

89A.7 Alteration permits.

The owner shall submit to the commissioner detailed plans, specifications, and other information the commissioner may require for each conveyance to be altered, together with an application for an alteration permit, in a format required by the commissioner. Repairs or replacements necessary for normal maintenance are not alterations, and may be made on existing installations with parts equivalent in material, strength, and design to those replaced and no plans or specifications or application need be filed for the repairs or replacements. However, this section does not authorize the use of any conveyance contrary to an order issued pursuant to section 89A.10, subsections 2 and 3.
