Performance measures shall be based on the goals developed pursuant to sections 8E.205, 8E.206, and 8E.208. The estimates shall be accompanied by an explanation of the manner in which appropriations requested for the administration and maintenance of the agency meet goals contained in the enterprise strategic plan and the agency's strategic plan, including identifying goals that require legislation.

c. If a department or establishment fails to submit estimates within the time specified, the legislative services agency shall use the amounts of the appropriations to the department or establishment for the fiscal year in process at the time the estimates are required to be submitted as the amounts for the department's or establishment's request in the documents submitted to the general assembly for the ensuing fiscal year and the governor shall cause estimates to be prepared for that department or establishment as in the governor's opinion are reasonable and proper.

d. The director shall furnish standard budget request forms to each department or agency of state government.

8.31 Allotments of appropriations exceptions modifications.

1. *a.* Before an appropriation of any department or establishment becomes available, the department or establishment shall submit to the director of the department of management a requisition for allotment of the appropriation according to dates identified in the requisition during the fiscal year by which portions of the

appropriation will be needed. The department or establishment shall submit the requisition by June 1, prior to the start of a fiscal year or by another date identified by the director. The requisition shall contain details of proposed expenditures as may be required by the director subject to review by the governor.

b. The director of the department of management shall approve the allotments subject to review by the governor, unless it is found that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, in which event such allotments may be modified to the extent the governor may deem necessary in order that there shall be no overdraft or deficit in the several funds of the state at the end of the fiscal year, and the director shall submit copies of the allotments thus approved or modified to the head of the department or establishment concerned, who shall set up such allotments on the books and be governed accordingly in the control of expenditures.

2. Allotments made in accordance with subsection 1 may be subsequently modified by the director of the department of management at the direction of the governor either upon the written request of the head of the department or establishment concerned, or in the event the governor finds that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, upon the governor's own initiative to the extent the governor may deem necessary in order that there shall be no overdraft or deficit in the several funds of the state at the end of the fiscal year; and the head of the department or establishment shall be given notice of a modification in the same way as in the case of original allotments.

3. The allotment requests of all departments and establishments collecting governmental fees and other revenue which supplement a state appropriation shall attach to the summary of requests a statement showing how much of the proposed allotments are to be financed from state appropriations, stores, and repayment receipts.

4. The procedure to be employed in controlling the expenditures and receipts of the state fair board and the institutions under the state board of regents, whose collections are not deposited in the state treasury, is that outlined in section 8A.502, subsection 9.

5. If the governor determines that the estimated budget resources during the fiscal year are insufficient to pay all appropriations in full, the reductions shall be uniform and prorated between all departments, agencies, and establishments upon the basis of their respective appropriations.

8.32 Conditional availability of appropriations.

All appropriations made to any department or establishment of the government as receive or collect moneys available for expenditure by them under present laws, are declared to be in addition to such repayment receipts, and such appropriations are to be available as and to the extent that such receipts are insufficient to meet the costs of administration, operation, and maintenance, or public improvements of such departments:

Provided, that such receipts or collections shall be deposited in the state treasury as part of the general fund

or special funds in all cases, except those collections made by the state fair board, the institutions under the state board of regents and the natural resource commission.

Provided further, that no repayment receipts shall be available for expenditures until allotted as provided in section 8.31; and

Provided further, that the collection of repayment receipts by the state fair board and the institutions under the state board of regents shall be deposited in a bank or banks duly designated and qualified as state depositories, in the name of the state of Iowa, for the use of such boards and institutions, and such funds shall be available only on the check of such boards or institutions depositing them, which are hereby authorized to withdraw such funds, but only after allotment by the governor as provided in section 8.31; and

Provided further, that this chapter shall not apply to endowment or private trust funds or to gifts to institutions owned or controlled by the state or to the income from such endowment or private trust funds, or to private funds belonging to students or inmates of state institutions.

The provisions of this chapter shall not be construed to prohibit the state fair board from creating an emergency or sinking fund out of the receipts of the state fair and state appropriation for the purpose of taking care of any emergency that might arise beyond the control of the board of not to exceed three hundred thousand dollars. Neither shall this chapter be construed to prohibit the state fair board from retaining an additional sum of not to exceed three hundred fifty thousand dollars to be used in carrying out the provisions of chapter 173.

