

135C.31A Assessment of residents program eligibility.

A health care facility receiving reimbursement through the medical assistance program under chapter 249A shall assist the Iowa department of veterans affairs in identifying, upon admission of a resident, the resident's eligibility for benefits through the United States department of veterans affairs. The department of inspections and appeals, in cooperation with the department of human services, shall adopt rules to administer this section, including a provision that ensures that if a resident is eligible for benefits through the United States department of veterans affairs or other third-party payor, the payor of last resort for reimbursement to the health care facility is the medical assistance program. The rules shall also require the health care facility to request information from a resident or resident's personal representative regarding the resident's veteran status and to report to the Iowa department of veterans affairs only the names of residents identified as potential veterans along with the names of their spouses and any dependents. Information reported by the health care facility shall be verified by the Iowa department of veterans affairs. This section shall not apply to the admission of an individual to a state mental health institute for acute psychiatric care or to the admission of an individual to the Iowa veterans home.
