

384.99 Award of contract.

The contract for the public improvement must be awarded to the lowest responsible bidder, provided, however, that contracts relating to public utilities or extensions or improvements thereof, as described in division V of this chapter, may be awarded by the governing body as it deems to be in the best interests of the city. This section shall not be construed to prohibit a city in the award of a contract for a public improvement or a governing body of a city utility from providing, in the award of a contract for a public improvement, an enhancement of payments upon early completion of the public improvement if the availability of the enhancement payments is included in the notice to bidders, the enhancement payments are competitively neutral to potential bidders, the enhancement payments are considered as a separate item in the public hearing on the award of contract, and the total value of the enhancement payments does not exceed ten percent of the value of the contract.
