

CHAPTER 152E
NURSE AND ADVANCED PRACTICE REGISTERED
NURSE LICENSURE COMPACTS

Referred to in §124E.2, 125.2, 135.24, 135.194, 135G.1, 135P.1, 135Q.1, 137.105, 144D.1, 147.74, 147.76, 147.136A, 148F.7, 148I.3, 152.1, 152.4, 152.11, 155A.33B, 225C.6, 229.1, 256.224, 280.16, 514F.6, 915.46

152E.1	Form of compact.	152E.3	Form of advanced practice registered nurse compact.
152E.2	Compact administrator.		

152E.1 Form of compact.

1. *Article I — Findings and declaration of purpose.*

a. The party states find that:

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.

(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation.

(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex.

(5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states.

(6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

b. The general purposes of this compact are to:

(1) Facilitate the states' responsibility to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.

(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing the practice of nursing in each jurisdiction.

(5) Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

2. *Article II — Definitions.* As used in this compact:

a. "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

b. "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

c. "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

d. "Current significant investigative information" means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law,

has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

e. “*Encumbrance*” means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

f. “*Home state*” means the party state which is the nurse’s primary state of residence.

g. “*Licensing board*” means a party state’s regulatory body responsible for issuing nurse licenses.

h. “*Multistate license*” means a license to practice as a registered or a licensed practical or vocational nurse issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

i. “*Multistate licensure privilege*” means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse or a licensed practical or vocational nurse in a remote state.

j. “*Nurse*” means a registered nurse or licensed practical or vocational nurse, as those terms are defined by each party state’s practice laws.

k. “*Party state*” means any state that has adopted this compact.

l. “*Remote state*” means a party state other than the home state.

m. “*Single-state license*” means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

n. “*State*” means a state, territory, or possession of the United States and the District of Columbia.

o. “*State practice laws*” means a party state’s laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. “*State practice laws*” does not include the initial qualifications for licensure or requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

3. *Article III — General provisions and jurisdiction.*

a. A multistate license to practice registered or licensed practical or vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical or vocational nurse, under a multistate licensure privilege, in each party state.

b. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant’s criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state’s criminal records.

c. Each party state shall require all of the following for an applicant to obtain or retain a multistate license in the home state:

(1) Meets the home state’s qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

(2) Either of the following:

(a) Has graduated or is eligible to graduate from a licensing board-approved registered nurse or licensed practical or vocational nurse prelicensure education program.

(b) Has graduated from a foreign registered nurse or licensed practical or vocational nurse prelicensure program that meets both of the following requirements:

(i) Has been approved by the authorized accrediting body in the applicable country.

(ii) Has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program.

(3) Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual’s native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening.

(4) Has successfully passed a national council licensure examination — registered nurse

or national council licensure examination — practical nurse examination or recognized predecessor, as applicable.

(5) Is eligible for or holds an active, unencumbered license.

(6) Has submitted in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

(7) Has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law.

(8) Has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis.

(9) Is not currently enrolled in an alternative program.

(10) Is subject to self-disclosure requirements regarding current participation in an alternative program.

(11) Has a valid United States social security number.

d. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

e. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

f. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact shall affect the requirements established by a party state for the issuance of a single-state license.

g. Any nurse holding a home state multistate license on the effective date of this compact may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

(1) A nurse who changes primary state of residence after this compact's effective date must meet all applicable requirements in article III, paragraph "c", to obtain a multistate license from a new home state.

(2) A nurse who fails to satisfy the multistate licensure requirements in article III, paragraph "c", due to a disqualifying event occurring after this compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the commission.

4. *Article IV — Applications for licensure in a party state.*

a. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

b. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

c. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by

the prior home state will be deactivated in accordance with applicable rules adopted by the commission.

(1) The nurse may apply for licensure in advance of a change in the primary state of residence.

(2) A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

d. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

5. *Article V — Additional authorities invested in party state licensing boards.*

a. In addition to the other powers conferred by state law, a licensing board shall have the authority to do all of the following:

(1) Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

(a) Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

(b) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

(2) Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.