8.33 Time limit on obligations reversion.

No obligation of any kind shall be incurred or created subsequent to the last day of the fiscal year for which an appropriation is made, except when specific provision otherwise is made in the Act making the appropriation. On August 31, or as otherwise provided in an appropriation Act, following the close of each fiscal year, all unencumbered or unobligated balances of appropriations made for that fiscal term revert to the state treasury and to the credit of the funds from which the appropriations were made, except that capital expenditures for the purchase of land or the erection of buildings or new construction continue in force until the attainment of the object or the completion of the work for which the appropriations were made unless the Act making an appropriation for the capital expenditure contains a specific provision relating to a time limit for incurring an obligation or reversion of funds. This section does not repeal sections 7D.11 through 7D.14.

No payment of an obligation for goods and services shall be charged to an appropriation subsequent to the last day of the fiscal year for which the appropriation is made unless the goods or services are received on or before the last day of the fiscal year, except that repair projects, purchase of specialized equipment and furnishings, and other contracts for services and capital expenditures for the purchase of land or the erection of buildings or new construction or remodeling, which were committed and in progress prior to the end of the fiscal year are excluded from this provision.

8.35A Information to be given to legislative services agency.

1. By July 1, the director of the department of management, in conjunction with the director of the department of administrative services, shall provide a projected expenditure breakdown of each appropriation for the beginning fiscal year to the legislative services agency in the form and level of detail requested by the legislative services agency. By the fifteenth of each month, the director, in conjunction with the director of the department of administrative services, shall transmit to the legislative services agency a record for each appropriation of actual expenditures for the prior month of the fiscal year and the fiscal year to date in the form and level of detail as requested by the legislative services agency. By October 1, the director, in conjunction with the director of the department of administrative services, shall transmit the total record of an appropriation, including reversions and transfers for the prior fiscal year ending June 30, to the legislative services agency.

2. Commencing October 1, the director shall provide weekly budget tapes in the form and level of detail requested by the legislative services agency reflecting finalized agency budget requests for the following fiscal year as submitted to the governor. The director shall transmit all agency requests in final form to the legislative services agency by November 15. Final budget records containing the governor's recommendation and final agency requests shall be transmitted to the legislative services agency by January 1 or no later than the date the governor's budget document is delivered to the printer. The governor's recommendation included on this record shall be considered confidential by the legislative services agency until it is made public by the governor. The legislative services agency shall use this data in the preparation of information for the legislative appropriation process.

3. The director shall communicate any changes or anticipated changes to the budgeting system or the accounting system in writing to the legislative services agency prior to implementation.

4. A government agency which receives state funds directly from the state or indirectly through a political subdivision as directed by statute and which is not a city, county, or school district is subject to this subsection. A government agency which is subject to this subsection shall submit a copy of its budget to the

legislative services agency, identifying it as being submitted under this subsection, when the budget of that government agency has received approval from the governing head or body of that agency. The copy of the budget submitted to the legislative services agency shall be on the budget forms provided by the department of management to state agencies under this chapter. The government agency shall also submit a statement identifying any funds available to the agency which are not included in the budget.

5. The department shall transmit the enterprise strategic plan and related information and an agency shall transmit its agency strategic plan, performance report, and related information as required by chapter 8E to the legislative services agency.

8.36 Fiscal year.

The fiscal year of the government shall commence on the first day of July and end on the thirtieth day of June. This fiscal year shall be used for purposes of making appropriations and of financial reporting and shall be uniformly adopted by all departments and establishments of the government.

8.36A Full-time equivalent positions.

1. For purposes of making appropriations and financial reports and as used in appropriations statutes, "*full-time equivalent position*" means a budgeting and monitoring unit that equates the aggregate of full-time positions, part-time positions, a vacancy and turnover factor, and other adjustments. One full-time equivalent position represents two thousand eighty working hours, which is the regular number of hours one full-time person works in one fiscal year. The number of full-time equivalent positions shall be calculated by totaling the regular number of hours that could be annually worked by persons in all authorized positions, reducing those hours by a vacancy and turnover factor and dividing that amount by two thousand eighty hours. In order to achieve the full-time equivalent position level, the number of filled positions may exceed the number of full-time equivalent positions during parts of the fiscal year to compensate for time periods when the number of filled positions is below the authorized number of full-time equivalent positions.

