicant while enrolled in the nursing education program, if any were granted.
      - (4) Complete examination application requirements defined in subrule 3.4(3) or 3.4(4).

**3.4(6) Reexamination.**

- a. An applicant who has graduated from an approved practical nurse program and has failed the NCLEX-PN® is eligible to take the NCLEX-PN® an indefinite number of times.
- b. An applicant who has graduated from an approved registered nurse program and has failed the NCLEX-RN® is eligible to take the NCLEX-RN® an indefinite number of times.
- c. An applicant who fails the NCLEX® and reapplies within 12 months for license by examination shall be required to complete an application for license by examination, submit the fee for application by examination, complete NCLEX® registration and submit a registration fee to the national test service agency.
- d. An applicant who fails the NCLEX® and reapplies, after 12 months have passed, for license by examination shall be required to complete an application for license by examination, submit two completed fingerprint cards, a signed waiver form, and the fee for evaluation of the fingerprint cards and the criminal history background checks by the Iowa division of criminal investigation (DCI) and the Federal Bureau of Investigation (FBI), pursuant to rule 655—3.1(17A,147,152,272C), complete NCLEX® registration and submit a registration fee to the national test service agency.
- e. Applicants for the examination who do not appear for the appointment or do not complete the examination will be required to complete the examination requirements defined in paragraphs 3.4(6) "a" to "d."

**3.4(7) Certificate of license by examination.** Upon completion of the relevant qualifications for license by examination and passing of the NCLEX® as defined in these rules, the board shall issue a certificate of license by examination and a current license to practice as a registered nurse/licensed practical nurse. The board staff may issue a certificate of license prior to receipt of a report on the applicant from the DCI/FBI.

This rule is intended to implement Iowa Code sections 147.36, 147.80 and 152.7(3).  
[ARC 8222B, IAB 10/7/09, effective 11/11/09; ARC 8810B, IAB 6/2/10, effective 7/7/10; ARC 1131C, IAB 10/30/13, effective 12/4/13; ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.5(17A,147,152,272C) Licensure by endorsement.**

**3.5(1) Qualifications for licensure by endorsement.** The endorsee shall meet the qualifications for licensure defined in subrule 3.3(1).

**3.5(2) Applicants currently licensed in another state.** Application for licensure to practice as a registered nurse or licensed practical nurse by endorsement shall be made according to the following process:

- a. The board shall:
  - (1) Provide application forms and instructions to applicants upon request.

(2) Determine eligibility of each applicant upon receipt of an application, fees, official nursing transcript, and verification of license submitted by state of original license or the National Council of State Boards of Nursing, Inc., electronic nurse licensure system (NURSYS®).

*b.* The applicant shall:

(1) Submit a completed application form for license by endorsement.

(2) Submit two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check. The fee for the evaluation of the fingerprint cards and the DCI and FBI criminal history background checks will be assessed to the applicant.

(3) Submit the fee for license by endorsement plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C). All fees are nonrefundable.

(4) Direct the nursing program to submit to the board an official nursing transcript denoting the date of graduation and diploma or degree conferred.

(5) Provide verification of state of original licensure by one of the following:

1. Submit the application form for verification of original licensure to state of original licensure.

2. Apply directly to the online verification system (NURSYS®) if the original state of licensure participates in NURSYS®.

(6) Attest that Iowa is the primary state of residence if the applicant is changing primary state of residence from another party state as outlined in rule 655—16.2(152E) or that the primary state of residence is a noncompact state. The board may request evidence of residency.

(7) Complete the application process within 12 months from the date of receipt of the application. The board reserves the right to destroy the documents after 12 months.

*c.* An endorsement applicant who has been disciplined by a licensing authority in another state must indicate the jurisdiction of the action(s) when submitting application materials. A copy of all relevant disciplinary documents will be obtained for board review prior to a determination regarding licensure. The board may impose conditions for licensure.

*d.* An endorsement applicant who has a criminal history must submit a copy of the court document(s) when submitting application materials. The board may impose conditions for licensure.

*e.* An applicant who fails to complete the licensure process within 12 months from the date of receipt of the application must reapply.

**3.5(3)** *Application—individuals educated and licensed in another country.*

*a.* The board shall:

(1) Provide application forms and instructions to applicants upon request.

