

49.67 Form of reserve supply.

The number of reserve ballots for each precinct shall be determined by the commissioner.

If necessary, the commissioner or the commissioner's designee may make photocopies of official ballots to replace or replenish ballot supplies. The commissioner shall keep a record of the number of photocopied ballots made for each precinct, the name of the person who made the photocopies, and the date, time, and location at which the photocopies were made. These records shall be made on forms and following procedures prescribed by the secretary of state by administrative rule.

In any precinct where photocopied ballots are used, each photocopied ballot shall be initialed as required by section 49.82 by two precinct officials immediately before being issued to the voter. In partisan elections the two precinct officials shall be of different political parties.
