Either the administrator of the division or the director of inspections and appeals, in cooperation with each other, upon receipt of a complaint or for good cause, may make, or cause to be made, a review of a county care facility or of any other private or county institution where persons with mental illness or mental retardation reside. A licensure inspection or a review shall be made by a competent and disinterested person who is acquainted with and interested in the care of persons with mental illness and persons with mental retardation. 2. A copy of the written report prescribed by subsection 1 shall be furnished to the county board of supervisors, to the county mental health and mental retardation coordinating board or to its advisory board if the county board of supervisors constitutes ex officio the coordinating board, to the administrator of the

county care facility inspected and to its resident advocate committee, and to the department of elder affairs.

3. The department of inspections and appeals shall inform the administrator of the division of an action by the department to suspend, revoke, or deny renewal of a license issued by the department of inspections and appeals to a county care facility, and the reasons for the action.

In addition to the licensure inspections required or authorized by this section, the administrator of the division shall cause to be made an evaluation of each person cared for in a county care facility at least once each year by one or more qualified mental health, mental retardation, or medical professionals, whichever is appropriate.

a. It is the responsibility of the state to secure the annual evaluation for each person who is on convalescent leave or who has not been discharged from a state mental health institute. It is the responsibility of the county to secure the annual evaluation for all other persons with mental illness in the county care facility.

The standards shall be enforced by the department of inspections and appeals as a part of the licensure inspection conducted pursuant to chapter 135C. The objective of the standards is to ensure that persons with mental illness or mental retardation who are residents of county care facilities are not only adequately fed, clothed, and housed, but are also offered reasonable opportunities for

productive work and recreational activities suited to their physical and mental abilities and offering both a constructive outlet for their energies and, if possible, therapeutic benefit. When recommending standards under this section, the administrator shall designate an advisory committee representing administrators of county care facilities, county mental health and developmental disabilities regional planning councils, and county care facility resident advocate committees to assist in the establishment of standards.
