

299A.2 Competent private instruction by licensed practitioner.

If a licensed practitioner provides competent instruction to a school-age child, the practitioner shall possess a valid license or certificate which has been issued by the state board of educational examiners under chapter 272 and which is appropriate to the ages and grade levels of the children to be taught. Competent private instruction may include but is not limited to a home school assistance program which provides instruction or instructional supervision offered through an accredited nonpublic school or public school district by a teacher, who is employed by the accredited nonpublic school or public school district, who assists and supervises a parent, guardian, or legal custodian in providing instruction to a child. If competent private instruction is provided through a public school district, the child shall be enrolled and included in the basic enrollment of the school district as provided in section 257.6. Sections 299A.3 through 299A.7 do not apply to competent private instruction provided by a licensed practitioner under this section. However, the reporting requirement contained in section 299A.3, subsection 1, shall apply to competent private instruction provided by licensed practitioners that is not part of a home school assistance program offered through an accredited nonpublic school or public school district.