(3) Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

(4) Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(5) Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks, and use the results in making licensure decisions.

(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

(7) Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

b. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

c. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

6. *Article VI — Coordinated licensure information system and exchange of information.*

a. All party states shall participate in a coordinated licensure information system of all licensed registered nurses and licensed practical or vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

b. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

c. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications with the reasons for such denials and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

d. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

e. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

f. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

g. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

h. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which shall include but not be limited to the following:

(1) Identifying information.

(2) Licensure data.

(3) Information related to alternative program participation.

(4) Other information that may facilitate the administration of this compact, as determined by commission rules.

i. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

7. *Article VII — Establishment of the interstate commission of nurse licensure compact administrators.*

a. The party states hereby create and establish a joint public entity known as the interstate commission of nurse licensure compact administrators.

(1) The commission is an instrumentality of the party states.

(2) Venue is proper, and judicial proceedings by or against the commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

(3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

b. *Membership, voting, and meetings.*

(1) Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

(2) Each administrator shall be entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the

business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

(4) All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in article VIII.

(5) The commission may convene in a closed, nonpublic meeting if the commission must discuss any of the following:

(a) Noncompliance of a party state with its obligations under this compact.

(b) The employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures.

(c) Current, threatened, or reasonably anticipated litigation.

(d) Negotiation of contracts for the purchase or sale of goods, services, or real estate.

(e) Accusing any person of a crime or formally censuring any person.

(f) Disclosure of trade secrets or commercial or financial information that is privileged or confidential.

(g) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy.

(h) Disclosure of investigatory records compiled for law enforcement purposes.

(i) Disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact.

(j) Matters specifically exempted from disclosure by federal or state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

c. The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to any of the following:

(1) Establishing the fiscal year of the commission.

(2) Providing reasonable standards and procedures for both of the following:

(a) The establishment and meetings of other committees.

(b) Governing any general or specific delegation of any authority or function of the commission.

(3) Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed.

(4) Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission.

(5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the commission.

(6) Providing a mechanism for winding up the operations of the commission and the

equitable disposition of any surplus funds that may exist after the termination of this compact after the payment or reserving of all of its debts and obligations.

d. The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the internet site of the commission.

e. The commission shall maintain its financial records in accordance with the bylaws.

f. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

g. The commission shall have the following powers:

(1) To promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules shall have the force and effect of law and shall be binding in all party states.

(2) To bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any licensing board to sue or be sued under applicable law shall not be affected.

(3) To purchase and maintain insurance and bonds.

(4) To borrow, accept, or contract for services of personnel, including but not limited to employees of a party state or nonprofit organizations.

(5) To cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space or other resources.

(6) To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters.

(7) To accept any and all appropriate donations, grants and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest.

(8) To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, whether real, personal, or mixed; provided that at all times the commission shall avoid any appearance of impropriety.

(9) To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed.

(10) To establish a budget and make expenditures.

(11) To borrow money.

(12) To appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, and consumer representatives, and other such interested persons.

(13) To provide and receive information from, and to cooperate with, law enforcement agencies.

(14) To adopt and use an official seal.

(15) To perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

h. *Financing of the commission.*

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.

(3) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting

procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

i. Qualified immunity, defense, and indemnification.

(1) The administrators, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph “i” shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person.

(2) The commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining the person’s own counsel; and provided further that the actual or alleged act, error, or omission did not result from that person’s intentional, willful, or wanton misconduct.

(3) The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

8. Article VIII — Rulemaking.

a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this compact.

b. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

c. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking on the internet site of the commission and on the internet site of each licensing board or the publication in which each state would otherwise publish proposed rules.

d. The notice of proposed rulemaking shall include all of the following:

(1) The proposed time, date, and location of the meeting in which the rule will be considered and voted upon.

(2) The text of the proposed rule or amendment, and the reason for the proposed rule.

(3) A request for comments on the proposed rule from any interested person.

