

261E.8 District-to-community college sharing or concurrent enrollment program.

1. A district-to-community college sharing or concurrent enrollment program is established to be administered by the department to promote rigorous academic or career and technical pursuits and to provide a wider variety of options to high school students to enroll part-time in eligible nonsectarian courses at or through community colleges established under [chapter 260C](#). The program shall be made available to all resident students in grades nine through twelve. Notice of the availability of the program shall be included in a school district's student registration handbook and the handbook shall identify which courses, if successfully completed, generate college credit under the program. A student and the student's parent or legal guardian shall also be made aware of this program as a part of the development of the student's career and academic plan in accordance with [section 279.61](#).

2. Students from accredited nonpublic schools and students receiving competent private instruction or independent private instruction under [chapter 299A](#) may access the program through the school district in which the accredited nonpublic school or private institution is located.

3. A student may make application to a community college and the school district to allow the student to enroll for college credit in a nonsectarian course offered by the community college. A comparable course, as defined in rules adopted by the board of directors of the school district, must not be offered by the school district or accredited nonpublic school which the student attends. The school board shall annually approve courses to be made available for high school credit using locally developed criteria that establishes which courses will provide the student with academic rigor and will prepare the student adequately for transition to a postsecondary institution. If a community college accepts a student for enrollment under [this section](#), the school district, in collaboration with the community college, shall send written notice to the student, the student's parent or legal guardian in the case of a minor child, and the student's school district. The notice shall list the course, the clock hours the student will be attending the course, and the number of hours of college credit that the student will receive from the community college upon successful completion of the course.

4. A school district shall grant high school credit to a student enrolled in a course under [this chapter](#) if the student successfully completes the course as determined by the community college and the course was previously approved by the school board pursuant to [subsection 3](#). The board of directors of the school district shall determine the number of high school credits that shall be granted to a student who successfully completes a course.

5. District-to-community college sharing agreements or concurrent enrollment programs that meet the requirements of [section 257.11](#), [subsection 3](#), are eligible for funding under that provision.

6. Community colleges shall comply with the data collection requirements of [section 260C.14](#), [subsection 21](#).

7. A student enrolled in a career and technical course made available pursuant to [subsection 1](#) is exempt from the proficiency requirements of [section 261E.3](#), [subsection 1](#), paragraph "e". However, a community college may require a student who applies for enrollment under a district-to-community college sharing or concurrent enrollment program to complete an initial assessment administered by the community college receiving the application to determine the applicant's readiness to enroll in career and technical coursework, and the community college may deny the enrollment.

8. The state board, in collaboration with the board of directors of each community college, shall adopt rules that clearly define data and information elements to be collected related to the senior year plus programming, including concurrent enrollment courses. The data elements shall include but not be limited to the following:

a. The course title and whether the course supplements, rather than supplants, a school district course.

b. An unduplicated enrollment count of eligible students participating in the program.

c. The actual costs and revenues generated for concurrent enrollment. An aligned unique student identifier system shall be established by the department for students in kindergarten through grade twelve and community college.

d. Degree, certifications, and other qualifications to meet the minimum hiring standards.

- e. Salary information including regular contracted salary and total salary.
- f. Credit hours and laboratory contact hours and other data on instructional time.
- g. Other information comparable to the data regarding teachers collected in the basic education data survey.
