

271.6 Integrated treatment of university hospital patients.

The authorities of the Oakdale campus may authorize patients for admission to the hospital on the Oakdale campus who are referred from the university hospitals and who shall retain the same status, classification, and authorization for care which they had at the university hospitals. Patients referred from the university hospitals to the Oakdale campus shall be deemed to be patients of the university hospitals. Chapters 255 and 255A and operating policies of the university hospitals shall apply to the patients and to the payment for their care the same as the provisions apply to patients who are treated on the premises of the university hospitals.
