237A.2 Licensing of child care centers.

1. A person shall not establish or operate a child care center without obtaining a license under the provisions of this chapter. A center may operate for a specified period of time, to be established by rule of the department, if application for a license has been made. If the department denies an application for an initial license, notwithstanding section 17A.18, the applicant center shall not continue to provide child care pending the outcome of an evidentiary hearing. The department shall issue a license if it determines that all of the following conditions have been met:

a. An application for a license or a renewal has been filed with the administrator on forms provided by the department.

b. The center is maintained to comply with state health and fire laws.

c. The center is maintained to comply with rules adopted under section 237A.12.

2. *a.* A person denied a license under this section shall receive written notice of the denial stating the reasons for denial and shall be provided with an opportunity for an evidentiary hearing.

b. A license issued under this chapter shall be valid for twenty-four months from the date of issuance. A license shall remain valid unless it is revoked or suspended in accordance with the provisions of section 237A.8 or is reduced to a provisional license under subsection 3. The department may inspect a licensed center at any time. A record of the license shall be kept by the department.

c. The license shall be posted in a conspicuous place in the center and shall state the particular premises in

which child care may be offered and the number of individuals who may be received for care at any one time. A greater number of children than is authorized by the license shall not be kept in the center at any one time.

3. The administrator may reduce a previously issued license to a provisional license or issue a provisional license for a period of time not to exceed one year if the center does not meet standards required under this section. A provisional license shall not be renewable in regard to the same standards for more than two consecutive years. A provisional license shall be posted in a conspicuous place in the center as provided in this section. If written plans to bring the center up to standards, giving specific dates for completion of work, are submitted to and approved by the department, the provisional license shall be renewable as provided in this subsection.

4. A program which is not a child care center by reason of the exceptions to the definition of child care in section 237A.1, subsection 3, but which provides care, supervision, and guidance to a child may be issued a license if the program complies with all the provisions of this chapter.

5. If the department has denied or revoked a license because the applicant or person has continually or repeatedly failed to operate a licensed center in compliance with this chapter and rules adopted pursuant to this chapter, the person shall not own or operate a child care center for a period of twelve months from the date the license is denied or revoked. The department shall not act on an application for a license submitted by the applicant or person during the twelve-month period. The applicant or person shall be prohibited from involvement with child care unless the involvement is specifically permitted by the department.

237A.3A Child development homes.

1. Registration.

a. A person shall not establish or operate a child development home unless the person obtains a certificate of registration. The department shall issue a certificate of registration upon receipt of a statement from the person or upon completion of an inspection conducted by the department or a designee of the department verifying that the person complies with applicable rules adopted by the department pursuant to this section and section 237A.12.

b. The certificate of registration shall be posted in a conspicuous place in the child development home and shall state the name of the registrant, the registration category of the child development home, the maximum number of children who may be present for child care at any one time, and the address of the child development home. In addition, the certificate shall include a checklist of registration compliances.

c. The registration process for a child development home shall be repeated every twenty-four months as provided by rule.

d. A person who holds a child foster care license under chapter 237 shall register as a child development home provider in order to provide child care.

2. *Revocation or denial of registration.* If the department has denied or revoked a certificate of registration because a person has continually or repeatedly failed to operate a registered or licensed child care facility in compliance with this chapter and rules adopted pursuant to this chapter, the person shall not operate or establish a registered child development home for a period of twelve months from the date the registration or license was denied or revoked. The department shall not act on an application for registration submitted by the person during the twelve-month period. The applicant or person shall be prohibited from involvement with child care unless the involvement is specifically permitted by the department.