2. If a department or establishment has reached or anticipates reaching the full-time equivalent position level authorized for the department but determines that conversion of a contract position to a full-time equivalent position would result in cost savings while providing comparable or better services, the department or establishment may request the director of the department of management to approve the conversion and addition of the full-time equivalent position. The request shall be accompanied by evidence demonstrating how the cost savings and service quality will be achieved through the conversion. If approved by the director of the department of management, the department's or establishment's authorized full-time equivalent position level shall be increased accordingly and the revised level shall be reported to the fiscal committee of the legislative council and the legislative services agency.

8.38 Misuse of appropriations.

No state department, institution, or agency, or any board member, commissioner, director, manager, or other person connected with any such department, institution, or agency, shall expend funds or approve claims in excess of the appropriations made thereto, nor expend funds for any purpose other than that for which the money was appropriated, except as otherwise provided by law. A violation of the foregoing provision shall make any person violating same, or consenting to the violation of same liable to the state for such sum so expended together with interest and costs, which shall be recoverable in an action to be instituted by the attorney general for the use of the state, which action may be brought in any county of the state.

[C35, § 84-e29; C39, § **84.31**; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, § 8.38]

8.39 Use of appropriations transfer.

1. Except as otherwise provided by law, an appropriation or any part of it shall not be used for any other purpose than that for which it was made. However, with the prior written consent and approval of the governor and the director of the department of management, the governing board or head of any state department, institution, or agency may, at any time during the fiscal year, make a whole or partial intradepartmental transfer of its unexpended appropriations for purposes within the scope of such department, institution, or agency.

2. If the appropriation of a department, institution, or agency is insufficient to properly meet the legitimate expenses of the department, institution, or agency, the director, with the approval of the governor, may make an interdepartmental transfer from any other department, institution, or agency of the state having an appropriation in excess of its needs, of sufficient funds to meet that deficiency. An interdepartmental transfer to an appropriation which is not an entitlement appropriation is not authorized when the general assembly is in regular session and, in addition, the sum of interdepartmental transfers in a fiscal year to an appropriation which is not an entitlement appropriation shall not exceed fifty percent of the amount of the appropriation as enacted by the general assembly. For the purposes of this subsection, an entitlement appropriation is a line item appropriation to the state public defender for indigent defense or to the department of human services for foster care, state supplementary assistance, or medical assistance, or for the family investment program.

3. Prior to any transfer of funds pursuant to subsection 1 or 2 of this section or a transfer of an allocation from a subunit of a department which statutorily has independent budgeting authority, the director shall notify the chairpersons of the standing committees on budget of the senate and the house of representatives and the chairpersons of subcommittees of such committees of the proposed transfer. The notice from the director shall include information concerning the amount of the proposed transfer, the departments, institutions or agencies affected by the proposed transfer and the reasons for the proposed transfer. Chairpersons notified shall be given at least two weeks to review and comment on the proposed transfer before the transfer of funds is made.

4. Any transfer made under the provisions of this section shall be reported to the legislative fiscal committee on a monthly basis. The report shall cover each calendar month and shall be due the tenth day of the following month. The report shall contain the following: The amount of each transfer; the date of each transfer; the departments and funds affected; a brief explanation of the reason for the transfer; and such other information as may be required by the committee. A summary of all transfers made under the provisions of this section shall be included in the annual report of the legislative fiscal committee.

8.41 Federal funds deposit block grant plans affected political subdivisions.

1. Commencing with the fiscal year beginning July 1, 1981, federal funds received in the form of block grants shall be deposited in a special fund in the state treasury and are subject to appropriation by the general assembly upon a recommendation by the governor. In determining a general fund balance, the federal funds deposited in the special fund shall not be included, but shall remain segregated in the special fund until appropriated by the general assembly.

2. Federal funds deposited in the state treasury as provided in subsection 1 shall either be included as part of the governor's budget required by section 8.22 or shall be included in a separate recommendation made by the governor to the general assembly. If federal funds received in the form of block grants or categorical grants have not been included in the governor's budget for the current fiscal year because of time constraints or because a budget is not being submitted for the next fiscal year, the governor shall submit a supplemental statement to the general assembly listing the federal funds received and including the same information for the federal funds required by section 8.22, part I, subsection 2, paragraph "e", for the statement of federal funds in the governor's budget.

3. *a.* If, in any federal fiscal year, the federal government provides for a block grant which requires a new or revised program than was required in the prior fiscal year, each state agency required to administer the block grant program shall develop a block grant plan detailing program changes.

b. To the extent allowed by federal law, the block grant plan shall be developed in accordance with the following:

(1) The primary goal of the plan shall be to attain savings for taxpayers and to avoid shifting costs from the federal government to state and local governments.

