

692.8 Intelligence data.

Intelligence data contained in the files of the department of public safety or a criminal or juvenile justice agency may be placed within a computer data storage system, provided that access to the computer data storage system is restricted to authorized employees of the department or criminal or juvenile justice agency. The department shall adopt rules to implement this paragraph.

Intelligence data in the files of the department may be disseminated only to a peace officer, criminal or juvenile justice agency, or state or federal regulatory agency, and only if the department is satisfied that the need to know and the intended use are reasonable. However, intelligence data may also be disseminated to an agency, organization, or person when disseminated for an official purpose, and in order to protect a person or property from a threat of imminent serious harm. Whenever intelligence data relating to a defendant or juvenile who is the subject of a petition under section 232.35 for the purpose of sentencing or adjudication has been provided a court, the court shall inform the defendant or juvenile or the defendant's or juvenile's attorney that it is in possession of such data and shall, upon request of the defendant or juvenile or the defendant's or juvenile's attorney, permit examination of such data.

If the defendant or juvenile disputes the accuracy of the intelligence data, the defendant or juvenile shall do so by filing an affidavit stating the substance of the disputed data and wherein it is inaccurate. If the court finds reasonable doubt as to the accuracy of such information, it may require a hearing and the examination of witnesses relating thereto on or before the time set for sentencing or adjudication.
