

309.25 Material considerations for farm-to-market roads.

In planning and in adopting said program or project by the board of supervisors, said board and the county engineer shall give due and careful consideration, (1) to the location of primary roads, and of roads heretofore improved as county roads, (2) to the market centers and main roads leading thereto, and (3) to rural mail and school bus routes, it being the intent of this chapter that said program or project will, when finally executed, afford the highest possible systematic, intracounty and intercounty connections of all roads of the county.