3. *Rules.*

a. Three categories of standards shall be applicable to child development homes. The initial designations of the categories, which may be revised by the department, shall be "A", "B", and "C", as ranked from less stringent standards and capacity to more stringent standards and capacity. The "C" registration category standards shall require the highest level of provider qualifications and allow the greatest capacity of the three categories. The department of human services, in consultation with the Iowa department of public health, shall adopt rules applying standards to each category specifying provider qualifications and training, health and safety requirements, capacity, amount of space available per child, and other minimum requirements. The capacity requirements shall take into consideration the provider's own children, children who have a mild illness, children receiving part-time child care, and children served as a sibling group in overnight care.

b. The rules shall allow a child development home to be registered in a particular category for which the provider is qualified even though the amount of space required to be available for the maximum number of children authorized for that category exceeds the actual amount of space available in that home. However, the total number of children authorized for the child development home at that category of registration shall be limited by the amount of space available per child.

c. In consultation with the state fire marshal, the department shall adopt rules relating to the provision of fire extinguishers, smoke detectors, and two exits accessible to children in a child development home.

4. *Number of children.*

a. In determining the number of children present for child care at any one time in a child development home, each child present in the child development home shall be considered as being provided child care unless the child is described by one of the following exceptions:

(1) The child's parent, guardian, or custodian operates or established the child development home and the child is attending school or the child is provided child care full-time on a regular basis by another person.

(2) The child has been present in the child development home for more than seventy-two consecutive hours and the child is attending school or the child is provided child care full-time on a regular basis by another person.

b. For purposes of determining the number of children present for child care in a child development home, a child receiving foster care from a child development home provider shall be considered to be the child of the provider.

5. Smoking, as defined in section 142B.1, shall not be permitted during a child development home's hours of operation in an area of the child development home which may be used by the children receiving child care.

237A.4 Inspection and evaluation.

The department shall make periodic inspections of licensed centers to ensure compliance with licensing requirements provided in this chapter, and the local boards of health may make periodic inspections of licensed centers to ensure compliance with health-related licensing requirements provided in this chapter. The department may inspect records maintained by a licensed center and may inquire into matters concerning these centers and the persons in charge. The department shall require that the center be inspected by the state fire marshal or a designee for compliance with rules relating to fire safety before a license is granted or renewed. The department or a designee may periodically visit registered child development homes for the purpose of evaluation of an inquiry into matters concerning compliance with rules adopted under section 237A.12. Evaluation of child development homes under this section may include consultative services provided pursuant to section 237A.6.

237A.5 Personnel.

1. All personnel in licensed or registered facilities shall have good health as evidenced by a report following a preemployment physical examination taken within six months prior to beginning employment. The examination shall include communicable disease tests by a licensed physician as defined in section 135C.1 and shall be repeated every three years after initial employment. Controlled medical conditions which would not affect the performance of the employee in the capacity employed shall not prohibit employment.

2. a. For the purposes of this section, unless the context otherwise requires:

(1) "*Person subject to an evaluation*" means a person who has committed a transgression and who is described by any of the following:

(a) The person is being considered for licensure or registration or is registered or licensed under this chapter.

(b) The person is being considered by a child care facility for employment involving direct responsibility for a child or with access to a child when the child is alone or is employed with such responsibilities.

(c) The person will reside or resides in a child care facility.

(d) The person has applied for or receives public funding for providing child care.

(e) The person will reside or resides in a child care home that is not registered under this chapter but that receives public funding for providing child care.

(2) "*Transgression*" means the existence of any of the following in a person's record:

- (a) Conviction of a crime.
- (b) A record of having committed founded child or dependent adult abuse.
- (c) Listing in the sex offender registry under chapter 692A.
- (d) A record of having committed a public or civil offense.
- (e) The department has revoked a child care facility registration or license due to the person's continued or repeated failure to operate the child care facility in compliance with this chapter and rules adopted pursuant to this chapter.

b. The department shall conduct criminal and child abuse record checks in this state and may conduct these checks in other states. In addition, the department may conduct dependent adult abuse, sex offender registry, and other public or civil offense record checks in this state or in other states. If the department identifies an individual as a person subject to an evaluation, an evaluation shall be performed to determine whether prohibition of the person's involvement with child care is warranted. The evaluation shall be performed in accordance with procedures adopted for this purpose by the department.

