

465B.1 Statement of purpose — intent.

The general assembly finds that recreation trails provide a significant benefit for the health and well-being of Iowans and state visitors. Iowa has a national reputation as a place for hiking, walking, and bicycling. The use of recreation trails has a significant influence on Iowa's economy. Iowa's scenic landscapes, many small communities, and existing natural and transportation corridors are ideally suited for new recreation trails to support recreation and tourism activities such as walking, biking, driving for pleasure, horseback riding, boating and canoeing, skiing, snowmobiling, and others.

The general assembly finds that a program shall be established to acquire, develop, promote, and manage existing and new recreation trails. The objective of a statewide trails program shall be for the state to acquire and develop two thousand miles of new recreation trails and completion of existing trail projects before the year 2000.
