- (i) The purpose and need for each capital project.
- (ii) A priority listing of capital projects.
- (iii) The costs of acquisition, lease, construction, renovation, or demolition of each capital project.
- (iv) The identification of the means and source of funding each capital project.
- (v) The estimated operating costs of each capital project after completion.
- (vi) The estimated maintenance costs of each capital project after completion.
- (vii) The consequences of delaying or abandoning each capital project.

(b) Statements showing the bonded indebtedness of the government, debt authorized and unissued, debt redemption and interest requirements, and condition of the sinking funds, if any.

(c) A summary of appropriations recommended for the following fiscal year for each department and establishment and for the government as a whole, in comparison with the actual expenditures for the last completed fiscal year and the estimated expenditures for the year in progress.

The budget shall indicate how the federal funds will be used and the programs to which they will be allocated. The amount of state funds required to implement the programs to which the federal funds will apply shall also be indicated. The departments shall provide information to the director on the anticipated federal block grants and categorical grants to be received on or before November 1 of each year. The director shall use this information to develop an annual update of the statement of federal funds received which shall be provided to the general assembly.

ensuing fiscal year, the governor shall make recommendations in reference to the application of the surplus to the reduction of debt or otherwise, to the reduction in taxation, or to such other action as in the governor's opinion is in the interest of the public welfare.

2. *Part II — Recommended appropriations.*

a. Part II shall present in detail for the ensuing fiscal year the governor's recommendations for appropriations to meet the expenditure needs of the government from each general class of funds, in comparison with actual expenditures for each of the purposes during the last completed fiscal year and estimated expenditures for the year in progress, classified by departments and establishments and indicating for each the appropriations recommended for:

(1) Meeting the cost of administration, operation, and maintenance of the departments and establishments.

(2) Appropriations for meeting the cost of land, public improvements, and other capital outlays in connection with the departments and establishments.

b. Each item of expenditure, actual or estimated, and appropriations recommended for administration, operation, and maintenance of each department or establishment shall be supported by detailed statements showing the actual and estimated expenditures and appropriations classified by objects according to a standard scheme of classification to be prescribed by the director.

3. *Part III — Appropriation bills.* Part III shall include a draft or drafts of appropriation bills having for their purpose to give legal sanction to the appropriations recommended to be made in parts I and II. The appropriation bills shall indicate the funds, general or special, from which the appropriations shall be paid, but the appropriations need not be in greater detail than to indicate the total appropriation to be made for:

a. Administration, operation, and maintenance of each department and establishment for the fiscal year.

b. The cost of land, public improvements, and other capital outlays for each department and establishment, itemized by specific projects or classes of projects of the same general character.

8.22A Revenue estimating conference.

1. The state revenue estimating conference is created consisting of the governor or the governor's designee, the director of the legislative services agency or the director's designee, and a third member agreed to by the other two.

2. The conference shall meet as often as deemed necessary, but shall meet at least three times per year. The conference may use sources of information deemed appropriate. At each meeting, the conference shall agree to estimates for the current fiscal year and the following fiscal year for the general fund of the state, lottery revenues to be available for disbursement, and from gambling revenues and from interest earned on the cash reserve fund and the economic emergency fund to be deposited in the rebuild Iowa infrastructure fund. Only an estimate for the following fiscal year agreed to by the conference pursuant to subsection 3, 4, or 5, shall be used for purposes of calculating the state general fund expenditure limitation under section 8.54, and any other estimate agreed to shall be considered a preliminary estimate that shall not be used for purposes of calculating the state general fund expenditure limitation.

3. By December 15 of each fiscal year the conference shall agree to a revenue estimate for the fiscal year beginning the following July 1. That estimate shall be used by the governor in the preparation of the budget message under section 8.22 and by the general assembly in the budget process. If the conference agrees to a different estimate at a later meeting which projects a greater amount of revenue than the initial estimate amount agreed to by December 15, the governor and the general assembly shall continue to use the initial estimate amount in the budget process for that fiscal year. However, if the conference agrees to a different estimate at a later meeting which projects a lesser amount of revenue than the initial estimate amount, the governor and the general assembly shall use the lesser amount in the budget process for that fiscal year. As used in this subsection, “*later meeting*” means only those later meetings which are held prior to the conclusion of the regular session of the general assembly and, if the general assembly holds an extraordinary session prior to the commencement of the fiscal year to which the estimate applies, those later meetings which are held before or during the extraordinary session.

4. At the meeting in which the conference agrees to the revenue estimate for the following fiscal year in accordance with the provisions of subsection 3, the conference shall agree to an estimate for tax refunds payable from that estimated revenue. The estimates required by this subsection shall be used in determining the adjusted revenue estimate under section 8.54.

