

135C.40 Citations when violations found penalties exception.

1. If the director determines, based on the findings of an inspection or investigation of a health care facility, that the facility is in violation of this chapter or rules adopted under this chapter, the director within five working days after making the determination, may issue a written citation to the facility. The citation shall be served upon the facility personally or by certified mail, except that a citation for a Class III violation may be sent by ordinary mail. Each citation shall specifically describe the nature of the violation, identifying the Code section or subsection or the rule or standard violated, and the classification of the violation under section 135C.36. Where appropriate, the citation shall also state the period of time allowed for correction of the violation, which shall in each case be the shortest period of time the department deems feasible. Failure to correct a violation within the time specified, unless the licensee shows that the failure was due to circumstances beyond the licensee's control, shall subject the facility to a further penalty of fifty dollars for each day that the violation continues after the time specified for correction.
2. When a citation is served upon or mailed to a health care facility under subsection 1 and the licensee of the facility is not actually involved in the daily operation of the facility, a copy of the citation shall be mailed to the licensee. If the licensee is a corporation, a copy of the citation shall be sent to the corporation's office of record. If the citation was issued pursuant to an inspection resulting from a complaint filed under section 135C.37, a copy of the citation shall be sent to the complainant at the earliest time permitted by section 135C.19, subsection 1.
3. No health care facility shall be cited for any violation caused by any practitioner licensed pursuant to chapter 148, 150 or 150A if that practitioner is not the licensee of and is not otherwise financially interested in the facility, and the licensee or the facility presents evidence that reasonable care and diligence have been exercised in notifying the practitioner of the practitioner's duty to the patients in the facility.