(4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

e. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

f. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

g. The commission shall publish the place, time, and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person who wishes to

comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

(2) Nothing in this article shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

h. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

j. The commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, provided that the usual rulemaking procedures provided in this compact and in this article shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or party state funds.

(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

l. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

9. *Article IX — Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

(2) The commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall do both of the following:

(a) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission.

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall

be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

(4) A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

c. Dispute resolution.

(1) Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(3) In the event the commission cannot resolve disputes among party states arising under this compact:

(a) The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(b) The decision of a majority of the arbitrators shall be final and binding.

d. Enforcement.

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

10. *Article X — Effective date, withdrawal, and amendment.*

a. This compact shall become effective and binding on the earlier of the date of legislative enactment of this compact into law by no less than twenty-six states or December 31, 2018. All party states to this compact, that also were parties to the prior nurse licensure compact, superseded by this compact, shall be deemed to have withdrawn from said prior compact within six months after the effective date of this compact.

b. Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior nurse licensure compact until such party state has withdrawn from the prior nurse licensure compact.

c. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six months after enactment of the repealing statute.

d. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

e. Nothing contained in this compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

f. This compact may be amended by the party states. No amendment to this compact shall

become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

g. Representatives of nonparty states to this compact shall be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

11. *Article XI — Construction and severability.*

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held to be contrary to the constitution of any party state, this compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

2000 Acts, ch 1008, §8; 2000 Acts, ch 1232, §51 – 55; 2008 Acts, ch 1032, §201; 2017 Acts, ch 91, §1, 3

Referred to in §147.2, 147.5, 147.7, 152.6, 152.7, 152.8, 152.10, 152E.2, 272C.6

152E.2 Compact administrator.

The director of the department of inspections, appeals, and licensing, or the director's designee, shall serve as the compact administrator identified in article VII, paragraph "b", of the nurse licensure compact contained in [section 152E.1](#) and as the compact administrator identified in article VIII, paragraph "a", of the advanced practice registered nurse compact contained in [section 152E.3](#).

Section amended

152E.3 Form of advanced practice registered nurse compact.

The advanced practice registered nurse compact is entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Findings and declaration of purpose.*

a. The party states find all of the following:

(1) The health and safety of the public are affected by the degree of compliance with advanced practice registered nurse licensure and practice requirements and the effectiveness of enforcement activities related to state advanced practice registered nurse license or authority to practice laws.

(2) Violations of advanced practice registered nurse licensure and practice and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of advanced practice registered nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of advanced practice registered nurse licensure and practice requirements.

(4) New practice modalities and technology make compliance with individual state advanced practice registered nurse licensure and practice requirements difficult and complex.

(5) The current system of duplicative advanced practice registered nurse licensure and practice requirements for advanced practice registered nurses practicing in multiple states is cumbersome and redundant to both advanced practice registered nurses and states.

(6) Uniformity of advanced practice registered nurse requirements throughout the states promotes public safety and public health benefits.

(7) Access to advanced practice registered nurse services increases the public's access to health care, particularly in rural and underserved areas.

b. The general purposes of this compact are to:

(1) Facilitate the states' responsibilities to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of advanced practice registered nurse licensure and practice requirements including promotion of uniform licensure requirements.

(3) Facilitate the exchange of information between party states in the areas of advanced practice registered nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing advanced practice registered nurse practice in each jurisdiction.

(5) Invest all party states with the authority to hold an advanced practice registered nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

2. *Article II — Definitions.* As used in this compact:

a. “*Advanced practice registered nurse*” means a nurse anesthetist, nurse practitioner, nurse midwife, or clinical nurse specialist to the extent a party state licenses or grants authority to practice in that advanced practice registered nurse role and title.

b. “*Advanced practice registered nurse licensure and practice requirements*” means the regulatory mechanism used by a party state to grant legal authority to practice as an advanced practice registered nurse.

c. “*Advanced practice registered nurse uniform license or authority to practice requirements*” means those minimum uniform licensure, education, and examination requirements as agreed to by the compact administrators and adopted by licensing boards for the recognized advanced practice registered nurse role and title.

