The association shall approve or disapprove but shall not modify recommendations made by the advisory council. Recommendations that are approved shall be included in the plan of operation submitted to the commissioner. Recommendations that are disapproved shall be submitted to the commissioner with reasons for the disapproval. The plan of operation becomes effective upon approval in writing by the commissioner prior to the date on which the coverage under this chapter must be made available. After notice and hearing, the commissioner shall approve the plan of operation if the plan is determined to be suitable to assure the fair, reasonable, and equitable administration of the association, and provides for the sharing of association losses, if any, on an equitable and proportionate basis among the member carriers. If the association fails to submit a suitable plan of operation within one hundred eighty days after the appointment of the board of directors, or if at any later time the association fails to submit suitable amendments to the plan, the commissioner shall adopt, pursuant to chapter 17A, rules necessary to implement this section. The

rules shall continue in force until modified by the commissioner or superseded by a plan submitted by the association and approved by the commissioner. In addition to other requirements, the plan of operation shall provide for all of the following:

- e.* Procedures for selecting the board of directors and submitting the selections to the commissioner for approval.
- f.* The periodic advertising of the general availability of health insurance coverage from the association.

4. The plan of operation may provide that the powers and duties of the association may be delegated to a person who will perform functions similar to those of the association. A delegation under this section takes effect only upon the approval of both the board of directors and the commissioner. The commissioner shall not approve a delegation unless the protections afforded to the insured are substantially equivalent to or greater than those provided under this chapter.

5. The association has the general powers and authority enumerated by this subsection and executed in accordance with the plan of operation approved by the commissioner under subsection 3. The association has the general powers and authority granted under the laws of this state to carriers licensed to issue health insurance. In addition, the association may do any of the following:

- h.* Administer separate pools, separate accounts, or other plans or arrangements considered appropriate for separate members or groups of members.

  - k. Hire independent consultants as necessary.
  - l. Develop a method of advising applicants of the availability of other coverages outside the association.
  - m. Include in its policies a provision providing for subrogation rights by the association in a case in which the association pays expenses on behalf of an individual who is injured or suffers a disease under circumstances creating a liability upon another person to pay damages to the extent of the expenses paid by the association but only to the extent the damages exceed the policy deductible and coinsurance amounts paid by the insured. The association may waive its subrogation rights if it determines that the exercise of the rights would be impractical, uneconomical, or would work a hardship on the insured.
6. Rates for coverages issued by the association shall reflect rating characteristics used in the individual insurance market. The rates for a given classification shall not be more than one hundred fifty percent of the average premium or payment rate for the classification charged by the five carriers with the largest health insurance premium or payment volume in the state during the preceding calendar year. In determining the average rate of the five largest carriers, the rates or payments charged by the carriers shall be actuarially adjusted to determine the rate or payment that would have been charged for benefits similar to those issued by the association.
7. Following the close of each calendar year, the association shall determine the net premiums and payments, the expenses of administration, and the incurred losses of the association for the year. The association shall certify the amount of any net loss for the preceding calendar year to the commissioner of insurance and director of revenue. Any loss shall be assessed by the association to all members in proportion to their respective shares of total health insurance premiums or payments for subscriber contracts received in Iowa during the second preceding calendar year, or with paid losses in the year, coinciding with or ending during the calendar year or on any other equitable basis as provided in the plan of operation. In sharing losses, the association may abate or defer in any part the assessment of a member, if, in the opinion of the board, payment of the assessment would endanger the ability of the member to fulfill its contractual obligations. The association may also provide for an initial or interim assessment against members of the association if necessary to assure the financial capability of the association to meet the incurred or estimated claims expenses or operating expenses of the association until the next calendar year is completed. Net gains, if any, must be held at interest to offset future losses or allocated to reduce future premiums.

For purposes of this subsection, "*total health insurance premiums*" and "*payments for subscriber contracts*" include, without limitation, premiums or other amounts paid to or received by a member for individual and group health plan care coverage provided under any chapter of the Code or Acts, and "*paid losses*" includes, without limitation, claims paid by a member operating on a self-funded basis for individual and group health plan care coverage provided under any chapter of the Code or Acts. For purposes of calculating and conducting the assessment, the association shall have the express authority to require members to report on an annual basis each member's total health insurance premiums and payments for subscriber contracts and paid losses. A member is liable for its share of the assessment calculated in accordance with this section regardless of whether it participates in the individual insurance market.

8. The association shall conduct periodic audits to assure the general accuracy of the financial data submitted to the association, and the association shall have an annual audit of its operations, made by an independent certified public accountant.

9. The association is subject to examination by the commissioner of insurance. Not later than April 30 of each year, the board of directors shall submit to the commissioner a financial report for the preceding calendar year in a form approved by the commissioner.

10. The association is subject to oversight by the legislative fiscal committee of the legislative council. Not later than April 30 of each year, the board of directors shall submit to the legislative fiscal committee a financial report for the preceding year in a form approved by the committee.

