

249M.3 Hospital health care access assessment program — termination of program.

1. A hospital health care access assessment is imposed on each participating hospital in this state to be used to promote access to health care services for Iowans, including those served by the medical assistance program.

2. The assessment rate for a participating hospital shall be calculated as one and twenty-six one hundredths percent of net patient revenue as specified in the hospital's fiscal year 2008 Medicare cost report.

3. If a participating hospital's fiscal year 2008 Medicare cost report is not contained in the file of the centers for Medicare and Medicaid services health care cost report information system dated June 30, 2009, the hospital shall submit a copy of the hospital's 2008 Medicare cost report to the department to allow the department to determine the hospital's net patient revenue for fiscal year 2008.

4. A participating hospital paid under the prospective payment system by Medicare and the medical assistance program that was not in existence prior to fiscal year 2008, shall submit a prospective Medicare cost report to the department to determine anticipated net patient revenue.

5. Net patient revenue as reported on each participating hospital's fiscal year 2008 Medicare cost report, or as reported under subsection 4 if applicable, shall be the sole basis for the health care access assessment for the duration of the program.

6. A participating hospital shall pay the assessment to the department in equal amounts on a quarterly basis. A participating hospital shall submit the assessment amount no later than thirty days following the end of each calendar quarter.

7. A participating hospital shall retain and preserve the Medicare cost report and financial statements used to prepare the cost report for a period of three years. All information obtained by the department under this subsection is confidential and does not constitute a public record.

8. The department shall collect the assessment imposed and shall deposit all revenues collected in the hospital health care access trust fund created in section 249M.4.

9. If the department determines that a participating hospital has underpaid or overpaid the assessment, the department shall notify the participating hospital of the amount of the unpaid assessment or refund due. Such payment or refund shall be due or refunded within thirty days of the issuance of the notice.

10. *a.* A participating hospital that fails to pay the assessment within the time frame specified in this section shall pay, in addition to the outstanding assessment, a penalty of one and five-tenths percent of the assessment amount owed for each month or portion of each month that the payment is overdue. However, if the department determines that good cause is shown for failure to comply with payment of the assessment, the department shall waive the penalty or a portion of the penalty.

b. If an assessment is not received by the department by the last day of the month in which the payment is due, the department shall withhold an amount equal to the assessment and penalty owed from any payment due such participating hospital under the medical assistance program.

c. The assessment imposed under this chapter constitutes a debt due the state and may be collected by civil action under any method provided for by law.

d. Any penalty collected pursuant to this subsection shall be credited to the hospital health care access trust fund created in section 249M.4.

11. If the federal government fully funds Iowa's medical assistance program, if federal law changes to negatively impact the assessment program as determined by the department, or if a federal audit determines the assessment program is invalid, the department shall terminate the imposition of the assessment and the program beginning on the date the federal statutory, regulatory, or interpretive change takes effect.