(2) Determine eligibility of each applicant upon receipt of an application, two completed fingerprint cards and a signed waiver form, fees, official nursing transcript denoting date of graduation validated by CGFNS International, validation of licensure/registration in the original country by CGFNS International, Credentials Evaluation Service Professional report from CGFNS International, and verification of original license submitted by state of original license or the National Council of State Boards of Nursing, Inc., electronic nurse licensure system (NURSYS®).

*b.* The applicant shall:

(1) Submit completed application for licensure by endorsement, including two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check.

(2) Submit fee for application for licensure by endorsement plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C). All fees are nonrefundable.

(3) Direct CGFNS International to validate the official nursing transcript.

(4) Direct CGFNS International to validate licensure/registration in the original country.

(5) Complete the Credentials Evaluation Service Professional report application through CGFNS International for licensed practical nurse and registered nurse applicants, or direct CGFNS International to verify that a certificate letter was issued, or send the completed Credentials Evaluation Service Professional report to the board.

(6) Inform the board of primary state of residence and a current street address and mailing address, if different.

(7) Submit a copy of the court document(s) with the license application if an applicant has a criminal history.

**3.5(4) Temporary license.** A temporary license shall be issued to an applicant who is licensed in another state if the applicant meets the qualifications for a license as outlined in subrule 3.3(1). The application form and endorsement fee plus the fee for evaluation of the fingerprint cards and the criminal history background checks as identified in the definition of “fees” in rule 655—3.1(17A,147,152,272C), verification of license form and two completed fingerprint cards and signed waiver form to facilitate a national criminal history background check shall be on file in the office of the board prior to the issuance of the temporary license.

a. A temporary licensee may use the appropriate title of registered nurse or licensed practical nurse and the appropriate abbreviation R.N. or L.P.N.

b. The temporary wallet card must be signed by the licensee to be valid. The temporary license shall be issued for a period of 30 days. A second temporary license may be issued for a period not to exceed 30 days or at the discretion of the executive director.

c. A temporary license may be issued to an applicant who has incurred disciplinary action in another state when the license is not currently encumbered.

d. A temporary license may not be issued to an applicant with a criminal history.

e. A temporary license shall not be issued to an applicant educated and licensed in another country until the Credentials Evaluation Service Professional report application through CGFNS International has been received by the board, CGFNS International has verified that a certificate letter was issued, or CGFNS International submits a previously completed Credentials Evaluation Service Professional report to the board.

**3.5(5) Certificate of license by endorsement.** Upon completion of the endorsement procedures defined in these rules, the board shall issue a certificate of license by endorsement and a current license to practice as a registered nurse/licensed practical nurse. The board staff may issue a certificate of license prior to receipt of a report on the applicant from the DCI/FBI.

This rule is intended to implement Iowa Code sections 147.2 and 152.9.  
[ARC 8222B, IAB 10/7/09, effective 11/11/09; ARC 8810B, IAB 6/2/10, effective 7/7/10; ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.6(17A,147,152,272C) Special licensure for those licensed in another country.** A special license may be granted by the board on an individual basis to allow a nurse licensed in another country who is not eligible for endorsement to practice nursing in Iowa for a fixed period of time under certain conditions. Special licensure shall allow the nurse to provide care in a specialty area, provide consultation or teaching where care is directed, serve as a research or teaching assistant, or obtain clinically based continuing education.

1. Upon request, the board shall provide application materials to the applicant or sponsor.

2. The applicant shall provide identifying information, criminal history, history of licensure in another jurisdiction, and reason for special licensure.

3. The applicant shall complete the application, submit a fee as identified in rule 655—3.1(17A,147,152,272C), and provide evidence of certification by CGFNS International, official results of the TOEFL test or official results of the International English Language Testing System (IELTS). The applicant shall have a minimum score of 540 for the paper-based TOEFL test, a minimum score of 207 for the computer-based TOEFL test, or a minimum score of 83 for the Internet-based TOEFL test. The applicant shall score a minimum of 6.5 for the IELTS test.

4. Board staff shall determine the validity of the request based on the need, duration and location of special licensure identified on the application, and staff shall notify the applicant of ineligibility for special licensure if the application is incomplete or indicates a criminal history or evidence of licensure in another jurisdiction.

5. The board shall grant special licensure to eligible applicants. The license shall be identified as a special license and identify duration and conditions as designated in this rule. The period of special licensure shall be determined by the board and may be extended at the request of the applicant.

6. If the board denies special licensure, the individual may be eligible for licensure by examination in accordance with subrule 3.4(4).

