

**97B.49D Hybrid formula.**

1. An active or inactive vested member, who is or has been employed in both special service and regular service, who retires on or after July 1, 1996, who is vested by service, and who at the time of retirement is at least fifty-five years of age, may elect to receive, in lieu of the receipt of a monthly retirement allowance as calculated pursuant to [sections 97B.49A through 97B.49C](#), a combined monthly retirement allowance equal to the sum of the following:

a. One-twelfth of an amount equal to the applicable percentage of the member's final average covered wage multiplied by a fraction of years of service. The fraction of years of service for purposes of this paragraph shall be the actual years of service, not to exceed thirty, for which regular service contributions were made, divided by thirty. However, any otherwise applicable age reduction for early retirement shall apply to the calculation under this paragraph.

b. One-twelfth of an amount equal to the applicable percentage of the member's three-year average covered wage multiplied by a fraction of years of service. The fraction of years of service for purposes of this paragraph shall be the actual years of service, not to exceed the applicable years of service for the member as defined in [section 97B.49B](#), earned in a position described in [section 97B.49B](#), for which special service contributions were made, divided by the applicable years of service for the member as defined in [section 97B.49B](#). In calculating the fractions of years of service under the paragraph, a member shall not receive special service credit for years of service for which the member and the member's employer did not make the required special service contributions to the system.

c. One-twelfth of an amount equal to the applicable percentage of the member's three-year average covered wage multiplied by a fraction of years of service. The fraction of years of service for purposes of this paragraph shall be the actual years of service, not to exceed twenty-two, earned in a position described in [section 97B.49C](#), for which special service contributions were made, divided by twenty-two. In calculating the fractions of years of service under this paragraph, a member shall not receive special service credit for years of service for which the member and the member's employer did not make the required special service contributions to the system.

2. In calculating the combined monthly retirement allowance pursuant to [subsection 1](#), the sum of the fraction of years of service provided in [subsection 1](#), paragraphs "a", "b", and "c", shall not exceed one. If the sum of the fractions of years of service would exceed one, the system shall deduct years of service first from the calculation under [subsection 1](#), paragraph "a", and then from the calculation under [subsection 1](#), paragraph "b", if necessary, so that the sum of the fractions of years of service shall equal one.

3. In calculating the combined monthly retirement allowance pursuant to [subsection 1](#), the applicable percentage shall be sixty percent plus, if applicable, an additional one-fourth of one percentage point for each additional calendar quarter of membership service in service as described in [subsection 1](#), paragraph "a", "b", or "c", beyond thirty years of service, not to exceed a total of five additional percentage points. Any addition in the percentage multiplier shall be included in the calculations required under [this section](#).