5. At the meeting in which the conference agrees to the revenue estimate for the succeeding fiscal year in accordance with the provisions of subsection 3, the conference shall also agree to the following estimates which shall be used by the governor in preparation of the budget message under section 8.22 and the general assembly in the budget process for the succeeding fiscal year:

a. The amount of lottery revenues for the following fiscal year to be available for disbursement following the deductions made pursuant to section 99G.39, subsection 1.

b. The amount of revenue for the following fiscal year from gambling revenues and from interest earned on the cash reserve fund and the economic emergency fund to be deposited in the rebuild Iowa infrastructure fund under section 8.57, subsection 5, paragraph “e”.

c. The amount of accruals of those revenues collected by or due from entities other than the state on or before June 30 of the fiscal year but not remitted to the state until after June 30.

d. The amount of accrued lottery revenues collected on or before June 30 of the fiscal year but not transferred to the general fund of the state until after June 30.

8.23 Annual departmental estimates.

1. On or before October 1, prior to each legislative session, all departments and establishments of the government shall transmit to the director, on blanks to be furnished by the director, estimates of their expenditure requirements, including every proposed expenditure, for the ensuing fiscal year, classified so as to distinguish between expenditures estimated for administration, operation, and maintenance, and the cost of each project involving the purchase of land or the making of a public improvement or capital outlay of a permanent character, together with supporting data and explanations as called for by the director.

a. The estimates of expenditure requirements shall be based upon seventy-five percent of the funding provided for the current fiscal year accounted for by program reduced by the historical employee vacancy factor in form specified by the director and the remainder of the estimate of expenditure requirements prioritized by program. The estimates shall be accompanied with performance measures for evaluating the effectiveness of the program.

b. The budget estimates for an agency as defined in section 8E.103 shall be based on achieving goals contained in the enterprise strategic plan and the agency’s strategic plan as provided for in chapter 8E. The estimates shall be accompanied by a description of the

measurable and other results to be achieved by the agency. Performance measures shall be based on the goals developed pursuant to sections 8E.205, 8E.206, and 8E.208. The estimates shall be accompanied by an explanation of the manner in which appropriations requested for the administration and maintenance of the agency meet goals contained in the enterprise strategic plan and the agency's strategic plan, including identifying goals that require legislation.

c. If a department or establishment fails to submit estimates within the time specified, the legislative services agency shall use the amounts of the appropriations to the department or establishment for the fiscal year in process at the time the estimates are required to be submitted as the amounts for the department's or establishment's request in the documents submitted to the general assembly for the ensuing fiscal year and the governor shall cause estimates to be prepared for that department or establishment as in the governor's opinion are reasonable and proper.

d. The director shall furnish standard budget request forms to each department or agency of state government.

2. On or before November 15 all departments and establishments of government and the judicial branch shall transmit to the department of management and the legislative services agency estimates of their receipts and expenditure requirements from federal or other nonstate grants, receipts, and funds for the ensuing fiscal year. The transmittal shall include the names of the grantor and the grant or the source of the funds, the estimated amount of the funds, and the planned expenditures and use of the funds. The format of the transmittal shall be specified by the legislative services agency.

8.31 Allotments of appropriations — exceptions — modifications.

1. *a.* Before an appropriation of any department or establishment becomes available, the department or establishment shall submit to the director of the department of management a requisition for allotment of the appropriation according to dates identified in the requisition during the fiscal year by which portions of the appropriation will be needed. The department or establishment shall submit the requisition by June 1, prior to the start of a fiscal year or by another date identified by the director. By the fifteenth of each month, the director, in conjunction with the director of the department of administrative services, shall transmit to the legislative services agency a record for each appropriation of actual expenditures for the prior month of the fiscal year and the fiscal year to date in the form and level of detail as requested by the legislative services agency. By October 1, the director, in conjunction with the director of the department of administrative services, shall transmit the total record of an appropriation, including reversions and transfers for the prior fiscal year ending June 30, to the legislative services agency.

2. Commencing October 1, the director shall provide weekly budget tapes in the form and level of detail requested by the legislative services agency reflecting finalized agency budget requests for the following fiscal year as submitted to the governor. The director shall transmit all agency requests in final form to the legislative services agency by November 15. Final budget records containing the governor's recommendation and final agency requests shall be transmitted to the legislative services agency by January 1 or no later than the date the governor's budget document is delivered to the printer. The governor's recommendation included on this record shall be considered confidential by the legislative services agency until it is made public by the governor. The fiscal year of the government shall commence on the first day of July and end on the thirtieth day of June. This fiscal year shall be used for purposes of making appropriations and of financial reporting and shall be uniformly adopted by all departments and establishments of the government.

8.36A Full-time equivalent positions.