7. The licensee shall be subject to all rules and regulations promulgated by the board except those pertaining to verification, renewal, late renewal, inactivation, reactivation and continuing education requirements.

This rule is intended to implement Iowa Code section 147.2.

[ARC 8222B, IAB 10/7/09, effective 11/11/09; ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.7(17A,147,152,272C) License cycle.**

**3.7(1) Name and address changes.** Written notification to the board of name and address changes is required within 30 days of the event. Licensure documents are mailed to the licensee at the address on file in the board office. There is no fee for a change of name or address in board records.

**3.7(2) New licenses.** The board shall issue licenses by endorsement and examination for a 24- to 36-month period. When the license is renewed, it will be placed on a three-year renewal cycle. Expiration shall be on the fifteenth day of the birth month.

**3.7(3) Renewal.** The licensee may renew the license beginning 60 days prior to license expiration. Renewal is available online at the board's Web site or by mail upon request. When the licensee has satisfactorily completed the requirements for renewal, a wallet card shall be mailed to the licensee.

*a.* The licensee shall:

(1) Attest that Iowa is the primary state of residence as outlined in rule 655—16.2(152E) or that the primary state of residence is a noncompact state. The board may request evidence of residency.

(2) Submit the renewal application and the renewal fee as specified in rule 655—3.1(17A,147,152, 272C).

(3) Meet the continuing education requirement as set forth in 655—Chapter 5, prior to license renewal.

(4) Complete the required mandatory reporter training set forth in paragraph 3.7(3)“*b.*”

*b.* Mandatory reporter training.

(1) The course shall be a curriculum approved by the Iowa department of public health.

(2) A licensee who regularly examines, attends, counsels or treats children in Iowa shall indicate on the renewal application completion of two hours of training in child abuse identification and reporting in the previous five years or condition(s) for rule suspension as identified in subparagraph 3.7(3)“*b*”(6).

(3) A licensee who regularly examines, attends, counsels or treats adults in Iowa shall indicate on the renewal application completion of two hours of training in dependent adult abuse identification and reporting in the previous five years or condition(s) for rule suspension as identified in subparagraph 3.7(3)“*b*”(6).

(4) A licensee who regularly examines, attends, counsels or treats both adults and children in Iowa shall indicate on the renewal application completion of training on abuse identification and reporting in dependent adults and children or condition(s) for rule suspension as identified in subparagraph 3.7(3)“*b*”(6). Training may be completed through separate courses as identified in subparagraphs 3.7(3)“*b*”(2) and (3) or in one combined two-hour course that includes curricula for identifying and reporting child abuse and dependent adult abuse.

(5) The licensee shall maintain written documentation for five years after mandatory training as identified in subparagraphs 3.7(3)“*b*”(2) to (4), including program date(s), content, duration, and proof of participation.

(6) The requirement for mandatory training for identifying and reporting child and dependent adult abuse shall be suspended if the board determines that suspension is in the public interest or that a person at the time of license renewal:

1. Is engaged in active duty in the military service of this state or the United States.

2. Holds a current waiver by the board based on evidence of significant hardship in complying with training requirements, including waiver of continuing education requirements or extension of time in which to fulfill requirements due to a physical or mental disability or illness as identified in 655—Chapter 5.

(7) The board may select licensees for audit of compliance with the requirements in subparagraphs 3.7(3)“b”(1) to (6).

**3.7(4) *Late renewal.*** The license shall become late when the license has not been renewed by the expiration date on the wallet card. The licensee shall be assessed a late fee as specified in rule 655—3.1(17A,147,152,272C).

To renew a late license, the licensee shall complete the renewal requirements and submit the late fee before the fifteenth day of the month following the expiration date on the wallet card.

**3.7(5) *Inactive status.*** The license shall become inactive when the license has not been renewed by the fifteenth day of the month following the expiration date on the wallet card or the board office has been notified by another compact state that a licensee has declared a new primary state. Pursuant to 655—subrule 16.2(8), the former home state license shall no longer be valid upon the issuance of a new home state license.

a. If the inactive license is not reactivated, it shall remain inactive.

b. If the licensee resides in Iowa or a noncompact state, the licensee shall not practice nursing in Iowa until the license is reactivated to active status. If the licensee is identified as practicing nursing with an inactive license, disciplinary proceedings shall be initiated.

c. The licensee is not required to obtain continuing education credit or pay fees while the license is inactive.

d. To reactivate the license, the licensee shall complete the reactivation requirements.

