This chapter

neither creates nor derogates any privileges that exist at common law or otherwise when documentary or other evidence is sought under a subpoena directed to the commissioner or any administrative staff.

3. The commissioner shall submit an annual report to the general assembly's standing committees on government oversight by October 1 of each year reporting on the administration of this chapter. At the request of the attorney general, the county attorney shall appear and prosecute the action when brought in the county attorney's county.

3. A person who violates a provision of this chapter or rules adopted or orders issued under this chapter may be subject to civil penalties in addition to criminal penalties. The commissioner may impose, assess, and collect a civil penalty not exceeding ten thousand dollars for each violation. If opening and closing services are not included in the sale and the cemetery offers opening and closing services, the cemetery must disclose that the price for this service is subject to change and disclose the current prices for opening and closing services provided by the cemetery.

2. The cemetery shall fully disclose all fees required for interment, entombment, or inurnment of human remains.

3. A person owning interment rights may sell those rights to third parties. The cemetery shall fully disclose, in the cemetery's rules, any requirements necessary to transfer title of interment rights to a third party.

523I.302 Installation of outer burial containers.

A cemetery shall not deny access to a licensed funeral director who is conducting funeral services or supervising the interment or disinterment of human remains.

2005 Acts, ch 128, §25

523I.304 Rulemaking and enforcement.

1. A cemetery may adopt, amend, and enforce rules for the use, care, control, management, restriction, and protection of the cemetery, as necessary for the proper conduct of the business of the cemetery, including but not limited to the use, care, and transfer of any interment space or right of interment.

2. A cemetery may restrict and limit the use of all property within the cemetery by rules that do, but are not limited to doing, all of the following:

a. Prohibit the placement of memorials or memorialization, buildings, or other types of structures within any portion of the cemetery.

b. Regulate the uniformity, class, and kind of memorials and memorialization and structures within the cemetery.

c. Regulate the scattering or placement of cremated remains within the cemetery.

d. Prohibit or regulate the placement of nonhuman remains within the cemetery.

e. Prohibit or regulate the introduction or care of trees, shrubs, and other types of plants within the cemetery.

f. Regulate the right of third parties to open, prepare for interment, and close interment spaces.

g. Prohibit interment in any part of the cemetery not designated as an interment space.

h. Prevent the use of space for any purpose inconsistent with the use of the property as a cemetery.

3. A cemetery shall not adopt or enforce a rule that prohibits interment because of the race, color, or national origin of a decedent. A provision of a contract or a certificate of

ownership or other instrument conveying interment rights that prohibits interment in a cemetery because of the race, color, or national origin of a decedent is void.

4. A cemetery's rules shall be plainly printed or typewritten and maintained for inspection in the office of the cemetery or, if the cemetery does not have an office, in another suitable place within the cemetery. The cemetery's rules shall be provided to owners of interment spaces upon request.

5. A cemetery's rules shall specify the cemetery's obligations in the event that interment spaces, memorials, or memorialization are damaged or defaced by acts of vandalism. The rules may specify a multiyear restoration of an interment space, or a memorial or memorialization when the damage is extensive or when money available from the cemetery's trust fund is inadequate to complete repairs immediately. The owner of an interment space, or a memorial or memorialization that has been damaged or defaced shall be notified by the cemetery by restricted certified mail at the owner's last known address within sixty days of the discovery of the damage or defacement. The rules shall specify whether the owner is liable, in whole or in part, for the cost to repair or replace an interment space or a damaged or defaced memorial or memorialization.

6. The cemetery shall not approve any rule which unreasonably restricts competition, or which unreasonably increases the cost to the owner of interment rights in exercising these rights.

7. A cemetery owned and controlled by a governmental subdivision shall adopt and enforce a rule allowing any veteran who is a landowner or who lives within the governmental subdivision to purchase an interment space and to be interred within the cemetery. The rule shall also allow any veteran who purchases an interment space within the cemetery to purchase an interment space for interment of the spouse of the veteran if such a space is available and shall allow the surviving spouse of a veteran interred within the cemetery to purchase an interment space and be interred within the cemetery if such a space is available. For the purposes of this section, "veteran" means the same as defined in section 35.1.