(2) State agency planning meetings shall be held jointly with officials of the affected political subdivision and affected members of the public.

(3) The plan shall address proposed expenditures and accountability measures and shall be published so as to provide reasonable opportunity for public review and comment.

(4) (a) Preference shall be given to any existing service delivery system capable of delivering the required service. If an existing service delivery system is not used, the plan shall identify those existing delivery systems which were considered and the reasons those systems were rejected. This subparagraph subdivision applies to any service delivered pursuant to a federal block grant, including, but not limited to, any of the following block grant areas: health, human services, education, employment, community and economic development, and criminal justice.

(b) If a service delivered pursuant to a federal block grant and implemented by a political subdivision was previously provided for by a categorical grant, the state agency shall allow the political subdivision adequate transition time to accommodate related changes in federal and state policy. Transition activities may include, but are not limited to, revision of the political subdivision's laws, budgets, and administrative procedures.

(c) The state agency shall allow the political subdivision the flexibility to implement a service in a manner so as to address identifiable needs within the context of meeting broad national objectives.

(5) State administrative costs shall not exceed the limits allowed for under the federal law enacting the block grant.

(6) A federal mandate that is eliminated or waived for the state shall be eliminated or waived for a political subdivision.

(7) Federal block grants shall not be used to supplant existing funding efforts by the state.

c. The state agency shall send copies of the proposed block grant plan to the legislative fiscal committee and to the appropriate appropriations subcommittee chairpersons and ranking members of the general assembly. The plan and any program changes contained within the plan shall be adopted as rules in accordance with chapter 17A.

1. For the purposes of section 8.22A, this section, and sections 8.55 through 8.57:

a. "Adjusted revenue estimate" means the appropriate revenue estimate for the general fund for the following fiscal year as determined by the revenue estimating conference under section 8.22A, subsection 3, adjusted by subtracting estimated tax refunds payable from that estimated revenue and as determined by the conference, adding any new revenues which may be considered to be eligible for deposit in the general fund.

b. "New revenues" means moneys which are received by the state due to increased tax rates and fees or newly created taxes and fees over and above those moneys which are received due to state taxes and fees which are

in effect as of January 1 following the December state revenue estimating conference. "New revenues" also includes moneys received by the general fund of the state due to new transfers over and above those moneys received by the general fund of the state due to transfers which are in effect as of January 1 following the December state revenue estimating conference. The department of management shall obtain concurrence from the revenue estimating conference on the eligibility of transfers to the general fund of the state which are to be considered as new revenue in determining the state general fund expenditure limitation.

2. There is created a state general fund expenditure limitation for each fiscal year beginning on or after July 1, 1993, calculated as provided in this section.

3. Except as otherwise provided in this section, the state general fund expenditure limitation for a fiscal year shall be ninety-nine percent of the adjusted revenue estimate.

4. The state general fund expenditure limitation amount provided for in this section shall be used by the governor in the preparation of the budget under section 8.22 and approval of the budget and by the general assembly in the budget process. If a source for new revenues is proposed, the budget revenue projection used for that new revenue source for the period beginning on the effective date of the new revenue source and ending in the fiscal year in which the source is included in the revenue base shall be an amount determined by subtracting estimated tax refunds payable from the projected revenue from that new revenue source, multiplied by ninety-five percent. If a new revenue source is established and implemented, the original state general fund expenditure limitation amount provided for in subsection 3 shall be readjusted to include ninety-five percent of the estimated revenue from the new revenue source.

5. For fiscal years in which section 8.55, subsection 2, results in moneys being transferred to the general fund, the original state general fund expenditure limitation amount provided for in subsection 3 shall be readjusted to include the moneys which are so transferred.

6. The scope of the expenditure limitation under subsection 3 shall not encompass federal funds, donations, constitutionally dedicated moneys, and moneys in expenditures from state retirement system moneys.

1. The Iowa economic emergency fund is created. The fund shall be separate from the general fund of the state and the balance in the fund shall not be considered part of the balance of the general fund of the state. The moneys credited to the fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section.

