The application for approval may be submitted prior to commencement of the construction of the qualified facility but shall be submitted no later than the close of the owner's first taxable year for which the credit is to be applied for. The application must contain the owner's name and address, the address of the qualified facility, and the dates of the owner's first and last taxable years for which the credit will be applied for. Within forty-five days of the receipt of the application for approval, the board of supervisors shall either approve or disapprove the application. After the forty-five-day limit, the application is deemed to be approved.
 - b. Upon approval of the application, the owner may apply for the tax credit as provided in subsection 2. In

addition, approval of the application is acceptance by the applicant for the assessment of the qualified facility for property tax purposes for a period of twelve years and approval by the board of supervisors for the payment of the property taxes levied on the qualified property to the state. For purposes of property taxation, the qualified facility shall be centrally assessed and shall be exempt from any replacement tax under section 437A.6 for the period during which the facility is subject to property taxation. The property taxes to be paid to the state are those property taxes which make up the consolidated tax levied on the qualified facility and which are due and payable in the twelve-year period beginning with the first fiscal year beginning on or after the end of the owner's first taxable year for which the credit is applied for. Upon approval of the application, the board of supervisors shall notify the county treasurer to state on the tax statement which lists the taxes on the qualified facility that the amount of the property taxes shall be paid to the department. Payment of the designated property taxes to the department shall be in the same manner as required for the payment of regular property taxes and failure to pay designated property taxes to the department shall be treated the same as failure to pay property taxes to the county treasurer.

c. Once the owner of the qualified facility receives approval under paragraph "a", subsequent approval under paragraph "a" is not required for the same qualified facility for subsequent taxable years.

3. The board shall notify the department of the amount of kilowatt-hours generated and purchased from a qualified facility. The department shall calculate the amount of the tax credit for which the applicant is eligible and shall issue the tax credit certificate for that amount or notify the applicant in writing of its refusal to do so. An applicant whose application is denied may file an appeal with the department within sixty days from the date of the denial pursuant to the provisions of chapter 17A.

4. Each tax credit certificate shall contain the owner's name, address, and tax identification number, the amount of tax credits, the first taxable year the certificate may be used, the type of tax to which the tax credits shall be applied, and any other information required by the department. The tax credit certificate shall only list one type of tax to which the amount of the tax credit may be applied.