523I.305 Memorials and memorialization.

1. *Authorization.* A cemetery is entitled to determine whether a person requesting installation of a memorial is authorized to do so, to the extent that this can be determined from the records of the cemetery, as is consistent with the cemetery's rules. The owner of an interment space or the owner's agent may authorize a memorial dealer or independent third party to perform all necessary work related to preparation and installation of a memorial.

2. *Conformity with cemetery rules.* A person selling a memorial shall review the rules of the cemetery where the memorial is to be installed to ensure that the memorial will comply with those rules prior to ordering or manufacturing the memorial.

3. *Specifications.* Upon request, a cemetery shall provide reasonable written specifications and instructions governing installation of memorials, which shall apply to all installations whether performed by the cemetery or another person. The written specifications shall include provisions governing hours of installation or any other relevant administrative requirements of the cemetery. A copy of these specifications and instructions shall be provided upon request, without charge, to the owner of the interment space, next of kin, or a personal representative or agent of the owner, including the person installing the memorial. The person installing the memorial shall comply with the cemetery's written installation specifications and instructions. In order to verify that a memorial is installed on the proper interment space in accordance with cemetery rules and regulations, the cemetery shall mark the place on the interment space where the memorial is to be installed and shall inspect the installation when completed. This subsection shall not be construed to require that a cemetery lay out or engineer an interment space for the installation of a memorial. A cemetery shall not adopt or enforce any rule prohibiting the installation of a memorial by a memorial dealer or independent third party, unless the rule is applicable to all memorials from whatever source obtained and enforced uniformly for all memorials installed in the cemetery.

4. *Written notice.* A memorial dealer or independent third party shall provide the cemetery with at least seven business days' prior written notice of intent to install a memorial at the cemetery, or such lesser notice as the cemetery deems acceptable. The notice shall contain the full name, address, and relationship of the memorial's purchaser to the person interred in the interment space or the owner of the interment space, if different. The notice shall also contain the color, type, and size of the memorial, the material, the inscription, and the full name and interment date of the person interred in the interment space.

5. *Preparation and installation.*

a. A person installing a memorial shall be responsible to the cemetery for any damage caused to the cemetery grounds, including roadways, other than normal use during installation of the memorial.

b. Installation work shall cease during any nearby funeral procession or committal service.

c. Installation work shall be done during the cemetery's normal weekday hours or at such other times as may be arranged with the cemetery.

d. A memorial must comply with the cemetery's rules. In the event of noncompliance, the person installing a memorial is responsible for removal of the memorial and shall pay any reasonable expenses incurred by the cemetery in connection with the memorial's removal.

e. The cemetery shall, without charge, provide information as described on the cemetery's map or plat necessary to locate the place where a memorial is to be installed and any other essential information the person installing the memorial needs to locate the proper interment space.

f. A person installing a memorial shall follow the cemetery's instructions regarding the positioning of the memorial.

g. During the excavation, all sod and dirt shall be carefully removed with no sod or dirt left on the interment space except the amount needed to fill the space between the memorial and the adjacent lawn.

h. A person installing a memorial shall carefully fill in any areas around the memorial with topsoil or sand, in accordance with the cemetery's written instructions.

i. A person installing a memorial shall remove all equipment and any debris which has accumulated during installation of the memorial.

j. A person installing a memorial shall check to see if any adjacent memorials have become soiled or dirty during installation of the memorial and, if so, clean the adjacent memorials.

k. If the person who is installing a memorial damages any cemetery property, the person shall notify the cemetery immediately. The person installing the memorial shall then repair the damage as soon as possible, upon approval by the cemetery. The cemetery may require a person installing a memorial to provide current proof of workers' compensation insurance as required by state law and current proof of liability insurance, sufficient to indemnify the cemetery against claims resulting from installation of the memorial. Proof of liability insurance in an amount of one million dollars or more shall preclude the cemetery from requiring a person installing a memorial to obtain a performance bond.

l. If a cemetery has an office, a person installing a memorial shall immediately leave notice at the cemetery office when the memorial has been installed and all work related to the installation is complete.