(1) The licensee shall be provided an application, a continuing education report form, two fingerprint cards, a waiver form, and statement of the fees. The reactivation fee and criminal history background check fee are specified in the definition of “fees” in rule 655—3.1(17A,147,152,272C).

(2) The licensee shall have obtained 12 contact hours of continuing education, as specified in 655—Chapter 5, within the 12 months prior to reactivation.

(3) Upon receipt of the completed reactivation application, required continuing education materials, two completed fingerprint cards and a signed waiver form to facilitate a national criminal history background check, fees for both the reactivation and the criminal history background check and verification that the primary state of residence is Iowa or a noncompact state, the licensee shall be issued a license for a 24- to 36-month period. At the time of the next renewal, the license will be placed on a three-year renewal cycle. Expiration shall be on the fifteenth day of the licensee’s birth month. The board staff may issue a certificate of license prior to receipt of a report on the applicant from the DCI/FBI.

(4) An applicant who fails to complete the reactivation of licensure process within 12 months from the date of application must reapply. All fees are nonrefundable.

**3.7(6) *Duplicate wallet card or certificate.*** A duplicate wallet card or certificate shall be required if the current card or certificate is lost, stolen, destroyed or not received by the licensee within 60 days from the date the license is issued. The licensee shall be issued a duplicate wallet card or certificate upon receipt of an application for a duplicate wallet card or certificate and receipt of the fee as specified in rule 655—3.1(17A,147,152,272C). If the licensee notifies the board that the wallet card or certificate has not been received within 60 days after being issued, no fee shall be required. A fee is applicable when the licensee fails to notify the board of a name or address change.

**3.7(7) *Reissue of a certificate or wallet card.*** The board shall reissue a certificate or current wallet card upon receipt of a written request from the licensee, return of the original document and payment of the fee as specified in rule 655—3.1(17A,147,152,272C). No fee shall be required if an error was made by the board on the original document.

This rule is intended to implement Iowa Code sections 147.2 and 147.9 to 147.11.  
[ARC 8222B, IAB 10/7/09, effective 11/11/09; ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.8(17A,147,152,272C) Verification.** Upon written request from the licensee or another jurisdiction and payment of the verification fee as specified in rule 655—3.1(17A,147,152,272C), the board shall provide a certified statement to another jurisdiction or entity that the license of a registered nurse, licensed practical nurse or advanced registered nurse practitioner is active, inactive or encumbered/disciplined in Iowa.

This rule is intended to implement Iowa Code sections 147.2 and 147.8.  
[ARC 1815C, IAB 1/7/15, effective 2/11/15]

**655—3.9(17A,272C) License denial.**

**3.9(1)** Prior to the denial of licensure to an applicant, the board shall issue a preliminary notice of denial that cites the factual and legal basis for denying the application, notifies the applicant of the appeal process and specifies the date upon which the denial will become final if not appealed.

**3.9(2)** An applicant who has been issued a preliminary notice of denial may appeal the notice and request a hearing on the issues related to the preliminary notice of denial by serving a request for hearing upon the executive director within 30 days following the date the preliminary notice of denial was mailed. The request for hearing shall specify the factual or legal errors in the preliminary notice of denial and provide any additional written information or documents in support of the licensure.

**3.9(3)** All hearings held pursuant to this rule shall be held in accordance with the process outlined in 655—Chapter 20.

**3.9(4)** If an applicant does not appeal a preliminary notice of denial, the preliminary notice of denial automatically becomes final and a notice of denial will be issued.

This rule is intended to implement Iowa Code chapters 17A and 272C.

<sup>◇</sup> Two or more ARCs

<sup>1</sup> History relating also to “Licensure to Practice—Licensed Practical Nurse,” Ch 4 prior to IAC 5/23/84.

<sup>2</sup> Effective date of 11/9/88 delayed 70 days by the Administrative Rules Review Committee at its October meeting. Delay lifted by ARRC 11/16/88.

## CHAPTER 4 DISCIPLINE

[Prior to 5/23/84, IAC, "Disciplinary Proceedings" appeared as Ch 8]

[Prior to 5/23/84, "Licensure to Practice—Licensed Practical Nurse" appeared as Ch 4. See Ch 3.]