2. *a.* The maximum balance of the fund is the amount equal to five percent of the adjusted revenue estimate for the fiscal year. If the amount of moneys in the Iowa economic emergency fund is equal to the maximum balance, moneys in excess of this amount shall be transferred to the general fund.

b. Notwithstanding paragraph "*a*", any moneys in excess of the maximum balance in the economic emergency fund after the distribution of the surplus in the general fund of the state at the conclusion of the fiscal year beginning July 1, 2002, and subsequent fiscal years, shall not be transferred to the general fund of the state but shall be transferred to the endowment for Iowa's health account of the tobacco settlement trust fund. The amount transferred under this paragraph shall not exceed the difference between forty million dollars and the total amount transferred to the endowment for Iowa's health account pursuant to 2001 Iowa Acts, chapter 177, section 2, as amended by 2001 Iowa Acts, chapter 187, section 28, and previous fiscal years.

c. Notwithstanding paragraph "*a*", any moneys in excess of the maximum balance in the economic emergency fund after the distribution of the surplus in the general fund of the state at the conclusion of each fiscal year and after the appropriate amount has been transferred pursuant to paragraph "*b*", shall not be transferred to the general fund of the state but shall be transferred to the senior living trust fund. The total amount transferred, in the aggregate, under this paragraph for all fiscal years shall not exceed one hundred eighteen million dollars.

d. Notwithstanding paragraph "*a*", any moneys in excess of the maximum balance in the economic emergency fund after the distribution of the surplus in the general fund of the state at the conclusion of each fiscal year and after the appropriate amounts have been transferred pursuant to paragraphs "*b*" and "*c*" shall not be transferred to the general fund of the state but shall be transferred to the endowment for Iowa's health account of the tobacco settlement trust fund. The total amount transferred, in the aggregate, under this paragraph for all fiscal years shall not exceed the difference between one hundred one million seven hundred fifty-one thousand dollars and the amounts transferred to the endowment for Iowa's health account to repay the amounts transferred or appropriated from the endowment for Iowa's health account in 2002 Iowa Acts, chapter 1165, 2002 Iowa Acts, chapter 1166, 2002 Iowa Acts, chapter 1167, 2002 Iowa Acts, Second Extraordinary Session, chapter 1003, and 2003 Iowa Acts, House File 685.

3. *a.* Except as provided in paragraphs "*b*" and "*c*", the moneys in the Iowa economic emergency fund shall only be used pursuant to an appropriation made by the general assembly. An appropriation shall only be made for the fiscal year in which the appropriation is made. The moneys shall only be appropriated by the general assembly for emergency expenditures.

b. Moneys in the fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the fund by the end of that fiscal year.

c. There is appropriated from the Iowa economic emergency fund to the general fund of the state for the fiscal year in which moneys in the fund were used for cash flow purposes, for the purposes of reducing or preventing any overdraft on or deficit in the general fund of the state, the amount from the Iowa economic emergency fund that was used for cash flow purposes pursuant to paragraph "*b*" and that was not returned to the Iowa economic emergency fund by June 30 of the fiscal year. The appropriation in this paragraph shall not exceed fifty million dollars and is contingent upon all of the following having occurred:

(1) The revenue estimating conference estimate of general fund receipts made during the last quarter of the fiscal year was or the actual fiscal year receipts and accruals were at least one-half of one percent less than the comparable estimate made during the third quarter of the fiscal year.

(2) The governor has implemented the uniform reductions in appropriations required in section 8.31 as a result of subparagraph (1) and such reduction was insufficient to prevent an overdraft on or deficit in the general fund of the state or the governor did not implement uniform reductions in appropriations because of

the lateness of the estimated or actual receipts and accruals under subparagraph (1).

(3) The balance of the general fund of the state at the end of the fiscal year prior to the appropriation made in this paragraph was negative.

(4) The governor has issued an official proclamation and has notified the cochairpersons of the fiscal committee of the legislative council and the legislative services agency that the contingencies in subparagraphs (1) through (3) have occurred and the reasons why the uniform reductions specified in subparagraph (2) were insufficient or were not implemented to prevent an overdraft on or deficit in the general fund of the state.

d. If an appropriation is made pursuant to paragraph "c" for a fiscal year, there is appropriated from the general fund of the state to the Iowa economic emergency fund for the following fiscal year, the amount of the appropriation made pursuant to paragraph "c".

e. Except as provided in section 8.58, the Iowa economic emergency fund shall be considered a special account for the purposes of section 8.53 in determining the cash position of the general fund of the state for the payment of state obligations.

4. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the Iowa economic emergency fund shall be credited to the rebuild Iowa infrastructure fund.

