

8G.10 Intent — findings.

The general assembly finds that increasing the ease of public access to state and local tax rates, particularly where the rates are currently available from disparate government sources and are difficult for the public to collect and efficiently aggregate, significantly contributes to governmental accountability, public participation, and the understanding of the cost of government services. Therefore, it is the intent of the general assembly to direct the department of management, in consultation with the department of revenue, to create and maintain a searchable database and internet site of each tax rate for all taxing jurisdictions in the state to make citizen access to state and local tax rates as open, transparent, and publicly accessible as is feasible.