[Prior to 8/26/87, Nursing Board[590] Ch 4]

**655—4.1(17A,147,152,272C) Board authority.** The board of nursing may discipline a registered nurse, a licensed practical nurse or an advanced registered nurse practitioner for any grounds stated in Iowa Code chapters 147, 152,272C and 272D, or rules promulgated thereunder.  
[ARC 2339C, IAB 1/6/16, effective 2/10/16]

**655—4.2(17A,147,152,272C) Complaints and investigations.** Complaints are allegations of wrongful acts or omissions relating to the ethical or professional conduct of a licensee.

**4.2(1)** In accordance with Iowa Code section 272C.3(1) "c," the board shall investigate or review, upon written complaint or upon its own motion pursuant to other information received by the board, alleged acts or omissions which the board reasonably believes constitute cause for licensee discipline.

**4.2(2)** The executive director, or an authorized designee, may review and investigate any complaint information received, in order to determine the probability that a violation of Iowa law or administrative rule has occurred.

**655—4.3(17A,147,152,272C) Issuance of investigatory subpoenas.** The board shall have the authority to issue an investigatory subpoena in accordance with the provisions of Iowa Code section 17A.13.

**4.3(1)** The executive director or designee may, upon the written request of a board investigator or on the executive director's own initiative, subpoena books, papers, records and other real evidence which are necessary for the board to decide whether to institute a contested case proceeding. In the case of a subpoena for mental health records, each of the following conditions shall be satisfied prior to the issuance of the subpoena:

- a. The nature of the complaint reasonably justifies the issuance of a subpoena;
- b. Adequate safeguards have been established to prevent unauthorized disclosure;
- c. An express statutory mandate, articulated public policy, or other recognizable public interest favors access; and
- d. An attempt was made to notify the patient and to secure an authorization from the patient for release of the records at issue.

**4.3(2)** A written request for a subpoena or the executive director's written memorandum in support of the issuance of a subpoena shall contain the following:

- a. The name and address of the person to whom the subpoena will be directed;
- b. A specific description of the books, papers, records or other real evidence requested;
- c. An explanation of why the documents sought to be subpoenaed are necessary for the board to determine whether it should institute a contested case proceeding; and
- d. In the case of a subpoena request for mental health records, confirmation that the conditions described in subrule 4.3(1) have been satisfied.

**4.3(3)** Each subpoena shall contain the following:

- a. The name and address of the person to whom the subpoena is directed;
- b. A description of the books, papers, records or other real evidence requested;
- c. The date, time and location for production or inspection and copying;
- d. The time within which a motion to quash or modify the subpoena must be filed;
- e. The signature, address and telephone number of the executive director or designee;
- f. The date of issuance;
- g. A return of service.

**4.3(4)** Any person who is aggrieved or adversely affected by compliance with the subpoena and who desires to challenge the subpoena must, within 14 days after service of the subpoena, or before the time specified for compliance if such time is less than 14 days, file with the board a motion to quash or

modify the subpoena. The motion shall describe the legal reasons why the subpoena should be quashed or modified and may be accompanied by legal briefs or factual affidavits.

**4.3(5)** Upon receipt of a timely motion to quash or modify a subpoena, the board may request an administrative law judge to issue a decision or the board may issue a decision. Oral argument may be scheduled at the discretion of the board or the administrative law judge. The administrative law judge or the board may quash or modify the subpoena, deny the motion, or issue an appropriate protective order.

**4.3(6)** A person aggrieved by a ruling of an administrative law judge who desires to challenge that ruling must appeal the ruling to the board by serving on the executive director, either in person or by certified mail, a notice of appeal within ten days after service of the decision of the administrative law judge.

**4.3(7)** If the person contesting the subpoena is not the person under investigation, the board's decision is final for purposes of judicial review. If the person contesting the subpoena is the person under investigation, the board's decision is not final for purposes of judicial review until either (1) the person is notified that the investigation has been concluded with no formal action, or (2) there is a final decision in the contested case.

**655—4.4(17A,147,152,272C) Board action.** The board shall review complaints and investigative materials and do one of the following:

**4.4(1)** Close the complaint case without action.

**4.4(2)** Request further inquiry, including peer review.

**4.4(3)** Issue a confidential letter of warning to the licensee. A letter of warning is not formal disciplinary action and is not a public document.

**4.4(4)** Determine the existence of sufficient probable cause and file a statement of charges or approve a combined statement of charges and settlement agreement.

