

## **15E.192 Enterprise zones.**

1. A county may create an economic development enterprise zone as authorized in this division, subject to certification by the department of economic development, by designating up to one percent of the county area for that purpose. An eligible county containing a city whose boundaries extend into an adjacent county may establish an enterprise zone in an area of the city located in the adjacent county if the adjacent county's board of supervisors adopts a resolution approving the establishment of the enterprise zone in the city and the two counties enter into an agreement pursuant to chapter 28E regarding the establishment of the enterprise zone. A county may establish more than one enterprise zone.

2. A city with a population of twenty-four thousand or more, as shown by the 2000 certified federal census, may create an economic development enterprise zone as authorized in this division, subject to certification by the department of economic development, by designating one or more contiguous census tracts, as determined in the most recent federal census, or designating other geographic units approved by the department of economic development for that purpose. If there is an area in the city which meets the requirements for eligibility for an urban or rural enterprise community under Title XIII of the federal Omnibus Budget Reconciliation Act of 1993, such area shall be designated by the state as an economic development enterprise zone. The area meeting the requirements for eligibility for an urban or rural enterprise community shall not be included for the purpose of determining the area limitation pursuant to subsection 3. In creating an enterprise zone, a city with a population of twenty-four thousand or more, as shown by the 2000 certified federal census, may designate as part of the area tracts or approved geographic units located in a contiguous city if such tracts or approved geographic units meet the criteria and the city agrees to being included. The city may establish more than one enterprise zone. Reference in this division to "*city*" means a city with a population of twenty-four thousand or more, as shown by the 2000 certified federal census.

3. *a.* An enterprise zone certified by the department pursuant to subsection 2 shall only be amended if the amendment consists of an area being added to the enterprise zone and the added area meets the criteria of section 15E.194, subsection 2. An enterprise zone certified by the department pursuant to subsection 1 or 2 may be decertified; however, if a subsequent enterprise zone is designated, the expiration date of the subsequent enterprise zone shall be the same as the expiration date of the decertified enterprise zone. A portion of a certified enterprise zone may be decertified, provided that the remaining portion of the certified enterprise zone meets the distress criteria provided in section 15E.194.

*b.* A county or city may apply to the department for an area to be certified as an enterprise zone at any time prior to March 1, 2006. However, the total amount of land designated as enterprise zones under subsections 1 and 2, and any other enterprise zones certified by the department, excluding those approved pursuant to section 15E.194, subsection 4, shall not exceed in the aggregate one percent of the total county area.

4. An enterprise zone designation shall remain in effect for ten years following the date of certification. Any state or local incentives or assistance that may be conferred must be conferred before the designation expires. However, the benefits of the incentive or assistance may continue beyond the expiration.
