

225C.20 Responsibilities of counties for individual case management services.

Individual case management services funded under medical assistance shall be provided by the department except when a county or a consortium of counties contracts with the department to provide the services. A county or consortium of counties may contract to be the provider at any time and the department shall agree to the contract so long as the contract meets the standards for case management adopted by the department. The county or consortium of counties may subcontract for the provision of case management services so long as the subcontract meets the same standards. A county board of supervisors may change the provider of individual case management services at any time. If the current or proposed contract is with the department, the county board of supervisors shall provide written notification of a change at least ninety days before the date the change will take effect.