1. For purposes of making appropriations and financial reports and as used in appropriations statutes, “*full-time equivalent position*” means a budgeting and monitoring unit that equates the aggregate of full-time positions, part-time positions, a vacancy and turnover factor, and other adjustments. One full-time equivalent position represents two thousand eighty working hours, which is the regular number of hours one full-time person works in one fiscal year. The number of full-time equivalent positions shall be calculated by totaling the regular number of hours that could be annually worked by persons in all authorized positions, reducing those hours by a vacancy and turnover factor and dividing that amount by two thousand eighty hours. In order to achieve the full-time equivalent position level, the number of filled positions may exceed the number of full-time equivalent positions during parts of the fiscal year to compensate for time periods when the number of filled positions is below the authorized number of full-time equivalent positions.

2. a. If a department or establishment has reached or anticipates reaching the full-time equivalent position level authorized for the department but determines that conversion of a contract position to a full-time equivalent position would result in cost savings while providing comparable or better services, the department or establishment may request the director of the department of management to approve the conversion and addition of the full-time equivalent position. The request shall be accompanied by evidence demonstrating how the cost savings and service quality will be achieved through the conversion. If approved by the director of the department of management, the department’s or establishment’s authorized full-time equivalent position level shall be increased accordingly and the revised level shall be reported to the fiscal committee of the legislative council and the legislative services agency.

b. A department or establishment shall not convert a full-time equivalent position authorized for the department or establishment to a contract position and shall not use appropriated moneys for such a contract position unless the department or establishment receives approval from the director of the department of management to convert the full-time equivalent position to a contract position. The director of the department of management shall not approve the conversion unless the department or establishment submits sufficient evidence that the conversion would result in cost savings while providing comparable or better services.

8.38 Misuse of appropriations.

No state department, institution, or agency, or any board member, commissioner, director, manager, or other person connected with any such department, institution, or agency, shall expend funds or approve claims in excess of the appropriations made thereto, nor expend funds for any purpose other than that for which the money was appropriated, except as otherwise provided by law. A violation of the foregoing provision shall make any person violating same, or consenting to the violation of same liable to the state for such sum so expended together with interest and costs, which shall be recoverable in an action to be instituted by the attorney general for the use of the state, which action may be brought in any county of the state.

8.39 Use of appropriations — transfer.

1. Except as otherwise provided by law, an appropriation or any part of it shall not be used for any other purpose than that for which it was made. However, with the prior written consent and approval of the governor and the director of the department of management, the governing board or head of any state department, institution, or agency may, at any time during the fiscal year, make a whole or partial intradepartmental transfer of its unexpended appropriations for purposes within the scope of such department, institution, or agency. Such transfer shall be to an appropriation made from the same funding source and within the same fiscal year. The amount of a transfer made from an appropriation under this subsection shall be limited to not more than one-tenth of one percent of the total of all appropriations made from the funding source of the transferred appropriation for the fiscal year in which the transfer is made.

2. If the appropriation of a department, institution, or agency is insufficient to properly meet the legitimate expenses of the department, institution, or agency, the director, with the approval of the governor, may make an interdepartmental transfer from any other department, institution, or agency of the state having an appropriation in excess of its needs, of sufficient funds to meet that deficiency. Such transfer shall be to an appropriation made from the same funding source and within the same fiscal year. The amount of a transfer made from an appropriation under this subsection shall be limited to not more than one-tenth of one percent of the total of all appropriations made from the funding source of the transferred appropriation for the fiscal year in which the transfer is made. An interdepartmental transfer to an appropriation which is not an entitlement appropriation is not authorized when the general assembly is in regular session and, in addition, the sum of interdepartmental transfers in a fiscal year to an appropriation which is not an entitlement appropriation shall not exceed fifty percent of the amount of the appropriation as enacted by the general assembly. For the purposes of this subsection, an entitlement appropriation is a line item appropriation to the state public defender for indigent defense or to the department of human services for foster care, state supplementary assistance, or medical assistance, or for the family investment program.

3. The aggregate amount of intradepartmental and interdepartmental transfers made from all appropriations for a fiscal year pursuant to this section is limited to not more than five-tenths of one percent of the total amount of the appropriations made from the general fund of the state for the fiscal year. The aggregate amount of the intradepartmental and interdepartmental transfers made from an appropriation for a fiscal year is limited to fifty percent of the appropriation.

4. Prior to any transfer of funds pursuant to subsection 1 or 2 of this section or a transfer of an allocation from a subunit of a department which statutorily has independent budgeting authority, the director shall notify the chairpersons of the standing committees on budget of the senate and the house of representatives and the chairpersons of subcommittees of such committees of the proposed transfer. The notice from the director shall include information concerning the amount of the proposed transfer, the departments, institutions or agencies affected by the proposed transfer and the reasons for the proposed transfer. Chairpersons notified shall be given at least two weeks to review and comment on the proposed transfer before the transfer of funds is made.