d. “*Adverse action*” means a home or remote state action.

e. “*Alternative program*” means a voluntary, nondisciplinary monitoring program approved by a nurse licensing board.

f. “*Coordinated licensure information system*” means an integrated process for collecting, storing, and sharing information on advanced practice registered nurse licensure or authority to practice and enforcement activities related to advanced practice registered nurse license or authority to practice laws, which is administered by a nonprofit organization composed of and controlled by state licensing boards.

g. “*Current significant investigative information*” means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the advanced practice registered nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the advanced practice registered nurse represents an immediate threat to public health and safety regardless of whether the advanced practice registered nurse has been notified and had an opportunity to respond.

h. “*Home state*” means the party state that is the advanced practice registered nurse’s primary state of residence.

i. “*Home state action*” means any administrative, civil, equitable, criminal, or other action permitted by the home state’s laws which is imposed on an advanced practice registered nurse by the home state’s licensing board or other authority, including actions against an individual’s license or authority to practice such as revocation, suspension, probation, or any other action which affects an advanced practice registered nurse’s authorization to practice.

j. “*Licensing board*” means a party state’s regulatory body responsible for advanced practice registered nurse licensure or authority to practice.

k. “*Multistate advanced practice privilege*” means current authority from a remote state permitting an advanced practice registered nurse to practice in that state in the same role and title as the advanced practice registered nurse is licensed or authorized to practice in the home state to the extent that the remote state laws recognize such advanced practice registered nurse role and title. A party state has the authority, in accordance with existing state due process laws, to take action against the advanced practice registered nurse’s privilege, including revocation, suspension, probation, or any other action that affects an advanced practice registered nurse’s multistate privilege to practice.

l. “*Party state*” means any state that has adopted this compact.

m. “*Prescriptive authority*” means the legal authority to prescribe medications and devices as defined by party state laws.

n. “*Remote state*” means a party state, other than the home state, where either of the following applies:

(1) Where the patient is located at the time advanced practice registered nurse care is provided.

(2) In the case of advanced practice registered nurse practice not involving a patient, in such party state where the recipient of advanced practice registered nurse care is located.

o. “*Remote state action*” means either of the following:

(1) Any administrative, civil, equitable, criminal, or other action permitted by a remote state’s laws which is imposed on an advanced practice registered nurse by the remote state’s licensing board or other authority, including actions against an individual’s multistate advanced practice privilege in the remote state.

(2) Cease and desist and other injunctive or equitable orders issued by remote states or the licensing boards of remote states.

p. “*State*” means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

q. “*State practice laws*” means a party state’s laws and regulations that govern advanced practice registered nurse practice, define the scope of advanced nursing practice, including prescriptive authority, and create the methods and grounds for imposing discipline. “*State practice laws*” does not include the requirements necessary to obtain and retain advanced practice registered nurse licensure or authority to practice as an advanced practice registered nurse, except for qualifications or requirements of the home state.

r. “*Unencumbered*” means that a state has no current disciplinary action against an advanced practice registered nurse’s license or authority to practice.

3. *Article III — General provisions and jurisdiction.*

a. All party states shall participate in the nurse licensure compact for registered nurses and licensed practical or vocational nurses in order to enter into the advanced practice registered nurse compact.

b. A state shall not enter the advanced practice registered nurse compact until the state adopts, at a minimum, the advanced practice registered nurse uniform license or authority to practice requirements for each advanced practice registered nurse role and title recognized by the state seeking to enter the advanced practice registered nurse compact.

c. Advanced practice registered nurse license or authority to practice issued by a home state to a resident in that state shall be recognized by each party state as authorizing a multistate advanced practice privilege to the extent that the role and title are recognized by each party state. To obtain or retain advanced practice registered nurse licensure and practice requirements as an advanced practice registered nurse, an applicant must meet the home state’s qualifications for authority or renewal of authority as well as all other applicable state laws.

