

690.4 Fingerprints and photographs at institutions.

The warden of the Iowa medical and classification center and superintendent of the state training school shall take or procure the taking of the fingerprints, and, in the case of the Iowa medical and classification center only, Bertillon photographs of any person received on commitment to their respective institutions, and shall forward such fingerprint records and photographs within ten days after they are taken to the department of public safety and to the federal bureau of investigation. Information obtained from fingerprint cards submitted pursuant to this section may be retained by the department of public safety as criminal history records. If a charge for a serious misdemeanor, aggravated misdemeanor, or felony is brought against a person already in the custody of a law enforcement or correctional agency and the charge is filed in a case separate from the case for which the person was previously arrested or confined, the agency shall take the fingerprints of the person in connection with the new case and submit them to the department of public safety.

The wardens and superintendents of all department of corrections facilities shall procure the taking of a photograph showing the facial features of each inmate of a state correctional institution prior to the inmate's discharge. The photograph shall be placed in the inmate's file and shall be made available to the Iowa department of public safety upon request.