8.56 Cash reserve fund.

1. A cash reserve fund is created in the state treasury. The cash reserve fund shall be separate from the general fund of the state and shall not be considered part of the general fund of the state except in determining the cash position of the state as provided in subsection 3. The moneys in the cash reserve fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the cash reserve fund shall be credited to the rebuild Iowa infrastructure fund created in section 8.57. Moneys in the cash reserve fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the cash reserve fund by the end of that fiscal year.

2. The maximum balance of the cash reserve fund is the amount equal to the cash reserve goal percentage, as defined in section 8.57, multiplied by the adjusted revenue estimate for the general fund of the state for the current fiscal year.

3. The moneys in the cash reserve fund shall only be used pursuant to an appropriation made by the general assembly. An appropriation shall be made in accordance with subsection 4 only for the fiscal year in which the appropriation is made. The moneys shall only be appropriated by the general assembly for nonrecurring emergency expenditures and shall not be appropriated for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded under chapter 20. Except as provided in section 8.58, the cash reserve fund shall be considered a special account for the purposes of section 8.53 in determining the cash position of the general fund of the state for the payment of state obligations.

4. *a.* Except as provided in subsection 1, an appropriation shall not be made from the cash reserve fund unless the appropriation is in accordance with all of the following:

(1) The appropriation is contained in a bill or joint resolution in which the appropriation is the only subject matter of the bill or joint resolution.

(2) The bill or joint resolution states the reasons the appropriation is necessary.

b. In addition to the requirements of paragraph "a", an appropriation shall not be made from the cash reserve fund which would cause the fund's balance to be less than three percent of the adjusted revenue estimate for the year for which the appropriation is made unless the bill or joint resolution is approved by vote of at least three-fifths of the members of both chambers of the general assembly and is signed by the governor.

8.57 Annual appropriations reduction of GAAP deficit rebuild Iowa infrastructure fund.

1. *a.* The "*cash reserve goal percentage*" for fiscal years beginning on or after July 1, 1995, is five percent of the adjusted revenue estimate. For each fiscal year beginning on or after July 1, 1995, in which the appropriation of the surplus existing in the general fund of the state at the conclusion of the prior fiscal year pursuant to paragraph "b" was not sufficient for the cash reserve fund to reach the cash reserve goal percentage for the current fiscal year, there is appropriated from the general fund of the state an amount to be determined as follows:

(1) If the balance of the cash reserve fund in the current fiscal year is not more than four percent of the adjusted revenue estimate for the current fiscal year, the amount of the appropriation under this lettered paragraph is one percent of the adjusted revenue estimate for the current fiscal year.

(2) If the balance of the cash reserve fund in the current fiscal year is more than four percent but less than five percent of the adjusted revenue estimate for that fiscal year, the amount of the appropriation under this lettered paragraph is the amount necessary for the cash reserve fund to reach five percent of the adjusted revenue estimate for the current fiscal year.

(3) The moneys appropriated under this lettered paragraph shall be credited in equal and proportionate amounts in each quarter of the current fiscal year.

b. The surplus existing in the general fund of the state at the conclusion of the fiscal year is appropriated for distribution in the succeeding fiscal year as provided in subsections 2 and 3. Moneys credited to the cash reserve fund from the appropriation made in this paragraph shall not exceed the amount necessary for the cash reserve fund to reach the cash reserve goal percentage for the succeeding fiscal year. As used in this paragraph, "*surplus*" means the excess of revenues and other financing sources over expenditures and other financing uses for the general fund of the state in a fiscal year.

c. The amount appropriated in this section is not subject to the provisions of section 8.31, relating to requisitions and allotment, or to section 8.32, relating to conditional availability of appropriations.

2. Moneys appropriated under subsection 1 shall be first credited to the cash reserve fund. To the extent that moneys appropriated under subsection 1 would make the moneys in the cash reserve fund exceed the cash

