

201A.2 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*Agricultural liming material*” means a product having calcium and magnesium compounds capable of neutralizing soil acidity.
2. “*Brand*” means the term, designation, trade name, product name, or other specific designation under which individual agricultural liming material is offered for sale.
3. “*Bulk*” means material which is in a nonpackaged form.
4. “*Effective calcium carbonate equivalent*” means the acid-neutralizing capacity of an agricultural liming material.