5. Any transfer made under the provisions of this section shall be reported to the legislative fiscal committee on a monthly basis. The report shall cover each calendar month and shall be due the tenth day of the following month. The report shall contain the following: The amount of each transfer; the date of each transfer; the departments and funds affected; a brief explanation of the reason for the transfer; and such other information as may be required by the committee. A summary of all transfers made under the provisions of this section shall be included in the annual report of the legislative fiscal committee.

If the offender is not an officer elected by vote of the people, the offense is sufficient cause for removal from office or dismissal from employment by the governor upon thirty days' notice in writing to the offender; and if the offender is an officer elected by vote of the people, the offense is sufficient cause to subject the offender to impeachment.

8.41 Federal funds — deposit — block grant plans — affected political subdivisions.

1. Commencing with the fiscal year beginning July 1, 1981, federal funds received in the form of block grants shall be deposited in a special fund in the state treasury and are subject to appropriation by the general assembly upon a recommendation by the governor. In determining a general fund balance, the federal funds deposited in the special fund shall not be included, but shall remain segregated in the special fund until appropriated by the general assembly.

2. Federal funds deposited in the state treasury as provided in subsection 1 shall either be included as part of the governor's budget required by section 8.22 or shall be included in a separate recommendation made by the governor to the general assembly. If federal funds received in the form of block grants or categorical grants have not been included in the governor's budget for the current fiscal year because of time constraints or because a budget is not being submitted for the next fiscal year, the governor shall submit a supplemental statement to the general assembly listing the federal funds received and including the same information for the federal funds required by section 8.22, subsection 1, paragraph "b", subparagraph (1), subparagraph division (e), for the statement of federal funds in the governor's budget.

3. a. If, in any federal fiscal year, the federal government provides for a block grant which requires a new or revised program than was required in the prior fiscal year, each state agency required to administer the block grant program shall develop a block grant plan detailing program changes.

b. To the extent allowed by federal law, the block grant plan shall be developed in accordance with the following:

(1) The primary goal of the plan shall be to attain savings for taxpayers and to avoid shifting costs from the federal government to state and local governments.

(2) State agency planning meetings shall be held jointly with officials of the affected political subdivision and affected members of the public.

(3) The plan shall address proposed expenditures and accountability measures and shall be published so as to provide reasonable opportunity for public review and comment.

(4) (a) Preference shall be given to any existing service delivery system capable of delivering the required service. If an existing service delivery system is not used, the plan shall identify those existing delivery systems which were considered and the reasons those systems were rejected. This subparagraph division applies to any service delivered pursuant to a federal block grant, including but not limited to any of the following block grant areas: health, human services, education, employment, community and economic development, and criminal justice.

(b) If a service delivered pursuant to a federal block grant and implemented by a political subdivision was previously provided for by a categorical grant, the state agency shall allow the

political subdivision adequate transition time to accommodate related changes in federal and state policy. Transition activities may include, but are not limited to, revision of the political subdivision's laws, budgets, and administrative procedures.

(c) The state agency shall allow the political subdivision the flexibility to implement a service in a manner so as to address identifiable needs within the context of meeting broad national objectives.

(5) State administrative costs shall not exceed the limits allowed for under the federal law enacting the block grant.

(6) A federal mandate that is eliminated or waived for the state shall be eliminated or waived for a political subdivision.

(7) Federal block grants shall not be used to supplant existing funding efforts by the state.

c. The state agency shall send copies of the proposed block grant plan to the legislative fiscal committee and to the appropriate appropriations subcommittee chairpersons and ranking members of the general assembly. The plan and any program changes contained within the plan shall be adopted as rules in accordance with chapter 17A.

If an identified barrier exists in state law, the department shall propose legislation to the governor and general assembly to remove the barrier. 8.54 General fund expenditure limitation.

1. For the purposes of section 8.22A, this section, and sections 8.55 through 8.57:

a. "*Adjusted revenue estimate*" means the appropriate revenue estimate for the general fund for the following fiscal year as determined by the revenue estimating conference under section 8.22A, subsection 3, adjusted by subtracting estimated tax refunds payable from that estimated revenue and as determined by the conference, adding any new revenues which may be considered to be eligible for deposit in the general fund.

b. "*New revenues*" means moneys which are received by the state due to increased tax rates and fees or newly created taxes and fees over and above those moneys which are received due to state taxes and fees which are in effect as of January 1 following the December state revenue estimating conference. "*New revenues*" also includes moneys received by the general fund of the state due to new transfers over and above those moneys received by the general fund of the state due to transfers which are in effect as of January 1 following the December state revenue estimating conference. The department of management shall obtain concurrence from the revenue estimating conference on the eligibility of transfers to the general fund of the state which are to be considered as new revenue in determining the state general fund expenditure limitation.

