**12D.1 Purpose and definitions.**

1. The general assembly finds that the general welfare and well-being of the state are directly related to educational levels and skills of the citizens of the state, and that a vital and valid public purpose is served by the creation and implementation of programs which encourage and make possible the attainment of higher education by the greatest number of citizens of the state. The state has limited resources to provide additional programs for higher education funding and the continued operation and maintenance of the state's public institutions of higher education and the general welfare of the citizens of the state will be enhanced by establishing a program which allows citizens of the state to invest money in a public trust for future application to the payment of higher education costs. The creation of the means of encouragement for citizens to invest in such a program represents the carrying out of a vital and valid public purpose. In order to make available to the citizens of the state an opportunity to fund future higher education needs, it is necessary that a public trust be established in which moneys may be invested for future educational use.
