

8B.26 Broadband permitting process — expeditious response.

Notwithstanding any other provision to the contrary and in compliance with applicable federal laws and regulations, a political subdivision vested with permitting authority shall approve, approve with modification, or disapprove nonwireless, broadband-related permits within sixty business days following the submission of the necessary application requirements. In the event that no action is taken during the sixty-day period, the application shall be deemed approved.

[2015 Acts, ch 120, §34](#)
