94 Acts, ch 1162, §2

419.3 Bonds as limited obligations.

1. All bonds issued by a municipality, under the authority of [this chapter](#), shall be limited obligations of the municipality. The principal of and interest on such bonds shall be payable solely out of the revenues derived from the project to be financed by the bonds so issued under the provisions of [this chapter](#) including debt obligations of the lessee or contracting party obtained from or in connection with the financing of a project. Bonds and interest coupons issued under authority of [this chapter](#) shall never constitute an indebtedness of the municipality, within the meaning of any state constitutional provision or statutory limitation, and shall not constitute nor give rise to a pecuniary liability of the municipality or a charge against its general credit or taxing powers. Such limitation shall be plainly stated on the face of each such bond.

2. The bonds referred to in [subsection 1](#) of [this section](#) may be executed and delivered at any time and from time to time; be in such form and denominations; without limitation as to the denomination of any bond, any other law to the contrary notwithstanding; be of such tenor; be fully registered, registrable as to principal or in bearer form; be transferable; be payable in such installments and at such time or times, not exceeding thirty years from their date; be payable at such place or places in or out of the state of Iowa; bear interest at such rate or rates, payable at such place or places in or out of the state of Iowa; be evidenced in such manner and may contain other provisions not inconsistent with [this chapter](#); all as shall be provided in the proceedings of the governing body where the bonds are authorized to be issued. The governing body may provide for the exchange of coupon bonds for fully registered bonds and of fully registered bonds for coupon bonds and for the exchange of any such bonds after issuance for bonds of larger or smaller denominations, all in the manner as may be provided in the proceedings authorizing their issuance, provided the bonds in changed form or denominations shall be exchanged for the surrendered bonds in the same aggregate principal amounts and in such manner that no overlapping interest is paid, and the bonds in changed form or denominations shall bear interest at the same rate or rates and shall mature on the same date or dates as the bonds for which they are exchanged. If an exchange is made under [this section](#), the bonds surrendered by the holders at the time of the exchange shall be canceled or held by a trustee for subsequent exchanges in accordance with [this section](#). The exchange shall be made only at the request of the holders of the bonds to be surrendered, and the governing body may require all expenses incurred in connection with the exchange to be paid by the holders. If any of the officers whose signatures appear on the bonds or coupons cease to be officers before the delivery of the bonds, such signatures are, nevertheless, valid and sufficient for all purposes, the same as if the officers had remained in office until delivery.

3. Unless otherwise provided in the proceedings of the governing body whereunder the bonds are authorized to be issued, bonds issued under the provisions of [this chapter](#) shall be subject to the general provisions of law, presently existing or that may hereafter be enacted,

respecting the execution and delivery of the bonds of a municipality and respecting the retaining of options of redemption in proceedings authorizing the issuance of municipal securities.

4. Any bonds, issued under the authority of [this chapter](#), may be sold at public sale in such manner, at such price and at such time or times as may be determined by the governing body to be most advantageous. The municipality may pay all expenses, premiums and commissions which the governing body may deem necessary or advantageous in connection with the authorization, sale and issuance thereof.

5. All bonds, issued under the authority of [this chapter](#) and all interest coupons applicable thereto, shall be construed to be negotiable instruments, even though they are payable solely from a specified source.

419.4 Pledge of revenues.

1. The principal of and interest on any bonds, issued under authority of [this chapter](#), shall be secured by a pledge of the revenues out of which such bonds shall be made payable. They may be secured by a mortgage covering all or any part of the project from which the revenues so pledged may be derived or by a pledge of the lease, sale contract or loan agreement with respect to such project or by a pledge of one or more notes, debentures, bonds or other secured or unsecured debt obligations of the lessee or contracting party.

