The council is not required to conduct independent research in developing the inventory, but shall determine information needs necessary to provide a more complete inventory.
- 4. Make recommendations to the department of education and the general assembly regarding appropriate curricula and staff qualifications and training for early elementary

- (6) The manner in which health, medical, dental, and nutrition services are incorporated into the program.
- (7) The degree to which the program complements existing programs and services for at-risk three-year-old and four-year-old children available in the area, including other child care services, services provided through the school district, and services available through area education agencies.
- (8) The degree to which the program can be monitored and evaluated to determine its ability to meet its goals.

6. Encourage the submission of grant requests from all potential providers of child development services and shall be flexible in evaluating grants, recognizing that different types of programs may be suitable for different locations in the state.

a. Requests for grants must contain a procedure for evaluating the effectiveness of the program and accounting procedures for monitoring the expenditure of grant moneys.