6. *Inspection.* A cemetery may inspect the installation site of a memorial at any time. If the cemetery determines that cemetery rules are not being followed during the installation, the cemetery may order the installation to stop until the infraction is corrected. The cemetery shall provide written notice to the installer as soon as possible if the cemetery believes that any of the following have occurred:

a. The memorial has not been installed correctly.

b. The person installing the memorial has damaged property at the cemetery.

c. Other cemetery requirements for installation have not been met, such as removal of debris or equipment.

7. *Location and service charge.* A cemetery may charge a reasonable service charge for allowing the installation of a memorial purchased or obtained from and installed by a person other than the cemetery or its agents. This service charge shall be based on the cemetery's

actual labor costs, including fringe benefits, of those employees whose normal duty is to inspect the installation of memorials, in accordance with generally accepted accounting practices. General administrative and overhead costs and any other functions not related to actual inspection time shall be excluded from the service charge.

8. *Faulty installation.* If a memorial sinks, tilts, or becomes misaligned within twelve months of its installation and the cemetery believes the cause is faulty installation, the cemetery shall notify the person who installed the memorial in writing and the person who installed the memorial shall be responsible to correct the damage, unless the damage is caused by inadequate written specifications and instructions from the cemetery or acts of the cemetery and its agents or employees, including but not limited to running a backhoe over the memorial, carrying a vault or other heavy equipment over the memorial, or opening or closing an interment space adjacent to the memorial.

9. *Perpetual care.* A cemetery may require contributions from the purchaser of a memorial for perpetual care, if a perpetual care fund deposit is uniformly charged on every memorial installed in the cemetery.

An organization subject to the provisions of this chapter or any director, officer, agent, employee, or trustee thereof, shall not be liable for damages or other relief, or be subjected to any action in any court of competent jurisdiction for refusing to commit any act unlawful under this chapter.

2005 Acts, ch 128, §29

523I.308 Speculation prohibited.

A cemetery or any person representing a cemetery in a sales capacity shall not advertise or represent, in connection with the sale or attempted sale of any interment space, that the same is or will be a desirable speculative investment for resale purposes.

or statement, other than a death certificate, that warrants the identity of the decedent is liable for all damages that result, directly or indirectly, from that representation.

3. In the event of a dispute concerning the right to control the interment, relocation, or disinterment of a decedent's remains, the dispute may be resolved by a court of competent jurisdiction. A cemetery or entity maintaining a columbarium shall not be liable for refusing to accept the decedent's remains, relocate or disinter, inter or otherwise dispose of the decedent's remains, until the cemetery or entity maintaining a columbarium receives a court order or other suitable confirmation that the dispute has been resolved or settled.

4. *a.* If good cause exists to relocate or disinter remains interred in a cemetery, the remains may be removed from the cemetery pursuant to a disinterment permit as required under section 144.34, with the written consent of the cemetery, the current interment rights owner, and the person entitled to control the interment, relocation, or disinterment of the decedent's remains under section 144C.5.

b. If the consent required pursuant to paragraph "a" is not refused but cannot otherwise be obtained, the remains may be relocated or disinterred by permission of the district court of the county in which the cemetery is located upon a finding by the court that clear and convincing evidence of good cause exists to relocate or disinter the remains. Before the date of application to the court for permission to relocate or disinter remains under this subsection, notice must be given to the cemetery in which the remains are interred, each person whose consent is required for relocation or disinterment of the remains under paragraph "a", and any other person that the court requires to be served.

The cemetery shall provide written notice describing the error to the commissioner and to the person who has the right to control the interment, relocation, or disinterment of the remains erroneously interred, by restricted certified mail at the person's last known address and sixty days prior to the disinterment. The notice shall include the location where the disinterment will occur and the location of the new interment space. A cemetery is not civilly or criminally liable for an erroneously made interment that is corrected in compliance with this subsection unless the error was the result of gross negligence or intentional misconduct.