2. There is created a state general fund expenditure limitation for each fiscal year calculated as provided in this section. An expenditure limitation shall be used for the portion of the budget process commencing on the date the revenue estimating conference agrees to a revenue estimate for the following fiscal year in accordance with section 8.22A, subsection 3, and ending with the governor's final approval or disapproval of the appropriations bills applicable to that fiscal year that were passed prior to July 1 of that fiscal year in a regular or extraordinary legislative session.

3. Except as otherwise provided in this section, the state general fund expenditure limitation for a fiscal year shall be ninety-nine percent of the adjusted revenue estimate.

4. The state general fund expenditure limitation amount provided for in this section shall be used by the governor in the preparation of the budget under section 8.22 and approval

of the budget and by the general assembly in the budget process. If a source for new revenues is proposed, the budget revenue projection used for that new revenue source for the period beginning on the effective date of the new revenue source and ending in the fiscal year in which the source is included in the revenue base shall be an amount determined by subtracting estimated tax refunds payable from the projected revenue from that new revenue source, multiplied by ninety-five percent. If a new revenue source is established and implemented, the original state general fund expenditure limitation amount provided for in subsection 3 shall be readjusted to include ninety-five percent of the estimated revenue from the new revenue source.

5. For fiscal years in which it is anticipated that the distribution of moneys from the Iowa economic emergency fund in accordance with section 8.55, subsection 2, will result in moneys being transferred to the general fund, the original state general fund expenditure limitation amount provided for in subsection 3 shall be readjusted to include the amount of moneys anticipated to be so transferred.

6. The scope of the expenditure limitation under subsection 3 shall not encompass federal funds, donations, constitutionally dedicated moneys, and moneys in expenditures from state retirement system moneys.

7. The governor shall transmit to the general assembly, in accordance with section 8.21, a budget which does not exceed the state general fund expenditure limitation. The general assembly shall pass a budget which does not exceed the state general fund expenditure limitation. The governor shall not transmit a budget with recommended appropriations in excess of the state general fund expenditure limitation and the general assembly shall not pass a budget with appropriations in excess of the state general fund expenditure limitation. The governor shall not approve or disapprove appropriation bills or items of appropriation bills passed by the general assembly in a manner that would cause the final budget approved by the governor to exceed the state general fund expenditure limitation. In complying with the requirements of this subsection, the governor and the general assembly shall not rely on any anticipated reversion of appropriations in order to meet the state general fund expenditure limitation.

8.55 Iowa economic emergency fund.

1. The Iowa economic emergency fund is created. The fund shall be separate from the general fund of the state and the balance in the fund shall not be considered part of the balance of the general fund of the state. The moneys credited to the fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section.

2. The maximum balance of the fund is the amount equal to two and one-half percent of the adjusted revenue estimate for the fiscal year. If the amount of moneys in the Iowa economic emergency fund is equal to the maximum balance, moneys in excess of this amount shall be distributed as follows:

a. The first sixty million dollars of the difference between the actual net revenue for the

general fund of the state for the fiscal year and the adjusted revenue estimate for the fiscal year shall be transferred to the taxpayers trust fund.

b. The remainder of the excess, if any, shall be transferred to the general fund of the state.

3. a. Except as provided in paragraphs “b”, “c”, and “d”, the moneys in the Iowa economic emergency fund shall only be used pursuant to an appropriation made by the general assembly. An appropriation shall only be made for the fiscal year in which the appropriation is made. The moneys shall only be appropriated by the general assembly for emergency expenditures.

b. Moneys in the fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the fund by the end of that fiscal year.

c. There is appropriated from the Iowa economic emergency fund to the general fund of the state for the fiscal year in which moneys in the fund were used for cash flow purposes, for the purposes of reducing or preventing any overdraft on or deficit in the general fund of the state, the amount from the Iowa economic emergency fund that was used for cash flow purposes pursuant to paragraph “b” and that was not returned to the Iowa economic emergency fund by June 30 of the fiscal year. The appropriation in this paragraph shall not exceed fifty million dollars and is contingent upon all of the following having occurred:

(1) The revenue estimating conference estimate of general fund receipts made during the last quarter of the fiscal year was or the actual fiscal year receipts and accruals were at least one-half of one percent less than the comparable estimate made during the third quarter of the fiscal year.

(2) The governor has implemented the uniform reductions in appropriations required in section 8.31 as a result of subparagraph (1) and such reduction was insufficient to prevent an overdraft on or deficit in the general fund of the state or the governor did not implement uniform reductions in appropriations because of the lateness of the estimated or actual receipts and accruals under subparagraph (1).

