

135C.5 Limitations on use.

Another business or activity serving persons other than the residents of a health care facility may be operated or provided in a designated part of the physical structure of the health care facility if the other business or activity meets the requirements of applicable state and federal laws, administrative rules, and federal regulations. The department shall not limit the ability of a health care facility to operate or provide another business or activity in the designated part of the facility if the business or activity does not interfere with the use of the facility by the residents or with the services provided to the residents, and is not disturbing to the residents. In denying the ability of a health care facility to operate or provide another business or activity under this section, the burden of proof shall be on the department to demonstrate that the other business or activity substantially interferes with the use of the facility by the residents or the services provided to the residents, or is disturbing to the residents. The state fire marshal, in accordance with chapter 17A, shall adopt rules which establish criteria for approval of a business or activity to be operated or provided in a designated part of the physical structure of a health care facility. For the purposes of this section, "*another business or activity*" shall not include laboratory services with the exception of laboratory services for which a waiver from regulatory oversight has been obtained under the federal Clinical Laboratory Improvement Amendments of 1988, Pub. L. No. 100-578, as amended, radiological services, anesthesiology services, obstetrical services, surgical services, or emergency room services provided by hospitals licensed under chapter 135B.