reserve goal percentage of the adjusted revenue estimate for the fiscal year, the moneys are appropriated to the department of management to be spent for the purpose of eliminating Iowa's GAAP deficit, including the payment of items budgeted in a subsequent fiscal year which under generally accepted accounting principles should be budgeted in the current fiscal year. These moneys shall be deposited into a GAAP deficit reduction account established within the department of management. The department of management shall annually file with both houses of the general assembly at the time of the submission of the governor's budget, a schedule of the items for which moneys appropriated under this subsection for the purpose of eliminating Iowa's GAAP deficit, including the payment of items budgeted in a subsequent fiscal year which under generally accepted accounting principles should be budgeted in the current fiscal year, shall be spent. The schedule shall indicate the fiscal year in which the spending for an item is to take place and shall incorporate the items detailed in 1994 Iowa Acts, chapter 1181, section 17. The schedule shall list each item of expenditure and the estimated dollar amount of moneys to be spent on that item for the fiscal year. The department of management may submit during a regular legislative session an amended schedule for legislative consideration. If moneys appropriated under this subsection are not enough to pay for all listed expenditures, the department of management shall distribute the payments among the listed expenditure items. Moneys appropriated to the department of management under this subsection shall not be spent on items other than those included in the filed schedule. On September 1 following the close of a fiscal year, moneys in the GAAP deficit reduction account which remain unexpended for items on the filed schedule for the previous fiscal year shall be credited to the Iowa economic emergency fund.

3. To the extent that moneys appropriated under subsection 1 exceed the amounts necessary for the cash reserve fund to reach its maximum balance and the amounts necessary to eliminate Iowa's GAAP deficit, including elimination of the making of any appropriation in an incorrect fiscal year, the moneys shall be appropriated to the Iowa economic emergency fund.

4. As used in this section, "GAAP" means generally accepted accounting principles as established by the governmental accounting standards board.

5. *a.* A rebuild Iowa infrastructure fund is created under the authority of the department of management. The fund shall consist of appropriations made to the fund and transfers of interest, earnings, and moneys from other funds as provided by law. The fund shall be separate from the general fund of the state and the balance in the fund shall not be considered part of the balance of the general fund of the state. However, the fund shall be considered a special account for the purposes of section 8.53, relating to generally accepted accounting principles.

b. Moneys in the infrastructure fund are not subject to section 8.33. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the infrastructure fund shall be credited to the infrastructure fund. Moneys in the infrastructure fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the infrastructure fund by the end of that fiscal year.

c. Moneys in the fund in a fiscal year shall be used as directed by the general assembly for public vertical infrastructure projects. For the purposes of this subsection, "vertical infrastructure" includes only land acquisition and construction, major renovation and major repair of buildings, all appurtenant structures, utilities, site development, and recreational trails. "Vertical infrastructure" does not include routine, recurring maintenance or operational expenses or leasing of a building, appurtenant structure, or utility without a lease-purchase agreement. However, appropriations may be made for the fiscal years beginning July 1, 1997, and July 1, 1998, for the purpose of funding the completion of Part III of the Iowa communications network.

d. The general assembly may provide that all or part of the moneys deposited in the GAAP deficit reduction account created in this section shall be transferred to the infrastructure fund in lieu of appropriation of the moneys to the Iowa economic emergency fund.

e. Notwithstanding provisions to the contrary in sections 99D.17 and 99F.11, for the fiscal year beginning

July 1, 2000, and for each fiscal year thereafter, not more than a total of sixty million dollars shall be deposited in the general fund of the state in any fiscal year pursuant to sections 99D.17 and 99F.11. The next fifteen million dollars of the moneys directed to be deposited in the general fund of the state in a fiscal year pursuant to sections 99D.17 and 99F.11 shall be deposited in the vision Iowa fund created in section 12.72 for the fiscal year beginning July 1, 2000, and for each fiscal year through the fiscal year beginning July 1, 2019. The next five million dollars of the moneys directed to be deposited in the general fund of the state in a fiscal year pursuant to sections 99D.17 and 99F.11 shall be deposited in the school infrastructure fund created in section 12.82 for the fiscal year beginning July 1, 2000, and for each fiscal year thereafter until the principal and interest on all bonds issued by the treasurer of state pursuant to section 12.81 are paid, as determined by the treasurer of state. The total moneys in excess of the moneys deposited in the general fund of the state, the vision Iowa fund, and the school infrastructure fund in a fiscal year shall be deposited in the rebuild Iowa infrastructure fund and shall be used as provided in this section, notwithstanding section 8.60.

If the total amount of moneys directed to be deposited in the general fund of the state under sections 99D.17 and 99F.11 in a fiscal year is less than the total amount of moneys directed to be deposited in the vision Iowa fund and the school infrastructure fund in the fiscal year pursuant to this paragraph "e", the difference shall be paid from lottery revenues in the manner provided in section 99G.39, subsection 3.

f. There is appropriated from the rebuild Iowa infrastructure fund to the secure an advanced vision for education fund created in section 422E.3A, for each fiscal year of the fiscal period beginning July 1, 2004, and ending June 30, 2014, the amount of the moneys in excess of the first forty-seven million dollars credited to the rebuild Iowa infrastructure fund during the fiscal year, not to exceed ten million dollars.