2. The proceedings under which the bonds are authorized to be issued under the provisions of [this chapter](#), and any mortgage given to secure the same, may contain any agreements and provisions customarily contained in instruments securing bonds, including, but not limited to:

- a. Provisions respecting custody of the proceeds from the sale of the bonds including their investment and reinvestment until used to defray the cost of the project.
- b. Provisions respecting the fixing and collection of rents or payment with respect to any project covered by such proceedings or mortgage.

- f. The rights and remedies available in case of a default to the bond holders or to any trustee under the lease, sale contract, loan agreement or mortgage.

A municipality shall have the power to provide that proceeds from the sale of bonds and special funds from the revenues of the project shall be invested and reinvested in such securities and other investments as shall be provided in the proceedings under which the bonds are authorized to be issued including:

- (1) obligations issued or guaranteed by the United States;
- (2) obligations issued or guaranteed by any person controlled or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States;

- (8) certificates of deposit issued by banks organized under the laws of any state or of the United States; whether or not such investment or reinvestment is authorized under any

other law of this state. The municipality shall also have the power to provide that such proceeds or funds or investments and the amounts payable under the lease, sale contract or loan agreement shall be received, held and disbursed by one or more banks or trust companies located in or out of the state of Iowa. A municipality shall also have the power to provide that the project and improvements shall be constructed by the municipality, lessee, the lessee's designee, the contracting party, or the contracting party's designee, or any one or more of them on real estate owned by the municipality, the lessee, the lessee's designee, the contracting party, or the contracting party's designee, as the case may be, that the bond proceeds shall be disbursed by the trustee bank or banks, trust company or trust companies, during construction upon the estimate, order or certificate of the lessee, the lessee's designee, the contracting party, or the contracting party's designee.

In making such agreements or provisions, a municipality shall not have the power to obligate itself, except with respect to the project and the application of the revenues therefrom, and shall not have the power to incur a pecuniary liability or a charge upon its general credit or against its taxing powers.

3. The proceedings authorizing any bonds under the provisions of [this chapter](#), or any mortgage securing such bonds, may provide that if there is a default in the payment of the principal of or the interest on such bonds or in the performance of any agreement contained in such proceedings or mortgage, the payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents and payments and to apply the revenues from the project in accordance with such proceedings or the provisions of such mortgage.

4. Any mortgage, made under the provisions of [this chapter](#), to secure bonds issued thereunder, may also provide that if there is a default in the payment thereof or a violation of any agreement contained in the mortgage, it may be foreclosed and sold under proceedings in equity or in any other manner permitted by law. Such mortgage may also provide that any trustee under such mortgage or the holder of any bonds secured thereby may become the purchaser at any foreclosure sale if the trustee or holder is the highest bidder therefor.

1. Prior to entering into a lease, sale contract or loan agreement with respect to any project, the governing body must determine the amount necessary in each year to pay the principal of and the interest on the bonds proposed to be issued to finance such project; the amount necessary to be paid each year into any reserve funds which the governing body may deem advisable to establish in connection with the retirement of the proposed bonds and the maintenance of the project; and unless the terms of the lease, sale contract or loan agreement provide that the lessee or contracting party shall maintain the project and carry all proper insurance with respect thereto, the estimated cost of maintaining the project in good repair and keeping it properly insured.

Any such refunding may be effected whether the bonds to be refunded shall have matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby, or by exchange of the refunding bonds for the bonds to be refunded thereby, but the holders of any bonds to be so refunded shall not be compelled, without their consent, to surrender their bonds for payment or exchange prior to the date on which they are payable by maturity date, option to redeem or otherwise, or if they are called for redemption, prior to the date on which they are by their terms subject to redemption by option or otherwise. The cost of any project shall be deemed to include the actual cost of acquiring a site or the cost of the construction of any part of a project which may be constructed including architects' and engineers' fees, the purchase price of any part of a project that may be acquired by purchase, all expenses in connection with the authorization, sale and issuance of the bonds to finance such acquisition, an amount to be held as a bond reserve fund, and the interest on such bonds for a reasonable time prior to construction, during construction and for not exceeding six months after completion of construction.
