

135.25 Emergency medical services fund.

An emergency medical services fund is created in the state treasury under the control of the department. The fund includes, but is not limited to, amounts appropriated by the general assembly, and other moneys available from federal or private sources which are to be used for purposes of this section. Funds remaining in the fund at the end of each fiscal year shall not revert to the general fund of the state but shall remain in the emergency medical services fund, notwithstanding section 8.33. The fund is established to assist counties by matching, on a dollar-for-dollar basis, moneys spent by a county for the acquisition of equipment for the provision of emergency medical services and by providing grants to counties for education and training in the delivery of emergency medical services, as provided in this section and section 422D.6. A county seeking matching funds under this section shall apply to the emergency medical services division of the department. The department shall adopt rules concerning the application and awarding process for the matching funds and the criteria for the allocation of moneys in the fund if the moneys are insufficient to meet the emergency medical services needs of the counties. Moneys allocated by the department to a county for emergency medical services purposes may be used for equipment or training and education as determined by the board of supervisors pursuant to section 422D.6.
