

319.5 New lines.

New lines, or parts of lines hereafter constructed, shall, in case of secondary roads, be located by the county engineer upon written application filed with the county auditor, and in case of primary roads, by the state highway engineer upon written application filed with the department, and shall thereafter be removable according to the provisions of this chapter. If there be no county engineer, the board of supervisors, in case of secondary roads, shall designate said location.