12. The association is exempt from payment of all fees and all taxes levied by this state or any of its political subdivisions.

13. An insurer may offset an assessment made pursuant to this chapter against its premium tax liability pursuant to chapter 432 to the extent of twenty percent of the amount of the assessment for each of the five calendar years following the year in which the assessment was paid. If an insurer ceases doing business, all uncredited assessments may be credited against its premium tax liability for the year it ceases doing business.

1. The association, in consultation with the Iowa choice health care coverage advisory council, shall develop a comprehensive health care coverage plan to provide health care coverage to all children without such coverage, that utilizes and modifies existing public programs including the medical assistance program, hawk-i program, and hawk-i expansion program, and to provide access to private unsubsidized, affordable, qualified health care coverage to children who are not otherwise eligible for health care coverage through public programs.

The comprehensive plan developed by the association and the advisory council, shall also consider and recommend options to provide access to private unsubsidized, affordable, qualified health care coverage to all Iowa children less than nineteen years of age with a family income that is more than three hundred percent of the federal poverty level and to adults and families who are not otherwise eligible for health care coverage through public programs.

3. As part of the comprehensive plan developed, the association, in consultation with the advisory council, shall define what constitutes qualified health care coverage for children less than nineteen years of age. For the purposes of this definition and for designing health care coverage options for children, the association, in consultation with the advisory council, shall recommend the benefits to be included in such coverage and shall explore the value of including coverage for the treatment of mental and behavioral disorders. The association, in consultation with the advisory council, shall also consider and recommend whether such health care coverage options should require a copayment for services received in an amount determined by the association.

5. As part of the comprehensive plan, the association, in consultation with the advisory council, shall define what constitutes qualified health care coverage for adults and families who are not eligible for a public program. The association, in consultation with the advisory council, shall develop and recommend affordable health care coverage options for purchase by such adults and families that provide a selection of health benefit plans and standardized benefits with the goal of including health care coverage options for which the contribution requirement for all cost-sharing expenses is no more than six and one-half percent of family income.

6. As part of the comprehensive plan the association and the advisory council may collaborate with health insurance carriers to do the following, including but not limited to:

Enactment of a comprehensive plan shall include a determination of what the prospects are of federal action which may impact the comprehensive plan and the fiscal impact of the comprehensive plan on the state budget.

(4) In the case of an individual transferring to an association policy from a basic or standard health benefit plan under chapter 513C beginning on or after January 1, 2005.

*c.* Plan coverage shall exclude charges or expenses incurred during the first six months following the effective date of coverage for preexisting conditions. Such preexisting condition exclusions shall be waived to the extent that similar exclusions, if any, have been satisfied under any prior health insurance coverage which was involuntarily terminated, provided both of the following apply:

(1) Application for association coverage is made no later than sixty-three days following such involuntary termination and, in such case, coverage under the plan is effective from the date on which such prior

coverage was terminated.

(2) The applicant is not eligible for continuation rights that would provide coverage substantially similar to plan coverage.

*d.* This subsection does not prohibit preexisting conditions coverage in an association policy that is more favorable to the insured than that specified in this subsection.

*e.* If the association policy contains a waiting period for preexisting conditions, an insured may retain any existing coverage the insured has under an insurance plan that has coverage equivalent to the association policy for the duration of the waiting period only.

5. An individual is not eligible for coverage by the association if any of the following apply:

*a.* The individual is at the time of application eligible for health care benefits under chapter 249A.

*b.* The individual has terminated coverage by the association within the past twelve months, except that this paragraph does not apply to an applicant who is a federally eligible individual.

*c.* The individual is an inmate of a public institution, except that this paragraph does not apply to an applicant who is a federally defined eligible individual.

*d.* The individual premiums are paid for or reimbursed under any government sponsored program or by any government agency or health care provider, except as an otherwise qualifying full-time employee, or dependent of the employee, of a government agency or health care provider.

*e.* The individual, on the effective date of the coverage applied for, has not been rejected for, already has, or will have coverage similar to an association policy as an insured or covered dependent. This paragraph does not apply to an applicant who is a federally eligible individual.

*f.* The individual is eligible for Medicare based upon age.

6. The association is not required to make plan coverage available to an individual who is covered or is eligible for any continued group coverage under Internal Revenue Code § 4980B, the federal Employee Retirement Income Security Act of 1974, codified at 29 U.S.C. § 1001 et seq., the federal Public Health Service Act of July 1, 1944, codified at 42 U.S.C. § 201 et seq., or any continued group coverage required by the state. For purposes of this subsection, an individual who would have been eligible for such continuation of group coverage, but is not eligible solely because the individual or other responsible party failed to make the required election of coverage during the applicable time period, or terminated such coverage prior to the end of such applicable time period, shall be deemed to be eligible for such group coverage until the date on which the individual's continuing group coverage would have expired had an election been made or a termination not occurred.

2. The association shall not change the rates for association policies except on a class basis with a clear disclosure in the policy of the association's right to do so.
