

135B.23 Agreement with doctor.

Each hospital shall arrange for such services and for the direction and supervision of its pathology or radiology department by entering into either an oral or written agreement with a doctor who is a member of or acceptable to the hospital medical staff. Such doctor may or may not be a specialist. The department may be supervised and directed by a qualified member of the staff and specific services may be referred to a specialist, or the specialist may also direct and supervise the department as may be desired. Any contract so entered into shall be in accordance with the provisions of this division.
