

RESTRICTIONS ON SUDAN-RELATED INVESTMENTS

12F.1 Legislative findings and intent.

The general assembly is deeply concerned over the human rights situation in Sudan which calls for stepped-up international efforts to end the crisis in Sudan's Darfur region, and concurs with United States policy which has officially declared that genocide is ongoing in the Sudan, and demands that the government of Sudan bring an end to these atrocities. Therefore, the general assembly intends that state funds and funds administered by the state, including public employee retirement funds, should not be invested in companies that provide power production-related services, mineral extraction activities, oil-related activities, or military equipment to the government of Sudan, or are complicit in the genocide in Darfur, given the ongoing genocide in that country, the previous atrocities perpetrated by the government of Sudan, and the abysmal human rights situation in that country.

2007 Acts, ch 39, §2

12F.3 Identification of companies notice.

1. a. By July 1, 2007, the public fund shall make its best efforts to identify all scrutinized companies in which the public fund has direct or indirect holdings or could possibly have such holdings in the future and shall create and make available to the public a scrutinized companies list for that public fund. The list shall further identify whether the company has inactive business operations or active business operations. The public fund shall review and update, if necessary, the scrutinized companies list and the determination of whether a company has inactive or active business operations on a quarterly basis thereafter.

b. In making its best efforts to identify scrutinized companies and companies with inactive business operations or active business operations, the public fund may review and rely, in the best judgment of the public fund, on publicly available information regarding companies with business operations in Sudan, such as information provided by the Sudan divestment task force, and including other information that may be provided by nonprofit organizations, research firms, international organizations, and government entities. The public fund may also contact asset managers and institutional investors for the public fund to identify scrutinized companies based upon industry-recognized lists of such companies that the public fund may have indirect holdings in.

2. a. For each company on the scrutinized companies list with only inactive business operations in which the public fund has direct or indirect holdings, the public fund shall send a written notice informing the company of the requirements of this chapter and encouraging it to continue to refrain from initiating active business operations in Sudan until it is able to avoid scrutinized business operations. The public fund shall continue to provide such written notice on an annual basis if the company remains a scrutinized company with inactive business operations.

b. For each company on the scrutinized companies list with active business operations in which the public fund has direct or indirect holdings, the public fund shall send a written notice informing the company of its status as a scrutinized company with active business operations and that it may become subject to divestment

and restrictions on investing in the company by the public fund. The notice shall offer the company the opportunity to clarify its Sudan-related activities and shall encourage the company to either cease its scrutinized business operations or convert such operations to inactive business operations in order to avoid becoming subject to divestment and restrictions on investment in the company by the public fund. The public fund shall continue to provide such written notice on an annual basis if the company remains a scrutinized company with active business operations.

2007 Acts, ch 39, §3

12F.4 Prohibited investments divestment.

1. The public fund shall not acquire publicly traded securities of a company on the public fund's most recent scrutinized companies list with active business operations so long as such company remains on the public fund's scrutinized companies list as a company with active business operations as provided in this section.

2. *a.* The public fund shall sell, redeem, divest, or withdraw all publicly traded securities of a company on the public fund's list of scrutinized companies with active business operations, so long as the company remains on that list, no sooner than ninety days, but no later than eighteen months, following the first written notice sent to the scrutinized company with active business operations as required by section 12F.3.

b. This subsection shall not be construed to require the premature or otherwise imprudent sale, redemption, divestment, or withdrawal of an investment, but such sale, redemption, divestment, or withdrawal shall be completed as provided by this subsection.

3. The requirements of this section shall not apply to the following:

a. A company which the United States government affirmatively declares to be excluded from its present or any future federal sanctions regime relating to Sudan.

b. Indirect holdings of a scrutinized company with active business operations. The public fund shall, however, submit letters to the managers of such investment funds containing companies with scrutinized active business operations requesting that they consider removing such companies from the fund or create a similar fund with indirect holdings devoid of such companies. If the manager creates a similar fund, the public fund is encouraged to replace all applicable investments with investments in the similar fund consistent with prudent investing standards.

2007 Acts, ch 39, §4