8.63 Innovations fund.

1. An innovations fund is created in the state treasury under the control of the department of management for the purpose of stimulating and encouraging innovation and entrepreneurship in state government by the awarding of repayable loans to state agencies.

2. The director of the department of management shall establish an eight-member committee to be called the state innovations fund committee. The committee shall review all requests for funds and approve loans of funds if the committee determines that the loan meets the requirements for a project loan or an enterprise loan as provided in this section.

3. A project loan can be funded if the committee determines that an agency request would result in cost savings or added revenue to the general fund of the state. Eligible projects are projects which cannot be funded from an agency's operating budget without adversely affecting the agency's normal service levels. Projects may include, but are not limited to, purchase of advanced technology, contracting for expert services, and acquisition of equipment or supplies.

4. An enterprise loan can be funded if the committee determines that the agency or business unit has a viable business plan and the capability to use the loan to provide internal services to government. The enterprise is expected to receive payment for services from its customers and use those payments to cover its expenses, including repayment of the loan.

5. A state agency seeking a loan from the innovations fund shall complete an application form designed by the state innovations fund committee which employs, for projects, a return on investment concept and demonstrates how state general fund expenditures will be reduced or how state general fund revenues will increase, or for enterprises, a business plan that shows how the enterprise will meet customer needs, provide value to customers, and demonstrate financial viability. Minimum loan requirements for state agency requests shall be determined by the committee. As an incentive to increase state general fund revenues, an agency may retain up to fifty percent of savings realized in connection with a project loan from the innovations fund. The amount retained shall be determined by the innovations fund committee.

6. *a.* In order for the innovations fund to be self-supporting, the innovations fund committee shall establish repayment schedules for each innovations fund loan awarded. Agencies shall repay the funds over a period not to exceed five years with interest, at a rate to be determined by the innovations fund committee.

b. If the department of management and the department of revenue certify that the savings from a proposed innovations fund project will result in a net increase in the balance of the general fund of the state without a corresponding cost savings to the requesting agency, and if the requesting agency meets all other eligibility requirements, the innovations fund committee may approve the loan for the project and not require repayment by the requesting agency. There is appropriated from the general fund of the state to the department of management for deposit in the innovations fund an amount sufficient to repay the loan amount.

7. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the innovations fund shall be credited to the innovations fund. Notwithstanding section 8.33, moneys remaining in the innovations fund at the end of a fiscal year shall not revert to the general fund of the state.

1. The local government innovation fund is created in the state treasury under the control of the department of management for the purpose of stimulating and encouraging innovation in local government by the awarding of loans to cities and counties.

2. The director of the department of management shall establish a seven-member committee to be called the local government innovation fund committee. Committee members shall have expertise in local government. The committee shall review all requests for funds and approve loans of funds if the committee determines that a city or county project that is the subject of a request would result in cost savings, innovative approaches to service delivery, or added revenue to the city, county, or state. Eligible projects are projects which cannot be funded from a city's or county's operating budget without adversely affecting the city's or county's normal service levels. Preference shall be given to requests involving the sharing of services between two or more local governments. Projects may include, but are not limited to, purchase of advanced technology, contracting for expert services, and acquisition of equipment or supplies.

3. A city or county seeking a loan from the local government innovation fund shall complete an application form designed by the local government innovation fund committee which employs a return on investment concept and demonstrates how the project funded by the loan will result in reduced city, county, or state general fund expenditures or how city or county fund revenues will increase without an increase in state costs. Minimum loan requirements for city or county requests shall be determined by the committee.

4. *a.* In order for the local government innovation fund to be self-supporting, the local government innovation fund committee shall establish repayment schedules for each loan awarded. The loan requirements shall be outlined in a chapter 28E agreement executed between the state and the city or county receiving the loan. A city or county shall repay the loan over a period not to exceed five years, with interest, at a rate to be determined by the local government innovation fund committee.

b. The local government innovation fund committee shall utilize the department of management, the department of revenue, or other source of technical expertise designated by the committee to certify savings projected for a local government innovation fund project.

5. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the local government innovation fund shall be credited to the local government innovation fund. Notwithstanding section 8.33, moneys appropriated to and moneys remaining in the local government innovation fund at the end of a fiscal year shall not revert to the general fund of the state.