Prior to performing an evaluation, the department shall notify the affected person, licensee, registrant, or child care home applying for or receiving public funding for providing child care, that an evaluation will be conducted to determine whether prohibition of the person's involvement with child care is warranted.

c. In an evaluation, the department shall consider the nature and seriousness of the transgression in relation to the position sought or held, the time elapsed since the commission of the transgression, the circumstances under which the transgression was committed, the degree of rehabilitation, the likelihood that the person will commit the transgression again, and the number of transgressions committed by the person involved. In addition to record check information, the department may utilize information from the department's case records in performing the evaluation. The department may permit a person who is evaluated to maintain involvement with child care, if the person complies with the department's conditions and corrective action plan relating to the person's involvement with child care. The department has final authority in determining whether prohibition of the person's involvement with child care is warranted and in developing any conditional requirements and corrective action plan under this paragraph.

d. (1) A person subject to an evaluation shall be prohibited from involvement with child care if the person has a record of founded child or dependent adult abuse that was determined to be sexual abuse, the person is listed on the sex offender registry under chapter 692A, or the person has committed any of the following felony-level offenses:

- (a) Child endangerment or neglect or abandonment of a dependent person.
- (b) Domestic abuse.
- (c) A crime against a child including but not limited to sexual exploitation of a minor.
- (d) A forcible felony.

(2) If, within five years prior to the date of application for registration or licensure under this chapter, for employment or residence in a child care facility or child care home, or for receipt of public funding for providing child care, a person subject to an evaluation has been convicted of a controlled substance offense under chapter 124 or has been found to have committed physical abuse, the person shall be prohibited from involvement with child care for a period of five years from the date of conviction or founded abuse. After the five-year prohibition period, the person may submit an application for registration or licensure under this

chapter, or to receive public funding for providing child care or may request an evaluation, and the department shall perform an evaluation and, based upon the criteria in paragraph "c", shall determine whether prohibition of the person's involvement with child care continues to be warranted.

e. If the department determines, through an evaluation of a person's transgression, that the person's prohibition of involvement with child care is warranted, the person shall be prohibited from involvement with child care. The department may identify a period of time after which the person may request that another record check and evaluation be performed. A person who continues involvement with child care in violation of this subsection is subject to penalty under section 237A.19 or injunction under section 237A.20.

f. If it has been determined that a child receiving child care from a child care facility or a child care home which receives public funding for providing child care is the victim of founded child abuse committed by an employee, license or registration holder, child care home provider, or resident of the child care facility or child care home for which a report is placed in the central registry pursuant to section 232.71D, the administrator shall provide notification at the time of the determination to the parents, guardians, and custodians of children receiving care from the facility or child care home. A notification made under this paragraph shall identify the type of abuse but shall not identify the victim or perpetrator or circumstances of the founded abuse.

3. On or after July 1, 1994, a licensee or registrant shall inform all new applicants for employment of the possibility of the performance of a record check and shall obtain, from the applicant, a signed acknowledgment of the receipt of the information.

4. On or after July 1, 1994, a licensee or registrant shall include the following inquiry in an application for employment: "Do you have a record of founded child or dependent adult abuse or have you ever been convicted of a crime, in this state or any other state?"

5. A person who serves as an unpaid volunteer in a child care facility shall not be required to complete training as a mandatory reporter of child abuse under section 232.69 or under any other requirement.

Anyone who acquires through the administration of this chapter information relative to an individual in a child care facility or to a relative of the individual shall not, directly or indirectly, disclose the information except upon inquiry before a court of law or with the written consent of the individual or, in the case of a child, the written consent of the parent or guardian or as otherwise specifically required or allowed by law.