(3) The balance of the general fund of the state at the end of the fiscal year prior to the appropriation made in this paragraph was negative.

(4) The governor has issued an official proclamation and has notified the co-chairpersons of the fiscal committee of the legislative council and the legislative services agency that the contingencies in subparagraphs (1) through (3) have occurred and the reasons why the uniform reductions specified in subparagraph (2) were insufficient or were not implemented to prevent an overdraft on or deficit in the general fund of the state.

d. There is appropriated from the Iowa economic emergency fund to the executive council an amount sufficient to pay the expenses authorized by the executive council, as addressed in section 7D.29.

e. If an appropriation is made pursuant to paragraph “c” for a fiscal year, there is appropriated from the general fund of the state to the Iowa economic emergency fund for the following fiscal year, the amount of the appropriation made pursuant to paragraph “c”.

f. Except as provided in section 8.58, the Iowa economic emergency fund shall be considered a special account for the purposes of section 8.53 in determining the cash position of the general fund of the state for the payment of state obligations.

4. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the Iowa economic emergency fund shall be credited to the rebuild Iowa infrastructure fund.

8.56 Cash reserve fund.

1. A cash reserve fund is created in the state treasury. The cash reserve fund shall be separate from the general fund of the state and shall not be considered part of the general fund of the state except in determining the cash position of the state as provided in subsection 3. The moneys in the cash reserve fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered except as provided in this section. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the cash reserve fund shall be credited to the rebuild Iowa infrastructure fund created in section 8.57. Moneys in the cash reserve fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the cash reserve fund by the end of that fiscal year.

2. The maximum balance of the cash reserve fund is the amount equal to the cash reserve goal percentage, as defined in section 8.57, multiplied by the adjusted revenue estimate for the general fund of the state for the current fiscal year.

3. The moneys in the cash reserve fund shall only be used pursuant to an appropriation made by the general assembly. An appropriation shall be made in accordance with subsection 4 only for the fiscal year in which the appropriation is made. The moneys shall only be appropriated by the general assembly for nonrecurring emergency expenditures and shall not be appropriated for payment of any collective bargaining agreement or arbitrator's decision negotiated or awarded under chapter 20. Except as provided in section 8.58, the cash reserve fund shall be considered a special account for the purposes of section 8.53 in determining the cash position of the general fund of the state for the payment of state obligations.

4. a. Except as provided in subsection 1, an appropriation shall not be made from the cash reserve fund unless the appropriation is in accordance with all of the following:

(1) The appropriation is contained in a bill or joint resolution in which the appropriation is the only subject matter of the bill or joint resolution.

(2) The bill or joint resolution states the reasons the appropriation is necessary.

b. In addition to the requirements of paragraph "a", an appropriation shall not be made from the cash reserve fund which would cause the fund's balance to be less than three and three-fourths percent of the adjusted revenue estimate for the year for which the appropriation is made unless the bill or joint resolution is approved by vote of at least three-fifths of the members of both chambers of the general assembly and is signed by the governor.

8.57 Annual appropriations — reduction of GAAP deficit — rebuild Iowa infrastructure fund.

1. a. The "cash reserve goal percentage" for fiscal years beginning on or after July 1, 2004, is seven and one-half percent of the adjusted revenue estimate. For each fiscal year in which the appropriation of the surplus existing in the general fund of the state at the conclusion of the prior fiscal year pursuant to paragraph "b" was not sufficient for the cash reserve fund to reach the cash reserve goal percentage for the current fiscal year, there is appropriated from the general fund of the state an amount to be determined as follows:

(1) If the balance of the cash reserve fund in the current fiscal year is not more than six and one-half percent of the adjusted revenue estimate for the current fiscal year, the amount of the appropriation under this lettered paragraph is one percent of the adjusted revenue estimate for the current fiscal year.

(2) If the balance of the cash reserve fund in the current fiscal year is more than six and one-half percent but less than seven and one-half percent of the adjusted revenue estimate for that fiscal year, the amount of the appropriation under this lettered paragraph is the amount necessary for the cash reserve fund to reach seven and one-half percent of the adjusted revenue estimate for the current fiscal year.

(3) The moneys appropriated under this lettered paragraph shall be credited in equal and proportionate amounts in each quarter of the current fiscal year.

b. The surplus existing in the general fund of the state at the conclusion of the fiscal year is appropriated for distribution in the succeeding fiscal year as provided in subsections 2 and 3. Moneys credited to the cash reserve fund from the appropriation made in this paragraph shall not exceed the amount necessary for the cash reserve fund to reach the cash reserve goal percentage for the succeeding fiscal year. As used in this paragraph, “surplus” means the excess of revenues and other financing sources over expenditures and other financing uses for the general fund of the state in a fiscal year.

c. The amount appropriated in this section is not subject to the provisions of section 8.31, relating to requisitions and allotment, or to section 8.32, relating to conditional availability of appropriations.

