

708A.3 Value for purposes of material support and resources.

The value of property or services is its highest value by any reasonable standard at the time the material support or resources is given. Any reasonable standard includes but is not limited to market value within the community, actual value, or replacement value.

If credit, property, or services are obtained by two or more acts from the same person or location, or from different persons by two or more acts which occur in approximately the same location or time period so that the material support or resources are attributable to a single scheme, plan, or conspiracy, the acts may be considered as a single act of support or resources and the value may be the total value of all credit, property, and services involved.