This section shall not prohibit the disclosure of information relative to the structure and operation of a facility nor shall it prohibit the statistical analysis by duly authorized persons of data collected by virtue of this chapter, or the publication of the results of the analysis in a manner which does not disclose information

The administrator shall notify the parent, guardian, or legal custodian of each child for whom the person provides child care at the time of action to suspend or revoke a license or certificate of registration.

237A.12 Rules.

1. Subject to the provisions of chapter 17A, the department shall adopt rules setting minimum standards to provide quality child care in the operation and maintenance of child care centers and registered child development homes, relating to all of the following:

a. The number and qualifications of personnel necessary to assure the health, safety, and welfare of children in the facilities. Rules for facilities which are preschools shall be drawn so that any staff-to-children ratios which relate to the age of the children enrolled shall be based on the age of the majority of the children served by a particular class rather than on the age of the youngest child served.

b. Physical facilities.

c. The adequacy of activity programs and food services available to the children. The department shall not restrict the use of or apply nutritional standards to a lunch or other meal which is brought to the center, child development home, or child care home by a school-age child for the child's consumption.

d. Policies established by the center for parental participation.

e. Programs for education and in-service training of staff.

f. Records kept by the facilities.

g. Administration.

h. Health, safety, and medical policies for children.

2. Rules adopted by the state fire marshal for buildings, other than school buildings, used as child care centers as an adjunct to the primary purpose of the building shall take into consideration that children are received for temporary care only and shall not differ from rules adopted for these buildings when they are used by groups of persons congregating from time to time in the primary use and occupancy of the buildings.

However, the rules may require a fire-rated separation from the remaining portion of the building if the fire marshal determines that the separation is necessary for the protection of children from a specific flammable hazard.

3. Rules relating to fire safety for child care centers shall be adopted under this chapter by the state fire marshal in consultation with the department. Rules adopted by the state fire marshal for a building which is owned or leased by a school district or accredited nonpublic school and used as a child care facility shall not differ from standards adopted by the state fire marshal for school buildings under chapter 100. Rules relating to sanitation shall be adopted by the department in consultation with the director of public health. All rules shall be developed in consultation with the state child care advisory council. The state fire marshal shall inspect the facilities.

4. If a building is owned or leased by a school district or accredited nonpublic school and complies with standards adopted by the state fire marshal for school buildings under chapter 100, the building is considered appropriate for use by a child care facility. The rules adopted by the administrator under this section shall not require the facility to comply with building requirements which differ from requirements for use of the building as a school.

5. Standards and requirements set by a city or county for a building which is owned or leased by a school district or accredited nonpublic school and used as a child care facility shall take into consideration that children are received for temporary care only and shall not differ from standards and requirements set for use of the building as a school.

2. Services under the program may be provided in a licensed child care center, a child development home, the home of a relative, the child's own home, a child care home, or in a facility exempt from licensing or registration.

3. The department shall set reimbursement rates as authorized by appropriations enacted for payment of the reimbursements. The department shall conduct a statewide reimbursement rate survey to compile information on each county and the survey shall be conducted at least every two years. The department shall set rates in a

manner so as to provide incentives for an unregistered provider to become registered.

4. The department shall not apply waiting list requirements to any of the following persons:

a. Persons deemed to be eligible for benefits under the state child care assistance program in accordance with section 239B.24.

b. A family that is receiving state child care assistance at the time a child is born into the family. The newborn child shall be approved for services when the family reports the birth of the child.

c. Children who need protective services to prevent or alleviate child abuse or neglect.

d. A child in a family that is eligible for state child care assistance and that receives a state adoption subsidy for the child.

5. Based upon the availability of the funding appropriated for state child care assistance for a fiscal year, the department shall establish waiting lists for state child care assistance in descending order of prioritization as follows:

a. Families with an income at or below one hundred percent of the federal poverty level whose members are employed at least twenty-eight hours per week, and parents with a family income at or below one hundred percent of the federal poverty level who are under the age of twenty-one years and are participating in an educational program leading to a high school diploma or the equivalent.