2. Moneys appropriated under subsection 1 shall be first credited to the cash reserve fund. To the extent that moneys appropriated under subsection 1 would make the moneys in the cash reserve fund exceed the cash reserve goal percentage of the adjusted revenue estimate for the fiscal year, the moneys are appropriated to the department of management to be spent for the purpose of eliminating Iowa’s GAAP deficit, including the payment of items budgeted in a subsequent fiscal year which under generally accepted accounting principles should be budgeted in the current fiscal year. These moneys shall be deposited into a GAAP deficit reduction account established within the department of management. The department of management shall annually file with both houses of the general assembly at the time of the submission of the governor’s budget, a schedule of the items for which moneys appropriated under this subsection for the purpose of eliminating Iowa’s GAAP deficit, including the payment of items budgeted in a subsequent fiscal year which under generally accepted accounting principles should be budgeted in the current fiscal year, shall be spent. The schedule shall indicate the fiscal year in which the spending for an item is to take place and shall incorporate the items detailed in 1994 Iowa Acts, chapter 1181, section 17. The schedule shall list each item of expenditure and the estimated dollar amount of moneys to be spent on that item for the fiscal year. The department of management may submit during a regular legislative session an amended schedule for legislative consideration. If moneys appropriated under this subsection are not enough to pay for all listed expenditures, the department of management shall distribute the payments among the listed expenditure items. Moneys appropriated to the department of management under this subsection shall not be spent on items other than those included in the filed schedule. On September 1 following the close of a fiscal year, moneys in the GAAP deficit reduction account which remain unexpended for items on the filed schedule for the previous fiscal year shall be credited to the Iowa economic emergency fund.

3. To the extent that moneys appropriated under subsection 1 exceed the amounts necessary for the cash reserve fund to reach its maximum balance and the amounts necessary to eliminate Iowa’s GAAP deficit, including elimination of the making of any appropriation in an incorrect fiscal year, the moneys shall be appropriated to the Iowa economic emergency fund.

4. As used in this section, “GAAP” means generally accepted accounting principles as established by the governmental accounting standards board.

5. a. A rebuild Iowa infrastructure fund is created under the authority of the department of management. The fund shall consist of appropriations made to the fund and transfers of interest, earnings, and moneys from other funds as provided by law. The rebuild Iowa infrastructure fund shall be separate from the general fund of the state and the balance in the rebuild Iowa infrastructure fund shall not be considered part of the balance of the general fund of the state. However, the rebuild Iowa infrastructure fund shall be considered a special account for the purposes of section 8.53, relating to generally accepted accounting principles.

b. Moneys in the rebuild Iowa infrastructure fund are not subject to section 8.33. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys in the rebuild Iowa infrastructure fund shall be credited to the fund. Moneys in the rebuild Iowa infrastructure fund may be used for cash flow purposes during a fiscal year provided that any moneys so allocated are returned to the fund by the end of that fiscal year.

c. Moneys in the rebuild Iowa infrastructure fund in a fiscal year shall be used as directed by the general assembly for public vertical infrastructure projects. For the purposes of

this subsection, “*vertical infrastructure*” includes only land acquisition and construction; major renovation and major repair of buildings; all appurtenant structures; utilities; site development; recreational trails; and debt service payments on academic revenue bonds issued in accordance with chapter 262A for capital projects at board of regents institutions. “*Vertical infrastructure*” does not include routine, recurring maintenance or operational expenses or leasing of a building, appurtenant structure, or utility without a lease-purchase agreement.

d. The general assembly may provide that all or part of the moneys deposited in the GAAP deficit reduction account created in this section shall be transferred to the infrastructure fund in lieu of appropriation of the moneys to the Iowa economic emergency fund.

e. (1) (a) (i) Notwithstanding provisions to the contrary in sections 99D.17 and 99F.11, for the fiscal year beginning July 1, 2000, and for each fiscal year thereafter, not more than a total of sixty-six million dollars shall be deposited in the general fund of the state in any fiscal year pursuant to sections 99D.17 and 99F.11.

(ii) However, in lieu of the deposit in subparagraph subdivision (i), for the fiscal year beginning July 1, 2010, and for each fiscal year thereafter until the principal and interest on all bonds issued by the treasurer of state pursuant to section 12.87 are paid, as determined by the treasurer of state, the first fifty-five million dollars of the moneys directed to be deposited in the general fund of the state under subparagraph subdivision (i) shall be deposited in the revenue bonds debt service fund created in section 12.89, and the next three million seven hundred fifty thousand dollars of the moneys directed to be deposited in the general fund of the state under subparagraph subdivision (i) shall be deposited in the revenue bonds federal subsidy holdback fund created in section 12.89A, and the next one million two hundred fifty thousand dollars of the moneys directed to be deposited in the general fund of the state under subparagraph subdivision (i) shall be deposited in the general fund of the state.

