

201A.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Agricultural liming material"* means a product having calcium and magnesium compounds capable of neutralizing soil acidity.
2. *"Brand"* means the term, designation, trade name, product name, or other specific designation under which individual agricultural liming material is offered for sale.
3. *"Bulk"* means material which is in a nonpackaged form.
4. *"Effective calcium carbonate equivalent"* means the acid-neutralizing capacity of an agricultural liming material.

96 Acts, ch 1096, § 4, 15
