## 459.202 Confinement feeding operations structures — separation distances.

The following shall apply to confinement feeding operation structures:

- 1. *a.* Except as provided in subsection 3 and sections 459.203, 459.205, and 459.206, this subsection applies to confinement feeding operation structures constructed on or after May 31, 1995, but prior to January 1, 1999; and to the expansion of structures constructed prior to January 1, 1999.
- b. The following table represents the minimum separation distance in feet required between a confinement feeding operation structure and a residence not owned by the owner of the confinement feeding operation, or a commercial enterprise, bona fide religious institution, or an educational institution:

Type of structure	Minimum separation distance in feet for operations having an animal weight capacity of less than 625,000 pounds for animals other than cattle, or less than 1,600,000 pounds for cattle	Minimum separation distance in feet for operations having an animal weight capacity of 625,000 or more pounds but less than 1,250,000 pounds for animals other than cattle, or 1,600,000 or more pounds but less than 4,000,000 pounds for cattle	Minimum separation distance in feet for operations having an animal weight capacity of 1,250,000 or more pounds for animals other than cattle, or 4,000,000 or more pounds for cattle
Anaerobic lagoon Uncovered earthen	1,250	1,875	2,500
manure storage b		1,875	2,500
Uncovered formed manure storage			
structure	1,000	1,500	2,000
Covered earthen			
manure storage b	asin 750	1,000	1,500
Covered formed			
manure storage	==0	1.000	1.500
structure	750	1,000	1,500
Confinement buildi	ng 750	1,000	1,500
Egg washwater		4.000	
storage structure	750	1,000	1,500

- 2. a. Except as provided in subsection 3 and sections 459.203, 459.205, and 459.206, this subsection applies to confinement feeding operation structures constructed on or after January 1, 1999, but prior to March 1, 2003, and to the expansion of structures constructed on or after January 1, 1999, but prior to March 1, 2003.
- b. The following table represents the minimum separation distance in feet required between a confinement feeding operation structure and a residence not owned by the owner of the confinement feeding operation, or a commercial enterprise, bona fide religious institution, or an educational institution:

Type of structure	distance operation an animal capacity 625,000 panimals cattle, or	n separation in feet for ns having al weight of less than pounds for other than less than 0 pounds for	Minimum separation distance in feet for operations having an animal weight capacity of 625,000 or more pounds but less than 1,250,000 pounds for animals other than cattle, or 1,600,000 or more pounds but less than 4,000,000 pounds for cattle	Minimum separation distance in feet for operations having an animal weight capacity of 1,250,000 or more pounds for animals other than cattle, or 4,000,000 or more pounds for cattle
Anaerobic lagoon		1,250	1,875	2,500
Uncovered earthen manure storage b	asin	1,250	1,875	2,500
Uncovered formed manure storage structure Covered earthen		1,250	1,500	2,000
manure storage basin Covered formed		1,000	1,250	1,875
manure storage structure Confinement building	ng	1,000 1,000	1,250 1,250	1,875 1,875
Egg washwater stor structure	rage	750	1,000	1,500

- 3. a. Except as provided in sections 459.203, 459.205, and 459.206, this subsection applies to confinement feeding operation structures constructed on or after May 31, 1995, but prior to March 1, 2003; to the expansion of structures constructed on or after May 31, 1995, but prior to March 1, 2003; and to the expansion of structures constructed prior to May 31, 1995.
- b. The following table represents the minimum separation distance in feet required between a confinement feeding operation structure and a public use area; or between a confinement feeding operation structure and a residence not owned by the owner of the confinement feeding operation, a commercial enterprise, a bona fide religious institution, or an educational institution, if the residence, commercial enterprise, religious institution, or educational institution is located within the corporate limits of a city:

	Minimum separation distance in feet for operations having an animal weight capacity of less than 625,000 pounds for animals other than cattle, or less than 1,600,000 pounds for	Minimum separation distance in feet for operations having an animal weight capacity of 625,000 or more pounds but less than 1,250,000 pounds for animals other than cattle, or 1,600,000 or more pounds but less than 4,000,000 pounds for	Minimum separation distance in feet for operations having an animal weight capacity of 1,250,000 or more pounds for animals other than cattle, or 4,000,000 or more pounds for
Type of structure	cattle	cattle	cattle

Confinement feeding

operation structure 1,250 1,875 2,500

4. a. Except as provided in subsection 5 and sections 459.203, 459.205, and 459.206, this subsection applies to confinement feeding operation structures constructed on or after March 1, 2003, and to the expansion of confinement feeding operation structures constructed on or after March 1, 2003.

b. The following table represents the minimum separation distance in feet required between a confinement feeding operation structure and a residence not owned by the owner of the confinement feeding operation, a commercial enterprise, a bona fide religious institution, or an educational institution:

Type of structure	For a confinement feeding operation having an animal unit capacity of less than 1,000 animal units	For a confinement feeding operation having an animal unit capacity of 1,000 or more but less than 3,000 animal units	For a confinement feeding operation having an animal unit capacity of 3,000 or more animal units
Anaerobic lagoon	1,875	2,500	3,000
Uncovered earthen manure storage basin Uncovered formed	1,875	2,500	3,000
manure storage structure	1,500	2,000	2,500
Covered earthen manure storage basin Covered formed manure		1,875	2,375
storage structure Confinement building	1,250 1,250	1,875 1,875	2,375 2,375
Egg washwater storage structure	1,000	1,500	2,000

- 5. a. Except as provided in sections 459.203, 459.205, and 459.206, this subsection applies to confinement feeding operation structures constructed on or after March 1, 2003, and to the expansion of confinement feeding operation structures constructed on or after March 1, 2003.
- b. The following table represents the minimum separation distance in feet required between a confinement feeding operation structure and a public use area; or between a confinement feeding operation structure and a residence not owned by the owner of the confinement feeding operation, a commercial enterprise, a bona fide religious institution, or an educational institution, if the residence, commercial enterprise, religious institution, or educational institution is located within the corporate limits of a city:

having an ani unit capacity		unit capacity of
For a confiner feeding opera	tion having an animal	For a confinement feeding operation having an animal

6. Except as provided in section 459.205, a confinement feeding operation structure shall not be constructed or expanded within one hundred feet from a public thoroughfare.
