1. A person, other than a pharmacist, physician, dentist, podiatric physician, or veterinarian who dispenses as an incident to the practice of the practitioner's profession, shall not dispense prescription drugs or controlled substances.

2. a. A pharmacist, physician, dentist, or podiatric physician who dispenses prescription drugs, including but not limited to controlled substances, for human use, may delegate nonjudgmental dispensing functions to staff assistants only when verification of the accuracy and completeness of the dispensing is determined by the pharmacist or practitioner in the pharmacist's or practitioner's physical presence. However, the physical presence requirement does not apply when a pharmacist or practitioner is utilizing an automated dispensing system or when a pharmacist is utilizing a tech-check-tech program, as defined in section 155A.3. When using an automated dispensing system the pharmacist or practitioner shall utilize an internal quality control assurance plan that ensures accuracy for dispensing. When using a tech-check-tech program the pharmacist shall utilize an internal quality control assurance plan, in accordance with rules adopted by the board of pharmacy, that ensures accuracy for dispensing. Verification of automated dispensing and tech-check-tech accuracy and completeness remains the responsibility of the pharmacist or practitioner and shall be determined in accordance with rules adopted by the board of pharmacy, the board of medicine, the dental board, and the board of podiatry for their respective licensees.

b. A dentist, physician, or podiatric physician who dispenses prescription drugs, other than drug samples, pursuant to this subsection, shall report the fact that they dispense prescription drugs with the practitioner's respective board at least biennially.

c. A physician, dentist, or podiatric physician who dispenses prescription drugs, other than drug samples, pursuant to this subsection, shall offer to provide the patient with a written prescription that may be dispensed from a pharmacy of the patient's choice or offer to transmit the prescription orally, electronically, or by facsimile in accordance with section 155A.27 to a pharmacy of the patient's choice.

3. A physician assistant or registered nurse may supply, when pharmacist services are not reasonably available or when it is in the best interests of the patient, on the direct order of the supervising physician, a quantity of properly packaged and labeled prescription drugs, controlled substances, or contraceptive devices necessary to complete a course of therapy. However, a remote clinic, staffed by a physician assistant or registered nurse, where pharmacy services are not reasonably available, shall secure the regular advice and consultation of a pharmacist regarding the distribution, storage, and appropriate use of such drugs, substances, and devices.

4. Notwithstanding subsection 3, a physician assistant shall not dispense prescription drugs as an incident to the practice of the supervising physician or the physician assistant, but may supply, when pharmacist services are not reasonably available, or when it is in the best interests of the patient, a quantity of properly packaged and labeled prescription drugs, controlled substances, or medical devices necessary to complete a course of therapy. Prescription drugs supplied under the provisions of this subsection shall be supplied for the purpose of accommodating the patient and shall not be sold for more than the cost of the drug and reasonable overhead costs, as they relate to supplying prescription drugs to the patient, and not at a profit to the physician or the physician assistant. If prescription drug supplying authority is delegated by a supervising physician to a physician assistant, a nurse or staff assistant may assist the physician assistant in providing that service. Rules shall be adopted by the board of physician assistants, after consultation with the board of pharmacy, to implement this subsection.

5. When delegated prescribing occurs, the supervising physician's name shall be used, recorded, or otherwise indicated in connection with each individual prescription so that the individual who dispenses or administers the prescription knows under whose delegated authority the physician assistant is prescribing. Rules relating to the authority of physician assistants to prescribe drugs, controlled substances, and medical devices pursuant to this subsection shall be adopted by the board of physician assistants, after consultation with the board of

medicine and the board of pharmacy. However, the rules shall prohibit the prescribing of schedule II controlled substances which are listed as depressants pursuant to chapter 124.

6. Health care providers shall consider the instructions of the physician assistant to be instructions of the supervising physician if the instructions concern duties delegated to the physician assistant by a supervising physician.

MALPRACTICE

147.135 Peer review committees — nonliability — records and reports privileged and confidential.

1. A person shall not be civilly liable as a result of acts, omissions, or decisions made in connection with the person's service on a peer review committee. However, such immunity from civil liability shall not apply if an act, omission, or decision is made with malice.

2. As used in this subsection, "peer review records" means all complaint files,

investigation files, reports, and other investigative information relating to licensee discipline or professional competence in the possession of a peer review committee or an employee of a peer review committee. As used in this subsection, “peer review committee” does not include licensing boards. Peer review records are privileged and confidential, are not subject to discovery, subpoena, or other means of legal compulsion for release to a person other than an affected licensee or a peer review committee, and are not admissible in evidence in a judicial or administrative proceeding other than a proceeding involving licensee discipline or a proceeding brought by a licensee who is the subject of a peer review record and whose competence is at issue. A person shall not be liable as a result of filing a report or complaint with a peer review committee or providing information to such a committee, or for disclosure of privileged matter to a peer review committee. A person present at a meeting of a peer review committee shall not be permitted to testify as to the findings, recommendations, evaluations, or opinions of the peer review committee in any judicial or administrative proceeding other than a proceeding involving licensee discipline or a proceeding brought by a licensee who is the subject of a peer review committee meeting and whose competence is at issue. Information or documents discoverable from sources other than the peer review committee do not become nondiscoverable from the other sources merely because they are made available to or are in the possession of a peer review committee. However, such information relating to licensee discipline may be disclosed to an appropriate licensing authority in any jurisdiction in which the licensee is licensed or has applied for a license. If such information indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. This subsection shall not preclude the discovery of the identification of witnesses or documents known to a peer review committee. Any final written decision and finding of fact by a licensing board in a disciplinary proceeding is a public record. Upon appeal by a licensee of a decision of a board, the entire case record shall be submitted to the reviewing court. In all cases where privileged and confidential information under this subsection becomes discoverable, admissible, or part of a court record the identity of an individual whose privilege has been involuntarily waived shall be withheld.

3. a. A full and confidential report concerning any final hospital disciplinary action approved by a hospital board of trustees that results in a limitation, suspension, or revocation of a physician’s privilege to practice for reasons relating to the physician’s professional competence or concerning any voluntary surrender or limitation of privileges for reasons relating to professional competence shall be made to the board of medicine by the hospital administrator or chief of medical staff within ten days of such action. The board of medicine shall investigate the report and take appropriate action. These reports shall be privileged and confidential as though included in and subject to the requirements for peer review committee information in subsection 2. Persons making these reports and persons participating in resulting proceedings related to these reports shall be immune from civil liability with respect to the making of the report or participation in resulting proceedings. As used in this subsection, “physician” means a person licensed pursuant to chapter 148.

b. Notwithstanding subsection 2, if the board of medicine conducts an investigation based on a complaint received or upon its own motion, a hospital pursuant to subpoena shall make available information and documents requested by the board, specifically including reports or descriptions of any complaints or incidents concerning an individual who is the subject of the board’s investigation, even though the information and documents are also kept for, are the subject of, or are being used in peer review by the hospital. However, the deliberations, testimony, decisions, conclusions, findings, recommendations, evaluations, work product, or opinions of a peer review committee or its members and those portions of any documents or records containing or revealing information relating thereto shall not be subject to the board’s request for information, subpoena, or other legal compulsion. All information and documents received by the board from a hospital under this section shall be confidential pursuant to section 272C.6, subsection 4.