(b) The next fifteen million dollars of the moneys directed to be deposited in the general fund of the state in a fiscal year pursuant to sections 99D.17 and 99F.11 shall be deposited in the vision Iowa fund created in section 12.72 for the fiscal year beginning July 1, 2000, and for each fiscal year through the fiscal year beginning July 1, 2019.

(c) The next five million dollars of the moneys directed to be deposited in the general fund of the state in a fiscal year pursuant to sections 99D.17 and 99F.11 shall be deposited in the school infrastructure fund created in section 12.82 for the fiscal year beginning July 1, 2000, and for each fiscal year thereafter until the principal and interest on all bonds issued by the treasurer of state pursuant to section 12.81 are paid, as determined by the treasurer of state.

(d) (i) The total moneys in excess of the moneys deposited in the revenue bonds debt service fund, the revenue bonds federal subsidy holdback fund, the vision Iowa fund, the school infrastructure fund, and the general fund of the state in a fiscal year shall be deposited in the rebuild Iowa infrastructure fund and shall be used as provided in this section, notwithstanding section 8.60.

(ii) (A) Except as otherwise provided in subparagraph part (B), in lieu of the deposit in subparagraph subdivision (i), for the fiscal years beginning July 1, 2010, July 1, 2011, and July 1, 2013, and for each fiscal year thereafter until the principal and interest on all bonds issued by the treasurer of state pursuant to section 12.87 are paid, as determined by the treasurer of state, sixty-four million seven hundred fifty thousand dollars of the excess moneys directed to be deposited in the rebuild Iowa infrastructure fund under subparagraph subdivision (i) shall be deposited in the general fund of the state.

(B) For the fiscal year beginning July 1, 2012, and ending June 30, 2013, thirty-eight million seven hundred fifty thousand dollars shall be deposited in the general fund of the state and the next twenty million dollars shall be deposited in the technology reinvestment fund.

(2) If the total amount of moneys directed to be deposited in the general fund of the state under sections 99D.17 and 99F.11 in a fiscal year is less than the total amount of moneys directed to be deposited in the revenue bonds debt service fund and the revenue bonds federal subsidy holdback fund in the fiscal year pursuant to this paragraph “e”, the difference shall be paid from moneys deposited in the beer and liquor control fund created in section 123.53 in the manner provided in section 123.53, subsection 3.

(3) After the deposit of moneys directed to be deposited in the general fund of the state,

the revenue bonds debt service fund, and the revenue bonds federal subsidy holdback fund, as provided in subparagraph (1), subparagraph division (a), if the total amount of moneys directed to be deposited in the general fund of the state under sections 99D.17 and 99F.11 in a fiscal year is less than the total amount of moneys directed to be deposited in the vision Iowa fund and the school infrastructure fund in the fiscal year pursuant to this paragraph “e”, the difference shall be paid from lottery revenues in the manner provided in section 99G.39, subsection 3.

f. There is appropriated from the rebuild Iowa infrastructure fund to the secure an advanced vision for education fund created in section 423F.2, for each fiscal year of the fiscal period beginning July 1, 2008, and ending June 30, 2010, the amount of the moneys in excess of the first forty-seven million dollars credited to the rebuild Iowa infrastructure fund during the fiscal year, not to exceed ten million dollars.

g. Notwithstanding any other provision to the contrary, and prior to the appropriation of moneys from the rebuild Iowa infrastructure fund pursuant to paragraph “c”, and section 8.57A, subsection 4, moneys shall first be appropriated from the rebuild Iowa infrastructure fund to the vertical infrastructure fund as provided in section 8.57B, subsection 4.

h. Annually, on or before January 15 of each year, a state agency that received an appropriation from the rebuild Iowa infrastructure fund shall report to the legislative services agency and the department of management the status of all projects completed or in progress. The report shall include a description of the project, the progress of work completed, the total estimated cost of the project, a list of all revenue sources being used to fund the project, the amount of funds expended, the amount of funds obligated, and the date the project was completed or an estimated completion date of the project, where applicable.

i. Annually, on or before December 31 of each year, a recipient of moneys from the rebuild Iowa infrastructure fund for any purpose shall report to the state agency to which the moneys are appropriated the status of all projects completed or in progress. The report shall include a description of the project, the progress of work completed, the total estimated cost of the project, a list of all revenue sources being used to fund the project, the amount of funds expended, the amount of funds obligated, and the date the project was completed or an estimated completion date of the project, where applicable.