7. Relocations and disinterments of human remains shall be done in compliance with sections 144.32 and 144.34. Relocations of human remains held in a columbarium shall be in compliance with the laws regulating the entity maintaining the columbarium.

If the owner of record or the owner of record's heirs do not respond within three years from the date that notice is served, the abandonment is considered to be complete. 3. *Duty to preserve and protect.*

a. A governmental subdivision having a cemetery, or a burial site that is not located within a dedicated cemetery, within its jurisdiction, for which preservation is not otherwise provided, shall preserve and protect the cemetery or burial site as necessary to restore or maintain its physical integrity as a cemetery or burial site. The governmental subdivision may enter into a written agreement to delegate the responsibility for the preservation and protection of the cemetery or burial site to the owner of the property on which the cemetery or burial site is located or to a public or private organization interested in historical preservation. The governmental subdivision shall not enter into an agreement with a public or private organization to preserve and protect the cemetery or burial site unless the property owner has been offered the opportunity to enter into such an agreement and has declined to do so.

b. A governmental subdivision is authorized to expend public funds, in any manner authorized by law, in connection with such a cemetery or burial site.

The notice shall include the location of the cemetery or burial site and a copy of the proposed agreement, and explain that the property owner is required to permit members of the public or private organization reasonable ingress and egress for the purposes of preserving and protecting the cemetery or burial site pursuant to the proposed agreement. The notice shall also include the date, time, and place of the meeting and a statement that the property owner has a right to attend the meeting and to comment regarding the proposed agreement.

d. (1) Subject to chapter 670, a governmental subdivision that enters into an agreement with a public or private organization pursuant to this subsection is liable for any personal injury or property damage that occurs in connection with the preservation or protection of the cemetery or burial site or access to the cemetery or burial site by the governmental subdivision or the public or private organization.

(2) For the purposes of this paragraph, "*liable*" means liability for every civil wrong which results in wrongful death or injury to a person or injury to property or injury to personal or property rights and includes but is not restricted to actions based upon negligence; error or omission; nuisance; breach of duty, whether statutory or other duty; or denial or impairment of any right under any constitutional provision, statute, or rule of law.

e. A property owner who is required to permit members of a public or private organization reasonable ingress and egress for the purpose of preserving or protecting a cemetery or burial site on that owner's property and who acts in good faith and in a reasonable manner pursuant to this subsection is not liable for any personal injury or property damage that occurs in connection with the preservation or protection of the cemetery or burial site or access to the cemetery or burial site.

f. For the purposes of this subsection, reasonable ingress and egress to a cemetery or burial site shall include the following:

(1) A member of a public or private organization that has entered into a written agreement with the governmental subdivision who desires to visit such a cemetery or burial site shall give the property owner at least ten days' written notice of the intended visit.

(2) If the property owner cannot provide reasonable access to the cemetery or burial site on the desired date, the property owner shall provide reasonable alternative dates when the property owner can provide access to the member.

(3) A property owner is not required to make any improvements to that person's property to satisfy the requirement to provide reasonable access to a cemetery or burial site pursuant to this subsection.

4. *Confiscation and return of memorials.* A law enforcement officer having reason to believe that a memorial or memorialization is in the possession of a person without authorization or right to possess the memorial or memorialization may take possession of the memorial or memorialization from that person and turn it over to the officer's law enforcement agency. If a law enforcement agency determines that a memorial or memorialization the agency has taken possession of rightfully belongs on an interment space, the agency shall return the memorial or memorialization to the interment space, or make arrangements with the person having jurisdiction over the interment space for its return.

5. *Burial sites located on private property.* If a person notifies a governmental subdivision that a burial site of the person's relative is located on property owned by another person within the jurisdiction of the governmental subdivision, the governmental subdivision shall notify the property owner of the location of the burial site and that the property owner is required to permit the person reasonable ingress and egress for the purposes of visiting the burial site of the person's relative.

6. *Discovery of human remains.* Any person discovering human remains shall notify the county or state medical examiner or a city, county, or state law enforcement agency as soon as is reasonably possible unless the person knows or has good reason to believe that such notice has already been given or the discovery occurs in a cemetery.