d. The advanced practice registered nurse multistate advanced practice privilege does not include prescriptive authority, and does not affect any requirements imposed by states to grant to an advanced practice registered nurse initial and continuing prescriptive authority according to state practice laws. However, a party state may grant prescriptive authority to an individual on the basis of a multistate advanced practice privilege to the extent permitted by state practice laws.

e. A party state may, in accordance with state due process laws, limit or revoke the multistate advanced practice privilege in the party state and may take any other necessary actions under the party state’s applicable laws to protect the health and safety of the party state’s citizens. If a party state takes action, the party state shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

f. An advanced practice registered nurse practicing in a party state must comply with the state practice laws of the state in which the patient is located at the time care is provided. The advanced practice registered nurse practice includes patient care and all advanced nursing

practice defined by the party state's practice laws. The advanced practice registered nurse practice subjects an advanced practice registered nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state.

g. Individuals not residing in a party state may apply for an advanced practice registered nurse license or authority to practice as an advanced practice registered nurse under the laws of a party state. However, the authority to practice granted to these individuals shall not be recognized as granting the privilege to practice as an advanced practice registered nurse in any other party state unless explicitly agreed to by that party state.

4. *Article IV — Applications for advanced practice registered nurse licensure or authority to practice in a party state.*

a. (1) Once an application for an advanced practice registered nurse license or authority to practice is submitted, a party state shall ascertain, through the coordinated licensure information system, whether the applicant has held, or is the holder of, a nursing license or authority to practice issued by another state, whether the applicant has had a history of previous disciplinary action by any state, whether an encumbrance exists on any license or authority to practice, and whether any other adverse action by any other state has been taken against a license or authority to practice.

(2) This information may be used in approving or denying an application for an advanced practice registered nurse license or authority to practice.

b. An advanced practice registered nurse in a party state shall hold an advanced practice registered nurse license or authority to practice in only one party state at a time, issued by the home state.

c. An advanced practice registered nurse who intends to change the nurse's primary state of residence may apply for an advanced practice registered nurse license or authority to practice in the new home state in advance of such change. However, a new license or authority to practice shall not be issued by a party state until after an advanced practice registered nurse provides evidence of change in the nurse's primary state of residence satisfactory to the new home state's licensing board.

d. (1) If an advanced practice registered nurse changes the nurse's primary state of residence by moving between two party states, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the advanced practice registered nurse license or authority to practice from the former home state is no longer valid.

(2) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a nonparty state to a party state, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the individual state license issued by the nonparty state is not affected and shall remain in full force if so provided by the laws of the nonparty state.

(3) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a party state to a nonparty state, the advanced practice registered nurse license or authority to practice issued by the prior home state converts to an individual state license, valid only in the former home state, without the multistate licensure privilege to practice in other party states.

5. *Article V — Adverse actions.* In addition to the general provisions described in article III, the following provisions apply:

a. The licensing board of a remote state shall promptly report to the administrator of the coordinated licensure information system any remote state actions, including the factual and legal basis for such action, if known. The licensing board of a remote state shall also promptly report any significant current investigative information yet to result in a remote state action. The administrator of the coordinated licensure information system shall promptly notify the home state of any such reports.

b. The licensing board of a party state shall have the authority to complete any pending investigations for an advanced practice registered nurse who changes the nurse's primary state of residence during the course of such investigations. It shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the

coordinated licensure information system shall promptly notify the new home state of any such actions.

c. A remote state may take adverse action affecting the multistate advanced practice privilege to practice within that party state. However, only the home state shall have the power to impose adverse action against the advanced practice registered nurse license or authority to practice issued by the home state.

d. For purposes of imposing adverse action, the licensing board of the home state shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, it shall apply its own state laws to determine appropriate action.

e. The home state may take adverse action based on the factual findings of the remote state, so long as each state follows its own procedures for imposing such adverse action.

f. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the party state's laws. Party states must require advanced practice registered nurses who enter any alternative programs to agree not to practice in any other party state during the term of the alternative program without prior authorization from such other party state.

g. All home state licensing board disciplinary orders, agreed to or otherwise, which limit the scope of the advanced practice registered nurse's practice or require monitoring of the advanced practice registered nurse as a condition of the order shall include the requirements that the advanced practice registered nurse will limit the nurse's practice to the home state during the pendency of the order. This requirement may allow the advanced practice registered nurse to practice in other party states with prior written authorization from both the home state and party state licensing boards.

