

100D.8 Provisional licensure.

1. An applicant for licensure under this chapter as a fire protection system installer and maintenance worker who possesses a minimum of four years of experience as an apprentice fire protection system installer and maintenance worker and who has not successfully passed the licensure examination or achieved certification as required pursuant to section 100D.3 by January 1, 2010, shall be issued a license as a fire protection system installer and maintenance worker for a period ending no later than December 31, 2010. A provisional license shall be granted upon presentation of satisfactory evidence to the fire marshal demonstrating experience and competency in conducting fire protection system installations and fire protection system maintenance according to criteria to be determined by the fire marshal in rule.

2. An applicant issued a provisional license pursuant to this section shall pass the licensure examination or achieve certification on or before December 31, 2010, in order to remain licensed as a fire protection system installer and maintenance worker. A provisional license fee shall be established by the fire marshal by rule. No provisional licenses shall be issued after July 1, 2010.
