

139A.8A Vaccine shortage — department order — immunity.

1. In the event of a shortage of a vaccine, or in the event a vaccine shortage is imminent, the department may issue an order controlling, restricting, or otherwise regulating the distribution and administration of the vaccine. The order may designate groups of persons which shall receive priority in administration of the vaccine and may prohibit vaccination of persons who are not included in a priority designation. The order shall include an effective date, which may be amended or rescinded only through a written order of the department. The order shall be applicable to health care providers, hospitals, clinics, pharmacies, health care facilities, local boards of health, public health agencies, and other persons or entities that distribute or administer vaccines.

2. A health care provider, hospital, clinic, pharmacy, health care facility, local board of health, public health agency, or other person or entity that distributes or administers vaccines shall not be civilly liable in any action based on a failure or refusal to distribute or administer a vaccine to any person if the failure or refusal to distribute or administer the vaccine was consistent with a department order issued pursuant to this section.

3. The department shall adopt rules to administer this section.
