

307.25 Aeronautics and public transit.

The department's administrator for aeronautics and public transit shall:

1. Advise and assist the director in the development of aeronautics, including but not limited to the location of air terminals, accessibility of air terminals by other modes of public transportation, protective zoning provisions considering safety factors, noise, and air pollution, facilities for private and commercial aircraft, air freight facilities and such other physical and technical aspects as may be necessary to meet present and future needs.
2. Advise and assist the director in the study of local and regional transportation of goods and people including intracity and intercity bus systems, dial-a-bus facilities, rural and urban bus and taxi systems, the collection of data from these systems, feasibility study of increased government subsidy assistance and determination of the allocation of such subsidies to each mass transportation system, such other physical and technical aspects which may be necessary to meet present and future needs and apply for, accept and expend federal, state or private funds for the improvement of mass transit.
3. Advise and assist the director to study and develop highway transport economics to assure availability and productivity of highway transport services.
4. Administer chapters 328, 329, and 330.
5. Perform other duties and responsibilities as assigned by the director.
