The board may waive the requirements for a competitive selection procedure for any specific employment upon adoption of a resolution of the board stating why the waiver is in the public interest and shall provide the executive council with written notice of the granting of any such waiver.

Establish a research triangle, defined by the three institutions of higher learning under the board's control, and clearinghouse for purposes of sharing the projects and results of kindergarten through grade twelve education technology initiatives occurring in Iowa's school districts, area education agencies, community colleges, and other higher education institutions, with the education community within and outside of the state. Dissemination

of and access to information regarding planning, financing, curriculum, professional development, preservice training, project implementation strategies, and results shall be centralized to allow school districts from across the state to gain ideas from each other regarding the integration of technology in the classroom.

33. In consultation with the state board of education, establish and enter into a collective statewide articulation agreement with the community colleges established pursuant to chapter 260C, which shall provide for the seamless transfer of academic credits from a completed associate of arts or associate of science degree program offered by a community college to a baccalaureate degree program offered by an institution of higher education governed by the board. The board shall also do the following:

f. Promote greater awareness of articulation-related activities, including the articulation website maintained by the board and articulation agreements in which the institutions participate.

g. Facilitate additional opportunities for individual institutions to pursue program articulation agreements for community college career and technical education programs and programs of study offered by the institutions of higher education governed by the board.

h. Develop and implement by January 1, 2012, a process to examine a minimum of eight new community college associate of applied science degree programs for which articulation agreements between the community colleges and the institutions of higher education governed by the board would serve students' continued academic success in those degree programs.

To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes heretofore issued or as may be hereafter issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. All bonds or notes issued under the provision of this division shall be payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of the net rents, profits and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement, and the net rents, profits and income not pledged for other purposes derived from the operation of any other residence halls or dormitories, including dining or other incidental facilities and additions, at the particular institution. 262.75 Incentives for cooperating teachers.

A cooperating teacher incentive program is established to encourage experienced teachers to serve as cooperating teachers for student teachers enrolled in the institutions of higher education under the control of the board. An individual who submits evidence to an institution that the individual has satisfactorily served as a cooperating teacher for a student teacher from any of the institutions of higher education under the control of the board for the duration of the student teaching experience shall receive from the institution either a monetary recompense or a reduction in tuition for graduate hours of coursework equivalent to the value of the monetary recompense, rounded to the nearest whole credit hour. If, because of a policy adopted by the board of directors employing the teacher, the amount of the monetary recompense is not made available to the teacher for the teacher's own personal use or the salary paid to the cooperating teacher by the employing board is correspondingly reduced, the institution shall grant the teacher the reduction in tuition pursuant to this section in lieu of the monetary recompense.

In lieu of the payment of monetary recompense to a cooperating teacher, the cooperating teacher may direct that the monetary recompense be paid by the institution directly into a scholarship fund which has been established jointly by the board of directors of the school district that employs the teacher and the local teachers' association. In such cases, the cooperating teacher shall receive neither monetary recompense nor any reduction in tuition at the institution.

REGENTS' MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "Regents' Minority and Women Educators Enhancement" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

262.82 Regents' minority and women educators enhancement program.

The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in all areas of academic pursuit.

The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board's control. The program shall include, but is not limited to, the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

As used in this section, "*minority educator*" means an educator who is a minority person as defined in section 261.102.

COLLEGE-BOUND PROGRAM

262.91 Legislative intent.

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa's higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the "College-bound" program is established to ensure that the state's universities and students' local communities become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents' universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.
