

135.105A Lead inspector, lead abater, and lead-safe renovator training and certification program established — civil penalty.

1. The department shall establish a program for the training and certification of lead inspectors, lead abaters, and lead-safe renovators. The department shall maintain a listing, available to the public and to city and county health departments, of lead inspector, lead abater, and lead-safe renovator training programs that have been approved by the department, and of lead inspectors, lead abaters, and lead-safe renovators who have successfully completed the training program and have been certified by the department. A person may be certified as a lead inspector, a lead abater, or a lead-safe renovator, or may be certified to provide two or more of such services. However, a person who holds more than one such certification shall not provide inspection service and also provide abatement service or renovation service at the same site unless a written consent or waiver, following full disclosure by the person, is obtained from the owner or manager of the site.

2. A person who owns real property which includes a residential dwelling and who performs lead inspection, lead abatement, or renovation of the residential dwelling is not required to obtain certification to perform these measures, unless the residential dwelling is occupied by a person other than the owner or a member of the owner's immediate family while the measures are being performed. However, the department shall encourage property owners who are not required to be certified to complete the applicable training course to ensure the use of appropriate and safe lead inspection, lead abatement, or lead-safe renovation procedures.

3. Except as otherwise provided in [this section](#), a person shall not perform lead abatement or lead inspections, and shall not perform renovations on target housing or a child-occupied facility, unless the person has completed a training program approved by the department and has obtained certification pursuant to [this section](#). All lead abatement and lead inspections; and lead inspector, lead abater, and lead-safe renovation training programs; and renovations on target housing or a child-occupied facility, shall be performed and conducted in accordance with work practice standards established by the department. A person shall not conduct a training program for lead inspectors, lead abaters, or lead-safe renovators unless the program has been submitted to and approved by the department.

4. A person who violates [this section](#) is subject to a civil penalty not to exceed five thousand dollars for each offense.

5. The department shall adopt rules regarding minimum requirements for lead inspector, lead abater, and lead-safe renovator training programs, certification, work practice standards, and suspension and revocation requirements, and shall implement the training and certification programs. The department shall seek federal funding and shall establish fees in amounts sufficient to defray the cost of the programs. The fees shall be used for any of the department's duties under [this division](#), including but not limited to the costs of full-time equivalent positions for program services and investigations. Fees received shall be considered repayment receipts as defined in [section 8.2](#).