6. *Article VI — Additional authorities invested in party state licensing boards.* Notwithstanding any other powers, party state licensing boards shall have the authority to do all of the following:

a. If otherwise permitted by state law, recover from the affected advanced practice registered nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that advanced practice registered nurse.

b. Issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses, or the production of evidence from another party state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence is located.

c. Issue cease and desist orders to limit or revoke an advanced practice registered nurse's privilege, license, or authority to practice in the state.

d. Promulgate uniform rules and regulations as provided for in article VIII, paragraph "c".

7. *Article VII — Coordinated licensure information system.*

a. All party states shall participate in a cooperative effort to create a coordinated database of all advanced practice registered nurses. This system shall include information on the advanced practice registered nurse licensure and practice requirements and disciplinary history of each advanced practice registered nurse, as contributed by party states, to assist in the coordination of the advanced practice registered nurse licensure or authority to practice and enforcement efforts.

b. Notwithstanding any other provision of law, all party states' licensing boards shall promptly report adverse actions, actions against multistate advanced practice privileges, any current significant investigative information yet to result in adverse action, denials of applications, and the reasons for such denials, to the coordinated licensure information system.

c. Current significant investigative information shall be transmitted through the coordinated licensure information system only to party state licensing boards.

d. Notwithstanding any other provision of law, all party states' licensing boards contributing information to the coordinated licensure information system may designate information that shall not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

e. Any personally identifiable information obtained by a party state's licensing board from the coordinated licensure information system shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

f. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

g. The compact administrators, acting jointly with each other and in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

8. *Article VIII — Compact administration and interchange of information.*

a. The head of the licensing board, or the head's designee, of each party state shall be the administrator of this compact for the head's state.

b. The compact administrator of each party state shall furnish to the compact administrator of each other party state any information and documents including but not limited to a uniform data set of investigations, identifying information, licensure data, and disclosable alternative program participation information to facilitate the administration of this compact.

c. Compact administrators shall have the authority to develop uniform rules to facilitate and coordinate implementation of this compact. These uniform rules shall be adopted by party states, under the authority invested under article VI, paragraph "d".

9. *Article IX — Immunity.* A party state or the officers or employees or agents of a party state's licensing board who act in accordance with the provisions of this compact shall not be liable on account of any act or omission in good faith while engaged in the performance of their duties under this compact. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

10. *Article X — Entry into force, withdrawal, and amendment.*

a. This compact shall enter into force and become effective as to any state when it has been enacted into the laws of that state. Any party state may withdraw from this compact by enacting a statute repealing the same, but such withdrawal shall not take effect until six months after the withdrawing state has given notice of the withdrawal to the executive heads of all other party states.

b. Withdrawal shall not affect the validity or applicability by the licensing boards of states remaining party to the compact of any report of adverse action occurring prior to the withdrawal.

c. This compact shall not be construed to invalidate or prevent any advanced practice registered nurse licensure or authority to practice agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

d. This compact may be amended by the party states. An amendment to this compact shall not become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

11. *Article XI — Construction and severability.*

a. This compact shall be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or the applicability of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability of the compact to any government, agency, person, or circumstance shall not be affected by that action. If this compact shall be held contrary to the constitution of any state which is party to the compact, the compact shall remain in full force and effect

as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

b. (1) In the event party states find a need for settling disputes arising under this compact, the party states may submit the issues in dispute to an arbitration panel which shall be comprised of an individual appointed by the compact administrator in the home state, an individual appointed by the compact administrator in the remote state or states involved, and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(2) The decision of a majority of the arbitrators shall be final and binding.
