

135B.28 Hospital bill.

The hospital bill shall properly include the charges for pathology and radiology services as long as the name of the doctor is stated and it fairly appears that the charge is for medical services. The said hospital bill shall also contain a statement substantially in the following form:

"The pathology and radiology charges are for medical services rendered by or under the direction of the doctor listed above and are collected by the hospital on behalf of the doctor, from which charges an agreed sum will be retained by the hospital in accordance with an existing agreement to which retention you consented at the time of your admission to the hospital."

Upon the effective date of regulations which may be adopted by the United States department of health and human services prohibiting combined billing by hospitals and hospital-based physicians under Title XVIII of the federal Social Security Act, the charges for all pathology and radiology services in a hospital, may upon the mutual agreement of the hospital, physician and third-party payer, be billed separately, the hospital component of the charges being included in the hospital bill and the doctor component being billed by the doctor.
