

483A.8A Deer harvest reporting system.

1. The commission shall provide, by rule, for the establishment of a deer harvest reporting system for the purpose of collecting information from deer hunters concerning the deer population in this state. Each person who is issued a deer hunting license in this state shall report such information pursuant to this section. Information collected by the commission pursuant to the deer harvest reporting system from a deer hunter who takes a deer shall be limited to the following:

- a.* The county where the deer was taken.
- b.* The season during which the deer was taken.
- c.* The sex of the deer taken.
- d.* The age of the deer taken.
- e.* The type of weapon used.
- f.* The hunting license number of the hunter.
- g.* The number of days the hunter hunted.
- h.* The total number of deer taken by the hunter.

2. The deer harvest reporting system established by the commission shall utilize and is limited to utilizing one or more of the following methods of reporting deer taken by hunters:

- a.* A toll-free telephone number.
- b.* A postcard.
- c.* Reporting at an electronic licensing location.
- d.* Electronic internet communication.
