

192.101A Definitions.

As used in this chapter, all terms shall have the same meaning as defined in the "Grade 'A' Pasteurized Milk Ordinance" as provided in section 192.102. However, notwithstanding the ordinance, the following definitions shall apply:

1. "*Bulk milk tanker*" means a mobile bulk container used to transport milk or fluid milk products from a dairy farm to a milk plant or from a milk plant to another milk plant, including an over-the-road semitrailer or a tanker that is permanently mounted on a motor vehicle.

2. "*Milk grader*" means a person, including dairy industry milk intake personnel, other than a milk hauler, who collects a milk sample from a bulk tank or a bulk milk tanker.

3. "*Milk hauler*" means a person who takes farm samples or transports raw milk or raw milk products to or from a milk plant, receiving station, or transfer station, including a dairy industry milk field person. However, a milk hauler does not include a person who drives a bulk milk tanker, if the person does not take a milk sample or handle raw milk or raw milk products.