[ARC 2339C, IAB 1/6/16, effective 2/10/16]

**655—4.5(17A,147,152,272C) Peer review committee.** Any case may be referred to peer review for evaluation of the professional services rendered by the licensee.

**4.5(1)** The board shall enter into a contract with peer reviewers to provide peer review services. The board or board staff shall determine which peer reviewer(s) will review a case and what investigative information shall be referred to a peer reviewer.

**4.5(2)** Peer reviewers shall review the information provided by the board and provide a written report to the board. The written report shall contain an opinion of the peer reviewer regarding whether the licensee conformed to minimum standards of acceptable and prevailing practice of nursing and the rationale supporting the opinion.

**4.5(3)** Peer reviewers shall observe the confidentiality requirements imposed by Iowa Code section 272C.6(4).

**4.5(4)** The board shall review the committee's findings and proceed with action available under rule 655—4.4(17A,147,152,272C).

[ARC 2339C, IAB 1/6/16, effective 2/10/16]

**655—4.6(17A,147,152,272C) Grounds for discipline.** A licensee may be disciplined for failure to comply with the rules promulgated by the board and for any wrongful act or omission related to nursing practice, licensure or professional conduct.

**4.6(1)** In accordance with Iowa Code section 147.55(1), behavior which constitutes fraud in procuring a license may include, but need not be limited to, the following:

*a.* Falsification of the application, credentials, or records submitted to the board for licensure or license renewal as a registered nurse, licensed practical nurse, or advanced registered nurse practitioner.

*b.* Fraud, misrepresentation, or deceit in taking the licensing examination or in obtaining a license as a registered nurse, licensed practical nurse, or advanced registered nurse practitioner.

*c.* Impersonating any applicant in any examination for licensure as a registered nurse, licensed practical nurse, or advanced registered nurse practitioner.

**4.6(2)** In accordance with Iowa Code section 147.55(2), professional incompetency may include, but need not be limited to, the following:

- a.* Lack of knowledge, skill, or ability to discharge professional obligations within the scope of nursing practice.
- b.* Deviation by the licensee from the standards of learning, education, or skill ordinarily possessed and applied by other nurses in the state of Iowa acting in the same or similar circumstances.
- c.* Willful or repeated departure from or failure to conform to the minimum standards of acceptable and prevailing practice of nursing in the state of Iowa.
- d.* Willful or repeated failure to practice nursing with reasonable skill and safety.
- e.* Willful or repeated failure to practice within the scope of current licensure or level of preparation.
- f.* Failure to meet the standards as defined in 655—Chapter 6, Iowa Administrative Code.
- g.* Failure to meet the standards as defined in 655—Chapter 7, Iowa Administrative Code.
- h.* Failure to comply with the requirements of Iowa Code chapter 139A.

**4.6(3)** In accordance with Iowa Code section 147.55(3), behavior (i.e., acts, knowledge, and practices) which constitutes knowingly making misleading, deceptive, untrue, or fraudulent representations in the practice of a profession may include, but need not be limited to, the following:

- a.* Oral or written misrepresentation relating to degrees, credentials, licensure status, records and applications.
- b.* Falsifying records related to nursing practice or knowingly permitting the use of falsified information in those records.

**4.6(4)** In accordance with Iowa Code section 147.55(3), behavior (i.e., acts, knowledge, and practices) which constitutes unethical conduct or practice harmful or detrimental to the public may include, but need not be limited to, the following:

- a.* Performing nursing services beyond the authorized scope of practice for which the individual is licensed or prepared.
- b.* Allowing another person to use one's nursing license for any purpose.
- c.* Failing to comply with any rule promulgated by the board related to minimum standards of nursing.
- d.* Improper delegation of nursing services, functions, or responsibilities.
- e.* Committing an act or omission which may adversely affect the physical or psychosocial welfare of the patient or client.
- f.* Committing an act which causes physical, emotional, or financial injury to the patient or client.
- g.* Failing to report to, or leaving, a nursing assignment without properly notifying appropriate supervisory personnel and ensuring the safety and welfare of the patient or client.
- h.* Violating the confidentiality or privacy rights of the patient or client.
- i.* Discriminating against a patient or client because of age, sex, race, ethnicity, national origin, creed, illness, disability, sexual orientation or economic or social status.
- j.* Failing to assess, accurately document, evaluate, or report the status of a patient or client.
- k.* Misappropriating medications, property, supplies, or equipment of the patient, client, or agency.
